WARNING

Every effort has been made to ensure that the information contained in this *Guide* is correct. However, it will be clearly understood that this book is intended as a guide only, that the information cannot be *Guaranteed* correct and that final responsibility must (as always) rest with the Shipmaster.

At certain ports, items of navigational routeings and aids have been included as a means of general guidance only. Shipmasters should have in mind that full and due reference MUST ALWAYS be made to corrected charts of the area, to the appropriate Notices to Mariners, and all or any other navigational notices, warnings or amendments issued by proper Authorities and/or navigational aid services.

The sketch maps are included for general interest and must not be used for navigational purposes.

The entire contents of the *Guide to Port Entry* as issued are the copyright of the publishers, namely Shipping Guides Limited.

Any person wishing to make use of this *Guide* must first seek prior permission in writing from Shipping Guides Ltd. Proceedings will be taken against any person reproducing or copying any part of the contents of the *Guide* without permission.

PLAN INDEX	(Tinted Section)	P489

LATE REPORTS: See Volume 2

LATE PLANS: See Volume 2

FOREWORD

Shipmasters, Shipowners or Managers, Port Authorities, Administrators and Agents, are earnestly requested to assist our work in up-dating the Guide *by providing written comment, information, amendments or corrections, plus additional details of any ports or terminals, to the following address:*

SHIPPING GUIDES (SERVICES) LIMITED,
17 HIGH STREET,
REIGATE,
SURREY,
ENGLAND

All communications will be acknowledged and will be most useful, since it is only by this means that the *Guide* will remain of great value to the user and will be up to date and thoroughly professional in content.

For assistance and guidance in the submission of information, a reprint of the items presently covered by the *Guide* is placed here under. Additional items will also be most welcome.

N.B. PLANS, DIAGRAMS, DRAWINGS AND SKETCHES: As you will note, this 1977/78 edition of "Guide to Port Entry" contains over one thousand port plans and diagrams that have been reproduced from plans and drawings very kindly sent to us by numerous Port Authorities, Agents and shipboard personnel. We hope that the special plan sections in these volumes will prove interesting and useful.

Presently however, the special plan sections are to an extent incomplete, since there are many ports and mooring facilities for which we have not yet received the necessary plans for reproduction purposes. We are anxious to secure plans, diagrams, drawings or sketches of ports and facilities not presently shown in our special plan sections, and therefore request that Port Authorities and/or Agents at the places concerned be kind enough to pass us this data together with the necessary permission for reproduction. We would also be very grateful if ship's officers calling at ports not already covered in our special plan sections, could find it possible to provide us with diagrams or sketches of the facilities which would be suitable for reproduction in our later editions and/or which might be re-drawn as required by our own art department prior to reproduction.

PORT INFORMATION KINDLY REQUESTED

PORT LIMITS: The seaward boundaries of the port within which a vessel is considered to be an "arrived ship" and (subject to Charter-Party Terms) laytime will commence.

DOCUMENTS: The matter of documentation is one of the most important items to be included in the *Guide*, and we would like to be sure that ALL requirements are included in order that Masters will be in a position to prepare all necessary documentation before arrival and thus ensure speedy clearance. (E.g. Number of Crew Lists, Passenger Lists, Customs, Documents, Health Documents, Manifests, Bills of Lading, Ship's Papers, Ship's Certificates, etc., etc.)

PILOTAGE: Manner in which vessel approaching the port applies for a Pilot. That is, telegraphic address of Pilot Station, amount of advance notice of ETA required, and VHF channel or frequency to be used when contacting Pilot Boat or Pilot Station. If possible, a description of Pilot Boat; particular light or sound signals to be made by vessels requiring a Pilot; the *exact* area where the Pilot Boat is located or where the Pilot has to be taken on board and also any alternative area in the event of bad weather and Pilot Boat not in usual station; details of any specific requirements on the part of Pilots with respect to boarding and safety measures; location of anchorage for vessel awaiting a Pilot.

ANCHORAGES: Boundaries, areas and depths of safe anchorages.

RESTRICTIONS: Details of any restrictions imposed upon entry, for example at night time, or in accordance with state of tide and draft restriction.

MAX. SIZE: Maximum permissible length, breadth, and draft for any vessel entering the port or for oil-carriers proceeding to installations outside the main port area, also state of tide governing these dimensions.

HEALTH: Pratique procedure and action necessary to obtain pratique. Also action necessary in the event of any suspected disease or fever on board. Also when pratique is automatic, for example vessels entering after calling at another port in the same country.

RADIO: Name and call sign of radio station through which it is best for a vessel to route ETA cables to Agent, Receivers, etc.

VHF: Fullest possible data concerning VHF Radio communication facilities in operation at the port including advices required from vessels approaching the port, arriving at the port, when manoeuvring within the port area, and when sailing. Details of standard communication procedures and numbers of Channels used in calling, further communication and safety, as may be applicable with respect to Pilotage, Tugs, Port Authority, Quarantine or other craft or shore-stations.

RADAR: Details of existing Port Radar Service, also if the Master may contact the Radar Service by means of ship's radio or by VHF, and the Channel number or frequency to be used.

TUGS: Position where tugs normally join the vessel. Also whether usual for ship's lines or tug's lines to be used, and if optional, the usual charge for use of tug's lines.

BERTHING: Details of available berths, including length of quay, maximum permissible ship-draft at Low Water (indicating whether Salt or Fresh Water), whether load/discharge is by shore equipment or by ship's own gear, and other relevant data, together with advice of cargoes handled at respective berths.

CRANES: Fullest possible information concerning type, working loads and numbers of shore-cranes available at respective berths for cargo handling. Details of heavy-lift cranes ashore or afloat, with lifting capacities. It is also helpful to know at which ports, or berths within a port, that cranes are *not* available and a vessel is required to use her own gear.

BULK CARGO FACILITIES: Details of berths and cargoes handled, length of quay, maximum permissible draft (indicating Salt or Fresh) at Low Water, berth equipment, maximum height of discharging-gear above High Water Level, and maximum Loading/Discharge rates. Cargoes intended to be covered by this heading are, Grain, Ores, Coal, Fertilisers, Sulphurs, Copra, etc.

SPECIALISED CARGO-HANDLING FACILITIES: Details of berths, specially equipped for handling containers, or roll-on/roll-off traffic; berths handling liquid chemicals or LPG carriers. Please note that it is also useful to know if the port does *not* have any of these facilities.

BRIDGES: Details of any particular arrival times required in order to pass through particular bridges, and maximum clearances, that is height of bridge to waterline.

STEVEDORES: Any particular ETA advices required in order to arrange gangs. Details of main commodities and average load or discharge rates.

MEDICAL: Whether necessary for Agents to receive advance notice of required medical attention and the amount of notice required; also if hospital facilities available; also any other relevant medical information such as particular inoculations required, vaccination/fever certificates, etc.

TANKERS: Diameter of load/discharge lines in order that Masters may know whether or not it is necessary to fit reducing pieces before arrival; slop (residue) discharge facilities, and S.G. and A.P.I. of local types of oil (loading ports only). Number of tanker berths and maximum permitted drafts at these berths. Average load/discharge rates.

DENSITY: (SALINITY): Average salinity of water in the port.

FRESH WATER: Availability, method of delivery, rate of delivery and approximate cost per ton.

FUEL: Grades (viscosities) available, amount of advance notice required, and method of delivery.

FIRE PRECAUTIONS: Any specific precautions particularly respecting tankers (that is, other than usual non-smoking precautions, etc.).

CONSULS: Names of countries having Consuls at the port.

REPAIRS: Whether all types of deck and engine repairs are possible, and if not then what types of repairs are able to be carried out.

DRY DOCKS: Dimensions of largest dry dock and also the number of smaller docks.

SURVEYORS: Advice of which Classification Societies are represented at the port, or at nearby ports, e.g. Lloyds, A.B.S., N.V., etc.

GANGWAY/DECK WATCHMEN: Whether service of watchmen necessary or to be recommended and if so, the cost of watchmen.

HATCHES: Whether opening/closing is normally carried out by crew or stevedores.

CUSTOMS ALLOWANCES: (Tobacco/Wine, Spirits). Quantity permitted for each crew member to be held out of Bond.

CARGO GEAR: Whether load/discharge effected by shore gear or by ship's gear, and details of any special cargo equipment, e.g. heavy lift cranes, etc.

REPATRIATION: If facilities exist for effecting crew changes and arranging any necessary repatriation.

AIRPORT: Distance from airport and whether airport is served by regular airlines; otherwise number of flights per day or week.

TIME: Local time in relation to GMT and dates/details of any alterations made to clocks during the year.

HOLIDAYS: Dates and details of official holidays and advice whether or not cargo work can be arranged on those days.

POLICE/AMBULANCE/FIRE: Telephone numbers of these three services, that is, the nearest departments.

TELEPHONES: Whether arrangements exist for placing telephones on board and if so the approximate cost for this connection.

SERVICES: Details of any special services available, e.g. tank-cleaning equipment, facilities for discharge of tank-washings, compass adjusting, etc., etc.

SHORE LEAVE: Whether crew members are allowed ashore or not.

IDENTIFICATION CARDS: Whether shore passes issued or whether seaman's book is sufficient.

REGULATIONS: Any particular or unusual regulations for the port.

DELAYS: What delays in berthing, load or discharge or bunkering can normally be expected.

DEVELOPMENTS: Details of expected draft increases, new installations, berths, etc., expected in the foreseeable future together with expected dates of completion.

SHIP'S OFFICERS REPORTS: Information is earnestly sought from Ship Masters and other serving officers giving corrections, amendments and additions to existing information, together with their professional advices or comment upon recommended or required procedures for entering or sailing port, including advice of their experience of the port either generally or specifically. Useful items of experience and suggestions of other Ship Masters are of great value, and will be printed under a special heading.

GENERAL: Any other information that you feel may be of value to the Ship Master that is not already covered by the previous questions.

AUTHORITY: Name, address, and other details of local Port Authority.

AGENT: At the foot of many of the ports in this *Guide* we have an additional heading entitled "Agent". The purpose of including this item has been to provide Shipowners, Managers, and Operators with prompt access to the name, address, telephone, telex numbers, and cable addresses, etc., of an experienced Agent at the port concerned.

Of course, it will be understood that the Agents named in the *Guide* are not necessarily the only Agent at that port; however, demands on available space preclude the inclusion of other reputable Agency companies and we trust that other such companies will understand and appreciate the position. We have been obliged therefore to include details of one Agency company only, but by doing so we hope to have provided a further service to the user of the *Guide*.

ROBERT W. PEDLOW, *Editor*,
Shipping Guides Ltd.

PUBLISHER'S NOTE

Our thanks are due to the very many Port Authorities, Agents, Shipmasters and others engaged in the shipping industry, for their very kind assistance and support in the production of this 1977/78 edition of "Guide to Port Entry". Our day-to-day work brings us into contact with such persons from all the maritime nations, and it is a very real pleasure for us to be so engaged.

For our part, we have always made and will continue to make every possible effort to ensure that the results of our work are worthy of the guidance and assistance shown to us, and we do hope that this new edition will provide some indication of our considerable respect for all those persons, organisations and companies who have made it possible.

The theme of our work has been that of continuous improvement from one edition of "Guide to Port Entry", to the next, and this includes not only the processes of detailed accuracy and enlargement of the range of shipping matters contained in these volumes, but also improving upon our own methods of print and production. To this end, and following considerable evaluation of the interesting problems concerned with production of printed data, we have taken quite a large step forward by computerising the print process.

Subscribers to earlier editions of the "Guide to Port Entry" will immediately note that we have changed the binding style from the previous hard-covers, to the new soft-covers. This change may have resulted in some loss of appearance, but we hope this will be adequately compensated by a degree of easier handling when turning to the appropriate page required in the text. Overall weight, particularly now that we have extended the range of data to the point of producing the work in two volumes, is also thereby reduced.

With a view to meeting the requirements of Shipmasters, Owners and Operators, it is important that we keep abreast of port developments, and changes in the patterns of cargo carriage. In this respect, we would continue to welcome professional opinion as to suggested improvements in the subject matter of these volumes. In addition, advice of amendments to the existing information, and additional information, with particular respect to developing patterns e.g. Container carriage and ports, Ro/Ro, Feeder-ships, L.P.G./L.N.G., etc., would be most appreciated.

Once again, we wish to express our sincere thanks to all those who have enabled us to produce these two volumes, and to all seafarers and others who may utilise these books we send our best wishes together with the hope that the "Guide to Port Entry" will prove to be of real assistance.

Reigate 1977.

COLIN PIELOW

Albania

DURRES: 41.19 N. 19.28 E.

DOCUMENTS: Completed on arrival.
RESTRICTIONS: Vessels arriving from ports in Yugoslavia, Italy and Greece must give notice of arrival 48 hours in advance. Vessels arriving from ports in other countries must give notice of arrival 5 days in advance. Notice of arrival is sent by radio to Adetare Durres with following information: Vessel's name and flag; name of last port; draft on arrival; cargo description and distribution; particulars of vessel's tonnage and length.
PILOTAGE: Compulsory. Arriving vessels should anchor and await pilot in position 41° 15′ 08″ N. 19° 26′ E. Pilot available in daylight hours only. Entrance is through buoyed channel, depth 33 ft.
MAX. SIZE: Controlled by berth depth. Maximum draft 28 ft. 6 in.
HEALTH: Free pratique given when Pilot boards provided vessel's health declaration is satisfactory.
RADIO: Vessels should maintain regular contact with Durres Radio up until time of entry into Albanian territorial waters, which extend 10 miles off shore.
TUGS: Port Authority supplies tugs for mooring and unmooring on Pilot's recommendations.
BERTHING: General cargo wharf No. 5 permitted draft 28 ft. 6 in. All other berths, permitted draft 21 ft. 6 in.
MEDICAL: Doctor and hospital facilities available.
TANKERS: One oil berth, at the East Mole, depth 23 ft. Tank cleaning facilities available.
FRESH WATER: Available ex wharf at all berths.
FUEL: Limited quantity available for emergency only.
OPENING/CLOSING HATCHES: Carried out by stevedores.
IDENTIFICATION CARDS: Shore passes issued by local police.
REPAIRS: State shipyard can effect limited hull and engine repairs.
AIRPORT: Rinas airport, distance 35 km.
TIME: GMT plus 1 hour.
HOLIDAYS: New Year (January 1st and 2nd); Proclamation of the Republic (January 11th); Labour Day (May 1st); October Revolution (November 7th); Independence Day (November 28th); Liberation Day (November 29th). No work performed on Sundays and holidays.
SHORE LEAVE: Crew may use seamen's club in port area.
AUTHORITY: Drejtorija e Portit Durres.
AGENT: Agensija Detare Durres, Cables "Adetare Durres," Tel. 233.

SARANDE: 39.52 N. 20.02 E.

DOCUMENTS-RESTRICTIONS: Refer to "Durres."
PILOTAGE: Compulsory. On arrival vessels should anchor and wait for Pilot in position 39° 51′ 50″ N, and 20° 10′ 10″ E. Pilot available only during daylight hours.
BERTHING: Larger vessels work cargo at anchor only. Ship's gear used.
HEALTH: Free pratique given when Pilot boards provided vessel's health declaration is satisfactory.
RADIO: Durres Radio.
FRESH WATER: Not available.
FUEL: Not available.
GENERAL: See "Durres" for General Information.
AUTHORITY, AGENT: See "Durres".

SHENGJIN: 41.49 N. 19.35 E.

DOCUMENTS, RESTRICTIONS: Refer to "Durres".
PILOTAGE: Compulsory. On arrival vessels should anchor and await Pilot in position 41° 48′ N, 19° 35′ E. Pilot available only during daylight hours.
MAX. SIZE: Draft 18 ft.
HEALTH: Free pratique given when Pilot boards provided vessel's health declaration is satisfactory.
RADIO: Durres Radio.
TUGS: One small tug available.
BERTHING: Two piers in harbour, one of which is used for larger vessels.
FRESH WATER: Limited supply by barge.
FUEL: Not available.
GENERAL: See "Durres" for general information.
AUTHORITY, AGENT: See "Durres".

NOTES

Please also advise Shipping Guides (Services) Ltd.

Algeria

ALGIERS: 36.50 N. 03.00 E. (See Plan)

DOCUMENTS:
1 Cargo Manifest required for all cargo including that in transit for non-Algerian ports.
8 Crew Lists.
2 Crew and Passenger Personal Effects Lists.
2 Stores Lists, including Bonded Stores.
1 Currency Manifest.
2 Lists of arms, ammunitions or Military Stores (or "Nil" Declaration).
1 Private Bond and Beer List.
1 Declaration of Health.
1 Vaccination List.

Immigration officials may require to inspect all discharge books or passports. Customs regulations are strictly interpreted. Care should be taken to ensure that all ships' papers are perfectly in order. Vessels arriving with incomplete or inaccurate documentation have been subjected to severe delays and penalties.
PILOTAGE: Compulsory. Available day or night. Pilot boards vessel about 0.5 mile from end of Wattier jetty. Pilot boat is black with insignia of 2 white anchors.
ANCHORAGE: Algiers Bay is crescent-shaped with Cape Caxine on the West and Cape Matifon on the East. Depth 25-30 m. Bottom is good holding ground, and vessels are sheltered from West and Northwest.
RESTRICTIONS: None if Port Authority is advised by Radio Algiers or by Agent.
MAX. SIZE: Vessels of 25,000 tons proceed normally. Length not restricted; maximum draft 38 ft.
HEALTH: Health Officer boards vessel on arrival.
RADIO: Algiers Radio, operates continuously.
TUGS: Three available of 600 to 800 h.p. and also one of 1,000 h.p. for towing in harbour; two larger available for open sea, 1,500-1,300 h.p.
BERTHING: 54 berths available, total distance of 9,519 m. plus 2 berths of 250 m. each for tankers. All general cargo berths have cranes with lift of 3-6 tons.
STEVEDORES: Available.
MEDICAL: All assistance available.
TANKERS: Quay de Lorient: 2 berths, with depth alongside 11.50 m. Deballasting facilities available.
DENSITY: Salt water.
FRESH WATER: Delivered by pipe-line to quay, or by water barges.
FUEL: Deliveries by pipe-line on most quays or by barge. Big ships are supplied by barge in the roads.
FIRE PRECAUTIONS: A special notice with instructions is delivered to tankers. Fire station established within port area.
GANGWAY/DECK WATCHMEN: Service by three experienced companies arranged by Agent.
OPENING/CLOSING HATCHES: Normally opened by crew, or by port workers.
IDENTIFICATION CARDS: Not required.
CONSULS: All principal countries are represented in Algeria.
REPAIRS: All repairs available. Two floating cranes, 1×120 tons, 1×50 tons.
DRY DOCKS: Two: one of 136 m. long, 18.50 m. width, and 8 m. deep. The second of 74.30 m. long, 15.50 m. width and 5 m. deep.
REPATRIATION: Frequent departures for Europe by boat or plane.
AIRPORT: Maison-Blanche at a distance of 20 km. from Algiers; several flights daily.
TIME: GMT.
HOLIDAYS: 1st January; 5th July; 1st November; plus religious holidays – Aid Seghir; Aid Kebir; New Year's Day (Egira); Achoura, and Mouloud. Friday is now considered as the weekly rest day in Algeria.
POLICE/AMBULANCE/FIRE: Police 63.01.61; Fire Brigade Service 63.71.22.
SHORE LEAVE: Allowed.
AUTHORITY: Capitainerie du Port.

ANNABA: 36.58 N. 07.47 E.

DOCUMENTS: Refer to Algiers.
PILOTAGE: Compulsory when entering, leaving or shifting in harbour, vessels arriving during night and wishing to enter the basin must anchor at 2 nautical miles to East of Southern Lighthouse at main entrance (red occulting light) on steady sand bottom of 65 to 100 ft. depth.
ANCHORAGE: Quite good anchorage well protected against West or North winds at about 3 nautical miles to North of harbour with depths of 40 to 60 ft. on rocky and sandy steady bottom.
MAX. SIZE: Length 656 ft. draft 33 ft., breadth no restriction.
RADIO: Cable Agents giving ETA or to Harbour Master by cable or radio telephone via Annaba Radio Station which is permanently watching on 2182 k/cs.
VHF: Harbour Master's Office can be contacted on Channels 16 and 14.
TUGS: Two tugs available each of 700 h.p. both fitted with radio telephone and two fire appliances.
BRIDGES: No bridges or power cables crossing port area.
BERTHING: Harbour is open to merchant navigation every day from 0500 to 2200. In case of necessity vessel will be handled at any time.
STEVEDORES: Available. Working hours (whole days), normal hours: 0700/1020–1400/1720. Shifts: 0630/1230-1300/1900-2000/0200. Working night and holidays, overtime 50%.
TANKERS: Two tanker berths in outer port, entrance 43 ft. The first is at Lyon's Jetty consists of two dolphins 180 ft. apart. Second at South Jetty consists of two dolphins 180 ft. apart. 8 in. and 10 in. pipe-lines supply the oil installation.
FRESH WATER: Plentiful supply of water alongside wharves at a rate of 8 to 14 t.p.h.
FUEL: Bunkering available. No coal.
GANGWAY/DECK WATCHMEN: Performed by ship's crew.
OPENING/CLOSING HATCHES: Performed by stevedores.
CARGO GEAR: Cranes: 18 electric or diesel shore cranes with lifting capacities from 3 to 6 tons; 1 electric shore sheers of 110 tons and 1 diesel-electric sheers hulk of 80 tons.
IDENTIFICATION CARDS: Required.
SHORE LEAVE: Allowed.
REPAIRS: One graving dock fitted with two rolling cradles on slipways, lifting capacity 100 and 200 tons. Divers and frogmen available.
GENERAL: Prevailing winds generally of N.W. and West. Storms from these directions are blocked by mountains which lie behind harbour. Harbour is only exposed to storms from East and N.E. which are very rare. There is practically no swell or surf into harbour. Tidal variation about 1 ft. and water level ranges about 31 in. dependent on season. Low waters from February to June and high waters from June to February.
AUTHORITY: Directeur du Port.

ARZEW: 35.50 N. 00.16 W.

DOCUMENTS: Refer to Algiers.
APPROACHES: There are numerous good navigational aids visible from seawards to vessels approaching Arzew Bay. The oil storage tanks are visible for a considerable distance seawards, and the methane gas flare in the Southwest corner of the bay is clearly visible at night. In addition to Isle de Arzew lighthouse, the mooring buoys are fitted with red winker lights, visible one mile, but too much reliance must not be placed on these last lights. The pillar buoys on the berths are fitted with blue winker lights. All these buoys form a good radar target and are clearly visible over 5 miles on the radar screen.
PILOTAGE: Pilotage is compulsory. A Pilot from the pilotage station of Oran/Arzew will board vessels and assist Master to berth.

Communications from tankers will be via the international radio station at St. Lys, which is in telex communication with the Arzew terminal. Contact with the Arzew terminal can be made on VHF Channel 16. Vessel will then be informed by the control room of the frequency to use, either Channel 12 or 14 for mooring purposes.

Masters are advised to provide for safe access of port personnel an accommodation ladder rigged to end 10 ft. above the water, and a pilot ladder alongside to provide access to the accommodation ladder.
ANCHORAGE: Vessels requiring to anchor on arrival normally use services of the Pilot. Anchorage fees are charged whether the Pilot is used or not. Sea bottom of rocks, sand and mud.
RESTRICTIONS: Vessels may enter or sail by day or night. Tankers berthing on the sea line berths may be restricted by bad weather, heavy wind or swell.
TUGS: Four tugs available, from 900 h.p. to 1,600 h.p. Two tugs normally required for berthing and unberthing. The tow line should be supplied by the vessel. Tugs join inward bound vessels at about 1.5 miles from harbour entrance.
MAX. SIZE: *Inside Harbour.* Dry cargo berth for vessels up to 7.50 m. draft. LPG and refined crude berth for vessels up to 8.0 m. draft. Methane Terminal, two berths for vessels up to 10 m. draft.

Sea Line Tanker Berth. For tankers up to 150,000 tons.
HEALTH: Free pratique is not granted by radio. For tankers berthing on the sea line, pratique may be granted by a visiting sanitary officer or by the Pilot when he boards, providing the health declaration is satisfactory. For vessels berthing inside the harbour, the Health Officer will board on arrival.

Vessels calling at Arzew must give their ETA 48 and 24 hours prior arrival, naming the ports called within the last 10 days.

Crew must be vaccinated against cholera and smallpox. Vaccination books must be valid and a check is made before free pratique is granted.
RADIO: Oran Radio and Algiers Radio both listen on international frequencies. Tankers normally use St. Lys Radio.
BERTHS: *(Inside Harbour)*: Berths No. 1 and 2 used for loading fertilisers, suitable for vessels up to 225 m. length with maximum draft 6.50 m. Berth No. 3 for discharging of general cargo, vessels up to 100 m. length, 7.50 m. draft. Berth Nos. 4 and 5 for loading salt in bulk and discharging general cargo, for vessels up to 220 m. length, 6 to 7 m. draft. Berth No. 7 used for unloading LPG and refined crude, for vessels up to 100 m. length, 8 m. draft.

Methane Terminal. Two loading berths for liquid methane, each 400 m. long for vessels up to 10 m. draft.

Sonatrach Terminal. Three sea line berths are located about one mile from Arzew Harbour breakwater, in approximate position 35° 50′ North, 00° 16′ West.

At sea line berths Nos. 1 and 2, minimum 23,000 d.w.t., maximum 85,000 d.w.t.; minimum length 540 ft.; loading rate 3,000 t.p.h. Depths up to 92 ft.

At sea line berth No. 3, maximum 150,000 d.w.t., minimum length 640 ft.; maximum length 948 ft.; draft up to 68 ft.; loading rate up to 5,500 t.p.h. Depth in the berth up to 92 ft. Tankers over 80,000 d.w.t. must be capable of loading and deballasting at the same time. Minimum depth of water in the berthing area is 73 ft.

BERTHING: Use of ship's anchors will not be permitted when manoeuvring into berth. Two tugs are available to assist in berthing. On arrival vessels should have ready eight mooring lines, four forward and four aft and a tow rope at each end as it will be necessary to position the vessel with her own gear before securing to the heavy wires. Good rope messengers should be ready at each end of the vessel to pick up these wires.

There are three mooring buoys at the bow and three at the stern. All buoys are fitted with 5 in. wire ropes. Ships of moderate tonnage may be moored using two bow buoys and two quarter buoys only. Hoses will be lifted from both sides of the vessel using ship's gear and crew.

The port and starboard derricks must be ready for use before berthing. The safe working-load must be at least 5 tons. The Loading Master can refuse to berth a tanker whose lifting tackle is not correctly rigged or in good working condition.

Three 12 in. hoses are connected for loading, 2 on one side and one on the other. Loading rates up to 5,500 t.p.h.

BALLAST: Pilots are empowered to refuse to berth a vessel if in their opinion the vessel has insufficient ballast, or her trim is such that it would prevent safe loading.

The Arzew deballasting plant is presently not available for discharging dirty ballast ashore.

Vessels required to arrive with clean ballast only, which may be discharged to sea, subject to Master's sole responsibility for oil pollution risks.

STEVEDORES: Vessels must cable their ETA at least 24 hours before arrival and confirm before 1700 hrs. on day prior to arrival or before 1000 hrs. if vessel will arrive in the afternoon of the same day. Gangs are ordered before 0700 hrs. for mornings and at 1030 hrs. for afternoons. Shifts are from 0730–1050 hrs. and 1530 to 1650 hrs. Extra shifts from 0730–1330 hrs. and from 1330 to 1930 hrs.

DENSITY: 1030.

MEDICAL: All treatment of ship's crew is arranged by private doctors through ship's Agent. No hospital facilities at Arzew. Seriously injured crew are taken to Oran, 45 kms. away, for hospitalisation. Vessels arriving with sick crew on board should notify Agents well in advance to make arrangements for hospitalisation on arrival. No patient is to be disembarked without notification to the Health Officer for his agreement.

FRESH WATER: Not available.

FUEL: Not available at Sonatrach Terminal. May be arranged for vessels inside harbour, subject to advance notice.

WATCHMEN: Shore watchmen are compulsory for vessels loading fertiliser or discharging LPG or refined crude in the harbour area. For tankers loading at the sea line berth, watchmen are at Master's discretion.

CUSTOMS ALLOWANCES: 200 cigarettes and an opened bottle of spirits per man.

IDENTITY CARDS: On arrival, the immigration control all passports or seamen's books. Shore passes are given at the harbour gate in exchange for passports, seaman's book, or in the case of French seamen, their identity cards.

AIRPORT: Nearest at Oran (Es Senia).

CONSULS: Nearest at Oran.

TIME: GMT is used all year round.

TELEPHONES: Available only at methane berths. At the sea line berths tankers may communicate using VHF Channel 16 to Arzew Terminal.

AUTHORITY: Capitainerie du Port.

BEJAIA (BOUGIE) 36.45 N. 05.05 E. (See Plan)

DOCUMENTS: Refer to Algiers.

PILOTAGE: Compulsory within pilotage zone between Cap Carbon to the West and Ras Attia to the East. Contact pilot station by VHF Channel 16 or Telex 93087. Tel. 92.05.02, or 92.05.03, and 92.03.39 at night. International code signals used to call Pilot who boards at the limit of pilotage zone. Pilot ladder should always be placed on port side.

ANCHORAGE: Suitable anchorage in all weathers will be indicated by the Pilot.

RESTRICTIONS: No night movements for tankers with LPG or refined petrol cargoes.

MAX. SIZE: Tankers: Length 260 m. Draft up to 13 m. Waiting zone for vessels in ballast; depth 10 m.

Commercial Port: Draft between 7 m. to 9 m.

HEALTH: Free pratique given by Brigade Maritime on arrival, unless suspected disease on board when Port Doctor will visit the ship. Pratique is automatic after calling at another Algerian Port.

RADIO: Alger Radio.

TUGS: Available under direction of Pilot by VHF contact. Ship's lines always used. 2 tugs required for berthing and unberthing.

Sonatrach Oil Terminal: 3 loading piers for crude oil.

Pier No. 1 for vessels up to 11.50 m. draft. Four 10 in. hoses.
Pier No. 2 for vessels up to 12.50 m. draft. Four 12 in. hoses.
Pier No. 3 for vessels up to 13.00 m. draft. Four 12 in. hoses.
Maximum pressure allowed 3 kgs.
Loading rates up to 4,000 t.ph.

BALLAST: All dirty ballast to be discharged ashore; 2 hoses available at each berth, can receive ballast up to 2,000 t.p.h.

Vessels berthed at Piers No. 2 and 3 cannot discharge ballast simultaneously.

Clean ballast may be discharged to sea, only if vessel is in gas-free condition.

Thick slop residues may only be accepted subject to terminal operator's approval, but only in quantities of less than 100 tons.

FRESH WATER: Available at berths No. 2 and 3 only, subject to 24 hours' notice. Loading rate about 15 t.p.h.

FUEL: Available at all Sonatrach berths, subject prior arrangements. No barges.

REPAIRS: Very limited facilities. No dry docks. No possibility for radio/radar repairs.

No repairs may be carried out on board a tanker without first obtaining the Harbour Master's permission.

FIRE PRECAUTIONS: Anchors must be hove-up while vessel is moored in berth. A fire wire must be provided fore and aft for tug's use if necessary.

Tanker's fire-fighting equipment must be ready for use on fore and main deck.

3 tugs are equipped with fire-fighting apparatus.

DENSITY: 1025.

WATCHMEN: Not compulsory but recommended. The Port Commandant may impose a guard on vessels carrying certain cargoes.

CUSTOMS ALLOWANCES: 3 packets cigarettes and 1 bottle of wine or alcohol per man per day.

CONSULS: France: tel. 92.12.13. Others at Algiers.

REPATRIATIONS: Can be arranged via Algiers.

AIRPORT: Dar-el-Beida International Airport at Algiers, 240 km. from Bejaia.

TIME: GMT all year round.

POLICE/FIRE/AMBULANCE: Police, tel. 92.04.22. Ambulance/Fire, tel. 92.00.02.

TELEPHONES: None on board, but telephone exists at each tanker berth.

SHORE LEAVE: Allowed, provided seamen carry identity cards or shore passes.

AUTHORITY: Capitainerie du Port de Bejaia.

MOSTAGANEM: 35.56 N. 00.04 E.

(SHIPMASTER'S REPORT)

DOCUMENTS:

7 Crew Lists.
1 Passenger List.
1 Helath Declaration.
1 Vaccination List.
2 Store Lists, including Bonded Stores.
2 Crew Personal Effects Lists.
2 Lists of Arms and Ammunitions.
1 List of Currencies.

If the vessel is coming from another Algerian port, clearance will also be required.

Certificates: Not requested.

Customs: Very strict customs at this port. Routine search will be made. Penalties extremely high if something not manifested is found.

PILOTAGE: Compulsory. There are two Pilots; 24 hour service. Pilot boat is black with a white stripe. Vessels arriving after sunset, if no cargo work at night, will be kept in the roads until 0600 hrs. next morning. Vessels sail at any time during the night.

ANCHORAGE: Recommended anchorage is having the light of the Jette du Large and the Light of the Mole Sud Ouest in line, and 0.5 miles off the first light.

MAX. SIZE: Not more than 200 m. length. Max. draft 25 to 27 ft., depending on the berth.

HEALTH: Free pratique is granted easily upon berthing and producing Health Declaration and Vaccination List. If any vaccinations certificates have expired, free pratique will be granted and health Authorities will arrange, on request, the vaccinations.

RADIO: Alger Radio, receiving on 2182 kc/s. and working on 1792 kc/s., on 24 hours basis. Also Oran Radio, listening on 2182 kc/s., and working on 1735 kc/s., on 24 hours service. Advisable to use the latter.

VHF: At the harbour Master's Office, working on Channel 16, officially 24 hour service, only French spoken. Also Oran Radio can be reached easily by VHF Channel 16, from Mostaganem, English spoken.

TUGS: Available at Arzew. Therefore too expensive to be used.

BERTHING: Eight berths available.

CRANES: Five cranes, (6–15 tons).

STEVEDORES: Arranged by the Agent. They belong to a National Stevedoring Company, who supplies them.

MEDICAL: All facilities available.

DENSITY: 1025.

FRESH WATER: Available, but not advisable to use as drinking water.

FUEL: No facilities. Vessels must proceed to Oran for bunkering.

GANGWAY/DECK WATCHMEN: Not compulsory, but strongly recommended by Port Authorities and Agent.

OPENING/CLOSING HATCHES: Can be performed by ship's crew or by stevedores.

CUSTOMS ALLOWANCES: 1 bottle of spirits and 1 carton of cigarettes are allowed for every Crew member. Anything in excess of this amount will be sealed.

IDENTIFICATION CARDS: On leaving the vessel, Crew members to carry their passports, which will be kept at the harbour gate, whilst ashore.

CONSULS: None.

REPATRIATION: It is possible and easily arranged by Agent.
REPAIRS: Only minor repairs can be carried out by workshop.
AIRPORT: At Oran, La Seine Airport, 80 km. distance, with 3 daily domestic flights to Algiers.
TIME: GMT all year round.
HOLIDAYS: See "Algiers".
SHORE LEAVE: No restrictions, except for some nationals.
AUTHORITY: Capitanerie du Port de Mostaganem.

ORAN: 35.43 N. 00.39 W.

DOCUMENTS: Refer to Algiers.
PILOTAGE! Compulsory. Arranged by Agents' basis vessels ETA. International Code signals used. Pilot boards at port entrance.
ANCHORAGE: In depths over 40 ft. available in the roads.
HEALTH: Free pratique given by Brigade Maritime on arrival, unless suspected disease on board when port doctor will visit the ship. Pratique is automatic after calling at another Algerian Port.
RADIO: Alger Radio.
MAX. SIZE: Length 800 ft. Draft 38 ft.
TUGS: Available to assist berthing and unberthing.
BERTHING: Mole 1: tankers, depth alongside 39 ft. Mole 2: tankers, depth alongside 33 ft. Cargo vessels: about twenty berths at quays with depths from 20 to 33 ft. alongside.
MEDICAL: Doctors and hospital facilities available.
FRESH WATER: Available by barge.
FUEL: All grades available by pipe-line at the oil berths.
REPAIRS: Only minor repairs can be effected.
WATCHMEN: Not compulsory but recommended. The Port Commandant may impose a guard on vessels carrying certain cargoes.
CUSTOMS ALLOWANCES: Three packets cigarettes and one bottle of wine or alcohol per man per day.
TIME: GMT all year round.
AIRPORT: La Senia, 7 km. away. Daily flights to Algiers for international connections.
AUTHORITY: Port Autonome d'Oran.

SKIKDA: 36.53 N. 6.54 E.

DOCUMENTS: Refer to Algiers.
PILOTAGE: Compulsory.
RESTRICTIONS: Mooring and unmooring permitted at night.
If vessel required to swing inside harbour, turning basin is 350 m. diameter provided draft not more than 11 m.
MAX. SIZE: Tankers up to 50,000 d.w.t. acceptable at No. 3 berth.
TUGS: Tug assistance available for berthing and unberthing.
TANKERS: Three berths,
No. 1 – for vessels up to 225 m. length, 11 m. draft.
No. 2 – for vessels up to 250 m. length, 12.50 m. draft.
No. 3 – for vessels up to 275 m. length, 27.5 m. draft.
Three shore lines, each with capacity of 500 cu.m. per hour. Three slop tanks available each with capacity of 500 cu.m. Dirty ballast discharge rate restricted to 2,000 cu.m. an hour.
FRESH WATER: Available by pipe-line at the berths.
FUEL: Not available.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Angola

CABINDA: 05.22 S. 12.11 E.

DOCUMENTS:

10 Manifests for each port where cargo loaded for Cabinda, plus 1 copy of each Bill of Lading.
8 Lists of Passengers disembarking or in transit, even if nil.
8 Crew Lists.
8 Lists giving previous Ports of Call.
2 Lists of Crew Vaccinations.
3 Stores Lists.
3 Personal Effects Lists.

Other forms applicable to customs, health, etc., can be completed on arrival.

PILOTAGE: Services of a Government Pilot are compulsory. Radio ETA to Agents via Luanda Radio (or by cable from previous port) and anchor on arrival as near Cabinda as draft permits. Vessel is visited by port authorities and, if necessary, will be shifted, with Pilot, to alternative anchorage. If cargo for account of Cabinda Gulf Oil, vessel will almost certainly be moved nearer Malongo, where oil companies have special jetty for discharge of their dry cargo ex-lighters.

Tankers: The Pilot Boarding Area for Cabinda is one mile Southwestward of Well 84-8 (located 5° 26′ 06.7″ S. 12° 03′ 13.4″ E.) where a Cabinda Gulf Mooring Master will board the vessel. On establishing contact by R/T or VHF, the Mooring Master will advise the vessel of a safe approach; briefly, this will be for the vessel to approach from Westerly direction and to keep West of all obstructions, e.g. drilling rigs, platforms, etc.

As offshore drilling and surveying operations are being effected on a continuous basis. Masters are warned to approach the port with great caution. Cabinda Gulf Oil Terminal (call sign "Malongo Terminal") will pass on to vessels upon arrival the latest information regarding oil-drilling rigs, platforms, etc., once contact by VHF has been established.

Special attention is called to the well platforms:

No. 84–1: Located 5° 25′ 19.9″ S. 12° 03′ 59.5″ E.
No. 84–12: Located 5° 29′ 10.2″ S. 12° 03′ 52.1″ E.
No. 84–8: Located 5° 26′ 06.7″ S. 12° 03′ 13.4″ E.
No. 95–3: Located 5° 33′ 45.4″ S. 11° 59′ 05.9″ E.

These platforms are equipped with both light and horn. The lights flash Morse Code "U" as follows:

Light: Group flash (3) 15 seconds.
Light: 0.4 seconds; Eclipse: 0.5 seconds.
Light: 0.4 seconds; Eclipse: 0.5 seconds.
Light: 1.2 seconds; Eclipse: 12.0 seconds.

ANCHORAGE: For vessels moving to Malongo, anchorage is restricted where Cabinda Gulf Oil are operating, roughly between 5° 15′ S. and 5° 30′ S. extending out to 12° 00′ E.

Tankers: Vessels required to anchor upon arrival (e.g. if the SPM Buoy is occupied) should anchor in the Pilot Boarding Area, at a distance of not less than 3.5 miles Westward of the SPM Buoy.

MAX. SIZE: Cargo vessels at anchorage for safe working off Cabinda 32 ft. draft. Vessels with deeper drafts can be accommodated further out but is always risk of swell hampering operations. For tankers Cabinda Gulf have buoyed terminal for tankers maximum 100,000 tons, max. draft 50 ft.

PRATIQUE: Upon arrival, the appropriate Government Officials will board the vessel for prompt clearance so the preparation can begin for mooring.

In the event of arrival during night, clearance will not be effected until 0800 hrs.; however, a Custom Police Agent will be stationed aboard the vessel, which will allow preparation for daylight mooring to proceed.

RADIO: Luanda Radio. HF Radio telephone system is installed at Malongo Terminal and uses the call "MALONGO". 24 hour watch is maintained on the international frequency of 2182 kHz.

For short range communications of approximately 50 miles, a VHF system is also installed in Malongo, which uses the same radio call ("MALONGO") and is also monitored 24 hours a day. Initial contact on this system should be made on 156.8 Mc/s. (Channel 16) then, by mutual agreement, the traffic should be passed on any of the following frequencies: 156.6 Mc/s. (Channel 12); 165.45 Mc/s. (Channel 9); 156.7 Mc/s. (Channel 14).

Masters are requested to advise CABGOC-CABINDA 72 and 24 hours in advance of estimated arrival time, giving vessel's name, date and expected hour of arrival, Master's name and any special requirements.

TUGS: None normally required. Cabinda Gulf have chartered a small tug to assist tankers berthing, if necessary.

STEVEDORES: 48 hours advance notice, giving hatch distribution and nature of cargo, is recommended.

MEDICAL: Arrangements can be made for doctor to visit vessel on arrival. Hospital facilities available. Serious cases are taken to Luanda. Crew must be in possession of valid Smallpox and Yellow Fever Certificates.

SINGLE BUOY MOORING: A single point buoy mooring is located 8.7 miles West-Southwest of the Cabinda Gulf Oil Company Terminal at Malongo. The position of the buoy mooring is approx. 5° 26′ S., and 12° 05′ E. The buoy is marked by a 5-mile white light flashing for 2 seconds and eclipsed for 18 seconds. Depth of water in the berth is 75 ft.

Mooring: Mooring and unmooring operations will be undertaken by day and night under normal weather conditions.

Notice of Readiness will be accepted by the Mooring Master on arrival providing that the ship is in all respects ready to load.

Before arrival at the Pilot Boarding Area it will be necessary to ensure that the following moorings are ready for use on arrival at the berth:

Minimum requirements on forecastle head: 4 mooring ropes; 1 heavy messenger (5 in.); 1 pick-up wire (0.75 in. diameter) with shackle on the eye.

When the vessel is within reasonable distance of the buoy, two ship's lines will be carried by the mooring launch to the buoy. These will be used to heave the vessel into position when she can pick up the two plaited buoy ropes. Once the buoy ropes are secured, the ship's own lines will be slacked down until such time as all the weight is taken by the buoy ropes; the ship's lines can then be left slacked right down but attached to the buoy ropes in case of emergency.

Power must be available at all times on all deck winches and windlass while the vessel is at the berth.

There are no special arrangements for unmooring, which can be undertaken by day or night.

Hose Handling: Two 12 in. hoses are connected to ship's manifold on the port side. Hose handling is to be effected by ship's crew under the direction of a ship's officer as instructed by the Mooring Master. The port boom should be rigged in readiness with a runner of minimum of 0.75 in. diameter. Approx. weight of one hose is 3 tons.

Ballast: No facilities for reception of dirty ballast. Vessels must arrive with clean ballast sufficient for safe manoeuvring. Deballasting operations will be constantly policed by representatives of CABGOC, and any evidence of pollution will be cause for refusal to permit continuing deballasting.

Cargo: "Cabinda Crude Oil" will have varying gravities ranging from 26.3 API to 34.6 API.

Some of this oil contains appreciable amounts of hydrogen sulphide, which can cause a toxic atmosphere during loading.

Loading: Cargo loading is by gravity, possibly assisted by booster pump, at a rate of approximately 30,000 Bbls. per hour.

About 30 minutes before the cargo is completed, the CABGOC Representative should be advised in order to co-ordinate the shutdown between the vessel and the terminal.

When the vessel has completed the cargo, loading line valves ashore and on the buoy will be closed; only then may the vessel's manifold valves be closed. (In an emergency, however, vessel may shutdown against loading.)

After completion of loading operations, the vessel will be ullaged and a comparison of ship-shore figures made. The ullages will be transmitted to the terminal by radio, and the report prepared and distributed.

The cargo papers will be delivered to the Master by the CABGOC Representative as promptly as possible.

Tankers may have to be "short despatched" to avoid delays on sailing.

There is no provision for off-take from ship. It is imperative that Ship's Master declare the tonnage he requires prior to loading. Accurate meters ashore will ensure requested tonnage.

DENSITY: 1025. Influence of Congo River current variable depending on season.

FRESH WATER: One lighter available for carrying about 40 tons water but no guarantee can be given. Cost of water is expensive.

FUEL: None available.

WATCHMEN: Not necessary. Harbour Police placed aboard by Authorities.

OPENING/CLOSING HATCHES: By crew or stevedores.

CERTIFICATES: Ship's Register, valid Deratisation Certificate and Safety Equipment Certificate.

CUSTOMS ALLOWANCES: Customs do not normally seal bond and *reasonable* amount tobacco may be taken ashore for crew members *own* consumption. No liquor restrictions on board but not allowed ashore under any circumstances.

IDENTITY CARDS: Supplied by Agent and stamped by Immigration Police before any person allowed ashore.

CONSULS: None.

REPAIRS: Facilities very limited.

REPATRIATION: Available if absolutely necessary but can only be arranged via Luanda.

AIRPORT: Small airport about 4 miles from city served by internal airline only. One flight from and to Luanda per day.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st January; 28th May; 10th June; 15th August; 5th October; 1st November; 1st December; 8th December; 25th December. Work not possible 1st January and 25th December, but possible other dates subject to approval Port Authority.

EMERGENCY TELEPHONES: Police 22456; Ambulance 22405; Fire, telephone Port Captain 22160/22159.

SERVICES: None available.

SHORE LEAVE: Travel from Cabinda District to Angola proper is both limited and strictly controlled and, therefore, visits ashore of vessel's personnel should be minimised.

Crew members left behind when the vessel leaves will be held in custody and deported at the vessel's expense. The vessel may also be subjected to a fine.

WEATHER: Wind and swell are mostly from S.W. direction with usually a heavy swell from March through to September. Heavy rains may be expected from December through to April. The prevailing currents set N.W. and at times exceed 3 knots. In view of these conditions, vessels are advised that under no circumstances are engine repairs or immobilisation of the main engines permitted within port limits.

DELAYS: For tankers usually no delay, but for cargo vessels may be

delays if two or more arrive simultaneously, which will result in lighter shortages. Is also probability of swell hampering discharge/loading.
AUTHORITY: Inspeccao da Exploracao dos Portos do Norte.

LOBITO: 12.20 S. 13.34 E.

DOCUMENTS: Required on arrival:
Health Certificate.
2 Vaccination Certificates (smallpox, cholera and yellow fever).
8 Crew Lists.
11 Passenger Lists (each for Landing and Transit).
4 Lists showing Ports of Call.
2 Lists of Articles held by Crew: cameras, binoculars, radio, spirits, cigarettes, etc.
3 Ship's Stores Lists.
6 Dangerous Cargo Lists.
8 Unfreighted Cargo Manifests.
1 Freighted Manifest.
3 Non-negotiable copies Bills of Lading.
3 Cargo Plans (preferably before ship's arrival).
Other necessary official forms prepared by Agent.
PILOTAGE: When Pilot required outside Harbour Entrance, vessel must request via Agent at least 12 hours before arrival. Otherwise Pilot boards inside Lobito Bay before vessel berths. Pilot boat: grey hull, white housing. Max. speed entering Bay – 8 knots.
ANCHORAGE: Lobito Bay excellent holding ground, depths over 33 ft. and easily accessible day and night the year round.
ENTRY RESTRICTIONS: No restrictions, vessels may enter harbour day and night. Vessels not normally visited by Port Authorities between approximately 1900 hrs. to 0700 hrs.
MAX. SIZE: Length 900 ft., draft 34 ft., max. depth 35–37 ft. (normal tidal range: 3 ft. 3 in., maximum: 6 ft.).
WEATHER: March/May rain season. Heavy wind and rain can effect cargo work.
HEALTH: Pratique never given by radio, but granted after Port Authorities (including Doctor) board vessel between 0700–1900 hrs. Pratique granted if no contagious illnesses aboard, otherwise quarantine restrictions imposed. Ships calling from other Angolan Ports – except coasters – subject same procedure.
RADIO: Because Lobito Radio (call sign CQZ) operating MW range 200/400 miles only, all ETA messages, etc., must be routed via Luanda Radio (call sign CQW). Agent uses same routeing.
TUGS: Tug (usually one only) joins vessel whilst berthing and sailing. Ships' lines used.
BERTHING: Unless Masters indicate preference, Port decides which side alongside. No vessels usually allowed berth after sunset. Sailing after dark allowed at Port Authorities' discretion, up to 2400 hrs. No vessel permitted berth without Pilot. Before berthing, vessel must effectively cover water outlets, prepare accommodation ladder and have anchors "at the ready". (Authority fine any vessel ejecting water or waste on to Quays.) Ships carrying explosives not permitted berth before Port Captain inspects cargo.
Passenger and Fruit vessels are given priority regarding berthing.
STEVEDORES: Important vessel gives accurate ETA at least 24 hours in advance to enable Agent order necessary gangs. (Gangs ordered 0700 and 1500 hrs.) No work usually allowed Sundays.
MEDICAL: Radio before arrival if medical assistance necessary on entry. Good hospital facilities available, but specialised treatment and surgery is not. Yellow Fever, Cholera and Smallpox Vaccinations Certificates inspected on arrival.
TANKERS: No oil to be pumped overboard into Territorial waters. Heavy fines imposed for oil pollution, however slight. Three 8 in. diameter pipe-lines discharging into local storage tanks. No slop tanks available. Two Tanker Berths, Nos. 5 and 8, maximum drafts 30 ft. and 35 ft. respectively.
DENSITY: 1024.
FRESH WATER: Normal requirements readily available and delivered by 3 in hose. Loading rate very slow as pressure usually low. Costs: First 50 cu.m., Esc. 20.00, then gradual reduction to Esc. 7.50 for 1,500 cu.m.
FUEL: Fuel Oil (Ordinary) available, viscosity up to 1500 sec. Redwood. 24 hours' notice bunker requirements essential. Gas oil available. No Diesel.
GANGWAY/DECK WATCHMEN: Compulsory, both day and night.
OPENING/CLOSING HATCHES: When closed or opened by Stevedores, cost per time, Esc. 100.00 per hatch. (Crew allowed to carry out this operation.)
SHIPS' CERTIFICATES: Registered Tonnage Certificate, Deratisation Certificate to be shown. (Vessels of Communist countries advised to carry all relevant Certificates for vessels' tonnages, measurements, gear and crew.)
CUSTOMS ALLOWANCES: No restrictions. Custom's Guard supervises opening and resealing of bond.
CARGO GEAR: Normal routine gear: wire and rope slings, nets, chain-slings, baskets, grabs, and shore-cranes (capacity 3–10 tons) available. Heavy lifts of over 10 tons must be discharged using ship's derricks. Two cranes 10 tons available, but not always accessible. 100 ton floating crane sometimes available.
CREW IDENTIFICATION CARDS: On arrival, all crews' and passengers' passports must be handed Immigration Police, who retain these and issue shore-passes. Passes must be carried at all times when on shore. If lost, a fine of Esc. 1150.00 per Pass is imposed.
CONSULS: At Lobito, Norwegian and Belgian Consulates and French Consular Agency. At Benguela – 30 km. from Lobito – Italian Vice-Consulate.
REPAIRS: Small, slipway accommodating vessels up to 800 tons available. Limited engine and hull repairs: electric, oxy-acetylene welding, riveting, cleaning, repairs to auxiliary diesel and electric equipment and boilers. Floating dock for vessels up to 2,000 tons displacement.
REPATRIATION: Air communication via Luanda.
AIRPORT: About 4 kilometres from Port. Airstrip unable take heavy aircraft.
TIME: GMT plus one hour.
HOLIDAYS: 1st January; March/April Easter; 10th June (National); May/June (Corpus Christi); 15th August (Ascension Day); 2nd September (City Day); 5th October; 1st November (All Saints Day); 1st December (Independence Day); 8th December; 24th December; 25th December.
GENERAL: Ships should not: Dispose any wastes into harbour or on to quays. Change mooring lines or lower lifeboats or immobilise main engine or use ship's sirens or radio station without prior permission from Authorities. Vessels must: use watchmen 24 hours per day on adequately illuminated gangway. Also hoist Portuguese Flag from 8 a.m. to sunset.
SHORE-LEAVE: Nationals from countries having friendly diplomatic relations with Portugal usually granted shore-leave, See "I.D. Cards".
DELAYS: Congestion not unusual and berthing delays may vary from one to three days. Ships calling for bunkers have no priority but are sometimes berthed at sunset and fuel during night-shift. Discharging of bulk cargoes can be effected by shortage of suitable wagons.
AUTHORITY: Port Manager, Port of Lobito.

LUANDA: 08.48 S. 13.14 E.

PORT LIMITS: A vessel to be considered an "arrived ship" should be anchored in the bay past a line drawn between the Ilha Light and across the bay to Fort S. Pedro.
DOCUMENTS:
6 Luanda Cargo Manifests (1 freighted).
3 Luanda Bills of Lading.
8 Transit Cargo Manifests.
5 Transit Bills of Lading.
6 Crew Lists.
1 Crew List with full Christian names, giving dates of smallpox and yellow fever inoculations,
7 Ports of Call List.
7 Passenger Lists, including landing and intransit passengers, or "No passengers" declaration.
2 Provisions and Stores Lists.
1 Crew Personal Effects Manifest.
1 Health Declaration.
All ship's certificates to be sighted by Authorities.
PILOTAGE: 72 hours notice of arrival, addressed Agents via Luanda Radio, plus message of arrival at least 6 hours prior arrival received during working hours (0700–1700 hrs.). No VHF available. Pilot launch comes out from port. Anchorage for Pilot in Luanda Bay. No draft restriction at anchorage. Pilot not required for anchoring in bay. For berthing, no pilotage available between midnight–0700 hrs. Pilotage compulsory. No special berthing Pilot. Pilot launch white – flying Pilot Flag (H).
ANCHORAGES: Luanda Bay offers safe, sheltered anchorage at all times of the year. Good holding ground – sand/mud. No draft restrictions.
MAX. SIZE: Length, 1,000 ft. (alongside); breadth, no restriction; draft, 34 ft. (alongside). Tankers, up to 55 ft. draft at the refinery buoys.
WEATHER: March/May rain season. Heavy wind and rain can affect cargo work.
HEALTH: Pratique may be granted by radio through Radio Luanda, addressed Port Health or via Agents. Accommodation ladder must be rigged for doctor on arrival. Pratique must be granted at each Angolan port. Pratique is *not* automatic. If infectious disease on board inform Port Health/Agents by cable.
RADIO: Addressed "Luandaradio" for ETA, draft and requirements. Call sign CQW on 500 kc/s, listening on "odd" hours only throughout 24 hours. Listening between 0600–1800 hrs. Call sign CQW3 on 13.023 kc/s on "even" hours only. Listening between 1800–0600 hrs. Call sign CQW on 8.565 kc/s on "even" hours only.
TUGS: Two available and compulsory for berthing and unberthing. Tugs join vessel off berths. Ship lines used (if tug lines requested – extra charges).
BERTHING: Ships taken in strict rotation of arrival for berthing, except that passenger vessels have priority. There are 7 berths for import and export cargoes, all berths are available for oil bunkering.
The quays are divided into 5 zones with depths alongside of 32 ft. maximum.

Zone I.	1,380 ft. of which 900 ft. of quay length suitable for ocean going vessels.
Zone II.	480 ft. quay length.
Zone III.	900 ft. quay length.
Zone IV.	540 ft. quay length.
Zone V.	574 ft. quay length.

Shoreside cranes of 3 tons and 5 tons, furthermore 2 cranes of 10 tons lifting capacity and also 1 mobile crane of 20 ton capacity for lifting heavy pieces only.
A self-propelled floating crane, capable of lifting 100 tons, was recently commissioned – maximum and minimum reach of 46 ft. 6 in. and 9 ft. respectively, lifting to about 78 ft. approximately.
BULK HANDLING: Ores in bulk are usually loaded at Zone III; no mechanical loading installation.

The ore is shovelled from railway trucks into buckets; daily loading average 4,000 tons per 24 hrs.

Grain vessels will also be moored at Zone III alongside the grain shed. Discharging by means of tubes which are lowered into the holds and suck the grain out by an electrically propelled spiral fitted in the tube.

The rate of discharging is about 100 t.p.h. and the grain is loaded into railway waggons, each of 30 ton capacity, via the adjacent warehouse.

STEVEDORES: Gangs arranged by Agent/Shipmaster. Normal port working hours 0700–1200 hrs., 1400–1730 hrs. (overtime 1730–2330 hrs.), Saturday 0700–1230 hrs. Sunday/holidays – no work.

MEDICAL: For serious cases, as much advanced notice as possible should be given with all details available. Minor cases can be treated on arrival within half an hour without previous notice. Apart from Government Hospital, there are a number of private nursing homes with good facilities. Smallpox inoculations are essential. Yellow Fever inoculations recommended.

TANKERS: Two tanker terminals No. 2 Quay and off-shore terminal. Lines No. 2 Quay 10 in. diameter, available for loading/discharging fuel oils, gas oil, gasoline and aviation spirit, but *not* crude oil. Off-shore terminal utilised principally for loading fuel oil and gas oil, as well as loading or discharging crude oil. Three lines, viz. 12 and 18 in. – fuel oil and crude oil, 8 in. for gas oil. No slop discharge facilities. Drafts – No. 2 Quay 34 ft. Off-shore terminal two sets mooring buoys, one for tankers with max. length 230 m. and max. draft 55 ft. and the other for tankers not exceeding 100 m. with draft 40 ft.

DENSITY: About 1024.

FRESH WATER: Fresh water available through quay pipe-lines, each hose delivering about 30 t.p.h. First 50 tons Escudos 20 per ton, next 200 tons Escudos 17.50 per ton, next 250 tons Escudos 15 per ton.

FUEL: Limited number of grades can be obtained subject to nomination well in advance. No barges available.

FIRE PRECAUTIONS: For tankers loading/discharging alongside No. 2 Quay – no vehicles allowed within vicinity and other vessels cannot berth within 40 m. of tanker's stern or bow.

DEVELOPMENTS: Plans for reclamation and new berths round to the Forte da S. Pedro da Barra.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Can be carried out by crew or stevedores at vessel's option.

SHIP CERTIFICATES: Tonnage and Deratisation Certificates.

CUSTOMS ALLOWANCE: No restrictions, but sales ashore a serious offence.

CARGO GEAR: No additional requirements provided valid test certificates aboard.

CREW IDENTIFICATION CARDS: Provided by Agents for crew proceeding ashore.

CONSULS:

Belgium	Denmark	U.S.A.
France	West Germany	Austria
Great Britain	Netherlands	Brazil
Italy	Norway	Switzerland
South Africa	Sweden	Spain

REPAIRS: Minor repairs and hull repairs above the water-line can be carried out.

DRY DOCKS: None.

REPATRIATION: Repatriation will not present any difficulties.

AIRPORT: Distance from port 4.5 miles. 21 flights weekly to/from Lisbon by Transportes Aereos Portugueses (TAP), also 5 flights weekly to/from Salisbury and Johannesburg in association with South African Airways (SAA).

TIME: GMT plus 1 hour all year.

HOLIDAYS: Saints Day (1st January), Portugal Day (10th June), Saints Day (15th August), Republic Day (5th Ocober), Saints Day (1st November), Independence Day (1st December), Saints Day (8th December), Christmas Day (25th December). No cargo work on these holidays.

POLICE/AMBULANCE/FIRE: Police 7408; Ambulance 25275; Fire 22222.

TELEPHONES: Can be placed on board.

GENERAL: Ample water in bay for anchoring, and most vessels enter port without Pilot. Pilotage is compulsory for berthing/unberthing on quays, this service being available from 0700 hrs. to midnight. If Master elects to wait for Pilot outside port and another vessel proceeds direct to anchorage, the latter will be first on turn for berth.

SERVICES: Tank cleaning possible but advance notice required. Radio, radar repairs possible by military personnel, but spares rarely available.

SHORE LEAVE: Crew members allowed shore leave subject Immigration approval provided inoculation certificates are valid.

REGULATIONS: Portuguese mailboats have berthing priority over all other vessels, foreign *passenger* vessels next in precedence.

DELAYS: Congestion rarely exceeds 36 hours.

AUTHORITY: Servicos de Portos, Caminhos de Ferro, e Transportes.

MOCAMEDES (incl. Porto Saco): 15.11 S. 12.07 E. **(See Plan)**

DOCUMENTS:

Health Certificate.
2 Vaccination Lists (smallpox and yellow fever).
8 Crew L sts.
11 Passenger Lists (for each landing and transit).
4 Lists showing ports of call.
2 Lists of Articles held by crew/passengers, i.e. cameras, binoculars, radios, tobacco, etc.
3 Ships' Stores Lists.
6 Dangerous Cargo Lists, i.e. all types of explosives.
All foregoing to be signed by Master. Other essential official forms prepared by Agent.

PILOTAGE: Pilot boards in Bay – safe, natural bay with no reefs and easily accessible both day and night. Vessel *must* wait for Pilot and instructions before berthing.

ANCHORAGE: No currents in harbour area, but slight prevailing winds constant. Good holding ground with depths over 34 ft. Approaches up to 45 ft. depth. Tidal range about 5 ft.

RESRICTIONS: No restrictions; vessels may enter harbour day and night. Authorities visit between 0700 and 1900 hrs. (approx.) only. Vessels may sail at any time.

MAX. SIZE: *Mocamedes* – Governed by berth depth 33 ft. alongside.
Porto Saco – Vessels up to 14 m. draft. Largest bulk carriers handled.

HEALTH: Pratique granted on arrival after "Health Guard" visit: boarding 0700-1900 hrs. Normal quarantine restrictions imposed if contagious diseases aboard. Ships calling from other Angolan ports (except coasters) are subject same procedure.

RADIO: Messages *must* be routed via Luanda Radio (call sign CQW). No ship/shore radio link.

TUGS: Two available of 2,200 h.p., fitted with VHF. Join vessel for berthing. Ship's lines used. Vessel under 5,000 tons use one tug only.

CARGO FACILITIES: *Mocamedes* – The accommodation consists of one concrete quay, length 1,350 ft. providing 3 berths. For the handling of general cargo, there are 4 cranes of 5 tons and two cranes of 3 tons, modern cargo handling devices. Also lightening possible. One 10-ton floating crane available, subject ample notice from Lobito. Dangerous cargo is discharged alongside or into lighters, at the Port Captain's discretion.

Porto Saco (Saco Bay) – Ore is loaded at the pier in Porto Saco; length is 1,066 ft., width 59 ft. Depth alongside 54 ft. 6 in. at low tide, normal sea water, clear height from water level at ISHW up to unloader 73 ft. 10 in. One mechanical loader of conveyor belt type; capacity often exceeds 3,500 metric t.p.h. Reach 65 ft. 6 in. approx. from fenders. Connections for supply of bunkers and water.

BERTHING: Unless Masters indicate preference, port decides berthing-side. No vessels berthed after sunset (except passenger ships), but sailing during nightshift permitted so long as prior warning given before 1700 hrs. No vessel allowed berth without Pilot. Before berthing, important that vessel covers all water outlets, prepares accommodation ladder and has forward anchors ready. Ships carrying explosives not permitted berth before Port Captain surveys cargo.

STEVEDORES: Radio accurate ETA 24 hours in advance to enable Agent order required gangs. (Gangs ordered 0700 and 1500 hrs.) No Sunday work permitted for cargo vessels.

MEDICAL: If medical assistance required on arrival radio to Agent. Adequate hospital facilities available, but no specialised treatment or surgery. Yellow fever/smallpox certificates inspected on arrival.

TANKERS: No oil or waste products to be pumped overboard. Heavy fines imposed for breach of this regulation. Tankers discharge at Porto Saco – about 10 kilometres north of general cargo berths, situated northern end of Mocamedes Bay. Maximum draft 54 ft., length of quay 1,066 ft. No dirty ballast facilities.

DENSITY: 1024.

FUEL: Available from dockside pipe-line. At Porto Saco, rate 200 t.p.h. Bunkers may be taken during loading operations without delay.

FRESH WATER: Available ex-wharf, rate 15 t.p.h.

FIRE PRECAUTIONS: No special precautions except ships carrying explosives. Fire Brigade standby charge.

DEVELOPMENTS: Porto Saco (Iron-ore/Tankerberth) anticipated augment present ore-loading equipment to enable load ore-carriers up to 10,000 t.p.h. Dredging to projected depth of 65 ft.

GANGWAY/DECK WATCHMEN: Compulsory, day and night.

OPENING/CLOSING HATCHES: When performed by stevedores, costs per hatch per time Esc. 100.00, but crew allowed perform this task.

SHIPS' CERTIFICATES: Registered Tonnage Certificate, Derat. Certificate, examined by authorities on arrival.

CUSTOMS ALLOWANCE: No restrictions. Customs' guard supervises opening and resealing of ships' bonded lockers.

CREW IDENTIFICATION CARDS: All crew/passenger passports handed Immigration Police who issue shore passes. Passes must be carried when on shore.

CONSULS: None.

REPAIRS: Only very minor voyage repairs.

DRY DOCKS: None.

REPATRIATION: Air communication via Lobito and Luanda.

AIRPORT: Small airstrip unable to take heavy aircraft.

TIME: GMT plus one hour.

HOLIDAYS: See "Lobito".

GENERAL: Ships must not dispose of wastes into harbour or on to quays, change mooring lines, lower lifeboats, immobilise main engine, use ship's siren, or ship's radio station without prior permission from authorities. Vessels must use watchmen for 24 hours per day on well-illuminated gangways and hoist Angola flag from 0800 to sunset.

SERVICES: None available.

SHORE-LEAVE: All nationalities from countries having friendly diplomatic relations with permitted shore leave. See "I.D. Cards".

DELAYS: Berthing delays are unusual.

Argentina

Information for ports of Argentina, including drawings of port areas as reproduced in our special map section, has been compiled not only with the assistance of Port Authorities but also with the very kind co-operation of Centro de Navegacion Transatlantica of Buenos Aires to whom we are very much indebted.

Shipowners and Masters wishing to be in possession of more detailed information concerning River Plate ports, Argentina South Atlantic ports and the Strait of Magellan, are advised to obtain a copy of the "C.N.T. Year Book" which is published by Centro de Navegacion Transatlantica, 25 de Mayo 489, Buenos Aires.

N.B. For practical purposes, we have sub-divided information for Argentina into three sections as follows:

I. *GENERAL.*
II. *RIVER PLATE PORTS*
III. *SOUTH ATLANTIC PORTS*

I *GENERAL*

DOCUMENTS:

(a) According to Migrations Resolution No. 9153 of 13.7.72, effective 1.11.72, issued to comply with Latin American Free Trade Zone agreements tending to uniformity of shipping documents through Latin America, a new form has been introduced, and others modified.

Distribution of forms is now as follows:

	Sanitary Officials	*Customs*	*Immigration*	*Port Police (Prefecture)*	*Total*
Sailing permit from last port				1	1
Health Declaration	1				1
General Declaration†			1†		1
Negative cargo list (if no cargo for the port) alternatively Ballast certificate, alternatively cargo manifest for the port.		1			1
Manifest of cargo for transshipment		1			1
Store List					
Deck, Engineering & Refrigerating		2			2
Cabin Stores		2			2
Crew Personal Effects		2			2
Passenger List†	1	2	1	3/5	7‡
Passenger Baggage summary (manifest)		2			2
Crew List†	1		2	3/4	6§
Crew Identity cards†			1 each		various
Passenger E/D cards†			1 each		various

†required on both entering and sailing.
‡ 9 for passenger ship.
§ 7 for passenger ship.

(b) Masters should also have at hand for inspection as required all the various certificates such as Certificate of Registry, Postal packet permit, if pertinent, Freeboard, Measurement, Safety Equipment, Radio Installation, Bulk Cargo, shifting board installations or equivalent, and Deratisation Certificate, or exemption.

None of these documents requires an Argentine Consular visa.

(c) Port Agents should also receive copies for their use and to facilitate any further contacts with the authorities in case of need. In particular they require a large number of copies of Manifest, and from this they will prepare Spanish manifest, which must be presented to Customs within 48 hours of vessel's entry. A number of extra copies of crew list are also needed, and one extra store list.

(d) Every person figuring on the crew list of a vessel entering an Argentine port must possess documents proving his identity, such as a discharge book, passport or other documents in use in the country of origin, authorised by the competent Authorities.

(e) Vaccination Certificate. Members of crew must be provided with an international vaccination certificate, not more than 3 years old, which should be presented on arrival, together with the individual Identity Card. Failing this, the crew will be vaccinated by the boarding doctors.

(f) Identity Cards. On arrival at an Argentine port, Masters of foreign vessels must deliver Identity Cards complete with photographs and finger-prints of each member of the crew, together with two copies of Crew List. One set is retained by the Migrations Department, and the other document remains in possession of the individual so that once identified, the crew member may return to the country without the necessity of obtaining new documents. The Captain is handed in exchange one copy of the Crew List, sealed and signed by the Immigration Officer to enable him to prove at other Argentine ports of call, that he has complied with the corresponding Regulation.

No member of the crew, except the Captain, is allowed to land until the Immigration Authorities have checked the crew with the Identity Cards.

Captains may if necessary have the Identity Cards completed with photographs in the Argentine at the first port of arrival. In such cases it is advisable that Agents are advised in advance so that preparations may be made against vessel's arrival. The Authorities will not allow any members of the crew to be disembarked until they have presented their Identity Cards or have had their photographs taken. Agents must present these Identity Cards to the authorities for stamping within 48 hours of arrival of the vessel. Immigration control is made at whatever hour the vessel arrives, forming part of the normal reception procedure.

(g) The stores lists should be completed with great care as a specially trained searchers' brigade has been visiting most ships as soon as free pratique is granted.

Particular care must be taken to declare all sizes and measures in the metric system. A plea of a regrettable mistake is not accepted and fines, if legally applicable, can be severe.

FREE PRATIQUE: Vessels take pratique in port, and may enter and berth if they fulfil the following conditions:

(a) Clean port of sailing and ports of call.

(b) No persons with infectious or contagious diseases or with fever on board.

(c) No cases during the voyage of disease of international concern, or of infectious diseases of an epidemic nature.

To be able to obtain this privilege of taking pratique in port, it is essential that Captains of all vessels arriving from abroad wireless their Agents, not more than twelve hours before arrival, that vessels under their command are in the sanitary conditions as required by Art. 45 of the regulations to enter port and go alongside.

On receipt of this message, Agents will present to the Health Authorities the request for a berth, accompanied by the telegram sent by the Captain, not less than six hours (nor more than twelve) in advance, detailing sailing port and ports of call, and indicating the approximate hour of arrival. If the wireless message is in code, Agents will give the necessary translation, and be held responsible for any error in such translated version.

The message may be sent either in English or Spanish, and we give specimen texts in both languages, which should be closely followed:

"Addressed to Agency in Buenos Aires (or other port)
solicitamos pedir libre platica telegrafica buque . . . (1), procedente de . . . (2), con escalas en . . . (3), con . . . (4) . . . tripulantes, (5) . . . pasajeros Buenos Aires . . . (6), pasajeros transito punto. declaro no tener abordo persones afectadas por ninguna enfermedad pestilencial punto estado sanatario bueno
"captain . . .(7)."

or in English:

"please request free pratique ms (or ss) . . . (1), proceeding from . . . (2), with calls at . . . (3), with . . . (4) . . . crews, (5) . . . passengers for Buenos Aires . . . (6). passengers in transit stop hereby declare that nobody on board affected by any pestilential disease stop sanitary condition good.
"master . . . (7)."

In each case the gaps must be filled in as follows:

1. Port of vessel and flag.
2. Port of commencement of voyage.
3. Full details of all ports of call.
4. Number of crew.
5. Number of passengers for Buenos Aires (or whatever port first entered).
6. Number of passengers in transit.
7. Full name of Master, and also of doctor if there is one on board.

As there have been cases of insufficient information being received from vessels, and "added in" by Agents in the translation, the authorities have established this standard form which Masters must follow in their messages, and which will accompany the request to the Health Authorities.

This facility now refers to all Argentine ports, the message requesting Free Pratique to be sent to the vessel's Agent at first port of call, after which Free Pratique is automatic in all subsequent Argentine ports. If, however, a non Argentine port is called at en route, Free Pratique must again be requested at what will then become the "first Argentine port".

Agents will confirm to the vessel, by radio, the date and hour of granting of free pratique, and with this information in hand, vessel can enter port and go alongside. The Port Authorities will board as soon as the gangway is placed for their routine inspection, and until they have boarded, no one else should be allowed on board.

Vessels which do not meet the sanitary requirements, or come from unclean ports, must fly the yellow flag on entering for the necessary inspection alongside.

River Ports, Vessels proceeding to river ports get pratique at destination.

Vessels lightening. Tankers and other ships lightening in River Plate waters, provided they comply with Art. 45, may later continue their voyage and go straight into berth at port of destination to take free pratique there.

Sick crew members. If there is a sick person aboard, the international sign "W" must be flown on entering, and for Free Pratique, the customary yellow flag.

Captains must report to the boarding sanitary authorities those members of the crew having venereal complaints.

Asian and African Ports. In accordance with WHO requests, all vessels proceeding from these ports will be subject to an inspection of all galleys and store rooms.

Infected ports. Apart from the smallpox vaccination certificate, which is obligatory in all cases, the recent Cholera epidemics have caused the Health Authorities to tighten control. All persons on board vessels coming from ports in the countries named below must be in possession of the Anti-Cholera inoculation certificate, and from other zones as indicated as International Yellow Fever vaccination certificate.

Cholera. The international certificate is valid from the sixth day of inoculation, and for six months. The countries at present under control are:

Africa. Algiers, Alto Volta, Cameroon, Chad, Dahomey, Ghana, Ivory Coast, Liberia, Mali, Niger, Nigeria, Senegal, Sierra Leone, Somalia, Togo.

Asia. Burma, India, Indonesia, Malaysia (West), Muscat, Nepal, Pakistan, Philippines, Vietnam (South).

Epidemics are not officially admitted in the United Arab Republic

and Sudan, but the certificate is advisable as a precautionary measure.

Other zones may be affected at short notice.

Yellow Fever. The vaccination certificate is valid for ten years, as from the tenth day of inoculation. It is required for all persons coming from:

Africa. Angola, Ghana, Kinshasa, Nigeria, Sierra Leone, Sudan.

South America. Brazil (territories of Roraima and Boa Vista), Colombia (Bolivar, Simiti, Boyaco and Paz de Ariporo).

Inflammables. It should be borne in mind that vessels carrying over 25 tons and under 100 tons of inflammables, explosives, etc., must be inspected in the roads before entering whether they have asked for Free Pratique by radio or not, although this is still advisable as the one inspection is independent from the other.

CLASSIFICATION OF ARGENTINE PORTS: In accordance with Article 31 of the Pan American Sanitary Code, the National Health Department has classified the Argentine ports as follows:

Clean Ports Class A—Buenos Aires, Rosario, Santa Fe, La Plata and Bahia Blanca.

Clean Ports Class B—San Nicolas, San Lorenzo, San Martin, Villa Constitucion and Concepcion del Uruguay.

Clean ports under the vigilance of the Health Department—Mar del Plata, Necochea and Diamante.

A clean port, in general, requires the absence of non-imported cases of cholera, yellow fever, pest, exanthematic typhus or any other contagious disease o a serious epidemic nature, that may be carried through international trade. The clean ports of Class A have competent staff and suitable sanitary equipment, also bacteriological laboratories, registers of disease and deaths, lazarettos, etc.

The clean ports of Class B are those that have not got all the equipment required for Class A.

FLAG: The flag of the Republic is three horizontal and equal bands of which the centre one is white, and the upper and lower, sky blue.

The official colours, flown by Naval vessels and all official entities are distinguished by a rising golden sun in the centre of the white.

All foreign merchant vessels must fly the Argentine flag from the highest mast while in territorial waters and ports, and fly their own national colours from the ensign staff.

PILOTAGE: A. *Ordering:* For Recalada Station, minimum 48 hours in advance, for all other services Agents of the vessels to be piloted must apply, in writing, to the Pilotage section of the Prefectura at their domicile before 1700 hrs. on the day before the service is to be effected, or on Sundays/holidays, before 1100 hrs. Pilots are obliged to render service in strict turn, in accordance with the register in the zone.

Applications for Pilots presented outside the hours established will be accepted but they will be classed under the headings of "Extraordinary" or "Urgent" applications. Pilots should always be ordered by the Agency; only in exceptional cases may a Pilot be requested direct by a Master, when by reasons of force majeure, or change of destination arrival is unforeseen. Vessels which are unaware of their Agents name may also request a Pilot direct. In such cases the request should be made direct, by radio, to the Prefectura with full explanations of the circumstances.

B. *River Plate Zone:* There are three Pilot stations in this Zone, namely; Port of Buenos Aires, Intersection and Recalada Pontoons.

(i) Inwards from sea. Inward vessels for up river ports Buenos Aires or La Plata have to take a Pilot at Recalada, and must give 48 hours advance notice of arrival, both to Agents in Buenos Aires and direct to Recalada, call sign LOJ 500 kc/s. (600 m.) Type A1, A2.

The operator is on duty from 8 to 10, 12 to 14, 16 to 18 and 20 to 2200 hrs. Communications can also be made on 462 kc/s. (649 m.).

The second Pilot station is at Intersection Pontoon km 37 measured out of Buenos Aires.

The Recalada Pilot takes all vessels to Intersection only, where another Pilot comes aboard, as follows:

if bound for Buenos Aires, a port Pilot.

if bound for La Plata, a river Pilot to La Plata Roads where a La Plata Port Pilot takes over.

if bound for upriver, a river Pilot.

(ii) Outwards to Montevideo. Vessels sailing from Argentine Plate ports to Montevideo must take an Argentine Pilot up to Montevideo Roads, not drop him at Recalada.

(iii) Inwards from Montevideo. Vessels arriving from Montevideo come in charge of a Uruguayan Pilot to Intersection, where the second Pilot takes over as above: Uruguayan Pilots, when in Argentine waters are subject to all Argentine laws and regulations.

(iv) Outwards to sea. Outward bound vessels (except for Montevideo) are obliged to disembark their Pilots at Recalada, except when prevented by weather, in which case the Pilot must land at first available port and his travelling expenses back to Buenos Aires are for vessel's account.

C. *River Parana Zone:* Comprises the River Parana from the port of Parana (km. 600 from Buenos Aires) down to its mouth, and that part of the River Plate limited to the East by its left bank to Punta Negra (Uruguay), thence to Intersection Pontoon, to the South by the North bank of the access channel to Buenos Aires Port, to the West the right bank of the River Plate from the entrance to Buenos Aires port to kilometre 0 of the River Uruguay.

On the River Parana, on distances exceeding 200 km. two special Pilots must be ordered, and therefore there will be four Pilots on board (two special and the two on turn), and the vessel has to pay for each of them, i.e. four times the tariff.

For distances of less than 200 km., the same ruling applies when continuous navigation is requested, which necessitates the employment of two Pilots on turn. However, when only one Pilot is asked for, only one special Pilot is nominated, if specially asked for, and consequently the tariff is double.

(i) Northbound. Pilots for navigation through this zone go on board, north-bound, at Intersection Pontoon, whatever the destination. If for Uruguayan ports in the River Uruguay, the Uruguayan port Pilot comes on board off Parana Bravo.

(ii) From river Uruguay. Vessels from River Uruguayan Ports, either Argentine or Uruguayan, change their River Uruguay Pilot for River Parana Pilot at the mouth of the Parana Bravo. However, if proceeding from a Uruguayan port, it is preferable to send the Parana Pilot to the Uruguayan port, and drop the Uruguayan Pilot off Nueva Palmyra. In certain cases the Argentine Parana Pilot can also come aboard at Nueva Palmyra.

(iii) Inside Parana River. There are two stations for despatching Pilots in the River Parana Zone; one at Buenos Aires and the other at Rosario. From the port of Buenos Aires Pilots will be cleared to take vessels to the Northern limits of the Zone, as also for vessels anchored at ports or places South of San Pedro, for any destination.

From the Rosario station, Pilots will be despatched to vessels anchored within the port of San Pedro, and all places to the North of the port, whatever their destination.

At some of the smaller ports in this zone the Prefecture will, to avoid delay to the vessel, authorise the River Pilot to berth the vessel. This request must be made when ordering the Pilot, but Agents at the river port must also apply for a Pilot, and see that he is employed if available.

Draft is ruled by the depth of water at Martin Garcia Bar, which is at present 24 ft. 6 in. at zero. This varies, and from time to time the Prefecture has authorized clearance of vessels up to 27 ft. Occasionally it happens, in spring, that there is less water in the river above Martin Garcia, but the Weekly Bulletin issued by the authorities covers this and all determining depths on the river routes.

(iv) To Montevideo. Vessels proceeding down river to Montevideo, take a Pilot at Intersection to Montevideo Roads, where a port Pilot boards.

(v) To La Plata. Vessels from up river ports for La Plata drop their river Pilot at Intersection, take another river Pilot to La Plata Roads (optional) and then a port Pilot there.

D. *River Uruguay Zone:* Comprises the River Uruguay from Concepcion de Uruguay, km. 188 to its mouth, and that part of the River Plate mentioned under the Parana River Zone. All Pilots for this Zone will be despatched through the Buenos Aires station.

E. *Bahia Blanca Zone:* Comprises the Bay from a line joining the buoys at Punta Tejada and Punta Lobos, up to the ports. There is no pilot vessel on station. The ordering of Pilots for the Bahia Blanca Zone is effected by the Overseas and Coasting office at that port. As the official tug for taking sea Pilots to meet incoming vessels is sometimes out of commission, Masters are requested to advise their Agents of the ETA 48 hours in advance. The cost of a special tug is heavy, and on occasions a saving can be made sharing expenses if the tug can take out Pilots for other incoming vessels, and also embark those from vessels outward bound from Bahia Blanca.

F. *Southern Ports:* South of Bahia Blanca and as far as Rio Grande pilotage is not obligatory in port, but when a vessel requires a Pilot application should be made to the Pilots' Office of the Naval Prefecture through vessel's Agents in Buenos Aires with at least five days advance notice. They go on board either at Buenos Aires, off Mar del Plata, or at other ports as required, and are authorized to operate in all of the Southern ports: San Antonio del Oeste, Madryn, Commodoro Rivadavia and the adjacent oil berths, Deseado, San Julian, Santa Cruz, Rio Gallegos, San Sebastian, Rio Grande and Ushuaia.

Their duties are to act as Port Pilots for entering, mooring, unmooring and leaving any of these ports.

Vessels from South Atlantic Argentine ports, for Montevideo should pick up an Argentine Pilot from Recalada to Montevideo Roads, but if such vessels pass further than five miles away from Recalada Lightship and pass direct to Montevideo Roads, there is no such obligation.

G. *Embarking/Disembarking:* Accommodation ladder. The gangway should be lowered to about 3 m. above the surface of the water, and adjusted in such a way that the Pilot only needs to climb the rope for this distance, in order to step on to the gangway. This rope ladder must have all the steps resting firmly against the side of the ship, in accordance with the requirements of the Safety of Life at Sea Convention. Similarly, the gangway must rest against or be secured to the side of the vessel, and Pilots may refuse to board if these conditions are not complied with.

RADIO: All times are given in GMT unless otherwise specified.

Storm Warning, Met. situation, Weather forecasts and Notices to Mariners. Are transmitted in clear (A1) in Spanish and then English, daily, from the following stations:

General Pacheco Buenos Aires	LSV	3220.5 kc/s.	0.5 kW	01.30	Storm warning Met. resume
	LSV 2	5907.5	0.5 kW		Forecast
	LSV 4	12100	1 kW		
	LSV 5	17520	1 kW		

and again at 1600

while LPD 5 transmits the same information on 512 kc/s. (5 kW) at 0148 and 1630 hrs.

The weather forecast covers the zone from Rio de Janeiro to Drake Strait and is valid until 1200 of the next day. The word "nil" is used if there is no information to report, as for example in storm warnings.

Vessels at sea can request a forecast and state of the weather at any time from Meteoro Baires, through Pacheco—LPD on 4177,

4187, 8354, 8374, 11531, 12561, 16708, 16748, 22220 and 22270 kc/s.

Radio Trelew	LPZ	20	527 kc/s.	3 kW at 1730
Radio Comodoro Rivadavia	LPX	2	474 kc/s.	at 0400 and 1800 as above.

Vessels at sea in this area can request a forecast from Meteoro Comodoro Rivadavia through LPX 2.

Notices to Mariners and Urgent River Notices. Are transmitted in Spanish and repeated in English by Radio Pacheco and Radio Comodoro Rivadavia.

Radio Pacheco	LPD 5	512 kc/s.	5 kW	A2 at 00.30 Plate Area
	LPD 6	4268 kc/s.	0.25 kW	A1 at 12.30
Comodoro Rivadavia	LPX 2	474 kc/s.	3 kW	A2 at 13.30 20.00
	LPX 27	4428.6 kc/s.	0.5 kW	A3 at 04.00 08.00 12.00 21.00

This station only reports on Lat. 42° S. to 52° S.

In both cases messages are repeated twice at intervals of one minute at the times indicated. Notices are repeated daily during six days from publication, preceded by the signal TTT, followed by the number of the notice, the letter R and then the text in this sequence:

Zone, sea, river, province, locality, etc.
Lat. and Long. if necessary.
News in question.
Sign off with SHN to indicate the authority (Servicio Hidrografia Naval).

If there is no notice to transmit, the stations will transmit "no hay avisos para navegantes", "no notices for mariners".

Notices to Mariners, and other items, in Spanish only—Notices to Mariners and other special information are given in Spanish only as follows:

Rosario—LSQ 38, 477 kc/s., A1, at 13.05:
Depth of water in the Parana River from Los Pajaros to Los Ratones and also the minimum depth between Santa Fe and Rosario.

Concepcion del Uruguay—LSQ 57, 477 kc/s., A1, 0.5 kW at 13.00:
Information on the Uruguay River from San Javier to Gualeguaychu.

Buenos Aires South Dock (Darsena Sur)—LSQ 9, 477 kc/s. A1, 1.5 kW at 0400, 0500, 0600, 0700, 0800, 0900, 1000, 1100, 1200, 1300, 1400, 1500, and 1545 hrs. except on Sundays and holidays.
Depth of water on the gauge at Riachuelo.

Buenos Aires Central de Comunicaciones (Prefectura Naval Argentina) —LSQ 4, 524 kc/s., A2, from 05 to 10 minutes each hour:
Depth of water indicated by the semaphores at Puerto La Plata and Riachuelo, and of the El Codillo zone of the Punta Indio Channel referred to zero on the Oyarbide tide gauge which is between pairs of buoys 24 and 25 in the Main Channel, and the new tide gauges referred to under "Buenos Aires", Tidal Signals.

Buenos Aires, Meteo (All A1)—LSV 3220.4; LSV 2, LSV 6, 5907.5; LSV 4, 12100; LSV 5, 17520 kc/s. at 1705 hrs.
Depth on the River Plate, River Parana, River Paraguay and River Uruguay zones. Buenos Aires, Radio Nacional LRA 870 kc/s. A3, at 0100, 1100, 1500, 1800 and 2100 hrs.
Depths of water and met. forecast for River Plate zone, this station also transmits tidal forecasts at 0100, 1000, 1315, 1600, 1900 and 2200 hrs.

Intersection Pontoon River Plate—LOI, 524 kc/s., A2:
Continuous information on local depths of water, on request.

Recalada Pontoon—LOJ, 524 kc/s., A1:
Same as Intersection.

Buenos Aires, Central de Comunicaciones (Navy—LOL 457.2, 2162.5, 4856, 8030, 13101, 17180, 22840 kc/s., A1, at 0230, 0300, 1300, 1330, 1930 and 2030 hrs.
Urgent Notices to Mariners, and Notices to Mariners covering the Argentine Coast and river systems.

Santiago River (La Plata)—LOM, 524 kc/s., A2,
from 05 to 10 minutes each hour:
Depth of water on the semaphore at La Plata.
From 10 to 15 minutes each hour:
State of tides in El Codillo zone of Punta Indio Channel, referred to zero on the Oyarbide tidal gauge (between pairs of buoys 24 and 25).

All Atlantic ports also transmit local notices to Mariners and weather forecasts in Spanish, the call signs and frequencies are indicated under each individual port, but between the powerful stations at Pacheco (Buenos Aires) and Comodoro Rivadavia, the whole coast is covered by the regular information given in both Spanish and English.

Facsimile Reports. Buenos Aires also transmits facsimile reports, of which the following correspond to surface forecasts, valid for 24 hours, and weather on Mercator projection.

		0800/0815 and 2000/2015 hrs.
From station	LRO 69	5185 kc/s.
and	LRB	10720 kc/s.

both of F4, white and black with a variation in frequency of plus 400 minus 400–5 kW and referred to observations made eight hours earlier.

From the Antarctic, the Argentine Met. station at the South Orkney Islands transmits an analysis of the Atlantic area at 0300 and 1700 hrs. from LOK on 4250 kc/s. and 13051.5 kc/s.

Traffic Control and Safety at Sea. The Prefectura Naval Argentina, in charge of shipping activities including safety at sea, maintains a control centre at Buenos Aires, and another at Mar del Plata (where several hundred fishing vessels operate).

Objectives are to prevent collisions at sea or groundings and to keep a safe, expedite and orderly flow of traffic, as well as to alert safety and salvage systems when vessels need assistance.

A. – The Controlled area, from Buenos Aires, covers from parallel 57° W passing through pair of buoys No. 21 in the main entrance Channel to a line from San Isidro (Buenos Aires) to the mouth of the Parana Guazu river.

The Centre is on permanent duty in the following VHF-FM channels

16	frequency 156.8	mHz for calls, assistance, urgency and safety.
12	156.6	notices to mariners.
14	156.7	annex to Channel 12.
6 and 8	156.3/4	bridge to bridge use.

Information All vessels in the area, both foreign and national, must inform the Centre of the following:

1. On entering the systems.
2. On leaving the systems.
3. On crossing km 57 in the main channel.
4. On arriving at Intersection Pontoon.
5. On crossing km 11 of the access channel to/or from Buenos Aires.
6. When anchoring, mooring or unmooring.

In each case, except 2 and 6, they will give the estimated hour of arrival at the next point en route.

Vessels will also report, on Channel 16, the following:

(a) Accident or fire on board.
(b) Sighting another vessel in apparent difficulties.
(c) Sighting any dangerous obstacle to navigation.
(d) Any serious reduction in visibility.

They will also advise, on Channel 12, as soon as possible, if any mark, light or navigational aid is damaged, missing, functioning badly or evidently out of position. Vessels must keep constant watch on Channel 16 from entering the zone to leaving it, and immediately after using any of the other channels will continue to listen on Channel 16. If, for any reason, this is not possible, they will report this to Control office by Channel 12.

The Centre transmits as routine information urgent Notices to Mariners, ruling weather conditions every four hours from 0000 and depth of water at El Codillo, La Plata port, Riachuela and Martin Garcia Bar five minutes after every hour.

Also tide and met. forecasts at 0900 and 1500. Storm warnings, visibility reports and obstructions in channels will be transmitted immediately on being reported, and then included in the next routine transmission.

Information can be requested from the Centre at any time.

The Administration procedure is that figuring in the International Union of Telecommunications and/or the Manual for the Use of Mobile services.

Time used in this service is local Argentine time, i.e. GMT less 3 hours.

Language: Personnel on duty in the Control centre will use only Spanish.

If necessary recourse can be had to the Code groups in the International Signal Code in use, and the spelling and lettering tables therein, or to Code Q.

B. – Mar del Plata Centre controls the area from 35° 30′ to 41° S. In this zone the system is voluntary for foreign flag vessels. The Centre operates on the folowing frequencies:

	Coastal Frequency					*Ship frequency*		
One:	Type	A3	H	2182 kHz	LSO	20	2182	a
				2100	LSO	69	2100	d
				4409.4	LSO	70	4410.8	f
				8754.4	LSO	71	8220.4	g
				13189.5	LSO	n2	12410.5	i
	A1	A2		500	LSO	20	500	
	A1			437	LSO	20	437	
				4325	LSO	21	4325	
				12728	LSO	57	12728	

Two: The Mar del Plata Centre maintains a continuous listening watch on:

A1	A2	500 kHz	LSO	20	
A1		4325	LSO	21	
A3	H	2182	LSO	20	
		4110.8	LSO	70	
		8220.4	LSO	71	

and also listens from 00 to 05 minutes each hour on A1 12728 kHz and from 45 to 50 minutes every hour on A3 H on 2100 and 12410.5 kHz.

Vessels can use any of the frequencies listed under "one" after calling any of the frequencies in "two". In radiotelephony, except for frequencies 2100 kHz and 2182 kHz traffic will be routed in semi-duplex as per frequency pairs as indicated in "one" f. g and i.

In this are Notices to Mariners and Safety information will be transmitted as follows:

A3	H 2100	8754.4	0005 and 0505	Argentine time (GMT −3)
	4409.4	7854.4	0805	Argentine time (GMT −3)
	4409.4	13189.5	1205 and 1605	Argentine time
A1	437	4325	0100 and 0600	Argentine time
	4325	12728	1300 and 1900	Argentine time

Storm warnings or other urgent information will be transmitted in A3H and A1 on 500 kHz and 2182 kHz.

Information: Vessels on entering or leaving the zone will indicate:

1. Position, course, speed, whence proceeding, whither bound.
2. Sailing from or entering ports in the area.
3. Report geographical position every twelve hours counted from time of first advice, giving course and speed.
4. Any change in course or speed which alters the normal route and time at which it occurred.

5. Anchoring in or leaving the area.

Happenings: All vessels will immediately advise the centre of:

(a) Accident or damage to own or another vessel.

(b) Sighting any object dangerous to navigation.

(c) Any serious reduction in visibility, or unfavourable meteorological conditions.

(d) Having observed if any lighthouse, beacon, buoy, etc., is not working properly or is out of its correct position.

Language and Time: As in River Plate centre.

Time Signals. Time signals are transmitted from LOL Buenos Aires as follows: frequency 475.5, 2162.5, 4856, 8030, 13101, 17180, 22840 kc/s., A1. at 0100, 1300 and 2100 GMT, using the modified modern American system, with dots every second from 54.30 to 54.50, a dash of eight seconds ending with four half-second dashes, every minute to the hour, ending with a dash.

LOL also transmits on 5, 10 and 15 Mc/s. simultaneously in A1, A2, A3. Carrier waves are modulated in 1000 and 440 c/s. alternately.

Signal consist of dots every second, omitting the 59th second, and with one second interval before the next period commences. Transmissions is from 0800 to 0900, 1100 to 1200, 1400 to 1500, 1700 to 1800, 2000 to 2100, and 2300 to 2400 hrs. Argentine time (GMT less 3 hours daily), except Sundays and national holidays.

At the end of each period of transmission the call sign is given in morse, and before each period the words Observatorio Naval Argentino are followed by the hour and minute corresponding to the commencement of the next signal.

Modulation on 440 c/s. corresponds to the note LA of the fifth octave in the musical scale.

D/F BEACONS: A number of radio beacons specially for shipping have been installed down the coast, in addition to the airbeacons which can also be used, though with less accuracy.

There are eight beacons, and 18 aerial beacons in use as follows:

Practicos Recalada – 35° 10′ 06″ S. 56° 15′ 00″ W. range 150 miles (on the lightship) frequency 320 kc/s., A2.

Signal PR once 9.7 seconds, followed by silence 2.3 seconds, a long dash 17 seconds, silence one second, dash 17 seconds., silence one sec. PR repeat the cycle, PR again and final silence 14.3 seconds, making a period of 120 seconds (two minutes).

In good weather there are two transmissions every two minutes, from 02 to 08 and 32 to 38 minutes each hour.

In fog, one two-minute transmission every four minutes from 02 minutes.

Punta Mogotes – 38° 05′ 32″ S. 57° 32′ 28″ W. range 120 miles. (On the lighthouse) frequency 295 kc/s., A2.

Signal PM once 9.8 secs., followed by silence 2.2 sec., dash 17 secs., silence one second, dash 17 secs., silence one second PM and repeat cycle. PM again, final silence 14.2 seconds, total period two minutes of the hour.

In good weather two transmissions as from 06 and 36 minutes of the hour.

In fog, continuous commencing on the hour.

Bahia Blanca – (On the Recalda Lighthouse) 38° 59′ 33″ S. 61° 15′ 38″ W. range 350 miles frequency 310 kc/s., A2, 0.2 kW.

Signal BB 9.8 seconds, silence 2.2 secs., dash 17 seconds, silence one second, dash 17 seconds, silence one sec. BB and repeat cycle, then BB and final silence 14.2 seconds, total period two minutes.

In good weather two transmissions four minutes apart from 04 and 34 minutes after the hour.

In fog, one transmission every four minutes from 04 each hour.

Bahia Blanca – (On the Light buoy El Rincon) 39° 23′ 12″ S. and 62° 00′ 48″ W. range 200 miles, frequency 310 kc/s., A1 and A2, 0.15 kW.

Signal RN once, seven seconds, silence two seconds, two long dashes 41 seconds, silence two seconds RN repeat cycle, but one second first silence after signal then as before repeat RN and final silence 250 seconds, total 6 minutes.

In good weather, two transmissions from 02 and another two from 32 minutes of each hour.

In fog continuously from 02 each hour.

Bahia Blanca – (On the Segunda Barranca lighthouse) 40° 47′ S. 62° 16′ W. approx. range 200 miles, 310 kc/s., A2.

Signal SB 9.8 seconds, silence 2.3 secs.,dash 17 seconds, silence one second, dash 17 seconds, silence one second SB and repeat cycle, repeat SB final silence 14.8 seconds, total period 2 minutes. In good weather, two transmissions every half hour, at 00/02 06/08 30/32 and 36/38 minutes on the hour, in fog, every four minutes 00/02, 06/08, etc.

Punta Delgada–Los – 42° 46′ 00″ S. 63° 38′ 00″ W. range 200 miles, frequency 315 kc/s., modulation 1000 c/s. modulated A2 signal PD 9.7 seconds, silence 2.3 seconds, long dash 00 seconds, silence one second, long dash 17 seconds, silence one second PD repeat cycle, PD final silence 14.3 seconds total period 2 minutes, good weather four transmissions every hour at 04, 10, 34 and 40 minutes after the hour. In fog, two minutes transmission and four minutes silence from 04 of the hour.

San Gregorio – 45° 01′ 30″ S. 65° 37′ 51″ W. range 200 miles, frequency 295 kc/s., A2, 2kW.

Signal IL 9 seconds, silence 3 seconds, long dash 17 seconds, silence one second, long dash 17 seconds, silence one second, IL repeat cycle. IL final silence 15 seconds, two minutes period in good weather four times every hour, two minutes each from 00, 06, 30 and 36 after the hour.

In fog, one two-minute transmission and four silence, from 00 in the hour, but fog transmission temporarily suspended.

Cabo Blanco–Loa – 47° 12′ 12″ S. 65° 44′ 33″ W. range 200 miles (on the lighthouse) frequency 295 kc/s., A1, A2, 0.15 kW signal CB 12 seconds, two long dashes 37 seconds, CB repeat cycle CB final silence 250 seconds, total period six minutes. Good weather, twice from 08 and twice from 38 minutes after the hour; fog, continuously from 02.

Temporarily out of service.

Medical Advice. Medical consultations can be made, without charge, from vessels at sea with urgent illness or accidents on board. Messages should be brief, but clear and concise, describing the symptoms of the illness with all possible details, including age and sex of patient and informing what first aid equipment is available on board.

For priority, messages should be preceded by the urgent signal XXX and be signed by the Master of the vessel.

The Medical section of the International Signals Code, 1931 volume 2, can be used, as also clear language if it is necessary to amplify the message.

Messages should be radioed to "Consulta Radiomedica" followed by the name of the coastal station used.

All consultations are gratuitous, they must be composed in Spanish, and indicate in this order:

Sex; Age; clinical antecedents; symptoms leading to the consultation; probable cause of the illness or conditions in which accident occurred; any other data which could assist diagnosis and facilitate treatment, such as pulse rate, temperature (in Centigrade) character and appearance of the wound, etc., and informing what first-aid equipment is on board.

The following stations at Buenos Aires give continuous service for this purpose:

LPD	4	44.5	kc/s.	A1	A2
LPD	68	4268	kc/s.	A1	
LPD	86	8646	kc/s.	A1	
LPD	32	13002	kc/s.	A1	
LPD	46	17045.6	kc/s.	A1	
LPD	91	22419	kc/s.	A1	
LPD	44	4434.5	kc/s.	A3	
LPD	8	8811.5	kc/s.	A3	
LPD	9	13180	kc/s.	A3	

LOAD LINE: Vessels are permitted to load to their Summer marks all year round at all River Plate Ports as well as Atlantic ports as far South as Cape Tres Puntas; inclusive (47° 06′ S. 65° 05′ W.) and provided they are Northbound or Eastbound. All ports in the River Parana, River Uruguay and the River Plate proper are fresh water.

With regard to Loaded Draft, the mean draft and not the maximum must be taken into account, and this should not exceed the Load Line marks.

On the mean draft an allowance will be made equal to the weight of the fuel vessel will consume until it reaches the Sea from up-river ports. No allowance is given to vessels leaving Buenos Aires or La Plata.

LIGHTENING ANCHORAGE: Vessels wishing to lighten cargo and

The Following Beacons, all on A2, may be of assistance

				Freq.	*Time*
Bs. Aires, Aeroparque	OP	34° 31′ 18″ S.	58° 29′ 00″ W.	260	kc/s. continuous
Bs. Aires, el Palomar	PAL	34° 37′	58° 36′	400	from sunset, on req.

perform topping-off operations may do so in the following positions:

Position	No. 1	34° 42.0′ S. 57° 57.2′ W.
	No. 2	34° 44.1′ S. 56° 48.0′ W.
	No. 3	34° 46.0′ S. 56° 48.0′ W.
	No. 4	34° 43.9′ S. 57° 57.2′ W.

For ships performing such operations in the River Parana, after passing Martin Garcia, the respective zone is between km. 172 and km. 173 in the River Parana Guazu, outside the channel. It is forbidden for ships not lightening or topping off to anchor at these points.

SPEED: *Maximum speed in Ports, Channel and rivers* – Vessels operating in the proximity of an open port, close to quays or loading places where other vessels or barges are operating, will reduce speed to a maximum six knots.

In particular this refers to

Rosario	between Saladillo and Punta Barrancos (La Florida)
San Nicolas	between km. 347 and 351
Ramallo	between km. 322 and 326
Zarate	between km. 104 and 111
Campana	between km. 96 and 98

FUMIGATION: *(a) Exemption.* Vessels of foreign registry will be fumigated when proof is not shewn that fumigation has been effected by competent authority, and in a port duly authorized by the International Office of Public Hygiene, or that they have been exempted from such operation by the Health Ministry at authorized ports, within the last 6 months. Vessels arriving with an expired Fumigation or Exemption Certificate, will be fumigated except where a request of one month's grace is made to allow vessel to return to home Country or a request is made for an inspection. Should the vessel be in either case in a sanitary condition and have *no trace of rats*, an Exemption Certificate will be granted.

(b) Certificates are of no value if vessel is not in good sanitary condition. The Authorities will not recognize the validity of any Certificate or issue any Exemption Certificate to those vessels which in the opinion of the National Health Ministry, after inspecting the vessel, are not in a good sanitary condition. Both cyanide and sulphur (Clayton process) Fumigation Certificates are accepted by the Health Ministry.

(c) Permit to commence loading of vessels ordered to fumigate. No vessels which have had an annotation on their Free Pratique Certificate to the effect that they must be fumigated or inspected, are permitted to commence loading before these requisites are complied with. To this effect the necessary advice will be passed by the Customs or Port Authorities to the Health Ministry for intervention.

(d) Ports where vessels can fumigate. The sulphur fumigation is exclusively effected by the Health Ministry at the ports of Buenos Aires, La Plata and Rosario. The cyanide process is effected by private companies at practically every port of the Republic, provided sufficient notice is given, as at some ports it is necessary to bring the equipment from other ports.

Captains are recommended to ensure that their vessels are in good sanitary condition and free from traces of rats on arrival. Even although vessels may be given a Free Pratique Certificate, this does not always free vessel from fumigation if on arrival at port of loading, the Authorities discover traces of rats on board. The granting of Free Pratique has, in fact, no relationship to the granting of fumigation exemption, and permission to load.

(e) Weevil. The National Grain Board is very strict on inspecting for weevil on board vessels destined to load grain.

TIDES: Following data indicates the tidal range at Spring and Neaps in feet and tenths of a foot indicating the Argentine chart number on which the respective datum is given, and the height to be added to or deducted from that datum at the various ports, which are given in North/South rotation.

	Springs	*Neaps*	*Chart number*
Martin Garcia	2	0.4	70
Buenos Aires	3.2	0.8	176
Mar del Plata	3.8	1.2	18
Quequen/Necochea	5.2	2	18
Puerto Belgrano (Bahia Blanca)	12.6	6.4	74
S. Antonio Oeste	30.4	11.8	6
Puerto Madryn	18.8	6	92
Comodoro Rivadavia	19.6	7.4	30 (plus 0.6 feet)
Puerto Deseado	17.2	6.2	21

Santa Cruz	39.8	9.4	2
Rio Gallegos	39.4	9.6	H 451/2
Cabo Virgenes	37.8	7.4	203 (minus 2.5)
San Sebastian	33.8	9.4	84 (minus 0.7)
Rio Grande	22.6	7.6	67 (minus 2.1)
Ushuaia	5.2	2.2	45
and for comparative purposes.			
Montevideo	0.8	0.4	242 (plus 0.8)
Punta Arenas	5.6	1	English chart 545

DRY DOCKS AND FLOATING DOCKS: There are two dry docks at Buenos Aires and two at Bahia Blanca, and six floating docks at Buenos Aires, with smaller ones available at Rosario and Corrientes.

The four dry docks are under the control of the Ministry of Marine as are some of the floating docks, but all are available for merchant vessels, and private repair companies are permitted to carry out work in these Government docks.

(a) Applications for entering either Dry or Floating Docks are the same:

Name and class of vessel; flag, characteristics; NRT as per Register; nature of repairs; estimated stay in dock, date when ready to enter dock; vessels' Register number and plans of the hull for docking.

Tank vessels must also supply a "Gas Free" certificate.

(b) Buenos Aires.—The two dry docks are at right angles in the North Basin, on the Northeast side and have the following dimensions:

No. 1 493 ft. (150 m.), breadth at top of entrance 66 ft. (19.75 m.) gradient 1: 300.

No. 2 590 ft. (180 m.), breadth at top of entrance 92 ft. (22.10 m.).

Vessels with large beam can only enter if their draft does not exceed 20 ft.

(c) Bahia Blanca.—The two dry docks are in the Naval Dockyard base.

No. 1 is 705 ft. (215 m.) in length, width on sill 72 ft. 6 in. (22.12 m.).

No. 2 is 672 ft. 6 in. in length (closed) (205 m.).

(d) Floating Docks.—There are seven in Buenos Aires, as follows:

	Lifting Capacity		*Length*	*Internal Breadth*	
No. 1	3,500 tons	413′	126.10 m.	56.0′	17.10 m.
No. 2	1,500 tons	300′	91.50 m.	41.0′	12.50 m.
No. 3	750 tons	216′	65.79 m.	44.0′	13.32 m.
No. 4	750 tons	216′	65.79 m.	44.0′	13.32 m.
No. A	12,000 tons	565′	172.50 m.	86.0′	26.20 m.
No. B	2,800 tons	397′	110.00 m.	60.7′	18.05 m.
No. C	1,000 tons	246′	75.00 m.	51.4′	15.68 m.

All supply cranes, fire fighting equipment, compressed air, water pumps, electric supply – 380 V. and 110 V. AC or 220 V. DC. Telephone, sanitary discharge for ship's bilges and sanitary services on the dock.

FUEL: Bunker stocks of diesel oil are available in bond at Buenos Aires, Bahia Blanca and Montevideo, thus these ports are the most convenient for taking Diesel bunkers. It is available at other ports, but has to be transported by lorry from Buenos Aires. Lorries are unable to go alongside at some of the elevator berths, and there are no oil barges at Rosario, San Nicolas, or Necochea.

At Buenos Aires there are barges of 150 to 550 tons with tanks to carry all classes of oil. If smaller quantities are required transportation can be effected by lorries from the tanks, the cost being cheaper than barging.

Oil can be transported by lorry to any berth in the port of Buenos Aires.

STEVEDORES: Working hours are officially 0700/1300; 1300/1900; 1900/0100 and 0100/0700. From 1900/0100 and 0100/0700 there is a 100% surcharge on Mondays to Fridays, or 200% on Saturdays, Sundays or holidays. On Saturdays the second shift (1300/1900) and on Sundays/holidays the two day shifts (0700/1300 and 1300/1900) are paid with 100% surcharge.

In Parana River ports, shifts start and finish one hour earlier, except at Santa Fe.

It is forbidden for a man to work more than one shift daily, unless no other labour is available at the halls, and the Port Captain agrees.

Use of mechanical appliances is encouraged, and when the Port has not sufficient available, the Stevedoring companies hire this to the vessel to speed up operations.

Stevedoring damage: It is essential that Master and/or Agent leaves on immediate record any damage done to vessel or cargo by the stevedores, in order to assist in recovering the cost of repairs.

Holidays and Non-Working days: National Holidays: January 1st (New Year's Day), Good Friday, May 1st (National Workers' Day), May 25th (National Independence Day), June 20th (Argentine Flag Day), July 9th (Independence Day), August 17th (Death of Gral. San Martin), December 25th (Christmas Day).

Non-Working Days: Maundy Thursday, December 8th (Catholic Holiday).

Drinking Water. A good supply of drinking water should be available on board, and in hot weather this must be iced.

GRAIN LOADING: On a North/South basis. See table

WATCHMAN: The use of watchmen is obligatory in all ports, and they are the auxiliary delegates of the Maritime Authority. One man per gangway must be placed. Masters may also place a crew member on watch, but in ports where there is an official service the official watchmen must be used. His duties are to control access to the vessel, control the shipment or discharge of prohibited articles, to revise all packages brought on board or landed, see that the moorings are in order, that the gangway is duly illuminated and that rat guards are in place.

WHARF CLEANING: It is the Master's duty to see that the Wharf is properly cleaned up before his vessel vacates a wharf. Port authorities can do this, and charge the Agents of the vessel last berthed with the cost.

HATCHES: Opening and closing normally carried out by the stevedores in each port. All hatches must be kept closed when vessels are not operating, and when leaving port, must be well battened down and covered with two tarpaulins.

RAT GUARDS: All moorings must be provided with regulation pattern rat guards, 80 cm. diameter.

As part of the rat control gangways must be painted white and fully illuminated at night. Fines are imposed for non-compliance.

FENDERS: At all ports, vessel must be boomed off the quay at least one m. fifty cm. Any type of fender meeting this requirement will do, but at San Nicolas, special fenders are supplied.

NIGHT LIGHTS: All vessels when made fast must illuminate that side towards the water with at least one screened light. When vessels are double berthed, the one lying second off must comply

TABLE A

		Berths	Spouts	Workable simultaneously	Rate per hour each	Total
Santa Fe						
72,500 tons	Unit 1	2	8	3	300/400	1200

	new elevator 9	1	12	2	1000	2000

with this rule. Similarly, vessels moored with either stern or bows to shore must show a light over the anchor chain to seaward. Vessels laid up or being dismantled are exempt from this, but owners are responsible for any resulting damages.

DESTINATION CHANGE: When at sea if there is any change in destination, within the Argentine, Masters must report this by radio to the Marine Prefecture, indicating the reasons for such change.

DESPATCHES: Once despatch is granted, this is valid for twelve hours only, after which period new despatches must be requested, and reasons given for not sailing. In ports where local conditions impose a longer limit, the maximum allowable is thirty hours.

SEAMEN'S INSTITUTES, HOME AND CHURCHES: There is one hostel for seamen, and five institutes operating in Buenos Aires and one in Rosario, as follows:

Stella Maris (Apostleship of the Sea)
Independencia 20 (corner Ing. Huergo). Telephone: 33–0832
Chaplain – Father Alex Dalpaiz CS. Open every day. Vessels visited daily. Hotel – Rooms, Meals, Bar. Information – Port Office, Books, Money Exchange, Souvenirs. Amusements – Dancing, table tennis, billiards, television, excursions. Salon Dance – Wednesdays, Saturdays and Sundays.

Religion – Mass every Sunday at 1930 hrs., and in the morning on board ship by request. Confession at all times. Night prayer for all seamen.

Football games arranged. Books freely exchanged.

The Missions to Seamen
Cochabamba 223. Telephone 33–0326
Chaplain – The Rev. E. W. Casson. Open daily from 1900 hrs., with dances on Tuesdays, Thursdays and Saturdays from 2100 hrs. Shop, post office, billiards (three tables), snooker, table tennis, television, bar (beer, no spirits), etc.

There is a service of Holy Communion at 1900 hrs. every Sunday. Football games and excursions arranged. Vessels are visited.

Sjomandskirke
Ing. Huergo 1263. Telephone: 33–3861
Open daily from 0800 hrs. Library, billiards, table tennis, sightseeing visits arranged, as also football matches. Vessels visited every day.

Church services every first Sunday at 1030 hrs.

Axel Johnson Minne till Svenska Sjoman
Juan de Garay 80. Telephone: 33–7304
Open daily from 1800 hrs. Library, sightseeing arranged.

Details of religious services on board of Swedish Church in Azopardo 1428 (round the corner from the Johnson Foundation).

Dansky Kirke
Carlos Calvo 257. Telephone: 33–9154
Danish seamen are welcome at the Norwegian Centre, while at the Church the office is open every Tuesday from 2000 hrs. to 2200 hrs. for assistance, and the Young People meet on Tuesdays and Fridays from 2000 hrs. to 2200 hrs., all being welcome.

Church services are at 1000 hrs. every Sunday, and on third Sunday in every month at 1600 hrs.

Finnska Sjomens-Kyrken. Suommerimien Kirkko
San Juan 234. Telephone: 33–6797. Open daily 1800 hrs. to 2200 hrs.

Rosario: The Missions to Seamen at Sarmiento 209.

II *RIVER PLATE PORTS*

Acevedo	Diamante	San Lorenzo
Acindar	Ibicuy	San Martin

Borghi	La Plata	San Pedro
Buenos Aires	Ramallo	Santa Fe
Buitrago	Rocca	Villa Constitucion
Campana	Rosario	Zarate
Concepcion del Uruguay		

THE RIVER PLATE

The River Plate, or Rio de la Plata, is formed by the rivers Parana and Uruguay, and is one of the greatest river systems in the world, the Basin covering nearly four million square kms. It is some 150 miles long, and the mud and sand in the waters give a thick brownish colour. Tides are small, but the water level is subject to frequent and sudden fluctuations on account of the weather.

The official depth at zero of the long entrance channel from Recalada to the Port of Buenos Aires is presently (this varies slightly from time to time):

	Width of channel m.	*Depth* ft. in.	*Alternative width* m.	*Depth* ft. in.
Punta Indio and of the access channel from the Roads (km. 37 to km. 9.8)	110	29	200	26 6
North Channel (km. 9.8 to Anteport)	55	30	80	29
South Channel (km. 8.2 to Boca)	60	27	80	24
	30	24 6	50	19

From Recalada Lightship West the Bay is all fresh water.

Vessels drawing 31 ft. or even 32 ft. (fresh water marks) frequently navigate safely. The tidal rise and fall is from three to five feet, but the state of the river is influenced to a far greater extent by the force and direction of the wind. There is no guarantee that a vessel drawing 31 ft. may not be caught by low water caused by a North wind, which carries the water seawards. Just as a North wind will reduce the depth of water, so a Southerly or Southeasterly wind raises it considerably, often several feet.

Winds from S.W. to E.N.E. through N. make the level drop, North being the strongest in this sense.

E.N.E. to S.S.W. winds make the water rise, S.S.E. having the greatest influence.

Between S.W. and S.S.W. or N.E. and E.N.E. the influence of the winds is much less.

Vessels often touch bottom, or even bump slightly, but as the bed of the river is soft mud and silt, one never learns of these ships reporting damage. The Plate Pilots, of course, warn Masters of this not infrequent occurrence. The docks and basins in the port also have soft mud bottoms, except for the entrance between North Basin and Dock 4, and it is quite customary to see vessels lying safely aground when loading or discharging.

RECALADA LIGHTSHIP: Vessels enter the Plate system passing the Recalada Lightship, 16.8 miles South of Montevideo at 35° 10′ 06″ S. and 56° 19′ 06″ W. At this point it is obligatory to take an Estuary Pilot, if proceeding West, and a minimum 48 hours notice must be given both to Agents in Buenos Aires and to Recalada Lightship.

The Recalada Lightship and Pilot station is a small vessel, whose hull is painted in vertical black and white stripes, two m. wide, and with an orange/red housing.

Apart from the usual pilot lights (white above red) there is a lantern on the foremast, with a white flash every eight seconds (one second light, seven seconds eclipse) placed at 19 m. above river level, range twelve miles.

The lightship also has a fog signal, period thirty seconds sounding for three seconds and silent for 27.

Radio call sign is LOJ on 500 kc/s. type A1, A2, transmitting in clear every hour from 05 to 08 and 35 to 38 minutes. Operator on watch 08/10, 12/14, 16/18 and 20/22, also listens on 462 kc/s.

Punta Indio Channel and Privileged Zone

The term "Adjacent Zone" comprises the zones of the main channel of the River Plate which extends 500 m. to either side of the buoy at km. 57 and Buoys No. 30 at Punta Indio Channel, likewise 300 m. on each side, outwards, of the pairs of buoys marking the Punta Indio Channel between Buoys No. 30 and 1.

Vessels navigating in these zones have equal privileges to those navigating the Punta Indio Channel, which comprises the zone of the general channel of the River Plate between Buoy No. 30 and the Recalada Lightship following the route buoyed for ocean going vessels by the Ministry of Public Works.

Vessels drawing over 24 ft. entering or leaving the River Plate are obliged to traverse the Punta Indio Channel from Buoys 1 to 30, and the Adjacent Zones existing between Buoys 30 and km. 57.

Vessels drawing 21 ft. and up to 24 ft. inclusive must follow the route of the general channel and the corresponding Adjacent Zones and may make use of the Punta Indio Channel or not, depending on the depths of the river.

Vessels drawing 19 ft. but under 21 ft. must use the general channel of the River Plate and the corresponding Adjacent Zones, but can only use the Punta Indio Channel between Buoys 19 and 23 when depth of the river makes this advisable.

Vessels drawing less than 19 ft., wishing to follow the route of the main Channel, may do so through the corresponding Adjacent Zones but are forbidden to navigate along the Punta Indio Channel.

INTERSECTION LIGHTSHIP: This Pilot station, near km. 33.5 and 169 km. West from Recalada is on the North side of the principal channel, at 34° 39′ 30″ S. and 58° 00′ 04″ W.

Hull, mast and superstructure are painted sky blue and the inscription on the hull is "Practicos Interseccion" in black letters. At night, two lights are shown on the fore-mast, one white about 11 m. from the deck, and below this a red light at about 7 m.

Radio call sign LOI, on 500 kc/s. wavelength 600 m. Operator on duty from 8 to 10, 12 to 14, 16 to 18 and 20 to 2200 hours.

At this point the estuary Pilot concludes his stint, inwards, or takes over outwards, and port Pilots for Buenos Aires take over or finish. Similarly up river Pilots for vessels bound for Uruguay or Parana rivers take over or deliver vessels here.

If, owing to the bad weather or force majeure, the pontoon's launch cannot trans-ship Pilots, by day the blue flag with the letter "P" normally flown at the fore will be struck, or by night the red and white Pilot lights will be extinguished, and a red light exhibited at the stern.

At Intersection vessels anchor while waiting for draft to proceed to the Parana or Uruguay rivers, as well as those awaiting berth in Buenos Aires. Such vessels should keep well clear of the Pontoon to leave ample room for those taking or disembarking Pilots.

The holding ground here is not good, being soft mud. All ships drawing more than 15 ft. must, before leaving Martin Garcia or Interseccion outward bound, ascertain the state of the channel from LOI (Radio Interseccion) who will give the departure time, draft, and speed of vessels navigating in the channel. Only after receiving this dual information can Masters and Pilots decide to proceed, and then must communicate time, draft and speed to Radio Interseccion. Vessels drawing less than 15 ft. can navigate freely between Martin Garcia and Interseccion, but must give way to vessels of deeper draft.

INTERSECTION TO MARTIN GARCIA: From Intersection (km. 38) to Martin Garcia (km. 106) vessels will anchor near km. 37 until there is sufficient water, with 1 ft. under the keel and a rising tide or river. If it is calculated that the vessel will have 1 ft. clear through the whole passage, she may leave, but on a falling or stationary

river, she must adjust speed to avoid the difficulties between km. 37 and km. 79.

From Martin Garcia to Intersection, vessels drawing 22 ft. 6 in. or more will leave when conditions assure 1 ft. 6 in. of water under the keel. It is essential to radio LOI as above to check on tides, etc. Such vessels coming down river must also communicate to LOI the passing of km. 101 and 38, while those going up river must communicate passing km. 38, 72 and 101.

Maximum draft permitted between km. 39 (Intersection) and km. 93 (Canal Nuevo) is 26 ft. and a speed of 10 knots or over, or with 8 to 10 knots, maximum 24 ft.

In the sector Intersection/Martin Garcia vessels will anchor in any suitable place until depth of water permits them to go upstream on a rising river.

Vessels drawing 22 ft. or more are recommended to cross only between km. 72/74, 80/82 and 96/96. Those drawing less than 22 ft. and with at least 3 ft. under their keel can also cross between km. 52/56 and 98/100.

MARTIN GARCIA BAR: The Flats (rock outcrops) in the estuary from Martin Garcia Island down to Farallon have remained practically unchanged for fifty years. The Island itself, in Lat. 23° 11′ S. and Long. 58° 17′ W. is an almost circular mass of granite, about 27 m. high and some three miles in circumference. Shores are muddy but also rocky.

It commands the entrance to the Rivers Parana and Uruguay, and all vessels using these rivers must pass within half a mile of the shore on the South side, or within less than a mile by the Northern Channel. There is an Argentine Naval detachment there.

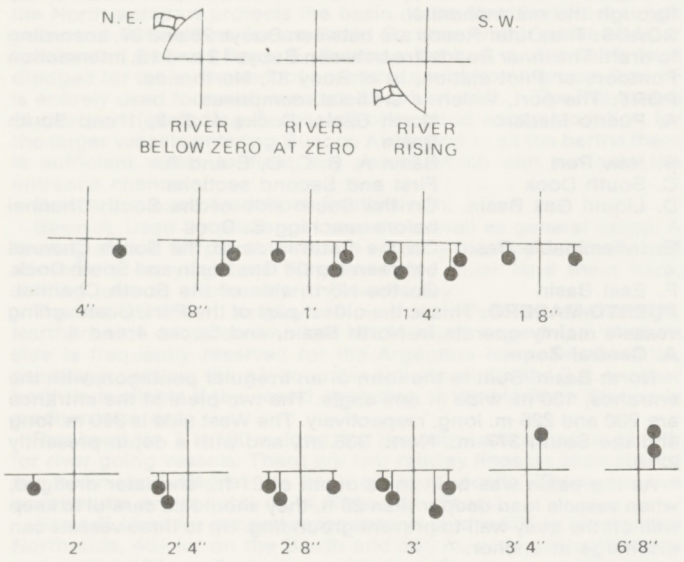
Important: It is always said that Martin Garcia Bar rules the rivers; this is not strictly correct as, usually in the second half of the year, there may be less water in the stretches above Rosario, and at times even below San Nicolas to San Pedro, where new shallows keep forming which have constantly to be watched. Caution should be used, therefore, from July to January in this connection.

Light House. At an elevation of 38 m. a light is shown from a circular stone tower standing 13 m. high in the centre of the island.

Radio communication. The lighthouse is provided with a wireless station (call letters LOH) which transmits the depth of water on the semaphore at the following hours: 2, 5, 8, 11, 14, 17, 20, and 2300 hours.

Tidal Signals. These are made from a signal mast placed alongside the lighthouse.

Day Signals



The figures given below the corresponding signals indicate the level of the river in feet and inches either above or below zero mark.

To obtain the effective depth in Martin Garcia Channels, 26 cm. (10 in.) should be deducted from the draft of water indicated on the semaphore

Night Signals

(White flash)	Cycle: 30 seconds
(Red flash)	Long flash: 2.5 sec. each.
(Green flash)	Short flash: 6/10 sec. each.
White flashes	Rising tide: One long.
	Falling tide: Two short.
Red flashes	Above zero:
	For each m.: One long.
	For each 10 cm.: One short.
Green flashes	Below zero:
	For each m.: One long.
	For each 10 cm.: One short.
Green and red flashes	Zero:
	One green and one red, both short.

Depth of water here varies from hour to hour, with no pattern, and is not dependant on the depth of water in the Parana. The only relation between the River Parana and Martin Garcia and San Pedro Bars, seems to be that with a full and strong river, the water which is blown into the Plate Estuary by Southerly winds against the strong head of the river, makes deeper water than a similar Southerly wind opposed to a smaller stream from the river. Likewise, the water blown out to sea by Northerly winds causes lower depths when the river is running strongly than when it is low. The effect is almost that of a new or full moon on the lunar tides.

It must always be remembered, therefore, that the dominant factors from Martin Garcia seawards are the direction and force of the wind. A Southerly wind will bank up the water, while a Northerly wind will blow it out. There may be, say, 30 ft. in the Parana, with a strong North wind, and less than 20 ft. on Martin Garcia. With the wind in the Southeast, the depth at Martin Garcia can rise in a few hours up to 30 ft.

A prudent course is never to attempt to cross Martin Garcia drawing more than 25 ft. even with the river at its highest.

Martin Garcia lies at km. 99.4 from Buenos Aires, via Intersection, i.e. at km. 62.4 from Intersection.

Vessels continue North to km. 140, at which point the Uruguay and Parana Rivers meet to form the River Plate. This is opposite Nueva Palmira in Uruguay, and at this point the River Uruguay buoy numbers start from km. 0, while the Parana numbering continues from 140 on through the Parana Bravo, which is the Northerly arm of the extensive Parana Delta.

WEATHER: *The yearly average direction of winds* of Force 7 or more, as observed at Recalada Lightship shows:

N.	N.E.	E.	S.E.	S.	S.W.	W.	N.W.
0.8	1.3	2.7	3.4	5.2	3.7	1.9	1.3

expressed in per cent of winds observed, the least frequent being the North. Division is relatively even over the year, with perhaps August showing a higher incidence of storms.

The average velocity of winds from the various directions, over the year, is 6.8 knots on the coast or 12.5 knots at Recalada Lightship, the highest figures being from S.E., S. and S.W. at 8.3, 9.3 and 9.2 knots respectively.

Percentagewise the direction of the winds through the year is remarkably even:

N.	N.E.	E.	S.E	S.	S.W.	W.	N.W.	calm
12.7	15.8	14.4	14.2	11.3	9.7	6.8	9.2	5.8

Visibility in the Plate area is normally good; rain storms may temporarily affect it, but these are usually of short duration. Fog (visibility less than 1,000 m.) or mist (visibility 1/2,000 m.) occurs from April to October, with June showing the highest percentage of fogs (13%). North winds seem to favour the forming of fog, as these figures show.

Calm	%fog	11	SE	12
N		24	S	6
NE		17	SW	0
E		5	W	3
			NW	13

Fog on the river forms by a cooling from below of warm air which drifts from E. or N.E., and is formed only when the temperature of the air is greater than that of the water. If the current augments its velocity, the fog lifts and visibility improves at sea level. Shore fogs usually affect only the coast and are of short duration.

Rain falls, on average, 92 days a year, with a total of 1,089 mm. yearly in Buenos Aires, spread evenly through the year with a high in January of 113 mm.

Humidity is high, on average 77% with 82% Winter, and 71% Summer months.

Electric storms are not frequent, and usually limited in extent.

Average yearly temperature is 16.6° C, in Summer 22.2°, Autumn 17.2°, Winter 11.2° and Spring 16°. Extremes correspond to January 43.3° (all-time high) and minus 5.6° in July.

ACTION OF THE WIND ON TIDES: In this large body of enclosed and shallow water winds up and down its axis raise or lower the water level very appreciably.

Cross winds in general have much less effect, and the inner and centre sections of the Plate show greater variations than the outer part. We show below a table as estimated by the Hydrographic Office, based on many years observations showing the variations, in cm., due to speed and direction of the winds. The values quoted must be applied to the astronomic tidal figures to arrive at a net level over datum.

Four new tide-gauges have been installed – two in Punta Indio Canal, at km. 99 and km. 180, and two up-river. Eventually four more will operate at Palermo, Banco Ortiz, Martin Garcia and Atalaya. Connected to the Hydrographic Office, the date will be incorporated into the regular tidal bulletins.

Table showing variations in river level according to force and direction of wind in the River Plate

expressed in centimetres.

	Kilometres/hour								
	10	20	30	40	50	60	70	80	sign

(source: Naval Hydrographic Service)

The tidal forecasts transmitted regularly over LRA (870 kc/s.), in telephony, in Spanish are, therefore, a combination of astronomical tide figures and meteorological influences on this basis.

Wind direction also affects the hours of the tide. In general, time of high water is not affected, but low water can be delayed or advanced by the wind force.

MITRE CANAL: The Canal runs some five miles offshore, starting from km. 12 in the access channel, and means a saving of some 30 miles for vessels going up river (or much more to the oil port of Campana), as well as the saving of time loss incurred in waiting for water depth to the Martin Garcia Bar.

Opposite San Fernando the canal enters the Parana de las Palmas branch of the Parana, through the "Las Viboras" Channel. From here on this arm of the river is deep enough to need nothing beyond the straightening of two or three sharp curves, to accommodate long vessels.

Logically, this does not guarantee 30 ft. draft up river at all times, the normal rise and fall of the river controls this, but during most of the year 30 ft. is obtainable to Rosario and San Lorenzo. In actual fact, the Parana River is tidal up to Rosario, and tides are felt all year round to Villa Constitucion, and in low water seasons, to Rosario itself. Passes between San Nicolas and Rosario also require constant attention, being at present only 22 ft.

Until the several sharp bends above Campana have been straightened length will be restricted to 200 m. o.a.l., by day only, with night navigation solely for vessels of 100 m. o.a.l. or less.

PARANA RIVER: Maximum drafts permitted up to km. 585 (Santa Fe) are governed by the Martin Garcia Bar, and must also, logically, take into account river conditions.

The River Parana rises in Brazil, and is formed by a junction of a number of rivers, the principal tributary being the Paraguay River.

It is a great river at all times, conveying an immense volume of water to the Atlantic. The Northern bank is comparatively high and rocky, the Southern bank low.

The stretch above Rosario is entirely riverlike in behaviour with an annual flood, rising and falling yearly. From Rosario to Martin Garcia Bar, where the river joins the Uruguay River to form the River Plate, there is also an annual flood, but this part is also influenced by the Plate tides. This section can be divided into two, from San Pedro to Villa Constitucion where the tidal fluctuations are always felt, and from Villa Constitucion to Rosario where the tide makes its influence felt only in periods of low water in the river.

Maximum depth in the river is normally reached in March and the low in September, but it is irregular in behaviour. There is a possibility that the series of dams being built in Brazil for hydroelectric purposes may eventually regularize the river by permitting some control over the seasonal increases.

When the river commences to fall, care must be taken in calculating loaded draft a few days ahead, as the official figures may be reduced one or more feet without warning.

HIGH AND LOW WATER: Maximum and minimum figures registered between Rosario and San Pedro in the last ten years.

MAXIMUM DRAFT UP RIVER: When vessels by reason of their loaded draft have to complete loading at Buenos Aires or La Plata, they should never load deeper than two ft. less than the offical draft on the River Parana.

In the sector San Lorenzo/River Plate, when the height of the river is 4 ft. or more, one ft. must be calculated below keel depth; when the river is under 4 ft., two ft. clearance must be calculated.

In the sector Parana (Santa Fe)/San Lorenzo, when the height of the river on the hydrometer at Santa Fe is 5 ft 7 in. or more over zero, 2 ft. must be calculated under the keel with vessels of under 50 fiscal units, or 2 ft. 6 in. over that size. When the depth on the hydrometer is less than 5 ft. 7 in. (1.70 m.) then 2 ft. 6 in. and 3 ft. 6 in. respectively must be allowed.

These safety margins for the Parana/San Lorenzo/Santa Fe zone refer to river navigation; in access channels and ports a margin of one ft. is sufficient.

The references to river height refer respectively to Rosario and Santa Fe.

A falling or rising river will also be taken into account.

BRIDGES: A road and rail bridge is being built from Zarate (km. 107 on Parana de las Palmas) across the various islands and arms of the Parana to Brazo Largo (km. 180 on the Parana Bravo). The span on this arm of the river will be over 200 m. and clearance at high water 45 m. Until the bridge is officially opened, night-time navigation under it is prohibited.

A bridge from Resistencia (Capital of the Chaco Province) connects with Corrientes (Capital of Corrientes Province). This does not affect ocean shipping, beyond that going to Asuncion, and the clearance of the main span is 40 m. above high river level.

Two bridges are also under construction over the River Uruguay, one at Paysandu, which will not affect ocean shipping, and another at Puerto Unzue to Fray Bentos, in Uruguay. This latter will have a 220 m. span with 36 m. clearance above river level.

ATUCHA:

Situated on the left bank of the Parana de Las Palmas at km. 132, fifteen miles upstream from Zarate, and 135 miles by river from Buenos Aires.

BERTH: A small berth 33 m. long with two dolphins in 40 ft. built especially for the discharge of heavy material for the new Atomic Energy Plant. There is a 300 ton heavy lift crane on the concrete platform. The plant is now in full operation.

PORT AUTHORITIES: There are no port authorities here, and the port comes under the jurisdiction of Zarate.

BUENOS AIRES: 34.36 S. 58.22 W. (See Plan)

"A" category port

Refer to beginning of Argentina and River Plate Ports.

APPROACHES: Access is by the "Punta Indio" channel which requires constant dredging and commences just West of the Recalada Lightship, which is situated 30 km. due South of Montevideo. The channel with 28 ft. 6 ins. on a width of 200 m. or 23 ft. over 200 m. winds up to the Outer Roads, which are some 37 km. from the Port. Direct entrance is by a channel, dredged to 29 ft 6 ins. with a 50 m. width, and 28ft. 6 ins. on an 80 m. width, to within 10 km., where the channel divides into North Channel, serving the New Port and Madero Port berths, and South Channel, for the rest of the port. North Channel at present has a depth of 28 ft. 6 ins. with a width of 50 m. or 22 ft. with 80 m. width. South Channel has 23 ft. 6ins. with a width of 35 m., or 21 ft. 6 ins. over 50 m. All depths given here and elsewhere refer to the zero of the Riachuelo tidal indicator and semaphore in Buenos Aires port, which practically corresponds to the level of the ordinary lowest water, and is marked 0.72 m. under the average medium level of tides. Tides average 3 ft., but the principal factor is that of wind, which can raise or lower the water by 5 ft. or more.

The Mitre Channel enters the access channel at Buoy 12, by the Inner Roads.

When large passenger liners or LASH vessels are entering or leaving, it is possible to have the access channel closed to all other traffic for a period of four hours on account of the narrowness of the dredged channel.

The fixed zero mark on the tidal indicator and semaphore is practically corresponding to the level of the ordinary lowest waters and is marked 0.72 m. under the average medium level of tides.

Vessels with draft of up to 32 ft. FW have proceeded safely through the main channel.

ROADS: The Outer Roads are between Buoys 25 and 37, according to draft. The Inner Roads are between Buoys 12 and 15. Intersection Pontoon, or Pilot station, is at Buoy 37, North side.

PORT: The port, which is artificial, comprises:

A. Puerto Madero	North Basin, Docks 4, 3, 2, 1 and South Basin.
B. New Port	Basin A, B, C, D, E and F.
C. South Dock	First and Second sections.
D. Liquid Gas Basin	On the South side of the South Channel before reaching S. Dock
E. Inflammable Basin	On the South side of the South Channel between Liquid Gas Basin and South Dock.
F. East Basin	On the North side of the South Channel.

PUERTO MADERO: This is the oldest part of the Port. Ocean going vessels mainly operate in North Basin, and Docks 4 and 3.

A. Central Zone

North Basin. Built in the form of an irregular pentagon, with the entrance, 100 m. wide in one angle. The two piers at the entrance are 200 and 225 m. long, respectively. The West side is 390 m. long and the South 377 m., North 335 m., and with a depth presently 22 ft.

As the basin was built for a depth of 21 ft., and later dredged, when vessels load deeper than 20 ft. they should be careful to keep well off the quay wall to prevent grounding. Up to three vessels can discharge at anchor.

There are two dry docks in the basin, and a repair shop.

Usually only one berth, section 6, is used for loading/discharging operations, and sections 1 and 2 are used by vessels repairing or laid up, while sections 3 and 5 are for Navy use. The warehouse of section 7 is used by the Custom House.

Dock 4. connected to North Basin by a lock 197 m. long, and 25 m. wide. The dock itself is 630 m. long and 160 m. wide, with 20 ft. water. This lock was originally fitted with lock gates, as was that from Dock 1 to South Basin, but these have not been used for many years. The bottom of the lock, between all the docks, is of concrete.

On the West side there are four warehouses, each 4 storeys high and twelve 3-ton cranes. Berths, or sections, numbered 1 to 4.

On the East side there are four two-storey warehouses and twenty-three 2.5-ton cranes. There are also several sheds behind and parallel with the warehouses which give on to the dock, sections numbered 5 to 8.

Between berths 6 and 7 on the East side there is a large open space where vessels or lighters can discharge direct to trucks or to railcars. Trucks may also go alongside at the other berths, at all of which there are railway lines, but space is limited.

The dock heads are used for discharging sand and gravel from barges.

Dock 3. South of Dock 4, connected by a cutting 70 m. long by 20 m. wide, with a swing-bridge. This dock is 690 m. long and 160 m. wide, depth also 20 ft.

On the West side, berths 1 to 5, there are four four-storey warehouses, and there are thirteen 3-ton cranes. There was a fifth warehouse at No. 3, burnt down and not rebuilt; this now forms part

of the open space for general discharge and storage of imperishables.

On the East side, which is fitted with six 3-ton cranes, there are two elevators for grain. Unit three, with capacity for 6,000 tons in bulk and 1,200 tons in bags, fitted with 3 tubes and 3 chutes, can load 500 tons an hour bulk, or 160 bagged, by one spout only at a time. It is used for the smaller vessels in the trade with Brazil only. The other elevator in this Dock, No. 5, is used for storage.

Between the elevators, on the East side, there are open spaces where vessels may berth and discharge lumber or drummed cargo, but this section is limited to medium and small vessels only.

Dock 2. This is connected with Dock 3 by a cutting 60 m. long, and 20 m. wide, with a swing-bridge. The Dock is 570 m. long by 160 m. wide and 20 ft. deep at zero.

On the West side there are four berths, each with a warehouse, Nos. 1 and 4 being three-storey, and 2 and 3-storeys storeys high. There are fifteen 3-ton cranes.

Section 1 is no longer used for the storage of dangerous or noxious cargoes, although Section 2 is in use for parcel storage.

The grain elevators on the East side of the dock are in a state of disuse. Their demolition is envisaged in order to provide an open storage area.

Dock 1. Connects with Dock 2 by a cutting 80 m. long, 20 m. wide, with 19 ft. This dock is chiefly used by Government-owned river craft. On the West side there are 5 warehouses, and 18 cranes. There are also ample open spaces. On the East side there is an elevator, capacity 27,000 tons in bulk, and three sheds between Docks 1 and 2, at about 300 m. from the quay.

At the southern end of this dock a hazardous and inflammable cargo store has been established, known as Shed 0 (zero).

South Basin. This basin is connected with Dock 1 by a lock 184 m. long by 20 m. wide, with a swing-bridge.

None of the lock gates in Docks 1 to 4 are used as water gates, water level is tidal, and the gates are simply means of communication. There are only gates proper into Dock 4 and Dock 1 from the North and South basins respectively. These have not been used for many years, although they were originally functional and formed one lock of all the docks.

The basin is 1,029 m. long and an average width of 110 m. It is used by river craft, cross river passenger ferry boats, coasters, etc. A new ferry boat terminal has been built here, on the land side of the basin, with waiting rooms, Customs section, etc.

B. New Port. The New Port, lies to the North of Puerto Madero, and entrance is via the Northern Channel. A breakwater extending from the North anteport protects the basin of the New Port from rough seas, and extends as far as Basin D, from which point another breakwater protects Basin E. Between the two, a channel is kept dredged for the movement of coasters to and from upriver. Basin F is entirely used for small coasters and river craft.' The five basins of this part (excluding F, coastal) offer good accommodation for the larger vessels entering Buenos Aires, and in all the berths there is sufficient water to float any vessel which can navigate the entrance channels.

Basins are numbered from South/North.

Basin A. Used by passenger vessels as well as general cargo. A landing station for passengers has recently been opened here and all vessels carrying over 50 passengers must land them here, shifting later to another berth if necessary.

The basin is 365 m. long by 140 m. wide, with 870 m. of wharfage. Northern side can accommodate two medium/large ships. Western side is frequently reserved for the Argentine Navy. On the S.W., passenger section, there is room for one vessel. On the S.E. another berth is available if the vessel operating at the Maritime Station is medium size only.

Pier head No. 1 is 100 m. long, but is mostly used as waiting berth for river going vessels. There are two railway lines on each side of the basin, and also at the back of the deposits. There are five warehouses and a total of 14 three-ton cranes.

Basin B. Used for general cargo vessels, and is 525 m. long on the North side, 464 m. on the South and 151 m. wide at the Western end, with 1,165 m. of wharfage with room for seven medium/large ships.

There are ten warehouses, and a total of 29 cranes, all three tons.

Pier head No. 2 is 202 m. long. There are three 3-ton cranes, and as a rule large passenger vessels occupy this berth after shifting from the passenger station.

Section 6 and 7 of this basin are reserved for the State Fleet vessels, or if used by others must be vacated if required by the national vessels.

Basin C. This is 495 m. long on the North, 585 m. on the South and 175 m. wide at its Western end, with 1,284 m. wharfage for seven medium/large vessels.

On the South side there are three warehouses, built 20 m. back from the quay to facilitate operations. There are thirteen 3-ton cranes.

On the North and West sides there are no sheds, and this is used for operating directly to or from trucks or rail cars.

There are seven 3-ton cranes on the North and three on the West side.

On Pier head No. 3 which is 236 m. long there are two 3-ton cranes and a 20-ton crane.

Railway tracks are fitted with a third rail for narrow gauge traffic.

The South side of this basin is reserved for ELMA (State Fleet) vessels.

Basin D: This is 495 m. long on the North, 585 m. on the South and 194 m. wide at its Western end, with 1,519 m. of wharfage.

Along the Southern side is the Grain Elevator, which occupies all the water front and extends also along Pier Head No. 4 — 295 m. Capacity is at present 150,000 tons, with another 20,000 being added. It can deliver 13,500 t.p.d. to a total of five vessels. On the North and Western sides, vessels may work to or from trucks for direct delivery cargo. There are nine 3 ton cranes on the North and three on the West, and also three cranes capacity 30 tons each.

On the North side a Container yard has been commenced, at present operating with 25,000 sq.m. of pavement and 1 shed, 100 m. long, 10 m. high and 30 m. wide. There are also two side loaders for 20/22 tons and one for 35 tons. Eventually the flooring will be extended to twice the area. 20 ft or 40 ft. Containers can be handled. The handling of Containers has become quicker.

A further warehouse will be completed at the end of 1976 for the storage of general cargo and containers.

For vessels with a reduced number of Containers, Basin E, North side, can also be employed, using the same concentration area at the so called Ericson yard.

Basin E: The basin is 495 m. long on the North side, 585 m. on the South and 194 m. at the West end, with a total length of 1,797 m. Coal is discharged on the North side and there is also a warehouse there for other cargoes, although basically this basin is used for coal.

On Pier Head No. 5, which is 523 m. long, the Power plant discharges its coal or oil. There is one oil intake and two travelling grabs, capacity 4 tons each, and also a 30 ton crane.

On the South side of this Basin vessels operate loading or unloading fruit and generals. On the N.W. Pier there is another generator plant of the Italo-Argentina de Electridad Co.

The South side of this dock is used by government vessels, but at its Eastern end, vessels may discharge liquid fuels. The Northern side has a store with 7,600 sq.m. of ground area. On the Western Head is a liquid product plant, (soda, tallow, vegetable oil etc.), although the berth is also used for general cargo.

Basin F: This faces North, and is used for river craft only, pusher barges and tugs, while on the land or West side there are discharging facilities for sand hoppers.

Pier Head No.6, between Basins E and F is 310 m. long, with room for one vessel only, and with two intakes for fuel oil and a 7.5 ton travelling grab for discharging Coal, capacity 150 t.p.h.

South Dock Zone.

This Dock is composed of two sections.

C. South Dock

First section. Has continuous quays on both sides, a width of 90 m. for most of its length, widening to a turning basin before reaching the connecting channel. The West quay is 911 m. long, and the East side is 1,109 m. long, both being used for general cargo and produce.

The refrigeration plants on the West side has now been demolished, and frozen meat is no longer shipped from this dock.

On the East side of the turning basin there is an elevator with capacity 6,500 tons, with four tubes and three chutes, and another storage shed capacity, 19,000 tons grain. Loading is only possible over one tube at a time rate 400 t.p.h. There are also tanks for edible oils here, pumping rate 150 t.p.h.

On the West side three 3-ton cranes and nine 1.5 ton cranes.

Second section. The connecting channel is 90 m. wide, with earth banks. Jetties for discharging petroleum are placed along the East side, while on the West there is a continuous quay 1,000 m. long, on which there are four 3-ton cranes and eight 1.5-ton cranes for discharging sand.

There are seven berths, five of which are for general use, one for the power plant for discharge of coal, with a 5-ton grab, which is now out of use, and one elevator berth, unit ten, capacity 23,500 tons. The loading bridge has five turrets, each with two tubes and one chute. Only one can load at a time, rate 400 t.p.h.

There are eight petroleum jetties on the East side for discharge of tankers and loading oil barges ex shore tanks. The jetties are marked A to H.

On reaching a draft of 23 ft. 6 in. vessels must shift to New Port.

D. Liquid Gas Basin. The Liquid Gas basin lies on the South side of the channel, immediately East from the Inflammables Basin, and consists of a central mooring platform 356 m. long, with four pairs of dolphins and two mooring blocks at each end, all joined by a foot gangway. The basin is protected from the S.E. by a breakwater 850 m. long, in the form of an inverted "L". The Gas lines are insulated to carry Liquid gas at minus 45°C.

Only two tankers are allowed to use the basin at a time.

As with the Inflammables Basin, all transit to land is by launch.

E. Inflammable Basin. This is situated outside the South Channel in front of km. 0.500 and about 300 m. distant from the axis of the Channel and at a right angle. The dimensions are as follows: length: 483 m. on the East side, 323 m. on the West side, 185 m. on the S.W. side and 72 m. on the South side. The dock walls at the entrance are 44 m. long on each side. The entrance is 50 m. wide. All the dock walls of this basin are of cement, as well as the intakes and landing dolphins. It has 6 intakes, 6 dolphins and 12 jetties for moorinrcessels. The present tank storage in South Dock lies to the S.E. of this basin at a distance of about 1,000 m. The land lying between the South Dock and the Inflammables Basin is used for erecting tanks.

Ocean going tankers discharge at the piers on the West side. There are no facilities for reaching the city by land and therefore all the transport of officials, crew, stores, etc., must be done by launch.

The oil for the Y.P.F. tanks on the East side of the Basin and the M.O.P workshops is sent from South Dock by piping under the South Channel.

F. East Basin. At the entrance to the South Anteport, a breakwater and two new basins have been constructed.

Basin No. 1 is used exclusively by the Port Works Department for

laying up and repairing dredgers and other maintenance craft. It also contains a dry dock and a shipyard. Depth of water is 24 ft. in the basin but only 16 ft. at the entrance.

Basin No. 2, in form an irregular quadrilateral, is separated from No. 1 by a mole, and is 146 m. wide at the entrance, 170 at the base and with walls 372 m. long to the S.E. and 294 m. long to the West, allowing a number of vessels to berth. Alongside this mole is the SEGBA Power Plant. Depth in the basin varies from 24 ft. to 14 ft. at the entrance.

From No. 2 there is a mole parallel to the South Access channel, 260 m. long, with a central salient 120 m. long, and two side salients 15 m. long each, and at 55 m. from the central mole. This is used by tankers discharging fuel for the Power Plant. There is one crane, 16 tons, and a narrow gauge railway line.

The breakwater has been built on the South side of the access channel as a protection for the basins, and commences 100 m. South of the light buoy on km. 1 of this canal.

South Anteport. The construction of the Inflammables Basin, and of the East Basins, before arriving at the entrance to South Dock, Riachuelo or South Basin has created an Anteport. The North part has a mole 384 m. long from East Basin No. 1 to South Basin. This is used by the Port Works Department for workshops, deposits and offices.

The Prefecture has an office here, on top of which is a mast two m. high, used as a signal station. A white-edged red flag by day or a flashing red light by night indicates that a vessel is entering by the Southern Channel from km. 8 to the Anteport. This signal will remain until the vessel reaches the Anteport, and signifies that the Channel is closed to all except tugs, sand hoppers and river passenger craft, provided draft does not exceed 14 in.

TUGS: From vessels drawing up to 22 ft., service is rendered by a bow tug from km. 5, and a stern tug from km. 1, or vice versa, and to or from kms. 8 and 4 respectively when draft exceeds 22 ft.

Stand-by time will be charged if a vessel is delayed in entering or leaving by bad weather, fog, low water, no berth, etc., plus usual Sunday/holiday surcharge.

Tug hours now coincide with ordinary port working hours and time is counted from the hour they leave their moorings and until they return.

When a vessel is leaving port, and tugs are ordered to accompany her beyond normal limits, an overcharge will be made on an hourly basis.

Once a vessel is moored, all further service in the same section will be charged by hour. If the vessel shifts section, this movement is charged plus the sections traversed.

A special compensation charge is made when tugs are ordered but not used.

For the services of tugs supplying electricity or steam, charges are made per day and per hour, varying with the size of the tug.

If vessels do not use their engines while under tow, a surcharge of 50% is made.

Tow ropes must be supplied by the vessel, but can also be hired. The towage company is not responsible for breakages, fouling of propeller, expenses of diver or any other consequence.

DENSITY: Fresh water.

FRESH WATER: There are hydrants at all berths, with very few exceptions, at which vessels can take water at a charge per cu.m.

There are no hydrants in the Inflammable Basin, and only at Berth No. 1 on either side of Basin E in the New Port.

Delivery rate varies from 5 to 10 tons per hour, depending on the number of vessels taking water, time of day, etc. An extra charge is made in overtime.

FUEL: Available, by barge.

CARGO: *Classification of import cargo.* Argentina being a tariff protected country, all cargo landed is subject to Customs control.

To facilitate control, there are Custom House Warehouses on the city side of the dock zone, on the quays, in the South Dock, and others away from the quays. The Dock Zone is enclosed.

The transport of all goods from vessels is currently effected by State owned vehicles. There are no longer any private wharehouses.

All fine cargo, cargo in cases, and most baled cargo must be discharged to Custom House Warehouses, direct from the ship, by means of dock cranes.

Other cargo in cases, barrels, etc., which might be damaged if stowed in the open air, also cargo which from its nature might damage other cargo stowed with it must go to the Custom House Warehouses away from the quays, and is conveyed there by port railway wagons that take the cargo from alongside the ship. This same class of cargo can also be sent to private fiscal warehouses and is similarly conveyed there from the ship's side by railway wagons.

Cargo that can be stowed in the open air without risk of damage, such as cases of glass, motor cars, sanitary ware, etc., is also conveyed from the ship's side by railway wagons to open spaces (plazoletas) within the dock zone, reserved for the stowage of such cargo.

Certain classes of cargo, such as bales of gunnies, jute, rice, agricultural implements, and all articles the nature of which can be seen at a glance, can be discharged direct to consignees' carts, motor lorries, etc., from the ship's tackle. Also certain classes of rough cargo, such as coal, lumber, iron, cement, etc., must be discharged direct in this way.

The Custom House, in order to expedite despatch, has enlarged the list of goods that can be discharged in this manner, and also authorises the carrying out of these operations outside ordinary working hours, which has hitherto been prohibited.

Storage of goods in Custom House Deposits is limited to six months, counting from the date of the vessel's entrance to port.

All classes of cargo can be discharged into lighters (by permit from the Custom House).

Discharge to lighters can take place in all sections of the port.

Use of special deposit called "Transit" for reception of general cargo.

In order to facilitate the discharge of vessels with general cargo for delivery to Fiscal Warehouse, the Custom House authorities have authorised the direct discharge from vessels to a special warehouse which receives all the cargo as it comes out of the hold, labour being supplied by Agents.

This facility is only available at certain sections of the port and whenever a vessel discharges at a berth where there is a "Transit" deposit, this must be used unless the vessel carried homogeneous cargo or of such a nature that it does not require the use of the "Transit" deposit.

The cargo discharged in these special warehouses must be delivered by the Agents at ship's expense, into the Customs warehouses.

Cargo in transit to or from Paraguay is now stored in sections of Warehouse No. 5 of Dock 4. The goods may remain in the warehouse, once onwards transportation has been arranged, for three days, where the ocean carrier is operating, or in a special shed in Section 1 of Dock 2, where the river vessels load for that country.

Cargo in transit for other countries can be deposited in any approved space. In all cases, special permit must be obtained in order not to lose the status of "transit cargo".

Time limit for the permanency of "In transit" cargo in lighters. Maximum time limit is set at ninety days, but it is possible to renew this, while on the expiry of such authorisation, the cargo must be discharged to fiscal warehouses, and be subject to all the rules and conditions governing this operation.

The Custom House is authorised to grant an extension of time when the interested party requests this before expiration date, and providing the causes are, in the opinion of the Custom House Authorities, justified.

Cargo in transit that is discharged by mistake to fiscal deposit, has to be removed from there within 48 hours; otherwise it must be added to the cargo manifest as a surplus discharge.

A tariff in the style of railway tariffs is in force with a variety of charges, all depending on the class and nature of the cargo that is being trans-shipped. Therefore, Shipowners, their Agents and Forwarding Agents should, in every case, communicate with their Agents in Buenos Aires to ascertain the exact cost of these charges. Subsequently to the new tariff being enforced, various increases were declared, so that the extra freight on cargo trans-shipped is now an important item to be considered when accepting through bookings.

Delivery of cargo. The receiver of the merchandise or holder of the Bill of Lading must deliver this document to the Custom House to clear the goods. The merchandise, whether for deposit of direct despatch is delivered to the Consignees without the intervention of the Master of the vessel or the Agents. The Bill of Lading remains with the Custom House, under whose control the cargo is delivered. The Custom House verifies the legitimacy of ownership, and whether all the import dues or services have been paid on the merchandise before leaving warehouse.

Collection of freights on imported goods. In the Argentine, the Custom House releases the cargo, and not the Agent, therefore the only means of ensuring collection of freight when payable at destination, is for the Agent to place a judicial embargo on the entire cargo. This action necessitates the Consignee first obtaining the Agent's conformity to the documents before the Custom House will accept them and deliver the goods.

Without an embargo the Agent, once he has presented the Cargo Manifest, cannot intervene between the Custom House and Consignee. Not even the retention by Shipper of all the signed original Bills of Lading is a safeguard, because the Custom House, which is only concerned with the delivery of the cargo to the lawful Owner and is in no way concerned with the freight payment, will deliver the cargo against production by consignee of a bank guarantee that the Bills of Lading will be forthcoming in due course.

From the foregoing it may be gathered that freight should always be prepaid when possible.

The Custom House usually does not release the cargo, if the Bills of Lading are claused "Payable at destination", until the importer produces an account for freight, duly receipted by the Agent, but this is not a sufficient cover, as the Customs are not under any legal obligation to effect this control, and therefore cannot be held responsible for the freight of goods delivered without it being paid.

Cargo discharged to or loaded from vehicles. The Custom House Administrator has authorised the access of vehicles of all classes to the quays of this port for the reception or delivery of cargo of any class, size or weight.

It is necessary for the importers, exporters or Custom House brokers to obtain a permit for this, and the applicant is held responsible for any damage to port installations caused by said vehicles. Sufficient space must be left between truck and sheds to allow passage of Port Authority vehicles and fire engines.

The authorities will not be responsible for any accidents to the vehicles, their crew or their cargo. The vehicles must be so handled as not to interfere with the railway traffic.

Discharge of Inflammables. This is now permitted in the Port of Buenos Aires under strict security control.

Discharge of Sulphur. It is compulsory to have a motor launch fire extinguisher alongside vessels during the discharge of sulphur. An

extra man is also required at each hold for carrying water to the stevedores.

Delivery of fresh fruit. The Custom House allows the consignees of fresh fruit to take away their cargo immediately on vessel's arrival, upon presentation of a special permit endorsed by a bank and Agents, and whereby the receivers guarantee presentation of the Bill of Lading in due course.

Placing of Lighters between Vessel and Wharf. When lighters are placed between the vessel and the wharf for the convenience of discharging a vessel's hold, full Port Service Dues are charged.

Lighters may be placed between the vessel and the wharf when the vessel's work to shore is not interfered with thereby. In such cases the vessel will continue to pay full dues. Lighters are, in fact, not considered as occupying any berth unless they are allotted a special berth by the Custom House to load or discharge. It is only when lighters are so commissioned by the Custom House, that a vessel going alongside these lighters would be charged in the category of a vessel lying second off.

Discharge of Heavy Lifts. There are three floating cranes, one for liftsofup to 60 tons, another of 100 tons and a new one of 250 tons. The first two may have lost part of their capacity. The 250-ton crane can navigate carrying its cargo, so making special movement of the vessel unnecessary, but the two smaller cranes must operate between ship and shore in swivelling movement.

There is also a floating crane capacity 30 tons belonging to the Navy, and two others, each 75 tons capacity, belonging to the State Fleet.

Hire counts from getting the crane alongside, and in condition to work, until work is completed, plus an extra hour to compensate crews from getting the crane back to its mooring place. Slings must be supplied by the lessee, and no responsibility is accepted for damage or breakage, the charge being on a tonnage/hour basis.

The 250-ton crane is not self propelled, and has a length of 45 m., 23 m. beam and a draft of 5 m., displacing 1,400 tons. If required it can be used in salvage operations, towage being for account of lessee.

Normally these cranes, except for the 250-ton crane, navigate under their own power, but the Craneman has the right to employ a tug or tugs for lessee's account when he considers it necessary and two tugs are also generally employed.

Wharf Cranes. The hire of shore cranes is charged by the Port Administration to the Agents of the vessel requesting their use. Special permission must be obtained for overtime work, and also to have shore cranes handle ship's machinery, ballast, or any other non-commercial commodity.

Movable Cranes. Charged per hour from arrival until work finishes. These are used for shifting cargo from one wagon to another, or for shifting cargo for convenience of consignees.

Advertisements. Advices of arrival of vessels with cargo, inspections of general cargo and notices of general average are published in the local press.

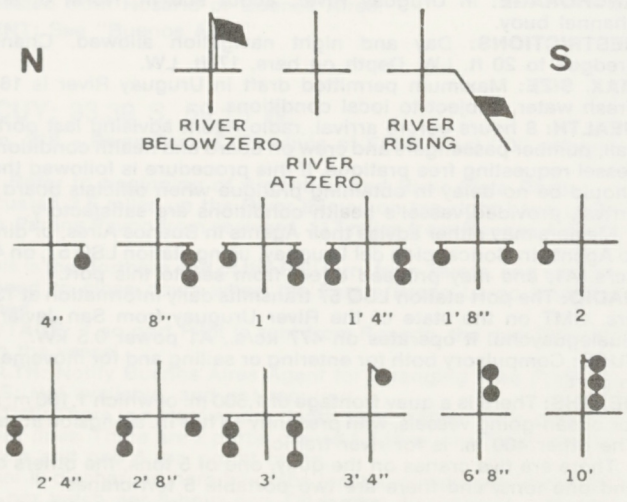
Notarial Protest and extensions. When vessels arrive with cargo it is customary to note protest before a Public Notary, for which there are fixed fees per page to be filled in, plus further fees should an extension be necessary later.

TIDAL SIGNALS: The following tidal signals, shown from a semaphore on the North side of the entrance to South Basin Lat. 34° 38′ S. Long. 58° 21′ W. (approx.), indicate the height of the water above or below zero.

The signals are made with balls and black flags by day and with flashes by night as shown in the diagram below, seen from the Anteport looking out towards the river.

To indicate that no signals are being made at the semaphore, a flag is hoisted to the masthead, and another at the yard-arm.

SIGNALS BY DAY



SIGNALS BY NIGHT

(White flash) Cycle: 30 seconds.
(Red flash) Long flash: 2.5 secs. each.
(Green flash) Short flash: 6/10 sec. each.

White flashes
Rising tide: One long.
Falling tide: Two short.

Red flashes
Above zero:
For each metre: One long.
for each 10 centimetres: One short.

Green flashes
Below zero:
For each metre: One long.
For each 10 centimetres: One short.

Green and red flashes
Zero:
One green and one red, both short.

A weekly bulletin is issued by the public works ministry and widely distributed among Pilots and Agents reports depths referred to the zero of the Riachuelo Indicator in channels, passages, basins and berths and it is possible to know the real depths at that moment in each part of the port area.

GENERAL: *Port Zone.* No one is permitted to enter the port zone on Sundays or holidays, or any working day after 1800 hrs., unless supplied with a pass. Visitors to ships must have cards issued by the Agents and approved by the authorities.

There are severai access gates open during day time, but after working hours and on Saturdays/Sundays and holidays only those at Cangallo Street (by Dock 4) and Maipu (New Port) are open on a 24-hour basis.

Allotment of Berths. Vessels to discharge are allotted berths by the Port Authorities in strict turn, as from arrival in the roads, and according to the nature of the cargo to discharge or load and its quantity. A certain time is granted for completing operations, though an extension can usually be obtained, the Port Authority reserving the right to order a vessel out if operations are not completed on time.

Berths are allotted in South Dock when the greater part of a vessel's cargo is for the factories in that zone.

Berths at the Elevators. These are allotted in accordance with the certificate given by the National Grain Board, and in strict order of arrival in the roads.

Time limit for occupying berths and commencing operations. Vessels which do not commence operations within four hours of the first ordinary period, are liable to have the berth given to others. Similarly those which suspend operations without due cause may lose the berth.

ELMA berths in New Port. Any vessels may solicit one of the reserved berths, if vacant, but must shift as soon as a State vessei requires the berth.

Discharge of Inflammables. Consignees must take delivery from alongside. Should Customs clearance for such cargo not be ready, it must be discharged into lighters and the authorities will indicate where it must be placed.

Entrance. Vessels can enter or leave at any time of day or night, with advance notice to the authorities.

Movements. Vessels are not allowed to shift if their draft is not at least ten inches less than the depth of water on the semaphore, with a rising river. Nc vessel can interrupt the operations of another to shift within the port, but if ready to sail, the other vessel must facilitate its departure whatever the hour may be.

All vessels moored alongside one another, at the quay, must reciprocally facilitate their operations, and open out when the vessel on the inside finishes her operations, and must leave or change berth. They must also make room for lighters with cargo for the vessel next to the quay, outside working hours.

When a vessel has to shift along the quay up to one ship's length to discharge or load from another hatch, neither towage nor pilotage is necessary when the shift is between the forward hatches, or the after hatches. Prior permission must be obtained.

Shifting from North to South or vice versa. There is no set rule, but usually vessels going from say, South Dock to New Port, will let tugs go and sail out to Intersection Roads to turn round and take up tugs again in the North Channel. It is also possible to have tugs follow out to km. 9, where the North and South Channels meet, turn there and come into the new berth with the same tugs, if length of vessel permits.

It is for the Master and Pilot to decide where the vessel will turn, depending on weather, draft, current, etc.

Opening of Dock bridges. The established time table, twice an hour is not observed, and Agents arrange for this when a vessel is ready to move through. Vessels should not attempt to pass the lock gates if clearance is less than ten cm. and the river is not rising. It must be remembered that the sole of the locks in each case is of concrete.

It is frequent in Madero docks to see vessels resting on the soft muddy bottom.

Prefecture Control. On both entering and leaving the Prefecture officers may control with the crew list that all members of the crew are on board, particularly on sailing.

Draft on sailing must be checked by the Pilot and Master, and duly recorded in the Pilot's book. Load lines are strictly checked; in case of hogging, drafts fore and aft are taken while in sagging marks will prevail.

Shiftings and manoeuvres in port are carried out under the responsibility of the Master, but Pilots are also responsible, at least to the Prefecture, since they are under direct authority and at the same time considered assessors to the Prefecture.

Trim is also controlled, no list is allowed, and maximum tolerance for difference of draft fore and aft is 6 to 7 ft. according to vessel's length overall. Vessels should not be down by the head.

Hatchways. All hatches must be kept closed when a vessel is not working. If hatches are found open when a vessel is idle, the vessel is fined.

Garbage. A garbage barge goes round the port every morning to take away the garbage, which must be left in drums slung over the stern ready for lowering into the barge. It is also possible to arrange for a barge to take off refuse from holds, old dunnage, bedding, etc. Collection is often a rushed affair, and good watch must be kept for the barge. Fines are imposed if garbage is not removed.

Working Hours. Ordinary working hours are now fixed as from 0700 to 1300 and 1300 to 1900 hrs. Tugs are now also on this same time table.

Overtime can be worked from 1900 to 0100 hrs. and from 0100 to 0700 hrs., but Stevedores are not allowed to take two consecutive shifts.

Custom House guards and other official workers follow the same schedule from Monday to Friday, but earn overtime on Saturdays, Sundays and holidays.

TELEPHONE: There is no special installation for vessels in port. Many Agents have one or more lines of their own, which can be placed on board, if there are connections available in that sector. The telephone company makes a connecting charge each time, at a high cost to the vessel, plus the usual charges for the service.

In Out-ports, the available Consular representations are stated under each port.

AUTHORITY: Administrador del Puerto Buenos Aires.

AGENT: Christophersen Internacional (Maritima) SA.
25 De Mayo 375 Buenos Aires. Telephones: 31-8349 31-0164.
Cable Address: Cristofsen. Telex: 122584 AB CRIBA.

CAMPANA: 35.15 S. 58.58 W. (See Plan)

(Province of Buenos Aires) "B" category port.

N.B. Refer to beginning of Argentina I and River Plate Ports.

On the left bank of the Parana de las Palmas arm of the Delta from seaward, 155 miles by river from Buenos Aires. The only pass which obstructs navigation is the Martin Garcia.

The port is mainly used for receiving and despatching petroleum and its products. There are also facilities for handling timber and general cargo, as well as steel tubes for the petroleum industry, both for internal requirements and for export, which are made here.

RESTRICTIONS: Draft is controlled by depth of water at Martin Garcia Bar. Daily draft forecasts made by local authorities. See "Mitre Channel" (Under, The River Plate).

MAX. SIZE: Up to 27 ft. draft, dependent on local river conditions.

TUGS: Not required.

BERTHS: From North to South the berths are:

National Mole. 20 ft. alongside, used for shipment of the steel tubes and movement in general. The mole is 116 m. long, with three electric cranes, 4 ton capacity and two mobile cranes.

Esso Mole H. Concrete pierhead, 16 m. long, over which crude oil is discharged through an 8 in. line. there is deep water at this mole which is mainly used for import cargo. There is also a belt conveyor equipment for loading petroleum coke in bulk.

Esso Mole G. A mile South of Mole H, fitted with an 8 in. line for discharge of crude from smaller tankers, in 18 ft. Length 14 m.

Esso Mole E. 130 m. long, with 24 ft. There are two intakes on this mole, of 6 in. the former being used for shipments of clean products and the latter both for crude and for shipment of clean products.

Esso Mole F. In 26 ft., 16 m. long, with a 10 in. line which can be used crude and for lubricants.

200 m. downstream there is a wharf, 70 m. long, in 14 ft. used for discharge of timber and sand.

There are no facilities for handling of grain or other produce.

HEALTH: Free Pratique can be obtained in the usual way, by notifying Buenos Aires Agents. Tankers lightening part of their cargo in Buenos Aires Roads, can take pratique here, provided that the convoy formed by the tanker and barges follows up to Campana, and no one on board has any contact with shore until after the medical visit. If the vessel is "unclean" however, pratique is taken before lightening.

MEDICAL: Doctors and hospital available.

DENSITY: Fresh water.

FRESH WATER: Available at Esso Moles and National Mole.

FUEL: Available at Esso berths. No barges.

CONSULS: At Rosario and Buenos Aires.

REPAIRS: Can be effected.

AUTHORITY: Administracion de los Puertos Parana.

AGENT: See "Buenos Aires".

CONCEPCION DEL URUGUAY: 32.29 S. 58.12 W. (See Plan)

Km. 183 – River Uruguay (Province of Entre Rios) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

On the left bank of the River Uruguay from seaward, 182 miles from Buenos Aires.

APPROACHES: Access to the port is by a channel 1,000 m. long, 45 m. wide, which is now only 11 ft. 5 in. at zero.

The roads of the port extend from the buoy marking the entrance to the channel, and about 2 km. up river, where vessels may anchor if awaiting berth.

Access is governed by the water on the Montana and Altos y Bajos passes, where there is normally no more than 17 ft. and this draft should be taken as a determining factor.

PILOTAGE: Pilots for Uruguay River board off Buenos Aires entry channel.

ANCHORAGE: In Uruguay River, about 900 m. North of entry channel buoy.

RESTRICTIONS: Day and night navigation allowed. Channel dredged to 20 ft. LW. Depth on bars, 17 ft. LW.

MAX. SIZE: Maximum permitted draft in Uruguay River is 18 ft. Fresh water, subject to local conditions.

HEALTH: 8 hours before arrival, radio Agent advising last port of call, number passengers and crew on board and health condition of vessel requesting free pratique. If this procedure is followed there should be no delay in obtaining pratique when officials board on arrival, provided vessel's health conditions are satisfactory.

Masters may either advise their Agents in Buenos Aires, or direct to Agents in Concepcion del Uruguay, using station LSQ 57, on 477 kc/s. A1, and may proceed direct from sea to this port.

RADIO: The port station LSQ 57 transmits daily information at 1300 hrs. GMT on the state of the River Uruguay from San Javier to Gualeguaychu. It operates on 477 kc/s., A1 power 0.5 kW.

TUGS: Compulsory both for entering or sailing and for movements in port.

BERTHS: There is a quay frontage of 1,500 m. of which 1,100 m. are for ocean-going vessels, with presently 16 ft. 4 in. alongside at zero. The other 400 m. is for river traffic.

There are five cranes on the quay, one of 5 tons, the others of 3 and one tons, and there are two portable 5 ton cranes.

New elevator capacity 20,000 tons, working with one tube 300 t.p.h.

There are several wharves at the South end of the mole for discharge of tankers.

Due to silting alongside quay, vessel should be prepared to be fendered about 1.5 m. off the quay.
MEDICAL: All medical facilities available.
TANKERS: Two berths for tankers up to 18 ft. draft.
YPF Berth: Eight hose connections, 12 in. and 6 in. diameter.
Esso Berth: Hose connections, 8 in. for naphtha, 6 in. for other products.
DENSITY: Fresh water.
FRESH WATER: Available, there are several hydrants of 1.5 in. diameter on the mole.
FUEL: Available from the State Oil Company at the pier, or by drums from other suppliers.
REPAIRS: National and privately owned workshops for all types of minor repairs.
DRY DOCKS: One, owned by Ministerio de Obras Publicas, length 70 m.
REPATRIATION: Can be arranged subject to Immigration formalities.
AIRPORT: Situated 3 km. away, with daily services to Buenos Aires.
CONSULS: There are Italian, French, Spanish and Uruguayan representatives.
POLICE/AMBULANCE/FIRE: Police tel. 2222; Fire Service tel. 2860; Ambulance tel. 1792; Hospital tel. 2464.
TELEPHONES: Arrangements can be made for placing telephone on board.
SHORE LEAVE: Permitted subject to Immigration control.
AUTHORITY: Capitania del Puerto Concepcion del Uruguay.
AGENT: See "Buenos Aires".

DIAMANTE: 32.05 S. 60.33 W. (See Plan)

Km. 533 – River Parana (Province of Entra Rios) "B" category port.
N.B. Refer to beginning of Argentina and River Plate Ports.
On the right bank of the River Parana from seaward, above Rosario and 286 miles by river from Buenos Aires.
APPROACHES: There is ample depth of water in the port and approaches, which is governed by the water on the various bars on the river, the shallowest above Rosario being Isla de los Pajaros, at km. 468 to km. 473.
PILOTAGE: There is no resident port Pilot, and Pilot has to be ordered from Rosario. Minimum 10 hours notice required. The river Pilot ends his duties in the outer roads.
HEALTH: Vessels arriving directly from abroad must take Free Pratique at San Nicolas or Rosario, with the usual pre-advice to Agents there, which is essential for preparation of Notice of Readiness.
RADIO: Nearest station is Rosario LSQ 38, on 477 kc/s. A1 LSQ broadcasts daily, at 1305 hrs., the depth of water in the Parana River from Los Ratones to Los Pajaros, and also the minimum depth between Santa Fe and Rosario.
TUGS: None available locally, but one tug is required on sailing from the new elevator berth and has to be ordered from Santa Fe.
BERTHS: Grain is loaded from the new elevator at the North end of the port, section 4, where there is 30 ft. Only one vessel may load at a time. Loading rate is up to 600 tons per tube per hour, work being possible with two tubes simultaneously.
It is possible to load a second vessel, lying second off, if the beam of the vessel alongside permits.
Storage capacity in port is about 50,000 tons, of which 20,000 tons are in elevator at section 4.
There are tanks for Vegetable Oil with a capacity of 4,000 tons. Pumping rate is about 120 t.p.h. to vessels' tanks.
FRESH WATER: Available at the new elevator berth.
FUEL: Not available.
REPAIRS: Only minor repairs possible.
DENSITY: Fresh water.
MEDICAL: Hospital available.
CONSULS: None. Outward bound consulate despatches should be requested from Rosario or Buenos Aires.
AGENT: See "Buenos Aires".

IBICUY: 33.39 S. 59.15 W.

Km. 218 – River Parana (Province of Entre Rios) "B" category port.
N.B. Refer to beginning of Argentina and River Plate Ports.
Situated 3.5 miles up the River Ibicuy, on the right bank of the River Parana Pavon from seaward, 117 miles from Buenos Aires by river.
This is the Northern end of the Rail ferry from Zarate, and which is destined to close down when the Zarate/Brazo Largo bridge is opened.
PILOTAGE: If no port Pilot is sent from Rosario, the river Pilot will berth the vessel.
HEALTH: Notify Buenos Aires Agent for arranging Free Pratique.
TUGS: Not available, and not required.
BERTHS: There is a steel wharf, depth 18 ft., 160 m. long, with four railway lines. There are 2 portal cranes 1.5 tons, one fixed crane of 10 tons and one 5 ton portal crane.
Coal is discharged here by grabs for the railway, rate about 200 tons per hatch per 8-hour day. Oil is also discharged at another wharf nearby into tanks belonging to the railway, there being 25 ft. here.
No grain has been loaded here for many years.
MEDICAL: Facilities available.
DENSITY: Fresh water.
FUEL: Not available.
FRESH WATER: Available on the quay; the railway provides hose, delivery rate 60 t.p.d.
REPAIRS: Not available.
CONSULS: None, clearance must be made at Buenos Aires.
AGENT: See "Buenos Aires".

LA PLATA: 34.54 S. 57.55 W. (See Plan)

(Province of Buenos Aires) "B" category port.
N.B. Refer to beginning of Argentina and River Plate ports.
This port is situated on the left bank of the estuary of the River Plate from seaward, 30 miles South of Buenos Aires. It is the capital of the Province of Buenos Aires and is rapidly becoming industrialised.
APPROACHES: Access to the port is by a channel, which leaves the main entrance channel to Buenos Aires at km. 57. This is constantly dredged, being usually at 28 ft. maximum. La Plata Roads extend for 3.5 miles from the moles.
PILOTAGE: Coming from the sea, or Montevideo, the Recalada or Uruguayan pilot will take the vessel to La Plata Roads 27 ft. where a La Plata port Pilot comes aboard.
From up river to La Plata, the river Pilot is dropped at Intersection, where a new Pilot takes the vessel to La Plata Roads for the Port Pilot to come aboard.
RESTRICTIONS: Vessels navigating in the entrance channel have preference over those in the River Santiago, and those which by reason of size must turn at Four Mouths have priority over others in their vicinity.
There must be no crossing or overtaking of vessels over 75 m. long or 11 m. beam, or 20 ft. draft and for this reason vessels ready to sail from Gran Dock will not let go while any vessel is entering by the entrance channel.
Vessels over 200 m. in length can only manoeuvre in daytime, with a minimum visibility of 1,000 m. and with a wind not exceeding 10 knots.
On entering or sailing on a rising tide minimum depth cannot exceed vessels draft, and on a falling tide there must be 50 cm. (1 ft. 8 in.) under the keel.
Regulations for the Santiago River Channel prohibit movement between sunset and sunrise for vessels over 140 m. long, or drawing over 24 ft. Vessels over 11 m. beam cannot cross or overtake, and vessels in this channel must not interfere with those moving in Four Mouths.
ANCHORAGE: Four miles S.E. of Recalada. The Navy controls a reserved zone between 34° 46′ and 44° 48′ S. and between the meridian 57° 48′ W. and a true bearing 220 from the buoy km. 7,700 at the end of the Eastern arm of the port, for Naval ships only.
MAX. SIZE: Regulations limit length, beam and draft to 215 m., 30 m. and 9.15 m. (30 ft.) respectively.
HEALTH: Free Pratique — radio messages should be sent direct to Agents in La Plata if vessel is entering direct.
RADIO: Station LOM 524 kc/s., A2. State oilfields have a VHF service, range 50 km. for communication with their vessels on 156.5 Mc/s. during the first 15 minutes of each hour.
TUGS: Two tugs must be used, each of a minimum 820 h.p. Normally join vessel in entrance channel.
BERTHS: The port comprises Rio Santiago, Gran Dock and the Propulsora berth, five km. up the river Santiago, also known as Port Ingeniero Rocca.
Rio Santiago: The grain elevators on the West side of the entrance channel are no longer in use, and their installations would require considerable repair. This berth is 450 m. long, due West of the Four Mouths turning basin. Four tanks for reception of liquid chemicals have been installed here, capacity 2,300 tons.
There are no fixed cranes at the berths, but a number of mobile units are in use. No lighters are available, unless brought from Buenos Aires.
Of the two Packing plants, one, Armour, is completely closed down and would need considerable repair to re-open. The other, Swift, is operating at less than capacity, for local demand, and any export Meat is trucked to Buenos Aires for shipment.
Gran Dock: Seventeen berths, depth 26 ft. alongside.
Propulsora: A cold rolling steel mill has been built inland and a 5-km. channel dredged to 30 ft. from "Cuatro Bocas". There is one berth here, 154 m. long, though vessels of up to 205 m. l.o.a. have operated here. The material used in the mill is imported in coils, and exports of cold rolled sheets and wire are also handled. There is one crane, 30 ton capacity and rate of discharge can reach 3,000 tons per 24-hour day.
Some 600 m. from the wharf itself, there is a turning basin 300 m. diameter. Vessels go in bow first, as there is less water to the South end of the wharf, and turn in this basin before returning down channel to La Plata proper. Only one vessel can operate at a time here. Vessels are secured to bollards on shore at the bow, and a mooring buoy astern.
TANKERS: Four tanker berths in Gran Dock, which are used exclusively for YPF. No facilities for slop discharge:
YPF Terminal handles crude oil, diesel, kerosene. Bunkers available ex-wharf.
Gran Dock is now used only for tankers by the National Oilfields. The turning basin at the South end being only 180 m. in diameter is sufficient for the larger vessels now operating here, and a new turning basin at Cuatro Bocas or Four Mouths, is dredged to 30 ft.

on a 400 m. diameter. This is at the junction of the access channel, River Santiago, and Gran Dock. Tankers head in to Gran Dock and reverse back to this basin.

In the 11 berths the intakes include one 24 in. line, and several of 16 in., 14 in. and 12 in.

In the West Channel, behind Gran Dock, there is one berth for liquid gas tankers, with a 12 in. line, with several discharge manifolds at 4 in.

Special regulations for Gran Dock permit vessels to moor with bows either inwards or outwards, indiscriminately. Those moored bows inwards (facing South) will be assigned, preferably to intakes 4, 5, 10 and 11, and must sail immediately after finishing operations, taking preference over others about to sail.

Vessels between 175 and 215 m. length, or drawing 22 ft. or more can navigate ahead or astern, and will turn in Four Mouths on entering or sailing as the case may be. When such vessels are moving stern first, the Prefecture will make sure that there are no craft of more than 5 m. beam moored on either side of the Armour Freezer, shifting these if necessary.

Vessels of less than 175 m. length or with a draft of less than 22 ft. must turn in the Turning Basin on entering or sailing.

Turbine steamers of over 140 m. in length will only use the Turning Basin in daylight.

For safety reasons there must be one tug and one fire-fighting craft on service and ready to sail.

No mooring second off is permitted except for tugs and vessels receiving dirty ballast or liquid from cleansing of tanks, or when supplying steam.

Degassing tanks is prohibited in port.

Heated repairs can only be carried out under deck and on special authorization from authorities.

MOORING: Vessels of up to 150 m. length will employ four men for mooring, and those over 150 m., six men. Mooring hours in ordinary time are from 0600/1800 hrs. on week days, 0600/1200 hrs. on Saturdays. There is a 50% extra from 1800/2400 hrs. on week days or from 1200/1800 hrs. Saturdays, and 100% at all other times.

SEMAPHORE: For night signalling of the depth of water in the access channel, the system is analogous to that at Martin Garcia and Riachuelo, Buenos Aires. By day signals are hoisted on a tower at km. 4,460 on the access channel arm if tide is rising. If the river is stationary or falling, no flag is hoisted.

MEDICAL: Doctors and hospital facilities available.

FRESH WATER: Delivery by barge, capacity 300 tons and pumping with barge's own pump, 100 t.p.h. There are also connections at the berth.

FUEL: Obtainable from YPF terminal. No barges available.

REPAIRS: All repairs can be effected except those requiring a dry dock.

CONSULS: Following countries are represented in La Plata: Belgium, Brazil, Great Britain, Italy, Norway and Spain. All other consuls at Buenos Aires.

SHORE LEAVE: Allowed, provided crew members in possession of Identification Cards.

AUTHORITY: Capitan de Puerto de La Plata.

AGENT: See "Buenos Aires".

RAMALLO: 33.32 S. 59.59 W. (See Plan)

Km. 326 – River Parana (Province of Buenos Aires) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

APPROACHES: The port is on the left bank of the Parana from seaward, where the river is divided into two by the Isal de las Hermanas. Traffic up river normally keeps to the starboard channel at this point, or the port when downstream and the entrance into Ramallo, although buoyed, is not lighted. No depths are given for the access but as a guide, when the main channel of the Parana is at say 24 ft., then vessels can safely load to 18 ft. in Ramallo. However, with the building of a new elevator, 20,000 tons capacity to replace that damaged some years back, movement has recommenced and the River Bulletin publishes 21 ft. for the elevator mole, and 24 ft. 6 in. for the hardboard mole. Nevertheless, it is advisable to check on access depths.

PILOTAGE: According to the Maritime Digest, port Pilot must bring the vessel in from the main channel, and take her out there again, a distance of 5 miles. The Roads are technically in the main Parana, but it is usual to anchor 150 m. off the wharves.

BERTHS: Apart from two damaged moles, out of use, there are, from South/North:

Grain Board Mole. There is an elevator, capacity 12,000 tons and two loading belts, load rate 250/300 t.p.h. each. The berth, for one vessel not over 145 m. length, consists of a small jetty and several dolphins and two mooring buoys.

National Mole. Concrete wharf 100 m. long, with three sheds on it, used by sand hoppers, and by river craft.

Fiplasto Mole. Used for discharge of fuel to the hardboard factory, from tankers. There are two dolphins with 24 ft. 6 in. water. As the current runs fast here, vessels may roll with any wind, and it is recommended to put out more ropes than usual, both fore and aft.

RADIO: Agents at San Nicolas must be contacted either through Buenos Aires Radio, or via Rosario, LSQ 38, on 477 kc/s. A 1.

TUGS: None required; in case of need they could be brought from Villa Constitucion.

FUEL: Not available.

FRESH WATER: Not available, except by drums from a tank on the National Mole.

MEDICAL: Attention available, but no hospital.

CONSULS: None; consular clearances can be effected at San Nicolas.

AGENT: See "Buenos Aires".

ROSARIO: 32.57 S. 60.33 W. (See Plan)

Km. 420 – River Parana (Province of Santa Fe) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

APPROACHES: Outer Roads, between buoys 410 and 413.

PILOTAGE: The port Pilot will come on board off km. 411, by launch. Vessel should whistle for him if not here to meet the ship (two long, one short).

ANCHORAGES: Between kilometres 410 and 413. Both anchors should be used.

RESTRICTIONS: *Fog.* In thick fog, special permit must be obtained to enter or leave. There is an average of six days fog per month in the period April/August but only one day per month in the rest of the year. Electric storms are frequent.

Maximum speed in Zone. From Saladillo stream North, there is a limit of six knots, up to Punta Barrancas.

There are no restrictions as to length and breadth of vessels, but draft and size of vessels are subject to river depth, which is very variable and no standard information can be given. Vessels up to 27 ft. draft are permitted to navigate the River Parana up to Rosario and San Lorenzo, provided vessels speed exceeds 10 knots and that there is at least 1 ft. keel clearance. Above Rosario controlling depth 22 ft. Vessels loading in Parana Ports must keep close contact with Agents for daily forecasts of admissible draft crossing Martin-Garcia Bar to avoid risk of overloading and consequent delays.

HEALTH: Free Pratique, use Radio LSQ 38, on 477 kc/s., or via Buenos Aires radio.

TUGS: Two tugs are available, controlled by Port Authority. However tugs are not normally required for berthing or unberthing.

RADIO: All messages through Pacheco Radio, call sign LPD, operating on 425 kHz. Pilots equipped with VHF radio Channel 16.

BERTHING: Alongside quays. There are seven elevators with the rate of loading up to 300 t.p.h. of grain. Also there are four warehouses for loading light grains or seed. Between these closed sheds are paved spaces which are used for delivery of cargo to road vehicles and vice versa.

Montserrat Wharf. Used by river craft only.

Unit I. Of the four jetties, only Nos. 1 and 2 are in use, and can deliver 170 tons of grain per hour each, accommodating one vessel in 21 ft.

Refineria Argentina Mole. In use for discharge of fuel oil only.

Unit II. Only one berth in 24 ft. 9 in. with two spouts, 200 t.p.h. each or 125 tons by-products.

Unit III. Known previously as Unit IV, can work with 2 tubes, 250 tons each, berth for one vessel only. The space between Units II and III is now out of use.

Unit IV. This is still under repair, a belt joining the three sheds previously known as Units 5, 6 and 7 is being installed. Eventually there will be two loading tubes and berth for one vessel.

Old Unit No. 8 has been dismantled and taken to Victoria.

Deposits 3 to 30. These still exist, but the area 3 to 17, originally allotted to Bolivia for use as a Free Zone, has now been replaced by the transfer of sheds 23 to 30 to the Bolivian zone.

In June, 1976 only sheds 23/4 and 25 had been readied for Bolivia, using a frontage of 342 m., with three portal cranes. The final transfers will be for a total of 54,667 sq.m., against the present 17,300 sq.m. and a frontage to the river of 998 m. There is no indication as to when this longstanding agreement will be fulfilled, and in the meantime, the area of sheds 3 to 17 is being used for transhipping cargo to Paraguay.

Sheds 29/30 have been rented, and the wharf being used in breaking up the navy aircraft carrier.

Unit V. Is the Old Unit X, renumbered. Two vessels can berth here and there are two spouts workable per vessel at 200 t.p.h. each spout.

What was Unit XI is now rented for the storage of oilseeds, and Unit XII has been dismantled. Vessels can berth here to load Wharf Offals.

New Pier. At this point the new pier, 616 m. long, has been finished, though with no cranes installed as yet, lines being in place for the expected portal cranes. Neither are there any sheds and for the moment the wharf is used for loading expellers, ex truck, over portable conveyors. There is a 30 m. gap between the South end of the wharf and Unit VI, with a slight change in line of the river front. Immediately behind this a larger basin is being dredged, to 30 ft. which will add 4,250 m. of new quay frontage to the port. It is intended to centralise here the movement in fuels, coal, gravel, sand, etc., and to use it for discharge of grain barges which now form a large part of the pusher trains in use on the river, and which have materially changed the type of river transport. Dredging of the basin itself is well advanced. Work on an 80,000 ton elevator at the South end of the 616 m. wharf has commenced, to load either to the river side or into the new basin berths, to the West.

Unit VI. The South Elevator, previously numbered XIII, now has 29 ft. at zero, and can handle two vessels, if both under 150 m., or one if over that length. Load rate is 1,200 t.p.h per berth, over three tubes to each vessel, or five tubes if to one vessel only (2,000 t.p.h.). Storage capacity is 125,000 tons. A further 360,000 tons storage capacity in the underground deposits in the cliffs on the far side of the future river basin will eventually be connected to Unit VI. At present their cargo is shifted to truck or rail.

Immediately South of the existing elevator a new 80,000 ton elevator is under construction, and which will form part of the Unit VI complex, which will then have six berths to the river front, and possibly others to the river basin.

The former Shell petrol storage tanks, behind the elevator, are now used for vegetable oils. There are four tanks, capacity 800 tons each, connected to a line loading 100 t.p.h. at Unit VI.

Entrance to the future river basin will be South of the extended Unit VI, and to the North of the Meat packing plant and cattle ramp, while South of this a shipbuilding yard is under study. The pier at the packing plant is 175 m. long.

The port zone proper ends at Saladillo stream, on the South side of which the Swift Meat Packing plant has a pier, 175 m. long, for the loading of its products. There is also a line here for loading vegetable oils in bulk, capacity 100 t.p.h.

The projected basin will have its entrance between the Inflammables zone and the Cattle berth, and South of the Cattle berth a shipbuilding yard is projected.

Cranes. There are a large number of electric cranes, and the port is built in such a way that with few exceptions all cargo discharged must be handled by shore cranes. If the river is high, and shore cranes cannot operate to the vessel, the ship may discharge to shore, for the shore crane to place on railway cars, etc.

Bills of Lading covering lifts of 2.5 tons or more should be claused in such a manner that any extra expense in landing them is for account of the cargo.

Floating cranes. There are two, 90 and 50 tons.

Allotment of berths. May depend on the availability of grain to the particular shipper, but normally berths are allotted in order of arrival. Loading on second tier is not customary now, as the capacity of the port is such it is not necessary.

Fenders. Vessels must use fenders for keeping them off, and can use their own or hire from the port.

Ashes, etc. Arrangements can be made with Agents for daily removal.

STEVEDORES: Gangs supplied according to vessels requirements by private companies under Government supervision.

Normal capacity per gang, per shift:

20 to 25 t.p.h. frozen meat.

120 to 140 tons per shift general cargo.

MEDICAL: Private and state-owned hospitals. All facilities available.

TANKERS: Discharge at Moles 3 and 4.

FRESH WATER: Only available at the berths on the Southern part of the port.

FUEL: All grades available, by barge.

REPAIRS: All repairs excluding dry docking, can be effected. Floating crane available, capacity 50 tons.

AIRPORT: 16 km. from port. Daily flights to Buenos Aires.

CUSTOMS ALLOWANCE: 60 cigarettes per day, and 2 bottles spirits each man.

CONSULS: The following countries are presented at Rosario:

Belgium	Great Britain	Peru
Brazil	Greece	Spain
Chile	Italy	Sweden
Denmark	Lebanon	Switzerland
Dominican Republic	Netherlands	Syria
Ecuador	Nicaragua	U.A.R.
Finland	Norway	Uruguay
France	Panama	Yugoslavia
Germany	Paraguay	

POLICE/AMBULANCE/FIRE: Police 29071; Ambulance 45600; Fire 20147.

TELEPHONES: Can be placed aboard.

SHORE LEAVE: No restrictions.

AUTHORITY: Rosario Port Administration.

AGENT: See "Buenos Aires".

SAN LORENZO: 32.45 S. 60.38 W. (See Plan)

Km. 442 – River Parana (Province of Santa Fe) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

On the left bank of the River Parana from seaward, 16 miles above Rosario and 238 miles by river from Buenos Aires.

The port includes the separate sections of Puerto Borghi, Puerto San Lorenzo and Puerto San Martin.

APPROACHES: Access is controlled by the passes Destileria and Borghi above Rosario.

ANCHORAGE: Vessels may anchor in the roads between buoys 447 and 449.

TUGS: Not required.

MAX. SIZE: Up to 27 ft. draft depending on river depths.

HEALTH: Vessels coming in from abroad, should take pratique in Rosario Roads, advising Agents there in good time.

RADIO: Use Radio Rosario LSQ 38, on 477 kc/s. A1. This broadcasts, in Spanish at 1305 hrs. daily depth of water in the river between Santa Fe and Rosario.

BERTHS: *Puerto Borghi.* Is a privately owned berth used for loading zinc ores, cinders and sulphuric acid. It consists of 3 dolphins each 6 × 9 m., spaced 21 m. apart, giving 60 m. alongside which vessels can lie. Both anchors must be laid out and moorings taken to shore. There is a conveyor belt, rate 60/80 t.p.h. fixed by a crane to work at an angle of from 20/25 degrees, so that if vessels are loading both fore and aft they must shift to position their holds. The belt is reversible, and can be used for discharging vessels fixed with bucket dredge gear in each hold. There is ample water alongside.

This port comes under Rosario for Customs, but under San Lorenzo for Maritime Prefecture control, and stevedores are taken from San Lorenzo.

San Lorenzo proper is a third category Custom House and thereby independent of Rosario. There is an important petrochemical complex here which is being extended, which may lead to an improvement in port facilities.

The roads are between buoys 443 and 445 in the main navigation route and within this area vessels may anchor to await entrance to port, without paying dues.

This was originally a grain port but this now takes second place to industrial developments.

At km. 443 there is a short concrete mole 50 m. long, with 21 ft. alongside used for liquids, (Duperial Berth), chemical and petrochemical products.

There is a grain elevator at Unit VIII (ex. 14), with a total storage capacity of 80,000 tons, and 39 ft. alongside. The elevator has one tube, with a load rate of 150/180 t.p.h.

There is also a pipe-line at this berth for loading vegetable oils in bulk, rate from 30 to 70 t.p.h. (if using tanker trucks).

A line for loading fuel oil has also been installed here.

State Oilfields YPF have a large cracking plant here, with 3 concrete piers of 80, 60 and 80 m. long respectively, in deep water and situated just North of Unit VIII. Piers 1 and 3 operate in the discharge of crude from overseas or coastal tankers and in the loading of products with four 6 in. and 10 in. lines. No. 2, with the same size lines is used for coastal tankers only.

Esso have two dolphins here for discharge, with 6 in. and 10 in. lines respectively, but in 23 ft. only.

San Martin is immediately alongside San Lorenzo, and the access channel commences off San Lorenzo, by the cross river car ferry terminal (service San Martin to Victoria, on the left bank of the Parana).

This channel is 75 m. wide, dredged to 20 ft. at zero, and two miles long.

At the entrance to San Martin is the ferry basin in 6 ft. 6 in. and also a small basin for river craft.

Immediately North of this is the State Gas mole, in deep water used for handling liquid gas and fuel oil.

Unit 15 is no longer used for shipping, but the storage capacity is made use of. Linseed oil is loaded over the Pereda mole, in deep water with a 10 in. loading line. This mole is also used for the discharge of tankers and nearby is another mole used for discharge of oilseeds.

Unit X (ex 17), in 29 ft. 5 in. has capacity of 52,000 tons, load rate 150/180 t.p.h. over one spout.

At km. 451, there is a petrochemical plant which has a concrete mole 96 m. long, with 26 ft. 2 in. There is one 2.5 ton crane on the mole, which is authorised to work with light fuels.

FUEL: Available.

FRESH WATER: Not much available; Masters are recommended to take elsewhere if possible.

MEDICAL: Attention available.

REPAIRS: Small repairs attended to. It is also possible to bring specialists from Rosario if bigger jobs have to be handled.

CONSULS: Consular clearances must be made at Rosario.

AUTHORITY: Administracion de los Puertos Parana Medio.

AGENT: See "Buenos Aires".

SAN NICOLAS: 32.22 S. 60.12 W. (See Plan)

Km. 343 – River Parana (Province of Santa Fe) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

On the left bank of the Parana River, from seaward, below Rosario, and 188 miles by river from Buenos Aires.

APPROACHES: Between San Nicolas and Rosario are the "Paso Paraguayo" and "Abajo Yaguaron" passes, and below San Nicolas, apart from Martin Garcia, the "Tonelero" and las "Hermanas" passes.

The old-time characteristic of a grain port has been submerged in the industrial complex which has grown up around the steel mill, but grain is still shipped here.

The entrance channel to the port from the river is kept dredged to 24 ft. 6 in. at zero.

MAX. SIZE: Draft up to 24 ft. depending on river conditions.

RADIO: Use LSQ 38, Rosario, on 477 kc/s. A1.

BERTHS: From North to South the sections of this port are:

Old Port. Alongside the city of San Nicolas, originally composed of seven sections on a cliff some 18 m. high, and under which vessels moor, having to keep themselves off with an anchor and a kedge. Only two sections now work and loading of grain is carried out from the sheds or from railway wagons on the cliff, by chutes. Sections 1 and 6 can load at 90 t.p.h. from each of the two tubes at each berth.

Section 2 can only load bagged cargo, again by chutes.

Shed capacity is 16,000 tons, increased by direct discharge from railcars. Depth of water alongside 26 ft., in almost still water.

At the Old Port, a wooden float is used to keep the vessel at the required distance from the cliff.

New Port. Three km. downstream from San Nicolas. It consists of a berth formed by a dolphin 60 m. upriver from the end of a concrete mole 287 m. long, with ample water alongside, there being room for two vessels.

On the mole there are five portal cranes (3 of 1.5 tons and 2 of 3 tons) as well as two cranes, capacity 20 tons at 15 m. radius, or 12

tons at 25 m. Railway lines are installed but there are no sheds on the wharf.

Just downstream from the wharf a loading gallery is being built for a new 16,000 ton elevator, to be connected by belt to the large warehouse of the old Alcohol Distillery, which will be used for storing grain, capacity 75,000 tons. There will be berth for one vessel here, with five tubes, two to load simultaneously at, it is expected, 500 t.p.h. each. Once this elevator commences to operate, the remaining berths in the Old Port, which are in very poor condition, will be closed.

This new berth also incorporates the short jetty once known as the Distillery Mole.

Superusina Mole. This is the last of the sectors of San Nicolas proper, and consists of a concrete mole 200 m. long, with ample water alongside. There is a fixed heavy lift crane here, with a reach of 25 m. and capable of lifting 140 tons out of the square of the hatch of a vessel, or 180 tons from on deck. This part of the mole is reinforced.

There are also a 16 ton and an 8 ton crane for grab discharge of coal to an endless belt system working a coal stacker, handling 1,500 tons daily.

Puerto Buitagro lies South of the Ramallo brook, and comes under the district of Ramallo, although administered by the San Nicolas port authorities. It handles all the movement of the State Steel Mill, Somisa, the capacity of which is presently being increased to produce 2,500,000 tons of steel per year.

Again, from North to South, the moles are:

Ing. Buitagro general mole. 300 m. long, for movement of general cargo. It is 16 m. wide and has one 30 ton crane and two 15 ton cranes.

Gotaas Larsen berth. This berth consists of four dolphins, 35 m. apart, with bollards on the 1st and 4th. No longer in use as the lightening vessels discharge with their own gear at a new extension South of the Ing. Buitagro wharf, while ocean carriers discharge at this extended wharf. Now known as Somisa wharf.

Ing. Buitagro wharf. 680 m. long, immediately South of the Gotaas Larsen berth. Dredging is carried out continuously and there is 26 ft. at zero alongside. Four vessels of up to 22,000 tons can operate, plus two more in second tier. Storage capacity in the yards adjacent to the wharf is 1,370,000 tons iron ore and 300,000 tons of coal. Discharge is by grab, one of 45 tons and two of 12 tons each giving a discharge rate of 4–500 t.p.h. provided hatches are sufficiently wide to permit easy working.

Capacity of the belts is being increased, to meet the requirements of the larger capacity, now raised to 2,500,000 tons installed capacity, and which will be increased to four million tons in 1978. These include a new 1,400 t.p.h. discharge unit for ore and/or coal, a new system of conveyor belts 860 m. long, a stock piler capacity 5,000 t.p.h. and belts for moving coal 1,200 m. from stock pile at 3,000 t.p.h. with a transfer tunnel 600 m. long fitted with 13 vibratory screen feeders.

At Puerto Buitagro all discharge or loading is carried out by factory personnel, no outside stevedores engaged.

The bulk wharf has been extended South with a berth for self-discharging ore carriers, or colliers, and also for ore carriers using shore installations. At the moment this berth is used by the Gotaas Larsen lightening vessels only.

TUGS: Compulsory for vessels over 1,000 NRT at Old Port. It is usual, however, to use tugs only once, when entering if the vessel is turned and remains with her bow facing the entrance channel, or on leaving if moored with bow upstream, and therefore having to turn to leave. If vessels operate without a tug. Master is responsible for any damage incurred to installations, etc., and when there is a high wind it is advisable to use one. For movements in port use of a tug is optional, but again, high winds may make it advisable.

DENSITY: Fresh water.

FRESH WATER: Available at berths.

FUEL: Available, but must be delivered from Buenos Aires or San Lorenzo by truck.

MEDICAL: Doctor, hospital facilities available.

CONSULS: Italian, Portuguese and Spanish.

AGENT: See "Buenos Aires".

SAN PEDRO: 33.42 S. 59.39 W. (See Plan)

Km. 277 – River Parana (Province of Buenos Aires) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

On the left bank of the Parana River from seaward, below Rosario and 151 miles from Buenos Aires, by river.

APPROACHES: There are no bars below this port, except Martin Garcia, and vessels can therefore load to this limit almost the year round.

The roads are 1,500 m. down-stream from the entrance channel.

HEALTH: Free Pratique can be taken, but it is advisable to radio Agents at Buenos Aires for them to arrange, since there is no radio here and the Doctor must come from San Nicolas.

RADIO: None; use Rosario LSQ 38, 477 kc/s. A1, or Buenos Aires.

ANCHORAGE: Vessels can anchor if necessary about 500 m. from wharf.

TUGS: Can be made available if required.

MAX. SIZE: The entrance depth has been dredged to 25 ft. The factor governing draft is the water level in the Parana River at the Martin Garcia Bar. See "Mitre Channel" (Under River Plate).

BERTHS: The main mole has been rebuilt and a loading gallery 35 m. high installed, working with 7 telescopic tubes, though only one can work at a time, load rate being reported at 1,000 t.ph. Storage capacity in the elevator is limited, maximum 7,000 tons but there are nearby deposits for 90,000 tons.

As rebuilt, only one vessel can load from the grain elevator, maximum length, according to Ports Department, 200 m.

There is a second berth available for operating from portable belts, etc., in 24 ft. 6 in. There are no railway lines on the berths and no cranes.

There is also a wharf for river traffic in 8 ft.

DENSITY: Fresh water.

FRESH WATER: Available at the berths.

FUEL: Not available.

MEDICAL: All medical assistance can be obtained. Hospital.

REPAIRS: Minor repairs can be effected.

CONSULS: None; consular clearances effected at San Nicolas.

AGENT: See "Buenos Aires".

SANTA FE: 31.40 S. 60.37 W. (See Plan)

Km. 585 – River Parana (Province of Santa Fe) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

Situated on the Santa Fe river, a tributary of the Parana, 90 miles by river from Rosario and 312 miles from Buenos Aires.

APPROACHES: Entrance to the port is through an access channel, 6,085 m. long, and with 24 ft. at zero.

On this section of the river, from Rosario to Santa Fe, vessels must keep 2 ft. under the keel if measuring less than 50 fiscal units, or 2 ft. 6 in. if over. This applies when the hydrometer at Santa Fe indicates over 1.70 m. of water over zero. If the hydrometer measures less than 1.70 m. (5 ft. 7 in.) then vessels must have 2 ft. 6 in. and 3 ft. 6 in. respectively under the keel.

PILOTAGE: Port Pilot comes aboard in the Parana, at the mouth of the entrance channel. Six hours advance notice is required for the Pilot to be in position.

ANCHORAGE: Until mid 1974 it was possible to wait in the Roads at km. 583/5. Now, however, the access channel is being dredged thoroughly, and until further notice vessels can only enter or sail between 0900 and 1700 hrs. and if unable to enter within this period must wait in Diamante Roads (km. 533) and follow radio instructions from the Prefecture. If the Diamante Roads have already been passed, a vessel may lie below Punta Alvear, or eventually at km. 568 (Animas de Paracao) but must immediately notify the Santa Fe Prefecture.

Vessels sailing must leave with sufficient margin to be able to pass "Los Pajaros" (km. 468/473) in daylight, and avoid anchoring in the sectors indicated above as reserved for Northbound vesels.

A report received mid 1976 advises vessels not to load beyond 17 ft. draft, as the shallowest part of the river between Santa Fe and Rosario dropped in one week from 22 ft. to 20 ft. 6 in.

SIGNALS: There is now a signal station on the top of the tower of the new elevator (unit 1) in visual and radio contact with the control station tower at the river end of the access channel, where the signals are hoisted. It is also possible to observe movement in the roads from here.

The signals in the entrance channel are:

By day (shown at both ends of the access channel)

White globe, 60 cm. diameter	Channel free for overseas vessels.
Red biconic mark	Exit only for overseas vessels.
Green cone	Free movement of coastal vessels.
Yellow cone	Movement of coastal vessels allowed, but with precaution.

By night (interior signal staff only)

White flashes	Entrance free for overseas vessels.
Red flashes	Exit free for overseas vessels.
Green flashes	Free movement for coastal vessels.
Green and red flashes	Coastal movement only with restrictions.

Absence of signal – signifies port and channel closed.

All vessels will await the corresponding signals, which can be asked for by whistling, repeating one long, three short, for overseas vessels, or two short, one long, for coasters.

Should the absence of signals be due to a failure of the system, instructions will be sent by the Authorities.

NAVIGATION: *In the Channel.* Maximum speed in the entrance channel is 5 knots, however, the Pilot can advise on other speeds.

Movement by night is possible, but usually Pilots will not take a vessel out after 1500 hrs., since navigating the passes down river might oblige a vessel to lie in the roads, and turning there would require the use of two tugs, it being easier to wait until through transit down stream is possible.

During fog. During fog, usual international precautions must be observed, but if the fog is very thick, entrance or departure of vessels is prohibited without special permission. There are no official statistics as to frequency of fog, but in the period May/August there may be five to six foggy days a month, and in the rest of the year one or two a month.

HEALTH: Free Pratique. As there is no radio station here, Master should radio Agents with the usual request.

RADIO: Regulations in this port prescribe that Agents or Consignees must give written notice to the Port Authorities 24 hours before ETA, with details of vessel, cargo carried etc., or if in ballast, indicating for account of whom the vessel will load.

ETA should be confirmed if there is any change, since the port Pilot and tugboat must be sent out to the main river to meet the vessel. This will also allow the preparation and presentation of the Notice of Readiness without delay.

Radio LSQ 38, on 477 kc/s. A1, at Rosario, transmits river depth at 1305 hrs. GMT.

TUGS: One tug is required by all vessels over 20 Fiscal units and up to 165 m. o.a.l, with a second tug standing by at km. 592 unless the Pilot calls for its services (high winds, etc.).

Vessels over 165 m. will have a second tug standing by in the roads. Outbound vessels over 20 fiscal units will take two tugs, and let go the stern tug at km. 592, the bow tug continuing until the roads are reached. However, if sailing from Basins 1 or 2 or the Terminal berth and with no other vessels in the way, one tug only may be taken, provided the wind is below 22 knots.

BERTHS: The port is composed of four parts:

Dock No. 1, with stone wharves, 564 m. frontage on the East and 672 m. on the Western side, 120 m. wide and well equipped with cranes, and sheds; 24 ft. at zero.

Between Dock 1 and Dock 2, on the pierhead there is a fixed 20 ton crane for heavy cargo.

Dock 1 is the main import area, while in berth No. 2 there are tanks for vegetable oil, capacity 5,000 tons and pumping capacity 2/300 t.p.h.

Dock No. 2 lies parallel to Dock 1, and has a piling frontage 900 m. long on the East, 720 m. on the West and 120 m. wide. 22 ft. at zero.

Both docks are served by broad and narrow gauge railway lines.

Derivation Channel. 2,178 m. long, lies to the West of Dock 2. It has open banks, with no stone or wooden frontage. There are a number of dolphins and mooring facilities. It is reserved for Inflammables and there are also two deposits for Quebracho Logs and for Bones. Although there are railway lines, there are no cranes or facilities for handling cargo. Vessels awaiting orders or effecting repairs can lie up in the Eastern side of the Channel, North of the Esso plant. Shell and YPF plants on the Western side, where vessels may take on bunkers.

Coastal Wharf. Concrete wharf, 810 m. long, lying between the West side of Dock 1 and the Elevator at Unit 1. It has 4 dolphins and can berth and work two vessels simultaneously in 24 ft.

Allotment of berths. Allotted by the port by order of arrival. If berthing in the Derivation Channel, spars must be placed to fend the vessel off the bank, and an anchor may also be cast, but this must be done under the direction of the port Pilot.

Loading Grain. There are two units here, comprising three elevators in use. Unit 1 on the South end of the West quay of Dock 1, next to the coastal section, can berth two vessels in 24 ft. The elevator which is new, has a capacity of 50,000 tons, and the loading gallery has eight spouts with three belts, so that both vessels can operate simultaneously, although no more than three spouts can be in use together, with a load rate of 300 tons each, rising to 400 tons in favourable conditions, or when only one vessel is loading.

Unit 2 is now composed of the ex Bunge Elevator on the Northwest of Dock 2, capacity 12,000 tons, and with 6 tubes, loading simultaneously by two at a rate of 200 t.p.h. each, and also of the De Ridder Elevator, on the Southwest side of the dock, capacity 6,000 tons, and with two tubes, capacity 200 t.p.h. each.

FUEL: Available at the pipe-lines in the Derivation Channel. If small quantities only are required, these can be delivered by truck.

FRESH WATER: From hydrants in Docks 1 and 2, or by tug in the Derivation Channel.

REPAIRS: Can be arranged. There are several tugs and lighters equipped to render assistance to vessels.

MEDICAL: Doctors and hospital facilities available.

TANKERS: Berths owned by Esso, Shell, and YPF in Derivation Channel.

CONSULS: At Santa Fe following countries are represented: Italy, Paraguay, Spain. Other consuls at Rosario and Buenos Aires.

AIRPORT: 17 km. from Santa Fe, regular flights to Buenos Aires and other Argentine cities.

CUSTOMS ALLOWANCES: For consumption on board each man allowed 40 to 60 cigarettes a day and one litre of spirits a week.

POLICE/FIRE/AMBULANCE: Police: Tel. 21141; Ambulance: 36220 and 24687; Fire: 21212.

TELEPHONES: On board connection is only made for naval vessels.

SHORE LEAVE: Allowed, provided crew members in possession of identification cards.

AUTHORITY: Administracion de los Puertos Parana Medio.

AGENT: See "Buenos Aires".

VILLA CONSTITUCION: 33.15 S. 60.17 W. (See Plan)

Km. 365 – River Parana (Province of Santa Fe) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

On the left bank of the River Parana from seaward, 33 miles below Rosario and 197 miles by river from Buenos Aires.

PILOTAGE: Port Pilot available, and obligatory.

MAX. SIZE: Up to 25 ft. draft depending on river depths.

TUGS: Vessels over 2,000 NRT must use two tugs.

RADIO: Rosario LSQ 38, on 477 kc/s., A1.

BERTHS: *In Villa Constitucion* the old overseas moles are closed, owing to bad condition. The coastal wharf is also being dismantled, but a concrete mole next to it is being used for this trade. There is a proposal to recondition the old railway wharf in view of increasing movement.

In Unit Two. Two vessels can load grain, but the condition of the installations is very precarious and may well be condemned.

At the Elevator berth two vessels can operate, in 27 ft., North and South. At each berth there are several loading tubes, but only one can operate at a time, giving 3/400 t.p.h. on each berth.

Capacity of the elevator is 50,000 tons, plus 170,000 tons in underground deposits. There is also a belt for bag loading.

Puerto Acevedo. Two km. South of Villa Constitucion is Acindar Mole, otherwise known as Puerto Acevedo, where a large steel mill is installed. The port is under the jurisdiction of Villa Constitucion and pending a definite resolution as to Villa Constitucion Roads, vessels awaiting berth anchor off the Acindar mole.

The mole is 110 m. long by 34 m. wide, in 29 ft. and is used for the discharge and storage of steel billets. It is fitted with two 45-ton electric cranes.

Port Pilot from Villa Constitucion attends here, but tugs are not necessary. No facilities are available, except for water, to obtain which a vessel will have to supply a long hose to be coupled up to the factory itself.

Rate of discharge depends to some extent on capacity of ship's derricks, with three-ton lifts 80 tons per hatch per hour can be maintained, but with only one-ton lifts, no more than 40 t.p.h.

FRESH WATER: Obtainable.

FUEL: Not available.

MEDICAL: Doctor and hospital facilities available.

REPAIRS: Can be effected, if necessary bringing men and equipment from Rosario, or San Nicolas.

CONSULS: Consular despatches must be taken at Rosario.

AGENT: See "Buenos Aires".

ZARATE: 34.09 S. 59.05 W. (See Plan)

Situated on the West bank of Parana River, 150 miles above Buenos Aires.

N.B. Refer to beginning of Argentina and River Plate Ports.

TUGS: Not required.

MAX. SIZE: Up to 26 ft. depending on river depths.

BERTHING: The river here is wide and deep, but the 8 wharves are no longer used for ocean going cargo, and have silted up, there being only ten feet at the largest, or National Mole. This is the base for the rail ferry communicating Buenos Aires with the Province of Entre Rios and eventually communicating, with another rail ferry, with Paraguay. A rail road bridge is under construction here, which will cross the Parana Guazu arm of the Delta, at Kilometre 180 on the main route upstream.

DEVELOPMENTS: One of the first developments has already been authorized by the Port Authority. This will be a Petroleum storage plant for Paraguay, at km. 112.6 on the Parana de las Palmas river, just upstream from Zarate. It will be for the exclusive use of Crude imports for Paraguay, where ocean tankers will discharge to tanks, and river tankers continue transport to Medin, near Asuncion. Work is expected to commence shortly, but it is not known yet if the berth will be known as "Zarate" or by some other name although it will come under the Zarate port authority.

FRESH WATER: Available at Smithfield Wharf.

FUEL: Not available.

medical: Doctor and hospital facilities available.

CONSULS: Italy is represented locally. All other consuls at Buenos Aires.

REPAIRS: Small repairs can be effected.

AGENT: See "Buenos Aires".

BAHIA BLANCA: 38.47 S. 62.16 W. (See Plan)

(Incl. Galvan, Ingeniero White, Puerto Belgrano, Puerto Rosales, Punta Ancla and Punta Ciguena.)

(Province of Buenos Aries) "B" category port.

N.B. Refer to Argentina, Section I.

APPROACHES/PILOTAGE: *Entrance Channel.* Commences at Rincon Light Buoy, which is a whistling buoy, fitted with radar reflectors and is stationed some 17 miles S.S.W. from the Recalada Lighthouse. It is a large buoy, painted with black and white vertical stripes, it can shift or be extinguished, being rather exposed. In case of doubt vessels are recommended to sound and stay outside the ten fathom line until daylight or fog has cleared. Pilots must be requested 24 hours in advance. See "VHF".

From this buoy vessels must proceed past buoys 1 to 10, and the Bay Pilot comes aboard near buoy 11 (39° 05′ S. and 61° 48′ W.).

There is no pilot ship on station, and vessels arriving at this point after sunset must stand off until daybreak, unless a Pilot has been ordered and is approaching, when vessels can anchor and wait near buoy 11. To avoid delay and waiting time, Masters should keep Agents well advised by radio to station LPW 2, which listens from 0700 to 2400 hrs. on 500 kc/s. from 19 to 25 minutes past each hour, every hour. As the coast is shallow here, with South or East winds it is advisable to stand well off at night as there is also a tidal current favoured by these winds.

The Bay Pilot takes the vessel to the Bahia Blanca roads, which commence for Ing. White and Puerto Nacional between Naposta brook and the South Elevator. For Galvan he takes the vessel as far as the South Elevator. At either of these points the port Pilot comes aboard for actual berthing operations.

Vessels bound for Punta Ciguena, Punta Ancla, Rosales or Puerto Belgrano, take on their port Pilot (ordered in advance through the Agents by radio), at buoy 17.

In the access channel the following regulations must be observed:

(a) in the areas included between the pairs of buoys 07–08, 12–16, and 26–29, it is prohibited to approach or cross in front of any vessel which because of its draft has to remain in the centre of the channel, such vessels always having priority.

(b) in the event of two vessels meeting whose drafts do not permit them to depart from the centre of the channel, the vessel leaving port has priority, the vessel entering having to effect such necessary manoeuvres so as to not interrupt its navigation.

The access channel is 150 m. wide and is marked with light buoys, which permit navigation by night, except between buoys 26 and 28 where the width is 75 m. Between buoys 12–16 the depth is 30 ft. and in the access channel to port Ingeniero White, between pairs of buoys 26–28, the depth is 28 ft. The maximum draft for vessels navigating the channel is 35 ft., and dredging operations are in hand to bring the depth to 36 ft. 7 ins.

Buoys 01, 02, 03, 04, 05, 06, 09, 18, 19, 20 and 21 are mid-channel, and all illuminated. There is a degaussing buoy between Nos. 18 and 19, conical, painted blue and white checks.

Special warning. At very low neaps, and with strong N. winds there may be up to 5 ft. less water than is shown on charts.

Tidal range is 12.6 ft. at springs to 6.4 ft. at neaps, but as much as 19 ft. has been observed with S.W. winds, whose action is similar to the Plate winds.

Inner Roads. From Ing. White to Galvan there is room for two vessels drawing 32 ft. to anchor, as well as a number of vessels drawing 24 ft. The access channel to Galvan has been dredged to 32 ft. for the new Inflammable berths, and a turning basin 400 m. in diameter at 33 ft. dredged due South of Galvan pier. The Inflammable berths are also at 33 ft., the intention being to dredge down to 38 ft. at zero.

ANCHORAGE: Merchant vessels which have to wait their turn to come alongside quays in the Bahia Blanca Estuary and oil discharge points at Ancla and Ciguena Points, must remain anchored 2 miles E.S.E. of buoy 17.

RESTRICTIONS: Vessels of drafts greater than 30 ft. must navigate in daylight and with precaution between pairs of buoys 26–29, by reason of the narrowness of the channel. It is anticipated that very shortly this part of the channel will be deepened and widened from 75 m. to 150 m., which will permit safe navigation by night.

MAX. SIZE: Currently the maximum draft for the access channels is 35 ft., although it is expected that this will be deepened to 36 ft. 7 in. shortly and ultimately to 40 ft., with the channel and elevator locations being dredged to these maximum depths.

RADIO: LPW 2 on 500 kc/s. A2, working frequency 431.5 or, LPW 45 on 4415.8. A3.

For weather forecasts in English, use either Radio Pacheco at Buenos Aires LPD 5 on 512 kc/s. A2, or Radio Comodoro Rivadavia LPX 2 on 474 kc/s. A2.

VHF: Pilots now use VHF, and Channel 12 is set as a "listening channel' during transit of the entrance and the Naval Base at Belgrano acts as receiver/repeater.

Channel 8 is kept for manoeuvring in port, after contacting tugs and walkie-talkies are used by Pilots and tugs in this band.

Any "bridge to bridge" communications will use Channel 6, returning later to Channel 12.

Channel 9 is reserved for oil tankers for Punta Ancla or Punta Ciguena.

Channel 4 is reserved for Navy use in the Navy Base, but may be used in emergency.

TUGS: No tugs are required at Punta Ancla or Punta Ciguena. For Rosales and Puerto Belgrano tugs are requested from the Naval Base at Puerto Belgrano, and make contact between buoys 24 and 25.

For the other ports (White, etc.) tugs come alongside in the anteport, where the port Pilot boards.

Argentine vessels are berthed by the Bay Pilot at any of the berths, but foreign flag vessels take a Port Pilot, who comes on board at the Inner roads on one of the tugs, regulations for which are as follows:

Vessels over 3,000 tons gross require two tugs, those from 500 to 3,000 tons, one tug, and under 500 tons none.

For the Iron mole, vessels up to 10,000 tons do not need a tug, from 10,000 to 15,000 gross, one tug and over 15,000 tons two tugs.

For Puerto Galvan, vessels over 3,000 tons gross take two tugs on entering, and one on leaving provided they berth bows outwards, otherwise they need two tugs. Between 1,000 and 3,000 tons, vessels take one tug when entering and leaving if they berth bow inwards. If mooring bow outwards they must take two tugs on berthing, but require none on leaving.

These rules are for normal weather conditions. Masters can ask for more tugs, or alternatively not pass cables to the tugs if this could be dangerous to the vessel or tugs, but in this case, tugs must accompany the vessel during the manoeuvre to act in emergency.

BERTHS: N.B. Agents must give fourteen days advance notice of arrival of reefer vessels to the Authorities, and check this with 48 hours confirmation of arrival. Precedence for berthing granted in accordance with arrival at buoy 11 at the entrance channel. All requests for free pratique by radio are made in the usual manner to Agents, with twelve hours advance notice.

The ports in the Bahia Blanca area are, from East to West:

Punta Ciguena, Puerto Rosales, Puerto Belgrano — adjacent to each other between buoys 21 and 22 of the access channel.

Ingeniero White, Puerto Nacional — also adjacent, and some 14 miles West of Puerto Belgrano.

Galvan — about 2 miles West of Ing. White.

Punta Ciguena and Punta Ancla

There is a rotary buoy with connection on the starboard side of tankers. The oil tanks belonging to the State Oil Company have a capacity of 240,000 cu.m. and are connected by pipe-line to the State Refinery at La Plata.

At Punta Ciguena there is a mooring for tankers with four mooring buoys and port side connection. It is currently out of service, and it is intended to replace it by another rotary buoy. As at Punta Ancla, this mooring belongs to the State Oil Co.

Puerto Rosales

An old grain port which is used by small craft. The pilot launches are based here.

Puerto Belgrano (Saluting Base)

This is the principal Argentine Naval Base. It consists of an anteport and basin, at the end of which there are two large dry docks, repair sheds and a hydroplane mole. Dry docks and repair sheds can be used subject to Naval permit.

The entrance channel, two miles West of Punta Ciguena buoys, is 1.7 miles long, 150 m. wide and dredged to 30 ft. at zero.

Being a Naval base, care must be taken to observe regulations. In daytime signals are hoisted at the head of Mole C, and at night lights are shown at a height of 34.5 m. from the signal station, being visible for ten miles. A strong green light prohibits entry, and a white light above green prohibits sailing from the port. Two green lights, vertical, both entry and leaving prohibited.

There is a reserved zone for Hydroplane, between 38° 51′ 7″ S. 62° 06′ 08″ W.; 38° 52′ 04″ S. 62° 09′ 03″ W.; 38° 54′ 06″ S. 62° 07′ 02″ W. and the buoy at the end of the S.W. breakwater.

Most of the heavy machinery for the power plant at Chocon has been landed in this port, and it will again be used for the requirements of the petrochemical plant to be installed in Ingeniero White in 1975/76.

Gunnery Exercises. Captains are warned that in order to avoid any danger, the greatest care should be taken when navigating or anchoring in the security zone, between the coast and an imaginary broken line which passes through the following:

(A) Lat. 39° 00′ 01″ S. Long. 61° 37′ 01″ W.
(B) Lat. 39° 05′ 02″ S. Long. 61° 40′ 01″ W.
(C) Lat. 39° 02′ 05″ S. Long. 61° 47′ 09″ W.
(D) Lat. 38° 58′ 02″ S. Long. 61° 51′ 00″ W.

Danger Zone. Situation Lat. 38° 53′ S., Long. 62° 06′ W. (approx.).

During gun practice at the Naval Base of Puerto Belgrano, navigation is prohibited in the circular area of 180° from the central point of the Signal Station which extends from 152° to 332°. The boundary of this area passes 9 miles off the Signal Station.

While gun firing is being carried out, the Signal Station will hoist during the day two "B" flags of the International Code on the same yard-arm. This signal will be hoisted half an hour before practice commences and will be furled when firing ceases.

At night the signals will be substituted by three vertical lights, the top one, red, and the following two, white. In addition a searchlight will sweep the zone every fifteen minutes, casting a beam of three minutes duration.

The Sub-Prefecture of Ingeniero White will notify all ships in good time of the expected hour and date on which firing practice will commence.

Should exercises not commence on the date and hour fixed for same, the fire signal will be hoisted half an hour before the appointed time, and on the other yard-arm, the flag "N" (negative of the International Code). These signals will be shown for half an hour from the time they are hoisted.

During exercises, the firing intervals will be signalled in the following form: during day, by hoisting "N" flag, and at night by two vertical lights; the top one white, and the bottom one, green.

Ingeniero White

South Elevators. Nos. 1 and 2: These are now obsolete, and are being dismantled. As a result berths 1, 2, 3 and 4 are at present out of service. A new loading gallery is to be built here, and the depth of water will be increased to 40–45 ft.

Central Elevator: There are two berths each 300 m. long, known as quays 5–6 and 7–8, both in 29 ft. of water. Warehousing capacity 141,000 tonnes. Each quay (5, 6, 7 and 8) has two loading belts and six tubes with a nominal loading capacity of 500 t.p.h. per belt. It is normal only to berth two vessels at a time, since the vessels are normally longer than each individual quay.

Elevator 5: This has a new berth (No. 9) 227 m. long in 40 ft. It has twelve loading tubes and 4 belts each of 700 t.p.h. nominal loading capacity. Warehouse capacity 60,000 tonnes. Elevator 5 will only serve this berth.

Iron Quay: These berths are used for general cargo and fruit to and from lorries, and fuel oil is loaded and discharged at Berth 11. There are five berths, total length 975 m., with depths varying from 22–29 ft.

General Cargo Quay

Lies behind and to the North of the Iron mole. There are four berths in this section, three on the North, or land side, which is in total 450 m. long in 19 ft. to 24 ft. at low water, fitted with six electric cranes × 3 tons on an apron 25 m. wide with three rail tracks. There are several cold storage chambers here for fruit, capacity over 500,000 boxes mainly apples/pears. On the South side of the basin there is one other berth, No. 20, 210 m. long in 26 ft. with three 3-ton cranes and a 125,000-box cold storage plant. There is yet another cold storage chamber on the so called "high mole", 100,000 boxes, and one with 300,000 boxes in town, making a total capacity of over one million boxes.

Loading Fruit. The Authorities have fixed maximum loading times for staying alongside at the Nacional berths, and also at the Iron mole, as follows:

up to 51,000	cases	3 days
51/66,000	cases	4 days
66/86,000	cases	5 days
86/111,000	cases	6 days
111/114,000	cases	7 days
141/176,000	cases	8 days
over 176,000	cases	9 days

these times can be extended according to circumstances, and other vessels can also be allotted the fruit berths as need arises. Normally, loading is as fast as vessels can receive, and these periods are fixed to cover the occasional delays due to any temporary delay in receiving fruit from the interior.

Galvan

The oil companies have their tanks near the port, with the following lines all connected to berths 5 and 6:

Esso	one 11″ line	State Railways	two 8″ lines
	one 10″ line	Shell	two 6″ lines
La Isaura	one 8″ line	YPF	two 6″ lines
	one 6″ line		

A new wharf for tankers, two berths, has been completed facing on to the access channel, West of the entrance to Galvan. Depth of water at the foot of the quay is 40 ft.

The berth is 741.6 m. long, divided into two, No. 1 for Oil tankers and No. 2 for Gas, both fitted with Chiksan arms, set on a platform measuring 30 m.×20 m. and with a number of mooring dolphins either way. The berth is connected to shore by a 483 m. long roadway, 750 m. wide and on which are the pumping stations, fire installations, etc., the whole connected to the existing storage tanks on shore.

Quays 1 and 3 (25 ft.) are used for general cargo and minerals.

Now that the Inflammable Quay has been fitted out, quays 5 and 6 (29 ft.) previously used for oil products will now also be used for general cargo and minerals.

DRY DOCKS: Capacity of the dry docks is:

No. 1 215 m. OA, width on the sill 22.12 m. or at 34 ft. above the sill, 26.25 m.

No. 2 235.45 m. OA, afloat, or 205 m. closed there is also a floating dock for smaller vessels 65.8 m. OA, beam 13.46 m., capacity up to 750 tons.

FLOATING CRANE: There is a 50-ton floating crane in the Naval base at Puerto Belgrano, which can be hired for use in other ports. Apart from hourly hire, the user must pay for towage and overtime. Towage must be effected in daylight hours and in good weather.

LOAD-LINE: Vessels North- or East-bound may load to Summer Marks all year round.

WEATHER: Average velocity of winds is 11 knots, direction N. and N.E. 30%, and W. and N.W. 32%.

Rainfall averages 558 mm., with July/August the driest months.

Maximum temperature in Summer about 31° C, with an absolute maximum of 42.5° C, and a minimum of about 15° C. In Winter, maximum of about 15° C, average minimum 3.5° C, and absolute minimum minus 8.8° C.

MEDICAL: Good attention available. Hospital.

FRESH WATER: Available at any berth at Ing. White, Galvan and Puerto Belgrano, at 10 t.p.h.

FUEL: All grades available ex-wharf or by barge.

REPAIRS: All classes of repairs possible including dry-docking.

CONSULS: Belgium, Chile, Denmark, France, Greece, West Germany, Italy, Netherlands, Norway, Peru, Portugal, Spain, Sweden.

AIRPORT: Regular air service with Argentine cities.

AUTHORITY: Capitan de Puerto Bahia Blanca.

COMODORO RIVADAVIA: 45.51 S. 67.27 W.

(Province of Chubut) "B" category port.

N.B. Refer to Argentina, Section 1.

On the San Jorge Gulf, 947 miles South of Buenos Aires.

ANCHORAGE: Anchorage within the five or six fathom line offers little difficulty for regular work to lighters, but the reserved zone off the YPF pier must be respected.

RESTRICTIONS: Port should be entered at high water in daylight only. Tidal range from 19 ft. 6 in. to 7 ft. 4 in.

MAX. SIZE: Dry Cargo, Length 150 m., draft 15 ft. Tankers up to 30 ft. draft.

RADIO: For radio regarding free pratique, or reporting ETA call LPX 2, on 474 kc/s. This station transmits weather forecasts in English at 0400 and 1800 hrs. GMT Radiotelegraphy 500 kHz. Radio telephone 4123, 8786, and 12,133 kHz.

TUGS: Not required.

FRESH WATER: Obtainable at National wharf and YPF wharf. Ships supply own hoses.

FUEL: Fuel oil and diesel available at the YPF pier in Comodoro Rivadavia.

CARGO: It is advisable to stow inwards cargo aft for this port, as lighters lying at hatches one or two receive little protection from sea and swell, and in any case, owing to the limited number of lighters, vessels usually work with two or three gangs at most.

To avoid loss of time, it is the custom in this port to leave the sling loads "as is" in the lighters and therefore a large quantity than usual of slings have to be hired from the Agents.

It is advisable to establish in Bills of Lading that lighterage is at the risk of the cargo.

BERTHS: The main part of the port consists of:

National wharf. At the end of the breakwater built over the Punta Borja reef, and still unfinished. It is L shaped, presently 1,160 m. long with 23 ft. at the extreme. Vessels can only go alongside in the last inner sections, with 15 ft. at zero. The breakwater gives some protection from the S.W. and S.E. winds, but vessels with large superstructure should not go alongside, and it is recommeded to leave the pier after work is finished each day in case North or West winds blow strongly.

Apart from inward cargo, wool is shipped in quantities over this berth, where there is a Titan crane, now permissible up to 30 tons only two 9-ton electric cranes and two 5-ton steam cranes on the

pier, which is also equipped with railway lines connected to the State Railway.

If working here to lighters, the best anchorage is in 25 ft. at zero, 700 m. from the wharf and with the light buoy at the end of the YPF mole bearing 329°.

YPF Mole also known as km. 3, is built over the Coronel reef a short distance North of the town. It has a length of 956 m. and 21 ft. at low water. It is used exclusively for discharging cargo consigned to YPF and for loading their oil and other products, so that special permission from YPF is required to operate here. There are two 15-ton cranes and one 4-ton crane on the mole.

The privileged zone extends 150 m. either side of an imaginary line projected from the mole, and 2,500 m. seawards, reserved for tankers loading YPF products, and other vessels cannot moor in this area. There are five mooring buoys, two each side of the mole near to its head, the fifth is 200 m. from the beacon at the sea end of the mole bearing 020°.

Kilometre 5. Three miles North of the town there is a wooden wharf, 75 m. long, with only 3 ft. at low water. Vessels using this wharf for discharge over lighters, anchor 1.25 miles off the coast.

The wharf shows a fixed red light at its head and is used for cargo consigned to the Railways. There is one 8-ton electric crane and two 5-ton steam cranes on the wharf. With E. or S.E. winds the wharf cannot work.

TANKERS: The oil berths within the Comodoro Rivadavia port area are, from North to South:

Caleta Olivares, at 45° 46′ S. and 67° 22′ W.

A loading berth for crude, which can only operate by day. A minimum of twelve hours advance notice of arrival must be given to Agents in Comodoro Rivadavia. There is a launch which assists in mooring to the four bouys, which are cylindrical painted black and clearly numbered. There is another cylindrical buoy, also black, but unnumbered marking the end of the line.

It is necessary to obtain, in advance, from the pumping station the regulations, instructions and signal code in use, signals which are made from a semaphore mast, 13 m, above sea level (land height 7.4 m.) both by day and night. There is a small wharf for landing of passengers, crew, etc., and a floating crane, capacity 30 tons. All supplies, water, etc., must be made through Comodoro Rivadavia.

Caleta Cordova, at 45° 43′ S. and 67° 21′ W. approximately, and some 10 miles North of Comodoro Rivadavia, to which it is connected by phone. This is also a loading berth for crude. Four light beacons on shore indicate the entrance. Astra, showing its light at 40 m. elevation, Loma Blanca at 55 m. (white light). With these two lights in line the concrete block, in 34ft. which sustains the end of the loading line, is 1,325 m. from Astra. Vessels should enter bearing these two lights or marks on 268° and anchor where the cross bearings of this line intersect with the line from the Novales beacon, a white light at 79 m. height, and Cordova, also a white light at 53 m.

This point is 300 m. from the block or pillar, in 36 ft. Vessels then swing on their anchor to moor by the stern to the four moorings buoys. Anchorage is good, in spite of an uncomfortable sea with winds in the 1st, 2nd or 3rd quadrants. S.E. storms are dangerous, however, and it is necessary then to go out to sea at the first sign thereof.

There are two small wharves for small boats, in the S.W. of the bay, one for high and another for low-water, the latter being covered at half tide.

There is also a floating crane for heavy lifts, but as in Olivares, all supplies, etc., must be taken via Comodoro Rivadavia.

Caleta Olivia, the third oil-loading berth, is South of Comodoro Rivadavia at 46° 26′ S. and 67° 31′ W.

There are two petroleum intakes here, North and South, a mile apart, each well once secure alongside this delayed loading for 5 hours.

Shiploader:– This is a single conveyor belt fed gantry having a range of travel of 165 m. along the quay but the loading arm has no facility to svailing wind is offshore but with fresh Easterly winds vessels must be prepared to leave their anchorage at any time.

Average wind velocity 17 knots, with 79% from S.W. or N.W.

The port is open to N.E. and E. winds.

Rainfall is scarce, 189 mm. yearly, evenly distributed.

Temperature. Summer maximum is 25.5° and minimum 13.4° C, while in Winter maximum averages about 11° and minimum 3°.

DEVELOPMENTS: Dredging to increase depth to 26 ft. alongside wharves.

WATCHMEN: Recommended. Normally arranged by Agent.

HATCHES: According to port regulations, stevedores open and close hatches at commencement and end of cargo operations.

MEDICAL: Hospital available.

CUSTOMS ALLOWANCES: Only sufficient for normal daily consumption on board. *Custom House.* Fully authorised for import/export cargo, including reception of explosives for commercial use.

REPAIRS: Urgent repairs can be carried out by the oil companies, and there is a permanent service of divers, equipped to operate to 150 ft.

CONSULS: British, Chilean, Dutch, Greek, Italian, Belgian and Spanish.

AIRPORT: Situated 11 km. from port. Daily services to Argentine cities.

POLICE/FIRE/AMBULANCE: Regional Hospital 2451; Clinica Central 2282; Police 2778; Fire Brigade 2505.

TELEPHONES: No connection aboard vessels.

AUTHORITY: Capitania de Puerto de la Patagonia.

MAR DEL PLATA: 38.00 S. 57.32 W. (See Plan)

(Province of Buenos Aires) "B" category port.

N.B. Refer to Argentina, Section 1.

On the Atlantic Coast, 302 miles from Buenos Aires.

APPROACHES: The port is some 3 miles South of the main town, sheltered by two breakwaters (Northern arm 1,099 m. long, Southern arm 2,750 m., entrance, facing North 300 m. wide). Both breakwaters carry roads and access is open to all traffic, so that car headlights and street lighting can cause confusion at night on taking the Southern bearing.

DEPTHS: Currents constantly form a sandbank off the end of the Southern arm, which requires continuous dredging, and ruling depths are announced constantly by the authorities. Usual minimum depth on the bar is 22 ft. at zero, but under favourable conditions this may be up to 25 ft. This requires checking before committing a vessel near these limits, as in the past vessels drawing up to 30 ft. have entered and sailed. Tidal range is from 3.8 ft. spring to 1.2 ft. neaps, but sudden storms can destroy a month's dredging in hours.

There is often a heavy swell in this port, causing vessels to range in all berths, fenders being essential. It is safer to lie outside in 36 ft. to 42 ft. if awaiting berth than in the anteport within the breakwaters.

PILOTAGE: Pilotage compulsory. Pilots requested through Agent, or in emergency, direct to Prefecture Maritime Station frequency 500 kHz. ETA by radio to Agent required 24 to 48 hours in advance.

Pilot boat about 8 m. long, grey-white in colour. Pilot boards approximately 1 mile from port entrance.

ANCHORAGE: Possible within two to three cables from port entrance. Bottom sand and mud. Occasional gales may be expected in winter months.

The best anchorage bears 191° on the Southern breakwater light beacon and 313° on the Cape Corrientes buoy, or even farther out. Holding ground is good and strong winds may safely be ridden out here, even with a big swell.

MAX. SIZE: Draft dependent on state of tide. Keel clearance of 2 ft. 6 in. required. Normal maximum draft 27 to 30 ft., or up to 33 ft. maximum in best possible conditions.

RADIO: For radio regarding free pratique or reporting ETA call LPM 2 on 512 kc/s. A2. English weather forecasts from Radio Pacheco, Buenos Aires, LPD 5, on 512 at 0148 and 1630 hrs. GMT.

TUGS: Use of tugs is obligatory; vessels over 1,000 N.R.T. must use 2 tugs.

BERTHING: Big swell causes vessels to range, therefore Captains recommended have ready fenders for use at berth. Vessels can enter or sail any time day or night.

Basin A: Used only by fishing trawlers.
Pier Head No. 1 20 ft. depth.
Pier Head No. 2 30 ft. depth.
Basin C: Grain elevator 27 ft. depth.

This is a Naval submarine base, the Northern part of the port being reserved for that purpose.

There is considerable activity with the fishing fleet, consisting of some 300 coastal craft and 55/60 deep-sea trawlers, and the Southern part of the basin is reserved for the fishing boats. A protecting breakwater has been built out 280 m. long, from the inside of the Southern breakwater, 1,200 m. from land to minimise swell and to protect the fishing basin, and is also equipped with bunkering facilities for the fishing boats.

250 m. farther North from this there is a quay, with two dolphins, in 22 ft. for discharge of Butane and or Propane gas, connected to the tanks inland.

There are three commercial basins in the port, the Southerly one being reserved for small fishing craft. The central basin originally had eight coastal berths, but now seems to be taken over by the trawlers. There is 22 ft. here.

The third basin has a length of 178 m. on the South side, and 300 m. on the North, all in 30 ft. On the Northern side there is a new grain elevator, with a loading capacity of 400 t.p.h. on each of two belts, with a total of eight tubes available which can be divided between two vessels, or leave 4 or 5 available for one vessel. On the South side there are two loading towers for grain, capacity 350 t.p.h. each.

On the inside of the Northern breakwater arm, there is a berth for passenger/tourist vessels, admitting vessels up to 220 m. LOA but with no facilities beyond those for landing tourists with vessel's gangway to a paved road. Depth alongside is 30 ft. Vessels at this berth must moor bow to the South, laying out their starboard anchor.

Floating crane. There is a 40-ton floating crane (Navy), present capacity 20 tons, and also four mobile two ton cranes.

MEDICAL: Assistance obtainable alongside. Captain should telegraph Agent in good time expected date and hour of arrival. Hospitals and sanatoriums.

TANKERS: Only fuel oil discharged at berth No. 7.

DENSITY: Sea water.

FRESH WATER: Available at all berths, delivery from 7 to 10 t.p.h. at the northern tourist berth through 3 hydrants, total 60 t.p.h. Being slightly salty is not recommendable for boiler use.

FUEL: Bunkering in Basin "C", Pier Head No. 2, also Basin "B". Subject availability and permission from Govt. Oil Dept.

DEVELOPMENTS: Dredging to obtain depth of 30 ft. in channel and port.

WATCHMEN: Compulsory. Arranged by Agent.

STEVEDORES: Gangs engaged by Port Authority according to vessels requirements.

Normal capacity per gang, per shift:
150 to 175 tons fish (direct transhipment).
70 to 100 tons general cargo.
OPENING/CLOSING HATCHES: Can be performed by crew, but in any case subject to charter party terms.
CARGO: *Loading marks.* Vessels can load to their summer marks all year round if sailing Northbound.
Import cargo. This is a fully authorised Custom house. Berth 6 in the central basin is the most appropriate berth for handling import cargo, there being little space on shore at the other berths. Berth 7, the pierhead here, has 30 ft. and is also reasonably suitable for discharging, but in the Northern basin there is little or no room for depositing cargo alongside.
Import of Potatoes. Is permitted here, this being near the main potato growing region but permission must be obtained for the discharge of certified seed potatoes.
WEATHER: *Wind.* There is no really predominating wind, 42% being from W., N.E. and N.W., average velocity being 11 knots.
Rain. Rainfull averages 941 mm. evenly distributed.
Temperature. Summer maximum about 25° and 13° minimum, while in Winter the maximum averages 14° and minimum 3.5°. Absolute maximum and minimum are 41.6° and minus 6.7° C.
REPATRIATION: Can be arranged.
IDENTIFICATION CARDS: Compulsory. Arranged on board immediately after arrival.
CONSULS: French, Italian, Portuguese, Spanish, Uruguayan.
REPAIRS: All types of repair possible, except dry-dock repairs.
AIRPORT: Six miles distant. Two regular lines: Austral and Aerolineas Argentinas, two services/day between Mar del Plata and Buenos Aires.
HOLIDAYS: None. Work every day during year.
TELEPHONES: No telephones are available on board or on the berth.
DELAYS: In accordance grain elevator capacity. Normally none.
AUTHORITY: Captain of the port: Port Administrator.

PUERTO DESEADO: 47.46 S. 65.54 W. (See Plan)

(Province of Santa Cruz) "B" category port.
N.B. Refer to Argentina, Section 1.
988 miles South of Buenos Aires. The port is situated on the right bank of the river, and at its mouth. There is a meat packing plant.
APPROACHES: The approaches and entrance to the harbour are determined by two pairs of beacons as range or leading lights. Care must be taken not to confuse the installed portal cranes, each 18 m. high, with the beacons, which are painted the same colour.
There is 27 ft. on the bar, at low water: tidal range is 17 ft. 6 ins. to 6 ft. 2 ins.
PILOTAGE/ANCHORAGE: The Pilot will be on board, under standard instructions, but if for any reason he has to be picked up here, he will only come out about one mile, for lack of suitable craft. In such cases vessels should anchor in the roads at 47° 47′ 5″ S. and 65° 47′ 8″ W.
BERTHING: Vessels moor starboard side. Best time for entering is on an ebb tide and sailing on a rising tide, and for berthing within the hour of high tide. With a narrow entrance channel flow of tides often exceeds five knots. There is a mud and gravel bank almost opposite and slightly West of the wharf, some 200 yards out from it, with only 16 ft. at zero. When sailing, a back current runs inside the bank, and assists in opening the bows from the wharf. Vessels then usually steam across the bank, drop anchor on the outer edge and swing on the still rising tide until facing the entrance.
No tugs are avaiable.
The fiscal wharf has been extended to 129 m. overall, in 27 ft and is being extended to 275 m. There are two portal cranes on it, each 12 tons capacity. West of this, there is a space of 90 m. which is being filled in to extend the wharf, and then a 62 m. concrete wharf also in 27 ft., but bearing 312° while the fiscal wharf is on 284°. Both sections of the wharf have wooden fenders and there is ample storage space. Rail connections have not yet been extended to the more Westerly section, where coastal vessels discharge direct to trucks.
RADIO: For radio regarding free pratique, or reporting ETA call LPO 5 on 461 kc/s. A1. For weather reports in English, tune Comodoro Rivadavia LPX 2, on 474 kc/s., at 0400 and 1800 hrs. GMT.
FUEL: Not available.
FRESH WATER: Available at the wharf, but in limited supply in Summer.
MEDICAL: Attention available.
REPAIRS: Minor repairs only.
WEATHER: Conditions are generally good, and winds seldom exceed 40 knots. If anchored awaiting Pilot or berth, care should be taken to watch for strong winds against the current. When a strong W. wind blows there can be heavy dust storms, which impede proper visibility; in such cases it is advisable to keep position by radar and stand off or anchor until the visibility improves.
Yearly average for winds is 14 knots, 63% of the time from W., S.W. or N.W.
Rainfall is low, 202 mm. yearly with an average 74 days a year evenly distributed. Maximum temperature in Summer months is 35.6° C., while in Winter maximum ranges to 15.6° and minimum to minus 8.6°.

PUERTO MADRYN: 42.46 S. 65.02 W. (See Plan)

(Province of Chubut) "B" category port.
N.B. Refer to Argentina, Section 1.
On the Atlantic coast, 767 miles South of Buenos Aires. One of the most sheltered and deepest harbours in Argentina.
PILOTAGE: This is obligatory both on entering and sailing. There is no resident pilot, and one of the Southern zone group of pilots is sent from Buenos Aires by air as required, staying on for sailing if stay in port is to be short. The pilot will board at anchorage, unless he has brought the ship in from elsewhere. As there are no tugs it is advisable to berth in the early morning, before the wind rises.
ANCHORAGE: Half mile from pier terminal good anchorage in 60 ft. depth in protected bay. Anchorage used for transhipment cargo to smaller vessels.
RADIO: Trelew Radio (LPZ) frequency 500 and 527 kc/s., also 4428.6 and 4123.6 kc/s. Radio telephony LPZ–87 at 1500 hrs. local time on 8786.4 kc/s. At 0948 and 2200 hrs. local time area broadcast bulletin on 500 and 527 kc/s. At 1000 and 1300 hrs. local time navigation broadcast on 500 and 527 kc/s. At 1418 hrs. local time broadcast of LSQ Buenos Aires.
TUGS: None.
MEDICAL: Attention available.
BERTHING: The new pier for the aluminium plant is 1,477 m. in length, the first viaduct being 1,133 m. long, 12 m. wide, of which 3 m. are for the conveyor belt; there are 2 general cargo berths, on the Southside, one for vessels drawing 20–24 ft., lying in 20–29 ft. and which consists of a series of 7 mooring dolphins, close to the pier. Any vessel operating here would have to discharge ashore with her own gear.
The main general cargo berth, with 31 ft. at zero at the shore end and 37 ft. at the East end is 130 m. long and can take vessels up to 160 m. in length, drawing 30 ft. There are 2 mooring dolphins, one at each end of the berth, which is ample and wide – a total width of 55 m. at this point, vessels discharge with their own gear, to trucks, the long viaduct having room for 2 trucks to pass easily. There are two 12 ton electric cranes at this point, and two 25 ton cranes are also to be installed.
To seaward, on the North side of the pier, is the bulk berth, with 37 ft. at the shore end and 50 ft. at the East end, 217 m. long and 35 m. wide. There are 2 mooring dolphins, one off each end. Discharge is by grab, on a travelling tower which moves the full length of the berth, and delivers on an endless belt to the stockpiles on shore. Installed capacity is 1,000 t.p.h., but installations are by no means complete yet and actual yields are much lower. On windy days there is a problem with the dusty Bauxite blowing, and it is advisable to keep the ship's quarters tightly shut.
The old jetty, 458 m. long, with 16 ft. at the head and 12 ft. at 125 m. in, at low water, lies 2500 m. to the South and is still in use for smaller vessels operating with their own gear. There are no lighters in the port.
FUEL: Not available.
FRESH WATER: Presently available at the end of the old pier, 5 t.p.h., vessel supply hose.
WEATHER: *Winds* mainly West, with a yearly average of 8.3 knots but reaching 15 knots in Summer months.
Rainfall scarce, average 173 mm. distributed throughout the year.
Temperature. Summer maximum is 27° C and minimum 13°, and in the rest of the year maximum 21° minimum 8°.
Tidal range is 18 ft. 8 ins. and 6 ft.
HATCHES: According to Port Regulations, stevedores open and close hatches at commencement and end of cargo operations.
CUSTOMS ALLOWANCES: Sufficient for daily requirements only.
CREW IDENTIFICATION CARDS: Required.
CONSULS: Italian Consular Agent at Madryn. British and Spanish consuls at Trelew.
REPAIRS: Minor emergency repairs only, also divers available.
REPATRIATION: No facilities for effecting crew changes. Repatriation facilities only.
AIRPORT: Trelew distant 64 km. Scheduled flights to Buenos Aires and other cities.
POLICE/AMBULANCE/FIRE: Police and fire tel. 249. Hospital 240.
TELEPHONES: No arrangements for placing telephones on board.
SHORE LEAVE: Crew members allowed ashore but must be provided with identification cards.
DELAYS: Possible delays due congestion owing berth shortage and tide.
DEVELOPMENTS: There are plans in hand for installing a shipyard, to build vessels of up to 150,000 tons, and also for setting up a new Steel mill, but it will be some time before either develops.
PORT AUTHORITY: Delegation of the Capitania (Harbour Administration) del Puerto de la Patagonia.

PUNTA COLORADA: 41.42 S. 64.54 W. (See Plan)

The mechanical loading arm for the Iron Ore movement from Siera Yrande mines has finally been placed at Punta Colorada, a small peninsula, mid-way between Point Pozos and Point Porfido, the neck of land often being under water at high tide.
BERTH: After grinding and concentrating at the mines, which are some 25 km. due west of the coast, the slurry will be pumped to the Pelletising plant at Punta Colorada, stockpiled there and taken by conveyor some 1,600 m. to a retractile loading arm. This has a loading rate of 2,000 t.p.h., and turns on an arc permitting it to load

over a length of 112 m. without shifting position of the vessel. There is 42 ft. at the berth at L.W.S.T., vessels lying due North/South.

The plant is now under construction and should be operating some time in 1977.

PUNTA MEDANOS: About 280 km. South of Buenos Aires.

New deep-water port project to be completed before 1980. Expected to accept vessels up to 50 ft. draft.

QUEQUEN/NECOCHEA: 38.35 S. 58.42 W. (See Plan)

(Province of Buenos Aires) "B" category port.

N.B. Refer to Argentina, Section 1.

On the Atlantic Coast, 375 miles South of Buenos Aires, Necochea, is on the right bank, and Quequen, on the left bank of the Quequen River. The ports, whose administration is centered in Quequen, are the outlet for a very rich agricultural zone.

APPROACHES: The port is at the mouth of the river, protected by two breakwaters, the western arm being 1,192 m. long, lying from N.W. to S.E., and the easterly arm 572 m. long and lying North/South. The passage between the arms is 210 m. wide, and the entrance channel proper 100 m. wide. The channel is at present dredged at 27 ft. but improving constantly.

PILOTAGE: Pilots must be applied for as usual through Agents at least 24 hours ahead, using Radio Pacheco LPD 5 on 512 kc/s. A2, since there is no radio station at Quequen. This can be done by phone from Buenos Aires or other ports if vessels are not coming from abroad.

No Pilots will come out in bad weather. The small pilot boat is painted green, with a yellow deckhead, and the Pilot comes aboard about 1.5 miles off the South end of the breakwater.

ANCHORAGES: Not advisable to anchor in bad weather due extremely dangerous winds from West through South to East. Anchorage in open sea 800 – 1500 m. from cliffs.

RESTRICTIONS: Day and night entry possible. Vessels with length in excess of 175 m. require channel navigation permit obtainable from Maritime Prefecture.

MAX. SIZE: *Admissible Draft.* The following restrictions now rule vessels up to

150 m. o.a.	26 ft. 07 in. at zero
175	26 ft. 02 in.

However, vessels lying close up to the dolphins often find less depth, as the dredgers could not work too close in. The pool inside the breakwater is at 30 ft. but as there are no buoys for mooring, it is safer for vessels to await their turn outside.

HEALTH: Free Pratique is now given only when alongside, or in the pool. Master should advise Agent in advance of health situation aboard. If proceeding from another Argentine port, health inspection not required. Deratisation Certificate to be shown.

RADIO: For radio regarding free pratique, or reporting ETA call Radio Pacheco LPD 5, on 512 kc/s. There is no station here and advice to Agents can be given by phone or telegraph from Buenos Aires or other ports, also Costera del Mar de Plata (LPM).

TUGS: Two tugs must be used both on entering and leaving and these come alongside at the entrance, and are also needed for movements in the port. Both are old, however, and within sufficient power for anything other than work inside the port. Ship's lines used.

Two vessels cannot be in the entrance channel at the same time. Should the weather make it imprudent for the safety of the ship and/or tugs to make fast ropes in any position, the tugs will continue at the side of the vessel to be engaged when necessity arises. In every case tugs must be paid for, used or not, and any damage done by the non use or late engagement of the tugs will be attributable to the vessel.

BERTHING: Allotment of berths is effected by order of arrival, and vessels awaiting turn to load must do so in the outer roads until the pool inside the breakwater is fully dredged. Shippers consider the Outer roads as open sea, and will not accept Notice of Readiness until a vessel enters port.

There are only eight berths in the port, one of which is not yet in service. No work lying two abreast is possible, since the tubes will not do more than just reach, and with the restricted number of loading points only one vessel could work at a time.

Total storage capacity of grain in the port and anteport can be estimated at 600,000 tons.

Loading marks. Vessels are authorized to load to their Summer marks all year round, provided they are Northbound.

Movement inside the Port. At this port it is customary for the vessel lying second off to pay for the tugs attending her own movements. Vessels lying second off must shift to allow the inside vessel out, and then occupy the vacant berth, effect two movements, as there are only two tugs available. Of these two movements only one is charged to the vessel second off, but if either of the movements is in overtime, the extra is also charged.

Fenders. Good fenders are often needed in this port, although surge has diminished with the extension of the breakwater. It is recommended that these should be at least 3 ft. thick.

QUEQUEN SIDE

Unit 1 National Elevator "Ministro de Tomaso" (Dolphins 3/4 5/6 l.h.)

This elevator, built by the Government, has a capacity of 80,000 tons, a loading bridge with eight tubes but only four conveyor belts. Two vessels can load simultaneously. The berths consist each of two piers 10 m. wide and 70 m. apart, with two railway sidings (broad gauge) running parallel to them. There are twelve mooring bollards distributed between these landing places. A loading bridge has been constructed for the new berth from the Elevator Terminal, while it receives directly from an automatic truck discharging plant at 600 t.p.h., and being at a slight angle it is feared will interfere with a vessel of more than 140 m. long loading at Dolphins 5 and 6.

Unit II (Ocean going vessels and Ultramar Prolongation).

On this wharf which is 350 m. long there are 12 mooring bollards and two large sheds, one of 7,650 tons storage capacity and the other of 16,000 tons. There are also two railway sidings running parallel to it. On the cliff at the back of the sheds there is an elevator of 14,000 tons connected to the Ultramar berth by a loading bridge 85 m. long. The Ultramar Prolongation berth has a loading bridge with two tubes and two conveyor belts, and is fed from adjacent piles and wagons. These two bridges are connected by an underground conveyor, load rate 230 t.p.h., each two vessels being to berth here, one tube each. Unit II has been modified for the loading of cereals. Depth at zero tide is 36 ft.

Unit III (Dolphins 1 & 2 r.h.)

Beyond Unit III, in the direction of the breakwater, there are four sheds with a capacity of 29,750 tons and two piers reinforced concrete, 10 m. wide and 70 m. distant from each other. A pipe line runs alongside the pier for the purpose of eventually discharging tankers. Beyond these two piers, and at right angles to them, a breakwater of 120 m. length has been built as a further protection to ships at this berth.

NECOCHEA SIDE

Unit IV (Coasting vessels: Dolphins 1, 2 & 3 l.h. and 4 & 5 r.h.).

Situated on the western bank of the river and consists of the following berths: (Coasting vessels) A concrete pier 300 m. long with 12 mooring bollards. There are three brick-built sheds known as "Galpones A, B & C" of 5,000 tons each. Two vessels can moor at the same time, and load bagged cargo depth between 18 ft. and 20 ft.

Dolphins 1, 2 & 3 l.h. and 4 & 5 r.h. consists of three piers 18 m. wide and 70 m. apart and two piers 18 m. wide and 70 m. apart respectively. There are two direct discharge lines for Fuel oil for the Power plant.

The right-hand dolphin quays Nos. 1, 2 & 3 are used for fuel discharge, the pipelines are 12 in. diameter.

There are two sheds, Nos. 4 and 5 of 9,750 tons, one at each pier. Vessels can load bags or bulk by cutting bags on board. There are seven mooring bollards distributed between two berths. These, however, are not used now for export movement.

The old railway bridge is now used for road traffic, and the railway crosses higher up the river. The previous road bridge has been cut in the middle, and the area between the two bridges is being converted into a fishing port, which in turn will ease the congestion in port, especially on the Necochea side where trawlers and fishing vessels presently operate.

Importation of cargo. The Custom house here is authorised as a deposit zone, thus permitting the import of cargo.

WEATHER: *Winds,* average velocity is 7 knots, with 46% from N., N.E. and E., and only 29% from S.W., W. and N.W.

Rainfall. Averages 909 mm., evenly distributed.

Temperature: Summer maximum averages 26° C and minimum 14° with an absolute maximum of 39.9°, while in Winter the maximum is around 13° and the minimum 4°, with an absolute recorded minimum of minus 4°.

Tidal range is 5 ft. 2 ins. spring to 2 ft. neaps.

TANKERS: Fuel oil discharged.

DENSITY: Salt water.

FRESH WATER: Obtainable from hydrants on the wharves, vessel must supply hoses.

MEDICAL: Attention available.

FUEL: Advance notice essential as deliveries must be lightened from Buenos Aires, Mar del Plata, or Bahia Blanca.

DEVELOPMENTS: New New quay under construction for loading cereals and grain. No facilities for discharge of general cargo.

The dredging has been finished, although not to the target of 40 ft., and the present max. length admissable is 160 m., with an official figure of 26 ft. draft at zero. However, vessels lying close up to the dolphins often find less depth, as the dredgers could not work too close in. The pool inside the breakwater is at 30 ft. but as there are no buoys for mooring, it is safer for vessels to await their turn outside, from 800–1,500 m. from shore, in 50–60 ft., but with heavy winds from West through South to East they must put out to sea.

WATCHMEN: Compulsory.

HATCHES: Opened/closed by stevedores additional charge made.

REPAIRS: Minor repairs only.

REPATRIATION: Through Buenos Aires.

AIRPORT: Five miles distant. Daily flights to Buenos Aires.

TIME: GMT minus 4 hours.

CONSULS: Danish, Italian and Spanish. Consular clearances for France and Uruguay must be effected in Mar del Plata, and must be done the day the vessel sails. Brazilian clearances have to be taken at La Plata Consular offices.

HOLIDAYS: Vessels worked every day of year.

POLICE/AMBULANCE/FIRE: Police, Necochea 2148 and Quequen 6008; Ambulance, Necochea 2350 and Quequen 6052; Fire, Necochea 4900.

TELEPHONES: No arrangements for placing aboard.

SERVICES: Any special services required, technicians sent from Buenos Aires.
SHORE LEAVE: Not permitted.
DELAYS: Daily cargo work 18 hours/day. One waiting berth available. Delays up to four days can occur in January and February.
AUTHORITY: Capitania de Puerto, Administrador de Puerto.

RIO GALLEGOS: 51.33 S. 68.59 W.

(Province of Santa Cruz) "B" category port.
N.B. Refer to Argentina, Section 1.
About eight miles up the river, 1,247 sea miles South of Buenos Aires.
PILOTAGE: Access to the channel is well buoyed, and the authorised Southern zone Pilot must be on board. There are 2 channels for entering port, the Southern channel though of less depth is preferred as it is more sheltered and the current is weaker.
ANCHORAGE: Good anchorage when awaiting tide is off Punta Loyola in 30 ft. or on the Northern coast in front of Punta El Gancho or between Punta Bustamante and Isla Deseado, this latter in the case of N.W. storms only.
In the port itself, the town anchorage is the best and is deepest in front of the packing house plant. Vessels discharge to or load from lighters, and ocean going vessels are permitted to use their own launch for connection with shore while in port.
RESTRICTIONS: Entrance to the anchorage is buoyed. The Northern Channel has a shingle bank bar 13 ft. at low water. The Southern Channel is more sheltered and the current not so strong. Rio Gallegos is a tidal port, the height of tide being as much as 40 ft. at times.
The port is characterised by the intensity of the currents, up to six knots, and should be entered on a rising tide there being only 22 ft. in the pool of the port at low water.
RADIO: For radio regarding free pratique, or reporting ETA call LPG 2 on 486 kc/s. A2. For weather reports in English tune Comodoro Rivadavia LPX 2 on 474 kc/s. at 0400 and 1800 hrs. GMT.
TUGS: Tugs are not required but there is a small tug available.
BERTHS: Apart from the freezer wharf, there is the coal wharf, T shaped, fitted with an endless belt capacity 300 t.p.h., for the loading of the coal vessels taking the coal to Plate ports. There is only 20 ft. at this wharf.
There are nine lighters with varying capacity from 120 to 400 tons, which are usually unloaded or loaded when aground at low water.
FRESH WATER: Available by barge in very limited quantities. Vessel's pumps used.
FUEL: Not obtainable.
MEDICAL: Doctor available.
REPAIRS: Workshop facilities for small repairs.
AIRPORT: Daily air service to Buenos Aires.
WEATHER: *Winds.* Characterised by constant winds from W. and S.W. averaging 16 knots during the day. In Spring and Summer 25 knots rising to 75 knots at times. Easterly winds are rare, usually with rain.
Rain. There are usually about 100 days with rain, in total 222 mm. distributed from April to October.
Temperature. Average maximum temperature in Summer is 18° C, maximum recorded being 29°, Summer minimum is 5.8° while in Winter the average maximum is 6.5° and minimum minus 11.
Tidal range is 39 ft. 4 ins. spring and 9 ft. 6 ins. neaps, tides of over 40 ft. have been registered.
CONSULS: British, Chilean, Spanish and Italian.
AUTHORITY: General Ports Administration.

SAN ANTONIO OESTE 40° 49′ S. 64° 54′ W.

ANCHORAGE: There is a natural deep water pool here which will allow vessels of up to 33 ft. to lie in complete shelter.
BERTHS: A new pier is being built on the north side of Villarino Point on the opposite side of the bay from the old fishing port, now abandoned. The berth is designed to take vessels up to 170 m. long, using 2 dolphins to extend the 100 m. long jetty.
The main object is to handle the movement of the Solvay Soda plant to be built here. It is unlikely that any thing will be ready until 1978, although work on the port has commenced.

SAN JULIAN: 49.18 S. 67.43 W.

(Province of Santa Cruz) "C" category port.
N.B. Refer to Argentina, Section 1.
In the creek of the same name, 1,111 sea miles South of Buenos Aires.
APPROACHES: Access is well buoyed, but vessels must wait for high tide to enter.
PILOTAGE: Southern Zone Pilot must be on board.
ANCHORAGE: Best anchorage situated in front of the town, in 22 ft. at LWS. When heaving anchor care must be taken as the 3-knot current drives vessels towards the shore. Puerto Scholl is the best of several anchorages.
RADIO: For radio regarding free pratique, or reporting ETA call LPY on 428.5 kc/s. A2. For weather forecasts in English, tune LPX 2, Comodoro Rivadavia on 474 kc/s, at 0400 and 1800 hrs. GMT.
TUGS: None.
BERTH: A quay has recently been put into use, 62 m. long by 20 m. wide, and in 24 ft. with two mooring dolphins, so ending the previous use of lighters.
FUEL/FRESH WATER: Not available. In emergencies, water could be supplied by lighter in drums.
MEDICAL: Doctor, and hospital available.
CONSULS: None.

SANTA CRUZ: 50.07 S. 68.25 W.

(Province of Santa Cruz) "C" category port.
N.B. Refer to Argentina, Section 1.
On the estuary formed by the rivers Santa Cruz and Chico, 1,172 miles South of Buenos Aires.
APPROACHES: The entrance to the port is by a channel ten miles long. The Santa Cruz lighthouse and nine other beacons determine four pairs of leading lights for the approaches and entrance to the harbour, which can be entered only at high water, as both in the bar, either North or South passage, there are shoals on the leading lines, and also just before taking the anchorage in front of the town.
PILOTAGE: Southern Zone Pilot must be on board.
ANCHORAGE: The port is well sheltered and vessels can lie in up to 30-36 ft. half a mile off the town in good holding ground.
RADIO: For radio regarding free pratique or reporting ETA call LPT 2 on 441 kc/s. A2. For weather forecasts in English tune Comodoro Rivadavia LPX 2, on 474 kc/s., at 0400 and 1800 hrs. GMT.
TUGS: None.
FUEL: Available in small quantities, in drums, from the local YPF agency.
FRESH WATER: Available in drums, ex lighter, to be pumped out by the vessel.
LOADING: Loading is from lighters, which come alongside with the falling tide and return unladen on the rising tide, working two tides a day. Lighters always operate port side to vessel. There are 20 wharves or piers. Load rate is slow, say 150 tons mutton per day.
WEATHER: A dry zone, with an average of 186 mm. rain, spread over 72 days throughout the year. Wind averages 11 knots and the average, maximum/minimum temperature, Summer and Winter, is 20° or 7.9° and minus 8°, the maximum ever recorded being 34.9° Summer or 15° Winter, and absolute minimum 7.9° Summer, or minus 8° Winter.
Tidal range is 39 ft. 8ins. to 9 ft. 4 ins.
MEDICAL: Attention available.
CONSULS: None.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Australia

GENERAL:
Pilot Ladders: The Merchant Services Guild of Australia has advised that as from 1st December, 1975, Pilots will not board any ships on which the height from sea level to point of access exceeds 9 m., unless prior written assurance is given by the owner or Agent that arrangements have been, or will be, made to satisfactorily alter the ship's construction or equipment at the earliest opportunity. The only acceptable means for boarding ships with freeboard in excess of 9 m. is by a pilot ladder secured at an opening in the ship's side, or by an approved combined system of pilot ladder and accommodation ladder. The notice has been issued by the M.S.G.A. as, although the "9 m. rule" has been part of Australian and SOLAS regulations for some years, their members have found that a high number of vessels are not fully complying.
Hold Ladder Policy: For easy reference, summarised below is the Waterside Workers Federation official policy for hold ladders in Australia. Details of acceptable designs for special type vessels, i.e. car carriers, shallow 'tween deck refrigerated ships, etc. are available from Agent's office upon request.
1. *General Cargo Vessels* – The standard acceptable ladder construction would be an upper vertical section limited to 3 m. (subject to this being technicaliy possible) with the balance of the access hold ladders being of stairway design angled to the tank top.
2. *Bulk cargo Vessels* – The standard acceptable ladder construction would be an upper vertical section limited to 3 m. (subject to this being technically possible) with a bottom vertical section limited to 6 m., (in order to reduce damage by grabs, bulldozers, etc.) and with the balance of the access ladders between the upper vertical section and lower vertical section being angled and of stairway design with the angle being not greater than 65° in both the above classes of vessels.

ADELAIDE, S.A. (Port Adelaide): 34.51 S. 138.30 E. (See Plan)

PORT LIMITS: The seaward boundaries of the port are: An area embraced by a line drawn to seawards 4 miles from Outer Harbour through the Fairway Beacon and then extended 5 miles North and South returning due East to the coastline.
DOCUMENTS: See "Melbourne".
PILOTAGE: Advance notice 24 hours, telegraphic requests through ship's Agent. VHF Channel 16. Call sign "Adel. OH" Pilot launch black hull, white deck house, "Pilot" on each side. Give pilot launch good lee and safe pilot ladder. Pilot boards 1.5 miles seaward of Fairway Beacon.
ANCHORAGE: 0.5 mile West of Fairway Beacon.
RESTRICTIONS: Controlling depth in channel is 30 ft. (9.1 m.) ISLW.
Vessels up to 28 ft. (8.5 m.) require 3 ft. (0.91 m.) keel clearance; vessels up to 28–30 ft. (8.5–9.1 m.) require 3 ft. 6 in. (1.06 m.) keel clearance; vessels over 30 ft. draft require 4 ft. (1.21 m.) keel clearance.
Night berthing/unberthing subject to Harbour Master's approval.
MAX. SIZE: Inner Harbour – length 585 ft. (178 m.) OA; draft 31 ft. (9.4 m.), subject to tide. Outer Harbour – length 703 ft. (214 m.) OA; draft 35 ft. (10.7 m.), subject to tide.
HEALTH: Including Document A in short form. Also see "Melbourne".
RADIO: Adelaide Radio VIA.
TUGS: 4 available. Use tugs wires – charge A$4.
BERTHING: Tug power as required by Pilot. Depth at berths 26 ft.–35 ft. (7.92 m.–10.67 m.).
STEVEDORES: No advance ETA required.
RADAR: Decca Type RR 1219 installed in new signal tower.
MEDICAL: Contact Quarantine Department in ample time.
TANKERS: Vessel carrying inflammable cargoes or not gas-free restricted navigation during darkness. "Leak free" advice to Harbour Master to be given through Agent. 500 tons slop discharge facilities. 27 Berths 26 ft.–35 ft. (7.91 m.–10.70 m.). Unauthorised persons not allowed on board.
Berths:
Shell Co. Depth alongside 8.2 m.
Mobil Oil Co. Depth alongside 8.5 m.
B.P. Ltd. Depth alongside 8.5 m.
Caltex Co. Depth alongside 8.5 m.
DENSITY: Slightly denser than sea water; not affected by tide.
FRESH WATER: Through Hydrants at 12–15 t.p.h.
FUEL: Fuel oil, thin fuel oil, diesel, gas oil. 48 hours notice required. A bunkering barge capable of transporting 1,000 metric tons of bunkering oils operates in the port. The use of this bunkering barge will enable vessels to bunker without leaving their loading berths or using road tankers.
DEVELOPMENTS: Channel between Inner and Outer harbour now 9.1 m. ISLW and being widened to a minimum of 150 m. On completion, vessels 210 m. OA and 9.8 m. draft will use channel on average neap tide (1.5 m.).
A riverside berth and shore facilities in the Inner Harbour for roll-on/roll-off vessels of 247 m. length for steel products from the Eastern states of Australia.
A wharf, crane and large terminal for cellular type container vessels at the Outer Harbour is being constructed, with completion in 1976.
GANGWAY/DECK WATCHMEN: Optional except for white spirit tankers. Cost varies according to time of shift.
OPENING/CLOSING HATCHES: Carried out by crew.
CERTIFICATES:
Last Port Customs clearance.
Ship's Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment.
Light Dues Receipt.
Ship's Articles (British Vessel).
CUSTOMS ALLOWANCES: Each Crew member 200 cigarettes or 40 cigars or 8 oz. tobacco. Limited amounts spirits per man.
CARGO GEAR: Accordance Australian Regulations. See "Melbourne".
IDENTIFICATION CARDS: See "Melbourne".
CONSULS: The following countries are represented:

USA	Greece	Netherlands
Austria	Guatemala	Norway
Belgium	Italy	Peru
Denmark	Japan	Philippines
Finland	Lebanon	Portugal
France	Liberia	Sweden
Germany		

REPAIRS: All repairs possible.
DRY DOCKS: None.
REPATRIATION: Available.
AIRPORT: Adelaide 8 miles, regular airlines.
TIME: GMT plus 9 hours 30 minutes.
HOLIDAYS: Xmas Day, Waterside Workers' Picnic Day (late January), Good Friday, Anzac Day (25th April), Adelaide Cup Day (15th May), Eight Hours Day (2nd Mon. October). Restricted holidays, Boxing Day, New Year's Day.
TELEPHONES: Port Adelaide Police 475466, Ambulance (Wharf) 461616, Fire Brigade 471515.
Note: $12 connection fee plus cost of calls.
SERVICES: Garbage disposal, cleaning out and fitting out and compass adjusting.
AUTHORITY: Dept. of Marine and Harbors.
AGENT: Patrick Agencies, POB 107. 15 Divett Street, Port Adelaide SA 5015. Tel. 47–4655. Telex AA. 82624. Cables: "Rikpat Adelaide".

ALBANY, W.A.: 35.02 S. 117.53 E. (See Plan)

PORT LIMITS: All the waters of King George Sound and Princess Royal Harbour Westward of a line drawn from Herald Point to Bald Head.
DOCUMENTS: See "Melbourne".
PILOTAGE: Compulsory. Pilot boards vessels about 1 mile (1.60 km.) East of Mistaken Island.
ANCHORAGE: 1.5 miles (2.4 km.) East of Possession Point (or in Frenchman's Bay if going to Whaling Station or for shelter).
RESTRICTIONS: The entrance channel from King George sound to Princess Royal Harbour has a width of 1,800 ft. (548.64 m.) land to land, the navigable channel therein being 500 ft. (152.40 m.) wide, with a depth of 33 ft. (10.06 m.) LWOST. Depth of swinging basin in the harbour is 33 ft. (10.06 m.) and vessels with a draft of 31 ft. (9.45 m.) can work the port. Vessels can be berthed day or night.
HEALTH: Inform Port Quarantine Office 12 hours before ETA. Also see "Melbourne".
VHF: Limited VHF, channels 6 and 16.
TUGS: Motor tug available, bollard pull approx. 14 tons.
BERTHING: Two jetty berths. Largest 800 ft. (243.84 m.) North side of harbour 3 berths, total length 1,996 ft. (608.69 m.), depth 33–36 ft. (10.06–10.97 m.).
FRESH WATER: Available all wharves. Rate 60–80 tonnes/hour.
STEVEDORES: No ETA required. Private companies.
FUEL: Bunkers available all berths, also Lt. Diesel.
CERTIFICATES:
Last Port Customs Clearance.
Ship's Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Light Dues Receipt.
Ship's Articles (British Vessel).
CUSTOMS ALLOWANCE: Each crew member 200 cigarettes or 40 cigars or 226.8 gm. tobacco. Limited amounts spirits per man.
IDENTIFICATION CARDS: See "Melbourne".
TIME: GMT plus 8 hours.
HOLIDAYS: Xmas Day, Waterside Workers' Picnic Day (late January), Good Friday, Anzac Day (25th April), Labour Day (1st Monday in March). Restricted holidays, Boxing Day, New Year's Day.
DEVELOPMENTS: The port plans to improve the present draft limit. The turnaround basin, the channel and No. 3 Berth will be deepened to 11.5 m. A new grain gantry is to be built on No. 3 Berth.
CARGO GEAR: See "Melbourne".
AUTHORITY: Albany Port Authority.
AGENT: Patrick Agencies, Box 525 PO, Port Road, Albany, Western Australia, 6330. Cables "Rikpat". Tel. 413538.

ARDROSSAN, S.A.: 34.26 S. 137.55 E.

DOCUMENTS: See "Melbourne".
PILOTAGE: Not compulsory but available and recommended.
RESTRICTIONS: Max. size 20,000 d.w.t. for berthing and loading.
BERTHING: BHP Jetty length 3,055 ft. berth length 800 ft. at "T" head with 6 dolphins. Depth 27 ft. MLWS. Belt conveyor system. Fixed chute from conveyor system necessitates vessel warping along quay head during loading. Loading rates: dolomites 8/900 t.p.h.; wheat 350 t.p.h.; barley 340 t.p.h.; salt maximum 600 t.p.h. Height of chute above LW – 36 ft. 06 ins.
TIDE: Average rise and fall 6–8 ft., max. 10 ft. at spring tides.
GRAIN: Vessels loading bulk grain must be fitted out and passed by Navigation Dept. prior to arrival. Surveyors will attend vessel during loading, travelling by road from Adelaide.
VHF/TUGS/FUEL: None.
STEVEDORING: Arranged with private companies.
FRESH WATER: Limited quantities only. Delivery rate about 7 t.p.h.
AUTHORITY: The Broken Hill Pty Co. Ltd. Whyallla. Department of Marine and Harbours, Adelaide.
AGENT: Sub-agent of Patrick Agencies, Adelaide.

BALLAST HEAD, Kangaroo Is.: 35.45 S. 137.48 E.

In Eastern Cove, Kangaroo Island. Small private bulk loading installation from which charter vessels load gypsum for shipment to factories in Eastern Australian states. No facilities for discharging cargo and no Customs, health or other government departments' facilities available.
DOCUMENTATION: For vessels chartered to carry gypsum to Eastern Australian ports, Bills of Lading prepared on completion of loading.
PILOTAGE: No Pilots resident at Ballast Head but pilotage can be arranged through Harbour Master, Port Adelaide if required.
ANCHORAGE: Sea approach is unobstructed, with deep water anchorage and turning basin of Eastern Cove, 3 miles wide and extending 0.5 miles South of berth. Minimum depth about 35 ft. Sand bars exist immediately South of berth but well inside line of dolphins.
RESTRICTIONS: Vessels may proceed to anchorage at any time, but can berth only during daylight hours. Loaded vessels can leave berth or anchorage at any time without concern for tide conditions.
HEALTH: Pratique must be obtained at Port Adelaide.
TUGS: No tugs are available, but can be arranged from Port Adelaide, if required. However, a launch is available for running ships' lines, and must be used.
BERTH: The berth consist of a line of 8 dolphins running North/South, 600 ft. (183 m.) overall length forming a T-head jetty with loading conveyor gantry. Depth of water alongside 26 ft. (7.9 m.) LWOST. Berthing signals by radio instruction or mast head.
MAX. SIZE: Jetty can accommodate vessels up to about 7,000 d.w.t. Maximum length 400 ft. Maximum breadth 55 ft. Ships must exercise extreme care in berthing to avoid damage to dolphins or head frame.
LOADING FACILITY: Loading equipment consists of conveyor system to fixed loading gantry supporting luffing boom conveyor. Discharge from boom conveyor feeds to gimbal-mounted chute that can be pivoted mechanically in any direction up to 20° off vertical to trim to square of hatch. Boom conveyor operates only in horizontal position and loading chute does not telescope. Fixed loading gantry situated at centre of line of berthing dolphins. Maximum workable distance from wharf edge to centre line of loading unit – 26 ft. Distance from low water level to outlet end of loading chute in loading position – 19 ft. 3 in. Maximum handling rate of rock gypsum on conveyor system, 870 t.p.h.
RADIO: Ship-shore VHF radio. Call sign "Ballast Harbour". Frequencies, 150.80 mc/s. for distress and calling; 156.60 mc/s. for working.
ARRIVAL ADVICE: At least 8 hours notice of ETA is required to S.A. Gypsum Adelaide Office, tel. 454751 or after hours, Adelaide 356.5606 or Kingscote 2.2287.
MEDICAL: Doctor available at Kingscote, 25 miles distant. Hospital also at Kingscote.
FRESH WATER: None available.
FUEL: No facilities available.
GANGWAY/DECK WATCHMEN: None required.
OPENING/CLOSING HATCHES: Carried out by crew.
CONSULS/REPAIRS/DRYDOCKS/REPATRIATION: No facilities available.
AIRPORT: Local airport approximately 20 miles distant. Regular air service to Adelaide – at least one flight daily.
TIME: 9 hrs. 30 mins. in advance of GMT from March to October inclusive. One hour Summer saving time operates from November to February inclusive.
HOLIDAYS: Loading carried out on any day but at least 24 hours notice of ETA required for loading on public holidays.
POLICE/AMBULANCE/FIRE: Police station, Kingscote 2.2018; Ambulance, Kingscote 2.2037 or 2.2028; Fire, Kingscote 2.2200.
TELEPHONES: No arrangements exist for placing telephones on board.
SERVICES: None available.
DELAYS: Berth accommodates only one vessel at a time, but once berthed the loading continues without break until completion except for the time taken to shift ship from hatch to hatch and check draft.
AUTHORITY: S.A. Gypsum, Division of CSR Ltd.

BARROW ISLAND, W.A.: 20.49 S. 115.53 E.

(See Plan)

DOCUMENTS: Refer to "Melbourne".
TERMINAL OPERATOR: West Australian Petroleum Pty Limited.
LOCATION: The Barrow Island Tanker Terminal is a crude oil loading installation located on the East side of Barrow Island, Western Australia. The tanker moorings are located approximately 32,400 ft. offshore at Lat. 20° 48′ 52″ South, Long. 115° 33′ 04″ East.
PILOTAGE: A terminal Mooring Master will meet and board tankers bound for the Island Tanker Terminal in approx. position tanks (conspc.) bearing 300° and 2 miles off the moorings. Tankers waiting to berth, etc., are requested to anchor in this position.
RESTRICTIONS: Vessels equipped with adequate searchlights may be berthed during the hours of darkness. Two × 12 in. reflector diameter searchlights, one fitted to each port and starboard wing of the bridge in such a manner as to provide a wide scanning range, are considered adequate. Tankers not fitted with searchlights, may berth in daylight hours only.

Slack water at the terminal moorings occurs approximately two hours after HW and LW at springs and 1.5 hours after HW and LW at neaps. The direction of the flow is approximately 245° flood tide and 065° ebb tide, and attains a rate of approximately one knot at springs.
MAX. SIZE: The minimum depth of water in the berth is 46 ft. and an under keel clearance of 5 ft. is required. Tankers exceeding the following dimensions cannot be accommodated at the sea berth:
Deadweight tonnage (loaded): 70,000 tons.
Overall length: 820 ft.
Moulded depth: 58 ft.
Draft: 41 ft. plus height of tide above Chart Datum.
HEALTH: Tankers arriving from foreign ports must make prior arrangements for quarantine and customs clearance through their Agents. Port Hedland, Western Australia, is the nearest port where customs and quarantine clearances can be obtained.
RADIO: All tankers proceeding to the Barrow Island Terminal shall notify the West Australian Petroleum's Perth Office, tel. 25–0181 or cable address "Wapet Perth", their estimated time of arrival, not less than 96 hours before arrival amending or confirming this ETA at intervals of 48 and 24 hours prior to arrival. A final ETA is to be confirmed 12 hours before arrival at Barrow Island. Failure to comply with the above procedure may result in a Berthing Master not being available on the tanker's arrival. Quantity and condition of ballast on board should be advised in original ETA message.

During normal daylight working hours, the Company's Marine Superintendent, Barrow Island, can be contacted by means of the International Maritime VHF radio-telephone. Frequencies in use are:
Channel 16: 156.8 Mc/s. safety and calling.
Channel 12: 156.6 Mc/s. terminal operations; ship/shore
Call sign: "Barrow Island".
Channels 6 & 14 are also fitted.

At times other than normal working hours, contact may be made by pre-arranged scheduling. In all events tankers are required to tune their VHF sets to Channel 16 when within 100 miles of Barrow Island.
MOORING: Vessel berths at a seven-point conventional buoy mooring. Tankers must have at least one set of mooring bitts on the port and starboard sides at the after end of the main deck and a minimum of four sets of mooring bitts on the poop deck to which mooring lines and/or wires can be hove tight and made fast. Self-tensioning winches will not be accepted in lieu.

Both bow anchors are required to have a minimum of ten shackles of chain. All anchors and chains are to comply with the requirements of a Classification Society recognised by the Australian Department of Shipping and Transport.

Tankers should have sufficient mooring ropes and/or wire so that single or doubled up, they have a total breaking strain of 80 tons to each of the six mooring buoys. Six such lines or combinations not less than 120 fms. in length are required.

Permanent 5-in. circumference wires are fitted to No. 1, 2, 3, 4, and 6 mooring buoys. These wires are provided to supplement the tanker's own lines relative to the prevailing weather conditions at the time. These wires are fitted with 110/200 ft. of 3.125 in. wire and 4.5 in. × 100 ft. Terylene messengers. A good ship's rope messenger is required to bring the 4.5 in. Terylene messenger to the tanker's winch drum.
HOSES: The tanker's derrick must be capable of lifting the 5 ton submarine hose on the starboard side.

The sea line delivering the oil is 20 in. OD × .375 in. steel pipe with a 2 in. thick concrete external coating. The line is terminated with 200 ft. of flexible submarine loading hose consisting of 150 ft. of 16 in. and 50 ft. of 12 in. hose. The sea end of the 20 in. pipe-line is marked with a white spar buoy, and the pick-up end of the flexible hose is marked with a white cone buoy.

The submarine line is left full of crude oil between tanker arrivals. After picking up and connecting the hose, the system will be pressurised to about 25 psi. After the hose has been hoisted and secured at the ship's rail, the blank flange on the end of the hose assembly is removed and the hose connected to the tanker's manifold by the deck hose and the adaptor spool assembly previously delivered to the tanker by the mooring launch.

The tanker should furnish necessary personnel to perform all work involved in the connecting and disconnecting of the cargo hose. During these operations a senior officer must be present to approve the hose connections and supervise the tanker's crew members in this work.

25 ft. × 10 in. and 18 ft. × 10 in. deck hoses and 14 in. to 12 in. and 12 in. to 10 in. reducers are available.

All flanges are U.S.A. Standard. An adaptor from 10 in. diameter U.S.A.S. (flange pitch circle diameter 14.25 in.) to 10 in. diameter British Standard (flange pitch circle diameter 15 in.) is available.

BALLAST: There are facilities for receiving ballast from vessels loading at Barrow Island. Tankers are required to arrive ballasted to at least one-quarter of their deadweight. Owing to the time factor involved in pumping dirty ballast ashore, it is recommended that tankers arrive with clean ballast and preferably deballast concurrently with loading. However, if required, ballast on arriving tankers may be pumped to shore using ship's pumps through the 20-in. submarine line then through a 12-in. deballasting line to the ballast receiving pond.

The following deballasting procedure is used at the Terminal:

After the hose has been connected, at least one-third of the cargo must be loaded before deballasting. Part of this oil is to be used to displace ballast from the submarine line after all the ballast aboard the tanker is pumped to shore. The line displacement of the 20 in. loading line is approximately 12,250 barrels (1,650 tons).

It is necessary to load at least one-third of the cargo before deballasting operations begin in order to keep the ship in as heavy a condition as possible and thereby minimise the effects of sudden changes in sea and weather conditions.

When the preceding operation is complete, deballasting operations start. When the oil-water interface is detected onshore, the stream is diverted from the crude oil storage tanks to the ballast receiving pond. Pumping of the ballast continues until all ballast is discharged from the ship.

At this time the Barrow Island crude oil previously loaded is pumped into the line in order to displace all ballast from the submarine pipe-line.

When the water-oil interface is detected ashore, the stream is then diverted to the shore tanks and the ship's pumps are requested to be stopped. During the displacement operations, pumping rates should be kept as high as possible to keep line contents in a turbulent condition in order to sweep the line as clean of water as possible.

LOADING: CAUTION – Whilst loading, the flow of oil from the shore pumping station via the submarine pipe-line is not to be shut off by closing ship's valves or the pipe-line valve without prior approval of the Mooring Master. At least one tank is to be fully open to the inflow of oil from the submarine pipe-line at all times, and in order to reduce back pressure as many tanks as possible should be open during loading. In all events, the back pressure at the ship's rail is not to exceed 100 psi.

The loading pumps are rated to deliver a maximum of 17,000 bbls. per hour of crude oil to tankers with a nominal pressure of 50 psig at the ship's side.

Barrow Island crude oil has an approximate API gravity range of 35.5 to 37.1 and an approximate temperature range of 74°F to 98°F.

The Mooring Master is to be advised when 200 tons is required to complete loading so that pump motors can be eased down slowly, and again at 50 tons when the pumps will be stopped and loading completed by gravity. On completion of loading, the manifold valve is to be closed slowly to minimise the surge of oil in the pipe-line and the consequent quick build up of back pressure.

Portable radios are supplied for communication between tankers and the Terminal. To minimise the possibility of a dangerous position arising due to undetected radio failure, tankers are required to keep an hourly test call schedule with the Terminal at which time they should advise the Terminal of the rail pressure.

MEDICAL: No facilities at the Tanker Terminal.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: No facilities available.

CONSULS: None at Barrow Island.

TELEPHONE: No service available.

REPATRIATION: Ships' crews cannot be accommodated ashore on the Island.

GENERAL: Notice of readiness is accepted.

(a) *Where the Marine Terminal is available;* when the vessel is all fast in the berth, i.e. all lines secured to the buoys and preventers made fast.

(b) *Where the berth is not available;* 6 hours after the vessel drops anchor at a nearby anchorage. Laytime ceases for the period of time taken for the vessel to move from the anchorage and is resumed when the vessel is all fast at the berth.

(c) *Where a vessel with inadequate lights arrives at night;* 6 hours after daybreak following arrival or when the vessel is all fast at the berth – whichever occurs first.

Tankers are required to victual and provide sleeping accommodation for the Mooring Master and Operator and to victual only, the three-man launch crew.

BOTANY BAY, N.S.W.: 34.00 S. 151.14 E.

DOCUMENTS:

2 Crew Lists (Form M. & S. II).
Stores List (Form 42 A).
Personal Effects List (Form 5).
2 copies Health Report (Form A Q360).
3 copies Ports of Call List (Form C & E 886).

If vessel has an animal aboard as ship's pet, Master will also be required to complete Forms QA 4 and QA 5.

PILOTAGE: Compulsory. Ordered by Agent basis Master's ETA. Pilot boards outside Botany Bay heads. Vessels waiting for Pilot not to proceed West of 151.15 E. Pilot can be contacted by VHF Channels 16, 12 and 14.

ANCHORAGE: Inside Heads for vessels up to 31 ft. draft. In bad weather vessels should not anchor but put to sea.

RESTRICTIONS: Vessels not berthed after sunset. Mooring normally effected two hours before HW.

RADIO: Sydney Radio. VHF to Harbour Control, Sydney. Also see "Sydney – VHF".

MAX. SIZE:

Kurnell	No. 1	Length	600 ft.	Draft	32 ft.
,,	2	,,	650 ft.	,,	35 ft.
,,	3	,,	780 ft.	,,	38 ft.

SBM Terminal, up to 40 ft. draft.

TUGS: 24 hours notice required. Tugs join vessel at sea buoy. Ship's lines used.

BERTHING: *Kurnell Jetty:* Operators: Australian Oil Refining Pty. Ltd. Finger pier with 2 berths; No. 1 – Eastside No. 2 – Westside. Vessels held 5–10 ft. off wharf face by 10 in. ship's lines to breasting off buoys situated fore and aft about 700 ft. from pier. Crude 1 × 26 in. 1 × 18 in. lines – 8 in. hoses. Fuel 1×24 in. 1×12 in. lines – 8 in. hoses. White 6 in. – 16 in, Bunkers and FW ex-wharf. Slop facilities up to 8,200 tons (1,000 t.p.h.).

Kurnell No. 3 Berth: Operators: Australian Oil Refining Pty. Ltd., also used by "Boral". Vessel moors using both anchors frd. and ropes to 5 buoys in semi-circle (astern). Hoses connected midships – 1×16 in, or 2×8 in. to 16 in. submarine line (crude). Bunkers, fuel and diesel. FW 70 t.p.h. ex-pipe-line.

"Boral" mooring: Operators: Bitumen and Oil Refineries (Australia) Ltd. Vessels moor using both anchors and ropes to 4 buoys situated stbd. quarter, stern, port quarter, port bow. Midships hose connection. Crude: 1×12 in. 600 t.p.h. No bunkers. Fuel 1×8 in. 190 t.p.h. FW ex-tug (100 tons each lift).

"Total" mooring: Operators: Total Oil Products (Australia) Ltd. Details as for Boral. White products: 1×10 in. line and hose, 200–600 t.p.h. No bunkers. FW ex-tug (100 tons each lift).

SBM Terminal: A single point mooring for up to 80,000 d.w.t. tankers, at 40 ft. draft, located just inside bay entrance. Crude: 2×12 in. hoses, up to 1,500 t.p.h. White products: 1×12 in. hose, 600 t.p.h. Fuel: 1×12 in. hose, 600 t.p.h. Bunkers available. Fresh water ex-tug at 100 tons per lift.

Boral No. 2: Conventional buoy mooring for LPG vessels up to 250 ft. length and 18 ft. draft. Fresh water ex-tug at 100 tons per lift.

DENSITY: 1025.

FRESH WATER: Hose at jetty. Pipe-line from Kurnell No. 3 privately owned by A.O.R. Ltd.

FUEL: Marine Fuel and Diesel Oil. No barging available, deliveries by pipe-line only.

FIRE PRECAUTIONS: Normal restrictions.

GANGWAY/DECK WATCHMEN: None available.

IDENTIFICATION CARDS: See "Melbourne".

DEVELOPMENTS: Work commenced on development of Botany Bay as an ancillary port of Sydney. First stage includes dredging entrance to 70 ft. depth, and building an armoured embankment to reduce wave effect in the Bay.

The new container terminal at Botany Bay will be capable of accommodating the world's largest container vessels. Plans revealed recently are for a five-berth container complex with depths alongside wharves of 50 ft. A total area of 150 acres has been set aside for the container terminals. The berths will each have a length of approximately 1,100 ft. The first of the new terminals will be available in three years with the remainder being developed as required.

Facilities will also be provided for dry and liquid bulk cargoes. The first berth for bulk cargoes will be available mid 1976.

REPAIRS: Most repairs. Ships not allowed to be immobilised.

DRY DOCKS: Nil.

AIRPORT: 10 miles – regular airlines.

TIME: GMT plus 10 hours.

HOLIDAYS: Cargo worked all days.

POLICE/AMBULANCE/FIRE: Tel. 2222.

TELEPHONES: At Wharf and Kurnell No. 3. AOR Ltd.

SERVICES: Compass adjusting only.

DELAYS: Normal only.

AUTHORITY: Maritime Services Board of NSW.

AGENT: Patrick Agencies, Head Office, Box 3918 GPO, Sydney, NSW 2001.

BOWEN, Queensland: 20.01 S. 148.15 E.

(See Plan)

PORT LIMITS: The Port of Bowen limits is an area comprised within a line commencing at Cape Edgecumbe and proceeding thence to Cape Gloucester.

DOCUMENTS: See "Melbourne".

PILOTAGE: Vessels requiring a Pilot should radio Agent giving sufficient advance notice. No VHF communication presently available. Pilot boarding ground is 1 mile outside Fairway Buoy, a distance of 4 miles from the port. Pilot requires ladder, rigged 5 ft. above the water, man-ropes rigged and heaving line ready.

RESTRICTIONS: Vessels will not be berthed at night. It is necessary for vessels to be at Pilot boarding ground 1 hour before sunset. Vessels should have at least 1 ft. keel clearance in the swinging basin.

Depths available: South Entrance Channel 23 ft. LWOST;
North Entrance Channel 12 ft. LWOST;
Swinging Basin 22 ft. LWOST.
Vessel may sail at night.

MAX. SIZE: Length about 540 ft. overall. Berth depth from 22 ft. 9 in. to 30 ft. LWOST.

HEALTH: See "Melbourne".

RADIO: Vessels arriving from the North use Townsville Radio. Vessels from the South use Sydney and Brisbane radio stations.

TUGS: Tug available for berthing and departure. Motor launch used to run lines to berth.

BERTHING: Normally carried out at high water.

Berth	*Length (Metres)*	*Depth (Metres)*
No. 1.	203.00	7.6
No. 2.	203.00	7.6
No. 3.	167.64	9.1
No. 4.	152.40	6.9

SPECIALISED CARGO-HANDLING FACILITIES: Berth No. 3 is specially equipped for the handling of the export of bulk cargoes (coal, ore, grain, mineral, sands, etc.) by a ship loader equipped with telescopic chute and jet slinger fed by a belt conveyor from stockpile areas. Loading rate 610 t.p.h.

STEVEDORES: Ordered by Agent. Port quota is 55 men which allows 3 gangs. Loading rates: coal 600 t.p.h.; bulk tallow 60 t.p.h.; frozen meat 7 tons per gang/hour; hides 8 tons per gang/hour; bagged bone meal 11 tons per gang/hour.

A ship loader with loading belt conveyor, telescopic chute, and jet slinger, with loading capacity of 700 t.p.h., can handle coal, minerals and maize.

MEDICAL: Hospital facilities available. No advance notice required. Tel. No. 29.

DENSITY: Average density at berths 1025 to 1027.

FRESH WATER: Available at all berths up to 50,000 gallons/hr.

FUEL: Oil bunkers not available but small quantities can be obtained from Townsville by road or rail tankers.

GANGWAY/DECK WATCHMEN: Watchmen available, but not compulsory.

OPENING/CLOSING HATCHES: Can be performed by crew or stevedores.

REPAIRS: Engineering and welding services available.

DEVELOPMENTS: A five-year development plan includes improvement of coal export facilities, and building a single buoy mooring terminal for bulk liquid carriers.

Plans call for the port to be dredged to 70 ft. for VLCCs in the future.

AIRPORT: 3 miles away with connecting services to major Australian airports.

HOLIDAYS: Christmas Day, Good Friday, Labour Day, and Picnic Day; no work performed on these days.

POLICE/AMBULANCE/FIRE: Police, tel. 20; Ambulance, tel 211; Fire Brigade, tel 5.

TELEPHONES: Ship-board telephones can be rented.

AUTHORITY: Bowen Harbour Board.

AGENT: Sub-agent of Patrick Agencies, Brisbane.

BRISBANE, Queensland (including Fisherman's Island, Hamilton, Pinkenba): 27.27 S. 153.04 E.

(See Plan)

PORT LIMITS: A vessel is considered an "arrived vessel" when it is at the Pilot boarding grounds off Caloundra.

DOCUMENTS: See "Melbourne".

PILOTAGE: Notify Agent approximately one week in advance. Confirm ETA to Duty Harbour Master 24 hours before arrival at pilotage ground, plus max. draft. Master of vessel to radio ETA Pilot boarding ground 8 hours before arrival. Messages should be addressed: Shipserv Caloundra Signal Station.

Contact Caloundra Signal Station by VHF Channel 16 when within range. Pilot boards 3 to 6 miles S.E. of Cartwright Point. Pilot vessel white hull with words PILOTS in black letters. Orange superstructure. Place ladder about 6 ft. from water.

Pilot ground is 42 miles from entrance to river. River then navigable to ocean going vessels for 14 miles from the mouth.

Same Pilot remains to berth vessel. Pilotage time about 5 hours.

APPROACHES: Good navigation conditions in Moreton Bay except in exceptionally heavy weather in Northwest channel. Minimum depth in Northwest channel 42 ft., and Northeast channel 25 ft., in Bar Cutting 38 ft., in Swinging Basin at Luggage Point 40 ft., to Hamilton 30ft., and to Bulimba Point 27 ft. (all LWOST). Dredged channels in Moreton Bay minimum 1,000 ft.. width. River Cuttings 400 ft. width except cutting between entrance beacons and middle beacons of Bar Cutting, which 500 ft. width.

In Moreton Bay and Brisbane River the mean spring rise is 6 ft. 7 in. above LWST and mean neap rise is 5 ft. above LWST. The lowest neap tide 4 ft. above LWST and maximum spring tide 8 ft. above LWST. The visibility generally good except in cyclonic weather when heavy rain.

RESTRICTIONS: Berthing times dependent on vessel's draft in relation to state of tide.

MAX. SIZE: Waterline length in river 750 ft. at 32 ft. draft (special provision made for larger vessels, especially when light draft condition preparing entering Graving Dock). Moulded breadth 105 ft., draft at HWOST for tankers 40 ft.; for cargo vessels 32 ft. No limit on height at present – see "Bridges".

HEALTH: See "Melbourne". Doctor boards at river entrance or at berth. Available 24 hours per day.

RADIO: Most traffic channelled through VIB, coastal radio station Brisbane. VHF Channel 16, 156.6 mc/s. and 156.8 mc/s.

RADAR: Continual watch kept at Caloundra Head, and Lytton Hill Signal Station.

TUGS: Six tugs available up to 2000 h.p. and 33 tons bollard pull. Tugs are privately owned. Tugs join vessel approaching the berth, or as may be required elsewhere in the river. Line boats available.

Austral-Pacific Fertilisers Wharf		500 ft.	34 ft.

BULK LOADING FACILITIES: Hamilton Wharf Berth No. 4; gross handling rate for loader is 700 t.p.h. Moveable conveyor system services 360 ft. of wharf.

Pinkenba Wheat Wharf: two belt conveyors serving seven loading spouts of which four can be used simultaneously. Nominal handling rate is 1,600 t.p.h

Rutile Sand: Stowage factor 18–20. Loading rate 7,000–9,000 tons per day.

Shipmaster's Report: New bulk handling installation at Pinkenba, Brisbane.

This is a new plant on the old No. 2 wharf officially opened 17th Feb. 1973. A privately owned single traversing conveyor system with one loading head supplied from eight storage tanks each of approx. 2,500 tons capacity, together with additional supply from road transport as required to augment the tanks. A further storage is still to be built.

The "Shiploader" traverses 370 ft. along the wharf. The loading head has an endless belt type trimmer and telescopic chute for lowering into the hatch of the vessel being loaded and the trimmer has a throw of 30–50 ft.

In the stowed position the bottom of the trimmer is 28 ft. above the existing wharf level and has an extension of 54 ft. – this is 40 ft. beyond the edge of the wharf but does not take into account the vertical pile fendering which is approx. 1 ft. diameter logs, therefore outreach would be approx. 39 ft. When in the extended position the telescopic chute and trimming head can be lowered 45 ft. into the hatch – or 17 ft. below existing wharf level.

The trimming machine on the end of the telescopic chute is approx. 4 ft. square, and therefore cannot be used to load into underdeck grain spaces with the normal small "manhole" type loading holes.

Control is effected from a cab 52 ft. above the wharf level.

There is nobody from the installation on board the ship. Communication is by a telephone situated on one of the bogies at the foot of the travelling conveyor. Local union/labour troubles will not permit a telephone to be placed on the ship or even the use of "walkie-talkie's" as supplied to most ships. If a telephone or "walkie-talkie" is used the local unions demand stevedore labour be used.

Loading rate is expected to be approx. 1,500 t.p.h. when the plant is fully run in, at present about 650–750 t.p.h. is being realised.

So far only sorghums have been handled, but the next cargo is expected to be woodchip, and mineral cargo as well as grain is expected to be handled in the future.

There is 32 ft. of water at LWOST alongside.

TANKERS: Two refineries at mouth of Brisbane River. Gas-freeing facilities not available, but chemist available to issue Gas-free Certificate. There are slop discharge facilities at both refineries.

Amoco Bulwer Island Refinery: on North bank, oil bunkering and export berth, 800 ft. length, 32 ft. depth LWOST.

Amoco Luggage Point Wharf: on North bank, crude import berth can accommodate vessels up to 900 ft. length. Berth length 900 ft. depth 40 ft. LWOST.

Ampol Refinery Wharf: on South bank, berth length 550 ft., depth 32 ft. LWOST. At Fisherman's Island, up to 40 ft. draft and berth length 1,082 ft.

Philips Refinery Wharf: can accommodate tankers up to 550 ft. length, depth alongside 30 ft. LWOST.

Shell Wharf: on North bank. Berth length 650 ft., depth 32 ft. LWOST.

Mobil Wharf Colmslie: on South bank, berth length 800 ft., depth 24 ft. LWOST.

BRIDGES: None at present, but one being considered lower reaches of river restricting height to 151 ft.

STEVEDORES: Ample labour available for all cargo working except rush periods.

Normal capacity per gang per shift: 60 tons break bulk; 75 tons palletised cargo. A 45 ton (45.72 tonnes) portainer crane is situated at the Hamilton Wharves. Other cranes from 4 tons (4.06 tonnes) to 30 tons (30.5 tonnes) are available at various wharves.

DENSITY: 63.6 lb. per cu. ft.

FRESH WATER: From mains 90 psi. 180 t.p.h. at all berths.

FUEL: Oil bunkering available at all oil wharves. Also by road tanker at cargo berths. Distillate, diesel fuel or fuel oil. Largest bunkering barge is 1,400 tons for fuel oil.

DEVELOPMENTS: Queensland's Harbour & Marine Department has announced plans for deepening the channels in the Brisbane River to allow vessels drawing 33 ft. to use the container facilities at Hamilton. Additionally, the Cairncross Graving Dock, which is capable of handling bulk carriers of 60,000 tons, has improved facilities to provide a 1,000 ft. fitting-out berth; new cranes of 30 and 60 tons capacity and new service installation for power, water and air.

GANGWAY/DECK WATCHMEN: Normally by crew, but can be hired.

OPENING/CLOSING HATCHES: Performed by stevedores/crew.

CUSTOMS ALLOWANCES: see "Melbourne".

CARGO GEAR: Heavy lift facilities up to 45 tons available certain wharves. Also see "Melbourne".

IDENTIFICATION CARDS: See "Melbourne".

CONSULS:

REPAIRS: All major repairs undertaken, including main propulsion diesel engines, steam turbines, boilers, reduction gearing servicing, propellers, tailshafts, stern bearings, all engine-room repairs, deck gear, radar, radio and sonar equipment, fitting-out berths.

DRY DOCKS: Largest vessel handled, m/v *Clutha Capricorn,* 83,500 d.w.t. All major facilities available.

The Dock has a bottom width of 110 ft. (33.5 m.), a total depth of 51 ft. (15.5 m.), and a length of 880 ft.(268 m.). The Dock is fully equipped for repair services, including facilities for water blasting, sand blasting, compressed air, Radiographic (X-Ray) facilities, hull cleaning and painting, mechanical and structural repairs, etc.

TIME: GMT plus 10 hours.

HOLIDAYS: New Year's Day; W.W.F. Picnic Day; 31st January – Australia Day; 13th March – Labour Day; Good Friday; Easter Monday; 25th April – Anzac Day; 12th June – Queen's Birthday; Christmas Day; Boxing Day.

Close Holidays – Christmas Day, Good Friday, Anzac Day, Labour Day, W.W.F. Picnic Day (No labour available these days).

POLICE/AMBULANCE/FIRE: Tel.: 000 and ask for service required.

TELEPHONES: At most wharves. Can be connected on board.

AUTHORITY: Department of Harbours and Marine.

AGENT: Patrick Agencies, 443, Queen Street, Box 1460 T, G.P.O., Brisbane, Queensland 4001. Cables "Rikpat". Tel: 31-1871. Telex AA40260. After hours tel.: 78-1998.

BROOME, W.A.: 17.59 S. 122.14 E. (See Plan)

PORT LIMITS: All water enclosed in an East and West line drawn through Station Hill; a North and South line drawn through Fall Point; and an East and West line drawn 3 miles to South of Entrance Point and including the whole extent of Dampier Creek.

CERTIFICATES/DOCUMENTS/HEALTH: See "Melbourne".

PILOTAGE: No resident Pilot. Inform Harbour & Light Dept. Fremantle ETA 2 weeks in advance. Pilot boards approximately 292° (T) distant 4.5 miles from Gantheaume Point.

RESTRICTIONS: Channel between Channel Rock and Middle Bank dredged to 17 ft. LWOST. Vessels of more than 15 ft. draft restricted to height of tide for arrival/departure. HWOST 27.5 ft. HWONT 17.2 ft.

MAX. SIZE: Draft 31 ft.

VHF: Limited facilities channels 6 and 16.

BERTHING: 2 berths. Outer berth max. length 612 ft., 32 ft. LWOST. Inner berth 28 ft. LWOST.

STEVEDORES: 3 gangs working 0800 hrs. – 2000 hrs.

CARGO GEAR: See "Melbourne".

TUGS: None.

FRESH WATER: Up to 100 tons available. Rate 10 t.p.h.

FUEL: Both diesel and furnace oil available, provide prior notice given to BP Agents.

REPAIRS: Not available.

TIME: GMT plus 8 hours.

GENERAL: Tides: Both ebb and flood in direction of line of jetty. Tide has apparent ebb period of 8 hours, flood 4 hours. Slack water 2.5 hours prior HW and LW. "State of Tide" signals ebb, flood, or slack, at masthead. At night red, green or white light – by day black ball, cone, or square. Signals indicate tide at jetty not in channel.

AUTHORITY: Harbour & Light Dept.

AGENT: Sub-agent of Patrick Agencies, Fremantle.

BUNBURY, W.A.: 33.19 S. 115.38 E. (See Plan)

DOCUMENTS:

Number of Crew Lists, 2 official (Forms M & S 11 and 2 flimsy copies).
Passenger Lists, 5.
Customs Documents:
- Last Port Clearance.
- Form 42A Ship's Stores consumed in Australia.
- Form 5 Manifest of Crew's Possessions.
- Loading Ports List.
- Ship's Master's Bond.
- Approved Identification Documents of all crew.
- Commonwealth Light Dues Receipt.
- State Tonnage Dues Receipt.

Health Documents, Smallpox Certificates and other forms handed to Master by Quarantine Doctor.
Manifests, 3.
Bills of Lading, 2.

PILOTAGE: Radio Harbour Master, Bunbury 24 hours and 4 hours notice. VHF Channel 16 – pilot boat and tug. Base set not manned continuously but pilot boat may be contacted 1 hour before arrival. Pilot boat painted white with black rubbing strip, black gunwhale, centre house with orange top. Word "Pilot" painted on sides. Pilot boards 1.5–2 miles from breakwater. Boarding area is with North Shore leads in line bearing 160°–340° and 1 mile from Breakwater Light seawards – no alternative area. Anchorage – main lighthouse bearing 195° distance 1.5–2 miles.

ANCHORAGE: Depth 7 to 9 fathoms. Anchoring not advised in stormy weather; safer to steam offshore.

RESTRICTIONS: 24 hour port but entry not generally carried out at night.

MAX. SIZE: Maximum length 585 ft., maximum draft 28 ft. 6 in. Also see "Bulk Cargo Facilities".

HEALTH: Quarantine inspection required if Bunbury is first Australian port. Quarantine inspection for Health Clearance – hours of inspection 0600–2200 hrs. Also see "Melbourne".

RADIO: Perth Radio.

TUGS: Two tugs available. Join vessel off berth. Ship's lines used if necessary. The tugs are normally manned from 0700 to 1600 hrs. weekdays and 0800 to 1200 hrs. on Saturdays. At other times overtime is charged.

BERTHING: Heavy shore mooring springs used.

BULK CARGO FACILITIES: One ore-loading berth 604 ft. in length. Conveyor system loading at 850 t.p.h.

One grain-loading berth 600 ft. in length. Conveyor system loading at 300 t.p.h.

New Inner Harbour: No. 1 Woodchip berth consists of 6 breasting dolphins fitted with flexible fender units, 2 mooring dolphins and a central shiploader platform and access jetty. The dolphins and platform are connected by steel walkways. Length of berth 381 m. Depth 12.2 m. Wood Chip bulk loader rated at 1,000 t.p.h. The facilities can accommodate vessels up to 44,800 tonnes and 11m. draft. During loading the vessel is warped back and forth alongside the shiploader.

Alcoa's Alumina Berth. Bulk loader rated at 2,000 t.p.h.

The approach channel depth to both berths is 12.20 m.

STEVEDORES: Week-days – ETA to be advised by 0600 hrs. for labour requirements on that day. Week-ends – ETA required by 0600 hrs. Friday.

MEDICAL: Medical attention available. Hospital facilities available. Smallpox vaccinations and valid certificates required.

TANKERS: One tanker discharge berth – draft 28 ft. 6 in.

DENSITY: 1025 – no relation to tide.

FRESH WATER: Readily available – 17 cents per ton.

FUEL: Furnace oil by pipe-line to jetty berths. Marine and light diesel by road and rail car delivery.

DEVELOPMENTS: The No. 2 General Purpose Berth is under construction and should be completed by the end of 1977. It will be suitable for ro-ro quarter ramp type vessels.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Preferably by crew.

CUSTOMS ALLOWANCES: Each crew member 200 cigarettes initially and thereafter as required in reasonable quantities. Wine and/or Spirits, open bottles of spirit on arrival not to exceed 1 quart and thereafter as required in reasonable quantities.
CARGO GEAR: Must comply with Australian Loading and Unloading Safety Regulations. See "Melbourne".
IDENTIFICATION CARDS: See "Melbourne".
CONSULS: Vice-Consul for Norway.
REPAIRS: Facilities available.
DRY DOCKS: Nil.
REPATRIATION: Facilities available.
AIRPORT: Light aircraft landing strip only.
TIME: GMT plus 8 hours.
HOLIDAYS: Days on which work cannot be performed: Good Friday, Christmas Day, Labour Day, Waterside Workers' Picnic Day, Anzac Day.
POLICE/AMBULANCE/FIRE: Emergency Number Bunbury 000.
TELEPHONES: Telephones placed on board free of charge: Rental $1.50 per week plus calls at cost.
DELAYS: Generally no delays.
AUTHORITY: Bunbury Port Authority.
AGENT: Sub-agent of Patrick Agencies, Fremantle.

BUNDABERG, Queensland: 24.45 S. 152.24 E. (See Plan)

CERTIFICATES/DOCUMENTS/HEALTH: See "Melbourne".
PILOTAGE: Compulsory. Radio not less than 24 hours ETA; VHF Channel 16.
Pilot boards 1 mile outside Fairway Beacon.
PORT LIMITS: The port limits are defined as the waters contained within a radius of 4 miles of South Head (Burnett Heads) Lighthouse, together with all navigable rivers communicating therewith, and the banks and the foreshores thereof.
DEPTHS: (LWOST) Channel 6.10 m.; Swinging Basin 6.10 m., Sugar Berth 7.62 m.; Oil Berth 7.62 m.. Keel clearance dependent upon Pilot, normally 0.9 m.
RESTRICTIONS: Length 177 m. maximum. Vessels not to pass out through sea reach on ebb. Oil tankers to navigate daylight only. Channel width 76 m.
RADAR/VHF: No radar service. Bundaberg Harbour Board office and craft may be contacted on VHF Channel 16.
TUGS: One tug, 22 tonnes bollard pull, owned by Howard Smith Industries, and one work boat of 4 tons bollard pull, owned by the Harbour Board, which is also used for pushing, are available, both fitted with VHF. Ship's lines or tug's lines are used, and no charge for tug's lines.
BERTHING: No. 1 Bulk Sugar Berth 800 ft. long. No. 2 Oil, Molasses, Aqua Ammonia, 790 ft. long.
SPECIALISED CARGO HANDLING FACILITIES: *Bulk Sugar Berth:* Loading by gantry at 1,000 t.p.h. Ship's crew work vessel along wharf as required during loading.
Bulk Molasses: Loading rate 280 t.p.h. No facilities for containers or roll-on/roll-off traffic.
Oil Berth: Facilities for discharge all petroleum products and aqua ammonia and loading molasses.
MEDICAL: Hospital facilities available.
TANKERS: White-oil tankers not handled at night. 10-inch lines. No slop discharge facilities. Oil tankers, discharge only. Molasses tankers, load only. Depth alongside tanker berth 25 ft. LWOST.
DENSITY: Average density about 1020.
FRESH WATER: Unlimited supplies available, delivered by hose 30 t.p.h. Cost 11 cents per ton.
FUEL: All grades available, 24 hours notice required.
GANGWAY/DECK WATCHMEN: Not necessary, but available.
OPENING/CLOSING HATCHES: By crew.
CARGO GEAR: No additional local regulations. See "Melbourne".
IDENTIFICATION CARDS: See "Melbourne".
CONSULS: None.
REPAIRS: Almost all types of deck and engine repairs possible.
REPATRIATION: Facilities exist.
AIRPORT: Airport 2 miles from city serviced by regular internal airlines.
TIME: GMT plus 10 hours.
HOLIDAYS: Normal Queensland holidays observed but cargo worked regardless of holidays.
POLICE/AMBULANCE/FIRE: Dial 0–000 from the port.
TELEPHONES: Telephone connection to be placed at tanker berth.
DELAYS: Vessels normally berth within an hour each side of high water, unless of shallow draft when they may berth at low water. Vessels always sail within an hour of high water on flood tide only. No delays during loading, discharging or bunkering.
DEVELOPMENTS: The Harbour Board have plans to alter the main channel to avoid a rocky outcrop, and to widen and deepen the entrance channel and swinging basin. This dredging is expected to be completed in 1977.
The Sugar Board have commenced alterations to No. 1 (Sugar) Berth, to lengthen the wharf and install a travelling loading gantry. This work is expected to be completed early in 1977 in time for the sugar export season mid-year.
AUTHORITY: Bundaberg Harbour Board.
AGENT: Sub-agent of Patrick Agencies, Brisbane.

BURNIE, Tasmania: 41.03 S. 145.55 E. (See Plan)

PORT LIMITS: Southward of a line drawn from the Eastern Island Breakwater Light, to the Round Hill Lighthouse on the Eastern side of Emu Bay.
APPROACHES: Port situated on Western shore of Emu Bay and easy of access. Bay is two miles wide and one mile deep facing in a Northerly direction. The bottom is sand and clay interspersed with patches of reef and rock, particularly in the Southeastern sector of Bay. Vessels may anchor on main leads in vicinity of Pilot boarding ground, but it is not advisable remain at anchor during strong on-shore winds. Port protected by two breakwaters: the inner, founded at inner end of Blackmans Reef, lies in a 110° direction and is 1,250 ft. long. The other, an island structure 1,600 ft. long and protecting the port from Easterly weather, lies in a 130°/310° direction, with its N.W. end bearing 045°, 700 ft. from the S.E. end of the inner breakwater.
DOCUMENTS: also see "Melbourne". (Marine Board only): Inward Manifests to be lodged on arrival. Agents supply Manifests and non-negotiable copy Bills of Lading to Customs for checking prior to vessels arrival.
PILOTAGE: Prior advice through local Agents, ETA by radio telegraphy through Melbourne Radio (VIM) or Hobart Radio (VIH) to Marine Board Burnie. Immediate advice VHF Channels 16 and 12.
Pilot launch – 46 ft. white launch with buff cabin, name "Miowera". International signals apply. Boarding area on main harbour leads 210° (T) with Round Hill Pt. Lighthouse bearing 155° (T). Ladder 5 ft. from water, man ropes, no boat rope.
ANCHORAGES: See "Approaches".
RESTRICTIONS: Vessels up to 31 ft. draft, no restriction. Maximum length 814 ft. 24-hour service, weather permitting.
MAX. SIZE: (See "Restrictions"). Tankers at Island Breakwater to 36 ft. draft at all states of tide.
HEALTH: Pratique automatic when from other Australian ports. Otherwise notify local Agent.
RADIO: "Radio Hobart" (VIH).
TUGS: Tug(s) join East of Island breakwater. Usually lashed alongside with tug's lines (no extra charge). When on towing duty, usually ship's line.
BERTHING: Vessels equipped with vegetable fibre ropes or bare spring wires required to use shore springs.
Quayage, Sheds and Depths.
Ocean Wharf. On South side of inner breakwater. 1,000 ft. long, 91 ft. wide. Dredged depth 34 ft. for 600 ft. length, shoaling to 25 ft. at inshore end. Stern loading facilities at inshore end.
McGraw Pier, 790 ft. long and 145 ft. wide (added to Emu Pier, the original concrete breakwater). On North side is 700 ft. of effective berthage with dredged depths ranging from 30 ft. for 500 ft. length, shoaling to 21 ft. at inshore end. A new stern loading ramp now operating at Susbore North McGraw. Apron width is 25 ft. On South side 600 ft. of effective berthage with dredged depths ranging from 27 ft. to 18 ft. at inshore end. One crane of 12-ton capacity, with outreach of 70 ft.
Jones Pier, 150 ft. South of McGraw Pier, is a wooden pile structure 700 ft. long and 100 ft. wide. On North side 500 ft. of effective berthage with dredged depths from 25 ft. to 18 ft. inshore.
Bulk Berth. 900 ft. long with 700 ft. of effective berthage. This berth incorporates a bulk loader with a capacity of up to 1,270 t.p.h. The berth is also suitable for general cargo operations.
Ferry Terminal. Is 270 ft. long and 115 ft. wide. Vessels of up to 650 ft. may berth. The wharf is traversed by a 40-ton portal crane with a 25-ton auxiliary hoist. The crane may be hired when not required for terminal operations. Arrangements for this to be made with the Harbour Master. The stern loading ramp has a width of 28 ft. permitting two lines of traffic. The axle loading of the wharf is 50 tons. The berth is dredged to 31 ft.
New Jones Pier South – berth is 560 ft. long, effective length 850 ft. Apron width to shed 100 ft. Dredged to 31 ft. overall.
BULK CARGO FACILITIES:
Roll on/Roll off facility at Southern Ferry terminal, and at West end of Ocean Wharf.
Lift on/Lift off facility of 40 tons at Ferry Terminal as above.
Conveyor Loader at bulk berth for export of zinc, lead and copper concentrates to 1,270 t.p.h.
Inward bulk berth and crane at South McGraw Pier.
Sulphuric Acid loading facility at Island Tanker Berth, with rate of 1,000 t.p.h.
STEVEDORES: Labour to be ordered (1) by 1500 hrs. for following day (weekdays), (2) by 1300 hrs. Friday for Saturday and Sunday, (3) by 1900 hrs. Sunday for Monday.
RADAR/VHF: No radar service. Port equipped with VHF, R/T operating International Maritime Bands. Pilot vessel, tug, and other floating plant similarly equipped.
MEDICAL: Notify Agent prior arrival of extra requirements other than pratique. General Hospital 0.5 mile from port. Current smallpox and cholera revaccinations arranged by prior notice.
TANKERS: Tanker Berth is 278 ft. long and 100 ft. wide, sited on South side of Island Breakwater. 37 ft. of water in this berth, which will accommodate vessels of up to 650 ft. in length. Diameter of lines are 10 in. No residue discharge facilities. 1 berth, maximum draft 36 ft.
DENSITY: 1,025 to 1,028.
TIDES: Spring Rise, 10.4 ft.; Neap Rise, 9.3 ft.; MTL, 6.2 ft.; HHWS, 13.0 ft.; LLWS, 0.0 ft.
FRESH WATER: All wharves – hose from wharf hydrants. Rate adequate – cost 12c per ton.
FUEL: Diesel and Heavy fuel available from road tankers.

FIRE PRECAUTIONS: Normal. Twenty-four hour ferry service to be maintained to tanker berth.
GANGWAY/DECK WATCHMEN: Watchmen commonly used. Penalty rates apply on weekends and holidays.
OPENING/CLOSING HATCHES: Stevedores will close hatches.
SHIP CERTIFICATES:
Safety Construction.
Safety Equipment.
Safety Radio Telegraphy.
Load Line.
CUSTOMS ALLOWANCE: Tobacco per man on arrival 200 cigs. or 8 oz. tobacco. 120 cigarillos, 40 cigars or 300 biddies every ten days. 40 cigarettes or 1.6 oz. per day per man.
Wine: on arrival part bottle spirits. Every ten days, 2 bottles beer and one bottle wine per day. Every ten days one bottle spirits per man.
CARGO GEAR: Australian Navigation (Loading & Unloading) Regulations apply.
IDENTIFICATION CARDS: Required for Pakistan and Chinese crew only. Also see "Melbourne".
CONSULS: Nil.
REPAIRS: Limited repairs carried out. The Emu Bay Railway Company have a foundry and machine shop.
REPATRIATION: On crew member signing off Agent requires passport, identification card. Agent handles repatriation details and notifies Immigration Department, Hobart, re movements of crew member.
AIRPORT: Daily services: 11 miles distant.
TIME: Local time is Australian Eastern Standard time, i.e. GMT plus 10 hours. Tasmanian Summer Time applies. Dates of operation published in Australian Notices to Mariners.
HOLIDAYS: Cargo work performed on all holidays except Christmas Day, Good Friday, WWF Picnic, Anzac Day, Labour Day.
POLICE/AMBULANCE/FIRE: Police: 31.1444; Ambulance, 31.2111; Fire 31.1155.
TELEPHONES: Telephones are available at all wharves, through Marine Board.
AUTHORITY: The Marine Board of Burnie.
AGENT: Sub-agent of Patrick Agencies, Melbourne.

BUSSELTON, W.A.: 33.38 S. 115.20 E.
(PORT CLOSED 1973)

This port is closed to commercial shipping and it is unlikely that the jetty will be re-opened.
CERTIFICATES/DOCUMENTS/HEALTH/CARGO GEAR: See "Melbourne".
PORT LIMITS: Bounded by lines starting from Quindalup Jetty, and extending due North 3 miles; thence to a point 3 miles due North from Lockville Jetty, thence to a point on the shore 20 chains North-eastward from the entrance to Vasse Inlet.
PILOTAGE: No Pilots.
ANCHORAGE: West of jetty in Geographe Bay about half mile from jetty. Depth at anchorage 30 ft.
RESTRICTIONS: Max. safe loaded draft 21.5 ft. Winter (May to September) or 22 ft. Summer.
BERTHING: 2 berths. Depths 24 ft. 8 in. and 23 ft.
FUEL/TUGS/REPAIRS: Not available.
FRESH WATER: Available at jetty.
TIME: GMT plus 8 hours.
AUTHORITY: Harbour & Light Department, Fremantle.
AGENT: Sub-agent of Patrick Agencies, Fremantle.

CAIRNS, Queensland: 16.55 S. 145.47 E.
(See Plan)

CERTIFICATES/DOCUMENTS/HEALTH/CARGO GEAR: See "Melbourne".
PORT LIMITS: Commencing at Cape Grafton, thence by a line bearing North (magnetic) two miles, thence by a line bearing North 82° West (magnetic) to Taylor Point, thence by the HW line on the mainland to the point of commencement, including all rivers, creeks and navigable waters within the above limits.
PILOTAGE: Arrangements are made by ship's Agent with the Harbour Master. Location of boarding is outside the Fairway Beacon, 7 miles from port.
APPROACHES: Through Grafton Passage, which is 21 miles long and 5 miles wide, and free of any encumbrances, and is lighted by a group flashing light on Fitzroy Island which is visible in clear weather for a range of 29 miles.
Channel: 6.25 miles long, 250 ft. wide, 27 ft. LWOST – defined by beacons 600 ft. apart spaced at intervals of approximately 3,000 ft. and 4,000 ft.
After passing through the channel, the inlet widens to 1,500 ft. which gives a commodious swing basin for ships of 900 ft. length This inlet runs for five miles, carrying up to 30 ft. of water for at least 2.5 miles.
PRATIQUE: Available 24 hours per day, 7 days a week.
RADIO: VHF radio-telephone service is situated at the Piermasters Office, No. 2 Wharf, and operates a service from 0800 hrs. to 1700 hrs. with "out of hours" transmission being every hour, on the hour.
Both the launch and the dredge *Trinity Bay* have VHF and two-way radio. Channel 16.
TUGS: One tug with a 12-ton bollard pull is based in the port and is operated by Moreton Tug and Lighter Co. Ltd.
BERTHING:

	Depth alongside:
Nos. 1 to 5	28 ft. LWOST – 10 ft. from wharf face
No. 6	28 ft. LWOST – 10 ft. from wharf face
No. 8	30 ft. LWOST – 10 ft. from wharf face
No. 10	30 ft. LWOST – 10 ft. from wharf face
No. 12	35 ft. LWOST – 10 ft. from wharf face

BULK HANDLING FACILITIES: *Sugar Loading Terminal:* at No. 12 Wharf. Boom of loader at horizontal working position 44 ft. 6 in. above HW level, but boom is capable of being lifted to a vertical position. Gross handling rate for loader – 850 t.p.h.
Bulk Molasses Terminal: Total capacity of 18,700 tons with pipe-line connection to wharf. Loading rate of 300 t.p.h.
Bulk Tallow Tanks: Rear of No. 6 Wharf. Two tanks, one with a capacity of 300 tons and one with a capacity of 800 tons. Loading rate of 55 to 60 t.p.h.
Container Handling Facilities: There are facilities at No. 6 Wharf for handling containerised and unitised cargoes, including a 25-ton stiff-legged derrick crane and an adequate assembly area adjacent to the wharf.
STEVEDORES: Port quota 80 men.
WATER: Abundant fresh water is available on all wharves. Rate of supply is 70 t.p.h.
FUEL: Oil bunkering facilities are available at No. 10 Wharf. No. 8 Wharf is an alternate oil berth. Nos. 8 and 10 Wharves are connected by pipe-line to adjacent oil tank farm installations.
DRY DOCK: A dry dock, 200 ft. long and 40 ft. wide accommodates vessels up to 190 ft. in length. De-watering rate is 4,000 to 5,000 gallons per minute. Draft of vessels which can be accommodated is equivalent to the height of tide at the particular time.
TELEPHONES: There are 14 plug-in points available to shipping from Nos. 1 to 6 Wharves, and No. 8 Wharf.
AUTHORITY: The Cairns Harbour Board.
AGENT: Sub-agent of Patrick Agencies, Brisbane.

CAPE CUVIER, W.A.: 24.13 S. 113.20 E.

This port is now incorporated in the Port of Carnarvon the limits of which have been extended as follows:—
"A line due West for 4 nautical miles from a point on the mainland in Lat. 24° 10′ S. and Long. 113° 26′ 4.5″ E., and thence in a S.S.W. direction to Cape Ronsard at the North End of Bernier Island" and then as for Carnarvon to the starting point.
OPERATORS: Texada Mines.
DOCUMENTS:
1 Form 5 Personal Property Declaration.
1 Form 42A Stores List.
1 Form AQ 360 Health Form.
2 Forms (M & S11) Crew Lists (prescribed form).
1 Form C & E 886 Previous Ports of Call.
APPROACHES: Red Bluff about 12 miles North of Cape Cuvier can be picked up by radar at a distance of about 20 miles. Cape Cuvier is easily identified by large white salt hill.
PILOTAGE: Pilots will board approximately 200° 1.5 miles from jetty.
Pilot will remain on board after mooring and until vessel is loaded or should weather deteriorate until vessel anchored.
Notice for Pilots is by 'Shipserv' message to Harbour Master, Carnarvon 48 and 24 hours prior to arrival.
Pilots board by tug or workboat.
ANCHORAGE: Recommended anchorage is in position with the jetty bearing approximately 200° (T) at a distance of 1.5 miles. Depth at anchorage is about 15 fathoms. 3 cables off the shore, the depth is about 9 fathoms. Holding ground is good.
RESTRICTIONS: No berthing at night.
MAX. SIZE: Vessels of 65,000 d.w.t. call on a regular basis. Depth alongside is 52 ft. (15.85 m.).
RADIO: Carnavon Radio.
PRATIQUE: Radio pratique is not available.
TUGS: One large and one small tug available.
BERTHING: Vessel is moored to four buoys for'd and four buoys aft, and mooring is attended by mooring crew. Vessel is required to have available five nylon ropes for'd and five aft, in each case three of the ropes should be 300 m. in length and the remaining two ropes should be 200 m. in length.
Berthing is not carried out in adverse weather causing a swell of over 5 ft. in height, nor if wind is from either a North or South direction.
Due to adverse weather vessels may have to wait as much as 24 days to complete loading.
STEVEDORES: Texada Mines.
DENSITY: 1025.
FRESH WATER: Not available. Due to possible loading delays caused by adverse weather it is recommended that vessels arrive with all fresh-water tanks full.
FUEL: Not available.
DEVELOPMENTS: A new warehouse under construction for storage of potash. New conveyor belt for loading potash operational.
WATCHMEN: No shore watchmen available.
HATCHES: To be opened/closed by ship's crew.
CUSTOMS ALLOWANCES: 200 cigarettes in opened carton, or 0.25 lb. cigars, or 0.5 lb. tobacco, and one opened bottle spirits per crew member.

CARGO GEAR: Not required. Salt loading is by conveyor belt.
REPAIRS: Not available.
DRY DOCK: None.
REPATRIATION: Road connection to Carnavon, which is 65 miles distance from Cape Cuvier, thence air connection with Perth where international flights available.
AIRPORT: Private airfield only, about 10 miles from port of Cape Cuvier.
TIME: GMT plus 8 hours.
TELEPHONE: Available in Harbour Master's office.
SHORE LEAVE: Allowed. A bus connection is available, leaving Cape Cuvier at 0730 hrs. for Carnavon, and returning with departure from Carnavon at 1530 hrs.
GENERAL: Port is gazetted under Western Australian legislation and controlled under Ports and Harbours Regulations. Mooring and loading facilities operated by Texada Mines.
Loading is carried out by Texada Mines Personnel.
AUTHORITY: Harbour & Lights Department, Fremantle.
AGENT: See "Fremantle".

DAMPIER: W.A.: 20.38 S. 116.45 E. (See Plan)

PORT LIMITS: A vessel is considered to be an arrived vessel from the time of crossing the quarantine line, which runs due East from Courtenay Head Lighthouse.
ARRIVAL INFORMATION: *Iron Ore:* Every vessel intending to load a cargo of iron ore at Dampier shall on departure from the last port of call cable the following information, addressing the message **Shipserv Hamiron Dampier.**
(a) ETA, quantity of cargo required, deepest departure draft, and distance between keel and hatch coaming.
Example: Name of ship, ETA pm20/4, 108000lt, 54.0 ft., 79.2ft.
(b) 7 days before intended arrival at the Port confirmation or any variation to the above and indicate loading order by hatches of the product to be lifted.
Example: Name of ship, ETA 1000/4, 108000lt, 54.0ft., 79.2ft., 1/10000 Fines, 7/10000 Fines, 9/10000 Fines, 2/10000 Lump, 4/10000 Lump, 6/10000 Lump, 3/8000 Fines, 5/10000 Fines, 2/8000 Lump, 6/6000 Lump, 7/5000 Fines, 3/8000 Fines, Trim 3000 Fines. Total 108000lt.
Vessels arriving to discharge general cargo: (a) Owners are required prior to accepting cargo for Dampier, to submit a copy of the vessel's General Arrangement Plan for the purposes of ascertaining the vessel's acceptability in sufficient time to permit recommendations to be made on the positioning and stowage of the cargo.
(b) Prior to departure from the loading port, Masters shall forward by first class air mail a copy of the vessel's cargo plan showing the nature, description and weight of the cargo to be discharged at Dampier.
The documents referred to in (a) and (b) above shall be forwarded to Hamersley Iron Pty. Limited, P.O. Box 21, Dampier marked "Urgent ships papers".
Arrival Advices: Every vessel intending to discharge cargo at Dampier shall on departure from the loading port or 7 days before arrival, whichever occurs first, and cable the following information addressing the message "Shipserv Hamiron Dampier".
ETA, quantity and nature of cargo to be discharged, stowage and the deepest arrival draft.
Example: Name of ship, ETA am/4, 4700lt. General 1/1200 2/2000, 3/1500, 22 ft.
ARRIVAL ADVICE: Dampier is a first port of entry and all ships bound for this port are to radio through the normal recognised coast stations, addressing their messages "Pilharb Perth" and prefixing the message "Shipserv".
(a) In the case of vessels arriving from overseas.
(i) 10 days before intended arrival at the port ETA and whether the port is the first port of call in Australia.
(ii) 7 days before intended arrival at the Port, confirmation of any variation of the advice given pursuant to paragraph (i) above including in the message the forward and after arrival draft.
(b) In the case of all vessels, cable "Shipserv Pilharb Perth".
(i) 72 hours before intended arrival at the Port advising ETA at the Pilot boarding ground East of Malus Island, including in the message if not previously given the forward and after arrival draft.
(ii) 48 hours before intended arrival confirmation or any variation of ETA.
(iii) 24 hours before intended arrival confirmation or any variation of ETA.
APPROACHES: From the 100 fathom line in Lat. 19° 20' S, Long. 116° 20' E, a channel 15 miles wide, leading 157° was surveyed by the Royal Australian Navy in 1963 and found to be clear of dangers. This approach is recommended for ships arriving from the North and N.E. Ships arriving from the West pass North of Tyrell Rocks situated to the N.W. of the Monte Bello Islands and then should pass not less than five miles to the North of Rosemary Island on the Latitude of Legendre Island Light. When in a position 6 miles West of Legendre Island Light, course should be altered to the S.W. to pass into the Archipelago.
PILOT STATION: The Pilot boarding area commences from a position bearing 090° distance 1.5 miles from Courtenay Head Light, thence 195° distance 2 miles, thence 090° distance 1.7 miles, thence 015° distance 2 miles, thence 270° distance 1.7 miles to point of commencement. Pilotage is compulsory for all vessels entering, leaving and manoeuvring within the Port except those of a tonnage of 150 tons or less and those whose Masters hold a valid pilotage exemption. Pilotage services operate from the pilot cutter "Pilbara Star".
MAX. SIZE: (Bulk Berth) Length 1,030 ft.; Draft 56 ft.; Beam 156 ft.
HEALTH: In the case of all vessels arriving from overseas following information shall be sent to port health authorities between 12 and 24 hours before arrival, addressing message "Port Health, Pilharb Perth" and prefixing the message "Shipserve". (Also see "Melbourne").
Post Office closes down from 1700 hrs. Friday to 0900 hrs. Monday. Vessels arriving at a weekend should ensure that health messages are received before 1700 hrs. Friday.
(i) the expected hour and date of arrival of the vessel.
(ii) Confirmation that the Master has individually inspected all persons on board within 24 hours of arrival and that there are no cases of febrile illness (high temperature or fever) or skin rashes on board.
(iii) Particulars of any cases of illness on board.
(iv) Confirmation that all persons on board are satisfactorily vaccinated against smallpox and in possession of valid Vaccination Certificates.
(v) A request to cross the Port Quarantine line.
(vi) On receipt of quarantine message Harbour Master will advise anchorage position if vessel not berthing on arrival.
(vii) Inspections may be carried out at the jetty or at anchorage at the discretion of the Quarantine Officer.
(viii) Rat guards are to be maintained on all mooring lines while vessels are berthed in Dampier Harbour.

RADIO:

Call Sign	Dampier Port control
Frequency	Channels 16, 14, 13, 12, 8 and 6.
Channels	13, 12 and 6 are Port working frequencies.
Channels 14 & 8	Can be used vessel to vessel.

A continuous watch is maintained on VHF Channel 16. All vessels approaching the Port or at anchor must maintain a continuous watch on this frequency.
TUGS: Pilbara Harbour Services Pty. Limited own and operate the tugs and lines launches which are available to shipping at all hours.
The following craft are available to assist in berthing and unberthing and for hire:

"Pilbara Mars"	1,700 h.p.	Bollard Pull	27 tons
"Pilbara Comet"	2,400 h.p.	Bollard Pull	33 tons
"Pilbara Neptune"	1,900 h.p.	Bollard Pull	28 tons
*"Pilbara Jupiter"	2,600 h.p.	Bollard Pull	42 tons

(*Delivery June, 1976)
Three (3) Lines Launches
Two (2) Workboats – 400 h.p.
MOORING: Mooring lines are taken ashore by linesboat. Vessels using heavy wire ropes are requested to have the ends terminated with a 9 m. (30 ft.) rope spring finished with a standard eye for placing over the bollards and slip hooks.
All mooring ropes and wires to have a 6 m. (20 ft.) tail of light rope spliced into the eye to facilitate the transfer from the boat to the dolphin.
Vessels shall be ready in all respects to commence loading on completion of mooring, hatches cleaned and opened.
LOADING IRON ORE: Red, green and white list lights, clearly visible to the shiploader operator are recommended fittings on all vessels loading iron ore. A fixed white light shall indicate the vessel is upright.
Masters are cautioned the loading of iron ore is carried out by draft. Frequent "on the run" draft checks between hatch changes should be carried out. Whilst shiploading sequences are equipped with weight scales, these figures are to be used only as a guide and reference to them will not relieve the Master of the responsibility of adequately maintaining draft checks and supervising the loading accordingly.
Final confirmation of tonnages on board will be the result of a draft survey carried out by the Master and the Company's surveyor.
Ballast shall be adjusted to ensure at high water a minimum clearance of 0.64 m. (2 ft.) is maintained between the vessel's structures and the shiploader. Ballast to be discharged at a rate which prevents disruption to loading, final trimming and completion.
STOWAGE FACTORS: The following stowage factors are provided for guidance:

Lump ore	16.0 cu.ft./ton	Fine Ore	15.0 cu.ft./ton
Low Grade Ore	16.5 cu.ft./ton	Pellets	18.5 cu.ft./ton

PARKER POINT ORE JETTY: The ore jetty consists of a tubular steel pile structure carrying a deck and rail traverse of a slewing boom shiploader.
Eight multi-spring pile dolphins fitted with hardwood facings are situated clear of the ore jetty structure and vessels berth port side alongside and moor to these dolphins.
Iron ore is the only product handled and following are principal dimensions:

Length of jetty:	268.9 m. (882 ft.)
Depth of water alongside:	15.5 m. (51 ft. at ISLW)
Travel of shiploader:	166.2 m. (545 ft.)
Radius of ore delivery from fender Facing	23.2 m. (76 ft.)
Ht. under side boom above I.S.L.W.	21.64 m. (71 ft.)
Total length of fendering, No. 1 to No. 8 dolphins	354.8 m. (1,164 ft.)
Rated capacity of shiploader:	6,000 long t.p.h.

The ore jetty is connected to the East Intercourse Island departure channel by a 152.4 m. (500 ft.) wide departure channel dredged to 14 m. (46 ft.) ISLW in 1969.

Parker Point ore loading facility accommodates vessels up to 130,000 d.w.t.

The maximum departure draft from this berth is 15.24 m. (50 ft.) on certain tides. However, it may be necessary for vessels of this size with deeper draft to part load and complete at East Intercourse Island.

EAST INTERCOURSE ISLAND ORE JETTY: The ore jetty consists of a tubular steel pile structure carrying a deck and rail traverse of a slewing boom shiploader.

Nine multi-spring dolphins fitted with hardwood facings are situated clear of the ore jetty structure and vessels berth starboard side alongside, mooring to these dolphins.

Length of jetty 341.4 m. (1,120 ft.), depth of water alongside 18.59 m. (61 ft.) at ISLW. Travel of shiploader 237.8 m. (780 ft.). Radius of slew of loader boom from fender facing 25 m. (82 ft.). Ht. underside boom at ISLW 23.55 m. (77 ft. 3 in.). Total length of fendering No. 1 to No. 9 dolphins 429.8 m. (1,410 ft.). Rated capacity of shiploader: 7,500 long t.p.h.

The ore jetty is connected to the open sea by a 167.6 m. (550 ft.) wide departure channel dredged to 15.85 m. (52 ft.) ISLW.

East Intercourse Island ore loading facility accommodates vessels up to 150/160,000 d.w.t. The departure draft from this berth is 17.07 m. (56 ft.) however a slightly greater draft may be permitted on certain tides.

SERVICE WHARF: All general cargo is received over this facility and vessels are acceptable up to a max. draft of 7.69 m. (25 ft.).

The wharf consists of steel sheet pile cells constructed in water of surrounding depths of 7.01 m. (23 ft.) below ISLW.

A berthing basin 243.8 m. (800 ft.) long and 38.10 m. (125 ft.) wide has been dredged to a depth of 8.23 m. (27 ft.) ISLW on the Western side.

The wharf is 69.5 m. (228 ft.) in length and faced with piles on which are secured rubber fenders. Mooring buoys are positioned off the N.E. and S.W. extremity of the wharf and head and stern lines are secured to these buoys.

Generally ships berth portside to this facility and normal discharge is carried out by 3 gangs using ship's own gear.

Vessels are required to berth ready in all respects to work cargo with hatches open and cargo gear rigged.

On completion, vessels may be required to vacate the berth and cover hatches, stow gear, etc., at anchor.

Tankers delivering oil products are accommodated at this wharf.

MISTAKEN ISLAND SALT BERTH: The salt berth owned and operated by Dampier Salt Limited consists of a tubular steel pile approach structure carrying conveyor belt to a fixed position, cantilever shiploader.

7 multi-spring pile mooring dolphins are situated clear of the shiploader platform, ships berthing starboard side of these dolphins.

Due to the fixed nature of the loader, ships have to be warped along the line of dolphins, to bring each hatch in sequence under the loading boom.

This wharf was built by Dampier Salt Limited, for the handling of salt from their salt pans, situated 6.4 km. from the wharf. The following are the principal dimensions:

Total length of fendering No. 1 to No. 7 dolphins	358.2 m. (1,175 ft.)
Depth of water alongside:	12.5 m. (41 ft.)
Outreach of loader boom from line of fendering:	18.29 m. (60 ft.)
Ht. under side boom at ISLW:	19.51 m. (64 ft.)
Rated capacity of shiploader:	2,800 long t.p.h.

MEDICAL: A doctor is permanently resident at Dampier and a modern 41-bed General Hospital is situated in the town site.

STEVEDORES: Three gangs available (use ship's gear).

CARGO GEAR: See "Melbourne".

FIRE PRECAUTIONS: 1 firefighting tug.

FUEL/WATER/REPAIRS: Fuel for ships' bunkers is not available.

A limited supply of fresh water is available in an emergency.

Stores and provisions can be arranged. For large orders Masters are recommended to cable their Agent giving 7 days notice of their requirements.

Ship repairs of a limited nature can be carried out at the Port. (Note: Port of Dampier By-Laws No. 23).

A 500-ton slipway is available for slipping small craft and tugs.

GANGWAY/DECK WATCHMEN: Crew.

OPENING/CLOSING HATCHES: By crew.

SHIP CERTIFICATES: See "Melbourne".

REPATRIATION: Limited facilities available.

AIRPORT: Twice-daily service to Perth, and twice-weekly service to Darwin. Karratha Airport is 15 km. from the port.

TIME: GMT plus 8 hours.

TELEPHONES: Ship-to-shore telephones are available at all berths for ship-to-shore communications. Ships and jetty telephones are barred access to STD and trunk line facilities.

SERVICES: None available.

AUTHORITY: Pilbarre Harbour Services Pty. Ltd., Dampier.

AGENT: Sub-agent of Patrick Agents, Fremantle.

DARWIN, N.T.: 12.28 S. 130.51 E. (See Plan)

LOCATION: The port is located in a sheltered land locked position on the Eastern side of the harbour and is accessible by vessels of draft up to 40 ft. (12.19 m.).

DOCUMENTS:

2 Crew Lists, Form M & S 11 (3 at outports).
5 Passenger Lists, Forms M. 308 and 309.
1 Port of call list.
3 Barber's stocks and stock in ship's shops and canteens (Form 5) continuation on the back Form 5 AA.
1 List of customable articles, Form 5 (crew).
3 Return of goods of barber's stock, etc., Form 5 AA.
3 Stores List, Form 42 A.
1 Clearance from last port.
Ship's log.
1 Derat. Certificate.
1 Light dues if paid previously.

PILOTAGE: Notice of arrival and requirement of a Pilot should be given 24 hrs. before the expected time of arrival at Channel Rock Buoy and should be addressed "Shipserve Harbour Master Darwin". This arrival time should be amended or confirmed 2 hrs. before arrival at the Channel Rock Buoy. During normal port working hours (0800 to 1621 hrs. Monday to Friday) the aforementioned 2 hrs. notice may be given direct to Harbour Control on the 156.80 Mc/s Band VHF.

Boarding ground is Channel Rock Buoy where vessels embark Pilot or anchor to await Pilot. Usual safety precautions are to provide a lee and have pilot ladder with manropes on lee side.

Notice of intention to depart shall be given to the Harbour Master, not less than 6 hrs. before the time of the intended departure.

The vessel shall not depart before the time specified without the permission of the Harbour Master.

When Darwin is the first port of entry, include in message: "Wharfside Clearance Requested".

VHF: Port operations are controlled by VHF radio, call sign "Darwin Harbour", on the following frequencies:

Channel 16: 156.80 mHz: Call and safety.
Channel 12: 156.60 mHz: Working Channel with tugs.
Channel 6: 156.30 mHz: Working Channel General.

A continuous radio watch is kept from 0800 to 1200 hrs. and 1300 to 1621 hrs. Monday to Friday, except on public holidays.

Outside these hours, a watch is kept when a vessel is expected and the pilot vessel is underway.

ANCHORAGE: Within harbour, clear of charted cable and prohibited anchorage areas. Depths mostly average 10 fathoms.

RESTRICTIONS: Radio pratique may be granted on application to Department of Health. This means vessel may be berthed, Doctor and Customs then board and clearance is given alongside. Berthing may be restricted by tide conditions and draft but necessary for Master and Agents to contact Harbour Master when ETA is known; Agent then notifies vessel as to when berthing will take place.

MAX. SIZE: *Fort Hill Wharf* – length 350 ft., least depth alongside 24 ft. *Note.* The water shallows abruptly immediately inside the line of the inner piles.

Stokes Hill Wharf – outer face length 960 ft., least depth 32 ft. Will take ships up to 800 ft. Inner face length 700 ft., least depth 15 ft.

Bulk Iron Ore Wharf – length (dolphin berth) 922 ft., least depth 38 ft.

Also see "Berthing".

HEALTH: Darwin is a First Port of Entry. The Quarantine Anchorage is shown on Chart AUS 28. Vessels should avoid anchoring near the sunken wreck marked "foul", situated one cable Westward of the Quarantine Buoy. (Under the Quarantine Regulations, vessels are required to inform the Director of Health by radio of the state of health on board the vessel, and are advised to request wharf-side clearance.)

Application direct to Health Department providing vessel healthy, if granted will enable berthing on arrival and clearance alongside providing also that berth available. A vessel arriving from another Australian port with pratique granted is not required take any further action. Should vessel have suspected fever or disease on board it should be reported by radio to Health Department who take whatever action necessary. Also see "Melbourne".

Vessel carrying a qualified Medical Officer may be granted radio pratique. There is a Quarantine Station with accommodation for forty people, at East Arm, accessible by boat from the Quarantine Anchorage.

RADIO: Darwin Radio, call sign VID 6204 kc/s. 2182 kc/s. R/T 500 kc/s.

RADAR/VHF: No port radar; VHF Channel 16 contacts Harbour Master's office and pilot vessel.

TUGS: Join off berth. Charge made if tug's towing line is used.

A tug service is provided by Coastal Tug and Barge Company. This company also provides a boat for running mooring lines.

The tug is m/v *Goyder* which is 1,200 h.p.

Transport to vessels at anchor can also be arranged through this company.

BERTHING: Some tide restrictions during springs particularly Fort Hill berth.

Iron Ore Wharf: 922 ft. in length. Can accommodate vessels up to 750 ft. (228.6 m.). Depth alongside 38 ft. (11.58 m.). Height of deck above datum 34.5 ft. (10.15m.).

Travelling iron ore loader on wharf with an outreach of 46 ft. (14.02 m.). Gross loading rate 1,000 t.p.h. Length of travel 450 ft. (121.9 m.). Also used as a tanker berth, and is fitted with a 6 in. light marine diesel line, an 8-in. distillate line, a 12-in. black oil line, a 10-in. white spirit line, and a 4-in. line for discharge of LP Gas.

Grain Sorghum could be loaded at this berth utilising the iron ore loading equipment. Public and ships telephones are provided on this wharf.

Stokes Hill Wharf: General cargo: container and passenger ships

berth on outer face, small general cargo and fishing vessels berth on inner face.

Length of berth 961 ft. (291.21 m.). Height of deck above datum 34.5 ft. (10.62 m.), outer face, 31 ft. (9.45 m.) inner face. Depth on outer face 32 ft. (9.75 m.); inner face 15 ft. (4.75 m.). This wharf is connected to the North Australian railway system. The maximum axle load permitted on this wharf is 10 tons. Shore power is available from four outlets on the main face and three on the inner face. The supply is 60 amps, 3 phase, 415V 60 cycles AC.

There are two cargo handling and transit sheds on the wharf, also waterside workers' amenities, first-aid room and canteen, Harbour Master's, Customs and Stevedores' Offices.

Public telephones and direct lines to taxi-cabs are installed on this wharf and ships' telephones are available.

Fort Hill Wharf: "T" jetty, 350 ft. (106.66 m.) in length. Least depth of 24 ft. (7.32 m.). Height of deck 32.25 ft. (10.51 m.). On the inner face two berths of 160 ft. (48.77 m.) with 16 ft. (4.88 m.) of water. Mooring buoys are situated 250 ft. (76.2 m.) from each end of Fort Hill Wharf enabling vessels of up to 600 ft. (182.88 m.) to be berthed according to the draft and tide. The berth is used mainly for bulk cargoes, timber, and discharge of bulk cement by pipe-line direct to a cement storage tank near wharf approach. It is also a tanker berth having pipe-lines of 6 in. for gas oil, 8 in. white spirit and 12 in. black oil. Shore power is available as per Stokes Hill Wharf. There is a public telephone on this wharf and a ship's telephone can be connected.

Priorities:

Navy: Bunkers only.
Passenger Ships: one day.
Freezer Ships: two days.
A.N.L. Container Vessel and State Shipping Service vessels: two days.
Tankers: Priority at Fort Hill Wharf.
Tankers: Priority at Ore Berth if no Ore Ship is waiting.
Ore Carriers: Priority at Ore Berth.

Application for a berth must be made to the Harbour Master *before* the vessel's arrival.

STEVEDORES: ETA at least 24 hrs. before arrival as labour ordered before 1330 hrs. the day before required, except week-ends when labour ordered at 1330 hrs. on Friday for Saturday, Sunday, and Monday requirements.

Waterside labour for cargo operations other than iron ore loading, tanker cargoes, and certain small exempt local traders and fishing vessels, is supplied through the Australian Stevedoring Industry Authority and ordered by the various stevedoring companies. The waterside workers' hours and conditions of employment are fixed by award agreement between the Waterside Workers Federation and employees.

The main features concerning labour are: Two shifts Sunday to Friday:

Day	0800 to 1500 hrs.
Evening	1500 to 2200 hrs.
Saturday	0800 to 1200 hrs.

Labour will extend 4 hours on Saturday or 2 hours until midnight if vessel can finish and sail.

When Monday is a holiday, labour for Tuesday has to be ordered before 1300 hrs. on the previous Friday.

MEDICAL: Medical facilities and hospital available. Certificates required for smallpox vaccination and cholera if vessel from certain overseas countries.

TANKERS: Night movements subject to Harbour Master's permission. Usual to berth vessel at high water if necessary and discharge cargo to safe draft by next low water.

Oil cargoes are discharged at Fort Hill or Ore wharves. Shell Oil Company own or lease pipe-lines to handle their own cargo. Other oil companies sub-lease the lines from Shell for their cargoes.

Approximate discharging rates are:

Black Oil	400 t.p.h.
White Spirit	300 t.p.h.
Distillate	100 t.p.h.

DENSITY: Considerable variations experienced. Average 1025.

FRESH WATER: Fresh water is laid on to all berths, at a rate of 30 tons per hydrant per hour, the cost being 17c per ton and $3.00 connecting fee.

FUEL: All grades available by road tanker at all berths for small quantities. For large quantities, by pipe-line all grades are available at all berths.

Approximate bunkering rates are:

Marine Diesel	180 t.p.h.
Gas Oil	120 t.p.h.
Fuel Oil	140 t.p.h.

FIRE PRECAUTIONS: Watchman at approach to wharf. Towing-off wires on off side of vessel.

GANGWAY/DECK/WATCHMAN: Required, owing to large rise and fall of tide. Ship's crew or shore watchman.

OPENING/CLOSING HATCHES: Optional, if alongside usually done by watersiders; not alongside by crew.

CUSTOMS ALLOWANCES: 200 cigarettes. One bottle spirits (26 oz.) three bottles beer.

Regulations of the Commonwealth Department of Customs and Excise apply. The Customs Department also act for the Immigration Department.

CARGO GEAR: As required by Australian Navigation Act. See "Melbourne".

The Port Authority has available for hire:

Cranes up to 16 tons capacity.
Fork lifts up to 12,000 lb. (5443 K).
Trailers – 10 tons capacity.
Side Loader – 25 tons capacity.
Tractors.

The above equipment is available for use outside the wharf area when not required for cargo operations.

Hiring rates and conditions for all equipment are available on application to the Wharf supervisor.

There are also private cranes available with capacities up to 50 tons. All mobile equipment that is required to be used in the Port Authority area must be hired through the Port Authority plant pool.

FLOATING PLANT: 56 ft. (17.07 m.) pilot vessel *Larrakia*. Speed 12 knots. Fitted with radar, echo sounders, HF and VHF radios and fire fighting and oil dispersal equipment. Has sleeping accommodation for six and when not on pilotage duty is available for hire in Northern Territory waters to approved bodies for survey work etc. Daily rates on application to Harbour Master.

25 ft. (7.62 m.) pilot vessel *John Stokes*. Speed 9 knots. Fitted with echo sounder, HF and VHF radios. When not on pilotage duty, is available for harbour hire for approved purposes.

CLIMATE: Monsoonal in character with prevailing cool dry S.E. winds from May to September, and warm, most N.W. winds and frequent showers from November to March, while April and October are variable. Cyclones, which are common on both East and West coasts of Northern Australia, rarely affect Darwin. Rainfall averages 60 in. (152-40 cm.) per year and temperature ranges from a mean daily maximum of 91°F (32.7°C) in October and November to a mean daily minimum of 68°F (20°C) in June and July.

Average monthly rainfall to the nearest inch is: Jan. 16 in., Feb. 12 in., March 11 in., April 3 in., May 0.5 in., June nil, July nil, Aug. nil, Sept. 0.5 in., Oct. 2 in., Nov. 4 in., Dec. 9 in.

TIDES: Darwin is a standard port in the Australian National Tide Tables which are obtainable from Admiralty Chart Agents. The maximum tidal range is 26 ft. (7.93 m.), the mean tidal range is 12.2 ft. (3.72 m.).

Tidal streams have a maximum rate of 4 knots in the approach channel and 2.5 knots in the vicinity of the berths.

IDENTIFICATION CARDS: See "Melbourne".

CONSULS: Portuguese and Indonesian.

REPAIRS: Limited small repairs. Slipway capacity 240 tons.

DIVERS: Divers are available.

SHIPPING OFFICE: Shipping Office facilities are available for engagement and discharge of British crews.

SURVEYORS: The Commonwealth Department of Transport maintains a surveyor. There is a private surveyor who is also a Lloyds surveyor.

REPATRIATION: Facilities available.

AIRPORT: International and domestic flights.

TIME: GMT plus 9.5 hours. Permanent.

HOLIDAYS: Extraordinary Holidays (closed port). Good Friday; Labour Day (1st May); Picnic Day (1st Monday in August); Christmas Day (25th December). Other Holidays: New Year's Day (1st January); Anniversary Day; Easter Saturday; Easter Monday; Anzac Day; Queen's Birthday (June); Boxing Day.

POLICE/AMBULANCE/FIRE: Tel.: Police 81-5555; Ambulance 81-2244; Fire 81-2222.

TELEPHONES: Public telephones are installed on Fort Hill and Stokes Hill Wharf. Direct lines to taxi companies on Stokes Hill Wharf. Ship's telephones connection on application to Wharf Supervisor. Connection and disconnection fee $10; $5 per day for local calls; and trunk line calls as booked.

DELAYS: Port congestion and occasional short delays for tide.

AUTHORITY: The Port Superintendent, NT Port Authority.

AGENT: Sub-agent of Patrick Agencies, Sydney, NSW.

DERBY, W.A.: 17.17 S. 123.35 E. (See Plan)

CERTIFICATES/DOCUMENTS: See "Melbourne".

PORT LIMITS: All waters to South and Eastward of a line through Valentine Island in a 053° – 233° direction to the mainland on each side.

PILOTAGE: Not compulsory but recommended. Private Pilots arranged by Agents Fremantle or Derby. Pilot boards Cockatoo Island in Yampi Sound. Two weeks advance notice required of Pilot requirement.

ANCHORAGES: N.N.W. of North Mary Ann Island with Derby front lead bearing 141° dist. 6.4. miles.

RESTRICTIONS: Numerous islands and reefs, strong tides. Navigate during day.

MAX. SIZE: 575 ft. length.

HEALTH: First port of entry. Vessel examined for pratique alongside. Also see "Melbourne".

VHF: Limited VHF, Channels 6 and 16.

BERTHING: Tide range one of biggest in the world. Berth alongside dries 2 ft. 6 in. at springs. Several patches dry, 1 – 2 ft. Ground in berth level and it is "Practice of Port" vessels stay aground if stay over tide. Important to note above for circulating water for ships auxiliaries, as vessel makes own arrangements on board.

STEVEDORES: Irregular, but usually three gangs, 0800 – 1700 hrs. with reasonable overtime.

TANKERS: Oil – discharge connection 236 ft. from Southern end of jetty.

FRESH WATER: Up to 224 tons at 15 t.p.h. Could be restricted by drought.

TIME: GMT plus 8 hrs.

CARGO GEAR: Due to extreme range of tide vessels with short derricks will have difficulty at LW. Also see "Melbourne".

AUTHORITY: Harbour and Light Dept., Fremantle.

AGENT: Sub-agent of Patrick Agencies, Fremantle.

DEVONPORT, Tasmania: 41.09 S. 146.24 E.

PORT LIMITS: Within all waters that extend 3 miles to seawards bounded on the Eastward by an imaginary line drawn 000° distance 3 miles from the coastline and intersecting the most Easterly point of Wright Island and to the Westward by another imaginary line drawn 000° distance 3 miles from the Western side of the entrance to the River Don.

DOCUMENTS: See "Melbourne".

APPROACHES: Port situated 1 mile inside Mersey River, entrance to which sheltered by Mersey Bluff on West and by breakwater on East bank. Good anchorage in vicinity boarding ground, but inadvisable remain at anchor during strong on-shore winds. Inner harbour provides all-weather shelter.

PILOTAGE: Compulsory. 24-hr. service. Pilots will board when required at a position within 400 m. of a point Mersey Bluff Lighthouse bearing 242° by 1.93 km.

Masters of vessels requiring the service of a Pilot are advised to radio the Harbour Master, Devonport, their ETA and vessel's draft 12 hours prior to arrival.

ANCHORAGE: The quarantine anchorage is defined as to the North of a line running East and West through the Mersey Bluff light. Vessels must lie clear of the fairway into the River.

RESTRICTIONS: Approach channel 26 ft. LW. Tidal range 9 ft. Enquiries should be made for vessels exceeding 29 ft. draft or 600 ft. length.

MAX. SIZE: Vessels 16,000 g.r.t., LOA 182.9 m. and draft 8.5 m. have entered safely.

VHF: 24-hour service on Channel 16, Channel 12 working.

TUGS: Modern tug 1,200 h.p. also auxiliary 250 h.p. Additional tugs available at short notice.

BERTHING:

West Wharf:

No. 1 Berth	length 167.6 m.	depth 8.5 m.
No. 2 Berth	length 189 m.	depth 8.5 m.
No. 3 Berth	length 167.6 m.	depth 7.8 m.
No. 4 Berth	length 198 m.	depth 8.5 m.
Stock Jetty	—	depth 4.27 m.

East Wharf:

No. 1 Berth. Length 122m. Ferry berth with stern loading facilities and passenger terminal. Depth alongside 7.01 m.

No. 2 Berth. Length 213 m. Roll-on/Roll-off ramp. Depth alongside 8.5 m.

TANKERS: 2 berths with 10-in. discharge lines for black and white oils.

BULK HANDLING FACILITIES:

Wheat. One berth, discharge connections to 8,000 ton capacity silo.

Cement. One berth, loading connections from 4,000 ton capacity silos.

Ores, etc. Two berths. One fitted with 16-ton grab and 40-ton capacity hopper. Ship's gear discharge on wharf apron on second berth. Conveyor available to load industrial sands.

Roll on/Roll off Container Berths. 2 berths fitted with stern loading ramps. Fully equipped to handle cellular and vehicle deck ships. 1 travelling crane 30 ton capacity. One 30-ton travelling container handling crane. 6 acres hardstanding storage area for ISO container. 60 power points for refrigerated units.

Livestock Berth. 1 jetty with loading ramp and adjacent holding area. Suitable for ships up to 250 ft. length.

Floating Crane: Capacity 35 tons available.

STEVEDORES: Agents for ships arrange stevedores.

MEDICAL: Hospital available five miles from port.

REPAIRS: Limited repairs carried out, foundry and machine shop available.

SURVEYORS: Lloyds surveyor in residence at Devonport.

CARGO GEAR: Australian Navigation (Loading and Unloading) regulations apply.

FRESH WATER: Available all wharves. 40 t.p.h.

FUEL: Road tanker delivery only.

TELEPHONES: Available each berth.

HOLIDAYS: Work all days except Christmas Day, Good Friday, Anzac Day, Labour Day, Picnic Day W.W.F.

POLICE/AMBULANCE/FIRE: Fire 24–1886 (Other than alarm, 24–1887); Police 24–1596; Ambulance 24–1551.

TIME: GMT plus 10 hrs. (Summer time GMT plus 11 hrs. mid-October to mid-March).

AIRPORT: Approximately 5 miles away. Regular service.

SERVICES: Shipwrights and carpenters available at 24 hours notice. Underwater diving services available.

DEVELOPMENT: Widening Ramp at No. 1 Berth East from its present 12 ft. to 30 ft.

Channel improvements including widening and deepening of channel.

Harbour protection rock breakwater on Western bank under construction.

Extension to wheat silos storage to increase capacity by 50%.

AUTHORITY: Marine Board of Devonport.

AGENT: Sub-agent of Patrick Agencies, Melbourne.

ESPERANCE, W.A.: 33.52 S. 121.53 E. **(See Plan)**

DOCUMENTS: The following documents should be available for inspection:

Ship's Papers, including the following certificates:

(*a*) Register.
(*b*) Load Line.
(*c*) Safety Equipment.
(*d*) Safety Radio.
(*e*) Safety Construction.
(*f*) Australian Light Dues Receipt.
(*g*) Articles of Agreement and Account of the Crew (or equivalent).
(*h*) Western Australian "Port Bill" — Tonnage Dues Receipt.

Valid Deratisation or Exemption Certificate.

Crew's Identity Documents.

International Vaccination Certificates of all persons aboard.

PILOTAGE: Pilotage is compulsory except where Exemption Certificates are held. Radio "Harbour Master – Esperance" 48 and 24 hrs. before arrival. VHF Channel 16 – pilot boat and base set. Base set not manned continuously but pilot boat may be contacted 1 hr. before arrival. Pilot boat painted white with black rubbing band and white centre house. Word "Pilot" painted on both sides of house. Pilot boards 1.5 miles N.E. of Gull Island. Pilot ladder and ancillary equipment must comply with international regulations. Lee to be provided against swell.

It is more usual for vessels to approach from the Westward. In this case use may be made of either West or Causeway Channels. Approaching from the Eastward is not recommended during the hours of darkness or in weather which is in any way restricting visibility.

ANCHORAGE: Vessels proceeding to anchorage should anchor in an E.N.E. direction from the Eastern extreme of the breakwater. Good holding is found in depths ranging from 14.5–27.5 m. However, plenty of cable should be veered and at least 6 shackles is recommended. In the most boisterous conditions vessels have held well with from 6 to 8 shackles out. However, the vessel should always be watched. A pilot ladder and not accommodation ladder is recommended for vessels at anchor due to the swell conditions which normally prevail at the anchorage.

BERTHING/RESTRICTIONS/MAX. SIZE: The port is divided into two areas, namely the Tanker Jetty and the Inner Harbour. There is a tidal range of 0.4–1.0 m.

The Tanker Jetty is situated 2 km. North of the Inner Harbour and has a depth of 10.97 m. in the approaches and 9.6 m. alongside. The Jetty is exposed to the E.S.E. Vessels are berthed "Head-in". Maximum mean draft must not exceed 9.14 m.; however, vessel may be trimmed by stern but must not exceed 9.75 m. aft. The maximum length of vessel permitted 171 m.

The Inner Harbour consists of one land-backed berth of 244 m. (No. 1). A second berth of 213 m. in length adjoining the first is to the S.E. (No. 2). The depth in the approach Channel, manoeuvring area and alongside is 11 m. Maximum draft permitted is 10.4 m. and length overall 186 m. On occasions it may be possible to exceed this draft but reference must be made to the Harbour Master before so doing, who may at his discretion permit an increase dependent on tide and prevailing weather conditions.

At all berths shore coir and/or nylon springs are used to supplement ships moorings.

24-hr. port but entry not generally carried out at night.

PRATIQUE: Vessels requiring "Free Pratique" are cleared between 0600 and 2000 hrs. daily.

Vessels may be cleared outside these hours upon request and at the discretion of the local Medical Officer.

Vessels are cleared alongside and rarely at anchor.

Please also note that a Health Message is required at the first port of entry from overseas. This is to be despatched within the period 12 and 24 hrs. prior arrival at the first port of entry, and to advise the following information:

Name of vessel, and ETA.
Last port of call.
Date of departure.
Number of crew on board.
Number of passengers on board (if any).
Confirmation that all on board have valid smallpox vaccinations and details of any sickness.

RADIO: Esperance: Radio call sign VIE (operative from 0700 to 2000 hrs.). Perth: Radio call sign VIP (continuous).

Port VHF limited to Channels 6 and 16.

TUGS: One tug with 9.5 ton bollard pull will be used.

STEVEDORES: 40 men. Working hours 0800–1700, 1800–2400, 0000–0700. No work from 1700 Saturday to 0800 Sunday. ETA to Agent by 1600 previous day for labour requirements Tuesday to Friday. For weekend requirements ETA to Agent by 1600 on Thursday. For Monday labour ETA to Agent by 1600 Friday. Notice for labour pick-up has to be posted by 1700.

OPENING/CLOSING HATCHES: Preferably handled by crew or as per charter party.

MEDICAL: Advance notice not required. Normal facilities and hospitalisation available.

DENSITY: 1026–1028.

FRESH WATER: Available at all berths; 25 t.p.h.; charge, 21 cents per kilolitre.

FUEL: Available by road tanker only. Advise Agent of grade and quantity at least one week before arrival.

GANGWAY/DECK WATCHMEN: Shore watchman is supplied at entrance to Tanker Jetty in the case of tankers only. Shore watchmen are available if requested by vessel. It is more normal for ship to provide gangway watchmen from crew. Irrespective a gangway watchman must be on duty at all times at any berth.

CUSTOMS ALLOWANCES: 200 cigarettes or 250 grammes cigars or 250 grammes tobacco. One litre of alcoholic liquor, wine or beer.

CARGO GEAR: No shore cranes and discharge effected by ship's gear. Inner Harbour berths, two link belt bulk loaders used. One loader for grain and salt at No. 1 berth. One loader for nickel

concentrates at No. 1 and No. 2. Rates achieved on various commodities — salt 850 t.p.h., grain 500 t.p.h., nickel concentrates, copper concentrates, magnesite 200 t.p.h., phosphate and sulphur 25/30 t.p.h. with conventional ship's gear in union purchase.
IDENTIFICATION CARDS: see "Melbourne".
CONSULS: Nearest at Fremantle.
REPAIRS: Welding, rewinds, under-water inspections. Large structural repairs not possible.
DRY DOCKS: Nil.
REPATRIATION: Facilities exist for repatriation of crews.
AIRPORT: Feeder airline services connect with Perth and international flights. 12 flights per week in either direction. Airport is 25 km. from harbour area. No flights Sundays.
TIME: GMT plus 8 hrs.
POLICE/AMBULANCE/FIRE: Police Esperance 711900; Ambulance Esperance 711711; Fire Esperance 712328.
TELEPHONES: Available all berths.
SHORE LEAVE: Crew allowed ashore provided Immigration Act complied with in relation to Identification Cards.
DELAYS: Not normally encountered.
AUTHORITY: Esperance Port Authority.
AGENT: Sub-agent of Patrick Agencies, Fremantle.

FREMANTLE, W.A.: 32.03 S. 115.44 E. (See Plan)

DOCUMENTS: See "Melbourne". Also Inward and Outward manifests accordance Regulations Nos. 142 and 143 and schedule. These documents supplied by ship's Agents.
APPROACHES: Channel leading from Gage Roads into Cockburn Sound presently 45 ft. (13.7 m.) deep, planned to be deepened to 55 ft. (17 m.) to take ships of 120,000 tonnes.
PILOTAGE: Pilotage is compulsory in the Port of Fremantle except for ships not exceeding 150 gross registered tons, and for coastal and inter-state ships, the Masters of which hold operative Pilot Exemption Certificates. There are 2 pilot boarding grounds: the non-compulsory ground which is situated 2 miles N.W. of the Fairway Buoy, and the compulsory pilot boarding ground in Gage Roads to the Westward of Hall Bank Buoy, which is approximately 2 miles from the entrance to the Inner Harbour. It is necessary for all vessels to give 24 hours notice by radio telegraphy of the expected time of arrival at Fairway Buoy, followed by a second notice, confirming or amending the previous notice, 2 hours ahead of the expected arrival time in that locality.

Ships requiring a Pilot at the non-compulsory ground must include this requirement in their 24 hours notice of arrival.

Two pilot vessels available, one has royal blue hull, white superstructure and the other, a fast pilot launch, is painted international orange. Pilots may be contacted by VHF Channels 16, 12 and 6.

Usually pilot ladder is required on the port side for vessels inward and starboard side for vessels outward, even when the wind is in the East, unless Easterly wind is very strong as there is nearly always a West to N.W. swell. If in doubt call Port Signal Station on VHF Channel 16.

Pilot does not board vessel at anchor.

Pilot ladder to be 4-5 ft. above sea level with manropes slightly shorter. Boat-rope not required. The ladder should be clean and conform with Regulation 17 of SOLAS. The vessel should be making 3-4 knots.

SOLAS regulations are strictly adhered to i.e. Single length of ladder, non-slip surface (Aluminium Not acceptable), 12 in. spacing between steps, no more than 2 replacement steps, all ropes on ladder and manropes to be manila and not covered (Nylon and polypropelene not acceptable), Regulation 17(a) part (VII) and (VIII) very important, a responsible officer to standby and not a sailor.

Check with Signal Station and find out if Pilots preference is ladder or mechanical hoist (if available).
ANCHORAGES: Gage Roads 44 ft. (13.4 m.) Owen Anchorage 42 ft. (12.8 m.) Cockburn Sound 50 ft. (15 m.).
RESTRICTIONS: *Inner Harbour:* Basin and entrance channel dredged to minimum of 36 ft. (11 m.) below datum.

Outer Harbour: Main approach channels dredged to minimum of 45 ft. (13.7 m.) below datum – secondary channels leading to alumina refinery jetty and steelworks jetties dredged to minimum of 38 ft. (11.6 m.) below datum.
MAX. SIZE: Limited by draft. Minimum under-keel clearance of 0.9 m. required.

Outer Harbour, up to 41 ft. 6 in. (12.6 m.) draft.

Inner Harbour, up to 32 ft. (9.7 m.) draft but with suitable tide and by special permission of Harbour Master up to 34 ft. 6 in. (10.5 m.) draft.

Tankers: The maximum ship draft acceptable at the Oil Refinery Jetty at Kwinana is 41 ft. 6 in., this being the maximum draft permitted in the approach channels.
HEALTH: No restrictions except quarantine. Doctor not normally available between 2200 and 0600 hrs. See "Melbourne".

Port Quarantine Regulations:

(a) The accommodation, galley and other areas must be free from cockroaches and rodents.

(b) Garbage cans, either belonging to the ship or to Fremantle Port Authority, when used must be at all times covered with satisfactory tops.

(c) Rat guards must be fitted to all lines and regularly checked including weekends where the Department of Health have increased their inspections.

It is also to be noted regardless of the existence of current derating or deratisation exemption certificates, all vessels are inspected for rodents.
RADIO: VIP Perth.
TUGS: *Inner Harbour:* 6 available up to 2,600 h.p. (1,940 kW), join vessel in Gage Roads – extra charge if tug's line is used.

Outer Harbour: Inner Harbour tugs proceed to Outer Harbour berths also where 2 special tugs equipped as fire tenders are also stationed. Tugs join ships approx. 2.5 miles from berths – extra charge if tug's line is used.
VHF: Port authority signal station manned 24 hours. Keeps watch principally on Channel 16. Channels 6 and 12 used for ship-tug communications. Channel 14 for B.P. Refinery use.
BERTHING: *Inner Harbour:* Victoria Quay – continuous quayage 5,359 ft. (1,633.3 m.); 8 berths.

North Quay – continuous quayage 5,877 ft.; 10 berths. Container berth (No. 11 & 12) 1,535 ft. (468 m.); 1 berth.

All berths in the Inner Harbour, including Victoria Quay, North Quay and the container berth are dredged to a minimum of 36 ft. (11 m.) below datum.

Outer Harbour: Alumina Refinery Jetty, length of berth 800 ft. (244 m.), depth 38 ft. (11.6 m.). Steelworks Jetty No. 1, length of berth 640 ft. (195 m.,) depth 36 ft. (11.0 m.). Steelworks Jetty No. 2, length of berth 880 ft. (268 m.), depth 40 ft. (12.2 m.). Oil Refinery Jetty, see "Tankers" below. Bulk Cargo Jetty, length of berth 846 ft. (259 m.), depth 44 ft. (13.4 m.). Explosives Jetty, length of berth 61 m., min. depth 5.0 m. max. depth 7.9 m.
STEVEDORES: Shipboard stevedoring by private contractor, shore side by FPA – usually arranged by ship's Agent. ETA should include particulars of cargo, showing heavy lifts, dangerous or hazardous cargoes, hatch stowage, gangs required, etc.
MEDICAL: Notice not necessary but advisable if treatment required. Full hospital facilities available. Cholera and smallpox vaccinations essential if ship comes from affected areas. International certificates must be current.
TANKERS: *Kwinana Oil Refinery Jetty:* 2 berths for tankers up to 752 ft. (229 m.) – depths 44 ft. (13.4 m.) and 45 ft. (13.7 m.) 1 berth for tankers up to 860 ft. (262 m.) – depth 45 ft. (13.7 m.). Oil separation tanks ashore serve each berth.
DENSITY: Salt 1025, generally at all tides.
FRESH WATER: Available 24 hrs. a day, delivered by hose up to 400 tonnes an hour, 31 cents per kilolitre.
FUEL: Marine fuel (2 grades); Marine diesel. Notice 14 days then 48 hrs.
FIRE PRECAUTIONS: Watchman to be on duty. Ship heading out. Fenced off on land. Buoys 50 ft. (15 m.) out from ship marking prohibited area.
DEVELOPMENTS: State Government approval has been granted in principle for the development of 3 deep-water berths at Point Peron adjacent to the causeway linking Garden Island with the mainland.

A bulk grain jetty has been constructed at Kwinana to serve Co-operative Bulk Handling Ltd's grain terminal.

The jetty will be equipped with conveyors and ship loaders capable of handling bulk grain at the rate of 5,000 t.p.h. It will eventually be able to handle vessels up to 100,000 d.w.t.

No. 12 Berth, North Quay will be fitted with a ro/ro ramp, and another Portainer Crane is to be provided for North Quay.
GANGWAY/DECK WATCHMAN: Watchman required – member of crew, or shore-based watchman available. Ordinary rate currently A$4.90 an hour.
OPENING/CLOSING HATCHES: By arrangement between ship's Agent and Stevedore.
CERTIFICATES: Health; Deratisation; Load Line; Ship's Register; Articles. Also see "Melbourne".
CUSTOMS ALLOWANCE: According to local customs dept.
CARGO GEAR: Strict surveillance of cargo handling gear by Commonwealth Government Dept. of Transport. Also see "Melbourne".
IDENTIFICATION CARDS: See "Melbourne".
CONSULS:

America, United States of
Austria
Belgium
Denmark
Finland
France
Germany
Guatemala
Italy
Japan
Netherlands
Norway
Philippines
Portugal
Sweden

REPAIRS: All types of deck and engine repairs possible.
DRY DOCKS: No dry docks – slipway up to 3,000 T.
REPATRIATION: Facilities exist for repatriation of crews.
AIRPORT: 17 miles (23 km.) to Perth International Airport.
TIME: GMT plus 8 hours.
HOLIDAYS: *Extraordinary Holidays – Port closed:* Labour Day (1st Monday in March); Good Friday; Anzac Day (25th April); Union Picnic Day (celebrated on the first Tuesday in November); Christmas Day (25th December).

Ordinary Holidays: New Year's Day (1st January); Australia Day (celebrated on a Monday late in January); Easter Monday; State Foundation Day (1st Monday in June); Boxing Day (26th December).

On ordinary holidays waterside labour available to work ships in following categories:

(a) Scheduled passenger ships.
(b) Marine casualties.
(c) Ships that can complete cargo handling operations prior to the next engagement of labour.

POLICE/AMBULANCE/FIRE: Victoria Quay Police Station Tel. 35.2783 or 35.5016; Ambulance 35.1601; Fire Brigade 35.6262.

TELEPHONES: Telephones can be supplied to any vessel – $60 installation time plus proportion of annual rental plus cost of calls.
SERVICES: All special services available.
REGULATIONS: Normal port regulations. Special Regulations for Tankers berthing at Oil Refinery Jetties.
AUTHORITY: Fremantle Port Authority.
AGENT: Patrick Agencies, POB 656, 10, Phillimore Street, Fremantle, W. Australia 6160. Tel. 35–6311. Telex Perth AA 92434. Cables: "Rikpat Perth WA."

GEELONG, Victoria: 38.09 S. 144.22 E. (See Plan)

PORT LIMITS: A line in a 150.5° direction from a beacon 1.5 chains West of the Little River entrance intersecting with a line in a 009° direction from the N.W. extremity of Sproat St., Portarlington. N.B. – This seaward limit passes 2 cables Eastward of No. 2 beacon Pt. Richards channel.
DOCUMENTS:
3 Crew Lists Form M & S 11.
1 Store List Form 42A.
1 Articles owned or in possession of Master, officers or crew, Form 5.
3 ports of call Form C & E 886.
1 Form QA 3 ship's cargo.
1 Form QA 4 ship's pets.
2 Form QA 5 Shipmaster's bond.
2 Form AQ 360 Health reports.
PILOTAGE: See "Melbourne". Radio ETA to "Seapilots Melbourne" 24 hours prior arrival advising deepest draft and requesting pratique. Pilot vessel equipped with radio-telephone continuous watch on 2182 kHz., and VHF Channels 16, 12, 8 and 6. Pilots carry portable sets. Deep laden tankers advised to rig pilot ladder from bridge to avoid swamping boat.
ANCHORAGES:
1. Quarantine. As directed.
2. Explosives.
   (a) Outer: 088° from Pt. Wilson Beacon 3.52 miles. Circle 0.25 miles (463 m.) radius. Depth 32 ft. (9.7m.).
   (b) Inner: 077° from Pt. Wilson Beacon 1.77 miles. Circle 0.15 miles (278 m.) radius. Depth 21 ft. (6.4 m.).
3. Vessels over 30 ft. (9.1 m.) draft: outside No. 2 Beacon Pt. Richards and South of the line of prolongation of the Pt. Richards Channel. Least depth 12.5 m.
4. Vessels over 27 ft. 6 in. (8.4 m.) draft: East of and within 1 mile of No. 18 Beacon Pt. Richards Channel. Least depth 9.1 m.
5. Inner Harbour: Reference Point B.W. Pier F.R. Triangular Light (38° 6.9′ S., 144° 21.8′ E.).
   (a) 067° 9.3 cables (1,722 m.) from the above position. Least depth 29 ft. (8.8 m.).
   (b) 092° 8.2 cables (1,520 m.) from the above position. Least depth 29 ft. (8.8 m.).
   (c) 117° 8.7 cables (1,612 m.) from the above position. Least depth 29 ft. (8.8 m.).
   (d) 133° 1.42 miles (2,613 m.) from the above position. Least depth 26 ft. (7.9 m.).
   (e) 147° 1.43 miles (2,631 m.) from the above position. Least depth 26 ft. (7.9 m.).

Masters of vessels are cautioned *(a)* that the bottom of the Inner Harbour is soft mud and is not good holding ground and *(b)* that vessels should not be immobilised unless with the express permission of the Harbour Master.
RESTRICTIONS: Vessel must have at least 2 ft. (0.6 m.) of water under the keel with a maximum of 6 in. (0.15 m.) for tide.
Night navigation is not normally permissible for any vessel over 10.4 m. draft or inward 215 m. in length.
MAX. SIZE: Tankers: 825 ft. (250 m.) length with 34 ft. 6 in. (10.5 m.) draft. Other vessels: Enquiries should be made with regard to vessels over 658 ft. (200 m.) length.
HEALTH: An overseas vessel approaching the port requiring pratique shall send a message to the Quarantine Officer not more than 24 hours and not less than 12 hours before arrival containing the following information: name of vessel, ETA, number of passengers, number of crew, number of passengers disembarking, port of departure and date, disease on board.
On arrival the health report shall be given to the Quarantine Officer, 2 copies being furnished on the prescribed form, 1 of which will be signed by the Quarantine Officer and returned to the Master.
RADIO: Coastal radio station for local messages "Radio Melbourne" VIM. The Geelong Harbor Trust Commissioners maintain a Signal Station at Point Henry at which a 24-hour watch is kept. (38° 7′ 51″ S., 144° 25′ 28″ E.). The building is a cream brick tower 11.3 m. in height to the roof, situated at the Northern end of the high land of Point Henry, and is surmounted by a white signal mast. Movement of traffic within the port is controlled through the Signal Station. Communication is affected as follows:
1. Telephone. Geelong 9-8014.
2. Radio Telephone VHF F/M (International Channel).
   (i) Channel 16. 156.8 M/cs. Calling (continuous watch).
   (ii) Channel 12. 156.6 M/cs. Working.
   (iii) Channel 8. 156.4 M/cs. Pilots and Tugs (continuous watch).
   (iv) Channel 6. 156.3 M/cs. Tugs.

These frequencies are the same as those operated by the pilot vessels, Point Lonsdale Signal Station, Melbourne Harbour Control and all Port Phillip Tugboats on commercial towage.
TUGS: Vessels normally towed from Hopetoun Channel to berth, extended towage if required. 3 large tugs available, the largest tug is licensed for ocean work. Use of tug's line optional. Tugs equipped with VHF Channels 6, 8, 12 and 16.
STEVEDORES: Labour ordering: Day labour must be ordered by 1600 hrs. the preceding day. Twilight shift labour by 1600 hrs. preceding day, and midnight shift, but these can be subject to confirmation 0800 hrs. Saturday labour must be ordered by 0900 hrs. Friday, Sunday labour by 1100 hrs. Friday (day and twilight shift), Sunday midnight before 0900 hrs., Friday. Monday labour is ordered at 1600 hrs. Sunday. Ships can order for a 1000 hrs. start, at 1600 hrs., which is subject to 0800 hrs. confirmation. Special requirements exist for labour requirements on public holidays.
BERTHS:

	No.	*Length (m)*	*Depth (m)*	*Use and facilities*
Cunningham Pier	4	328	9.7	Gen. cargo – cargo shed 137m. × 15 m. Rail access.
Bulk Wheat Pier	2	201	11.0	Bulk grain export. Gantry extends 154 m. of berth.
Corio Quay South 1	1	183	9.7	Stern loading ramp for roll-on/roll-off. Rail access
Corio Quay South 2	1	128	9.7	Reserve.
Corio Quay South 3	1	146	9.7	Reserve.
Corio Quay North 1	1	183	9.7	Steel and dry bulk cargo.
2	1	183	9.7	Rail access Four 6 t. Portal cranes. Gen. cargo shed 91 m. × 30.5 m.
Corio Quay North 3	1	161	9.7	Gen. cargo shed 97.5 m. × 27 m.
Lascelles Wharf 1	1	173	11.0	Dry bulk cargo.
2	1	173	11.0	Four 7.5 ton Portal cranes. Cargo shed 30 m. × 27 m.
Refinery Pier 1 & 2	2	213	11.0	Petroleum products.
1A	1	65	5.0	LP gas export.
3 & 4	2	275	11.0	Crude oil, chemicals.
Pt. Wilson Explosives Pier	2	168	9.1	Dangerous cargo. Commonwealth Government controlled.
Pt. Henry	1	152	9.1	Bulk alumina and allied products. Unloading gantry.

TANKERS: Refinery Pier. 4 berths, depth alongside 36 ft. (11 m.) Pumping platform 16 ft. (4.9 m.) above low water, wharf 12 ft. (3.7 m.) above low water. One-ton crane at each berth and accommodation ladder.
Nos. 1 and 2 Berths: Pier 2,909 ft (887 m.) long, direction 315° berth 700 ft. (213 m.) approx., suitable for ships up to 200 m. LOA. Ships moor to 2 spring dolphins 61 m. apart; pumping platform set back 1.7 m. from line of these dolphins. Barge platform inshore of each berth.
Nos. 3 and 4 Berths: a branch from the main pier, direction 330°, berth 275 m. approx., suitable for ships up to 260 m. LOA. Ships lie alongside a concrete sprung berthing beam 73 m. in length. No. 4 Berth equipped with capstans and 90 tonnes S.W.L. mooring hooks for berthing large vessels. Distance between backspring bollards 35 m. 8 in. hoses – reduction from 10 in. available. Shore accommodation ladder provided at all berths. Ballast and slop discharge available all berths.
MEDICAL: Comprehensive medical facilities available, including 459-bed Geelong Hospital. If vessel to be in port less than 24 hours it is advisable to radio Agent informing him of medical requirements prior to vessel's arrival.
DENSITY: Normally 1025, may decrease to 1023 after much rain, or increase to 1027 in Summer after prolonged dry spell.
FRESH WATER: Available at all berths from shore hose at 40-50 t.p.h. Water may be provided to vessels at anchor by using a tug as waterboat, delivery 25-30 t.p.h., tug hire $150 per hour. At Lascelles Wharf, special water delivery facilities available from 9 in. main at 150 t.p.h. Charge 30c per kilo.
FUEL: Marine fuel to 650 sec. and diesel fuel available Corio Quay North and Lascelles Wharf; all grades to 3,500 sec. available at Refinery Pier berth.
FIRE PRECAUTIONS: Stringent restrictions against burning or welding on vessels carrying dangerous cargoes. Standard fire precautions.
GANGWAY/WATCHMEN: Available if required by Master. Penalty rates after hours.
OPENING/CLOSING HATCHES: Crew or stevedores, to Master's requirements. It is normal to request bulk carriers to arrive at berth with hatches all open.
CERTIFICATES:
Deratisation Certificate (Health Requirement).
Ship's Articles (British) (Customs requirement).
Ship's Register (Customs requirement).
Load Line Certificate (Customs requirement).
Safety Equipment Cert. (Customs requirement).
Safety Radio Cert. (Customs requirement).
Last Port Clearance (Customs requirement).
CUSTOMS ALLOWANCE: 200 cigarettes, 8 oz. pipe tobacco, 40 cigars. Spirits: any bottle opened not to exceed 1 quart.
CARGO GEAR: Australian Navigation Act requirements. See "Melbourne".
IDENTIFICATION CARDS: See "Melbourne".

CONSULS: Italian Vice-Consul in Geelong. Other Consulates in Melbourne available if required:

Austria	Germany	Peru
Belgium	Greece	Philippines
Brazil	Honduras	Portugal
Chile	Iceland	Spain
China	Japan	Sweden
Denmark	Latvia	Switzerland
Dominican	Mexico	Thailand
Ecuador	Monaco	Uruguay
Finland	Netherlands	USA
France	Norway	Venezuela
	Panama	

REPAIRS: All services available. Most Melbourne repair and service firms will also undertake work in Geelong.
DRY DOCKS: Slipways only.
REPATRIATION: Possible without difficulty.
AIRPORT: Nearest major commercial airport is Tullamarine, 50 miles distant, from which there are frequent interstate and international flights. Airport accessible by road in about 1 hour 15 minutes.
TIME: GMT plus 10 hours. Summertime, GMT plus 11 hours.
HOLIDAYS: Closed holidays: Christmas Day; Waterside Workers' Picnic Day; Labour Day; Good Friday; Anzac Day (Tanker operations excepted). Other holidays: Australia Day; Queen's Birthday; Geelong Cup Day.
TELEPHONE: Always placed aboard on arrival; ship charged for trunk line calls, etc.
SERVICES: Cleaning, painting, fitting out, etc., fumigation. Good fresh stores available.
POLICE/AMBULANCE/FIRE: Police 21 6111; Ambulance 21 2655; Fire 21 2755.
SHORE LEAVE: No restrictions. Seamen aboard vessels berthed at Refinery Pier sign book on leaving pier and again on re-entering; this is in lieu of any form of dock pass.
AUTHORITY: The Geelong Harbor Trust Commissioners.
AGENT: Sub-agent of Patrick Agencies, Melbourne.

GERALDTON, W.A.: 28.46 S. 114.36 E.

PORT LIMITS: Inner Harbour includes all that area of water in Champion Bay bounded by a line drawn from Gregory Street, Geraldton, along the foreshore to a point due South of the Western extremity of the breakwater; thence along the breakwater to the Western extremity of the Eastern breakwater; thence S.E. to the foot of the said Gregory Street, and also including the Entrance Channel thereto.

Outer Harbour includes all that area of water in Champion Bay bounded by an imaginary line between Point Moore Lighthouse to a point 2.5 miles true North; thence true East of the shore to the mainland, but excluding the waters of Geraldton Inner Harbour and the Entrance Channel thereto.
ETA: "Shipserve Harbour Master Geraldton" requires 48 and 24 hrs. notice prior arrival. The 24 hrs. message should be timed to be delivered before 1630 hrs. local time on the day before arrival so that arrangements can be finalised, when possible, in working hours. Please also indicate maximum draft in the 48 hrs. notice.
DOCUMENTS: Quarantine notice and declaration QA3 Form A, Quarantine Notice QA 4 Form E2, Shipmaster's Bond QA 5, Departure Notice, 2 Crew Lists. Also see "Melbourne".
PILOTAGE: Compulsory. Pilot boards in position with Point Moore Lighthouse 2 miles, bearing 135° if conditions abnormal pilot launch may not be able to reach this position then Port Authority would advise boarding point. Usually off Inner Knoll Buoy.
ANCHORAGE: Point Moore Lighthouse bearing 195° distance 2.2. miles in 6 fathoms. Good holding.
MAX. SIZE: 700 ft. Length; 28 ft. 6 in. max. loaded draft. Max. draft is expected to be 30 ft. 6 in. by July 1976 when dredging is completed.
RESTRICTIONS: Swells up to 14 ft. in outer approaches. Loaded ships advised not to enter when swell excessive.

Bluff Point leads or Outer Channel. Depth of water 34 ft., minimum LWIS width of channel 500 ft.

Turning Area (Inner Knoll Buoy to Inner Harbour Channel). Depth of water 31 to 36 ft. ILWS.

Inner Harbour Channel. Depth of water 30 ft. LWIS, width of Channel 300 ft.

Dredging work in operation to increase depth to minimum of 32 ft.
HEALTH: First port of entry, radio Port Authority not less than 12 hours prior to arrival advising state of health. Also see "Melbourne".
TUGS: One – 13 tons bollard pull. Compulsory.
RADIO: VHF available for communications with Pilot. Channels 6, 9, 12 and 16.
BERTHING: The wharf is divided into 4 berths numbered 1, 2, 3 and 4 from East end, 3, 548 ft. in length and the fourth 594 ft.

No. 1. Berth has a transit shed with a 1,000 ton capacity, and an old shed which has been used for bulk storage of wheat and salt. The berth is used as a general purpose berth.

No. 2. Used as the tanker berth, and also for the discharge of bulk phosphate, sulphur and allied cargoes. Also for loading bulk cargo other than wheat. General cargo can also be handled and facilities are available for the holding and loading of sheep. Has an unobstructed apron of 90 ft. for almost the full length of berth.

No. 3. Berth mainly for loading of bulk grain. There are 2 loading gantries on the wharf each capable of loading wheat at the rate of 400 t.p.h.

No. 4. It will be possible to use No. 4 for general purposes, but an ore-loading gantry and conveyor system has been erected and iron ore loading will have priority.
CARGO GEAR: See "Melbourne".
STEVEDORES: 90 men working hours 0800–1700 hrs. Monday – Friday. Extended shifts Monday – Thursday. Evening shifts all days except Saturday.
FRESH WATER: At each berth 10 – 15 t.p.h.
FUEL: Light diesel, heavy fuel oil 80 t.p.h.
REPAIRS: Engine repairs available.
CUSTOMS ALLOWANCES: Each crew member 200 cigarettes or 40 cigars or 8 oz. tobacco and limited amounts spirits per man.
TIME: GMT plus 8 hrs.
TELEPHONES: Available at each berth (ordered through Agent).
DEVELOPMENTS: Work has commenced in support of the planned growth of mineral sand shipments. Dredging for a new No. 5 berth involving the removal of approximately 200,000 cu.m. of mud has begun. The dredging is part of a $A2.7 million development programme spread over two years in preparation for mineral sands exports which are expected to peak in late 1977.
AUTHORITY: Geraldton Port Authority.
AGENTS: Sub-agent of Patrick Agencies, Fremantle.

GLADSTONE, Queensland (including Barney Point): 23.50 S. 151.15 E. **(See Plan)**

PORT LIMITS: Inside a line commencing at a point 1.5 miles North of East Point, Facing Island; thence to the outer extremity of Jenny Lind Bank, and thence by a line to Tiber Point.
DOCUMENTS: See "Melbourne".
PILOTAGE: ETA's may be sent through Brisbane or Rockhampton Radio Stations, not less than 24 hours before arrival, followed by amended advices where necessary as takes pilot launch 2 hours to reach Pilot boarding Ground from town. Pilotage compulsory all merchant ships. Pilot boards at Pilot boarding Ground situated approx. 1 mile off the Entrance Beacons. VHF Channel 16 may be used to contact Pilot station, call sign "Gladstone Harbour Control"; 24 hour watch maintained. Pilot boat also has VHF. Pilot boat orange launch and displays usual signals.
ANCHORAGE: Good anchorage inside Gatcombe Head about 7 cables South of Bushy Islet in 8 to 10 fathoms, sand and mud, North of Facing Island leads.
RESTRICTIONS: The port is served by an entrance channel, some 6 miles long, with a bottom width of 182.87 m. (600 ft.), dredged to 10.3 m. (34 ft.) at low water.

The allowable draft of a vessel passing through the channel is determined by the following formula:

Allowable draft in metres = 10.3 m. + tide height –1.5 m.

The 1.5 m. is deducted to allow for keel clearance.

The max. daily tide height is 4.7 m.

The min. daily tide height is 2.6 m.

Tankers carrying petroleum products may enter during hours of darkness only at Harbour Master's discretion.
MAX. SIZE: Max. draft for entrance channels varies from 11.58 m. (38 ft.) to 12.80 m. (42 ft.), depending upon tidal conditions. Length and breadth dependent upon wharf to which vessel is to proceed. Principal wharves are:

Auckland Wharf	No. 1	Depth	11.3 m. (37 ft.)	at LW
,, ,,	No. 2	,,	10.0 m. (33 ft.)	,,
,, ,,	No. 3	,,	10.0 m. (33 ft.)	,,
Barney Point		,,	12.2 m. (40 ft.)	,,
South Trees	East	,,	12.8 m. (42 ft.)	,,
,, ,,	West	,,	12.8 m. (42 ft.)	,,

HEALTH: Pratique granted when alongside wharf, unless proceeding anchorage inside port, which case quarantine officials board anchorage. Agents should be advised in advance in event any suspected fever or disease on board. Pratique granted in Australian ports normally covers vessel for any subsequent ports. Also see "Melbourne".
RADIO: Radio messages passed to Agents via any coastal radio station. All shipping cables to Agents, etc., should be prefixed "Shipserv" to enable delivery destination outside ordinary postal hours if necessary.
TUGS: 4 tugs in service. Tugs normally join vessel in vicinity of South Trees Point. Tug's lines always used when vessels are piloted. There is no extra charge for use of tug's lines.
BERTHING: Large vessels requiring load coal either Auckland Point Wharf or Barney Point Wharf normally swing and berth starboard side to, head to sea, on flood tide. Smaller vessels using these berths either port or starboard side to, depending upon tide. Vessels requiring discharge bauxite South Trees Island Wharf berth at periods of slack water (high or low) only. Vessels loading alumina this wharf berth either on flood tide or slack water – *never* on ebb tide.

Auckland Wharf: 3 berths owned by Gladstone Harbour Board, total length of wharf 575 m. with dolphins at either end. Cargo handled: coal, wheat, sorghum, petroleum products, general and heavy lifts.

Barney Point: 1 berth owned by Theiss Peabody Mitsui Coal Pty Ltd., total length of berth 205 m. with dolphins. Cargo handled: coal.

South Trees Wharf: 2 berths owned by Queensland Aluminia Ltd., total length of wharf 480 m. with dolphins at either end. Cargo handled: alumina, caustic soda, bauxite and fuel oil.

BULK HANDLING FACILITIES: *See Table below.*
STEVEDORES: Special ETA advices necessary if week-end labour required and must be ordered by 1400 hrs. on previous Friday. Monday Labour for vessels arriving after Friday must be ordered by 1500 hrs. on Friday. The only commodities requiring shore labour are bulk grain and general cargo.
MEDICAL: Dependent duration stay in port, prior notice for medical attention not required (other than notice of infectious diseases). Hospital facilities available. Current vaccination certificate for each member of crew required.
TANKERS: Diameters of discharge lines 12 in., (0.305 m.) and 8 in. (0.203 m.) for white oils and 6 in. (0.152 m.) black oils. No slop discharge facilities. Main tanker berth at Auckland Point Wharf min. depth alongside 33 ft. (10.06 m.) LWOST. Black oil also discharged South Trees Island Wharf for use in alumina plant only.
DENSITY: Average density 1024–1028.
FRESH WATER: Available all wharves. Fresh water hydrants placed at intervals along wharves.
FUEL: Available ex-wharf at Auckland Point for quantities up to 1500 tons. Diesel and distillate available all wharves ex-road only. Coal also available.
FIRE PRECAUTIONS: Where petroleum and goods of dangerous inflammable character are being unloaded, watchman shall be employed to collect matches from all persons in vicinity and to patrol wharf within the limits in which petroleum cargo is being handled. Every vessel carrying inflammable liquids when in any Queensland port shall display red flag, not less than 1 m. (3 ft.) square with white circular centre 15 cms. (6 in.) in diameter.
OPENING/CLOSING HATCHES: Either by ship's crew or shore labour.
GANGWAY/DECK WATCHMEN: Services of watchmen is not recommended except in the case of petroleum tankers previously mentioned.
SHIP CERTIFICATES: List of certificates usual for Australian Ports. See "Melbourne".
CARGO GEAR: To be in accordance with Commonwealth Navigation (Loading and Unloading Safety Measures) Regulations. See "Melbourne".
CUSTOMS ALLOWANCES: 0.5 lb. of tobacco or 200 cigarettes, to be opened. 1 only 26 ounce bottle, to be opened.
IDENTIFICATION CARDS: See "Melbourne".
CONSULS: None.
REPAIRS: Minor engine and deck repairs are undertaken.
DRY DOCKS: None available. Slipway capable of lifting vessels up to 125 tons displacement with max. beam 23 ft. and max. draft forward of 6 ft.
REPATRIATION: Facilities for effecting crew changes and necessary repatriations can be arranged. Prior notice required.
AIRPORT: Airport approximately 5 miles from port and is regularly served by 2 internal airlines. 4 daily flights to Brisbane where connections with overseas airlines.
TIME: GMT plus 10 hours.
HOLIDAYS: Only 5 official holidays in year when it is *not* possible to arrange cargo work: Christmas Day; Anzac Day (25th April); Labour Day (1st Monday in May); Good Friday; Picnic Day (2nd Friday in July).
POLICE/AMBULANCE/FIRE: Telephone number of these services in cases of emergency only is "000" and ask to be connected to the required service. Emergency call to Hospital is 72.1033.
TELEPHONES: Public phones available on wharf.
DEVELOPMENTS: The channels to the port were deepened in 1974. The changes are as follows: Entrance Beacons to South Trees, to 10.3 m. (34 ft.) LWOST. South Trees to Barney Point 9.5 m. (31 ft.) LWOST.
GENERAL: No cranes on wharves. Mobile cranes available for hire. No lighterage facilities. Electricity available to ships. Passengers not normally embarked or disembarked this port, as no facilities for them.
SERVICES: No tank cleaning facilities. No slop facilities.
SHORE LEAVE: Crew members allowed ashore provided vaccination certificates in order.
DELAYS: No unusual delays other than berth availability or unusual tidal conditions.
AUTHORITY:
1. The Harbour Master, Department of Harbours & Marine.
2. Gladstone Harbour Board.

AGENT: Patrick Agencies, POB 374, 59 Gondoon Street, Gladstone, Queensland 4680. Tel. 72-2511. Cables: "Rikpat Gladstone". Telex: AA 49459.

GOVE, N.T.: 12.12 S. 136.40 E. (See Plan)

DOCUMENTS:
2 Crew Lists Form M. & S. 11 (3 at outports).
5 Passenger Lists, Forms M. 308 and 309.
1 Port of Call List.
3 Barber's stocks and stock in ship's shops and canteens (Form 5) continuation of the back Form 5 AA.
1 List of Customable Articles, Form 5 (crew).
3 Return of Goods of Barber's stock, etc., Form 5 AA.
3 Stores List Form 42 A.
1 Clearance from Last Port.
Ship's Log.
1 Derat. Certificate.
1 Light Dues if paid previously.

PILOTAGE: Compulsory for vessels proceeding to Nabalco facilities. The Pilot will board at the anchorage position.
ANCHORAGE: Melville Bay affords good holding ground, the bottom being either sand or mud and the depths ranging up to 48 ft. (14.64 m.) West of Dundas Point. Vessels awaiting a berth should anchor approximately 1.25 miles (2.41 km) Westward of West Woody Island close by the fairway buoy. The Quarantine Officer and Customs Officer normally clear vessels alongside the berth, but may on occasions board at the anchorage.
RESTRICTIONS: Approach Channel to bulk cargo and tanker jetties has min. depth 13.8 m.
Approach Channel to general cargo jetty has min. depth 30 ft.
PRATIQUE: The port of Gove has not yet been declared a port of first entry for health clearance of vessels arriving from overseas. However, arrangements have been made with the Health Department for overseas vessels arriving direct from an overseas port to be cleared on arrival at Gove.
The Commonwealth quarantine regulations provide for health clearance of a vessel between sunrise and sunset. However, the Quarantine Officer has direction to clear ships up to 2200 hrs. local time. Arrangements can be made for vessels to depart on a 24-hr. basis, as health clearance is not necessary for outgoing ships. Vessels will usually be cleared alongside the berth.
If pratique is required, vessel must provide:
(a) Primary Health Report;
(b) A Vaccination Register proving that all persons have been currently vaccinated against smallpox;
(c) Usual valid Cholera Certificate if the vessel is less than 5 days from a cholera-infected area.
Vessels should note that berthing cannot be effected between 2200 hrs. local time and sunrise unless quarantine clearance has been received.
RADIO: *Notice of Arrival:* Prior to arrival, vessels are requested to radio the following information:
(i) For all vessels:
(a) ETA Gove – 72 hours out
– 48 hours out
– 24 hours out
(b) Anticipated draft forward and aft.
(ii) For bulk carriers, anticipated hatch loading plan, loading sequence and quantity required in each pour.
(c) For petroleum tankers, approximate quantities to be discharged and grade of product desired for first discharge, and order of unloading various grades if more than one grade is carried.
Radio messages should be addressed to "GOBAUX", Darwin. The call sign of the Radio Station at Darwin is VID. Radio messages will be passed by teleprinter to Gove.
Cable messages for Nabalco should be addressed to "SHIPSERV", Gove.
Vessels should note that berthing cannot be effected between 22.00 hrs. local time and sunrise unless quarantine clearance has been received.
VHF: The Nabalco Harbour Master's Office maintains a listening watch on Channel 16 during office hours. VHF frequencies used are 16, 12 and 6. Call sign "Gove Harbour".
TUGS: There are three work boats available for hire in the port, max. h.p. 2000. Tug's lines are used in most instances, but no extra charge is made.
BERTHING: *Bulk Cargo Wharf:* The bulk cargo wharf runs in a N.W./S.E. direction and bears 189° true 2,440 m. (8,000 ft.) from West Woody Island triangulation point. The wharf has a 'T' head which is connected to the shore by an access bridge 946 m. (3,120 ft.) long and 3.05 m. (10 ft.) wide.

Location	Auckland Point No. 1	Auckland Point No. 2	Barney Point	South Trees East	South Trees West
Number of Units	2	1	1	1	2
Type of Unit	Mobile Gantry Loader	Mobile Gantry Loader	Mobile Gantry Loader	Mobile Gantry Loader	Mobile Gantry Grab Unloader
Length of Travel (metres)	145 (Combined)	121	146.3	167.6	198.1
Max. Outreach from Wharf (metres)	15.2	28.3	16.2	25.6	26.7
Throw of Trimmer (metres)	15.2	N/A	11.0	N/A	N/A
Max. Beam of Vessel (metres)	32	30.5	35.4	35.4	35.4
Capacity (t.p.h.)	1,600	400	2,000	1,000	2,000
Commodity Handled	Coal	Grains	Coal	Alumina	Bauxite
Storage (Tons)	300,000	32,000	400,000	238,000	1,000,000

The northern branch of the wharf head constitutes the bauxite/alumina berth and the southern branch the bulk liquids berth.

The bauxite/alumina berth is mounted with a travelling, luffing shiploader with telescopic trimming spout having an outreach of 31 m. (101 ft. 6 in.) from the fender line. The distance of travel along the berth is 164.2 m. (540 ft.). The clearance beneath the spout at maximum elevation for loading is 16.7 m. (55 ft.) above chart datum (low water ordinary Spring tide) at berth side.

The shiploader has a designed capacity of 2,000 metric t.p.h. for bauxite and for alumina.

The shiploader is connected by a belt conveyor system to the bauxite stockpiles and to the alumina silos, 3,202 m. (10,500 ft.) and 2,592 m. (8,500 ft.) distant respectively from the wharf head.

The bulk liquids berth consists basically of mooring dolphins and fenders associated with a pipe bridge support. Three pipe-lines are provided namely:

(1) 46 cm. (18 in.) diameter for bunker fuel oil.
(2) 30 cm. (12 in.) diameter for caustic soda.
(3) 25.4 cm. (10 in.) diameter for diesoleum, petroleum and aviation kerosene.

During the tanker discharging operations, connection between ship and shore is provided by 20.3 cm. (8 in.) diameter flexible hoses with BS Table "F" 8-hole fittings at each end. BAS reducers from 30.5 cm. (12 in.) to 20.3 cm. (8 in.) are available.

If other types of fittings are required to effect discharge, arrangements should be made by the tanker vessel to provide such items.

The length of each pipe-line is approximately 1,982 m. (6,500 ft.) covering the distance from bulk liquids berth to shore tank farm.

A depth of water of 13.9 m. (45 ft. 08 in.) below chart datum (at low water ordinary spring tide) is available at both the alumina/bauxite and bulk liquid berths.

This will allow simultaneous occupancy by a tanker and bulk carrier, each of up to approximately 60,000 d.w.t., under ordinary conditions. A minimum clearance under the keel of 10% of the draft is required for berthing and unberthing.

General Cargo Wharf: This wharf extends in a S.E. direction from the Eastern side of the land strip leading to Dundas Point. The wharf bears 315° (T) × 1,342 m. (4,400 ft.) from Half Tide Rock and is a substantial structure 94 m. (310 ft.) long by 27.89 m. (91 ft. 6 in.) wide connected to the shore by an access jetty 287.2 m. (950 ft.) long and 5.49 m. (18 ft.) wide.

The wharf has been designed for vessels of max. length of 182.8 m. (600 ft.) and of up to 20,000 d.w.t. to berth at each side under normal conditions. Vessels of up to 30,000 tons can be accommodated under suitable tidal conditions.

The depth of water alongside is 11.59 m. (38 ft.) below chart datum (low water ordinary spring tide) on both sides of the wharf head.

Jetty: A wooden jetty with a depth alongside of 4.27 m. (14 ft.) below chart datum (low water ordinary spring tide) is located at the head of Melville Bay. Use of this jetty is generally reserved for vessels of the landing barge type.

STEVEDORES: No local stevedoring companies.

TANKERS: See "Berthing".

FRESH WATER: Available at all berths.

FUEL: Not available, however distillate can be supplied ex-road tanker in cases of emergency at the general cargo wharf.

MEDICAL: Medical services and a large modern hospital with comprehensive theatre, medical and surgical facilities, at Nhulunbuy, 9 miles from the port.

AIRPORT: Gove is served by commercial flights to and from Darwin on 7 days a week and by commercial flights several times a week from Brisbane and Sydney via Cairns and Mount Isa. Services to other parts of Australia and the rest of the world are frequent from Darwin.

TIME: The time used is Zone −9.5, and all reference to time should be given in Local Time.

REPAIRS: No facilities for repairs.

DENSITY: 1025.

SURVEYORS: Lloyds Surveyors available from Darwin.

HATCHES: Opening and closing carried out by ship's crew.

REPATRIATION: Facilities exist for effecting crew changes and repatriation.

MARINE SERVICE: A privately operated service provides marine advisory assistance to ships bound for Northern Territory and Gulf of Carpentaria ports, mainly *Gove* and *Groote Eylandt*, and details may be obtained from Carpentaria Marine Services, 94 Pie Street, Aspley, Brisbane, Queensland 4034. Tel.: Brisbane 595977. Cables: "Carpenserv Brisbane", or Gove Office: POB 469, Nhulunbuy, NT 5797.

REGULATIONS: It is forbidden to take firearms and alcoholic beverages ashore.

AUTHORITY: Nabalco Pty Limited.

AGENT: Agency undertaken by Nabalco Pty Limited.

GROOTE EYLANDT (Milner Bay), N.T.: 13.52 S. 136.25 E. (See Plan)

LOCATION: Milner Bay is situated on the Northwestern corner of Groote Eylandt which is itself situated in the Southwestern area of the Gulf of Carpentaria.

It is a "Port of First Entry" to Australia. Customs, Quarantine Doctor, Police, are in residence on the Eylandt.

DOCUMENTS:
3 Crew Lists.
5 Passenger Lists.
1 Port of Call List.
3 Stores Lists.
1 Crew's Personal Effects List.
Derat. Certificate.
Clearance from Last Port.

PORT LIMITS: The waters in Milner Bay bounded by a line commencing at the HW mark on the N.W. coast of Groote Eylandt in position Lat. 13° 50′ 05″ S. Long. 136° 24′ 29″ E. and proceeding in a 260° 44′ 10″ direction to a point in Lat. 13° 50′ 28″ S. Long. 136° 22′ 03″ E. at the high-water mark on the East coast of Connexion Islet; thence by a line following the contour of the coast of Connexion Islet at the HW mark to "Boulder" in position Lat. 13° 50′ 46″ S., Long. 136° 20′ 14″ E.; thence by a line bearing 151° 30′ to a position Lat. 13° 53′ 34″ S. Long. 136° 21′ 47″ E.; thence by a line bearing 80° 44′ 10″ to a point being Lat. 13° 52′ 54″ S. Long. 136° 25′ 58″ E. thence by a line following the contour of the coast at high-water mark to the point of commencement.

PILOTAGE: There is a Port Officer at Milner Bay who will assist Masters in berthing and departing from the jetty. Approaching Groote Eylandt from the Northwards, vessels should steer to a position 10 miles North of the Northeast Islet, which is rocky on the Northern coast and rises to grassy hills. From the above position, steer to pass about 3 miles North of Chasm Islet until the recommended track on chart Aus. 14 is reached. This track 221° passes about 1 mile East of Brady Rock (light GP. FL. (3) ev. 12 secs.) and continues on this course until Bickerton Island Light (FL. 5 secs.) bears 250° when the course should be altered to steer for Hand Islet on the recommended track (250°) until reaching the position to alter course to 195° to pass down the middle of Warwick Channel. It is recommended to remain on this course until reaching the patch South of Connexion Island.

If vessels enter via the Connexion passage, care must be taken to avoid the 3 fathom patch off N.W. Bluff and keep clear of the 27-ft. patch about 3.5 miles N.E. of Connexion Islet.

ANCHORAGE: Good holding ground is found 1 mile West of the jetty where there is a good sand bottom free of obstructions with about 40 ft. of water. Quarantine is granted at this anchorage.

MAX. SIZE: The max. LOA is 700 ft. and max. breadth 96 ft. The max. draft is 35 ft.

RADIO: The Port is able to communicate with vessels which are fitted with VHF radio through normal international Maritime Channels and the call sign is "Groote Eylandt". However, the shore station is only open during office hours unless prior telegraphic arrangement is made. Office hours are 0800 to 1645 hrs. Monday to Friday and 0800 to 1230 hrs. Saturday.

It is requested that vessels arriving at any hour of the day should monitor VHF Channel 16 as sometimes attempts are made to contact vessels outside of office hours.

ETA's are required at least 72 hrs. 48 hrs. and 24 hrs. prior to arrival. Telegraphic address is: Manager, GEMCO, C/-Hematite, Darwin. Telex AA70858. Or Manager, GEMCO, Alyangula, N.T. 5798. Radio telephone: Darwin 81-6589, or Cairns 3547.

PRATIQUE: 24 hrs. before arrival at Milner Bay, vessel's Masters are requested to cable "QUARANTINE GOVE" stating their last port of call, date sailed, number of crew and nationality, any sickness on board and whether all smallpox and cholera vaccinations are current and valid.

BERTHING: The ore-loading jetty is situated in approximately 13° 56.5′ S. 136° 25′ E., with a depth of water alongside of 35 ft. MLWOST with a tide range of 6 ft. A small tug is available to assist in berthing vessels and a launch is provided for running lines. The jetty consists of a central landing 324 ft. long and 36 ft. wide, with two breasting dolphins on the North and South ends of the central landing. A roadway extends from the shore to the central landing, virtually parallel to and on the North side of the loading conveyor belt. As there is no tidal information for this area, the tidal direction should be checked with the shore prior to berthing, as the tidal stream is sometimes different half a mile from the jetty.

The line of dolphins is offset 8° from the jetty stem which runs out 1,350 ft. from the shore in a 249° 45′ direction so that care must be exercised in placing the vessel for loading. All breasting dolphins are fendered with vertical timbering. When berthing, vessels should keep well clear of the loading head in the centre of the jetty, as it is possible that a vessel on a too fine approach could cause damage to the loading boom with the flare of the bow.

Vessel must have rat guards in position at all times (except while shifting ship), otherwise they will be liable to a fine. As Groote Eylandt is a reserve this requirement is rigidly enforced.

Loading rate is 900-1,100 tons t.p.h. and the vessel is required to shift ship to load each hatch as the loading boom is fixed. Shore labour is available to shift lines, etc., as required. Shore labour will not trim manganese ore, which is dump loaded from the conveyor.

This is a seasonal tropical loading zone from 1st April to 30th November.

FRESH WATER: Not available.

STORES: Not available.

FUEL: Not available.

CUSTOMS ALLOWANCES: 200 cigarettes, one bottle spirits, three bottles of beer per man.

MEDICAL: There is a Medical Centre and medical staff available if necessary. Valid vaccination certificates are required, covering the requirements of the Australian Government Department of Health.

FIRE PRECAUTION: A permanent fire-fighting facility is installed on the ore-loading jetty. It is an automatic system which starts as

soon as a fire hydrant is turned on, and delivers a 140 p.s.i. through a 2.5 in. hydrant with a 5 TPI V Thread connection.

All shore hoses are 2.5 in. and are equipped with fog nozzles. Foam equipment is also available on the jetty with an output of approximately 1,000 gallons per minute. Fire-fighting lines on the jetty deliver salt water only. International shore connection available.

TIME: Time kept is Northern Territory "Standard Time" GMT plus 9 hr. 30 min.

WEATHER/WIND/TIDE: Tides cause some eddying in both the Connexion and Warwick Channels, but these cause no concern provided normal care is exercised.

Prevailing winds from May to October are S.E. and blow strongly at times during the day but ease off considerably after sunset.

There are occasional heavy fogs in the area in June and July in the early morning and these sometimes persist until 1000 or 1100 hrs.

From November to May the wet season prevails with winds blowing mainly from the S.W. with heavy rains and occasionally, more than moderate seas.

REPATRIATION: Can be effected to most countries from Groote Eylandt via Darwin which is serviced by Qantas and British airways. Due to the remoteness of Groote Eylandt, repatriation of crew members should only be considered in a 'Force Majeure' circumstance. All necessary bookings and reservations are made through the local airline office and Seamens' Discount Fares, where applicable, are utilised.

AIRPORT: MacRobertson Miller Airlines operate a daily jet service to Darwin, Monday, Wednesday, Thursday, Saturday and Sunday, flying time is approximately one hour.

Bush Pilot Airways operate two flights per week on Mondays and Fridays to Cairns, Queensland. Flying time is approximately four hours, in twin engined light aircraft.

ACCOMMODATION: Visitors accommodation in the GEMCO township of Alyangula, is severely limited and shipowners who are arranging for a change of personnel at Groote Eylandt are requested to ensure that the arrival of crew members at Groote coincides as closely as possible with the arrival of the vessel.

NOTARY PUBLIC: The Mission Superintendent at Angurugu is a Notary Public.

HOLIDAYS: Cargo worked on most holidays by arrangement.

SHORE LEAVE: The area is an Aboriginal reserve and *shore leave is allowed in the town area only* provided the vessel has a permit which is supplied by the Agent on berthing.

AUTHORITY/AGENT: The Groote Eylandt Mining Company Pty. Ltd. act as ships' Agents in all cases.

Mail for steamers to be addressed to: "Vessel", Groote Eylandt Mining Co. Pty. Ltd., Groote Eylandt, N.T. 5798.

HAY POINT, Queensland: 21.16 S. 149.19 E.

(See Plan)

LOCATION: Hay Point lies 19 km. South of Mackay in Lat. 21° 16′ S. Long. 149° 19′ E. The port is managed by Hay Point Services Pty. Limited. The loading wharf is at the end of a pier, 6,750 ft. long, extending from the shore.

DOCUMENTS, and all general information refer to "Melbourne".

PILOTAGE: Pilotage is compulsory on all vessels except in the cases where the Master holds an exemption certificate for the port.

The area for boarding will be determined by the Pilot but will generally be at a point within an area 1.5 miles East of the port.

ANCHORAGE: Off Hay Point anchor 2 miles East of wharf in depths of 13.7 m.

Off Mackay Harbour anchor 1.5 miles S.E. of Slade Island in depths of 11.0 m.

Vessels berth on flood stream. Least water in approaches 13.4 m. Night berthing restricted to vessels under 40,000 d.w.t. but this restriction is under constant review.

MAX. SIZE: Max. length 950 ft. (not including bulbous bow). Max. draft dependent on tide height. A 5 ft. (1.6 m.) under keel clearance is recommended in the berth, which has a depth of 55 ft. (16.7 m.). Under keel clearance required at departure is 10% of max. draft, plus 2 ft. (0.6 m.). Least water on departure is 44 ft. (13.4 m.).

PRATIQUE: Pratique is available on a 24 hour basis, 7 days per week in the berth.

Pratique can also be given by radio to vessels which have a Medical Officer aboard as a Crew member. The radio message must contain details of the ship and personnel and making formal request for radio pratique.

Whilst in the vicinity of the port, vessels are required to store garbage aboard in containers approved by the Quarantine Inspector.

RADIO: *Arrival Advice:* Vessels shall communicate with the Terminal via the Shipping Agents.

It is required that the Master of an incoming vessel notify by radio of the ETA at the port, 7 days, 48 hours and 24 hours prior to expected arrival. Local time should be used in all communications. The loading plan should be provided 48 hours prior to expected arrival time.

The Postmaster-General's Dept. has a facility, known as "Shipserv" which will expedite the handling of ship's radio-telegrams requiring special treatment after normal Post Office hours. This facility has been introduced to obviate likely delays affecting business communications between vessels and their Port Agents.

To ensure that shipping messages will continue to receive "after hours" service, the sender should include the service routing indicator "Shipserv" as the first word in the address of all telegrams requiring special treatment. Action will then be taken to telephone the message to the addressee, who will be required to pay the relevant trunk call charge only.

VHF: There are VHF Marine Radios installed at the Berths, and on the tugs and lineboats, for communications during berthing and unberthing operations.

The call sign for the port is – "Hay Point".

The following Channels are available:

Channel 12 – 156.60 mHz – Operations.
Channel 13 – 156.65 mHz – Operations.
Channel 14 – 156.70 mHz – Operations.
Channel 16 – 156.80 mHz – Calling.

TUGS: The port is serviced by tugs and lineboats owned and operated by J. Fenwick and Co. Pty. Ltd. – Sydney. It is required that the Master of a vessel entering or departing from the Terminal engage the services of the port tugs through the Shipping Agents.

BERTHING: *Berth No. 1:*

(Note: All levels refer to chart datum.)

Berth Alignment	350° True
Design ship size	14,500 to 100,000 d.w.t.
Dredged depth	−55 ft. (−16.76 m.)
Dredged width	200 ft. (60.96 m.)
Dredged length	1,125 ft. (342.90 m.)
Depth outside dredged area	−43 ft. (−13.11 m.)
HHWS	+23 ft. (+7.01 m.)
MHWS	+18 ft. (+5.49 m.)
MLWS	+2 ft. (+0.61 m.)

Shiploader

Nominal loading rate	4,000 t.p.h.
Longitudinal travel distance	620 ft. (188.98 m.)
Longitudinal travel speed	100 f.p.m. (30.48 m.p.m.)
Maximum outreach of telechute	87 ft. (26.52 m.) from fender face

Shiploader has pivoted boom.

Mooring Details: (See Plan)

(a) Mooring Dolphins

1MD1 – 4×100T sliphooks with capstan
1MD2 – 3×100T sliphooks with capstan
1MD3 – 3×100T sliphooks with capstan
1MD4 – 3×100T sliphooks with capstan

(b) Breasting Dolphins

1BD1 – 2×100T sliphooks with capstan
1BD2 to 5 – 1×150T sliphooks with capstan
1BD6 – 2×100T sliphooks with capstan

S.A.M.I. (Speed of Approach Measuring Instrument)

The Berth is fitted with instruments to measure the speed of approach of vessels as an aid to berthing.

Berth No. 2:

(Note: All levels refer to chart datum).

Berth Details:

Berth Alignment	330° True
Design ship size	25,000 to 100,000 d.w.t.
Dredged depth	−56 ft. (−17.07 m.)
Dredged width	200 ft. (60.96 m.)
Dredged length	1,200 ft. (365.76 m.)
Depth outside dredged area	−43 ft. (−13.11 m.)
HHWS	+23 ft. (+7.01 m.)
MHWS	+18 ft. (+5.49 m.)
MLWS	+2 ft. (+0.61 m.)

Shiploader

Nominal loading rate	6,000 t.p.h.
Maximum longitudinal travel distance	628 ft. (191.41 m.)
Normal longitudinal travel distance (between limit switches)	595 ft. (181.36 m.)
Telechute travel height	60 ft. (18.29 m.)
Maximum outreach of telechute	95 ft. (28.96 m.) from fender face
Intermediate outreach of inner shuttle	12 ft. (3.66 m.) inside fender face
Outreach of telechute corresponding with intermediate position of inner shuttle	70 ft. (21.34 m.) from fender face.
Elevation of telechute fully extended	+18.5 ft. (+5.64 m.)

Mooring Details (See Plan)

(a) Mooring Dolphins

2MD1 – 4×100T sliphooks with capstan
2MD2 – 3×100T sliphooks with capstan
2MD3 – 3×100T sliphooks with capstan
2MD4 – 3×100T sliphooks with capstan

(b) Breasting Dolphins

2BD1 – 3×100T sliphooks
2BD2 to 5 – 1×100T sliphooks on each
2BD6 – 2×100T sliphooks

S.A.M.I. (Speed of Approach Measuring Instrument).

The berth is also fitted with instruments to measure the speed of approach of vessels as an aid to berthing.

LOADING: Vessels will be generally loaded in turn, in the order of arrival provided that:

(i) The vessel is ready in all respects to receive cargo.
(ii) All the cargo is available at the Terminal.
(iii) It is in accordance with the instructions of the Charterer or his Agent.

Vessel shall present a detailed loading plan immediately on arrival including hatch quantities with loading sequence and quantity of coal to be reserved for fore and aft trimming by hatches.

The weight of each shipment shall be determined by an independent Marine Surveyor. The time used for all surveys shall be to the vessel's account unless alternative arrangements have been made.

BULK HANDLING FACILITIES: The Shiploader on Berth No. 1 has a Luffing Boom with a travelling telescopic chute and mechanical trimmer. The Shiploader has a nominal loading rate of 4,000 t.p.h. On Berth No. 2 the Shiploader has rail mounted shuttles, both Inner Shuttle and Outer Shuttle. The Telescopic chute with Trimmer is mounted on the Outer Shuttle with a nominal fast rate of 6,000 t.p.h. and a trimming rate of 2,000 t.p.h.

STEVEDORES: No notice required. Loading facilities working three shifts of 8 hours each.

MEDICAL: Hospital and doctors at Mackay, 23 miles away by road.

DENSITY: 1025.

FRESH WATER: Not available.

FUEL: No facilities are available for providing bunker or diesel fuel. It is strictly forbidden for drums of oil or fuel to be loaded at the Terminal.

IDENTIFICATION CARDS: See "Melbourne".

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Crew operate hatches.

CONSULS: No local representatives.

REPAIRS: Only light repairs may be effected.

REPATRIATION: Can be arranged.

AIRPORT: Regular services to Northern and Southern ports are available from Mackay Airport.

TIME: GMT plus 10 hours (Eastern Australian Standard Time).

POLICE/FIRE/AMBULANCE: Police, Mackay 2468; Ambulance, Mackay 2222; Fire, Mackay 2244; Police Sarina 20; Ambulance, Sarina 1; Fire, Sarina 100.

TELEPHONES: Placed on board whilst alongside. Hay Point 56–31–52, at berth No. 1 and Hay Point 56–31–06 at berth No. 2.

DELAYS: Berth is exposed and delays occur when wind speeds exceed 25 knots.

SHORE LEAVE: Allowed, taxis may be called from Mackay but are expensive, about A$9 each way. Crew members not allowed along pier on foot.

POLLUTION: Government Authorities demand that no person using the port shall discharge any garbage, refuse, vegetable or food matter, deck cleanings, polluted bilge water, oil or rubbish of any description in the vicinity of the port or within 50 miles of the Great Barrier Reef. Heavy penalties will be imposed for breaches of the relevant regulations.

It is a requirement of the Dept. of Harbours and Marine that before the Pilot may proceed with the berthing of a ship likely to deballast at the Port, the Pilot must receive a certificate from the Master stating that the ballast on board is clean.

STORES: Limited ship's stores and provisions may be loaded at the port and would be available from Mackay chandlers and providors.

GENERAL: *Firearms, Explosives, Inflammables:* No person shall discharge any firearm or explode any detonator or any other signal except as a distress signal, or use any explosive upon any vessel or otherwise within the Terminal.

Explosives or highly inflammable goods shall not be loaded or unloaded at the port except with the expressed written permission of the Port Manager.

Repairs in Port: The Owner, Master or Agent shall notify and obtain written approval from the Port Manager prior to undertaking any repairs to engines or any part of the mechanism of the vessel which would prevent sailing at short notice. The vessel shall not be immobilised at the wharf.

Tides and Currents: In the absence of formal tide tables for the port of Hay Point, it is recommended by the Dept. of Harbours and Marine that the tidal predictions for Mackay should also suffice. From the Department's records, it appears that the time difference of high and low water is only of the order of 5 to 10 minutes after Mackay.

From studies carried out in the Hay Point area by hydrographic investigators there is an indication that the tidal currents flood in a direction between 145° to 170° True and the ebb current flows in a direction of 330° to 360°, with a maximum speed (in knots) approximating one-tenth of the predicted tidal range (in feet) at that time. A maximum current speed occurs in a direction of 340° True with an ebbing tide. The change of direction in the current occurs about half an hour before the tidal extremes.

AUTHORITY: Department of Harbours and Marine, Brisbane. Hay Point Services Pty. Ltd., Mackay.

AGENT: Sub-agent of Patrick Agencies, Brisbane.

HOBART, Tasmania (including Risdon, Electrona and Port Huon): 42.53 S. 147.20 E. **(See Plan)**

PORT LIMITS: Seaward boundaries (Hobart, Risdon, Electrona and Port Huon for vessels bound from the East); the mouth of the River Derwent, an imaginary line from Iron Pot to Kelly Pt. On Bruny Is. (Port Huon, Electrona for vessels bound from the West); the Southern end of the D'Entrecasteaux Channel, an imaginary line from the Southern end of Partridge Is. to Southport Is. Vessels are considered "arrived" after clearing doctor and a notice of readiness presented to Agent.

DOCUMENTS: See "Melbourne".

PILOTAGE: Pilotage compulsory for all vessels exceeding 200 tons gross not under the command of a duly exempted Master or without special permission of Harbour Master. ETA usually sent vessel's Agent at least 24 hours prior to arrival Pilot (advisable also to send ETA to Harbour Master) through Hobart Radio (VIH) between 0730–1730 hrs. Monday–Saturday, 0800–1600 hrs. Sunday, after hours through Melbourne Radio (VIM). Continuous watch kept on VHF Channel 16, call sign "Hobart Harbour" (Pilot launches also maintain watch on Channel 16); Channel 12 reserved ship to shore; Channel 8 and 6 ship to ship.

Three launches used for pilotage work. Usual vessel 41 ft. steel-built launch painted dark blue with "Pilot" painted in white on hull on both sides. Superstructure painted white. No specific sound signals. For pilotage purposes Hobart is divided into three zones namely "A" (Hobart), "B" (Risdon, Self's Pt.), and "C" (Port Huon, Electrona and Channel Ports). For zones "A" and "B" Pilot boards all vessels in excess of 500 tons gross, on an imaginary line joining White Rock and Crayfish Pt. Vessels under 500 tons gross are boarded on a line East from John Garrow Beacon. Pilots disembark from all vessels outward on a line East from John Garrow Beacon unless requested to proceed to White Rock. For zone "C", for vessels from Eastwards, Pilots embark on an imaginary line joining Piersons Pt. and Kelly Pt., or from Westwards on an imaginary line joining Southern end of Partridge Is. and Southport Is. No alternative Pilot grounds. Vessels inward to zones "A" and "B" wishing to anchor prior to embarking Pilot should do so off White Rock, whether to proceed to berth or quarantine anchorage.

Specific requirements for embarking Pilots are those in force in most ports, namely provide a good lee, a pilot ladder fitted with spreaders and manropes and adequately lit at night, preferably from aft of the ladder.

Also see "Bridges".

ANCHORAGES: Anchorages with excellent holding can be found everywhere in estuaries of Derwent and Huon Rivers. Quarantine anchorage situated off Kangaroo Bluff where excellent holding obtained in 10 to 13 fathoms.

RESTRICTIONS: No restrictions in force, except very deep draft at night at Risdon.

MAX. SIZE: Risdon to 35 ft.; Self's Pt. Oil Wharf, Macquarie No. 2 and No. 3 General Cargo Wharf dredged to 36 ft. (10.97 m.). Max. beam practicable at Risdon 24.384 m. (80 ft.).

HEALTH: Vessels requiring pratique anchor in quarantine anchorage and there boarded by doctor, immigration and customs officials. Full crew muster required. Quarantine authorities must be informed of suspected disease or fever at least 18 hours prior arrival. Pratique automatic if granted at previous port. Also see "Melbourne".

RADIO: Hobart Radio, call sign VIH. Hours of duty Eastern Standard Time (add 1 hour for Summer Time) Monday to Saturday inc. 0730–1730 hrs., Sunday 0800–1600 hrs. After hours messages through Melbourne Radio VIM.

TUGS: Normally join vessels approximately one mile from berth. Usual to use tug's line for which additional charge of $2.50 is made, but ship's line may be used.

BERTHING: Port operates on a 24-hour per day basis. No restrictions on tanker movement.

Berths available Hobart, Risdon, to 35 ft. (10.67 m.)
Berths available Self's Pt. (Oil) to 36 ft. (10.97 m.)
(Dredging in progress) 8 general berths to 36 ft. (10.97 m.)
Berth available Channel Ports
(General) Port Huon 2, to 32 ft. (9.75 m.)
Explosives Jetty to 30 ft. (9.14 m.)

SPECIALISED CARGO-HANDLING FACILITIES: Bulk wheat is discharged at Princes Wharf. Liquid caustic soda and feedstock for the gas company are discharged at Macquarie Wharf No. 2. Risdon Wharf, owned by the Electrolytic Zinc Company of Australasia Ltd., handles bulk cargo consisting of phosphate rock, zinc concentrates and potash. The wharf also has facilities for loading bulk sulphuric acid. Australian Paper Manufacturers Pty Ltd. own a wharf at Hospital Bay, Port Huon, which is used for loading wood pulp in bulk. Roll-on/roll-off traffic accommodated at Princes Wharf No. 1, Macquarie Wharf No. 4, and at Princes Wharf No. 4, which is also equipped with a 22-ton crane for handling containers.

Roll-on/roll-off facilities at new berths Macquarie No. 5 and No. 6 now available. Live load of ramps 210 tonnes. Ramp beam 10.97 m.

The port is equipped with a Coles "Colossus" 254 tonne capacity fully mobile crane. This high capacity crane is used both for heavy lift requirements and container handling. For container work 30 tonnes can be handled at 33 m. outreach.

BRIDGES: Only one bridge, the Tasman Bridge, required to be navigated and this only when berthing at Self's Pt. Oil Wharf or the Electrolytic Zinc Company's Wharf at Risdon. Clearance 155 ft. (47.24 m.) at HWS and 240 ft. (73.14 m.) wide. Pilotage under bridge is compulsory for all vessels of length 100 m. and over.

STEVEDORES: Gangs ordered by 1600 hrs. on previous day, or 1400 hrs. on Fridays.

MEDICAL: Advance notice of required medical attention necessary including if possible, symptoms of complaint. As much notice as reasonably possible is required. Vaccination for smallpox compulsory. Inoculation against yellow fever or cholera necessary if vessel has visited a port where either disease proclaimed.

TANKERS: Tankers when sending their ETA must state whether or not there are any leaks in hull. All oil discharge lines 8 in. diameter. One oil berth, max. draft alongside 36 ft. (10.97 m.).

Self's Pt. Oil Wharf is used for discharge of bulk petroleum products and has facilities for the discharge of liquid petroleum gas.

DENSITY: Variable.

FRESH WATER: No restriction on availability. Rate of delivery approximately 30 tons p.h./per hose. Water available all berths. No water boats. Cost per 1,000 gallons 45 cents or part thereof.

FUEL: The following grades of fuel are kept in stock: marine fuel oil, light diesel and gas oil. Twenty-four hours notice required for bunkering.
FIRE PRECAUTIONS: No special fire precautions other than non-smoking or lighting of fires or use of naked lights.
DRY DOCK (SLIP): Dimensions of cradle 180 ft. (54.86 m.)
Clear width 40 ft. (12.2 m.)
Minimum depth over blocks when slipping F 5.6 ft. (1.71 m.)
A 13.1 ft. (3.99 m.)
Range of tide 4.7 ft. (1.43 m.)
Available for vessels up to 1,200 tons displacement.
SURVEYORS: Agents and Surveyors for Lloyds Register of Shipping, American Bureau of Shipping, Bureau Veritas: Mr. R. B. Thompson, Mr. W. F. Wells, 5 Gladstone St., Hobart. Tel 237328. Also appointed Surveyors for Norske Veritas.
GANGWAY/DECK WATCHMAN: Gangway watchmen are recommended. Watchmen work 12-hour shift. On Saturday, Sundays and holidays, twice normal rate.
OPENING/CLOSING HATCHES: Normally by stevedores.
CERTIFICATES: Register, Load-line Certificate, Deratisation Certificate, Light Dues, Articles of Agreement, Clearance from previous port.
CUSTOMS ALLOWANCES: If vessel arrives at first port, allowance of tobacco for crew is 200 cigarettes in opened carton or equivalent in tobacco or cigars. Allowance of wines or spirits is any opened bottle, but not exceeding 26 fluid ounces.
CARGO GEAR: No additional requirements. See "Melbourne".
IDENTIFICATION CARDS: See "Melbourne".
CONSULS:

Belgium	Netherlands
China (Republic)	Norway
France	Denmark
Greece	Sweden
Italy	Germany

REPAIRS: No facilities for major repairs, but a number of engineering works which can perform small repairs.
REPATRIATION: Facilities available.
AIRPORT: Situated 11 miles from Hobart, and is served by regular airlines connecting with Melbourne from where services operate world wide.
TIME: Local time (Eastern Standard Time) 10 hours ahead of GMT. Summer time in force from last week-end in October to first week-end in March, when clocks advanced one hour.
HOLIDAYS: Official Holidays observed in Hobart. New Year's Day; Australia Day (late January); Regatta Day (mid February); *Labour Day (early March); *Good Friday; Easter Saturday; Easter Sunday; Easter Monday; Easter Tuesday (Bank holiday); *Anzac Day (April 25th); Queen's Birthday (mid June); Show Day (third Thursday in October); *Christmas Day; Boxing Day.
*Days on which no work is performed.
POLICE/AMBULANCE/FIRE: Police 38 1101; Ambulance 343131; Fire 345655. In emergency dial "000".
TELEPHONES: Arrangements exist for placing telephones aboard vessels at all berths.
DEVELOPMENTS: Two new roll-on/roll-off berths, an 800 ft. general purpose berth with minimum depth of 44 ft. alongside and 20 acres of cargo marshalling area. The undertaking is being done in two stages.
Stage I. A 470 ft. and 650 ft. roll-on/roll-of berth with 11 acres of cargo marshalling area. These berths completed late 1974, early 1975 respectively. Two large cargo transit sheds to be incorporated in the area.
Stage II. An 800 ft. deep water general purpose berth with axle loadings of 70 tons. Nine acres of marshalling area to be provided in the area. Completion 1977.
DELAYS: Not usual for any delays to occur in berthing. Occasionally a deep-loaded bulk carrier has to wait for high water at Risdon.
AUTHORITY: Marine Board of Hobart.
AGENT: Sub-agent of Patrick Agencies, Melbourne.

INNISFAIL/MOURILYAN, Queensland: 17. 32 S. 146.02 E. **(See Plan)**

PORT LIMITS: Mourilyan Harbour, the area to the West of a line joining Hall Point and the outer extremity of the North Head.
ARRIVAL: Requirement for vessels in ballast; min. forward draft to be 2 per cent of overall length, min. after draft – propellor immersed. Draft to be notified to Agent in arrival telegram.
CERTIFICATES/DOCUMENTS/CUSTOMS ALLOWANCES: See "Melbourne".
PILOTAGE: Order Pilot through Agent, as early as possible. Confirm through Agent or direct to Harbour Master, Innisfail. Pilot vessel, located in Mourilyan Harbour, watches on VHF 16 when vessel expected to berth. Pilot vessel white with yellow cabin tops and blue trim. Pilot boards 1.5–3 miles East of harbour entrance. Approved pilot ladder and good lee required, *not* accommodation ladder. Vessels awaiting Pilot anchor in boarding position above, good holding. Leading beacons – in line 270° T, showing fixed red neon. Entrance beacons flashing – red port, green starboard.
RESTRICTIONS: No night-time arrival pilotage. On spring tides, entry restricted to at or near slack water. No turbine-powered vessels accepted. Berthing daylight only. Night-time sailings permitted. Vessels entering or leaving – Forward draft not to be less than 2% of overall length and propellor to be immersed.
MAX. SIZE: 600 ft. LOA. Beam unrestricted. Draft, arrival or departure 25 ft. plus rise of tide (up to 9ft. on springs, 5 ft. at neaps).
HEALTH: See "Pilotage". Also see "Melbourne".
RADIO: VIT Townsville (MF) VIK Cairns, has been discontinued.
TUGS: Tug stationed at Mourilyan. Second tug comes from Cairns or Townsville when required, e.g. when vessel over 580 ft. LOA or beam over 75 ft. Tug usually required for unberthing. Tug normally pushing or using tug's lines, no extra charge.
BERTHING: Ships always berth port side to at Mourilyan. One sugar and molasses berth, length 633 ft. depth 34 ft. LWOST.
STEVEDORES: No waterside workers employed. Normal ETA advices to Agents for arrangement of bulk-loading staff.
DENSITY: Usually 1024-1027 irrespective of tide. After heavy rains, particularly January-April, considerable freshening occurs to 1008.
FRESH WATER: Good water readily available, shore hoses from wharf face. Approx. 25 t.p.h. capacity. 55c. per 1,000 gals.
FUEL: Limited quantities of fuel oil and diesel oil available by road-tanker.
GANGWAY WATCHMEN: Not normally required.
HATCHES: Worked by crew.
CARGO GEAR: See "Melbourne".
CREW I.D. CARDS: See "Melbourne".
CONSULS: Nil.
REPAIRS: No major facilities available. Most types of welding, light machinery, and pipe-fitting can be arranged. Technicians can usually be obtained for radar, etc., with advance notice by radio to Agents.
TIME: GMT plus 10 hours.
HOLIDAYS: Various national, state and local holidays. Cargo usually worked on all holidays except Christmas Day.
POLICE/FIRE/AMBULANCE: Ring 000 on shore public telephone or ship's telephone if fitted.
TELEPHONE: No telephone aboard.
GENERAL: Port normally used only for export of sugar and molasses. Deadweight (cargo on board on arrival) restrictions may apply to certain classes of vessel. Agents will advise details if applicable.
SHORE LEAVE: Not normally restricted. Distance to nearest township (Mourilyan) 6 miles, to Innisfail 10 miles. No public transport services from harbour.
DELAYS: Awaiting daylight or tide or, exceptionally, awaiting vacancy of berth or moderation of weather. No delays usually in loading.
AUTHORITY: Dept. Harbours and Marine.
AGENTS: Sub-agent of Patrick Agencies, Brisbane.

LAUNCESTON, Tasmania (including Beauty Point, Bell Bay, Inspection Head): 41.27 S. 147.07 E. **(See Plan)**

PORT LIMITS: A vessel is considered to have arrived when at the pilot boarding ground.
DOCUMENTS: Agents prepare Bills of Lading and Shipping Documents. Only documents required Crew List and Passenger List. Light Dues receipt is necessary if payment is made before arrival.
PILOTAGE: Compulsory for vessels over 50 tons d.w.t. Pilot boards off Low Head lighthouse, slightly to East of leads in line.
Contact Pilot by radio giving ETA 24 hours before arrival. Telegraphic address "Portlaun". Pilots equipped with VHF Channels 16 and 12. "G" Flag to be flown on arrival.
Instructions for boarding given by Pilot over radio-telephone.
ANCHORAGE:
Position *(a)* Low Head 41° 03′ 32″ S., 146° 47′ 18″ E.
(b) 1.15 miles 280° from *(a)*
(c) 0.9 miles 308° from *(b)*
(d) 0.85 miles 038° from *(c)*
(e) 0.9 miles 128° from *(d)*
thence 0.85 miles 218° to *(b)*
RESTRICTIONS: Night navigation undertaken (tankers now operate at night). Over 168 m. at Pilot's discretion.
MAX. SIZE: Max. permissible draft 9.0 m. at zero water. 11.10 m. at high water. Length restricted to approx. 229 m. Vessels over 168 m. length cannot work Channel during ebb tide. Under keel clearance to be 1.3 m.
HEALTH: Organised by ship's Agent. Notify Agent prior to arrival. Pratique automatic if vessel visits other ports in Australia prior calling Launceston. Also see "Melbourne".
RADIO: Melbourne VIM or Hobart VIH.
TUGS: Three tugs – one of 2,000 h.p., available at Launceston. Tugs normally join at Point Effingham.
VHF: Pilot station, pilot launch, and the two Launceston tugs are fitted with VHF Channels 6, 12 and 16 operating on frequencies 156.6 and 156.8 respectively.
BERTHING:
Bell Bay: On the Eastern shore within 11 km. of the entrance.
Bell Bay Wharf: Length 152 m. Depth alongside 11.29 m. at LWST. The wharf is able to handle loads of 140 tonnes on suitable transporters. General and bulk cargoes handled. Quay equipped with a 12.5-tonne grab able to handle 450 t.p.h.
Comalco Berth (Private): Length 152 m. Depth alongside 10.97 m. at LWST. Quay equipped with two 12.5-ton grabbing cranes, each with a rated capacity of 300 t.p.h.
Roll on/Roll off and Container Berth: A specially designed terminal for the Bass Strait and Sydney vehicular deck ships

equipped with stern loading facilities, capable of carrying wheeled and mobile cargo in excess of 120 tons gross weight. Also a 25-ton capacity wharf crane for handling containers and unit loads. Depth alongside 8.23 m. at LW.

No. 5 Common User Berth: Length 174 m., depth alongside 12.19 m. to 9.14 m. at LW. The berth is designed for container, Ro/Ro, conventional and bulk cargoes. The berth is equipped with a 50-ton travelling crane, and a 8.2 m. wide stern loading ramp with a capacity in excess of 180 tonnes.

Long Reach: On the Eastern shore within 16 km. of the entrance.

Thermal Station Berth: Length 30.5 m., fender dolphins 61 m. apart. Depth alongside 12.34 m. at LW.

No. 1 Chip Berth (Northern): Length 229 m., depth alongside 11.58 m. at LW. Operators, North Woodchips Pty Ltd. The berthing face consists of 5-fender dolphins and 4 mooring dolphins.

No. 2 Chip Berth (Southern): Length 229 m., depth alongside 11.28 m. at LW. Operators, Associated Pulp and Paper Mills Ltd. The berthing face is the same as No. 1 berth.

Inspection Head and Beauty Point: On the Western shore within 11 km. of the entrance.

Inspection Head Wharf: Length 335 m., depth alongside 10.06 m. at LW. The wharf provides two overseas berths with 4,645 sq. m. of shed space, including cool storage and low temperature storage of 966 sq. m., capacity 1,200 tons.

Bulk tallow storage of 1,400 tons and 200 t.p.h. loading rate. Swing room of 198 m. available off the berth.

Beauty Point Wharf: Length 154 m., depth alongside 9.91 m. at LW. Withdrawn from regular service and used only as a plant berth.

Hillwood: On the Eastern shore 32 km. from the entrance.

Explosives Jetty: Length 18 m. × 24 m., depth alongside 4.27 m. at LW.

Launceston:

King's Wharf: Total berthing length 293 m., depth alongside 5.00 m. at LW. There is provision for the discharge of bulk wheat. There are facilities for Ro/Ro vessels and a 17.5-ton cargo handling crane.

BRIDGES: No bridges for large overseas shipping. Some inter-state vessels proceeding to Launceston will pass under Batman Bridge – 27 m. mast clearance HW allows 0.91 m. clearance.

STEVEDORES: Agent for ship arranges stevedores. No ETA required.

MEDICAL: Agents should be notified to prepare for medical attention or hospitalisation. Hospitals Launceston, Beaconsfield, and George Town.

TANKERS: One oil berth at Bell Bay suitable for tankers up to 189 m. length. Vessel berths alongside loading platform and dolphins. Length between mooring dolphins 262 m. Depth alongside berth 11.28 m. LW.

Also one private tanker berth (HEC) with depth 12.0 m., alongside.

BULK HANDLING FACILITIES: One 450 t.p.h. bulk handling crane at Bell Bay Wharf. Two 300 t.p.h. bulk handling cranes at Comalco Private wharf. One 25 ton luffing crane at Ro/Ro Berth.

DENSITY: 1025 to 1028.

FRESH WATER: Fresh water available at all berths. Delivery 30 t.p.h. by hose. Cost 25c to 40c 1,000 gallons plus $4 service charge.

FUEL: Bunkers are available from Mobil and B.P. installations at Bell Bay by wharf line at the oil berth or by road tankers at other berths.

GANGWAY/DECK WATCHMEN. Most vessels supply their own. May be supplied if required. Tidal port makes this requirement necessary.

OPENING/CLOSING HATCHES: Usually by Stevedores.

CUSTOMS ALLOWANCES: Allowance 40 cigarettes per day per man. Stores sealed on arrival; allowance per day per man 2 bottles beer, 1 wine; spirits 1 bottle per 10 days.

CARGO GEAR: Certificates of loading gear and derrick tests to be produced. Also see "Melbourne".

IDENTIFICATION CARDS: See "Melbourne".

CONSULS: Nil.

REPAIRS: All repairs possible.

DRY DOCKS: Steel and concrete graving dock located Launceston. Will accommodate ships up to 62.5 m. length and 3.66 m. draft. Clear width of entrance 12.80 m.

REPATRIATION: Arranged through ship's Agents.

AIRPORT: Approx. 64 km. to airport, regular services.

TIME: EST; clocks advanced by 1 hour October-March.

HOLIDAYS: Good Friday, Christmas Day and New Year's Day close holidays. Work on other holidays may be arranged through Agents.

POLICE/AMBULANCE/FIRE: Beauty Point and Inspection Head 83 1141; 83 1204; 83 1109 (fire calls only), Bell Bay 82 1566; 82 1680; 82 1717 (fire calls only).

TELEPHONES: Ship-to-shore phones available.

AUTHORITY: Port of Launceston Authority.

AGENT: Sub-agent of Patrick Agencies, Melbourne.

MACKAY, Queensland: 21.06 S. 149.14 E. (See Plan)

CERTIFICATES/DOCUMENTS/CUSTOMS ALLOWANCES: See "Melbourne".

PORT LIMITS: As for anchorage.

PILOTAGE: Compulsory, service obtained by radio to Agents at least 24 hours before ETA. Pilots will board either at the anchorage (E.S.E. of the Harbour) or 1 mile South of Slade Island heading North. To allow time for manoeuvring, vessels should be under weigh at the Pilot boarding time. Masters are advised not to manoeuvre West of a line between Slade Island and Flat Top Island.

ANCHORAGES: To South of the line of sea leads, with Slade Island summit bearing 351° (343° Mag.), and green light on Southern side of breakwater entrance bearing 294° (286° Mag.), good anchorage with not less than 30 ft. (9.1 m.) LWOS. Bottom sand and good holding ground.

RESTRICTIONS: None. Day or night access.

MAX. SIZE: Up to 620 ft. (189 m.). Largest vessels load at bulk sugar berth, max. length governed by length of traverse of loading appliance winch 445 ft. 8 in. (136 m.) between hatches.

HEALTH: See "Melbourne". Inspection at anchorage or at berth.

TUGS: Five tugs available, 1×10 tons, 1×12 tons and 3×30 tons bollard pull. Latter available when not engaged at Hay Point.

RADIO: See "Brisbane". A VHF Port Radio Station has been established at Mackay Harbour. Frequency: Channels 6, 12, 16, Hours: every hour on the hour and monitoring will commence five minutes before the hour and five minutes after the hour.

BERTHING:

Berth No.	*Length (Metres)*	*Depth (Metres)*
1.	198.12	10.4
2.	198.12	10.4
3.	198.12	10.4
4.	182.88	10.4

Slack water entry. Swinging basin 28 ft. (8.5 m.) LWOST. Mean high neap tide rise 13 ft. 4 in. (4.1 m.). Mean high spring tide rise 18 ft. 1 in. (5.5 m.). Depth at berths 33–35 ft. (10.1-10.4 m.).

SPECIALISED CARGO HANDLING FACILITIES:

Sugar Loading Gantry

(a) Loader Height: Clear height of loader in horizontal position from top of the pier, 26 ft. (7.9 m.). Height of pier, 26 ft. Height of pier above low water, 34 ft. (10.4 m.). Can be used in lifting slope "V" position up to 14° above horizontal. Max. vessel's hatch height above sea surface with which vessel may start loading even at high water, 35 ft. (10.7 m.).

(b) Outreach: Max. outreach of loader from side of pier, 40 ft. (12.2 m.). Breadth of permanent fender from side of pier, 2 ft. 6 in. (0.8 m.). The chute can be traversed along the boom for a max. distance of 20 ft. (6.1 m.).

(c) Movable Range. Length of movable range along pier, 445 ft. 8 in. (135.8 m.).

(d) Capacity: Average loading rate 1,250 tons (1,270 tonnes) per hour: best rate over one ship 1,350 tons (1,372 tonnes) per hour.

Container/Unit Load Facilities

Wharf: length 600 ft. (183 m.); depth 34 ft. (10.4 m.); width 100 ft. (30.5 m.). Wharf deck: 126 ft.×60 ft. plus 2 ft. 6 in. breadth of permanent fender (38 m.×18 m. plus 8 m.); height above low water 28 ft. (8.5 m.) Crane: 25 tons (25.4 tonnes) capacity at 110 ft. (33.5 m.) radius.

STEVEDORES: As much notice as possible.

TANKERS: Berth at Breast Wharf. Load rate for bulk molasses 300 t.p.h. through 10 in. (25.4 cm.) dockline. 8 in. (20.3 cm.) (Caltex) dockline for white petroleum. 10 in. (25.4 cm) dockline (Mobil) for black petroleum products. 8 in. (20.3 cm.) dockline (CSR) for export of industrial alcohol.

DENSITY: Sea water.

FRESH WATER: Available all berths, rate of load 45 tons (45.7 tonnes) per hour.

FUEL: Available at Breast Wharf and North Pier Berth.

FIRE PRECAUTIONS: Normal requirements.

DEVELOPMENTS: Extension of breakwater planned adjacent to industrial land development to give more facilities.

WATCHMEN: Not obligatory.

OPENING/CLOSING HATCHES: Normally by crew, but can be done by stevedores if required.

CARGO GEAR: See "Melbourne".

IDENTIFICATION CARDS: See "Melbourne".

REPAIRS: Small repairs can be carried out. Oxy-welding and electric welding plants, compressors and air tools available. Salvage divers available.

REPATRIATION: Facilities available.

AIRPORT: Daily service to Brisbane and thence to world-wide destinations.

TIME: GMT plus 10 hours.

HOLIDAYS: Bank holidays as for Brisbane, plus Waterside Workers' Picnic Day.

TELEPHONES: Ships' extension telephones may be connected at all berths.

SERVICES: Compass adjusting.

AUTHORITY: Mackay Harbour Board.

AGENT: Sub-agent of Patrick Agencies, Brisbane.

MARYBOROUGH, Queensland (incl. Urangan): 25.18 S. 152.54 E. (See Plan)

PORT LIMITS: The area between the mainland and Great Sandy Island from a line joining Hook Point and the Eastern extremity of Inskip Point to the parallel of 25 deg. 7 min. S. latitude, including all rivers, creeks and navigable waters in the above named area.

APPROACHES: Via Hervey Bay and the Pearl Channel.

The width of the Channel to Urangan is 500 ft. (152.4m.) and the Mary River 100 ft. (30.48 m.).

The depths of water at LWOST in this port and approaches are:

	Feet	*Metres*
Urangan Channel	17.0	5.18
Mary River	4.0	1.22
Sandy Straits	3.0	0.91

The swinging basin at Urangan has a width of 1,800 ft. (548.64 m.) and a depth of 27 ft. (8.23 m.).

The swinging basin in the Mary River at Maryborough has a width of 400 ft. (122 m.) and a depth of water of 30 ft. (9.14 m.).

DOCUMENTS: See "Melbourne".

PILOTAGE: Vessels requiring the services of a Pilot should advise the Harbour Master at least 24 hours before their expected time of arrival at the Fairway Buoy and also advise vessels draft.

Note: Pilots for the Sandy Straits are not available on Saturdays, Sundays or holidays unless the vessel is bound for Maryborough.

Pilots Boarding Ground is located off the Fairway Buoy, Hervey Bay and the distance therefrom to Urangan Jetty is 13 miles, and upriver to Maryborough 45 miles.

RESTRICTIONS: Tankers with highly inflammable liquids are not allowed to berth at Urangan in the hours of darkness.

MAX. SIZE: Max. draft of vessels that may enter the port are:

Urangan: HWOST 24 ft. (7.3 m.) and at LWOST 14 ft. (4.27 m.) allowing 3 ft. (1 m.) under keel.

Maryborough: HWOST 12 ft. 6 in. (3.8 m.) allowing 2 ft. (0.6 m.).

HEALTH: Pratique available 24 hours a day, 7 days a week.

TIDES: The mean spring rise is 10 ft. (3.048 m.) at both Urangan and Maryborough, while the mean neap rise is 8 ft. (2.438 m.) at Urangan.

BERTHING: The berths in the port number 2 in all, one (1) at Urangan and one (1) at Maryborough.

The jetty at Urangan is 26 miles by road from Maryborough.

The length of each berth and respective depth of water at LWOST are:

Urangan

(i) 1 Berth 390 ft. (118.87 m.) in length; depth of water 29 ft. (8.84 m.). Max. length of vessel which can be accommodated is 560 ft. (170.69 m.).

Maryborough

(ii) 1 Berth – 120 ft. (36.576 m.) in length; depth of water 20 ft. (6.096 m.); Max. length of vessel which can be accommodated is 150 ft. (45.7 m.) approximately.

Wharf Use

(i) The wharf at Urangan is a dual-purpose berth used as an oil tanker berth and general cargo berth. The oil tanker berth is used by Caltex Oil (Australia) Pty Limited.

(ii) Berth at Maryborough is a mineral sand berth.

Shed Accommodation

(i) Urangan Wharf Shed – 7,000 sq. ft. (650.3 sq. m.) approx.

(ii) Maryborough Wharf Shed – 4,000 sq. ft. (371.6 sq. m.) approx.

Wharf Cranes at Maryborough.

A 40-ton Sheerlegs at 27 ft. 6 in. (8.54 m.) radius at Walkers Shipyard Wharf.

Mobile Equipment

Urangan: Electric capstans are available to move rail trucks.

Maryborough: Mobile cranes are available for hire.

TUGS: Towage is not available at this port. Arrangements for tugs would need to be made in advance to allow steaming time from Bundaberg, the next nearest port.

REPAIRS: Available.

FUEL: Oil bunkering is available at both Urangan and Maryborough.

FRESH WATER: Water is available at the Urangan Jetty and the Maryborough wharves at the rate of $0.75 per 1,000 gallons ($0.17 cents per 1,000 litres) (minimum charge $0.75).

CONSULS: None.

MEDICAL: The Hospital, situated at 185 Walker Street, Maryborough may be contacted on telephone number 21.2222.

POLICE/AMBULANCE/FIRE:

Fire Services

For emergency calls, dial "000" and ask the operator for the Fire Brigade. General enquiries should be directed to telephone number 21.2535. The Brigade Station is situated at 98 Lennox Street, Maryborough.

Police Services

For emergency calls, dial "000" and ask the operator for the Police. General enquiries should be directed to telephone number 21.2211. The Police Station is situated in Lennox Street, Maryborough.

Ambulance Services

For emergency services, dial "000" and ask the operator for the Ambulance. General enquiries should be directed to telephone number 21.2244. The Brigade is situated at 155 Neptune Street, Maryborough.

AUTHORITY: Dept. of Harbours & Marine, Brisbane.

AGENT: See "Brisbane".

MELBOURNE (including Coode Island, Holden Oil Dock, Port Melbourne, Williamstown, Yarraville): 37.50 S. 144.58 E. **(See Plan)**

PORT LIMITS: Vessels at anchor off Gellibrand Lighthouse are considered "arrived" for the purposes of priority of berthing.

DOCUMENTS:

	No. of copies required
Form M & S 11 (List of crew)	2
Form 42A (Store List)	1
Form 5 (Articles owned or in possession of Master, Officers or crew)	1
Form C & E 886 (Ports of call)	3
Form QA3 (Declaration of animals carried as cargo)	1
Form QA4 (Declaration of ship's pets)	1
Form QA5 (Shipmaster's Bond to cover ship's pets)	1
Form A Q360 (Health Report)	2

Of the above, Forms 42A and 5 need only be compiled at first port of call in Australia. Passenger — individual Passenger Cards are utilised therefore no list of passengers required. Agents require 7 copies of Manifest of cargo on board and at least 1 set copies Bills of Lading. These normally received by airfreight or airmail direct from Agents at loading port outside Australia therefore not necessary for Masters to be in possession of either Manifest of cargo on board or appropriate copies of Bills of Lading.

PILOTAGE: 2 vessels, *Wyuna* and *Akuna,* 1 of which kept on station outside Port Phillip Heads, within limits of cruising station, except for short periods when making shore contacts and from 0900 to 1100 hrs. local time each Monday. *Wyuna* has 2 masts, buff coloured hull and funnel with white painted superstructure.

The *Akuna* relief pilot vessel, steamship, 1 mast, buff coloured hull, funnel and white painted superstructure. Pilot vessel on station exhibits by day from foreyard mast, horizontal striped flag, upper half white and lower half red. At night lights as prescribed in International Collision Regulations for a pilot vessel over 65 ft. in length.

Cruising Station: Cruising station extends seaward to 15 miles 221° from centre of fairway between Port Phillip Heads, from which position the Western boundary extends in 334° direction towards coast at Zealey Point, and Southern boundary in 092° direction towards Cape Schank until Arthur's Seat bears 050°, which line towards coast forms Eastern boundary of station. Generally, pilot vessel cruises from 2 to 5 miles 225° from Point Lonsdale Lighthouse in order keep Westward of confused seas caused by tide race through entrance.

Radio message sent direct to pilot vessel 24 hours prior to arrival advising ship's deepest draft and estimated time of arrival at Port Phillip Heads, subject to confirmation pilot vessel. If not in sight, vessels stand off at least 5 miles from Point Lonsdale and make enquiries addressed by visual signals or VHF radio telephone to Point Lonsdale Signal Station.

In the entrance the tidal stream runs at its strongest at times of High and Low water and the ebb stream may at times exceed 9 knots. Care must be exercised to keep Westward of the tidal stream in the Fairway whilst awaiting or embarking a Pilot.

Low-powered vessels and vessels over 34 ft. draft are requested to contact pilot vessel or pilot office as to a suitable time to arrive at Pilot Boarding Ground as their passage through the Port Phillip Entrance is governed by the tidal stream.

Deep-laden tankers in heavy weather are advised to rig pilot ladder from Bridge to avoid swamping boat.

ANCHORAGE: Quarantine Anchorage: if, from Quarantine Regulations, Southerly gales, or other causes, it is necessary to anchor off Quarantine Station, a vessel drawing more than 20 ft. should anchor to Northward, with jetty bearing 195°, in depths of from 48 to 54 ft., from 3 to 6 cables off-shore; and at night in white sector of jetty light, visible from 126° through South to 195°, preferably with that light bearing 180°, and Point Lonsdale light bearing 280°.

Symonds Channel Anchorage: good anchorage clear of all fairways, in red sector of Low light, and well to windward of Southern shore in Northerlies, is to be had in the middle of Symonds Channel close to its Southern end. A good berth is in a depth of about 40 ft. with Queenscliff High Light bearing 286°, and No. 3 (Tuckey) West Channel in transit with Coles Channel Light. Queenscliff Anchorage: in anchoring off Queenscliff, care should be taken to keep clear of West Channel fairway by bringing up as near as possible to N.W. side of channel. A good berth in a depth of 38 ft. and in red sector of Low light, may be obtained with High Lighthouse bearing 284° distant half a mile, and fixed green light at Queenscliff South pier head bearing 336°.

Vessels awaiting berths in the Port of Melbourne are normally directed to anchor at pilot's discretion South of Gellibrand light and clear of the Melbourne ship channel.

RESTRICTIONS: Mean Tidal Range is 0.50 m. and mean of all High Waters for 1972 was 0.76 m. Tide is used for the navigation of vessels having drafts in excess of those given in Column 4 of "Max. Size". For the navigation of channels, a minimum under keel clearance of 0.6 m. is required for vessels drawing up to and including 10.9 m. and a clearance of 0.9 m. for vessels having a draft between 10.9 m. and 12.2 m. Vessels over 183 m. in length. Pilots require 10% of maximum draft under keel clearance to navigate River Channel at all times, subject to draft restriction in Column 5 "Max. Size".

Tankers which are not gas-free or with cargoes which have a flashpoint of less than 150°F will not be navigated to or from river berths at night.

MAX. SIZE: In the Port of Melbourne, draft and length limitations for navigation of vessels are determined by the Port Phillip Sea Pilots, and these divisions are outside the jurisdiction of the Port Authority, the Melbourne Harbour Trust Commissioners.

1	2	3	4	5	6
Berth	Max. Length Day (m).	Max. Length Night (m.)	Draft Day (m.)	Max. Draft LW Night (m.)	Remarks
Breakwater	213	178	10.6	9.7	225 m. at 7.6 m. Draft

BRIDGE: Clearance under Westgate Bridge is 53.6 m. at LW. Johnson Street Bridge under construction.

PRATIQUE: All overseas vessels at first port of entry to Australia or at any subsequent ports, subject to quarantine until pratique granted or until vessel released from quarantine. If examinations and inspections satisfactory vessel granted pratique for all Australian ports, provided all on board have satisfactorily completed Certificate of Vaccination within last 3 years, or if vessel is 14 days or more from date of departure from last overseas port. A list of names and addresses of passengers also required at first port of entry. 24 hours quarantine clearance of overseas vessels available. Treatment of Crew members for illnesses other than quarantinable diseases arranged by private practitioners through ship's Agent.

Radio Pratique: Concession of radio pratique is to all vessels carrying surgeons, provided these officers medical graduates of a university. Following requirements to be met in the case of a vessel requiring radio pratique.

(a) (1) ETA.

(2) that individual inspection of all persons on board has been made by ship's surgeon within 24 hours of expected time of arrival and no cases of quarantinable diseases or varicella in an adult or coloured person, not associated with cases in children, then existed on board or had occurred or had been on board within previous 14 days: and

(3) that all members of crew currently satisfactorily vaccinated against smallpox (i.e. not less than 8 days nor more than 3 years previously in the case of revaccination) and a satisfactory Vaccination Register is kept on board;

(4) that all passengers over age of 12 months have been satisfactorily vaccinated against smallpox before embarkation and are in possession of current valid International Certificate of Vaccination against smallpox (i.e. all certificates duly authenticated, show that vaccination has taken place not less than 8 days nor more than 3 years previously in the case of primary vaccination and not more than 3 years previously in the case of revaccination) except those who before embarkation submitted a medical certificate stating that they have a medical disability which would make vaccination inadvisable and except those who before embarkation signed a statutory declaration stating that they object to vaccination on religious grounds.

(b) Commonwealth Director of Health will advise Master by wireless whether radio pratique is granted or not.

(c) A vessel granted radio pratique will fly "Q" flag by day and Quarantine signal by night and will on arrival at quarantine anchorage be boarded by Quarantine Officer with Immigration and Customs Officers. Quarantine Officer will inspect crew Vaccination Register and passenger manifest on which must be stated full name, address in Australia and vaccinal status of each passenger and will see cases of illness brought to notice by ship's surgeon, including all cases infectious disease and will receive Primary Health Report. If no cases of illness as referred in sub-paragraph *(a)* (2), Quarantine Officer will confirm radio pratique and issue Pratique Certificate for all ports. Master will not be required to submit Supplementary Health Report at subsequent ports. When pratique confirmed, "Q" flag may be lowered.

(d) Notwithstanding that pratique for all ports may have been granted, Master will still be responsible for reporting any case of infectious diseases which may subsequently occur whilst vessel in Australian waters.

Should a case of infectious disease (not being a quarantinable disease or varicella in an adult or coloured person not associated with cases in children) occur on board whilst vessel at sea in Australian waters Master will be required to advise by radio Commonwealth Director of Health for State in which next port situated, who will arrange for a Quarantine Officer to see case on arrival, Master will not be required to fill in a Supplementary Health Form and vessel will be permitted to proceed direct to berth without flying "Q" flag.

Should a case of suspected quarantinable disease or a case of varicella in an adult or coloured person occur on board whilst at sea in Australian waters, Master required radio details to Commonwealth Director of Health for State in which next port situated and await instructions. Commonwealth Director of Health will decide according to circumstances whether inspect vessel outside Quarantine Line or permit it to proceed to berth and will advise Master.

(e) Should it come to notice in any particular case that radio pratique has been granted as a result of a wireless message sent in accordance with sub-paragraph *(a)* whereas in fact wireless message contains false information, matter will be investigated thoroughly and reported to the Director General of Health who will decide whether radio pratique will be denied in future to vessels on which Master and the ship's surgeon hold responsibility.

RADIO: Melbourne Radio VIM.

A Shipping Control Centre referred to as "Harbour Control" is established on the southern side of Victoria Dock entrance. It is a two storied structure supported on a rectangular tower with an overall height of 39.6 m. Traffic signals are exhibited at a height of 36.6 m.

Movement of traffic within the Port of Melbourne is controlled by the Harbour Master through Control Officers operating from this Centre who direct all shipping movements in and out of the port, and co-ordinate all ancillary services connected with shipping movements on a 24 hour basis.

The radio call sign is "Harbour Control", and the following frequencies and channels are available—

156.3 mHz Channel 6 used generally for Interstate Shipping.
156.4 mHz Channel 8 pilots and tugs (continuous watch).
156.6 mHz Channel 12 working.
156.8 mHz Channel 16 calling (continuous watch).

When approaching the Port of Melbourne radio communication is made with "Harbour Control" initially on Channel 16 and then on a channel as directed for berthing instructions and information regarding the movement of other vessels. The Master of a vessel proceeding inwards shall not pass Gellibrand Pile Light until permission has been granted by Harbour Control. Breakwater Signal Station may be used as an alternative to communicating with "Harbour Control".

TUGS: Tugs attend for inward-bound vessels at or in vicinity of Gellibrand Light for vessels proceeding either up river or to Port Melbourne berths. On departure and should vessels require attendance down river, service terminated in vicinity of river entrance. Tugs present for service at any point required by Owner or Agent. Ships lines, or tug lines at charge of A$10.00. Crews of tugs will not accept wire tow line. Wire tow line with rope end of 5 or 6 fathoms acceptable, rope section being available for tugs towing hook.

BERTHING:
Yarra River North Bank

See also "Tankers".

CRANE: Self-propelled floating crane with 250 tonne capacity available.

STEVEDORES: ETA Advices: Firm ETA, if possible, before noon on previous day to arrival. If not possible no later than 1500 hrs. on day previous to arrival.

MEDICAL: No advance notice necessary for medical attention required on vessel's arrival. All hospital facilities available. No inoculations required for vessels coming to Australia but Master

should possess International Health Cards for each member of crew.

TANKERS: Holden Oil Dock at Yarraville suitable for tankers up to 183 m. length, draft 9.4 m.

Williamstown: Gellibrand Pier, depth alongside 39 ft. can accommodate tankers up to 290 m. length. Discharge via Chiksan arms.

Breakwater Pier, depth alongside 39 ft. accepting tankers up to 740 ft. length.

Maribyrnong: No. 1 berth, depth 9.1 m. can accommodate tankers up to 178 m. length. Petrochemical and molasses berth, depth alongside 9.1 m.

Ballast: Slop facilities only at Holden Oil Dock.

DENSITY: 1,000.

FRESH WATER: Water available at wharf face at 100 ft. intervals. Rate 50–100 t.p.h.

FUEL: 24 hours notice required. All grades 1–1500 secs. RI. Marine Diesel. Light Marine Diesel. Gas Oil 34 sec. Red No. 100F. Bunker Fuel 600 sec. Red No. 100F. Light Diesel 37 sec. Red No. 100F.

At Gellibrand and Breakwater Piers. Min. notice 48 hours; prefer notice 4–5 days.

Tanker fuel oil 450 SSF at 122° F. Volume – unlimited if 4 to 5 days notice given.

FIRE PRECAUTIONS: Copy of Handbook "Emergency Action" is handed to Master of tankers together with booklet "Advice to Masters" printed in eleven languages.

DEVELOPMENTS: Lower Yarra Crossing: New bridge with clearance of 170 ft. under construction, on completion vessels with a draft of 11.2 m. and length of 230 m. will be able to navigate the river 24 hours a day.

A fourth Roll-on/Roll-off berth is operational at Webb Dock.

GANGWAY WATCHMEN: Shore Watchmen not usually employed and this service left to discretion of Master.

OPENING/CLOSING HATCHES: Normally carried out by Stevedores. Ship's crew may if required by vessel to do so. Crew may close hatches prior to sailing; but if Stevedores instructed to do so, they then claim right to finish, unless ship sails before completion of work.

SHIP CERTIFICATES: Register – showing vessel's name, port of registry, gross and nett tonnages and Owner. Loadline Certificate which must be current. Safety Radio Certificate. Safety Equipment Certificate. Light dues receipt, ship's Articles (British), Clearance from previous port.

CUSTOMS ALLOWANCES: 200 cigarettes in an opened carton *or* 0.5 lb. cigars *or* 0.5 lb. tobacco. 1 bottle spirits (opened).

CARGO GEAR: This must comply with Australian Regulations, as issued by the Ministry of Shipping and Transport.

When working cargo with ship's gear, certificates should be available to attest to identification and good condition of all such gear. If vessel on first visit to Australia and certificates not available, a declaration by Master will be accepted provided gear in order. On subsequent visits certificates and identification of each item of gear must be readily produced.

IDENTITY CARDS: Not required to be carried by crew going ashore in Australia. However, Section 23 of the Migration Act 1958/1964 provides that Masters of vessels entering Australia from overseas shall have in their possession an identity card in an approved form for each member of crew. These provisions included in the Act to ensure positive identification available to departmental officers should any Seaman, not being an Australian citizen, desert vessel. Should vessel arrive Australia without required Seamen's identification cards. Seamen unable to go ashore until photographer called to vessel order photograph each crew member, and identification cards completed.

Following nationalities need not complete identification card required under Migration Act provided Crew members in possession of relevant Seamens Identity certificates/discharge book; Canada, Denmark, Fiji, Ghana, Hong Kong, India, Israel, Italy, Japan, Malayasia, Norway, South Africa, South Korea, Pakistan, United Kingdom.

Masters of vessels, Australians and New Zealanders are not required to have such an Identification Card.

Masters are reminded that Crew members' travel documents and Commonwealth of Australian Forms M.315, where applicable, are to be retained in the custody of the Master at all times, and are to be produced to Customs Boarding Officers upon demand.

CONSULS: The following countries are represented by consuls at Melbourne:

Belgium	Greece	Philippines
Brazil	Honduras	Portugal
Chile	Iceland	Spain
China	Italy	Sweden
Denmark	Japan	Switzerland
Dominican Rep.	Mexico	Thailand
Ecuador	Netherlands	U.S.A.
Finland	Norway	Uruguay
France	Panama	Venezuela
Germany	Peru	

REPAIRS: All major repairs possible.

DRYDOCKS: Three. Largest Dock is a floating dock 156 m. × 24 m.

REPATRIATION: All facilities available for effecting crew changes and repatriation – namely sea, air and rail.

HOLIDAYS: Sunday, Christmas Day, Good Friday, Labour Day, Picnic Day, Anzac Day: with exception of Sunday are regarded as "close holidays" and waterside workers cannot be required to work on these days. Only work of special nature performed on these days by agreement.

Following ordinary holidays observed: Boxing Day, New Year's Day, Australia Day, Easter Monday, Queen's Birthday, Melbourne Cup Day.

On Boxing Day and New Year's Day, waterside workers will work on following classes of vessels only, namely:

(a) Passenger ships to sail on schedule.
(b) Ships to finish and sail before next pick-up of labour.
(c) Ships which in opinion of local Board of Reference, should be declared "Urgent Vessels".
(d) Marine casualties.

On remaining ordinary holidays work performed if required by an employer. Work performed on holidays subject premium rates of pay.

POLICE/AMBULANCE/FIRE: Fire, Ambulance, Security – Port Emergency Service. Tel. 61-2861 or, by VHF Radio Channel 16 "Melbourne Port Emergency".

TELEPHONES: Telephone can be placed aboard at all berths. Charge 90 cents per quarter day includes service charge and local calls. Trunk calls cannot be made from shipboard phones.

SERVICES: Tank cleaning. Compass adjusters available.

SHORE LEAVE: Crew allowed ashore. Visitors to ship after dark require permit issued by Master. No passport required while ashore.

PORT AUTHORITY: Melbourne Harbour Trust Commissioners.

AGENTS: Patrick Agencies, Box 4329 GPO, 8/12 Market Street, Melbourne, Victoria, 3001. Cables: "Rikpat". Tel. 61–2941. Telex. AA. 30456. After hours Tel. 61–2941.

NEWCASTLE, N.S.W.: 32.56 S. 151.47 E.

(See Plan)

PORT LIMITS: The port limits are at the entrance between the end of the breakwater. New charter parties accept vessel off the port.

DOCUMENTS: See "Melbourne".

PILOTAGE: As much notice as possible through Maritime Radio, Sydney (VIS), amending 2 hours prior arrival. Amendment through Channel 16 VHF, to Harbour Control. Telegraphic address "Marboard". Pilot vessel painted high-visibility orange, "Pilots" on deck-house in black paint. Boarding ground on side East of entrance. A good lee, speed 3-5 knots, no boatrope, ladder 8 ft. above water with manropes.

ANCHORAGE: No good anchorages off port. A restricted anchorage exists immediately off entrance. No anchorages within the port.

RESTRICTIONS: Entrance channel dredged to 11 m. ISLW. – a minimum keel clearance of 10% draft required. Certain berths within port may only be worked during slack water or early ebb tide.

MAX SIZE: Max. d.w.t. for bulk cargo vessels 65,000. Max. length of 800 ft., no beam restriction, draft up to 38 ft. ISLW. Vessels over 700 ft. navigated in daylight only (inward).

HEALTH: Refer to "Melbourne".

RADIO: All radio messages through Sydney (VIS).

TUGS: Tugs usually come alongside shortly after entering breakwater. Ship's lines for towing lines, tug's lines for tugs alongside.

BERTHING: See Restrictions.

Thirty berths with lengths from 500 ft. to 2,025 ft. Depths alongside up to 38 ft.

New Cargo Berth suitable for unit and limited container traffic, depth alongside 36 ft. ISLW.

New grain berth with four loading heads can accommodate vessels up to 800 ft. length. Depth alongside 38 ft.

RADAR/VHF: No port radar. VHF Channels 16, 13, 12, 4. Pilot has own set. Also see "Sydney-VHF".

MEDICAL: All hospital facilities available.

TANKERS: One tanker berth – 33 ft. depth water alongside, 600 ft. in length.

DENSITY: Density varies considerably throughout port, with particular reference to upstream rains.

FRESH WATER: Available all berths, 4–15 t.p.h. delivery, dependent on other demands.

FUEL: Normal bunkering available by either road or barge, or pipeline at inflammable liquids wharf.

FIRE PRECAUTIONS: Written notice to Fire Brigade for tankers.

BULK HANDLING FACILITIES: Coal Basin berth numbers 1 and 2 loading capacity 2,000 t.p.h.

Dyke Coal Loader: loading capacity 600 t.p.h.

Western Basin: Berth number 3, bulk wheat loading.

Kooragang Island Bulk berth: two gantry cranes each of 10 tons capacity. Grab unloading 650 t.p.h.

Grain – No. 3 Western Basin – four 1,000 t.p.h. loading heads.

Coal – No. 1 Basin Coal Loader – two 1,000 t.p.h. heads and Dyke Coal Loader, one 600 t.p.h. head.

Iron and Limestone – BHP No. 5 berth – three ore bridges with 10 to 20 ton grabs.

Bulk Berth – two 650 t.p.h. bulk unloaders used for phosphate, sulphur, alumina, petroleum coke and cement clinker.

Containers – one general cargo berth, No. 1 Throsby, fitted with 26-ton luffing crane. 30 ton Portainer at West Basin.

Liquid Chemicals and LPG – now use Bulk Berth, Kooragang. Will use new Bulk Liquid Berth, Kooragang which is under construction.

DEVELOPMENTS: New coal loader with a capacity of 10,000,000 tons annually under construction. The existing coal loader will continue operation.

Two new deep-water tie-up berths at Dyke Wharf.

New bulk liquids berth to be built at Kooragang Island.

Steelworks planned.

GANGWAY/DECK WATCHMEN: Services of watchmen available and recommended ($1.50 hourly average).
OPENING/CLOSING HATCHES: Dependent on type of cargo and hatch (coal, wheat, ship's crews closing hatches).
CERTIFICATES AND CUSTOMS ALLOWANCES: See "Melbourne".
CARGO GEAR: No additional other than wire preventers to derrick heads if rope guys used. Also see "Melbourne".
CREW I.D. CARDS: See "Melbourne".
CONSULS: The following countries are represented at Newcastle: Belgium, France, Netherlands, Norway and Sweden.
REPAIRS: Most deck and engine repairs.
DRY DOCK: One floating dock, Government managed, 630 ft. length and 82 ft. beam. Capacity about 9,000 tons.
REPATRIATION: Normal facilities available.
AIRPORTS: Two, roughly 7 miles from city. Several flights daily to Sydney.
TIME: GMT plus 10 hours. Clocks advanced 1 hour between October and February.
HOLIDAYS: Christmas Day: Good Friday; Labour Day; Picnic Day; Anzac Day are regarded as close holidays and waterside workers cannot be required to be worked on these days. On Boxing Day, New Year's Day, waterside workers will work on following classes of vessel only;

(a) Passenger ships to sail on schedule; *(b)* ships to finish and sail before next pick-up of labour; *(c)* marine casualties; *(d)* other vessels which are agreed between employer and WWF branch officials in the port concerned; if there is no agreement on a port basis, agreement as to any such ships, to be reached at Federal level.

On remaining ordinary holidays, work performed as required by an employer. Work performed on holidays subject to premium rates of pay. No Saturday afternoon work unless vessel is proceeding to sea.
POLICE/AMBULANCE/FIRE: dial "000" for Emergency.
TELEPHONES: 'Phones available at all working berths. Costs 50 cents daily plus cost of calls plus 30 cents booking fee.
SERVICES: Compass adjusters and surveyors available.
DELAYS: Waiting for coal berths occasionally, usually no wait for general cargo wharves.
AUTHORITY: Maritime Services Board of New South Wales.
AGENT: Patrick Agencies, Box 447 PO, 10/12 Telford Street, Newcastle, NSW 2300. Cables "Rikpat". Tel. 2–2353. Telex AA 28192.

PORT AUGUSTA, S.A.: 32.29 S. 137.46 E.

CERTIFICATE/DOCUMENTS/HEALTH: See "Melbourne".
PILOTAGE: One mile N.W. of Eastern Shoal North Beacon. The regulation pilot ladder secured four steps up from water and manropes are required. Boat ropes not required.
RESTRICTIONS: 16 ft. low water. Min. 2 ft. under keel. No navigation at night. Max. length 450 ft. overall. Tug required for vessels 410 ft. and over.
TUGS: From Port Pirie or Whyalla.
BERTHING:

No. 1	South	370 ft.	Depth	20 ft.
No. 2	Centre	400 ft.	,,	20 ft.
No. 3	North	420 ft.	,,	18 ft.

Total length of wharf 1,190 ft.

FRESH WATER: 10 t.p.h.
REPAIRS: Minor repairs only.
TIME: GMT plus 9.5 hours.
TELEPHONE: Police 42–3000; Fire Brigade 42–2000; Hospital 42–2011.
AGENT: See "Adelaide".

PORT GILES, S.A.: 35.02 S. 137.46 E.

On Western shore of Gulf of St. Vincent, 36 miles S.W. direction from Port Adelaide. For entry formalities not listed below, see "Adelaide".
PILOTAGE: Compulsory. If vessel on first entry to Australia, pratique and surveys are carried out at Semaphore anchorage, Port Adelaide, where Pilot will board.

If proceeding direct to Port Giles, 12 hours' notice required to Dept. of Marine and Harbours, Port Adelaide. Pilot boarding station is at Northern end of Troubridge shoal, about 1 mile West of MacDonnell Sound Light Beacon.
ANCHORAGE: MacDonnell Sound, 7 miles from berth. Also see "Pilotage".
MAX. SIZE: Vessels up to 40,000 d.w.t. able to load fully and depart at lowest tide. Normal limit to length of vessel 675 ft. (206 m.), beam 130 ft. (40 m.).
BERTHING: The new jetty, about 1.5 miles North of Giles Point, reaches out from the shore some 2,000 ft. (610 m.) to the seaward end dolphin. The ship's berth has a depth of 38 ft. (11.6 m.) below low water over a length of 840 ft. (260 m.). Grain transported from Silos to ship's side by conventional belt conveyor capable of handling 800 tonnes an hour. Alongside ship, elevated gallery with five swivelling and telescopic booms feeds grain into any hold without movement of ship along berth. Each boom has a max. load rate of 400 tonnes an hour so that at least two must be used to achieve full ship loading rate.
TUGS: None. Mooring launch available, but if tugs required, must be obtained from Port Adelaide.
FRESH WATER: Available.
TELEPHONES: Available on berth.
FUEL/REPAIRS: None.
TIDES: Mean high water springs 6.6 ft. (2 m.), mean high water neaps 4.0 ft. (1.2 m.) (Edithburgh).
VHF: VHF radio telephone.
AUTHORITY: Department of Marine and Harbours, Adelaide.
AGENT: Sub-agent of Patrick Agencies, Adelaide.

PORT HEDLAND, W.A.: 20.18 S. 118.35 E.

PORT LIMITS: An arc of a circle of 10 miles radius with centre at Hunt Point Beacon.
APPROACHES: Port Hedland, entered between Airey Point (Lat. 20° 18′ S. Long. 118° 35′ E.) and Hunt Point, about 3.25 cables N.N.W., is a secure harbour with dredged Channel giving a depth of 12.8 m. below datum, a turning basin with a depth of 8.84 m. below datum, and a small craft anchorage with depths of 5.18 m. The Channel extends some 7.75 miles seaward from the turning basin and is defined by beacons, buoys and leading marks.

The most conspicuous object in daylight is the Crushing Plant owned by the Mt. Newman Mining Company. This plant is 47.24 m. above sea level, and is of oblong shape, situated 095° (T) by 1,383.74 m. from the Shipping Control Tower at Lat. 20° 19′ S. Long. 118° 34′ 50″ E. Cooke Point, which terminates in black, steep-faced rock, is sharply defined. Finucane Island water tank, 5 cables W.N.W. of Hunt Point, is also conspicuous.
Shipmaster's Report: Proceeding from Kobe, the vessel passed 10 miles East of Imperieuse Reef L.H. thence to position 7 miles North of Bedout Island L.H. From there the track printed on the Australian charts was followed until the Sea buoys were picked up. From Bedout Is. the Decca was found to be fairly reliable improving as we neared the land.
The buoyage system is as follows:

Name or No. of Buoy	*Position*	*Type*	*Inwards Pass*
Cornelisse Shoal Buoy	20° 02′ 10″ S 118° 22′ 51″ E	Conical GP.Fl.(3) 9 sec.	Stbd. Hand
C.1	19° 59′ 58″ S 118° 25′ 45″ E	Conical Fl.3 sec.	Stbd. Hand
C.2	20° 02′ 24″ S 118° 25′ 07″ E	Can Fl.R.ev. 5 sec.	Port Hand
C.3	20° 04′ 36″ S 118° 25′ 32″ E	Can Gp.Fl.R (4) ev. 12 sec.	Port Hand
C.4	20° 06′ 33″ S 118° 28′ 02″ E	Conical Fl.2.5 sec.	Stbd. Hand
C.5	20° 10′ 29″ S 118° 30′ 36″ E	Can Fl.R.5 sec.	Port Hand
C.6	20° 11′ 32″ S 118° 31′ 11″ E	Sarus Tower Fl.R. 10 sec.	Port Hand

Charts L (D4) Aus. 53 and L (D4) Aus. 739 are Decca lattice charts.

The most conspicuous land object, by daylight, ashore is the Crushing Plant of Mt. Newman Mining Co. This plant is an oblong shape, about 47.24 m. high (above sea level) situated 095° True × 1,383 m. from the Shipping Control Tower in Lat. 20° 19′ S., Long. 118° 34′ 05″ E.

Cooke Pt. Lt. is exhibited from position Lat. 20° 18′ 16″ S., Long. 118° 37′ 52″ E., Gp.Fl.(3) ev. 15 sec. 37 m. high. Visible for 17 miles.

Port Hedland is entered between Airey Pt. (Lat. 20° 18′ S., Long. 118° 35′ E.) and Hunt Pt. 3.25 cables N.N.W. It has a dredged channel with a depth of 12.8 m. below datum, a turning basin with a depth of 8.8 m. below datum. The channel extends for 7.75 miles to seaward from the turning basin and is well marked by buoys. The limits of the port are defined as: "all that piece of water within a radius of 10 miles off Hunt Pt. Beacon (No. 29)". Numerous shoals exist either side of the approach channel.

At the entrance to Newman Channel is No. 8 buoy, (No. 7 buoy is now non-existent). A pair of Beacons No. 9 and No. 10 showing red and green lights respectively also mark the entrance to the channel. The Pilot boards in this vicinity.

Cornelisse Buoy is fitted with a radar reflector and marks. "Cornelisse Shoal", has been known to shift from its position and should be passed well to the Eastward.

The buoy known as "Spoil Ground Buoy" is in a position 357° True, 5.4 miles from Finucane Is. Water Tower and in conjunction with No. 6 buoy marks the Southern end of the anchorage. Vessels should anchor North of the line joining these two buoys. The bottom is sandy, but the holding ground reported good.

Vessels should call Broome Radio for emergency Notices to Mariners affecting Port Hedland approaches.

Vessels inward bound may encounter vessels outward bound displaying signals for deep drafted vessels, showing that they must keep to the buoyed tracks.
DOCUMENTS:

2 Copies Health Report Q360 for Quarantine Office to be accompanied by Crew List showing Vaccination dates.
1 Copy Store List Form 42A. All narcotics and restricted drugs to be identified by type, size and quantity. Report is to include lifeboat kits.
1 List Crew Possessions. Form 5 including Declaration Sheet. In declaring goods, quantity, description and value to be stated. In the case of all watches, radios, cameras, binoculars and the like, maker's name or brand and serial numbers must be shown.

1 Crew List. Form M & S 11. Comprised White Cover Sheet, 2 copies plus Green Listing Sheet, 2 copies.
1 List Ship's Pets. QA4. If any pets, including any animal, bird or fish on board to be accompanied by 1 pink QA5.
5 Copies Crew List. Company type. (Customs 3, G.M.L. 1 and Agent 1).

Identification Card. Form M315. One per crew member, except as detailed below.

With reference to Seamen's Identification Cards, a Passport size photograph of the seamen is sufficient. A side-face photograph is not required. Seamen in possession of the following National travel documents are no longer required to have an Identification Card in Commonwealth of Australia Form M315.

Canada	Passport or Seaman's Identity Certificate
Chile	Passport or Seaman's Book
Denmark	Seaman's Book
Fiji	Passport or Seaman's Certificate of Nationality and Identity
Ghana	Passport or Seaman's Certificate of Nationality and Identity
Hong Kong	Seaman's Identity Book
India	Seaman's Identity Book
Iran	Passport or Seaman's Identity Card.
Israel	Seaman's Book
Italy	Libretto de Navigaziona
Japan	Mariners Pocket Ledger
Kenya	Passport or Seaman's Identification Certificate
Lebanon	Passport or Seaman's Identification Certificate
Malaysia	Passport or Seaman's Identity Card
Malta	Discharge Book
Nauru	Seaman's Document of Identity
New Zealand	Identity Book
Norway	Seaman's Document of Identity
Pakistan	Seaman's Identity Card or Continuous Discharge Certificate
South Africa	Seaman's Record Book and Certificate of Discharge or Seaman's Identity Certificate or Certificate of Naturalization or Identity
South Korea	Seaman's Certificate Book
Taiwan	Passport or Seaman's Book
Tanzania	Passport or Seaman's Book
United Arab Republic	Passport or Seaman's Book
United Kingdom*	Passport or Seaman's Record Book and Certificate of Discharge

*United Kingdom Passports may be held for surrender only if grantee is agreeable, otherwise an Australian Identification Card must be available.

Masters are reminded that crew members' travel documents and Commonwealth of Australia Forms M315, where applicable, are to be retained in the custody of the Master at all times and are to be produced to Customs Boarding Officers upon demand.

PILOTAGE: Pilotage is under the control of the Harbour Master and is compulsory for all overseas vessels and for Australian vessels over 6,500 g.r.t. Pilots will board vessels either by helicopter or pilot boat.

Boarding by helicopter – requirements for night operations:

(a) Within the hatchtop area there shall be a termination area consisting of a square having sides with a minimum length of 38 ft. 6 in.

(b) Surrounding the termination area there shall be an area not less than 35 ft. in width in which there shall be no obstructions likely to hazard the rotor-systems.

(c) The combined termination area and obstruction free area shall constitute the helipad area.

(d) Within the termination area there shall be no obstructions likely to hazard the flotation systems.

(e) The touchdown area shall be so situated witnin the termination area that when the floats are positioned within the touchdown area, the main rotor shall be contained within the termination area.

(f) The perimeters of the termination area shall be masked with white reflective tape having a min. width of 5 in. (under review). This tape is made by the 3M Company and is designated Scotch Lane Brand Pavement Marking Stripe No. 5620 and comes in 150 ft. rolls. A primer No. 4448 will be required to give suitable adhesion.

(g) Any minor obstruction on the hatchtop shall be marked in a distinctive colour.

(h) The approach paths to the helipad and across both sides of the ship shall be free of obstructions above hatchtop level.

(i) The helipad shall be illuminated with floodlights positioned at both wings of the ship's bridge with the beams crossing over the helipad.

All crew members should be kept clear of the landing area and should not attempt to approach the helicopter unless requested to do so. When the pilot has disembarked an officer should be available to guide the pilot to the bridge.

Vessels which are selected for night operations will be visited by the helicopter pilot who will indicate the precise markings required and will advise Masters with regard to any questions that they might have. The helicopter to be used is a Bell 471-2A weighing 2,200 lb.

Requirements for day operations:

These are similar to night operation requirements and at the discretion of the helicopter pilot.

Boarding by Pilot vessel:

It is most important that a lee be given to allow the Pilot to board, whether the vessel be under way or at anchor. In the latter case with the anchor still down, a steady ahead movement on the engines with the helm hard over usually affords the necessary lee. Failure by the Master to afford a lee may result in the Pilot being unable to board, with consequent delay.

Vessels will be advised of Pilot Boarding and in the interest of expediency whenever required, vessels should be under way before the Pilot boards. Pilot ladders should be clean and properly constructed, fitted with spreaders to prevent turning and spacing pieces to maintain treads in a horizontal position. Manropes of 3 in. Manila should be rigged on each side of ladder and the full length thereof.

Where pilot ladders are led over bulwarks, suitable stanchions should be rigged and steps provided inboard. In addition to cleanliness of the pilot ladder on arrival, *the gangway or accommodation ladder must be washed down after completion of loading,* before the Pilot boards for departure.

Unless the ladder is satisfactorily washed down and free of ore dust, Pilot may refuse to board with resultant loss of time and expense until ladder is washed down to Pilot's satisfaction. Failure by Masters to comply with these requirements in the past in Australian ports has resulted in delays and off-hire situations in the case of time chartered vessels, heavy fines for the Master plus court costs and substantial compensation for the injured against the owners.

A boat rope is not required at this port.

Shipmaster's Report: There are well defined instructions for ships embarking Pilots by helicopter by day or night, however, the Pilot said that our ship was unsuitable for this operation owing to our corrugated hatch tops.

Boarding by boat, the Pilot requires a good lee at all times. Anchored vessels taking a Pilot should get underway before the Pilot boards. Pilot ladders should be clean and properly constructed, fitted with spreaders to prevent turning and spacing pieces to maintain treads in a horizontal position. Manropes of 3 in. manilla should be rigged each side of the ladder and the full length thereof.

In addition to the cleanliness of the pilot ladder on arrival, the gangway or accommodation ladder must be washed down after completion of loading, before the Pilot boards for departure.

Unless the ladder is satisfactorily washed down and free of ore dust, Pilot may refuse to board with resulting loss of time and expense until the ladder is washed down to Pilot's satisfaction. Failure by Masters to comply with these requirements in the past in Australian ports has resulted in delays and off-hire situations in the case of time-chartered vessels, heavy fines for the Master plus court costs and substantial compensation for the injured against the owners.

ANCHORAGE: Vessels should anchor North of a line between Spoil Ground Buoy (flash red every 20 seconds) and No. C 6, as the area immediately North of this line is the Pilot boarding area. The bottom is sandy but the holding ground reported to be good.

A prohibited anchorage exists, bounded as follows: From No. 15 buoy (20° 14′ 46″ S. 118° 34′ 00″ E.) 309° 1.63 miles, thence 046° 2.00 miles, thence 180° 2.31 miles to No. 16 Beacon (Lat. 20° 14′ 4″ S. Long. 118° 34′ 00″ E.).

RESTRICTIONS: All Channels from seaward as far as the Swinging Basin are dredged to 12.8 m. below datum, and 183 m. wide in the straight sections, widening to 244 m. on curves. The N.W. section of Swinging Basin is dredged to 8.84 m. below datum. Total width of Basin is 600 m.

MAX. SIZE: Max. size vessels entered: Length 1030 ft. d.w. 167,000 LT. Draft 55 ft. Vessels over 925 ft. are normally not handled at night.

The official scale of keel clearances required for Port Hedland is as follows:

Draft of vessel	*Clearance inside harbour*	*Clearance outside harbour*
Up to 12.3 metres	1.0 metre	1.2 metres
12.3 to 12.5 metres	1.2 metres	1.5 metres
12.5 to 13.1 metres	1.2 metres	1.8 metres
13.1 metres and over	1.2 metres	2.1 metres

Arrival Draft: The Harbour Master has instructed that vessels arriving at Port Hedland should trim to 17 ft. forward, and 21 ft. aft for 50,000 tonners, increasing to 24 ft. forward and 26 ft. aft for 100,000 tonners. Other vessels should retain max. ballast and advise their draft to the Harbour Master, 24 hrs. prior to arrival.

PRATIQUE: The Quarantine Officer will board by the gangway which should be turned out and rigged ready for lowering prior to entering the harbour. Vessels should show the appropriate pratique signals whether by day or night. Only in exceptional cases at the convenience of the Health Department will vessels be boarded by the Quarantine Officer to seaward of Hunt Point. The Quarantine Officer will inspect the crew on arrival at the berth.

Vessels may be cleared at any time during the day or night subject to the Quarantine Officer being available and willing to do the clearance, and providing the Master forwards a radio message not more than 24 hrs. before arrival giving following details.

(a) The expected hour and date of arrival of the vessel.

(b) Confirmation that the Master has individually inspected all on board within 24 hours of arrival and that there are no cases of febrile illness (high temperature or fever) or skin rashes on board.

(c) Particulars of any cases of illness on board.

(d) Confirmation that all persons on board are satisfactorily vaccinated against smallpox (i.e. vaccinated not less than eight days and not more than three years previously in the case of primary vaccination and not more than three years previously in the case of revaccination). A vaccination register, signed by the Master

or individual international certificates for all crew members, must be retained on board, and all passengers should have International Certificates of Vaccination.

Vessels may proceed direct to the berth to await clearance there, subject to the requirements specified above, and providing that adequate security is provided to ensure that there is no contact between ship and shore prior to the granting of pratique. Under no circumstances must anybody be permitted to leave the vessel and have contact with shore until the vessel has been granted pratique. This also includes the Pilot. There is no objection to the Pilot, Customs and Immigration Officers boarding the vessel before the Quarantine Officer, providing they remain on board until pratique is granted.

If the Quarantine Officer is not available because of medical emergencies ashore, the vessel may be permitted to go alongside and commence loading, providing there is no physical contact between any person on the ship with the shore, until pratique is granted, excepting the special provisions made in the preceding paragraph. Rat guards are required on all mooring lines.

RADIO/VHF: Vessels trading Japan to Port Hedland use Sydney, Darwin and Broome Radio Stations. There is no Radio Station in Port Hedland. Broome Radio transmits navigation warnings including alterations to buoy positions in the approach to Port Hedland.

Vessels bound for Port Hedland should advise the Harbour Master 48 hours and 24 hours before their arrival, indicating their draft, fore and aft, and last port. A continuous watch is kept in the Port Shipping Control Tower, which is fitted with VHF, and vessels should call "Port Hedland Harbour" on Channel 16, 2 hours before arrival at anchorage to confirm their ETA and in order that they may be kept acquainted with berthing instructions and the movement of other vessels. The Tower will also assist ships by giving them their bearing and distance by radar from the Tower. No ship may enter the dredged channel or depart from any berth without permission from Port Control. Signals will be exhibited from the Tower at night to indicate if the port is closed and the state of the tide. The height of tide is no longer indicated, but such information is available and will be transmitted to vessels by VHF or Aldis upon request.

Vessels equipped with VHF should guard Channel 16 (156.8 Mc/s) when in range of Port Hedland, and also whilst at anchor. This channel is in direct communication 24 hours a day with Port Control (call sign "Port Hedland Harbour") and will avoid superfluous launch trips to advise Masters of changing conditions. Visual signals may be used in addition to a constant VHF watch. Should the Master of a vessel at anchor wish to communicate by VHF with another vessel, then he must first advise "Port Hedland Harbour" who will allot him a working channel.

TUGS: Five tugs, each of 2,400 h.p., are available. A sixth anticipated. Line-running launches and ferries are also available. Two small tugs of about 350 h.p. are also available.

BERTHING: Due to the tidal range and strength of current, ships over 10,000 d.w.t. do not sail on the ebb tide. When the tidal range is more than 19 ft. no ships sail on the ebb. Vessels usually berth close to low or high slack water.

Goldsworthy Pier: This is situated on the Western side of the Harbour on Finucane Island, and lies S.W. of Hunt Point Beacon (No. 29). The face of the jetty extends over a distance of 177 m. and lies in the line 017–197° (T) and consists of six breasting dolphins, each of which has a floating fender unit. There are two dolphins ahead and astern of the jetty to facilitate the mooring of vessels. These dolphins are set back from the line of the berth face and have no fenders.

The distance from the No. 1 or North Dolphin to the No. 10 or South Dolphin is a total of 378 m. and the dredged mooring basin 366 m. long, 61 m. wide, has a depth of 15.85 m. below datum. The shiploader has an overall length of travel of 180 m. and a max. capacity of 4,500 t.p.h.

Fresh water and fuel are not available at this berth.

Vessels will normally berth port side to, heading out to sea. Ship's gangways should be rigged prior to berthing on the off-side as gangways are not acceptable on the jetty. A launch service is available to ferry personnel to the town. Ship's personnel are not allowed on the loading facility. Provision for a future second loading berth ahead of the existing jetty has been made.

The height of the shiploader underside in the raised portion above chart datum is 23.1 m. The loader is not completely retractable behind the berth face but retracts to a position 0.84 m. behind the fender line.

No. 1 Berth. This landbacked berth lies in a 350°–170° direction and has a length of 213 m., with a mooring dolphin 58 m. from the Northern end. Depth alongside is 12.2 m. A dry cargo storage shed adjacent to the berth has a floor area of 5,300 sq. ft. and general cargo will be handled by fork lift vehicles to and from the vessel. Provision for tanker berthing. Provision for heavy lift crane/and/or bulk handling installation in the future.

Stack load on berth 3,418 kg/m^2. Fork lift capacity 27.2 m/t. Max. axle loading 8 tonnes on dual axle. Raykin fender system.

Oil fuel, fresh water and telephone are available at the berth.

No. 2 Berth: A wooden jetty at Mangrove Point forms No. 2 Berth. The jetty runs in a direction 345°–165° (T) for a distance of 121 m. Depth alongside is 6.7 m. below datum, but siltation does occur and this may, at times, be reduced.

Cargo is handled by fork lifts and/or road trucks to a cargo receival shed a short distance away. The berth is equipped to receive bulk fuel. Limited grades of bunkers and fresh water are available. Fresh water can be supplied at the rate of 35 t.p.h., and bunkers at 80 t.p.h. Amounts of 200 tons of water are always available, and vessels requiring more than this are requested to give at least 48 hours prior notice, through their Agents.

The No. 2 Berth is also used for the loading of manganese by means of a bulk loader giving a loading rate of approximately 200 t.p.h. The loader has a small range of travel and it is usual for the ship to warp itself up and down the wharf as required. On the ebb tide, strong currents run through the Southern end of this berth at approximately 45° to the line of the wharf. Masters must ensure that mooring lines are properly tended at all times as, in addition to the strong currents, large iron ore carriers of up to 160,000 d.w.t. pass this berth. A pipe-line for loading bulk drilled mud is fitted and is operated by a private company.

No. 3 Berth: No. 3 Berth is situated to the South of Mangrove Point and runs in a 117°–297° (T) direction for a distance of 183 m., with dolphins 46 m. ahead and astern to facilitate the mooring of vessels. There is a mooring basin 274 m. in length dredged to 12.20 m. below datum alongside the berth and dolphins.

Cargo is handled by form truck into the sheds or storage area at the rear of the shed, or loading direct into road truck. The full length of the wharf is protected by a fender system.

A mechanical bulk-loading facility is operated by the Leslie Salt Company on this wharf. The loader has a capacity of 1,500 t.p.h.

Fresh water is available at normal rates of 35 t.p.h. Bunkers can be obtained at rate of 100 t.p.h. Provisions for tanker berth.

Mount Newman Piers A and B: These two berths form a continuous line running in a 117°–297° (T) direction from a position immediately South of No. 3 Berth towards Nelson Point. Pier A is the Northward berth and extends for a distance of 305 m., the depth alongside being 18.29 m. Pier B, the Southward berth, has a length of 353 m. and is dredged to a depth of 17.07 m. below datum.

The two shiploaders are fully retractable and have an average capacity of 6,000 t.p.h. each. No. 1 loader, at "B" Berth, has a boom reach of 28 m. from the wharf face, and the height of the underside of the loader is 23.5 m. above datum. Loader No. 2, "A" Berth, has a boom reach of 29.6 m. and a height above datum of 26.5 m. Vessels will normally swing on entry and berth starboard side to on these berths. Starboard gangways should be rigged prior to arrival so that no delay is incurred in the boarding of Quarantine and Customs Officials on berthing.

Bunkers are not available on these berths.

MEDICAL: Medical attention may be arranged through the Agent. No person will be attended unless he is provided with a letter from the Master authorising such treatment. All charges incurred will be charged to the vessel.

DENSITY: Average 1026.

REPAIRS: Minor repairs only can be effected. Radio and radar technicians, electricians, plumbers, welders and divers are available. There are a number of machine shops and a foundry is being constructed. Sand-blasting equipment and fumigation facilities are available.

AIRPORT: Daily jet flights to Perth and regular services to Darwin are available. In addition, there are several small charter planes available. Airport 7 miles from port.

CONSULS: At present, there is no Consular representation at Port Hedland.

TIME: GMT plus 8 hours.

SURVEYORS: Department of Transport Surveyor, Captain J. Cook. Tel. 732598 (also acts as Shipping Master). Classification societies situated in Perth.

POLICE/AMBULANCE/FIRE: Police 731444; Ambulance 731800; Fire 731222; Hospital 732144.

CARGO GEAR: Ship's gear used. Mobile cranes up to 31 tons capacity may be hired. Crane of 120 tons capacity owned by Mount Newman Co. Fork lifts of 4,000 lb., 8,000 lb. and 10,000 lb. available.

TANKERS: *Connections:* Ten-inch lines with 8 in. flexible hoses. Discharge rates depend on grade and consignee.

Local Installations: Mobil, Shell, B.P., Caltex and Ampol.

CERTIFICATES: The following documents should be available for inspection:

Ship's papers, including the following certificates:

(a) Register.
(b) Load Line.
(c) Safety Equipment.
(d) Safety Radio.
(e) Safety Construction.
(f) Australian Light Dues Receipt.
(g) Articles of Agreement and Account of the Crew (or equivalent).
(h) Oil Record Book.
(i) Register of Cargo Gear.
(j) Gas Free Certificates for Obo's.
(k) Western Australian Conservancy Dues Receipt (Port Bill).

Valid Deratisation or Exemption Certificate.

Crew's Identity Documents.

International Vaccination Certificates of all persons aboard as well as crew list giving vaccination dates.

STOWAGE FACTORS: Basis most recent experience, stowage factors of iron ore cargoes loaded at Port Hedland have been approximately as follows, per ton of 2,240 pounds: Lump ore approx. 15 cu. ft. Fines approx. 13 cu. ft.

However, as these factors sometimes vary from cargo to cargo, it is recommended that Masters check with loading Agents for each shipment before finalising stowage plans,

GENERAL: If the Master wishes to anchor outside prior to proceeding to sea, he must advise the Pilot when leaving the berth, and the Pilot will advise suitable anchorage. The Master will advise the Pilot of estimated time of departure in order that this may be reported to the Port Control.

DELAYS: Delays of port operations, including delays of other

vessels waiting for berth, caused by a vessel which for any reason is not prepared and able to move from the berth when so ordered, are chargeable to the vessel which causes such delays.
STORES: Ship Providores, Elder Smith Goldsborough Mort Ltd. of Port Hedland, were able to provide a varied and comprehensive service, particularly in catering stores. Despite the fact that most foodstuffs have to come 1,000 miles from Perth, this firm have large storage and refrigeration facilities in Port Hedland and have no difficulty in satisfying most ships' requirements, particularly dry stores and refrigerated meats and fish. The only difficulty is with Muslim killed meats, in order to fulfil any orders for this commodity they require seven day's notice, as the meat has to be ordered from Perth. All other stores can be ordered after berthing.
AUTHORITY: Port Hedland Port Authority.
AGENT: Sub-agents of Patrick Agencies, Fremantle.

PORT KEMBLA, N.S.W.: 34.28 S. 150.54 E.
(See Plan)

PORT LIMITS: In the absence of any specific clause in the Charter Party, the local custom is that a vessel, having obtained pratique, is considered to be an "arrived ship" when it is anchored off the port.
CERTFICATES/DOCUMENTS/HEALTH/CUSTOMS ALLOWANCES/CARGO GEAR: See "Melbourne".
PILOTAGE: Pilotage is compulsory for all foreign vessels and Australian Masters without an exemption; this service operates 24 hours per day. When entering or leaving the Inner Harbour, the Pilot requires 3 ft. clearance under the keel. Pilots equipped with VHF.
The pilot boarding station is at the Wollongong Head Light House, bearing 310° – distance 1.25 miles from Harbour entrance.
RESTRICTIONS: An artificial harbour, formed by two breakwaters with an entrance of 1,000 ft. and a depth of 50 ft. ISLW at the entrance. Leading from the Outer Harbour there is an inner harbour basin, which is entered through a 370 ft. wide Channel, having a depth of 36 ft. ISLW. The port consists of two harbours, locally referred to as the Outer Harbour and the Inner Harbour. In the Outer Harbour the swinging basin is approximately 1,500 ft. with a min. depth of 35 ft., and in the Inner harbour the swinging basin is approximately 1,200 ft. with a min. depth of 36 ft. Major deepening has already commenced at the Inner Harbour. It is intended to deepen the entrance Channel from the Outer Basin to the Inner Basin to 50 ft. and the Inner Harbour Discharge Berths to the same depth. The Coal Berth and the Multi-purpose Berth to be dredged to 43 ft. This work is anticipated to be completed by the end of 1975.
MAX. SIZE: The $A18 million deepening project at Port Kembla has been completed and the Port can now handle vessels in the 100,000 d.w.t. range for ore discharge. The depths are now as follows:
Entrance Channel 50 ft. ISLW.
Iron ore discharge berths:
No. 1 Depth alongside 43 ft. ISLW.
No. 2 Depth alongside 52 ft. ISLW.
The Harbour Master has advised that vessels should be able to operate with a maximum load draft of 48 ft.
PRATIQUE: Quarantine service is available 24 hours a day with all vessels being granted pratique alongside the berth.
RADIO: A continuously manned communication centre maintains constant contact with the Pilot, pilot tender, tugs and launches. In addition, a VHF radio-telephone system (operated by the Central Control Point in Sydney) provides communication for vessels at sea or under the control of a Pilot.
Whilst anchored off the port of Port Kembla, it is necessary to maintain radio watches, as officially a vessel is at sea until entering the breakwaters into the port.
TUGS: At the present time three tugs are available, 24 hours per day, provided previous notification is given.
The tugs have bollard pulls ranging from 42 to 17.5 tons.
BERTHING: Outer Harbour:
No. 2 Jetty – South side: bulk discharging berth for Australian Iron and Steel Pty Limited, exclusively for ironstone, limestone and other raw materials used in the manufacture of steel. Depth of water alongside, 32 ft.
No. 3 Jetty – General Cargo Berth: depth of water ranging from 33 ft. seaward end to 13 ft. shore end.
No. 4 Jetty – General Cargo Berth: depth of water ranging from 36 ft. seaward end to 16 ft. shore end.
No. 5 Jetty – Used exclusively for the discharge of bulk petroleum products. It is situated on the southernside of the breakwater, and can accommodate vessels up to 600 ft. length, depth alongside 35 ft. This berth is also used for bunkering however, no priority is given for bunkering ships over tankers.
No. 6 Jetty – General Cargo Berth: depth of water ranging from 33 ft. seaward end to 24 ft. shore end.
Inner Harbour: Four of the six wharves in the Inner Harbour are privately owned, three by the Australian Iron & Steel Pty Limited and one by Australian National Line.
AIS No. 1 Loading Berth – depth 36 ft.
AIS Discharge Berth – this berth is serviced by two 15-ton capacity grabs capable of 500 t.p.h. each, and has both road and rail transport. It is actually a continuation of the loading berth and also has one coal/coke loader, capable of a loading rate of 600 t.p.h.
AIS No. 2 Loading Berth – depth alongside 40 ft.
Roll-on/roll-off Berth – depth alongside 27 ft.
Coal Berth – length of berth 704 ft. The coal or coke is loaded by means of a travelling gantry, with trimmer. The unit has been designed for a loading rate of 2,000 tons of coal or 800 tons of coke per hour, and the trimmer for loading vessels to 110 ft. beam. The average rate is approximately 1,250 tons coal and 550 tons coke per hour. The loading boom (in the horizontal position) and loading chutes will clear the hatch coaming at 57 ft. above ISLW. Also see "Developments".
Multi-purpose Berth – can accommodate vessels up to 700 ft. length, depth alongside is 38 ft.
TANKERS: Max. size of vessel 600 ft. length, 32 ft. draft.
BULK CARRIERS: Due to the length of large bulk carriers, Pilots require additional under-keel clearances which will limit departure drafts at the port to the following:
32 ft. 9 in. plus tide for vessels 750-800 ft. LOA.
32 ft. 6 in. plus tide for vessels 801-850 ft. LOA.
32 ft. 3 in. plus tide for vessels 851-900 ft. LOA.
The above figures are based on a Channel depth of 36 ft. ISLW.
DENSITY: Average 1025.
STEVEDORES: The Australian Stevedoring Authority controls labour in the port, the present total strength being 483 men.
Working times:
1st shift: 0730 to 1430 hrs. – Monday to Friday, Sunday
2nd shift: 1500 to 2200 hrs. – Monday to Friday, Sunday
3rd shift: 2300 to 0600 hrs. – Monday to Friday, Sunday
1st shift: 0730 to 1130 hrs. – Saturday only
or: 0730 to 1430 hrs. – Saturday only.
There are sufficient forklifts, tractors, bulldozers, etc., available to handle all general and bulk cargoes as necessary.
FRESH WATER: Fresh water is available at all berths.
FUEL: Furnace and diesel oil is obtainable by pipe-line at the inflammable liquid berth and No. 6 Jetty and also at the AIS discharge berth and AIS No. 1 loading berth. Limited quantities are available by road tanker at No. 3 jetty, the coal loading berth and the multi purpose berth. No bunkering barges are available.
Delivery capacity by pipe-line is approx. 120 t.p.h. Delivery capacity by road tanker is approximately 20 t.p.h.
MEDICAL: There are sufficient doctors, dentists, etc., to handle all eventualities; also two well equipped modern hospitals.
REPAIRS: There are no drydocking facilities, but several marine engineering companies operate here, who can handle most types of repairs.
HOLIDAYS: See "Sydney".
GANGWAY/DECK WATCHMEN: Carried out by crew.
OPENING/CLOSING HATCHES: Crew/stevedores.
CREW IDENTIFICATION: See "Melbourne".
TIME: GMT plus 10 hours.
AIRPORT: Kingsford Smith International Airport, Sydney.
DEVELOPMENTS: The Minister for Public Works has announced a plan for an offshore coal loader at Port Kembla to accommodate 250,000 tonne vessels.
Meantime, coal loaders will benefit from the increased depth in the entrance channel as although the depth alongside the coal berth remains at 38 ft., by working on the rising tide, sailing drafts of 41 ft. or more will be possible.
TELEPHONES: Pilot station 40761; Signal station 41089. Telephones available.
AUTHORITY: Maritime Services Board of NSW.
AGENT: Patrick Agencies, Foreshore Road, P.O. Box 83, Port Kembla, N.S.W. 2505. Cables "Rikpat". Tel. 74–2267 and 74–1637. Telex AA 29025.

PORT LATTA, Tasmania: 40.51 S. 145.23 E.
DOCUMENTS:
4 Crew Lists, Commonwealth No. MSL.
1 Customs Store List, Commonwealth No. 42A.
1 Personnel Effects, Commonwealth No. 5.
1 Quarantine/Animals, Commonwealth No. QA4 and QA5.
1 Smallpox Vaccination Register.
PILOTAGE: Compulsory pilotage from anchorage to berth. Pilot remains on board throughout loading. Pilot station equipped VHF radio Channels 16, 12 and 6. Pilots and line boats stationed at small boat harbour, Port Latta. Pilot boards at anchorage. Vessels communicate with Port Latta Marine Department on normal ship-shore frequencies, through Australian coastal stations, addressing message to "Pickands Burnie" prefixed "Shipserv". ETA required 10 days, 2 days, 1 day prior. Accommodation ladder to be rigged and ready on port side.
ANCHORAGE: 1 mile radius from point with Rocky Cape Light. Bearing 130° (T) × 5 miles (16 fthms).
RESTRICTIONS: Vessels berth on arrival day or night, weather permitting. Approach channel and depth alongside berth 50 ft.
MAX. SIZE: Length, 900 ft. LOA; beam 130 ft.; draft 50 ft.; 9 ft. range of tide.
HEALTH: Commonwealth appointed health doctor will board on arrival, weather permitting, for crew inspection. Doctor requires 1 copy Crew List and 1 copy Smallpox Vaccination Register. Doctor boards only when Port Latta first port of call.
RADIO: Radio messages addressed to "Shipserv. Pickands, Burnie" and Agent.
TUG: Will join vessel at anchorage. Tug stationed at Port of Stanley and will stay with vessel throughout loading. The use of tug or ship line is at discretion of Pilot. No extra charge made for use of tug lines.
BERTHING: Vessels berth port side alongside using starboard anchor. Lines required: Six 120 fathom lines and one wire backspring at each end of vessel. 1 berth where vessel moors to

buoys and alongside 2 dolphins. A 6,000 ft. long steel structure carries ore conveyor to 2 ship loaders each protected by a dolphin.

Minimum depth of water in berth and approaches 56 ft.

MEDICAL: Minimum of 24 hours notice required by Agent to arrange doctor. Hospitals situated at Smithton, 19 miles; Wynyard, 25 miles.

TANKERS: Berth at anytime. Hose 10 in. diameter, discharge line only, no facilities for receiving ballast or slops. Maximum permitted draft 45 ft.

DENSITY: 1025.

FRESH WATER: Limited quantity from tug – 40 tons.

FUEL: Not available.

FIRE REGULATIONS: Standard Mines Department fire regulations.

OPENING/CLOSING HATCHES: Ship's responsibility.

CERTIFICATES: Required: De-rat., Safety Equipment, Load Line, Registered Tonnage.

CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes or 8 ozs. tobacco per man. Wine/Spirit, 1 quart per man, bottle/bottles must be unsealed.

CARGO GEAR: None required.

IDENTIFICATION CARDS: See "Melbourne".

CONSULS: No consulates.

REPAIRS: Minor repairs can be carried out by local contractors.

REPATRIATION: Agents can arrange repatriation and crew changes.

AIRPORT: Nearest airport 25 miles at Wynyard with daily domestic flights to mainland for international flight connections.

TIME: Local time on Eastern Australian Standard. GMT plus 10 hours. Tasmanian Summer exists between October and March, GMT plus 11 hours.

HOLIDAYS: Cargo loading continuous throughout public holidays.

POLICE/AMBULANCE/FIRE: Police, Stanley 40; Ambulance, Smithton 2-1221; Fire, Forest 58-3123.

TELEPHONES: No arrangements available for placing phone on board ship. Use of company phone can be arranged for business matters.

SHORE LEAVE: Shore leave is allowed provided sufficient crew remain on board to handle vessel for clearing berth.

AUTHORITY: Port Latta Marine Department.

AGENT: Sub-agent of Patrick Agencies, Melbourne.

PORT LINCOLN, S.A.: 34.47 S. 135.54 E. (See Plan)

DOCUMENTS: See "Melbourne".

PILOTAGE: Compulsory. Pilot boards 1.5 miles South-east or East-south-east of Boston Point.

APPROACHES: Depth in approach Channel 30 ft.

BERTHING: Kirton Point Jetty oil tanker berth at "T" head, berthing space 900 f. (275 m.), depth 32 ft. (9.75 m.). Shipping pier depth 27 ft. (8.2 m.) and 28 ft. (8.5 m.). Bulk grain loading berth 670 ft. (204 m.) long, depth 32 ft. (9.75 m.). Max. beam permissible 80 ft. (24.4 m.). Broken Hill Jetty (Proper Bay) jetty and berth with mooring dolphins. Distance between outer dolphins 882 ft. (270 m.). Depth 34 ft. (10.4 m.) MLWS. Loading rate 1,900/2,000 t.p.h. Max. beam permissible 80 ft. (24 m.).

FUEL: Not available.

FRESH WATER: Available at jetty and shipping pier. Not available at Broken Hill (Proper Bay) berth,

TUGS! 1 tug available.

VHF: Radio telephone in operation.

DEVELOPMENTS: Two new berths are being constructed as a 600 m. extension of the Shipping Pier. The outer berth will accommodate bulk grain vessels up to 70,000 d.w.t. and the loading rate will be 2,000 tonnes per hour. The inner berth will accommodate vessels up to 35,000 d.w.t. discharging phosphate rock imports. The grain berth is expected to be completed late 1976.

The initial depth of water at the two berths will be 15.0 m. low water. Depth of approach channel 14.4 m. The berths will be able to accommodate any length of ship commensurate with the available draft. So far as beam limitation is concerned the loading booms are being designed to accommodate vessels of 100,000 d.w.t.

AUTHORITY: Department of Marine and Harbours, Adelaide. For Proper Bay: Broken Hill Proprietary Co. Ltd.

AGENT: See "Adelaide".

PORT PIRIE, S.A.: 33.10 S. 138.02 E. (See Plan)

CERTIFICATES/DOCUMENTS/HEALTH: See "Melbourne".

PILOTAGE: Pilot boarding station is one mile N.W. of Eastern Shoal North Beacon. Regulation pilot ladder secured four steps up from water and manropes required. Boat ropes not required.

The port serviced by VHF in the following ways: Port Pirie Harbour Master in office hours or Watchman outside office hours, all have Channels 6, 12 and 16. Pilot Launch *Matthew Flinders* Mooring Launch *Tarparrie*; Motor tug *Tenacious* (11 ton pull); Motor Tug *Ungara* (11 ton pull).

The Pilot will board at any time, but the Channel is only navigated inward bound during daylight hours.

RESTRICTIONS:

1. Departure during darkness:—
   (a) Conventional Vessels (Bridge amidships) maximum 550 ft. LOA 80 ft. Beam.
   (b) Bulk carriers (bridge aft) maximum 530 ft. LOA 80 ft. Beam.
2. *Beam*
   (a) Up to 70 ft. Beam – 2 ft. under keel leaving berth on rising tide.
   (b) Over 70 ft. Beam – 3 ft. under keel leaving berth on rising tide.
3. *Tankers*
   (a) Are not permitted to enter or depart during hours of darkness.
   (b) Required to stop pumping when other vessels passing.
   (c) Tug required on standby whilst white spirit tanker or non gas-free tankers in port.

River channel has a maximum width of 200 ft., dredged to a depth of 21 ft. L.W.O.S.T. Vessels drawing up to 27 ft. 6 ins. on maximum spring tides can navigate the channel safely.

MAX. SIZE: LOA 580 ft. (176 m.) BP 550 ft. (167 m.) Draft 21 ft. (6.4 m.) plus height of tide less keel clearance.

RADIO: VHF (see Pilotage).

TUGS: Tug will be required for vessels of 410 ft. (125 m.) and over.

BERTHING: Swing basin approx. 1,000 ft. long 880 ft. wide. Wharfage accommodation 9 ships.

The following accommodation is available.

No. 1	Berth	533 ft.	L.W.O.S.T.	24 ft.	
2	"	600 ft.	"	27 ft.	(Grain shipments only)
3	"	650 ft.	"	24 ft.	
4	"	350 ft.	"	19 ft.	
5	"	640 ft.	"	27 ft.	
6	"	600 ft.	"	27 ft.	
7	"	475 ft.	"	27 ft.	(Interstate ships only)
8	,,	590 ft.	,,	27 ft.	
9	,,	590 ft.	,,	27 ft.	
10	,,	520 ft	,,	27 ft.	

Maximum length of vessels using No. 1 berth is 500 ft.

No. 3 Berth is a "T" head wharf and is used by tankers and if not required can be used as a standby berth.

No. 4 Berth is used as a tie up berth for tugs and S.A. Harbours Board craft.

CRANES: Eight 7.5 ton electric cranes are available as under:—

No. 7 Berth – 2 for concentrate loading (Interstate only).

Nos. 8 and 9 and 10 berths – 6 plus the 2 from No. 7 if not required at that berth.

Two 7.5 ton cranes situated at No. 7 Berth are the property of E.Z. Company and the balance of the 7.5 ton cranes are the property of B.H. Associated Smelters and can only be procured when they are not required by the Company or when it is stipulated in contract, agreement or Charter, that cranes to be supplied.

BULK HANDLING FACILITIES: The boom of the shiploader is 70 ft. (21.3 m.) in length and when lowered to the horizontal position for pouring should plumb the midship line of most ships loading from this machine. The "jet-trimming slinger" at the lower end of the loading chute is capable of throwing a stream of ore some 60 ft. (18.3 m.) through 360 degrees and can be directed to any position within the vessel's hold.

Bulk wheat and barley can be delivered ex-silo on a conveyor belt which is capable of delivery at the rate of 400 t.p.h. Five outlets are available but the maximum is 400 t.p.h.

	Max Draft	Max. Length	Max. Breadth	Handled by
Grain	27 ft. 6 in.	580 ft. OAL 550 ft. BPL	80 ft.	Silo Spouts
Ore	27 ft. 6 in.	580 ft. OAL 550 ft. BPL	80 ft.	Link Belt Ship Loader 300 to 350 t.p.h.

FRESH WATER: Fresh water available all berths at rate of 10–15 t.p.h.

FUEL: The Shell Company, B.P. (Aust.) Pty. Ltd., and Mobil Oil (Aust.) Pty. Ltd., can supply small quantites of fuel oil in drums from Port Adelaide, also in bulk ex-road and rail tankers. No fuel is stored at Port Pirie, all companies' local tanks are petrol, kerosene and dieselene only.

No bunker coal available at Port Pirie.

REPAIRS: Subject special arrangements.

TELEPHONES: Police 32 1200; Fire Department 32 3000; Harbour Master 32 1455.

AGENT: Patrick Agencies, POB 38, 15 David Street, Port Pirie, S.A. 5540. Tel. 32 3222. Cables: "Rikpat".

PORT STANVAC, S.A.: 35.06 S. 138.28 E. (See Plan)

DOCUMENTS: The following Australian forms are required at first port of call. If not on board, they must be completed on arrival:

2	copies	Form M & S 11 or M & S 14	(Crew List).
1	,,	,, 42 A	(Store List).
1	,,	,, 5	(Customs Manifest).
2	,,	,, C & E 886	(Ports of Call).
1	,,	,, QA 3	(Cargo).
1	,,	,, QA 4	(Pets).
1	,,	,, QA 5	(not necessary if no pets on board).
2	,,	,, FQ 360	(Health Report).

PILOTAGE: Compulsory. Mooring Master acts as Pilot. On approaching port, contact Port Stanvac Information Station on VHF Channel 16, day or night, for latest orders.

RESTRICTIONS: Approaches from the West, through Investigator Strait; from the East, through Backstairs Passage.

Minimum depth in channel to jetty berth is 40 ft. (12.2 m.). Minimum depth in Channel to Sea Line berth is 60 ft. (18.3 m.).

Height of tide, 9.0 ft. (2.7 m.) HHW, and 4.6 ft. (1.4 m.) LHW.

ANCHORAGE: Crude vessels — with Marino Rocks Lighthouse 065° distance 3.5 miles in 14 fathoms of water.

Product vessels – with Marino Rocks Lighthouse 065° distance 3 miles in 11 fathoms of water.

Not recommended anchor West of sea berth due to presence of sunken barges, although deep water.

MAX. SIZE: At Jetty berth: length 560 ft. (170 m.), draft 32 ft. (9.7 m.).

At Sea Line berth: length 1,000 ft. (305 m.), draft 51 ft. (15.5 m).

RADIO: VHF radio telephone Channels 16, 14 and 9. Call sign "PORT STANVAC". Mooring Master in radio contact with terminal while at berth.

TUGS: Obtainable from Port Adelaide. Normally 1 tug assists berthing.

BERTHING: Jetty extends over a stone causeway and thence north-westward for about 2,000 ft. (610 m.). Causeway is about 1,000 ft. (305 m.) long. The "L" head of the jetty is about 400 ft. (122 m.) long in a N.E. direction, with a depth of 35 ft. (10.7 m.) alongside.

A pipe-line extends about 1,800 ft. (548 m.) from the jetty head in a N.W. direction to the Sea Line berth in a depth of 60 ft. (18.3 m.) of water. At the Sea Line berth vessel moors using both anchors and ship's ropes to 5 buoys aft. In addition, up to 5.5 in. (0.139 m.) wires may be picked up from the sea bed. Use of these wires is recommended as vessel is moored beam on to tidal streams. After westerly storms, berth is exposed to heavy swell.

HOSES: Sea Line berth; two 12 in. (0.3048 m.) hoses connect vessel with 34 in. sea line. A shore gang of fitters joins ship to connect hoses under Berthing Master's supervision. These men are accommodated on board.

Ship's port derrick to be rigged with a single runner. Diver goes under water to connect hose.

Shore tanks situated 120 ft. (36.5 m.) above sea-level, high back pressure to be expected.

FRESH WATER: Fresh water available at the Products Wharf only, at an approximate rate of 25 t.p.h.

FUEL: Fuel and diesel oil available at jetty. Only Bunker "C" available at Sea Line berth.

MEDICAL: Doctor available.

REPAIRS: No facilities for repairs.

TIME: GMT plus 9.5 hours.

BALLAST: Facilities available to receive 12,000 L/T dirty ballast ashore from Product Wharf only.

POLLUTION: No dirty ballast or bilges may be pumped overboard. A maximum penalty for pollution of local waters is $A50,000 plus cost of any cleaning necessary.

REGULATIONS: This Terminal is in an open exposed roadstead. During the time a vessel is berthed at the Terminal, the ship's engines and propulsion machinery should be maintained in readiness to leave the berth under full power at short notice. No repairs which would interfere with this requirement are permitted.

SHORE LEAVE: Allowed. Launch service can be arranged. Crew members not allowed through refinery on foot, must use taxi or approved transport.

SHIPMASTERS REPORT: (March 1976).

Anchorage: Crude tankers normally in position, Marino Light bearing 075°T, distance 3.5 miles.

Moorings: 6 ship's ropes to Buoy No's 1-6 plus a minimum of 4 wires from buoys to ship. Carpenter's stoppers for wires provided by shore.

Hoses: Shore gang connects hoses under supervision of Mooring Master. Ship's crew handle winches. 1 officer to be present. Shore gang is not accommodated on board.

Time: GMT plus 9.5 hours but daylight saving time (plus 10.5 hours) is kept from last Sunday in October until first Sunday in March.

AUTHORITY: Petroleum Refineries (Australia) Pty. Ltd.

AGENT: See "Adelaide".

PORT WALCOTT, W.A.: 20.37 S. 117.11 E. (including Point Samson and Cape Lambert) **(See Plan)**

PORT LIMITS: The port is bounded on the South and West by the coast between the North of the Sherlock River and the Northern extremity of Dolphin Island, including all the intermediate bays, creeks, coves, inlets and navigable waters; on the North by an imaginary line from the Northern extremity of Dolphin Island to the Northern extremity of Delambre Island and thence Southeastward to a position 5 statute miles North of the mouth of the Sherlock River; and to the East by an imaginary line extending 5 statute miles Northward from the mouth of the Sherlock River.

HEALTH/DOCUMENTS: See "Melbourne".

PILOTAGE: Compulsory. No permanent Pilot stationed at Port Walcott. The Harbour and Light Department at Fremantle should be advised of vessel's ETA, with ten days advance notice.

Pilot Ladders, Hoists, etc: On arrival, Pilots will accept a pilot hoist, a pilot ladder not exceeding 9 m. in length, an accommodation ladder if the weather is suitable or a combination of pilot ladder and accommodation ladder.

Owing to swell conditions, a clean pilot ladder is required for departure. This should be rigged so that it is 1 m. above sea level and provided with 2 clean manropes.

This ladder is required to comply with Australian Standard Specification No. 1267 of 1975 which is based on the requirements of the SOLAS Convention and the Navigation Act.

A pilot hoist or accommodation ladder is *not* considered suitable for disembarking.

Whilst in the berth, the appropriate accommodation ladder is used for access to the ship.

ANCHORAGE: A position with Jarman Island Lighthouse bearing 187°, distance 8 miles. The Pilot and Quarantine Officer boards at this position.

Suggested anchorage positions:

Bearings of Jarman Island Lighthouse.

'A'	185°×5.5 miles	depth 11 m.
'B'	190°×6.0 miles	depth 12 m.
'C'	195°×6.5 miles	depth 14 m.
'D'	190°×7.0 miles	depth 14 m.
'E'	195°×7.5 miles	depth 15 m.
'F'	175°×6.5 miles	depth 13 m.
'G'	180°×7.0 miles	depth 14 m.
'H'	185°×7.5 miles	depth 15 m.
'J'	175°×7.5 miles	depth 16 m.
'K'	180°×8.0 miles	depth 15 m.

TIDES: Spring Range is 5.8 m. (19 ft.).

RESTRICTIONS: *Controlling depths* for ore carriers and large tankers, at present (1975) 12.5 m. (41 ft.) at LWOST.

For vessels bound for Lambert Service Jetty – 8.8 m. (29 ft.).

Berthing of ore carriers is usually carried out at about one hour before High Water or 1.5 hours before Low Water.

Owing to tidal peculiarities, berthing at the Lambert Service Jetty is either at about 2.5 hours before HW or 3.5 hours after HW.

MAX. SIZE: Largest vessel to date (March 1976) 227,913 m.d.w.t.

RADIO: VHF is available on Channel 6, 8, 10, 12, 14, and 16 though a continuous watch is not kept. ETAs to be given 10 days, 48 hours and about 24 hours, prior to vessel's arrival. Telegrams should be addressed Shipserve, Harbourmaster Portwalcott.

TUGS: Two tugs are available for use at Cliffs jetties only. Each is 3,200 h.p. with a bollard pull in excess of 50 tons. They are twin screw with Kort nozzles. One lines launch is available. Tugs supply towing equipment.

BERTHING: *Cape Lambert*

Cape Lambert Service Jetty is owned by Cliffs Robe River Iron Associates. The neck is 1,500 ft. long and the berthing head is 510 ft. long. Off each end of the head is a mooring dolphin some 90 ft. away. This permits a vessel of about 625 ft. long to berth. There is a min. depth of 10 m. at LW. The height of the jetty, above LW, is 35 ft. Cargo is handled by ship's gear. The jetty is designed for road transport only. This is not a common-user berth and permission must be obtained from the Port Authority before any cargo, other than C.R.R.I.A. cargo, is handled.

Lambert Ore Jetty is owned and operated by C.R.R.I.A. It extends 8,760 ft. to sea in a 046.75° direction. It is double sided and capable of handling ships up to 170,000 m.d.w.t. The depth of water in No. 1 (South) berth is 57 ft. (17.37 m.) and in No. 2 (North) berth is 63 ft. (19.2 m.). There is a single shiploader designed to operate at 6,000 t.p.h. Ships usually berth 'head out' and are secured to dolphins, parallel to the wharf. These dolphins are 25 ft. (7.6 m.) above low water. The height of the jetty is 61 ft. above low water and the boom of the shiploader is about 100 ft. above LW. The shiploader is capable of travelling over a distance of about 650 ft. (197 m.) but the boom will reach over a distance of about 870 ft. (265 m.). The boom will reach about 72 ft. over a ship.

STEVEDORES: Labour for stevedoring purposes is controlled by the Australian Stevedoring Industry Authority. In 1975, there were about 20 men available. Requests for labour should be made through an Agent or Stevedore. Hours of work are usually 0800–2130 and 2130–0630. This labour operates at Lambert Jetty.

CARGO GEAR: See "Melbourne".

FRESH WATER: Available.

FUEL: Not available.

TIME: GMT plus 8 hours.

STORES: Available by prior arrangement.

GENERAL: Port Walcott is connected by sealed roads to the towns of Wickham, Roebourne, Karratha, Dampier and Port Hedland, each of which has a hospital and other facilities. The sealed road also extends to Perth, some 1,100 miles away.

AIRPORT: At least 1 jet flight per day to Perth from Karratha (2 hours).

TANKERS: Usually berthed 'head-in' at the Lambert Service Jetty as the deeper water (35 ft.) is at the seaward end. Discharge is through an 8 in. pipe-line which is situated about the centre of the berth.

May be 'head-in' or 'head-out' at the Lambert Ore Jetty, using a mooring buoy which is laid some 85 m. (280 ft.) from the outer dolphins, for head or stern moorings. A basin has been dredged to 15.24 m. (50 ft.) to accommodate tankers. Discharge is through either a 24 in. or 12 in. pipe-line via a pair of "Wheaton Arms".

AUTHORITY: Harbour and Light Department, Fremantle. Harbour and Light Department, Point Sampson.

AGENTS: Sub-agent of Patrick Agencies, Fremantle.

PORTLAND, Victoria: 38.20 S. 141.37 E. **(See Plan)**

PORT LIMITS: So much of the waters of Portland Bay as lie Westward of a line bearing due North from Point Danger to the opposite shore of Portland Bay.

DOCUMENTS: Refer to "Melbourne".

PILOTAGE: Compulsory except for exempt Masters. Pilot boards 0.25 to 0.5 mile from main breakwater.

Approach from the West: A safe course into Portland Bay can be maintained by rounding Lawrence Rocks at a distance of 1.5 miles and altering until a course of 330° can be steered, which will clear the Southern side of the Bay between Danger Point and Portland by 1.5 miles. Steer this course until Whaler Point Lighthouse bears 270° about 2.5 miles distant where course can be altered for the harbour entrance.

Approach from East: Is a straight course after rounding Lady Julia Percy Island, 18 miles from the breakwater.

ANCHORAGE: Portland Bay is clear of all dangers and safe anchorage may be found 0.25 to 0.5 mile North and N.E. of the main breakwater and for smaller vessels between the Lee Breakwater and Whaler Reef. Holding ground is good, and excellent shelter is obtained from Westerly weather. Anchoring is not recommended in strong Easterly or South-easterly weather, as there may be a confused sea and swell.

RESTRICTIONS: *The Harbour* is bounded by 2 breakwaters, enclosing 250 acres. The entrance is 800 ft. wide.

Swinging Basin: Between the 2 breakwaters, bounded by No. 6 Berth and the Lee Breakwater.

Depth of water in the harbour is based on a datum of 0.63 ft. above LWOST, which ensures a depth of not less than 36 ft. under all tidal conditions. Mean rise and fall is approximately 2.5 ft. but the prevailing wind has a certain influence on the tide.

MAX. SIZE: The largest vessel to use the port to date was 741 ft. long and 104 ft. beam.

Deepest vessel to use the port to date was with a departure draft of 36 ft. 7 in.

Also see "Tankers".

HEALTH: Portland is a first port of entry. When requiring pratique, inform the Port Health Officer of the ETA, number of crew and passengers and the state of health of the complement. Use the prefix "Shipserv" for all cabled messages. All requirements as for Melbourne.

RADIO: Maritime VHF operating on Channels 12 and 16 is installed in the Harbour Master's Office and on the tugs.

Listening on Channel 16 between 0830 and 1700 hrs. and when shipping is expected.

Radio Advice of Arrival: Address ETA telegrams to the Harbour Master, using the prefix "Shipserv".

TUGS: 1 of 1,600 h.p., 1 of 660 h.p. and 1 of 250 h.p. available.

BERTHING: The main breakwater extends 4,200 ft. in a North-South direction from Battery Point with its Northern extremity in 46 ft. of water. There are 2 berths at the inshore end known as No. 1 and No. 2, K. S. Anderson Wharf.

Depth alongside No. 2 berth, is 36 ft. LW with limestone and sand bottom. Max. draft is 34 ft. 6 in., which may be increased if written application made to Harbour Master, stating the maximum required.

No. 1 Berth is suitable for bulk or general cargoes. It is also used for the discharge of diesel and fuel oil and for bunkering. It is a berth ideally suited for the assembly and handling of containers or unit loads as both road and rail transport can be utilised.

No. 1 Berth has been dredged to 40 ft. depth for a length of 900 ft. and a 40 ft. channel 300 ft. wide is dredged to the entrance. Max. draft 38 ft. Both Nos. 1 and 2 can be used for bulk grain loading

No. 2 Berth is a continuation of No. 1, and is also the grain loading berth with the silos situated at the South end of the wharf, and the loading gantry running along the roof of the shed. 2 travelling ship-loaders operate over the length of the berth; when used simultaneously capacity is 200 t.p.h. each, used singly 400 t.p.h. The berth is also used for discharge of diesel and fuel oil, and as a bunker berth. The tank farm is approximately 0.5 mile distant.

BULK LOADING FACILITIES: Located at No. 1 and No. 2 berth K.S. Anderson Wharf. The loading units consist of two 90 ft. high lateral traversing ship-loaders, for the delivery of bulk grain (oats, wheat, barley, maize and sorghum).

Maximum distance of traverse is 1,111 ft. with telescopic delivery spouts providing an additional 65 ft. at either end. Maximum permissible length of ship unlimited. Additional bollards are situated on main breakwater.

Maximum beam served to date 90 ft. in bulk carrier with wing tanks.

Maximum height above LW of ship's rail to swing spouts inboard 46 ft.

Gross handling rate per hour: oats 400, wheat 600, and barley 500 t.p.h. reduced when trimmers are used.

No. 6 berth is at right angle to K. S. Anderson berths and 450 ft. West. The berth is designed and built for the discharge of bulk cargoes but, as with No. 1 berth, is also used for the handling of general cargo.

It is 750 ft. in length with 36 ft. LW alongside and a clay bottom. Max. draft is 34 ft. 6 in., with the same conditions as for No. 1 and No. 2 berths.

TANKERS: *Lee Breakwater and S. L. Patterson Oil Berth* protrudes in an Easterly direction from point 3.7 cables South of Whaler Point Lighthouse for a distance of 3,870 ft., with its extremity in 40 ft. of water.

The S. L. Patterson Oil Berth is situated on this breakwater about 1,500 ft. from the seaward end.

The wharf is 250 ft. in length and designed for vessels of up to 38,000 tons grt. Depth alongside is 34 ft. low water, with limestone and sandy bottom.

Maximum draft permitted is 32.5 feet.

Berthing and unberthing of tankers is on a 24-hour basis, at the discretion of the Harbour Master. During darkness, a Pilot is compulsory.

The Shell Company of Australia Limited, and Ampol Petroleum (Victoria) Pty Limited have pipe-lines to the berth. Average discharge rate is approximately 300 t.p.h. The tank-farms are 1 mile from the wharf. This wharf can also be utilised as a fitting out or repair berth.

Also see "Berthing".

STEVEDORES: There are 120 registered members available.

Hours of work are from 0800 hrs to 1700 hrs., from 1700 hrs. to 2300 hrs. and midnight to 0700 hrs.

Extended shifts are allowed to be worked to 1900 hrs. each day (except Thursday and Sunday) when no twilight labour is available.

Pallets can be manufactured locally by prior arrangement.

Vessels can be serviced expeditiously under skilled supervision including fitting out for grain, battening out for freezer or general cargo and securing cargoes to departmental requirements. Ample supplies of dunnage are available.

MEDICAL: Medical, dental and optical services are available.

FRESH WATER: Is obtainable in unlimited quantity at all berths at a loading rate of over 20 t.p.h.

FUEL: Can be obtained ex-pipe-line on the K. S. Anderson Wharf for quantities in excess of 100 tons. Vessels can bunker at up to 350 t.p.h. for either grade of oil. Smaller quantities are delivered by road tank wagons.

REPAIRS: Limited to the Trust's workshops and local tradesmen.

GENERAL: *Provisions:* plentiful, good, and available at short notice. Bonded stores are at present only available from Melbourne at approximately 24 hours notice.

AIRPORT: An air service is maintained between Portland and Melbourne. 3 flights daily connecting with all interstate and international services.

TELEPHONES: At all berths. Tanker Berth No. 23.1852.

POLICE/AMBULANCE/FIRE: Fire Brigade 232998; Police 231999; Ambulance 231666; Hospital 231033, after hours, general patients 231400.

AUTHORITY: Portland Harbor Trust Commissioners.

AGENT: Sub-agent of Patrick Agencies.

RAPID BAY, S.A.: 35.32 S. 138.12 E.

LOCATION: On Eastern shore of St. Vincent's Gulf about 55 sea miles South of Port Adelaide.

DOCUMENTS: See "Melbourne".

PILOTAGE: Not compulsory but recommended. Pilot station as for Port Adelaide.

BERTHING: "T" shaped jetty, 1,600 ft. long, "T" head 737 ft. berthing length. Depth 29 ft. MLWS. Loading rate 1,100/1,200 t.p.h. Height of chute above water MLWS 38 ft. The fixed chute extends 32 ft. beyond the jetty fender line.

FRESH WATER: Not available.

FUEL: Small emergency supplies only by road tankers from Port Stanvac.

TUGS/REPAIRS: None.

OPERATIONS: Working hours flexible to suit vessels requirements.

VHF: Available.

AUTHORITY: Broken Hill Proprietary Co. Ltd., Whyalla.

AGENT: Sub-agent of Patrick Agencies, Adelaide.

ROCKHAMPTON, (Port Alma) Queensland: 23.24 S. 150.33 E. **(See Plan)**

CERTIFICATES/DOCUMENTS: All documentation carried out by ship's Agents either in Rockhampton or at main Agent's office. Also see "Melbourne".

PILOTAGE: Agent notifies Pilot of ETA, and boarding time then determined by Pilot, taking into consideration circumstances prevailing.

Pilot boards from 50 ft. white launch. Pilots can be contacted by VHF Channels 8, 12 and 16, or radio-telephone 2182 and 2760 kHz.

RESTRICTIONS: Channel depth 24 ft. LWOST. Berth depth 32 ft. LWOST. Two feet keel clearance required. Max. draft dependent on height of tide.

ANCHORAGES: Anchorage for Port Alma is Timandra Buoy, approximately 13 miles from Port.

HEALTH: Health regulations carried out by Agents. Pratique only necessary when port is first port of call. See "Melbourne".

RADIO: VIR Rockhampton.

TUGS: Tug assistance obtainable if required from Port of Gladstone.

BERTHING: Berth at Pilot's discretion after receiving advice from Agent as to ETA.

Present facilities comprise 950 ft. Concrete Wharf plus Bulk Loading Berth and Conveyor also utilised as tanker berth. All berths depth 32 ft. LWOST.

STEVEDORES: Agent advises Stevedoring Company of ETA. Requisitions to be lodged for labour before 1300 hrs. on previous day. No requisition can be lodged from 1300 hrs. Friday to 1300 hrs. Monday.

MEDICAL: All medical requirements carried out by Agent. Hospital available 40 miles from Port Alma.

TANKERS: 10-inch disch. lines. No slop facilities. 1 berth 32 ft. LWOST.

FRESH WATER: Fresh water available by road transport only, necessitating road haul of 40 miles, average cost $14.00/1,000 gallons.

FUEL: No bunkering facilities available. Installations contemplated in near future. All grades of fuel available by road transport.

FIRE PRECAUTIONS: Usual precautions as laid down by the Marine Board of Queensland.
GANGWAY/DECK WATCHMEN: Crew.
OPENING/CLOSING HATCHES: Crew.
CUSTOMS ALLOWANCE: Under supervision by Custom's Department, 200 cigarettes or 1 lb. of tobacco each 10 days. Wine/Spirits, no definite information available.
CARGO GEAR: As per the Navigation Act. See "Melbourne".
IDENTIFICATION CARDS: See "Melbourne".
CONSULS: Norway telephone 276555.
REPAIRS: Minor repairs only.
REPATRIATION: Facilities available.
AIRPORT: Regular services 43 miles from Port Area.
TIME: GMT plus 10 hours.
HOLIDAYS: Christmas Day, Good Friday, April 25th and Waterside Workers' Picnic Day.
POLICE/AMBULANCE/FIRE: Tel. No. 000. 40 miles distance.
TELEPHONES: No provisions for placing telephone on board ship. Public telephone on Wharf.
AUTHORITY: Rockhampton Harbour Board.
AGENT: Sub-Agents of Patrick Agencies, Brisbane.

SPRING BAY, Tasmania: 42.33 S. 147.56 E.

DOCUMENTS: See "Melbourne".
PILOTAGE: Compulsory. Pilot boards from a tug (black hull, red funnel with black top), on a line joining the Southernmost part of Freestone Point to the Northernmost part of Luther Point (see Chart AUS 170). ETA is usually sent to vessel's Agent 72 hours prior to vessel's arrival and confirmed 24 hours and 6 hours before arrival at the Pilot station. ETA should also be sent to Harbour Master, Hobart, VHF Channel 16, call sign "Hobart Harbour". The tug from which the Pilot boards leaves Spring Bay Wharf 30 minutes before a vessel is due at the pilot station, and also keeps a listening watch on VHF Channel 16.
ANCHORAGE: A good anchorage can be found in depths of 36 to 50 ft. approximately 1–1.25 miles S.W. of Spring Bay Wharf.
RESTRICTIONS: The wharf is used exclusively by vessels loading wood chips from Tasmanian Pulp and Forest Holdings. The main wharf, on which the wood chip loader is situated, is 800 ft. long with additional dolphins (3) and a mooring block for head, stern and breast lines. Ships are normally berthed starboard side to and the port anchor is used approaching the berth. The ship loader is a fixed structure and vessels loading are required to move up and down the wharf using their own lines. At present vessels are only berthed during daylight hours, but may leave during the hours of darkness at the discretion of the Pilot. Should a vessel require to immobilise her engines, application must be made to the Harbour Master; if permission is granted a tug will be required to stand by alongside.
MAX. SIZE: The min. depth alongside the wharf is 35 ft., and the mooring dolphins and ship loading facilities were designed to accommodate specialised ships with an overall length of 685 ft. No difficulty is envisaged in working ships having an overall length of up to 800 ft.
HEALTH: The local medical practitioner boards vessels after berthing and acts for the Commonwealth Department of Health. Immigration/Customs Officers travel by road from Hobart and board after pratique has been granted. Quarantine authorities must be informed of suspected disease or fever at least 18 hours before arrival. Also see "Melbourne".
RADIO: Hobart Radio, call sign VIH. Hours of duty EST (add 1 hour for Summer Time). Monday-Saturday inclusive 0730–1730 hrs. Sunday, 0800–1600 hrs.
TUGS: 1 tug is stationed at Spring Bay. When a ship is due a second tug is despatched from Hobart and remains in the port area throughout the vessel's stay. 1 of the tugs is used to embark and disembark the Pilot as well as assisting in berthing and unberthing. Should tugs be required to stand-by during loading operations an additional charge will be made in respect of crews' wages etc. It is customary to use the tug's lines, for which an additional charge is made.
MEDICAL: A local doctor is available and well equipped health clinics are situated at Triabunna (3 miles) and Orford (7 miles).
DENSITY: 1025.
FRESH WATER: Limited supplies are available from the wood chip factory.
FUEL: None laid on to the wharf. In an emergency limited supplies could be provided by road tankers from Hobart.
FIRE PRECAUTIONS: No special fire precautions other than non-smoking or lighting of fires or use of naked lights.
GANGWAY/DECK WATCHMAN: None available.
OPENING/CLOSING HATCHES: Hatches are opened by the ship's crew.
CERTIFICATES: Register, Load Line Certificate, Deratisation Certificate, Light Dues, Articles of Agreement, Clearance from previous Port.
CUSTOMS ALLOWANCES: See "Hobart".
IDENTIFICATION CARDS: See "Melbourne".
CONSULS: None, see "Hobart".
REPAIRS: No facilities available for major repairs, but the wood chip factory may be able to assist in minor repairs. Local Hobart firms available. See "Hobart".
REPATRIATION: Facilities available through Hobart.
AIRPORT: Hobart Airport is situated 49 miles from Spring Bay Wharf. Frequent services operate to the mainland from where services operate world wide.
TIME: Local time (Eastern Standard Time) 10 hours ahead of GMT. Summer Time in force from October to March when clocks advanced one hour.
HOLIDAYS: See "Hobart". Ships may be loaded on days which are regarded as holidays in Hobart.
POLICE/AMBULANCE/FIRE: Police, 573116; Ambulance, 573129; Fire, 573187.
TELEPHONES: A telephone is connected to all vessels on arrival.
AUTHORITY: Marine Board of Hobart.

SYDNEY, N.S.W.: 33.55 S. 151.12 E. (See Plan)

DOCUMENTS: See "Melbourne".
PILOTAGE: Compulsory. Pilots boarding ground is within 2 miles of entrance to Port Jackson. Pilot vessels fitted with VHF for communication with other ships. Watch maintained on Channel 13 while at sea and messages conducted on Channel 6.
MOVEMENT DIRECTIONS: See under "VHF".

1. Vessel shall not enter port until authorised to do so by Port Operations Officer.
2. Vessel entering port shall report to Port Operations Officer–
   (a) when passing Sea Buoy, Bradley Head, Fort Denison and, where applicable, Longnose Point, and
   (b) as soon as secured at berth or anchorage.
3. Vessel proceeding to sea shall report to Port Operations Officer–
   (a) 1 hour before departure.
   (b) when passing Longnose Point (where applicable), Fort Denison, Bradley Head and the Buoy and
   (c) when clear of port area.
4. Vessel moving from berth or anchorage in port to another shall report to Port Operations Officer–
   (a) 1 hour before moving.
   (b) when passing Longnose Point, Fort Denison or Bradley Head, and
   (c) when secured at new berth or anchorage.

Note that–
   (a) a vessel must not be moved from any berth or anchorage in port without prior approval of Harbour Master (given by Port Operations Officer), and
   (b) Every Port Operations Officer has been appointed to exercise powers of Harbour Master in giving enforceable directions relating to vessels in Port.

APPROACH DEPTHS: 80 ft. (24.38 m.) in entrance to Harbour, 42 ft. (12.8 m.) in East Channel, 45 ft. (13.71 m.) in West Channel.
HARBOUR BRIDGE CLEARANCE: 171 ft. 9 in. (52.35 m.) less 8 ft. (2.43 m.) for painting gantry.
HEALTH: See "Melbourne".
TIDES: Higher High Water 5.2 ft. (1.57 m.). Lower High Water 4.2 ft. (1.27 m.). Fort Denison.
RADIO: Sydney – VIS.
VHF:

1. PORT OPERATIONS AND INFORMATION SERVICE

Service co-ordinates flow of shipping traffic within Port of Sydney to ensure expeditious movement of vessels in safety, and provides information to Pilots and Exempt Masters as aid to safe navigation in Port.

Maritime VHF Radio Service operated by Board for Ports of Sydney, Newcastle, Botany Bay and Port Kembla is integrated into Port Operations and Information Service.

Service manned continuously on watch-keeping basis, each watch being under control of qualified Master Mariner, known as Port Operations Officer, who is responsible to Harbour Master.

Rules to be observed by shipping contained in Port Operations and Information Service Manual, and all shipping using port will be required to observe these rules.

Instructions concerning Maritime VHF Radio Service have been revised to fit in with Port Operations and Information Service. The revised instructions also contained in Port Operations and Information Service Manual.

Copies of Manual may be obtained, on request from the Harbour Master's office.

2. SHORE STATIONS: (Call sign "Sydney Maritime").

Interconnected system of stations handling messages for Signal Stations at Newcastle, Sydney and Port Kembla operated from central control using call sign "Sydney Maritime", will exercise control of service and provide facilities indicated below for area from 50 miles North of Newcastle to 50 miles South of Port Kembla and a distance of 50 miles to seaward.

Ships requested maintain watch on Channel 16 when in this area. If Channel 16 in use for distress, urgency or safety communications, Shore Station will maintain continuous watch on Channel 12 and ships may establish contact with Shore Station on this channel.

On the hour "Sydney Maritime" will give identification call followed by any general messages or navigational warnings.

On request Shore Station will provide following services:

(a) Navigational information.
(b) Locking weather reports from Signal Stations.
(c) Booking of ship's telephones, shore power supply, temporary lighting and other port services provided by Maritime Services Board of N.S.W.
(d) In addition, Shore Station on request from Pilots or Exempt Masters, allocates a Channel for use between ships and attendant tugs during berthing operations.

Radiotelephone Discipline. To ensure that the full advantage of efficient communications is achieved, strict radio discipline and attention to procedure, particularly on the Safety and Calling

Channel No. 16 is imperative. Messages must be as brief as possible.

3. ADVICE OF ETA – SYDNEY AND NEWCASTLE HARBOURS

Vessels proceeding to Sydney and Newcastle required advise either Shore Station, "Sydney Maritime" (per medium of Maritime VHF Radio) or "Marboard" (per medium of the coastal radio service) of estimated time of arrival at entrance to port concerned at least four hours prior to such time.

"Sydney Maritime" maintains continuous watch on Channel 16 for ships reporting ETA.

4. CHANNELS IN USE

Channel No.	*Title*	*Use*
16	Safety and Calling	Initial contact or emergency use. The calling entry to either Port Information, Port Operation or Intership Channels.
12	Port Operation (Port information)	Primarily for ships passing and receiving navigational information to and from Shore Station ("Sydney Maritime").
6	Interships	1. For intership communications. 2. Working Channel for Pilot Vessels. 3. Allotted by "Harbour Control" for temporary use between ships and attendant tugs at *Port Kembla* on request of Pilot or Exempt Master.
8	Berthing Operations	1. Allocated by "Harbour Control" upon request by Pilot or Exempt Master for use in *Sydney Harbour* between ships and tugs during berthing operations.
13	Berthing Operations	1. Allocated by "Harbour Control" upon request by Pilot or Exempt Master for use in Newcastle Harbour between ships and tug, during berthing operations. 2. Used by Port Operations Officer when passing information to vessels.
14	Berthing Operations	1. Allocated by "Harbour Control" upon request by Pilot or Exempt Master for use in *Botany Bay* between ships and tugs during berthing operations. 2. Allocated by "Harbour Control" for Naval berthing operations and other special purposes.

5. DISTRESS AND EMERGENCY

In the case of fire, explosion, loss of life, sinking, collision, or such emergency, vessels should immediately call on Channel 16 (Safety and Calling) using International R/T distress signal "Mayday" or urgency signal "Pan" followed by name of vessel and signal letters, giving its position and type of emergency and if assistance required.

Other vessels on hearing a distress message must cease any transmissions immediately.

The signal "Mayday" should be used only when ship sending it is threatened by grave and imminent danger and requires immediate assistance.

The signal "Pan" (pronounced Panne) should be used by a station having a very urgent message to transmit concerning its safety, or that of another ship, or of some person on board or in sight.

TUGS: Powerful modern tugs, operated by private companies, available.

BERTHING: See "VHF".

Woolloomooloo: 8 berths, depths 28 ft. to 37 ft. (8.53 m. to 11.27 m.).

Darling Harbour: 20 berths, depths 8 ft. to 36 ft. (2.43 m. to 10.97 m.).

Pyrmont: 14 berths, depths 27 ft. to 35 ft. (8.23 m. to 10.66 m.).

Glebe Is.: 5 berths, depths 32 ft. to 42 ft. (9.75 m. to 12.8 m.).

Sydney Cove: 3 berths, depths 12 ft. to 35 ft. (3.65 m. to 10.66 m.).

Walsh Bay: 8 berths, depths 23 ft. to 40 ft. (7.01 m. to 12.19 m.).

Balmain: 2 berths, depths 33 ft. to 38 ft. (10.05 m. to 11.58 m.).

White Bay: 3 berths, depths 36 ft. (10.97 m.).

Rozelle Bay: 6 berths, depths 9 ft. to 20 ft. (2.74 m. to 6.09 m.).

Snails Bay: 4 berths, depths 36 ft. to 40 ft. (10.97 m. to 12.19 m.).

Mort Bay: 2 berths, depths 31 ft. (approx.) (9.74 m.).

Oil Terminals: See "Tankers".

HEAVY LIFTS: *Wharf Cranes:* Woolloomooloo: Berth No. 11: 2 portal cranes 26 tons (26.4 tonnes) max.

Darling Harbour: Berth Nos. 8, 9 and 10: 1 portal crane, 26 tons (26.4 tonnes) max.

Balmain: Berth No. 2: 3 portal cranes, 20 tons (20.3 tonnes) max.

Container Berths: White Bay: Berth No. 4: 1 twin lift 45 tons (45.72 tonnes) container crane, and terminal equipment.

White Bay: Berths Nos. 5 and 6: 3 twin lift 45 tons (45.72 tonnes) container cranes, and terminal equipment.

Glebe Island: Berth Nos. 1 and 2: 2 single lift 35 tons (35.56 tonnes) container cranes and terminal equipment.

A 60 ton (60.96 tonnes) and a 150 ton (152.4 tonnes) floating crane available, and a 250 ton (254 tonnes) crane on Fitting Out Wharf at Garden Island Dockyard.

BULK LOADING FACILITIES: Glebe Island, Berth No. 7 (bulk wheat). Max. permissible length and beam of ship using bulk berth: length 735 ft. (224.06 m.), beam 107 ft. (32.61 m.).

Berth No. 8 (bulk soda ash). Max. length 326 ft. (99.36 m.), max. beam 45 ft. (13.71 m.). This is a private berth leased by Imperial Chemical Industries of Australia, and the plant is suitable only for the unloading of bulk soda ash.

Balmain: Berth No. 1 (bulk coal). Max. length 650 ft. (198.4 m.), max. beam 97 ft. (29.56 m.). Loading capacity 1,000 t.p.h. max.

STEVEDORES: Private companies. Stevedoring regulations are the responsibility of an operations supervisor, nominated by the ship's Agent when applying for a berth.

TANKERS:

	Max. permissible length of vessel	*Depth alongside*
Gore Bay No. 1 (Shell)	850 ft. (259 m.)	45 ft. (13.4 m.)
Gore Bay No. 2 (Shell)	560 ft. (171 m.)	31 ft. (9.45 m.)
Gore Bay No. 3 (Shell)	560 ft. (171 m.)	30 ft. (9.14 m.)
Berrys Bay No. 1 (B.P.)	525 ft. (160 m.)	28 ft. (8.53 m.)
Berrys Bay No. 2 (B.P.)	600 ft. (183 m.)	33 ft. (10.06 m.)
Ballast Point (Caltex Oil)	700 ft. (213 m.)	29 ft. (8.83 m.)
Pulpit Point (Mobil Oil)	550 ft. (168 m.)	28 ft. (8.53 m.)
Chowder Bay Dept. of Navy	560 ft. (171 m.)	31 ft. (9.45 m.)

FRESH WATER: Available at all berths at a rate of flow of approximately 30 t.p.h.

FUEL: All grades available.

IDENTIFICATION CARDS: See "Melbourne".

CONSULS: The following countries maintain consuls in Sydney:

Argentina	Great Britain	Norway
Austria	Greece	Panama
Belgium	Hungary	Papua – New Guinea
Brazil	Iceland	Peru
Bulgaria	Indonesia	Philippines
Canada	India	Poland
Chile	Israel	Portugal
Columbia	Italy	Romania
Costa Rica	Japan	Singapore
Cuba	Jordan	Sierra Leone
Czechoslovakia	Khmer	Spain
Denmark	Korea	Sweden
Dominican Republic	Lebanon	Switzerland
Ecuador	Malaysia	Thailand
Egypt	Malta	Turkey
Ethiopia	Mexico	Uruguay
Finland	Monaco	U.S.A.
France	Netherlands	U.S.S.R.
Germany	New Zealand	Yugoslavia

REPAIRS: Every facility available.

DRY DOCKS: Captain Cook Dock, Garden Island – length 1,139 ft. (347.16 m.), No. 1 Sutherland, Cockatoo Island – length 690 ft. (210.33 m.), No. 2 Fitzroy, Cockatoo Island – length 478 ft. (145.67 m.). Several smaller dry docks and a number of slipways available.

CERTIFICATES:

Last Port Customs Clearance.
Ship's Register.
Load Line.
Safety Radio.
Safety Equipment.
Ship's Articles (British Vessels).
Safety Construction.

SPECIAL REGULATIONS: *Smoke Restrictions:* Ringelmann 2 limited to 10 minutes overall, 5 minutes continuous, in 60 minutes, Ringelmann 3 limited to 3 minutes in 30 minutes, in special circumstances only and as far as practicable from shore, Ringelmann 4 prohibited absolutely. Tubes must not be blown in port.

Breaches of Port Laws by a ship (in particular, oil spillages) dealt with by requiring Master to authorise ship's Agent to accept any summons and the Agent to undertake to appear, so as not to delay sailing. If Master refuses, he may be arrested, charged and released on bail. However, it is in Master's interests to give authority, because this allows time for consideration of whether any action is to be taken.

DUES: Commonwealth Light Dues payable on the nett register tonnage of vessel, valid for a period of 3 months, in Australian waters. Harbour and Light Dues payable on vessels gross tonnage valid for 6 months for the State of N.S.W. only.

AUTHORITY: The Maritime Services Board of N.S.W.

AGENT: Patrick Agencies, POB 3918, 33/35 Pitt Street, Sydney, New South Wales 2001. Tel. 27-6611. Telex. AA. 20618 Cables: "Rikpat".

THEVENARD, S.A. 32.09 S. 133.39 E.

(See Plan)

CERTIFICATES/DOCUMENTS/HEALTH/CARGO GEAR: See "Melbourne".

PILOTAGE: Compulsory. Pilots board 2 miles seaward of No. 1 light beacon.

MAX. SIZE: Length 650 ft. (198 m.) at the bulk loading berth; beam 100 ft. (30 m.). Draft subject to keel clearance of 2 ft. 6 in. (0.76 m.) for vessels up to 27 ft. (8.2 m.) draft and keel clearance of 3 ft. (0.91 m.) for vessels over 27 ft. (8.2 m.) draft provided weather and sea are calm.

RESTRICTIONS: Channel depth 27 ft. (8.2 m.) LW. There is a min. depth of 18 ft. (5.5 m.) LW in the swinging area off the berths.

FUEL: Not available.
BERTHING: Two berths, depth alongside 32 ft. (9.8 m.) LW. Vessels will be berthed head out if the draft on arrival is suitable to the depth of water in the swinging area. This particularly applies to deep loading vessels. A small tug stationed at the port to facilitate the berthing and departure of vessels. The bulk loading plant will be manned on a two shift basis with overtime as found necessary.
FRESH WATER: Small quantities available. Rate 12 tonnes/hour.
REPAIRS: None.
AUTHORITY: Department of Marine & Harbours, Adelaide.
AGENT: Sub-agents of Patrick Agencies.

THURSDAY ISLAND, Queensland: 10.35 S. 142.13 E. (See Plan)

DOCUMENTS/HEALTH: See "Melbourne".
PILOTAGE: Pilotage compulsory. ETA 24 hrs. before arrival stating max. draft and direction from which vessel arriving to: Harbour Master, Thursday Island. Further amended ETA if necessary prior to arrival. Pilot boards in vicinity of Tucker Buoy or Scott Rock Buoy as required. Harbour Master will advise boarding ground after receipt of max. draft and direction from which vessel arriving. Pilot vessel white hull, yellow top, flying pilot flag. Vessel awaiting Pilot to anchor West of Black Rock in Normanby Sound.
ANCHORAGE: West of Black Rock in 5.5 fathoms. Nurses' Home over shoulder of Black Rock 098 (T) with two white beacons S.E. side Goods Island in line 005 (T).
RESTRICTIONS: Daylight entry only. Draft restricted to 23 ft. (7.01 m.) LWOST.
RADIO: Thursday Island VII.
VHF: Channels 12 and 16.
TUGS: No tugs.
STEVEDORES: 0800 hrs. pick up for day work. 1000 hrs. notice for night work. 1600 hrs. Friday notice for week-end work. Mainly general cargo handled. Approximately 8 t.p.h.
MEDICAL: Notice of required medical attention with ETA message to Harbour Master. Hospital, four doctors available. Vaccinations etc., as per Commonwealth of Australia requirements.
DENSITY: Salt at all states of tide.
BERTHING:

Wharf	*Length (Metres)*	*Depth (Metres)*
East	30	4.8
Engineers demolished, to be rebuilt		
Caltex	22.9	5.0
Horn	12.5	5.0

FRESH WATER: Available in limited quantities most of the year.
FUEL: Small amounts diesel and distillate available at East Jetty. Bulk distillate available at Caltex Jetty, approx. 20 t.p.h.
GANGWAY/DECK WATCHMEN: Crew member on gangway sufficient.
OPENING/CLOSING HATCHES: By Stevedores.
CERTIFICATES: Normal Commonwealth of Australia requirements. See "Melbourne".
CONSULS: Nil.
REPAIRS: Deck and engine repairs, excluding large castings.
REPATRIATION: Available.
AIRPORT: Airport on Horn Island, 2 miles by launch, 4 miles by bus. Five flights per week. Ansett-ANA regular airline. Private charter plane available.
TIME: Australian Eastern Standard Time.
HOLIDAYS: Normal Queensland Public Holidays. No cargo can be worked on Christmas Day, Good Friday, Anzac Day.
POLICE/AMBULANCE: Police 20. Ambulance 77.
TELEPHONES: None.
SERVICES: Garbage disposal. Apply to Harbour Master.
DELAYS: As wharf space limited and berthing is on a "first come, first served" basis, delays vary with amount of shipping.
AUTHORITY: Harbour Master, Department Harbours & Marine.
AGENT: Sub-agent of Patrick Agencies, Brisbane.

TORRES STRAIT:

GANNET PASSAGE AND PRINCE OF WALES CHANNEL: These are the 2 tidally restricted and, therefore, controlling areas for the transit of Torres Strait. There is a least depth of 9.8 m. (32 ft.) in Gannet Passage (Australian Notice to Mariners 242/1970) and the recommended track is marked by light buoys which may be re-positioned from time to time. Most of the water along the recommended track from Gannet Passage to Twin Island through P.O.W. Channel is between 11.3 and 13.7 m. (37 and 45 ft.).

Mean HHW at Booby Island is 11.9 ft. (3.6 m.) and the Mean LLW is 3.1 ft. (0.925 m.). Mean HHW at Goods Island is 8.8 ft. (2.5 m.) and Mean LLW is 2.3 ft. (0.7 m.). HWS at Twin Island is 8.7 ft. (2.45 m.) and LWS is 1.3 ft. (0.35 m.). An automatic telemetric gauge has been established at Booby Island by Australian Notice to Mariners 138/1970 for the promulgation of the exact tide at Gannet Passage. Further tide gauges are to be erected at various positions in the Prince of Wales Channel.
KEEL CLEARANCE AND MAX. DRAFT: The Queensland Coast & Torres Strait Pilot Service will pilot vessels through Gannet Passage with a minimum underkeel clearance of 1 m. at all times of the year, subject to weather conditions, and on a maximum draft which at no time must exceed 11.89 m. (39 ft.). This draft limitation extends to Cairns on the Inner Route of the Great Barrier Reef and to Bramble Cay on the Great Northeast Channel Route. Masters of deep draft vessels are advised that it may be necessary to reduce speed in certain areas and that they may be required, under certain conditions, to display the IMCO recommended night and day signals indicating reduced manoeuvrability due to draft.
PILOTAGE BOARDING STATIONS: The Queensland Coast & Torres Strait Pilot Service maintains a base station on Thursday Island. Pilots will board or land about 4.5 miles West of Booby Island or about 3 miles West of Goods Island as required by the vessel. Pilot cutters on those stations keep a listening watch on VHF radio, Channel 16. The base station – call sign "THURSDAY ISLAND HARBOUR" – keeps a VHF radio listening watch on Channel 16 and operates on Channel 12. Other boarding/landing stations are:
Northern Territory: Darwin
Gulf of Carpentaria Ports: Weipa, Gove, Groote Eylandt.
Papua New Guinea: All Main Ports and off Basilisk Light Beacon (entrance to Port Moresby).
Australian East Coast: Port Kembla, Botany Bay, Sydney or 1.5 miles off Sydney Heads, Newcastle, Brisbane or Brisbane pilot vessel off Point Cartwright, all Queensland Ports and Fairways, Grafton Passage (Euston Reef Light Beacon), Fitzroy Island off Cairns.
Any other port or place by arrangement with "TORRES" Sydney.
TO ORDER PILOTS:
South and East Bound: Radio "TORRES" Sydney about 5 days in advance giving destination, maximum draft and ETA at Booby or Goods Islands, whichever may be required. Radio "STRAITS-PILOTS" Thursday Island, 24 and 6 hours before arrival confirming or amending ETA in local time (GMT + 10 hours). When about 15 miles West of Booby Island make contact by VHF "THURSDAY ISLAND HARBOUR" on Channel 16. Masters of deep draft vessels will be advised by "STRAITSPILOTS" the periods when tidal heights at Gannet Passage will allow their vessels to cross.
North and West Bound: If in an Australian Port instruct Agents to arrange with "TORRES" Sydney, giving as much notice as possible. If from an overseas or intermediate port, radio "TORRES" Sydney about 5 days in advance giving ETA at embarkation point, maximum draft and port of destination. Confirm or amend ETA to "TORRES" Sydney 48 hours before arrival and give definite confirmation 12 hours before arrival.
All radio messages to "TORRES" Sydney will be acknowledged. Masters are advised all radio messages should be prefixed with the free service instruction word "SHIPSERV". Use of this prefix indicates it is a shipping message and will therefore be given priority in delivery on a 24 hours a day basis, including weekends and public holidays.
COMMUNICATIONS:
(a) All ships traversing Torres Strait are requested to keep a continuous listening watch on VHF radio, Channel 16, when between Carpentaria Light Vessel and Wyborn Reef on the Inner Route and Bet Reef on the Great Northeast Channel Route.
(b) In addition to (a), all vessels, regardless of size, are requested to open VHF sets on Channel 16 when sighting another vessel in the waters between Wyborn Reef and Cairns on the Inner Route and between Bet Reef and Bramble Cay on the Great Northeast Channel Route. This is to facilitate traffic safety and it is essential VHF sets be left open until vessels have passed, and are well clear of, one another.
(c) Shipmasters are requested to ensure that their Radio Officers maintain International Radio Watch hours when their vessels are in the waters between Carpentaria Light Vessel and Cairns on the Inner Route or Bramble Cay on the Great Northeast Channel Route.

AUTHORITIES: Australia Pilot, Volume 3, 1973, pp3 & 81. Annual Summary of Australian Notices to Mariners, 1975 pp 91, 92. Dept. Harbours & Marine, Queensland, Notice No. 49/1971, (AH70. 116) The Queensland Coast and Torres Strait Pilot Service, 185 Macquarie Street, Sydney, N.S.W. 2000.

TOWNSVILLE, Queensland: 19.17 S. 146.48 E. (See Plan)

PORT LIMITS: The Townsville Harbour Board exercises jurisdiction over the Port of Townsville which is located at 19° 17′ South Latitude and 146° 48′ East Longitude and is the area comprised within a line connecting Cape Cleveland with the N.E. extremity of Magnetic Island, thence by the line of high water mark to the most Northerly extremity of Magnetic Island, thence by a line to the White Rock, thence to Bay Rock, thence to Cape Pallarenda, thence by the line of high water mark on the mainland to the point of commencement, and including all navigable rivers communicating with that area and the banks and foreshores thereof.
APPROACHES: The approach to Cleveland Bay anchorage from the Southward is clear of dangers, with the exception of Salamander Reef, the Four-foot Rock, and the Twenty-foot Rock, all these lying within a radius of 3 miles of Cape Cleveland Lighthouse.

To clear these dangers, passing North of them bring Mount Marlow in transit with the extremity of Hawkings Point, bearing 265° (258° Mag.) before approaching within 5 miles of Cape Cleveland, which will then bear 252° (245° Mag.); and, if passing between them, the leading lights on Cape Cleveland should be brought in line bearing 291° (284° Mag.) before they are approached within 5 miles. Proceeding into Cleveland Bay a depth of not less than 8.2 m. will

be obtained by keeping North of the line Mount Marlow in line with Hawkings Point.

Approaching Cleveland Bay from the Northward, passing East of Magnetic Island a vessel should keep at least half a mile off Magnetic Island shore to obtain not less than 9.1 m. of water at LWOS. The shore is steep too except for Orchard Rocks off the N.E. extremity of the island.

ENTRANCE CHANNELS: 10 pairs of lighted beacons (numbered East and West from seaward) and the East and West Breakwater beacons mark the entrance channels into Townsville Harbour. The Fairway beacons are 210 m. apart transversely. Nos. 2 and 3 beacons are 164 m. apart and all other pairs of beacons are 180 m. apart.

Sea Channel: This Channel 1.75 miles in length (for use by vessels with draft exceeding 8 m.) lies between Nos. 1, 2, 3 and 4 beacons which are spaced at 1,070 m. intervals. Only Nos. 1 and 4 beacons are fitted with day marks.

The centreline of this channel is marked by the V-shaped white Sea Leads in line bearing 201.5° (194.5° Mag.), at night the Front Lead (No. 5 East Beacon) exhibits a white light flashing every second.

The Back Sea lead, 915 m. from the Front Lead, exhibits a white light flashing every 1.5 seconds.

Platypus Channel: The channels alter in direction at No. 4 Beacons and the Centreline of the Platypus Channel proceeds in a 212° (T) direction 3.5 miles to the harbour entrance and is marked by 2 V-shaped Gayglo Orange Triangular Leads with black centre, in line bearing 212° (205° Mag.), at night these leads each exhibit a Red Neon Candle Light. No. 5 beacons are 520 m. from No. 4 beacons, thence there are 5 pairs of beacons and the East and West Breakwater beacons at 1,000 m. intervals.

DOCUMENTS: Customs requirements:

3 Crew Lists, form M. and S–11.
3 Passenger Lists.
3 Lists of Ports of Call.
1 Form 42A Ships Stores.
1 Form 5 Articles Owned by or in the possession of Master, Officers and Crew.
1 Form QA4 Quarantine Notice.
2 Forms QA5 Quarantine Shipmaster's Bond.
2 Inward Manifests.
1 Bill of Lading.
1 Outward Manifest.
1 Form 40 Application for Clearance and Guarantee to Pay Duty.

Health:

Form Q360 Health Report which is taken aboard by inspecting Officer.

Harbour Authority:

2 copies of Inward and Outward Manifest.

PILOTAGE: The Pilot is ordered through the ship's Agent or direct to Harbour Master at least 24 hours before arrival or last port of departure stating ETA and draft. Telegraphic Address "Harbour Master". VHF Channel 16. Call sign "Townsville Harbour". Pilot launch is 42 ft. wooden launch equipped with VHF Channels 6, 12 and 16. Light or sound signal by vessel requiring Pilot is International Call G. For other than deep draft vessels Pilots board within 1.5–2.0 miles East of Hawkins Point. Ladder placed on starboard side. Location of anchorage for vessels awaiting a Pilot is off Magnetic Island between Bremer and Hawkins Point.

ANCHORAGES: Boundaries: Orchard Rocks/Cape Cleveland. Cleveland Bay Depths 27 ft. to 40 ft.

RESTRICTIONS: 2 ft. of water under keel at all times.

Harbour Depths:

Sea Channel and Platypus Channel (width 92 m.)	10.7 m.
Swing Basin (396 m. diameter)	10.7 m.
No. 1 (tanker) berth (4.6 m. off)	12.5 m.
No. 2 (20t crane) berth (4.6 m. off)	8.0 m.
No. 3 (Container crane) berth (4.6 m. off)	10.1 m. (to mark 31) 8.5 m. (31 to 34)
No. 4 (Gen. & Ro-ro) berth (4.6 m. off)	9.0 m.
No. 6 (No. 1 Pier E) Gen. cargo berth (4.6 m. off)	8.0 m.
No. 7 (No. 1 Pier W) Minerals shiploader berth (4.6 m. off)	9.9 m.
No. 8 (No. 2 Pier E) Freezer berth (4.6 m. off)	10.2 m.
No. 9 (No. 2 Pier W) Sugar shiploader berth (4.6 m. off)	10.4 m.
No. 10 (Container Ro-ro berth)	7.7 m.
Between berth 4 and 6 (77 m.)	8.2 m.
Between berth 7 and 8 (84 m.)	8.2 m.
Between berths 9 and 10 (142 m.)	8.0 m.

MAX. SIZE:

Berth No.	Length	Max. Length of Vessel
1	244 m.	238 m.
2	256 m.	238 m.
3	256 m.	238 m.
4	246 m.	238 m.
6	134 m.	160 m.
7	183 m.	195 m.
8	217 m.	220 m.
9	230 m.	228 m.
10	160 m.	152 m.

Generally, the limit in size of vessels entering the harbour will be 238 m. in length and 34 m. beam. Large vessels will only be taken into No. 4 berth on condition that no vessels are berthed at No. 3 berth closer inshore than mark No. 22 on arrival and mark No. 20 on departure and that a vessel berthed at No. 6 berth is shoreward of No. 5 mark on both arrival and departure of a vessel at No. 4 berth.

When tankers of over 213 m. in length are being berthed at No. 1 berth, no vessel at No. 2 berth is to be seaward of mark No. 43.

Decking of all wharves is 5.18 m. above datum with the exception of No. 3 which is 5.97 m.

Largest single cargo: Inward 49,472 tonnes of bulk oil. Outward, 31,883 tonnes of raw sugar.

Deepest draft vessel, 11.65 m. Longest vessel, 236.2 m. Largest vessel (Tanker) 58,752 d.w.t.

HEALTH: Townsville is a first port of entry and notification of quarantine inspection requirements should be made not more than 24 hours nor less than 12 hours in advance. Inspections may be carried out at the wharf or at the quarantine anchorage, at the discretion of the Quarantine Officer. Rat guards are to be maintained on all mooring lines while vessels are berthed in the Townsville Harbour.

RADIO: Townsville Radio. The Port Radio Station "Townsville Harbour" keeps continuous watch on VHF Channel 16. Working Channels 6 & 12.

TUGS: Normally join at harbour entrance. Tug lines or (optional) ship's lines. Tugs equipped with VHF radio and operate on Channel 16, the same as Townsville Harbour. Two tugs available bollard pull 26 tons each.

VHF: Continuous watch maintained on Channel 16. Call sign "Townsville Harbour". Channels 6 and 12 also available.

BERTHING:

No. 1 berth (isolated) is used exclusively by tankers for bulk oil discharge and by all types of vessels for bunkering.

No. 2 berth (eastern breakwater) has two 20 t. electrically operated, level luffing, travelling jib cranes with an outreach of 13.7 m. and height above wharf of 18.288 m. the cranes may be "married" to lift 40 tons.

No. 3 berth (eastern breakwater) is equipped with a container crane which is leased to Townsville Transport & Services Pty. Ltd. and is operated and controlled by Northern Shipping & Stevedoring Pty. Ltd. Both of these companies are part of the M.I.M. Holdings Group. The crane has lifting capacity of 55 tons and its equipment includes an extendable spreader to suit all sizes of containers, a grab of 7.6 cu.m. capacity and a heavy lift hook. Maximum height of lift above wharf deck is 27 m. whilst the outreach beyond the wharf face is 31.85 m. and outreach over rail and road services is 23.77 m. Distance between bogies is 32.61 m. The crane traverses the full length of the berth.

No. 4 berth (eastern breakwater) has a landing pad, supported by steel piling, to service stern angle ramp Ro-ro vessels in the U.K./Continent trade.

No. 6 berth (No. 1 pier E.) is a general purpose berth with oil bunker and bulk molasses loading pipe-line facilities.

No. 7 berth (No. 1 pier W.) supports a bulk shiploader through which passes mineral concentrates, phosphate rock and ores up to 102 mm. aggregate at the rate of 800 t.p.h. The berth is also equipped with bulk molasses loading pipe-line facilities.

No. 8 berth (No. 2 pier W.) services the export frozen beef trade with cargoes drawn from freezer stores erected on the pier. It also serves as a general purpose berth.

No. 9 berth (No. 2 pier E.) is the raw sugar loading berth. A bulk shiploader delivers sugar to carriers at the rate of 1,500 t.p.h.

No. 10 berth (A.N.L. Ro-ro berth) is equipped with a stern ramp for Ro-ro traffic and 25 tons, 32 m. radius, travelling jib crane for container and unit load handling.

Wharf Sheds: No sheds are available for general cargo storage at the harbour. Both free and bonded warehousing is available within 4 km. of the wharves.

Storage facilities:

Oils – all major Oil Companies operate ocean terminals close to the Harbour.
Raw Sugar – 2 storage sheds of 285,000 tonnes total capacity.
Molasses – 4 bulk storage tanks of 35,000 tonnes total capacity.
Zinc Concentrates – 20,000 tonnes covered storage area.
Frozen Meat – 2 cold stores on No. 2 Pier, total capacity 2,500 tonnes.
Open space storage for Rock Phosphate, Sulphur, Crude Lead and Refined Copper.

Container Terminals: No. 3 berth, with an area of 1.2 ha., has storage accommodation for 184 dry containers.

No. 10 berth, with an area of 2.6 ha., can accommodate 400 containers, 18 of which may be connected to refrigeration power outlets.

Northern Shipping and Stevedoring Terminal with an area of 0.66 ha., has a holding capacity of 112 refrigerated containers.

Container Terminals work 24 hours per day, 7 days per week to effect speedy turn around of shipping.

STEVEDORES: Times for ordering labour: Normal 1400 hrs. previous working day. Bulk Cargoes 0930 hrs. for night labour. Saturday or holidays 0930 hrs. previous working day. Priority labour 1400 hrs. previous working day. Notice required for difficult or long tows or a cargo requiring particular or special handling.

MEDICAL: Advance notice not particularly required unless urgent assistance required. Hospital facilities available. Health book inspected by boarding doctor.

TANKERS: Diameter of load/discharge lines: white fuel 10 in., black fuel 12 in. No residue discharge facility available. One tanker at berth at any time. Max. permitted draft at berth 31 ft.

DENSITY: Average density 1025 at all times.

FRESH WATER: Fresh water is available at all berths: delivery is at

the rate of approximately 90 t.p.h. using 4 hoses. Hoses have 2.5 ins. London V thread fittings.
FUEL: Bunker fuel oil and distillate is available through pipe-lines at berths 1, 6 and 7. Road tankers are used to bunker small ships at other berths.
FIRE PRECAUTIONS: Tankers required to have safety fire wires lead off foc'sle head and run as far aft as possible. Vessels at all times capable of manoeuvring with main engines.
DEVELOPMENTS:

In Progress:

1. No. 10 berth, and the approaches thereto, is being dredged to 10.7 m.
2. Site preparation works for No. 3 and No. 4 raw sugar storage sheds and reconstruction of Ross Street, to provide a new access road to the port, are proceeding.
3. At No. 3 berth at 45 m. recess between the breasting wharf and the mooring platform is being filled in and the crane rail extended to allow the crane to operate along the full length of the berth.
4. Construction of facilities for the Phosphate Rock trade include excavation of a pit and laying of foundations for the installation of a rotary tippler, construction of rail access to the storage area and construction of a conveyor system to deliver the product to the bulk shiploader at No. 7 berth.
5. Up-grading of No. 10 berth involving the construction of a mooring and berthing dolphin and extension of the wharf.

Planned:

1. Construction of shed for storage of phosphate rock fines.
2. Dredging of No. 6 and No. 7 berths to permit berthing of 50,000 d.w.t. vessels.
3. Reconstruction of No. 2 berth to 50,000 ton ship standard and dredging of 12.2 m.
4. Demolition of Magazine Hill.
5. Construction of 457 m. rock wall extending from Eastern breakwater in a Southerly direction.
6. Reclamation of 22.3 ha. behind Eastern breakwater to service No. 3 container berth and other facilities.
7. Construction of additional rail access over South bank of Ross River to facilitate the passage of phosphate rock trains transporting in excess of one million tonnes annually.
8. Construction of 1 or possibly 2 additional raw sugar storage sheds.
9. Construction of new rail access for sugar trains and marshalling yards in the area now occupied by Perkins Street.
10. Installation of stacker/reclaimer for phosphate rock when the trade exceeds one million tonnes annually.
11. Upgrading of No. 6 berth, construction of berthing and mooring dolphins and installation of a bulk shiploader.
12. In the long term, the Board plans to develop port facilities South of Ross River and has acquired land in the area for this purpose.

GANGWAY/DECK WATCHMEN: Services available at ship's option.
OPENING/CLOSING HATCHES: Optional for either crew or stevedores.
SHIP'S CERTIFICATES:
Passenger Ship Safety.
International Load Line.
Ship Safety Construction.
Ship Safety Equipment.
Ship Safety Radiotelegraphy.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 0.5 lb. tobacco on arrival and then can be purchased by the packet from bar on board. Wine and/or spirits: 1 opened bottle (26 oz.) spirits or wine on arrival and then spirits by the glass and wine by the bottle, from the bar on board.
CARGO GEAR: Australian Navigation Dept. requirements.
CONSUL: Netherlands representative, Tel. 71.6188.
REPAIRS: All deck and engine repairs can be carried out.
DRY DOCKS: Slipway with a capacity of 1525 tonnes d.w.t. Slip can accommodate a 67 m. length vessel. Air, power, and water are available at the slip.
REPATRIATION: Full facilities exist for effecting crew changes and arranging repatriation.
AIRPORT: Distance from airport 6 miles, regular services.
TIME: East Australian Standard Time, GMT plus 10 hours.
HOLIDAYS: Cargo can be worked on all holidays except Christmas Day, Good Friday and the Waterside Workers' Picnic Day.
EMERGENCY TELEPHONE NUMBERS: Police, Ambulance or Fire "000", and ask to be connected to service required. Non-emergency numbers. Police 71.2121, Ambulance 79.3722, Fire Station 71.2111. Hospital 72.1333.
TELEPHONE: Ship to shore telephones are available at all berths. Oil tankers berthed in the port are required to have on board a flash proof telephone of a type approved by Telecom Australia.
Ships telephone lines are barred access to STD and trunk facilities.
SERVICES: Services available for compass adjusting, radio and radar service. A floating boom and an oil skimming device is available to deal with oil spills. Chemical dispersants are used for minor spills.
A garbage collection vehicle will call at each ship which has ordered the service before 0800 hrs. each day or at other times as directed by the Quarantine Officer. All garbage must be kept in drums with tight fitting lids on board the vessel until the arrival of the collection vehicle.
Ships crew is required to deliver garbage to the collection vehicle.
SHORE LEAVE: Crew members allowed shore leave.
AUTHORITY: Townsville Harbour Board.
AGENT: Sub-agent of Patrick Agencies, Brisbane.

USELESS LOOP (Shark Bay), W.A.: 26.05 S. 113.24 E.

DOCUMENTS: See "Melbourne".
PILOTAGE: Compulsory: Notice for Pilots is by 'Shipserv' message to Harbour Master, Carnarvon, 7 days, 48 hours and 24 hours prior to arrival.
Pilot boarding ground is 5 nautical miles 270° from Babbage Island Light Tower, Carnarvon.
Pilots remain on board during transit to Useless Loop, when berthed alongside jetty and until disembarkation in above position.
TUGS: None.
BERTHING: One berth. Owned and operated by Shark Bay Salt Pty Ltd. Conveyor belt system from Salt Stock Pile to ship gross rate 700 t.p.h. Dolphin type jetty length 620 ft. runs approximately North and South directions and 2.1.cables from Topper Island. Min. depth at berth 33 ft. LWOST. Rise of tide approximately 3 ft. Winds predominantly S.E./S.W.
FUEL: Not available.
FRESH WATER: None available.
REPAIRS: Not available.
AUTHORITY: Harbour & Light Department, Fremantle.
AGENT: See "Fremantle".

WALLAROO, S.A.: 33.56 S. 137.37 E. **(See Plan)**

DOCUMENTS: See "Melbourne".
PILOTAGE: Compulsory. Pilot boards from 1 to 1.5 miles 260° (T) from Moonta Shoal Light Beacon.
RESTRICTIONS: Approach Channel and basin 28 ft. (8.5 m.) ISLW.
BERTHING: 6 berths. Depths various from 24 ft. (7.3 m.) to 31 ft. (9.4 m.). Bulk loading berth max. permissible length 650 ft. (198 m.), max. beam 100 ft. (30 m.).
TUGS/FUEL: None.
STEVEDORES: Arrangements with private companies.
VHF: Available.
FRESH WATER: Available all berths. Delivery rate 15 t.p.h.
REPAIRS: Minor repairs only.
AUTHORITY: Department of Marine & Harbours, Adelaide.
AGENT: Sub-agent of Patrick Agencies, Adelaide.

WEIPA, Queensland (including Albatross Bay): 12.42 S. 141.41 E. **(See Plan)**

DOCUMENTS/HEALTH: See "Melbourne".
PILOTAGE: Vessels requiring Pilot may apply to Harbour Master, Weipa 48 hours before arrival, confirming ETA 24 hours before. Vessels to give Harbour Master their draft. Generally speaking berthing draft should be, forward 2% of vessel's length and aft, the propellor completely immersed.
Pilot boat is 11 m. (length), named "Rowland Masterman" and painted orange. It may be contacted on VHF Channel 16. Pilot boards 1 mile from Fairway Beacon.
ANCHORAGE: Anywhere in Albatross Bay except between 2 lines situated 1 mile North and South respectively of the line of leads and extended to the port limits.
RESTRICTIONS: Weipa Approach Channel is 7.8 miles long with a min. depth of water 11 m. (36 ft. 1 in.) LWOST. Usually vessels up to 30,000 d.w.t. enter channel at any stage of the tide. Vessels of over 30,000 d.w.t. enter at any stage of the flood up to 2.5 hours before HW.
Usually vessels up to 30,000 d.w.t. can berth at any state of the tide. Vessels of over 30,000 d.w.t. due to their departure draft and existing tug power must berth starboard side alongside and can do so at any stage of the flood tide. Vessels normally depart 1.5 hours before HW. Some vessels up to 30,000 d.w.t. can depart on LW.
MAX. SIZE: Maximum LOA 254 m. (835 ft.) Beam 35.3 m. (116 ft.) Draft depends on height of tide and 90 cm. (3 ft.) keel clearance is required.
RADIO: Forcomal, Sydney Radio and within 48 hours Thursday Island Radio. VHF Weipa Harbour, Channel 16.
TUGS: Vessels entering North of Cora Bank tugs join at No. 9 Beacon. Vessels entering South of Cora Bank tugs join at No. 16 Beacon. Tugs are usually used in the lashed up position using tug's lines.
3 tugs are available of 13, 23 and 24 tons bollard pull.
BULK HANDLING FACILITIES: Two Bauxite Berths, Lorim Pt. West old berth and Lorim Pt. East which is an extension of the previous old berth. Depth alongside Lorim East 12.5 m. (41 ft.) Lorim West 12.4 m. (40 ft. 8 in.).
Loading rates are Lorim West 3,500 t.p.h. Lorim East 6,000 t.p.h. If there are vessels at both berths loading simultaneously the rates are West 3,500, East 4,500.
STEVEDORES: No stevedores at Weipa.
MEDICAL: Inoculations per Australian Regulations. No notice required for medical attention. Urgent cases flown out and treated at Cairns or Thursday Island.

DENSITY: Dry Season 1024. Wet Season 1012. These figures can vary considerably.
FRESH WATER: Supplied in cases of emergency only. 5 t.p.h.
FUEL: Not available.
STORES: Very limited stores are available. In emergency large orders could be supplied only if several days notice given by radio, as they have to be flown from Cairns.
DEVELOPMENTS: The Alumina Plant at Weipa has been deferred indefinitely. It is intended to widen and deepen the existing channel to improve access.
GANGWAY/DECK WATCHMEN: Not available.
OPENING/CLOSING HATCHES: Work carried out by crew.
SHIP CERTIFICATES: Ship's Register, Load Line, Safety Radio and Safety Equipment Certificates. See also "Melbourne".
CARGO GEAR: No additional requirements. See "Melbourne".
CONSULS: None.
REPAIRS: Not available.
REPATRIATION: Can be arranged.
AIRPORT: 7 miles from airport. Served by Ansett ANA.
TIME: GMt plus 10 hours.
AUTHORITY: Harbour Master, Dept. Harbours and Marine, Weipa.
AGENTS: Sub-agent of Patrick Agencies (through Patrick's Melbourne).

WESTERNPORT, Vic.: 38.21 S. 145.14 E.

(See Plan)

PORT LIMITS: The Port Authorities consider a vessel to be arrived when she crosses an imaginary line between West Head and Point Grant.
DOCUMENTS: Application for berth, tugs, mooring launches, telephones, and notification to load or unload, to be delivered by Ship's Agent to Harbour Master not less than 24 hrs. before arrival.
Customs Documents required:

Form	M & S 11	Crew List and attachments, 3 copies.
	M 42 A	Stores List, 1 copy.
	5	Articles owned by or in possession of crew, 1 copy.
	C & E 886	Ports of call since commencement of voyage, 3 copies.
	QA 3	Quarantine Form. (Animals carried as cargo), 1 copy.
	QA 4	Quarantine Form. (Animals carried as pets), 1 copy.
	QA 5	Ship Master's Bond re animals carried, 1 copy.
	Q 360	Health report of all persons on board, 2 copies.
		Inwards Manifest, 1 copy.
		Outwards Manifest, 1 copy.
	40	Application for clearance.

PILOTAGE: Pilotage compulsory for merchant vessels except those specially exempted. Pilots for Westernport are available on a 24-hr. basis. Warning must be given not less than 24 hrs. prior to vessel's arrival. Pilot for Westernport will board from a launch, painted orange and showing the signals and lights prescribed for such vessels, by day approximately 3 miles Southward from West Head. By night in the white sector of McHaffie's Point Light, with Cape Schank Light bearing 295° (White), at the entrance to Westernport. Pilot launch is equipped with VHF Channel 16 (156.8 mHz).
In bad weather, vessels up to 32 ft. draft obtain Pilot by proceeding to black can buoy moored 2 miles – 084° from Flinders Jetty light; at night buoy shows green flash light every 4 secs.
ANCHORAGES: Anchorage within port between Southern edge Tortoise Head Bank, and Northern shore of Phillip Island. Anchorage 4 miles in length, East to West, and 1.25 miles wide, depths 9 to 15 fathoms at Western end, decreasing 6 to 10 fathoms at Eastern end.
An anchorage area having a least depth of water of 28 ft. has been established adjacent to Long Island Jetty.
RESTRICTIONS: No vessel shall enter port with less underkeel clearance than ten per cent of draft.
MAX. SIZE: Governed by underwater clearance. Vessels drawing up to 48 ft. may enter depending on state of tide, but underkeel clearance shall not be less than ten per cent of draft.
Oil jetties can accommodate vessels of up to 100,000 tons, depending upon water available.
See "Tankers".
RADIO: *Advice to ships Masters on Westernport Harbour Control*
GENERAL INFORMATION

1. *Radio Watch*	A continuous radio watch will be kept by Harbour Control on VHF Channel 16.
2. *Pilot Boarding Ground*	Position 3 mile × 180° from West Head will be identified as position "A".
3. *Fairway Buoy*	Position of Fairway Buoy (Fl. 4 sec.) will be identified as position "B".

INWARD BOUND VESSELS
1. Vessels shall report to Harbour Control at least 1 hour before arrival at position "A" or "B", giving ETA position "A" or "B", deepest draft and information re-hull leaks and health of crew, etc.
2. Vessels must request permission to enter port.
3. Vessels shall advise Harbour Control when passing Fairway Buoy (position "B").
4. Vessels shall advise Harbour Control when rounding Sandy Point and request VHF Channel for berthing operations and tugs.
5. Vessels shall report to Harbour Control (Channel 16) when all fast, finished with engines and tugs dismissed.

OUTWARD BOUND VESSELS
1. Vessels shall contact Harbour Control 1 hour before fixed time of departure advising if they will/will not be ready to sail in 1 hour's time.
2. Vessels will be advised at sailing time by duty Harbour Master re permission to sail, port movements, etc.
3. When vessels clear their berth and tugs dismissed and proceeding they shall report this to Harbour Control (Channel 16).
4. Vessels to advise Harbour Control when (a) Rounding Sandy Point. (b) Clear of Port.

VESSELS PROCEEDING TO ANCHORAGE
1. Vessels inward and outward to an anchorage are to use the same procedure as in above for inward and outward vessels respectively. Vessels will be advised if required to anchor and what anchorage to use. Whilst at anchor vessels shall keep a continuous listening watch on Channel 16.
2. Vessels shall advise Harbour Control when they have anchored and also when vessels are underway again from an anchorage.

ENGINE TRIALS AND LIFEBOAT DRILLS, ETC.
1. Vessels wanting to carry out engine trials shall first obtain permission from the duty Harbour Master.
2. When lifeboat drills are to be held and boats swung out and put into the water the duty Harbour Master shall be given prior notice.
3. All vessels in the port shall notify Harbour Control (Channel 16) of any distress signals sighted or any untoward occurrence.

PRATIQUE: Advise state of crew's health 24 hrs. prior to arrival. If all healthy, pratique granted subsequent to berthing; if crew's health suspect, doctor boards prior to berthing. Pratique automatic when more than 14 days have elapsed since calling at a foreign port, and the vessel has subsequently been granted pratique first at another port within the Commonwealth of Australia. Pratique may be granted 24 hrs. a day.
TUGS: Two tugs are available both of 1,500 h.p. and 22 ton bollard pull. Tugs join vessel at Sandy Point. Ship's lines normally used by tugs. Tugs are fitted with VHF and radar and fire-fighting equipment.
BERTHING: Berthing subject to Harbour Master's direction. 3 oil berths, 1 roll-on/roll-off berth, 1 livestock berth and 2 tug berths are available.
Additional berth, Lysaghts Steel wharf. Roll-on/roll-off stern ramp jetty accommodating vessels up to 10,000 d.w.t. Approach Channel 9.1 m. depth. Alongside depth 12.1 m. Swinging basin 1,500 ft. diameter.
A conventional cargo wharf designed to handle steel products has been established to the North of the Ro/Ro berth. Particulars as follows:–
Steel Industry Wharf No. 2
Owned by J. Lysaght (Australia) Ltd.

Maximum size of vessel:	up to 19,500 d.w.t. (Sim Metal Venture size).
Distance from berth to plant:	1.6 km.
Minimum depth of water:	Approach channel 9.1 m. Alongside 12.2 m. Swinging basin 457 m. diameter.
Tidal range at berth:	Between 2 m. and 3 m.
Nature of Bottom:	Mud, clay and some rock.

Vessel can dock/undock at any stage.
Vessel can dock/undock during hours of darkness.
Vessels moor using ship's lines to Harbour Master's requirements.
Docking Pilots used, unless Master holds special exemption. Water available.
Bunkers by Road Tanker only, subject to Harbour Master's approval.
Engines may be immobilized whilst ship is alongside, subject to Harbour Master's approval.
Stores and supplies can be delivered from dock or by launch.
General Remarks: Steel Industry Wharf Number 2, designed for conventional shipping, adjacent to and extending in a generally N.E. direction from Number 1 Ro/Ro wharf. Re-inforced concrete wharf, with wooded fendering arrangement. Wharf 152 m. long, 15.6 m. to 24 m. wide, bears 37° 4′. A mooring dolphin is provided 30 m. N.E. of the fendered wharf.
STEVEDORES: Westernport is a class "B" port for stevedoring facilities. Port Waratah stevedores available. Require ETAs of vessels from Agent. Ordering time for labour: Dayshift by 1000 hrs. previous day, afternoon shift by 1600 hrs. previous day. All close holidays observed.
MEDICAL: Two qualified medical practitioners available and 20-bed Nursing Hospital. Agent should receive prior notice of particulars of vaccinations required.
TANKERS: No ballast to be discharged into the sea (this includes clean ballast). Three tanker berths, two capable of accommodating 100,000 ton tankers with 52 ft. of water alongside, and the other capable of accommodating 40,000 ton tankers with 42 ft. of water alongside.
Pipe-line hose connections: 16, 14, and 12 ins. black oil, 10 in. white oil, 8 in. bunkers.

Oil jetties are approached through a wide, well-buoyed Channel and each have well-dredged turning basins.

Long Island Point Jetty (Esso).

Situated 15 miles from entrance, depth alongside 52 ft. Bunkers not available at this berth. Dirty ballast facilities for up to 24,000 tons. Shore gangway used.

Crib Point (B.P.)

Situated 13 miles from entrance. No. 1 jetty, depth alongside 52 ft. No. 2 jetty, depth alongside 42 ft. Bunkers are available ex-wharf. Dirty ballast facilities for up to 30,000 tons. Shore gangway provided at No. 1 Crib Point Jetty (BP). Ships gangway used at No. 2.

DENSITY: Average density 1030 oz. per cu. ft.

FRESH WATER: Available. Approximate rate 100 t.p.h. Approximate price $1.00 per 4.5 cu.m. Delivery from hydrants at jetty head.

FUEL: Fuel oil and diesel oil available at Crib Point Jetty only, via direct line from refinery. Delivery rate approx. 350 t.p.h. 48 hrs. notice is required for lub. oil. Small quantities of marine fuel are available from road tankers..

POLLUTION: Cases of discharging dirty ballast or oil spillages will be investigated and vessels are liable to fines and/or detention. Vessels shall not discharge into the waters of the port any part of the contents of their cargo, slop or ballast tanks (this includes clean ballast) or bilges which are liable to pollute these waters. Masters shall ensure that pipe-lines and equipment are clean before using them for discharging anything into the waters of the port. Scuppers shall be plugged effectively and no leakage or spillage from any vessel shall be allowed to leak or be swept overboard. Masters of vessels must seek permission from Harbour Master before pumping anything into the waters of the bay. The State of Victoria has stringent laws in force concerning the pollution of the sea by oil.

FIRE PRECAUTIONS: Vessels shall not immobilise main engines whilst alongside jetties.

GANGWAY/DECK WATCHMAN: A shore watchman may be hired. Cost borne by the vessel.

CERTIFICATES:

Clearance from last port.
Ship's Register.
Articles of Agreement.
Official Log Book.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Derat. Certificate.
Light Dues Certificate (receipt).
Pratique Certificate from last port (if to be used in this port).

CUSTOMS ALLOWANCES: *(a)* Tobacco: each crew member permitted either 200 cigarettes or 8 oz. of pipe tobacco, or 8 oz. of Fine Cut Tobacco out of Bond. *(b)* Wine and/or Spirit: each crew member is allowed 0.17 gallon of wines or spirits (opened).

IDENTIFICATION CARDS: Required for all nationalities except the United Kingdom, Canada, South Africa, Japan, Israel, Norway, Denmark, Fiji, Hong Kong, Malaysia, and South Korea. Also see "Melbourne".

CONSULS: None.

REPAIRS: Facilities for medium size deck and engine repairs. All repairs subject to Harbour Master's approval.

REPATRIATION: Facilities available.

AIRPORT: Nearest major commercial airport is Tullamarine, 55 miles distance, from which there are frequent interstate and international flights. Airport accessible by road in about 2 hrs. by taxi-car.

TIME: Summer, GMT plus 11 hrs. Winter, March-October GMT plus 10 hrs.

HOLIDAYS: Oil terminals work on all holidays. Roll-on/roll-off observe close holidays.

POLICE/AMBULANCE/FIRE: Police Hastings 791270; Ambulance Frankston 7832222; Fire. Hastings 791345, and Crib Point 839221.

TELEPHONES: Port Authority insists that Public Telephone is placed on board. Cost of this service $50.00, plus cost all trunk calls.

GENERAL: Vessels secure to oil jetties using ship's lines and shore preventer wires at all times.

Smoke emissions controlled under the Clean Air Act which will operate under the jurisdiction of the Environment Protection Authority.

SERVICES: Tank washings must be discharged ashore, and not into waters of the port. Licensed Compass adjuster available. Underwriters' Representatives available.

SHORE LEAVE: Crew members permitted shore leave, and launches can be supplied to vessels at anchor, provided vessels have pratique, and have been cleared by customs.

DELAYS: No delays anticipated. Port operates 24 hrs. per day.

AUTHORITY: Ports and Harbours Branch, Department of Public Works, Melbourne; or The Harbour Master, Crib Point.

AGENT: See "Melbourne".

WHYALLA, S.A.: 33.02 S. 137.36 E. (See Plan)

LOCATION: Situated on Western shore of Spencer Gulf opposite to and 27 miles by sea from Port Pirie. Open to all Southerly winds, which seldom interfere seriously with operations.

FACILITIES: Jetty for iron ore loading, and dredged harbour with one main wharf for steel and general cargo, and for bulk cargoes of coal, coke, limestone, pigiron, salt, etc. Harbour berths are safe berths.

DOCUMENTS: See "Melbourne".

PILOTAGE: Compulsory except for those vessels whose Masters hold Exemption Certificates. Pilots board 0.5 to 1.5 miles East (105°) of Whyalla No. 1 Ore Loading Jetty. Vessels requiring Pilot should request service in sufficient time enable Pilot be ordered before 1600 hrs. Monday to Friday and should show prescribed signal within at least 10 miles of Whyalla. If delayed berthing, Master informed by radio and recommended anchor at Pilot boarding station (see above).

ANCHORAGES: Quarantine line extends in direction 241° from Black Point to Coast Southwestward of port. Quarantine anchorage shown on Australian Chart AUS.135, lies Southeastward of quarantine line and Eastward of jetty. Anchor preferably North of harbour leads. Vessels should not anchor on harbour or jetty leads, but should anchor, draft permitting, approximately 1 mile North of Outer Fairway beacon. Holding ground good with hard clay and sand bottom.

RESTRICTIONS: Vessels will not be moved within port by Pilot unless at least 10% of max. draft in water beneath keel. Min. clearance 2 ft. Also see "Berthing".

PRATIQUE: Whyalla is a port of first entry. 48 hours' notice of request for pratique required. Pratique granted at anchorage or in berth. Also see "Melbourne".

RADIO: Cable "Hematite Whyalla" also local Agent *(a)* on departure from previous port advising ETA and total cargo for discharge Whyalla (if any); *(b)* 48 hours prior arrival giving ETA; *(c)* 24 hours prior arrival giving ETA; *(d)* advise any alteration in ETA exceeding 2 hours; *(e)* advise estimated draft on arrival fore and aft. These cables necessary in order ensure loading and labour. Cables to be signed with Master's name. Cables sent outside working hours should be prefixed "Shipserv". In event vessel arriving direct from overseas port requiring pratique, following additional advice to be cabled: No. of crew, nationality, and whether health vaccination certificates required.

VHF: Port equipped with VHF. Service maintained 24 hours a day. Call sign "Whyalla Harbour".

TUGS: All tugs fitted VHF radio. 4 tugs available between 2.5 and 23 tons bollard pull. Wire towropes not to be used unless risk of damage to tug undertaken by ship. Charge for use of tug's lines. Orders for tugs to be made at least 2 hours before required and not later than 1530 hrs. Monday to Friday. Ferry services undertaken to ships at anchorage outside harbour when requested.

BERTHING: Iron ore loading jetty no longer in service, lies near Eastern side of town is 2,273 ft. long with T head formed by 6 dolphins. At night, the dolphin shows fixed white light.

No. 2 Jetty max. length of vessel 820 ft. Depth of water alongside 38 ft. LW. Approach Channel depth 35 ft. LWOST. Swinging basin, depth 35 ft. LWOST.

Stowage factor iron ore, 13–15 ft. per ton. No stevedoring incurred and generally cargo loaded lower holds and no trimming necessary.

Whyalla Harbour: About 1.25 miles to North or iron ore jetty. Entrance Channel 300 ft. wide and approx. 6,000 ft. length. Water depth in Channel and basin 9.5 m. LWOST. Depth of water at Harbour Wharf 10.7 m. LWOST. Berth length 600 ft.

DENSITY: Specific gravity of water approximately 1028 to 1035 therefore vessels must load light.

STEVEDORES: Shift work 21 hours per day on continuous 7 day roster. At least 24 hours notice for labour requirements.

MEDICAL: Resident doctors and hospital available.

FRESH WATER: Available at No. 2 Jetty and all wharves.

FUEL: Bunkering not normally undertaken. Fuel oil, coal and diesel oil available at Whyalla Harbour Wharf in emergencies only.

REPAIRS: Essential repairs only. Consult ship's Agents before maintenance or repairs undertaken.

STORES: Marine and bonded stores can be procured by arrangement with Adelaide. 5 days notice required.

SURVEYORS: Resident surveyors for Lloyds, also Department of Shipping & Transport. Lloyd's agents are Adelaide Steamship Co. Ltd.

GANGWAY/DECK WATCHMAN: Available at ship's option.

REPATRIATION: Air, road and rail facilities available.

AMBULANCE: In event of accident contact Agent or BHP 419 or BHP 2205. After hours BHP 699. St. John's Ambulance Services (tel.: 45–7777) available 24 hours daily.

Aerial Ambulance available for transfer of patients to a metropolitan hospital.

SHORE LEAVE: Crew members permitted shore leave, and launches, at ship's option, provide regular schedule to anchorage – weather permitting.

AUTHORITY: The Broken Hill Proprietary Co. Ltd.

AGENT: Sub-agent of Patrick Agencies, Adelaide.

WYNDHAM, W.A.: 15.27 S. 128.06 E. (See Plan)

PORT LIMITS: All waters in the Cambridge Gulf South of a line extending from Cape Dussejour to the summit of Hill 437 on Lacrosse Island, thence to Cape Donett.

CERTIFICATES/DOCUMENTS/HEALTH: See "Melbourne".

PILOTAGE: Compulsory for all vessels entering port except those whose Masters have pilotage exemptions. Pilot boards South of Lacrosse Island in a position with Lacrosse Lt. Ho. bearing 350° distant 5.5 miles. Vessels arriving early should anchor in or near this position. Preferably vessels should arrive at Pilot boarding ground at dawn, as Gulf negotiated during daylight only.

Pilot resident at Wyndham, and essential give early advice when pilotage service required. 48 hours prior arrival give ETA to Harbour and Light Department, Wyndham.

All ships awaiting a Pilot should maintain listening watch on VHF Channel 16 at least 2 hours prior to Pilot boarding time, have engines on stand-by at least 1 hour before boarding time, and be ready to proceed in accordance with the Pilot's instructions given by VHF.

The approaches Channel has a min. depth of 6.4 m. LWOST.

ETA: Shipserve "Harbour Master Wyndham" required 48 and 24 hours notice prior arrival. The 24 hours message should be timed to be delivered before 1630 hrs. local time on the day before arrival so that arrangements can be finalised, when possible, in working hours.

Indicate max. draft in the 48 hours notice.

APPROACHES: Generally speaking, it is preferable to arrive at the Pilot station at daybreak. Approach Medusa Bank Buoy and pass Westward (buoy bearing 090° distance 1 mile). Steer 180° until Lacrosse Island lighthouse bears 040°, distance 2 miles. Alter course to 145° to a position with Shakespeare Hill and Cone Hill in transit (086°), Cone Hill distance 4 miles. The course should then be altered to 225°. Course clears Guthrie and East Banks and puts Black Cliff right ahead.

It will be noted that a conspicuous hill (un-named) is sighted immediately behind Black Cliff Point and these together form an excellent lead down this part of the Gulf to a position off Islet Point. From this point onwards pilotage is fairly complicated. There is a submerged wreck off the jetty, which must be considered when berthing and unberthing. Large vessels may only navigate the Hard Channel at half tide or better, as there is a 6.4 m. patch in the fairway.

HEALTH: Wyndham is a first port of entry. Masters are required to radio Port Health Authority, Wyndham, not less than 12 hours prior to arrival at pilotage station and giving state of health of the vessel. Examination for pratique is usually conducted after arrival alongside and nobody is permitted ashore until doctor's examination is completed.

RESTRICTIONS: The max. length of vessel permitted to navigate the Gulf is 189 m. overall. The Gulf is not navigable during hours of darkness at present.

MAX. SIZE: Length 189 m. draft 9.14 m.

BERTHING: There is a jetty of 283 m. in length. The Southern 210 m. having a least depth of 9.14 m., there is slightly less water at the Northern end.

Ordinary moorings are used. A launch is on station to run lines. There is no tug available.

FRESH WATER: Available at both berths. Supply is 10 t.p.h. approx.

STEVEDORES: Working hours: 0730 to 1130 hrs., 1230 to 1630 hrs., 1630 to 1830 hrs. When no extension of work, labour finishes at 1630 hrs.

Labour is organised by the Asia & Stevedoring Companies. WWF conditions prevail, four gangs are available. Prior advice as to labour requirements, hatches to be worked, etc., is of great assistance to stevedores.

CARGO HANDLING: By ship's gear only direct to railway wagons and motor transport. One 12-ton Coles slewing crane and two 5-ton mobile cranes are available, provided sufficient notice is given. A short railway connects the jetty, goodshed, and meatworks. Fork-lift trucks and pallets are used for handling general cargo where suitable.

FUEL/TUGS/REPAIRS: None.

TIME: GMT plus 8 hrs.

AUTHORITY: Harbour & Light Department, Fremantle. Local Authority: Harbour Master, Harbour and Light Department, Wyndham.

AGENT: Sub-agent of Patrick Agencies, Fremantle.

YAMPI SOUND, W.A. (Cockatoo Island and Koolan Island): 16.08 S. 123.38 E.

PORT LIMITS: The port limits, which are not marked on the charts of the area extend from a position in Lat. 16° 13′ 13″ South, Long. 123° 32′ 32″ East in a Northerly direction for 10 miles to about midway between Bathurst and Irvine Islands, thence Eastward for 15 miles, thence Southwards to the mainland passing nearly 0.75 of a mile Eastwards of Koolan Island. The Southern limits of the port includes all the intermediate coastline between the Eastern and Western limits as defined above.

DOCUMENTS: The following documents should be prepared prior to arrival if Yampi is the first port of entry to Australia:

Health:

2 copies – Form Q360

Customs:

2 copies – Form M&S 11 (List of Crew)
1 copy – Form 42A (Store List)
1 copy – Form 5 (Articles owned or in possession of Master, Officers or crew)
3 copies – Form C&E (Ports of Call)
1 copy – Form QA4 (Declaration of Ship's Pets)
1 copy – Form QA5 (Shipmaster's Bond) – completed only if pets on board
3 copies – Crew List – unofficial
3 copies – Ship's Bonded Stores – unofficial

The following Certificates are required to be produced if Yampi Sound is the first port of entry to Australia:

Loadline Certificate
Safety Radio Certificate
Safety Equipment Certificate
Safety Construction Certificate
Commonwealth Light Dues Certificate (receipt)
Custom's Clearance from last port

PILOTAGE: Yampi Sound is not a compulsory pilotage area. However, the Company's Port Officer holds a foreign going Master's Certificate, is well versed in local conditions and will act as Pilot for Masters requiring his service. The Port Officer will board at the quarantine anchorage.

As a Westerly wind is quite common, Masters are advised that their vessel should be adequately ballasted prior to berthing operations.

ANCHORAGE: Yampi Sound is a well sheltered deep water port with good all weather anchorages. The quarantine anchorage for Cockatoo Island is located on the Southern side of Cockatoo Island with Cockatoo Island light bearing 060° True, distance 1.5 miles.

Koolan Island is located on the Eastern side of Yampi Sound, with Nares Point bearing 090° True, distance 2 miles.

MAX. SIZE: *Koolan Island:* LOA, 260.7 m. (875 ft.). Breadth, 40.23 m. (132 ft.). Draft (ordinary) 15.54 m. (51 ft.) however loading permitted to 52 ft. on rising tide.

Cockatoo Island: LOA, 225.55 m. (740 ft.) Breadth, 36.57 m. (120 ft.). Draft (ordinary) 12.49 m. (42 ft.). However vessels can exceed the berth depth (42 ft.) by completing loading on a rising tide, to a max. draft of 13.41 m. (44 ft.).

HEALTH: Yampi Sound is a first port of entry to Australia, and valid Vaccination Certificates are required. The doctor is normally available during dayiight hours only, excepting emergencies.

A gangway is required at the quarantine anchorages to allow the doctor and customs to board. A pilot ladder is not acceptable.

RADIO: The port is able to communicate with vessels which are fitted with VHF radio through the normal international maritime channels. The call sign is "KOOLAN ISLAND". A continuous listening watch is not maintained on Channel 16.

The telegraphic address for Yampi Sound is "Ironsteel", Derby, W.A., and Masters of vessels destined for Yampi Sound are required to advise their ETA by radio on departure from the previous port, and at 72 hours, 48 hours, and 24 hours prior to arrival, depending on the vessel's departure from that port.

TUGS: The following vessels are available for shipping movements within Yampi Sound.

Kalibah – 850 hp. Tug – 15 tonne bollard pull
Takora – 350 hp. Tug – 5.5 tonne bollard pull
Tangara – Line launch

Also available for general cargo work is

Wandi II – Landing Barge of 60 tonne capacity

TIDES: Tidal streams within Yampi Sound generally set Easterly with the flood, and Westerly with the ebb tide. At Koolan Island wharf, the tidal stream sets Eastward except for a period from 0.5 hour before to 2.5 hours after high water when the tidal stream sets Westward.

At Cockatoo Island jetty the tidal stream sets Eastward except for a period from 1 hour before to 3 hours after high water when the tidal stream sets Westward.

At spring tides these streams are most pronounced, however may become confused at neap tides.

Further advice on tides and tidal movement can be obtained from the Company's Port Officer.

LOADING ZONES: A Summer Loading zone exists at Yampi Sound with the exception of a Seasonal Tropical Allowance from 1st May to 30th November.

BERTHING:

Koolan Island

The loading berth at Koolan Island consists of a substantial, well fendered wharf 170.7 m. long with the centre located approximately 16° 08.3′ S., 123° 44.3′ E. Additional mooring dolphins are located each end of the wharf to accommodate vessels of up to 130,000 d.w.t. with a maximum beam of 41 m.

The depth of water alongside the wharf is 14.8 m. at LWOST with a tidal range of up to 10.67 m.

The shiploader consists of a travelling, retractable, luffing, conveyor boom capable of loading iron ore at a rate of 3,000 t.p.h., and can move a distance of 118.9 m. along the wharf. Larger vessels may be required to shift along the berth to complete loading operations, the vessel's Master being fully responsible for shifting operations at all times.

Loading is normally continuous with the exception of closed holidays such as Christmas Day, Anzac Day, Good Friday, etc.

General cargo handling facilities at this wharf include a 33 tonne travelling and luffing crane on the Eastern end. Shore labour is available only for use as mooring gangs, and loading and handling of cargo on the wharf only. There are no ship foremen.

Cockatoo Island

The loading jetty at Cockatoo Island consists of 6 dolphins aligned in a 117° T – 297° T direction over a distance of 210.3 m. with its centre, located approximately 16° 06.3′ S. 123° 36.8′ E. Berthing dolphins are located 111.9 m. and 82.9 m. from the centre of each West and East end dolphin respectively. The dolphins are well constructed with a facing of timber fendering from the wharf decking to low water level.

The depth of water alongside is 11.8 m. at LWOST with a tidal range of up to 10.67 m.

The shiploader consists of a fixed, retractable, luffing conveyor

boom located between the 2 centre dolphins and is capable of loading iron ore at a rate of 1,800 t.p.h.

Due to the fixed nature of the shiploader, ship's Masters are required to bring each hatch in sequence under the boom, by warping the vessel along the jetty. During these operations Company employees are in attendance for handling the shore end of mooring lines only. The vessel's Master is fully responsible for the warping operations at all times.

Loading is normally carried out from 0600 to 2000 hrs. local time. These hours may be extended to complete loading operations. Loading is not carried out on closed holidays such as Christmas Day, Anzac Day, Good Friday, etc.

General cargo is not handled at this jetty.

MEDICAL: There is a resident doctor on Koolan Island and a small medical centre on both islands. However, the nearest hospital facilities are at Derby, 140 km. from Yampi Sound, and all patients are tranferred by aircraft.

SERVICES: Stores, laundry service, fresh water, repair facilities, divers and trading bank facilities are not readily available.

Fresh water can be supplied in an emergency while moderate amounts of stores are obtainable if sufficient notice has been given beforehand. Limited cash can be obtained.

Bunkers are not available, while distillate is available in moderate quantities only after prior arrangement.

The facilities in the townsites of Cockatoo and Koolan Islands are very limited and include a Post Office, Supermarket, Shop, Savings Bank, Open Air Cinema, and a Private Club. There is a swimming pool at Koolan Island townsite.

AIRPORT: There is an airstrip located on both Cockatoo and Koolan Islands and flights by the Company's Charter Aircraft connect with the Australian airline system at Derby, 140 km. from Yampi Sound.

FIRE PRECAUTIONS: There are no fire services available, except the Works Fire Brigade and the safety of the vessel, due to the isolated nature of the berths, remains the responsibility of the Master at all times.

International shore connections are readily accessible at both Cockatoo Island jetty and Koolan Island wharf.

POLICE/AMBULANCE/FIRE: In an emergency the Port Officer should immediately be informed.

Emergency telephone numbers:	*Koolan*	*Cockatoo*
Medical	60	20
Fire Brigade	23	32
Port Officer – Home	48	0–48
Office	72	0–72
Policeman	–	75

TIME: GMT plus 8 hours.

PORT REGULATIONS: Whilst in the Port of Yampi Sound, Masters are respectfully requested to observe the appropriate Quarantine Regulations, particularly in regard to the following matters:—

Garbage, waste oils and tank cleaning compounds should not be discharged into the sea whilst in Yampi Sound.

Rat guards should be used at all times.

SHORE LEAVE: Identity cards are not necessary for shore leave. The townsite on Koolan Island is 10 km. from the wharf and on Cockatoo Island 3.5 km. from the jetty. Transport to the townsite is very limited, and only during working hours. Seamen and visitors are not permitted to walk near the quarry areas, and are cautioned to keep clear of all machinery.

Permission must be obtained before seamen and visitors proceed ashore as blasting in the quarry areas can take place at any time.

GENERAL INFORMATION: The sole export from Yampi Sound is iron ore which is quarried on Cockatoo and Kooland Islands by the Dampier Mining Co. Ltd., a subsidiary of the Broken Hill Proprietary Co. Ltd.

The first shipment of iron from Cockatoo Island was made in 1951, while the first shipment from Koolan Island was made in 1965.

During the year ended November 1975, 3.5 million tonnes of iron ore were shipped from Yampi Sound by 72 vessels. The largest shipments loaded to date have been 105,159 tonnes by the Norwegian vessel "Mosfield" from Koolan Island, and 65,141 tonnes by the Norwegian vessel "Voywi" from Cockatoo Island.

From November to March Yampi Sound is near the Southern extremities of the N.W. monsoonal influence and cyclones can be expected during this period. The effects of cyclones are more prevalent in this area early in this period, however cyclonic conditions have been experienced at Yampi Sound during February/March.

During the season November to March (known locally as the "Wet"), the prevailing winds are Westerly, strong at times, particularly during the afternoon. Rain and thunder squalls are also frequent during the "wet", and Master's are warned to be watchful for storms, as the accompanying winds can be gale force.

The season April to October (known locally as the "Dry") brings a period of very little rain and frequent periods of strong South-Easterly winds during the mornings, giving way to light Westerly sea breezes in the afternoons. No cyclones are likely during this period.

	Koolan Island	*Cockatoo Island*
Depth of Water		
Berth	15.85 m. (52 ft.)	12.80 m. (42 ft.)
Turning Basin	20.10 m. (66 ft.)	16.45 m. (54 ft.)

Azores

HORTA, Faial: 38.32 N. 28.38 W.

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
For Customs
Arrival Declaration.
Manifest of Cargo for discharge or in transit.
Provisions List.
Request to commence load/discharge.
For Port Health
Deratisation Certificate or exemption.
Health Clearance from Last Port.
For Port Captain
Seaworthiness Certificate.
Certificate of Registry.
Tonnage Certificate.

PILOTAGE: Can be called by two long and one short blasts on the whistle, or by International Code flag "G". Radio contact with pilot station can be made by VHF channel 16; Phone 2182; via radio station CUG, or in cases of urgency, through the Horta Naval Radio Station CTH.

Pilot launch painted black with "Pilotos" painted on each bulwark. If requested by Master, Pilot will board at entrance of Faial-Pico Channel or Faial-St. George Channel. Otherwise Pilot will board at port entrance. Vessels waiting for pilot must remain 1.5 miles from the breakwater with Ponta de Doca Lighthouse in line with Aeria Larga Lighthouse on Pico Island.

ANCHORAGE: The best holding ground is with the breakwater light in line with the tower of San Francisco church bearing 271°, and with Ilheu Negro in line with Casa Jaoa Catita bearing 208°. Another line of good soundings is in the open Channel dos Ingleses.

MAX. SIZE: For berthing, max. draft 22 ft. Depth in the artificial port is 36 ft. at high water. Depth at buoy moorings: 33 ft. Vessels of any draft can anchor outside the port.

HEALTH: If vessel has not touched any contaminated port, Pilot will haul up signal "TO" and Health Inspector will give free pratique. Master is obliged to send the Maritime Declaration of Health given by the Pilot to shore within one hour together with a Crew List and Cargo Manifest. If vessel has suspected case of fever on board or is coming from a port in a contaminated zone, pratique will only be given after Health Inspector has boarded.

RADIO: Commercial station CUG and Naval station CTH.

TUGS: None available.

STEVEDORES: Gangs are provided by local stevedores syndicate when requested by Master or Agent.

MEDICAL: Doctors and hospital facilities always available.

FRESH WATER: Can be provided by one water barge, capacity 57 tons, cost 38.50 Escudos per ton.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: Police Guard or Coast Guard (Cabos de mar).

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ATLOWANCES: Up to 150 grammes tobacco and small allowance wine or spirits for each man.

IDENTIFICATION CARDS: Not required.

CONSULS:

France	Germany	Netherlands
Greece	Italy	Norway

REPAIRS: Machinery and small electronic repairs can be effected.

REPATRIATION: Can be arranged.

TIME: GMT minus 1 hour all year round.

HOLIDAYS: 1st January; 10th June; 24th June; 15th August; Corpus Christi; 5th October; 1st November; 8th December; 25th December.

POLICE/AMBULANCE/FIRE: Police tel. 22022; Ambulance 22122; Fire 22333.

TELEPHONES: Can be connected on board vessels berthed alongside.

SHORE LEAVE: Allowed.

AIRPORT: Several flights during the week from Faial Airport, 10 km. from the port, to Lajes airport and International Airport at Santa Maria. There is a daily boat service to Pico and several weekly to other islands.

AUTHORITY: Capitao do Porto da Horta.

AGENT: Casa Bensaude, Importacoes e Exportacoes SARL, Horta, Faial, Rua Vasco da Gama 42. Cables "Bensaude Horta". Tel. 23032/40 (9 lines).

PONTA DELGADA: 37.44 N. 25.40 W.

(See Plan)

DOCUMENTS:
1 Store List.
4 Crew Lists.
4 Landing Passenger Lists.
4 In Transit Passenger Lists.
2 Manifests of Cargo Being Landed.
1 In Transit Cargo Manifest.
Ship's Register.
Load-line Certificate.
Safety Equipment Certificates (London Convention).
Deratting Certificate.

PILOTAGE: Good deep approach. Harbour Pilot boards 0.5 mile S.E. of breakwater. Radio Harbour Master direct or through Agent ETA 48 hours notice. ETA message to include draft, reason for calling, type of bunker required, fresh water required, oil products needed, nature of repairs and what cargo, if any, aboard.

Pilot station with visual signals tower and radiotelephony, at entrance of port installations. Telephone number 2 35 50. Pilot's motorboat – Pilotos in capital white letters printed both sides hull, as well as flag "P" hoisted during day or one red, one white light at night.

When necessary, Pilot motorboat will complete identification by flashing word "Pilotos".

Besides usual signals of ICS, Pilots' Station, when necessary, will hoist on main signal tower the following:

By Day – Flag "X" of ICS – Wait outside Harbour (for Portuguese or foreign ships regularly visiting Ponta Delgada); Flags "OG" of the ICS – Wait outside Harbour (for all other ships);

By Night – Two green lights (one above the other) – Wait outside the Harbour (for Portuguese and foreign ships).

ANCHORAGE: Outside artificial harbour, in roadstead and off breakwater, anchorage suitable for all ships whose drafts are too deep for admission into artificial port – over 40 ft. depth. Good holding ground.

RESTRICTIONS: Vessel considered adversely trimmed when more than 10 ft. "by the stern" or 2 ft. "by the head".

MAX. SIZE: Up to 38 ft. draft.

HEALTH: The Pilot requests Master to hoist quarantine flag when vessel comes from an infected port, or when sick people carried on board. Port doctor then boards for inspection and nobody allowed to board or leave vessel before completion of inspection.

Animals: Importation and transit of all birds and small animals allowed but valid health certificate and valid rabic vaccination certificate required. All staff and crew members of vessels arriving from a port officialy declared infected by smallpox, not allowed go ashore, unless in possession of vaccination certificate.

RADIO: San Miguel Radio, call sign CUG. Transmitting on 1663.5 kHz. Receiving on 2182 kHz. Radio telephone frequencies 4415.8, 8792.8, and 13175.5.

TUGS: Two tugs, 1,100 h.p. and 3,400 h.p. operated by Junta Autonoma available for assistance during berthing and unberthing.

BERTHING:
No. 1 – Quay for small craft.
No. 2 – West Quay, 1,069 ft. long, min. depth alongside, LW, 20 ft.
No. 3 – Central Quay, 678 ft. long, min. depth alongside LW, 27 ft.
No. 4 – East Quay, 2,023 ft. long, min. depth alongside, LW, 40 ft.
Mooring buoys in depths ranging from 20 to 30 ft.

RADAR/VHF: Harbour radar covers range of 20 sea miles; controls inside harbour waters. VHF location – main signal tower. Call sign – "Pilotos". Operating 24 hours on Channel 16. Range 20 to 25 miles.

Calls must be made on Channel 16 and then shift to Channels 20 or 22 as indicated by Port Operations Station. Channel 13 used for communications between tug, pilot station, Pilot aboard, during manoeuvres of mooring and unmooring. It should be understood that the Port Operations Station is not to be used for ship's business with Agents or Shippers of cargo.

MEDICAL: Large well-equipped hospital. Santa Casa da Misericordia de Ponta Delgada, telephone number 2 23 22.

TANKERS: Vessels carrying explosives, inflammable liquid or any other dangerous cargoes, before entering port, must hoist International Code Signal "B" at foremast during day and a red light at night. Upon boarding vessel the harbour Pilot enquires from the Master whether there are explosives and any other dangerous cargoes on board. Masters requested to supply accurate information as to quantity and nature in order to enable Port Authorities to select a suitable berth or anchorage for vessel.

Constant Readiness: Vessels carrying dangerous cargoes, while moored, must maintain engines and propulsion machinery in readiness to leave the port under full power, if necessary.

FRESH WATER: Available at all quays ex hydrants.

FUEL: Bunkers are readily available but, for their own convenience Masters should telegraph Agents quantity and type of bunkers required. In order to avoid possible delays to their own and other vessels, Masters are requested to replenish bunkers at the time suggested by their Agents.

GANGWAY/DECK WATCHMEN: Customs Guards are on duty upon the quay and at the entrance of the wharf. Customs guards are also placed on board and those assigned for this duty should be provided with meals (at regular meal times) and sleeping quarters on board.

CUSTOMS ALLOWANCE: Storerooms will be sealed but a reasonable quantity of stores, estimated as indispensable for consumption, may be removed before sealing. This amount should be ready for removal from the storeroom prior to arrival at berth.

CARGO GEAR: Two 10 ton travelling cranes at all quays. Mobile cranes available at all quays. Small slipway for vessels up to 200 ft. long. Tender for passenger vessels.

IDENTIFICATION CARDS: No crew members allowed ashore without landing cards, which are supplied by Agents.

CONSULS:

Belgium	Tel.	2 20 29	Italy	Tel.	2 42 46
Brazil	,,	2 26 38	Mexico	,,	2 27 04

REPAIRS: Engine or other repairs can be undertaken. Repairs to electric installations, motors and refrigerating systems can also be undertaken as well as repairs to wireless stations (including VHF, radio-telephone equipment, radar, Echo-sounders, direction-finders, gyro-compasses, steering-gear, Sal logs and cinema projectors).

Workshops duly equipped to undertake hull and engine repairs. Divers and equipment also available for some underwater work. Small tugs, motor-launches and lighters. No dry-docking available. A seagoing salvage tug, owned by Junta Autonoma is stationed in the port.

REPATRIATION: Can be arranged.

AIRPORT: 3 km. from Ponta Delgada. Daily flights to Airport of Santa Maria, Lajes Field (Terceira) and Faial by Sata Airlines. Connections with weekly flights of PAA, TWA and Transportes Aereos Portugueses – TAP, to and from Europe and United States or Canada.

TIME: GMT, minus 1 hour. No changes.

HOLIDAYS: 1st January – New Year's Day, June 10th (Portugual Day), Corpus Christi, August 15th, October 5th, November 1st, December 1st, Monday before Ascension Day. Government offices close on afternoon of Maundy Thursday and on afternoon of Christmas Eve. Most firms close on Shrove Tuesday and Good Friday.

POLICE/FIRE/AMBULANCE: Police telephone 22022; Fire telephone 2 23 33; Ambulance telephone 22022.

TELEPHONES: Any ship moored alongside can be connected to the city's telephone network, upon request through the ship's Agent.

GENERAL: Visual storm signals are shown on Main Signal Tower.

SERVICES: Fresh and dry provisions available all the year round.

SHORE LEAVE: Allowed.

REGULATIONS: Ballast: Vessels must arrive with sufficient ballast to permit safe handling.

Ratguards: It is advisable to use ratguards while moored alongside. Scupper Covers: Boards or other suitable devices must be used to cover outlets from lavatory discharges, etc., to prevent fouling of pier or craft alongside.

Garbage: It is absolutely forbidden to dispose of cinders, garbage, or any other refuse inside the harbour or within the territorial waters limit. Non-compliance is subject to heavy fines.

AUTHORITY: Junta Autonoma Dos Portos Do Distrito. de Ponta Delgada.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Bahamas

FREEPORT, Bahamas: 26.30 N. 78.45 W.

(See Plan)

DOCUMENTS:

(a) Inwards:

Description	Customs	Immigration	Agents	Total
1. Crew Lists	2	—	1	3
2. In transit Passenger List	2	2	2	6
3. Disembarking Passenger List	2	2	2	6
4. Stores List	2	—	—	2
5. Gift shop inventory	2	—	—	2
6. Crew's Declaration	2	—	—	2
7. Ship's Report Inwards (supplied by Agents)	2	—	—	2
8. Maritime Declaration of Health (supplied by Agents)	1	—	—	1
9. Cargo Manifest for Freeport	4	—	2	6

10. Landing cards supplied by agents to be completed by each disembarking passenger.
11. Baggage Declaration forms supplied by agents to be completed by each disembarking passenger.
12. Clearance from last port will be collected by Customs.
13. Deratisation Certificate should be available for inspection.
    If vessel's previous port of call was in Bahamas items (7), (8) and (13) need not be complied with.
    When vessel requires Consular Despatch to country such as Venezuela, two extra copies items (1), (4) and (6) should be supplied.

(b) Outwards:

Description	Customs	Immigration	Agents	Total
1. Ship's Report Outwards (supplied by Agents)	2	—	—	2
2. List of embarking passengers (if any)	2	2	2	6
3. Outward Manifest Freeport cargo	2	—	2	4

If vessel clearing for another Bahamian port item (1) does not have to be complied with, but copy of next port's manifest required.

PILOTAGE: Compulsory for passenger vessels exceeding 199 gross tons and freighters exceeding 399 gross tons. Pilotage is compulsory for tankers berthing at Borco dock, but vessels calling for bunkers only may anchor and bunker by barge without using pilot services. However, pilotage recommended. Pilot station located in position in which Freeport light bears 050° true, distance 3 miles. Approaching Freeport, particularly from North West, keep at least 3 miles from shore, and, when off port, remain at pilot station until boarded by Pilot. Pilotage area extends from pilot station to offshore refuelling moorings, anchorage to West of harbour entrance and harbour. Pilots available any time of day or night. Harbour signal station maintains a 24 hour watch for visual and radio signals. Borco on VHF Channel 16 only.

Vessels can communicate by RT on 2182 kc/s., and once they have established contact will normally be asked to switch to one of the following frequencies: 2638 or 2738 kc/s. Vessels can also communicate by VHF Channels 16 and 14. Freeport call sign on all frequencies is ZFP 81 or Freeport Harbour Control. Give ETA 48 hours in advance, with subsequent corrections as necessary.

ANCHORAGES: There is a good offshore anchorage approximately 2,500 feet to the North West from the entrance channel for a distance of 1.5 miles (submarine cable in existence) which is sheltered from Northerly winds. The bottom of the sea is lime and coral rock covered by sand and loose lime.

APPROACHES: The following landmarks are prominent when approaching the port: Borco Refinery 3 chimneys. 369 ft. above mean low water. White with red bands showing three sets of four red lights at night. Visible approx. 20 miles. Bahamas Cement Company storage silos just to West of harbour entrance. Visible approx. 15 miles.

Currents in the area are not predictable and are largely wind induced. Harbour is approached through straight channel 1,800 ft. in length, 300 ft. width and with controlling depth of 30 ft. below mean low water. Turning basin, 2,000 ft. by 1,800 ft. Vessels may enter and leave harbour on 24 hour basis, weather permitting.

MAX. SIZE: *Tanker Berths.*

Berth No.	d.w.t.	Max. Draft
No. 3 berth up to	38,000	38 ft.
4 ,, ,, ,,	55,000	50 ft.
5 ,, ,, ,,	90,000	50 ft.
6 ,, ,, ,,	312,000	82 ft.
7 ,, ,, ,,	65,000	38 ft.
8 ,, ,, ,,	100,000	50 ft.
9 ,, ,, ,,	130,000	51 ft.
10 ,, ,, ,,	500,000	85 ft.

HEALTH: Pratique granted by Customs Boarding Officer after Maritime Declaration of Health form completed by Master and Deratisation Certificate examined. Important that vessel should not commence refuelling nor work cargo until cleared. A vessel arriving from another Bahamian port, e.g. Nassau, does not require pratique. Event any suspected disease or fever on board, pratique may be witheld, pending examination by Government Medical Officer.

RADIO: Recommended that radio messages giving ETA, etc., be transmitted via Miami Radio.

Tankers proceeding to Borco Installation should transmit the following information within 6 hours of clearing at last port:

(a) name of tanker;
(b) name of port at which the tanker last called;
(c) date and hour of estimated time of arrival at Freeport.

It is imperative that the Master of each tanker shall establish communications with the refinery at least 72 hours prior to the estimated time of arrival, and that the refinery be notified of any change in ETA. Four hours before arrival at Freeport the Master should establish contact by VHF radio and advise on vessels precise estimated time of arrival. Any berthing instructions will be passed to the Master at this time.

Radio Telephone: A continuous watch is maintained by the Control Tower of Freeport (Bahamas) Harbour on 2182 kc/s. and on VHF Channel 16 (156.80 Mc/s).

Working frequencies are:—

Medium Frequencies:

2638 kc/s. — Ship-to-Shore
2738 kc/s. — Ship-to-Shore
2782 kc/s. — Freeport Harbour (Private frequency).

VHF: Channel 14 (156.70 Mc/s).

In addition, Freeport Harbour can communicate on:

2031.5 kc/s. — Miami Marine.
2118 kc/s. — Miami Marine.
2198 kc/s. — Nassau Marine.
2670 kc/s. — Coast Guard

TUGS: NEPCO provide four tugs for assisting in berthing and unberthing. Two of these are of 4,300 h.p. and 2 of 1,000 h.p. In addition there are 2 chartered tugs of 4,000 h.p.

STEVEDORES: Freeport Harbour Company, Ltd., are sole stevedoring company. Some limitation labour availability and difficult to obtain more than 2 gangs at any one time. Normal discharging rate 10 tons d.w. per hook per hour. Port Authority operate forklift trucks ranging from 2 to 30 tons capacity. First ETA at least 48 hours prior arrival, to ensure labour booked in time.

MEDICAL: No port medical officers. Persons requiring attention must proceed approximately 7 miles to Freeport's hospital and dental clinic, or to Antoni Clinic or Lucayan Medical Group Clinic which approximately same distance from port area. Advance notice to Agent desirable but not essential.

SPECIALISED CARGO-HANDLING FACILITIES: *Cement:* Bahamas Cement Company own and operate the whole of Basin No. 3 (1,365 ft. by 350 ft. by 636 ft. – depth 30 ft. at MLW), with bulk handling facilities.

Roll-on/roll-off: Basin No. 1: 2 ramps for 2 vessels (passenger/car ferry type) at S.E. end. Depth 28 ft. MLW. Both ramps approx.4 ft.above MHW. 1 is adjustable.

Basin No. 2: 2 ramps for 5 landing ship type vessels at S.E. end. Depth 15 ft. MLW. 1 ramp 4 ft. above MLW (4 vls.), the other 0 ft. (1 vl.).

TANKER BERTHING FACILITIES: There are 4 off-shore loading platforms (sea islands) situated between 2,500 and 3,600 ft. from the shore line at Pinder's Point. There are 2 berths on each platform making a total of 8 berths which can accommodate tankers ranging in size from 16,000 to 500,000 d.w.t.

Inside the harbour at Dock 1 are facilities for handling smaller vessels, mainly barge loading and import/export of refined products on a small scale. This is the only mogas import berth for the island.

Borco Dock 1:

The No. 1 Dock area is the centre of Neptow's Operations. Neptow, an affiliated Company of Borco, is responsible for the maintenance and provision of all marine transport associated with the off-shore operation. Neptow provides tug-boats, mooring boats, personnel carriers, pilotage service and bunker barge facilities, the barges being used to bunker and water vessels in the harbour and in the anchorage.

The working length of the dock is 600 ft., it will accommodate vessels up to approximately 18,000 d.w.t. (Deadweight tons) with a maximum draft of 27 ft.

Neptow provide a bunkering service. This service is given to vessels visiting the Port of Freeport, (cruise ships, cargo ships), and to vessels anchoring outside the port solely to purchase, bunker fuel. The barge service is also used occasionally at Borco's marine facilities when it is more convenient to bunker a vessel by barge. Bunker fuel supplied to the above mentioned vessels ranges from diesel oil to heavy fuel oil, blends being made in between to suit individual customer requirements.

Products imported or exported via the No. 1 Dock loading facilities are:—

Imports: 1. Premium Gasoline.
2. Regular Gasoline.
3. Heavy Fuel Oils for Bunkering.
4. Heavy Fuel Oil, to be supplied as bunker fuel to visiting tankships.

Exports: 1. Diesel oil to small craft for inter-island distribution.
2. All grades of fuel oil into barges or tankships when scheduled for delivery to the Out-Islands or the East Coast of U.S.A.

Note: Tankships, except for gasoline imports, normally only use the No. 1 Dock facilities during occasions of extreme bad weather,

Loading Platforms:–The 3 loading platforms which accommodate berths 3 & 4, 5 & 6, 7 & 8 are of fully enclosed, box like type of construction the interiors of which contain equipment for the operation of each respective platform.

The platform serving 9 & 10 Berths is of a slightly different design in-so-much that it is of an open type construction with no between decks storage space.

All of the platforms are situated in an elevated position approximately 40 ft. above sea-level and are supported by piling structures sunk into the sea-bed.

The platforms serving berths 3 & 4, 7 & 8 and 5 & 6, 9 & 10 are interconnected by cat-walks which extend in a Northwest/Southeast direction, in line with prevalent weather conditions. The overall lengths of these structures are approximately 2,040 ft. and 3,000 ft. respectively.

Each loading platform is entirely self-sufficient in that they each have their own power supply, fresh water, office and store-rooms, fire fighting and anti-pollution equipment, slop systems, storm water systems and a host of contributary operating equipment. Communication systems amount to P.B.X. Telephones, Magneto Telephones (inter-Jetty communication) and 2 V.H.F. Radio systems.

Two fresh water lines extend from the shore, one to 9 & 10 berths and the other to 3 & 4 berths. Fresh water is then supplied to 5 & 6 berths via 9 & 10, and 7 & 8 berths via 3 & 4. This water supply can also be used to water tankships alongside the platforms.

To enable tankships to be safely secured alongside the loading facilities, each platform and associated cat-walk unit has mooring dolphins with quick-release mooring hooks and integral capstans.

Berths 3 & 4. Situated approximately 2,500 ft. from the Pinder's Point shore-line with a platform size of 94 ft×100 ft.× 12 ft. in depth. Submarine sea lines available are:

1×30 in.	Diameter	Crude Oil Line.
2×24 in.	,,	Fuel Oil Lines.
1×20 in.	,,	Diesel Oil Line.
1×20 in.	,,	Kerosene Line.
1×20 in.	,,	Naphtha Line.
2×20 in.	,,	Ballast Water Lines.
1×20 in.	,,	Bunker Fuel Line.

These pipe-lines terminate at 10×12 in. Chiksan Marine Loading Arms – Counter balanced and hydraulically powered – 5 loading arms for each berth.

Berths 5 & 6. Situated approximately 3,600 ft. from the Pinder's Point shore-line with a platform size of 100 ft.×144 ft.×12 ft. in depth. submarine sea lines available are:–

2×30 in.	Diameter	Crude Oil Lines.
1×24 in.	,,	Fuel Oil Line.
1×20 in.	,,	Diesel Oil Line.
1×20 in.	,,	Kerosene Line.
1×20 in.	,,	Ballast Water Line.
1×20 in.	,,	Bunker Fuel Line.

These pipe-lines terminate at 8×16 in. Chiksan Marine Loading Arms of the same design as on berths 3 & 4, four arms for each berth.

Also incorporated on berth 6 is a Berthing Approach System which is used by the Pilots as an aid in safely moving vessels on or off the berth.

Berths 7 & 8. This platform was completed and handed over in 1973. Situated approximately 2,500 ft. from the Pinder's Point shore-line with a platform size of 110 ft.×90 ft.×12 ft. in depth.

Submarine sea lines available are:–

2×24 in.	Diameter	Fuel Oil Lines.
1×20 in.	,,	Diesel Oil Line.
1×20 in.	,,	Kerosene Line.
1×20 in.	,,	Naphtha Line.
1×20 in.	,,	Ballast Water Line.
1×20 in.	,,	Bunker Fuel Line.

There is no crude oil facility available at this berth. Crude oils will be handled by berths 5, 6, 9 & 10 under normal conditions and by berths 3 & 4 if required.

The above listed pipe-lines terminate at 8×12 in. and 4×8 in. Chiksan Marine Loading Arms, again similar in construction to the berths mentioned previously. 6 arms service each berth of which 2 are bunker lines and the remaining 4 for product loading.

Berths 9 & 10. This platform, the most recent addition to the marine loading facilities at Borco was completed and handed over in 1974.

Situated approximately 3,600 ft. from the Pinder's Point shore-line with a platform size of 190 ft.×125 ft. (No below deck space) this facility is of a rather different design to the other loading platforms namely:–

The platform is of a completely open design with major operating equipment sited on the top surface. Ancillary equipment such as slop and storm water systems are situated below the platform. Because of its design, equipment is more readily available and build up of hydrocarbon vapours is eliminated.

Other features incorporated within the platform design are:–

1. Weather recording station.
2. Meter (Bunker) proving systems – electronically controlled.
3. Berthing approach system for No. 10 berth which is used by the Pilots as an aid in safety moving vessels on or off the berth.

Submarine sea lines available are:–

1×20 in.	Diameter	Bunker Fuel Line.
1×24 in.	,,	Fuel Oil Line.
1×20 ft.	,,	Ballast Water Line.
1×42 in.	,,	Crude Oil Line.
1×30 in.		Crude Oil Line.

As can be readily seen this platform is a crude oil/fuel oil loading/discharging facility only, white oil products are not available. The above stated lines terminate at 12 Chiksan Marine Loading Arms, again similar in construction to those on other platforms. The service per berth as below:–

No. 9 Berth.	2×12 in.	Diameter	Bunker Fuel.
	2×12 in.	,,	Ballast and Crude Oil.
	2×12 in.	,,	Fuel Oil and Crude Oil.
No. 10 Berth.	2×12 in.	Diameter	Bunker Fuel.
	2×16 in.	,,	Ballast and Crude oil.
	2×16 in.	,,	Fuel Oil and Crude Oil.

BALLAST: Facilities are provided for discharge of dirty ballast at the tanker jetties. Each jetty is connected by a 20 in. ballast pipe-line. These lines have been tested to 350 lb. pressure and are designed for 150 lb. working pressure.

DENSITY: Salt water. Rise and fall of tide between 3 ft. and 3 ft. 6 in.

FRESH WATER: Fresh water available by pipeline in the harbour. Average pumping rate 18 t.p.h. per connection with maximum 2 connections in the harbour. Fresh water also supplied by barge to the tanker berths at the rate of about 30 t.p.h.

FUEL: All grades available. 24 hours notice desirable. Bunkering facilities are provided at each tanker jetty. One 16 in. pipe-line provides "C" fuel and intermediate fuel, and one 16 in. pipe-line provides marine diesel and gas oils. Fuel also available to vessels at anchor by barge.

GANGWAY/DECK WATCHMEN: Not necessary as security guards patrol port area 24 hours a day.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

SHIP CERTIFICATES: Deratisation Certificate required.

CUSTOMS ALLOWANCES: 50 cigars or 200 cigarettes or 1 lb. tobacco and one quart of spirits per man.

CARGO GEAR: Currently no cranes based permanently in harbour area. However, mobile cranes can usually be made available, although essential shipowners consult Agents before accepting heavy lifts requiring shore facilities for discharge

CREW IDENTIFICATION CARDS: Not required.

CONSULS: No foreign Consuls Freeport.

REPAIRS: Only minor repairs.

REPATRIATION: Facilities for crew changes and repatriation by air.

AIRPORT: Approximately 4 miles from harbour, served by following airlines: British airways, Eastern Airlines, Air Canada and Pan American Airways.

TIME: GMT minus 5 hours. Summertime, from April to October, GMT minus 4 hours.

HOLIDAYS: No cargo work in the port on following days: New Year's Day; Good Friday; Easter Sunday; Christmas Day. Work ceases 1700 hrs. on day preceding above holidays and commences 0800 hrs. on day after.

POLICE/AMBULANCE/FIRE: Police tel. 352-8333. Police station approximately two miles from harbour, and operates several radio-controlled vehicles. Ambulance tel. 352-6735. Ambulance based at Rand Memorial Hospital which approximately 7 miles from harbour. Fire tel. 352-8888. Fire Station approximately 7 miles from harbour and at present consists of 2 fire-trucks with auxiliary vehicles.

TELEPHONES: Can be placed on board at certain berths. There is a connecting charge.

AUTHORITY: Freeport Harbour Company, Ltd.

NASSAU, Bahamas: 25.05 N. 77.20 W.

DOCUMENTS:

(a) Inwards:

Description	*Customs*	*Immigration*	*Agents*	*Total*
1. Ship's Report Inwards (supplied by Agents)	2	—	—	2
2. Maritime Declaration of Health (supplied by Agents)	1	—	—	1
3. In transit passenger manifest	2	1	2	5
4. Disembarking passenger manifest	2	1	2	5
5. Crew Lists	2	—	1	3
6. Crew Curio List	1	—	—	1
7. Stores List	2	—	1	3
8. Gift Shop Inventory	1	—	—	1
9. Cargo Manifest	3	—	3	6

10. Derat. Certificate – should be available for inspection.
11. Clearance from last port to be given to Customs.
12. Immigration landing cards must be completed by all passengers. (These are supplied by Agents.)
13. Customs Declaration forms must be completed by all disembarking passengers. (These are supplied by Agents.)
14. Cargo Tally books – two per hatch where Nassau cargo is to be discharged.

If vessel's previous port of call was in Bahamas items 1, 2 and 10 need not be complied with. Item 9 – two cargo manifests supplied to Agents should show freight charges in detail.

Note: All non-Bahamian passengers finally disembarking at Nassau must be in possession of return ticket or have proper Bahamas Immigration Entry Permit.

(b) Outwards:

Description	*Customs*	*Immigration*	*Agents*	*Total*
1. Ship's Report Outwards (supplied by Agents)	2	—	—	2
2. List of embarking passengers	2	1	2	5
3. Manifest covering cargo loaded	3	—	3	6

If vessel clearing for another Bahamian port, item 1 does not have to be complied with, but copy of next port's manifest required.

PILOTAGE: Presently no signal station and Masters requested telegraph ETA at least 48 hours in advance with subsequent amendments as necessary to Agents, who will inform Pilots. Pilot normally boards in approximate position one mile North of Western end of Hog Island (Paradise Island). When port closed due bad weather a red flag will be displayed at Western end of Hog Island by day and red light in same location at night. Vessels may anchor in vicinity of pilot station where depth of water allows. There are four Pilots and boats are clearly marked "Pilot" and display international pilotage signals. Pilots are accustomed boarding by pilot ladder.
ANCHORAGES: Anchorage just off Nassau Harbour extends over area North and East of Western point of Hog Island to approximately half a mile off shore, where it becomes too deep.
RESTRICTIONS: No restrictions apart from adverse weather conditions or excessive draft which may make it advisable to enter on certain state of tide.
MAX. SIZE: No restriction length or breadth but safe draft is considered 35 ft. largest vessel to enter harbour to date is QE II. Safe draft cargo pier 25 ft.
HEALTH: Provided vessel healthy Customs grant free pratique on receipt international declaration of health form completed and signed. If any suspected disease or fever on board Master should advise Agent by cable, who will inform appropriate authorities and advise Master clearance procedure. Once vessel obtained free pratique in one Bahamas Port and proceeds another there are no further procedures at next port.
RADIO: Communications can be directed through Nassau Harbour Control, which came into existence on November 2, 1974, in an effort to control shipping and movements in and out of the harbour of Nassau.

VHF frequencies used are Channels 06, 09, 14, 16, 12, 68, 73, 74, 79, 20, 65 and 66.

Single Side Band frequencies used are 282.5 – 3,300.0 – 4,139.5 – 8,100.0 – 8281.2 – 12,421.0 – 16,565.0 kc/s.

AM Radio Ship-to-Shore frequencies are 2182 Emergency – 2638 and 2738 kc/s.
TUGS: Tugs normally join vessel at entrance to turning basin. Usual for vessels to provide tow line.
BERTHING: No specific requirements but due congestion essential that Agent is kept well informed of ETA.
BRIDGES: No bridges affecting entrance to main berths.
STEVEDORES: Master should include in ETA number gangs required and tons per hatch for discharge, as shipping documents do not always arrive in advance. Discharge rate approximately 10 t.p.h. 135 ton mobile crane available.
MEDICAL: Full medical services available. In serious cases requiring immediate attention Agent should be advised so that doctor may board on arrival.
TANKERS: Limited facilities provided for tankers at Clifton Pier on S.W. side of Island. Vessels moor to dolphins offshore and discharge through submarine pipe-line. Vessels proceeding Clifton Pier (unless otherwise advised) should pick up Pilot off Nassau and clear Customs.Only oil imports are for domestic purposes and there is no oil refinery. Max. draft Clifton Pier 36 ft.
DENSITY: 1025.
FRESH WATER: Available Prince George Wharf on old section but not yet provided on new deep water pier recently completed. Rate 10–15 t.p.h. from hose connections on dock. Public Water Department supplies hose end connections. Price approximately $3.70 per 1,000 gals. depending on amount required. No water barges available.
FUEL: No fuelling facilities available with exception of small quantities diesel which may be delivered by road tanker by prior arrangement – 103,000 gals. per tanker.
FIRE PRECAUTIONS: No special requirements. Vessels carrying explosives should notify Agent in advance so that Authorities may be advised.
GANGWAY/DECK WATCHMEN: Vessel to supply own watchman if required.
OPENING/CLOSING HATCHES: Roller hatches usually opened and closed by vessel's crew but older wooden hatches and tarpaulins handled by stevedores.
SHIP CERTIFICATES: Only certificate normally required for inspection is Derat. Certificate.
CUSTOMS ALLOWANCE: Quantity should be reasonably based on individual requirement and length of stay in port. Actual amount is at discretion of Customs Officer clearing vessel.
IDENTIFICATION CARDS: Not required.
CONSULS:
Based in Nassau
Haiti, Consul-General Alexandre Paul, PO Box N-666, Nassau.
United States of America, U.S. Ambassador for the Bahamas, H.E. Seymour Weiss, PO Box N-8197, Nassau.
Honorary Consuls (situated in the Bahamas)
Belgium, Mr. Michael Ramsey, PO Box N-52, Nassau.
Denmark, Lady Greta Oakes, PO Box N-1236, Nassau.
Ecuador, Mr. Norman Edwards, PO Box N-1262, Nassau.
France, Mr. Michael Ramsey, Consular General, PO Box N-52, Nassau.
Germany, Mr. Henry Kaufmann, PO Box 6225 E.S., Nassau.
Great Britain, Mr. C. J. Treadwell, PO Box N-7516, Nassau.
Greece, Mr. Andrew George Esfakis, Hon. Vice-Consul, PO Box 3248, Nassau.
Italy, Mr. Galliano Vouch, Consular Agent, PO Box N-4074, Nassau.
Jamaica, Mr. Adolph Thompson, Resident Commissioner, Collins Avenue, Nassau.
Mexico, Mr. W. Brunett Gray, Honorary Consul, Beaumont House, Nassau.
Norway, Mr. Bill Petters, Hon. Consul, PO Box N-8168, Nassau.
Sweden, Mr. Anders Wiberg, Honorary Vice-Consul, PO Box N-263, Nassau.
REPAIRS: Only limited repairs and requirements should be passed to Agent in advance of vessels arrival.
REPATRIATION: Crew changes can be arranged but accommodation expensive and not always available at short notice.
AIRPORT: Exremely good air services. At certain periods airlines become fully booked and suggested that reservations be made in advance.
TIME: Local time (Eastern Standard Time) 5 hours behind GMT. Daylight Saving Time 4 hours behind GMT applicable 27th April to 26th October.
HOLIDAYS: New Year's Day (1st January); Good Friday; Easter Monday; Whit Monday; Independence Day; Labour Day; Emancipation Day; Discovery Day (12th October); Christmas Day (25th December); Boxing Day (26th December); Cargo can be worked on all holidays except Labour Day and Christmas Day.
POLICE/AMBULANCE/FIRE: Police 24444; Ambulance 22221; Fire 919.
TELEPHONES: No facilities for placing telephones on board.
GENERAL: *(a)* Bonded Stores only available to passenger vessels regularly calling Nassau. *(b)* Passenger Vessels: Is of assistance to Agent to know how many passengers disembarking and how many in transit.
SERVICES: Most specialised services unavailable, e.g. radar, radio, gyro, tank cleaning, compass adjusting. If Agent given sufficient notice arrangements can be made for technicians to be flown from Miami.
SHORE LEAVE: No limitations.
AUTHORITY: Port Director, Port Department, Nassau.

SOUTH RIDING POINT: 26.37 N. 78.14 E.

OPERATORS: Burmah Oil Bahamas Ltd.
LOCATION: The terminal is situated at South Riding Point on the South coast of Grand Bahama Island, about 35 miles East of Freeport.

At a distance of 4,000 ft. offshore, the Sea Island mooring dolphin extremities are positioned thus:
No. 1 Mooring Dolphin: 26° 36′ 43.7″ N. 78° 13′ 49.5″ W.
No. 6 Mooring Dolphin: 26° 36′ 46.7″ N. 78° 13′ 33.6″ W.
DOCUMENTS: Incoming:
Prepared by Ship:
3 copies of Declaration Form Y14.
3 Crew Lists.
2 Stores Lists.
2 Crew Declaration forms.
4 copies of Bills of Lading.

In addition the ship will have to supply a clearance from last port of call, Deratization Certificate, vaccination lists and the usual ships papers viz: Register, Safety Radio, Safety Equipment, Loadline Certificate. Oil Record Book must be up to date and available for inspection.
Prepared by Agent:
1 Copy of Maritime Declaration of Health.
2 Copies of Inwards Report.
Customs and Immigration: After pratique has been granted, an immigration and customs inspection is carried out. The Master will be required to furnish particulars including:
(a) Name and nationality of vessel.
(b) Last port or ports of call.
(c) Nature of cargo.
(d) Number of crew.
(e) Number of passengers.
(f) Port of destination and name of Agent.
(g) No. of days since departure from last loading/unloading port.

Copies of the crew list and stores remaining on board will be required before clearance is granted.

Masters of vessels must take every precaution to ensure that no drugs, wine or alcoholic liquors are supplied, sold or conveyed to any person at the terminal.
Outgoing:
Prepared by Agent:
4 Copies of Outward Cargo Manifest.
2 Copies of Outwards Report.
Port Clearance Certificate.

In order to comply with Immigration regulations, crews should be checked before sailing and any missing seaman reported to the Agent. In the case of seamen left ashore for any reason, Masters are requested to furnish a letter accepting responsibility for all expenses incurred, advances if any, and instructions for repatriation.
Documentation and Clearance:

On completion of loading/unloading, vessels will normally be unberthed immediately and stand off to await completion of harbour formalities and cargo documents.

If a berth is not required immediately after loading/unloading has been completed, vessels may be allowed to remain alongside the berth until final documentation and formalities have been completed.

Early Departure Procedure (EDP) is available on request.
PILOTAGE: Berthing and operational instructions will be given by Burmah Control on vessel's arrival at South Riding Point.

A vessel will be deemed to have arrived when in a position, 3

miles South of the sea island and in this position the Berthing Master will board from a tug.

Before a vessel is allowed to proceed the Master will be required to sign the following forms:

(a) Conditions of use of sea berths and inner harbour at South Riding Point.
(b) Tug Requisition. The Master will also be provided with copies of the Fire and Safety Regulations and a Ship/Shore Safety Check List Form.

APPROACHES: Vessels approaching South Riding Point from the Eastern entrance of Northwest Providence Channel are recommended to make departure from Great Stirrup Cay Lighthouse Gp. Fl. (4) 15 sec. 14m. and head directly for South Riding Point Terminal.

Preliminary extensive soundings by U.S. Hydrographic Department indicate no underwater obstructions up to 100 fathom line within Northwest providence Channel.

Landmarks: Conspicuous towers are sited adjacent to South Riding Point Terminal in the following positions:

1. Position: 26° 36′ 40″ N., 78° 20′ 51″ W. Steel framework tower painted red and white, 175 ft. above sea level.
   Light: Air Occ. R. 4 sec. 1 F.W. 2 F.R. vert.
2. Position: 26° 36′ 51″ N., 78° 19′ 25″ W. Steel framework tower painted red and white, 407 ft. above sea level.
   Light: Air Qk. Fl. R. 2 F.R. vert.
3. Position: 26° 37′ 06″ N., 78° 18′ 47″ W. Steel framework tower painted red and white, 211 ft. above sea level.
   Light: Air Occ. R. 8 sec. 1 F.R. vert.
4. Position: 26° 37′ 44″ N., 78° 14′ 20″ W. Steel framework tower painted red and white, 241 ft. above sea level.
   Light: Air 2 F.R. vert.
5. Position: 26° 42′ 44″ N., 78° 09′ 27″ W. Steel framework tower painted red and white, 270 ft. above sea level.
   Light: Air Occ. R. 3 sec. 1 F.R. vert.

The F.6M. light exhibited from a white painted wooden mast close East of High Rock Settlement in position 26° 37.3′ N., 78° 16.1′ W. is kerosine lit and is therefore unreliable.

A conspicuous parabolic dish antenna is situated in position 26° 37′ 30″ N., 78° 17′ 58″ W. The antenna has a face diameter of 85 ft. and maximum height above sea level is 134 ft.

The large buff-painted oil storage tanks are visible behind the sea island. The terminal frontage is backed with pine trees and scrub.

Lights:

A light, Fl.R. 3 seconds, is exhibited from a height of 140 ft. above sea level on top of the sea island control building on the central platform, whilst NOs. 1 and 6 mooring dolphins are marked by quick flashing red lights.

The inner harbour breakwater entrances are marked by red and green flashing lights (2 seconds flash, 2 seconds eclipse).

Two leading line (range) towers mark the 300 ft. wide approach channel centre line. Lights with clear lenses, each 2.5 seconds flash, 0.5 seconds eclipse, are exhibited from the top of the towers, whose heights are 25 and 35 ft. respectively.

Buoys:

Red and Black Buoys mark the outer channel entrance to the inner harbour whose light characteristics of red and green respectively are each 2.0 seconds flash, 2.0 seconds eclipse.

Four international orange buoys with quick flashing white lights mark the contour of 50 ft. sea bed between the sea island and the shore, in the following positions:

No. 1 Buoy 26° 36′ 12″ N. 78° 15′ 03″ W.
No. 2 Buoy 26° 36′ 41″ N. 78° 14′ 07″ W.
No. 3 Buoy 26° 36′ 49″ N. 78° 13′ 50″ W.
No. 4 Buoy 26° 36′ 56″ N. 78° 13′ 23″ W.

ANCHORAGES: Three white buoys mark the seaward boundary of a designated anchorage area in the following positions:

West Anchorage Buoy: Quick Flash (Green) 26° 35′ 51″ N. 78° 17′ 27″ W.

Mid Anchorage Buoy: Quick Flash (White) 26° 35′ 57″ N. 78° 16′ 19″ W.

East Anchorage Buoy: Quick Flash (Red) 26° 36′ 00″ N. 78° 15′ 33″ W.

These anchorage buoys are laid in 15 fathoms and vessels wishing to anchor should drop their anchors in the transit line of the buoys which will provide ample swinging room for typical shuttle vessels of up to 100,000 tons d.w.t., in ballast conditions. No attempt should be made to anchor Eastward of the East Anchorage Buoy.

Whilst holding ground is considered good and is of sand, limestone and soft coral, vessels should maintain their engines at short notice readiness, especially during periods of strong onshore winds.

In all cases, vessels wishing to anchor should contact the duty Berthing Master, who will advise on anchorage procedures and whose services are available for pilotage on request and at operational convenience.

Anchorage or the lowering of anchors is prohibited at the sea island berths.

Vessels wishing to stand off until berth readiness are recommended to use the Westerly aerial tower (26° 36′ 40″ N. 78° 20′ 51″ W.) as Westerly boundary of standing off ground in order to avoid congestion with Freeport traffic.

HEALTH: On completion of mooring after the gangway is in place, health authorities will board the vessel and grant pratique, subject to no infectious diseases having been reported on board during the voyage.

RADIO: Vessels loading for South Riding Point should communicate ETA date to the terminal immediately after clearing loading port.

The terminal is linked to Bahamas Telecommunications Company (BATELCO) which in turn is linked to Nassau Marine (Identification VPN2).

Variations of this original ETA date should be communicated throughout the voyage.

72 hours prior to arrival at South Riding Point, Masters are requested to inform the terminal of details of cargo, maximum draft, manifold connections, quantity of ballast and deballasting time when applicable. The Master should also directly inform his agent of medical, repairs and travel requirements.

24 hours prior to arrival, Masters should confirm or amend previous messages.

Circumstances may arise where loaded VLCC's may be requested to arrive at times and dates so as to allow of free and unimpeded access through Northwest Providence Channel entrance direct to a planned berth vacancy at the terminal.

Vessels proceeding to South Riding Point Terminal to load, should communicate their ETA immediately upon clearing departure port and confirm or amend this information 24 hours prior to arrival.

VHF: Station Burmah Control located at the terminal is equipped with VHF radio maintaining continuous watch on Channel 16. After making successful contact, vessels will be required to change to Channel 14, where information will be exchanged regarding berthing, manifold connections, quantity of ballast and deballasting time required.

The terminal is also equipped with approved explosion proof VHF walkie-talkie radio sets and vessels will have this additional communication with the terminal after boarding by the Berthing Master.

TUGS: 4×4,200 h.p. diesel tugs will be stationed at the terminal. Each tug has a bollard pull of 45 tons.

All tugs are equipped for fire fighting and can deliver water at the rate of 2,000 gallons per minute through direct or fan spray nozzles. The tugs have foam making and oil dispersant equipment.

The tugs are owned and operated by Nassau Towing Company.

(Note: These tugs are now building and until they are ready, tugs with equivalent performance will be available.)

Small Craft: The terminal has one diesel engined personnel/general purpose carrier for up to 25 persons and three line handling boats. When not in use by terminal personnel the carrier is available for hire.

Small Craft Landing: A landing is situated on the West side of the platform of the oil berths and there are additional landing stages at mooring dolphins Nos. 1 and 6.

BERTHING/UNBERTHING: *Ballast Water:* Ballast water can be received in the terminal oil and water separation tanks through one of the submarine or onshore lines at rates of up to 5,000 t.p.h. On no account may ballast water be otherwise discharged in territorial waters.

Whilst the amount of ballast carried is at the Master's discretion, vessels are requested to arrive ready for berthing in the following approximate ballast conditions:

30,000 – 50,000 tons d.w.t.: Forward draft 18′ Aft draft 24′
50,000 – 75,000 tons d.w.t.: Forward draft 20′ Aft draft 28′
75,000 – 100,000 tons d.w.t.: Forward draft 24′ Aft draft 32′

During ballast operations at the berths, strict observance of rules and regulations governing the opening of sea valves is necessary and in correct sequence with ballast pump commencement to eliminate the risk of oil spills. Vessels may be required to ballast concurrent with discharge and throughout all cargo operations, maintain draft and trim conditions consistent with prevailing weather conditions, on the advice of Berthing Master.

Tugs: Tank lids and openings should be securely closed before tugs are made fast. Tug utilization in berthing operations will be as required by the Berthing Master who will meet the vessel in position as directed off the sea island.

Masters of calling vessels are reminded of their obligation to comply with statutory Pilot ladder rules and associated safe access regulations.

Mooring System: The Berthing Master will advise the Ship's Master of minimum mooring requirements.

The berths have double and triple quick release hooks of 150 and 100 tons capacity. Mooring and berthing dolphins have electrically-operated capstans with 2 ton line pull at 100 ft. per minute in association with mooring assemblies.

Berthing Limitations: Various combinations of wind, sea and tidal conditions, also the size, length, ballasted trim and handling qualities of the vessel can affect the decision to berth a vessel at the terminal. All these factors have to be evaluated before a berthing decision is made.

Ship Connection: The positioning of the vessel's deck manifold in relation to the loading arms on the berth must be carried out to a close tolerance to the requirements of the Shift Superintendent or his deputy and as directed by the Berthing Master.

Upon completion of berthing, the Shift Superintendent will confirm the crude oil/ballast operations with the Master or Chief Officer and loading arm connection will be made to ship's manifold by the sea island crew.

Oil measurement representatives will attend to ullaging and sampling and/or inspection of cargo tanks in vessels discharging or loading and the Shift Superintendent or Berthing Master will certify that the vessel is ready in all respects for cargo/ballast operations.

Unberthing: On completion of all measurement/inspection

processes by the oil measurement representative in company with the appointed Ship's Officer, the vessel will vacate the berth.

Tug attendance and numbers will be dependent on weather conditions and on the advice of the Berthing Master.

BERTHING FACILITIES: The sea island has two berths interconnected for tanker to tanker transfer and to the shore tanks and inshore berths by 2×36 in. diameter submarine lines.

The island is 1,470 ft. long with a central platform 48 ft. above datum and 3 mooring dolphins 25 ft. above datum on each side.

The berths are equipped with a Sonar Doppler system for docking assistance with clock meter display indicators and associated lights showing distance off berth and speeds of approach. Current meters are sited on the sea island together with meteorological instruments, television surveillance and public address system.

There are 4 fixed and 4 oscillating foam/oil dispersant monitor units on the platform.

The berths have a sacrifical anode cathodic protection system and ships that have an impressed voltage cathodic protection system should it turn off in the vicinity of the sea island.

Berth No. 1: Tankers of 50,000 to 440,000 d.w.t. can dock at this outer berth which is equipped with a self levelling and articulated gangway and 4×16 in. diameter Chicksan loading arms with quick release couplings in sizes 16, 14 and 12 in. diameter.

Water depth at the berth is 100 ft.

Berth No. 2: Tankers of 35,000 to 100,000 d.w.t. can dock at this inner berth which is equipped with a self levelling and articulated gangway and 4×12 in. diameter unloading/loading arms with quick release couplings in sizes 12, 10 and 8 in. diameter.

Water depth at the berth is 85 ft.

Inshore Berths: Two berths are presently under construction in the inner harbour and when completed will each accommodate tankers up to 850 ft. LOA for harbour depth of 42 ft.

Small Boat Harbour: This harbour is at the S.W. corner of the inner harbour and has a water depth of 25 ft. The harbour is used by the Company's tugs and small craft.

LOADING/UNLOADING: *Procedure:* Loading or discharging shall not commence until the Master or Chief Officer has informed the Shift Superintendent or Berthing Master that all necessary valves are open, that the vessel is in a proper condition to discharge or receive cargo and that all regulations are being and will be observed.

Pumping Rates: Very high unloading and loading rates of up to 15,000 t.p.h. and 6,000 t.p.h. respectively at one berth can be achieved at the terminal and in view of these high rates it is absolutely essential that careful supervision is exercised by officers of vessels and by terminal staff while pumping operations are in progress.

Control: A responsible ship's officer is required to be on duty continuously. The Shift Superintendent is responsible for all terminal operations.

The terminal operators in the control buildings offshore and onshore continuously monitor the cargo transfer rates and status of the onshore tanks or shuttle tankers receiving cargoes direct from VLCC's. The Ship's Officer will be advised immediately of changes necessary in the pumping programme.

The Terminal Operator in the offshore control room will activate all cargo movements from the tanker's manifold to or from shore tanks/recieving shuttle tankers.

Mooring Lines: It is the responsibility of the Ship's Master to ensure that all mooring lines are kept tight. Berthing Masters and terminal operators will constantly check a vessel's moorings. Berthing Masters at any time may direct lines to be heaved tighter or slackened off as circumstances warrant.

Tension Winches: When a vessel is fitted with tension winches, the latter must be set to manual operation and the brakes securely applied.

Spills and Pollution: If at any time an overflow of crude oil occurs loading/unloading will be suspended immediately and will not be resumed until the oil is removed from the deck of the vessel and/or from the surface of the sea and any damage is repaired and no further danger exists.

The responsibility for any oil entering the sea due to a burst pipe or hose or overflow on or from the ship must rest with the vessel concerned, which must accept liability for all claims for damage likely to arise as a result of such spillage.

It is stressed that during loading operations the terminal control will immediately slow-down the loading rate on receipt of a request from the Ship's Officer in charge of loading.

Similarly during unloading operations the Ship's Officer must advise terminal control of all changes in offloading rates so that action as necessary can be taken at receiving vessels or shore tanks.

All major spillages of oil must be reported immediately to the Berthing Master or Shift Superintendent either of whom will advise the Control Operator to contact the Fire and Safety Officer who will mobilize men and equipment to take appropriate action.

If the spill is due to faulty equipment or material on the vessel or to negligence on the part of ship's personnel, the terminal shall be indemnified for any expenses incurred in connection with the preventive action taken.

Minor Spills: Spillage trays or other receptacles should be placed under the flange connection at the vessels manifold and under any leaking joints or valves. Oil absorbing material in suitable quantity should be placed at strategic places where leaks or minor spills are liable to occur.

FRESH WATER: Not available.

FUEL: Not available.

Arrangements are in hand for the supply of lubricants on an emergency basis and Masters will be advised when supplies are available.

MEDICAL: The Rand Memorial Hospital in Freeport is open on a 24-hour emergency service and two medical clinics, Lucayan and Antoni are open during regular office hours.

TIME: Bahamian Standard Time is 5 hours behind GMT.

REPAIRS: Facilities for minor repairs to electrical, radio and mechanical equipment are available in Freeport but should these be required Masters should give as much advance notice by radio as possible.

TELEPHONES: The sea berths have a telephone connection to the shore and to the Freeport exchange.

STORES: The terminal cannot supply provisions of any description but it may be possible through local contractors to arrange for small quantities of fresh provisions from cold storage if at least 72 hours notice of requirements is given. Almost all food in Grand Bahama is imported from the United States.

LAUNDRY: Limited services are available in Freeport but because of the distance from the terminal (35 miles) and the relatively short time at berths, Masters are advised not to depend on such services.

WEATHER: From November to May, average temperatures in the 70's Fahrenheit prevail, with low humidity and little rain. From June to October, average temperatures rise into the 80's with relatively high humidity and rainfall of between 5 and 9 in. per month.

SEA CONDITIONS: Prevailing winds are concentrated from N.E. through East to South predominantly up to force 3, whilst winds in excess of force 5 occur in frequency over 10% of the year, are of short duration, usually in association with squalls, and seldom last longer than 24 hours.

Sea and swell conditions in excess of 6 ft. occur on average up to 40 days of the year.

Tidal ranges above Mean Lower Low Water Springs, which is chart datum for Bahamian waters are as follows:

High Water		*Low Water*	
Mean Spring	Mean High	Mean Spring	Mean Low
3.6 ft.	3.4 ft.	0.6 ft.	0.9 ft.

Currents in terminal vicinity run predominantly East and West, seldom exceeding 1 knot.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Bahrain

MINA SULMAN: 26.12 N. 50.37 E.

TRAVEL TO SAUDI ARABIA: See "Sitra".

REGISTRATION: A scheme of registration of vessels arriving in Bahrain for discharge of cargo has been introduced.

Agents should indicate to the Harbour Master prior to arrival whether or not an expected vessel wishes to avail itself of the registration scheme.

Should the vessel wish to register her turn it will be boarded by a representative of the Directorate who will inspect the cargo plan, and may inspect the cargo in the vessel's holds, to ascertain that all the regulations are complied with. On being satisfied that all conditions have been complied with the vessel will be registered as having arrived and will be given an estimated date and time of berthing at Mina Sulman. The vessel may then proceed to an alternative port or ports until required for berthing at Mina Sulman.

The following registration regulations must be complied with by all vessels wishing to register at the port of Mina Sulman:

1. No vessel will be considered for registration unless all Bahrain cargo is clear for discharge at time of registering.
2. If a vessel proceeds to another port after registration for discharge of cargo, no Bahrain cargo may be shifted to facilitate the discharge of cargo in the alternative port.
3. Registration may take place at Sitra Anchorage within Mina Sulman port limits between 0600 hrs. and 1800 hrs. Vessels arriving outside of those hours will be listed and registered in order of arrival. Note: Arrival shall mean time of passing Sitra Beacon inwards.
4. A fee of B.D. 100 will be charged on every vessel registered.
5. Any false declaration of stowage of cargo will result in loss of privilege of registration and may also incur a heavy fine for false representation.
6. Failure of any registered vessel to be present within Mina Sulman port limits and in all respects ready to proceed alongside the allocated berth at the time when the berth is allotted will result in cancellation of the registration. The next on turn vessel will then be allocated the berth and the defaulting vessel will be required to re-register.
7. The anticipated berthing date given to the vessel at the time of registration is to be considered only as an estimated date and time and may be liable to change. The Directorate will not be responsible for any loss incurred by alteration of such dates.

DOCUMENTS:

International Declaration of Health.

5 Crew Lists.

Ship's Report (given by Customs on arrival).

Valid Smallpox Vaccination for all crew members.

Agents to submit cargo manifest 3 days before vessel's arrival.

Exports to Bahrain: Shipping documents for exports to Bahrain should include a certificate of origin bearing the stamp of a Bahrain embassy or consulate, where such representation does exist. Alternatively the stamp of any other Arab embassy or consulate will be acceptable.

Abeyance with the above regulation will help process the clearance of goods without delay.

PILOTAGE: Mina Sulman Pilots board either at Sitra Anchorage (see "Sitra") or by special arrangement at Outer Middle ground buoy. Pilotage compulsory except for Naval vessels and small locally-owned craft whose Masters are familiar with the port and control.

Port equipped with 3 tugs, each of 800 h.p., 3 pilot cutters and a number of mooring launches and work boats.

Pilot cutters mostly black with white-painted wheel-house and cabin accommodation.

ANCHORAGE: Sitra Anchorage, where Pilot boards, approx. location 26° 10.5′ N,, 50° 41.25′ E. Depth of 42 ft.

MAX. SIZE: Vessels up to 550 ft. in length commonly handled, max. safe draft alongside, 27 ft. Depth in Mina Sulman Harbour, 31 ft.

Vessels with draft up to 29 ft. 6 in. able to enter Mina Sulman dredged channel near time of high water and on a few occasions vessels with a draft of 30 ft. have been handled. Vessels of less than 25 ft. draft may generally enter or leave at any state of tide and also during dark hours unless there are factors detrimental to safe navigation.

Also see "Developments".

HEALTH: Port Health Authorities board vessel on arrival at berth alongside Deep Water Jetty and grant pratique.

RADIO: Vessels intending call Mina Sulman should advise Agents via Bahrain Radio, call sign A9M, their ETA, draft, hatch distribution and any other requirements, giving as much notice as possible.

VHF: Vessels equipped with VHF should, when within range, contact Mina Sulman Harbour Office on Channels 6 or 16 which have frequencies of 156.30 and 156.80 respectively.

TUGS: Will usually join vessel between Nos. 7 and 8 Channel Buoys during final approach to Deep Water Jetty.

BERTHING: Arrangements are made with Harbour Master by ship's Agents for necessary berthing as required. Six berths available, of which one berth reserved for Navy vessels.

Generally, vessels berth during daylight hours only, but may leave at any time between 0600 and 2300 hrs.

GRAIN HANDLING: Two portable pneumatic suction/blowing units are used. Capacity 75 t.p.h. each. Wheat is discharged into 20-ton trailers, which takes about 8 to 12 minutes for each trailer.

MEDICAL: Upon application to ship's Agent, the medical examination of crew members can be arranged. Personnel will either be sent to private doctor or to Public Health Department as circumstances dictate. Serious cases will be referred to government hospital doctor.

FRESH WATER: Well water available and can be delivered on berths at Deep Water Jetty at rate of approximately 20 t.p.h. per hose. Fresh water also available by barge with capacity of 300 tons.

BUNKERS: Bunkers available Mina Sulman and provided by barge of 8,700 barrels capacity, which is owned by the Bahrein Petroleum Company. All usual grades of commercial oil available.

GANGWAY/DECK WATCHMEN: Not customary to employ deck watchman.

IDENTIFICATION CARDS: These cards necessary for any crew member wishing to proceed ashore. Identification card is surrendered to Immigration Authorities at main entrance to port in return of a pass. On return to port, the pass is surrendered and seaman's identity card returned to him.

REPAIRS: Good facilities for both hull and engine repairs which can be effected by the two principal slipway companies. Facilities exist to receive single vessels of 1,000 d.w.t., and a tower crane capable of a 15 tons lift at 40 ft.

REPATRIATION: It is possible for whole crews or just individual crew members to join or leave vessels at Bahrain. As much notice as possible should be given to Agents to enable arrangements to be made for their reception, hotel accommodation and transportation.

AIRPORT: Bahrain International Airport regularly served by main international airlines, with frequent services to Europe, U.S.A., Far East, and Australia. Also frequent inter-Gulf flights.

TIME: GMT plus 3 hours.

HOLIDAYS: Public holidays in accordance with Muslim calendar as follows: 3 days during led Al Fittr; 3 days during led Al Adha; 3 days during Muharram; 12th R'Awal Prophet's Birthday; Accession of H.H. The Ruler, 16th December; 25th December; 1st January. Apart from 6 days, two during each of the religious anniversaries, all holidays will be worked in the port as on Fridays, the Sabbath day.

TELEPHONES: Can be provided at each berth on Deep Water jetty at charge of BD's 1,200 fils per day per phone (approx.). In case of emergency, dial 79 for ambulance; 77 for Duty Police Officer; 75 for Fire Brigade.

SERVICES: Bahrain well provided for services including repairs, stores and supplies, fumigation surveys, adjustments, radar and gyro compass repairs, professional diving, and underwater brushing.

SHORE LEAVE: Permitted.

DEVELOPMENTS: Dredging and reclamation in progress in preparation for building a dry-dock, (Arabian Gulf Repair Yard).

The dock is expected to be completed in 1977 and will handle tankers up to 450,000 d.w.t.

Area of Working: In shoal waters from 26° 11′ N., 50° 40′ E. to 26° 14′.5 N., 50° 39′.4 E.

Six new deep-water berths under construction.

Mina Sulman has been engaged in a programme of re-designing its operational methods and preparing for the Port development programme which will be completed in 1979. By September 1977 it is expected that two more deep-water berths will be in operation, allowing vessels up to 20–25,000 tons with a draft of 36 ft. to occupy these berths.

The other two similar berths will be commissioned by September 1978, and the last two berths will be ready by September 1979 to make a total of six more berths provided with all facilities.

A small ship harbour will also be in service taking small craft up to a draft of 18 ft.

Dredging is taking place at the end of the existing jetty for the installation of 2×250 ft.×100 ft. portable jetties. These jetties will be in position and in service by the end of October 1976, and will accommodate two vessels up to 15,000 tons with a draft of 30 ft.

In addition to the present "jack up" berths already in operation, another two similar berths will be operational mid 1977.

AUTHORITY: Director General of Customs and Ports, Bahrain.

AGENT: See "Sitra".

SITRA: 26.09 N. 50.40 E. **(See Plan)**

TRAVEL TO SAUDI ARABIA: Travellers are permitted to travel from Bahrain to Saudi Arabia, *provided: (a)* They hold a valid International Vaccination Certificate showing that the holder was immunised at least 5 days before travelling to Saudi Arabia, but not more than 6 months previously; *(b)* that any traveller proceeding to Saudi Arabia from Bahrain should have taken the prescribed doses of Tetracycline over the 48-hour period immediately before travelling. The fact that the passenger has taken the Tetracycline should be certified by the Bahrain Health Department.

PORT LIMITS: A vessel is normally considered to be an "arrived vessel" when the vessel passes due South of Sitra Beacon, unless, in the case of large vessels, she has been instructed to anchor by company officials in the deep water S.E. of No. 27 Buoy.

The Port of Sitra is an open roadstead situated on the N.E. side of Bahrain. Some protection is afforded to the anchorage during the prevailing N.W. wind by Muharraq Island and outlying reefs which lie to the North of the anchorage.

During Southerly winds some protection is also afforded by outlying reefs and sandbanks which lie to the Eastward of Bahrain Island. Prolonged winds from an Easterly or S.E. direction make the anchorage uncomfortable for small vessels.

OPERATORS: The Bahrain Petroleum Co. Ltd., Awali, Bahrain. Cables "Bapco Bahrain".

DOCUMENTS: Crew list 3 copies. Passenger list 3 copies. Customs Declaration 2 copies. Health Declaration 2 copies. Log Book for Inspection by Customs Officers.

Cargo and bunker documents are delivered to the vessel as soon as possible after the vessel has been cleared on quantity and quality. Delays are sometimes incurred. As a result, the Company reserves the right to unberth a vessel and deliver documents by launch so as to minimize berthing delays to subsequent vessels.

Early Departure Procedure (E.D.P.) is available on Master's request.

PILOTAGE: Not normally provided between Bahrain Light Vessel and Sitra Anchorage. For vessels navigating Sitra Deep Water Channel with drafts in excess 40 ft. Mooring Master boards vessel on arrival Sitra Beacon if berth available. If Pilot does not approach vessel arriving, vessel should anchor in anchorage. Pilot will board from a tug or launch exhibiting International Pilot flag by day and lights by night.

Company Mooring Masters will advise and assist vessels in berthing, unberthing, mooring and navigating in the port of Sitra, and shall, in all cases, be present on board vessels coming alongside or leaving Company and Alba wharves.

The services of the Company Mooring Masters are mandatory for berthing and unberthing, and are provided without charge.

If no berth is available, vessels should anchor in the prescribed anchorage until such time as a berth is available. Every endeavour will be made to give the Master berthing instructions prior to the boarding of the Mooring Master, and to this end, Masters are requested to maintain a continuous watch on the VHF. In cases where it is impossible to give prior berthing instructions, the Master and Chief Engineer are requested to co-operate with the Company by getting the vessel's engines ready for use with the least possible delay.

APPROACHES: Without accepting any responsibility, following suggestions made by Bapco marine staff, for Masters not familiar with approaches to Sitra. Courses inbound will depend upon draft. Vessels wishing utilise "Deep Water Departure Channel" should follow reciprocal of courses described for "Deep Water Departure Channel". Vessels with drafts less than 30 ft. requested to *Keep Clear* of this channel, and use "Sitra Inward" Buoy as follows.

(a) *Under 30 ft. Draft*

(i) From position (Lat. 26° 27.8′ N. Long. 51° 00′ E) 2.5 iles S.E. of No. 3 Beacon (Lat. 26° 28.5′ N. Long. 50° 57.4′ E) course should be set to position 0.75 mile North of "Sitra Inward" Buoy (Lat. 26° 21.2′ N. Long. 50° 49.7′ E) leaving "Caisson Wreck" Buoy (Lat. 26° 24.2′ N. Long. 50° 52.7′ E) at least 0.5 mile to starboard.

(ii) From position 0.75 mile North of "Sitra Inward" Buoy course should be set towards No. 16 Buoy (Lat. 26° 12.9′ N. Long. 50° 46.3′ E).

(iii) When vessel has reached a position with No. 16 Buoy, 1.5 miles ahead, course can be adjusted to due South, passing westwards of "Vidal" Buoy (Lat. 26° 14.1′ N. Long 50° 47.2′ E) until "Sitra Beacon" bears due West. Course can then be altered to pass South of No. 18 Buoy (Lat. 26° 10.3′ N. Long. 50° 43.9′ E), and thence to Sitra Anchorage, thus keeping clear of the deep water channel.

(iv) "Sitra Beacon" located at South end of North Shoals (see "Pilotage" and "Anchorage").
If a Company Mooring Master has not met the vessel, proceed to an anchorage North of an imaginary line between "Sitra Middle Ground Buoy" and "Sitra Beacon". This line delineates the Southern limit of the anchorage, the departure channel is then kept clear for deep-drafted vessels entering or leaving the port.

(v) The Northern extremity of the South Shoals is marked by "South Shoals Beacon" which should be passed on the vessel's port side. This beacon lies approximately 1.4 miles S.W. from Sitra Beacon.

(vi) The colours of Beacon structures and buoys are often obliterated by guano.

(b) *Deep Water Departure Channel*

(i) Following "Alteration of Course" Positions, based upon radius of turn of 5 cables. This may necessitate an increase in Engine Revolutions, together with Full Helm, in some vessels.

(ii) The Company Mooring Master unberthing the vessel will normally leave vessel after having crossed Sitra Middle Ground Bar; and with the vessel proceeding to pass 2 cables South of "Sitra Beacon" (Fl. 3.3 sec.) and close North of No. 18 Buoy (Qk. Fl. R.).

(iii) When No. 18 Buoy comes abeam, course should be altered to 090° (T) which will bring Sitra Beacon dead astern, bearing 270° (T).

(iv) As No. 27 Buoy (Qk. Fl. W.) comes abeam to port, course should be altered to 022° (T), until Buoys 21, 23 and 25 are sighted in line, bearing 344° (T), whence course should be altered to 344° (T).

(v) On course 344° (T) Buoy No. 25 (Fl. 5 sec.) and Buoy No. 23 (Int. Qk. Fl.) will be passed close on the port side and Buoy No. 16 (Fl. R. 6 sec.) a "Middle Ground Mark" on the starboard side.

(vi) As No. 21 Buoy (Gp. Fl. (3) 5 sec.) comes abeam to port, course should be altered to 015° (T), which should bring Buoy No. 12 dead ahead and Buoy No. 21 dead astern. The bearings of these buoys should be watched closely to gauge and correct for cross set which is sometimes quite strong on this course and the next. On this course No. 14 Buoy (Fl. R. 10 sec.) will be left to starboard.

(vii) On No. 19 Buoy (Fl. 3 sec.) coming abeam, course should be altered to 002° (T) bringing Buoy No. 15 (Occ. 5 sec.) dead ahead. Buoy No. 12 (Fl. R. 2 sec.) will then be left close to starboard and No. 17 Buoy (Qk. Fl. W.) will be left to port.

(viii) In order to pass over a cable eastwards of Buoy No. 15, course should be altered to 016° (T) as Buoy No. 10 (Gp. Fl. (3) R. 10 sec.) comes abeam to starboard and then altered to 356° (T) as Buoy No. 15 comes abeam to port. This course would pass 3.5 cables West of Bahrain Approach Beacon (Gp. Fl. (2) R. 10 sec.). It may be advisable to reduce engine revolutions shortly after steadying on course 356° (T), in order to be able to increase if required to provide better steerage on rounding the beacon.

(ix) When the Bahrain Approach Beacon bears 051° (T) course should then be altered to 051° (T). As this heading is approached, it should be found that Buoys No. 8 (Fl. R. 2 sec.) and No. 6 (Gp. Fl. (3) R. 6 sec.) are in line to starboard, as Bahrain Approach Beacon comes abeam at 2.5 cables, and then should commence to open. Buoys No. 13 (Int. Qk. Fl.) and No. 11 (Qk. Fl.) are parallel to the course on the port side of the vessel, give clearance on the 43 ft. patches and give the extent of the bar which should be traversed at Slow Speed.

(x) On No. 11 Buoy coming abeam to port, course should be altered to 054° (T) passing between No. 9 Buoy (Fl. 10 sec.) and Buoy No. 4 (Qk. Fl. R.), followed by Buoy No. 7 (Fl. 5 sec.) to port.

(xi) When Buoy No. 2 (Gp. Fl. (2) R. 10 sec.) bears East, course should be altered to 071° (T) to pass close South of Buoy No. 5 (Fl. 3 secs.).

(xii) Buoy No. 5 should be close abeam to port, when the course is altered to 057° (T) and speed reduced to cross the spit which extends in a southerly direction from No. 3 Beacon (Fl. 6 sec.) in a minimum depth of 44 ft. at Chart Datum.

(xiii) When Buoy No. 1 (Fl. 1 sec.) bears 040° (T), course should be altered to 040° (T) bringing the Bahrain Light Vessel (Gp. Fl. (3) 20 sec.) on the starboard bow. One and a half miles after Buoy No. 1 has been left to port, the minimum depth of water is greater than 50 ft., and it is safe to go Full Ahead.

(xiv) Masters can expect to have to make adjustments from time to time, to the recommended courses, due to set. Effects of tide and current should be watched for at all times.

ANCHORAGE: Within Port of Sitra vessels must anchor North of imaginary line between Sitra Beacon and Sitra Middle Ground outer buoy, order keep departure channel clear. Good holding ground in about 8 fathoms. Vessels *must not* obstruct fairway or approaches to wharves by anchoring South of above-mentioned imaginary line. Northern limit of anchorage marked by North Shoals Beacon on 5-fathom line. Due presence of pipes and power lines, anchoring or use of anchors prohibited in vicinity of or between No. 1 (Island) Wharf and No. 2 Wharf except upon advice of Company Mooring Master.

If the anchorage is congested or with vessels over 100,000 d.w.t. they should anchor in the area to the South of No. 27 Buoy.

RESTRICTIONS: Berthing carried out night and day. Merchant vessels carrying explosives not permitted entry Sitra Anchorage unless permission has been granted and anchorage allocated. Such vessels advised anchor in position 2 miles S.E. of South Shoals Beacon.

The Deep Water Channel between Sitra Anchorage and Bahrain Light Vessel has minimum depth of 44 ft. below Chart Datum. This permits unrestricted use of channel for vessels drawing up to 40 ft. Drafts up to 44 ft. permitted by utilisation of tidal range over shoaler areas. Additional channel for drafts up to 30 ft. provided to S.E. of main Deep Water Channel. The purpose of this channel is to keep main deep-water channels free for deep-drafted vessels.

Masters who intend to utilise Deep Water Departure Channel with drafts in excess of 40 ft. are requested to advise port Captain, Sitra, not later than 48 hours in advance.

Masters of departing vessels requiring utilise rise of tide, to cross bar N.E. of Bahrain Approach Beacon, and that South of No. 3 Beacon, should be under way, passing Sitra Beacon not later than 3.5 hours before next predicted *High Water Mina Sulman*, or at a time not later than that which would allow vessels to make the passage between Bahrain Approach Beacon and No. 3 Beacon at reduced speed of 8 knots, having full benefit of tide, and passing first Beacon 1.5 hours before predicted *High Water Mina Sulman*.

MAX. SIZE: *Bapco Terminal:* Vessels up to 40 ft. draft, under normal circumstances, or up to a maximum of 44 ft. draft, making use of the tide.

Alba Marine Facilities: Up to 35,000 tons d.w.t., up to 35 ft. draft.

HEALTH: Bahrain Port Health Regulations based on International Sanitary Regulations adopted by World Health Organisation, May 1951. Quarantine signals must be prominently displayed approaching Sitra. Pratique normally granted by Bahrain Government Port Health Officer or Agent's representatives. If neither available, Company Mooring Master also authorised grant Pratique to healthy tankers scheduled for immediate berthing.

No person, excepting Agent's representative or, in the case of healthy tankers, Mooring Masters, is permitted to leave or board a vessel until pratique has been granted.

Rat guards should be properly placed on all mooring ropes as soon after berthing as practicable.

The gangway or other access should be lighted at night.

The port of Sitra is not classed as a "Plague Port" but all Crew members must have in their possession valid certificates of

vaccinations and inoculations in accordance with current Health Regulations.

The Bahrain Government Port Health Officer has an office on Sitra Causeway Pierhead and is available from 10.30 hrs. to 12.30 hrs. daily except Fridays. By arrangement through vessel's Agent the Port Health Officer, in addition to official duties, will provide consultation and treatment for other than quarantine purposes.

Deratisation and Deratisation Exemption Certificates are obtainable in Bahrain. Requests should be made through the vessel's Agent.

RADIO: All incoming vessels scheduled to load or discharge at either BAPCO or ALBA facilities should establish radio contact with BAPCO via "Cable & Wireless" at Manama, Bahrain, at least 48 hours prior to arrival giving a firm ETA, arrival draft and the requirements if any for bunker fuels.

The Company does not operate a coast radio station, long-distant radio communication being routed through Cable and Wireless Coast Station "Bahrain Radio" "A9M" of Manama, Bahrain, upon which a regular watch should be maintained. The cable address is "Bapcoship Bahrain". When within 50 miles of Bahrain, communication should be established with "Sitra Port Control", by VHF.

All communications to the Company should be quoted in GMT, and the appropriate letters, GMT, inserted after the time.

W/T Medium Frequency

for normal working Channel 9
for alternative working Channel 6, 8, 12 & 14

All vessels are requested to keep "Bapcoship Bahrain" fully advised regarding estimated times of arrival. It is requested that vessels provide "Bapcoship Bahrain" with an ETA and arrival drafts, not later than 48 hours steaming time from the port of Sitra.

A separate radio message should be sent to the Government Port Health Officer, Bahrain, advising last bill of health and present health conditions on board.

The Wireless equipment of any vessel must *not* be operated whilst alongside Company wharves.

OIL WHARVES: *No. 1 (Island) Wharf:* No. 1 (Island) Wharf consists of one main central platform supported on steel piles with four inter-connected mooring dolphins, two positioned to the North-west, and two to the South-east; giving the wharf an overall length of 923 ft. This wharf, which is supplied by submarine pipe-lines, provides two berths protected by berthing beams.

Depths at this wharf are as follows:

Berth No. 5 45 ft. at Chart Datum (13.700 m.)
Berth No. 6 45 ft. at Chart Datum (13.700 m.)
Max. draft at these berths 44 ft.

No. 2 Wharf: No. 2 Wharf is a pile driven "T" head structure with 3 inter-connected dolphins, 2 mooring dolphins, positioned to the N.W., and a warping dolphin positioned to the S.E., giving the wharf an overall length of 1,666.5 ft. and provides 4 berths, 2 on the outside and 2 on the inside. Both outside berths No. 1 and 2, and the N.W. inner berth No. 3, are protected by berthing beams. This wharf is connected to the mainland by a causeway, 3 miles in length.

Depths at this Wharf are as follows:

Berth No. 1 43 ft. at Chart Datum (13.100 m.)
Max. draft 41 ft.
Berth No. 2 44 ft. at Chart Datum (13.100 m.)
Max. draft 42 ft.
Berth No. 3 38 ft. at Chart Datum (11.600 m.)
Normal max. draft 34 ft.
Berth No. 4 38 ft. at Chart Datum (12.200 m.)
Normal max. draft. 34 ft.

There are length limitations as follows:

Berths 1 and 2 normally 820 ft., but may be exceeded depending upon the configuration of the vessel, and the vessel utilising the other berth.
Berth No. 3; 560 ft. (170m.)
Berth No. 4; 550 ft. (167m.)
Berths 5 and 6 normally 825 ft., but may be exceeded depending upon the configuration of the vessel.

Coastal Tanker Wharf: This wharf which lies 023° to 203° is limited to vessels of under 240 ft. in length and less than 16 ft. (4.90m.) draft. The wharf is a pile driven structure connected by a catwalk to the causeway.

BALLAST: The discharge of dirty ballast within the territorial waters to Bahrain is strictly prohibited. As a further measure to avoid pollution by oil of the Marine environment, Masters of tankers are requested not to pump any oil overboard within the Gulf area.

There are limited facilities for the receipt of oily residues at Sitra Wharves. Vessels, which require to discharge ballast at Sitra Wharves after berthing, must, therefore, ensure that the ballast is clean prior to arrival in the Gulf Area.

In the event of a vessel spilling oil in Sitra harbour the Company will, at its discretion, clean up the oil and recover costs by charging the vessel.

BERTHING: Vessels required be sufficiently ballasted with clean ballast water before coming alongside. Minimum tanker drafts normally acceptable are:

Deadweight-tonnage	*Feet*		*Metres*	
	F.	*A.*	*F.*	*A.*
16,000 to 20,000	12 ft.	20 ft.	3.60	6.00
20,000 to 30,000	14 ft.	22 ft.	4.20	6.70
30,000 to 40,000	15 ft.	24 ft.	4.60	7.30
40,000 to 50,000	16 ft.	25 ft.	4.90	7.60
50,000 to 60,000	19 ft.	26 ft.	5.30	7.90
60,000 to 70,000	21 ft.	27 ft.	6.40	8.20
70,000 to 90,000	23 ft.	28 ft.	7.00	8.50
Over 90,000	25 ft.	29 ft.	7.60	8.80

Mooring Masters may decline berth vessels if not sufficiently ballasted. Berthing operations conducted on 24-hour basis at discretion of Mooring Master; wind, weather, tide and other circumstances permitting. Mooring Masters will decline berth vessels if not properly equipped with satisfactory mooring lines, or if deck appliances inoperable, or if steering gear, telegraphs and whistles not in an efficient condition. Anchors and cables should be cleared ready for letting go. Master should notify Mooring Master of any defects or peculiarities pertaining to vessel. Masters requested maintain continuous watch on VHF for berthing instructions. Vessels must be equipped with *at least* five lines forward and four lines aft. These lines must be sufficient length enable moorings to be "doubled up" in bad weather. Method of mooring at discretion of Mooring Master. The "offshore" anchor should be cleared and lowered to the waterline, ready for letting go, before approaching the berths.

Anchor buoys are *not* to be used whilst moored alongside.

ALBA MARINE FACILITIES: The Alba marine facilities consist of an artificial island built in shallow water, approx. 2.75 miles off the coast of Sitra Island, and a jetty in deep water, which is connected to the island by a roadway 560 ft. long, above which runs a conveyor which carries raw materials from the jetty to the coke and alumina store situated on the island. The jetty is 562 ft. long and 47 ft. wide. The seaward berth, depth 35 ft., provided with berthing heads, to accept vessels up to 35,000 d.w.t. The landward berth is provided with fendering to accept vessels up to 12,000 d.w.t. Mooring dolphins at each end of the jetty.

Loading and Unloading Facilities: Bulk carriers unloaded at seaward berth by two 10-ton capacity grab cranes. Metal exports loaded at landward berth, using ship's gear, or possibly at seaward berth when the jetty cranes may be used.

Services: Vessels using Alba Marine facilities are assisted by Bahrain Petroleum Company Limited Mooring Masters and tugs. Only transportation between the Alba jetty and mainland is by launch which must be provided by Agents. No fresh water available at Alba jetty.

Operators: Company cable address is "Metalba Bahrain".

TUGS: Tugs normally join in Sitra Anchorage after Pilot has boarded. Tugs lines used during berthing operations. During unberthing ship's lines used for forward tug, and tug's line for after tug. Mooring Master will decide number of tugs.

Normally two diesel-electric tugs on station. Each tug is fitted with fire-pumps and monitors to assist fighting fires.

MEDICAL: Advance notice to Agents preferable. Good hospital and medical facilities.

Emergency hospital cases will be treated as such, and will be handled by the vessel's Agent or by Company facilities, whichever is first available. Under normal conditions, the vessel's Agent should handle all personnel from vessels other than "Company" vessels.

Heat exhaustion. Experience over many years has shown incidence of heat stroke and heat exhaustion cases among the crews of vessels visiting Bahrain during the hot season, with some fatalities. The Company medical authorities have prepared notes on this subject which may be of assistance to Masters, but skilled medical assistance should be called for immediately a case of heat exhaustion or heat stroke is observed.

To enable heat exhaustion cases to be treated expeditiously a Heat Exhaustion Unit is located in the Port of Sitra shipping offices at the Wharf gate.

RESIDUES: Limited slop tank facilities for oily residues at all berths.

LOADING/DISCHARGING: *Readiness:* The following will apply in regard to Notice of Readiness.

Notice of readiness to load is a warranty on the part of the Master that the vessel is in all respects ready to load and that the tanks, pipes, pumps and accessories of the vessel are fit to receive the cargo to be loaded.

The Master or his representative is required to hand to the Company, within normal business hours, a written Notice of Readiness to load. Receipt of such Notice of Readiness by the Company does not necessarily imply acceptance.

The Company will make every effort to accept Notice of Readiness when tendered on arrival, provided vessel is in all respects ready to load. The Company will endeavour to load vessels upon arrival and/or as promptly as a berth is available.

Arrival, where used above, means when the vessel passes "Sitra Beacon" when proceeding either straight to the berth or to anchor in Sitra Anchorage. In the case of vessels coming from Mina Sulman it is the time when passing North range beacon. In cases where vessels are required to anchor in the area South of No. 27 Buoy, then the time of anchoring will be used providing that the presence of the vessel is made known to Sitra Port Control by VHF or BAPCOSHIP via Bahrain Radio on radio telephone, Awali 2662 at the time of anchoring.

Responsibility: Loading will not start until the vessel's loading officer reports the vessel is ready to receive cargo and the Company's Loading Master is satisfied with the preparations for loading. Any inspection made by the Company's Loading Master in this regard is performed without the Company assuming any liability.

All operations on board the vessel in connection with loading and discharging are the responsibility of the vessel.

A Company Loading Master will be available throughout the loading to offer advice to the Master on loading procedures and loading hazards.

Warning is given of the danger of closing a valve against an incoming oil stream. This procedure will create excessive pressures which may result in damage to the loading hoses, vessel's pipelines or Terminal facilities. Vessels will be held liable for damages resulting from failure to observe this precaution.

Hose handling: Without assuming any liability on behalf of the Company, Company employees will assist in connecting and disconnecting hoses to vessels. A ship's officer must be present, and the ship's deck officer on duty must approve the hose connection on board.

The Company has modern air-operated hose-handling equipment on all berths at the No. 1 (Island) Wharf and the No. 2 Wharf, except No. 4 Berth. However, the vessel's hose rigging derricks should always be in a constant state of readiness to give additional assistance as necessary. Company employees will not operate ship's derricks or winches.

Cargo inspection service: The service of the Bahrain Government Petroleum Inspectors are available for the inspection and certification of the condition of a vessel's tanks, pipes, pumps and appurtenances. the Agent will, upon request, arrange for the services of this Inspector.

The Company will not issue any certificate purporting to state that vessel's tanks, pipes, pumps and appurtenances are clean or acceptable for receiving cargo. In the event a Company representative either alone or accompanied by the Bahrain Government Petroleum Inspector, inspects the vessel, the Company will make no representation nor assume any responsibility in connection with the condition of vessel's tanks, pipes, pumps and appurtenances, nor will the Company assume any liability for contamination of cargo aboard ship caused by the condition of the ship's tanks, pipes, pumps or appurtenances.

Loading rates: This table prescribes the approximate average loading rates of products available at the Wharves:

Product		*Barrels per hour*	
Motor gasoline	up to	7,000	on 2 S/Ls
Jet fuel	,,	10,000	on 3 S/Ls
Naphtha (JP4)			
Kerosine	,,	5,000	on 2 S/Ls
White diesel	,,	12,000	on 2 S/Ls
Black diesel	,,	2,500	on 2 S/Ls
Fuel	,,	25,000	on 3 S/Ls

Loading rates of kerosines and jet fuels are restricted due to static electricity hazards. These rates will be made available by the Company Loading Master.

A maximum pressure of 150 lb. is allowed on the loading hoses.

Discharging Rates: The discharge rates will be governed by the vessel's pumps, which must be limited to 150 lb. pressure.

DENSITY: Average 1030.

FRESH WATER: Limited quantities of well-water available at Sitra Wharves is saline and mainly used for washing purposes, although can be used for drinking. Delivery rate about 15 tons per hour. Nominal delivery charge. Vessels berthed for water only in emergency and additional fuels charge. Drinking water available at Sitra Anchorage from barge, capacity 300 metric tons.

FUEL: Bunkers available all berths and by Lighter. Fuel Oil maximum 1,500 secs. Redwood. Marine Diesel. Diesel Gasoil. Vessels should give at least 24 hours notice.

Facilities: Bunkers can be supplied at all oil berths and can be loaded simultaneously with bulk cargo.

Bunker quantities are measured by "Brodie" positive displacement meters.

Chief Engineers, on request to the Company's Loading Master, can avail themselves of the opportunity of checking the opening and closing counter readings on the meters supplying bunkers to the vessel.

Product	*Bunkering Rates are approximately*	
	Bbls/hr	*Tons/hr*
Fuel oil	up to 2,500	up to 360
Marine diesel	up to 1,500	up to 200

Bunker Barge Service: The Company operates a bunker barge service principally to supply bunker fuels to vessels at Mina Sulman. This service is also available to vessels in the Sitra Anchorage and Alba wharves, but may be temporarily suspended due to adverse weather conditions.

The service is maintained by the barges "Bapco 1" and "Safala".

"Bapco 1". The barge with a loaded deadweight of 1,200 L.T. has a cargo capacity of approximately 8,900 barrels. Its approximate maximum capacities are as follows:

Marine diesel 1,800 bbls (240 tons) + Fuel oil 6,350 bbls (950 tons) } or { 5,200 bbls (720 tons) + 2,800 bbls (425 tons)

The discharge rates for the "Bapco 1" are:

Marine diesel 50– 750 bbls/hr. (10–100 t.p.h)
Fuel oil 100–1,500 bbls/hr. (30–200 t.p.h.)

"Safala". The barge has a capacity for 1,300 bbls (170 tons) of diesel gas oil which it can discharge at rates between 50–760 bbls/hr. (5–100 t.p.h.).

Application for the use of the bunker barge service should be made to the Company via the vessel's local Agent and it is desirable for the vessel to give as much advance notice as possible.

Lubricating oils and greases: A full line of Caltex Marine lubricants and greases is available at Bahrain.

In order that lubricating oils may be promptly delivered, Masters of vessels are requested to radio "Bapco Bahrain" their requirements at least 48 hours prior to their arrival at the port of Sitra.

Empty lubricant containers are not accepted at Bahrain.

Drummed products: Limited quantities of gasoline, kerosine and diesel gas oil in drums are available at short notice.

To facilitate prompt delivery Masters are requested to radio "Bapco Bahrain" at least 48 hours prior to their arrival for orders exceeding ten drums.

All supplies are in non-returnable steel drums.

FIRE PRECAUTIONS: Vessel receives full details/regulations on berthing. Vessels must have firewires, and engines must not be immobilised whilst alongside.

GANGWAY/DECK WATCHMEN: An officer must be on deck during all loading or discharging operations. A deck watch must be maintained for moorings and hose connections.

TOBACCO ALLOWANCE: No restriction.

WINE AND/OR SPIRIT ALLOWANCE: Ship's requirements. Bond sealed but can be re-opened upon application. Liquor trafficking between vessels alongside Wharves or between vessels and shore strictly prohibited.

IDENTIFICATION CARDS: Discharge Book or Passport to be deposited with Immigration when going ashore.

CONSULS: British Embassy at Manama. United States Consul at Ras Tanura can come to Bahrain if requested by Agent.

REPAIRS: Local marine repair companies can undertake limited repairs of general nature.

REPATRIATION: Facilities for crew change and repatriation by sea or air.

AIRPORT: Served by regular Airlines located about 15 miles from Sitra.

TIME: GMT plus 3 hours. No changes during year.

HOLIDAYS: Numerous holidays do not affect operation of Port, which operates 24 hours a day, 7 days a week. Local Sabbath is Friday.

TELEPHONES: No facilities for placing telephones on Ships.

NAVIGATION: Port Captain will be available for advice concerning navigation of channel.

Navigation warnings: Attention is drawn to the service provided by the Middle East Navigational Aids Service (MENAS) in promulgating navigation warnings covering the whole of the Gulf area.

Mariners are requested to report any hazard/obstructions encountered, observed failure of or alterations to navigational aids, etc., to:

Middle East Navigational Aids Service,
Post Box 66, Bahrain,
or if the information is urgent, radio/cable to
Megulite, Bahrain.

Printed navigation notices:

(a) The notices, promulgate all navigational information of a permanent or semi-permanent nature.
(b) Each notice, which is serially numbered, in sequence each year, remains in force until specifically cancelled by a later notice, when the information in the notice is:
(i) Known to have been promulgated in British Admiralty Notice to Mariners.
(ii) No longer valid.
(iii) Considered sufficiently promulgated.
(c) These printed notices are distributed to various Agents, Port and Harbour Authorities, where they can be viewed.

Radio navigation warnings:

(a) The warnings relate to navigational information which may immediately effect the safe navigation of ships at sea.
(b) These warnings are serially numbered, with the prefix "NAV" and authenticated by the signature "Megulite".

(c) The warnings are broadcast by Bahrain Radio (A9M) on 487 kc/s. at 0518, 0918, 1318 and 1718 GMT. For further details consult the latest edition of "Admiralty List of Radio Signals" Volume V.

(d) Each radio warning is rebroadcast for a period of from 24 hours to one month, depending upon the nature of the information it contains. At the end of which period it is either self-cancelling or superseded by a new warning.

SHORE LEAVE: *Permitted under following conditions:*

When persons going ashore are in possession of valid Vaccination Certificates, and inoculation against cholera certificates, if these required by Port Health Authority.

Persons going ashore must be in possession of valid passport, or Seamen's Discharge Book, which must be handed to the Immigration Officer, and recovered before returning on board.

No smoking is allowed on the wharf, or on board any launch between the wharves, or by any person within 900 ft. of the wharves.

Crew members are warned that it is an offence to bring ashore fire-arms or drugs, and any traffic in intoxicating liquor is strictly prohibited.

GENERAL:

Anchors: The offshore anchor should be cleared and lowered to the waterline, ready for letting go, before approaching the berths. Anchor buoys are not to be used.

Rat guards: Must be fitted. They are available for hire at a nominal rate.

Gangway: Every vessel shall provide a gangway, which shall be adequately lighted during the hours of darkness.

Swimming: Not permitted in the vicinity of the wharves.

Provisions: Available.

Laundry: Available.

PORT REGULATIONS: Port Captain should be contacted for any queries not covered by lists of regulations provided on arrival.

PORT AUTHORITY: Port Captain. The Bahrain Petroleum Company Limited.

AGENTS: Gulf Agency Co. (Bahrain) Ltd., P.O.B. 412, Manama, Bahrain. Cables: "Confidence". Tel. 54228, 54938. Telex: 8211 (A/B "Gac GJ"). After office Tel. 52011, 69758.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Bangladesh

CHALNA (Khulna): 22.35 N. 89.32 E.

PORT LIMITS: The limit of the port extends on a line drawn East/West across the Pussur River at Lat. 22° 34′ in the North to line drawn across East West on the Pussur River at Lat. 22° 20′ 30″ in the South. The northern limit of the port area is approximately 24 miles from the town of the Khulna.
DOCUMENTS: See "Chittagong".
ARRIVAL ADVICE: Inward ships must present themselves at Pussur fairway buoy at least 24 hours before high water to enter on a particular day.

The Master should send the following information to port via Khulna Radio call sign S3E and to duty pilot vessel call sign SZVS and pilot station call sign ASVI 24 hours prior to arrival at Khulna fairway buoy.

1. ETA Pussur fairway buoy.
2. Fresh water draft.
3. Speed available.
4. Vessels length.
5. Vessels gross tonnage.
6. Fresh water requirements.

PILOTAGE: Compulsory. Master should in addition to usual ETA to Agents keep in touch with pilot vessels stationed at Hiron Point about 45 miles from the base calling ASVI, depending on which vessel is stationed at the time. Pilot vessels are equipped with radio and maintain regular watches on 500 m. from 0600 to 0800, 1000 to 1200, 1400 to 1600 and 1800 to 2000 hrs. local time. If a message is not being picked up, by Khulna Radio call sign ASV, it should be relayed through Chittagong Radio or the pilot vessel.

Ships over 17 ft. draft are usually piloted on the flood to cross the bar and the pilot vessel, which has been in contact with the incoming ship leaves from Hiron Point, in time to coincide with the arrival of the vessels at the pilotage ground, situated about 7 miles Northwest of the Fairway "Lighted" buoy where ships can anchor in 9 fathoms of water. The channel from Fairway up to the Anchorage has been marked with lighted buoys and pilotage is done in daylight.

In rough weather and especially during the monsoon, ships are led into calm waters by the pilot vessel, which maintains close radio contact, and Pilots board inside the river.
ANCHORAGE: Chalna port consists of a sheltered deep-water anchorage at Mongla on Pussur River.

Depth of water 19 ft. to 45 ft. at LLWD. Distance from sea 65 miles.
RESTRICTIONS: Entrance to the Pussur River is about 6 miles wide at the mouth and has a bar over about 5 miles where the depth is 3 fathoms.
MAX. SIZE: Ships drawing up to 23 ft. can cross the bar in all seasons. In S.W. monsoons vessels up to 25 ft. 6 in. can be accommodated on spring tide.
HEALTH: On arrival at the mouth of the Pussur River, vessels are required to wireless "Quarantine" Khulna, giving health report, to avoid difficulties with Port Health Authorities.
RADIO: At present coast station at Khalishpur (Khulna Radio) of Telegraph and Telephone dept. maintain 24 hours W/T watch on 500 kc/s. call sign (S3E). In addition to the T & T system, the port has harbour control station (call sign AQBC) at Mongla and pilot station (call sign AXVI) at Hiron Point to maintain 24 hours W/T watch on 500 kc/s. The station at Hiron Point guides incoming and outgoing vessels from fairway to pilot grounds and vice versa and remains in touch with Khulna Radio, Mongla AQBC and ships anchored at Hiron Point for movement of Pilots, mooring of vessels etc. the *Sarothi II* is equipped with W/T and VHF system and is kept standby for emergency work.
VHF: At present there is no VHF Communication system owned by the port but ships lying in port may contact shore station through VHF owned by T & T. The port maintains two W/T stations. One at Hiron Point pilot station call sign ASVI and the other at Mongla call sign AQBC in addition to the above mentioned. W/T station coastal W/T station Khulna Radio call sign S3E owned by T & T remain in operation for maritime shipping. These three stations maintain round the clock watches.
TUGS: Two powerful tugs available to assist in emergency. Not required for berthing.
BERTHING: Fifteen swinging moorings and unlimited anchor berths.
CRANES: These facilities are not available at present. But will be available after completion of permanent port facilities.
STEVEDORES: Plenty of labourers available.
TANKERS: Oil is not handled at the port at the present time.
DENSITY: The density of water at the Outer Bar varies from 1005 to 1025 and at Mongla from 1002 to 1020.
FRESH WATER: Available by barges. Cost Tk. 40 per ton.
FUEL: Coal and fuel oil can be arranged in limited quantities if sufficient advance notice given.
FIRE PRECAUTIONS: One buoy tender fitted with powerful fire fighting appliances can be made available to meet emergency at very short notice.
CONSULS: none.
REPAIRS: Minor repairs can be arranged through Khulna shipyard. Repair facilities are being constructed along with the permanent facilities.
DRY DOCKS: A dry dock for sea-going vessels is under construction at Chittagong.
SURVEYORS: Lloyds/NKK. Surveyors are available at Khulna.
TIME: Six hours difference exists between GMT and local time.
HOLIDAYS: Eid-ul Azha, Moharram, Eid-I-Miladun Nabi, Independence Day, Jamat-ul-Bida, Eid-ul-Fitr, depending on the sighting of moons calculated in the basis of moon months.
POLICE/AMBULANCE/FIRE: Police telephone number 7 and for other purposes port telephone No. 3115 is available.
TELEPHONES: No arrangement is available at the anchorage for placing telephones on board the vessels.
SHORE LEAVE: Crew members of Foreign vessels are allowed to disembark ashore as per master's request.
GANGWAY/DECK WATCHMAN: On receipt of orders from the Master the Stevedores will arrange to supply Watchmen by day and night.
HATCHES: opening and closing of hatches is normally carried out by the stevedores.
CARGO GEAR: Goods loaded and unloaded by the ships gear, no handling equipment available at the port.
REPATRIATION: Local shipping agents are responsible for arranging repatriation of the Crew.
AIRPORT: Jessore, which is 70 miles from the port.
IDENTIFICATION CARDS: Seaman's book is sufficient for identification.
REGULATIONS: Crew members are not allowed to undertake chipping/painting of vessels whilst in the port. This is to be done by licenced constructors.
DELAYS: No unusual delay in the port.
DEVELOPMENTS: Permanent port facilities with 7 jetties, transit shed and warehouses including 2 feeder container jetties are under construction on the East bank of the Pussur River adjacent to the present anchorage. These will be ready by the end of 1978. A scheme is under preparation to deepen the channel to allow vessels with deeper drafts to enter the port.
AUTHORITY: Port Director, Chalna Anchorage..
AGENT: See "Chittagong".

CHITTAGONG: 22.18 N. 91.48 E.

DOCUMENTS: *Before vessel's arrival:*

2 copies Freight Manifest.
2 sets Bill of Lading.
3 copies Stowage Plan.
15 copies Passenger List.
4 copies Cargo Manifest.
3 copies Hatch Lists.
1 copy Exception Lists.
2 copies Passenger Money Manifest.
2 Copies Special Cargo List.
2 Copies Hazardous Cargo List.
2 Copies Heavy Lift Cargo List.

With vessel:

1 set Arrival Papers as per booklet available with Agent.
2 Copies Cargo Manifest.
Last Port Clearance.
Passenger Lists, disembarking and transit — 6 copies each.
Crew List 8 copies plus 2 for immigration police.
List of Favour Parcels 2 copies.
Currency declaration of ship's money, officers and crew, together with the personal property list.
Ships Stores Lists on local Customs forms – 3 copies.
Cargo Clearance Certificates.
Deratisation Exemption Certificate.
International Load Line Certificate.
Radio Safety Equipment Certificate.
Safety Equipment Certificate.
Record of Safety Equipment Certificate.
Load Line Certificate.
Ship's Article.
Ship's Register.
Light Dues Receipt.
Radio Telegraphy Certificate.
Safety Construction Certificate.
Deratting Certificate.
Voyage Licence.
Exemption Certificate of Crew Members.
I.P.B. Permission of Foreign Nationals.
Gear Register Book with Annealing Certificate
Authority Letter of Supernumery.
Store List.

PILOTAGE: Pilotage is compulsory. Pilots board and leave vessels at the outer anchorage.

Inward ships must present themselves at Fairway Buoy at least three hours before high water to enter on a particular day.
APPROACHES: Since South Patches lightvessel is missing, it is advisable to make for Elephant Point/Cox's Bazaar, and then shape course to pass West of South Patches. Due allowances must be made for the state and rate of tide. In this area, the tide runs in a North–South direction.

Once it is ascertained that the vessel is West of South Patches, course can be shaped to pass 8–9 miles off Kutubdia Lighthouse. The buoys indicating the channel to Chittagong outer anchorage are mostly out of place or missing and cannot be relied upon. The buoys are unlit and without radar reflectors and navigating in their vicinity during hours of darkness can be hazardous.

Vessels must reach pilot grounds at mouth of River Karnaphuli 3 hours before high water during daylight hours. No berthing after sunset.

ANCHORAGE: The Anchorage is considered safe and the holding ground is good. The bed of the river is soft mud and is harmless in case of grounding.

Holding ground off Kutubdia fairly good but strong tides render it necessary to pay-out extra length of cable.

Spring tides at outer anchorage are very strong (6 to 8 knots) and at times of freshets the rate may be more. It is advisable to keep engines ready at all times during Spring tides, and maintain continuous and efficient anchor watches.

RESTRICTIONS: Night entry not permitted. Though a river port, Chittagong is tidal harbour, and presently ships enter and leave only on the day tides, therefore ships should endeavour to arrive at least 3 hours before high water of the day's tide. Ships of length upto 575 ft. enter the main berth, day's draft permitting. Ships of 605 ft. (LOA) brought inside the harbour on experimental basis. During Spring tides vessels under 7 knots will not be handled.

MAX. SIZE: Anticipated safe drafts are predicted three months in advance. The depth of water over the Outer, Inner and Gupta Bars is maintained at 14.5 ft. at low water throughout the year. The bars are situated at distances of half, one and 4.75 miles from the entrance. In order to calculate the draft for entering and leaving port, the depth of 14.5 ft. over the bars is added to the height of water in the tide tables for day tides. Also see "Tankers".

HEALTH: All vessels must send the standard quarantine messages by radio. Vessels which have touched ports between Port Sudan and Durban, on the East Coast of Africa including these two ports, or any other yellow fever port or other port on the continent of Africa, or ports which are declared from time to time as quarantine areas, are suspected vessels on account of yellow fever or jigger, or other infectious disease as the case may be and may not have communication with the shore till declared by the Port Health Officer, who attends only between sunrise and sunset, except in special circumstances. The incubation period for yellow fever is 9 days, but vessels arriving later than 9 days are still not free from quarantine because there is no incubation period for jigger.

RADIO: Khulna Radio (ASD).

VHF: "Port Radio Control" call sign "S2YA" Channel 16, and Channel 12. Four fixed shore and 10 mobile stations.

TUGS: Available, under direction of Pilot. None available at outer anchorage.

BERTHING: 4 jetties including 2 Pontoon jetties ranging in jetty face length from 435 ft. to 630 ft. Seven are provided with shore cranes, 10 with transit sheds and 8 with railway tracks. Additional 4 jetties for cargo in bulk like foodgrain, cement clinkers, etc.

Also 6 moorings for oil tankers of various lengths, 4 moorings for dry cargo, 2 moorings for lighterage, and 1 mooring for laid up vessels.

CRANES: Variety of cargo handling equipment, maximum lifting capacity 125 tons.

TANKERS: Crude oil tankers up to a draft of 34 ft. can be handled at off-shore oil terminal. A special Pilot is required to place the tanker alongside the buoy. Submerged pipe-line to petroleum buoy (fl. (2) every 10 seconds in position 22° 15′ W. 91° 45′ E.) exists but not used as reported leaking. Tankers anchor off the buoy and lighten into other tankers. If under max. length permitted in the river, can proceed upstream and discharge at the tanker berth in the vicinity of the Esso Jetty.

Clean tankers enter the river and berth at petroleum jetties inside the port, restricted to length of 550 ft. overall, and subject to published river draft.

Tankers up to 60,000 d.w.t. discharge into lighters at Kutubdia anchorage where depth is 6 fathoms.

MEDICAL: Doctors and Hospital facilities available.

DENSITY: From 1000 to 1004.

FRESH WATER: Available from quays. Also available at outer anchorage. Require 3–4 days notice. Capacity of water barge about 300 tons. Supply daylight hours only.

FUEL: All grades available at oil berths. Otherwise supplied by barge.

REPAIRS: Facilities for repairs available. No dry docks. Ships' engines may not be dismantled or immobilised whilst at berths or moorings without the prior sanction of the Port Authority. Construction of a Dry dock is in progress.

HATCHES: Opened by ship's crew.

CUSTOMS ALLOWANCES: 200 cigarettes or 0.5 lb. of tobacco and 1 bottle of wine/spirit per week per man or 2 pints of beer per day.

REPATRIATION: Possible.

STEVEDORES: Available through Agent. Working hours, Monday to Thursday and Saturday day shift, 0730–1200 and 1330 to 1700 hrs. Night shift, including Friday 2000–2400 and 0000–0400 hrs. Friday, day shift, 0700–1200 and 1400–1700 hrs.

HOLIDAYS: Eid-ul-Azha (27/28th February); Muarram (29th March); Eid e Miland un Nabi (29th May); Independence Day (14th August); Defence Day (6th September); Death of Quaid-e-Azam (11th September); Revolution Day (27th October); Jamat-ul-Wida (5th December); Eid-ul-Fitr (11th/12th December); Christmas Day (25th December).

POLICE/AMBULANCE/FIRE: Call "Port Control" Channel 12 and 16 call sign, "S2YA" or tel. 87011.

CARGO GEAR CERTIFICATES: International Cargo Gear Test Certificates not more than 12 months old must be presented to the Dock Labour Inspector before a vessel is allowed to use derricks/winches. Annealing and testing of gear at Chittagong is an expensive process. In certain cases dispensation can be obtained at the discretion of the Dock Labour Inspector.

AIRPORT: Patenga Airport about 5 miles from city.

SHORE LEAVE: Allowed, prior permission from Immigration arranged by Agent.

DEVELOPMENTS: More berths to be constructed.

TIME: GMT plus 6 hours.

AUTHORITY: Chittagong Port Trust.

AGENT: Maritime Agencies Ltd., Third Floor, Eastern Federal Building, Quaid-e-Azam Road. PO Box 387. Tel. 84029. Cables: "Maritime Chittagong".

NOTES

Please also advise Shipping Guides (Services) Ltd.

Barbados

BRIDGETOWN: 13.05 N. 59.36 W. (See Plan)

DOCUMENTS:
8 copies Crew Lists.
5 copies Passenger Lists.
1 copy Health Certificate.
3 copies Ship Particulars.
1 copy Vaccination Report on Crew.
1 copy Vaccination Report on Passengers.
Deratisation Certificate.
2 copies Manifest.
1 copy Bill of Lading.
1 copy Clearance from Last Port.
2 copies Ship Stores List.
2 copies Crew's Declaration List.
1 copy Animal Declaration List.
Ship should be entered within 24 hours and articles deposited in Shipping Office if staying longer than 48 hours.

PILOTAGE: Pilotage compulsory for all vessels entering Bridgetown Harbour. Agents of vessels intending visit port required give ETA as early as possible on Form A. 4 hours notice weekdays and 8 hours Saturdays and Sundays are min. requirements.

Watch kept on VHF Channel 16, 156.80 Mc/s. Working frequency VHF Channel 12, 156.60 Mc/s. Pilotage vessels power-driven launches approximately 40 ft., painted grey. Signals for Pilot Boat: International.

Pilotage Station: 1 mile West of Breakwater Head. No alternative station in bad weather. Usual pilotage ladder in good condition should be rigged on port side when approaching harbour.

ANCHORAGES: Quarantine anchorage as indicated Admiralty Chart 502. Explosive anchorage as indicated on chart. Carlisle Bay anchorage see Chart 502.

RESTRICTIONS: Bridgetown Deep Water Harbour offers 24 hours service to ships with draft up to 31 ft. 6 in. A harbour for small craft (careenage) caters to ships up to draft 13 ft. 6 in. high water.

TANKERS: May enter and leave any stage of tide, day or night, except Needham's Point where daylight berthing only.

MAX. SIZE: Max. length permitted in Deep Water Harbour 800 ft., draft 31 ft. 6 in. Oil Carriers Pier outside Deep Water Harbour max. draft 38 ft. Also see "Tankers".

HEALTH: Pratique may be obtained by radio or from Pilot or Health Officer on arrival. In case of suspected disease Port Doctor should be notified by radio through Agents.

Procedure for Granting of Pratique:

(1) The radio request should be sent not more than 18 and not less than 4 hours before the expected time of arrival.
(2) The message should be addressed to the Shipping Agent, who will inform the Medical Officer of Health (Port) of the contents of the Message.
(3) The Medical Officer of Health will inform the Shipping Agent whether or not pratique is granted, and the Shipping Agent will inform the Master, by radio, of the decision.
(4) The Medical Officer of Health will inform the officer on duty at the Signal Station whether or not radio pratique has been granted, and the officer on duty at the Signal Station will inform the Berthing Master and the Public Health Inspector of the decision of the Medical Officer of Health.
(5) The Berthing Master on boarding a ship which has been granted radio pratique will authorise the lowering of the Q flag, if still flying.
(6) The Berthing Master on boarding a ship which has not requested radio pratique will inquire as to the presence of any illness in the ship; if there is no illness, he will grant pratique in his capacity of Visiting Officer, *and will ensure that the Q flag is lowered.*
(7) If radio pratique has been refused or if the Berthing Master is informed that there is illness in the ship, the Q flag *must* be kept flying and the Public Health Inspector will board the ship, and if satisfied will grant pratique; if he is not satisfied he will refer the matter to the Medical Officer of Health (Port).
(8) Disembarking passengers (not passengers intransit) and any Crew members being signed off will be kept segregated on the ship until their vaccination Certificates have been inspected by the Public Health Inspector.
(9) No person except the Berthing Master, the Public Health Inspector, the Medical Officer of Health or the Immigration Officer will be permitted to board a ship before pratique has been granted. The granting of pratique is indicated by the lowering of the Q flag.

Notes: I. From the foregoing it will be seen:

(i) that healthy ships will be granted pratique either by radio or by the Berthing Master;
(ii) that ships with any illness on board will be granted pratique by the Public Health Inspector or the Medical Officer of Health;
(iii) That the Public Health Inspector will board a ship for the following reasons only:
  a. when radio pratique has not been granted and the Berthing Master cannot grant pratique;
  b. to inspect Vaccination Certificates of disembarking (not intransit) passengers and signed off Crew members.
(iv) that to avoid misunderstanding and delay the Q flag must be lowered as soon as pratique is granted.

(10) A ship with disembarking passengers may be granted pratique and permitted to work e.g. load or unload cargo, *provided* that disembarking passengers are kept segregated *on the ship* until Vaccination Certificates have been inspected and immigration formalities completed.

RADIO: Cable and Wireless, Barbados Radio: Call sign 8 PO. 24 hours watch is maintained on 500 kHz. ETA to include name and nationality of Master, number and nationality of Crew. Name of last and following ports of call and quantity and grades of cargo to be discharged, if any.

VHF: Barbados Radio VHF Channels 16 and 26. Barbados Port Department VHF Channels 12 and 16.

TUGS: Compulsory. Three tugs available, *Pelican, Culpepper* and *Barbados*, 1,100, 1,500 and 1,700 h.p. respectively. Tugs join ship at entrance to basin of the harbour; two tugs are compulsory for vessels over 10,000 tons or 600 ft. in length. VHF and ship's radar installed on tug *Barbados*.

BERTHING: Harbour is situated on the North-Eastern side of Carlisle Bay, approximately 0.75 mile North-West of the Molehead of the careenage. This harbour is dredged to 32 ft. LWOST and was constructed by joining Pelican Island to the Mainland by reclamation, providing 1,700 ft. of quay space and 2,700 ft. approx. of protective breakwater, and offering berths for eight ocean-going vessels. All berths are equipped to supply water and telephone. Plans for expansion under active preparation.

BULK HANDLING FACILITIES: Inner arm of breakwater, 980 ft. long, carries three sugar loading towers, with total loading capacity 500 t.p.h.

Delivery points on breakwater for loading molasses.

Other cargo handling is by ship's gear to apron where removed by fork-lift trucks to transit sheds. One mobile crane 5 tons capacity and one of 20 tons. Management must be notified prior acceptance of lift in excess of 5 tons.

STEVEDORES: Gangs must be ordered before 1500 hrs. on day preceding date of arrival and 1000 hrs. on Saturday for Sunday or following Monday. Average rate of cargo discharged:

Bag Stuff, 22 tons (weight) per hour.
General Cargo, 12 tons (weight) per hour.

Ships specially equipped for handling palletised cargo, 30 tons per hour.

Average rate of loading of cargo: General cargo 12 tons; Bag Stuff 18 tons.

MEDICAL: Agents should receive advance notice of required medical attention as soon as possible. Modern 800 bed hospital. Private clinics and usual medical facilities available.

TANKERS: Vessel's arriving during darkness for Needham's Point Terminal should anchor in Carlisle Bay. Services of a Pilot are not compulsory but a Pilot must be taken to berth and unberth.

Needham's Point: Mobil Oil Barbados Ltd. Multi-buoy-mooring Max. LOA, 600 ft. Max. draft, 33 ft. Depth at MLW, 40 ft. Nature of bottom, sand on coral. Daylight berthing only. Vessels may berth and unberth any stage of tide. No fuel or dirty ballast facilities. Fresh water available by tug. Product handled, crude oil. Sealine taken aboard on starboard side. One 12 in. pipe-line, length 1,635 ft. connected to 1×10 in. hose. Pumping rate 300 t.p.h. max. pressure, 50 p.s.i.

Esso Standard Oil S.A. Ltd.: 2 berths. Esso Jetty outside breakwater. "T"-Head finger jetty. Max. LOA, 800 ft. Max. draft, 38 ft. Depth at MLW 55 ft. Vessel berths port-side alongside.

Departure Harbour Oil Pier: Max. LOA 800 ft. Max. draft 30 ft. Depth at MLW, 32 ft. Vessels berth either side alongside.

Fuel and fresh water available. No facilites for receiving dirty ballast.

Berth	*Grade Handled*	*Pipe-line ins.*	*Length (ft.)*	*Load/ Discharge Rate (t.p.h.)*	*Hoses ins.*
Esso Jetty	Bunker C	1×16	2000	400	1×8
	Marine Diesel	1×12	2000	270	1×8
	Light Marine Diesel/gasoil	1×8	2000	150	1×8
Max. Pressure 100 p.s.i.					

DENSITY: 1025

FRESH WATER: Easily available. Delivery 50 t.p.h. Delivery by hose-pipe through hydrants installed in each berth.

FUEL: Bunker C, marine diesel, marine diesel medium (gas oil). Intermediate fuel, all grades available at all berths. 12 hours notice in advance of ETA.

DEVELOPMENTS: The Port is undertaking an expansion project and with its implementation, activities will be concentrated in the Port. The project includes land reclamation, the construction of a container shed, a shallow draft facility and a bulk handling facility. Provision is also made for the construction of a new administration building and the installation of ancillary services.

GANGWAY/DECK WATCHMEN: Watchmen's services necessary.

OPENING/CLOSING HATCHES: By stevedores.

SHIP CERTIFICATES: Load Line Certificate, Certificate of Registry.

TOBACCO ALLOWANCE: Two packages or 100 cigarettes per person.

WINES AND SPIRIT ALLOWANCE: At discretion of Customs Officer.

IDENTIFICATION CARDS: Desirable for entrance to port from shore leave.

CONSULS: Following countries are represented at Bridgetown:

Austria	Germany	Norway
Belgium	Great Britain	Sweden
Dominican Rep.	Mexico	U.S.A.
Finland	Netherlands	Venezuela
France		

REPAIRS: Minor repairs can be carried out by Central Foundry Ltd.
DRY DOCK: One small dry dock length 240 ft., breadth 46 ft., depth 13 ft. Lifting capacity 930 tons displacement.
REPATRIATION: Facilities for crew changes available.
AIRPORT: Served by regular lines. Distance from harbour about 13 miles. Island is served by flights from Europe and from N. America.
TIME: GMT Minus 4 hours (permanent). No alteration in clocks during the year.
TELEPHONES: All berths equipped with telephones.
AUTHORITY: Government of Barbados, Port Department.
AGENT: C. F. Harrison & Co. (Barbados) Ltd., PO Box 304, Barbados, West Indies. Cables "Harrison Barbados".

NOTES

Please also advise Shipping Guides (Services) Ltd.

Belgium

ANTWERP: 51.14 N. 04.23 E. (See Plan)

DOCUMENTS:
Ship's Register.
2 Lists Passengers in Transit.
2 Lists Passengers Disembarking.
2 Personal Effects Lists.
3 Crew Lists indicating full date of birth.
2 Store Lists indicating alcoholic beverages in bottles and size of bottles.
International Health Declaration.
Manifests and usual ship documents.

PILOTAGE: Access to River Scheldt is:

(*a*) Via Wielingen Channel (West) (Wandelaar Station) where Belgian sea pilot cutter is stationed near A.1. Buoy. Cutter has black hull with a white number on bow, yellow funnel with black top, red flag with white letter "P".

(*b*) Via Oostgat Channel (North) (Steenbank Station) where Dutch sea pilot cutter is lying near the Middelsteen – bank buoy.

The pilot cutters of both cruising stations can be called by the signals of the international code. They can also be contacted on VHF Channel 6.

ETA: Pilot cutter Wielingen or pilot cutter Oostgat should be given at least 4 hours notice before arrival at the pilot cutter, respectively via Ostend Radio (OST) to "Pilotage Ostend" or via Scheveningen Radio (PCH) to "Pilotage Flushing".

In case pilot service is suspended because of weather conditions, Flushing Pilot Station can be contacted on VHF Channel 14. At Flushing, the sea Pilot disembarks and the river Pilot boards the vessel and pilots her to the riverside berths or to the locks. For vessels bound for a berth in the docks, the dock Pilot takes over in the lock until the vessel is moored in berth.

DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg".

ANCHORAGE: There is sufficient anchorage for deeply loaded vessels at all times around the A.1 buoy, and for smaller vessels around the MSB buoy. There are unlimited possibilities for anchoring at Flushing roads. Anchorage on the river is limited.

RESTRICTIONS: No restrictions on night entry. Tankers larger than 2,000 g.r.t. destined for berths on the river upwards of Baudouin-Van Cauwelaert-locks are not allowed to transit during hours of darkness.

LOCKS: Royers Lock, length 590 ft., width 72 ft. 2 in., depth at high tide 36 ft. 4 in.

Van Cauwelaert Lock, length 885 ft., width 115 ft., depth at high tide 49 ft. 2 in.

Boudewijn Lock, length 1,180 ft., width 147 ft., depth at high tide 50 ft. 10 in.

Zandvliet Lock, length 1,639 ft., width 187 ft., depth at high tide 60 ft. 8 in.

Kattendijk Lock, Length 360 ft., width 81 ft. 4 in., depth 20 ft. 7 in.

Kallo Lock under construction (to be put in operation in 1977) length 480 ft., width 165 ft., depth 52 ft. 6 in.

MAX. SIZE: At high water under normal weather circumstances and depending tidal conditions vessels up to 820 ft. in length may enter on a max. draft of 44 ft. 6 in. (F.W.). Depending on a reduction of the allowed draft, larger vessels up to 900 ft. L.O.A. are accepted and providing a special permit vessels up to maximum 1,000 ft L.O.A. and 145 ft. beam can be admitted under certain conditions. It is however advisable to check in each case what maximum draft will be allowed for a specific vessel.

Vessels with less than 27 ft. draft can enter on all stages of the tide.

HEALTH: No special requirements to obtain free pratique. Vaccination Certificates must be valid. Recent Derat Certificate required. In case of contagious illness aboard, advise Agent.

RADIO: Cable Agents ETA Flushing, max. fresh water draft, and requirements via Ostend Radio-OST or OSU (radio telephone). Radio Antwerp-OSA operates only on medium frequency.

RADAR/VHF: A radar chain established from Hansweert to Kruisschans Roads, but only used to help Pilot determine position. In dense fog, vessels do not normally proceed. Masters can keep close contact day and night on VHF on the following channels: Pilot cutter, Channel 6 (156.30 mHz); Flushing Radio, Channel 14 (156.30 mHz); Zandvliet Radio, Channel 12 and Kruisschans Radio, Channel 12 when in appropriate sector. Harbour Office, Channel 18.

Vessels not equipped with VHF can rent a portable portaphone. The Scheldt information service gives information by VHF within an area extending from the sea to the mouth of the river Rupel, situated upstream of Antwerp. On every full hour plus 5 minutes until that hour plus 10 minutes, vessels should switch to Channel 16 to listen to the traffic list and navigation reports, issued by Antwerp Radio.

On every full hour plus 35 minutes, Flushing Radio (Channel 14) and Kruisschans Radio (Channel 12) transmit information regarding visibility, water level, hindrances, anchorages, etc.

As soon as one of the stations reports a decrease of visibility under 3,000 m., visibility reports are transmitted by Antwerp Radio on every hour plus 48 minutes.

TUGS: Tugs for berthing at a riverside berth or entering the lock are ordered at river Pilot's request according to weather conditions and tide. Generally at Lieftkenshoek for Van Cauwelaert and Baudouin Locks and between Saftingen and N. Ballast Fort for Zandvliet Lock. For super-tankers, tugs may join at Bath. Ship's lines are usually used for towage. If ship asks for tug lines there will be an extra charge per line.

The number of tugs required in the dock area shall be mentioned on the "hailing bill". Eventually, "according to dock Pilot's advice" can be mentioned.

34 tugs available, up to 2,200 h.p.

BERTHING: Deeply loaded vessels normally moor at their berth in the docks 2 hours after high water.

BULK HANDLING FACILITIES: *Container Terminals:* At the Churchill dock 6 terminals belonging to private firms operate in total 8 container cranes with lifting capabilities from 40 to 53 tons and 3 other 38 ton cranes suitable for container handling. 3 other 30 ton gantry cranes at railroad terminal. Full series of straddle carriers, etc.

Grain:

1. Sobelgra Terminal at sixth harbour dock has 5 elevators with capacity of 400 t.p.h. each for unloading and 2 elevators with combined capacity of 900 t.p.h. for loading seagoing vessels. Elevators are combined with conveyor belts for direct transhipment or storage in silo (80,000 tons). Water depth 48 ft. in dock for seagoing vessels, 24 ft. in dock for barges. Quay length 1,200 ft.
   Under construction: additional silos 25,000 tons plus. 2 elevators with capacity of 150 t.p.h.
2. Grain handling plant of S.A. des Magasins a Grains (SAMGA) at Lefebvre dock. Quay length 150 m., draft 29 ft. fresh water, silo 75,000 tons, 4 elevators on quay plus use of floating elevators.
   Under construction: new silo of 45,720 tons and mobile elevator of 600 t.p.h.
3. Smaller installation of De Trouw (silo 10,000 tons) and Van der Stucken (silo 4,000 tons).
4. Sarandi terminal for seeds at Canaldock B1: storage capacity 7,000 tons.

Potash: Plant situated at quays No. 152/160 in the Albert dock, can accommodate vessels up to 35 ft., fresh water draft. Loading rate up to 6,000 tons per day. Storage capacity 200,000 tons.

Ore/coal/phosphate: Stocatra: Bulk handling plant situated at quays No. 232/256 of Hansa Dock. quay length 1,200 m., depth alongside about 45 ft., clearance of grabs above water level 15 m. Up to 48,000 tons of ore can be transhipped in 24 hours, out of 1 vessel.

Equipment: 9 travelling bridges 15 tons.
5 travelling bridges 25 tons.

SGM: Terminal at Canaldock: 2 bridges of 21 tons plus 1 bridge of 25 tons for non-ferrous ores. (See "Developments").

Coal terminal Vloeberghs: 3 cranes 10 tons. Quay length 300 m., Several smaller installations for coal.

Sulphur: Transhipment installations of Duval Sales (Antwerp Tank Cleaning) near Boudewijn lock with covered storage over 100,000 sq. ft.

Soda: Covered storage area of Solvay installations is 65,000 sq. m. (plus new warehouses planned).

Fertilizers: Besides quays of chemical plants such as Bayer and BASF there are specialized terminals for fertilizers mainly at third harbourdock (Manuport) and Canaldock B1 (Manufert) and Ferchimex (the latter used for fertilizer, sulphur, phosphates etc.).

Total covered warehousing space for chemical fertilizers is 38,405 sq. m.

Other specialized installations include:
Refrigerated storage: 318,00 cu. m.
Tank storage capacity: 10.2 million cu. m.

CRANES:

Container cranes	(35/53 t)	12
Quay cranes	(2,5/100 t)	525
Floating cranes	(5/250 t)	24
Mobile cranes	(5/90 t)	175
Loading bridges	(15/25 t)	16
Grain elevators:	on quay	13
	floating	11

TANKERS: *S.I.B.P.* Petroleum installations located at the Marshall Dock and finger pier jetties No. 429-437 near the locks. Depth alongside about 43 ft. Hoses all 12 in. Facilities for ballast discharge.

Esso: Refinery receives crude oil along quays No. 417 to 421 of Hansa Dock and one pier in the Marshall Dock. Depth alongside 45 ft. Hoses 12 in. and 16 in., hydraulic couplings. Slop discharge possible when berth is free. Oils can be received at the rate of 4/5,000 t.p.h.

Albatros: Refinery situated near Zandvliet Lock. Berth No. 1, depth 37 ft., Berth No. 2, depth 42 ft. Ballast discharge possible. Oil is received at the rate of 5/6,000 t.p.h.

R.B.P: Refinery at quays No. 279-285 in the fourth port basin. Depth alongside 37 ft. Oil is received at the rate of 3,500/4,000 t.p.h.

Petrol Pier South, Hemixem: One tanker berth in the river subject to tide. Max. ship's length restricted to 650 ft. Max. draft 32 ft. fresh water. Served by one 16 in. pipe-line. No facilities for slop discharge. Oil is received at the rate of 500/700 t.p.h. Tidal range 5 m. As only one large tanker can be accommodated, other tankers have to wait their turn in Flushing Roads.

A tank-cleaning installation is situated between the Boudewijn Lock and the Bayer Plant.

STEVEDORES: To enable Agents to order gangs, important to obtain ETA Flushing before arrival. Latest time to order gangs, normal day shift 0800-1600 before 0630 hrs. same day. First shift 0600-1400, before 1400 hrs. previous day; second shift 1400-2200 before 1230 hrs. same day; night shift 2200-0600 before 1500 hrs. same day. First shift Monday, from 0600 to 1400 before 1400 hrs. previous Friday. Failure to give exact ETA may result in losing 12 to

24 hours and the cost of gang's idle time. No work performed on Saturday and Sunday unless overtime paid.
MEDICAL: Ample medical attendance in the port. Hospital facilities available.
DENSITY: Fresh water in the docks, slightly brackish in the river.
FRESH WATER: All berths supplied by shore connections. Fresh water available by barge.
FUEL: All grades available. Min. 24 hours advance notice preferred. All grades can also be supplied by barge. Tankers may not refuel by barge concurrent with working cargo or ballast.
FIRE PRECAUTIONS: No floating objects allowed alongside during loading/discharge/ballasting.
DEVELOPMENTS: The navigable channel and estuary are dredged continuously. The latest plans foresee the bypass of the curve at Bath, shortening the distance to the sea by about 10 miles and making port (right bank) accessible for vessels up to 125,000 d.w.t. Now maximum draft of vessels is 45 ft.

At right bank new dock (quay length 4,700 m.) water depth 40 ft. is under construction.

At right bank junction between fifth harbour dock and America dock nearing completion (new lock planned).

At left bank: first lock nearing completion (operational 1977): 1,180 ft. × 165 ft. × 52 ft. 6 in. First canal dock on left bank under construction.

New Scheldt-Rhine link (for 9,000 tons push convoys) has been opened.

Albert canal (Antwerp-Liege) is being modernized for 9,000 ton push convoys.

S.G.M. terminal are installing a new 25 ton capacity belt system, with a telescopic loader and a Rotopel distributor. It will enable the unloading of cargo 49.5 m. from the quay. The terminal is to be dredged to allow vessels of between 80,000 and 120,000 d.w.t. with a 47 ft. draft to berth.
GANGWAY/DECK WATCHMEN: Not compulsory but recommended in general and specially for ships berthed at river quays because of rise and fall of tide.
OPENING/CLOSING HATCHES: Normally opened/closed by crew. Stevedores usually helping lift beams. Tramp vessels according charter party.
SHIP CERTIFICATES:

Registered Tonnage Certificate.

Belgian Tonnage Certificate (issued at first call valid as long as tonnage remains unchanged).

Derat. Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes or 100 cigarillos or 50 cigars or 250 gr. tobacco per man. Spirits 0.25 litres per head.
IDENTIFICATION CARDS: Not required.
CONSULS: The following countries are represented:

Argentina	Guatemala	Norway
Austria	Haiti	Pakistan
Bolivia	Honduras	Panama
Brazil	Iceland	Paraguay
Chile	Indonesia	Peru
Colombia	Ireland	Philippines
Costa Rica	Italy	Poland
Cuba	Japan	Portugal
Denmark	Lebanon	Senegal
Dominican Republic	Liberia	South Africa
Ecuador	Luxembourg	Spain
El Salvador	Madagascar	Sweden
Finland	Mexico	Switzerland
France	Monaco	Turkey
Germany	Morocco	U.S.A.
Great Britain	Nepal	Uruguay
Greece	Netherlands	Venezuela
Greek Maritime Office	Nicaragua	Zaire

REPAIRS: All kinds of repairs possible.
DRY DOCKS: Beliard Murdoch: No. 1 L. 738 ft., B. 109 ft.; No. 2 L. 885 ft., B. 134 ft. Mercantile: 6 docks from L. 480 ft., up to 1,024 ft., B. 60 ft. up to 165 ft. City dry docks: 10 docks from L. 169 ft. up to 685 ft., B. 30 ft. up to 83 ft.
REPATRIATION: All arrangements for crew changes and repatriation can be made.
AIRPORT: Zaventem Airport (distance 50 km.) served by regular airlines. Antwerp airport Deurne (distance 15 km.) only regular service with Amsterdam and London (3 flights per day). Plans to extend.
TIME: During the whole year GMT plus 1 hour.
HOLIDAYS: New Year's Day; Easter Monday; 1st May; Ascension Day; Whit Monday; 21st July; Assumption (15th August); 1st November; 11th November; Christmas Day. Cargo work can be arranged when labour available and at surcharge 100 per cent.
POLICE/AMBULANCE/FIRE: Harbour Police tel. 32.18.40; Alarm and accidents tel. 906; Ambulance tel. 900; Fire tel. 900.
TELEPHONES: At shipyards and oil terminals telephone is placed on board or in the vicinity without extra cost for local calls. Long-distance calls at special request.
AUTHORITY: City of Antwerp Port Control.
AGENTS: Muller-Thomsen, Antwerpen N.V., 9, Ankerrui, Antwerp. Tel. (031) 338920. Telegrams Mineral. Telex 31259.

BRUSSELS: 50.51 N. 04.22 E.

DOCUMENTS: Same as Antwerp and to be handed to Agent at Antwerp roads, where clearance obtained.
PILOTAGE: Notice of ETA Antwerp roads should be given 24 hours beforehand to Antwerp Agent, who will apply for upper Scheldt Pilot. This Pilot takes over at Antwerp roads and brings ship up Rivers Scheldt and Rupel to Wintam lock. Canal Pilot boards Wintam lock. Boatmen service on canal optional, but advisable for ships over 164 ft. length and according weather conditions. Boatmen for possible mooring Wintam lock entrance always available. Wintam equipped with VHF.
ANCHORAGES: Use of anchors strictly regulated on canal and only permitted certain areas in emergency.
ENTRY RESTRICTIONS: Ships proceed upstream from Antwerp to Wintam day and night accordance state of tide, direction of current, length and draft.
MAX. SIZE: Overall length: 344 ft. 06 in.; Extreme breadth: 48 ft. 02 in.; Max. draft: 19 ft.
HEALTH: See "Antwerp".
RADIO: See "Antwerp".
TUGS: Normally tug joins vessel Wintam lock. Ship's lines always used. Although not compulsory, towage advisable in accordance length and draft or weather conditions.
BERTHING: No specific requirements for berthing in canal. Owing dense traffic, ships should moor strongly.

The Brussels' Harbour extends over a length of 12.5 km. between Brussels (Sainctelettesquare) and Grimbergen (Pont-Brule).

The Inner port offers: 14 km. of quays and mooring berths 220,000 sq. m. of wharf areas. 390,000 sq. m. of storage areas. 169,000 sq. m. of warehouses.

Materials quay: Length: 710 m. Number of berths: 15. Draft: 3.5 m. 2 cranes of 2 tons lifting power, owned by the Canal Company.
Barges quay: Length: 710 m. Number of berths: 15. Draft: 3.5 m. Equipment: 1 crane of 2 tons lifting power owned by the Canal Company. 1 private installation for cargo handling.
Shipowners quay: Length: 920 m. Number of berths: 15. Draft: 6.5 m. Equipment: 3 cranes of 2 to 4 tons lifting power owned by the Canal Company. 6 private installations for cargo handling.
Steamers quay: Length: 920 m. Number of berths: 15. Draft: 6.5 m. Equipment: 7 private installations for cargo handling.
Factories quay: Length: 2,000 m. Draft: 6.50 m. (along the quay wall: 3.20 m.)
Leon Monnoyer quay: Length: 1,800 m. Number of berths: 20 Draft: 6.5 m. Equipment: 11 cranes from 3 to 10 tons lifting power, owned by the Canal Company. 9 private installations for cargo handling.
Heembeek quay: Length: 360 m. Number of berths: 4. Draft: 6.5 m. Equipment: 9 private installations for cargo handling.
Industrial Harbour Section: Length: 6,000 m. Number of berths: 60. Draft. 6.5 m. Equipment: 59 private installations for cargo handling, (electric cranes from 1 to 10 tons lifting power, grain elevators, belt conveyors, suction devices.)
Maritime Canal: Length: 20 km. Draft: 6.5 m. Equipment: 26 private installations of cargo handling.
SPECIALISED CARGO HANDLING FACILITIES: Private Cargo handling facilities exist in the whole of the Industrial Maritime Canal for grain, coal, fertilisers, liquid chemicals and L.P.G.
BRIDGES: Ships can reach outer harbour with clearance of 100 ft. and pass under fixed bridges to inner harbour with clearance of 20 ft. Road bridges open on demand. Railway bridges open according timetables, which subject change.
STEVEDORES: Arrangements made by Agents.
VHF: Wintam lock and tug boats equipped with VHF.
MEDICAL: No notice required for medical attendance. Hospital facilities available. In case of accident or emergency call phone number 900. No particular inoculations or certificates required.
TANKERS: Oil usually imported by tank barges. No slop facilities. Max. draft permitted for wine tankers, gas tankers and acid carriers: 19 ft.
DENSITY: Canal is fresh.
FRESH WATER: Fresh potable water delivered from shore in Willebroek lock at average rate of 10 t.p.h. during passage through lock, and in outer harbour at maximum rate of 20 t.p.h. according diameter of hose.
FUEL: All grades available. At least half a day notice should be given.
FIRE PRECAUTIONS: The usual precautions to be taken by tankers and ships handling inflammable or dangerous goods.
DEVELOPMENTS: Complete schedule for modernising canal, including building two larger locks, widening and deepening canal to be worked out over several years. Works of first new lock near present Kapellelock already completed.
GANGWAY/DECK WATCHMEN: Services of shore watchmen optional.
OPENING/CLOSING HATCHES: Carried out by ship's crew.
IDENTIFICATION CARDS: Not needed.
CONSULS:

REPAIRS: No shipyards in Brussels, but in Boom and Temse, not far from Brussels, and Antwerp. Minor deck and engine repairs by small shipyard on canal.
REPATRIATION: Arrangements for repatriation can be made with maritime authorities on Antwerp roads when proceeding Brussels. Consuls in Brussels arrange for crew changes or repatriations (Consulates closed Saturdays, Sundays and Holidays).
AIRPORT: Brussels Airport served by regular airlines. Air terminal situated in centre town, directly connected with Airport by special railway.
TiME: GMT plus 1 hour throughout year.
HOLIDAYS: Official Holidays Belgium: January 1 (New Year), Easter Monday, May 1 (Labour Day), Ascension Day, Whit Monday, July 21 (National Holiday), August 15 (Assumption Day), November 11 (Armistice Day), December 25 (Christmas). Most offices closed on Saturdays.
POLICE/AMBULANCE/FIRE: General call, Ambulance/Fire: 900; Police: 906; Fire: 02/511.55.55.–512.22.22. Police 02/513.28.40.
TELEPHONES: Only placed for warships at one particular berth.
GENERAL: Bus 47 near left bank and street-car 58 near right bank of outer harbour, lead to town centre (10 minutes). General Information Office situated on de Broukeresquare (town centre). Ship stores can be obtained, but no bonded stores.
SHORE LEAVE: Crew members allowed ashore without restriction.
REGULATIONS: At night only main gate of outer harbour on right bank is open.
AUTHORITY: "Societe du Canal et des Installations Maritimes de Bruxelles" (Port of Brussels Authority).
AGENT: See "Antwerp".

GHENT: 51.02 N. 03.44 E. (See Plan)

DOCUMENTS:
2 Crew Lists (Benelux forms).
2 Passenger Lists.
2 Store Lists.
2 Lists personal effects of crew, such as camera, radio, cigars, cigarettes, tobacco, etc.
1 Bill of Health.
1 Belgium Tonnage Certificate.
1 List of Dangerous Cargo.
1 Manifest or Bill of Lading.

PILOTAGE: Cables 24 hours in advance to: "Belgisch Loodswezen, Vlissingen", when coming from the West; "Nederlands Loodswezen, Vlissingen", when coming from the North. Radio VHF Pilot boat West: Channel 6; North: Channel 6; VHF Vlissingen: Channel 14.
Pilot boat positions: West: Wielingen Buoy A.1; North: NSB Buoy.
Anchorages if awaiting Pilot: West: Buoy Scheur No. 2, between A.1 and Akkaert Buoy; North: Schouwendiep, Middeldiep. Schelde: Roads Flushing, Pit of Terneuzen, Everingen, Braeckman and Sloe.
Signal to require Pilot assistance: West, Night: "G", if VHF give destination; Day: "G Flag". North, Night: "G"; Day: "G".
ANCHORAGES: Terneuzen Roads.
RESTRICTIONS: None, navigation day and night, but over 32 ft., tidal entrances.
MAX. SIZE: Length 245 m.; beam 33 m.; draft 12.25 m. (F.W.). Turbine powered ships: Length 235 m.; beam 33 m.; draft 11.75 m.
HEALTH: Medical Officer of Public Health Service "Saniport-Ghent" inspects Bill of Health.
RADIO: Cable Agents ETA, draft, cash required: via Ostende Radio "OST" for vessels coming from West; via Scheveningen Radio "PCH" for vessels coming from North.
TUGS: Meet vessels Terneuzen Roads; ships use own lines.
VHF: VHF port operations Channels 5, 6 and 11. Channel 11: working channel on the ship canal Ghent–Terneuzen. Channel 5: Port Operations Ghent. Channel 6: Intership.
BRIDGES: Three bridges on Ghent/Terneuzen canal, Sluiskil, Sas-van-Gent, and Zelzate bridge. All open day and night, on signals by Pilots.
BERTHING: Berths for largest vessels able to enter the port are at Sifferdok, Texaco Dok, Rodenhuize Dok, and Sidmar Wharf. Other docks available for smaller tonnage, accommodating 6,000 to 8,000 d.w.t.
STEVEDORES: Will be advised by Agents of ETA, and must be ordered, by noon in order commence at 0600 next working day (first shift); by 1600 to commence 0745 following day (normal working day); by 0700 to commence 1400 same day (afternoon shift); by 1000 to start 1330 (for half a working day).
MEDICAL: Agents to be advised by radio or cable if urgent assistance required. Hospitals available. First aid tel. 900.
TANKERS: Berths: Fina, Anglo Belge des Petroles, Rodenhuize, and Texaco. Texaco have pipe-lines for loading and discharging 10 in. but all kinds of fittings available. Slop discharge: Two tanks each 40,000 barrels available; vessels to discharge by own power.

S.G.:

Aeroplane fuel	770	Diesel oil	825
Light gas-oil	840	Fuel	735
Super fuel	745	Half light gas-oil	935
Heavy gas-oil	950		

Two berths at Texaco each with one main and one spare pump for each product. One berth at Rodenhuize. Each capable accommodate 60,000 d.w.t. vessels. Max. draft 12.25 m.
DENSITY: Fresh.
FRESH WATER: Supply by boat. Supply within normal working hours at 85 fr. per cu. m. Supply outside normal working hours at 145 fr. per cu. m., with a supplement ranging from 800 to 3,600 fr. A minimum of 10 cu. m. will always be charged.
FUEL: All grades delivered by barges or trucks. At least 24 hours notice required.
SPECIALISED CARGO HANDLING FACILITIES:
Two roll-on/roll-off berths exist on the right bank of the Sifferdok, one being privately owned by Volvo Europa. The publicly owned roll-on/roll-off berth has a water depth of 12 m.
The installations of Eurosilo situated at the end of the Sifferdok offer facilities for bulk cereals and cattle fodder. Loading and discharging at a rate of 1,000 t.p.h. Storage capacity of the silos, 386,000 tons in 40 cells.
The Compagnie Belge de Manutention (CBM) situated on the left bank of the Sifferdok is specialised in handling heavy goods in bulk, such as pyrites, ores, phosphates, coal, pitch-coal, etc. by transporter bridges of 10 and 15 tons. Also mechanical shovels for the discharge of bulk goods in closed wagons and funnel wagons. Total storage capacity, 2,500,000 tons.
The same commodities are also handled by CBM in the Zuid and Middendok; grab discharge with 10-ton cranes.
Liquid chemicals are currently handled at the Ug. Kuhlmann factory in Rieme on the left bank of the canal, most commonly liquid sulphur and propylene. No berths for L.P.G. carriers exist in Ghent.
Specialised berths where equipment for handling fertilisers is available are No. 27 (Grootdok) and No. 83 (Sifferdok). Cranes for grab discharge, funnels and conveyor-belts.
WATCHMEN: Not compulsory, but available. Price for working days: plus/minus BF 1,500.0 per 12 hours shift.
HATCHES: Opening and closing by crew.
SHIP'S CERTIFICATES: Belgium Tonnage Certificate required.
CUSTOMS ALLOWANCE: Each crew member: 200 cigarettes, or 50 cigars, or 250 gr. tobacco, or 100 cigarillos. Wine practically free: Spirits: one opened bottle each man.
IDENTIFICATION CARDS: Not needed. Seaman's books only.

REPAIRS: Practically all kinds of deck/engine repairs possible.
DRY DOCKING: Only for smaller vessels. There are 2 dry docks managed by the City Corporation.
(1) Length: 130 m.; beam 13 m.; depth 5.25 m.
(2) Length: 76 m.; beam 11 m.; depth 4 m.
REPATRIATION: Adequate facilities.
AIRPORTS: National airport Zaventem near Brussels; 35 miles from Ghent. All world airlines. Ostend Airport (Middelkerke) 45 miles.
TIME: GMT plus 1 hour. Permanent.
HOLIDAYS: New Year's Day; Easter Monday; Labour Day (1st May); Ascension Day; Whit Monday; National Day (21st July); Assumption Day (15th August); All Saints Day (1st November); Armistice Day (11th November); Christmas Day. Cargo can be arranged on these days at special rates.
TELEPHONE: Police help 906; Ambulance 900; Fire Brigade 25.32.41; Water Bailiff 51.00.20; Port Taxi 51.09.88; Port Authorities 51.04.57.
AUTHORITY: City Corporation of Ghent, Port Administration.
AGENT: See "Antwerp".

OSTEND: 51.14 N. 02.55 E. (See Plan)

DOCUMENTS:
2 Crew Lists or Passenger Lists.
4 Cargo Manifests.
2 Copies Bills of Lading.
3 Freight Lists prepared by Agents.
2 Customs Provision Lists prepared by Agents.
General declaration prepared by Agents.
Customs declaration outward bound prepared by Agents.

PILOTAGE: *(a)* from Pilot boat between "S.W. Akkaert" and "A.1" lightbuoys. Black hull, white number forward on both sides of hull, yellow funnel black top. Displays by day at top of mast, red square flag with letter P in white; by night lights prescribed by International Regulations. Contact Pilot boat: Channel 6 VHF. Morse or flag signal: G.8. In low visibility: sound signal G.8 to be made at least 3 seconds after usual fog signal. Pilot boat answers with sound signal H at least 3 seconds after sounding prescribed fog-signal.

Anchorage awaiting Pilot: between S.W. Akkaert, N.E. Akkaert and A.1 lightbuoys. Depths at least 18 m. MLLWS. Advice from Pilot boat VHF Channel 6. If Pilot boat not on station, shipping informed by Ostend Radio in radiotelephonic frequency 2761 kHz (108 m.) announced on 2182 kHz (137 m.) on following hours: 0103–0803–1303–1603 and 2103 GMT.

(b) from Pilot station Ostend. ETA to "Pilot station Ostend" via "Radio Ostend" at least 2 hours before arrival. Harbour Pilot boat will meet as far as 51° 15′ 30″ N. 2° 30′ E. Pilot boat shows by day: red square flag white P; by night: international prescribed lights. Anchorage: 51° 15′ 30″ N. 2° 30′ E. Depths: at least 7 m. MLLWS. Pilot station Ostend operates VHF Channel 9 (only for Pilotage matters).

ENTRY RESTRICTIONS: Any restrictions imposed are shown on mast of signal station at end of Eastern harbour entrance pierhead.

MAX. SIZE: Entrance of lock to Commercial Docks restricted to max. beam 57 ft. 6 in. and draft max. 24 ft. Entrance to lock of Fishing Port restricted to ships with max. beam 50 ft. and max. draft 23 ft. Harbour channel restricted to 30 ft. draft.

HEALTH: Pratique obtained from Belgian Pilot. Any advice on health matters also obtainable from Pilot services.

RADIO: Ostend Radio – OST.

TUGS: Government tug 1250 Pk available, meets outside harbour. Tug lines optional; charge for use of tugs' lines: BRT 250 tons and less: 40 FB per half hour. BRT more than 250 tons: 50 FB per half hour.

BERTHING: According draft. Any specific instructions given by Harbour Pilots or Agents.

BULK HANDLING FACILITIES: Roll-on/roll-off berths in timber dock and on deep water quay with facilities for loading and unloading containers.

STEVEDORES: ETA advices week-days before 0600 hrs. For Sat. or Sunday work advise before 1500 hrs. Fridays. All stevedoring arrangements made by Agents.

MEDICAL: Advance notice to Agents for medical attention 6 hr. before arrival. Hospital services available. Medical information can be obtained on R/T via Ostend Radio.

TANKERS: Only small coastal tankers. Only discharge in Fishing Port. Max. length 285 ft., max. beam 50 ft., max. draft 23 ft., or Ostend-Bruges canal, max. length 312 ft., beam 57 ft., max. draft 21 ft. 16/5 to 16/10; max. 18 ft. 16/10 to 16/5.

FRESH WATER: Available quayside in docks. Rate delivery approx. 15 t.p.h. Cost 32 fr. per ton.

FUEL: All grades.

DEVELOPMENTS: New deep water quay with max. depth 30 ft. LLW, with roll-on/roll-off terminal under construction.

GANGWAY/DECK WATCHMEN: Not necessary. If required, cost approx. 900 frs. per shift of 8 hrs.

OPENING/CLOSING HATCHES: Normally carried out by crew. Can be done by stevedores but will then be charged.

CERTIFICATES: Load line cert. Tonnage cert. Radar and radio certificates.

TOBACCO ALLOWANCE: 200 cigarettes or 100 cigarillos or 50 cigars or 250 gr. tobacco. Fresh supply weekly.

WINE AND SPIRIT ALLOWANCE: 1 litre per man in opened bottles.

CARGO GEAR: No additional requirements.

CONSULS:

Austria	Chile
Guatemala	Great Britain
Germany	Monaco
Portugal	Denmark
Norway	Uruguay
France	Sweden
Finland	

REPAIRS: All types deck and engine repairs.

DRY DOCKS: In Fishing Port 2 slipways available, one 1,000 tons deadweight, the other 500 tons; one of approx. 3,000 tons is planned. One floating dry dock of 5,700 tons in Government repair docks.

REPATRIATION: Through immigration officers and Maritime Police, tel. 71941 and 76788.

AIRPORT: 3 miles from port, served by regular airlines.

TIME: Local time GMT plus 1 hour all year round.

HOLIDAYS: New Year (1 Jan.); Easter Monday (changeable); Labour Day (1 May); Ascension Day (changeable, in May); Whit Monday (changeable); Independence Day (21 July); Our Mary Ascension Day (15 Aug.); All Saints' Day (1 Nov.); Armistice Day (11 Nov.); Christmas Day (25 Dec.). Cargo work can be arranged on those days at sufficient notice.

POLICE/AMBULANCE/FIRE: Police tel. 71111 and 71057; Ambulance tel. 900; Fire tel. 71010 and 71086.

TELEPHONES: No arrangements for placing on board.

SERVICES: Compass adjusting, radio and radar repairs.

AUTHORITY: Harbour Master.

AGENT: Dens Ocean Ostend.

ZEEBRUGGE: 51.20 N. 03.12 E. (See Plan)

DOCUMENTS:

1 List of Dangerous Goods.
2 Crew Lists or Passenger Lists.
4 Cargo Manifests.
2 copies Bills of Lading.
3 Freight Lists prepared by Agents.
2 Customs Provision Lists prepared by Agents.
General Declaration prepared by Agents.
Customs Declaration, outward bound, prepared by Agents.

PILOTAGE: Compulsory except for small coasters. Pilot vessel located at A.1 buoy off Ostend and 14 miles N.W. of Zeebrugge. Black hull, white number forward on both sides of hull, yellow funnel with black top. Displays by day at top of mast, red square flag with letter "P" in white; by night, lights prescribed by international regulations. Pilot can be contacted by VHF, Channel 6, Morse or flag signal.

ANCHORAGE: In the vicinity of A.1 buoy pilot station, approx. position 51° 22′ N. 02° 53′ E. Depths up to 18 m.

RESTRICTIONS: Vessels with a draft of over 25 ft. are dependent on tide for entry.

MAX. SIZE: Length not limited. Max. draft up to 42 ft. depending on tide.

HEALTH: Pratique is normally given at pilot station provided health situation satisfactory. Any advice on health matters also obtainable from pilot service.

RADIO: Ostend Radio used for all messages. VHF Channel 9 used for Pilot. VHF Channel 8 used for tugs.

TUGS: Four permanent powerful tugs available. Normally join vessel at harbour entrance, ship's lines used.

BERTHING FACILITIES: Zeebrugge mole, for coal and other dry cargo, depth alongside 34 ft. low water.

Texaco Zeebrugge Marine Terminal: Two tanker berths, depth alongside 42 ft. low water. No slop disposal facilities. Container Quay, depth alongside 43 ft.

DENSITY: 1025.

FRESH WATER: Available from the berths, rate 30 t.p.h.

FUEL: All grades available. Can be supplied ex-wharf or by barge provided advance notice given.

BULK HANDLING FACILITIES: Container Quay, depth 43 ft. LW.

STEVEDORES: 24 hours notice required to arrange gangs.

MEDICAL: Advance notice advisable for medical attention. Doctor and hospital facilities always available. Vaccinations can be arranged.

DEVELOPMENTS: Work commenced 1972 on new sea lock to handle ships up to 125,000 d.w.t. Work expected completed within 8 years. The lock will be 500 m. long, 58 m. wide and will have a max. depth of 18 m. LW.

GANGWAY/WATCHMEN: Advisable for gangway, 2 for moorings.

OPENING/CLOSING HATCHES: Normally by crew.

CERTIFICATES: Registry, tonnage and usual certificates.

CUSTOMS ALLOWANCES: Daily normal use.

CARGO GEAR: Normal requirements. Ten cranes 3 tons up to 16 tons.

IDENTIFICATION CARDS: Normal papers.

CONSULS: None.

REPAIRS: Repairs afloat by local workshop.

REPATRIATION: All facilities.

AIRPORTS: Ostend, Brussels, Antwerp.

TIME: GMT plus 1 hour.

HOLIDAYS: Work possible any day.

POLICE/AMBULANCE/FIRE: Telephone 900.

TELEPHONES: Only shore telephones.

AGENTS: See "Antwerp".

NOTES

Please also advise Shipping Guides (Services) Ltd.

Belize

BELIZE: 17.29 N. 88.11 W.

PORT LIMITS: Usually upon arrival at English Caye Pilot Station for vessels arriving from North and East and at anchorage in Belize Harbour for vessels arriving from South inside the reef.

DOCUMENTS:

Crew Lists – 5 copies for local use plus 10 Spanish copies for Consular Clearance.

Passenger Lists – 5 copies for local use plus 10 Spanish copies for Consular Clearance.

Stores List – 3 copies for local use plus 10 Spanish copies for Consular Clearance.

Manifests – 8 copies.

Customs Documents – Clearance for last port and crew declaration.

Health Documents – International Declaration of Health plus one copy crew vaccination list.

Ship's Papers and Certificates should be available on request.

PILOTAGE: A pilot is always on station at English Caye. They are kept informed of ships' movements by the respective Agents; for vessels with no appointed Agent, contact can sometimes be made with the pilot station on 2182, failing this Belize Customs control keep a constant watch on 2750. Vessels consigned to United Brands can make contact on 2182 HF or Channel 16 VHF. Various small boats are used by and are owned by individual Pilots. .

ANCHORAGES: Depths in harbour anchorage area vary due to a natural slope; for example, a vessel drawing 14 ft. can anchor within 0.25 mile; 16 ft. 0.5 mile; 20 ft. 1 mile and so on Southward. Masters should refer to Pilot for this information.

RESTRICTIONS: The Pilots do not consider the Eastern Channel lights sufficiently efficient for night-time transit and it has therefore become established that no night arrivals and departures are made. Recently, however, large modern freighters have insisted on making night arrivals using radar with no apparent difficulty.

MAX. SIZE: With no berths, size and length, within reason is not a problem. Tankers bringing oil to the Esso storage depot secure to buoys fore and aft. Max. draft 19 ft. 6 in.

PRATIQUE: Granted by Customs after boarding in harbour.

RADIO: Most ships' Agents man their own radio stations and usually stand-by on 2738 HF. Customs stand-by on 2750. United Brands-Belize stand-by on 2182 but in addition has frequencies 1045, 2190, 1400, 2638, 2670, 2738 and 2750 HF, and stand-by on Channel 16 VHF with alternative at Channel 6.

TUGS: Tugs are not normally necessary but small ones are available.

STEVEDORES: Gangs usually require 2 hours notice during normal working hours. Work rates average between 3 and 10 tons per gang hour and cost: average between U.S. $4.00 and U.S. $7.00 per revenue ton depending on type of cargo.

MEDICAL: Hospital facilities are available. Smallpox vaccinations required.

TANKERS: Undersea pipe-line 8 in. in diameter.

Hand-pump discharging rate 250 to 300 g.p.m., also gravity flow. Normal discharge rate 2,000 barrels per hour.

DENSITY: Density varies with outflow from rivers during wet season (July-December).

FRESH WATER: Very scarce and expensive. Approx. 4 U.S. cents per gallon.

FUEL: Light diesel oil 45/48 available subject to Government Approval. Can be at buoys with 8 in. dia. pipe (reductions to 4 in. available or by barge).

FIRE PRECAUTIONS: None.

CONSULS:

United States	Lebanon	Norway
West Germany	Nicaragua	Sweden
Guatemala	Holland	Denmark
Mexico	France	El Salvador
Honduras	Belgium	

REPAIRS: Only small minor repairs possible.

SURVEYORS: Lloyds and A.B.S.

GANGWAY/DECK WATCHMEN: Not required.

HATCHES: Stevedores open and close hatches except McGregor type.

CUSTOMS ALLOWANCES: 200 cigarettes plus 1 bottle spirits (0.20).

CARGO GEAR: Ship's gear; no heavy lift cranes available.

REPATRIATION: Possible regular air services to and from Miami, New Orleans, Kingston, Jamaica and neighbouring Republics.

AIRPORT: Belize International Airport 10 miles from Belize City.

TIME: Normally 6 hours behind GMT.

HOLIDAYS: Public Holidays: New Year's Day*; Baron Bliss Day (9th March); Good Friday; Holy Saturday; Easter Monday*; Queen's Birthday (22nd April); Labour Day* (1st May); Commonwealth Day (24th May); National Day* (10th September); Prince Charles' Birthday (14th November); Christmas Day* (25th December); Boxing Day* (26th December).

*No work whatsoever, all other days subject to overtime rates.

POLICE/AMBULANCE/FIRE: All emergencies dial 90.

SHORE LEAVE: Possible.

IDENTIFICATION CARDS: Seaman's book sufficient.

REGULATIONS: None.

DELAYS: Discharge and loading operations occasionally delayed by weather (rain) and sometimes by shortage of equipment (barges, etc.).

DEVELOPMENTS: None in foreseeable future.

GENERAL: Starboard anchor usually used to make lee for operations on portside. It is necessary for vessels to provide toilet facilities for stevedores. Feeding of Supervisors and Customs Officials is normal.

AUTHORITY: No Port Authority.

AGENT: United Brand Company, PO Box 281, 14 Fort St., Belize City, Belize, C.A. Tel. 2100. Cables "Unibranco Belize". Radio call sign: United Brands, Belize.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Benin, People's Republic of

COTONOU: 06.20 N. 02.32 E.

PORT LIMITS: The area contained within an arc of a circle of 1 mile radius centred on the red light at the West Jetty.
DOCUMENTS: Once berthed the ship must be able to produce to the port authorities:
6 copies Crew List.
4 copies List of Ports of Call.
6 copies Passenger List, and passengers in transit.
3 Customs Declarations (personal effects list).
2 Maritime Declarations of Health.
3 Lists Provisions and Stores, including foodstuffs.
10 copies Manifest.
1 Bill of Lading.
1 Declaration of Arms and Ammunition.
3 Lists of Dangerous Cargo (unloading or in transit).
Also international documents of ownership and safety.
PILOTAGE/APPROACHES: Vessels must advise ETA to Port Authority "Dirport Cotonou" 24 hours prior arrival weekdays, and before midday Saturday for Sundays and before midday on day preceding holidays. Cable address Pilot station "Commandant du Port, Cotonou". On approach to port vessels may also call Pilot station on 2182 kc/s or VHF Channel 16. Permanent radio watch kept by port Coast-Guard Station. Pilot services permanent and operate night and day, Sundays and holidays, except for nights of 24th and 31st December from 1800–0600 hrs. Ships drawing more than 30 ft. must enter on high tide. On arrival in approaches, ships coming from West or South must steer a Northerly course in direction of lighthouse, and take Pilot about half a mile from fairway. If arriving from East, vessels should take Westerly course in direction of fairway and take Pilot about half a mile from fairway. Pilot boat is small cutter with black hull and white superstructure, by day carries flag "H" and by night carries statutory lights for pilot boats. Piloting obligatory for ships over 100 net tons.
ANCHORAGES: In cases of bad weather or of waiting for Pilot, ship must anchor approx. 1 mile to South of lighthouse. Sound anchorage with sand bottom and depth 14 m. Forbidden to anchor within radius of 700 m. from red light of West Jetty.
RESTRICTIONS: No restrictions on hours of entry or exit.
MAX. SIZE: Length 230 m. and draft 31 ft.
HEALTH: Free Pratique generally given by Agent.
RADIO: Advisable give Agent 72 hours notice of ETA. Thereafter re-confirm 36 hours prior arrival.
RADAR/VHF: No port radar service. VHF Channel 16. R/T 2182 kc/s.
TUGS: Tug assistance performed by Port Authority of Cotonou and compulsory for every vessel over 500 g.r.t., mooring, unmooring, at berth or shifting. Extra charge for using tug's lines.
BERTHING: Berthing quay 620 m. long which will accept alongside a minimum of 4 ships working together. Harbour dredged up to 9 m. under zero of chart and will permit almost all sizes of ships to work safely. Railway line runs 4 m. side of quay, under ship tackles, and used only for heavy lifts. Berthing priority only given cargo ships and tankers which have specially reserved berths. Other ships berth dependent on berths available and in order of arrival. As well as two tanker berths there is loading berth for bulk palm-oil, one waiting berth at harbour entrance, and 4 quays with warehouses for import/export traffic.
STEVEDORES: Ship must advise Agent in advance of number stevedore teams required, and specify number of hours work required. This must be done 24 hours in advance on weekdays, and before midday Saturday for Sundays, and before midday on day preceding holidays. Loading and unloading rate: Working days – 600 tons for bagged cargo. 400 tons for other cargo. Sundays and holidays, half above rates. Days counted as 24 hours starting from first break following berthing. For ships having to handle smaller quantities, assessment of time calculated in multiples of 300 tons for bagged cargo and 200 tons for other cargo, per 12 hours. Loading and unloading operations can be carried out on Sundays and public holidays if Ship's Master wishes, with exception of Labour Day (May 1st) and Independence Day (August 1st).
MEDICAL: Well-equipped modern hospital in Cotonou – smallpox vaccinations required.
TANKERS: 2 tanker quays for ships of 230 m. length and 31 ft. draft. Unloading carried out by 100 mm. pipe-line. Loading of petroleum products carried out by pumping (80m³/h) or by gravity (50m³/h). Products are aviation spirit 100/130, "Super" petrol, low-grade petrol, Kero Avtur, and gas oil.
FRESH WATER: Supplies available at all berths on quay by pipe-line of 100 mm. with reduction of 70 mm. (discharging 25 t.p.h.).
FUEL: Fuel oil of 1,500 seconds viscosity available at Berth No. 1 and at the Fishing Quay. Rate 50 to 80 cu/m. p.h.
FIRE PRECAUTIONS: Port has following safety equipment: 1 tug equipped with fire hose of 50m³/h. 2 motor pumps of 30m³/h. 1 draining pump of 150m³/h. In addition special security watches are kept on dangerous merchandise in classes 1a, 1b, 1c, 1d and 111c. Normal watch up to 5 tons, double watch from 5 tons to 16 tons. Motor pump standing by from 16–50 tons. Tug standing by for quantities above 40 tons for inflammable liquids (flashpoint less than 55° C) and above 50 tons for other dangerous cargo.
WATCHMEN: (See "Fire Precautions".) Recommended that a watchman be on board. Can be arranged by Agents.
OPENING/CLOSING HATCHES: Carried out by stevedores
CUSTOMS ALLOWANCES: 200 cigarettes and 3 opened bottles of spirits for each Crew member.
REPAIRS: Workshops for small repairs. No tank-cleaning facilities.
DRY DOCKS: Only hauling gear of 250 tons for careening small ships and trawlers.
CONSULS:
West German Embassy 31-2967
Chinese Popular Embassy 31-4424
U.S.A. Embassy 31-2650
French Embassy 31-2224
French Consulate 31-2638

Bermuda

HAMILTON, (incl. Freeport): 32.17 N. 64.47 W.

DOCUMENTS:
Ship's Register.
Derat. Certificate.
Clearance previous Port.
4 Crew Lists.
4 Passenger Lists.
2 Provision Lists.
2 Crew Personal Effects Lists, i.e. cameras, binoculars, cigarettes, etc.
5 copies Cargo Manifest if discharging.

PILOTAGE: Pilot ordered by Agent on receipt of vessel's ETA. Pilot boards vessel approximately 2 miles East of Island with St. David's Lighthouse bearing 240° True. Boats black hull varnished superstructure.

If vessel's ETA alters, Bermuda Harbour Radio which in direct contact with Pilot station can be contacted by VHF Channels 10, 12, 16, 26. Pilotage is confined to daylight hours only with exception of vessels calling for medical aid – some of which handled off-shore.

ANCHORAGES: Grassy Bay and Great Sound. These anchorages are used mainly by passenger liners as they are close to Hamilton Harbour and are protected from heavy weather. Also used by large vessels carrying out extensive repairs.

RESTRICTIONS: Restricted by draft of 26 ft. Daylight piloting only.

MAX. SIZE: Largest ship to enter to date, length 690 ft., draft 26 ft.

HEALTH: Pratique granted on 24-hour basis and can be obtained by wireless by sending message via VRT to "Health Bermuda" requesting free pratique be granted. If any suspected disease or fever on board advise "Health" as well as Agent.

RADIO: Commercial radio station operated by Cable & Wireless Ltd., call letters VRT Bermuda. Bermuda Harbour Radio, controls channel traffic, call sign ZBM Bermuda.

VHF: Operated by Bermuda Harbour Radio. Contact on Channels 10, 12, 16, and 26.

TUGS: Tugs normally join vessel in harbour if requested. Tugs not compulsory and ordered depending on the size of the vessel and weather conditions. Tug's lines used during normal tug operations.

BERTHING: Docks and tugs are agreed upon between Agent and Pilot prior ship's arrival.

STEVEDORES: Ordered by Agent after receipt of ETA. Average discharge general cargo 10 t.p.h.

MEDICAL: No advance notice required for medical attention if other than critical cases. First-class hospital facilities available. Vaccination certificates required for all seamen.

TANKERS: Shell bunkering Berth, Freeport, Ireland Island. Discharge lines 8 in. and 10 in. No slop discharge facilities.

DENSITY: 1025.

FRESH WATER: Delivered by barge. Order prior arrival to avoid delay.

FUEL: Grades available: Bunker "C" fuel oil, viscosity 100 SSF at 122° F. Diesel oil. Viscosity 3616 at 100° F.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Usually carried out by stevedores.

TOBACCO/WINE ALLOWANCE: Custom allows about one carton cigarettes and limited amount of spirits per man.

IDENTIFICATION CARDS: None required.

CONSULS:

Belgium	Mexico
Chile	Netherlands
Colombia	Norway
Denmark	Portugal
France	Sweden
Germany (Federal Republic)	United States

REPAIRS: All types minor deck and engine repairs can be carried out. Also major temporary repairs.

DRY DOCKS: Only yacht slipways available.

REPATRIATION: First-class facilities available for repatriation and crew changes.

AIRPORT: Distance from airport 10 miles. Connections to all parts of world. Average 15/20 flights per day.

TIME: Local time GMT minus 4. Permanent BST in 1974.

HOLIDAYS: New Year's Day; Good Friday; Commonwealth Day (May 24th); Queen's Birthday (celebrated annually in June); Cup Match (Thursday and Friday before first Monday in August); Remembrance Day (November 11th); Christmas Day, Boxing Day (December 26th).

POLICE/AMBULANCE/FIRE: Police 2-2222; Ambulance 2-2000; Fire 00.

TELEPHONES: Can be placed on board vessel when alongside.

GENERAL: Port of Freeport, Ireland Island, situated in the Port of Hamilton at the old British Dockyard is used mainly by the Royal Navy and Shell Bunkering.

SHIPMASTERS REPORT:

Approaches: Approach was made at night from Southward. Gibbs Hill Light sighted at 29 miles. First radar echo was made at 34 miles. St. David's Lt. Ho. Occ. 5 sec. can be easily confused with St. David's House Lt., Gp Fl 2 and they are hard to pick out against background lights. Mills Breaker and Kitchen Shoal Buoys are both good lights and are conspicuous on the radar. Lobster Pots marked by unlit buoys can be troublesome.

Pilotage: There are ten Pilots who operate on a rotation basis. Least depth is in the Dundonald Channel and Two Rocks Passage approaching Hamilton. Passenger Vessels over 26 ft. anchor in Grassy Bay just North of the Dundonald Channel. Official max. draft is 26 ft. although I was told by the Harbour Master that they will take ships up to 26 ft. 06 ins.

Berthing: Vessel berths starboard side to, swinging on anchor with tug assistance. During a long stay vessels often have to shift up and down the wharf to make room for other ships making short calls. At one time the bow was overhanging the end of the quay by 100 ft. but even in this position ship can be well secured.

Cargo Operations: Labour force consists of around 40 men which can just make up two freezer gangs. When a container ship arrives she takes priority and one gang is lost. At weekends a few additional men are available from other jobs within the stevedoring firm and a third general gang can be made up. Stevedore stressed that cargo be restricted to two hatches when possible especially in ships with beams and hatches. Locker stow should be avoided when possible. Average on freezer was approximately 9 t.p.h.

Hours of work are:— 0800-1200, 1300-1700, 1800-2100. This applies every day except Saturday when work finishes at 1700 hrs. General cargo gangs can be worked until 2200 hrs. but all freezer gangs finish at 2100 hrs. to allow time for Receivers to clear the wharf of cargo by 2200 hrs.

Fresh Water: Not readily available in large quantities due to a water shortage. Price when available is 6 dollars a ton. We managed without buying any in spite of a prolonged stay.

Currency: Stated in Pilots book to be pounds. It is in fact Bermuda Dollars which are equivalent to American dollars and readily interchangeable.

Stores: Very expensive and would suggest only plan on buying essentials from supermarket in small quantities.

Discharge Averages:

No. 1 Palletised Milk Powder	20 t.p.h.
No. 2 Cartons of Apples (Locker)	6.2 ,,
No. 3 UTD Centre Meat & Butter	10.8 ,,
No. 3 MTD Centre Meat	8.8 ,,
No. 4 UTD Centre Meat & Butter	8.0 ,,
No. 4 UTD P Meat	11.0 ,,
No. 4 UTD S Cartons Cheese	7.6 ,,
No. 5 UTD Carton Meat (Full Deck)	8.5 ,,

NOTES

Please also advise Shipping Guides (Services) Ltd.

Bolivia

GENERAL: Bolivia is completely land locked with no ocean ports.

The country has special port facilities or 'in transit zones' in Brazil at Belem and Santos; in Argentina at Rosario; and to the Pacific at Matorani, (and shortly Ilo) in Peru also Arica and Antofagusta in Chile.

In 1975 Chile offered a corridor 5 to 7 miles wide at the Pacific to Bolivia, and negotiations are at present being conducted on this subject. Whether this zone will include the port Arica is not yet known.

(1) A newly installed in-transit zone at Rosario (Argentina) is expected to divert present Bolivian imports and exports from Buenos Aires. The new area covers sheds 23/30, an area of over 5 hectares, and 945 m. of wharf. The present free zone, in the centre of the port zone, will eventually become the northern sector of the port, with good railway connections to Bolivia. All Government Cargo is handled by the Bolivian Customs Office from Ocean Port, but all private cargo is looked after by forwarding agents on behalf of importers, whose job it is to arrange for despatch, pay port handling charges, rail freight, etc.

(2) There are also special port facilities at Matarani and Ilo in Peru, and a new raod is being built which will bring La Paz to within one days road travel from the sea.

(3) The country borders to the East with the Paraguay River on a brief stretch near Corumba, on the Caceres Lagoon by Puerto Suarez, and where a new port – Sucre is to be opened shortly in connection with the movement of Iron Ore and Manganese down river. The river will normally permit vessels up to 11 or 12 ft. draft, occasionally falling to 5 to 6 ft. in the dry season (October/November).

DOCUMENTS: In each port there are Bolivian Customs Authorities under the control of the Bolivian Consul. At none of the 'in-transit ports' are any special Consular despatches or documents needed by vessels, other than those required by the particular country. It is only necessary to present separate manifests for cargo in transit to Bolivia.

However commercial invoices, and goods documentation does require consular intervention.

Shippers must vise Bills of Lading and Consular Invoices and also attach suppliers invoices, certificates of origin and insurance policy. Most imports are handled under letters of credit. Documents must be made out in Spanish. At Ocean Port, forwarding agents replace the Bill of Lading with a railway bill or trucking bill. There is no exchange control or shortage of foreign exchange in Bolivia.

Claims are finally set up (shortages, condition, etc.) in Bolivia, and hook tallies, local port receipt to Bolivian customs, railway or truck receipts, etc., all form part of the settlement.

CONTAINERS: It is possible to despatch sealed containers right through to Customs in Bolivia for opening there.

WEIGHTS AND MEASURES: All weights and measures are to be expressed in the metric system, except for lumber, in board feet.

FLAG: Three equal horizontal stripes of red, yellow and green.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Brazil

GENERAL: All ports

DOCUMENTS:
The following documents are the maximum number required on arrival, including copies for agents.

	Required by Port Doctor	Customs	Police	Totals
Crew List	3	3	4	10/12
Crew Personal effects list		3		1/3
Stores (engine/deck /cabin/bonded)		4		1/4
Passengers landing in transit or negative	3	6	3	12
Manifest for port (or negative)			3 (arms	6/9
Manifest in transit (every port)			munitions only)	
Vaccination certificates (one each person)	1			1
Maritime Health Cert. (WHO form)	2			2
Deratization Cert. or exemption	1			1
Accompanied baggage, individual		3		3
Unaccompanied baggage manifest		3		3
General statement	2	2	4	4

The clearance from the previous Brazilian port of call must also be presented, and a detail of discrepancies in cargo (lost overboard, etc.) be available.

All the usual ship's paper's must be at hand:— Registration, Tonnage, Radio Certificate, Safety Certificate, etc. The due dates of all these certificates are specified in the arrival statement, to be signed by the Master.

Consular dues are now collected in Brazil, therefore no Consular intervention is required on ship's papers.

Care must be taken that ports as manifested check against the arrival certificate, and also that the list of ports coincide with those declared on the health certificate. Manifests must show:—

(1) Flag and name of vessel
(2) Detailed description of goods, including freights in U.S. Dollars
(3) Owners and Charterers name
(4) Date of entry and sailing must be shown on the first page.

FLAG: The Brazilian flag is a green ground with a yellow lozenge enclosing a blue sphere, with 21 white stars of which 5 form the Southern Cross and the motto 'Ordern & Progresso'.

This must be flown from the foremast when in Brazilian Ports, from 0800 hrs. to sunset daily.

The customs flag – blue with a white star – to be flown 24 hours a day after clearance is granted.

FREE PRATIQUE: Vessels must report E.T.A. via Agent 24 hours in advance, confirming 12 hours prior to arrival. The message must report that sanitary conditions are satisfactory or otherwise and an indication of the number of passengers intending to disembark and/or in transit.

On arrival the Port Health Authority will board, and further to the documents previously mentioned will require to sight vaccination certificates.

The reception committee will only board by accommodation ladder, or gangway if the vessel is alongside, and must be met at the head of the ladder by a Ship's Officer.

PILOTAGE: This is compulsory for all vessels over 200 g.r.t. There are specific boarding points shown on the charts for each port and vessels must wait there, flying flag G, either at anchor or under way. A safe rope ladder must be provided and must be properly illuminated. Pilots should be ordered at least 2 hours prior to arrival by ship's Agent, or in the event of outlying ports 24 or 48 hours ahead. (See each port).

STEVEDORES: Longshoremen are provided by the dock companies and paid for from the Port Charges. Stevedoring can be carried out either by ship's Agents or by contract. In all cases the number of men per gang and their salaries are fixed by Sunamen (Merchant Shipping Superintendancy in the Ministry of Transport).

The vessel is legally the employer of the labour, and as a result the vessel is responsible for any damage to the cargo, ship or any third party, by the stevedores.

GENERAL BERTHING INFORMATION:

A berthing priority in Brazilian Ports is given as follows:–

(1) Warships, Brazilian or Foreign.
(2) Regular Passenger Liners for whom immediate berthing facilities are available. if requested at least 24 hours in advance.
(3) Cargo vessels, for whom there are special installations, are given preferential berthing rights.
(4) Vessels with perishable cargoes are given priority berthing.
(5) Vessels that can load and discharge simultaneously can obtain preference over others.

As soon as cargo operations finish, all vessels must leave their berth, or be removed by the Port Authority.

FUEL: A monopoly on supply is held by PETROBRAS, and owners requirements must be made well in advance to the Petrobras offices in New York, London or Rio de Janeiro. Supplies are not plentiful, and in certain ports only certain grades are available.

POLLUTION: Very strict penalties are enforced, and fines are the same, however little pollution is caused. No dumping of any oil is permitted within 50 miles of the coast.

Garbage: It is forbidden to dump any garbage in any harbour or river In some ports garbage collection can be arranged.

CREW: Crew members wishing to join a vessel, must carry a letter of instruction for the ship's agent. They must be signed on within 48 hours of arrival.

For crew members joining from abroad it is advisable to be in possession of a two year multiple entry visa, as only U.S. consulates in Rio de Janeiro, Recife and Brasilia are authorised to issue visas.

Seamen's Missions:

Scandinavian Seaman's Mission
Flying Angel Club
German Seaman's Home

The above Missions are in Santos, and can arrange football matches, tours, etc. There are no Missions in other ports.

GENERAL: Operators and Masters of Liberian flag vessels should consult Agents well in advance respecting requirements for endorsement of seamen's books or passports.

Shipmaster's Report: Identification Cards.

The Regulations specified in the Identification Card Sections may still be in force, but they do not appear to be operated. Identification cards were not required by ship's personnel during our visit to Brazil.

ANGRA DOS REIS: 23.01 S. 44.19 W.

DOCUMENTS: See "General" before first port.

PILOTAGE: When requested by the Agents, a pilot launch meets incoming ships off the automatic lighthouses of Itacuatiba and the Lage Branca, depending on whether the ships approach from the East or West, respectively. Pilotage compulsory, 2 hours notice required. State ETA and position Pilot will be embarked.

ANCHORAGES: In the Bay of Ilha Grande; approximately midway between the ports of Rio de Janeiro and Santos; offering excellent anchorages, amongst which may be mentioned: Enseada das Estrelas, Enseada do Abraao, Enseada das Palmas, Enseada Sitio Forte, and Enseada de Aracatiba.

The inspection area of the port health, federal receipt and maritime police authorities is covered by a radius of 300 m. around the point of co-ordinates 23° 00′ 42″ S., 44° 18′ 41″ W.

Anchorage for vessels of more than 31 ft. draft and 10,000 g.r.t. 23° 01′ 54″ S., 44° 19′ 18″ W.

Anchorages for vessels of less than 31 ft. or 10,000 g.r.t. 23° 00′ 48″ S., 44° 18′ 30″ W.

Anchoring prohibited in the approach channel and manoeuvring basin.

RESTRICTIONS: The Bay of Ilha Grande possesses two entrances, from the East and the West, permitting immediate access to the Port of Angra dos Reis from the direction of Rio de Janeiro or the Port of Santos, without any change of course. Both access Channels are adequately marked, enabling ships of up to 14 m. draft to navigate in complete safety as far as the port basin about one mile from the wharf, where they may lie at anchor and take on cargo from tenders tied up alongside There is another basin with a mud bottom even nearer the wharf, permitting anchorage and docking manoeuvres for ships of up to 10 m. draft.

HEALTH: Port doctor visits all ships on arrival and requires Maritime Declaration of Health, Deratisation Certificate, 2 Crew Lists. Vessels from another Brazilian port automatically receive free pratique and should not fly Quarantine Flag. If suspected disease or fever on board it is advisable to cable Agent before arrival.

TUGS: Available: 4 tugs of up to 600 h.p.

BERTHING: A wharf 1,300 ft. in length, with 1,050 ft. available for tying-up. The wharf is being extended 600 ft. and will be dredged the entire length of the quay so as to receive ships of up to 10 m. draft.

CARGO FACILITIES: Two grain suckers each with capacity of 60 t.p.h. Two electric cranes of 6–6.2 tons capacity, one crane of 3.2 tons capacity and three electric cranes of 1.5 tons capacity. Mobile cranes, 1 for 8 tons, 1 for 9 tons, 1 for 45 tons and 1 for 61 tons. Verolme have an 80-ton floating crane available for hire.

Also available for hire are 2 mechanical conveyors, each with 80 t.p.h. capacity.

MEDICAL: All facilities available. If doctor needed on arrival or making emergency call to land sick persons, cable ETA 12 hours before arrival.

FRESH WATER: Available. Vessels can be provided with up to 50 tons. Connection is 4 in. Pressure greater at night.

FUEL: No facilities for supplying large vessels. Small vessels can be supplied with diesel oil.

REPAIRS: Various mechanical workshops for the executiion of shipboard repairs, equipped with lathes, presses, planes, electric and acetylene welding, drills, power-saws and grindstones, etc. The big shipyards of Verolme are situated in the Bay of Jacuecanga, near the port of Angra.

CUSTOMS ALLOWANCES: For each crew member, 2 cartons of cigarettes and one bottle wine or spirits.

WATCHMEN: Gangway watchmen strongly recommended for any vessels working cargo with shore labour on board. Watchmen from shore not necessary for coal, iron ore and oil cargoes.

CONSULS: There are no Consuls in this port. They are situated in Rio de Janeiro.

TIME: The local time is GMT minus 3 hours.

HOLIDAYS: 1st January; 1st May; 29th June; 7th September; 8th December; 25th December; 31st December, also local holidays January 6th, April 3rd and December 8th.

TELEPHONES: Not available.

DEVELOPMENTS: Oil, terminal for vessels of 400,000 tons under construction.

AUTHORITY: Capitania dos Portos em Angra dos Reis.

ARATU: 12.48 S. 38.27 W.

Situated in Aratu Bay ten miles to the North of Salvador.
DOCUMENTS: See "General" before first port.
APPROACHES: Dredged depth of entrance channel 16 m.
BERTHING:
New Bulk Pier: Length 200 m. Width 35 m.
The berth is fitted with endless conveyor belts used both in loading and discharge. On the East side of the jetty there is a travelling tower with grab discharge, capable of discharging at 1,200 t.p.h.
The West side has a loading belt capable of loading at 1,200 t.p.h. Two vessels can be handled simultaneously loading or discharging
Vessels moor to two dolphins. Depth at berth 14 m.
Cement Works Pier: Max. size of vessel 105 m. LOA.
Max. Draft 21 ft. (Vessel lies on mud bottom at L.W.)
Cement in bags loaded using ship's gear.
Dow Chemical Berth: A new berth is to be built on the North Bank to handle cargo for the Chemical works.
Iron Ore Berth: The jetty is L shaped and 1,020 m. long. The depth alongside is 12.8 m. with a tidal range of 1.8 m. A discharge tower on the jetty has a travel of only 30 m. It is therefore necessary to shift along the jetty as each hatch is loaded. Discharge rate approximately 500 t.p.h.
REPAIRS: There is a naval dry dock in Aratu capable of handling vessels up to 45,000 d.w.t. It has dimensions 230 m. by 30 m. wide. Depth 11.5 m. However, the access channel will only allow vessels of up to 10 m. draft, though this is expected to be increased shortly.
FUEL: Available by road tanker from Salvador. Also see "General" before first port.
FRESH WATER: Available at all berths.
MEDICAL: Hospital available.
AIRPORT: Internal flights within Brazil available.
CONSULS: See Salvador.

BELEM: 01.25 S. 48.25 W. (See Plan)

PORT LIMITS: Subject to Charter Party Terms, vessel normally considered an "arrived ship" when at Val-de-Caes anchorage, Icoaraci anchorage, or alongside the quay.
DOCUMENTS: See "General" before first port.
PILOTAGE: Pilot usually ordered through vessel's Belem Agent, ETA at least 72 hours in advance and confirming not less than 24 hours prior to arrival. Vessels can apply direct to Pilot station (on condition that local radio station is operating). Telegraphic address "Praticagem – Salinopolis", and call sign of Salinopolis (or Salinas) radio station is PPL. Pilot boards at a point 7 miles North of Salinas lighthouse; a red motor-launch is used. Launch carries a red flag with a black P; it also has a black P painted on each side and on cabin roof. If pilot boat not in position on arrival of vessel, position 7 miles North of the light is a safe anchorage. Masters who do not not know area should approach Salinas with caution.
ANCHORAGE: Vessels with a draft greater than 26 ft. anchor off Icoaraci, 7 miles from the port where they work cargo.
Vessels that are impounded anchor off Val-de-Caes.
Vessels undergoing repairs anchor off the Naval base dock at Val-de-Caes.
Vessels with a draft of less than 26 ft. anchor at Val-de-Caes. Co-ordinates: 01° 24′ 01″ S., 48° 30′ W., 01° 21′ 03″ S., 48° 29′ 03″ W. and 01° 08′ 09″ S., 48° 28′ 03″ W.
Between Icoaraci and Val-de-Caes, there is a shallow spot at Tapana, which ships should approach with caution, although bottom is soft mud and sand.
BERTHING: The quays are of cement and sand construction on a base of stones, which is, in turn, on a bed of hard clay. The quay height is a max. of +4.50 m. to accommodate the max. tidal rise of up to +3.20 m.
Soundings taken in 1973, for vessels alongside in relation to the hydrographic zero of the port are as follows:

Length of quay (m.)	*Draft (m.)*	*Location*
75	2.5	S. face and N. face of Marechal Hermes Dock
300	3.5 to 4.5	Quay wall – Mosqueiro & Soure Shed and Warehouses 1 and 2.
342	4 to 5	Quay wall – Warehouse 3, Maua Square and Warehouse 4.
385	4.6 to 5.4	Quay wall – Warehouses 5, 6 and 7.
100	7	Quay wall – Warehouse 8
261	8	Quay wall – Warehouses 11 and 12,.
110	8	Quay wall – Ocrim Silo to the end of the Wall.

Quay equipment: 26 electric cranes, 11 cranes on pneumatic tyres, 2 steam cranes, ranging from 2.5 to 25 tons capacity. 2 floating cranes are also available of 100 tons and 20 tons capacity.
CRANES: 20 electric cranes of the locomotive type: 5 of 3 tons, 9 of 3.2 tons, 3 of 5 tons, 2 of 6.3 tons, 1 of 12.5 tons (serving warehouses 1 to 8). 2 fixed steam cranes: 1 of 20 tons and 1 of 25 tons (serving warehouses 11 to 12).
CARGO FACILITIES: Grain storage capacity of 6,387,770 cu. m. One grain sucker with capacity of 30 t.p.h.
TANKERS: At oil terminal of Miramar (Val-de-Caes), vessels of the Shell "H" class (18,000 tons d.w.) may berth or unberth at any state of the tide, subject to draft. Max. depth alongside berth at low water 26 ft., the same as that of approach channel. Mooring at this berth is to buoys inside the line of the "T" jetty.
HEALTH: Maritime Police, Customs and Port Health board vessel on arrival at whichever anchorage is used, or alongside. Pratique granted on the presentation of documents. If port *not* first Brazilian port of call, Port Health Authorities not required, although Police and Customs will still board. After first Brazilian port, Port Health only required in cases of illness or death. The use of quarantine "Q" flag not necessary. Also see "General" before first port.
RADIO: No VHF facilities in the area. Suggested that ship contacts Belem Agent through Barbados Radio, and this is also usual way that vessels are contacted by Belem. An alternative to Barbados Radio is the United States radio station at Chatham, Virginia.
TUGS: Tugs in area are small, underpowered and useless for berthing or unberthing. Brazilian Navy maintains four deep-sea tugs (Corvettas), for use in cases of extreme emergency.
STEVEDORES: Stevedoring gangs for day shifts 0630 and 1230 hrs. and 1630 hrs. for night shift. Loading and discharging rates exceptionally good, particularly if vessel working at anchorages into lighters. Any delays to vessels alongside can usually be put down to the lack of official clearances in case of loading export cargo.
MEDICAL: Notice of required medical assistance should always be given in advance. There are a number of first-aid posts for minor complaints. Vaccination Certificates for smallpox are essential, and, although not required officially, yellow fever vaccinations recommended.
DENSITY: Strong outflow of Amazon and its tributaries is such that water at Salinas is only semi-salt. In the river itself, the water becomes slightly brackish, and half way to Belem, is absolutely fresh.
GENERAL: Tidal action in the Guajara Bay is extensive, with the "Pororoca" phenomenon which comprises the meeting of tidal water with masses of fresh water coming from the Brazilian Equatorial rivers. The tidal wave takes 3 hours 40 minutes to come from the Salinas lighthouse to the South end of the port of Belem, the port establishment being 11 hours 35 minutes. Systematic measurements at times of spring tides show that the average height of water reaches 3.22 m. at high tide and in the quadratures 2.42 m.
During the ebb, the waters coming up the bay of Guajara are predominently picked up by the Western channel current, with great speed, thus explaining the great depths at that point, and also in the Western channel the average ebb and flow speeds are 1.30 and 1.74 m. per second, respectively, and in the East channel they are respectively 1.19 and 2.10 m. per second.
FRESH WATER; Fresh water only obtainable alongside main quay, and not at oil berth. Delivery rate 25 t.p.h. Boiler water may be taken direct from the river at a point named Capim, near the entrance to Marajo Bay.
FUEL: See "General" before first port. Available, but due to Brazilian Custom's laws, as much advance notice as possible should be given in order to obtain correct documentation. A minimum of one weeks' notice recommended.
GANGWAY/DECK WATCHMEN: The employment of gangway watchmen recommended.
HATCHES: Hatches normally opened and closed by stevedores, but if it is raining they are inclined to shelter before closing.
CUSTOMS ALLOWANCES: Custom's Authorities do not normally search ship's crews, and reasonable quantity can remain in the possession of crew members. However, no attempt should be made to take more than a reasonable amount ashore.
IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.
CONSULS:

Belgium	Holland	Republic of Dominica
Bolivia	Italy	Spain
Colombia	Japan	Sweden
Costa Rica	Mexico	United States
Denmark	Norway	Uruguay
France	Peru	Venezuela
Great Britain	Portugal	

REPAIRS: Deck and engine repairs of all types can be carried out by the Brazilian Naval Dockyard, or by repair shops of the Companhia Docas do Para.
DRY DOCKS: At Naval Base, there is a dry dock measuring 730 ft. by 74 ft. with a depth over the sill of 25 ft. There are also several small floating docks, but they are not adequate for sea-going vessels.
REPATRIATION: There are three international flights each week from Belem. Miami 1 flight per week, Wednesday. New York 2 flights per week, Monday, Friday. In additon, daily flights to Rio de Janeiro. Airport of Val-de-Caes is about 4 miles from the city centre.
TIME: Local time GMT minus 3 hours. Summertime (1 Dec.–28 Feb.) GMT minus 2 hours.
HOLIDAYS: New Year's Day (1st January); Carnival (variable); Labour Day (1st May); Corpus Christi (25th May); Independence Day (7th September); All Souls' Day (2nd November); Proclamation of the Republic (15th November); Christmas Day (25th December). Work could be carried out on these days, but costs would be prohibitive.
POLICE/AMBULANCE/FIRE: Maritime Police 234996; Ambulance 222523; Fire Brigade 23–3119.
TELEPHONES: Telephones can be put on board vessels alongside

main quay, but this facility is seldom used, Belem telephones being extremely erratic and unreliable.
AUTHORITY: Captain of the port.
AGENT: Agencias Mundais SA, Avenida Presidente Vargas 119, CP 190, 66000 Belem, Para. Cables: Amsanav Belem. Tel. 23–4013.

CABEDELO: 06.58 S. 34.50 W.

DOCUMENTS: See "General" before first port.
PILOTAGE: Contact Pilot's Headquarters by radio via vessel's Agent located at Joao-Pessoa (24 km. from Cabedelo). As no radio station available at Joao-Pessoa or Cabedelo such messages are usually relayed by Olinda Radio PPA – Fortaleza Radio PPC – Amaralina Radio PPA – or Rio Radio PPR. All messages are delivered by National Telegraph – Telegrafo Nacional. Pilots maintain day and night watch from Cabedelo beach. Pilots' launches painted red with capital "P". Vessels await Pilot 0.75 miles E.N.E. of Piedra Seca Lt.
ANCHORAGE: The inspection area of the Port Health, Federal Receipt and Maritime Police authorities is that covered by a radius of 185 m. around the point of co-ordinates Lat. 06° 58' S. and Long. 34° 58' W.

Anchorage for vessels of more than 10,000 g.r.t. – inner maritime area limited by the circle 185 m. distant around the point of co-ordinates: Lat. 06° 58' S. and Long. 034° 58' 08" W.

Vessels impounded or requiring considerable repairs – vessels of more than 5,000 g.r.t. at the point of co-ordinates: Lat. 06° 58' 10" S., Long. 34° 51' W., in a circle distance 1 mile around this point. Vessels of less than 5,000 g.r.t. in a circle distance 0.5 mile around the point of co-ordinates: Lat. 06° 58' 48" S., Long. 34° 50' 18" W.
RESTRICTIONS: For Masters calling at Cabedelo for first time it is preferable not to enter during darkness.
MAX. SIZE: Max. length 200 m., draft spring tide 23 ft., neap tide 21 ft.
HEALTH: Also see "General" before first port. If Master suspects contagious disease aboard he must report to Agent who will contact Brazilian Health Authorities at Joao-Pessoa.
TUGS: None available.
BERTHING: Safe drafts at bar entering or sailing: spring tide 23 ft., neap tide 21 ft. Berthing takes place in accordance with vessel's draft. Master must always give Agent vessel's draft arriving off Cabedelo. Length of quay, 600 m. depth alongside 5–10 m.
STEVEDORES: Advise Agent ETA at Cabedelo 48 hours prior to arrival to make arrangements with dock and stevedores for discharging or loading.
CRANES: 3 Portal cranes. 2×3 tons, 1×6 tons and 5 cranes of 1.5 tons capacity.
MEDICAL: For urgent cases recommended that vessel call at Recife instead of Cabedelo as Recife has better facilities. If vessel must enter patient will be removed to Joao-Pessoa Hospital as no hospital available at Cabedelo.
TANKERS: Cabedelo not a loading port for petroleum products. Messrs. Esso-Brasileira de Petroleo, have tanks for reception of gasoline and other petroleum products which are carried by Brazilian fleet of Tankers "Fronape – Frota Nacional de Petroleiros. At Cabedelo only berth No. 1 is suitable for discharging petroleum products or to bunker vessels since pipe-line is only connected to berth No. 1. Tankers enter and sail during dark hours from Cabedelo.
DENSITY: Varies from 1020 to 1025 at high water.
FRESH WATER: Supplied by pipe-line alongside quays at rate of 50 cu. m. per hour.
FUEL: Available. Suppliers Messrs. Esso-Brasileira de Petroleo. Pipe-line at berth No. 1 where vessels can bunker alongside. Pipe-line fuel oil, 8 in.; pipe-line diesel, 8 in.
DEVELOPMENTS: The port is being dredged to allow vessels with 33 ft. draft to enter. Also see "General" before first port.
GANGWAY/DECK WATCHMAN: Watchmen available. Also the hours of work agree except that Captains have option to choose suitable times when their services are required.
OPENING/CLOSING HATCHES: By stevedores. Crew assist when stevedores not familiar with modern hatches.
CUSTOMS ALLOWANCES: 1 carton cigarettes per crew member at Customs discretion and 1 bottle of whisky or any other kind of spirit, subject to Customs discretion.
IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.
CONSULS:

Vice-Consulate of the Netherlands	Tel. 4079
Vice-Consulate of France	,, 4588
Vice-Consulate of Portugal	,, 4243

Other consulates at Recife 110 km. from Joao-Pessoa about 2 hours by road.
REPAIRS: Minor repairs only.
DRY DOCKS: None.
REPATRIATION: Repatriation can be arranged via Recife or direct from Joao-Pessoa to Rio de Janeiro. No direct Air Service from Joao-Pessoa available for foreign destinations.
AIRPORT: 9 km. from Joao-Pessoa. Small Airport utilised by National Lines whose planes make regular calls.
TIME: 1 April – 31 Oct. GMT minus 3, Nov. 1 – 31 Mar. GMT minus 2.
HOLIDAYS: For holidays see "Recife". Work is possible during holidays and Sundays provided the Dock Administration and Stevedores are advised in anticipation say 24 hours before commencement. Usually on Good Friday, Christmas day and Independence day work at the Cabedelo dock is not obtainable. Same applies to the third Day of Carnival.
POLICE/AMBULANCE/FIRE: Police (located at Joao-Pessoa) 4848. Cabedelo has a small Police Station but no telephone available. Ambulance (located at Joao-Pessoa) 4065 and 4076 (24 km. from Cabedelo). Fire Brigade (located at Joao-Pessoa) 4212.
TELEPHONES: No facilities for placing telephones on board.
AUTHORITY: Delagacia de Capitania de Porto Cabedelo.
AGENT: Thom & Company Limited, Rua Maciel Pinheiro, No. 2, Joao Pessoa-Paraiba. Cables: Thom-Joao Pessoa. Tel. 5062.

CARMOPOLIS: 11.00 S. 37.04 W. (See Plan)

LOCATION: Terminal Maritimo de Carmopolis, Tecarmo, operated by Petroleo Brasileiro SA, Petrobas, is located in the Atalaia Beach, Lat. 11° 00' 30" S. 37° 04' 00" W. in Aracaju City, capital of the State of Sergipe.
DOCUMENTS: See "General" before first port.
PILOTAGE: All manoeuvres will be undertaken by the vessel's Master, with the help of a Carmopolis Mooring Master, who will board the vessel in the anchorage area and advise the Master on all operations such as mooring, connecting hoses, unmooring, loading, etc. It is important to emphasise that the services of the Mooring Master are afforded without charge and upon the express undertaking and condition that Petrobras shall not be liable for any damage or injury resulting from any advice, assistance or actions given or made by such Mooring Master. In the event it becomes necessary to disregard the Mooring Master's advice, in order to ensure safety of the vessel, the Master must forward a full written report of the circumstances for delivery to the Captain of the Port through the Terminal. It is the responsibility of the Master to notify the Mooring Master of any special conditions or peculiarities such as defective navigation equipment, tackle, gear or lack of necessary equipment which might impose hazards related to handling, mooring and loading the vessel.

Vessel must be moored to the entire satisfaction of the Mooring Master.

Unsatisfactory conditions will be reported to the Superintendent of the Terminal, who is empowered to reject the ship for future calls unless the reported difficulties have been remedied.
APPROACHES: When approaching the terminal, as well as the landmarks (Aracaju Light), there are also three fixed lighted platforms, located in the following positions, and can be visible in clear weather for a distance of 22 miles:

P4: 11° 00.23 S. 36° 56.03 W.
D8: 11° 09.46 S. 37° 03.15 W.
S25: 11° 00.23 S. 36° 51.56 W.

When for the first time approaching, and during night hours, contact can be made with the platforms, which maintain VHF Channel 16, and certain information can be obtained regarding anchorage, berthing time, etc.
ETA: Vessels bound to Aracaju or Tecarmo should transmit directly to "Fronape Rio" (PPA 25) a message informing vessel's name, flag, port of registry, classification, gross and net tonnage, horsepower, speed, number of crew, Owner's and Master's name.
ANCHORAGE: Due to the peculiar conditions of the terminal, mooring should be undertaken at daylight only. For vessels arriving at night, the advisable anchorage is in position: Lat. 11° 03' 00" S. Long. 36° 59' 00" W.

Anchorage may be obtained in a depth from 13 to 15 fathoms East or E.S.E. from the mooring buoys, and at a distance of one mile. The bottom is a good holding ground.

Anchoring is prohibited West and South-west of the terminal due to the existence of pipe-lines, which are newly laid down and unmarked on the charts. Strong currents prevailing along the coast line, which occasionally attain rates up to three knots.
RADIO: Vessels bound for Terminal Maritimo de Carmopolis should advise their ETA 48 hours prior to arrival, direct to PPA 25 (8,492 kHz, Petrobras own radio station) as well as to Agent in Aracaju (through Rio Radio, Olinda Radio or Amaralina Radio). In turn, these stations will send messages to the terminal.

ETA should be in local time, giving name of vessel, Master's name, number of crew, net tons, gross tons, nationality and d.w.t.

Confirmation or change of ETA should be cabled 24 hours before arrival.

When vessel is within about 50 miles of the terminal, contact may be made by VHF radio-telephone on Channel 16 (156.80 mHz) or SSB (2.182 kHz).
MAX. SIZE: Tankers up to 65,000 d.w.t. can be accommodated. Max. draft 15 m.
TUGS: There are no tugs available to assist berthing and unberthing.
BERTHING: The terminal consists of one berth (six buoys) designed for loading crude oil. The berth is located 7,150 m. from the shore. Loading of vessels is effected by one 26-in. submarine pipe-line.

Max. permitted draft for the terminal is 15 m. in order to ensure a safe bottom clearance, even under extreme operating sea conditions.

Amidships derrick or crane capacity must not be less than 5 tons, so that hose can be hoisted and connected.
HOSES: There is a submarine pipe-line from shore installations direct to the terminal, which are divided into two flexible hoses long enough to reach the ship's manifold. Usually, only one hose is

connected, of 10 in. diameter, from which 19,000 bbls. is the max. loading rate. Shore labour used to connect hoses. Hoses are lifted on the starboard side.
MEDICAL: Medical treatment and/or hospitalisation, if required are provided at Aracaju private hospitals. Dentists are also available in Aracaju. Agent will make such arrangements.

For emergency cases (injury etc.), Petrobras first aid may be requested by the Master.
MOORING: Vessels moor using both anchors forward with two lines from the port bow to No. 2 mooring buoy and from the stern run 8 to 10 ropes to the buoys, depending upon weather conditions and strength of currents.
BALLAST: No slop facilities are available for dirty ballast.

Brazilian Laws are very strict with regard to the pollution of coastal waters. Vessels are not allowed to discharge dirty ballast into the water. Heavy fines are imposed for violations. To offenders, fines will be charged (besides resulting delays) according to the ship's tonnage.
WEATHER: During Winter months, weather conditions are not favourable. Heavy swell prevailing at the sea berth from S./S.E. direction which causes a continuous rolling on the ship during the whole time of loading operations. The terminal is only sheltered from the North to West, and W.S.W. winds which are very rare during the Winter months.
CARGO: The cargo is called Sergipano Crude Oil of an average API 25, temp. 90° F. No heating required.
FUEL: No bunkers available at Aracaju Terminal.
FRESH WATER: No water available.
AIRPORT: There is an airport at Aracaju.
CUSTOMS ALLOWANCES: Brazilian Laws are strict with regard to smuggling, and Masters are requested to instruct their crew not to retain cigarettes in carton lots, cigars, tobacco, alcoholic drinks, drugs, souvenirs, etc.

By no means will any commercial transactions be tolerated be it either among terminal employees, crew members or anyone else.
AUTHORITY: Petroleo Brasileiro S.A.

FORTALEZA: (including Mucuripe), Ceara: 03.41 S. 38.32 W.

PORT LIMITS: From the end of the mole on a true bearing of 235° to the meridian of 38° 29.8′ W., thence to the coast.
DOCUMENTS: See "General" before first port.
PILOTAGE: By Associacao de Praticagem do Porto de Fortaleza. Address: Rua Dragao do Mar, 372. Tel. 212088. The Pilots board ships about 0.5 miles N.W. from the breakwater, call by International Code Signals.

Pilot may be ordered through the vessel's Agent or Fortaleza Radio (PPC). One hour before arrival specifying time of arrival and from which point the Pilot is required.
ANCHORAGE: Vessels awaiting Pilot may anchor W.N.W. of the breakwater head, distance 0.5 miles. Water depth 32 ft.
RESTRICTIONS: Entrance channel Length 1,000 m., width 150 m., depth 8 m.
MAX. SIZE: Up to 27 ft. draft depending on the tide.
HEALTH: The inspection area for Port Health and the other authorities is within 1,430 m. of position 03° 42′ 24″ S., 38° 29′ 18″ W.

All ships must be visited by Port Health Inspector. If vessel has passengers in transit for another Brazilian port, another visit will be required at port where passengers disembark. If ship's health condition satisfactory, Inspector will give free pratique immediately. Radio pratique available if Master able declare satisfactory health condition before arrival. Free pratique is valid for subsequent ports in Brazil.

If there is a crew member to be hospitalised, the Health Inspector will issue pass to hospital on request of Master or Agent who will be made responsible for all expenses incurred.

Inoculations for International Certificates can only be given by an employee of the Port Health Authority.

Ships are inspected by Custom House and Health personnel at the anchorage.
TUGS: One tug available.
BERTHING: 1,116 m. of berthing length. Berths for five vessels. One grain elevator, capacity 150 t.p.h. Four lighters available capacity up to 70 tons each.

Berth No. 1. 106 m. long, 18 ft. deep.
Berth No. 2. 150 m. long, 20 ft. deep.
Berth No. 3. 170 m. long, 22 ft. deep.
Berth No. 4. 530 m. long, 25 ft. deep.
Berth No. 5. 160 m. long, 33 ft. deep.

Vessels are advised to take a Pilot and use a tug if available due to the peculiar port variations.

Vegetable oils can be loaded in drums, 18/20 t.p.h. or ex-barge at 100/125 t.p.h.
CRANES: A 100 ton floating crane is on order. No. 4 berth has 5 cranes with capacities from 3 to 6 tons. No. 3 berth has a travelling suction tower with 2 tubes, operating at 120 t.p.h.
TANKERS: An extension is planned by No. 1 berth, for use of tankers, that at present, must use No. 5 berth. Dredging will be undertaken to a depth of 12 m. alongside the extension.

Tankers discharge crude, and are able to load clean oils through 7 lines ranging from 6 in. to 8 in.
FRESH WATER: Nine hydrants on the quay spaced 50 to 80 m. apart. Connections 2 in. Rate 20 t.p.h.
FUEL: Boiler fuel available from seven connections spaced along the quay. Diesel oil is available by road tanker. Also see "General" before first port.
REPAIRS: Two workshops available for machinery repairs. No electronic repairs possible.
TELEPHONES: Available on board through the Ceara Dock Co.
CONSULS: None at Fortaleza.
IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.
REPATRIATION: Can be arranged.
AIRPORT: Only internal services from local airport.
POLICE/AMBULANCE/FIRE: Maritime police tel. 24.14.94; Ambulance 21.34.34 and 21.22.22; Fire 23.13.81.
SHORE LEAVE: Allowed under control of maritime police.
AUTHORITY: Companhia Docas do Ceara.

ILHEUS: 14.49 S. 39.00 W.

DOCUMENTS: See "General" before first port.
PILOT: Call by flag signal. Locality of pilot station marked on chart. Type of boat: sailing.
ANCHORAGE: Marked on charts.
RESTRICTIONS: Vessel must wait daylight for pratique.
HEALTH: Port doctor visits all ships on arrival and requires Maritime Declaration of Health, Deratisation Certificate, 2 Crew Lists. Vessels from another Brazilian port automatically receive free pratique and should not fly Quarantine Flag. If suspected disease or fever on board it is advisable to cable Agent before arrival.
MEDICAL: All facilities available. If doctor needed on arrival or making emergency call to land sick persons, cable ETA 12 hours before arrival.
TUGS: Three private companies own tugs.
BERTHING: There is a total of 432.5 m. of quay available. The wharf extends 110 m. West from the breakwater. There are 5 Portal cranes (3×3 tons, 2×6 tons). Loading rates for bagged cargo of cocoa and coffee approximately 30/45 t.p.h. per gang. Discharge of bulk wheat by grab. Tankers moor partially off the quay to a stern buoy.
STEVEDORES: Arranged by Agent.
TANKERS: Terminal owned by Frota National de Petroleiros. Buoy mooring.
FRESH WATER: Available. Rate 50 t.p.h.
FUEL: Not available.
DEVELOPMENTS: Port will be completed in two years.
WATCHMEN: Compulsory.
HATCHES: By stevedores.
CUSTOMS ALLOWANCES: Only sufficient tobacco for daily use. No alcohol to be taken ashore.
IDENTIFICATION CARDS: Necessary to go ashore.
CONSULS: Only in city of Salvador.
REPAIRS: Workshop belonging to Port Administration. Minor repairs only.
REPATRIATION: Can be arranged.
AIRPORT: Situated near port.
HOLIDAYS: Work can be arranged on all holidays.
POLICE/FIRE/AMBULANCE: Police tel. 2530; Ambulance 2417.
TELEPHONES: No connection to vessels can be made.
SERVICES: Diving service available.
SHORE LEAVE: Allowed with identity card.
AUTHORITY: Delegacia de Capitania dos Portos.

IMBITUBA 28.13 S. 48.38 W.

DOCUMENTS: See General before first port.
PILOTAGE: There are two entrance channels. The North Channel has a depth of 10 m. the South Channel has a depth of 13 m.

No VHF facilities and Pilot is summoned by two prolonged blasts. The Pilot should be given an ETA at least 24 hours before arrival. Confirmation at 12 hours, via Radio P.P.F.
ANCHORAGE: Vessels may anchor in 10 to 11 m., off the entrance, although this is exposed to N.E. or East winds.
RESTRICTIONS: A breakwater protects the port. Vessels are restricted to a draft of 28 ft.
BERTHING: The port consists of a wharf 308 m. long with depths varying from 10 m. at the head to 7 m. near the shore.

The coal installation has a delivery rate of 24 t.p.h.
CRANES: Three 15 ton cranes, three 13 ton cranes, one 3.5 ton crane.
MEDICAL: Facilities available. Hospital in town.
FRESH WATER: Available from 1 inch lines on the pier. Delivery rate 6 t.p.h.
FUEL: Available by lorry. Also see "General" before first port.
REPAIRS: No facilities other than for minor repairs.
CONSULS: (At Rio Grande).

ITAJAI: 26.56 S. 48.38 W.

DOCUMENTS: See "General" before first port.
PILOTAGE: To await or to receive Pilot, anchor from half to two miles East of South Breakwater.

Pilot Service does not have radio or VHF; any telegram can be addressed to Pilots Service in Itajai (Servico de Praticagem–Itajai), but customary to send all advices to Pilot Service via Agents.

Pilot Service has three launches painted red with a "P" on side and on funnel. Launches always anchored inside port. In case of bad weather, vessel must wait for instructions in Porto Belo Bay, South of this port, and in case of bad weather on sailing, if impossible to disembark Pilot in entrance of bar, must be done in Porto Belo Bay.
ANCHORAGE: Waiting anchorage situated in Enseada de Cabecudas, up to two miles distant from South light, depth of 8 m.
RESTRICTIONS: Vessels can enter or sail at any tide with a max. draft of 18 ft. Vessels with a max. draft of 22 ft. may enter or sail at high water. Tanker movements in daylight only. Max. speed allowed in the access channel is 5 knots.
MAX. SIZE: Max. length 160 m. for dry cargo vessels. For tankers, max. length 155 m.
HEALTH: When coming from abroad, vessel will be visited by Health Authorities, who issue free pratique after inspection. When coming from another Brazilian port, free pratique issued in previous port is sufficient. This document must stay on board, to be presented in subsequent ports. In case of sickness on board, after receiving free pratique, must contact Agent who notifies Health Service.
RADIO: For telegrams (radio) direct from vessel to Agent, or vice-versa, Departamento de Correios e Telegrafos radio station in Santos or Florianopolis, with prefixes: Santos PPS, Florianopolis PPF.
TUGS: Tugs service by launch from Pilot Service, and is used only in unmooring (to assist in turning round in front of quay) for vessels more than 100 m. long.
BERTHING: Previous communication required, time of priority based on time of arriving at bar. Length at quay, 703 m., depth alongside 6 m.
CRANES: 1×20 ton mobile crane for containers. 3 other moveable cranes. 2×1.5 ton Portal cranes, 1×3.5 tons, 1×5 ton.
STEVEDORING: Stevedores' hours as follows: Morning until 0700 hrs. Afternoon until 1230 hrs. Evening until 1900 hrs.
When vessel arrives in morning, advisable that Captain advises in advance number of gangs he will need so that Agency can make arrangements.
When discharging dry bulk cargo (grain or salt) trucks with special equipment used.
Average for loading: *(a)* Timber 120 tons p/gang day. *(b)* General Cargo 100 tons p/gang day. *(c)* Bags and Tobacco 90 tons p/gang day.
For discharging: *(a)* General Cargo 100 tons p/gang day. *(b)* Bulk 120 tons p/gang day.
Hours as follows: 0700 to 1100 hrs.; 1230 to 1630 hrs.; 1900 to 2300 hrs.; 2400 to 0430 hrs.
MEDICAL: In urgent cases, advise Agent requirements in advance. Hospital available. Normally no special vaccination required, nor presentation of certificates.
TANKERS: 6 oil terminals where vessels 155 m. length and 22 ft. draft discharge.

Shell terminal
Fuel oil 10 in. for discharging 8 in. for loading.
Diesel 6 in. for discharging 4 in. for loading.
Gasoline 6 in. for discharging.
Kerosene 6 in. for discharging.
Esso terminal
Fuel oil 8 in. for discharging 4 in. for loading.
Diesel oil 6 in. for discharging 4 in. for loading.
Gasoline 6 in. for discharging.
Kerosene 4 in. for discharging.
Atlantic terminal
Diesel 6 in. for discharging.
Gasoline 6 in. for discharging.
Kerosene 6 in. for discharging.
Ipiranga terminal
Diesel 6 in. for discharging.
Gasoline 6 in. for discharging.
Kerosene 6 in. for discharging.
Heliogas terminal
Gas 6 in. for discharging liquid 4 in. for discharging vapour.

DENSITY: During low tide whole port is influenced by fresh water of River Itajai – Acu, situation changing completely at high tides.
FRESH WATER: Available, supplied direct by hydrants along quay. Average supply 10 t.p.h.
FUEL: See "General" before first port.
DEVELOPMENTS: Two grain silos in port area under construction.
WATCHMEN ON GANGWAY: Not compulsory, but recommended.
OPENING/CLOSING HATCHES: By stevedores.
CUSTOMS ALLOWANCES: Customs can liberate one or two cartons of cigarettes and one or two bottles of spirits, dependant on time vessel remains in port.
IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.
CONSUL: Argentine Consulate, Tel. 348.
REPAIRS: Almost all repairs on engines or deck possible.
REPATRIATION: Repatriation, normally made by Agents via Rio de Janeiro and/or Sao Paulo.
AIRPORT: Situated about 10 kilometres from port. Daily regular flights to Sao Paulo, Porto Alegre, and Rio de Janeiro by Varig.
TIME: 2 Mar. – 30 Nov. GMT minus 3 hours. 1 Dec. – 1 Mar. GMT minus 2 hours.
HOLIDAYS: New Year's Day (January 1st); Good Friday; Tiradentes (April 21st); Labour Day (May 1st); Corpus Christi; Proclamation of the Republic (November 15th); Independence Day (September 7th); Christmas Day (December 25th).
POLICE/AMBULANCE/FIRE BRIGADE: Police 312; Ambulance 500; Fire Brigade 339.
TELEPHONES: There are facilities for placing telephones on board.
AUTHORITY: Junta Administrativa do Porto de Itajai.

MACEIO: 09.40 S. 35.45 W.

PORT LIMITS: Off "Peixe-Pau" buoy 1 mile due South of red light at end of old pier. The Sugar Institute (IAA) accepts Notice of Readiness only after having been signed by Surveyor to the effect that holds are in all respects ready to receive cargo.
DOCUMENTS: See "General" before first port.
PILOTAGE: Request for Pilot to be made through Agent at least 12 hours prior to arrival during week-days and 24 hours prior to arrival on week-ends and holidays. Pilot boards from pilot launch painted red and white, at Peixe-Pau Buoy, 1 mile due South of end of pier, identified at night by red flashing light. No radio. Light signals used for communication with pilot boat. Vessels may anchor off Peixe-Pau Buoy in bad weather.
ANCHORAGES: In vincinity of and within inner harbour – depths from 15 ft. to 24 ft. MLW.
RESTRICTIONS: Max. permitted speed between the Peixe-Pau Buoy and the port is 6 knots.
MAX. SIZE: No restrictions on length. Vessels may enter day and night. Pilot refuses to berth tankers after nightfall.
Vessels have loaded up to 33 ft. draft.
HEALTH: No Health Authorities board vessel. In event of suspected disease or fever on board, advise Agent by cable so that Port Authority may take appropriate action.
RADIO: Radio Olinda (Recife), call sign PPO. Radio Amaralinha, call sign PPA.
TUGS: None available or required.
BERTHING: Berths available day and night, weather permitting.
Sugar Terminal: facilities for loading bulk molasses. Projected loading capacity 1,000 t.p.h. of bulk sugar, 300 t.p.h. molasses.
Sugar wharf: 250 m. length. General cargo wharf 400 m. length, undergoing extension by a further 100 m. Depth alongside 33 ft.
A new loading installation fitted with a travelling retractable arm, using a centrifugal spinner, and capable of delivery 1,000 t.p.h. 24 hours a day is being assembled on this berth.
There are two Molasses tanks at the end of this wharf, loading rate 100 t.p.h.
A tanker jetty may shortly be situated at the old fishing wharf.
STEVEDORES: ETA required 24 hours before arrival to arrange gangs. When work required Saturdays and Sundays, ETA must be sent on Friday. Loading/discharge – General: 8 t.p.h. per gang. Sugar 20 t.p.h. per gang. Grain 60 t.p.h.
CRANES: Six cranes with capacity of 10 tons awaiting installation. Two diesel operated cranes of 8 tons capacity in operation.
MEDICAL: No advance notice needed except if vessel due to arrive on Saturday/Sunday in order to arrange doctor and/or hospital. Hospital facilities available.
TANKERS: One tanker berth. Max. draft 33 ft. One pipe-line 8 in. for Gasoline and one 6 in. for diesel/kerosene.
FRESH WATER: Fresh water available. Pipe-line from Water Tower by gravity. Rate about 15 t.p.h. 11 points at the general cargo wharf and 5 at the Sugar wharf.
FUEL: Diesel oil available from Shell, Texaco, Esso and Atlantic. However, storage capacity is small and it may not always be available. Delivery is gravity feed from road tankers. Also see "General" before first port.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally carried out by stevedores.
CUSTOMS ALLOWANCES: One carton cigarettes to be declared. One bottle alcohol, open, to be declared.
IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of Identity Card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The Identity Card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.
CONSULS:

Norway	2276	Portugal	2449
Italy	3302	France	2126
Spain	2640		

REPAIRS: Small repairs only can be effected.
REPATRIATION: Carried out by Recife Consulates.
AIRPORT: 11 miles North of town. Served by Varig, Vasp and Sadia.
TIME: GMT minus 3 hours.
HOLIDAYS: Work prohibited on Labour Day only. Other days on which work is considered overtime and charged as such are: 1st January, Good Friday, 7th September, 15th November and 25th December.
POLICE/AMBULANCE/FIRE: Maritime Police 2282; Riot Police 4488; Ambulance 2666 and 4433; Fire Brigade 2447.
TELEPHONES: Telephone on quayside. No arrangements yet for placing on board.
GENERAL: Prevailing winds: Summer months – N.E. Rainy season – S.E. with strong South winds during July/August/September and strong undertow during August/September.
DEVELOPMENTS: The Salgema marine terminal is being built

across the bay. It will consist of a jetty 1,300 m. long. The loading platform will allow 18,000 d.w.t. vessels to load in 11 m. depth.

Loading Caustic Soda	12 in. line 330/350 cu.m./hr.
Ethylene Chloride	10 in. line 330 cu.m./hr.
Ethylene Cryogenic	8 in. line 330 cu.m./hr.

AUTHORITY: Delegacia de Capitania de Porto.

AGENT: See "Recife".

MANAUS: 03.08 S. 60.00 W.

DOCUMENTS: See "General" before first port.

PILOTAGE: Pilots join vessel at Belem and make the round voyage back to Belem. Vessels entering via North Channel take a Pilot at Santana. No Pilots from Barra Norte to Santana.

ANCHORAGES: Suitable places can be indicated by the Pilot.

Anchorage for vessels over 3,000 g.r.t. Lat. 03° 09′ 00″ S. Long. 60° 01′ 48″ W.

Anchorage for vessels of less than 3,000 g.r.t. Lat. 03° 09′ 00″ S. Long. 60° 02′ 12″ W.

Vessels impounded or requiring considerable repairs Lat. 03° 08′ 30″ S. Long. 60° 02′ 30″ W.

Vessels in quarantine Lat. 03° 08′ 48″ S. Long. 59° 55′ 48″ W.

RESTRICTIONS: Passage across Barra Norte to be made at high water only. Berthing and unberthing preferably takes place at Manaus in daylight.

MAX. SIZE: Entry to the Amazon via the North Channel; max. draft 30 ft. Via Belem; draft 29 ft. with a length up to 175 m. and draft 24 ft. with a length up to 210 m.

HEALTH: See "General" before first port. All ships must be visited by Port Health Inspector. If vessel has passengers in transit for another Brazilian port, another visit will be required at port where passengers disembark. If ship's health condition satisfactory, Inspector will give free pratique immediately. Radio pratique available if Master able declare satisfactory health condition before arrival. Free pratique is valid for subsequent ports in Brazil.

If there is a crew member to be hospitalised, the Health Inspector will issue pass to hospital on request of Master or Agent who will be made responsible for all expenses incurred.

Inoculations for International Certificates can only be given by an employee of the Port Health Authority.

RADIO: Salinopolis Radio or Rio Radio. There is also Barbados Radio Station at Belem.

TUGS: Agents provide mooring launches.

BERTHING: Arranged by Agent who asks permission from local Port Authorities to provide a berth. All berths suitable for vessels able to navigate the river.

Two floating stages in "T" jetty form.

Easterly stage 272 m. long. Floating roadway 252 m.

There are 3 cranes on this stage.

Westerly stage 275 m. long. Floating roadway. No cranes.

Water depth 35 m. at both stages.

Warping buoys must be used when leaving stages as there are no tugs.

A third stage is planned.

A stone jetty 500 m. long will shortly be available for year round operations, when it has been fitted with Portal cranes.

Moageria Berth: Used for the discharge of bulk grain, one tube, rate 30 t.p.h.

CRANES: Ten fixed electric cranes with capacity 1.5–7.0 tons. Three mobile cranes, capacity 4, 6 and 15 tons.

STEVEDORES: Available.

MEDICAL: Doctors and hospital facilities available.

TANKERS: *Copam Refinery Berth:* a floating pontoon with buoy moorings ahead and astern. Vessel berths starboard side to, using port anchor.

Facilities for crude discharge. Products only loaded. No dirty ballast facilities.

No. 1 Terminal. Vessel lies to 4 buoys, and picks up a floating line, normally attached to the bank. Available for products only.

DENSITY: Fresh water.

FRESH WATER: Not suitable for drinking purposes.

FUEL: Bunker C and Diesel. Available ex-barge or at the terminal. Also see "General" before first port.

IDENTIFICATION CARDS: Required.

GANGWAY/DECK WATCHMEN: Compulsory.

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes per man. Only normal daily consumption wine/spirits allowed.

CONSULS: Following countries are represented at Manaus:

U.S.A.	Venezuela	Holland
Japan	Uruguay	Spain
Peru	Italy	Great Britain
Colombia	Belgium	Portugal
Bolivia	France	Denmark

REPAIRS: Very limited facilities available.

REPATRIATION: Can be arranged.

AIRPORT: Regular daily international flights from Manaus Airport.

TIME: GMT minus 5 hours.

HOLIDAYS: 1st January; 1st May; 29th June; 7th September; 8th December; 25th December; 31st December.

POLICE/FIRE/AMBULANCE: Civil Police tel. 22113; Maritime Police 22315; Fire 21155; Ambulance 21112.

TELEPHONES: Arrangements can be made for telephone connections on board.

SHORE LEAVE: Aliowed.

AUTHORITY: Administracao do Porto de Manaus.

NATAL: 05.47 S. 35.12 W.

Port situated on East bank of Potengi River, 2 miles from sea.

DOCUMENTS: See "General" before first port.

APPROACHES: Reefs at river mouth form natural breakwater. Entrance channel 200 yards wide with sharp bends.

PILOTAGE: Arranged by Agents who require at least 12 hours notice of ETA. Pilot boards at Outer Roads.

ANCHORAGES: The following are the zones for vessels anchoring prior to entering port;

Anchorage for vessels more than 3,000 g.r.t. – between the access channel and the right bank of the Rio Potengi, from 05° 46′ S., along an extension of 800 m. to the N.

Vessels impounded or requiring considerable repairs – same anchorage as for vessels over 3,000 g.r.t.

Anchorage for vessels up to 3,000 g.r.t. – facing the launch embarkation point at the end of the Rua Tavares de Lira, and to 150 m. along the right bank of the Rio Potengi.

Vessels in quarantine within a radius of quarter of a mile around a point half a mile to the South of the waiting point for the Pilot.

RESTRICTIONS: High water depth at bar 24 ft. to 26 ft., varies with tide and wind.

MANOEUVRING: The area intended for manoeuvring when coming alongside or leaving the port has a width of 300 m. along the whole length of the quay.

In this area and in the access channel anchoring is strictly prohibited except with the prior permission of the Port Captaincy.

MAX. SIZE: Length 520 ft., draft up to 23 ft. 6 in. at spring tides.

HEALTH: Official visit made on vessel's arrival if between 0700 and 1900 hrs. Visits can be arranged at other times.

The inspection area of the Port Health Federal Receipt and Maritime Police authorities is 04° 45′ 06″ S. and 35° 11′ 15″ W.

TUGS: Not available.

BERTHING: Quay length 1,312 ft. Wharf equipped with four 5-ton mobile steam cranes. Depth 24–25 ft.

CRANES: Two 1.5 ton cranes. Two portable tubes for wheat discharge at 10 t.p.h. each.

LOADING: When loading sugar bags, only canvas-bottomed slings to be used. Shippers will not permit loading with ordinary rope slings. Suitable slings can be hired from shore. Six slings required for each working gang.

TANKERS: Oil berth suitable for vessels up to 520 ft. length.

CUSTOMS ALLOWANCES: One opened bottle spirits and 200 cigarettes per crew member per week.

FRESH WATER: Available at the wharf, rate about 18 t.p.h.

FUEL: Available, delivery by road tanker, rate 32 t.p.h. Also see "General" before first port.

CONSULS: France, Italy, Lebanon, Portugal and Spain.

TELEPHONES: None available for installation aboard ship.

REPAIRS: There is a Naval Base at Natal, which apart from providing service to naval vessels, also deals with merchant vessels requiring repairs. The Base has seven departments, Mechanical, Naval Carpentry, Electricity, Electronics, Sails, and Painting, and a Docking System comprising two floating docks and one office ship. The Goias Dock has a capacity for vessels up to 1,000 tons and 4.80 m. draft. There is a ballasting service.

The City of Natal Dock has a capacity for vessels up to 2,800 tons and 5.80 m. draft.

Apart from other facilities, the Base has maintenance, refrigeration and kitchen services, which can be placed at the disposal of vessels during repairs to their own installations.

AUTHORITY: Port administration and Harbour Master.

AGENT: See "Recite".

PARANAGUA: 25.30 S. 48.30 E.

DOCUMENTS: See "General" before first port.

PILOTAGE: The Paranagua port area is some 17 nautical miles from bar and from sea buoy where Pilots board. For entry, necessary for Agent to requisition a Pilot 5 hours prior to ETA Paranagua Bar. For sailing from port, a 2-hour previous advice to Pilot necessary.

It is possible to requisition a special Pilot for entrance and sailing from Paranagua within a lesser period than required officially by Pilotage Association. Requisition for Pilot may be made during the following hours: week-days 0700–1100 and 1300–1700. Saturdays 0700–1200 and 1600–1700. Sundays and holidays 0800–0900. The Pilotage Association will attend unannounced vessels during those periods not covered by their regular office hours. This entails the requisitioning of a special Pilot earning 100% on the total ordinary bill. Pilotage very expensive. Pilot's association on VHF Channel 16.

RESTRICTIONS: No restrictions to entry in Paranagua Bay day or night. Sometimes, entrance channel not usable after dark because of buoys drifting out of alignment; however this is rare.

Existing entrance channel to the port from S.E. has a depth of 10 m. The South Channel now dredged to 12 m. thus allowing vessels up to 45,000 tons fully loaded to enter or leave. The channel will be dredged to 14 m. in the near future.

MAX. SIZE: See "Restrictions" above.

ANCHORAGES: Ample and secure in inner harbour.

HEALTH: (See "General" before first port). Health Authorities visit any vessel arriving from foreign port.

RADIO: No local radio. Messages should be routed: vessels coming from South via Rio de Janeiro radio or Santos radio; vessels coming from North via Florianopolis radio (PPJ).

VHF: Operates on international Channels 5 and 11. With inauguration of this service unannounced vessels may request

Pilots and also through local telephone service be connected with their Agents.
TUGS: Two small-powered, primarily for assisting berthing and unberthing. Also one private tug of 1,500 h.p.
BERTHING: There are at present 2,106 m. of quay.
Berths 1 to 3: 420 m. long, depth 10 m. (being dredged to 12 m.).
Berths 4 to 8: 670 m. long, depth 8 m.
Berths 9 to 11: 500 m. long, depth 8 m.
Berths 12 to 14: 500 m. long, depth 12 m.
Tween deck vessels cannot operate at berths 12 or 13.
Vessels are boomed off berths 1 to 6 by pontoons, and at 12 and 13 if necessary, for ease of cargo handling.
CRANES: Berth 14: four 12.5 ton portal cranes.
Berth 11 to 7: Two 12.5 ton portal cranes.
Four 6.25 ton cranes.
Six 3.25 ton cranes.
Also, one 30 ton, one 9 ton, and two 5.5. ton cranes.
One 100 ton Heavy Lift Barge, max. reach with 100 tons is 19 m.
BULK HANDLING FACILITIES:
Cargill: One loading tower of 500 t.p.h., movable over a distance of 150 m., capacity 20,000 tons (horizontal silo). Also capacity for 3,000 tons of bulk oil with capacity of 150 t.p.h.
Sanbra: At warehouses 6, 6a and 6b. 2 fixed loading towers, each 100 t.p.h., capacity 12,000 tons. Also two slightly movable elevators, with a total loading capacity of about 100 tons.
At the same berth there is a loading tower, movable over 180 m., with a loading capacity of 500 t.p.h. which is connected to a silo of 60,000 tons.
Gransol: At warehouses 4 and 5. One loading tower, 300 t.p.h., movable over a distance of 150 m. storage capacity 500 tons. 2×12.5 ton portal cranes for containers at Shed 5.
Socepar: One loading tower, 100/150 t.p.h., movable over 110 m. Storage capacity 25,000 tons.
Port Silo: (Operated by the port administration) one loading tower, 150/200 t.p.h., movable over 150 m. Storage capacity 10,000 tons.
Cargill and Sanbra can handle vessels loading to 42 ft. by using pontoons. Other installations, even with the use of pontoons, can only handle vessels loading to 30 ft.
The new grain terminal at warehouse No. 13 consists of 4 inter-connected horizontal silos, each with a capacity of 20,000 tons and 2 loading towers, movable over 200 m., loading capacity 1,500 t.p.h. each. The second phase of the construction is a 100,000-ton silo, which will be connected to the 4 horizontal silos, expected to be completed late 1974.
STEVEDORES: *Working Hours:* 0700–1100, 1300–1700, meal hours 1100–1300. Possible to work 1700–1900.
1900–2300, 0000–0400, meal hour 2300–0000. It is possible to work from 0400–0600 to complete the vessel. Normal night work is only possible until 0400.
Officially the same working hours are valid for Sundays and holidays.
MEDICAL: All facilities available. Crew members should hold valid International smallpox inoculation certificates.
TANKERS: Petroleum Berth: 184 m. long, 10 m. depth.
Gas Berth: 130 m. long, 10 m. depth.
FRESH WATER: Ample available and of good quality. Pumping rate about 30 t.p.h.
FUEL: All types of bunkers and diesel are generally available. Lubricating mixtures can be obtained but require considerable advance notice. Furnishing of these supplies must be contracted for about a week in advance. Also see "General" before first port.
GANGWAY/DECK WATCHMEN: Use of a gangway watchman is compulsory and they must be employed 24 hours a day, including Saturday, Sunday and holidays.
OPENING/CLOSING HATCHES: Usually done by stevedores but can be done by ship's crew.
CUSTOMS ALLOWANCE: Each crew member allowed to keep out of bond one carton of cigarettes and one bottle of wine or spirits.
IDENTIFICATION CARDS: Required for going ashore.
CONSULS:

Norwegian 233	Swedish 873	Danish 233
Italian 324	Uruguayan 832	Portuguese (no tel.)

Consulates at Curitiba (50 miles distant):

British 4–0498	Spanish 4–2946	Syrian 4–3873
German 4–2322	Polish 4–2472	Swiss 4–7553
Dutch 4–0097	Austrian 4–7241	Argentine (no tel.)

The nearest American consulate is at Sao Paulo.
REPAIRS: Minor repairs available for deck and engine-room. Better facilities for repairs to refrigeration.
AUTHORITY: Port Captain.
AGENT: Agency, Stevedoring, cargo brokers and Chartering: Cranston Woodhead S/A., PO Box, 179, Rua Comendador Correa Junior, 421, Paranagua – Pr. Tel. 2-0059, 2-0061. Cables "Cranwood" and "Realloyd".

PORTO ALEGRE: 30.05 S. 51.15 W.

This information does not apply to Tramandai Oil Terminal which is listed separately.
DOCUMENTS: See "General" before first port.
PILOTAGE: Porto Alegre situated 164 miles up the Lagoa dos Patos, a large freshwater lake, and vessels must take on a Pilot after receiving pratique at Rio Grande, which lies at sea entrance of lake. Pilot and authorities board after arrival at Rio Grande inner anchorage. Pilots arranged by Agent upon receipt of vessel's radioed ETA via Rio Grande Radio (PPJ). Since 40-mile channel between Rio Grande and Lagoa dos Patos is unlit, vessels should proceed from Rio Grande only by daylight, allowing 3 hours to negotiate channel. Vessels over 12 knots may leave Rio Grande for Porto Alegre not later than 1700 hrs. in Summer, or 1500 hrs. in Winter. Vessels under 12 knots not later than 1600 hrs. in Summer or 1400 hrs. in Winter. Entry must be made to Rio Grande at least 3 hours before these times to allow for clearance.
RESTRICTIONS: Vessels approaching Porto Alegre from the Lagoa should do so only by daylight since 30 miles access channel leading from the Lagoa to Porto Alegre poorly lit. If necessary, vessels should anchor off Itapoan Lighthouse at head of the Lagoa, to await daylight before proceeding. On arrival at Porto Alegre, free pratique must again be obtained, and crew lists, store lists, etc., again presented to authorities, who usually visit vessel in berth alongside.
MAX. SIZE: Not recommended that vessel of more than 215 m. LOA attempt to reach Porto Alegre. Max. safe draft from mid-April to mid-October is 17 ft. and from mid-October to mid-April, 16 ft. 6 in.
ANCHORAGES: Inner harbour. Not normally used unless port congested. If vessels are too late for transit they must anchor at either end of the lagoon overnight.
HEALTH: Vessels receive clearance on passing Rio Grande. No yellow flag required. Also see "General" before first port.
RADIO: All messages should be routed via Rio Grande Radio (PPJ).
TUGS: Only small low-powered tugs available. These normally used for unberthing only. Ships' lines normally used. The four tugs are 220, 250, 280 and 320 h.p.
BRIDGES: Vessels proceeding up-river from Porto Alegre to oil berth must pass under bridge with lifting-span. Span is lifted when approaching vessel sounds prolonged blast on siren.
BERTHING: The berths are on the East bank of the river, and the jetties stretch over a distance of 8 km.
Maua Quays: Berths "A", "A1" to "A7" and "B", "B1" to "B7". Length, 1,482 m. Depth 18 ft.
Navegante Docks: 2,433 m. long.
Cesa Grain Berth: 2 belts loading rate 100 t.p.h. each. 3 grain elevators, rate 100 t.p.h. each.
Between Maua and Navegante there are several small jetties but none capable of handling ocean-going vessels.
CRANES: *Maua Quays:* Eleven 3 ton portals, two 6.25 ton cranes, four 3 ton portals (Narrow gauge).
There are no cranes available at Navegante Docks.
STEVEDORES: *Working Hours:* 0730–1130, 1300–1700. Overtime 1700–1900, 1900–2300 and 0000–0400 hrs.
MEDICAL: Full facilities available. Crew members should hold valid international smallpox inoculation certificates.
TANKERS: Proceed to oil and LPG berths on Gravatai River for discharge. These berths accessible only to small tankers of up to 1,600 d.w.t. Refer to "Tramandai".
DENSITY: Fresh water at all times, unaffected by tides.
FUEL: Available, delivered by road tanker. Also see "General" before first port.
GANGWAY/DECK WATCHMEN: Vessels at anchor and alongside must have a watchman.
OPENING/CLOSING HATCHES: Usually done by stevedores.
CUSTOMS ALLOWANCE: Each crew member allowed to keep out of bond 1 carton of cigarettes and 1 bottle of wine or spirits.
FRESH WATER: Available from hydrants at all berths. Delivery rate up to 25 t.p.h.
IDENTIFICATION CARDS: Necessary.
CONSULS:

British	Spanish	Italian
German	Belgium	Norwegian
French	Danish	Swedish

REPAIRS: All light deck and engine-room repairs possible. No dry-docking facilities available except for small vessels of up to 300 ft. LOA.
TELEPHONES: Connections available from warehouses A, A2, A4, A6, B, B2, O, O2 and D4.
DEVELOPMENTS: 2 new dredgers are being used to deepen the channels leading to Porto Alegre, permitting a working draft Rio Grande/Porto Alegre of 20 ft.
A new grain elevator with a capacity of 60,000 tons is expected to be ready shortly.
AUTHORITY: Port Captain.
AGENT: Cranston Woodhead, S/A, PO Box 500, Largo Visconde do Cairu No. 12, 10th Floor, Porto Alegre. Tel. 24.47.66, 24.40.10, 25.05.78/79, 25.05.91 and 25.05.93. Telex 28600 AB Cranwood PAE. Cables: "Cranwood" and "Realloyd".

RECIFE (Pernambuco): 08.04 S. 34.52 W.

(See Plan)

DOCUMENTS: See "General" before first port.
PILOTAGE: Contact Pilot Headquarters only by radio. Messages should be addressed to "Associacao Praticagem – Recife". Pilots maintain a permanent watch during day in station which overlooks port area and outer roads to observe any vessel approaching and requiring their services, displaying "G" flag. At night only means of contacting shore is by radio. Pilot boats or launches are painted red, with letter "P" in black.
ANCHORAGES: Most favourable position for ships to await pilot boat is 1.5 miles in direction 303° from "Picao", also just outside the 6 fathom line. In fine weather ships can sail to a position 8 cables from "Picao" in same direction just South of buoy. Anchorage in fine weather between above-mentioned places; in bad weather

more than 1.5 miles in direction 303° from "Picao" and North and South of line, in water of 7 and 8 fathoms depth.

RESTRICTIONS: Vessels only enter port at night in cases of necessity. 3ft under keel clearance required when heavy swell running.

The port is situated between 2 channels, 1 to the North, the other to the South, which are the main fairways of the port. The Southern channel is 850 ft. wide by 32 ft. 6 in. deep and the Northern channel is 32 ft. deep but with variable width.

Tankers: May enter and leave during daylight hours only (0500–1800 hrs.).

MAX. SIZE: Vessels 220 m. in length can enter, max. draft 31 ft.

HEALTH: The Brazilian Health Authorities only visit vessel at the first Brazilian port of call. Master must report if all crew is well and in case of sickness on board on arrival Port Doctor when visiting vessel must be informed. After visit Port Doctor gives Master a certificate that vessel has been cleared. Captain must retain certificate on board to show to Health Authorities at other Brazilian ports of call if requested. Heavy fine imposed if document not presented. Also see "General" before first port.

RADIO: Usually vessels calling at Recife communicate with Agents through Rio-Radio-PPR, Fortaleza Radio-PPC or Amarakina-Radio-PPA-Salvador, which messages are relayed via The Western Telegraph Co. Ltd. who have stations in above-mentioned cities. Recife Radio Station PPO-Olinda Radio, located at local Post Office building at centre of City of Recife Avenida Guararapes and has very poor range. Customary for Olinda Radio to relay messages to distant vessels from Recife (port) via other vessels in near range. By no means a sure and reliable method.

TUGS: Pilot brings vessels to inner harbour where tugs available to help to go alongside; not practice for tugs to meet vessels on outer roads. 4 tugs available, largest 1,250 h.p. Vessels up to 5,000 g.r.t. require 1 tug. Vessels over 5,000 g.r.t. require 2 tugs.

BERTHING: Vessels arriving at Recife roads with 26 ft. can enter port on low tide and can go alongside from berth No. 1 to No. 7, over 26 ft. it is better to wait for high tides to enter, 31 ft. being the max. draft for entering Recife.

Depth alongside wharves:

Warehouse No.1–1A: 31 ft.; No. 7–11: 24–22 ft.
,, No. 2–5: 30 ft.; No. 12–14: 22 ft.
,, No. 6: 28 ft.; No. 15: 18 ft.

At anchorage (pool) in port, max. draft is 31 ft. Depth between 32 ft. and 26 ft., the max. rise of tide being 5 ft. Distance from the quay side, 200 m. Manoeuvring space is 1,640 ft. or 500 m. with a depth of 28–30 ft. max.; 590 ft. or 180 m. with a depth of 26 ft.

SPECIAL CARGO FACILITIES: *Cereals:* Silos with unloader, Silo capacity 10,000 tons, capacity of unloader 100 t.p.h.

Wheat: Silos with unloader: Two silos capacity 28,000 tons, capacity of loader 100 t.p.h.

Sugar: Sugar Terminal: warehouse capacity 200,000 tons, capacity of unloader 1,000 t.p.h.

Molasses: Tanks: capacity to store 14,000 tons, capacity of unloader 120 cu. m.p.h.

Cranes:

1 Crane with capacity of 20 tons (Warehouse 5/6)
17 Cranes ,, ,, ,, 1.5 tons
3 ,, ,, ,, ,, 5 tons
8 ,, ,, ,, ,, 8 tons
1 floating crane 40/50 tons capac. (Dock Co.)
1 ,, ,, 70 ,, ,, (Navy)

Docks – Internal

1 Crane with a capacity of 8 tons
1 ,, ,, ,, ,, 5 tons

Note: The Docks' Co. floating crane's hook height above water level is 7 m. and the Navy's 15 m.

STEVEDORES: Advise Agents of ETA at least 48 hours prior to arrival to make necessary berthing arrangements and hire dock labourers and stevedores in time.

MEDICAL: In *urgent cases* communicate with Agents immediately by means of Radio at least 48 hours prior to vessel's arrival if possible. It is necessary for vessel to enter port to enable sick person to land because on outer roads there is too much swell. Not necessary to Dock. Port Doctor must be advised by Agents and will board to see sick person and grant permission to land in Recife temporarily. Hospitals available also First Aid Stations equipped with ambulances. Crews should always have yellow fever and small-pox inoculation certificates.

TANKERS: Oil companies who keep petroleum products here are: Esso Brasileira de Petroleo, The Texas Co., Shell, Atlantic Refining Co. To discharge petroleum products tankers utilise berth No. 1 – considered by the Port Authorities as inflammable berth. Tankers can berth also at Nos. 2 and 3 where pipe-lines exist. For discharging fuel oil in bulk berths No. 5 and 6 can be utilised. Max. safe draft for a tanker to enter Recife is 30 ft. and entry must take place on high tide.

DENSITY: Low water density in Summer time 1028. High water density in Summer time 1027.

FRESH WATER: Supplied by Port Administration by means of pipe-lines in the docks. Vessels can be supplied alongside any quay; water fit for human consumption.

The local Port Administration has one water barge, capacity 240 tons, for supply to vessels inside the breakwater.

There are 92 hydrants, diameter 2.5 in., rate 15–20 t.p.h.

FUEL: *Fuel Oil:* This can be loaded between warehouses 1 to 6 by existing network along the quay. At warehouse No. 1 there is a 10 in. take-off point and two of 12 in.: Warehouse No. 2 has a 10 in. take-off and two of 12 in.; No. 3 there are two of 6 in. and one of 8 in.; at warehouse No. 5 one of 8 in.; at warehouse No. 6 one of 8 in. – all with a capacity of 60 to 100 t.p.h. and from warehouse No. 6 to No. 15 tanker trucks with a capacity of 40 t.p.h. Also see "General" before first port.

Diesel Oil: At warehouse No. 1 there is a 6 in. take-off and one of 8 in.; at warehouse No. 2 there is a 6 in take-off and one of 8 in.; at No. 3, two of 6 in. with a capacity of 40-50 t.p.h.; at other warehouses this supply is effected by tanker trucks.

DEVELOPMENTS: Plans to build berth for exclusive use of tankers at Olinda. Plans are also underway to dredge the access channel to 11.5 m. It is also intended to construct new berths for general cargo and molasses tankers, and to modernise the existing berths. Work expected to be completed 1977.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Normally by stevedores but crew helps when stevedores not familiar with hatches of modern vessels.

CUSTOMS ALLOWANCES: One carton cigarettes and one bottle of spirits allowed each man at Customs discretion.

IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.

CONSULS: The following countries are represented in Recife/Pernambuco:

Argentina	Ecuador	Jordan
Belgium	Finland	Lebanon
Britain	France	Mexico
Colombia	Germany	Netherlands
Czechoslovakia	Greece	Norway
Denmark	Italy	Portugal
El Salvador	Japan	United States

REPAIRS: Available at naval repair yard (Departmento Industrial da Base).

REPATRIATION: Facilities by air available.

AIRPORT: Situated 9 miles from docks.

TIME: GMT minus 3 hours.

HOLIDAYS: *National Holidays:* Fraternidade Universal (January 1st); Tiradentes (April 21st); Labour Day (May 1st); Brazil's Independence Day (September 8th); Commemoration of the Republic (November 15th); Christmas Day (December 25th).

State Holidays: Nossa Senhora da Conceicao (December 8th); Nossa Senhora do Carmo (July 16th); Carnival 3rd Day; Good Friday, Memorial Day (November 2nd).

POLICE/AMBULANCE/FIRE: Harbour Police 240124; Ambulance (Pronto-Socorro) 22411; Fire Brigade 240077.

TELEPHONES: Can be connected on board if requested.

AUTHORITY: Administracao do Porto de Recife/Pernambuco.

AGENT: Thom and Cia Ltd. Barbados Lima 159, Recife. Cables "Thom Recife".

RIO DE JANEIRO: 22.55 S. 43.12 W. **(See Plan)**

(A) GENERAL CARGO SECTION. (B) TANKER SECTION.

SECTION A

DOCUMENTS: See "General" before first port.

CLEARANCE: All clearance is taken care of at the quarantine anchorage (pratique, custom's immigration). Accommodation ladder must be rigged for this purpose.

After clearance by the customs a dark blue flag with a white five-pointed star in the middle must be shown day and night during vessels stay in port. Deratisation service is available. Inspection of the vessel will be made by inspectors to whom the valid deratisation or derat-exemption certificate must be shown.

PILOTAGE: Entrance to Guanabara Bay is 1 mile wide between Ponta de Santa Cruz and Ponto de Sao Joao. This is divided into two parts by Ilha Lage 0.6 mile W.N.W. of Ponta de Santa Cruz. Main channel for entering port is on the East side of Ilha Lage, depth 30 to 50 m. The channel between Ponto de Sao Joao and Ilha Lage, depth 5.7 m. should be avoided.

Pilots are ordered by vessel's Agent, who should be kept informed of vessel's ETA. Unless pilotage from sea required, Pilot will board with Port Authorities at quarantine anchorage in approx. position 22° 53′ S. 43° 09′ W.

Pilotage is compulsory within the port limits, which extend from the quarantine anchorage to the W., N. and E. The approach from sea to the quarantine anchorage may be done without a Pilot, but for deep draft vessels it is recommended to take a Pilot because of the narrow deep draft fairway. If requested, the Pilot will board the vessel 2 miles South of Cotunduba Island. Pilot boats are painted red with a black "P".

ANCHORAGE: In the Rio de Janeiro port area, the following areas are designated for anchorage of vessels coming into port.

Anchorage for vessels up to 22 ft. (6.7 m.) draft Anchorage No. 3. Within 300 m. radius of position 22° 51′ 1″ S., 43° 10′ 8″ W.

Anchorage for vessels with 22 ft. (6.7 m.) draft or more within 800 m. radius of position 22° 51′ 5″ S., 43° 08′ 6″ W.

Vessels impounded or requiring extensive repairs: position determined by the Port Captaincy for each specific case.

Vessels in quarantine: position 22° 50′ 7″ S., 43° 08′ 6″ W.

Vessels carrying explosives and inflammable material: position 22° 51′ S., 43° 11′ W.

RESTRICTIONS: Port is accessible to all vessels at all times and states of the tide. Attention must be paid to messages sent by Rio Radio about forbidden areas due to Marine exercises with live ammunition along the coast near entrance to the port.

Access Channel Limits: The port access channel is 200 m. wide, and dredged to a depth of 17 m. (55.7 ft.).

The access channel to the Mineral and Coal Quay is 150 m. wide, 10 m. (32.8 ft.) deep, running true 308°, starting near the Maua Pier and extending to the quay manoeuvring basin.

The access channel to the Gamboa Quay and the Sao Cristovao Quay is 300 m. wide along the quay with a depth varying from 6 to 10 m. (19.6 to 32.8 ft.).

The Caju Quay access channel is 80 m. wide along the quay, with a depth of 6 m. (19.6 ft.).

MAX. SIZE: No limits for entering port. Draft limited by berth depth.

HEALTH: Vessels from another Brazilian port automatically receive free pratique and should not fly quarantine flag. If suspected disease or fever on board it is advisable to cable Agent before arrival. Also see "General" before first port.

RADIO: Rio Radio, call sign PPR. Working frequencies 17,194; 13,105; and 8,364 kHz. VHF marine radiotelephone is available. Channel 16 for general call, Channels 11 and 12 for Pilot and harbour purposes.

TUGS: There is adequate tow-boat service at Rio de Janeiro varying from 220 h.p. to 1,200 h.p., tariff being divided into sections – 200 h.p. to 600 h.p. and 601 h.p. to 1,200 h.p. The number of tugs to be employed in a service depends on the tonnage of the vessel and/or nature of the berth and respective approaches, as determined by the naval authorities. Ship's lines usually employed.

Requirements: The assistance of tugs for mooring and departure operations is governed by the following rules:

(a) Manoeuvring at the Gamboa and Sao Cristovao Quays:
vessels up to 2,000 g.r.t. no tug.
2,001 to 5,000 g.r.t. 1 small tug.
5001 to 15,000 g.r.t. 1 large and 1 small tugs.
15,001 to 30,000 g.r.t. 2 large and 1 small tugs.
over 30,000 g.r.t. 2 large and 2 small tugs.

(b) Manoeuvring at the Caju Quay (warehouses 19 to 33):
vessels up to 2,000 g.r.t. without tug.
2,001 to 5,000 g.r.t. 1 small tug.
5,001 to 15,000 g.r.t. 1 large tug and 1 small tugs.
over 15,000 g.r.t. 1 large tug and 2 small tugs.

(c) Manoeuvring at the Mineral and Coal Quay:
vessels up to 2,000 g.r.t. without tug.
2,001 to 5,000 g.r.t. 2 small tugs.
5,001 to 15,000 g.r.t. 2 large and 1 small tugs.
over 30,000 g.r.t. 3 large and 1 small tugs.

(d) Manoeuvring at the Petroleum Terminals, Maua Pier and Docks:
vessels up to 4,000 g.r.t. 1 small tug.
4,001 to 15,000 g.r.t. 1 large and 1 small tugs.
15,001 to 30,000 g.r.t. (loaded) 2 large and 1 small tugs.
15,001 to 30,000 g.r.t. (in ballast) 2 large tugs.
over 30,000 g.r.t. (ballast) 3 large tugs.
over 30,000 g.r.t. (loaded) 3 large and 1 small tugs.

The following must also be observed:

1. All vessels (tankers) manoeuvring at quays which are not terminals will be assisted by tugs as shown in section *(d)*.
2. The requirements in sections *(a)*, *(b)*, *(c)* and *(d)* will apply when the manoeuvre is effected under normal conditions.
3. In abnormal conditions, and according to the Pilot's judgement, other necessary measures will be adopted to ensure safety of the manoeuvre.
4. When a vessel is manoeuvring with the aid of a tug, the Pilot may call for a further tug with power compatible with the requirements of the manoeuvre.
5. A tug will be considered as large where its power is in excess of 600 h.p.

BERTHING: Berth usually accessible day and night. Ratguards obligatory.

For vessels loading iron ore, it is important that hatch combings are not higher than 31 ft. above the water-line in order to pass under the loading belt.

Quay	*Length*	*Depth*
Pier Maua	883 m.	11 m. (36 ft)
Gamboa Quay	3,298 m.	9.5–10 m. (31.1–32.8 ft.)
Sao Cristovao	1,428 m.	8–9.5 m. (26.2–31.1 ft.)
Caju Quay	1,300 m.	6 m. (19.6 ft.)
Mineral & Coal Quay	438 m.	12.5 m. (40.9 ft.)

CRANES: 164 gantry cranes, 20 jib cranes, 10 steam cranes, 7 tracked cranes; 4 floating cranes, largest with capacity of 200 tons.

STEVEDORES: Cable Agent ETA 36 hours before arrival in order to arrange gangs required. When arriving during week-ends or on Monday, Agent needs ETA on Friday afternoon. Loading/discharge rates:

General cargo cases 7 to 8 tons per gang/hour.
Bags 15 tons per gang/hour.
Grain in bulk 1,000 tons per eight hours.
Coal in bulk 7,000 tons per day.
Loading iron ore 25,000 tons per day.

MEDICAL: All facilities available. If doctor needed on arrival or making emergency call to land sick persons, cable ETA 12 hours before arrival.

DENSITY: Salt water at entrance to bay. Further inland water often brackish, and density varies with tide.

FRESH WATER: Available alongside from 69 points, loading rate 30 t.p.h. Also available by barge, capacity 450 tons, loading rate 100–200 t.p.h.

FUEL: See "General" before first port.

DEVELOPMENTS: Plans under study to build new iron-ore loading installation to take vessels up to 100,000 d.w.t.

WATCHMEN: Gangway watchmen strongly recommended for any vessels working cargo with shore labour on board. Watchmen from shore not necessary for coal, iron ore, and oil cargoes.

CUSTOMS ALLOWANCES: Each crew member allowed 2 cartons of cigarettes and one bottle wine or spirits.

IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.

CONSULS: Pratically all countries have consuls in Rio.

REPAIRS: All types deck and engine repairs can be effected. Five dry docks. Largest dry dock, length 259 m., breadth 34 m., max. draft 14 m.

POLICE/FIRE/AMBULANCE: Police 234–2020; Maritime Police 243–0181; Ambulance 222–2121; Fire 232–1234.

HOLIDAYS: *Legal Holidays:* New Year's Day (January 1st); St. Sebastian (January 20th); Tiradentes (April 21st); Labour Day (May 1st); Independence Day (September 7th); Proclamation of the Republic (November 15th); Christmas Day (December 25th).

Religious Holiday: All Soul's Day (business and banks closed) (November 2nd).

Movable Holidays: Good Friday (business and banks closed); Corpus Christi (business and banks closed); Carnival (Saturday through to noon on Ash Wednesday) – non-official irregular working hours – banks closed.

Federal and State Government Departments, as well as banks, do not work on Saturday.

TELEPHONES: Available at warehouses 1–8 on request to the Brazilian Telephone Company.

SHORE LEAVE: Shore leave is permitted.

DEVELOPMENTS: Caju Quay is being widened and dredged to 12 m. to provide 2 container berths, 1 sulphur and salt berth, and 1 heavy lift general cargo berth.

The existing iron ore berth will close.

The Coal Quay is expected to cease operations 1980 to allow expansion to be continued to Caju Quay. Both coal and iron ore will be re-routed to Sepetiba.

GENERAL: Vessels to fly signal letters when manoeuvring in port and special Brazilian Customs flag after reception.

AUTHORITY: Captain of the port.

(B) TANKER SECTION. All information refers to the "Petrobras Terminal" *unless otherwise stated.*

LOCATION:

South Dock-Island (main)

Long. 43° 09′ 0″ W.

Ilha Redonda Pier
Lat. 22° 48′ 1″ S. — West Berth (IR)
Long. 43° 09′ 0″ W.

DOCUMENTS: See "General" before first port.

APPROACHES: The safe access to the Terminal is made through a main (deep but narrow) channel swept to 17 m. (55 ft.) that begins between the Island of Cotunduba and the Point of Leme. It extends as far as the East neighbourhood of the South Dock-Island East Berth. As long as the ship does not exceed 11.3 m. (37 ft.) the access can also be undertaken through the North – South axis passing by Ilha Rasa and the bar's entrance (secondary entry, larger but shallower).

A long bridge (Rio-Niteroi), under construction, linking Ponta do Caju (West) to Ilha do Mocangue Grande (East) will cross the swept channel. Three navigable empty spaces: – the central one 300 m. (980 ft.) wide; 50 m. (165 ft.) high at MLWS, the side ones with 200 m. (650 ft.) in width – will maintain the safe access for ships.

A shoal (reef) in 11.5 m. (36 ft.) deep lies about 0.3 m. E.N.E. of Lage Is. just after the bar's narrow entrance (between Sao Joao and Santa Cruz Points). A wreck marked by a green buoy (CS) lies sunk nearly 1.3 miles Eastward of Cotunduba Is.

ANCHORAGE: Vessels should anchor N.E. of Ilha Fiscal for port authorities clearance. After pratique has been granted they should change anchorage site while awaiting for a berth alongside.

Vessels should anchor clear of the 17 m. (52 ft.) swept channel. They must take care to avoid dropping their anchors on the route of submarine cable near to a line joining the islands of Villegagnon and Boa Viagem.

Prohibited Anchorage: In no circumstances should ships drop anchor Westwards and between South and North platforms due to the existance of submarine pipe-lines connecting Ilha D'agua to the platforms and to Ilha Redonda.

READINESS: Arrival is usually considered the time the vessel reaches the anchorage area or the time the Pilot boards the vessel, whichever occurs first notice of readiness will be accepted at the time the tanker is in all respects ready to operate.

PILOTAGE: Pilotage is compulsory after the ship's free pratique has been granted. From that moment on all movements within the port limits will be made under the assistance of a Pilot. Request for pilotage service may be made either right to the Harbour Pilot's Working Co-operative (pilot station VHF Radiotelephone – Channels 16 and 12. Listening period from 0600 to 1800 hrs. local time) or, through ship's Agent, 24 hours beforehand.

For tankers larger than 100,000 d.w.t. Pilots usually board the

vessel outside the main channel's entrance. This will occur if weather conditions permit and by daylight only.

Ships could also use, in most circumstances, a secondary entry which N. – S. axis passes through Ilha Rasa (larger but shallower) as long as their draft does not exceed 11.3 m. (37 ft.). In certain cases and at the discretion of the Pilot, according to the prevailing conditions, ships will use this channel with a draft up to 12.5 m. (41 ft.).

Ships may anchor 1.8 mile on the North of Ilha Rasa for awaiting the Pilot, who will board the ship and proceed by day or night according to ship's draft, visibility conditions, etc.

A pilot ladder must be safely rigged for immediate use and be long enough to reach the Pilot's launch. At night adequate lighting must be rigged so as to enable the Pilot to approach and board the vessel. In addition, a boat rope should be led along the side, from well forward. A lifebuoy with 27 m. (15 fathoms) of rope must be conveniently placed in the vicinity of gangway for use in emergency. Vessels should always make a lee. Tankers of 40,000 d.w.t. or over are requested to have a pilot ladder (preferably with a centre gripping line) rigged alongside the accommodation ladder in order that the Pilot may transfer to it after about 2 to 3 m. (6 to 10 ft.).

MAX. SIZE: Tankers up to 135,000 d.w.t. will operate in the terminal. Draft is 15.8 m. (52 ft.) at low water.

Berthing capacity is limited by structural resistance of installation, actual depth of the swept channel and weather conditions.

South Dock Island (main)

East Berth (PP1) – Tankers up to 15.8 m. (52 ft.) draft will moor and unmoor at any time.

Structural resistance of pier was designed to handle tankers up to 115,000 d.w.t. but under special circumstances this limit will be extended to 135,000 d.w.t.

West Berth (PP2) – By day tankers up to 13.1 m. (43 ft.) draft will moor according to the range of tide.

9.4 m. (31 ft.) draft to a range of 0.0 m. (0.0 ft.).
12.2 m. (40 ft.) draft to a range of 0.3 m. (0.98 ft.).
12.5 m. (41 ft.) draft to a range of 0.6 m. (1.98 ft.).
12.8 m. (42 ft.) draft to a range of 0.9 m. (2.94 ft.).
13.1 m. (43 ft.) draft to a range of 1.2 m. (3.94 ft.).

By night only ships up to 35,000 d.w.t. will moor.

Leaving at night only enough ballasted and with own power, up to 48,000 d.w.t.

Shifting ship from East to West Berth only by daylight, draft 12.8 m. (42 ft.), fair weather and wind speed up to 2 Beaufort;

North Dock-Island (secondary)

East Berth (PS1) – Tankers up to 35,000 d.w.t. will moor either by day or night.

At low tide, the maximum draft permitted is 10.2 m. (34 ft.).

West Berth (PS2) – At night tankers up to 14,000 d.w.t. will manoeuvre. Whenever another tanker is already berthed to the Butadiente Dock-Island, night mooring to the North Dock-Island is not advisable. West-berthing will be undertaken with ebb tide, i.e. the set of the current is South, preferably.

At low water max. permitted draft is 8.2 m. (27 ft.).

Butadiene Dock-Island (PAB)

Manoeuvres will be undertaken at daylight only. Max. permissible draft at low water is 8.5 m. (28 ft.).

Ilha Redonda Pier (IR)

LPG tankers will moor by day only, limitations concerning draft is 7 m. (23 ft.) at most. Max. ship's LOA is 100 m. (360 ft.).

Advisable draft for safe manoeuvring: Although the amount of ballast carried on vessels is at the Master's discretion, the table below is recommended as a guide:

Vessels of 30/40,000 tons, draft for'd 16 ft. aft 20 ft.
Vessels of 40/50,000 tons, draft for'd 18 ft. aft 24 ft.
Vessels of 40/70,000 tons, draft for'd 20 ft. aft 28 ft.
Vessels of 70/100,000 tons, draft for'd 24 ft. aft 32 ft.

Vessels over 100,000 tons, should have approximately one-third of the vessel's deadweight in ballast.

RADIO: Vessels under charter to Petrobras bound for Rio de Janeiro should advise their ETA 48 hours prior to arrival to PPA25 (Company's own radio station) as well as to their Agents when it will be the case, through PPR (Rio Radio – Government Coast Station). Confirmation or change of ETA should be cabled 24 hours before arrival. When within range, tankers may also call Torgua or Fronape VHF radio-telephone stations for instructions. All ETA's should indicate whether it is local time or GMT.

The terminal radio and communication centre is located in the Oil Handling Control Room situated at Ilha D'agua. There is a RT set operating 24 hours a day, on Channel 16 (Delta) and manned by terminal operators.

It is strictly prohibited to use vessel's wireless transmitters in the port of Rio de Janeiro.

Non-compliance with this regulation may result in a fine being imposed on vessel by the authorities.

TUGS: Tugboat assistance is rendered by two Petrobras 1,430 h.p. tug boats (twin motors equipped with controlled pitch propellers). Private tugboats are also available. While rendering such assistance tugs act under the orders of the Harbour Pilot. Petrobras tugs are fitted with fire pumps and monitors (including mechanical foam) to assist in fighting fires. All manoeuvring orders will normally be given by VHF telephone on Channel 13 (Alpha) – 156.65 mHz, however, they usually keep watch on Channel 16 (Delta) – 156.8 mHz. Ships not provided with radiotelephone, orders will be conveyed to the fore tug by a mouth whistle and to the aft tug by the ship's whistle. All orders received by tugs will be acknowledged with a distinct short blast. Hawsers are always supplied by the ship except when tugs are manoeuvring alongside ship in which case the towing lines will be given by the tugs.

The tugs are usually stationed either at the terminal dolphin or "L" pier on Ilha D'agua. The Pilot in consultation with the Master, will decide the number of tugs required for each berthing or unberthing operation. Safety of the Terminal installations demands, at least, two tugboats, even for bow thruster equipped ships.

BERTHING:

Petrobras: Torgua is an oil terminal consisting of four distinguished mooring sites located on different places inside the Guanabara Bay.

All these mooring sites are linked to Ilha D'agua and then to the mainland (Duque de Caxias Refinery – REDUC) by submarine pipe-lines. Three of them are dock-islands, i.e. island-type offshore platforms lying near to the Eastern edge (about half mile away) of Ilha D'agua (where storage tanks, operation controlling room and part of the administrative staff are placed). Two of these dock-islands are squared platforms (South and North) with two berths each (East and West). The South one is designed for larger tankers consisting of two mooring and two breasting dolphins on each side of the platform. It is normally used for the discharge of crude oil.

The North Dock-Island (smaller) has only two mooring dolphins on each side. Two berths (East and West) are also available. It is generally used for handling derivatives. The third Dock-Island (the smallest and round shaped one) is actually the dolphin of the North Dock-Island square platform. It is known as the "Butadiene Pier" and only one vessel at a time can be berthed there (East) either for discharge LPG/butadiene or loading light grades. Besides these three mooring sites there is a fourth located on Ilha Redonda (approx. 2 miles E.N.E. of Ilha D'agua). This installation comprises one single berth (West), head of a small pier. It handles LPG only. Two spherical refrigerated storage tanks (2,000 tons) can easily be seen from incoming vessels.

Other Terminals: *Manguinhos Terminal* – Operators: Refineria de Petroleo de Manguinhos. At Manguinhos terminal a draft of 36 ft. is permissible. Conventional buoy berth in which two ship's anchors and four buoys are used, one on starboard forward of the bow and three buoys aft. Two ship's lines run to each buoy. The terminal is situated in the inner harbour of Rio de Janeiro and close to the quays. Three 8 in. hoses from an underwater pipe-line are connected to the ship's manifold. Maximum back pressure is 100 p.p.s.i., at the ship's rail. Discharge rate is about 1,000 t.p.h. Care is to be taken that the vessel shall not exceed a draft of 40 ft. during discharge. Bunkering is permitted when discharging cargo.

Riberia Terminal – depth alongside 30 ft.
Shell Terminal – ,, ,, 31 ft.
Texaco Terminal – ,, ,, 29 ft.

MEDICAL: Medical treatment and/or hospitalisation, if required, is provided in private local clinics. Dentists are also available. For emergency cases (serious illness or injury) Torgua first aid may be requested by the Master. Internal telephone number is 39.

If patient does not speak Spanish, Portuguese or English an interpreter should accompany him. A nominal amount is charged for any supplies or medicines furnished by the terminal.

LPG	1	8	5.6	—	2 8	(L)	600
	1	6	3.2	—	1 6	(V)	

N.B.:—Two mooring buoys exist.

FRESH WATER: Facilities may be arranged to supply water in North and South platforms only. Water supplying barges are also available.

FUEL: The Terminal is equipped with blending valves and can deliver any type of fuel – as Bunker C fuel oil, marine gas oil, marine diesel oil and intermediates of any grade – concurrently with tankers working cargo, at international prices. Also see "General" before first port.

The supply rates are about 300 mt/hr. for Bunker C, 180 mt/hr. for MGO and 450 mt/hr. for intermediates.

Orders for bunkers should be placed, a minimum of 48 hrs. in advance, to: Marine Fuel Division, Commercial Department. Telegraphic Address: Petrobrasecope. Telex number: 031422 or 031423. Rio de Janeiro – Brazil.

BALLAST: All ballast should be pumped out to the terminal slop tanks. Under no circumstances should it be pumped into the sea even if the ballast is said to be clean. As soon as the ship is moored, the Terminal Representative must be told of the quantity of ballast on board and the estimated time to pump it out. Right after discharging a sludge ballast of high pour point (HPP) oil, tankers are asked to flush the line with water from the main suction inlets. The Terminal Representative must be notified 30 minutes before the ship will be out of ballast.

There are two sludge tanks with a total capacity of about 8,900 cu.m. (56,000 bbls.). The terminal is particularly interested in having vessels complete the deballasting operation promptly after berthing in order to minimise time at berth. Simultaneous loading and deballasting is encouraged on properly equipped vessels.

REPAIRS: Repairs of all kinds can be effected in Rio de Janeiro. There are floating cranes with a capacity of 100 tons. Divers service may be obtained. Dry dock to hold ships up to 33,000 d.w.t. are available. It is suggested that charges should be discussed with ship's Agent prior to proceeding with any repair work.

SURVEYORS: Lloyd's Register of Shipping, American Bureau of Shipping and Bureau Veritas have representatives in Rio de Janeiro. Advance notice should be given in order to arrange for an appointment through Fronape on ship's Agent.

Chas. Martin & Co. petroleum inspectors are available in Rio de Janeiro. Contact may be through Agent. E. W. Saybolt & Co. inspectors are also available in Santos.

Chas. Martin & Co., Rua da Lapa, 200 – conj. 906, 20,000, Rio de Janeiro, GB, ZC-00, Tel.: 242-4219, 245-5636 and 225-3507.

E. W. Saybolt & Co., Rua Bras Cubas, 3, 11,100, Santos, SP. Tel.: 4-6638.

GENERAL:

Gangway: All vessels using the port of Rio de Janeiro must provide a safe gangway. The use of rung ladders (sea ladders) is contrary to port regulations and port authorities will not board except by means of a safe gangway or accommodation ladder. A lifebuoy with 27 m. (15 fathoms) of rope must be conveniently placed in the vicinity gangway for use in emergency. It will be the responsibility of ship to provide and maintain this equipment.

At night, the gangway must be adequately lighted. In addition, a boat rope should be led along the side, from well forward. In the near future a special safe gangway will be provided in the South and North dock-islands.

Repairs: Repair and maintenance services for radar, radio, gyro compass, echosounder, etc., are available. The repair man should be contacted through ship's Agent.

Stores: Provisions and stores are available. Requisitions should be conducted through the Agents. Ship chandlers are normally permitted to visit ships when specifically instructed by Agent.

Launches: Launch service for the transportation of personnel ashore must be arranged through ship's Agents. Terminal boats are intended for operational assistants and they are normally stationed at a small "L" pier on the South of Ilha D'agua (Barge Dock).

Laundry: Laundry service is available throughout each working day. Such service should be requested in the vessel's ETA message to Agents.

Photographing: The taking of photographs within the boundary of the terminal premises is prohibited.

Ratguards: Ratguards must be fitted to all mooring lines.

Sea Pollution: Brazilian law is very strict in regard to the pollution of harbour and coastal waters. Vessels should not discharge dirty ballast, ashes, refuse, etc., into the water. Heavy fines are imposed for violations. All overboard discharge valves from cargo tanks and bilges are to be conducted with the greatest care and vigilance in order that errors or delays in handling cargo valves may not result in overflows. All deck scuppers should be plugged to avoid harbour contamination should an oil spill occur.

Similarly, any hull leakages will be subject to equal restrictions. To offenders, fines will be charged (besides resulting delay) according to ship's tonnage, i.e. 2% of the largest country's minimum wage per each ship's (gross) ton.

Emergency towing wires: Two towing wire ropes (fore and aft) should be hung overboard to the water's edge in such way that tugs can easily make fast if an emergency situation arises.

Shore Leave: Shore leave is normally permitted. Baggage and packages are subject to examination upon entering and leaving the Terminal property and vessels, either by Petrobras watchers or by custom's officers.

Cleaning: Several contractors in the area provide labour for tank cleaning and mopping. Masters need of this service should submit their requirements to ship's Agent who will contact and request a contractor to go on board to discuss details and estimate costs of work to be effected.

It must be pointed out that the Master of the vessel is solely responsible for the fitness of the ship's tanks for loading his next cargo, and will therefore be held liable for any contaminations of the cargo after loading, due to inadequate tank cleaning. Therefore it is up to him to decide the degree of tank cleaning necessary. He may, of course, seek advice from petroleum inspectors in this respect, whenever there is any doubt.

Compass Adjustment & RDF Calibration: Compass adjustment or radio direction finder calibration can be effected by competent hydrographers and extra-masters. Contacts with Agents or through the pilot's station.

Custom's Watches: Sometimes while vessel is in port, Brazilian custom's officials are assigned on board to ensure compliance with custom regulations. Meals must be supplied to these officials during regular meal hours.

Important Telephone Numbers (PABX):

Terminal's Executive Assistant	10*
Operation Manager	28*
Operation Supervisor	38
Marine Section	50*
Safety Section	40*
Medical Section	39

(*) To be used in working hours only.

DEVELOPMENTS: A new berth is being built on Pombeya Island and dredged to 12 m. This is intended to relieve Ilha de Braes Fort.

AGENT: L. Figueiredo S/A. Av. Pres. Vargas 463–20° Andar. Tel. 221-6127. Cables: "Doratrans-Rio". Telex 031720 "Doralice-Rio".

RIO GRANDE: 32.03 S. 52.05 W.

DOCUMENTS: (See "General" before first port).

PILOTAGE: Bar pilotage is compulsory on approaching Rio Grande contact can be made with Pilots by VHF Channel 16, pilot boat is easily identified as it is painted red. Requests for a Pilot to be made by Agent at least 12 hours in advance for vessels entering and two hours for vessels sailing. Bar Pilots either bring vessels with cargo to discharge/load direct to berth, or up to inner anchorage (when no berth is available or in the case of vessels en route to Porto Alegre).

ANCHORAGES: Official anchorage situated at a point between inner light buoys Nos. 4 and 5, just before entrance proper to inner approach channel. In case of necessity, vessels may discharge/load to/from lighters at anchorage where depth is over 35 ft.

RESTRICTIONS: Depending on weather conditions and subject to prior arrangements with Bar Pilotage, vessels drawing less than 24 ft. may enter or leave any hour of day or night. Draft subject to change as access channel is being dredged to 42 ft.

MAX. SIZE: *Bar max.:* subject alteration, see Restrictions.

Anchorage and bar fourth section: Fourth section is where new super port of Rio Grande will be situated. The natural draft inner roads is 50 ft. therefore if draft at access channel confirmed, foresee no difficulties vessels drawing heavy draft entering and operating at anchorage or super port grain and fertilizer terminals.

Inner New Port (Porto Novo): Subject to alterations.

HEALTH: *(a)* Vessels arriving from a foreign port of call must receive visit of Port Health Authority. Each passenger (whether to land or in transit) and crew member must be in possession of a valid international vaccination certificate against smallpox. Also see "General" before first port.

(b) Maritime Health Declaration has to be made out and handed to Doctor at time of visit. When all papers have been examined and found in order, the Doctor will authorise lowering of the yellow flag and hand over free pratique.

(c) Vaccination against smallpox can be made on board and respective international certificate issued.

(d) In case of death, suspected disease, serious accident, etc., on board before vessel arrives in port, master should radio Agent giving full particulars so that necessary steps may be taken with Health/Police authorities.

RADIO: Radio Juncao, call sign PPJ, situated on outskirts of Rio Grande, is a receiving/transmitting station, operating on a wavelength of 600 metres (500 kc/s). There is telephone communication between radio station and shipping offices so that, normally, messages are relayed without any appreciable delay. Radio messages may also be despatched through Florianopolis Radio, via Western Telegraph, and these are also received quickly, under normal conditions. Most Agents are equipped with VHF.

TUGS: Compulsory for vessels over 2,800 d.w.t. Five tugs available. Tugs usually join vessel as soon as she has come through approach channel, in the port proper, but in the case of deeply-laden vessels, normally attend before vessels enter inner approach channel. Ship's lines always used.

Tug Requirements:

Vessel 2,800-5,000 d.w.t. 1 small tug. 5,001–10,000 d.w.t. 1 small and 1 medium tug. 10,001-15,000 d.w.t. 1 medium and 1 large tug. over 15,001 d.w.t. 2 large tugs.

BERTHING: *New Port:* Length of quay, 1,864 m., depth 8.5 m. 38 cranes, capacity 2.5 tons to 10 tons.

Old Port: Only used by fishing vessels.

No mooring buoys. Vessels berth alongside quay to load/discharge. If weather conditions permit, recommended that vessels should berth starboard side to wharf in order to facilitate sailing, especially if there is a possibility of night departure. Turning vessel round before coming alongside, however, may not always be advisable or safe because of wind and current conditions at time. Vessels loading down to maximum safe draft must be starboard side to quay on sailing. If weather does not allow ship to turn on arrival, she must do so as soon as conditions permit, before being too deeply laden.

Oil Carriers: Tankers measuring over 200 m. long have entered and berthed at Rio Grande, coming alongside port side to berth. On sailing, they go out stern first, turning after negotiating approach channel and reaching anchorage. Favourable conditions of wind and current necessary for this manoeuvre.

Installations for discharge of petroleum products: All fuel oil discharged at tanker berth within port proper — i.e. subject to a maximum draft of 29 ft. White petroleum products may also be discharged at this berth. A deep-water tanker pier has been constructed close to the anchorage but it is in limited operation for white products only, because pipe-lines to main storage tanks and refinery have not yet been installed. This pier, which is capable of accommodating two vessels of 160-180 m. overall length, has a depth of over 35 ft.; it also has installations for supplying fresh water which may, in case of necessity, be used by cargo vessels. No facilities for the discharge of residues.

BULK HANDLING FACILITIES: *New port;* depth alongside varies from 26 ft. to 29 ft. depending on berth and has the following facilities:

CESA Terminal: One silo with a capacity of 55,000 tons used for grain and soya beans. Conveyors feed two pneumatic chutes, each 150 t.p.h. The facility is being improved to handle 1,000 t.p.h.

Port-owned Terminal: Two silos with a total capacity of 70,000 tons. Loading is carried out by a single retractable arm, max. reach 20 m. Average loading rate 1,500 t.p.h.

Samrig Terminal: One silo with a capacity of 35,000 tons. Loading is carried out by two movable chutes each with a capacity of 200 t.p.h.

At other berths loading is carried out by portable equipment.

Cotrijui Grain Terminal: At Rio Grande Superport. Consists of a T-shaped jetty, 170 m. long. It has 8 loading tubes in 2 banks of 4 fed from overhead belts. Loading rate 1,000 t.p.h. for each bank of tubes. Depth 55 ft.

Soya Bean Oil can also be loaded here at 500 t.p.h. through a 12 in. pipe-line. The innerside of the T jetty can accommodate barges to further increase the loading rate if required.

The terminal gives preference to self trimming vessels and bulk carriers.

The Luchsuper Fertilizer Terminal: has a T-shaped jetty, 130m. long. Depth 50 ft. It can handle Urea, Phosphoric Acid, Ammonia and Sulphuric Acid at 500 t.p.h. Bulk chemicals can be discharged here with two 6 ton Portal cranes. Two container berths are in the latter stages of completion.

The Superport will eventually cover 8 km. along the waterfront with provision made to handle fuel, chemicals, oils, salt, fertilisers, minerals, containers and roll-on/roll-off traffic. Four of the new 20 berths are in operation.

STEVEDORES: Working hours, straight time, 0730/1130 – 1300/1700 (week-days). During week-days, labour for morning shift which commences at 0730 hrs., may be ordered up to 0715 hrs.; at 1245 hrs. extra gangs may, if necessary, be engaged for afternoon shift commencing at 1300 hrs. For night work longshoremen (i.e. dock labourers as distinct from stevedores) must be ordered before 1600 hrs.; stevedores, tally-clerks, etc., for night work may be engaged up to 1845 hrs. for shift that starts at 1900 hrs. Sunday/holiday work must be ordered previous day, up to 1000 hrs.

MEDICAL: Two hospitals available which have adequate facilities to deal with majority of cases. Only vaccination required at present is against smallpox.

FRESH WATER: Supplied at main quay at a rate of 10 to 15 t.p.h. or at tanker pier where rate is about 25 to 30 t.p.h. Port has a barge *Gutemberg* which can supply water (100 t.p.h.). It is only used in extreme cases where no other supply is feasible, as cost is high due to high overtime rates and tugs standing-by during whole operation.

FUEL: Bunkers may be supplied by Esso, Shell or Petrobras at tanker pier at a rate of up to 300 t.p.h. Same has to be previously stemmed aboard and supply is only effected when confirmation of stem is received. Cost varies according international demand. Barges for supply at roads are sometimes on hand. Also see "General" before first port.

DEVELOPMENTS: Dredging continues to a depth of 14 m. at the entrance and 13 m. in the inner channel.

GANGWAY/DECK WATCHMEN: Gangway watchman is compulsory. It is advisable to use deck watchman when pilferable cargo is accessible. The rate is 50% higher than that for a gangway watchman.

OPENING/CLOSING HATCHES: Opening and closing of conventional hatches normally done by stevedores, without any extra cost; advisable, however, for steel hatches to be handled by crew.

CUSTOMS ALLOWANCES: Each crew member allowed one carton cigarettes (or the equivalent in pipe tobacco) and one bottle of spirits, per week. Ships that remain in port for over a week may request Customs, through their Agent, to open bond for another weekly issue.

IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The Identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.

CONSULS/VICE-CONSULS:

Britain	Tel.	2.3303	Norway	Tel.	2.1611
Denmark	"	2.3011	Portugal	,,	2.3978
Italy	"	2.2362	Spain	,,	2.2621
Netherlands	,,	2.3303	Uruguay	,,	2.2953

REPAIRS: Two small repair shops equipped to carry out minor repairs. No dry docks. Radio, radar and gyro technicians available but expensive.

REPATRIATION: Seamen rejoining their ships or being repatriated have to proceed to Porto Alegre, by bus, where arrangements can be made for embarkation by air.

TIME: GMT minus 3 hours, except during the period 1st December to the last day of February (Brazilian Summer time) when the difference is 2 hours.

HOLIDAYS: National: 1st January;* 21st April; 1st May;* 7th September;* 15th November; 25th December.* Municipal: 2nd February; Good Friday;* Corpus Christi; 29th June.

Note: Days marked (*) no labour available.

POLICE/AMBULANCE/FIRE: Police 2.1695; Hospitals 2.3802; Ambulance 2.3801 Fire 2.1778.

TELEPHONES: There are no facilities for placing telephones on board.

GENERAL: *Flags to be flown.*

(a) Brazilian flag at the top of the foremast.

(b) Yellow flag (to be hoisted until the doctor's clearance is given).

Vessels arriving from a Brazilian port, with no disembarking passengers, must *not* hoist yellow flag unless there is sickness on board requiring presence of the Health Authorities.

(c) Pilot flag.

(d) Customs flag (to be hoisted after the vessel is cleared by Customs and flown during the vessel's stay in port).

AUTHORITY: Port Captain.

AGENT: L. Figueiredo S/A. R. Marechal Andreia 311, Tel. 862. Cables "Doranave-Rge. Telex: 028880 (Public booth).

SALVADOR (Bahia): 12.58 S. 38.31 W. **(See Plan)**

DOCUMENTS: (See "General" before first port.)

Agent also fills out the "Entrada & Saida Capitania do porto" to be signed by Captain. The particulars for this document are:

Name of Captain – name of ship – flag – code signal letters – tonnage: gross and net – horsepower – engines: twin or single – type of ship, etc. – port of registry – tons of cargo to discharge – owners – Agents in port – last port of call – previous ports of call – next port of call – number of crew – number of disembarking passengers – number of transit passengers – speed of vessel – also specifications of nature and quantity of cargo in transit.

Documents to be supplied to the Ship before departure.

1 "Clearing pass" from the Port Captain
1 ,, ,, ,, ,, Federal Police
1 ,, ,, ,, ,, Post Office
1 ,, ,, ,, ,, Custom House
1 Custom House negative cargo declaration for each following Brazilian port of call.

The Port Doctor will require the following information: Class, name and flag of ship – net register tonnage – name of Master and ship's Doctor – number of officers and crew – name of Agent – all ports called at during voyage – number of days from first to previous ports of call – number of passengers disembarking and in transit – tons of cargo to be discharged – whether any sick persons or deaths occurring on board.

The Customs will require the following information: Name of vessel – nationality – gross and net tonnage – H.P. of engines – name of Captain – number of officers and crew – owner's name – name of Agent – all ports called at during voyage – ports of destination – days of voyage from first to previous ports of call – tons of cargo to be discharged – particulars of passengers.

The Federal Police require the following information: Vessel's name – nationality – gross and net tonnage – name of Captain – number of officers and crew – name of Agent – port of departure and all ports of call – number of days from first and last ports of call – number of passengers disembarking and in transit – specification of embarking and disembarking ports of each transit passenger.

Ships calling at Salvador are normally boarded by the authorities at any time, day or night, when required. If there is no special urgency, however, the visit is effected the following morning at 0630 hrs.

PILOTAGE: Application for Pilot cabled by Master to Agent who makes all arrangements with Pilots' Association. Advance notice of ETA should be cabled by Master 48 and 24 hours before arrival. Pilot boat painted red. The location where Pilot has to be taken is indicated on all charts.

Pilotage is not compulsory but Pilots are used by all foreign vessels for entering and leaving the dock. Sometimes they are also used to shift ships to anchorage for the Authorities visit.

Pilots belong to the Pilot Association which is controlled by the Port Captain.

Payment of pilotage is made by the Agency against vouchers signed by the Master showing the service rendered (pilotage fees do not include charge for motor launch for the Pilot, ropes for mooring, etc.).

When vessel arrives during the day, and a berth is immediately available, a Pilot is sent to meet her before anchoring, to be brought alongside. In such instances, a gangway must be kept lowered for the authorities to board the vessel. If a berth is not available, the vessel must anchor at the quarantine anchorage to be visited by authorities. When arriving at night, the vessel must anchor at the quarantine anchorage, to await daylight, unless she is to be brought alongside immediately on arrival, in which case the Agent will cable the Master and arrange Pilot accordingly.

The Pilot Association may be contacted on VHF, Channel 16 (Channel 11, working).

ANCHORAGES: Inner anchorage can accommodate vessels with a draft of up to 33 ft., but there is sufficient depth of water in the outer anchorage to accommodate vessels with any draft.

RESTRICTIONS: There is sufficient depth of water in the outer anchorage to accommodate the largest vessels afloat with safety, and the anchorage can, in addition, take a considerable number of vessels at any one time. The average depth of water in the channel leading to the dock warehouses is 33 ft. (10 m.) except opposite Shed No. 2 where 28 ft. (8.50 m.) is the max. depth. The dock quays are sheltered by two breakwaters, one running parallel with the shore for just over half a mile. Because of the shallow draft opposite No. 2 Shed, all vessels entering or leaving the port with more than 28 ft. normally enter the Northern Channel.

MAX. SIZE: Max. draft 30 ft., max. length about 250 m. The 10 m. quay situated next to the docks, where tankers discharge chemical and other vessels bulk cargoes, max. draft 33 ft., max. length of about 250 m. Also see "Tankers".

ARRIVAL INFORMATION: Required before vessel's arrival:

(a) Vessel – ETA; deepest draft.
(b) Cargo – Quantity of cargo to be discharged and specification of hatch list.
(c) Passengers – Number of passengers disembarking.
(d) Bunkers – Quantity required.
(e) Water – Quantity required.
(f) Labour – Quantity required.
(g) Any other information – Number of mailbags to be landed, etc.

Specimen of telegram to be sent from previous port:

1. Vessel's name.
2. ETA Salvador.
3. Draft.
4. Number of passengers disembarking.
5. Number of mail bags to be landed.
6. Quantity of bunkers required.
7. Quantity of water required.
8. Number of gangs required.
9. Any other information.

FLAGS: On entering the port the vessel should fly the following flags:

1. Brazilian flag on fore mast top.
2. Quarantine flag when Salvador is first Brazilian port of call, or when there is a passenger for Salvador from a foreign port.
3. Customs flag (white star on blue background) after the vessel has been visited.
4. Flag "B" if dangerous cargo on board.
5. Pilot flag.

PRIORITY: Passenger vessels and wheat vessels have priority over cargo ships and the so-called "navios mixtos", i.e. cargo ships with a limited passenger accommodation. Passengers vessels are those that carry 60 or more passengers; except when loading 1,000 tons or over in which case they loose their priority.

HEALTH: The Doctor only boards the vessel when Salvador is first Brazilian port of call or when there are passengers from abroad to disembark, in which case Master should advise Agent who will then take the necessary steps required by Port Health. A yellow flag should be flown if Port Health Doctor is required on board.

RADIO: Master should always endeavour to contact Agent through Radio Amaralina coastal station, call sign PPA, and Agent will contact Master the same way. Since this station has a limited range, the Agent at Salvador may be contacted via Rio Radio when North-bound, or Olinda Radio/Fortaleza Radio when South-bound.

TUGS: Tugs are rarely used for berthing, but occasionally used for unberthing. When used, the line is supplied by vessel. Vessels unberthing at Salvador usually avail themselves of a line to a buoy. For tankers berthing at 10 m. quay, a tug is usually supplied to help vessel moor and unmoor. When coming alongside tug joins vessel inside port.

The following tugs are available:

1 tug 400 h.p.	1 tug 600 h.p.
1 tug 200 h.p.	1 tug 650 h.p.
1 tug 300 h.p.	1 tug 150 h.p.

BERTHING: No restrictions, but if draft over 28 ft. some Pilots prefer to manoeuvre in daylight. Tankers at 10 m. quay may unberth at any time, but Pilots usually refuse to berth during hours of darkness because of the bad lighting on this length of quays.

The wharf at Bahia is protected by two breakwaters. There are two channels for vessels entering and leaving. On the wharf there are 11 sheds and between some of the sheds sheltered storage spaces. About 24 electric cranes are available on the quays, with lifting capacities ranging from 1.5 to 3.2 tons; there is one 5-ton crane in front of No. 11 Shed. New cranes with a capacity for 6 and 10 tons are also to be installed.

Heavy lifts are left on the wharf until taken delivery, or discharged directly to trucks.

The sheds are as follows:

		Depth at low water ft.
No. 1	Out of use	—
2	Only used for "Aid" cargo	23
3	Coastal vessels	23
4	Export cargo, foreign vessels	23
5	Import cargo, foreign vessels	23
6	Export cargo, foreign vessels	23
7	Import/Export cargo, foreign vessels	30
8	Export cargo, foreign vessels	30
9	Import cargo, foreign vessels	30
10	Export cargo, foreign vessels	30
11	Import cargo, foreign vessels	30

All warehouses (excl. No. 11) are fitted with overhead internal cranes.

There is also a length of quay (commonly called 10 m. quay – depth 31 ft.) on which there is no shed or equipment for the handling of general cargo. There are, however, 2 conveyor belt systems for loading magnesite and chrome concentrate. This quay is also used for loading other bulk ores with buckets, refrigerated meat, discharging sulphur and other bulk cargoes.

Explosives would be discharged into lighters at the proper anchorage for discharge of such cargo and taken to special deposits. Forewarning must be given for this cargo in order that arrangements may be made in advance.

Coal/coke are discharged directly to trucks at any of the warehouses.

All other goods are loaded/discharged at the wharf.

STEVEDORES: The Agents at Salvador act as stevedores.

The work at Salvador, especially loading, is considered amongst the best in Brazil, as a rule, sufficient gangs are available.

Masks, gloves are supplied by the stevedores. All other material such as slings, nets, etc., shall be supplied by the vessel.

The ordinary working hours are 0700–1100, 1300–1700 hrs., Mondays to Saturdays incl.

For overtime work, permission must be obtained in writing from the Customs and Rural Department. As it would be difficult to obtain permission before each overtime period, a general permission covering ship's stay in port shall be obtained prior to arrival.

1100–1300 hrs. Special permission must be obtained from the Dock Company which is only given to passenger vessels, or for cargo vessels to finish the cargo, or under special circumstances.

1700–1900 hrs. Continuation period. Advice must be given to workmen at 1645 hrs.

1900–2300, 0000–0400 hrs. Considered as night work. Advice must be given to the Dock Company at 1645 hrs. and to the stevedores at 1700 hrs.

2300–2400 hrs. same as 1100–1300 period.

0400–0600 hrs. Continuation period. Advice must be given to workmen at 0345 hrs.

0600–0700 hrs. Second night continuation period. Can be worked under special circumstances to finish the cargo. Vessels discharging/loading bulk cargoes, or loading/discharging reefer cargo, are allowed to work round the clock.

To work on holidays, advice must be given to the Dock Co. before 1700 hrs. the previous working day. For Sunday work advice must be given before 1100 hrs. on Saturday. The same applies for stevedores/tally/coopers.

CARGO INFORMATION: *Inward cargo.* When cargo is discharged from the vessel it is checked, weighed and weight noted by the shore tally-clerk (for account of the ship), by the Dock Company tally-clerk and by the Custom House. If there is a difference in weight, the ship is held responsible and has to pay double duty on same. Once the goods have been checked and weighed ship's responsibility ceases.

Goods are delivered to the consignees on presentation of the bill of lading to the Dock Warehouse.

Transhipment cargo. Foreign cargo for transhipment at Salvador must be so declared on the manifest, and after it has been discharged the Agents have to obtain special Customs permission to tranship it to the port destination and also sign a guarantee that the goods are going to that port and that duty will be paid there. They will be held responsible for that duty until a declaration issued by the Custom House at the port of destination is received by them and handed over to the local Customs.

Transhipment charges vary considerably with the type of cargo and are very high compared with foreign freights.

Outward cargo. Generally, cargo to be loaded is deposited in the dock shed prior to vessel's arrival.

Refrigerated cargo. All reefer cargo is discharged directly to trucks, and vice versa.

Dangerous cargo. Vessels with explosives and inflammables on board are not permitted to come alongside. All vessels carrying this kind of cargo must fly the "B" signal and remain at the proper anchorage. Advance notice must always be given of any vessel carrying explosives and inflammables. Under special circumstances it may be arranged for vessels to come alongside if they only have a minimum quantity of dangerous cargo on board, and the hatch in which it is stowed is not to be opened at Salvador.

When vessels are boarded by the harbour officials, the Master must hand to the Customs Officer and the Federal Police the Dangerous Cargo List.

Corpses as cargo. Notice should be given to the Port Authorities of such cargo carried, if possible, before vessel's arrival.

Vegetable oil in bulk. Vegetable oil in bulk is loaded directly from lighters where the oil is deposited prior to vessel's arrival. Vessels are usually required to supply steam for pumping when they can.

Loading and discharging rate. The average rate for loading bagged and baled cargo is 16–20 tons per gang per hour. (Tobacco has been loaded at 28 tons and cocoa at 30 tons per gang hour). Discharging rate of general bagged cargo is about 10 tons per gang hour.

Heavy lifts. For heavy lifts of more than 3 tons, a request shall be made to the Dock Co. to use the 80-ton capacity floating crane. Heavy lifts may also be discharged directly to the quay with the vessel's own gear when, due to a light draft (under 24 ft.), they can come directly alongside without the use of a pontoon. It is recommended that the Agent be consulted before booking any heavy lifts for Salvador as the heavy lift crane is sometimes out of working order.

Inflammables, fuel, & diesel oil, etc., as cargo. Bulk crude oil,

diesel, fuel, inflammables, lubricants, etc., are discharged at the Madre de Deus Terminal, which belongs to the Government owned Petrobras.

Damaged cargo. When cargo is discharged, damaged or pilfered, it is immediately checked and weighed by the Dock Co. and the Customs and separately stored.

The Insurance Co. makes a survey in the presence of the Dock Co. upon request of consignees.

Bulk wheat is discharged to two mills at Salvador, namely the "Moinho Salvador" and "Moinho da Bahia". Average discharging rates (23 hrs. work per day) are respectively 1,500 and 800 tons.

Handling of mail. Timely notice should be given to the Agents in case there is mail to be landed, stating the number of bags.

As regards outgoing mail the Agents will be advised by the Post Office if there is any and issue the Post Office Pass. The bags shall be placed at the quayside, loading being for the account of the ship.

MEDICAL: When vessels arrive over week-ends or during holidays advisable that Master cable Agent giving advance notice of medical attention required if case is serious. For routine medical attention no previous advice required as ample medical and hospital facilities available.

TANKERS: All tankers loading/discharging inflammables, lubricants, etc., must do so at the Madre de Deus Terminal, which is privately owned by Petrobras, the Brazilian Government-run oil company.

The Madre de Deus Terminal is a T-fashioned quay situated within All Saint's Bay, 18 miles from Salvador. All vessels calling at Madre de Deus must be cleared at Salvador where Agent and authorities board the vessel before proceeding to Madre de Deus. This terminal is equipped only to handle tankers. Water, bunkers and deballasting facilities are available.

Max. drafts are 41 ft. for vessels loading and 37 ft. for discharging, and length 240 m.

Five berths are available, pipe-line is 12 in.

PP1. Max. size 65,000 d.w.t. Depth 13 m.
PP2. Max. size 53,000 d.w.t. Depth 13 m.
PP3. Max. size 16,000 d.w.t. Depth 13 m.

These 3 berths can load or discharge both Crudes, White oils and Products. They are all fitted with deballasting facilities.

PS1. Max. size 4,000 d.w.t. Depth 7.5 m.
PS2. Max. size 2,000 d.w.t. Depth 5 m.

DENSITY: Salt water.

FRESH WATER: Advance information recommended. Rate 15 t.p.h. If several vessels are in need of supply, pressure may not be enough to supply all at once. No water barges available in the port, and all vessels are replenished alongside.

FUEL: Diesel oil can be supplied alongside at Salvador, directly from trucks to vessel, but fuel oil can only be supplied by Petrobras at the Madre de Deus Terminal, 18 miles up the bay.

Lubricants are supplied in drums. Also see "General" before first port.

DEVELOPMENTS: The normal dock quay has been joined to the 10 m. quay closing off a small basin. Dredging is presently being undertaken and vessels will be able to come alongside the new length of quays in the future with a draft of up to 30 ft. When the closed off basin has been completely filled in, new warehouses are to be built for the handling of dry cargo, The breakwater running parallel with the quays is being extended in its Northern end by about 280 m. Work however, on both these projects is comparatively slow, and it is impossible to foresee when either will be completed.

GANGWAY/DECK WATCHMEN: All foreign vessels must employ a gangway watchman by law. Hold watchmen are optional, depending on request by Masters/Agents.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCES: Customs officials will place cigarettes and "souvenirs" belonging to crew members under lock and seal. Excepting the Captain, each crew member may keep in his possession only one carton of cigarettes and one bottle of spirits with seal broken. The Customs will periodically renew the seals for vessels staying in the port for a lengthy period thus enabling new issues to crew.

LIGHTERS: Soc. Alvarengagem de Ilheus are operating four lighters in the port with a combined capacity for about 670 tons.

CONSULS:

Argentine	Germany	Portugal
Austria	Italy	Spain
Belgium	Mexico	Sweden
Bolivia	Netherlands	Switzerland
Denmark	Nicaragua	U.S.A.
France	Norway	Uruguay

REPAIRS: The Navy operates a dry dock at Aratu with the following capacity: 35,000 tons; length 230 m.; width 30 m.; depth 8.5 m. Various small vessels can be attended at the same time. There are a number of workshops in Bahia fitted for repairing vessels, but it is recommended that large repairs be effected at the Aratu dry dock. When time allows, repairs may be made whilst the vessel is alongside the wharf. There is no time-limit but, as a rule, a vessel is not supposed to remain idle at the wharf if the berth is needed for another vessel which has to load/discharge.

SURVEYORS: *Lloyd's Agent:* Cory Brothers & Co. Ltd., Avenida Estados Unidos 4 11° andar. Telephone 22858 and 22848.

Bureau Veritas: Harold Taxman, Tel. 20447.

American Bureau of Shipping: Harold Taxman, Tel. 20447.

REPATRIATION: All crew changes and repatriations made via Rio de Janeiro as Salvador has no direct air connections with foreign countries

AIRPORT: Airport is 31 kms. from centre of town. No direct flights to foreign countries but various daily connections available with Rio, S. Paulo, etc.

TIME: GMT minus 3 hours. From December 1st until March 31st all clocks are advanced 1 hour for Summer time.

HOLIDAYS: *1st January; 6th January; 7th February; *24th March; 21st April; *1st May; 25th May; 24th June; 2nd July; 15th August; 7th September; 2nd November; 15th November; 8th December; *25th December.

*Stevedoring labour always available but dock labour is not on the days indicated above.

POLICE/AMBULANCE/FIRE: Police Tel. 08 (Mobilised Police Service); Police Tel. 20194 (Maritime Police not mobilised); Ambulance Tel. 04; Fire Tel. 05.

TELEPHONES: No facilities available for placing telephones on board.

REGULATIONS: Rat-guards must be used at all times, as the Port Health make periodic inspections on the quay.

STORES: Ship chandler can supply meat, vegetables, tropical fruits, canned goods, etc., but no bonded stores for foreign goods available.

AUTHORITY: Capitao dos Portos.

AGENT: L. Figueiredo S/A. Rua do Pilar, 28. Tel.: 2-0663/64. Cables: "Dorabahia-SDR". Telex: 035838/9 (public booth).

SANTANA: 00.03 S. 51.10 W. (See Plan)

DOCUMENTS: See "General" before first port.

PILOTAGE: No Pilots available either for the North Channel entrance and/or for docking and casting off operations.

ANCHORAGE: In front of the port, protected anchorage between mainland and Santana Island, where vessels can safely anchor at any location. Bottom is mud.

As it is impossible to traverse the river from Port Santana to the open sea in one stretch, two places for anchoring are recommended by the Port Superintendent of Santana, (i) Punta de Ceu, and (ii) after passing Banco do Meio. At both places the river current is strong and unpredictable, but at the anchorage, after Banco do Meio, the vessel would have more manoeuvring room in the event of the anchor dragging.

RIVER NAVIGATION: At the entrance to the river in ballast the vessel should have a draft of about 17 ft. in order that the ship can be manoeuvred along the whole length of the river, even at low water. At this time the Captain has the opportunity to observe and carefully study all points necessary to navigate the vessel fully loaded outward bound.

The ship should be loaded up to 34 ft. 6 in. max. depending on the season.

The Santana Strait should be navigated only during daytime and with carefully controlled speed.

When loaded and outward bound, the Captain should study carefully the tides and direction of currents, and if necessary contact ICOMI Radio ZZK-5 for further instructions.

RESTRICTIONS: Vessels can depart at any stage of tide. Night transit in North Channel is at Master's discretion.

Channel transit restricted to 33 ft. in low water. Due to shifting of mud banks it is recommended that a set of up-to-date Brazilian nautical charts, covering from outer bar to Santana Port, should be used.

Tidal range on outer bar area is about 8 ft., on "Banco do Meio" area is about 16 ft. All data published on Brazilian nautical chart refers to average spring low-water tide.

The Brazilian Hydrographic Office publishes annual tide tables for Barra Norte do Rio Amazonas (Ilha do Brigue) 00° 55.0′ N. and 04.5 W., and Santana Roads (00° 03.4′ S. and 51° 10.8′ W.).

MAX. SIZE: On East side of floating ore pier, general cargo pier has a depth alongside of 30 ft. Along floating ore pier depth ranges from 35 to 90 ft. (at low water). 35 ft. on East end of pier. Tidal range about 9 to 11 ft. Tidal current at middle of river ranges from 2 to 3 knots, while close inshore along ore dock it runs approximately 1-1.5 knots. Amazon river water at Santana is fresh in spite of tides.

HEALTH: Health authorities visit vessel arriving from abroad. Authorities require regular ship's gangway to be lowered. Jacob's ladders not accepted. After Master having handed over Declaration of Health, medical authorities issue free pratique. If entering after calling at another Brazilian port, free pratique automatically granted. Also see "General" before first port.

RADIO: Vessels scheduled to load ore at Santana must radio Belem (Para) Agents (preferably via Chatham or Amagansett Radio) at least 48 hours prior to ETA North Channel. Other means of communication not satisfactory and result in delay. ICOMI maintains own radio-telegraph service between Macapa and Belem. Macapa station located at port of Santana, call letters ZZK5, sends on 6765 kc./s and receives on 6200/6400.

TUGS: No tugs available.

BERTHING: *Private Floating pier:* Length 247 m. Depth of water 18 m. A retractable loading arm loads Manganese at a maximum rate of 1500 t.p.h.

Macapa pierhead: Length 18 m. Depth of water 12 m. Fitted with a 50 ton crane, and used for general cargo handling.

Recommended that amidship hatches be used for Santana cargo. Vessels berth according to direction of tidal current. Berthing operations assisted by a motor craft to place lines on shore, East of pier. On West side, lines moored to the bitts on floating fender. Linesmen available to assist berthing and shifting. Ore carriers have preference when docking.

When berthing, use of the anchor must be avoided except in an emergency. This facilitates shifting the ship during loading and also when leaving the berths. Because of the strong current, the confined space for entering the berths and 50-60 m. depth of water, the anchor is not easily lifted and the ship is exposed to the danger of drifting to the adjacent bank.

STEVEDORES: Stevedores come from Macapa about 25 km. by road from the port. Also checkers and coopers. Conveyor belt for ore loading fixed, consequently vessels must be shifted by own winches to load various hatches. Effective average loading rate 1,000–1,100 long t.p.h. Special caution must be taken not to pump all ship's ballast before loading starts, since the height of boom is 40 ft. above water level. Cargo belt trimmed only. Hire of trimmers is for ship's account and is performed at anchorage.

MEDICAL: Medical attention may be arranged at Macapa through ship's Agent.

TANKERS: Discharge at the Dolphins Pier, about 150 m. West of floating pier. Pipe-lines lead to tanks ashore (distance from pier 1,000 m.). Storage tanks have capacities for 35,000 barrels of diesel oil, 9,500 barrels of gasoline and 60,000 barrels of fuel oil. Discharge of different bulk liquids effected after flushing pipe-line. Vessels liable to fines, by Port Captaincy, for bulk liquids discharged in port areas.

DENSITY: The Amazon river water at Santana Port is fresh water at any stage of tide. The temperature of river water being normally around 82° F. makes it possible that a density below 1,000 may be found. Checking density during load operations is recommended.

FRESH WATER: No drinking water available.

FUEL: Fuel oil available through Texaco Brazil. Delivery is by road tanker. Also see "General" before first port.

GANGWAY/DECK WATCHMEN: Watch by crew members sufficient.

OPENING/CLOSING HATCHES: Ore-carriers: service carried out by crew. General cargo vessels: service executed by stevedores.

CUSTOMS ALLOWANCES: Limited quantity for use during ship's stay.

CARGO GEAR: No additional requirements as to gear. A heavy-lift stiff leg derrick mounted on the pier. Boom: 60 ft., Mast: 37 ft. 6 in., Capacity: 65 metric tons. Mobile crane (maximum lift 2.5 tons) available for discharge of general cargo from small vessels.

IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on dis-embarkation to the Federal Police who will return it to the crew member on re-embarkation.

CONSULS: None. Documents which are to be visaed by a Consul must be sent to Belem.

REPAIRS: Only in cases of extreme emergency and then only minor repairs.

REPATRIATION: Effected by ship's Agent. No Immigration authorities at Macapa.

AIRPORT: Macapa airport 25 km. from Santana near city of Macapa. Numerous scheduled domestic flights from Macapa to Belem, a trip of 1 hour and 15 minutes.

TIME: GMT minus 3 hours. Summertime (one hour forward) as from November 1st till February 28th.

HOLIDAYS: New Year's Day (January 1st); Tiradentes (April 21st); Martyr of Independence; Labour Day (May 1st); Independence Day (September 7th); Proclamation of the Republic (15th November); Christmas Day (December 25th).

TELEPHONES: No facilities for placing telephones on board.

GENERAL: Port of Santana: For establishment of tide times at Santana (00° 03′ 26″ S.–51° 10′ 58″ W.), 40-45 minutes must be added to the times shown in the tables for Macapa.

Alongside the ore-loading pier, the tidal current continues to run for 10-15 minutes beyond the time computed from the tables. In mid-stream, the delay in the change of current is 60-90 minutes.

Vessels can dock or depart at any time without regard for tidal conditions.

SHIPMASTER'S REPORT: (1975) (Including information on Barra Norte do Amazonas.)

Courses: Recommended by Santana Port Superintendent to enter Barra Norte:

01° 30′ N., 49° 44′ W. to 01° 15.5′ N., 49° 34.7′ W. 254°–074°
01° 15.5′ N., 49° 34.7′ W. to 01° 10.3′ N., 49° 37′ W. 204°–024°
01° 10.3′ N., 49° 37′ W. to 01° 05′ N., 49° 43.5′ W. 231°–051°
01° 05′ N., 49° 43.5′ W. to 01° 01′ N., 49° 44.6′ W. 195°–015°
01° 01′ N., 49° 44.6′ W. to 00° 45′ N., 50° 03.5′ W. 230°–050°
Off Ponta Ceu

Courses on river agreed by Port Superintendent:

Recommended Position	Course
00° 45.0′ N., 50° 03.5′ W.	257°
00° 40.9′ N., 50° 22.7′ W.	222°
00° 36.8′ N., 50° 26.2′ W.	185°
00° 26.4′ N., 50° 27.1′ W.	204°
00° 20.5′ N., 50° 29.8′ W.	233°
00° 17.0′ N., 50° 34.3′ W.	242°
00° 10.8′ N., 50° 45.7′ W.	260°
00° 09.3′ N., 50° 54.3′ W.	228°
00° 04.4′ N., 50° 59.5′ W.	211°
00° 02.0′ S., 51° 03.4′ W.	227°
00° 03.1′ S., 51° 04.6′ W.	242°
00° 03.7′ S., 51° 05.7′ W.	275° into Santana River

Buoy No. 1 (Barra Norte Buoy) found to be in 01° 03′ N., 49° 45.2′ W., Buoy No. 2 found to be in 00° 55.08′ N., 49° 49.93′ W. Racon will be operating soon.

Documents:
5 Crew Lists.
3 Vaccination Lists.
3 Stores Lists – Deck, Engine and Provisions.
Health Declaration.
Passenger, or nil-Passenger List, indicating vessel in ballast.

Anchorages: Any location in Santana River. This vessel anchored 0.5 miles to West of jetty, depth varying from 126 to 160 ft. under the keel depending on state of the tide. The vessel held well without dragging with 5 shackles in the water. If necessary to anchor in the main river, recommended to anchor outside the main channels in order to avoid the main current.

Health: Officials board at the anchorage. Accommodation ladder required. Doctor, Agent and representative of Federal Police (Immigration). Doctor attends to quarantine clearance, and will also attend to sick crew members and arrange any necessary vaccinations for smallpox or yellow fever.

Berthing: Density of water at berth 995. Loading rate 650 t.p.h. This vessel loaded 14,637 long tons in 29 hours 30 minutes, but 4 hours were lost in shifting up and down the berth, and 3 hours for meal breaks.

Radio: Radio Officer's Report: Notes for the guidance of ships calling at Santana, Macapa Territory, Brazil.

There are many possible ways of obtaining communication with Santana, however it is suggested that the 3 most probable ways are:

(1) Through the United States using station WSL (Amagansett) or station WCC (Chatham). This is the most expensive way and also difficulty was experienced in maintaining schedules when approaching the Brazilian Coast due to the great distance involved. If this method is used the telegram must be addressed to ICOMI, Santana, Macapa, Brazil, otherwise delay in delivery may be experienced as there are at least 5 other Santana's in Brazil.

One major point in favour of using this method is that communication with the USA is possible from European Waters. All information regarding frequencies, schedules, etc., is contained in Admiralty List of Radio Signals, Volume One.

(2) Using station PPR (Rio de Janeiro). Depending on propagation conditions it should be possible to maintain schedules with this station from about 4–5 days out from the Amazon Mouth. This is the only Brazilian station with HF capability and it has a direct Telex link with Santana. This station is cheaper to use than going through the USA and is probably the better of the two methods so far mentioned, especially if communication is not necessary until nearing the Brazilian Coast. As above, all pertinent information can be found in Admiralty List of Radio Signals, Volume One.

(3) Using the ICOMI private radio station call-sign ZZK5. This station operates on 6765 mHz. and listens on the band 6200 mHz.–6400 mHz. at 0930, 1230, and 1530 hrs. Brazilian time, i.e. GMT minus 3 hours. At all other times he works an internal communications network and does not listen out for Ship stations calling on this band.

It is possible to hear ZZK5 at about 3 days out from the Amazon Mouth, however, it must be pointed out that this vessel was unable to make a schedule with him even after many hours of repeated calling. Also, under normal conditions, this station does not use his call sign when maintaining internal communications and some difficulty was experienced in identifying him. However he works almost continuously using a "Bug" Key and this may be of some help when trying to pick him out.

Whilst alongside in Santana this vessel, by previous arrangement, made a communications test with ZZK5 which proved to be very satisfactory. The standard of morse was very good and the operator spoke quite good English.

Note: After leaving Santana schedules were maintained in the mornings at 0930 hrs. and in the afternoons at 1530 hrs. both on Brazilian local time, until this vessel was some 500 miles out. At this time ZZK5 was still readable but getting weak, however he was still giving this station a readability of 5 and a signal strength of 4/5. No further communication was attempted after this time. This station, ZZK5, being privately owned makes no charge for official messages transmitted to and from it.

Note 2: It is suggested that the Brazilian Coast Stations be left severely alone as making communications with them proved to be almost impossible.

This vessel did work one station which proved to be an experimental station on the Embratel Net (PPL2) which is just being set up. The operator spoke English and was kind enough to relay, free of charge, one of our messages to his parent station PPL whom we had been calling for hours with no response. PPL2 listens on 500 kHz. and uses for his working frequency 438 kHz.

The ICOMI Agent in Santana informed us that the Brazilian Government was in the process of setting up a new network, of which PPL2 is part, which would have M/F, H/F, W/T and R/T facilities as well as VHF. This should prove to be a more satisfactory arrangement but unfortunately it is not due to come into service until at least 1976.

Fresh Water: Available when not required for the loading belt, that is when cargo is not being loaded, but the rate is very slow being about 5 to 10 t.p.h. Good quality water.

Shore Leave: No restrictions during this visit. No shore passes were issued.

Mail: 2 deliveries of 2 packages received during our stay. Mail from the ship is sent by air to Belem agents for forwarding. Cables are sent by the Santana Agent by telephone to Belem for forwarding.

Tide Tables: Brazilian tables show HW Barro Norte for Ilho do

Brique (00° 55′ N., 50° 05′ W.). HW off Pta do Guara is 2 hours earlier. HW outer bar (01° 15′ N., 49° 10′ W.) is 4 hours earlier. British Admiralty Tide Tables show HW Barro Norte for 01° 36′ N., 49° 09′ W., also for Ilho do Brique 00° 55′ N., 50° 05′ W. Vessel, according to Brazilian Tide Tables obtained at Santana, entered the Barro Norte on the 11th January at LW steaming against the ebb from the outer bar to the Banco do Neio. Echo sounder showed minimum 10ft. under keel. Outward bound on the 16th vessel left about 3 hours before LW Santana to reach Banco do Neio about 2 hours before HW Ilho do Brique. However, better speed in river transit resulted in arriving Banco do Neio about LW Ilho do Brique. Decided to proceed seawards as conditions favourable. Echo sounder showed minimum 10 ft. under keel. Admiralty Pilot states Amazon rises this time of the year due to snow melting in the Andes during the Northern summer, this results in big increases in water depth.
Shippers: Industria Comercio de Minerios S/A. Icomi. Cable: Icomi – Santana Macapa.
AUTHORITY: Industria e Comercio de Minerios S.A.–Ycomi.

SANTEREM: 02.25 S. 54.43 W.

Also see "General" before first port.

Santerem is located on the right bank of the Tapajos River which joins the Amazon River.
BERTHING: *Old Port:* Wood Jetty length 150 ft., width 15 ft., depth 12 m. at HW, 6 m. at LW. Jetty faced with spring-piled fender 3 ft. off jetty and 18 ft. above water level.

New Port: Pier, length 200 m., width 25 m. The ramp leading to the shore is 60 m. long and 9 m. wide. Cranes are to be installed. Minimum depth of water alongside, 32 ft. Rise and fall of seasonal tide 6 m. Height of pier above water 1–7 m. Depth for small vessels 3–9 m.

There are at present two 6 ton cranes, with plans to install a further four.

The principal export is meat which is delivered by road. A cold store is to be built.
FUEL: Fuel oil available at Petroleo Sabba private wharf. Also see "General" before first port.
AUTHORITY: Port Captain.

SANTOS: 23.56 S 46.19 W. (See Plan)

DOCUMENTS:
The following documents, etc., are required to be presented to the authorities upon ship's arrival.

To Port Health Authorities:
1 Crew List
1 Free Pratique Certificate from the first Brazilian port of call, if any.
1 Maritime Declaration of Health (only at the first Brazilian port). Deratization Certificate.

To Federal Revenue Bureau (Custom House):

Envelopes addressed to the Federal Revenue Bureau containing a cargo manifest and copies of Bills of Ladings covering cargo loaded at foreign ports, or a negative manifest if no cargo loaded for Santos. Envelopes for the Federal Revenue Bureau – from Federal Revenue Bureau's Delegates of every Brazilian intermediate port of call following the same procedure. Tankers are permitted to bring bulk petroleum products on 1 manifest "for Brazil", although cargo may eventually be discharged at 1 or more Brazilian ports. In the latter case, the original manifest is visaed by the Federal Revenue Bureau at each discharging port, is kept on board and delivered to the Federal Revenue Bureau at the last discharging port.
3 Crew Lists.
3 Store Lists (Deck, Engines, Cabin, etc.)
3 Lists covering Crew's belonging.
1 Copy of each of the above Lists duly visaed by the Federal Revenue Bureau of the previous Brazilian port of call, if any.
Federal Revenue Bureau's Pass from the last Brazilian port of call, if any.
Statement of Cargo Discrepancies, also 1 List giving the name of all preceding ports of call with dates of arrival and sailing, respectively

To Maritime Police (DOPS):
3 Crew Lists plus 1 visaed by the Maritime Police authorities of the last Brazilian port of call, if any.
2 Stowaway List and Declaration (if stowaways found on board).
1 Captain's General Information Report covering the number of passengers on board for Santos, or in transit from each foreign port of call, also the number of Crew members.
Maritime Police Pass from the last Brazilian port of call, if any.

To Port Captaincy:
Port Captaincy's Pass from the last Brazilian port of call, if any.

The Captain must also fill out an Arrival Declaration giving all data concerning his vessel as well as the number of crew, passengers on board, ports of call, cargo loaded for this port, Agents, etc.

To Post Office: Mail lists or mail passes from every port of call.

Passengers to land or in transit:

Whenever there are passengers on board, the following additional documents are required:

Passengers Disembarking:
2 Passenger Lists together with individual baggage declarations, in duplicate, for the Federal Revenue Bureau.
2 Passenger Lists for the Health Authorities.
3 Passenger Lists and Individual International Embarking/Disembarking Cards, duly filled out, for the Maritime Police.

Passengers in Transit:
2 Passengers-in-Transit Lists for the Port Health Authorities.
1 List for the Maritime Police visaed by the Maritime Police Authorities of the last Brazilian port, if any.

PILOTAGE: With the new buoyage for the delimitation of the anchorage areas on the bar, pilotage services are compulsory from the parallel 24° 02′ 00″ between the Morro da Munduba and the Ponta de Itaipu up to the Piacaguera Channel except for ships going to the anchorage areas No. 5, 6 and 7, marked on the Brazilian Maritime Chart DHN 1701 (5th Edition), where vessels must remain whilst awaiting Pilots.

ANCHORAGE:

Area No. 5: Anchorage for ships with a maximum of 100 m. length and a max. draft of 5.79 m. (19 ft.).
(a) 24° 00.0′ S. 46° 19.6′ W.
(b) 24° 00.0′ S. 46° 19.9′ W.
(c) 24° 00.5′ S. 46° 20.1′ W.
(d) 24° 00.5′ S. 46° 19.6′ W.

Area No. 6: Anchorage for ships up to 180 m. long and with a max. draft of 9.75 m. (32 ft.).
(a) 24° 00.6′ S. 46° 19.7′ W.
(b) 24° 00.6′ S. 46° 20.1′ W.
(c) 24° 01.5′ S. 46° 20.5′ W.
(d) 24° 01.5′ S. 46° 19.7′ W.

Area No. 7: Anchorage for ships over 180 m. in length and a max. draft of 9.75 m. (32 ft.).
(a) 24° 00.6′ S. 46° 20.7′ W.
(b) 24° 00.6′ S. 46° 22.2′ W.
(c) 24° 02.0′ S. 46° 22.2′ W.
(d) 24° 02.0′ S. 46° 21.3′ W.

Area No. 7: Ships over 180 m. long and with a draft over 9.75 m. (32 ft.) should at anchor at:
24° 02.0′ S. 46° 20.7′ W.

Note: Anchorage out of the delimited areas is forbidden. The entrance channel to the port must always be kept free for navigation.

Non-observance implies fines, according to the Rules for Maritime Traffic.

During navigation of the channel, speed must be reduced to a maximum of 6 (six) knots.
RESTRICTIONS: The access channel and port area have been dredged to 13 m. and dredging will continue to a depth of 13.5 m. However, depth alongside the deepest general cargo quay does not exceed 31 ft. 6 in. at high water, and can be as low as 27–28 ft. at low water.
MAX. SIZE: Regulations in force stipulate that vessels drawing max. 28 ft. and not exceeding 750 ft. in length may enter/leave the port at any state of tide, day and night. Those drawing 28 ft./30 ft. are subject to tide. These are the official drafts for the port, however in practice, depending on tide, vessels up to 32 ft. may also enter/leave the port.
RADIO: Santos Coastal Station, VHF Channel 16. Working 24, 25 26 and 27. S.S.B. facilities will be available at a later date.
HEALTH: Port Health Authorities consisting of one doctor and one assistant will check all vaccination certificates and issue a free pratique pass, which shall remain on board for presentation at subsequent Brazilian ports of call. Masters can obtain free pratique by radio, which does not mean that the doctor will not come on board, but only that other authorities can board the ship before his arrival.

Free pratique by radio: Master should radio to Agent (in Portuguese) as follows: "Para Sa Portos condicoes sanitarias a bordo satisfatorias" (Master's name) which means: "Sanitary conditions on board satisfactory". *N.B.* "Sa Portos" is the cable address of Port Health Authorities.
TUGS: Seven tugs available, equipped with two radios (VHF Channels 10, 13 and 16). Up to 1,360 h.p.

Tugs' service for mooring/unmooring not compulsory and depends on Master's decision with Pilots' advice.
BERTHING: The length of the available quay wall is as follows:

General cargo from abroad	4,070 m.
Coastwise general cargo	246 m.
Bulk cargo: liquid	1,512 m.
Bulk cargo: solid	1,809 m.
For yachts and other small craft	462 m.

Depth alongside quays:

Warehouse	No. 1	to No. 12	– 7 m.
,,	No. 12–A	to No. 22	– 11 m.
,,	No. 24	to No. 27	– 8 m.
,,	No. 29	to No. 37	– 11 m.
,,	No. 38	to No. 39	– 13 m.

Alamoa Terminal	12 m.
Saboo Quay	10 m.
Barnabe Is. (inflammables)	10 m.
Conceicaozinha Terminal	13.5 m.

Wharves. Total length 6,013 m. inner Harbour (Saboo New Quay) 800 m. (depth 11 m.). Barnabe Island pier 300 m. (depth 10 m.).

Special cargo handling facilities. Refrigerated cargo: Refrigerated cargo after discharge is deposited in the cold storage (between warehouses 23 and 25). The Receiver is usually responsible for cartage and storage arrangements as well as for the required temperature to be maintained in cold chambers.

Bulk cargo. Grain elevators: There are 3 elevators in Santos from which wheat can be discharged direct into freight cars, owned by: Cia. Docas (with external silos) between Sheds 25 and 26; Moinho

Paulista between Sheds 12A and 13; Moinho Santista between Sheds 8 and 9.

Cosipa Terminal, depth 10 m.; Ultrafertil Terminal, depth 10 m.

Fertiliser, sulphur, etc, in bulk can be discharged at any point along the quay where 6-ton cranes equipped with automatic motor-driven grabs or shovels are in operation. Alternatively, cranes with ordinary hand-filled buckets are used. The usual place for handling this type of cargo is by the Saboo bend.

Heavy lifts: Cia Docas operates 2 floating cranes – one 60 ton and one 150 ton. The 150 ton crane reaches 22 m. in height and can handle lifts within a radius of 10 m. 2 cranes of 250 tons and 65 tons respectively, have been recently installed.

Special/valuable cargo: Special or valuable cargo, objects of art, precious metals, etc., are discharged without special formalities and may be kept in Shed 12A, where there is a special safe.

BULK HANDLING FACILITIES: The Ultrafertil Terminal is situated East of the Cosipa Terminal and both make use of the same manoeuvring basin with depth of 10 m., connected with the Port of Santos by a dredged channel 8 km long, 10 m. in depth and 60 m. in width.

Cosipa Terminal consists of a pier 150 m. in length and 22 m. in width, built on concrete tubing, with a depth of 10 m., allowing for the berthing of vessels of up to 22,000 d.w.t. Future plans foresee the lengthening of the pier to 250 m. and a depth of 13 m., enabling it to receive vessels of 45,000 d.w.t.

Equipment for the discharge of coal and ore is installed at the pier, capable of handling 600 t.p.h., as well as equipment for the loading of steel plates produced at the plant.

Ultrafertil Terminal is an open dock in the form of an "L" built on concrete tubing, 240 m. in length and 15 m. in width. At its main point, vessels of 23,000 d.w.t. and drawing 10 m. may berth. The secondary point permits the berthing of vessels of up to 3,000 d.w.t. (liquid gas carriers).

The terminal is especially equipped for the discharge of bulk solids at a rate of 500 t.p.h. and is likewise equipped with pumps and adequate pipes for the discharge of liquified gas.

Macuco Novo Quay: Export terminal for cereals. Length 280 m. Max. draft for vessels is 13 m. Storage capacity 60,000 tons. Loading rate 3,000 t.p.h.

Container Terminal at inner part of port. Equipped with 3 heavy weight shore cranes, capacity 30 tons each. Loading/discharging rate: 20 pallets per hour, using fork lifts.

STEVEDORES: All longshoremen are in employ of Cia. Docas, which holds charter for general operations at Santos Docks. Their services can be requisitioned up to 1500 hrs. for vessels at berth/expected to berth next day. Stevedores ordered but not used shall be paid full day or night. Therefore, if the men should be kept standing by (inactive) at 0700 hrs., their period runs up to 1700 hrs., and at 1900 hrs., their period runs up to 0400 hrs.

Port Workers: In Brazilian ports there are 2 categories of workers engaged in handling cargoes in loading and/or unloading ships, namely:

Longshoreman: In the employ of Dock Company, to work ashore operating the cargo from the ship's tackles to the warehouse or to waggons, lorries, etc. as well as in the reverse operation.

Stevedores: They are called "autonomous" because they have no ties of fixed employment and they are engaged by Shipowners or their Agents to work on board the ships in loading and/or unloading operations. They are professional and qualified workers grouped in their respective syndicates or trade union.

FRESH WATER: Adequate supply of fresh water is always available from hydrants along the quay (day and night) or from water-barges (Piloes). Water barges cannot supply more than 2 ships per day, their capacity being only 250 tons, which can be pumped into the ship's tanks at the rate of 80 t.p.h. Cia. Docas should be advised 24 hours in advance, priority being given to passenger vessels.

FUEL: MFO, MDF, and gas oil can be supplied at Vallongo by Shed No. 1 or at the Saboo New Quay Extension, or by barge, if up to 300 tons. Applications for supplies should be made a few days in advance to avoid delay in delivery.

TANKERS: Discharge terminals at Saboo Quay, Alamoa and Ilha Barnabe.

Alamoa Terminal: Allows simultaneous mooring of 2 tankers with capacity of up to 50,000 d.w.t. Length of wharf 630 m. Depth of 12 m. at LW. Sixteen "Chiksan" arms available. Unloading rate 500–2,000 t.p.h.

Ilha do Barnabe: Length of dock 301 m., depth 10 m. The dock is used for loading, unloading and storage of liquid fuel.

REPAIRS: There are several workshops at Santos; however only capable of handling small jobs. Complicated engine repairs should be avoided as much as possible.

SURVEYORS: Practically all the Classification Societies are represented in Santos. Hold and derrick inspections as well as cargo surveys, are executed expertly, among others, by Perimar Ltd. a surveying firm which also performs testing, sampling and technical research. Its address is: Rua Amador Bueno, No. 38, conj. 91, 9th floor, P.O.B. 624, 11.100 Santos. Telephone 35.2677. Telex 013–1213. Cables: Perima Santos.

P & I Clubs: Most associations, British, Scandinavian, Polish, Japanese and Greek are represented by Pandibra Ltda. at the following address: Rua XV de Novembro 65, 8th Floor, P.O.B. 550, 11.100 Santos. Telephone Exchange No: 34.7228. Telex: 013–1248. Cables: Pandibra Santos.

WATCHMEN: Masters of vessels may at their own discretion have crew members posted as watchmen, but are strongly recommended to have shore people for the job, specially when vessel is carrying any kind of pilferable cargo.

OPENING/CLOSING HATCHES: May be performed by ship's crew or by stevedores.

CONSULS: The following countries are represented in Santos:

Italy	Chile	Panama
Denmark	Argentina	Greece
Finland	Belgium	West Germany
Paraguay	Uruguay	Norway
Portugal	El Salvador	Bolivia
France	Holland	
U.K.	Sweden	

DEVELOPMENTS: Dredging operations being carried out in order that vessels up to 45,000 tons with a draft of 12.3 m. can come into the port and go alongside Conceicaozinha. As a second phase, this dredging will be extended to the estuary to attain a depth of about 14 m. From this locality up to the Cosipa channel, the dredging should reach a depth of 12 m.

For the prolongation of the Macuco Quay, a depth of about 13 m. is contemplated. A section of another 375 m. with a depth of 11 m. and another of 230 m. with a depth of 13 m. will be made in an extension of 605 m.

A sugar export terminal is to be constructed within the port.

A grain terminal is to be built on the left bank. The depth at the quay will be 13.5 m. and will be able to receive vessels of 76,000 d.w.t. The capacity of the silos to be 100,000 tons.

AIRPORT: Situated at Sao Paulo, about 70 km. from Santos. Full international services.

TIME: GMT plus 3 hours.

HOLIDAYS: No work is accepted on the following days: Christmas Day; New Year's Day; Independence Day; Proclamation of the Republic Day; Easter; Good Friday; May 1st.

On Christmas Day, no work available except on passengers' luggage. Working overtime on holidays is possible provided application is made not later than 1500 hrs. on the preceding day. On Sundays work stops at 1900 hrs. for freighters, and is allowed to continue for passenger vessels when only handling luggage.

IDENTITY CARDS: I.D. cards not required.

TELEPHONES: Every vessel berthing between Sheds 1 to 30 will have a telephone on board, available only for local calls.

GENERAL: Flags to be shown by incoming/outgoing vessels: (*a*) National flag. (*b*) Brazilian flag. (*c*) Yellow flag – (Q) (whenever doctor's clearance is required and up to obtainment). (*d*) Customs flag (blue with a white star – to be flown 24 hours a day, after clearance is granted.)

AUTHORITY: Centro de Navegacao Transatlantica de Santos.

AGENT: L. Figueiredo S/A. R. Visc. Rio Branco, 2. Tel.: 3-8177 (PABX). Cables "Doralice". Telex 022841. P.O. Box 813.

SAO FRANCISCO DO SUL: 26.10 S. 48.34 W.

DOCUMENTS: See "General" before first port.

PILOTAGE: Not compulsory. Pilots join vessel at the Island Ilha da Paz about 5 km. East of bar, Pilot comes from inside with boat. Cables informing ETA to Agent.

ANCHORAGES: Channel low tide 30 ft. high tide 35 ft. Port: low tide 20 ft. high tide 23 ft.

RESTRICTIONS: Bar draft: max. 23 ft. Bottom: bar, channel and port: sand and mud. Speed of current: channel low water 4 knots high water 5 knots. Note: Reports received in August 1976 indicate that the bar has now been dredged to a depth of 8.50 m.

HEALTH: Vessel must present free pratique issued at first call-port. Port's doctor will visit vessel.

RADIO: Call Agent. Sao Francisco do Sul, via Florianopolis Radio.

TUGS: Two tugboats for shifting ships and barges.

BERTHING: Quay No. 1. Length 450 m., Quay No. 2. Length, 150 m. Depth alongside varies from 6.5 m. to 8 m.

CRANES: 7 cranes available with capacities between 3 and 8 tons.

STEVEDORES: Sufficient working force available, working hours 0700–1100, 1300–1700 normal period; 1700–1900 days-overtime; 1900–2300, 2400–0400 night-working; 0400–0600 night-overtime.

MEDICAL: Medical attendance available, 2 hospitals, all medical care available.

FRESH WATER: 13 hydrants on quays 1 and 2, American type thread 2 in., capable of supplying 14 to 30 t.p.h. Also a private water barge of 100 tons capacity.

FUEL: Oil for boilers, diesel engines, and gasoline are distributed by a private firm, Distribuidora Maritime Porto de Sao Francisco Ltda. by tanker trucks, coming from Itajai, where orders must be placed 12 hours in advance.

DEVELOPMENTS: An SBM terminal is under construction at Sao Francisco do Sul for Petrobras.

The terminal will handle tankers of 250,000 d.w.t. Discharging crude oil. The SBM is located 8 km. off the coast of Babitonga Bay, and the storage tanks at Enseada beach.

The bar is expected to be dredged to a depth of 9 m.

A new grain terminal is expected to be completed by 1979.

WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: By stevedores.

CUSTOMS ALLOWANCE: 1 package of 200 cigarettes, and one bottle of spirits each man.

CONSULS: Chile.

REPAIRS: Deck and engine repairs possible, workshop in town.

REPATRIATION: No facilities for changing crews.

AIRPORT: None, nearest in Joinville, with regular traffic, about 40 miles distant.

HOLIDAYS: 1st January; 21st April; 1st May; 7th September; 15th November; 25th December; Holy Friday; Corpus Christi; 8th September; 8th December.

TELEPHONES: Available at dock entrance.
AUTHORITY: Port Captain.
AGENT: Empresa Maritima e Comercial Ltda., Rua Babitonga, No. 179, Post Box 43, Sao Francisco do Sul, State of Santa Catarina, Brazil. Cable "Maritima", Sao Francisco do Sul and "Realloyd" Tel. 161, 273, 139, 162.

SAO LUIZ, Maranhao: 02.30 S. 44.07 W.

(Including port of Itaqui, situated six miles by sea from Sao Luiz).

DOCUMENTS: See "General" before first port.
PILOTAGE: Approaching coast, the Master must inform Agency via Radio Marinha de Sao Luiz – PWM or cable directly to Pilot service, cable address: "Praticagem S. Luiz". No VHF available. Pilot launch painted red and provided with conventional lights. Launch awaits at Ponta D'Areia. Vessel to notify Pilot service of ETA 12 hours. before arrival.

The Pilot boards in position 02° 29′ 09″ S., 44° 20′ 01″ W.

ANCHORAGE:

Sao Luiz: The following areas are reserved for the anchorage of vessels awaiting to enter port.

(a) Location No. 1 for vessels of more than 2,000 g.r.t., up to 21 ft. draft and 135 m. overall (this is the nearest anchorage to the town).
Location No. 2 for vessels up to 18 ft. draft (and that which follows No. 2).
Location No. 3 for vessels up to 18 ft. draft (is the nearest to the bar).
These anchorages are situated between the parallels of 02° 30′ 5″ S. and 02° 31′ 5″ S.

(b) Vessels impounded or requiring extensive repairs:
Vessels up to 10 ft. – Lat. 02° 31′ 9″ S. Long. 44° 18′ 7″ W.
Larger vessels: Lat. 02° 30′ 0″ S. Long. 44° 20′ 0″ W.

(c) Anchorage for vessels of less than 2,000 g.r.t. To the South of the partly submerged hull of the *Maria Celeste* between the State Warehouse and the Customs Warehouse.

(d) Vessels in quarantine: Lat. 02° 29′ 5″ S. Long. 44° 20′ 5″ W. Vessels may not anchor in the approach channel or the turning basin.

Itaqui: The following anchorage zones for vessels arriving at Itaqui:

(a) Vessels over 5,000 g.r.t.: Lat. 02° 35′ 5″ S. Long. 44° 22′ 4″ W.
(b) Vessels impounded or requiring extensive repairs: Lat. 02° 35′ 1″ S. Long. 44° 22′ 3″ W.
(c) Vessels in quarantine: Lat. 02° 35′ 4″ S. Long. 44° 23′ 3″ W.
(d) Inspection anchorage: Lat. 02° 35′ 2″ S. Long. 44° 22′ 4″ W.

RESTRICTIONS:

Sao Luiz: May only be entered during daylight hours and near high water.

Itaqui: Cargo vessels may moor any time during the day or night depending on the state of the tide. Vessels bound for the oil terminal may only berth on the rising tide during the day. Berthing should commence one hour before high water.

HEALTH: (See "General" before first port.) Health Authorities visit compulsory, due to disinfection by Yellow Fever Service.

Tankers bound for the oil terminal will be inspected at the terminal after mooring is completed.

Vessels awaiting berths will be inspected at the inspection anchorages.

RADIO: Radio Marinha, code PWM, may be used for any message to the Agent.

TUGS: *Sao Luiz:* One tug 50 h.p. available.
Itaqui: None.

MAX. SIZE: For port of Itaqui, max. draft at LW is 31 ft. At HW, depth of 45 to 48 ft. available depending on height of tide.

BERTHING: *Sao Luiz:* See "Anchorage".

Itaqui: New quays in use and under construction, over 400 m. length. Initially vessels will use own gear for loading/discharging pending completion of port facilities.

CRANES: *Sao Luiz:* 8 portal cranes (2×6 tons, 6×3 tons) 1×50 tons, 2×3 tons, 1×6 ton on order.

BARGES: *Sao Luiz:* Eleven barges of 60 tons, five barges of 80 tons and one barge of 150 tons capacity. There are also five oil barges with a total capacity of 1,090 tons.

TANKERS: Discharge at port of Itaqui. One berth for up to 32 ft. draft.

Tank Capacities:

Esso, Gasoline 20,000 barrels; Diesel 15,000 barrels; Kerosene 20,000 barrels.

Texaco, Gasoline 25,000 barrels; Diesel 20,000 barrels; Aviation kerosene 10,000 barrels.

Petroleo Saba, Gasoline 20,000 barrels; Diesel 25,000 barrels; Kerosene 5,000 barrels; Fuel oil 20,000 barrels.

STEVEDORES: On rjeipt of vessel's ETA Agent provides the necessary gangs. Master to mention in his ETA cable the distribution in cargo hold enabling Agent to arrange for number of gangs required. When loading or discharging bagged cargo an average of 4,000 bags per eight hours work per gang handled.

MEDICAL: Advance notice by radio preferred, since medical assistance in S. Luiz is limited to one general clinic and three hospitals.

FRESH WATER: *Sao Luiz:* Fresh water available by barge, rate 60 tons per day. There is also an outlet at warehouse No. 4 on the quay.
Itaqui: Not available.

FUEL: *Sao Luiz:* Fuel oil available to vessels alongside, delivery by road tanker.
Itaqui: Fuel oil available to vessels alongside, delivery by road tanker. There is no fuel oil available for boilers.

GANGWAY/DECK WATCHMEN: Normally done by the crew.

OPENING/CLOSING HATCHES: Done by stevedores.

CUSTOMS ALLOWANCES: No limit or restrictions.

IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of Identity Card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The Identity Card must be given on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.

CONSULATES:

France	Tel. 1117	Spain	Tel. 2664
Portugal	,, 1689	Norway	,, 1888
Denmark	,, 1507	Bolivia, no telephone	

REPAIRS: Shop for small repairs available.

REPATRIATION: Problematic because Maritime Police being inadequately equipped.

AIRPORT: 13 kms. from centre of town, with daily flights to North and South of country.

TIME: 1 March to 30 Nov. GMT minus 3 hours; 1 Dec. to 28 Feb. GMT minus 2 hours.

HOLIDAYS: January 1st; April 21st; May 1st; September 7th; November 15th; December 25th (National holidays). July 28th; September 8th (local holidays); Maundy Thursday; Good Friday (Church holidays). On all holidays, except Good Friday, work permitted.

POLICE/AMBULANCE/FIRE: Police Tel. 1150; First Aid Ambulance 1943; Fire Brigade 1753.

TELEPHONES: No facilities for placing telephones on board.

DEVELOPMENTS: Wharf at Itaqui to be extended to 1,068 m. Depth will vary from 30 to 40 ft.

The existing petroleum berth will be replaced by the final extension of the wharf, although plans indicate the intended construction of a new Petroleum Berth on Guapira Island.

An iron ore loader is to be built on Punta do Madeira, dredging will allow 300,000 d.w.t. vessels to use the berth.

AUTHORITY: Port Captain.

AGENT: Pedreiras, Transportes do Maranhao Ltda., Rua Dr. Tarquinio Lopes 241. A. Cable address: "Pedra". Tel. 2–1393 and 2–3282.

SAO SEBASTIAO: 23.48 S. 45.24 W. **(See Plan)**

LOCATION: Terminal Maritimo Almirante Barroso (TEBAR) is located on the West edge of the Sao Sebastiao Channel. Safe access is made through the South entrance. The approximate geographical position of berths is Lat. 23° 48′ 3″ S., Long. 45° 23′ 3″ W.

DOCUMENTS: Inward clearance is effected on board immediately after docking by Government Port Officials and Agent's representative. It is necessary that the following documents be ready on arrival.

Any document regarding outward clearance of the ship at last port of call.
5 copies Crew List.
2 copies Store List.
2 copies Personal Effects List.
3 copies Passenger List.
3 copies Cargo Manifest, (or more if available).
3 copies Bill of Lading, (or more if available).
2 copies Maritime Declaration of Health.
Notice of Readiness (Addressed to Petrobras)
List of vessel's particulars: call sign, n.r.t., g.r.t., d.w.t., speed, engine b.h.p., draft, total crew, officers, time of arrival, loading ports and dates of sailing, quantity of cargo for Sao Sebastiao, quantity of cargo in transit for other ports, etc.

PILOTAGE: Pilotage is compulsory for vessels calling at Sao Sebastiao as from the following limits:

South – line joining Ponta da Sela to Ponta Gaeca.
North – line joining Ponta das Canas to Ponta do Arpoar.

Pilots await near these limit lines. They meet the vessel via launch. Pilots may decline to moor the vessel if it is not equipped with satisfactory mooring equipment, lines, gear, etc., or if it is not sufficiently ballasted.

NAVIGATIONAL AIDS: The following easily identifiable navigating aids are visible:

(a) a white light on Ponta da Sela is exhibited from a tower painted with red and white stripes, marking the South entrance of the channel.
(b) 4 lights mark the deepest part of the channel: 2 lights towards the continent and 2 red lights towards the island.
(c) a white light is exhibited from a small rocky island with a white tower on Laje dos Moleques.
(d) a red light on Pontinha is exhibited from a white tower and
(e) 4 red lights are exhibited from the terminal's pier.

ANCHORAGES: Temporary anchorage for Port Authorities Clearance; located approx. 1.5 miles N.E. of Lage dos Moleques light.

Anchorage for Tankers Awaiting Berth: about 1 mile South of Ilha Bela village.

Anchorages for the Lightening of Tankers located about the joining line between Ponta da Sela and Ponta do Viana. Water depths of 25 m. to 35 m. (82 ft. – 115 ft.) with seabed of clayed/sanded mud.

RESTRICTIONS: The terminal normally operates around the clock. Ships are moored and unmoored at any hour except when an

unexpected event arises, such as breakdowns, gales, heavy squalls, and so on.

The safe draft for passing along the dredged channel is 23 m. (75.5 ft.), no matter what existing conditions are such as day or night, current set and drift, wind, tide or swell. However, at the discretion of Pilot, according to the prevailing above conditions vessels can use the channel with drafts up 24 m. (78.7 ft.) These figures are not final as they may change in time without previous notice.

Remarks: The limitations mentioned above could result in rejection of the ship as being unsuitable for this terminal.

MAX. SIZE:

Position 1 (external berth, South pier): 26 m. (85 ft.) depth, for tankers up to 300,000 d.w.t., with maximum draft of 21.5 m. (70.5 ft.).

Position 2 (internal berth, South pier): 19 m. (62 ft.) depth, for tankers up to 135,000 d.w.t., maximum draft of 16 m. (52.5 ft.).

Position 3 (external berth, North pier): 19 m. (62 ft.) depth, for tankers up to 135,000 d.w.t., maximum draft of 16.9 m. (55.5 ft.).

Position 4 (internal berth, North pier): 13.7 m. (45 ft.) depth, for tankers up to 65,000 d.w.t., maximum draft 12.2 m. (40 ft.).

HEALTH: Port doctor visits all ships on arrival and requires Maritime Declaration of Health, Deratisation Certificate, 2 Crew Lists. Vessels from another Brazilian port automatically receive free pratique and should not fly Quarantine Flag. If suspected disease or fever on board it is advisable to cable Agent before arrival.

RADIO: Vessels under time-charter to Petrobras bound for Sao Sebastiao should advise Company of ETA 48 hours before arrival direct to PPA 25 (Petrobras own radio station) as well as to Agent's cable address through PPR (Rio Radio Brazilian Post Office radio station). In turn they will pass message to the terminal. Confirmation or change of ETA should be cabled 24 hours prior to arrival. Vessels equipped with VHF radio telephone should call on Channel 16/DELTA: 156.8 mHz (and then change to another agreed channel) when within range for berthing instructions. All ETA's should indicate whether it is local time or GMT. English is generally understood by Pilots and terminal representatives. Weather forecasts as well as Notices to Mariners are transmitted by PWZ and PPR radio stations. Radio equipment should not be used at the piers. Communication ship-to-shore will be by telephone.

TUGS: 7 Tugs available. Rigel 3170 h.p., Vega 3170 h.p. Apolo 2,360 h.p., Orion 2,360 h.p. (owned by Petrobras). Servemar VIII 375 h.p., Servemar IX 550 h.p., Servemar X 650 h.p. (owned by private company). While rendering such assistance the tugboats act under orders of Harbour Pilot. These tugs are fitted with fire pumps and monitors (including mechanical foam) to assist in fighting fires.

The following tug signals which have been approved by the local Captain of the Port are listed below for a Shipmaster's guidance:

(a) For calling tugs: 4 long blasts followed by 1 or 2 short blasts of a ship's whistle will call 1 or 2 tugs respectively.

(b) Before towing line is made fast: 2 short blasts; prepare to push on bow or to pick up line from ship's bow. 3 short blasts; prepare to push on stern or to pick up line from ship's stern.

(c) After towing line is made fast: 1 long blast; pull to starboard. 2 short blasts; pull to port. 3 short blasts; give up pulling.

(d) Manoeuvring alongside ship's hull: 1 short blast; to pull, 2 short blasts; to push.

All orders received by tug will be acknowledged with a distinct short blast.

As both tugboats are provided with VHF, manoeuvring orders may be given by radio.

Usually orders to fore tug are given by mouth whistle and to aft tug by the ship's whistle. 2 long blasts followed by a short one is used either to call small craft or pilot launches. To call motor-boat (launch), 1 long blast followed by a short one; both tugs are fitted with blinker signal lamps.

GENERAL CARGO WHARF: *Commercial Quay*: Length 150 m., depth 8.2 m. Fresh water available, rate 10 t.p.h. Fuel available by road tanker in small quantities. 7 cranes, one of 11 tons and 6 of 4.5 tons.

BERTHING: The pier is located on the Western edge of the channel between the shore and Sao Sebastiao Island. Safe access for large tankers is possible through the South entrance but smaller tanker or draft 35 ft. or less may enter through the North entrance.

The head of the jetty which is "T" shaped is 1,690 m. (5,544 ft.) from the shore, in position 23° 48.2′ S. 45° 23.3′ W.

The South pier is 510 m. (1,673 ft.) length and the North pier 380 m. (1,246 ft.).

See also "Max. Size".

Loading arms:

Position 1	4×16″	(cargo hoses)
	2×12″	(diesel oil)
Position 2	3×16″	(cargo hoses)
	2×12″	(diesel oil)
Position 3	2×12″	(cargo hose)
	2× 8″	(diesel oil)
Position 4	Same as Position 3	

Reducers are available. All shore hoses are chiksan type arms.

Maximum Height: Max. height of hoses above platform: Position 1: 21.5 m. (70 ft.); Position 2: 17.8 m. (58 ft.); Position 3 and 4: 16 m. (52 ft.).

Pipe-lines: Two 34-in. diameter pipe-lines, 2,300 m. (7,500 ft.) link the South pier to the shore tanks. 2 24-in. diameter pipe-lines, 2,000 m. (6,500 ft.) link the North pier with the shore tanks.

LOADING: *Maximum permissible pressure*: Both piers 8 kg/cm^2. (120 p.s.i.).

Pumping Rates: South pier: 100,000 bbl/h. if using two 34 in. lines and 3 or 4 hoses; up to 50,000 bbl/h. if using one 34 in. line and 3 or 4 hoses.

North pier: up to 48,000 bbl/h. if using two 24 in. lines and 2 hoses; up to 28,000 bbl/h. if using one 24 in. line and 2 hoses.

BALLAST: Brazilian laws are very strict in regard to the pollution of harbour and coastal waters. Vessels should not discharge dirty ballast, ashes, refuses, etc., into the water. Heavy fines are imposed for violations. All overboard discharge valves from cargo tanks and bilges are to be secured before any loading or discharging commences. All deck scuppers should be plugged to avoid harbour contamination should an oil spill occur. To offenders, fines will be charged (besides resulting delays) according to the ship's tonnage. Facilities for receiving dirty ballast are available. However, amount is dependent on space in shore tanks at the time. Capacity of tanks 12,000 cu. metres (75,000 bbls).

MEDICAL: Medical treatment and/or hospitalisation, if required, is provided in the private local hospital. Dentists are available in the area. For emergency cases (serious illness or injury) TEBAR first medical aid may be requested by the Master. Internal telephone number is 20. If patient does not speak Spanish or Portuguese, an interpreter should accompany him.

FRESH WATER: Fresh water can be supplied, if necessary; however, supplies are limited to essential requirements (up to 400 tons). Rates: Minimum 91 t.p.h. Maximum 148 t.p.h.

FUEL: The Terminal is equipped with blending valves and is able to deliver Bunker C, Fuel Oil, Marine Gas Oil, Marine Diesel Oil and Intermediates of any grade – concurrently with working cargo at international prices.

The supply rates are about 300 t.p.h. for Bunker C, 180 t.p.h. for M.G.O. and 450 t.p.h. for intermediates.

Orders for Bunkers should be placed, with a minimum of 48 hours notice to:

Divisao de Abastercimento a Navios – Departamento Comercial, Av. Republica do Chile 65, 19.° andar, Rio de Janeiro – Brazil. Telegraphic address: PETROBRASECOPE Telex numbers: 031422 and 031423.

Lubricating Oils: Orders for marine lubricants should be placed at least 15 days in advance and subject to confirmation to: PETROBRAS DISTRIBUTIDORA, Praca 22 de Abril, 36, 4.° andar, Rio de Janeiro – Brazil. Telegraphic address: PETROEDIPE Telex numbers: 031422, 031423 and 031424. Telephone numbers: 242-9381 and 242-4901.

Simultaneous bunkering and discharging operations. Considering that the loading/discharging hoses cannot be crossed with bunkering hoses, the simultaneous bunkering and discharging operations will depend on the position of the ship's bunkering manifold. If the ship has 2 bunkerings manifolds at each board – 1 at each side of cargo manifolds – the bunkering and the discharging may be effected at the same time. However, supposing a tanker has only 1 bunkering manifold at each board (located to the aft part in relation to cargo manifolds), this simultaneous operation will only be possible if the ship, is berthed port side at position 3 or starboard side at positions 1, 2 and 4. Contrariwise, upon completion of loading/discharging the ship will have to be shifted a few metres forward to receive bunkers.

SURVEYORS: *Petroleum Inspectors*: None available in Sao Sebastiao. If required, arrangements should be made well in advance. A representative of Chas. Martin and Co. is based in Rio de Janeiro and E. W. Saybolt & Co. in Santos.

REPAIRS: Repairs of minor nature can be effected in Sao Sebastiao. When alongside pier, vessels must maintain engines and propulsion machinery in readiness to leave the berth under full power on short notice. No repairs are permitted which would interfere with this requirement. In the event of a ship unable to leave the pier under its own power, when requested to do so by the terminal, the terminal reserves the right to arrange to have the ship towed from the pier. Any expenses incurred or delays resulting from such an operation will be for the account of the ship.

CUSTOMS ALLOWANCES: For each Crew member, 2 packets of cigarettes and 1 bottle of wine or spirits. While the vessel is in port, Brazilian custom's officials are assigned on board to ensure compliance with customs regulations. Meals must be supplied to these officials during regular meal hours. Brazilian laws are strict in regard to smuggling and Masters are requested to instruct their crews not to take cigarettes or other articles ashore. Cigarettes in carton lots, cigars, tobacco, alcoholic drinks, souvenirs, etc., should be collected prior to arrival in port, listed with the items in the slop chest and placed in the custody of the Master for deposit in the slop chest or closet which will then be sealed for the duration of the vessel's stay in port. By no means will any commercial transactions be tolerated, be it either among terminal employees, Crew members or anyone else. Cigarettes or other stores in bond are not obtainable in Sao Sebastiao.

CONSULS: No consular representatives are reported to exist in the area.

TIME: Local time is GMT minus 3 hours.

SHORE LEAVE: The access pier is 1,600 m. long. The crew can use it to get ashore, but special passes are required for this purpose. There is, however, a launch service provided by Agent.

GENERAL:

Brazilian Flag: Authorities are exercising rigorous inspections as regards the condition and the correctness of measures, colours, etc., of the Brazilian flag flown by vessels in port. In principle, the flag should be flown from 0800 to 1800 hrs. Heavy fines are imposed on the ship if these instructions are disregarded. In case no suitable flag is found on board, a radio message should be sent a few days in advance, so that this item may be supplied upon arrival.

National Holidays: By order of the local Port Authorities it is

requested that all ships in port must be fully dressed on the following National Holidays: 7th September and 15th November.

Watches: An efficient watch must be maintained on board the ship, deck and engine room and a sufficient number of Crew members should always remain on board to cope with emergency or port operation situations.

Ratguards: Ratguards must be placed on all mooring lines.

Visit of Authorities: In case the ship enters and berths directly, the official visit of Authorities together with the Agents will take place as soon as she is tied up and the gangway is lowered. However, if the ship is not berthed immediately upon arrival (e.g. in view of the pier being occupied, or any other reason), the visiting party will proceed to the ship by motor-boat as soon as she drops anchor. If the ship arrives after 2100 hrs. it is possible that Authorities will decide to visit the ship next morning at 0800 hrs.; however, the ship is authorised to operate normally and Crew members are allowed to go ashore.

Seamen left ashore: Ships are not permitted to sail until all crew members are on board. Should, however, a Crew member definitely not be found, his passport (or seaman card) and his international vaccination certificates must be given to the Agents, together with a letter requesting him to be repatriated.

Weather and Tide Conditions: The weather at Sao Sebastiao is generally very favourable: no strong winds, no speedy currents and usually not even a swell is observed in the channel. The winds are unpredictable for more than a few hours in advance; usually it blows from N.N.W. or S.S.W. As regards rain, the annual precipitation averages 2,000 mm. The visibility is mostly fair, although in Autumn and Winter it may become rather poor in the early morning. The temperature ranges from 15°C (59°F) in July to 39°C (104°F) in January. The relative humidity of the air is usually high, often exceeding 85%. The normal range of tides is around 1.2 m. (4 ft.). Although higher ranges of 2 m. (6.5 ft.) have been noticed during Spring. The currents are irregular but usually follow the direction of the wind; according to the intensity and the duration of the wind, the drift may range from 1 to 4 knots.

Derating Certificate: In case the Derating Certificate has expired and needs to be renewed, a radio message should be sent to the Agent a few days before arrival, so that they are able to make the necessary arrangements with the Sao Sebastiao Port Health Inspector.

Renewal of Vaccination Certificates: For the same reason mentioned above, the Master should send, beforehand, a radio message stating how many vaccinations of each kind will be required. The vaccinator has to come from Santos.

Passengers: Passengers will be permitted to disembark if in possession of the required visa and documents for identification.

Visitors: Only the personnel duly authorised by Port Authorities may come on board the ships; this excludes all visitors. Relatives of Crew members may obtain from Port Authorities a licence to go on board.

Constant Readiness: During the time the ship is berthed alongside, her engine and propulsion machinery should be in readiness to leave the berth on short notice. No repairs are permitted which would interfere with this requirement.

Smoking: Smoking in open areas of the ship and on the pier, is strictly forbidden. The crew are not to throw lighted cigar or cigarette butts overboard.

Photography: The taking of photographs within the terminal is prohibited.

Emergency Towing Wires: 2 towing wire ropes should be always hanging to the water's surface so that the tugs can easily make fast should an emergency arise.

Gangways: All ships calling at Sao Sebastiao must provide a safe gangway. Authorities may refuse to board the ship if a safe gangway or accommodation ladder is not provided. At night, the pilot ladder must be adequately lit. The terminal is not equipped with platform ladder. The ship's ladder must be used.

Lifebuoy: A lifebuoy with 15 fathoms (27 m.) of rope should be kept nearby the gangway for use in case of emergency.

Ship's Fire-fighting Equipment: At least 2 fire hoses should be connected to hydrants on main deck: 1 forward and the other abaft the cargo valves manifolds. A third hose with an NPU nozzle and 2 mechanical foam containers should be kept nearby the pump-room. The ship's main fire-extinguishing system should be kept under constant pressure.

Minimum Draft for safe Manoeuvring: Although the amount of ballast carried on vessels is at the Master's discretion, the table below is recommended as a guide:

Vessels of 30–40,000 t.d.w. draft for'd 16' aft 20'
Vessels of 40–50,000 t.d.w. draft for'd 18' aft 24'
Vessels of 50–70,000 t.d.w. draft for'd 20' aft 28'
Vessels of 70–100,000 t.d.w. draft for'd 24' aft 32'

Vessels over 100,000 tons should be ballasted to approximately one third of the vessel's deadweight.

Bond Wire: Before the connection of shore hoses, the bonding wire will be connected, by a terminal employee, to ensure a good grounding electric contact.

Boiler Tubes and Sparks: Whilst alongside the pier, no boiler soot blowers may be used. The use of derricks is also forbidden (excepting the poop derrick, when lifting stores, provisions, etc.). Likewise, the use of objects and/or tools which may cause sparks is also forbidden.

Fire Signal: Should fire break out in any part of the ship, the fire alarm should be given: a continuous sounding of 7 short blasts on the whistle, followed by a long one.

Transportation of Stores, etc., from shore to ship: The terminal does not permit the carriage of items through the jetty. Consequently, the ship has to use the services of a motorboat, or a tugboat or of a floating craft (which is towed to the ship's side). The motorboat boat or the tugboat may only approach the ship by the sea side. No derricks may be used, although the terminal has no objection to the use of the poop derrick or crane (sea side). Depending on the nature and the weight of items involved, they may be taken on board using the gangway (sea side).

Laundry: No laundry facilities available at Sao Sebastiao, however, Las Vegas Lavanderia, located at Caraguatatuba (about 30km from Terminal) is equipped to handle laundry services for ships calling at Sao Sebastiao.

Provisions and Stores: Provisions and stores are supplied by shipchandlers contracted directly by Owners or Masters or through the Agents. Usually they have to be brought from Santos, which requires a radio advance request, in view of the distance involved. It is hoped that in the near future provisions and stores in large quantities may be easily obtainable in Sao Sebastiao. Some items may be obtained in Caraguatatuba.

SHIPMASTER'S REPORT:

Pilotage: Vessels normally sail and arrive by the Southern entrance.

Anchorages: The holding ground for VLCCs is not very good, but appears good for smaller vessels. (We had 3 cases of ships dragging during our 2 and a half weeks stay, all VLCCs.) The current runs Northerly or Southerly depending on the wind.

Tugs: 5 tugs normally used for berthing and unberthing irrespective of vessel's size.

Medical: Dental and routine medical matters available. Specialists are available some miles away. For inoculations the doctor comes from Santos.

Fresh Water: Rates are dependent on number of vessels watering and can be as low as 10 t.p.h.

Customs Allowances: 2 cartons cigarettes per man. Customs no longer stay on board the vessel.

Repatriation: Is possible, but involves lengthy car ride to Santos or Rio de Janeiro. The best and nearest airport is outside Sao Paulo, where International flights are available. This is quicker than going to Rio.

Telephone: Available in jetty control rooms.

Shore leave: When berthed the Agent can arrange a minibus service from the T-head of the jetty.

Port Regulations: Vessels throwing or discharging anything into Brazilian waters are subject to a fine equalling 2% of the minimum Brazilian basic wage multiplied by the vessel's gross tonnage. Garbage disposal is difficult to arrange and they will only accept dry garbage.

General: Communications are poor, no Telex and messages have to be telephoned to Santos. Best method is to use ship's equipment when at anchor.

AUTHORITY: Petroleo Brasileiro S.A.

AGENT: L. Figueiredo S/A. ave. Duque de Caxias, 384. Tel.: 5–0365. Cables: "Doralice" Sao Sebastiao.

SEPETIBA TERMINAL, Guaiba Island: 23.00 S. 44.02 W.

See "General" before first port.

LOCATION: About 50 miles West of Rio de Janeiro, is the site of a bulk iron ore terminal located off the S.E. end of Ilha Guaiba about seven miles due North of the bay entrance.

PILOTAGE: Compulsory for all ships entering the bay and berthing and unberthing at the ore facility. Pilots board in the vicinity of 23° 08′ 39″ S., 44° 04′ 36″ W. A pilot ladder, boat rope, and gangway must be properly rigged with the landing platform of the gangway lowered to within 5 m. (16.5 ft.) of the water. Adequate lighting should be provided at night.

ARRIVAL INFORMATION: Vessels bound for Baia de Sepetiba should send an ETA to their Rio Agents, via Rio Radio, six days, 48 hours, and 24 hours prior to arrival. Any significant change in this ETA should be corrected as soon as possible but not less than 8 hours prior to arrival. Also see "VHF".

ANCHORAGE: In the vicinity of the Pilot boarding area. Ships should not proceed beyond this point unless a Pilot is aboard and instructions have been received from Sepetiba Marine Operations to proceed.

HEALTH: Radio pratique should be requested 72 hours prior to arrival by transmitting a quarantine message to the Port Health Authorities through the the ship's Agent. This message should contain the following information: name and nationality of vessel; last port of call; number of crew and passengers; general conditions of health on board. Also see "General" before first port.

VHF: Vessels are requested to contact Sepetiba Marine Operations directly when within VHF radio-telephone range. Channel 16 is the calling channel and 11, 12 and 13 are the working channels. Anchoring or berthing instructions should be requested 4 hours prior to arrival or when within VHF radio-telephone range.

TUGS: Tug assistance is compulsory for all manoeuvring in the vicinity of the pier and 3 powerful twin screw tugs are available for this purpose. All ships should be equipped with a wire cable tow line with a nylon pendant. Radio-telephone communication is maintained between the tugs and the Pilots on Channel 6.

BERTHING: Facilities consist of a deep-water pier located about 400 m. (1,312 ft.) South of the island. The South berth has a depth of 24 m. (78.75 ft.) alongside and the North berth has a depth of 19 m. (62 ft.). A mooring dolphin at the West end of the pier provides an overall mooring length of 470 m. (1,541 ft.) alongside the South

berth. Bollards are spaced along both pier faces and quick release hooks and capstans are fitted for breast, bow and stern lines.
BULK HANDLING FACILITIES: One travelling shiploader serves both berths and has a boom clearance of 22 m. (72 ft.) at shipside. Ore is stacked in a storage area and is delivered to the shiploader by conveyor belt which is loaded by either of 2 stackers having an average capacity of about 7,000 metric t.p.h. each.

TRAMANDAI (Porto Alegre): 30.01 S. 50.06 W. (See Plan)

ALMIRANTE SOARES DUTRA TERMINAL: Terminal Maritimo Almirante Soares Dutra – TEDUT, is located 6 km. from Tramandai, which is 134 km. from Porto Alegre, Capital of the state of Rio Grande do Sul. The Buoys (SBMs) are positioned 1.9 and 2.4 miles from the beach and their geographical co-ordinates are:
SBM–1 (W.), Lat. 30° 00′ 40″ S., Long. 50° 05′ 42″ W.
SBM–2 (E.), Lat. 30° 01′ 06″ S., Long. 50° 05′ 10″ W.
DOCUMENTS: See "General" before first port.
PILOTAGE: Sea Pilot not required. All manoeuvres will be undertaken by the vessel's Master with the help of a TEDUT Mooring Master who will board the vessel in the anchorage area and advise the vessel's Master on all operations such as mooring, connecting hoses, unloading, unmooring, etc.
ANCHORAGE: The advisable anchorage site is 1.5 miles N.E. of SBM–2 (E.), geographical position, Lat., 29° 59′ 30″ S., Long. 50° 04′ 30″ W. Depths, 21 m. Seabed, fine sand and mud. Mooring Masters will board arriving tankers in this area.
APPROACHES: There are 3 conspicuous water towers named *Tourist, Agrimer* and *Tramandai.* There is also a small radar and meteorological watch steel tower nearby the pier in position Lat. 29° 58′ 34″ S., Long. 59° 07′ 18″ W.
RESTRICTIONS: Due to the peculiar conditions of the terminal, mooring undertaken only at daytime. Sometimes the leaving of launches seawards depends on the height of tide and the strength of the waves. Tankers may have to wait for favourable weather conditions so that mooring may safely be started.
MAX. SIZE: SBM– (W.), designed for 105,000 d.w.t. tankers, max. draft 16 m. (52 ft.). SBM–2 (E.), designed for 200,000 d.w.t. tankers, max. draft 17 m. (55 ft.). The distance between the vessel's bow and manifold must not be more than 140 m. for mooring to the SBM–1 (W.) or 180 m. for mooring to the SBM–2 (E.).
RADIO: Vessels bound for Tramandai should advise their ETA 48 hours prior to arrival direct to PPA 25 (Petrobras own radio station) as well as to their Agents (through PPR – Rio Radio – government station). In turn these stations will send messages to the terminal. Confirmation or change of ETA should be cabled 24 hours before arrival. Vessels may also contact TEDUT's radio-telephony station either in AM or SSB on the following channels and frequencies:
VHF, conventional frequencies, Channels 11, 13, 14 and 16 on 156, 55/165, 65/165, 70/156 mHz respectively.
SSB, frequencies 2182/2815/4383.38/8770.8 and 2647.5/4.078.8 8120.8 kHz for listening.
When within range, vessels equipped with radio-telephone should call first on Channel 16/DELTA-156.8 mHz and then change to another agreed channel, preferably 14/CHARLIE-156.7 mHz for mooring instruction. All ETA's should indicate whether it is local time or GMT. Weather forecasts as well as Notices to Mariners are transmitted by PWZ and PPR radio stations.
PRATIQUE: Display of quarantine signal – "Q" flag – on approach Tramandai must be maintained until free pratique is granted. The National Brazilian flag should remain hoisted throughout vessel's stay in the terminal. Port doctor visits all ships on arrival and requires Maritime Declaration of Health, Deratisation Certificate, two Crew Lists. Vessels from another Brazilian port automatically receive free pratique and should not fly Quarantine Flag. If suspected disease or fever on board, it is advisable to cable Agent before arrival. Also see "General" before first port.
LAUNCHES: Mooring, unmooring and connection operations are assisted by the terminal's launches. While rendering such assistance the boats act under orders of the Mooring Master. Usually two service boats are at his disposition. Besides operational assistance they undertake transportation of Mooring Masters, personnel, Agents, ship chandlers, port authorities, etc.
ARRIVAL: Arrival time is considered to be the time the vessel reaches the anchorage vicinity or the time the Mooring Master boards the vessel, whichever occurs first. However, notice of readiness will not be considered as the time of arrival unless the vessel is in all respects ready to discharge. In the event berthing is delayed by weather conditions, tankers will be unloaded in turn. If, however, the weather is so bad that the port is closed and vessels awaiting discharge have to go out to sea, TEDUT may discharge another vessel on reopening if it arrives before the return of other waiting vessels. More rarely, the terminal Superintendent may grant priority to a particular vessel out of turn, in special circumstances only. Exceptionally, and at the discretion of the Superintendent, two tankers will discharge at the same time.
MOORING: The Mooring Master will advise on the method of securing the ship. Tankers are usually moored by two bow nylon hawsers of 13 in. diameter and 45 m. length. Vessel's messenger nylon lines are shackled – one at a time – to the pick-up wires of the chafing chains by the launch crew and hove in (through the vessel's windlass warping bollard) until the lengths of the chafing chains are brought over the vessel's roller chocks/fairleads. Ship's engines may help the lead-in ropes (vessel's messenger) in coming up to the SBM.
The following items must be observed: Anchors must be well at home and secured with stoppers and brakes. Windlass warping bollards must also be ready to lift chain stoppers, wire strops, shackles, senhouse slips, crowbar, hammer, spikes and other gear to be placed on board for mooring purpose (equipment supplied by TEDUT). Two good eye-spliced (9 in. at least) nylon hand-inlines must be be ready, at each side, on the fo'castle head, to be given to the launch, who in turn will shackle them to the hawser's pick-up wires (marked by little spar buoys).
HOSE CONNECTION: The Mooring Master will direct the terminal's working men in lifting, connecting and lowering the hoses. After the vessel is securely moored, the 16 in. floating hoses must be individually lifted to the rail by the ship's gear. Sundry hose securing and connecting equipment (strops, gaskets, nuts, bolts, wrenches, etc.) will be supplied by the terminal and put aboard the ship just after arrival. Hoses will be lifted by ship's derrick, preferably on the port side. Minimum lift of 5 tons capacity required. When wind force reaches about 8 Beaufort Scale and waves are 2.5 m. high, emergency disconnecting operation will take place, even at night time.
LOADING: Pumping must not be started without permission of the Mooring Master. The max. allowable pressure is 10 kg/sq. cm. (150 p.s.i.). While the vessel is moored, the vertical angle formed by the nylon hawsers and the sea level should not exceed 30 degrees, for safety of the SBM's turntable. When necessary, due either to excessive pitching or by being too much trimmed by the stern, pumping of ballast must be concentrated in the fore-tanks, even if interruption of unloading becomes mandatory. So the Mooring Master may require cargo to be discharged, in certain stages, either from aft or for'd compartments.
As a rule, when unloading is over, the ship should have ballast on board at least 40% of her total d.w.t. tonnage. Besides the Mooring Master himself, some terminal workmen stay aboard ship. Therefore, room and meals for one officer and six crewmen should be supplied. Upon completion of discharge the Mooring Master will require the ship to pump sea water through the submarine pipelines to displace the remaining oil.
BALLAST: No slop facilities are available for dirty ballast. Brazilian laws are very strict with regard to the pollution of coastal waters. Vessels are not allowed to discharge dirty ballast into the water. Heavy fines are imposed for violations.
Tramandai is the largest Rio Grande do Sul seaside resort and any pollution of the sea in this area will cause damage to the beaches. Hence, no dirty ballast or any oily residues must be pumped overboard within a range of over 50 miles, if no safer alternative exists.
MEDICAL: Medical treatment and/or hospitalisation, if required, are provided at Tramandai or Osorio private hospitals. Serious illness will usually be treated in Porto Alegre. Dentists are also available in Tramandai. For emergency cases (injury, etc.) TEDUT first medical aid may be requested by the Master. As usual, Agent will make such arrangements.
FUEL: Not available.
FRESH WATER: Not available.
CONSTANT READINESS: Since moorings are in open roadstead, vessel's engines and gear must be ready with full power for immediate use through the period the vessel is moored and the ship must be able to clear the mooring immediately on the advice of the Mooring Master or Superintendent of the Terminal.
Whenever necessary, vessels may use their own power to prevent riding upon the SBM.
CUSTOMS REQUIREMENTS: Brazilian laws are strict with regard to smuggling and Masters are requested to instruct their crews not to retain cigarettes in carton lots, cigars, tobacco, alcoholic drinks, drugs, souvenirs, etc. These should be collected prior to arrival, listed with the items in the slop chest and placed in the custody of the Master for deposit in the chest or closet which will then be sealed for the duration of the vessel's stay at the mooring.
By no means will any commercial transactions be tolerated, be it either among terminal employees, crew members or anyone else.
CONSULATES: No consular representatives are reported to exist in the area; however, there are consulates of most maritime nations in Porto Alegre.
TIME: Local time is GMT minus 3 hours.
GENERAL: Lighters not available. Launch connection with shore is entirely dependent on weather conditions and must be considered unreliable.
SHORE LEAVE: Not possible.
AUTHORITY: Petroleo Brasileiro, S.A.

VITORIA (including Tubarao): 20.19 S. 40.20 W.

DOCUMENTS: See "General" before first port.
PILOTAGE: Vessel approaching port should communicate with Agent through local radio station, giving date and hour of arrival at pilot station so that they can arrange for a Pilot to be at the roads on arrival. Communicate direct to Pilot Association through VHF Channel 16.
Vessels taking on or dropping Pilots outside the official limits of the port (see below) are charged extra.
ANCHORAGE: The official limits of the port are:
Vitoria: Arc of a circle of 1 mile radius, seaward, with centre at Santa Luzia Lighthouse.
Tubarao: Arc of a circle 2.5 miles radius, seaward, with centre at Tubarao South Light Beacon.
Notice of Readiness is accepted as at time the Master radios

advising vessel has anchored, SHINC, lay time starting 3 hours afterwards (subject to C/P).

No draft limitations at anchorages.

RESTRICTIONS: *Vitoria:* All sailings are to take place on a rising tide. Vessels of up to 205 m. can enter day or night.

Vessels from 205 to 240 m. can enter during daylight hours, weather permitting. Vessels of this length must be assisted by three tugs, two of which must be of at least 1,000 h.p. and the other of at least 400 h.p.

For turning in the manoeuvring basin, two tugs are required, one to be of at least 1,000 h.p. and the other of at least 400 h.p.

Tubarao: Access Channel, depth 17 m. Manoeuvring basin, depth 17 m. Protected area of basin, depth 16 m.

MAX. SIZE: *Vitoria:* 36 ft. draft at high water and 32 ft. at low water. *Tubarao:* Max. draft 50 ft. but vessels may continue loading on rising tide to a max. of 55 ft. sailing at high tide. Max. length 1,050 ft. Also see "Tankers" and "Developments".

HEALTH: Free pratique obtained by radio to Agents, addressed for "Saportos Vitoria" followed by ship's name, last port, ETA, and the letters ZT (meaning "my replies to the 6 questions on the port health declaration are negative"), and ZS (meaning "the sanitary condition of my ship is satisfactory"). Pratique is granted when this message is delivered by Agent to the port doctor. Also see "General" before first port.

The Agent may send a reply containing the group ZY, meaning "you have free pratique". In any case the time of pratique is registered as time that the ship's cable was received by the Health Authorities. This pratique does not allow the crew to go ashore until after customs clearance.

Crew vaccinations are done free.

The Port Doctor usually arrives onboard some time after the visit of Authorities and it is important to have the Health Declaration ready for handing to him by a responsible person (to avoid a fine).

RADIO: Local radio station, Vitoria Radio, call sign PPT. This radio station normally used by Agents when cabling vessels.

TUGS: Tugs join vessels at anchorage. Ship's lines used. Tugs have no lines on board. The lines given to tug-boats should be without wire as the swell usually prevailing causes severe sudden stresses on the tow lines.

Vitoria: Three tugs of 480 h.p., one tug of 1,530 h.p. and one tug of 1,600 h.p.

Tubarao: Two tugs, 1,530 h.p. and 1,600 h.p.

BERTHING: Also see "Developments".

Commercial Quay: No restrictions for vessels berthing at Nos. 4 and 5 warehouse, entrance and sailing at any stage of tide. Max. drafts are:

No. 5 warehouse – 28 ft., max. length 597 ft. 2 in.
No. 4 warehouse – 26 ft., max. length 597 ft. 2 in.
No. 3 warehouse – 24 ft., max. length 508 ft. 9 in.
No. 2 warehouse – 14 ft., max. length 393 ft. 9 in.

Vessels at Nos. 2 and 3 restricted to sail on flood tide only.

Usiminas Quay – Coal Discharge: Max. draft 35 ft., max. length 853 ft. Limited to entry only at beginning of ebb tide; sailing at any stage of tide. Discharge by two mechanical grabs, daily unloading rate, 8.400 LT.

Iron Ore Berths:

Atalaia Quay: Max. draft 36 ft., max. length 787 ft. 5 in. Vessels berth and sail on flood tide. Entering and sailing during night or day; max. length 657 ft. 10 in. during the day only, 787 ft. 5 in.

Paul Quay: Max. draft 31 ft., length (as for Atalaia). There is one loading area with a capacity of 600/900 t.p.h. depending on type of ore. Max. reach beyond quay edge, 49 ft. Max. height extremity of hook at 18 in. elevation, 52 ft. at HW, 59 ft. at LW. Width of pontoon, 14 ft.

Tubarao: *Ship Loader No. 1:* Max. height of hatch coaming above sea level 12.50 m. Max. outreach of loading boom 24 m. Nominal capacity of loader 6,000 t.p.h. Vessels max. LOA 330 m. Max. sailing draft 15.20 m. plus height of tide.

Ship Loader No. 2: Maximum height of hatch coaming above sea level 17 m. Max. outreach of loading boom 33.50 m. Nominal capacity of loader 8,000 t.p.h. Max. length 330 m. Max. sailing draft 15.20 m. plus height of tide.

CRANES: *Vitoria:* Twenty-three electric gantry cranes 1.5-12.5 tons capacity and five mobile cranes 10–30 tons capacity.

TANKERS: *Esso Terminal.* Berthing and unberthing can take place during day or night period, provided vessels draft does not exceed 22 ft. Max. length permitted 524 ft. 11 in. with max. draft of 27 ft. Vessels must enter on ebb tide and sail at high tide.

Texaco Terminal. For ships discharging for Shell, Atlantic and Texaco. Discharge handled through a common line, except for fuel oil, handled on a separate line. All lines 6 in. du. Max. pressure from shore 80 lb. producing average discharging rate of 1,500–2,000 barrels per hour. Vessels may enter or sail on any daylight tide, max. draft permitted 32 ft., max. length 597 ft.

Petrobras have quay at Tubarao, max. draft 25 ft., max. LOA 492 ft.

STEVEDORES: On ETA cable general cargo ships should include number of gangs required.

MEDICAL: No advance notice of required medical attention. Hospital facilities available.

DENSITY: Average density at Vitoria 1025. Somewhat lower during rainy season. At Tubarao the density varies from 1025 to 1028 depending on tide and weather conditions.

FRESH WATER: Fresh water available at Commercial Quay, Vitoria iron ore berths, Usiminas Quay and Esso Terminal. Rate of delivery 15 t.p.h. At Tubarao up to 50 t.p.h. No water barge available.

FUEL: *Esso Berth.* Bunkers can be taken here, supplied under gravity only.

Max. draft 27 ft., and length restricted to 164 m. Due to various factors, the taking of bunkers in Vitoria is not recommended.

Esso and Petrobras can supply Bunker "C", fuel oil and diesel oil, the last two being available by truck.

DEVELOPMENTS: *Tubarao:*

A new pier now completed parallel and inshore of the existing pier for vessels of 250,000 d.w.t. Intended max. draft 20 m. Vessels berth at seaward side only to avoid ranging. 2 shiploaders, swivelling (20 m. airdraft). Load rate 12/16,000 t.p.h. Second belt to be installed to increase load rate to 25/30,000 t.p.h. No dirty ballast facilities. Heavy fines for pollution.

Pelletising factory is producing at the rate of 2,000,000 tons per year. Two additional factories are to be constructed each to produce 3,000,000 tons per year.

A pier, depth alongside 13 m., to be constructed at Capuaba, completion expected 1976/77. Dredging has commenced at the port with planned depths as follows:

Manoeuvring basin	13.5 m.
Commercial quays	10.3 m.
Atalaya	11.0 m.
Jabour	8.5 m.
Access channel	12.5 m.
Capuala	12.5 m.

WATCHMEN: Compulsory at commercial quay in Vitoria. Not available at Tubarao or Vitoria Ore Terminals.

OPENING/CLOSING HATCHES: Normally done by stevedores except in cases of modern vessels using MacGregor hatch covers, when crew asked to close hatches.

CUSTOMS ALLOWANCES: Each crew member allowed 200 cigarettes out of the bond. One bottle, wine or spirits opened, for each crew member.

REPAIRS: Deck and engine repairs available.

REPATRIATION: *Crew joining vessel:* Destination should be given as Vitoria, Espirito Santo for crew members joining vessels at Tubarao.

There are three flights daily from Rio de Janeiro to Vitoria.

AIRPORT: Airport located 8 km. from centre of town and is served by three airlines with daily flights to Rio de Janeiro, Salvador, Recife.

TIME: Local time GMT minus 3 hours. Summertime usually 1st November up to 31st March when time is GMT minus 2 hours.

HOLIDAYS: January 1st; April 21st; May 1st; September 7th and 8th; November 2nd and 15th; December 25th; Good Friday; Nossa Senhora da Penha and Corpus Christi. Only holiday when no stevedore work is possible Good Friday; exception made to iron-ore loading.

WATCHMEN: Not compulsory but available.

IDENTIFICATION CARDS: Required with photographs to enable officers and crew members to go ashore. Agents supply forms.

CONSULS: The following countries have consular representatives in Vitoria:

Great Britain	Holland	West Germany
Argentina	Italy	Portugal
Belgium	France	Uruguay
Finland	Lebanon	

POLICE/AMBULANCE/FIRE: Maritime Police 3–0173; Radio Patrol 7–0992; Ambulance 2–4646; Emergency Hospital 3–0203; Fire Brigade 3–0202.

TELEPHONES: No facilities for placing telephones on board.

AUTHORITY: Port Captain.

AGENT: Prado Agencia Maritima Ltda. Av. Governador Bley 186, salas 808/9. Telegraphic address: "Pranave" PO Box No. 1087, and "Realloyd". Tel. 3–0004, 3–2230 and 3– 348.

Brunei State

BANDAR SERI BEGAWEN: 04.53 N. 114.56 E.

Brunei State is an independent country governed by H.H. the Sultan with a Council of Ministers and Legislative Assembly, under British protection. The capital town of Bandar Seri Begawan (formerly known as Brunei Town) is situated 16 miles upriver from Muara Harbour which is at the mouth of the Brunei River. Use of the town wharf at Bandar Seri Begawan is restricted to small wooden coastal vessels operating within the Brunei Bay area not exceeding 80 ft. in length overall and 50 tons gross registered tons. The port of Bandar Seri Begawan comprises a reinforced concrete wharf 730 ft. long with a wharf apron 76 ft. wide and a passenger pier 124 ft. long with a wharf apron 63 ft. wide. Three transit godowns are provided.

MUARA PORT: 05.01 N. 115.04 E.

PORT LIMITS: The sea area within Lat. 4° 58′ N. and 5° 05′ N. and Long. 115° 03′ E. and 115° 10′ E.
DOCUMENTS:
Two Crew Lists.
Two Passenger Lists.
Two Dangerous Goods Lists.
Two Manifests.
One Health Document.
PILOTAGE: Application for Pilot 24 hours in advance by telegraph through ship's Agents. Pilot boat awaits at Beacon No. 1, Lat 5° 03.5′ N., Long. 115° 06′ E. Pilot boat painted white with green awning. If on arrival No. 1 Beacon pilot boat not visible then ships should call "Muara Port" on VHF Channel 16. Pilotage compulsory and available daylight hours only. Vessel should anchor in vicinity No. 1 Beacon awaiting Pilot.
ANCHORAGES: Safe anchorages available vicinity No. 1 Beacon, S.E. of Tanjong Sapo height (Lat. 4° 59.7′ N. Long. 115° 07.6′ E.) and in Muara Harbour.
RESTRICTIONS/MAX. SIZE: Entrance to Muara Harbour restricted to daylight hours only at present. Minimum depth in dredged channel 27 ft. ACD. Maximum length of vessel 600 ft.
RADIO: Messages to Agents through Singapore or Miri Radio.
VHF: Ports Department VHF Channels 11, 13, 14 and 16 in operation Mondays to Thursdays and Saturdays from 0730 to 1600 hrs. local time. Fridays, Sundays and Public Holidays from 0800 to 0900 hrs. and 1300 to 1400 hrs. local time. Call sign "Muara Port".
RADAR: No port radar service available.
TUGS: No tugs normally available.
BERTHING: Marginal wharf 1,400 ft. long with depth 30 ft. ACD alongside. Mobile shore cranes available up to 30 tons capacity.
STEVEDORES: Provided by ship's Agents from private mandores. Major commodities general cargo and cement, oil well cement and tubulars.
MEDICAL: Hospital available 16 miles distant from port. Port Health Clinic outside port main gate.
DENSITY: Salt water.
FRESH WATER: Readily available at wharf, cost Brunei $4 per 1,000 gallons.
FUEL: Not available.
CONSULS: There is a British High Commissioner in the town of Bandar Seri Begawan 16 miles distant from the port.
REPAIRS: Minor deck and engine room repairs possible.
DRY DOCKS: None.
SURVEYORS: Lloyds and American Bureau are represented.
GANGWAY/DECK WATCHMEN: Not available or compulsory.
HATCHES: Opening and closing by crew or stevedores at ship's option.
CARGO GEAR: Loading/discharging effected by ship's gear.
REPATRIATION: There is no Shipping Office but ship's articles are countersigned by the Director of Marine on request.
AIRPORT: International airport 12 miles distant from port. Regular services to Singapore, Hong Kong, Manila and direct flights once weekly to United Kingdom.
TIME: Local time is GMT plus eight hours. No alterations in clocks throughout year.
POLICE/AMBULANCE/FIRE: Police 333. Ambulance 9.2366. Fire 255.
TELEPHONES: No telephones placed on board.
SERVICES: Diver available.
SHORE LEAVE/IDENTIFICATION CARDS: After clearance inwards Crew members are allowed ashore if in possession of discharge book, identity card or passport.
HOLIDAYS: Hari Raya Puasa, Hari Raya Haji, Chinese New Year (all dates moveable) Christmas Day. Work can usually be arranged on all holidays with exception of Chinese New Year when direct delivery to vehicles only available.
AUTHORITY: Controller of Ports, Ports Department, Muara, State of Brunei.

SERIA, Brunei: 04.43 N. 114.19 E. **(See Plan)**

SHIPMASTER'S REPORT

LOCATION: SBM in position Lat. 04° 42′ 50″ N., Long. 114° 18′ 54″ E.
DOCUMENTS:
International Maritime Declaration of Health.
6 copies of Crew List.
4 copies Crew Vaccination List.
Clearance from last port.
If vessel is stemmed for Japan, 6 extra copies of Crew Lists are required from non-Japanese flag vessels.
PILOTAGE: Compulsory. Berthing possible day and night, any stage of tide. The berthing Master will board incoming vessels about 2 miles N.N.W. of the SBM. Masters are requested to provide a good lee for launch to facilitate the boarding of the berthing Master and lifting on board of mooring equipment.
Derrick to be rigged and topped on starboard side prior to arrival. The pilot ladder should be rigged well aft on the starboard side. The accommodation ladder is not required.
ANCHORAGE: A tanker anchorage is located approximately 3 miles North of the SBM. In the area contained by the following limits: Lat. 04° 45′ N. and 04° 47′ N., Long. 114° 17′ E. and 114° 19′ E. Controlling depth is 80 ft. at MLW, mean tidal range 6 ft., velocity of current 0.5-1 knot. Nature of bottom is mud.
MAX. SIZE: Max. d.w.t. 200,000 tons. Draft 65 ft.
PRATIQUE: Available day and night. Immigration and Customs do not board. A detailed shipping report has to be completed for the Government Marine Department. Agent will provide the forms for completion.
If the vessel arrives from an infected port or its state of health is suspect, the Medical Officer may board in order to inspect crew and relevant international medical certificates.
RADIO: Confirm ETA at least 48 hours in advance also declaring Bill of Health and Quantity of Cargo required. W/T traffic should be passed through Singapore Radio, and addressed to Agent. When within range, vessels are requested to make direct W/T contact with Brunei Shell Petroleum Company (call signal BSP ONE) at the following local times (GMT plus 8 hours) 1000 hrs., 1400 hrs., 1800 hrs. B.S.P. will transmit on 8558 kHz call signal BSP ONE and listen out on 8354 to 8374 kHz. When contact is made on this frequency a standard information cable will be transmitted to the ship. Accurate ETA's are very important as mooring launches may be required to put to sea as much as 12 hours before a vessel is expected. A VHF station at Seria (call signal BSP ONE) maintains a continuous watch on Channel 16 with Channel 19 as a working channel. Contact with this station also can be made on Shell Private Channel, transmitting on 162.9 mHz, receiving on 158.3 mHz.
Standard Information Cable to Incoming Tankers from Station BSP-1

TO: Master S.S./M.V. .....
You will be berthed on arrival/delay of..... hours expected before berthing due awaiting berth/shortage of cargo.
Our instructions from London are to load you with full/part cargo Seria Light Crude tons..... destination .....A.P.I. ..... Loading Temperature .....degrees Fahrenheit Max. loading rate 5,000 t.p.h. vessel moored to single buoy mooring. On arrival have 5 ton derrick rigged and topped starboard side for lifting mooring equipment and connecting 2×12″ hoses. Mooring to buoy is with 2 lines provided by terminal. You should have rope messenger available on Forecastle. Mooring and hose connection is by ship's crew. Contact BSP ONE on VHF Channel 16 approx. 40 miles range and advise your ETA. Please acknowledge. BRUNSHELL

TUGS: None available.
MEDICAL: Doctor available.
TANKERS: *Berth:* A single buoy mooring with two 645 ft. floating hose strings. Each hose string consists of 16 in. hoses terminated by a 16 in. flange for connection to the vessels manifold. We used a 16 to 12 in. shore reducer.
Mooring: two 15 in. circumference 110 ft. nylon mooring lines from the buoy are secured on the forecastle head, using equipment provided by the terminal. A suitable rope messenger should be ready for use, preferably a standard mooring rope. Mooring is carried out by ship's crew.
Hose connection: Starboard side amidships. Hose derrick should be rigged and topped to lift least 8 tons and vessel to have appropriate reducers fitted for connecting two 16 in. manifold hoses. Hose connecting is carried out by the vessel's crew.
Shoreline: The submarine pipe-line is 32 in. diameter and 30,000 ft. in length.
Loading rate: The maximum loading rate of Seria light crude is 4500–5000 t.p.h. (approx. A.P.I. 39.4).
There are no facilities available for dirty ballast. Vessels must arrive with clean ballast, lines and pumps. The controlling depth at the berth is 73 ft. at MLW, tidal range 6 ft., velocity of current 0.5 to 1 knot and the nature of the bottom is mud.
DENSITY: 1020–1025.
FRESH WATER: Not available.
FUEL: Not available at Seria, may be obtained at Lutong (Miri).
REPAIRS: Small emergency repairs may be carried out in Brunei Shell Petroleum company workshops.
SERVICES: Stores, laundry services and shore steam not available.
TIME: GMT plus 8 hours.
REGULATIONS: Smoking is permitted only in places jointly approved by Master and Mooring Master. No smoking allowed on the open decks. Galley fires allowed if of approved type.
The Brunei National flag should be flown during hours of daylight. The vessel's radio station must not be used whilst at the SBM. Vessels are not permitted to immobilise main engines whilst at the berth.
GENERAL: Ship to shore communication during loading is by portable R/T. No shore leave. Shore personnel remain on board during loading operations.

TANJONG SALIRONG: 04.53 N. 115.06 E.

The log-loading anchorage at Tanjong Salirong is situated 12 miles above the Outer Bar at the mouth of the Brunei River. Vessels of up to 21 ft. draft may cross the bar at high water.

DOCUMENTS: *(a)* To be produced on arrival:
Marine Department
Boarding Report.
1 Crew List.
1 Passenger List.
Customs Department
2 Inward Manifests.
1 Crew List.
1 Passenger List.
1 Port Clearance.
1 Stores List.
1 Arms List.
Agents
2 Inward Manifests.
1 Crew List.
1 Passenger List.
2 Hatch Lists.
1 Arms List.

(b) To be supplied before ship's departure:
Customs Department
1 Outward Manifest.
1 Passenger List.
1 Crew List.
1 Export Declaration.
Immigration Department
1 Passenger List.
2 Crew Lists.
Vessels
2 Outward Manifests.
Port Clearance.

PILOTAGE: *Bandar Seri Begawan:* Pilotage is not compulsory. If a Pilot is required by a vessel proceeding to Bandar Seri Begawan a written request must be made at least 24 hours before ship is scheduled to arrive. This must include position where Pilot is required to embark (i.e. at Outer Bar or Sapo Point).
Muara Harbour: Pilotage is compulsory. Application for a Pilot for entering Muara Harbour must be made by written request at least 24 hours before arrival. Pilots board vessels in Brunei Bay at the Northern end of the entrance channel through Pelompong Spit.
Tanjong Salirong: Pilotage is not compulsory. If a Pilot is required for vessels loading logs at Tanjong Salirong then application must be made 24 hours in advance of arrival stating position where it is required for Pilot to embark (i.e. at Outer Bar or Sapo Point). A Customs Officer and Agent's clerk will proceed to Tanjong Salirong from Muara Harbour or Bandar Seri Begawan and will remain on board whilst vessel is loading, accommodation and food provided by ship. Stevedores and tally clerks provide their own food.
ANCHORAGE: Vessels entering Muara Harbour without berthing space will be anchored 5 cables S.S.W. of wharf. If so desired ships may discharge perishable cargo at anchorage into lighters. Consignees must make arrangements with Agent to obtain permission from Customs, who will provide a Customs Officer to attend to discharge.
HEALTH: *(a)* Immigration: Immigration Officer will board vessel and clear her inward after pratique granted by Port Health Authority. Immigration will require 2 copies of passenger lists and 2 copies of crew list. Vessels inward are cleared up to 2000 hrs. only.
(b) Quarantine: For vessels coming from outside State of Brunei, Port Health Authority will board on arrival at wharf or anchorage. Port Health Authority requires complete copy of Entry Declaration of Health and copies of passenger and crew lists.
STEVEDORES: Stevedoring is in the hands of contractors who supply gangs as required. Working hours are 0730 hrs. to 1215 hrs., 1315 hrs. to 1600 hrs., 1900 to 2300 hrs. (overtime). Overtime is usually worked from 1900 to 2300 hrs., permission to work overtime is required from the Customs Department. No tally clerks available. All tallies to be made by ship's own tally clerks.
MEDICAL: Government General Hospital is situated in Bandar Seri Begawan 16 miles from Muara Harbour. General Hospital is well equipped with facilities to carry out normal surgery. Inoculations and vaccinations given free of charge.
FRESH WATER: Can be supplied from the wharf at Muara Harbour and Bandar Seri Begawan. No fresh water is supplied at Tanjong Salirong. No water-boat in State.
FIRE PRECAUTIONS: Fire-floats are stationed at Fire Brigade sub-station near Customs sub-station in Bandar Seri Begawan. No fire-floats at Muara Harbour.
CONSULS: British High Commission: Jalan Residency, tel. 2231.
HOLIDAYS: The Brunei Government working days are Monday to Thursday and Saturday. Friday and Sunday being holidays. Application must be made to Customs for working on Friday and Sunday and other public holidays. Brunei being a Muslim State, insists on strict observation of all Muslim rites such as The Sultan's Birthday, Har Raya Puasa, Hari Raya Haji, etc. Chinese New Year is also observed.
POLICE/AMBULANCE/FIRE: General Hospital, Jalan Stoney, Bandar Seri Begawan, office tel. 3521; residence tel. 2422. Police HQ, Jalan Gadong, Bandar Seri Begawan, office tel. 3901; residence tel. 3901 Ex. 245. Fire Brigade, Muara, tel. 8755, Bandar Seri Begawan, tel. 2555; residence tel. 2772.

AUTHORITY: The Director of Marine. Bandar Seri Begawan.
AGENT: Harrisons and Crosfield (Sabah) Sdn. Bhd., Bandar Seri Begawan. Telegraphic address: "Crosfield", tel. 2361, 3011. Manager's residence tel. 2220. Code Bentley's second phase.

Bulgaria

BOURGAS (including Drujba): 42.30 N. 27.29 E.

Well protected port at inner-end of Bourgas Bay, with good roads, anchorage.

DOCUMENTS:
Master's Declaration.
Cargo Plan.
Customs Manifest.
Bill of Health.
Health Condition Certificates of crew members.
Manifest and consignment of cargo.
Provision List.
Crew List.
Passenger List.

PILOTAGE: Pilotage in Inner Roads compulsory for vessels above 100 g.r.t.

Application for Inner Roads Pilot must be made to Agents "Inflot" at least two hours prior arrival. (If incorrect ETA given – pilotage fee doubled.)

Outer Roads pilotage not compulsory. Vessels requiring Outer Roads pilotage must advise Agents "Inflot" at least 12 hours before time pilotage required and give position of required pick-up point.

Applications for Pilot should include Nationality and call letters; gross tonnage; date (2 figures); Time (4 figures) when Pilot required; Draft in metres (4 figures).

APPROACHES: Through fairway, depth of channel 29 ft. L.W.

ANCHORAGE: Outer Roads. Vessels anchored must keep close watch on Roads Signal Station for orders given by flag or signal lamp.

RESTRICTIONS: Arrival and sailing from oil port of Drujba and fish port of Slavianka permitted only in daylight.

RADIO: Bourgas – 500 KNC.

TUGS: Available and compulsory for vessels over 1,000 g.r.t. Tug's lines used.

BERTHING: Compulsory berthing for vessels over 50 g.r.t. (Between 1800 and 0600 hrs. – mooring fee increased 50%.) Container handling facilities available.

STEVEDORES: Available to work day and night.

RADAR/VHF: None.

MEDICAL: Hospital and dispensary available.

TANKERS: Oil port Drujba. Permissible draft 33 ft. Height of quay 2 m. No slop discharge facilities.

DENSITY: 1017.

FRESH WATER: From S.E.E. "Balkanstrans", tel. 45751. Available through hose hydrants or ex-barge. 24 hours notice required.

FUEL: From S.E.E. "Balkanstrans", tel. 45751. 72 hours notice diesel, and gas oil available. Shell and Castrol lubricants available.

FIRE PRECAUTIONS: Constant day and night duty, and direct telephone connection with port fire service.

GANGWAY/DECK WATCHMEN: Vessels in Roads not permitted to have gangways down. Vessels alongside quay with lowered gangway must have manropes, safety-net, life-buoys with rope of at least 30 m. length attached, an officer on duty at the gangway and must be lit at night.

OPENING/CLOSING HATCHES: Accordance charter party.

CERTIFICATES:

Construction.	Hull and Machinery.
Safety Radio.	Load-line.
Classification.	Cargo Gear.

CUSTOMS ALLOWANCES: Tobacco – 2 packets per crew member per day. Wines/spirits – for Master, as required; for crew – one opened bottle.

IDENTIFICATION CARDS: Required.

CONSULS: Turkish.

REPAIRS: Small repairs only.

DRY DOCKS: A floating dock, lifting capacity 4,500 tons available.

REPATRIATION: Can be fulfilled if necessary. Replacement of crew by Bulgarian nationals is impossible.

AIRPORT: Connections with Berlin, Prague, Budapest, Bucharest, Warsaw, London, Copenhagen, Vienna.

TIME: GMT plus 2 hours.

HOLIDAYS: New Year (1st January); May Day (1st/2nd May); Day of Slav written language (24th May); Day of Freedom (9th/10th September); October Revolution (7th November). Time from 1300 hrs. on day before Sundays and holidays until 0800 hrs. day after is non-working time but loading and discharging carried out at overtime rates.

TELEPHONES: Captain of the Port, 431–40; Pilots, 420–90/49, 423–52/49; Soviet Shipping Register, 454–34; Bulgarian Shipping Register, 471–32; Shipping Agency "Inflot", 455–06, 28–79; Military Office, 426–84; Ambulance, Fire 05.

SHORE LEAVE: Allowed. With permission of CPP, and seaman's book. Transport from Roads by motor boat according to timetable of Shipping Administration.

REGULATIONS: Given to Master on arrival.

DELAYS: Possible while waiting for Pilot owing to bad weather or waiting turn for berth.

SHIPMASTER'S REPORT (Vessel 107,023 d.w.t.).

Danger Area: Minefield area 43, see Nemedri.

Documents:
Bill of Health.
6 Crew Lists.
3 Stores Lists.
3 Personal effects Lists.
Ship's documents (Register, Certificates, etc.).
No money list required.

Upon arrival Master receives Port Regulations (re: watchmen, ratguards, stoppage of propeller, waste disposal, pollution, etc.).

Radio: Bourgas Radio, port control VHF Channels 16 and 10; Pilots VHF Channel 14.

Density: Average 1012.

Identification Cards: Crew members are given shore passes and are allowed ashore until midnight. Persons with long hair are refused passes.

Custom Allowances: No limits on board, no seals, crew are allowed to take 1 or 2 packets of cigarettes ashore.

Repatriation: No difficulties.

Airport: Daily flights to Sofia with connecting international flights.

Tugs: Four available.

Anchorage: Vessel ordered by authorities to proceed to position 43.39 N. 27.56 E. for clearance and Pilot. After clearance vessel proceeded to 42.40 N. 27.49 E. for lightening.

Lightening: Vessel required to be lightened to 39 ft. Tankers come alongside; they carry good rubber fenders and one 10-in. discharge hose. Discharge rate varies from 1,500–1,800 t.p.h. according to tanker's requirements.

Berthing: At the SW corner of the bay. There are two "T" shaped berths, max. depth 40 ft. Each berth consists of 3 platforms connected by a catwalk. Length of berth used was 125 m.There are mooring dolphins but the length of vessel is 259 m. so all lines were breast ropes and springs.

Discharging: Two 8-in. hoses are connected to the pipe-line on the catwalk. Discharge rate, 1,800 to 2,000 t.p.h. depending on the back pressure. The height limit of the hoses is about 54 ft. above sea-level. Vessels are required to ballast if necessary before reaching this level. The Berth is protected from the prevailing N.E. wind.

Dardanelles Entrance: (Canakkale, Turkey) Pilot station is at Seddulbahir. Call sign "Canakkale Pilot" VHF Channel 16. During Southerly gales Pilot boards close to Kanakkale Town.

Bosporus: North entrance, pilot station at Kavagi, Pilot boards off Dikilikaya Light. Call Pilot on VHF Channel 16.

AUTHORITY: Region Port Administration, Bourgas.

AGENT: "Inflot", Bourgas. Tel. 455–06, 428.79.

VARNA: 43.12 N. 27.57 E.

Well-protected port at inner-end of Varna Bay.

DOCUMENTS:
Master's Declaration.
Cargo Plan.
Customs Manifest.
Charter Party.
Disinfection Certificate.
Health Condition Certificate for crew members.
Manifest and consignment of cargo.
Provision List.
Crew List.
Passenger List.
Crew passports (Seaman's Books).

PILOTAGE: Pilotage in Inner Roads compulsory, but not compulsory for Outer Roads. Vessels requiring pilotage at Outer Roads must radio Agents "Inflot" 24 and 8 hours prior arrival giving position of required pick-up point, also: name of vessel, nationality and call letters, GRT, length, draft in m. (4 figures), date (2 figures), time (4 figures).

Pilot comes from inside Port of Varna (there are no permanent pilot stations at Capes Emine or Caliacra). In bad weather impossible for pilot boat to reach Outer Roads and vessel will be so informed by Agents "Inflot" and instructed to proceed anchorage in Varna Bay.

Pilot boat is patrol boat with yellow funnel and letter "P". Carries international recognition signals by day and night.

APPROACHES: Through fairway, depth of channel 39 ft.

ANCHORAGES: Outer Roads in area East of meridian 27.56 E., beyond fairways. Vessels anchored must keep close watch on Roads Signal Station for orders given by flag or signal lamp.

RESTRICTIONS: Entering and leaving oil quay, ship repairing plant and lake permitted only in daytime.

RADIO: Radio Varna LZW – 500 kHz. LZW_4 – send 8607 kHz, receives 8447 kHz. LZW_5 – sends 13078 kHz, receives 12612 kHz.

TUGS: Compulsory for vessels over 1,000 g.r.t. Tug's lines used.

BERTHING: Compulsory berthing for vessels over 50 g.r.t. Depths at quays up to 39 ft.

BRIDGES: When proceeding to and from Varna lake, vessel passes under Asparuhov bridge. Bridge is raised to 70°. Use of Pilot, tugs, and patrol boat obligatory. Max. size of ship passing under bridge: length 126 m., draft 7 m.

STEVEDORES: Liner ships and chartered vessels on liner terms are obliged to use stevedore and tallyman service.

MEDICAL: All facilities available. Attendance to urgent cases given free of charge.

TANKERS: Discharge berths only. Drafts 29 ft. and 18 ft.

DENSITY: 1013.

FRESH WATER: Available through shore hydrants or ex-barge. 24 hrs. notice required.

FUEL: From S.E.E. "Ship Bunkering", tel. 2.29.27; N. J. Vaptqarov. str. No. 3, 72 hours notice required, Bunker "C", diesel, and gas oil available. Lubricants: Shell and Castrol – 48 hours notice required.

FIRE PRECAUTIONS: Assistance obtainable from shore hydrants, town fire brigade and water cannons on tugs.

GANGWAY/DECK WATCHMEN: Vessels in Roads not permitted to have gangways down. Vessels alongside quay with lowered gangway must have manropes, safety-net, life-buoys with rope of at least 30 m. length attached, an officer on duty at the gangway, and must be lit at night.
OPENING/CLOSING HATCHES: To be performed by crew on initial commencement and final completion of cargo work. During work periods in port, performed by stevedores.
CERTIFICATES:
Construction.
Safety Radio.
Classification.
Hull and Machinery.
Load-line.
Cargo gear.
CUSTOMS ALLOWANCES: Tobacco – 2 packets per crew member per day. Wine/spirits – for Master, as required; for crew – one opened bottle.
IDENTIFICATION CARDS: Required.
CONSULS: U.S.S.R. and D.D.R.
REPAIRS: All manner of repairs possible in ship-repair plant. Tel. 2.27.01 and 2.35.48/49.
DRY DOCKS: Suitable for vessels up to 30,000 d.w.t.
REPATRIATION: Can be fulfilled if necessary. Replacement of crew by Bulgarian nationals is impossible.
AIRPORT: Connections with Berlin, Prague, Budapest, Bucharest, Warsaw, London, Copenhagen, Vienna.
TIME: GMT plus 2 hours.
HOLIDAYS: New Year (1st January); May Day (1st/2nd May); Day of Slav written language (24th May); Day of Freedom (9th/10th September); October Revolution (7th November). Time from 1300 hrs. on day before Sundays and holidays until 0800 hrs. day after is non-working time, but loading and discharging carried out at overtime rates.
SERVICES: Tank cleaning and removal of sludge. Compass adjusting.
TELEPHONES: No facilities for connection on board.
Captain of he Port, 2.23.72; Pilots, 2.27.21,2,3/292/; Custom House, 2.23.87; Lloyd representative, 2.26.21,2,3/395/; Soviet Register, 2.26.51; Bulgarian Shipping Register, 2.41.21; Inflot, 2.26.69; 2.26.36; Military office, 2.27.21,2,3/236/; Ambulance, 2.27.21,2,3/213/; Fire, 2.27.21,2,3/222/.
SHORE LEAVE: Permitted day and night except that all crew to be back aboard at 0500 hrs. – but may then go ashore again at 0505 hrs.
REGULATIONS: Given to Master on arrival.
DELAYS: Possible whilst waiting for Pilot owing to bad weather, or waiting turn for berth.
AGENT: "Inflot" State Shipping Agency. Cables: "Bolinflot", Telex: 021516.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Burma

RANGOON: 16.47 N. 96.15 E.

DOCUMENTS:
Ship's Register.
Crew and Passenger List.
Dangerous Cargo List, if any.
Customs Declaration for Crew and Ship.

PILOTAGE: Compulsory. The services of Assistant Harbour Masters are required to bring ships alongside.

Vessels bound for the port of Rangoon should make for the *Dagon* lightvessel (China Bakir) Lat. 15° 59.9′ N., Long. 96° 14.5′ E. and then proceed towards *Lanthaya* lightvessel. Vessels of 26 ft. draft and over should anchor off *Dagon* lightvessel due to insufficiency of depths at the pilot station at low water, and await instructions from the pilot vessel for embarking Pilot.

Vessels below 26 ft. draft may proceed direct to the pilot vessel for embarkation of Pilot.

The pilot vessel or its relief is normally cruising or anchored at Lat. 16° 11.0′ N., Long. 96° 19.6′ E. approximately 10 miles North of *Dagon* light vessel and 42 miles from the Port of Rangoon.

ANCHORAGES: Specific areas of the port are reserved for special anchorages as follows:

(a) *Petroleum Anchorage* at Liffey Reach just below Syriam, accommodating two vessels.
(b) *Explosives Anchorage* below Admiralty Jetty near Chokey Point.
(c) *Small Craft Anchorage* at King's Bank accommodating 20 inland vessels and schooners, etc.

ETA: Forty-eight hours advance notice of ETA required, confirmation to be made 24 hours later or one working day ahead of the ship's ETA to enable necessary arrangements to be made regarding Pilots. Information required in the advance notice are: *(a)* ETA, *(b)* Draft, *(c)* Speed, *(d)* Gross tonnage, *(e)* Length OA.

RESTRICTIONS: Generally on a flood tide between the time of low water to high water at the pilot station, depending on ship's actual draft and speed in order to obtain sufficient depths at the Outer Bar.

Navigation day and night during river passage, but entry into Inner Harbour is normally restricted to daylight hours.

The Master Attendant regularly issues Draft Forecasts to all steamer Agents advising them of the drafts to be obtained within the next 2 months.

MAX. SIZE: The port is accessible to vessel of 540 ft. length OA, and draft up to 28 ft. at Spring tides. The draft of the vessel entering the river is controlled by the depth available at the Outer Bar, carrying 11 ft. depth at datum. Entry into the harbour is controlled by the Inner Bar off Monkey Point, carrying from 11 ft. to 12 ft. depth at datum. These depths are subject to seasonal variations and are least during the dry season from November to May.

HEALTH:

(a) Maritime Declaration of Health signed by the Master and also by a Ship's Surgeon if one is available.
(b) Valid Derating or Derating Exemption Certificate.
(c) Valid Vaccination Certificates against cholera and smallpox of crew and passengers (if a certified list of date of expiry of these Certificates is available, the issue of pratique will be expedited).
(d) Pratique is issued by the Medical Officer on duty, after examination of the crew and passengers of the ship. The pratique is automatic if the vessel arrives after touching other ports in the country. NO RADIO PRATIQUE IS ISSUED.
(e) Quarantine Clearance on sailing is essential.

RADIO: International single operator watch period for zone "C". Assigned frequencies are 425, 454, 468, 512, 500 kc/s. and 2.8, 4.26 mc/s, call sign XYCZ.

In cases of inability to contact the pilot vessel by wireless the Master should send cable to the Harbour Master "Portrust" via Rangoon Radio Station, call sign XYR.

Within harbour limits contact can be made with Port Tower by light visual signalling. VHF contact can also be made with Port Tower, call sign XYU, Channel 16 (calling frequency). The working frequencies are Channels 14, 12 and 6 (Hague Convention).

TUGS: Generally not used for mooring and berthing purposes, but available in emergency.

BERTHING: There are eleven wharf berths and two pontoon berths for seagoing vessels:

Rice Loading Berths:

(a) *Sule Pagoda Wharf*, Berths No. 1 & 2 accommodating two vessels of 450 ft. each. LWOST varies from 24 ft. to 28 ft. approx.

(b) *Ahlone Wharf*, length 440 ft. accommodating a vessel of 440 ft. LWOST varies from 26 ft. to 28 ft. approx.

(c) *Hteedan No. 1*, length 456 ft. accommodating a vessel of 460 ft. LWOST varies from 26 ft. to 30 ft. approx.

General Cargo Berths:

Sule Pagoda Wharf Berths Nos. 3, 4, 5, 6 and 7 accommodating five vessels ranging from 450 ft. to 520 ft. LWOST varies from 24 ft. to 30 ft. approx. Berth Nos. 3 and 4 are generally reserved for coastal vessels.

Timber Export Berths:

Brooking Street Wharf: Berths Nos. 1 and 2, accommodating two vessels of 450 ft. each. LWOST varies from 26 ft. to 29 ft. approx.

Passenger Berth:

The Port Health Station. A Pontoon Jetty equipped with a large floating pontoon 500 ft. length and accommodating vessels of 520 ft. to 595 ft. LWOST varies from 25 ft. to 28 ft.

Moorings:

The port is equipped with 13 swinging moorings and two sets of fixed moorings in the Inner Harbour; three swinging mooring buoys at Hastings, and two fixed moorings for Oil Tankers. In addition, a number of mooring buoys are provided for small sized seagoing vessels.

Mooring and Berthing Procedure:

While in port, ships tie alongside wharves or moorings. The procedure is as follows:

(a) *Single Buoy Mooring* – Vessels moored with ships' own cable which is led through hawse pipe and shackled on to buoy cable. The shackle is provided by the Board.

(b) *Fixed Mooring* – Same procedure as above but the vessel is moored to four buoys.

(c) *Berthing* – Normal ship's ropes and wires are used for berthing at wharves. In addition wharves' mooring chains are also provided for securing to ship's bollards.

FUEL: Fuel, diesel and gas oil (HSD) from Myanma Oil Corporation. Fuel oil provided by barges of 150 to 180 tons capacity alongside vessel during daylight hours. Coal supplied by Government Trade Corporation No. 17.

FRESH WATER: Available either directly alongside the wharves or in midstream, delivered by water boats.

CARGO HANDLING EQUIPMENT: The heaviest lifting capacity of the port is a 40-ton crane at the Brooking Street Wharf.

Heavy packages may be landed or shipped by a vessel's own tackle at the wharves subject to prior notice being given to the Traffic Manager.

STEVEDORES: In two shifts of 0800 hrs. to 1600 hrs., and 2000 hrs. to 0400 hrs. Overtime work is arranged on special request from Agents. Stevedoring undertaken by Port Authority. To enable ship's Agents to order labour gangs in time, it is important to obtain in advance the accurate ETA of vessels. Latest time to order gangs is 1100 hrs. for booking for that night and the next day. For Sundays and Holidays bookings must be made before 1100 hrs. of the preceding working day.

GANGWAY/DECK WATCHMEN: Available on application to the Traffic Manager.

The working hours of a watchman are the same as the wharf working hours.

OPENING/CLOSING HATCHES: Undertaken by port labour.

REPAIRS: Deep-sea repairs are undertaken by Board's engineers. The "Setsan Dry Dock", a tidal dock owned by the Board, can take vessels up to 1,000 tons and 250 ft. in length.

The Sinmalaik Dry Dock can take vessels up to 2,000 tons and 300 ft. in length.

FIRE PRECAUTIONS: A special land-based Port Fire Brigade is maintained by the Port Authority supplemented by a fire-fighting vessel and tugs for emergencies in the river.

CONSULS: The following countries are represented by consulates or embassies at Rangoon:

Australia
Belgium
Bulgaria
Cambodia
Ceylon
China
Czechoslovakia
France
Fed. Republic of Germany
German Democr. Republic
Hungary
India
Indonesia
Israel
Japan
People's Rep. of Korea
Republic of Korea
Malaysia
Nepal
Norway
Pakistan
Philippines
Poland
Thailand
U.S.S.R.
United Arab Republic
Great Britain
Vietnam
Yugoslavia

POLICE/AMBULANCE/FIRE: Port Police 14520; Ambulance 008; Port Fire Brigade 18653.

TELEPHONES: Ship to shore telephones are available on request.

HOLIDAYS: Independence Day; Karen New Year; Union Day; Peasant's Day; Full moon of Tabaung; Resistance Day; Thingyan; Burmese New Year; Labour Day; Full moon of Kason; Full moon of Wazo; Martyr's Day; Thadingyut; Dewali; Tazaungdaing; National Day; Christmas.

Ships may work on Sundays and holidays on application to the Traffic Manager and on payment of Sunday or holiday fees.

AUTHORITY: Board of Management for the Port of Rangoon.

Cameroon Republic

DOUALA: 04.00 N. 09.40 E.
TIKO: 04.00 N. 09.24 E.
VICTORIA: 04.01 N. 09.13 E.
KRIBI: 02.56 N. 09.54 E.

DOCUMENTS:
5 Crew Lists.
5 Lists of Port of Call.
5 Passengers' Lists.
2 Crew Customs Declarations.
2 Declaration of Provisions on Board.
1 Arms and Ammunition.

PILOTAGE: (With the exception of Kribi and Victoria where ships work cargo at anchorage); Compulsory at Douala and Tiko. Ship's arrival must be notified at least 24 hrs. in advance. This must be confirmed.

For Douala waiting anchorage at base buoy (3° 54.1′ N. 9° 32.2′ E.). Pilot called by phone (21–82) or by VHF (16–14). For entry of Tiko waiting is at Victoria anchorage.

ANCHORAGE: Base buoy for entry at Douala (see "Pilotage") 12 m. depth approx. For Victoria anchorage on roads in Bay Ambas about 9 m. depth. Anchorage for Tiko on the Bimbia. Kribi anchorage by red conical buoy (02° 56′ 35″ N. 09° 53″ E.) depth 6.30 m. to 7 m.

RESTRICTIONS: Draft only, for ports of Douala and Tiko. For Wouri Channel official level is 4.80 m.

MAX. SIZE: At Kribi and Victoria anchorage, no restrictions. Douala max. length 200 m. Draft varies from 6.60 m. to 7.40 m. At Tiko there is only one pier of 150 m. the depth is between 5.50 m. and 5.80 m.

HEALTH: Free pratique granted after compulsory checking of vaccination certificates against yellow fever and smallpox. Health Officials hand the Master a special Health form to fill in.

RADIO: (See "Pilotage"). Douala Radio Station limited to broadcasting of news bulletins for private individuals which are communicated to the station on the spot. VHF Channels 16 and 14.

For vessels arriving at Douala, Masters should send a message to their Agent at least 48 hours prior to arrival, giving the following information. (1) ETA at base buoy (given in local time). (2) Cargo tonnage for discharge, and hatch distribution. (3) Number of gangs required. (4) Vessel's draft. (5) Any other requirements, e.g. money, medical attendance, etc.

For vessels arriving on a Sunday or Holiday Agents must be informed by 1100 hrs., the day before arrival, if overtime work is required. If night work is required by vessels arriving in the afternoon or evening, the Agent must be informed by 1700 hrs. the day before arrival. It is also advisable to telex all information from the last port of call as Douala Radio Station can be difficult to contact.

TUGS: One tug, 880 h.p. Obtained on demand to Tugs Union of Douala. Towage is optional and subject to Pilot's advice.

BERTHING: For Douala there are 11 berths equal to length of 1,675 m. approximately.

Two of these berths have priority berthing for mailboats, Alumine carriers and occasionally tankers. There is a berth consisting of two piles in the river used for oil discharge. All the berths have a depth alongside of 7.5 m. at LW.

Another berth on the right bank at Bonaberi, 150 m. long, mainly used by banana cargoes and butane tankers.

STEVEDORES: Number of stevedore gangs is requested from Charterer's Agents, taking into account size of cargo.

MEDICAL: An appropriate Medical Service can be set up on demand in case of an emergency, such as an epidemic on board.

TANKERS: At Douala Harbour a berth of 153 m. approximately and draft 6.60 m. This berth can accommodate oil tankers of 12,000 tons. No slop discharge. See "Shipmaster's Report".

DENSITY: 1012.

FRESH WATER: Available at berth; supplied by hoses at 20 t.p.h.

FUEL: Supplies arranged by Charterer's Agent who have their particular suppliers.

FIRE PRECAUTIONS: In addition to the usual measures, the quay station for oil tankers is isolated during discharging, and there is also a watch by tugs.

GANGWAY/DECK WATCHMEN: Ship's crew or arranged by Charterer's Agents.

OPENING/CLOSING HATCHES: At option of Master.

CERTIFICATES: Safety, Radio, Sea-worthiness, Freeboard, Derricks, etc.

CUSTOMS ALLOWANCE: 1,000 cigarettes per person, two bottles of spirits per person.

IDENTITY CARDS: A check could be made inside the harbour area as well as in town.

CONSULS: At Douala.

AIRPORT: Situated about 3 km. from Douala. Regular international airlines during whole year.

TIME: Local time GMT plus 1. No change during year.

HOLIDAYS: Official holidays: Independence Day (1st January); Youth Day (11th February); Labour Day (1st May); Reunification Day (1st October); Human Rights Day (10th December). Religious Holidays: Easter Monday; Ascension Day; Whit Monday; Assumption (15th December); All Saints Day (1st November); Christmas; End of Ramadan; Festival of the Sheep.

POLICE/AMBULANCE/FIRE: Central Police Station 42–22; Ambulance (Laquintinis Hospital) 48–84; Fire Brigade 32–32.

TELEPHONES: No possibility of telephone connection on board.

SERVICES: Deratisation and fumigation.

SHORE-LEAVE: Permitted.

SHIPMASTER'S REPORT:

Developments: Tanker berth (2 dolphins) is now in use. Tankers moor with 3 head and stern lines on mooring buoys, 1 breast line on another buoy and the springs on the dolphins (4 buoys altogether).

Three connections: 8 in. for white products. About 250–300 t.p.h. for these products. Bunkers can be supplied on this berth but are not always available.

Restrictions: Max. allowable draft depends on the state of the tide and the season (dry or rain).

According to information received 23 ft. is the maximum at this moment. With this draft a ship can pass safely from seabuoy to base buoy on any state of the tide.

Sailing from the tanker berth: subject draft, always on flood tide, between 2 hours before HW and LW, sailing/mooring, day and night. 1 tug assists in mooring and sailing procedures.

A special boat keeps contact with the shore from this dolphin berth (for crew and stores).

Currency: CFA francs = (100 CFA = 2 Fr. Francs).

DELAYS: No unusual delays.

AUTHORITY: Management of Ports and Seaways of Cameroun.

AGENT: Socopao Cameroun – BP 215 – Douala. Tel. 42–64–64. Telex: 5252 KN, 5214 KN.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Canada

GENERAL: *Pilotage Regulations:* Vessels arriving from any point *East* of the Strait of Belle Isle, Cabot Strait or the Strait of Canso is required to give notice of ETA 24 hours in advance, second notice of ETA 12 hours in advance and Final notice confirming or correcting the ETA 4 hours in advance. With the first notice the following information should be supplied:

(a) in the case of the first arrival of the ship in the compulsory pilotage area in any calendar year,
  (1) the name, nationality, call sign and Agent of the ship,
  (2) the length, breadth, moulded depth, deepest draft, speed and the largest net registered tonnage of the ship, and
  (3) the immediate and the ultimate destinations of the ship within the compulsory pilotage area, and

(b) in the case of any subsequent arrival, movage or departure of the ship in the compulsory pilotage area in any calendar year,
  (1) the name, call sign, deepest draft, the speed of the ship and any changes in the information provided under paragraph *(a)*, and
  (2) the immediate and ultimate destinations of the ship within the compulsory pilotage area

The Laurentian Pilotage Authority advises that, where there is failure to give the required notices, without reasonable cause, the Authority is *not* required to provide the vessel with the services of a Pilot.

AMHERSTBURG, Ontario: 42.06 N. 83.08 W.

PORT LIMITS: Southerly Port Limits commence at Buoys 43D and 44D and extend on the Canadian side of the International Boundary Line, northerly to the southerly limits of Windsor Harbour.
DOCUMENTS: Amherstburg is not a port of entry, but a Customs Officer is available upon notice 24 hours a day. Foreign Ships, on arrival, are required to present Canadian Customs Form A-6 inward and A-6 outwards.
PILOTAGE: Pilotage is compulsory as required by Seaway Regulations.
ANCHORAGES: Windsor Harbour is the only recognized anchorage in Detroit River.
RESTRICTIONS: Seaway draft is maintained in main channel and shallow draft channel of 21 ft. Water levels are affected by fluctuation of Lake Erie. A Low Water Warning is broadcast from Belle Isle on 2670 kHz and 156.6 mHz on the odd hour plus 55 minutes when the water level in the West end of Lake Erie falls 1 inch or more below the lower level of the Lake Survey Centre's predicted range of levels shown in bulletins issued the 5th and 20th of each month during navigation season. An Occulting Amber Light is shown from Detroit River Light (U.S. Light List 850) during these conditions. When the water level is at, or above the lower level of the predicted range a fixed amber light is shown from Detroit River Light.
MAX. SIZE: About 432 ft. long and 21 ft. draft is maximum for Allied Chemical Dock.
HEALTH: Pratique is not necessary as vessel has passed all health requirements before entering Canada.
RADIO: Messages may be sent and received via VBE Sarnia Radio.
VHF: None available for port movement, except as established between vessels in Harbour.
TUGS: Available, but not usually used.
BERTHING: Public Wharf has a frontage of 250 ft. with large warehouse on it. Vessels draft for approach 17 ft. North is Department of Transport Wharf and Buoy Depot, length 291 ft., draft approach 17 ft. North of this dock is McQueen's, 17 ft. draft. The old Town Coal Dock is about 1,500 ft., but is old and dilapidated and has not been used for cargo for several years, draft approach 17 ft. Allied Chemical is a private dock which consists of a floating barge secured to pile clusters. Import fuel oil and export liquid calcium. Vessels of 412 ft. length call here regularly, draft approach along side 21 ft.
CRANES: Shore cranes are available for hire from private contractors, also floating barges with cranes, 100 ton capacity and 200 ft. boom if required.
BULK CARGO FACILITIES: Conditions of various wharves does not warrant any usage for bulk cargoes.
BRIDGES: No bridges within Amherstburg Harbour area.
STEVEDORES: Stevedoring is arranged through Agents in Windsor.
MEDICAL: Should medical attention be required it can be arranged through radio station VBE Sarnia by message to Canadian Coast Guard Base Amherstburg. Hospitals are available in Windsor with Ambulance service. Injured seaman can be taken off if necessary by Canadian Coast Guard in vicinity of Amherstburg, when notified via VBE Radio Sarnia.
TANKERS: Use private wharf of Allied Chemical Limited.
DENSITY: Fresh water only.
FRESH WATER: Fresh water could be supplied in an emergency by tank truck or contacting Public Utilities Commission.
FUEL: Not available on docks, except by truck.
FIRE PRECAUTIONS: Usual ship board fire precautions on board.
CONSULS: None.
REPAIRS: Small ship repairs can be carried out by local firms from Windsor.
DRY DOCK: None.
SURVEYORS: None stationed in port, but arrangements can be made to have an inspector when required.
GANGWAY/DECK WATCHMEN: No regulations requiring watchman.
CUSTOMS ALLOWANCES: Same as all Canadian Customs Regulations.
CARGO GEAR: Ship's gear, unless pallets are used.
REPATRIATION: Arrangements for crew change can be made.
AIRPORT: Windsor Airport is 20 miles distance and service is by Air Canada, Nordair and numerous charter companies.
TIME: Local time is GMT plus 5 hours and Summer time plus 4 hours.
HOLIDAYS: All Canadian Holidays, working time requires negotiating with local unions.
POLICE/AMBULANCE/FIRE: Police – 736-3622, Ambulance – 736-5411, Fire – 736-6500.
TELEPHONES: No telephone jacks available on any dock.
SERVICES: Laundry can be done, but takes considerable time. Food stuffs are available, including fresh produce.
SHORE LEAVE: No restrictions.
IDENTIFICATION CARDS: Seaman's I.D. card is sufficient.
REGULATIONS: No unusual regulations.
DELAYS: Private owner's dock is only dock being used for cargo.
DEVELOPMENTS: None, except Government Wharf and Shed is being taken over for extended Buoy Depot and Shed will be demolished and Wharf will be used by Government vessels.
AUTHORITY: Canadian Coast Guard Base, Harbour Master, Amherstburg.

BADDECK, N.S.: 46.06 N. 60.44 W.

DOCUMENTS:
4 Crew Lists.
Customs Documents.
Harbour Dues Receipt.
Stores List.
Derating Certificate.
Safety Regulations.
Clearance from Last Port.
PILOTAGE: Compulsory. Pilot station at Table Head, see Canadian chart 4367.
ANCHORAGE: Good anchorage in lake. Depths 50 to 500 ft.
RESTRICTIONS: Can be restricted by heavy fog, tide, ice.
MAX. SIZE: Largest vessel to dock 497 ft. long, 66.7 ft. wide. Draft 28 ft.
HEALTH: Pratique obtained at Sydney, N.S.
RADIO: Sydney Radio
BERTHING: The dock is 330 ft. in length, with an approach way of 80 ft. length, making an "L" shape. Depth alongside at LW is 15 ft. at the inner end and 25 ft. at the outer end.
TUGS: None.
MEDICAL: No advance notice required. Hospital available.
DENSITY: In sea 35/1000. In lake 25/1000.
FRESH WATER: Supplied at 20 t.p.h.
FUEL: None available.
CERTIFICATES: Registry, Derating and Safety Certificates.
CUSTOMS ALLOWANCE: Tobacco, 100 cigarettes per week or 0.5 lb. tobacco. Wine/spirit: None.
CONSULS: None.
REPAIRS: Minor repairs only.
HATCHES: Normally opened and closed by crew.
AIRPORT: 55 miles. Served by regular airlines.
TIME: GMT minus 4 hours. Advance 1 hour in Summer.
HOLIDAYS: Sundays and Statutory holidays; New Year's Day; Good Friday; Easter Monday; Victoria Day; Canada Day; Labour Day; Thanksgiving Day; Remembrance Day; Christmas Day.
POLICE/AMBULANCE/FIRE: 295 2350, 292 2032, 295 2110.
TELEPHONES: None available for placing on board.
AUTHORITY: Dept. of Transport.

BAIE COMEAU, Quebec: 49.15 N. 68.09 W.

PORT LIMITS: Starting from a point on the Southern limit of Baie Comeau at Pointe St. Gilles 49° 12′ 10″ N., 68° 08′ 41″ W. Thence, North-eastward to Pointe St. Pancrace, 49° 15′ 14″ N., 68° 04′ 43″ W.
All waters inside of these points are understood to be part of Baie Comeau Harbour.
DOCUMENTS: Baie Comeau is a Port of Entry. Custom and Immigration facilities are located in the Town of Baie Comeau. All vessels arriving from Foreign Ports will be boarded by Custom and Immigration Officers.
The following forms are to be completed prior to arrival at the first Canadian Port:
3 copies Immigration Crew List, IMM-200
3 copies Crew Declaration, Y-14
3 copies Ship's Stores, E-1
3 copies Passenger List, IMM-264
2 copies Quarantine Service, *Q-S-1
*To be supplied by Quarantine Officer on arrival.
ETA: Advise Agent 72, 24 and 4 hours before arrival. Include fuel and stores requirements.
PILOTAGE: Not compulsory. The services of a qualified Docking Master are available through the facilities of Cargill Grain Company. Docker instructions will be given by radio after receiving vessel's ETA.
Normally the Docking Master boards from tug approximately 0.5 mile S.W. of Pointe St. Pancrace.

RESTRICTIONS: Port open for shipping all year round. Deep water approaches without restrictions for any vessel able to berth alongside.
ICE ADVISORY SERVICE: Ships inbound for Baie Comeau from seaward between December 15th and April 15th should advise the Ice Information Officer, Sydney, N.S., 36 hours prior to entering Cabot Strait stating their position, destination, whether loaded or in ballast. This procedure will facilitate the passing of ice information to the ship as necessary.

On request, ice information is also available from Marine Radio Stations at Halifax, Camperdown, Seven Islands, Twillingate and Grindstone. The Canadian Broadcasting Corporation Maritime network also broadcasts ice information daily during the Winter navigation season. Supplementary ice information may also be obtained from Canadian Marine Service icebrakers.

During the ice season, radio broadcasts of ice information are made twice daily from Marine Radio Stations as follows:

	Call	*Frequencies*	
Cape Race, Nfld.	VCE	420	kc/s CW
		2582	kc/s RT
Fox River, Que.	VCG	434	kc/s CW
		2582	kc/s RT
Mont-Joli, Que.	VCF	446	kc/s CW
		2582	kc/s RT
North Sydney, N.S.	VCO	489	kc/s CW
		2582	kc/s RT
Halifax	CFH	115.3	kc/s CW
		6949.5	kc/s
		8662	
		12984	
		17218.4	

MAX. SIZE: Up to 40 ft. draft at Docks No. 1 and 2. Size limited only by berth depth.
RADIO: Mont-Joli Radio VCF 2582 kc/s (VHF, CRM Co. Ltd., Wharf Office, base to ships on marine frequencies) (Channel 7A – 156.350 mHz and Channel 16 – 156.800 mHz, call XJS94).
HEALTH: Incoming vessels making Baie Comeau port of entry must obtain pratique by wireless. Radio pratique may be obtained between 0900 hrs. and 1700 hrs. the day preceding arrival. Address message "Quarantine Quebec": For the purpose of radio pratique, vessels are required to give the following information:

1. Name and nationality of vessel.
2. Ports called at during voyage.
3. Nature of cargo.
4. Number of crew.
5. Number of passengers.
6. Port of destination and name of Agent.
7. Number of persons without valid certificates.
8. Condition of health of all on board with details of any sickness or death which has occurred during the voyage.

Ships arriving in English Bay in Quarantine will be inspected by Health Officer at anchorage or on arrival alongside. Should Officer board vessel at anchorage, proper accommodation ladder must be provided.

Smallpox Vaccination Certificates to be ready for inspection on arrival.
TUGS: Available. Not compulsory except for Cargill Grain Terminal.
BERTHING:

Dock No. 1: Department of Transport Wharf: berth 456 ft. long, depth 28 ft.; berth 360 ft. long, depth 25 ft. North Shore Paper Company: 1,000 ft. wharf, depth 27 ft. Dock Pier: 2 berths, 422 ft. long, 20 ft. depth.

Dock No. 2: Canadian Reynolds Metals Co., Ltd. Wharves consist of breakwater and approach jetty called Berth No. 1, 540 ft. long. Berth Nos. 2 and 3 in slip, 587 ft. and 551 ft. long respectively. The docking area is dredged to 30 ft. at low water at Berth No. 1 and 31 ft. at Berths Nos. 2 and 3 and flares out to marker buoy (Fl. red Ev. 12 secs.) at Northern extremity and 1,000 ft. to its Southern extremity, where depth of water increases rapidly off shore from approximately 400ft. East of breakwater. A port hand can buoy marks dredging out from S.E. corner of No. 1 Berth.

Dock No. 3: Cargill Grain Terminal, North Pier, 2 loading berths, length 585 ft., North side dredged to 40 ft., South side dredged to 38 ft. Loading capacity 2,000 long t.p.h.

South Pier, 1 unloading berth, length 720 ft., North side only dredged to 29 ft. Discharge rate 1,000 long t.p.h.
STEVEDORES: Each terminal employs own stevedores.
MEDICAL: All facilities available. Local Hospital in Baie Comeau and Hotel-Dieu, Hauterive, 5 miles.
DENSITY: 1000–1025.
FRESH WATER: Delivered by pipe-line to the berths.
FUEL: Available by pipe-line to Cargill Grain Terminal.
REPAIRS: Minor repairs may be effected through local contractors.
IDENTIFICATION CARDS: Gate passes are issued at the gate to all Crew members when going ashore for the purpose of identity on their return.
AIRPORT: Daily service to Quebec and Montreal.
CUSTOMS ALLOWANCES: 200 cigarettes for each man. Officers may be allowed 1 bottle wine/spirits, Master up to 5 bottles.
TIME: GMT minus 5 hours. Daylight Saving Time: GMT minus 4 hours, applied from last Saturday of April until last Saturday of October each year.
SHORE LEAVE: Crew members allowed ashore. No restrictions.
HOLIDAYS: New Year's Day; Epiphany; Good Friday; Ascension Day; St. John the Baptist Day; Labour Day; All Saints' Day; Christmas Day. No work performed on these holidays.
AUTHORITY: Canadian Department of Transport.

BELLEDUNE, N.B.: 47.55 N. 65.51 E.

A deep water harbour administered from Saint John, N.B. and serving Belledune Fertilizers and other projects in the Bathurst area. This harbour is free of ice in the Winter and open to shipping all the year round.
DOCUMENTS: See Saint John.
PILOTAGE: Pilotage is not compulsory, however, should a Pilot be required, the services of a local Berthing Master Mariner are available on request.

Regardless of pilotage, estimated times of arrival should be given to Belledune Fertilizers Ltd. 72, 48 and 24 hrs. before.
ANCHORAGE: Vessels wishing to anchor will find no difficulty in obtaining an anchorage in more than 10 fathoms, approximately one mile to the northward of the Belledune Breakwater.
TUGS: None available.
BERTHING: One berth, length 550 ft., depth at LW, 34 ft.
TIDES: Tides normally rise 6 ft. at springs and 3 ft. at neaps. Tidal current seldom exceeds one knot.
STEVEDORES: Bulk cargoes handled by Belledune Fertilizer Ltd., and general cargo by Longshoremen.
CRANES: Heavy-lift equipment available from private companies. Cranes up to 25 tons available.
MEDICAL: Hospital at Bathurst.
FRESH WATER: Available. Delivered by tank trucks upon arrangement with Belledune Fertilizers Ltd.
FUEL: None locally. Can be obtained and delivered by tank trucks.
CONSULS: None.
REPAIRS: Minor repair facilities at Belledune Fertilizers Ltd. machine shop.
STORES: All types of provisions as well as deck and engine stores can be obtained at Bathurst for delivery to Belledune.
AUTHORITY: National Harbours Board, Saint John.
Local Representative: Belledune Fertilizers Ltd.

BOTWOOD, Newfoundland: 49.09 N. 55.20 W.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
3 Crews Declaration (Can. Form Y14).
3 Stores Lists (Can. Form E.1).
Health Declaration (Can. Form QS. 2001).
3 Cargo Manifests.
3 Bills of Lading.
PILOTAGE: Compulsory. Pilot boards off Surgeons Head Light, Exploits Burnt Island day or night. Pilot station and boat equipped with VHF. Coastal pilotage service from St. Johns to Botwood available on request.
RESTRICTIONS: Navigation season from mid-April to mid-January approximately. Ice-breaker assistance may be necessary in Winter months. Deep water approaches.
ANCHORAGE: In Botwood Harbour, off the oil dock in depths of 10–20 fathoms.
MAX. SIZE: Up to 32 ft. draft.
RADIO: Comfort Cove, St. John's, St. Lawrence or Corner Brook.
HEALTH: Health Officer boards on arrival. Valid smallpox vaccination certificates required.
TUGS: None available.
BERTHING: *Pier No. 1:* owned by Price (Nfld.) Pulp & Paper Ltd., used exclusively for handling newsprint outward and caustic soda inward. Is 500 ft. long; min. depth alongside 32 ft., is adjacent to newsprint storage shed. capacity 20.000 tons (standard newsprint).
Pier No. 2: Layberth only, 900 ft. long, min. depth alongside 32/35 ft., owned by Price (Nfld.) Pulp & Paper Ltd.
Pier No. 3: 600 ft., owned by American Smelting & Refining Co., used for shipping concentrates, and discharging Bunker "C" fuel and Sulphur inward. Min. depth alongside 32 ft. Concentrates loaded by one fixed conveyor.
Ministry of Transport finger pier: Length 150 ft., min. depth alongside 35 ft. Face is 23/25 ft. Is connected by pipe-line to bulk fuel storage tanks, owned by Golden Eagle Refining Co. Ltd., and is used primarily for discharging of clean fuels.
Ministry on Transport general cargo wharf and shed: Wharf 269 ft. long, 103 ft. in breadth, cargo shed 200×70 ft., 20 ft. clear height below steel girders. Apron of wharf is 33 ft. wide with access driveway extending around each end of shed to main roadway. Rear cargo doors from shed open at truck level to facilitate mechanical handling. Front and end doors are wharf level.
MEDICAL: Doctors, hospital facilities available.
FRESH WATER: Available at all berths.
FUEL: Only light diesel available.
REPAIRS: Minor repair and diving services only.
SURVEYORS: Lloyd's and Norske Veritas at St. John's.
CUSTOMS ALLOWANCES: 200 cigarettes for each man. Officers may be allowed one bottle wine/spirits, Master up to five bottles.
TIME: GMT minus five hours. Daylight Saving Time: GMT minus four hours, applied from last Saturday of April until last Saturday of October each year.
SHORE LEAVE: Allowed. No restrictions.
HOLIDAYS: Good Friday; Labour Day; Christmas Day and Boxing Day. No work performed on these holidays.
AIRPORT: Gander International Airport, 60 miles away.
AUTHORITY: Ministry of Transport.

BRIDGEWATER, N.S.: 44.23 N. 64.31 W. (See Plan)

DOCUMENTS: See "Halifax".
PILOTAGE: Not compulsory. Report ETA by radio-telephone or radio-telegraph to Superintendent of Pilots, Halifax, N.S. at least 12 hours before arrival at boarding station. ETA to be confirmed 3 hours before arrival. Pilot boards off Moshers Island Light.
RESTRICTIONS: Port is situated on La Have River, 10 miles from the sea. Channel path at low water, 20 ft.
ANCHORAGE: At Dayspring, 2 miles below Bridgewater.
MAX. SIZE: Length 325 ft. Draft 20 ft.
RADIO: Halifax Radio.
HEALTH: Pratique granted by Customs officer who boards on arrival at the berth. Also see Montreal.
BERTHING: Dept. of Transport wharf, berthing length, 1,073 ft. Depth alongside 20 ft.
FRESH WATER: Available ex wharf only on West side of river.
FUEL: Not available.
REPAIRS: Limited facilities for engine repairs.
STEVEDORES: Available.
MEDICAL: Hospital facilities available.
HOLIDAYS: Dominion Legal holidays.
AIRPORT: Nearest approximately 90 miles away.
AUTHORITY: Harbour Master, Glayden Conrad.

CHARLOTTETOWN, P.E.I.: 46.14 N. 63.07 W.

DOCUMENTS:
Port clearance from previous port.
3 QS.2001 Quarantine, if from other than U.S. port or St. Pierre et Miquelon.
3 HA.282 Garbage Disposal Warning.

SHORE LEAVE: No restrictions.
AUTHORITY: District Manager, Dept. of Transport.

CHATHAM and NEWCASTLE, N.B.: 47.00 N. 65.33 W. 47.02 N. 65.28 W.

DOCUMENTS:
Previous port clearance.
2 Immigration Crew Lists.
3 Ship Stores Lists.
3 Crew Declaration.
(Other papers completed by Agent).
PILOTAGE: Contact Agent for Pilot at least 12 hrs. in advance. Pilot boat, wooden hull, length 44 ft., grey, Pilot flag about 20 ft. above sea-level. Apr. 16 to Dec. 9 Pilot taken aboard 2 miles North of Escuminac Breakwater. In event of very bad weather good anchorage Edmond Bay, PEI. Dec. 10–Apr. 15 Pilot boards at Eddy Point NS when inbound from East. In other cases Pilot boards at point of departure in Canada.
MAX. SIZE: Max. length 550 ft., max. draft 21 ft. 06 in.
HEALTH: Pratique procedure carried out by Customs Officer (complete form QS 1).
RADIO: Use Grindstone, Halifax or Charlottetown Radio, depending on location.
TUGS: Not available.
BERTHING: Approx. 3 hrs. from Pilot station to Berth.
BRIDGES: Bridge at Chatham 127 ft. clearance high tide. Hydro wires at Middle Island 125 ft. at 60 degrees Fahrenheit at lowest point, channel wide at this point, able to get 180 ft. clearance. Morrisey Bridge, max. span opening is 99 ft. Overhead cables at Morrisey Bridge.
STEVEDORES: Notice at least 12 hrs. before arrival.
MEDICAL: Hospitals at Chatham and Newcastle.
TANKERS: Hose connections 6 in.; no slop discharge facilities.
FRESH WATER: Available only at Government piers at Chatham and Newcastle.
FUEL: By tanker truck.
GANGWAY/DECK WATCHMEN: Not necessary.
SHIP CERTIFICATES: Harbour dues, Load line, Radio Safety, Safety equipment, Deratting.
CUSTOMS ALLOWANCES: 200 cigarettes/man/week. Spirits: 40oz./man/week.
CREW IDENTIFICATION CARDS: Not needed.
CONSUL: Danish Consul, tel. 622–1199.
REPAIRS: Limited to welding and machine work.
REPATRIATION: Facilities good.
AIRPORT: Chatham.
TIME: Atlantic Standard, 4 hours difference GMT. Change from Standard to Daylight Saving last Sunday in April through last Sunday in October. (1 hour forward).
HOLIDAYS: No work Labour Day, Armistice Day, New Brunswick Day. Other statutory holidays may be worked on overtime.
POLICE/AMBULANCE/FIRE:

	Newcastle	*Chatham*
Police:	622–2111	773–4436
Ambulance:	622–1340	773–3492/733–4321
Fire:	622–2500	7773–5856

SHORE LEAVE: No restrictions.
AUTHORITY: Port Manager.
AGENT: John Lockerbie, 245 Sweeney Lane, Newcastle, N.B. Tel. 622–1338. Cables: Via C.N. Telecommunications, Newcastle, New Brunswick, Canada.

CHEMAINUS and CROFTON, B.C.: 48.55 N. 123.42 W.

DOCUMENTS, PILOTAGE, HEALTH, CONSULS etc.: Refer to "Vancouver, B.C.".
ANCHORAGE: Available in Houston Passage.
RESTRICTIONS: Channel depth 48 ft. MLLW. Restricted by berth size only.
TUGS: Available. Tugs for Crofton are ordered from Chemainus.
BERTHING:

		Berth length	*Depth alongside MLW*
Chemainus:	Wharf A	515′	35′
	Wharf B	490′	40′
Crofton:	Lumber Berth	400′	35′
	Pulp Dock	457′	35′

No loading gear installed at Crofton berths.
STEVEDORES: 22 gangs available. Refer to "Vancouver, B.C.", for holidays, etc.
MEDICAL: Doctors and hospitals facilities available at Chemainus, 5 miles from Crofton.
DENSITY: Salt water.
FRESH WATER: Available at wharves.
FUEL: Supplied by barge from Vancouver, B.C.
CUSTOMS ALLOWANCES: See "Vancouver, B.C.".
REPAIRS: Minor repair facilities only.
AUTHORITY: Department of Transport, Harbour Master.

CHICOUTIMI, Quebec: 48.25 N. 71.02 W.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
3 Crews Declaration (Can. Form Y14).
3 Stores Lists (Can. Form E.1).
Health Declaration (Can. Form QS. 2001).
3 Cargo Manifests.
3 Bills of Lading.
PILOTAGE: Pilotage is compulsory. Pilots board vessels that are Westerly-bound at Anse-aux-Basques and Easterly-bound at Quebec City. The Master of every ship inward bound in the Gulf of St. Lawrence and destined for ports West of Anse-aux-Basques must report his ETA to Pilots Montreal via Marine Traffic Control on VHF radio Channel 14 (156.7 mHz) or by other means of

communication to Seven Islands radio station VCK giving his ETA to Escoumains pilotage station and the net registered tonnage of his vessel.

A minimum notice of 12 hours must be given to ensure the availability of Pilots at Anse-aux-Basques for vessels proceeding from the Gulf to Chicoutimi.

This notice must be confirmed 3 hours prior to arrival at the Pilot station by radio-telegraph or radio-telephone as mentioned above.

The Pilot station for vessels upbound to Chicoutimi is located at Anse-aux-Basques, charted 2 miles S.W. of Les Escoumains Wharf on the North shore of the St. Lawrence River. Two Pilot boats are constantly on service.

ANCHORAGE: At St. Fulgence, 6 miles before Chicoutimi.
RESTRICTIONS: Navigation season from mid-April to end November approximately. Channel depths 20 ft. LW up to oil terminal and 16 ft. low water above oil terminal.
MAX. SIZE: Up to 27 ft. draft.
RADIO: Riviere du Loup Radio Station.
HEALTH: Pratique may be obtained by radio to Quarantine Quebec. Health Officer boards on arrival. Valid smallpox vaccination certificates required.
TUGS: None available.
BERTHING: Harbour wharves, 2,750 ft. berthing length, 30 ft. depth alongside; oil berth 20 ft. depth alongside.
CRANES: Two cranes available for bulk cargoes 25 ton×1.75 yards and 40 ton×3.25 yards.
DENSITY: Fresh water.
MEDICAL: Doctors, hospital facilities available.
FRESH WATER: Available at all berths.
FUEL: Available at oil berth.
REPAIRS: Minor machine shop repairs only.
CUSTOMS ALLOWANCES: 200 cigarettes for each man. Officers may be allowed 1 bottle wine/spirits, Master up to 5 bottles.
TIME: GMT minus 5 hours. Daylight Saving Time: GMT minus 4 hours, applied from last Saturday of April until last Saturday of October each year.
SHORE LEAVE: Allowed. No restrictions.
HOLIDAYS: New Year's Day; Epiphany; Good Friday; Ascension Day; St. John the Baptist Day; Labour Day. All Saints' Day; Christmas Day. No work performed on these holidays.
AUTHORITY: National Harbours Board.

CHURCHILL, Man.: 58.47 N. 94.12 W. (See Plan)

DOCUMENTS: 1 Certificate giving following details: Name; official number; port of registry; gross tonnage; dimensions of vessel; draft on arrival; place from which vessel arrived; date of departure from the aforesaid place; places of call en route; name of Master or person in charge; name of owner or Agent; name of Pilot; number of crew; tonnage of goods to unload; number of passengers to be landed; and number of bags of mail to be landed.

A certified copy of the manifest of such vessel giving weight or measurement for each bill of lading and certified by Collector of Customs.

Certificate that gyro compass is in good order.

PILOTAGE: Pilotage is not compulsory, but the pilotage fee is compulsory. Pilots board ships outside the harbour within a radius of 5 miles from Eskimo Point. The fee is $100 per ship inward and $100 dollars per ship outward. Moving vessel within harbour is $70.

Vessels must advise their ETA at the port, and should also advise their time of arrival at Fairway Buoy.

Requests for Pilots should be submitted through the local marine radio. Pilots embark from vessels at the Fairway Buoy. The tug "Twolan" is used as pilot boat.

ANCHORAGES: Inside the harbour, there is anchorage room for one small vessel in 30 ft. of water about 0.75 miles N.W. of wharf. There is insufficient swinging room at this anchorage for large vessels. Large vessels anchor outside the harbour. The outside anchorage is exposed and vessels in a light condition may find it difficult to maintain their anchorage, particularly with a strong N.E. wind.
RESTRICTIONS: Vessels are usually brought in just before high tide, although vessels may enter any time. One spot in channel is 26 ft. at zero tide. All buoys and range lights are lighted.
MAX. SIZE: Max. length 600 ft. width 100 ft. and depth alongside wharf at zero tide is 31 ft. at three berths, 33 ft. at one berth, 22 ft. at Wolfe Berth and 20 ft. at the coastal Berth.
HEALTH: All vessels must fly yellow flag until cleared by authorities after docking.
RADIO: Department of Transport, Marine Aeradio Station call sign VAP, Channels to be used: 16 for calls and replies, 12 for harbour control, as well as Channel 26.
TUGS: Tugs usually join vessels inside the harbour. Two tugs available. Ship's lines used.
BERTHING: Max. allowable salt water draft at sulphur berth 32 ft., thereafter topping-up with the tide for a few more inches. Sulphur is brought by rail truck from Alberta Mines, and loading rate 4,000 tons per day.

Loading capacity for bulk grain is 60,000 bushels/hour.

CRANES: Heavy lift crane of 35 tons capacity.
STEVEDORES: Gangs are available during whole of shipping season, no advance notice required.
MEDICAL: Fully staffed and equipped hospital available, approximately 1 mile from harbour.
TANKERS: Discharge pipes 4 in. diameter. One berth available with max. depth of 33 ft. at zero tide.
FRESH WATER: Fresh water available at all berths. Water pumped through 2.5 in. pipe connected directly to ship, discharged at rate of approximately 1 ton/min.
FUEL: Bunker fuel requires 30 days advance notice. Arctic fuel available all times.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Carried out by ship's crew.
CUSTOMS ALLOWANCES: See "Montreal".
CONSULS: None.
REPAIRS: Most repair work. Fully equipped machine shop available.
DRY DOCKS: None.
SURVEYORS: By arrangement.
CARGO GEAR: Ship's gear.
AIRPORT: Airport situated 5 miles from the harbour and served by TransAir, with 2 flights going North and 6 flights South every week.
TIME: GMT minus 6 hours. Daylight Saving Time (1 hour forward starts first Sunday in May and ends last Sunday in October).
HOLIDAYS: New Year's Day (January 1st); Good Friday; Easter Monday; Victoria Day (May 24th); Dominion Day (July 1st); Civic Holiday (1st Monday in August); Labour Day (First Monday in September); Thanksgiving Day (Second Monday in October); Remembrance Day (November 11th); Christmas Day (December 25th); Boxing Day (December 26th).

Arrangements normally made to have crews available for those days.

POLICE/AMBULANCE/FIRE: Police, 675-2422; Ambulance, 675–8881, Fire, 675–2424.
TELEPHONES: No facilities.
SHORE LEAVE: Allowed no restrictions.
DEVELOPMENTS: Dredging underway.
DELAYS: Little delay.
AUTHORITY: The Port Manager, National Harbours Board.

CLARENVILLE, Newfoundland: 48.08 N. 53.56 W.

DOCUMENTS:
Crew List, Form 200 in duplicate.
List of Ship's Stores, Form E1 in duplicate.
Crew Declarations, Form Y.14 in duplicate.
Manifests in triplicate.
Bills of Lading in duplicate.

PILOTAGE: Contact Pilot through St. John's Radio. VON.
MAX. SIZE: Largest ship 600 ft. long, breadth 74 ft., draft 26 ft.
HEALTH: See "Montreal".
RADIO: St. John's Radio. VON.
TUGS: No tugs available from St. John's.
STEVEDORES: Available. 48 hours notice required.
MEDICAL: Necessary for Agents to receive advance notice of medical attention required. Hospitals available at Come By Chance (30 minutes distance by road) and St. John's Vaccination/Fever Certificates necessary for pratique.
FRESH WATER: Limited supplies available.
FUEL: Light fuels only (no bunkers).
OPENING/CLOSING HATCHES: By crew.
CERTIFICATES: Load Line, Safety Equipment, Deratting Certificates.
CUSTOMS ALLOWANCES: Tobacco 200 cigarettes allowed per crew member per week. Wine and/or Spirit, 1 bottle of spirit allowed per crew member on the first voyage in each year. Each subsequent voyage in one year, 1 bottle allowed only to officers.
IDENTIFICATION CARDS: Not required.
CONSULS: At St. John's.
REPAIRS: Temporary only.
REPATRIATION: Only available by air.
AIRPORT: Gander International Airport located about 2 hours distance by road/served by regular airlines.
TIME: Eastern Standard Time GMT minus 5 hours. Daylight saving time from last week-end in April to last week-end in October, clocks advanced 1 hour.
HOLIDAYS: See "Montreal".
POLICE/AMBULANCE/FIRE: Police 7830; Fire 7777; Ambulance 466–2400.
TELEPHONES: No facilities for placing on board.
SERVICES: Only limited services available.
SHORE LEAVE: Allowed.
AGENT: Newfoundland Hardwoods Ltd.

COME BY CHANCE, Newfoundland: 47.48 N. 54.01 W. (See Plan)

LOCATION: The Come By Chance oil terminal operated by Provincial Refining Co. is located in Placentia Bay, Lat. 47° 48′ 18″ N. Long. 54° 00′ 35″ W.
DOCUMENTS:
3 copies Crew Declaration (Form Y14).
3 copies Ship Stores List (Form E1).
3 copies Immigration Crew List (Form IMM 200) only Canadian form accepted.
2 copies of Bill of Lading or Manifest.

In addition, clearance from last port, Deratisation Certificate, extra copy of Crew List, Vaccination List, Ship's Register, Radio Equipment Certificate, Safety Equipment Certificate, Load Line Certificate and Non-Canadian Ship Compliance Certificate. Oil record log book should be up to date and readily available for inspection by Government steamship inspectors.
PILOTAGE: *Ship's Officer's Report:* Pilotage is compulsory. Pilots

board off Argentia (position 47° 21.9′ N., 54° 04.6′ W.) by prior arrangement with St. John's Pilotage. An ETA message (preferably in GMT) should be sent at least 12 hours before arrival to "Coast Guard Traffic Centre St. John's". The message should state the following:

Name of ship. Call letters. Draft. Gross tonnage. Length. Breadth. Moulded depth. Destination.

Confirmation or amendment of the ETA should be sent 6 hours prior to arrival.

The pilot boat is approximately 50 ft. long with a black hull and white housing. It has "Pilot" painted on the housing and flies the pilot flag – white over red horizontal stripe.

VHF channels are allotted to various areas in Canadian waters but in the absence of this information contact can be established in the first instance on Channel 16. The most frequently used Channels are numbers 6, 11, 12 and 14. In general Channel 6 is used by tugs and 11 by Pilots in pilotage waters.

It is anticipated that there will be no pilotage in Placentia Bay during the hours of darkness for a period of at least two years for vessels of over 50,000 d.w.t.

The pilotage routes used are as follows:

Latine Pt. (Argentia)	097°×4.6′	Co 019°
to		
Margery Cove (N. of Red Is.)	291°×2.7′	Co 021°
to		
Buffett Is. (E. of Long Is.)	275°×2.7′	Co 350°
to		
Green Is. (Off Long Is.)	260°×2.8′	Co 351°
to		
Cheese Is. – N. End (N. of Long Is.)	261°×1.6′	Co 000°
to		
Grassy Pt.	090°×1.2′	Co 022°

COAST GUARD TRAFFIC CENTRE: A vessel traffic management centre is being established at Argentia. Operation on a 24-hr. basis; this centre will provide radar surveillance off Placentia Bay. Masters are required to establish communication with this station when in VHF range on Channel 16, in order to provide vessel's identification and obtain information regarding pilotage, buoyage, weather conditions, etc.

ANCHORAGE: Will be assigned by the pilot in conjunction with the Department of Transport.

Ship's Officer's Report: The following areas have been designated as anchorages:

Area A 47° 43′ 45″ N. 54° 01′ 40″ W.
Area B 47° 45′ 45″ N. 54° 09′ 15″ W.
Area C 47° 43′ 22″ N. 54° 10′ 45″ W.

RESTRICTIONS: Will be dispatched by the Department of Transport to ship's Agent.

MAX. SIZE: Tankers of 327,000 d.w.t., can be accommodated.

Also see "Berthing".

HEALTH: Vessels arriving from a foreign port may obtain pratique by radio from "Quarantine St. John's" at least 12 hrs. before arrival. Information required by Quarantine Officer shall include:

Name and nationality of the vessel.
Last port of call.
Nature of cargo.
Number of crew and passengers.
Port of destination.
Name of Agent.
Conditions of health of all on board with details of any sickness or death incurred during the voyage.
Animals if any.

RADIO: The best radio stations to use en route to Come By Chance are:

St. John's Marine Radio – call sign VON.
Halifax Marine Radio – call sign VCS.
St. Lawrence Marine Radio – call sign VCP.

TUGS: Four tugs available to assist berthing and unberthing. Each is equipped with 2,640 h.p. drive and capable of a bollard pull of 37 tons. Two are equipped for fire fighting and the other two suitably designed for ocean towing. Tugs lines are used.

Tugs will meet the ship off Bordeau Island, approximately 4.5 miles from the berth.

BERTHING: The jetty extends 3,000 ft. from the shore. Berth No. 1 (outside) can accommodate 327,000 d.w.t. tankers. Depth of water alongside 100 ft. Berth No. 2 (inside) can accommodate tankers up to 67,000 d.w.t. Depth of water alongside 52 ft. This berth used mainly for refined products.

Ship's Officer's Report:

The quay is designed for the use of tankers. There are no provisions for general cargo ships. Tankers of up to 500,000 d.w.t. with a max. draft of 90 ft. can be accommodated on the West side, and on the East side ships of up to 60,000 d.w.t. with a max. draft of 48 ft.

The length of the quay is 1,520 ft. and the height was measured at HW and LW and found to be 19 ft. 6 in. and 25 ft. respectively. High water was taken to be half an hour later than the predictions at Argentia.

The bollards are of a German manufacture and each consists of a group of three hooks with quick-release mechanism. Each hook is designed to take a strain of 100 tons and is mounted in such a way as to be able to swivel independently in any direction towards the ship. An electric capstan is situated behind each bollard.

There are adequate fenders of the compression type.

A depth of 22 fathoms was recorded by echo sounder when alongside, the transmission unit being situated 52 ft. from the quayside.

MEDICAL: Masters are asked to notify their Agents at least 72 hours prior to arrival, advising the number of men to see the doctor and their complaint. The doctors work out of hospital which is about 10 miles from the berth.

TANKERS: No. 1 berth 4×16 in. arms which run into 42 in. lines. Bunkers 1×10 in. arm.

No. 2 berth 4×10 in. arms, bunkers 1×8 in. arm. Dirty ballast facilities on either berth. All ballast must be pumped ashore.

FRESH WATER: Available. If for any reason there is no water available, vessels will be advised by their Agent. Rate approximately 20 t.p.h.

FUEL: Ship's bunkers are available. Bunker requirements, including quantities and specifications, should be made known in the 72 hour message.

Bunkers are delivered concurrent with cargo operations. Bunkers should be stemmed by owners or charters before arrival.

FIRE PRECAUTIONS: Usual precautions for a refinery.

CONSULS: The following countries have consular offices in St. John's:

Brazil	Netherlands
Denmark	Norway
Dominican Republic	Portual
Germany (West)	Spain

REPAIRS: The Agent should receive early advice of requirements, as most repairs are only available at St. John's. Radio, radar, gyro, navigator and loran, etc., the technicians for such equipment work out of St. John's. The following brand names have representatives in St. John's: Decca, Marconi, Kelvin Hughes, Furono, Atlas and Sperry.

SURVEYORS: Stationed in St. John's, Lloyds, N.V. and B.V.

GANGWAY/DECK WATCHMEN: Usually ship's crew.

CUSTOMS ALLOWANCES: Each man 200 cigarettes and one 40-oz. bottle of wine or spirits per week.

Ship's Officer's Report: There are no Customs and Immigration offices in the port at present. Officials will therefore come from St. John's and board the ship on arrival alongside.

REPATRIATION: No formal facilities, but with little difficulty crew changes and repatriation can be carried out. Prior notice to Agent is required.

AIRPORT: Nearest airports presently at St. John's, 94 miles away, and the Gander International Airport, 128 miles away.

Ship's Officer's Report: There is a good road to St. John's which is 86 miles from the port. A passenger bus service is available and also a railway for goods only.

The nearest airport is at St. John's although there is a helicopter landing area within the refinery grounds.

TIME: GMT less 3.5 hrs. Last Sunday in April clocks advanced 1 hr. First Sunday in October clocks retarded 1 hr.

SUPPLIES & LAUNDRY: Stores and provisions have to be obtained in St. Jonn's. In order to avoid delays, Agents should be notified prior to arrival, of the vessels requirements. Stores and supplies will be delivered by barge, tug, or small boat. Laundry facilities are not available in Come By Chance, but if required will have to be sent to St. John's. Therefore, early notification is required.

TELEPHONES: Not available at present.

POLICE/AMBULANCE/FIRE: The police are located in Clarenville – tel. 466–7830. Ambulance is available on site – tel. 463–2458. Fire Department located in Clarenville – tel. 466–7777. Also Fire Department located on site – tel. 463–2458.

SHORE LEAVE: In order to comply with immigration regulations, crews should be carefully checked before sailing, and any missing seamen reported to Agent.

In case of seamen left ashore for any reason, Masters are requested to furnish a letter accepting responsibility for all expenses incurred, advances (if any) and also instructions for repatriation.

GENERAL: Masters are strongly advised to contact their Agent 72, 48, 36, 24, 12 and 6 hours with ETAs. On the 72 hour message Masters should advise all port requirements.

Gangway: Ship's gangway.

WEATHER: *Ship's Officer's Report:* The prevailing winds are from the S.W. in Summer and N.W. in winter. Fog is experienced regularly in April, May, June and July, the latter two months being the worst. The fog is usually associated with a Southerly wind.

There is no shelter afforded on the North, East and South sides of the quay and only a nominal amount on the West side.

Local pilots report that the range of tide is between 5.5 and 8.5 ft. which can increase if the wind has been blowing from the South for any length of time.

AUTHORITY: Department of Transport, Southside Road, St. John's, Newfoundland, and Provincial Refining Company, Come By Chance, Newfoundland. Tel. 463–8811. In Port – VHF Channel 16, Call sign VCA741.

AGENT: Blue Peter Steamship Limited, Come By Chance, Newfoundland. Tel. 463–8511. Telex 016–4755. Cable Address – Bluepeter Come By Chance. In Port – VHF Channel 16; After hours – 466–2913 or 466–7500.

Ship's mail should be sent to: Blue Peter Steamships Limited, P.O. Box 698, Clarenville, Newfoundland.

CONTRECOUER, Quebec: 45.53 N. 73.12 W. (See Plan)

DOCUMENTS, HEALTH, RADIO, etc.: Refer to "Montreal" and "Quebec".

PILOTAGE: Compulsory, Pilot meets vessel at Anse-aux-Basques. Boarding at all hours.

ANCHORAGE: Available at Lanoraie 15 miles East of dock and Sorel 20 miles East of dock. Also at Contrecouer, off the berth.
RESTRICTIONS: Hatch openings must not be less than 25 ft.×35 ft. Vessels will be required to vacate the berth immediately after completion of loading and/or discharging. Masters and/or Agents to advise ETA 36 hours, 24 hours and 12 hours. If any change after 12 hours notice, Terminal to be advised immediately, otherwise charges for waiting time will be assessed.
MAX. SIZE: 800 ft. length; 102 ft. beam; 35 ft. draft; fresh water.
BERTHING: Ships will be berthed in regular turn of vessels, providing they present with hatches open, ready for discharging and/or loading.
STEVEDORES: Available at following times: Regular working periods are from 0800 to 1600 and from 1600 to 0000 hours, Monday-Friday. Under special arrangement, work performed from 0000 to 0800 hours, also on Saturdays, Sundays and legal holidays.
The arrival time will be when the vessel arrives alongside the berth, with all lines made fast. The departure time will be when the last line is let go.
MEDICAL: Doctor and hospital available.
FRESH WATER: Available.
FUEL: Available.
TIME: GMT minus 4 hours.
HOLIDAYS: Legal holidays are as follows: Good Friday, St. Jean Baptiste Day, Dominion Day, Labour Day, Thanksgiving Day, Ascension Day, Victoria Day, Remembrance Day.
AUTHORITY: This a private port owned by the Iron Ore Company of Canada.

CORNER BROOK, Newfoundland: 48.57 N. 57.57 W.

DOCUMENTS:
3 Crew Lists Form: IMM.200.
5 Passenger Lists.
3 Crew Declaration Y.14.
3 Bonded Store List E.1.
2 Maritime Declaration of Health Form QS 2001. (Not required from USA port).
2 Manifests of Cargo (In Transit) and Manifest of cargo for discharge.
Bill of Lading.
All Crew members require valid smallpox vaccination certificates.
1 Clearance from Last Port. A.6.
Required by Agents – Vessel expiry dates for Canadian Customs
1. Load Line Certificate
2. Radio Equipment Certificate
3. Safety Equipment Certificate
4. Deratting Certificate
5. Safety Construction Certificate
6. Non-Canadian Compliance Certificate (Tankers only)

PILOTAGE: Pilot launch is called *Clenkim* fitted with radio telephone, receives on 2182, 2558, 2134 and 2582 kc/s. Radar and VHF onboard. Pilot Station, Frenchman's Head. Pilotage compulsory, operated by Atlantic Pilotage Authority with head office in Halifax. During the ice season, Pilots will board from tug *Indian Lake* approximately 1 mile from Bowater's berths. The tug is also fitted with VHF. Also see "Radio".
APPROACHES: The Corner Brook waterfront exends along the South shore of the Humber Arm for approximately 6 miles Westward from Humbermouth. The centre of the City waterfront is 21 miles from South Head. South Head commands the Southern entrance to the Bay of Islands. There are no off-lying shoals near the approaches.
ANCHORAGES: Good anchorages in Outer Bay. Most convenient is in Humber Arm off Petitpas Cove in 15 to 20 fathoms . Masters requested to contact local Pilots regarding anchorage as a submarine cable enters waters of Humber Arm and South Head.
HEALTH: Pratique is granted when all crew have been vaccinated and no suspected sickness on board. Pratique is automatic when from a quarantine port or non-quarantine port, provided Port Health Authorities have been established. Also see "Montreal".
MAX. SIZE: See "Berthing".
RADIO: For short range: Stephenville Marine Radio operated by DOT. WT 500, 416, and 40 kc/s. RT call letters VOJ. Receives 2182, 2558, 2134, 2582 kc/s. For long range: Via Halifax Marine Radio.
Advise of arrival: ETA messages should be sent in GMT, 72, 48, 24 and 12 hours notice recommended. All messages sent to Agents will be given local Pilots and Customs. Cash requirements and other items requiring immediate attention on arrival should be given in the 48 hours ETA.
It is also recommended that notices advise number of gangs vessel can work, also if there is cargo for discharge, quantity and holds stowed.
TUGS: See "Pilotage".
BERTHING: Oil tankers for Humbermouth only docked and sailed in daylight.
Bowater's wharves: Tankers berth port side to No. 4 berth. Max. length 620 ft., max. draft 32 ft.
Bowater's wharves located near centre of city waterfront. Consist of four berths, and are continuous. Run parallel with shore line. Total length 1,650 ft. Min. depth of water 28 ft. in No. 1 berth, elsewhere 30 ft. to 32 ft. at low tide. Fresh water and electric power available.
Bowater Older Sheds (Formerly Managed and Operated by Western Terminals Limited): 1 wharf consisting of two berths. Total length is 660 ft. Depth of water is 22 ft. Fresh water available as well as electric light and power.
New Canadian National Railway wharf and shed. Steel and concrete structure. Length of wharf 600 ft. Depth alongside 35 ft.
North Star Cement wharf annexed to small Government wharf. Combined length 400 ft. Depth of water 24 ft. at Western end and 17 ft. on inner end. Partly laden tankers of T-2 class discharge at this wharf.
Imperial Oil Ltd. discharging pier depth of 30 ft. min. at low tide. Full laden tankers of the T-2 class can discharge.
Irving Oil Company Ltd. discharging pier with depth of water at Eastern end of 30 ft. and at Western end 26 ft. Tankers discharge with the forward draft restricted to 26 ft.
Gulf Oil Ltd. discharging pier has a depth at Eastern end of 28 ft. and at Western end 22 ft. T-2 tankers may discharge with restricted drafts accordingly.
Golden Eagle Refinery Co. discharge oil at North Star Cement wharf.
Department of Transport Wharf. Length of wharf is 600 ft. 6 in., joined to Canadian National Railway wharf. Steel and concrete structure. Depth of water alongside is 32 ft. to 34 ft. Wharf is equipped with three side-loader ramps tested for 25 ton capacity. Managing operators are Western Terminals Limited. Fresh water is available. General cargo is handled.
At Bowaters, vessels loading normally dock starboard side to No. 1 Berth and port side to No. 2 Berth. Oil and caustic soda tankers discharge port side to No. 4 Berth. General cargo, such as alum, is normally discharged port side to No. 3 Berth.
CRANES: Mobile crane available at Bowater – capacity 11 tons from ship's hold, 18 tons from deck.
STEVEDORES:
Working Hours:

0800 to 1200	– 2 gangs
1200 to 1230	– Lunch break
1230 to 1620	– 2 gangs
1630 to 2030	– 2 gangs
2030 to 2100	– Lunch break
2100 to 0100	– 2 gangs

Overtime: Can be worked Mondays to Fridays (day gangs) 1630 to 2100 hrs. if requested. Lunch break 1800 to 1830 hrs., but gangs are paid for 4.5 hours at time and a half rate.
Tankers: Under extenuating circumstances, tankers being discharged prior to a Statutory Holiday could be completed on a Statutory Holiday at double time and a half rates, but under no circumstances will work commence if vessel arrives on a Statutory Day.
MEDICAL: Hospital and Ambulance service available. If ships' Crew members require emergency medical attention *on board immediately on arrival,* this should be stated in message to Agents, together with ETA. Otherwise, doctor appointments can be arranged during regular office hours.
DENSITY: Average 1015. High water, Easterly wind 1025. High water, Westerly wind 1008. Low water 1005.
FRESH WATER: Fresh water available at Bowaters berths – 50c per ton first 20 tons or part thereof and 25c per ton for each additional ton.
FUEL: Bunker "C" fuel oil 300 secs. SSF available at Bowaters No. 4 berth. 24 hours notice required. Gas oil and Marine diesel available by truck delivery. Castrol lubricants available at 72 hours notice.
GANGWAY/DECK WATCHMEN: Not required but recommended.
OPENING/CLOSING HATCHES: Opening and closing hatches is normally done by ship's crew. Rigging ship's gear is normally done by stevedores. Loading gear consists of single 8 in. wooden blocks with 1 in. diameter ropefalls, which should be set up at the head of all working derricks to permit storm tents to be rigged on both the amidships and yardarm derricks at each hatch.
CUSTOMS ALLOWANCES: Tobacco: 3 lb. limit per crew member or 300 cigarettes or 75 cigars. Wine and/or Spirit: 2 doz. beer or 60 oz. spirit per crew member. All other placed under seal. Slightly smaller issues after 7 days.
CARGO GEAR: If at Bowaters berths, single 8 in. wood blocks with 1 in. diameter manila rope falls should be set up at heads of all working derricks to permit tents to be rigged on both midship and yardarm derricks at each hatch.
IDENTITY CARDS: Every Crew member should be in possession of some form of identity card.
CONSULS: Nearest consuls are in St. John's approximately 450 miles.
REPAIRS: Minor repairs carried out.
REPATRIATION: All necessary crew changes and repatriation facilities available.
AIRPORTS: International Airport, 222 miles from Corner Brook, at Gander. Stephenville Airport, Air Canada and EPA, 50 miles from Corner Brook. Deer Lake Airport, EPA service available, 30 miles from Corner Brook.
TIME: NST–GMT less 3.5 hours. Newfoundland Daylight Saving Time – GMT less 2.5 hours, last Sunday in April to last Sunday in October.
HOLIDAYS: *Bowater Newfoundland Limited:*
January 1st – New Year's Day
July – Dominion Day (normally first Monday in July)
September – Labour Day (first Monday in September)
December 25th – Christmas Day. No work is performed after 1600 hrs. on Christmas Eve (December 24th), nor on New Year's Eve (December 31st). Plus an additional day as agreed with Unions.
Friday – Ordinary working day except that overtime rates are payable when stevedores have worked each of the 5 preceding days in the week.
Saturday – Ordinary working day except that overtime rates are

payable when stevedores have worked either 5 or 6 of the preceding days.

Sunday – As per Union agreement. Work can be performed at time and a half rates as follows:

July and August – a maximum of 2 consecutive Sundays Remainder of the year a maximum of 3 consecutive Sundays.

POLICE/AMBULANCE/FIRE: *Police:* Alongside Bowaters Ext. 274 Mill Guards. Local Police area code 709-634-8236.

Ambulance: Alongside Bowaters Ext. 274 Elizabeth Ambulance. City area code 709-634-7009, 634-5611.

Fire: Alongside Bowaters 274 Mill Brigade. City Area code 709-634-4333.

Hospital: 634-4393 or 634-5101.

TELEPHONES: None available on board ships, but phones are on the wharf in nearby offices.

GENERAL: Ice coverage can be expected between January 1st and April 15th. Shipmasters should get in touch with Ice Information Office, Halifax, Nova Scotia, Telephone (Area code 902) 526-5664 or 426-5665. Telex No. 019-22625 for routing and Icebreaker assistance. 36 hours ETA in Cabot Strait is required.

SERVICES: Compass adjuster can be engaged.

SHORE LEAVE: Discretion of Master. No port regulations.

AUTHORITIES: Harbour Master and Bowaters Newfoundland Ltd.

DALHOUSIE, N.B.: 48.04 N. 66.22 W.

DOCUMENTS:

Ship's Register.
Load Line.
Safety Radio and Safety Equipment Certificates.
Stores List and Crew Declaration (E–17, Y–14), if from foreign port.
Pratique, if from a Foreign Port.
Immigration Clearance from last Canadian Port.
If from a Foreign Port, 2 copies of crew list.

For Shipping Master: Ship's Articles if British or Canadian Registry.

PILOTAGE: Telegram sent to Restigouche Pilots, Dalhousie, N.B., or to vessel's Agent. 6 hours minimum notice required except during Winter operations (January–April). Pilot vessel is a 40 ft. steel hull, black, grey superstructure, displays proper flag by day and proper lights by night. Pilots meet and board all inbound vessels 1.5 miles due East of Bon Ami Point lighthouse. Pilots prefer pilot ladder for boarding.

ANCHORAGES: Safe anchorage 1.5 miles offshore due East of harbour entrance. Pilots will board vessels for anchorage in from 6 to 12 fathoms.

RESTRICTIONS: Tide restricted if vessel exceeds 28 ft. on arrival.

MAX. SIZE: Max. length 750 ft., beam 100 ft., draft 36 ft. at the Government Wharf including oil and bulk carriers. Vessels approaching these dimensions must berth at high water, port side to. Max. draft entering harbour and berthed starboard side to is 28 ft. because of restricted turning basin.

HEALTH: See "Montreal".

RADIO: ETA through Grindstone.

TUGS: Not necessary.

BERTHING: To berth starboard side to at any berth vessel is requested to arrive 3 hours before high water.

STEVEDORES: Contact Agents.

MEDICAL: Hospital and doctors available.

TANKERS: One 12-in. line with three 8-in. connections is laid to the Government Wharf. Depth alongside 34 ft. LWOST.

DENSITY: Average density 1008.

FRESH WATER: Available at all berths from hose lines on the dock. 50 t.p.h.

FUEL: Available by truck if necessary. Advance notice required.

GANGWAY/DECK WATCHMEN: Available if requested.

OPENING/CLOSING HATCHES: As in Charter Party.

IDENTIFICATION CARDS: Not needed.

CONSULS: None.

REPATRIATION: Facilities exist providing sufficent notice given.

AIRPORT: 7 miles, 2 flights daily.

TIME: Daylight Saving during Summer months. Atlantic Standard otherwise.

HOLIDAYS: Official Holidays: New Year's Day; Christmas Day; Dominion Day; Labour Day.

POLICE: Telephone 684–2167.

TELEPHONES: Made available upon prior arrangement.

SHORE LEAVE: Allowed.

AUTHORITY: Dept. of Transport, Saint John.

DIGBY, N.S.: 44.38 N. 65.45 W.

DOCUMENTS: See "Montreal".

PILOTAGE: Usually contacted through St. John radio station by VHF. 12 hours notice required. Pilot usually meets ships at entrance to Digby. As long as adequate notice is given no waiting is experienced.

ANCHORAGE: Good Anchorage N.E. from town 15 to 25 fathoms.

MAX. SIZE: Length 400 ft. and 28 ft. depth at low water.

HEALTH: See "Montreal".

RADIO/VHF: St. John Radio call sign VAR.

TUGS: Not normally necessary, light towing available in case of necessity.

BERTHING: Transport wharf main pier with berthing length 400 ft. and 28 ft. alongside at low tide, also Transport Spur Pier 330 ft. long and 50 ft. wide, 22 ft. depth alongside at low tide (21 to 28 ft. rise and fall in tide).

FRESH WATER: Supplied by pipe-line on wharf.

FUEL: Diesel oil available only.

DEVELOPMENTS: Construction of new Dock for St. John N.B. to Digby ferry service.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Usually carried out by crew.

CUSTOMS ALLOWANCES: 200 cigarettes per man, per week; 40 oz. alcohol per man per week for crew.

IDENTIFICATION CARDS: Required or passport.

CONSULS: None.

REPAIRS: No major repair facilities available.

REPATRIATION: Can be arranged.

AIRPORT: Small local line based at St. John N.B. supplies service between St. John and Digby. Halifax International Airport 180 miles away.

TIME: GMT minus 4 hours.

HOLIDAYS: New Year's Day (Jan. 1st); Good Friday; Easter Monday; Victoria Day and Queen Elizabeth Day (May 19th); Canada Day (July 1st); Labour Day (Sept. 1st); Thanksgiving Day (Oct. 13th); Remembrance Day (Nov. 11th); Christmas Day (Dec. 25th).

POLICE/FIRE/AMBULANCE: Police 245–4162; Fire 245–2121; Ambulance 245–2205.

TELEPHONES: Available at cost of installation.

SHORE LEAVE: Allowed.

AUTHORITY: Dept. of Transport, Saint John.

FRASER PORT, B.C.: 49.12 N. 122.55 W.

(See Plan)

DOCUMENTS, ANCHORAGE, and further information: Refer to "Vancouver, B.C.".

PILOTAGE: Compulsory from Fraser River Sands Heads.

MAX. SIZE: Draft limited to 33 ft. on 12 ft. tide.

HEALTH: Pratique and quarantine at Victoria B.C.

TUGS: Available, normally join vessel on arrival.

BERTHING: (North and South side of river).

Pacific Coast Terminals Co. Ltd.: 8 berths for vessels up to 35 ft. draft. Covered storage for general cargo, pulp and mineral concentrates.

Fraser–Surrey Docks Ltd.: 5 general berths, total length 3,300 ft., 1 sawdust/woodpulp bulk cargo berth and 1 tranship berth, Depth at low water 33 ft. Water, power and telephone connections at all berths. Cargoes handled include forest products, steel, heavy lifts bulk and general cargo, as well as roll-on/roll-off cargoes and containers. Terminal well equipped with fork lifts, front-end loaders and cranes to 250 tons. Operators are Fraser Surrey Docks Ltd.

Fraser Wharves Ltd.: 1 berth, length 500 ft., width 45 ft. Berth for loading and unloading cars.

Annacias Marine Terminals.: 1 Berth, length 552 ft., width 60 ft. Situated at East end of Annacis Island for discharging of cars.

Domtar Chemicals Ltd.: 1 berth, length 610 ft., depth 27 ft. Berth connected to plant by 30 in. conveyor belt system for transfer of crude rock gypsum to the plant.

Crown Zellerbach Building Materials Ltd.: 2 berths, total length 1,300 ft., depth at LW 30 ft. Berth is upstream of the Patullo bridge.

Canadian Rice Mills Ltd.: Situated on North side of river at Richmond. 1 Berth, length 400 ft., depth at low water 30 ft.

MEDICAL: All services available.

DENSITY: Varies with location and season.

FRESH WATER: Available.

FUEL: All grades availeble.

DEVELOPMENTS: Future developments call for 35 ft. draft and expanded berthing facilities.

CONSULS: At Vancouver.

REPAIRS: Engine repairs only.

AIRPORT: Nearest at Vancouver.

TIME: Pacific Standard Time, GMT minus 8.

POLICE/AMBULANCE/FIRE: Police 521–7711; Ambulance 872–5151; Fire 526–4411.

SHORE LEAVE: Allowed.

AUTHORITY: Fraser River Harbour Commission, New Westminster.

FROBISHER BAY, N.W.T.: 63.44 N. 68.32 W.

DOCUMENTS: See "Montreal".

PILOTAGE: No Pilot service.

ANCHORAGES: Best-known anchorage in depths of 21 and 22 fathoms approximately 5 cables East of Monument Island.

RESTRICTIONS: Low-powered vessels generally navigate Pike Resor Channel at slack water, high or low tide.

MAX. SIZE: Tankers with dimensions 525 ft. long, breadth 58 ft., draft 30 ft. 2 in. discharge in a position approximately 800 ft. off Innuit Head. Method of mooring is to stream both anchors in anchorage area and stern lines to mooring bollards situated on Innuit Head for this purpose. General cargo ships up to 12,000 tons also moor in this position. Masters advised to be prepared for quick departure in event of storm warnings especially if winds expected from Northerly and Southerly directions.

HEALTH: Free pratique, if health certificate is in order. In the event of suspected disease or fever on board, report to Frobisher Bay Telecommunications Branch call sign VFF R/T or W/T.

RADIO: Frobisher Bay R/S VFF. Resolution Island R/S VAW.

TUGS: 2 landing craft (LCM's) each powered with two 130 h.p. diesel engines assist vessels in mooring, acting as tugs and running ship's stern lines to Innuit Head.

STEVEDORES: Special arrangements are necessary for these services.
MEDICAL: Hospital facilities available.
DENSITY: From August 1 to September 15 mean approx. 1.02477 increasing slightly as season advances.
FRESH WATER: Small quantity in emergency. Approximately 50 gallons per minute. *Note:* Due to tidal conditions considerable delay could result in delivering fresh water.
FUEL: Only supplied in emergency, Arctic diesel grade 1, viscosity quoted as minus 60.
OPENING/CLOSING HATCHES: According to agreements.
IDENTIFICATION CARDS: Required if arriving from a foreign country.
REPAIRS: Limited repairs, i.e. welding, R/T and radar.
REPATRIATION: Crew changes can be effected by air passage to or from Montreal.
AIRPORT: Distance approximately 0.5 mile from landing beach, 5 flights weekly to and from Montreal, weather permitting.
TIME: GMT minus 4 hours.
POLICE/AMBULANCE/FIRE: RCMP 5202; Ambulance 979–5231; Fire 6666.
AUTHORITY: Harbour Master.

GASPE, Quebec: 48.50 N. 64.29 W. **(See Plan)**

DOCUMENTS:
Immigration Documents:
Passenger landing cards (Tourist) 1 each passenger.
2 Crew Lists from Immigration.
2 Passenger Lists.
Customs Documents:
2 Inward Reports.
2 Outward Reports.
3 Ship Stores Lists (Form E.1).
3 Crew Declarations (Form Y.14).
National Health and Welfare:
2 QS.1 Maritime Declarations of Health.
Manifests required for cargo unloaded only.
PILOTAGE: Not compulsory but recommended. No licensed Pilots available, but men recommendable for guidance to harbour and wharf. To obtain Pilot, arrange by radio phone through marine radio station VCG at Fox River Gaspe PQ or by CN Telegraph, on receipt of message either to Agent or Port Authority, Pilot and other arrangements can be made.
MAX. SIZE: Vessels of 650 ft. and over have both docked and anchored. Tide has no effect as it is very sheltered. Government wharf depth 35 ft. LW.
HEALTH: On arrival in Canadian waters Master applies for Radio Pratique by radio to quarantine officer at Quebec City. Master flies yellow flag on arrival and until medical officer decides it can be lowered or otherwise according to regulations. See also "Montreal".
RADIO: VCG Marine Station Fox River Gaspe PQ.
TUGS: Not necessary, no tugs available unless called for in emergency. Line boats available for docking, by arrangement.
BRIDGES: Bridge in inner harbour with opening span to allow through vessels of approx. 40 ft. beam, and 25 ft. draft. Call to open bridge, three blasts.
BERTHING: *M.O.T. (Sandy Beach) wharf,* berthing length 600 ft., depth alongside at low water 33 to 35 ft. outer face and about 26 ft. inner side; railroad tracks on wharf, oil tanks, electric light and water.
Ministry of Transport wharf, berthing length 400 ft. depth alongside at low water 25 ft.; electric power, but no railroad tracks. All wharves used for general freight. This wharf is not in good condition.
Canadian International Paper Co., and several fish companies have wharves with depths of 16.5 to 25 ft. alongside, but not considered suitable for berthing.
STEVEDORES: Good stevedoring available at all times and hours.
MEDICAL: Hospital and ambulance service.
TANKERS: Oil lines on Department of Transport Government Wharf owned and used by Gulf Oil Canada, Irving Oil, Shell Canada Limited and Imperial Oil. These lines are privately owned.
FRESH WATER: Available, arranged through ship's Agent.
FUEL: Light and medium diesel available at all times. If bunker fuel required on request, brought in by tanker car.
GANGWAY/DECK WATCHMEN: Recommended watchmen necessary, may be obtained.
OPENING/CLOSING HATCHES: Done by ship's crew.
CUSTOMS ALLOWANCE: On arrival officers and crew permitted one bottle and 200 cigarettes and one pound of tobacco for period of one week, further allowances of tobacco given after one week, as well as spirits for senior officers.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Only minor repairs.
REPATRIATION: May be arranged by Agent subject to Immigration control.
AIRPORT: Situated about 7 miles from the dock. Twice daily service to Quebec, except Saturday and Sunday. Connections to all parts from Quebec. Charter passengers and freight flights also available.
TIME: GMT minus 4 hours in Summer. GMT minus 5 hours in Winter time.
HOLIDAYS: Saturday, New Year (January 1st); Good Friday; Victoria Day (May 19th); Confederation Day (July 1st); Labour Day (September 1st); Thanksgiving Day (about October 13th); Remembrance Day (November 11th); Christmas Day (December 25th). There are a few other R.C. Church days on which some men are not obtainable. Most of these holidays stevedores and men are available.
POLICE/AMBULANCE/FIRE: Police area 418 call 368–2311. Local RCMP area 418 call 368–2543. Ambulance Area 418 call 368–2835.
TELEPHONES: Possible arrangements may be made with local telephone company for installations to vessel.
GENERAL: Radar repairman available if matter not too serious.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: Customs and Immigration Officer, and Harbour Master and Government Wharfinger.

GOOSE BAY, Labrador: 53.22 N. 60.22 W.

DOCUMENTS, HEALTH: See "Montreal".
PILOTAGE: Two Pilots available; 24 hours notice of arrival required. Contact Pilot on radio-telephone 2182 kc/s., calling "Victor Gulf Whiskey".
RESTRICTIONS: Navigation season early June to end November depending on pack ice movements. Approach – Sandy Point Channel at entrance to Goose Bay and 15 miles from the dock has a width of 300 ft. Harbour Master advises draft of 31 ft. HWF. Groves Point Channel at entrance to Terrington Basin and 1.5 miles from Main Dock has depth of 32 ft. HWF and width of 300 ft.
TUGS: There are no tugs. Three landing craft available to assist.
BERTHING: Main wharf length 810 ft. depth alongside increased to 30 ft.
Government Dock, 190 ft. long, depth 19 ft. 6 in. LWOST.
DENSITY: 1000, fresh water.
FUEL: Diesel oil only, supplied by tank truck and pipe-line.
FRESH WATER: Available alongside berths.
REPAIRS: Only minor repairs may be effected in emergency.
AIRPORT: 1.5 miles distant.
HOLIDAYS: New Year's Day; Good Friday; July 1st; Labour Day; November 11th; Christmas Day; Boxing Day.
AUTHORITY: District Manager, Canadian Coast Guard, Goose Bay.

HALIFAX, N.S.: 44.38 N. 63.33 W. **(See Plan)**

DOCUMENTS:
Port doctor: Form QS1; Crew Vaccination Certificates, Deratisation Certificate.
Customs: Customs clearance or certificate from last port; Cargo List (if no cargo, words "In Ballast" entered); Bonded Stores List (Form E.1); Crew Declaration for each crew member (Form Y14). Ship's Register; Safety Radio, Load Line and Safety Equipment Certificates.
Immigration: Crew List (Form 200) in duplicate in English; all crew Passports (returned prior to sailing).
PILOTAGE: Compulsory. Essential send arrival notice by radio to avoid delay in waiting Pilot. 12-hour notice of ETA required and confirmed or corrected 4 hours before arrival. All times must be GMT. Radio messages should be addressed Marine Aid Centre, Chebucto Head. All pilotage messages subject to full tolls.
When possible, Pilots will board in vicinity of Inner Automatic Light and Whistle Buoy situated about 2 miles North-Eastward of Chebucto Head. In heavy weather not always possible for pilot vessel to take up station at above position, but will proceed as far seaward as feasible to embark or disembark Pilot.
In normal weather pilot vessel shall, in daytime, fly pilot flag, and at night will show lights required by international regulations. In abnormal weather – fog, mist, snow, heavy rainstorms – when on station on pilotage duty, in addition to regular signals, will blow four long blasts at regular intervals. Vessel requiring Pilot should blow four short blasts on whistle at intervals until pilot boat sighted. Pilot boats equipped with radar and stand-by on radio telephone operating on frequency of 156.8 m/cs or Channel 16 under international VHF designations.
ETA: For provisional clearance to enter the Halifax Marine Traffic Regulating zone, vessels should supply the following information to "Halifax Traffic":
1. Position.
2. ETA Zone Limit (Zone boundary is approximately 16 miles radius from Chebucto Head).
3. Destination and last port.
4. Draft.
5. Description and weight of pollutants or any dirty cargo carried.
6. Deficiencies in ship's navigational equipment, engine's steering gear or anchors.
7. Any leakage of pollutants or any damage which may result in pollution.
8. Pilots must be advised ETA 12 and 3 hours prior arrival at the Pilots boarding station, using GMT, to "Pilots Halifax".

For final clearance to enter the Halifax Marine Traffic Regulation Zone:
1. Report to "Halifax Traffic" on VHF Channel 14 or 2182 kHz, when approaching the zone boundary.
2. Report to "Halifax Traffic" when approaching zone boundaries approximately 8 and 4 miles radius from Chebucto Head.

Vessels leaving Halifax are to report to "Halifax Traffic" when approaching zone boundaries.
ANCHORAGE: Vessels anchor in harbour in areas designated by National Harbours Board.
RESTRICTIONS: Controlling depth in channels of approach 60 ft. in main harbour as far as the Narrows. Ice free all year. Ample turning room for the longest vessel.

MAX. SIZE: Length and breadth unlimited. Can berth ships up to 60 ft. draft. Channel depth 60 ft. Tide range 6 to 7 ft. 110,000 ton tankers with drafts 50 ft. enter harbour regularly.
HEALTH: Quarantine – every vessel coming from port outside Canada shall be inspected by Quarantine Officer at a place specified by him. (Quarantine Station in anchorage No. 1). Where sufficient information can be given by radio, Radio Pratique may be given between 0900 hrs. and 1700 hrs. local time (address "Quarantine Halifax") and message should include (i) name and nationality of vessel, (ii) ports of call during voyage, (iii) nature of cargo, (iv) number of crew and passengers, (v) statement of health, (vi) name of Agent, (vii) ETA pilot station in GMT. A coastwise vessel, free from disease and arriving from a disease-free coastwise port, may be exempted quarantine inspection.
TUGS: Join vessel inside harbour at quarantine anchorage. Tugs towing use vessel's lines. Tugs made fast alongside vessel for docking or undocking use their own lines at no extra charge.
RADIO: Halifax Marine Radio Station, Ketch Harbour. Radiotelephone and other services. Masters may contact Halifax Marine Radio on 500 or 2,182 kHz, VHF on 156.8, working Channel 26 (161.9 and 157.3 mHz).
RADAR: Marine Traffic Regulating Center at Chebucto Head. Working frequencies Sector One 156.7 mHz (Channel 14) Sector Two 156.6 mHz (Channel 12). Call sign "Halifax Traffic".
BERTHING: Total length of berthing 17,030 ft.; min. depth 30 ft.
Ocean Terminals:

CARGO FACILITIES: (West Side of Harbour) 13 Shedded Berths. Each shed 50,000 sq. ft. or more 9 with dockside rail track.
6 Open Area Berths
1 – 70,000 sq. ft. storage area. Dockside rail track
1 – 60,000 sq. ft. storage area. Ro/ro ramp
2 – 48,000 sq. ft. storage area. Dockside rail track
1 – 58,000 sq. ft. storage area. Dockside rail track
1 – 40,000 sq. ft. storage area. Dockside rail track
AUTOPORT FACILITY: (East Side of Harbour) 2 berth facility with ro/ro capability. 80 acres for vehicle storage with pre-service available for import vehicles.
BRIDGES: There are two: Angus L. MacDonald bridge (Halifax-Dartmouth) min. vertical clearance at high water 158 ft.; A. Murray MacKay Bridge (narrows) min. vertical clearance at high water 157.7 ft.
TANKERS: 110,000 ton tankers, 50 ft. draft, use port regularly. Terminals – nine berths operated by four oil companies.
Imperial Oil, South Dartmouth, three piers, vessels up to 925 ft.; max. draft 50 ft., bunkering vessel also provides barge service.
Irving Oil Co. Ltd.: South Dartmouth, three berths, ocean vessels any length, max. draft 36.6 ft.; located at Woodside.
Texaco Canada Ltd.: Eastern Passage, two berths (one berth any length vessel) draft up to 38 ft., barge service provided in harbour.
Gulf Oil Canada Ltd.: Bedford Basin; 360 ft. wharf (no restriction vessel length) max. draft 32 ft.; located Burnside, Halifax – Dartmouth Marine Terminal.
BULK HANDLING FACILITIES: Two-berth container ship-rail interface at Pier "C". Served by three 45-ton container gantry cranes, two railcar loading transtainers, 30 tons each, 22 straddle carriers, 30 tons each. Total quay length 1,762 ft., minimum depth, North end 50 ft., South end 40 ft.; one ro-ro berth. New container facilities are under active consideration.
Grain Handling Facilities: Storage capacity over 5,000,000 bushels. Max. capacity
Berth 25 60,000 bu/hr. (loading)
Berth 28 72,000 bu/hr. (loading)
Berth 26 34,000 bu/hr. (unloading)
MEDICAL: Sick Mariners' Service may be obtained for venereal disease only at the Federal Building, Suite 620, Bedford Row, Monday through Friday, Tel. 426-3998. Doctor always available either by telephone or telephone answering service. Information for emergency treatment outside these hours may be obtained from ship's Agent. Emergency hospitalisation can be obtained only at Camp Hill Hospital.
STEVEDORES: Available from several private companies.
DENSITY: Salt water all tides.
FRESH WATER: Dock side only. No water barges. 50 t.p.h. per hose.
FUEL: See "Tankers".
GANGWAY/DECK WATCHMEN: Can be provided.
OPENING/CLOSING HATCHES: Patent mechanical hatches by ship's crew. Wood and canvas hatch covers by stevedores.
CUSTOMS ALLOWANCES: Tobacco: 1 lb. per man per week; 200 cigarettes per man per week. Wine/spirit allowance: 40 oz. bottle per man per week.
CARGO GEAR: All ships liable to inspection by government inspectors. Gear certificates to be produced, if required. Heavy-lift equipment: 59 pieces ranging in single lift capacity to 140 short tons. Normally available on a few hours notice, including floating cranes.
CONSULS: The following countries are represented in Halifax:

Austria	Japan	Peru
Belgium	Germany	Portugal
Britain	Iceland	Spain
Brazil	Italy	Sweden
Denmark	Netherlands	United States of America
Finland	Norway	

REPAIRS: All types of repairs possible.
DRY DOCKS: Floating dock – 600 ft. by 100 ft. by 31 ft. deep; lifting capacity 25,000 tons. Graving dock – 567 ft. long, 80 ft. wide at keel blocks, clearance at top 102 ft. 6 in.; max. draft over keel blocks 26 ft., capacity 25,000 tons. Marine Railways, six. Complete machine shop and other repair facilities as well as Salvage equipment available.
AIRPORT: Halifax International. Regular services to Canada, USA and Europe.
TIME: Standard Time GMT minus 4 hours. Daylight Saving Time from last week-end in April to last week-end in October, clocks advanced 1 hour.
HOLIDAYS: New Year's Day (January 1st); Good Friday; Queen's Birthday (May 20th); Dominion Day (July 1st); Labour Day (September 2nd); Thanksgiving Day (October 14th); Remembrance Day (November 11th); Christmas Day (December 25th). Cargo work can be arranged on all holidays except Labour Day.
POLICE/AMBULANCE/FIRE: Police 4105; Harbour Police (NHB) 426–3629; Ambulance 429–5151; Fire 4103.
TELEPHONES: Service available at all berths.
GENERAL: Extensive rail and road services plus extensive transit sheds, cold storage with 1,719,000 cu. ft. storage space.
SERVICES: All services available including compass adjusting, tank cleaning, etc.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: National Harbour Board.

HAMILTON, Ontario: 43.16 N. 79.54 W.

For important General Information refer to St. Lawrence Seaway.
DOCUMENTS:
Inward manifest 3 days prior to arrival of vessel.
1 Steamship company release covering inward shipment.
1 Loading list, 24 hours prior to vessel loading.
1 Customs report outwards (A.7).
3 Vessel's outward manifest within 3 days after departure of vessel.
PILOTAGE: Pilotage to be arranged 24 hrs. in advance. Pilot normally boards just inside harbour entrance. Contact VHF 16-156.8 mc/s.
MAX. SIZE: 730 ft. LOA. Max. draft 26 ft.
HEALTH: First port of entry. See "Montreal".
RADIO: VBG Toronto.
TUGS: Join inside harbour entrance – ship's lines used.
BERTHING: Arrangements made with Harbour Master.
BRIDGES: Lift bridge at harbour entrance can be raised any time.
STEVEDORES: Must be ordered prior to 1600 hrs. on previous day.
MEDICAL: Hospital services available and doctors can be arranged.
FRESH WATER: Available.
FUEL: All types available.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Performed by stevedores.
CUSTOMS ALLOWANCES: See "Montreal".
IDENTIFICATION CARDS: Not required.
CONSULS: Consuls located in Toronto.
REPAIRS: Possible.
AIRPORT: 10 miles, 4 connecting flights per day.
TIME: GMT minus 5 hrs.
HOLIDAYS: Normal Canadian statutory holidays apply and labour can be arranged at extra cost. See "Montreal" for details.

POLICE/AMBULANCE/FIRE: Telephone 529-L.
TELEPHONES: Can be arranged on board.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: The Hamilton Harbour Commissioners.

HANTSPORT, N.S.: 45.04 N. 64.10 W.

DOCUMENTS: See "Montreal".
PILOTAGE: Non-compulsory, but advisable. Rates by agreement.
MAX. SIZE: Tidal port and no shipping arrives or departs at low water. Draft of largest vessel that entered port was 24 ft. A draft of 25 ft. can be taken in and out.
HEALTH: Customs officer acts as Quarantine officer.
RADIO: Ship-to-shore communications; through St. John N.B. or Yarmouth N.S.
BERTHING: Berthing length 400 ft., no water at low tide, ships lie aground on mud alongside. There are railroad tracks on wharf, main and electric lights laid on.
FRESH WATER: From pipe-line on Government wharf.
FUEL: Oil by truck from Imperial Oil Ltd.
REPAIRS: Hull repairs can be made at low water with vessel high and dry.
SERVICES: Supplies: ship's stores can be secured in port.
AUTHORITY: E. L. Dillman, Harbour Master.

HARBOUR GRACE, Newfoundland: 47.43 N. 53.08 W.

DOCUMENTS:
Crew Lists.
Names of passengers.
Clearance from Last Port of call.
Deratting Certificate.
Inoculation List of all crew members and passengers.
Manifest of Cargo.
Copy Bills of Lading.
List of Bonded Goods.
PILOTAGE: Not compulsory, if required cable Agent.
ANCHORAGES: Pilot will instruct captain.
MAX. SIZE: Max. length 450 ft., max. draft 24 ft. low tide.
HEALTH: See "Montreal".
RADIO: Route cables and telephone calls through St. John's Newfoundland Radio.
TUGS: Not available.
BERTHING: Nothing specific, Pilot will have instructions; Agent should be given 24 hours arrival notice.
STEVEDORES: Available. 24 hours notice required.
MEDICAL: Port doctors available; hospital facilities; advance notice would be helpful in providing ambulance services if needed; vaccination/smallpox required for European ships.
TANKERS: Marine storage terminals for oil are served by Canadian tankers.
FRESH WATER: Available, pipe-line delivery at piers, rate of delivery as required.
FUEL: Diesel, gas oil, marine bunkering facilities in piers, available at any time, no notice required.
DEVELOPMENTS: Possibility new wharf installation, no details available.
GANGWAY/DECK WATCHMEN: Not necessary, available if required.
OPENING/CLOSING HATCHES: By crew.
CUSTOMS ALLOWANCES: See "Montreal".
IDENTIFICATION CARDS: Not required.
CONSULS: Norway; Denmark; Spain; Portugal; France.
REPAIRS: Deck and engine repairs available.
AIRPORT: 1 hr. 15 min. drive, service by regular airlines making connection to all points in the world.
TIME: GMT minus 3.5 hours. Clocks advance 1 hour last Saturday of April each year and are put back 1 hour last Saturday October each year.
HOLIDAYS: New Year's Day; Good Friday; July 1st; November 11th; December 25th. Cargoes could be worked on these days with exception of Good Friday and Christmas Day.
POLICE/AMBULANCE/FIRE: One telephone number for all services 709-596-5014.
TELEPHONES: Available at pier.
SERVICES: Compass adjusting available.
SHORE LEAVE: All crew members allowed ashore.
AGENT: Ocean Harvesters Ltd., Harbour Grace. Tel. 709-596-5111, 709-596-5112, 709-726-4840. Telex 016-311. Cable address: Moorfish, Hr. Grace.

KINGSTON, Ontario: 44.12 N. 76.30 W.

For important General Information refer to St. Lawrence Seaway.
DOCUMENTS: See "Montreal".
PILOTAGE: Contact Pilotage Officer, in Cornwall, telephone 613-546-6736.
ANCHORAGE: Good anchorage off Penitentiary.
RESTRICTIONS: Channel Depths – Controlling depth at low lake levels 22 ft. until wharves in harbour approached. In upper harbour, controlling depth 17.5 ft. Depths vary from month to month. Navigating Season April 15th – December 15th.
HEALTH: First port of entry. Quarantine at Quebec city for incoming ships from foreign ports.
TUGS: Available. Necessary for handling ships in rough weather at Elevator and other docks.
BERTHING: Docks extend West from North of bridge (La Salle Causeway) to little Catariqui Bay – some 4 miles. Dept. of Transport Dock 455 ft., depth alongside 17 ft. Portsmouth Dept. of Transport Dock has 20 ft. alongside end section. Also smaller docks for coastal vessels and private docks, including Elevator dock 700 ft. long on East side 24 ft. alongside, and 600 ft. on West side depth 22 ft. La Salle Causeway 1,000 ft., 14–16 ft. alongside used for berthing in Winter.
MEDICAL: Hospitals, Kingston General and Hotel Dieu.
STEVEDORES: From Toronto.
FUEL: Bunker coal – normal stock 2,000 tons from lighters at wharf. Bunker "C" and diesel oil also available.
FIRE PRECAUTIONS: No unusual precautions.
CUSTOMS ALLOWANCES: See "Montreal".
REPAIRS: Most repairs possible.
DRY DOCK: Will take ships of length 210 ft., beam 48 ft. Depth on sill 11 ft.
TIME: Eastern Standard Time GMT minus 5 hours. Daylight Saving Time from last week-end in April to last week-end in October, clocks advanced 1 hour.
HOLIDAYS: See "Montreal". Port officials always available.
TELEPHONES: Ship to shore phone communications through Kingston (VBH).
AUTHORITY: Harbour Master, Department of Transport.

KITIMAT, B.C.: 53.59 N. 128.46 W.

DOCUMENTS and General Information: Refer to "Vancouver".
PILOTAGE: Compulsory. Pilot boards at Cape Beal, West Coast, Vancouver Island, or Triple Island, off Prince Rupert. Pilotage authority require 48 hours notice to allow Pilot to meet vessel at Triple Island or Cape Beal.
ANCHORAGE: No vessel shall anchor in the fairway or dredged Channel approaching the wharf or otherwise in a position to interfere with or obstruct the docking or undocking of any other vessel. Pilot will instruct Master. Usual anchorage off Amelia Island.
RESTRICTIONS: Approach to the port from the South is via Laredo Sound, Laredo Channel, Campania Sound, Whale or Squally Channels and thence via Douglas Channel. From the North via Brown Passage, Arthur Passage, Grenville Channel, Douglas Channel. The route from the South is approximately 120 miles, from the open sea and from the North approximately 130 miles. Entrance channel to Terminal Wharf No. 1 (red and black buoys with flashing light) is 2,400 ft. long, dredged to a depth of 35 ft. at low water, width varies from 800 ft. at entrance to 600 ft. In addition, a turning basin has been dredged to 35 ft. at low water on the side of the channel opposite wharf, providing a turning basin 650 ft. in width. The channel has mooring dolphins on West side, 865 ft. South of wharf No. 1 to accommodate vessels up to 16,000 d.w.t. while awaiting berth.

Vessels may enter or depart any time of day or night.
MAX. SIZE: LOA, 680 ft. beam 90 ft., draft 36 ft. Mean tide range 13.8 ft. Depth alongside at zero tide 35 ft.
HEALTH: Vessels proceeding direct to Kitimat from foreign ports must apply for permission to proceed by radio to William Head Quarantine Station.
RADIO: Prince Rupert Radio VAJ 500 2182 1630.
TUGS: Tug services available.
ETA: Notice of ETA must be given to Alcan Eurocan at Kitimat at least 24 and 12 hours before arrival. Alcan Eurocan may then assign a berth to the vessel but shall not be liable for any delay in providing berth or for failure to provide a berth. Vessels carrying bulk cargoes for discharge are instructed to request Alcan via radio or wireless telegraph through shore stations as to which hatches are to be opened on arrival alongside unloading berth to permit immediate entry of unloading devices.
BERTHING: Alcan Terminal Wharf No. 1 (concrete caisson construction) is 750 ft. long and has two pneumatic unloading towers discharging to a belt conveyor and a Kangaroo Crane for either bulk and general cargo duties. The wharf is connected by rail direct to Aluminum Co. of Canada smelter yard and to the Terrace – Kitimat spurline of CNR.

Wharf No. 2 is a timber-pile wharf with 19 ft. alongside now used for passenger and light cargo trades. The channel has mooring dolphins on the West side, 865 ft. South of Wharf No. 1, to accommodate vessels up to 16,000 tons, while awaiting berth.

Eurocan Terminal is located to the East of Alcan's Terminal Wharf No. 1 and is 450 ft. long with mooring dolphins at South end. To the North of the terminal is located a hydraulic barge loading ramp.

No container, liquid chemicals or LPG carrier facilities available.
STEVEDORES: ETA sent by cable 24 and 12 hours before arrival.
MEDICAL: Kitimat General Hospital – complete medical service provided.
FRESH WATER: Available at Alcan's Terminal Wharf No. 1.
FUEL: Only diesel oil available.
GANGWAY/DECK WATCHMAN: Not necessary.
OPENING/CLOSING HATCHES: Normally done by crew on bulk discharge. On general cargo, stevedores open and close hatches.
CUSTOMS ALLOWANCE: Tobacco: 200 cigarettes or 0.5 lb. tobacco. Liquor: 40 oz. per man, additional issue after 7 days.
CONSULS: Available at Vancouver, B.C.
REPAIRS: Minor repairs only; nearest shipyard facilities Esquimalt or Vancouver.
REPATRIATION: Facilities convenient for crew changes.
AIRPORT: Two flights daily from Terrace to Vancouver

International Airport. Limousine service from Kitimat to Terrace, distance 40 miles.
TIME: GMT minus 8 hours. Daylight saving time from last Saturday in April to last Saturday in October.
HOLIDAYS: New Year's Day, Good Friday, Victoria Day, Dominion Day, Labour Day, Thanksgiving Day, Christmas Day, and Boxing Day.
POLICE/AMBULANCE/FIRE: Police 632-7111; Ambulance/Fire 632-2345.
TELEPHONE: Telephone available at dock offices.
SHORE LEAVE: Permitted.
AUTHORITY: Department of Transport.

LAKEHEAD HARBOUR, Ontario (formerly Port Arthur and Fort William): 48.27 N. 89.13 W.

For important General Information refer to "St. Lawrence Seaway".
DOCUMENTS: As inland Port all documentation carried out by authorities in Montreal, Quebec, prior arriving. Only when vessels have called at United States Port after departing Montreal, and prior arriving at Canadian Lakehead, will any changes in documentation be necessary; which will consist of a United States Customs clearance. Certificates to be available on board:
Immigration papers.
One copy QS 2 (Health Certificate).
Three copies of Ships' Stores.
Crew Declaration.
Customs Clearance.
All of the above will have been stamped in Montreal.
PILOTAGE: Pilots are obtained by Agent at Master's request, at which time the location of boarding the ship will be stipulated. Ship's Masters are able to contact Agent by ship-shore duplex through VBA Marine Radio, Thunder Bay.
ANCHORAGE: Anchorage areas defined by Lakehead Harbour Commission but due to large area and number of entrances to Harbour, Masters are permitted considerable latitude in making own decisions. Usual areas are approximately 1 mile outside of Harbour breakwall, free of shipping lanes. However, Masters should be guided by the advice of Lakehead Control (radio), VDX 30.
HEALTH: Pratique granted at Montreal.
RADIO: Two radio stations; VBA Thunder Bay, is Department of Transport station offering duplex services; VDX 30, Lakehead Control, offers special services such as assistance in obtaining tugs, relaying special messages for police, radar or radio services, etc.
VBA and VDX 30 both operate 24 hours per day during shipping season on following frequencies:
VBA (AM) Channels 51, 52, 57, 58, 59 and 81
(FM) Channels 12, 26, and 28
VDX 30
(FM) Channels 12, 16, 18A, and 14
TUGS: Arranged mutually by ship Masters and Agents on arrival in port. Ship lines used. Four tugs available.
BERTHING: *North Section* is protected by a breakwall. Refer to Canadian Hydrographic Chart No. 2314 for water depths.
The Keefer Terminal is the principal General Cargo berth available at the Canadian Lakehead. The ocean vessel shed is 400 ft. long, has a dock 650 ft. long with a maximum apron width of 65 ft. All types of import and export general cargo can be handled at this Terminal. Rental mobile cranes are available for handling lifts up to 12 tons.
The CNR has an ore dock with a berthing length of 1,200 ft. It can accommodate four vessels at one time with 200 loading chutes available. The vertical height from water level to spout is 45 ft.
South Section is comprised of the Kaministiquia River, Mission River. In general terms, for most vessels two tugs are required for safe river navigation.
There is one open storage Bulk of General Cargo berth, Valley Camp Coal Dock on the Mission River. This dock has two overhead gantry cranes with lift capacity of one, 12–14 tons and the other 22 tons. The berth is 1,600 ft. long. This dock has recently been extended with modern belt loading facilities, for handling iron ore and similar materials in bulk.
MEDICAL: All facilities available and may be arranged through Agent or Lakehead Harbour Police by contacting VDX 30 Lakehead Control.
DENSITY: Fresh water port. No tide.
FRESH WATER: Available.
FUEL: Light diesel available by tank truck. Bunker "C" only in emergencies.
GANGWAY/DECK WATCHMEN: May be arranged through Agent.
OPENING/CLOSING HATCHES: Normally done by crew.
CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes or 50 cigars every seven days. Spirit/Wine: Officers: One bottle liquor each seven days. Crew: Beer only, at Captain's discretion.
CARGO GEAR: Normal safety certificate only required. No special port regulations.
CONSULS: Following countries are represented at Lakehead: Denmark, Finland, Italy, Netherlands and Norway.
REPAIRS: Full repairs available. Includes mobile equipment by both land and water conveyances.
DRY DOCKS: One available, length 747 ft. by 98 ft. width and can accommodate largest vessel operating on Great Lakes.
AIRPORT: Served by regular airlines with connections to any destination.
TIME: Eastern Standard Time GMT minus 5 hours. Daylight saving time from last week-end in April to last week-end October, clocks advanced 1 hour.
HOLIDAYS: During shipping season from April to mid-December on which stevedores do not work: May 24, July 1, September 1, and Thanksgiving Day (October). Work can be arranged at overtime rates.
POLICE/AMBULANCE/FIRE: Lakehead Harbour Police 344–3594, or by Marine Radio VDX 30.
Thunder Bay City Police 6236471.
Fire and Ambulance contacted most easily through VDX 30 radio.
TELEPHONES: Telephones at Keefer Terminal only.
GENERAL: All vessels entering, moving in, or departing Lakehead Harbour required to contact VDX 30 Lakehead Control prior making such move. Initial contact must be made before entry from area designated as "Welcome Islands" giving particulars of destination within Harbour and routes to be traversed.
AUTHORITY: Lakehead Harbour Commission.

MONTREAL, Quebec: 45.30 N. 73.33 W.

(See Plan)

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
3 sets Customs Documents.
3 sets Health Documents.
6 sets Manifests.
6 sets Bills of Lading.
3 sets Ship's Papers.
PILOTAGE: Compulsory. Pilots board inbound vessels at Anse-aux-Basques (near Les Escoumains) to bring ships as far as port of Quebec where Pilots are exchanged for the trip to Trois-Rivieres. Pilots are again exchanged at Trois-Rivieres before ships may proceed to Montreal.
For further information refer to Quebec.
ICE ADVISORY SERVICE: Ships inbound from seaward between 15th December and 15th April should advise the Ice Information Officer, Sydney, N.S., 36 hours prior to entering Cabot Strait stating their position, destination, whether loaded or in ballast. This procedure will facilitate the passing of ice information to the ship as necessary.
On request, ice information is also available from Marine Radio Stations at Halifax, Camperdown, Seven Islands, Twillingate and Grindstone. The Canadian Broadcasting Corporation maritime network also broadcasts ice information daily during the Winter navigation season. Supplementary ice information may also be obtained from Canadian Marine Service ice breakers.
During the ice season, radio broadcasts of ice information are made twice daily from Marine Radio Stations as follows:

		Call frequencies
Cape Race, Nfld.	VCE	420kc/s CW
		2582kc/s RT
Fox River, Que.	VCG	434kc/s CW
		2582kc/s RT

		17218.4

ANCHORAGE: Available at Longue Pointe abreast of the Island of Montreal close to upper harbour. Also at Lanoraie, approx. 3 miles above Sorel harbour limits, and at Pointe-aux-Trembles anchorage below berth 110. Also opposite Canadian Vickers. Boatmen services are available to vessels at anchor.
Anchorages will be allocated by the Harbour Master (Montreal), through the Marine Traffic Control Centre, Montreal.
MAX. SIZE: Entry only restricted by draft. Main channel depth is 35 ft. Channel 550 ft. wide at narrowest point.
HEALTH: Except in case of coastwise vessels free of disease and arriving in Canada from ports or areas that are not infected, every vessel coming from a port outside Canada is inspected by the quarantine officer, and shall not make customs entry until it has received pratique.
"Coastwise Vessel" means a vessel operating exclusively between Canada and the island of St. Pierre and Miquelon or between Canada and the United States, including Alaska. A "coastwise vessel" loses coastwise status and is subject to quarantine inspection on its next arrival at a Canadian port when at any time it touches a foreign port other than those mentioned above.
Where sufficient quarantine information can be given by wireless, radio pratique may be obtained between the hours of 0900 and 1700 the day preceding arrival:
(a) From "Quarantine Halifax" by vessels bound for Halifax, Nova Scotia.
(b) From "Quarantine Saint John" by vessels bound for Saint John, New Brunswick.
(c) From "Quarantine Quebec" by vessels approaching Canadian ports via the Saint Lawrence River.
(d) From "Quarantine Victoria" by vessels bound for ports in British Columbia via the Strait of Juan de Fuca, other than vessels coming from an Asiatic port except ports in Japan.

For the purposes of radio pratique vessels are required to give the following information:

(a) Name and nationality of vessel.
(b) Ports called at during voyage.
(c) Date and place of last fumigation or derating exemption certificate.
(d) Nature of cargo.
(e) Number of crew.
(f) Number of passengers.
(g) Port of destination and name of Agent.
(h) Number of persons without valid vaccination certificates.
(i) Condition of health of all on board with details of any sickness or death which has occurred during the voyage.

Valid Smallpox vaccination certificates required.

To facilitate the quarantine clearance of vessels entering the St. Lawrence Seaway, the Montreal quarantine facilities have been augmented by opening a new office in Montreal East near the entrance to the Seaway. Vessels proceeding directly into the Seaway may now receive quarantine inspection and clearance while at anchor awaiting entrance to the Seaway.

RADIO: All communications via Montreal radio, call sign VFN. Marine traffic control handle VHF traffic as follows: Between Tracy and Cap St. Michel, VHF Channel 10 (156.5 mHz.). From Cap St. Michel to Montreal, VHF Channel 13 (156.65 mHz.). Ship to ship communication, VHF Channel 6, (156.3 mHz.). Port radar service available.

OSHAWA, Ontario: 43.52 N., 78.50 W.

PORT LIMITS: The limits of the Oshawa Harbour is defined as follows:
All the waters of Lake Ontario within the following limits: Commencing at the high water mark of Lake Ontario where it intercepts the Easterly limit of Lot 1 of the broken front concession of the Township of East Whitby.
Thence along the high water mark in a Westerly direction to a point where it intercepts the Westerly limit of Lot 17 of the broken front concession of the Township of East Whitby.
Thence in a Southerly direction 3,000 ft. into Lake Ontario on the extension of the said Westerly limit of Lot 17;
Thence on a straight line in an Easterly direction to a point on a Southerly extension of the said Easterly limit of Lot 1, 3,000 ft. from the high water mark.
Thence in a Northerly direction to the point of commencement.
And all water-front property, wharves, piers, docks, buildings, shores and beaches in or along the said waters.
DOCUMENTS: The matter of documentation is done through Hub Transportation Services Limited (Our Terminal Operator) in conjunction with the Customs Office located at the City of Oshawa.

ANCHORAGES: Off the entrance of Lake Ontario.
RESTRICTIONS: Draft 25.6 ft. at the East Wharf. 22 ft. on the West Wall.
MAX. SIZE: Applies to maximum size of vessels entering seaway.
HEALTH: Normal formalities are conducted at first port in Canada in the St. Lawrence Seaway or East Coast, and therefore the vessel is usually considered cleared prior to entering the Seaway system.
RADIO: Toronto VOR or by telephone: (416) 576-0400.
VHF: Presently Nil.
RADAR: None.
TUGS: Tugs available at the harbour entrance. Cost: $800.00 per tug inwards and likewise outwards.
BERTHING: East Wharf – 730 ft., Draft 25.6 ft. West Wharf – 590 ft., Draft 22 ft. Discharging: Ship's gear or shore equipment.
East Wharf – General Cargo, Petroleum, sugar, Steel, Automobiles.
West Wharf – Gypsum, Salt, Petroleum Products, Coal, Steel.
CRANES: Mobile cranes having a capacity of up to 300 tons are available at all times. 2 of these cranes are stationed at the Port of Oshawa and same have respective capacities of 150 and 100 tons.
BULK CARGO FACILITIES: Dry bulk cargoes with the exception of sugar, i.e. coal, salt and gypsum, are carried by self-underloaders and discharged by ship's gear. Sugar is discharged by mobile cranes using clam grabs at a rate of 225/250 t.p.h. Present discharging gear by high water level, specific details will be made available on request.
BRIDGES: None.
STEVEDORES: The port stevedore (Hub Transportation Services Limited) employs members of the I.L.A., Local 1997, and 3 gangs are available from this local.
The main commodities handled are unitized general cargo, containerized general cargo, import and export steel, and raw sugar.
The productivity rate is above average, with general cargo usually reaching a level of 20 tons plus, per gang. Depending on units, weights, runs somewhere in the region of 60 to 125 tons per gang hour. Bulk commodities are usually discharged at a rate of 250 t.p.h.
MEDICAL: A full range of medical services is available at the local Medical Clinic and Oshawa General Hospital.
FRESH WATER: Fresh water available at East wharf only.
FUEL: Available on request.
FIRE PRECAUTIONS: Usual regulations.
CONSULS: All major consuls in Toronto, 29 miles away.
REPAIRS: Available on request.
DRY DOCKS: Information on request from Hub Transportation Services Ltd.
SURVEYORS: Classification Societies are represented by Lloyds, ABS and N.V. in Toronto.
GANGWAY/DECK WATCHMEN: Not required at the Port of Oshawa.
HATCHES: The opening and closing of hatches is normally carried out by ship's crew.
CUSTOMS ALLOWANCES: In accordance with Canadian standards.
CARGO GEAR: Wherever possible by shore crew.
REPATRIATION: Possible.
AIRPORT: Toronto International Airport. All major airlines, 45 miles West.
TIME: EST.
HOLIDAYS: Usual holidays with the exception that Ontario celebrate Civic Holiday which is the first weekend in August. Cargo work can be arranged.
POLICE/AMBULANCE/FIRE: Police, 579-1234. Fire Department, 725-6574. Ambulance, 576-8711.
TELEPHONES: Arrangements can be made through Bell Canada for telephones to be placed on board. A cost of approximately $24.75 installation charge per line.
SERVICES: All services available on request to Terminal Operator.
SHORE LEAVE: Possible.
IDENTIFICATION CARDS: Seaman's book is sufficient.
AUTHORITY: Oshawa Harbour Commission.

PICTOU, N.S.: 45.41 N. 62.43 W.

DOCUMENTS:
Customs Report Inwards, Form A6 in duplicate.
Clearance from last port.
Stores List, Form E1 in duplicate.
Crew Declarations, Form Y14 in duplicate.
Crew List, Immigration Form 200 in duplicate.
Quarantine Q25 in duplicate.
Fumigating and Deratting Certificate.
Load Line Certificate.
Inspection Certificate.
Safety Equipment Certificate.
Radiotelegraphy Certificate.
Certificate of Register.
If Pictou is first port of call in Canada photostat copies of the ship's ocean bills of lading in duplicate to cover all goods for discharge in Canada.
PILOTAGE: Normally arranged through Halifax as there is no radio station in Pictou. Various pilot boats in use.
ANCHORAGE: Safe anchorage all over harbour in 40 ft.
RESTRICTIONS: No entry restrictions except draft over bar at entrance to harbour, which is 22 ft. low water.
MAX. SIZE: Government pier 720 ft. long with 27 ft. water on both sides.
HEALTH: Masters must complete Quarantine Form QS.25. Vessel may be quarantined by port doctor, if any disease on board.
RADIO: Halifax, call sign, VCS, Channels 26, 59, 79. Alternate Charlottetown call sign VCA, Channel 59.
TUGS: Not necessary for berthing.
BERTHING: No specific requirements; berths usually available at all times.
STEVEDORES: Usually 24 hours notice required for stevedores.
MEDICAL: Hospital facilities available. Serious cases may be transferred to larger hospital at New Glasgow 8 miles distant, or to Halifax 100 miles distant.
FRESH WATER: Supplied by town through 4 in. line. Water pressure 110 pounds.
FUEL OIL: Diesel fuel available in quantity. 24 hours notice required for bunker fuel as it is only brought in on order.
GANGWAY/DECK WATCHMEN: Not usually required unless requested by ship.
OPENING/CLOSING HATCHES: Usually by crew.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per man. Issue may be made if ship is in port for long periods. Wine/Spirits: One bottle per man.
IDENTIFICATION CARDS: Not required. Customs and Immigration Officer should be notified if any crew member wants to travel any distance from port area.
CONSULS: None.
REPAIRS: Facilities to carry out all types of ship's repairs, including deck, engine, electrical and hull repairs.
DRYDOCKS: Largest dry dock, 2,000 ton capacity, 250 ft. long, 42 ft. beam.
REPATRIATION: Crewmen would be repatriated through Halifax.
AIRPORT: Closest airport at New Glasgow, 8 miles distant. Airport served daily by Eastern Provincial Airlines which connect with Halifax. No international airlines use this airport.
TIME: Eastern Standard Time GMT minus 5 hours. Daylight saving time from last week-end in April to last week-end in October, clocks advanced 1 hour.
HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Queen's Birthday (May 19th); Dominion Day (July 1st); Labour Day (1st Monday in September); Thanksgiving Day (2nd Monday in October); Remembrance Day (November 11th); Christmas Day; Boxing Day. Cargo normally not worked on holidays. Would have to be arranged with stevedoring company.
POLICE/AMBULANCE/FIRE: Police 485-4363; Fire 485-4141; Ambulance 485-4381.
TELEPHONES: Facilities available for placing telephones on ships.
GENERAL: For larger and bulk cargoes stevedores should be notified well in advance. Rates vary according to the type of cargo.
AUTHORITY: Department of Transport, Harbour Master.

PORT ALBERNI, B.C.: 49.14 N. 124.50 W. (See Plan)

DOCUMENTS, HEALTH, CONSULS, ETC.: See "Vancouver".
PILOTAGE: Compulsory, contact through Vancouver Radio. Pilot boards at Cape Beale.
ANCHORAGE: Deep water anchorage available in harbour, depths up to 60 ft.
RESTRICTIONS: Depths in approaches 84 ft. MLLW.
TUGS: Available and required for berthing.
BERTHING: Pulp and paper wharf with two berths: supplied directly from MacMillan Bloedel's pulp and paper mill. Berthing length is 500 ft. with 33 ft. depth. Storage sheds in the centre, with berths either side and specialised equipment for loading pulp and rolls of paper. A smaller berth in the river is used for loading 7,200 ton cargoes on specially covered newsprint barges.
Somass Sawmill Wharf: berthing length 950 ft. with 35 ft. depth; cranes of 5 and 30 ton capacity.
New Port Alberni Terminals Berth 3: 600 ft. long and, with the aid of pile dolphins, can berth ships of 700 ft. and over, with a depth alongside of 40 ft.
Port Alberni Terminals Berths 1 and 2: berthing is 1,050 ft. with 36 to 50 ft. depth. Storage sheds and forklifts, with a 6 ton electric crane on the dock.
STEVEDORES: 15 Gangs available. Refer "Vancouver" for holidays, etc.
MEDICAL: Doctors and hospital facilities available.
DENSITY: Salt water.
FRESH WATER: Available at wharves.
FUEL: Supplies by barge from "Vancouver".
CUSTOMS ALLOWANCES: See "Vancouver".
REPAIRS: Machine shop capable of major repairs.
AUTHORITY: Port Alberni Harbour Commmission.

PORT ALFRED (Including Bagotville) (See Plan) Quebec: 48.20 N. 70.52 W.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
3 Crew's Declaration (Can. Form Y.14).
3 Stores Lists (Can. Form E.1).
Quarantine (Can. Form QS.2001).
3 Cargo Manifests.
3 Bills of Lading.
2 Stowage Plans.
Harbour Master Dues receipt.

PILOTAGE: Pilotage is compulsory. A minimum notice of 24 hours must be given to ensure availablity of Pilot. This notice to be confirmed 12 hours and 4 hours prior to arrival at pilot station. Reports stating ETA and Net Reg. Tonnage of Vessel to be addressed to "Pilots Montreal" and passed by the Marine Traffic Control communication system on VHF Channel 14 (156.7 mHz), or by any coast radio station.

The Pilot station for vessels upbound to Baie des Ha! Ha! is located at Anse-aux-Basques, chartered 2 miles S.W. of Les Escoumins Wharf on the North shore of the St. Lawrence river and for downbound vessel at Quebec City.

ANCHORAGE: Vessels awaiting berthing facilities anchor off Anse a Philippe (48.21 N., 70.73 W.).

RESTRICTIONS: None. Vessels may enter or depart at any time of day or night.

MAX. SIZE: Vessels of up to 39 ft. draft may berth at Duncan Wharf and up to 30 ft. at Powell Wharf. Length and breadth not considered.

HEALTH: Pratique obtained by cable to Quarantine Quebec, and serves for duration of vessel's stay in Canada. See also "Montreal".

RADIO: Halifax Radio Station used by vessels while in Atlantic and Sept-Iles Radio Station while in Gulf of St. Lawrence.

TUGS: Two tug-boats available 2,400 h.p. and 1,050 h.p. Join vessel 1 mile off wharves at Port Alfred. Ship's lines used.

BERTHING:

N.H.B. Facilities

Berth number (usual name)	*Wharf length (ft.)*	*Depth at Low Water (ft.)*	*Remarks*
Bagotville			
Main Wharf (outer face)	167	28

AIRPORT: At Bagotville, 6 miles from dock, Daily service to Montreal, Quebec City, Sept-Iles and Baie Comeau

HOLIDAYS: 1st & 2nd January, Easter Monday, St. Jean Baptiste Day (24th June), Confederation Day, 1st July, 2nd Monday of August, Labour Day & 25th December.

POLICE/AMBULANCE/FIRE: Police 544-6804; Fire 544-6804; Ambulance 544-5840 or 543-0755.

TELEPHONES: Telephone outlets at each berth; telephone can be put on main deck of vessels at no charge.

SHORE LEAVE: Crew members allowed ashore.

AUTHORITY: Alcan Smelter and Chemicals Ltd. Transport Division, Port Alfred.

PORT ALICE, B.C.: 50.22N. 127.28W.

PILOTAGE: Compulsory. Pilots can be secured off Cape Beale, Barkley Sound, South end of Vancouver Island. Master should advise "Pilots Victoria" via Radio Station VAK giving their ETA Cape Beale.

ANCHORAGE: Good anchorage within one half mile of dock in 30 fathoms.

HEALTH: The nearest station is at Victoria, B.C. Ships coming from foreign other than U.S.A. ports and having duplicate pratique from same to British Columbia ports other than Victoria must obtain Radio pratique through Victoria, B.C.

TUGS: Small tug (335 h.p.) and line boat available to assist berthing and departure if required.

BERTHING: Controlling depth from entrance of Quatsino Sound to Port Alice dock 24 fathoms. A draft of 25 ft. can be handled alongside dock and a vessel 525 ft. in length can be berthed with safety.

Oil tankers with draft up to 35 ft. and 580 ft. in length can berth against berthing scow positioned between dock and oil tanker. (Width of scow 35 ft.).

Bulk Carriers with draft of 35 ft., 565 ft. in length are berthed approximately 16 ft. out from dock by means of log fenders. Gantry of monck cranes extending over apron of dock. Largest ship handled of this type, 29,500 d.w.t., draft 35 ft. 4 ins. (Cargo loaded – Units of woodpulp).

STEVEDORES: Working day of 12 hours.

MEDICAL: 12 bed hospital, physician in attendance.

FRESH WATER: Available.

FUEL: Limited quantity of diesel oil. Fuel oil only available in an emergency from gravity hose on dock, vessel must supply hoses.

CONSULS: None.

REPAIRS: Minor repairs can be made in the company workshop.

CUSTOMS: Customs board at Port Alice.

CARGO GEAR: No shore cranes, ships use own gear.

AIRPORT: 35 miles from Port Alice, daily service.

HOLIDAYS: All Dominion legal holidays.

GENERAL: Port Alice is a private port open to navigation all year round. Limited quantity of supplies available.

AUTHORITY: Rayonier Canada Ltd.

PORT CARTIER, Quebec: 50.02 N. 66.47 W.

(See Plan)

DOCUMENTS:

Deratisation Certificate.
Smallpox Vaccination Certificate.

Immigration

Crew List Form 1MM.200 in triplicate.

Customs

Report inwards (A.6) in triplicate.
Crew Declaration (Y.14) in triplicate.
Ship's Stores List (E.1) in triplicate.
Ship's Register.
Clearance from Last Port.
Manifest of cargo.

PILOTAGE: Compulsory. Pilots board about 1 mile off by tug-boat. Frequencies for VHF communication with Pilot and harbour office. Calling 156.8 megs. Receiving/transmitting 156.6 megs. Internal harbour (tugs and Pilots) 156.35 megs.

Vessels over 40,000 d.w.t. shall also provide accommodation ladder with rope ladder alongside. The landing platform of the accommodation ladder should be approximately 20 ft. above the water.

APPROACHES: The depth of water in the harbour from the entrance is 50 ft. at Mean Low Tide. The approach channel is 40 ft. at Mean Low Tide for a width of 1,000 ft. A depth of 54.5 ft. at Mean Low Tide is maintained in the channel for a width of 200 ft. on each side of the centre line of approach into the harbour.

ANCHORAGE:

Anchorage areas have been established as follows:

Designator	*Position*
A.	50° 00′ 57.0″ N., 66° 46′ 36.2″ W.
B.	50° 01′ 07.1″ N., 66° 45′ 44.5″ W.
C.	50° 01′ 16.4″ N., 66° 44′ 53.2″ W.
D.	50° 00′ 32.8″ N., 66° 45′ 44.5″ W.
E.	50° 00′ 22.7″ N., 66° 46′ 35.0″ W.
F.	49° 59′ 56.5″ N., 66° 48′ 43.0″ W.
G.	49° 59′ 44.0″ N., 66° 49′ 32.8″ W.

RESTRICTIONS: Vessels with 50 ft. draft and over must sail on the tide. Tidal range 6 ft. to 12 ft.

MAX. SIZE: Max. size of vessel 1,000 ft. length, 170 ft. beam, max. draft 54 ft.

Vessels of 100,000 d.w.t. and over must have a draft not exceeding Fwd. 33 ft. and Aft 38 ft. on arrival. Also see "Berthing".

HEALTH: All vessels should 24 hours before arrival and during

normal office hours (holidays and Sundays excepted) radio – "Quarantine Quebec" for radio pratique. Ships trading between Canada and the United States continuously and touching no other foreign port, since last granted Canadian pratique, comply with the above, only on first trip to Canada.

The quarantine message should contain: Name of vessel, Nationality of flag, Port of Departure, Destination, Type of cargo or in ballast, Number of crew and passengers, Health condition on board ship.

Vessels inspected by Port Health Officer soon as possible, in berth or not.

Persons not in possession of valid smallpox certificate are re-vaccinated if vessel arriving from suspect area.

Masters shall have ready for inspection:

Maritime Declaration of Health Form Q.S.2001 in duplicate.

Deratisation Certificate.

All Smallpox vaccination certificates of crew and passengers if vessel is arriving from an infected Port – otherwise not necessary.

Medical parades of crew may be conducted by the Port Health Officer on vessel's arrival alongside.

RADIO: Cable Address "Cartier" Port Cartier.

Vessels entering the Gulf from the Atlantic should keep watch on Halifax Radio for all traffic. During the ice season this station also issues an ice report and vessels should report to Ice Information Officer, Halifax N.S. 36 hours before entering the Gulf. Information as to time of reports and frequencies will be found in International Radio Aids to Navigation Manual.

Traffic List	420 kHz	Even hours plus 50 GMT
	2582/161.9	Even hours plus 40 GMT

Weather, Ice Reports and Notice to Shipping.

Channel 59	Receiving Frequency	2582 kHz.	
Channel 26	Receiving Frequency	161.9 mHz.	1330 GMT
and CW		'1830 GMT	
			0130 GMT

When vessels are 36 hours from Port Cartier, they should keep W/T watch on VCK Seven Islands radio for traffic from this Port.

Seven Islands Calling and Receiving:

W/T Frequency	Calling		500	kHz.
R/T Frequency	Transmitting		2582	kHz.
	Calling		2182	kHz.
	Receiving		2206	kHz.
R/T (Duplex)	Transmitting		2582	kHz.
	,,		2514	kHz.
	,,		2550	kHz.
	Receiving		2206	kHz.
	,,		2118	kHz.
	,,		2158	kHz.
VHF Calling			156.8	mHz.
Receiving & Transmitting		Port Cartier	156.6	mHz.
Internal Harbour (Tug & Pilot)			156.35	mHz.

The Port Office telephone number is (418) 768-2485, and Telex number is 011-8-6422. It is also fitted with VHF on the frequencies mentioned above. The office is open to receive messages on a 24-hour basis. Radio and radio telephone traffic by a ship at anchor in the area off Port Cartier is permissible.

ARRIVAL ADVICE: *Ore Carriers:* Each vessel operator or its principal shall notify Quebec Cartier Mining at least two weeks prior to the expected arrival of each vessel at Port Cartier and Quebec Cartier Mining Company shall forthwith advise such vessel operator or principal whether it can accept the vessel at such time. An allowance of 3 days preceding and 3 days subsequent to the date so fixed will be made for the actual arrival of each vessel. If the vessel's actual arrival is not within such 3-day period preceding or subsequent to the date fixed for its arrival, Quebec Cartier Mining Company may fix another arrival date for such vessel that will not interfere with other scheduled loading. Quebec Cartier Mining Company shall be kept fully advised of all vessel nominations, substitutions, cancellations, delays, sailing dates at Port Cartier of all vessels designated to accept delivery of ore at this Port.

ETAs – All vessels must advise ETA 72 hours, 48 hours and 24 hours, before arrival. If any change in ETA of more than 1 hour occurs after transmission of the 24 hour ETA, the vessel must send a corrected ETA immediately. These ETAs shall be submitted in local time at Port Cartier.

Vessels proceeding to Port Cartier will advise tonnage of cargo required and the amount and currency of funds required, if any, in the 72 hour ETA message. In the 24 hour ETA the estimated time for pumping ballast after arrival alongside should be included. However, if because of weather or any other cause the estimated pumping time should change, the vessel shall notify Quebec Cartier Mining Company's Port Authority by an additional message.

All ships shall request docking instructions 2 hours before arrival.

Ships inbound for Port Cartier from Seaward between December 15th and April 15th should report to "Ice Halifax" 36 hours before passing Cape Ray for ice channel routing.

Radiogram	Ice Halifax
Station Sydney Call Sign	VSC
Frequency	489 kHz. CW
,,	2598 kHz. RT
,,	161.9 mHz. RT

N.B. Ships trading in the Gulf of St. Lawrence during this period should avail themselves of the Canadian Government Publication "Ice Navigation in Canadian Waters".

Grain Carriers: ETAs: All vessels must advise "Cartier" Port Cartier, ETA 72 hours, 48 hours and 24 hours before arrival. If any change in ETA of more than 1 hour occurs after transmission of the 24 hour ETA, the vessel must send a corrected ETA immediately.

Vessels proceeding to Port Cartier will advise in the 72 hour ETA amount of grain required and amount of grain fittings if any required on arrival. Supplies, Bunkers, water, cash advance and bonded stores required.

All ships are to request docking instructions 2 hours before arrival.

Ships inbound for Port Cartier from Seaward between December 15th and April 15th should report to "Ice Halifax" 36 hours before passing Cape Ray for ice channel routing.

Radiogram	Ice Halifax
Station Sydney Call Sign	VCO
Frequency	489 kHz. CW
,,	2598 kHz. RT
,,	161.9 mHz. RT

Coasting Vessels: (Vessels that do not make voyages outside Canadian waters.)

Cable Address "Cartier" Port Cartier.

ETA: All vessels should advise ETA 24 hours before arrival. If any change in ETA of more than 1 hour occurs after sending 24 hour notice, vessel should send corrected ETA immediately.

The Port Office telephone number is (418) 768-2485, and telex number is 011-8-6422. It is also fitted with VHF. The office is open to receive messages on a 24 hour basis. Radio traffic by a ship at anchor in the area of Port Cartier is permissable.

All ships are to request docking instructions 2 hours before arrival.

TUGS: Compulsory. Meet vessel outside harbour under instructions from Pilot. Tug lines used at all times. Two tugs of 3,800 h.p. available.

BERTHING: North dock 2,500 ft. long includes No. 1 West Berth, length 1,000 ft., for ore loading, and No. 4 East berth, length 1,500 ft., for standby or emergency use only. The South dock length 1,480 ft. includes No. 2 West berth for discharging grain, and No. 3 East berth for loading grain. Tanker berths also located on the South dock. Berth No. 5 on the South side of the South dock for general cargo use by coastal vessels only. Coastal vessels also use berths No. 2 and 3 when permitted by the Port Authority.

Vessels cautioned not to use anchors in harbour in case of damage to bubbler system installed on the bottom of harbour. The bottom is smooth surface rock and anchors are of very little value.

Faces of all berths fitted with rubber tyre fenders. All mooring ropes and wires should have eyes at least 8 ft. in diameter.

Maximum dimensions allowable under Grain Berth:

LOA	900 ft.
Beam	137 ft. for self trimming bulk carriers
	137 ft. OBO centre holds only
	125 ft. Tankers providing off shore tank openings are a minimum of 15 ft. inside ship's side
Draft	49 ft. loaded
Air draft	LW 53 ft. to top of hatch covers
	HW 45 ft. to top of hatch covers

Vessels are required to present alongside the loading berth with hatches open and gangway ready.

On completion of loading, vessels are required by the Elevator Company to vacate the loading berth within 1 hour. If additional time is required alongside the loading berth application for an extension must be made at time of docking.

Note: Most vessels requiring additional dock time will be ordered to a lay-by berth, if available, or to anchorage at their expense.

MEDICAL: Hospital facilities and dentist available.

TANKERS: No facilities for slop discharge.

DENSITY: Has been known to vary slightly between 1025 and 1021, but is considered salt.

FRESH WATER: Available to all vessels at Berths No. 1, 2, 3, 4 and 5 with connections conveniently located. Rate of approximately 20 t.p.h. The fresh water line is 6 in. with 2.5 in. standard Quebec hose, male connection of 7 threads to the inch. Necessary connections and hoses are to be furnished and handled by vessel.

If required, fresh water can be supplied to vessels at anchor. Max. amount per trip 50 tons. Cost per trip $200.

FUEL: Available at Berths No. 1, 2 and 3 for Bunker "C" marine diesel and/or any specialised blend and connections are positioned for ready supply to all vessels. All bunker requirements are directly supplied by Gulf Oil Canada Limited, and proper credits should be established. Bunker "C" can be supplied at approximately 2,700 barrels per hour. Marine diesel oil can be supplied at approximately 2,400 barrels per hour, Bunker "C" line is 10 in. with 6 in. reducer flange connection. Marine diesel oil line is 8 in. with 4 in. reducer flange connection. There is no coal available at this port.

Vessels nominated for Port Cartier and required to anchor awaiting a berth, which in the meantime require bunkers, will be permitted to enter the harbour, if a berth is available with bunkering facilities, for the purpose of bunkering, and shall then return to anchor. The fee for this service shall be $300 plus second tug when used; and applicable line handling charges when used.

GANGWAY/DECK WATCHMEN: Not necessary. Security guards obtainable on request.

OPENING/CLOSING HATCHES: Normally done by crew.

CUSTOMS ALLOWANCES: Canada Customs regulations allow each crew member to have in his possession for his personal consumption 200 cigarettes, 50 cigars and 2 lbs. tobacco; also 40 oz. of spirituous liquor or wine or 24 pints of beer or ale. All quantities must be declared on Crew Declaration Form Y-14 along with all personal effects such as Radios, Cameras, Tape Recorders, Binoculars, Souvenirs, etc., plus serial numbers of these items.

N.B. Masters of vessels are advised that tobacco items and spirits in excess of these amounts in possession of crew members should

be collected and placed in bonded stores prior to the vessel's arrival in order to speed up the clearance of the vessel.
IDENTIFICATION CARDS: Not necessary.
REPAIRS: Only minor repairs possible.
REPATRIATION: Crew changes and repatriation can be carried out.
AIRPORT: Nearest airport is Seven Islands about 40 miles by road. Services to Quebec City and Montreal, 4 flights daily.
TIME: Port Cartier is located in the Eastern Standard Time Zone (GMT less 5 hours). Daylight Saving Time is observed from last Saturday in April to last Saturday in October.
HOLIDAYS: Ore vessels not loaded on New Year's Day (January 1st), and Christmas Day (December 25th), nor from 0800 hrs. Sunday to 1600 hrs. Sunday nor during the same period on the following holidays: Good Friday; St. Jean Baptiste Day (June 24th); Dominion Day (July 1st); 2nd Monday in July; First Monday of August; Labour Day (First Monday of September); Thanksgiving Day (Second Monday of October); Immaculate Conception (December 8th); Boxing Day (December 26th).
POLICE/AMBULANCE/FIRE: Police 766-2233; Ambulance/Fire 768-2300.
TELEPHONES: No direct connections to vessels. Available on berths.
GENERAL: Vessels which have completed discharging of grain and are to load iron ore should have ratguards fitted to all mooring lines at all times.
SERVICES: Electronic repair services to navigational equipment. Should be requested in advance.
SHORE LEAVE: Permitted.
DELAYS: Occasionally Easterly weather conditions may delay vessels berthing.
GENERAL: Grain vessels: Vessels ordered to anchor should do so in the recommended Anchorage. Failure to do so may result in delays to vessels from being boarded by Port and Government Authorities.

Vessels arriving in ballast should ensure they are in good trim for safe handling into the harbour, bearing in mind the loading rate so as not to cause any delay in loading due to deballasting. However, should a vessel not be sufficiently ballasted at the time of proceeding into the harbour, the Pilot may request further ballasting depending on the prevailing weather conditions. If in doubt, Master should contact the Port Office by radio telephone.

Vessels should have main engines and deck machinery operable at all times when alongside the berth. Permission contrary to the above must be obtained from the Port Authority.

Vessels usually dock starboard side at the Grain Berth.

Tankers and OBO vessels having discharged Petroleum products at last port and not in possession of a Gas Free Certificate by an independent Chemist will advise accordingly in the 72 hour ETA, and arrangements will be made to have a chemist available on arrival at vessels expense.

All vessels discharging or loading grain will at all times have adquate ratguards on all mooring lines.

Ore Carriers:

Loading Conditions: Quebec Cartier Mining Company will load ore at Port Cartier into vessels conforming with the Specifications hereinafter set forth.Quebec Cartier Mining Company has installed equipment at Port Cartier having a rated capacity for free loading at 6,000 gross tons per hour. Any trimming beyond that necessary for the safety of the vessel which is desired by the vessel and is consented to by Quebec Cartier Mining Company and which must be limited to lower holds, shall be at vessels expense.

Loading Minimum and Vessel Specifications: Each vessel designated to accept delivery of ore at Port Cartier, must conform in construction to the following specifications and conditions:

1. Not less than 4 ore hatches of at least 18 ft. square, except Great Lake Bulk carriers where the minimum width of hatches shall be 9 ft., to accept Ore Cargo direct from loading tower at Port Cartier.
2. All vessels nominated must be suitable for the loading and the transportation of concentrates and capable of taking the entire cargo to be loaded in the lower holds without "peak-up" above the between deck levels. The vessel shall load and stow in accordance with the Canada Shipping Act and Regulations promulgated thereunder.
3. Hatch opening sufficiently clear of obstruction on deck to permit free and direct contact with loading tower.
4. In case of combination Ore Carrier and Tanker type vessels, the Master must present a Gas Free Certificate before Notice of Readiness will be accepted.

Rules and Regulations:

Ships will be loaded in regular turn of vessel's arrival off Port Cartier provided they present with hatches open and do not have ballast dumping time which will exceed minimum loading time. The shiploader has a rated capacity of 9,000 gross t.p.h. A vessel which has berthed at the loading dock and is found to have a deballasting rate time which in the opinion of the Port Authority will not permit loading at maximum rate, may be ordered off the dock and moved to the standby berth or to anchorage until it is in a condition to accept its cargo at maximum loading speed.

The vessel will then be returned to the ore loading berth in turn, following re-submission of Notice of Readiness. All moves to be at vessel's expense. Quebec Cartier Mining Co., Port Authority will be final arbitrator in case of dispute.

Any vessel which discharges a cargo of grain and is to load a cargo of iron ore will be considered in turn for loading only after the vessel has completed discharging grain and is in all respects clean and ready to receive iron ore.

Loading plan must be presented to the loading foreman on arrival at the berth.

Ships will leave the loading berth immediately on completion of loading. If any delays occur on documentation, crew members missing, etc., ship will leave the dock and all matters will be handled from anchorage or another berth.

All shipboard work necessary for docking and loading, including but not limited to line handling and tending, opening and closing hatches, and normal deck cleanup, shall be done by the vessel's crew.

Any owner or charterer with more than one vessel awaiting turn to load may interchange his vessels, provided they are of comparable capacity (deadweight). Any interchange of turn must be arranged with and have the approval of Quebec Cartier Mining Company.

All weights shown on the Bill of Lading and/or Manifest will be the same as recorded on the weighing facilities of Quebec Cartier Mining Company.

The Port will be in operation 24 hours a day, 7 days a week; however, ore vessels will not be loaded on New Year's Day (1st January), and on Christmas Day (25th December), nor will they be loaded from 0800 hrs. Sunday to 1600 hrs. Sunday, nor during the same period on the following holidays: Good Friday; St. Jean Baptiste Day (24th June); Dominion Day (1st July); First Monday of August; Labour Day (First Monday of September); Thanksgiving (Second Monday of October).

Arrangements have been made so that loading operations will commence as soon as possible after the vessel's arrival at the loading berth.

Vessels which have completed discharging of grain and are to load Iron Ore should have ratguards fitted to all mooring lines at all times.

Vessels ordered to anchor, should do so in the recommended area as shown under Anchorage. Failure to do so may result in delays to vessels from being boarded by Port and Government Authorities.

Vessels arriving in ballast should insure they are in good trim for safe handling into the harbour, bearing in mind the loading rate, so as not to cause any delay in loading due to deballasting. However, should a vessel not be sufficiently ballasted at the time of proceeding into the harbour the Pilot may request further ballasting, depending on the prevailing weather conditions. If in doubt the Master should contact the Port Office by Radio Telephone.

Vessels should have main engines and deck machinery operable at all times when alongside the berth. Permission contrary to the above must be obtained from the Port Authority through the Agent.

Vessels usually dock port side to at Ore Berth.

Ore-Oil and OBO vessels having discharged petroleum products at last port and not in possession of a Gas Free Certificate by an independent chemist will advise accordingly in the 72 hour ETA, and arrangements will be made to have chemist available on arrival at vessel's expense.

General Instructions in Preparing Vessels' Holds to Accept Iron Ore.

Quebec Cartier's iron ore is a type of iron ore concentrate which weighs on the average 192 lb. per cubic foot, and stows at approximately 12-13 cubic feet per gross ton.

The iron ore contains an average moisture content from 1.5% to 2.3% and could sometimes in the Summer season be shipped at as high as 4%. The character of this ore is self draining. It will retain moisture up to about 1.5%, but all moisture over and above this will drain on compaction of the material, and also, if the ore is left for long periods in stock-pile or in the hold of a vessel, this drainage of moisture will sometimes leave a considerable quantity of water in the hold of the vessel, and could cause some inconvenience when discharging the cargo. For this reason all bilge strums or wells should be sounded regularly and pumped out at regular intervals so as to keep the bottom of the hold as dry as possible.

Quebec Cartier's iron ore is considerably abrasive, and could cause damage to bilge pumps. Masters of vessels are advised to cover all bilge strums or wells with burlap in a similar manner as when receiving a grain cargo in bulk; so as to permit a free flow of the water and retain the iron ore in the hold of the vessel.

All holds for the acceptance of this cargo should be clean prior to the arrival of the Vessel.

AGENT: Quebec Cartier Mining Company, Port Office, PO Box 1130, Port Cartier, P.Q. Canada. Tel. 768-2400. Telex: 011-8-6422.

PORT COLBORNE, Ontario: 42.52 N. 79.15 W.

Refer to "St. Lawrence Seaway" for important general information.
DOCUMENTS: All documentation carried out by Authorities in Montreal. Only when vessels have called at United States port after departing Montreal will any changes in documentation be necessary, which will consist of a United States Customs Clearance Certificate, to be available on board.

Immigration papers.
1 copy QS2 (Health Certificate).
3 Stores Lists.
Crew Personal Effects List.
Customs Clearance.
All of the above will have been stamped in Montreal.

PILOTAGE: Pilots available at Port Weller (upbound) and at Sarnia (downbound).
ANCHORAGE: In Lake Erie, beyond the 3-mile fairway buoy at entrance to Port Colborne Harbour.

No anchorage available outside those allocated by the St. Lawrence Seaway Authority, except those vessels waiting to unload at N.H.B. facilities only can moor temporarily on the inner breakwater West of the N.H.B. elevator with permission from the N.H.B. elevator manager.

RESTRICTIONS: Navigation season approximately from April 1st to December 31st. Channel depth 27 ft. dependent on Lake level.

MAX. SIZE: 730 ft. length, 75 ft. 6 in. beam, 26 ft. draft.

HEALTH: Pratique granted at Montreal.

TUGS: None available.

BERTHING: East Side Wharf: 2,600 ft. long, depth alongside 27 ft. West Side Wharf: 5,000 ft. long, depth alongside 15 to 27 ft. N.H.B. Elevator: 700 ft. long, depth alongside 22 ft.

MEDICAL: Local hospital at Port Colborne. All assistance available.

DENSITY: Fresh water.

FRESH WATER: Available at West Side Wharf.

FUEL: All grades available from oil company berths at West Side Wharf.

REPAIRS: Lay-up berth at West Side Wharf, 9.5 ft. – 13.5 ft. alongside. Local repair shops for boiler, engine and above deck repairs.

AUTHORITY: St. Lawrence Seaway Authority, Port Colborne.

PORT HAWKESBURY AND STRAIT OF CANSO, N.S. (See Plan)

PORT LIMITS: Port Hawkesbury and Mulgrave harbour limits are from a line joining Melford Point and Bear Head, and the Canso Causeway.

DOCUMENTS:

3 copies Crew Declaration, Form Y14 (IMCO Form 5 acceptable).
3 copies Store List, Form E1.
3 copies Immigration Crew List, Form IMM200.
3 copies Inward Report, Form A6.
2 copies Shipping Report, Form S1.
3 copies Outward Report, Form A6.
Completed Maritime Declaration of Health, Form QS2001.
Valid Derating Certificate.
International Vaccination Certificates for Crew Members.
Complete copy of Manifest for Goods to be Discharged in Canada.
Clearance from Last Port.

Tankers must be in possession of Canadian Compliance Certificate, valid for two years, or have arrangements made to receive one.

CANSO MARINE TRAFFIC REGULATING ZONE: A marine traffic regulation system is in operation for the area of the Strait of Canso, including Chedabucto Bay, St. George's Bay and the approaches thereto.

Vessels of 50,000 g.r.t. and over are required to apply for clearance to the traffic regulating centre not less than 24 hours before entering the waters designated as the Canso Marine Traffic Regulating Zone.

All other vessels of 65 ft. registered length and over are required to establish communication with the Eddy Point Marine Aids Centre 12 hours before entering the waters designated as the Canso Marine Traffic Regulating Zone.

Vessels requiring initial clearance to enter the Canso Marine Traffic Regulating Zone are required to make an application through a marine radio station to "Eddy Point Traffic" in the following form:

(a) Name of ship and call sign.
(b) Position of the ship.
(c) ETA at the limit of the zone.
(d) Ship's destination and last port.
(e) Ship's draft.
(f) Description and weight of pollutants carried.
(g) Pilotage requirements.
(h) Deficiencies in shipborne navigational aids, equipment and ship's machinery.

The Regulating Centre will give to any ship on request such information on traffic, weather, or other conditions as is known to the centre.

ICE: Ice Advisory and Shipping support Service is provided from mid-December to the end of the ice season. Information regarding ice conditions is broadcast regularly and special reports will be obtained on request from "Ice Halifax" through Halifax Radio (VCS).

Local reports are included in a routine information broadcast on VHF by "Eddy Point Traffic" at half hourly intervals.

Masters are cautioned that it may be necessary to remove certain buoys in Chedabucto Bay and the Strait of Canso during the ice season, and it is recommended that Masters request information on their deposition from "Eddy Point Traffic" prior to entering the Canso Marine Traffic Regulating Zone.

PILOTAGE: Pilotage is compulsory. Pilotage boarding stations:

Strait of Canso, Northern Approach: 45° 42′ 42″ N. 61° 29′ 12″ W.
Strait of Canso, Southern Approach: 45° 24′ 00″ N. 61° 01′ 00″ W.

Vessels must report by radio-telephone or radio-telegraph their ETA's to the Eddy Point Marine Aids Centre, 12 hours before the vessel's ETA. Time used must be GMT. ETA's must be confirmed or corrected not more than 8 hours later nor less than 4 hours prior to the new ETA.

Canso pilot boat guards Channel 14 whilst in the area of Chedabucto Bay approach and Channel 12 whilst in the area of St. George's Bay approach.

ANCHORAGES: In the interests of safe navigation, anchorage berths for vessels of 65 ft. registered length have been established.

Anchorages "A" to "F" are situated in Chedabucto Bay in water depths from 14 to 26 fathoms.

Anchorages "G" to "O" are situated in Inhabitants Bay in water depths from 5 to 8 fathoms.

HEALTH: Pratique will be granted on arrival at berth by boarding officers, but it is the Master's responsibility to report by radio all details of any sickness or death occurring during the voyage to "Quarantine Halifax".

MAX. SIZE: Tankers of 326,000 d.w.t. and larger can be accommodated. See also "Berthing".

RADIO: Halifax (VCS) continuous year round. 500, A2; 2,182, A3; 156.8; F3 also 4, 6, 8, 12, 16, 22 mHz bands.

Sydney (VCO) continuous year round. 500, A2; 2,182 A3, 156.8, F3.

Canso (VAX) continuous year round. 2,182, A3; 156.8, F3.

Grindstone, Magdalien Island (VCN) continuous year round. 500, A2; 2,182, A3; 156.8 F3.

Canso Locks (VAZ3) continuous during navigation season. 2,182, A3; 156.8, F3.

TUGS: Two tugs of 3,400 b.p.h. and 40-ton bollard pull operate in the area, these tugs are under contract to Gulf Oil Canada Limited and are available, operational conditions at their Ocean Terminal permitting, for use at other berths in the port subject to the terms of the United Kingdom Standard Towage conditions.

BERTHING: *Gulf Oil Canada Ltd., Ocean Terminal, Point Tupper:* Masters are required to establish communications with the terminal when within a distance of 35 miles of the terminal on HF Channel 16, using call-sign "Gulf Control".

Situated at Wright Point and is a "T"-shaped structure providing two berths for tankers. Outer berth No. 1, has accommodated vessels up to 357,000 d.w.t. and has a least depth of 100 ft., inner berth No. 2 can accommodate vessels up to 50,000 d.w.t. with a least depth of 75 ft.

Berth No. 1 is equipped with 8 hydraulically operated loading arms, each fitted with a speed-seal hydraulically operated manifold coupling.

Loading arm	*Coupling*	*Purpose*	*Rate*
11	16 in.	Mammoth tanker ballasting	25,000 b.p.h.
12	10 in.	Vessel bunker	10,000 b.p.h.
		Cargo bunker	10,000 b.p.h.
13	16 in.	Cargo bunker	25,000 b.p.h.
		Crude	25,000 b.p.h.
		Ballast discharge	25,000 b.p.h.
14	16 in.	Crude	25,000 b.p.h.
15	16 in.	Crude	25,000 b.p.h.
16	As No. 13		
17	As No. 12		
18	As No. 11		

Berth No. 1 is connected by 2–42 in. lines to the crude tank farm with an average pumping distance of 7,750 ft., tank base being at an elevation of 90 ft. No booster pumps are provided.

Berth No. 2 is equipped with six hydraulically operated loading arms each fitted with a speed seal hydraulically operated manifold coupling.

Loading arm	*Coupling*	*Purpose*	*Rate*
1	8 in.	Vessel bunker	2,500 b.p.h.
2	12 in.	Cargo bunker	12,000 b.p.h.
		Ballast discharge	25,000 b.p.h.
3	12 in.	As No. 2	
4	10 in.	Premium gasoline	10,000 b.p.h.
		Regular gasoline	10,000 b.p.h.
5		Naphtha	10,000 b.p.h.
5	10 in.	Stove oil	10,000 b.p.h.
		D-40	10,000 b.p.h.
		D-20X	10,000 b.p.h.
		D-25	10,000 b.p.h.
		Jet	10,000 b.p.h.
6	8 in.	Vessel bunker	2,500 b.p.h.

Product tanks are situated 3,920 ft. for bunker to 6,400 ft. for gasolines from the berth.

Vessels will be expected to berth with manifold blinds removed, sea valves sealed and locked, pumps and pipe-lines set ready to commence discharge of cargo or ballast immediately on connection of loading arms and on verification of the discharging/loading procedure between the Master or his delegate and the terminal's representative.

On termination of the cargo transfer, the vessel will be required to vacate the berth, if loading, on the completion of gauging, sampling and documentation; if discharging upon ballasting to a draft consistent with the weather conditions prevailing.

Suitably equipped vessels will be able to maintain VHF radio communication with the terminal control room during the cargo operation.

Fresh water and fuel are available for calling tankers on both berths.

A gangway will be provided on berth No. 1, but will require the assistance of ship's personnel in positioning the ladder, only in instances when the ship's superstructure or other obstruction prevent the use of the terminal's gangway should arrangements be made to use the ship's gangway.

Nova Scotia Forest Industries Wharf. Situated at Madden Point

and serves the pulp and paper manufacturing facility, the wharf is 425 ft. long, with dolphins extending a farther 100 ft. from each end of the wharf, depth alongside 26 ft. at low water. Fresh water available, bunkers not available.

Georgia Pacific Corporation Terminal. Situated at Point Tupper, this gypsum loading facility consists of a series of dolphins capable of mooring a ship over 700 ft. in length and has a min. depth of 32 ft. low water. Conveyor system from plant to centre of dolphins. No fuel oil or fresh water available.

Port Hawkesbury Department of Transport Wharf. Berthing length 50 ft., depth of water alongside 18 ft. No fresh water, no bunkers.

Mulgrave Department of Transport Wharf. Berthing length 940 ft., depth of water 18 to 25 ft. Used for wood pulp and general cargo loading/discharging rail tracks, fresh water available, fuel oil delivered by truck, no cranes or permanent hoist.

BALLAST: *Gulf Oil Canada Ltd.:* All ballast must be pumped ashore. Ballast receiving facilities are situated 5,250 ft. from the berths. Disposal of ballast water overside is strictly prohibited and any pollution of the Strait will result in heavy claims and fines. The terminal will in the case of an oil spill take such steps as may be deemed necessary to fight the pollution before it spreads. If the spill is due to faulty equipment or material on the vessel or to negligence on the part of the ship's personnel, the terminal shall be indemnified for any expense incurred in connection with the preventative action taken. No ballast is to be taken from the Strait unless required for the ship's clean permanent ballast system. Clean ballast for the cargo tanks will be by terminal pumps.

MEDICAL: Masters are required to give early advice to their Agent regarding medical and dental attention requirements, hospitalisation cases will be referred, Antigonish, 40 miles distant.

DENSITY: 1025. Influenced by Spring thaw run-off.

FRESH WATER: Available in limited quantities.

FUEL: Available, vessels requested to give 72 hours notice of requirement, quantity and specification.

CONSULS: See "Halifax".

REPAIRS: Breton Industrial and Marine perform hull and machinery repairs to vessels afloat. Radio and radar service is available locally, the vessel's Agent should receive early advice of repair requirements.

GANGWAY/DECK WATCHMEN: Usually ship's crew.

CUSTOMS ALLOWANCES:

Tobacco: 200 cigarettes or 50 cigars or 2 lb. tobacco per person per week. Wines/spirits: Total of 40 ounces per person over 21 years old.

Subsequent issues may be authorised to crew members of foreign vessels, but the max. quantity any crew member may hold at any time must not exceed 300 cigarettes, or 75 cigars, or three pounds of tobacco and 60 ounces wines/spirits.

Crew personal effects such as radios, tape recorders binoculars, etc., should be declared on manifest.

REPATRIATION: Crew changes and repatriation permitted.

AIRPORT: Regular services by Air Canada from Halifax International Airport 150 miles distance, and from Sydney Airport 90 miles distant. Charter flights by small aircraft can be arranged from Port Hawkesbury Airport to Halifax and Sydney.

SUPPLIES: Provisions and bonded stores can be supplied locally but Masters are advised that to avoid delays, their Agent should be notified prior to arrival on their requirements, particularly for deck and engine stores as these may have to be obtained from Halifax.

Laundry facilities are available and in order to expedite the service, Masters should request their Agent to have a representative to attend on arrival.

Supplies of stores will have to be conveyed to tankers at Gulf's Ocean Terminal by stores boat or barge.

TIME: GMT minus four hours. Last Sunday in April, clocks advanced one hour, last Sunday in October, clocks retarded one hour.

POLICE/AMBULANCE/FIRE: Police 625-2220; Ambulance 625-2929 or 625-1911; Fire 625-2838.

SHORE LEAVE: Permitted.

DEVELOPMENTS: Simultaneous with an announcement by Nova Scotia Refining Company of the construction of a 200,000 barrels per day refinery, the Nova Scotia Government announced the construction of a common-user oil terminal to be sited on the Mulgrave side of the Strait of Canso.

CANSO CAUSEWAY CANAL: Max. vessel dimensions, length 715 ft., width 75 ft., draft 28 ft., vessels with draft greater than 28 ft. and not more than 30 ft. may proceed through with special permission of the Canal Superintendent. Depth of water on the North and South approach mooring berth is 32 ft. During the months December to April Masters should consult with Ice Operations, Halifax, whether lock in operation.

POWELL RIVER, B.C.: 49.52 N. 124.33 W.

DOCUMENTS:

Customs Clearance from last port.
Manifest for goods to be off-loaded and "In Transit" cargo tonnage.
Duplicate Pratique for vessels arriving from ports other than U.S. ports.
Cdn. Immigration Crew List, (Imm. 200) required in triplicate.
Passenger List in triplicate.
Seamen's passports and I.D. cards should be available when arriving from sea.
Ship's Certificates.

PILOTAGE: Payment compulsory. Incoming ships take Pilot at Race Rocks, near Victoria. Pilotage District of British Columbia.

ANCHORAGE: No suitable anchorage is available in Powell River area. Vessels usually anchor in English Bay (Vancouver) or various anchorages Vancouver Island.

RESTRICTIONS: No linesmen available between 2359 hrs. and 0700 hrs. Except tankers who berth anytime.

MAX. SIZE: Up to 600 ft. LOA. 32 ft. draft. Tankers up to 615 ft. have berthed for discharging purposes (No. 2).

HEALTH: Duplicate pratique for first port of call. See also "Montreal".

RADAR/VHF: No radar. Pilots are in contact with tugs and mill office using VHF.

TUGS: Two tugs available, 300 to 350 h.p.

BERTHING: Berth No. 1 requires a tug when berthing only. Berth No. 2 Pilot's discretion. Accommodation: Channel depth 30–35 ft. LW. Three private piers; pier A with Berth No. 1, 500 ft. long, depth alongside 30 ft. LW, Berth No. 2, 482 ft. long, depth alongside 35 ft. LW; pier B with Berth No. 3, 300 ft. long, Berth No. 4, 400 ft. long, Berth No. 5, 130 ft. long, and Berth No. 6, 375 ft. long, depths alongside 30 ft. LW.

Three 10-ton elevators, one 6-ton travelling crane. Dock storage for 10,000 tons. The elevators are used for loading barges only.

STEVEDORES: None. Local longshoremen only. Supercargoes are sent from Vancouver to assist in loading vessels. Longshoremen are members of Papermakers' Union.

MEDICAL: Powell River General Hospital and port doctor available. Complete medical services provided.

TANKERS: Bunker oil supplied by company barges.

FRESH WATER: Unlimited supply, no charge.

FUEL: Fuel oil, diesel, and gasoline available.

GANGWAY/DECK WATCHMEN: On request.

OPENING/CLOSING HATCHES: By crew prior to arrival and departure.

CUSTOMS ALLOWANCES: 300 cigarettes, or 50 cigars, or 1 lb. tobacco on arrival. Issues every 7 days. 60 oz. or 2 cases beer on arrival. Issues every 7 days.

IDENTIFICATION CARDS: Keep available for inspection.

CONSULS: Available at Vancouver, B.C.

AIRPORT: 2 flights per day to Vancouver International Airport. 4 miles from docks. Charter flights available to Vancouver Island on request.

TIME: Pacific Standard Time.

HOLIDAYS: Union Contract. Usual holidays are New Year's Day, Easter Monday, Labour Day and Christmas Day, every second Sunday.

TELEPHONES: Ship's telephone available.

SERVICES: Most services arranged in Vancouver.

SHORE LEAVE: Permitted.

AGENT: Powell River Shipping Services Ltd., Box 74, Powell River B.C. Office, 483–4232.

PRESCOTT, Ontario: 43.44 N. 75.31 W.

For important General Information refer to "St. Lawrence Seaway".

DOCUMENTS: See "Montreal".

PILOTAGE: Arranged through Agents – Montreal.

ANCHORAGE: Seaway Anchorage.

MAX. SIZE: Up to 27 ft. draft.

HEALTH: See "Montreal".

RADIO: Seaway Stations.

REPAIRS: Minor repairs deck and engine room.
DRY DOCKS: Two small slipways for 150 ft. vessels.
AIRPORT: Two flights daily to Vancouver, B.C. Travelling time to airport about one hour.
TIME: Zone plus eight Pacific Standard Time. Last week in April to last week in October is Summer Time, clocks advanced one hour.
HOLIDAYS: New Year's Day (no work); Good Friday; Easter Monday; Queen's Birthday; Dominion Day; Labour Day (no work); Thanksgiving Day; Remembrance Day; Christmas Day (no work); Boxing Day (no work).
POLICE/AMBULANCE/FIRE: Police tel. 15; Fire tel. 10; Ambulance tel. 10.
TELEPHONE: Placed on board if required.
SERVICES: Compasses adjusted. No tank cleaning equipment or facilities for discharge of tank washings.
SHORE LEAVE: No restrictions.
AUTHORITY: National Harbours Board.

QUEBEC, P.Q.: 46.49 N. 71.12 W. **(See Plan)**

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists (cargo vessels).
8 Passenger Lists (passenger vessels).
3 Ship's Stores Lists.
3 Crew Declarations.
1 Maritime Declaration of Health.
1 Complete Manifest of cargo to be discharged in all Canadian Ports.
5 Manifest for local cargo.
No bills of lading required to Local Authorities.
PILOTAGE: On arrival at Anse-aux-Basques, a ship takes on board a Pilot of the Laurentian Pilotage Authority to bring the ship to Quebec. Pilotage and payment of dues are compulsory. Pilots board inbound vessels at Anse-aux-Basques. The Master of every ship inward bound in the Gulf of the St. Lawrence and destined for ports West of Anse-aux-Basques must report ETA to Pilots Montreal, via Marine Traffic Control on VHF radio Channel 14 or by other means of communication to Seven Islands Radio Station, giving any information Control may require.
A min. notice of 12 hours must be given. This notice must be confirmed 3 hours prior to arrival at the Pilot station.
Note: Pilot boats (2) and Pilot station keep watches on 2182 kc/s. and have VHF facilities, which are only used for local instructions from one to the other.
Pilot boats (2) in operation: Pilot No. 9 Canada and Pilot No. 10 Canada. Hull painted black, white superstructure. Pilot-jack welded on stack – all-steel vessels. Equipment: Radar – echo sounder – radio VHF/all frequencies. A.M. – all frequencies – electric whistle – loud hailer – searchlight.
Pilot station can either be raised by radiotelephone frequency 2182 kc/s. by morse lamp – semaphore – by just blowing the code letter G consecutively or displaying code flag G. Exact location of Pilot station Anse-aux-Basques, on North shore of St. Lawrence river. Lat. 48° 19.2′ N. Long. 69° 24.9′ W. Pilotage ground limits are rectangular distance of 2 miles from the station. In bad weather, pilot boats removed from station to more secure position and pilotage service held up until better conditions. Same procedure applies during severe ice conditions. Any changes regarding pilot boat service obtained through Marine Traffic Control.
Vessels using pilot boarding stations within St. Lawrence River – Seaway – Quebec Harbour – Lakehead, requested provide accommodation ladder. Landing platform of accommodation ladder should be 10 ft. above water.
Vessels arriving Anse-aux-Basques without having previously stated ETA Pilot station 12 hours in advance, or during such time as pilotage service held up for any reason, vessels normally proceed to anchorage off Ile-aux-Basques on Southern side of river, where good anchorage ground can be found. Further instructions will be given to Vessel by Marine Traffic Control or Pilot Station on VHF or 2182 kc/s.
ANCHORAGE: See "Pilotage".
Due to submarine cables and other submarine installations, anchoring in the harbour is prohibited without permission of the Harbour Master. Permission for anchoring is to be obtained through Marine Traffic Control Centre. The official anchorage area extends Southwestward from the fixed blue light on Queen's wharf Lat. 46° 48′ 34″ N., Long. 71° 12′ 12″ W. (10 anchorage posts).
RESTRICTIONS: Depth of water in 11 mile dredged channel. Channel dredged to 40 ft. to which depth add height of tide which, at times, may give extra 15 ft.
MAX. SIZE: No limit in length and breadth. Draft limited to 42 ft. Winter and 48 ft. in Summer.
HEALTH: Radio pratique obtained through Seven Islands by wireless. In case of reported suspected disease instructions will be given by wireless. When pratique granted, vessel automatically cleared for *all Canadian Ports.*
RADIO: Seven Islands: Call sign VCK. Quebec: Call sign VCC.
RADAR/VHF: Port radar service in operation. VHF Marine Traffic Control System in effect for area extending from meridian of Long. passing through Sept-Iles to upper limits of Montreal Harbour.

In order to take advantage of the Traffic Control System and avoid unnecessary delays, all vessels approaching Sept-Iles from seaward should be fitted with VHF set.

Control of VHF Channels shall be immediately available on bridge, convenient to conning position and such installation shall conform to requirements laid down in Radio Regulations for equipment used in VHF International Maritime Mobile Radiotelephone Service and be capable of operation on Channels: 16, 14, 13, 12, 11, 10, 9 and 6.

For vessels not provided with VHF equipment, portable VHF sets will be taken on board by Pilot. Rental charge for this service. Vessels approaching meridian of Long. passing through Sept-Iles from Eastwards should call Channel Quebec on 156.7 (Channel 14) for further instructions.

TUGS: Tugs join vessels in stream and use ship's lines.

4 tugs available, each equipped with radio-telephone. Two tugs of 4,200 h.p.; two tugs of 1,250 h.p.

BULK HANDLING FACILITIES:

See Table below.

Storage capacity – 8,000,000 bushels (240,000 short tons). Served by CN and CP railways.

A marine terminal facility on piers 50, 51 and 52 which include – three bridge towers with a loading capacity of 2,000 t.p.h., locomotive cranes to unload gondola cars, a track-mobile to shunt cars and other ground rolling stock to manipulate bulk material on paved pads, and two-way underground conveyor system to handle dry bulk cargoes at a present loading rate of 800 t.p.h. 2,000 ft. of dock frontage with a depth of at least 41 ft. at low tide and leased from NHB over 1 million sq. ft. of land and operating 13,500 ft. of trackage on property connected to CNR. Storage capacity of 7 million imperial gallons for any liquid products serviced by 10 in. marine pipe-lines and a 4-in. loading rack.

Container Berths

Anse-aux-Foulons: Direct access to Trans-Canada Highway without crossing the city. A direct rail access to Canadian Pacific Railways. Two container berths, length 1,282 ft., depth 37 ft. at low tide, 17 acre area.

C.P. Navigation: One 35-ton Paceco Vickers and one 40-ton Dominion Bridge portainer cranes, 8 straddle carriers, one 35-ton transtainer crane and 2 top lifters.

Beauport: Direct rail access to Canadian National. One container berth length 700 ft., depth 50 ft. at low tide, 28 acre area.

SABB Inc.: One 35-ton portainer, top handlers and fork lifts.

Roll-on/Roll-off Berths: One berth 962 ft.

Storage facilities: shed 27, 42,000 sq. ft.
shed 28, 50,000 sq. ft.
Open shed 27, 227,000 sq. ft.

CRANES: Floating crane 100 ton capacity, 75 mobile cranes up to 200 ton capacity.

STEVEDORES: Dead-line for orders: 1100–1600–2200 hrs. for periods starting 0800–1300–1900 hrs.; 1 hour required before deadline to order gangs.

Export:	Newsprint	22 to 35 t.p.h.
	Asbestos	22 to 26 t.p.h.
	Woodpulp	22 to 36 t.p.h.
	Linerboard	22 to 35 t.p.h.
Import:	General	15 to 25 t.p.h.
	Steel	26 to 75 t.p.h.

MEDICAL: No advance notice required for medical attention. Hospital facilities available. Every person who arrives in Canada from country other than United States, Alaska, Greenland, Iceland, Islands of St. Pierre and Miquelon, Bermuda, Cuba, Jamaica, Bahamas, Virgin Islands, Puerto Rico, Panama Canal Zone or Hawaiian Islands, shall furnish evidence of being immune from Smallpox.

TANKERS: No slop discharge facilities. Eight tanker berths. Depths from 37 ft. to 50 ft. See "Berthing".

DENSITY: Fresh water.

FRESH WATER: Available to all berths, provided directly from the Board's hydrants and hoses to vessels. Rate: St. Charles River piers, 20 t.p.h. Anse-aux-Foulons 50 t.p.h. with one line, and two lines 100 t.p.h.

FUEL: Available any berth by truck.

FIRE PRECAUTIONS: Only usual precautions; towing wire hanging overboard.

GANGWAY/DECK WATCHMEN: Watchmen at gangway not necessary, but could be obtained.

OPENING/CLOSING HATCHES: McGregor hatches must be opened by crew. All other cases recommended to be done by crew also, but stevedores would also under conditions specified in stevedoring contract.

SHIP'S CERTIFICATES: Load Line, Safety Equipment, Construction, Radio, Passengers, Cargo Gear, Derating.

CUSTOMS ALLOWANCE: Tobacco, 8 ozs. tobacco for eight days, cigarettes: 1 carton per eight days. Wine and/or Spirits, 40 ozs. only. Officers and Masters will have additional supply for entertainment daily on request to Customs.

REPATRIATION: All facilities for effecting crew changes and repatriation.

AIRPORT: 6 miles from city limits, served by regular airlines.

TIME: Eastern Standard Time GMT minus 5 hours. Daylight saving time from last week-end April to last week-end October, clocks advanced 1 hour.

Loading Berths

Elevator	Number of berths	Berth name	Length of berth	Depth of water	Number of belts	Max. hourly capacity each belt (short tons)	Number of spouts	Number of travelling loaders	Total max. hrly. capy. (short tons)
Bunge	1	28	840 ft.	35/37 ft.	4	660	20	4	2,640
,,	2	29	1,000 ft.	35 ft.	3	480	30		1,440

Unloading Berths

Elevator	Number of berths	Berth name	Length of berth	Depth of water	Number of legs	Max. hourly capacity of each leg (short tons)	Total max. capacity (short tons)
Bunge	1	18	800 ft.	35 ft.	2	1,080	2,160

HOLIDAYS: Longshoremen Official Holidays: Good Friday; Saint Jean Baptiste (June 24th); Confederation (July 1st); Labour Day (last Monday of September); Thanksgiving Day (beginning of October); Armistice Day (November 11th); Christmas Day. Cargo can be loaded or unloaded during each holiday except Labour Day.
POLICE/AMBULANCE/FIRE: Police (Harbour) 694–3645, City 694–6123, RCMP 694–3733; Ambulance 529–9221, 529–6811; Fire 694–6441.
TELEPHONES: No existing facilities for placing telephone on board.
TELEPHONE NUMBERS:

Port Warden, Captain J. P. Senterre	692–3853
Quarantine: Medical and Sick Mariners Service	694–3013
Manpower and Immigration	694–3513
Transport Canada – Marine Services:	
Regional Director: Jean Paul Godin	694–4158
District Manager: Jacques Clavelle	694–3420
Aids to Navigation: Lucien Cardinal	694–3574
Harbours and Property	694–3680
Marine Traffic Regulations: L. Misson	694–3884
Steamship Inspector Service	694–3237
Shipping Master: E. Lebars	694–3234
Laurentian Pilotage Authority: C. Bouchard	694–3358

SERVICE: Any services needed.
SHORE LEAVE: No restrictions.
DEVELOPMENTS: Extensive land reclamation work being carried out in the development of Beauport Flats will provide 1,500 acres of prime waterfront property for container and bulk-loading facilities. Work will commence shortly on the construction of a new berth (No. 55) at Beauport Flats, 1,200 ft. long with a depth of more than 50 ft. alongside. Beauport Flats are connected to the Metro-Quebec expressways scheduled for completion in 1977.
AUTHORITY: National Harbours Board.
AGENT: Shipping Limited. 140 Dalhousie Street, Quebec 2, P.Q. Telephone: (418) 692–0650 (24 hour service) Cables: "Bulko". Manager Mr. Bruno Lapointe.

ST. CATHERINES, Ontario: 43.11 N. 79.17 W.

Refer to "St. Lawrence Seaway" for important general information.
DOCUMENTS: See "Montreal".
HEALTH: See "Montreal".
PILOTAGE: Commences in lower St. Lawrence River and is continuous from district throughout Great Lakes. See "Quebec".
ANCHORAGES: Good anchorage areas at both ends of the Welland Canal.
MAX. SIZE: Max. size of vessel permitted in Welland Canal is LOA 730 ft. (222.51 m.), beam 75 ft. (23.15 m.), draft 26 ft. (7.92 m.).
HEALTH: Pratique granted in Montreal.
RADIO: Toronto Radio, Buffalo Radio.
TUGS: Tugs not generally used, but may be obtained from Hamilton or Toronto.
BRIDGES: Vessels are instructed by Traffic control on the transit of the Canal. Generally no delay for bridges.
MEDICAL: Medical and hospital facilities are available in emergencies.
TANKERS: There are limited berths suitable for small domestic tankers.
DENSITY: Fresh water.
FRESH WATER: None available except in emergency by tank wagon.
FUEL: Fuel may be obtained in Port Colborne from Shell, Esso, and St. Catherines Fuels.
DEVELOPMENTS: To eliminate the winding section of the Welland Canal which ran through the centre of the City of Welland, and to minimize delays to navigation, a new 8.3 mile section of canal, which by-passes the City of Welland, was opened in 1973. The new channel is almost straight and is both wider and deeper than the old section. Approximately 1 hour has been saved on a vessel's round trip transit time since the opening of the new channel.
GANGWAY/DECK WATCHMEN: At discretion of the Master.
CUSTOMS ALLOWANCES: See "Montreal".
IDENTIFICATION CARDS: Not needed.
CONSULS: No consuls.
REPAIRS: Deck and engine repairs are possible.
DRY DOCKS: Situated at Port Weller able to accommodate vessels, LOA 730 ft.
AIRPORT: International Airport at Toronto, 75 miles away.
TIME: GMT minus 5 hours. Daylight Saving Time when clocks advanced 1 hour usually 28th April and retarded 27th October.
POLICE/AMBULANCE/FIRE: St. Catherines – Fire 684–4311; Police 416–688–4111. Welland – Fire 734–4511; Police 416–735–7811. Port Colborne – Fire 834–4511.
SHORE LEAVE: Only when usual formalities are observed, e.g. Customs, Immigration, etc.
AUTHORITY: Director, Western Region, St. Lawrence Seaway Authority, St. Catherines.

SAINT JOHN, N.B.: 45.16 N. 66.03 W. (See Plan)

PORT LIMITS: A vessel is considered to be an "arrived vessel" when it comes alongside the pier.
DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
3 Sets Customs Documents.
3 Sets Health Documents.
6 Sets Cargo Manifests.
6 Sets Bills of Lading.
3 Sets Ship's Papers.
PILOTAGE: Compulsory. Pilots board at Harbour entrance within a radius of 8 miles from Partridge Island. Masters are reminded that it is essential to send ETA by radio directly to pilots' office and to ship's Agent, to avoid delay in waiting for Pilot. This ETA (in GMT and so stated) must be sent at least 3 hours before arrival. Any material change in ETA must be corrected as soon as possible. Pilot Office: Tel: 658 – 4864.
Pilots can be contacted on VHF Channel 16.
ANCHORAGE: If required, Harbour Master will designate an anchorage.
MAX. SIZE: Controlling depth in main channel is 30 ft. at LW. Vessels length and breadth unlimited. Also see "Tankers".
HEALTH: See "Montreal".
RADIO: VAR Saint John.
TUGS: Available and considered necessary for docking and undocking large ships. 2 tugs usually needed, both in and out.
BERTHING: 27 berths. All but 2 are deep-water berths with depths up to 35 ft. Dredging done each year to maintain depth. Due to rise and fall of tide, boatmen usually necessary for running lines and docking. All berths are tidal. Tidal range up to 28 ft.

N.H.B. Facilities:

Berth number (usual name)	*Wharf Length (ft.)*	*Remarks*
Pier No. 1	1,235

Pugsley Term. D	770	Shed Heated
Broad St. Wharf	900	Petroleum Berth

CRANES: Floating cranes of 65 short tons capacity.
MEDICAL: Hospital available, also Seaman's Clinic.
STEVEDORES: Stevedores required in morning must be ordered by 1600 hrs. preceding day, and stevedores required in afternoon must be ordered by 1100 hrs. same day.
TANKERS: Controlling depth in channel to tanker wharves at Courtenay Bay is 16 ft. LW. Max. draft of 40 ft. only available at Spring tides.
Canaport: Situated 6 miles from Saint John, 4,100 ft. offshore from Mispec Point. Tankers moor and sail at any time, day or night, at any stage of tide to a Mono-buoy, depth 120 ft. at LW. Underwater pipe-line, diameter 20 – 36 in. connected to terminal with 10 tanks each with capacity of 9 million gallons. There are 2 pumps with total capacity 2,000,000 g.p.h.
FRESH WATER: Available from pipe-lines throughout the docks.
FUEL: Fuel oil and diesel oil available. Diesel and bunker fuel can be delivered by pipe-line in Courtenay Bay, where vessels restricted to high water. Also delivered by barge and by truck to wharves.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Carried out by stevedores.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 50 cigars or 2 lb. tobacco per person over 16 years old.
Wines/Spirits: total of 40 ounces per person over 21 years old.
Subsequent issues may be authorised to Crew members of foreign vessels, but the max. quantity any Crew member may hold at any time must not exceed 300 cigarettes, 75 cigars, 3 lb. tobacco, and 60 ounces wines/spirits.
DEVELOPMENTS: *Forest Products Terminal:* Length 1,235 ft. depth at LW 36 ft. (formerly Navy Island berths 1a & 1b.).Under construction.
Rodney Container Terminal: Length 2,573 ft., depth at LW 40 ft. 2 cranes. Facility at present under construction.
IDENTIFICATION CARDS: Not required.
CONSULS:

Danish Vice-Consulate	Tel. 652-6990.

Sweden	,, 693-2613.

REPAIRS: Complete repair facilities and equipment available also salvage equipment.
DRY DOCKS: 2. One 1,150 ft. by 125 ft. by 53 ft. deep with 42 ft. of

Private facilities:

Berth	Length (ft.)	Depth at LW (ft.)	Utility and General Remarks
(1) Atlantic Sugar Refineries	475	30	2 cranes for bulk loading
(2) Irving Pulp and Paper Co.	900	22	Used for shipping bleached sulphite pulp and receiving fuel oil and sulphur. Can berth ship 350 ft. in length with draft of 22 ft.
(3) Dept. of Transport, Marine Agency Wharf	550	24	East-side, North of Pugsley Terminals
(4) Irving Oil Co. Ltd. Tanker Wharf		40	In Courtenay bay, capable of handling oil tankers up to 40 ft. draft.
(5) C.P. Rail Ferry Terminal	830	22	Used by SJ-Digby Ferry and auto carriers. This is a roll-on/roll-off facility
(6) MacMillan Rothesay Ltd.	460		This is a roll-on/roll-off facility for loading towed barges at low water the barges rest on a prepared bottom
(7) Cana Port			A floating buoy mooring owned by Irving Refining Ltd. – Cana Port can accommodate the largest tankers afloat

Grain handling Facilities:

Elevator	Capacity in bushels	Loading galleries at berths	Loading capacity bushels per hour	Remarks
(1) Canadian National Elevator (East-side)	500,000	Pugsley B	15,000	Length of conveyor galleries 1,865 ft.
(2) Canadian Pacific Elevator (West-side)	1,000,000	2-3-11-12	60,000	Elevators (2) and (3) are connected by galleries and grain can be transferred from one to the other
(3) National Harbours Board Elevator (West-side)	1,500,000	2-3-11-12	60,000	Combined length of conveyor galleries to berths 10,065 ft.

water over sills at high tide. Smaller one 440 ft. by 60 ft. by 34 ft. deep, 22 ft. water over sills at high tide.
REPATRIATION: Can be arranged.
AIRPORT: Regular services by Air Canada from airport 12 miles from harbour.
TIME: GMT minus 4 hours. In Summer, time is GMT minus 3 hours.
HOLIDAYS: New Year's Day; Good Friday; Queen's Birthday (May 20th); Dominion Day (July 1st); Labour Day; Thanksgiving Day; Remembrance Day (November 11th); Christmas Day. Cargo work can be arranged on any day except for Labour Day.
POLICE/AMBULANCE/FIRE: From waterfront through private telephone which answers only to the number 50.
TELEPHONES: If required can be placed on board. A telex can be placed on board vessels at Pier No. 1 if required. This is for container terminals only.
SERVICES: All services available including compass adjustment.
SHORE LEAVE: Crew allowed ashore.
PORT REGULATIONS: Half speed during fog or when passing a dredge or tow of barges.
AUTHORITY: National Harbours Board.

ST. JOHN'S, Newfoundland: 47.33 N. 52.40 W.

(See Plan)

DOCUMENTS:
Quarantine
Completed Declaration of Health (QSI).
Valid Derating Certificate.
International Vaccination Certificate against smallpox for all on board.
Customs
Crew Declarations (Y.14).
3 Ship's Stores (E.1).
Inward Report (A.6).
Complete copy of each Manifest for goods to be discharged in Canada.
Clearance from Last Port.
Immigration
2 Immigration Crew Lists (200).
2 Tally Sheets (201).
3 Passenger Manifests for passengers not disembarking.
Immigration Control Cards for each person.
PILOTAGE: Compulsory and necessary. Pilots picked up approx. 2 miles from Harbour entrance, 3 hours notice should be given through St. John's Marine Radio VON addressed "Pilots St. John's". Pilots also listen on VHF Channel 16 transmit and receive 156.6 Mc/s. Lights and sound signals international. Channel 11 for harbour operations. Pilot boat 50 ft. long, black hull, white top, modern design.
ANCHORAGE: No anchorages near harbour. Safe anchorage in harbour.
MAX. SIZE: No restrictions except draft 35 ft. max.
HEALTH: Pratique, cable name and nationality of ship, ports of call during voyage, nature of cargo, number of crew and passengers, port of destination and Agent, condition of health of all on board with details of any sickness, and whether all vaccinated. Also see "Montreal".
RADIO: St. John's Marine Radio, call sign VON duplex R/T on 2118 kc/s., 2206 kc/s, and 4110.8 kc/s.
TUGS: As required by Pilots. Normally ship's lines used. 2 small tugs available.

REPAIRS: Most deck and engine repairs can be carried out.
DRY DOCKS: 1 dry dock length 570 ft. width 76.5 ft. depth over sill 27 ft.
REPATRIATION: Crew changes and repatriation can be carried out with little difficulty.
AIRPORT: Distance 4 miles served by Air Canada 4 flights daily.
TIME: GMT less 3.5 hours. Last Sunday in April clocks advanced 1 hour. Last Sunday October clocks retarded 1 hour.
POLICE/AMBULANCE/FIRE: Police 722-5111; Ambulance 726-3037; Fire 722-1234. Emergency No. 911.
SERVICES: Compass adjusting, radar repairs, RT repairs, gyro compass repairs, all types electronic equipment repaired. Divers available for surveys and underwater repairs.
SHORE LEAVE: No Restrictions.
REGULATIONS: Fishing ships must advise of weekend arrival on Friday so that permit to take supplies can be obtained from Federal Dept. of Fisheries.
HOLIDAYS: New Year's Day; St. Patrick's Day; Good Friday; St. George's Day; Commonwealth Day; Discovery Day; Memorial Day; Orangemen's Day; Labour Day; Armistice Day; Christmas Day; Boxing Day.

Except for Easter and Christmas, the above holidays are normally taken on the nearest Monday to the festival date.
AUTHORITY: Port Manager, Harbours Board.
AGENTS: Blue Peter Steamships Ltd., PO Box 5758, St. John's. Tel. 726–2440 Area Code 709. Telex. 016–4510. Cables Bluepeter.

SARNIA, Ontario: 42.59 N. 82.25 W.

Refer to "St. Lawrence Seaway" for important general information.
DOCUMENTS: All documentation carried out by Authorities in Montreal. Only when vessels have called at United States port after departing Montreal will any changes in documentation be necessary, which will consist of a United States Customs Clearance Certificate, to be available on board.
Immigration Papers.
1 copy QS2 (Health Certificate).
3 Stores Lists.
Crew Personal Effects List.
Customs Clearance.
All of the above will have been stamped in Montreal.
RESTRICTIONS: Navigation season – ice forms about December 15th and breaks up about the middle of March. Vessels size restricted by Seaway locks.
MAX. SIZE: Length 730 ft., beam 75 ft. 6 in., draft 25 ft. 6 ins.
PILOTAGE: Notice of ETA should be given to Pilots at least 6 hours before arrival at Sarnia to avoid delays. Accommodation ladder should be rigged in readiness.
RADIO: Sarnia Radio, call sign VBE, communicate on either AM or FM radio telephone.
HEALTH: Pratique granted at Montreal.
BERTHING: Over 2 miles of water front including main wharves listed below:

C.N.R. – C.S.L. Dock, length 1,100 ft., depth alongside 23 ft.; Empire Hanna Coal Dock, length 700 ft., depth alongside 19 ft.; Elevator Dock, length 900 ft., depth alongside 24 ft.; Dept. of Transport Dock, length 1,045 ft., depth alongside 27 ft.; Dalton Fuels Ltd., length 590 ft., depth alongside 20 ft.; Imperial Oil Ltd., Dock A, length 592 ft., depth alongside 22 ft.; Dock B, length 326 ft., depth alongside 19 ft.; Dock C, length 610 ft., depth alongside 25 ft.; Dock E, length 600 ft., depth alongside 25 ft.; Polymer Corp. Dock, length 600 ft., depth alongside 21 ft.; Sun Oil Co. Dock, length 300 ft., depth alongside 22 ft.; Dow Chemical Co. Dock, length 300 ft., depth alongside 20 ft.; Canadian Oil Co. Dock, 1,500 ft., depth alongside 24 ft.
DENSITY: Fresh water.
MEDICAL: Hospital facilities at Sarnia. All assistance available.
FRESH WATER: Available at all berths.
FUEL: All grades available from Imperial Oil and Shell Co. berths.
REPAIRS: Hull, boiler and engine repairs can be effected. No dry docks.
AUTHORITY: Department of Transport.

SAULT STE. MARIE, Ontario: 46.28 N. 84.22 W.

Refer to "St. Lawrence Seaway" for important general information.
DOCUMENTS: See "Montreal".
PILOTAGE: River or local Pilots available on 6 hours notice. U.S. Corps of Engineers, Sault area operate and control St. Mary's River Falls Canal and regulate traffic through all locks in both cities.
HEALTH: Board of Health Officers can make a call to the ship.
RADIO: Good ship-to-shore telecommunication available through Department of Transport Radio Station, Canadian Pacific Telecommunications and Canadian National Telecommunications. United States Coast Guard maintain fully equipped Coast Guard Base and have radio communication for all frequencies in entire St. Mary's River and Harbour area; they are available immediately for information pertaining to shipping in area and movement of ships in River.
TUGS: Harbour tugs available when required, but prefer advance notice order avoid delays. In Sault Ste. Marie, Ontario tugs available.
BERTHING: Government dock, "L" shaped pier length 500 ft. on East side 18 ft. deep on South side, the river side, it is 356 ft. long, 20 ft. deep. This dock is used for discharging general cargo. No crane facilities for loading and unloading, unless ship's gear is used, mobile cranes have to be brought in. No tug required to berth or unberth a ship at this dock under normal weather conditions.

Algoma Central Railway Terminals Dock. A slip approximately 700 ft. long on East side 18 ft. 6 in. deep with inner 200 ft. having less than 16 ft. depth; South side this dock 350 ft. long with depth 16 ft. Used for aggregates, ores and materials. Tug required to berth or unberth at this slip.

Algoma Steel Corporation Dock. Situated above Canadian Canal with following berths available:
(a) Coal and ore dock with a combined length of 2800 ft.
(b) Commercial dock on West side of slip 400 ft. long.
(c) Limestone dock, "L"-shaped dock on West side 355 ft. long and on South side 450 ft. For loading finished steel.

All 3 Algoma Steel Corporation docks 21 ft. 6 in. deep. Only material consigned to or being shipped from Algoma Steel Corporation have access to these docks.

Seaway Pier: Northeast pier at Canadian Canal which could be used for berthing ships and also used occasionally to load or unload cargo into trucks. This pier approx. 500 ft. long and mobile lifting equipment could be utilised here if necessary. Depth of water 18 ft. Pier mostly used as tie-up for making minor repairs afloat, for medical purposes, or waiting for berth at Algoma Steel Corporation Dock. Berthing and unberthing carried out any time, Sundays and holidays with exception of extreme bad weather, high winds, or fog.
STEVEDORES: Available for loading and unloading at any berths in Sault Ste. Marie area.
FRESH WATER: Available either by hose or by pumper truck at any dock.
FUEL: Diesel bunkers available at any berths via tank trucks. No bunker "C" facilities available at Sault St. Marie, but can be obtained at Lime Island about 50 miles down river. This station is open during entire navigation season.
REPAIRS: Normal ship repairs are carried out on very short notice if required.
AUTHORITY: Dept. of Transport.
AGENT: The Algoma Steel Corporation, Marine Division.

SEPT ILES (Seven Islands) Quebec: 50.11 N. 66.23 W. **(See Plan)**

The city of Sept-Iles is located on the Northeast side of the Baie des Sept-Iles, a sheltered circular basin screened to seaward by 7 small islands on the North shore of the St. Lawrence River.
DOCUMENTS: The following inward papers are to be completed prior to arrival and presented to custom officer on boarding:

Health	QS-2001	Quarantine Form	in duplicate
Immigration	IMM-200	Crew List	in triplicate
Customs	A-6	Report Inward	in triplicate
Customs	Y-14	Crew Declaration	in triplicate
Customs	E-1	Ship's Stores	in triplicate

Clearance from last port
The above forms will be supplied by mail on request.
Note: On New Canadian or International Crew Lists, black pen or typewriter must be used. Blue is not acceptable.

Arrangements have been made so that loading can commence before customs entry has been completed, and customs outward papers will be completed so as not to interfere with immediate departure after completion of loading.
DOCKING MASTER: The use of a Docking Master is compulsory for Ore Carriers docking, shifting and leaving the dock. Docking

Master will board inside harbour limits in area of 50° 10′ N. and 66° 24′ W.

All vessels shall provide rope ladder for boarding Pilot on arrival and disembarking Pilot on departure. Ladder must be well secured by adequate lashings to rail or deck. Power hoists in good order and properly attended are acceptable for boarding. Vessels over 30,000 d.w.t. shall also provide accommodation ladder with rope ladder. The landing platform of the accommodation ladder should be approx. 20 ft. above water.

ANCHORAGE: Ships should anchor at least 1 mile off dock to facilitate ships movement in bay and should not proceed closer than 1 mile from dock while waiting for Docking Master to board. Vessels may be requested to shift anchorage if their position interferes with normal docking approaches.

MAX. SIZE: Iron Ore Co. Loading Dock (Old): length 850 ft., beam 130 ft., draft 43 ft. Iron Ore Co. Loading Dock (New): length 1,100 ft., beam 175 ft., draft 57 ft. Imperial Oil Dock: length 775 ft., draft 40 ft.

Vessels over 30,000 d.w.t. arriving in ballast to load ore cargoes are requested to present in accordance with the following recommended arrival drafts to insure safe handling procedures, keeping in mind indicated ship loading rates. These drafts are intended to mean minimum draft aft with normal vessel trim.

Summer Deadweight	*Recommended Arrival Drafts*
Under 30,000	4.0 m. to 4.6 m.
30,000 to 40,000	4.6 m. to 5.2 m.
40,000 to 60,000	4.9 m. to 5.8 m.
60,000 to 75,000	5.5 m. to 6.4 m.
75,000 to 100,000	6.1 m. to 7.3 m.
100,000 to 150,000	8.5 m. to 11.0 m.
150,000 to 200,000	11.0 m. to 13.0 m.
200,000 to 250,000	13.0 m. to 14.0 m.
250,000 and over	14 m. and over

Any vessels unable to meet these suggested drafts due to insufficient ballast capacity, anticipated deballasting problems, etc., should state this in 48 hours ETA, along with estimated deballasting time.

Usually ships berth port side to.

Ore Carriers:

Advising Arrival: Cable address "Iroccan" Sept-Iles. Please advise ETA 96 hours, 72 hours, 48 hours and 24 hours out, including in 96 hours ETA tonnage of cargo required.

Vessels sailing in ballast from Montreal, Sorel, Three Rivers or Quebec should send ETA on departure these ports with corrected ETA later if necessary.

Advise with 24 hour ETA probable ballast pumping time required on arrival. If any change in ETA or in ballast situation should occur after 24 hour ETA, it should be advised as soon as possible.

Ships inbound for Sept-Iles from seaward between 15th December and 15th April, should advise the Ice Operations Officer, Halifax, N.S., 36 hours prior to entering Cabot Strait, stating position, destination and ballast condition to facilitate the passing of information on conditions in the Gulf. Ships trading during this period should also avail themselves of the Canadian Government publication *Guidance to Merchant Ships Navigating in Ice in Canadian Waters.* Copies available on request.

The Marine Services office is equipped with VHF radio on 156.6 mHz (Channel 12) and should be called direct when ship in range. Office also equipped with 156.35 mHz (Channel 7-A). All vessels calling Sept-Iles for ore should be fitted with local VHF channels for efficient harbour communications. Those not so fitted may be provided temporary sets if their time at anchorage justifies. This expense will be for ship's account.

Docking Instructions: Ships are to request instructions 4 hours before arrival. These instructions will be given as promptly and concisely as conditions permit. However, we suggest all vessels re-check with VCK abeam of Corossol for further traffic.

Marine Services is set up to receive radio messages on 24 hour basis. Radio traffic by ships at anchor is permissible in Sept-Iles harbour area.

HEALTH: Radio Quebec for pratique during office hours and 24 hours before arrival. Address message "Quarantine Quebec" (Ships trading coastwise between Canada and United States consecutively and touching no other foreign port since last granted Canadian pratique are not required to comply with the above. Vessels granted American Duplicate Pratique are also exempt from this requirement.)

Ships arriving Sept-Iles Bay in Quarantine will be inspected by Health Officer at anchorage or on arrival alongside. Should officer board vessel at anchorage proper accommodation ladder must be provided.

Quarantine message should have the following information:

Name and nationality of vessel, port of departure, destination, health condition on board ship, number of crew and passengers, type of cargo or in ballast.

TUGS: Tug service is compulsory at Iron Ore Company docks and Wabash Mines Docks. Two tugs of 4,300 h.p. available.

Additional tug power is available from Port-Cartier when required. All communications between tugs and Pilots is by VHF. Tugs operate on 156.35 mHz for Sept-Iles movements, 156.9 for Pointe Noire.

All ships should be equipped with wire cable towing line with nylon pendant for tug use in undocking. Ships not so equipped will be provided with tug tow lines. Pilot to determine adequacy of ship's tow lines.

BERTHING:

N.H.B. – Facilities

Berth Number (usual name)	*Wharf length (ft.)*	*Depth at Low Water (ft.)*	*Remarks*
Pointe-aux-Basques	600	34	Small open section at East end of Shed No. 1
Shed No. 1			General cargo shed
Shed No. 2			General cargo shed West and behind Shed No. 1
Mgr. Blanche Wharf	900	23	General cargo berth. Also has docking facilities at the end of the Finger Pier, approx. 180 ft. with a draft of 27 ft. Docking on the end and the West side of pier only. Small open berth at upper end of pier
Town Wharf	546	—	Small coastal vessels Finger Pier also used for small cruising vessels and crafts
Pointe Noire Pier	—	—	Not to be used unless directed by Port officials

Private Facilities

Berth	*Length (ft.)*	*Depth at Low Water (ft.)*	*Utilisation and general remarks*
Wabush Dock	650	37	General cargo and mooring berth (East end). Total 1,600 ft. berthing
Terminal	950	37	Iron Ore loading berth (West end). Total 1,600 ft. berthing (Loading ore by means of 2 travelling boom conveyors. Total capacity 8,000 long t.p.h.)
Iron Ore Dock Terminal	800	34	Mooring and general cargo receiving berth (West)
Southeast Berth No. 1 Dock	800	38	Ore loading berth 2 travelling boom conveyors max. design capacity. Total berthing length 1,600 ft.
No. 2 Dock	900	60	Total effective mooring length approx. 1,600 ft. Two travelling shuttle boom loaders with 764 ft. of travel. Max. design capacity 7,500 long t.p.h. each
Imperial Oil Dock	300	40	Dolphins increase capacity for berthing

See also following information on The Ore Company berths. Vessels usually berth port-side alongside.

Number 1 Dock. 2,200 ft. (670 m.) dock divided into 3 berths. The Southeast or loading berth is 800 ft. (224 m.) in length and is fendered with large truck tyres mounted over the dock face. The adjoining 800 ft. (244 m.) mooring or waiting berth is also fendered with large truck tyres. The third and last section, 600 ft. (183 m.) in length, is a Government berth used for general cargo.

Dredged depth at the loading berth is 37 ft. (11.3 m.) at mean low water, 34 ft. (10.4 m.) at mooring berth. Designing depth at the government berth is 27 ft. (8.2 m.). At the loading berth, iron ore is loaded into vessels by means of 2 travelling boom conveyors with a max. design capacity of 4,000 metric t.p.h. each.

The distance from mean low water to loaders in horizontal

position is approx. 35 ft. (10.7 m.). Loaders can operate at an angle of up to 12 degrees from the horizontal. Vessels should present for loading with a maximum distance of 40 ft. (12.2 m.) from waterline to hatch coaming. Number 1 dock is fitted with bollards spaced at 50 ft. (15 m.) centres.

Number 2 Dock. Deepwater berth is located some 900 ft. (274 m.) Southeast of original dock and extends approx. 230 ft. (70 m.) further into bay. This single berth is open cell construction with 9 parallel cribs giving total berthing face of approx. 925 ft. (282 m.). A tenth transfer house crib, inset from dock face and a dolphin, both structures fitted with mooring winch and bollards, are located approx. 150 ft. (46 m.) and 350 ft. (107 m.) respectively from NW. corner of dock face. Two additional dolphins, also fitted with mooring winch and bollards, are situated in a line approx. 150 ft. (46 m.) inside dock face and approx. 100 ft. (30 m.) and 400 ft. (122 m.) from S.E. corner of dock. Dolphins are joined to main dock structure by catwalks. Total effective mooring length is approx. 1,600 ft. (488 m.). Cribs are fendered to waterline with triple sets of extra large truck tyres. Dredged depth is 60 ft. (18.0 m.) m.l.w. Dock is fitted with 2 travelling shuttle boom loaders with 764 ft. (233 m.) of available shiploader travel, and a maximum design capacity of 7,600 metric tons/hr. each. Number 2 Dock is fitted with bollards spaced at 100 ft. (30 m.) centres. Recommended maximum airdraft for this berth is 17.0 m.

Tidal characteristics neaps 5 ft. 06 in. (1.68 m.)
springs 11 ft. 00 in. (3.35 m.)

CRANES: Heavy-lift cranes available. Max. capacity 250 tons.
MEDICAL: Masters are requested to have seamen's smallpox vaccination certificates ready for inspection, also ship's deratisation certificate. Seamen who cannot produce a valid smallpox certificate may require vaccinating in special cases.

All crew members requiring medical attention should be available upon ship's arrival. Sick Mariners dues no longer apply for treatment of seamen. Agent will provide form of application to be given to doctor for crew members requiring medical attention.
TANKERS: Berth at Imperial Oil Dock. Max. draft 40 ft.
FRESH WATER: Can be supplied at the approx. rate of 35 t.p.h. Hose is available on the dock but ships' crew are required for connecting and disconnecting.
FUEL: Available on an emergency basis only at this time. All enquiries should be directed to BunkerEsso Montreal.
CUSTOMS ALLOWANCES: Each crew member is allowed to retain in his possession for his personal consumption 200 cigarettes, 40 ounces of spirits, 50 cigars or 2 pounds of pipe tobacco. All quantities must be declared on Crew Declaration form Y-14 along with all personal effects such as radios, cameras, tape recorders, binoculars, etc., plus serial numbers of each such item.
REPAIRS: Minor repairs can be effected at Sept-Iles. Repairs to be conducted under the supervision of ships' personnel.
TIME: Sept-Iles maintains Eastern Standard Time (GMT minus 5) from last Saturday in October until last Saturday in April. Eastern daylight time (GMT minus 4) is maintained the balance of the year.
SHORE LEAVE: Crew not allowed ashore until permission granted by the authorities.
GENERAL: Ships will be loaded in regular turn of vessels subject to cargo availability and providing they present with starting hatches open and do not have ballast pumping which will exceed expected loading time. This loading time should be calculated at the rate of 6,600 metric tons/hr. at dock No. 1 and 10,000 metric tons/hr. at dock No. 2.

For establishing turn of vessels, a ship will be considered "arrived" at the time of crossing line between Pointe au Corbeau and Pointe aux Basques.

Loading plans should be presented to the loading foreman on arrival.

Ore-Oil and OBO vessels having discharged petroleum products at last port must advise this in first ETA. If gas-free certificate not already granted by independent chemist, arrangements will be made by IOC Marine Services to have chemist attend. Expense for ship's account.

Ships will leave the loading dock immediately upon completion of cargo and secure for sea in the bay. If any delays occur on documentation, crew members missing, etc., ship will leave the dock and all matters will be handled from anchorage.

Present outlook for working hours, subject to change during the season, is as follows: 24-hour operation Sundays included. No work Christmas Day or New Year's Day.

Main engines are required for shifting. Vessels at the mooring dock will be given 30 minutes notice to prepare to shift before departure of loaded vessel. Vessels are requested to have main engine ready when alongside mooring and loading docks.

Permission contrary to the above must be obtained from the Iron Ore Company of Canada in writing.

Most supplies can be readily obtained at Sept-Iles. Quantity orders should be included in 48 hour ETA. Requests for bonded stores should be included in 96 hour ETA.

Garbage service available alongside on request.

Launch service is available on request through Marine Services, Channel 12.
AUTHORITY: National Harbours Board.

SHEET HARBOUR, N.S.: 44.50 N. 62.30 W.

DOCUMENTS: See "Montreal".
ICE: Open all year with aid of icebreaker during January, February and March. Ice forms about January 15th and breaks up between March 1st and 15th.
PILOTAGE: Compulsory. Pilot boards off Sheet Rock light.
ANCHORAGE: Anywhere in harbour in depths up to 10 fathoms.
MAX. SIZE: See "Berthing".
MEDICAL: Hospitals available.
RADIO: Ship-to-shore communications: through Halifax (VCS).
TUGS: None.
BERTHING: Wharf, berthing length 500 ft. depth low water 21 ft. No railroad or handling facilities on wharf. Small Dept. of Transport wharf 20 ft. depth low water.
STEVEDORES: Skilled labour available. Gangs consist of 20 men.
FRESH WATER: Available by hose from mill.
FUEL: None available.
REPAIRS: No facilities available.
AIRPORT: Halifax 75 miles.
TIME: GMT minus 5 hours in Summer. GMT minus 4 hours Winter.
AUTHORITY: Dept. of Transport.

SHIPPEGAN HARBOUR, N.B.: 47.45 N. 64.42 W.
CARAQUET HARBOUR: 47.48 N. 64.56 W.

DOCUMENTS: See "Montreal".
PILOTAGE: Approaching vessel hoists flag "G" and uses siren about 1 mile before reaching fairway buoy. Pilot boat motorised 45-ft. vessel, approaches on leeside. Approaching vessels wait for Pilot about a mile from fairway buoy.
ANCHORAGE: Good anchorage, usually by fairway buoy.
RESTRICTIONS: Entry possible night and day, good vision, lighted buoys and beacon lights.
MAX. SIZE: High tide: 23 ft. low tide: 17 ft. (At Shippegan, max. tide: 20 ft.).
HEALTH: See "Montreal".
RADIO: VCN Grindstone Radio and VCG Fox River.
TUGS: Not required for these ports.
BERTHING: Caraquet Wharf, 28 ft., Shippegan 25 ft.
MEDICAL: No notice required, hospital available, as required when conditions warrant.
FRESH WATER: Available.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per week per man. Wine/Spirits, Spirits allowed to officers. Beer to crew.
REPAIRS: Minor ship repairs and all electrical repairs.
TIME: Atlantic Standard Time GMT minus 4 hours, Daylight saving time from last week-end in April to last week-end in October, clocks advanced 1 hour.
AIRPORT: Moncton, 150 miles, Chatham, 70 miles.
POLICE/AMBULANCE/FIRE: *Caraquet,* Police RCMP 727-2828; Police Town, 727-3167; Fire, 727-2928; Hospital, 727-3435. *Shippegan:* Police, RCMP, 336-2310, Town, 336-2351. Hospital: 334 2261.

ANCHORAGE: At fairway buoy in depths of 30-35 ft.
MAX. SIZE: 550 ft. length, 50 ft. beam, 24 ft. draft.
HEALTH: Vessels coming from U.S.A. accepted without pratique. Vessel from other countries radio telephone for permission. See also "Montreal".
RADIO: Halifax N.S., Sydney N.S., Grindstone, M.I.
TUGS: None available.
STEVEDORES: 24 hours notice required.
MEDICAL: Hospital facilities available. Current vaccination/fever certificates required.
FRESH WATER: Available 30 t.p.h.
FUEL: Can be arranged if necessary.
OPENING/CLOSING HATCHES: Crew/Stevedores.
CUSTOMS ALLOWANCE: Tobacco: 1 carton per man per week. Wine/Spirits: Spirits 40 oz. per man per week. Further allowances made if Master requests.
IDENTIFICATION CARDS: Passports required.
REPAIRS: Only minor repairs.
REPATRIATION: Can be arranged.
AIRPORT: Charlottetown Airport 39 miles away.
TIME: Atlantic Standard Time with daylight saving in Summer.
HOLIDAYS: New Year's Day; Good Friday; Victoria Day (19th May); Dominion Day (1st July); Remembrance Day (11th November); Thanksgiving (13th October); Labour Day (1st September); Christmas Day. Plus all Saturday afternoons and Sundays.
POLICE/AMBULANCE/FIRE: Police 436-9222; Ambulance dial "O" call operator; Fire 436-3333.
TELEPHONES: Telephones can be placed on board.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: Leonce Arsenault, Wharfinger.

SYDNEY, N.S.: 46.09 N. 60.12 W.

DOCUMENTS:
Crew's Declaration Y.14 in triplicate.
Ship's Stores E.1 in triplicate.
Crew Tally IMM.201 in duplicate.
Report Inward A.6 in triplicate.
PILOTAGE: Pilots are obtainable inside Fairway Buoy, 46° 18′ N. 60° 08′ W. Vessels approaching Sydney requiring Pilot must report by radiotelegraph or radiotelephone, estimated time of arrival to District Supervisor of Pilots, North Sydney, Nova Scotia, at least 12 hours before vessel's ETA. The time should preferably be GMT. ETA's must be revised if necessary prior to arrival through VCO Marine Radio Sydney, or via any Coast Radio Station.
ANCHORAGES: South Arm and Northwest Arms (good holding ground 40 to 60 ft. depth).
RESTRICTIONS: Berthing allowed day or night. "Harbour Ice", January to March, "Drift Ice" April to May. Navigable with aid of ice breakers requested from Ice Control at Sydney.
MAX. SIZE: Max. draft 37 ft. Governed by least depth in channel of 38 ft. at low water.
HEALTH: Sydney is an official quarantine station. Radio pratique obtained between 0900 and 1700 hrs. local time by radio message to "Quarantine Sydney". Information required from vessel is as follows:
Name and nationality of vessel.
Name of three previous ports called at during voyage.
Port of destination and name of Agent.
Nature of cargo.
Date and place of last derating or exemption certificate.
Number of crew and passengers.
Condition of health of all on board with details of any sickness or death occurring during the voyage.
Vaccination status of crew and passengers.
The ETA and any other information that may be required by the quarantine officers.
The ship will require usual inspection on arrival. However, radio pratique will enable vessel to enter port, dock and commence loading or unloading operations prior to official quarantine clearance. Vessels which have not applied for radio pratique and all vessels with suspected infectious disease aboard will remain in quarantine until cleared.

STEVEDORES: Available.
MEDICAL: Two hospitals.
DENSITY: Average 1023.
FRESH WATER: Available from shore by hoses.
FUEL: Marine diesel, bunker fuel and galley fuels are obtainable by pipe-line at piers Nos. 2, 3 and 4. Rate of bunkering approximately 100 t.p.h.
GANGWAY/DECK WATCHMEN: Crew sufficient.
OPENING/CLOSING HATCHES: Crew.
CUSTOMS ALLOWANCE: 200 cigarettes or half a pound tobacco or 15 cigars, each officer. 40 oz. of spirit per officer.
IDENTIFICATION CARDS: Seaman's identity cards.
CONSULS.
British and Canadian Shipping Master.
Portugal Vice-Consul 794-3515.
Honorary French Consular Agent, North Sydney 794-4800.
Norwegian Vice-Consul, Sydney 564-9288.
REPAIRS: Floating repairs by Atlantic Springs Machine and Repair Company or Sydney Engineering and Drydock Company. Largest slipway 3,000 tons. Hull and engine repairs available.
REPATRIATION: Can be arranged.
AIRPORT: Served by Air Canada and Eastern Provincial Airways.
TIME: Sydney is on Atlantic Standard Time from the last Sunday in October to the last Sunday in April, and on Atlantic Daylight Time from the last Sunday in April to the last Sunday in October. GMT minus 4 hours on Atlantic Standard Time and GMT minus 3 hours on Atlantic Daylight Time.
HOLIDAYS: Christmas Day; New Year; Good Friday; Dominion Day; Thanksgiving Day; Labour Day. No work as a rule from 0800 to 0800 hrs. next day.
POLICE/AMBULANCE/FIRE: Police 564-4415; Ambulance 564-5507; Fire 539-3552.
SERVICES: Compass adjusting, tank cleaning.
SHORE LEAVE: Allowed.
AUTHORITY: Harbour Master.

TORONTO, Ontario: 43.40 N. 79.25 W. (See Plan)

For important general information refer to "St. Lawrence Seaway".
DOCUMENTS: Master should prepare for boarding of Customs, Immigration Officers:
Customs – Crew Declaration Lists (in triplicate) and Ship Store Lists (in triplicate).
Immigration – Crew List and Passenger List (in duplicate).
PILOTAGE: As required by Great Lakes Pilotage Authority.
ANCHORAGES: Vessels anchor in Humber Bay or in Inner Harbour. Anchorages allotted by the Harbour Master.
RESTRICTIONS: Vessels may enter port area at any time.
MAX. SIZE: The port has facilities to accommodate nearly any vessel which can navigate the St. Lawrence Seaway Locks.
Max. size of vessels permitted to transit the Seaway:
(a) Ships not exceeding 730 ft. overall and 75 ft. 6 in. extreme breadth may transit.
(b) Masts must not exceed 117 ft. above the water level.
(c) Max. draft 26 ft.
HEALTH: See "Montreal".
RADIO: Controlling radio station in the Toronto area is VBG Toronto. A port communications centre is located in the Harbour Master's Office and operated for emergency, safety and operational requirements. Ships entering Toronto Harbour should contact the Toronto Harbour Master's Office for information by radio telephone. Call sign XJF on frequencies:
156.8 mHz – Safety and Calling
156.6 mHz – Working
156.7 mHz – Alternate Working
TUGS: Not normally required but available. Tugs use ship's lines.
BRIDGES: Two bridges – Ship Channel Bridge and Keating Channel Bridge. Both lift bridges, no height restriction.
SPECIALISED CARGO HANDLING FACILITIES: The following companies offer berthage and storage for the bulk commodities indicated:
Liquid Chemicals. Allied Chemical Co., Domtar (no waterside storage tanks, trucked directly from vessel).
Coal. Valley Camp; Weaver Empire Fuels; Rochester & Pittsburg Coal Co.; Milnes Coal Co. Ltd.
Cement. Lake Ontario Cement, Canada Cement Lafarge.
Molasses. Canada West Indies Molasses.
Oil. Texaco, Imperial Oil, Sun Oil, Canadian Fuel Marketers, BP, Gulf, Shell, Roy-L Canadian Fuel, Milnes Fuel Oil, Caloil,
Salt. Canadian Salt Co., Sifto Salt, Iroquois Salt.
Chemicals. Domtar.
Sugar. Canada and Dominion Sugar Co.
Vegetable Oils. Drew Brown, Maple Leaf Mills, Victory Soya Mills.
Grain. Toronto Elevators Ltd., Victory Soya Mills; Canada Malting Ltd.
CRANES: Stationary dockside crane, capacity 300 short tons at Marine Terminal 51, floating crane 50 ton capacity and mobile crane 26 ton capacity available.
STEVEDORES: General rule is 24 hours notice.
To work ship at 1300 hrs., order gangs by 1030 hrs. the same day.
To work ship at 1800 hrs., order gangs by 1600 hrs. the same day.
To work ship at 0800 hrs., order gangs by 1530 hrs. previous day.
MEDICAL: Doctor and hospital facilities available.
TANKERS: Diameter of load/discharge lines are the American Standard 8 in. Max. draft at berths is 26 ft.
DENSITY: Fresh water.
FRESH WATER: Available at all berths.
FUEL: In most cases, vessels bunker in Montreal. Fuel available at 12 hours notice, either by road tanker or at oil berths.
Shipmaster's report: Fuel and lub-oils only delivered by road tankers and vessels are not allowed to bunker while alongside Redpath sugar berth. Bunkers not available on Sundays and holidays due to Department of Transportation regulations ruling that no trucks are allowed on highways those days.
GANGWAY/DECK WATCHMEN: Crew member or someone hired by Agent.
OPENING/CLOSING HATCHES: Carried out by stevedores.
CERTIFICATES:
Certificate of Registry.
Articles of Agreement.
Log Book.
Safety of Life at Sea.
Safety Equipment Certificate.
Safety Construction Certificate issued by the Country to which the ship is registered.
CUSTOMS ALLOWANCES: Tobacco, Crew entitlement on first arrival in Canada – 200 cigarettes, 50 cigars, 2 pounds of tobacco. Wine and/or Spirit, Crew entitlement on first arrival in Canada – 40 oz. of spirits, liquors or wines.
CARGO GEAR: Vessel requires a tackle equipment book and a certificate covering cargo equipment which must be kept up to date and notated every 12 months by a competent person. Port of Toronto has modern equipment including stationary Atlas crane, 300-ton capacity; mobile container crane designed for loading and unloading 20 ft. and 40 ft. containers; 56-ton overhead lift truck equipped with a 40 ft. spreader frame; and 50-ton floating crane.
IDENTIFICATION CARDS: Visitor passes available from port police office.
CONSULS:

Belgium	Germany	Norway
Brazil	Greece	Peru
Colombia	Guatemala	Portugal
Costa Rica	Israel	Spain
Cuba	Italy	Sweden
Denmark	Japan	Switzerland
Ecuador	Lebanon	Thailand
El Salvador	Mexico	Turkey
Finland	Netherlands	United States
France	Nicaragua	Yugoslavia

REPAIRS: Most repairs not requiring dry dock can be carried out in Toronto. Nearest dry dock is located at Port Weller, 30 miles distant.
REPATRIATION: All facilities.
AIRPORT: (1) Toronto Island Airport located at Western end of harbour. General aviation only with regular airlines.
(2) Toronto International Airport approximately 15 miles distant. Airport is served by nine regular airlines.
TIME: GMT minus 5 hours. Two alterations made to clocks during year (1) Last Sunday morning in April, Eastern Standard Time to Eastern Daylight Time 1 hour ahead. (2) Last Sunday morning in October, Daylight Time to Eastern Standard Time 1 hour back.
HOLIDAYS: Work can be arranged on any holiday at double time rate with the exception of Labour Day which is the first Monday in September of each year. No work is done on this day.
POLICE/AMBULANCE/FIRE: Emergency numbers as follows: Harbour Police 361–1111; Port Police 863–2140; Fire Department 363–2133 or 361–1111; Ambulance 361–1111.
TELEPHONES: Arrangements not available for placing telephones on board.
SHORE LEAVE: No restrictions.
AUTHORITY: The Toronto Harbour Commissioners.

TROIS RIVIERES, Quebec: 46.22 N. 72.34 W. (See Plan)

DOCUMENTS:
2 sets Crew Lists.
2 sets Passenger Lists.
3 sets Customs Documents.
3 copies Health Documents.
6 sets Manifests.
6 sets Bills of Lading.
3 sets Ship's Papers.
PILOTAGE: Pilots take charge of vessel at Quebec for Trois Rivieres destination. See "Quebec" for further information.
ANCHORAGES: No vessel shall, except in an emergency, anchor within the harbour without prior permission from the Port Manager and then only at such place as is assigned. The anchorage area used for Trois-Rivieres is located approximately 2 miles up river.
MAX. SIZE: Berths vary from 30 ft. to 35 ft. depth.
HEALTH: Trois-Rivieres is a Port of Entry. Port doctor at the service of vessels. See also "Montreal".
RADIO: St. Lawrence River Marine Traffic Control call system letters VBK Trois-Rivieres.

TUGS: Not needed. Pilot boat can be of service on special occasions.
BERTHING: 22 berths are available, including 12 open and 10 shedded, total 11,254 ft. Private wharves, 3 berths, total length 1,398 ft.

N.H.B. Facilities:

Berth number (usual name)	Wharf length (ft.)	Depth at Low Water (ft.)	Remarks
1A	500	30	Paper Loading Warehouse Loading — 1 and 2 total berthing length 900 ft. paper conveyor along front of sheds 1A and 2
1B

20	706	35	
Cap de la Madeleine 21	402	30	

Private Facilities:

Berth	Length (ft.)	Depth at Low Water (ft.)	Remarks
Canadian International			Receiving pipe-line for bunker oil
Paper Company's Wharf	744	30	Four 2.5-ton cranes for pulpwood

Grain Facilities:

Elevators	Capacity in bushels	Loading galleries at berth	Loading capacity bushels per hour	Remarks
No. 1	2,300,000	16	55,000	2 Marine legs at Berth 17 Unloading capacity 72,000 bushels per hour
No. 2	1,800,000			
No. 3	2,100,000			

CRANES: Mobile cranes up to capacity 140 tons available.
STEVEDORES: Stevedores at Trois-Rivieres are also Agents.
MEDICAL: If medical service is required upon arrival, call through No. 7 (St. Lawrence River Marine Traffic Control System). Port doctor. Hospital facilities available.
TANKERS: Diameter of oil lines 8 in. and 12 in. No slop discharge facilities. 7 tanker berths – 5 for 30 ft. draft and 2 for 35 ft. draft.
FRESH WATER: Hoses connected to harbour hydrants; 20 t.p.h.
FUEL: All grades available.
GANGWAY/DECK WATCHMEN: Not necessary except if dangerous cargo on board.
OPENING/CLOSING HATCHES: Carried out by stevedores.
CUSTOMS ALLOWANCE: 200 cigarettes each and/or 2 lb. tobacco. Wine and/or Spirits: One bottle each.
IDENTIFICATION CARDS: Seamen's card and/or passport.
CONSULS: At Montreal.
REPAIRS: Minor repairs done by local machine shops.
REPATRIATION: Can be arranged.
TIME: EDST from last Sunday of April to last Sunday of October, then normal EST.
AIRPORT: 5 miles distant. No scheduled flights.
HOLIDAYS: New Year's Day; Easter Monday; Confederation Day; Thanksgiving Day; Christmas Day; Good Friday; Queen's Birthday; Labour Day; Remembrance Day. One Civic Holiday taken June 24th.
POLICE/AMBULANCE/FIRE: Police and Fire 374–3535; Ambulance 375–6456 and 374–6225; Poison Treatment 374–6211.
SERVICES: Compass adjusting only.
SHORE LEAVE: Members allowed ashore.
AUTHORITY: National Harbours Board.
AGENT: Malone Maritime Agency Ltd., 2 Rue de Forgef, Trois Rivieres, P.Q. Canada. Cables, "Malone", Tel. 379–2854. Telex 05–837131.

VANCOUVER, B.C.: 49.17 N. 123.07 W. (See Plan)

PORT LIMITS: The seaward boundary of the inner port within which a vessel is considered to be an "arrived vessel" is a line drawn between Port Atkinson and Port Grey at the entrance to English Bay. The seaward boundary of the outer port is running North-South between the North Arm of the Fraser River and the International Boundary and being 5 miles offshore in the Straits of Georgia.
DOCUMENTS: Master to keep Pilots, Victoria, advised of ETA Pilot station. Agent concerned forwards blank Canadian Crew List and Immigration Forms together with port instructions to Pilot. Forms should be completed by Master for presentation to Customs and Immigration on arrival.
Immigration Authorities require 2 sets of Immigration Forms, Canadian Customs require 3 copies list of Bonded Stores and 3 copies Crew Personal Declaration Forms.
A vessel proceeding to B.C. outports (i.e. Port Alberni, Prince Rupert, Tasu, Kitimat), which does not require Pilot at Fairway Buoy, Victoria, may apply Quarantine Victoria for permission to proceed direct. Where such permission has been granted Master to notify Agent concerned.
PILOTAGE: Compulsory. Pilot station at Victoria, B.C., equippefwith VHF radio telephone and watch maintained on both Channels 16 and 17. No designated anchorage for vessels requiring Pilot. Normal method of boarding is by pilot ladder (no boat-rope), but under favourable conditions accommodation ladder may be used.
ANCHORAGE: There are 25 designated anchorages in the port which are available during periods of congestion. 18 in English Bay, 5 in main harbour and 2 above Second Narrows. Main Harbour anchorages reserved mainly for vessels awaiting berths or tides. Those outside mainly reserved for vessels expecting long waits. Main Harbour anchorages range from 9 to 21 fathoms and English Bay anchorage from 8 to 16 fathoms. Largest vessels using and expected to use Vancouver Harbour can be accommodated at all anchorages. Holding ground is good and anchorages are protected. Requests for permission to anchor must be made to the Harbour Master. Requests may be made through the First Narrows Signal Station.
RESTRICTIONS: Vessels enter harbour night and day. Low-water depth in First Narrows (harbour entrance) is 50 ft. Vessels bound above Second Narrows are restricted to high water to 1 hour after, inbound; and from 1 hour before high water to high water, outbound.
MAX. SIZE: Berthing for vessels up to 150,000 d.w.t. and draft up to 60 ft. at Roberts Bank.
HEALTH: Vessels inbound from a foreign port: Agent notifies quarantine station, Victoria, giving name, ETA Pilot station, where bound from and where bound to. Vessel arriving from Fiji, Australia, New Zealand, Honolulu, United Kingdom or Balboa, C.Z., may radio Victoria Quarantine Station requesting Radio Pratique and may proceed direct to her destination, where will be boarded by quarantine officials on arrival alongside. Free pratique granted only to vessels coming from the U.S. with duplicate pratique; same rule applies to vessels proceeding from B.C. to U.S. ports, where duplicate pratique is issued, prior to arrival, same being brought on board by quarantine doctor at Pilot station, Victoria.
Advise Quarantine Station, Victoria, in event of suspected contagious disease on board.
RADIO: VAI/Vancouver Coast Guard Radio.
VHF: VAS/Vancouver Traffic located just North of the First Narrows Bridge. Manned 24 hours per day. Pilots on radio/telephone contact with Vancouver Traffic at all times. Vessels normally communicate on Chanel 12 from Iona Jetty/Cape Roger Curtis inwards. Other frequencies available for communication are 16, 6, 14 and 11.
RADAR: Vancouver Traffic continuous radar surveillance from Point Grey/Point Atkinson inward Second Narrows. Anchorage assistance available.
TUGS: Meet vessels East of First Narrows and off berth. Ship's lines are used. Pilots communicate with tugs by VHF Channel 11 or Channel 6.

N.H.B. Facilities:

Berth number (usual name)	Wharf length (ft.)	Depth alongside at LW (ft.)	Remarks
Pier B-C	2,100	26-36	General cargo – passengers
Centennial Pier (Gen.)	3,127	33-40	General Cargo
Centennial Pier (Container Term.)			
Berth 6	687	40	Containers heavy lifts
Ballantyne Pier	2,610	30-40	General cargo – grain
Seaboard Terminal	1,898	40	Forest products
Neptune Terminals	2,100	48	Bulk loading – A-frame – 2 silos
Roberts Bank	900	65	Dual – quadrant shiploader – 6,000 t.p.h.
Lynnterm	2,400	50	General cargo – bulk steel and forest products
Vanterm	4,230	30–50	Container Terminal and General cargo

Private Facilities:

Berth	Length (ft.)	Depth alongside at LW (ft.)	Utility and general remarks
Pier A1		30	Railway and truck barge loading
Canadian National Pier	2,000	20–30	Outside storage, 69,380 sq. ft.
Burlington Northern Dock	600	30	Coastal traffic
B.C. Sugar Dock	425	30	Bulk sugar imports
Terminal Dock	2,010	33	Outside storage, 365,000 sq. ft.
Pacific Coast Bulk Terminals	1,265	38	3 A-frame sheds for coal, sulphur and potash
Hooker Chemicals Dock	500	35	Loading pipe-line for bulk barges – outside storage
Cassier Asbestos Dock	955	33	General cargo – coastal
Vancouver Wharves	2,456	35 2 berths 40 2 berths	A-frame bldgs for potash, sulphur and ores – 2 silos – transit shed

Grain Facilities:

Elevator No.	Capacity in bushels	Loading galleries at berths	Loading capacity bushels per hour
U.G.G.	3.6 m.	1	40,000
Pacific	7.0 m.	1	90,000
Alberta Wheat Pool	7.0 m.	1	72,000
Saskatchewan Wheat Pool	5.0 m.	1	108,000
Burrard Terminals	1.5 m.	1	30,000

SPECIALISED CARGO HANDLING FACILITIES: There are 12 berths equipped for loading grain; depths vary from 28 ft. to 50 ft. at low water. The port has three specialised coal berths – Neptune Terminals, Pacific Coast Bulk and Westshore Terminals. Bulk sulphur, potash and ores are handled at Vancouver Wharves, Pacific Coast Bulk Terminals and Neptune Terminals (not sulphur). One container berth is located at Centennial Pier, length 687 ft., depth 40 ft. at low water, back-up area 15 acres; it is equipped with one "STARPORTER" container crane. Two container berths are located at Vanterm, length 900 ft. each, depth 50 ft. at L.W. Back up area of 76 acres. It is equipped with two high speed 40 ton container cranes. LPG is handled at a specially equipped berth at the Trans Mountain Oil Dock.

Forest products terminal opened with 3 berths, 50-acre lumber assembly area, and large shed for plywood storage.

CRANES: Fixed crane capacity 300 tons, floating cranes, 45, 75 and 100 tons and mobile cranes of 150 and 250 tons available.

STEVEDORES: Gangs normally ordered day before ship's arrival, can be ordered same day for afternoon or evening work.

MEDICAL: All services available.

DENSITY: Density varies in different sections of harbour, according to times of year.

FRESH WATER: Laid on at berths. Hose supplied. Delivery 25 t.p.h.

FUEL: Fuel and diesel oil in any quantity available to ships at oil company's wharves, or delivered by tank barge alongside. Gulf Co., Home Oil Oil Co., Imperial Oil Co., Shell Oil Co., Texaco Canada Ltd., and Standard Oil Co. of B.C. have stocks of bunker fuel oil, intermediate diesel oils, and light and medium marine diesel oils.

FIRE PRECAUTIONS: All vessels carrying dangerous materials to have suitable towing wires over offshore bow and offshore quarter.

CONSULS: All major countries represented in Vancouver.

GANGWAY/DECK WATCHMEN: If required, employment arranged through Agent.

OPENING/CLOSING HATCHES: Normally carried out by stevedores, except in cases of bulk carriers.

REPAIRS: All types of engine and deck repairs.

DRY DOCKS: Available. Max. capacity 12,000 tons.

AIRPORT: Half hour from Vancouver International Airport.

TIME: Pacific Standard Time GMT minus 8 hours. Clocks will be adjusted to Summer Time (plus 1 hour) when advised.

HOLIDAYS: New Year's Day*; Good Friday; Easter Monday; Victoria Day; Dominion Day; Labour Day*; Thanksgiving Day; Remembrance Day; Christmas Day*; Boxing Day*.

*No cargo work these days.

POLICE/AMBULANCE/FIRE: Police 684–7111; Ambulance 879–4511; Fire Vancouver FI–1234; Air-Sea Rescue 732–4272; Harbour Board Police 689–3441.

TELEPHONES: Are placed on board vessels at all berths.

GENERAL: Vessels not permitted pump bilges or discharge oil, contaminated ballast or galley refuse into water. Every vessel boarded on arrival by Harbour Patrol Personnel and furnished with applicable excerpts from Harbour by-laws.

SERVICES: Stevedore companies equipped with tank cleaning equipment. Sludge barge available. Services of compass adjuster may be obtained.

SHORE LEAVE: No restrictions, but Immigration will advise of any special circumstances where restrictions might be enforced.

AUTHORITY: National Harbours Board.

VICTORIA, B.C.: 48.25 N. 123.22 W.

DOCUMENTS: See Vancouver".

PILOTAGE: Pilots embark at Victoria for all British Columbia ports. Pilot station within 2 mile radius of buoy in position 48° 22' 45" N. 123° 24' 56" W. Radio Pilots Victoria through radio station VAK giving ETA not less than 6 hours in advance.

ANCHORAGE:

"A" 48° 23' 46" N., 123° 26' 58" W.
"B" 48° 24' 09" N., 123° 27' 36" W.
"C" 48° 24' 14" N., 123° 26' 43" W.
"D" 48° 24' 24" N., 123° 25' 54" W.
"E" 48° 24' 44" N., 123° 26' 37" W.
"F" 48° 24' 54" N., 123° 26' 00" W.

Anchor berths "A", "C" and "D" have a swinging radius of 1,500 ft. and "B", "E" and "F" 1,200 ft.

HEALTH: Quarantine Officials board with the Pilot. Advise Agent of ETA.

RESTRICTIONS: Outer Harbour: depth 35 ft. MLLW. Inner harbour: depth 21 ft. MLLW. Largest vessel to use the port, length 575 ft. draft 34 ft.

RADIO: King Boos.

VHF: Pilot station. VAK.

TUGS: Available.

BERTHING:

Berth	Length (ft.)	Depth (ft.)	Remarks
Ogden Point "A" N. Side	800	35	For handling lumber, pulp, paper, plywood and general cargo. Fresh water available at 20 t.p.h.
Ogden Point "A" S. Side	1000	35	
Ogden Point "B" N. Side	800	35-40	Grain loading facility on North side. Capacity of elevator 1,040,000 bushels. Loading rate 35,000 b.p.h. No facilities for discharging grain. Fresh water available at 900 short t.p.h.
Ogden Point "B" S. Side	800	33-35	The South side is used for loading lumber. Fresh water available at 20 t.p.h.

STEVEDORES: 13 gangs available. Refer "Vancouver" for holidays, etc., arranged by Agent.

MEDICAL: Doctors and hospital facilities available.

DENSITY: Salt water.

FRESH WATER: Available at wharves.

FUEL: Supplied by barge from Vancouver.

CONSULS: Norway.

CUSTOMS ALLOWANCES: See "Vancouver".

SURVEYORS: Lloyds at Vancouver.

GANGWAY/DECK WATCHMEN: Crew are required to act as deck watchmen.

OPENING/CLOSING HATCHES: By crew or stevedores.

CARGO GEAR: Ship's gear.

REPATRIATION: Possible, arranged by Agent.

AIRPORT: International Airport 19 miles from Victoria.

HOLIDAYS: 11 statutory holidays, however work can be arranged.

POLICE/AMBULANCE/FIRE: Available at dockside 24 hours a day.

REPAIRS: All repairs facilities available.

DRY DOCK: At Esquimalt: Length 1,173 ft.; breadth 125.6 ft.; depth 49.5 ft.

TELEPHONES: Can be arranged through Agent.

SERVICES: Compass adjusting possible.

SHORE LEAVE: Allowed.

IDENTIFICATION CARDS: Seamans' book sufficient.

AUTHORITY: Dept. of Transport, Harbour Master.

AGENT: King Bros. Ltd., P.O. 577, Langley St., Victoria. Tel. 384–1174 and 383–1653. Telex: 044–8319. Cables: "Kibro Victoria".

WEYMOUTH, N.S.: 44.27 N. 66.01 W.

DOCUMENTS:

3 Crew Lists.
3 Passenger Lists.
3 Customs Documents.
3 Health Documents.
3 Manifests.
Ship's Papers.

PILOTAGE: Ship's Agent contacts vessel through Marine Radio Station, Yarmouth and notifies Pilot, who will then be on lookout. Ship gives standard whistle signal for Pilot, who boards about 2 hours before high tide. In meantime, ship should ride at anchor about quarter mile N.W. of Fairway Buoy. No special pilot boat. Boat used for Pilot is 35 ft. fishing boat.

ANCHORAGE: Good safe anchorage outside harbour in 33 ft. over mud. Also quarter mile N.W. of Fairway buoy.

MAX. SIZE: Max. length permissible 375 ft. Breadth, no limit. Draft, approx. 26 ft. of water at high tide.

TUGS: No tugs required. The fishing-boat will run lines to wharf if required.

BERTHING: North Weymouth, L-shaped wharf 280 ft. in length, and leg 40 ft. width. Depth alongside 9 ft. low water.

STEVEDORES: Available. Experienced loading lumber and pulpwood.
MEDICAL: Hospital: at Digby, 20 miles distant. Ambulance can be arranged.
FRESH WATER: Available; delivery by truck.
DEVELOPMENTS: Redredging of channel in near future. Dates not finalised.
GANGWAY/DECK WATCHMEN: No watchmen necessary.
TIME: Eastern Standard Time GMT minus 5 hours. Daylight saving time from last week-end in April to last week-end in October, clocks advanced 1 hour.
POLICE/AMBULANCE/FIRE: Police 245–4162; Ambulance 245–2205; Fire 837–5142.
TELEPHONE: No arrangement for placing telephones on board ship. Telephone available near dock.
AUTHORITY: Dept. of Transport, Harbour Master.

WINDSOR, Ontario: 42.19 N. 83.03 W.

For important general information refer to "St. Lawrence Seaway".
DOCUMENTS:
Sanitary Health Certificate – fixed on outside of container for agriculture plant protection. 1 paper affixed to each container.
Meat locker Certificate.
Quarantine Certificate.
3 Crew Lists.
3 Passenger Lists.
3 Stores Lists.
Manifest – 3 A.6 – 2 A.6 out.
Bill of Lading.
Valid Smallpox Certificates.
PILOTAGE: Pilots board ships at Sarnia Eastbound and Port Weller Westbound.
ANCHORAGES: Windsor Harbour Anchorage lies approximately half mile North of Fighting Island marked by 4 white buoys, showing flashing white lights, an area of 800 ft. wide and 0.75 of a mile long. Depth of 5.5 to 6 fathoms.
MAX. SIZE: Can handle any ship the seaway passes. No tide.
HEALTH: In the case of vessels arriving via the St. Lawrence River radio pratique may be obtained from Quarantine Quebec. See also "Montreal".
RADIO: WFS Detroit Marine Radio.
RADAR/VHF: No radar service. Harbour Master may be contacted on VHF Channel 16.
TUGS: Only on rare occasions is tug necessary.
STEVEDORES: Advice as to number of gangs should be received no later than 1600 hrs. on day preceding.
MEDICAL: Four hospitals.
TANKERS:

British American; hoses	= 8 in. Max. depth 19 ft.
Shell Canada; hoses	= 8 in. Max. depth 19 ft.
Petrofina; hoses	= 8 in. Max. depth 22 ft.
Imperial Oil; hoses	= 8 in. Max. depth 18 ft.
Sterling Fuels; hoses	= 14 in. & 10 in. Max. depth 27 ft.

Slop tanks available – Sterling Fuels only.
DENSITY: No tide, the water is fresh.
FRESH WATER: Tank truck delivery.
FUEL: Tank truck delivery. All grades – 24 hours notice. Coal bunkering dock available 24 hours per day. No notice.
FIRE PRECAUTIONS: Fire Dept. requires man at tank installations ashore while pumping, also notify Fire Dept. re any spillage.
GANGWAY/DECK WATCHMEN: Not required, but can be supplied.
OPENING/CLOSING HATCHES: Normally done by the stevedoring company.
CUSTOMS ALLOWANCE: See "Montreal".
IDENTIFICATION CARDS: I.D. cards should be carried.
CONSULS: U.S. Consul, tel. 253–5203. Italian Consul, tel. 256–0092.
REPAIRS: All repairs above water can be carried out.
AIRPORT: Windsor Airport approximately 5 miles. Regular flights 7 days a week by Air Canada.
TIME: GMT minus 5 hours from October to April. DST subject to local vote.
HOLIDAYS: The following are the legally observed holidays; however, vessels will be worked on these days at prevailing rates: Christmas, New Year, Good Friday, Victoria Day, Dominion Day. Civic Holiday, Labour Day, Thanksgiving and Veteran's Day.
POLICE/AMBULANCE/FIRE: Police 253–4211; Fire 254–2881; Ambulance 945–2391.
TELEPHONES: Phones can be placed on board.
GENERAL: Fluctuation of water level; high Westerly wind drops water level. Detroit River Light should be contacted for water gauge on VHF 16 for upbound ships, and Belle Isle Coast Guard Stations on VHF 16 for downbound ships.
SERVICES: Tank truck available for tank-washings, also radio telephone and radar service. Compass adjustor not available.
SHORE LEAVE: No restrictions on shore leave.
AUTHORITY: Port of Windsor, Windsor Harbour Commission.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Canary Islands

ARRECIFE: 28.57 N. 13.33 W.

PILOTAGE: Pilot meets vessel 1,000 m. off the port.
Minor port of island of Lanzarote. Port situated to the South of the town, and consists of 3 moles:
Muelle Viejo: 200 m. long.
Muelle Pesquero de Naos: 300 m. long.
Muelle los Marmoles: 700 m. long.
The first 2 quays named above are both suitable for fishing vessels. Muelle los Marmoles is the principal berthing quay, for all commercial traffic, with a depth alongside of between 8 to 15 m. Fuel, gas oil, and fresh water available by pipe-line.
Two tugs of 250 h.p. available. From Las Palmas.
Small slipways up to 400 tons capacity available, also workshops for minor repairs.
AUTHORITY: Commandancia Militar de Lanzarote.

LAS PALMAS: 28.05 N. 15.27 W.

DOCUMENTS:
5 Crew Lists.
4 Transit Passenger Lists.
2 Provisions Lists.
8 copies of Manifest, with Bills of Lading covering cargo for Las Palmas.
8 Lists of Passengers Disembarking.
Passports of passengers landing (required by Immigration Authorities).
1 Maritime Health Declaration.
PILOTAGE: Compulsory. Masters send radio message to Agents 48 hours prior to arrival giving ETA (GMT). Pilot station may be contacted by VHF Channel 16, 155.56 kc/s. Call for Pilot by whistle, 2 long and 1 short blasts, "G" flag during day; white over red signal during night. Sound signals prohibited from 2200 to 0800 hrs. local time. Pilot boats have black hull, white wheel house, with black "P" and boat number painted both sides of wheel house; they fly "G" flag with black "P" on centre. Pilot boards approximately 1 mile off breakwater, where vessel should await Pilot.
ANCHORAGE: Good anchorage in roads. Sandy bottom. Mean tidal range 5 ft. to 6 ft. Tidal velocity negligible.
RESTRICTIONS: No tide restrictions. Vessels berth alongside mole day and night in accordance with draft.
Vessels carrying explosives or dangerous products must apply to the Port Authority, through their Agent, with sufficient advance notice, regarding permission to enter port.
MAX. SIZE: Vessels of any length and beam can safely berth and normally discharge and load cargo while bunkering. Max. allowable draft 42 ft.
RADIO: Las Palmas Radio, call sign EAL.
TUGS: The following tugs are available: harbour and/or salvage tugs *Gran Canaria*, 2,800 i.h.p.; *Tamaran*, 2,375 i.h.p.; *Aracus*, 2,200 i.h.p.; *El Guanche*, 1,375 i.h.p.; *Nublo*, 1,060 i.h.p.
Harbour tug: *Doramas*, 1,375 i.h.p.
BERTHING: Subject to availability. Information should be radioed to Agent 48 hours prior to arrival, if berthing required, and for what purpose. Main breakwater, Generalisimo Franco, runs North to South, is 2,000 m. long, fitted with oil bunkering points. Safe berths alongside for vessels up to 41 ft. draft. Harbour approach from open sea with no impediments.
La Luz mole, is 1,200 m. long, with berths alongside.
BULK CARGO FACILITIES: Grain silo with 4 extractors. Draft alongside 32 ft. Cement silo with 2 extractors.
STEVEDORES: Number of gangs required, cargo details, tons per hatch, should be announced to Agents, with ETA, 48 hours prior to arrival.
MEDICAL: Master should advise Agent if medical attention required on arrival. Hospital and ambulance services available day and night. Vaccination and inoculation available any time but notice should be given prior to arrival.
TANKERS: No facilities for slop discharge. Crude oil tanker berth.
FRESH WATER: Available at any mole delivered by hose at rate of approx. 50 t.p.h. per hose, while bunkering and/or loading/discharging cargo.
FUEL: Masters to include in messages to Agents amount, grade and viscosity of oil required, and name supplier, 48 hours prior arrival.
DEVELOPMENTS: A new breakwater is under construction East of present breakwater which will provide additional deep water bunkering berths, a basin for fishing vessels and other facilities.
GANGWAY/DECK WATCHMEN: Recommended. Arranged by Agents.
OPENING/CLOSING HATCHES: Performed by stevedores.
CUSTOMS ALLOWANCE: No restrictions for tobacco, wine and/or spirits.
IDENTIFICATION CARDS: Not necessary.
CONSULS: Consuls or Consular representation of most maritime nations available.
REPAIRS: All types of deck and engine repairs carried out afloat.
DRYDOCK: One available with following characteristics. Mooring length 560 m. depth 8-12 m. Syncrolift platform, lifting power 9,000 tons, suitable for vessels up to 175 m. length, 30 m. beam and 30,000 g.r.t. 5 mooring points of 180 m. and 2 of 220 m.
REPATRIATION: All facilities for crew changes, repatriation by sea and air.
AIRPORT: International Airport 26 kilometres South of Las Palmas.
TIME: GMT in Winter. Summer-time is GMT plus 1 hour.
HOLIDAYS: Local holidays: 29th April; 8th September; National Holidays: 1st January; 6th January; 19th March; 1st May; 18th July; 1st November; 8th December; 25th December; Feast Days: Maundy Thursday (half-day); Good Friday; Ascension Day; Corpus Christi.
Cargo handling during holidays and feast days; no stevedoring labour available from 2000 hrs. from day prior to Good Friday, Christmas Day and 1st January, until 0800 hrs. on following day.
POLICE/AMBULANCE/FIRE: Police, 260715. Ambulance, 245921. Fire, 243100.
TELEPHONES: Line connected to vessels alongside wharves from Harbour Board exchange if required.
SERVICES: (Special) Underwater hull cleaning, painting, surveys are carried out in clear water in outer harbour. Compass adjusting, etc.
SHORE LEAVE: Permitted. For some nationalities, passes must be issued by immigration authorities.
AUTHORITY: Port Commandant, Comandancia de Marina.
AGENTS: Miller Y Cia, SA, Muelle Santa Catalina, (PO Box 12), Las Palmas, Canary Islands. Telex 95353 Midat E and 95153 Midat E. Tel. 26.08.50 (5 lines). Telegrams "Miller Laspalmas".

LAS SALINETAS:

Private loading quay for nitrogen and fertiliser factory about 10 miles South Puerto de La Luz, Las Palmas, only used by vessels loading or discharging for Compania Insular del Nitrogeno, S.A.
Accommodation one mole 145 m. length, depth alongside 7.5 to 15 m. Fresh water available.

SANTA CRUZ DE TENERIFFE: 28.28 N. 16.16 W. (See Plan)

DOCUMENTS:
6 Crew Lists.
6 Passengers in Transit Lists.
8 Passengers Landing Lists.
7 Cargo Landing Manifests.
2 Stores Lists.
1 International Health Declaration.
1 Free Pratique.
If no passenger or cargo landing, must present negative declarations.
PILOTAGE: Compulsory. Recommended give Agent 48, then 24 hours notice of ETA. Contact Pilot station by VHF Channels 14 or 16. Pilot station located at shore end of Muelle Norte. Pilot boards up to 1.5 miles off extreme end of Muelle Sur. In daytime Pilot cutter identified by blue flag with white "P" superimposed; night-time, red and white light. When Pilot cutter unable proceed out of harbour due heavy weather, Pilot awaits in lee of extreme end of Muelle Sur. Pilots called by VHF when entering; on sailing called by local Agent, or by blowing "C" on ship's whistle.
ANCHORAGE: Vessels proceeding to anchorage are conducted by Pilot. Anchorage outside breakwater in depths 4 – 12 fathoms.
RESTRICTIONS: No berthing or sailing from floating pipe-line discharge terminal between 1800 and 0600 hrs. At Dique del Este, vessels over 35 ft. draft are allowed to berth in daytime only.
MAX. SIZE: Floating pipe-line terminal, up to 200,000 tons d.w.t. Dolphins, up to 45,000 d.w.t. Dique del Este (old part), max. length 200 m. and draft 39 ft. 6 in. (new part), 700 m. long with 300 m. LOA limitation, draft up to 54 ft.
HEALTH: Free pratique not granted by radio. "Q" Flag must be flown until vessel cleared inward by Port Health Authorities, which procedure is very quick. If suspected disease or fever on board, Agent or Port Health Authorities must be notified by radio.
RADIO: Teneriffe Radio – call sign EAT working frequency 472 kc/s. Short-wave EAT 3 working frequency 1930 to 0830 hrs., 8742 kc/s. Short-wave EAT 4 working frequency 0830 to 1930 hrs., 13092 kc/s. Radio telephone call sign "Teneriffe Radio" working frequency 1740 kc/s.
There is a 24-hour telephone link with vessels within 100 miles range, which vessels may utilise by calling Teneriffe Radio on VHF Channel 16 for connection to Agent's telephone number.
TUGS: Join vessels entering approximately half mile to 1 mile from extreme end of Muelle Sur. Use of tug's lines optional, but when supplied by the tug, extra charges incurred.
Tugs normally available; *Punta Anaga*, 1,900 i.h.p.; *Orotava*, 1,900 i.h.p.; *Tacoronte*, 1,800 i.h.p.; *Guimar*, 1,800 i.h.p.
BERTHING:
Dique del Este: 650 m. length, depth alongside 18 m.; 295 m. length, depth alongside 12 m.; 80 m. length, depth alongside 10 m.
Dique Muelle Sur: 803 m. length, depth alongside 12 m.; 213 m. length, depth alongside 10 m.; 240 m. length, depth alongside 8.50 m.
Muelle de Ribera: 537 m. length, depth alongside 10 m.; 301 m. length, depth alongside 8.50 m.
Muelle Norte: 103 m. length, depth alongside 8 m.
CRANES: *Muella de Ribera:* Four 6 ton electric Portal cranes and eight 3 ton Portal cranes.
Muelle Norte: Two 6 ton electric Portal cranes.
STEVEDORES: Monday to Saturday gangs ordered at 0730, 1330 and 1930 hrs. On Sunday there is only one shift from 0800–1400 hrs. and gangs for Sunday work must be ordered at 1930 hrs. on Saturday. Telegraphic information from Masters to be despatched 48 hours prior arrival giving first ETA. Gangs work 3 six-hourly shifts, viz. 0800–1400, 1400–2000, 2000–0200 hrs. Fourth shift from

0200–0800 hrs. by special request. All necessary gear supplied by stevedores.

MEDICAL: Masters to advise by radio if medical attention required on board. Yellow fever and smallpox inoculations possible in daytime subject prior notification.

TANKERS: Local refinery (Compania Espanola de Petroleos SA) have ample couplings, hoses and reducers. Slop facilities available. Tankers discharge at Floating Pipeline Terminal, and at Dique del Este.

Loading terminals situated at Dique del Este, at Puerto Honduras for 45,000 d.w.t., and 2 berths at extreme end of Muelle Sur.

Cepsa Buoy Berth Dique del Este, Shipmaster's Report:

Mooring Operation: Vessel 190,000 d.w.t.

1647 hrs. – Pilot boarded vessel, swung and proceeding inwards. Starboard Anchor veered to 2 shackles in water and takenken out of gear.

5 Tugs in attendance as follows.

1 Starboard Quarter Ship's Rope.

1 Port Quarter Ship's Rope.

1 Port Bow Ship's Rope.

1 Pushing Starboard Bow.

1 Pushing Starboard Quarter.

1751 hrs. – Let go Starboard Anchor, finished up with 10 shackles.

1802 hrs. – Two lines to Buoy No. 6.

1814 hrs. – Lines to Buoys No. 1 and 2.

Mooring continues:

1943 hrs. – Vessel in position.

2022 hrs. – Final rope to buoys. Tugs away, Pilot departs. (12 ropes all told).

2028 hrs. – All fast and secured.

Total mooring time from let go anchor to all fast 2 hours 27 minutes.

Berth Information: The berth consists of a series of 7 buoys laid in water which varies in depth from 30 to 60 m., the stern buoys are attached to the breakwater by means of heavy chains.

A total of 12 parts of synthetic or natural fibre mooring lines is required.

Wire moorings are not permitted, the reason being that the buoys have no Quick Release Gear and the depth of the water is such that heavy wires could not be lifted off the hooks by hand.

The Starboard anchor is also used with about 10 shackles in the water when the vessel is in position.

The berth is suitable for tankers of up to 200,000 d.w.t.

The discharge system consists of a string of floating hoses to the portside, 2 cargo and 1 bunker/diesel, the former requiring 12 in. and the latter 8 in. connections.

Bunker C Diesel and Marine Gas Oil is available.

Pilot boards about 1.5 miles south of the breakwater.

5 tugs are used for berthing, 3 make fast using ship's ropes, the other 2 pushing as required.

4 tugs are used for unberthing, but do not make fast.

The prevailing wind is from a N.N.E. direction and quite strong gusts can be experienced. It is necessary to load ballast simultaneously with the discharge of cargo, in order to keep the windage area within reasonable limits.

A terminal operator is on board at all times and in contact with the shore by VHF.

DENSITY: About 1025.

FRESH WATER: Available at all berths, delivered by hose any time day or night. Water barge available daytime to supply vessels at anchorage, 400 tons capacity. May be available at night-time at extra cost. If water delivered by barge, there is an additional charge for towage of barge each way.

FUEL: All grades available from CEPSA (cables "Spanoil Madrid" and/or "Teneriffe"). Fuel available at all berths, average rate of loading 500-600 t.p.h. Bunkers at anchor can be supplied by bunkering barge *Mayorga,* 1,400 tons capacity, or *Ciudad Rodrigo,* 4,300 tons fuel; 1,300 Gasoil or diesel. Notice required for refuelling 72 hours, to be confirmed at 48 and 24 hours before arrival.

FIRE PRECAUTIONS: All tugs equipped fire-fighting equipment including foam and 4 water/foam monitors. Refinery well equipped with shore fire-fighting equipment, including mobile foam trucks.

GANGWAY/WATCHMEN: Available but not compulsory.

HATCHES: Normally opened by crew, stevedores lifting beams. If whole operation carried out by stevedores, extra charge possible.

CUSTOMS ALLOWANCE: Free port, no restrictions presently in force.

REPAIRS: NUVASA, offer a new system in slipways, the synchro-lift, lifting capacity 2,000 tons, and vessels up to max. 83 m. LOA can slip at their yards, where there is space for 14 vessels at a time. Dry docking can be effected day and night.

Their workshops can carry out major repairs to ships afloat, including engine and boiler work, and is equipped with modern machinery.

SURVEYORS: Lloyds and A.B.S. available at Las Palmas. NV available in Teneriffe.

REPATRIATION: All facilities available for repatriation and crew changes. Daily air flights to Madrid and Europe.

AIRPORT: International Airport situated 12 km/s. from port, served by Iberia, KLM, Air France, Lufthansa, British Caledonian and others. Daily flights to and from most European capitals.

TIME: GMT in use throughout year. In 1974 Summer-time (GMT plus 1 hour) introduced for first time.

HOLIDAYS: 1st January; 6th January; 19th March (St. Joseph's); Easter Thursday; Good Friday; 1st May; 15th May; 25th May; 5th June; 29th June; 18th July; 25th July; 15th August; 12th October; 1st November; 8th December; 25th December.

No work 1st January, Good Friday, and Christmas Day. Other holidays worked as overtime.

POLICE/AMBULANCE/FIRE: Police 271217; Ambulance 241502; Fire 242349.

TELEPHONE: Facilities exist for connecting telephones on board.

SERVICES: Underwater hull cleaning, tank cleaning-compounds (Basic Chemicals, etc.), compass adjusting.

SHORE LEAVE: No restrictions, except for Crew members of East European countries, who must obtain Identification Cards from local Immigration.

IDENTIFICATION CARDS: Not required. For citizens of East European countries local Immigration will deliver Identification Cards, which should be returned to Agent before sailing.

CONSULS:

Austria	Finland	Netherlands
Belgium	France	Norway
Bolivia	Germany	Panama
Brazil	Great Britain	Peru
Colombia	Italy	Portugal
Costa Rica	Liberia	Sweden
Chile	Luxembourg	Uruguay
Denmark	Monaco	Venezuela
Dominican Rep.		

DEVELOPMENTS: The South mole is to be lengthened to over 1,000 m. with depth alongside of 33 ft.

AUTHORITY: Marine Commandant, Santa Cruz.

AGENTS: Miller Y Cia S.A., Marina 39 (P.O. Box 79), Santa Cruz de Tenerife, Canary Islands. Telex 92143 MIDOC E. Tel. 24.48.80. (Shortly to be changed to 28.91.00). Telegrams "Miller Tenerife".

NOTES

Please also advise Shipping Guides (Services) Ltd.

Cape Verde Islands

ST. VINCENT:

PORT LIMITS: Inside of a direct line running from Pta. Joao Ribeiro to Pta. do Morro Branco.

PORT: Porto Grande at 16° 52′ 55″ N. 25° 00′ 25″ W. City: Mindelo.

HARBOUR: Porto Grande is a natural semi-circular harbour sheltered and safe, facing island of Santo Antao over a channel approximately 10 miles wide at nearest points. In this channel but nearer St. Vincent is the rock of Ilheu dos Passaros on which is a lighthouse. Entry to harbour is from North to South. Weather conditions throughout year usually good to excellent.

DOCUMENTS: On arrival Masters should hand to Agent:

3 Crew Lists.
3 Passenger Lists.
1 Maritime Health Declaration Certificate.
1 copy Stores List.

Port Doctor will also wish to sight ship's Deratisation Certificate.

When discharging cargo a minimum of 5 copies of Bill of Lading and 5 copies of Manifest are required. No special form for Passenger Lists and Crew Lists, and those in general use by the vessel will be accepted.

PILOTAGE: Radio notice of ETA must be sent by Master to Agent at least 48 hours before arrival. Pilot boards mid-way between Bird Island (Ilheu dos Passaros) and the Quay. The Pilot prefers to use Jacob's ladder. Signal for Pilot is two long and one short blast on ship's whistle. However, sound signals prohibited between 2000 and 0800 hrs. local time. Time between Pilot boarding to vessel's anchoring or berthing at piers is 10 to 45 minutes. See "Radio".

Important: The Harbour Master requests Masters not to anchor in harbour before Pilot on board. Pilots available day and night. Pilotage compulsory for all vessels entering harbour for anchoring, or berthing. When sailing, pilotage not compulsory for vessels which anchored in harbour. Pilotage compulsory for all vessels berthing and unberthing at piers.

ANCHORAGE: Anchorage berth in 4 to 20 fathoms.

MAX. SIZE: The harbour of Porto Grande can accommmodate vessels up to any size. Also see "Berthing" and "Tankers".

HEALTH: Free pratique can be obtained before arrival on application by radio to Guarda Mor (port doctor) of Sao Vicente de Cabo Verde confirming that crew are in good health. The port doctor, however, usually boards vessel on arrival in company with police and Customs guards, order provide any medical assistance which may be required. Crew and passengers should be in possession of Smallpox Vaccination Certificates. Production of these certificates will not, however, be called for unless there is a very good reason for doing so.

RADIO: Advice of ETA should be sent by radio to Agents at least 48 hours prior to entering port. Bunker and water requirements, if any, should also be requisitioned in same message. Cash to Master, provisions, cigarettes, spirits, etc., should be also added. ETA message should also advise number of hatches to be worked and number of tons in each hatch.

St. Vincent radio operates on CQA–500 kc/s. and 8.738 mc/s. 24 hours a day – working frequency 435 kc/s. on 8 mc/s. Listening every 2 hours over the hour and again each half hour on the hour. Pilot station may be contacted on VHF Channel 13-16.

BERTHING:

Pier No.	*Max. Depths metres*	*Length of Pier metres*
1*	11.50	310.00
2	11.50	310.00
3	9.50	160.50
4	9.50	160.50
5	8.50	90.00
6	6.50	122.00
7	4.50	61.50
8	3.50	106.75
9	3.50	40.00
10	4.50	100.00
11	5.50	100.00

(*This pier is open to the sea and usable subject to prevailing winds and swell).

Floating and suspended fenders are available at the piers. Suspended fenders are each of 3 lorry tyres, 3 ft. wide with a diameter of 2 ft. 6 in. suspended at intervals of 70 ft. Floating fenders are of 5 tyres with a wooden core and are 4 ft. 6 in. long and 3 ft. 6 in. in diameter and are placed at intervals between the suspended fenders. Cruising vessels normally berth at pier No. 2 Max. draft 33 ft.

Height of Pier No. 2 above sea level approximately 2 m. Vessels moor port side to pier. No shore gangways available. Cruising vessels with drafts too deep to berth alongside piers can anchor in harbour about 1,250/1,500 m. distance from Custom House pier where passengers may land. Ship's launches must be used for the transport of passengers to and from shore. With tug assistance vessels may berth or unberth at any time of day or night at piers Nos. 2, 3 and 4, but in adverse weather or other adverse conditions berthing at night may be prevented. Berthing and unberthing at night at other piers generally not possible.

STEVEDORES: If quantity for loading or discharging is of 10 tons or under, and in comparatively small parcels, then cargo can be loaded or discharged using the only small lighter available for vessels at anchorage. If larger quantity to be handled vessel must berth alongside quay. In both instances ship's tackle must be used. Discharging rate for bagged cargo, i.e. flour, rice, etc., is about 30 t.p.h. per hatch. In all cases vessel's derricks and winches are used. There are no lighters available, therefore as described above all cargo in excess of 10 tons must be loaded or discharged at the piers. The opening/closing of hatches is the responsibility of the crew on board, but can be done by the stevedores by arrangement with the Master under the supervision and responsibility of the ship's officers.

TANKERS: Max. length 775 ft.; max. draft 36 ft. Underkeel clearance 4 ft. Max. d.w.t. 53,000 tons.

Discharge effected by barge from starboard side of tanker at anchorage, also through submarine pipe-line in harbour at: Lat. 16° 53′ 30″ W. Long. 25° 00′ 50″ W. length of line, 1,000 m.; diameter, 20 in.; berth, Buoys; hoses 12 in.; number of hoses, 7; position of hose connections, midships starboard side; Max. rate per hour, 2000 metric tonnes; density of water at berth 1025.

Submarine pipe-line buoy berth. Tankers moored to 1 forward buoy and 3 stern buoys. Tanker also uses port anchor which is dropped before tying up to buoys. Nature of bottom is coarse sand and gravel. Berthing at buoys carried out 24 hours a day and port tugs of up to 1,200 h.p. used always on berthing and on unberthing according to weather conditions.

Cleaning tanks: 50 miles from shore only.

Gas freeing: At present no facilities available.

FRESH WATER: Can be supplied at anchorage or at piers or ex lighter day or night. Water suppliers request at least 48 hours notice giving quantity required. A minimum charge covering costs of supply of 20 tons is made on supply for under that quantity. To supply over 750 tons during a 12-hour stay in port with 2 lighters, giving between 25 to 50 t.p.h per hose, would be difficult. Connections of hose couplings from water barges are 3 in. male, 11 threads per in.

FUEL: Oil bunkering carried out ex lighter at anchorage at rate of up to 300 t.p.h. dependent upon speed at which vessel can receive. Both fuel and diesel oil bunkers can be supplied at the piers. Gas oil can be supplied in drums to vessel at anchorage or in bulk ex pipe-line on piers. All bunkering at anchorage ex barge takes place on starboard side of vessel.

GANGWAY/DECK WATCHMEN: Two Maritime Police are always in attendance and are compulsory.

CUSTOMS ALLOWANCES: Tobacco and Wine and/or Spirits, no restrictions within reason.

CONSULS:

Belgian (Vice-Consul)
Danish (Vice-Consul)
Netherlands (Vice-Consul)
Norwegian (Consul)
Swedish (Vice-Consul)
Venezuelan (Belgian Consul acts in a friendly capacity).

REPAIRS: At present voyage repairs of limited scope carried out, but slipping facilities are available for craft up to 250 tons only. Facilities expected to improve in the near future.

REPATRIATION: Facilities exist for effecting crew changes by air, but recommend that TAP Lisbon be contacted by Owners for crew making flights into Sal Island order join vessel St. Vincent. Agents should also be informed to make necessary arrangements for flight on local plane from Sal Island to St. Vincent. All crew travelling to Cape Verde must have transit visa issued by Portuguese Consul in country of origin. All crew, except cases for hospitalisation, must be in possession of a passport before Portuguese police will permit them disembark for repatriation. Crew possessing valid passports or sailors' books can land in Cape Verde for medical and/or hospital treatment or for repatriation to country of nationality provided it is country with whom Portugal has diplomatic relations and provided Agents of vessel take full responsibility on behalf of Owners for all expenses.

AIRPORT: Airport served by Dove planes for inter-island service only. 20 flights a week in and out of St. Vincent, 4 direct from Praia and 6 via Sal Island inwards. 5 via Sal and 5 direct Praia outwards. Main Airport is at Sal Island where 5 flights a week by Boeing 727 call to and from Lisbon. At Sal Island the only hotel is situated at the Airport.

TIME: One hour behind GMT all the year round.

HOLIDAYS: New Year's Day (1st January); National hero's day (20th January); St. Vincent's Day (22nd January); Women Day (8th March); Workman Day (1st May); Childrens Day (1st June); National Independence Day; (5th July) Nationality's Day; (12th September); Christmas Day (25th December).

Although offices closed on holidays, loading and discharging of vessels not generally affected.

POLICE/DOCTOR/AMBULANCE/FIRE: Contact police on board or local Agent.

AUTHORITY: Capitao Tenente, Capitania dos Portos.

AGENTS: Millers & Corys. Cape Verde Islands Office Box No. 1, St. Vincent, Cape Verde Islands, (via Lisbon). Cables: "Orlop Saovicentedecaboverde". Tel. General Office, St. Vincent 9418; Manager's Office, St. Vincent 2477; Managers' Residence, St. Vincent 2420; Assistant Manager's Residence, St. Vincent 2421; Resident Engineer's Residence St. Vincent 2419.

Ceylon refer to Sri Lanka

Chile

GENERAL INFORMATION

ARRIVAL ADVICE: Ship's Masters are required to give the Captain of the Port 24 hours notice of arrival, stating time and date in their radio messages. They should also inform their Agents of ETA.

The telegraphic address of the Captain of the Port at all Chilean ports is "Maritgob". Should there be no radio station in the port of destination, the nearest station must be used, and an acknowledgement of the message received. This will justify the non-arrival of the message at destination in time.

The radio message should include the following information:

1. ETA (hour and date).
2. Number of passengers.
3. Number of bags of mail for the port (or negative).
4. State of health on board.
5. Draft.

DOCUMENTS: The standard ALALC forms are required, and must be made out in Spanish. The number of documents required by each port varies, but the maximum likely to be required is shown below, unless otherwise stated under the port "Document" Reading.

	First Port	*Each Subsequent Port*
General Health Declaration	1	
Clearance	1	1
Clearance Declaration (Alalc No. 1)	3	2
Crew List (Alalc No. 3)	20	20
Crew Personal Effects	3	3
Passenger List for Port or negative (No. 4)	15	8
Passengers in Transit (or negative)	6	4
Mails List or negative	6	4
Store List (No. 5)	20	20
Manifest for Port	20	20
Manifest for in Transit Cargo	20	20
General Cargo Manifest (No. 2) (all on board)	3	see note
Declaration of Arms and Munitions	2	see note

Note: The General Cargo Manifest should be presented in triplicate at the first port and should list all cargo on board, whether intended for Chile or otherwise. A copy of all the documents above is stamped and returned to the Master for retention on board, and must be presented to the Authorities at all subsequent ports of call.

The Port Captain will wish to see all the standard ships papers, and also the receipt for payment of Chilean Light Dues, which is valid for 12 months as from date of issue.

Store List. Separate lists must be made for cabin stores and deck/engine room stores.

Documents required on sailing: 1, Clearance; 2, Health Declaration signed by Health Authority; 3, Two Crew Lists; 4, Passenger List; 5, Receipt for Light Dues; 6, Arms Declaration; 7, Permit for coasting cargo if required.

On sailing, all hatches must be tightly closed. The sailng permit is valid for 24 hours but no cargo operations can be carried out after it is granted. If the vessel has not sailed within 24 hours, the clearance papers must be returned to the Port Captain for new despatches to be issued.

HEALTH: All vessels arriving from abroad are required to call at one of undernoted ports for free pratique: Arica, Valparaiso or Punta Arenas. Vessels are also allowed to call direct to Tocopilla, Iquique, Antofagasta, Coquimbo, San Antonio, Talcahuano and San Vincente.

Vessels can be exempted from call at one of these ports, and proceed direct to the port of loading and/or discharge provided permission is obtained, with 8 days notice from National Health Service.

Following details in order to apply for exemption on behalf of a vessel are required:

Name and flag of vessel.
Net registered tonnage.
Last port of call.
Cargo carried, or if in ballast.
Port of arrival in Chile and date of arrival.

FLAG: All vessels arriving in Chilean ports must fly their own ensign and also the Chilean Flag, from the highest mast.

On entering port the "Q" flag should be flown until pratique is granted.

The use of whistles or sirens in port must be strictly in accordance with the Rules for The Prevention of Collisions.

RADIO: There are 69 radio stations down the coast. Meteorological Bulletins are broadcast regularly by the following stations: Antofagasta, Valparaiso, Talcahuano, Puerto Montt, Punta Arenas.

Notices to Mariners are transmitted from Valparaiso, Punta Tumbes, Puerto Montt, Corona Lighthouse, Punta Arenas and Punta Delgada.

For weather forecasting the coast is divided into six zones:

Zone 1. Arica to Coguimbo;
Zone 2. Coguimbo to Constitucion;
Zone 3. Constitucion to Guafo Island;
Zone 4. Guafo Island to Evangelist Isles;
Zone 5. Evangelist Isles;
Zone 6. From 60° S. to 90° S.

The forecasts from Zone 1 to 5 covers the coast to 120° W. Zone VI includes the area between 53° W. and 90° W.

Chile is normally 4 hours behind GMT, but from the 2nd Saturday in October to the 2nd Saturday in March clocks are retarded 1 hour. However radio transmissions will continue to use GMT minus 4 hours.

ETA advices are best made using GMT.

FUMIGATION: If a vessels Derating Certificate is overdue an Exemption Certificate may be granted provided traces of rats are only slight, and no ports infected by Bubonic Plague have been visited recently. Fumigation can be carried out by the Farming and Cattle Bureau. In such cases the vessel anchors in the inner port or roads, all crew are landed for a period of 24 hours, and the fumigation carried out before the vessel is berthed.

STEVEDORES: Under Chilean law, all foreign vessels are required to employ gangs of shore riggers to rig gear, open and close hatches and carry out all the work normally attributed to the deck crew whilst the vessel is in port. A minimum of 8 men and a foreman must be employed, and remain on board constantly. If the ships crew do the work, the shore riggers must still be paid.

There are no stevedoring companies in Chile, and the Agent must pay for and supervise the operation. The stevedores are considered as employees of the shipowner, and any damage caused to ship or cargo will be for the shipowners account. The ship or Agent is not permitted to select stevedores, who are drawn from a union pool on a rota system, experienced and inexperienced men alike.

It is necessary to employ a gangway watchman for 24 hours a day in all ports.

The Customs or Port also place a watchman.

Cleaning of wharves. The cost of cleaning alongside is for account of the vessel in discharge, or shipper when loading. The Port will do the work and make the corresponding charge.

HOLIDAYS: The following are public holidays: January 1, New Year's Day; April 12th, Good Friday; April 13th, Easter Saturday; May 1st, Labour Day; May 21st, Navy Day; June 29th, St. Peter and St. Paul; September 18/19th, Independence Day; October 12th, Discovery of America; November 1st, All Saints Day; December 8th, Immaculate Conception; December 25th, Christmas Day.

Work in the ports is possible on all of these, paying overtime, except for January 1st, May 1st, September 18th and December 25th. On December 24th and 31st work may cease earlier than usual.

CREW: Signing on of new crew members is restricted to Chilean members of the local Seaman's Union. To sign on a foreign crew man is difficult.

A crew member absent without leave from his ship for 48 hours or more is considered a deserter, and the Port Captain must be notified.

Landing Permits are required by all crew members. The one pass is valid for all Chilean Ports for 30 days. At the last port all Permits must be returned to the Authorities.

Curfew: There is a strict curfew in all ports. Infractors are arrested, and released the following day after paying a fine or doing a days hard labour. The crew should be warned of this as it could lead to their missing their ship. Curfew ends in all ports at 0530 hrs., unless otherwise noted.

FUEL: No clause guaranteeing bunkers can be accepted in any charter party affecting Chilean Ports. The department of Maritime Transport must approve all requests for Bunkers. Such applications must be made 30 days in advance. Furthermore, heavy duties are levied on bunkers, which make Chilean ports very expensive, and should be used only in an emergency. Bunkers can only be obtained ex-pipe-line from Salinas, Valparaiso, and San Vicente. Small quantities can be obtained by truck in other ports.

POLLUTION: It is expressly forbidden to throw overboard any ballast, rubbish or waste, or to spill petroleum or any derivative or residue, contaminated waters from mineral processing plants or any dangerous or noxious substance of any kind either into ports or Chilean jurisdictional waters (200 miles limit) without prior authority from the Port Captain: Standing regulations stipulate that no tanker may dump hydrocarbons within fifty miles of the coast, and that no vessel may pump bilges or dump waste within 10 miles of the coast.

Should there be any accident leading to contamination of waters, this decree authorizes the uses of any means which may be necessary to ensure the protection of natural resources.

Under Article 188 of this Decree all vessels navigating in Chilean waters, or entering any port must have on board an Insurance policy against all risks of contamination, if they are carrying any cargo of petroleum or derivatives; this must insure against all risks whether through leakage, spillage or otherwise. Any infraction of these regulations carries a fine of from 1,000 to 1,000,000 gold pesos and vessels are also responsible for the total elimination of the contaminating element, even if the contamination is due to fortuitous reasons.

ANTOFAGASTA: (including La Chimba Cove) 23.39 S. 70.25 W.

DOCUMENTS: See "General" before first port.

PILOTAGE: Compulsory. Pilot should be awaited in position bearing 239° and 480 m. from the beacon at the head of protected mole. The Pilot will not board before 0700 hrs., and if the vessel is at anchor an extra charge will be made for heaving aweigh while the Pilot is on board. The accommodation ladder must be rigged for the Pilot. Pilot can be contacted by VHF.

ANCHORAGE: About 1,200 m. from green light on coast mole. Vessels that do not go into port anchor in what is known as "old or outer port" where best anchorage is bearing 103° from anchor painted on hillside, about 5 cables from coast in 37–22 m. of water.

Small vessels anchor about 4.5 cables from old passenger quay in 22–18 m. of water. Ships should use two anchors and follow the indications of the port pilot.

RESTRICTIONS: From May to July the surge is stronger and results in rough seas which last from 2 to 4 days interrupting the traffic of small craft.

MAX. SIZE: A, B and C have a permissible draft of 30 ft. D is restricted to 27 ft:

Berth No. 1 – 15 ft.
Berth No. 2 – 29 ft.
Berth No. 3 – 30 ft.
Berth No. 4 – 32 ft.
Berth No. 5 – 36 ft.

La Chimba Cove: Situated about 5 miles North of Antofagasta. The port entrance is 2 cables wide. Max. length 150 m. Draft 30 ft. Vessels use both anchors, and moor to two stern buoys on each quarter. Ship's head 345°T. A further line is sent from the port bow to the shore.

RADIO:

Station Call Sign	Category	Frequency	Type	Receives	Transmits	Schedule
Antofagasta CBA 3	(P)	8 Mc/s.	A1	8354, 8374	8730	H00–30
		4 Mc/s.	A3	4091.6	4396.6	H30–45
		8 Mc/s.	A3	8230	8780	H45–60

Also see "General" before first port.

TUGS: Available.

BERTHING: Inner dock measures 4.5 cables long N. to S. and 2.5 cables wide at entrance.

Water is 10 m. deep alongside berths No. 2 to 5 and A to D, except number 1 berth which has only 5 m. of water.

CRANES:

8×5 ton mobile cranes on berths A to D.
4×3 ton cranes No. 2 berth.
3×5 ton cranes No. 3 berth.
6×3 ton cranes Nos. 4 and 5 berths.
1×35 ton heavy lift crane No. 5 berth.

TANKERS: Buoy moorings for tankers, owned by Standard Oil, Shell and Copec.

Standard Oil Mooring: Max. length 170 m. Max. draft 28 ft. Flexible hoses. One 10 in. line for products. One 12 in. line for fuel oil.

The Copec Buoy: Max. length 180 m. Max. draft 30 ft. fwd., 34 ft. aft. 10 in. lines for fuel oil and clean products. Max. pressure 150 p.s.i.

Shell Buoy: Max. length 200 m. Max. draft 40 ft. 8 in. flexible hose for products and luboils.

Vessel berths using both anchors forward and lines to 3 mooring buoys astern. Hoses lifted midships on port side. No slop disposal facilities.

La Chimba Cove: A 6 in. hose is brought on board on the starboard side. Discharge rate 180 cu.m./hr. 250 p.s.i.

STEVEDORES: Available. 240 stevedores, divided into gangs of 9 men (permanent). 70 stevedores (replacements), 280 longshoremen, 275 dockworkmen, 50 permanent riggers, 25 replacement riggers. Working hours are 0800–1430, 1500–2200. Sundays and holidays one shift only available. Also see "General" section before first port.

MEDICAL: Hospital with 600 beds, also a sanatorium (Rest Home).

FRESH WATER: Port has 42 standpipes of 2.5 in. situated at the various moles. Delivery is at the rate of about 10 t.p.h.

FUEL: Coal: in case of necessity can be obtained in limited quantities. Fuel and diesel oil supplied by Standard Oil, Shell Mex and Copec from petroleum terminals. For quantities less than 70 tons diesel oil can also be supplied from tank cars on the mole. Also see "General" before first port.

GANGWAY/DECK WATCHMEN: Crew.

OPENING/CLOSING HATCHES: Done by Stevedores.

IDENTIFICATION CARDS: Required.

CONSULS:

Argentina	French	Peruvian
Belgium	German	Spanish
Bolivian	Greek	Swedish
British	Guatemalan	U.S.A.
Columbian	Honduran	Venezuelan
Dutch	Italian	Yugoslavian
Ecuadorian	Norwegian	
El Salvador	Panamanian	

REPAIRS: There are 2 shipyards for repair of small craft, also several workshops, and foundries.

REPATRIATION: Facilities available.

AIRPORT: The airport is at Cerro Moreno 23 km. to the North of Antofagasta.

TIME: Local time GMT minus 4 hours.

HOLIDAYS: See "General" before first port.

SHORE LEAVE: Allowed.

REGULATIONS: It is prohibited to anchor between Paita rock and the extreme North of the protected mole. Zone for explosives and inflammables: these must be discharged at Caleta La Chimba and vessels take a Pilot who boards at Antofagasta.

AUTHORITY: Empresa Portuaria de Chile.

ARICA: 18.29 S. 70.20 W.

PORT LIMITS: Ships are considered "arrived vessels" the moment they drop anchor within the safe anchorage zone indicated on the chart, or at the Pilot station.

DOCUMENTS: See "General" before first port.

PILOTAGE: Compulsory. Ships approaching port should fly international signal flag "G" to request Pilot. Pilot boat is small craft painted white, with "P" or "H" flag on the mast. Pilot boards incoming vessels at Pilot station, located 3 cables and 165° from red light at end of breakwater. If more than one ship is awaiting Pilot, vessels are requested to hoist, below the flag "G", a numeral, indicating order of arrival, especially if arrived overnight. Vessels waiting to be docked can anchor in Road at Pilot station in 10 fathoms of water. Pilot station maintains a VHF watch.

ANCHORAGE: Safe anchorage for vessels arriving after sunset can be found in a line bearing 194° Faro Isle Alecran distance 7 cables in depths varying from 9 to 10 fathoms.

RESTRICTIONS: Port officially closes at 2100 hrs.; however, if necessary, ships docked and undocked at any time, weather permitting, if application presented in advance to port Captain.

MAX. SIZE: Six berths available within port area. They are numbered from East to West.

Berth	*Vessel Max. Length* m.	*Vessel Max. Draft* ft.
Berth No. 1	70	13
Berth No. 2	145	15/18
Berth No. 3	175	25/31
Berth No. 4	165	34
Berth No. 5	165	34
Berth No. 6	165	34

If necessary, vessels over 600 ft. in length can be accommodated in berths 4 to 6, providing the area available for docking. Oil carriers have mooring buoys outside port area in depths of 48 ft. Installations consist of two groups of buoys, located in the North part of the bay, outside the port but sheltered from the swell prevailing in the coast, by the breakwater. 3 buoys are used to moor tankers loading crude oil from Bolivia. 2 buoys are used to moor tankers discharging clean products for city service.

HEALTH: Health officer boards ship after Pilot has docked. Pratique granted after routine inspection of certificates and papers requested internationally. Yellow flag is lowered to signal the rest of the boarding party to embark to clear the ship.

In case of fever, and/or suspected diseases on board, Captains are to radio to Port Captain of the above situation. Upon arrival, vessels will be anchored in Quarantine, and inspected according to international procedures. From another Chilean port, pratique is automatic. Also see "General" before first port.

RADIO:

Use "Maritgob Arica" via coastal radio CBA 4. Listening watch kept on 8360 kc/s. Transmissions at 0800, 1000, 1200, 1400, 1600 and 1800 hrs. on 8478 kc/s. A1. Alternatively if necessary use Valparaiso CBV on 500 kc/s.

It is advisable however to request Agents at previous port to notify Arica well in advance of arrival.

Also see "General" before first port.

TUGS: Only one tug in this port and normally joins vessel at the end of the breakwater. Tug is compulsory for docking and undocking. Tug provides the line at no extra charge.

CRANES:

Berth 1 – None.
Berth 2 – 3×3 tons.
Berth 3 – 3×3 tons.
Berth 4 – 1×3 tons.
Berth 5 – 2×5 tons.
Berth 6 – None.

SPECIALISED CARGO HANDLING FACILITIES: Six conveyor belts and pall-loaders to operate with bulk ores, grain, coal, etc., at a rate of 100 t.p.h. per conveyor approx.

Containers are handled with conventional gear, but the port has a Container Yard, served by railroad and a bridge crane capable of lifting 65 tons. Service to containers also includes 10-ton fork-lift trucks, mobile cranes from 12 to 13 tons capacity, and specially designed wagons for their proper transportation.

STEVEDORES: Generally, stevedores are nominated the day before ship arrives, according to ETA, by the Agent. Also nomination can be made during the day. Working hours are 0800–1200, 1400–1800. Also see "General" before first port.

MEDICAL: Medical assistance can be obtained at any time requiring no advance notice. Hospital in the city.

TANKERS:

Esso Buoys: Position 053°×830 m. from breakwater light. Can handle vessels up to 45,000 d.w.t., 35 ft. draft. Vessels moor to 3 stern buoys. Wires must not be used for berthing.

Bolivian Export Buoy: Position 039°×1,084 m. from breakwater light. Can handle vessels up to 60,000 d.w.t., 43 ft. draft. 12 in. hose connection. Loading rate 9,000 bbls.p.h. No deballasting facilities.

Also see "General" before first port.

Berthing is generally in the morning or early evening. Wires must not be used for berthing. Vessels moor to 3 stern buoys.

San Martin Bay Buoy: Used for discharge of Bunker C for fishing fleet. Max. draft 45 ft. No length restriction. 8 in. hose connection. Vessels moor to 3 stern buoys. A bolt is required to attach mooring lines to the ring type eyes on the buoys. No wires may be used.

DENSITY: Sea water: 1025.

FRESH WATER: Fresh water is available. Hoses to be provided by vessels. Rate of delivery about 10 t.p.h.

FUEL: No fuel facilities.
FIRE PRECAUTIONS: Red label explosives stowed in cargo hatches, require special permission to discharge within the port. Explosives for Arica are discharged into lighters, at mooring buoys located outside the port area. For tankers who load or discharge outside the port area, usual fire precautions are enforced.
DEVELOPMENTS: Project to build a new mole in the Northern part of the port, with accommodation for two ships of approximately 540 ft.
GANGWAY/DECK WATCHMEN: Port regulations call for a gangway watchman.
OPENING/CLOSING HATCHES: Riggers provided to attend to these services, nomination is by number of hatches working. 5 men to a hatch.
CERTIFICATES:
Tonnage Certificate.
Lighthouse Dues (Chilean).
Safety Radio Certificate.
CUSTOMS ALLOWANCE: One carton cigarettes per man, and one bottle wine/spirits per man.
IDENTIFICATION CARDS: Needed to leave and/or enter port area.
CONSULS: The following countries are represented at Arica:

Argentina	El Salvador	Netherlands
Belgium	France	Norway
Bolivia	Germany	Paraguay
Denmark	Great Britain	Peru
Ecuador	Italy	Spain

REPAIRS: Only small repairs can be performed in Arica, like welding, lathe, mechanical and adjusting of motors. Also possible to repair electric motors.
DRYDOCKS: There are 2: intended for fishing boats. Max. capacity 200 tons.
REPATRIATION: Crew changes can be arranged through the local office of immigration, if repatriated.
AIRPORT: Distance to airport: 7 miles. No international flights are served in Arica, except 2 flights weekly to Bolivia. Domestic flights are available at the rate of 2 per day.
TIME: GMT minus 4 hours, advanced 1 hour from September to March.
HOLIDAYS: Cargo can be arranged on all holidays except Labour Day (1st May).
POLICE/AMBULANCE/FIRE: In same order: telephone 31959; 31331; 31312.
TELEPHONES: Not available on board.
SHORE LEAVE: Permitted.
DELAYS: No delays under normal conditions. Port congestion causes ships to wait at anchorage 24 hours or more, depending on unusual facts as labour strike, swell, or lack of room to bring vessels alongside (when 5 ships are docked).
AUTHORITY: Empresa Portuaria De Chile.

BARQUITO: 26.21 S. 70.38 W.

DOCUMENTS, HEALTH: See "General" before first port.
PILOTAGE: Pilot available in Chanaral Bay.
ANCHORAGE: Open anchorage with no difficulty. The anchorage position lies on the cross bearing between Point Piedra Blanca bearing 110° and Point Brusen bearing 200°. Depth of water 82 ft. Anchoring prohibited to the South of the marker buoy.
MAX. SIZE: Up to 30,000 d.w.t.
TUGS: Not required for mooring. 2 tugs used for towing lighters only.
BERTHING: Three buoys suitable for mooring large vessels situated in depth of 9 fathoms. Buoys 4 and 5 are used for general cargo vessels.
Position: Buoy 4 Barquito Pier bearing 043°×714 m.
Buoy 5 Barquito Pier bearing 027°×390 m.
Vessels moor stern onto the buoys and discharge into lighters, which in turn discharge at the pier head. There are several barges of capacity 2.500 tons.
STEVEDORES: Order 24 hours before arrival. Working hours 0800–1200 and 1400–1800. There are 9 gangs of stevedores. Vessels arriving should ensure that hatches are closed and booms secure in order to avoid labour problems. Also see "General" before first port.
MEDICAL: Facilities available.
TANKERS: Buoys 1, 2 and 3 are for the Oil Terminal.
The hose marker buoy is in position Barquito Pier bearing 180°×268 m. Vessels use starboard anchor to pivot onto the 2 stern buoys. The hose connection will then be made on the port side. Max. draft 27 ft. Max. length 225 m.
FRESH WATER: Not available.
FUEL: Not available.
CUSTOMS ALLOWANCES: No fixed limits.
IDENTIFICATION CARDS: Required.
CONSULS: Nearest at Antofagasta.
REPAIRS: No facilities for major repairs. Two slipways for vessels up to 100 tons.
AIRPORT: At Chanaral, 2 miles away. About 2 flights a week.
TIME: GMT minus 4 hours.
TELEPHONES: Ship-to-shore communication by walkie-talkie radio.
SHORE LEAVE: Allowed.
AUTHORITY: Andes Copper Mining Co.

CALDERA: 27.03 S. 70.53 W.

PORT LIMITS: A line joining Punta Caleta with Punta Fuerte.
DOCUMENTS: See "General" before first port.
PILOTAGE: Arranged by advice of ETA. Vessels may anchor inside the port while waiting for Pilot.
ANCHORAGE: Prohibited within 800 m. of Mechanised Quay.
When working to lighters is 740 m. East of a line from the Mechanised Quay. 1 anchor is normally sufficient, but with Northerly winds 2 anchors and a kedge are recommended.
MAX. SIZE: Vessels up to 80,000 d.w.t. berth at Mechanised Quay. Max. draft 13.50 m. Berthing only at high water.
HEALTH: Pratique given after official visit, and automatic for vessels from another Chilean port. In case of contagious disease on board, advance notice is required and vessel may need to be cleared first at Valparaiso.
RADIO: Radio Costera Valparaiso – CBV 2; working during even hours only between 0800–1200 and 1400–2200 hrs.
Radio Costera Caldera – CBD 2, receiving on 2182 kc/s. only at following times: 0830–0900, 1030–1100, 1430–1500, 1630–1700 hrs.
TUGS: None available.
BERTHING:
Fiscal Mole: Length 225 m. Depth 29 ft. Vesels can berth stern onto the mole using 3 lines, and 6 or 7 shackles on the starboard anchor. Ship's head should be on 360°. It is advisable to shut all ports and doors prior to berthing due to the large clouds of dust from the Iron Ore Berth.
Iron Ore Berth: Max. length 235 m. Max. draft 42 ft. The loading arm is fixed, hence vessels must shift to position each hatch under the tower. All cranes or derricks must be swung out to starboard prior to mooring. Vessels berth port side to, using 6 mooring buoys for head and stern ropes, and 2 dolphins for springs. Loading rate 1,500/2,000 t.p.h. Berthing allowed only by day, but night sailing permitted.
TANKERS: Tankers moor to 2 stern buoys, using both anchors. No length restriction. Water depth 33 ft. Hose connection 12 in. Daylight berthing only.
STEVEDORES: In ETA to Agent indicate number of gangs required for loading/discharging. Also see "General" before first port.
MEDICAL: First-aid only at Caldera. If needed advance notice necessary to prepare transport to Copiapo, nearest city 75 km. away. Fumigation only carried out at ports of Arica, Valparaiso, or Punta Areas.
DENSITY: 1026.
FRESH WATER: Not available.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Arranged by Agent.
OPENING/CLOSING HATCHES: Done by riggers.
CUSTOMS ALLOWANCES: Only amount needed while vessel in port.
CONSULS: None at Caldera.
REPATRIATION: Can be arranged provided that a police agent accompanies crew member to Santiago airport.
AIRPORT: At Copiapo, 75 km. away, a daily flight to Santiago where international connections available.
TIME: GMT minus 4 hours, no changes.
HOLIDAYS: See "General" before first port.
TELEPHONES: No connection to vessels.
SHORE LEAVE: Allowed.
AUTHORITY: Captain of the Port.

CALDERILLA: 27.05 S. 70.52 W.

Installation of Mitsubishi Ore Transport Co. Can accept vessels up to 60,000 d.w.t. at mechanised quay.
Vessels bound for Calderilla must first call at Caldera for Pilot and official clearance.
DOCUMENTS: See "General" before first port.
ANCHORAGE: Vessels less than 180 m. in length can await a berth 4 cables N.N.E. of the East Peninsula, in 42 to 54 ft. of well sheltered water. Larger vessels must anchor in Caldera Bay.
MAX. SIZE: Max. length, 240 m. Draft 40 ft. 60,000 d.w.t.
BERTHING: A mechanical loading belt has been built to the N.E. of the Peninsula. There are 2 loading arms each 50 m. long that can load at 1,000 t.p.h. The arms are fixed and vessels must shift to place each hatch under the tower. Vessels moor to 7 buoys, 3 forward and 4 aft. Entry can be made by day only.
MEDICAL: Nearest doctor and hospital 30 miles away. Ambulance available.
FRESH WATER: Not available.
FUEL: Not available.
REPAIRS: Only of a minor nature.

CHANARAL: 26.21 S. 70.38 W.

DOCUMENTS: See "General" before first port.
PILOTAGE: Compulsory for foreign vessels and tankers and for mooring at mechanised quay. There is one Pilot at the port. Pilot must be waited for in position bearing 289° and 2,025 m. from reference point indicated on Chilean navigation chart.
ANCHORAGE: Between Point Piedra Blanca and Point Piedra Negra at 325°, 2 cables from head of the Fiscal quay in 15-12 m. of water, with good holding ground of sand.
MAX. SIZE: Draft 42 ft., length 800 ft., breadth 100 ft.

RADIO:

Station call sign	Category	Frequency	Type	Receives	Transmits		Schedule
Chanaral	(T)	2 Mc/s.	A 3	2182	2182	2000	H30-45
CBH-2		4 Mc/s.	A 3	4091.6	4396.6	4396.6	H45-60

TUGS: There are 4 small tugs.

BERTHING: Fiscal Quay: About 3 cables S.W. from Point Piedra Negra, 70 m. long by 8 m. wide, depth is 5.5 m. Vessels should lie about 5 cables off the head of the pier and moor to the stern buoy in 40 ft. of water.

Mechanised Quay: At Point Piedra Blanca there is a mechanised pier, property of Compania Minera Santa Fe for loading bulk iron ores. 60 m. long by 10 m. wide, with 14.5 m. depth; sand and mud bottom. Ores transported by means of a conveyor belt to a loading tower from which it is loaded direct to ship's hatches. At present loading tower is fixed so that vessels have to be moved to change hatches, but studies are being made as to possibility of converting it into a mobile tower. Loading rate is of 1,000 t.p.h. Vessels up to 224 m. length, 36 ft. draft have loaded alongside up to 34,000 long tons. Vessels moor at head of quay, which has 4 buoys (2 forward and aft.). In addition the quay is provided with bitts to secure mooring ropes, fore and aft.

STEVEDORES: 85 stevedores (9 gangs of 9 men each). Ordinary working hours are from 0700 hrs. to 1100 hrs., and continuing from 1300 hrs. to 1700 hrs., but by special agreement and paying for meals, work can be carried on straight, i.e. from 0700 hrs. to 2000 hrs. and continuing from 2000 hrs. till 0700 hrs. of the following day with a 100% surcharge on wages, etc. Also see "General" before first port.

MEDICAL: Modern hospital and doctors available.

FRESH WATER: No means for supplying vessels.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: Done by stevedores.

IDENTIFICATION CARDS: Required.

CONSULS: None at Chanaral, the nearest are at Antofagasta.

REPAIRS: 2 shipyards to repair tugs and lighters only.

REPATRIATION: Facilities exist.

AIRPORT: The airport is located 2 km. North of Chanaral.

TIME: Local time is GMT minus 4 hours.

SHORE LEAVE: Allowed.

DELAYS: There is frequent surf during June and August, sometimes interrupting traffic and cargo operations in the bay for a short time. Surfs generally come from the N.W. or the West. Fogs are frequent between April and August, but sometimes they are quite heavy during other months of year.

AUTHORITY: Empresa Portuaria de Chile.

CONSTITUCION: 35.19 S. 72.29 W.

DEVELOPMENTS: A new port under construction at Maguellin, about 6 km. South of Constitucion.

Facilities to include a main jetty, 244 m. long, with 2 berths for vessels up to 32,000 gross tons.

Two smaller jetties and a mole for fishing vessels are also envisaged.

Depth of water is estimated to be 16 m. The facilities will be used for export of paper and cellulose.

Although the pier has been built, no vessels have berthed here yet due to the dangers of the Southerly wind. It appears likely that this port will never be used.

COQUIMBO: 29.57 S. 71.21 W.

DOCUMENTS: See "General" before first port.

PILOTAGE: Compulsory for vessels mooring to quay. Pilot boards in position bearing 101° and 1,215 m. from Point Tortuga Lighthouse, between Lat. 29° 55' 38.5" S. Long. 71° 19' 56" and Lat. 29° 56' 10" S. Long. 71° 20' 34" W.

ANCHORAGE: Vessels lie in roads until ready to tie up to quay. Bay has good anchorage with a sandy bottom and depths varying from 15-10 m. A forbidden zone is indicated on charts.

Vessels frequently have to anchor first before mooring to the quay as this only has capacity for 2 vessels at a time.

MAX. SIZE: 375 m. long and 30 ft. draft.

RADIO:

Station call sign	Category	Frequency	Type	Receives	Transmits	Schedule
Coquimbo	(S)	4 Mc/s.	A 3	4091.6	4396.6	H00-30
CBC-2				6265.5		
		6 Mc/s.	A 1	6280	6505.5	H30-60

TUGS: No tugs available, only motor launches to assist the Pilot and for passing mooring lines.

BERTHING: Buoys: Santa Fe Mining Company has 2 private buoys at berth 2 for mooring ore vessels using the portable and semi-mechanised system of loading.

Mooring Mole: 375 m. long, for 2 vessels of 180 m. each with draught of 30 ft. Berth number 1 is on the South side and number 2 on the North. Can be used at all times except during stormy weather, or when heavy swell is experienced.

Passenger Mole: to the South of mooring mole.

Rail Mole: is an extension of berth number 2 and serves for mooring small vessels.

North of berth number 1, Santa Fe Mining Company has installations for storing ore in bulk, consisting of two subterranean ore yards. The loading system includes some incline conveyors, some field conveyors, a stacker conveyor, a loading conveyor and a 77.5 ft. loading tower featuring a 56 ft. aluminium boom. All these components are movable on rubber tyres.

Ore through a system of belt conveyors is passed to these portable conveyors made up in sections and then to loading tower with a loading boom from which ore is loaded direct to ship's hatches. Usually, vessels are shifted when changing hatches. Rate of work is 600 t.p.h. and vessels moor with the bow to the North, port side alongside.

Discharge of Explosives and Ballast – Explosives are discharged direct to quay prior to authorisation by Maritime Authorities and due precautions being taken.

STEVEDORES: Ordinary rate of loading per gang, hatch, hour: Sacked goods up to 80 kilos each 25 tons; Cases, boxes, etc., 18 tons; Sacked ores 40 tons; Copper concentrates 60-80 tons; Manganese ore in bulk 80-100 tons; Iron ore 100-1000 tons.

Unloading: Wheat in Bulk 60 tons; Coal 50 tons; Timber 30 tons; Rails 33 tons.

Working hours are 0800-1200, 1400–1800 hrs. Also see "General" before first port.

MEDICAL: Hospital at Coquimbo and La Serena.

FRESH WATER: Can be obtained in limited quantity at quay at rate of 25 t.p.h. Quality is good.

FUEL: Coal can be obtained in limited quantity. Diesel oil and gasoline can be obtained at the quay from truck or railcar.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: Done by stevedores.

IDENTIFICATION CARDS: Required.

CONSULS:

British	Peruvian
Italian	Spanish
Liberian	Danish Vice-Consulate
Panamanian	Swedish Vice-Consulate

REPAIRS: No shipyards. There is a private workshop for minor repairs.

REPATRIATION: Facilities exist.

AIRPORT: 7 km. to the East of La Serena.

TIME: Local time GMT minus 4 hours.

SHORE LEAVE: Allowed.

AUTHORITY: Empresa Portuaria de Chile.

CORONEL: 37.02 S. 73.10 W.

PILOTAGE: Is compulsory. Pilot boards 400 m. N.W. of the coal pier.

BERTHING: Both anchors are used to the final shackle, Ship's head bearing 180°. There are 5 mooring buoys, and the vessel berths starboard side alongside. Loading rate 400 t.p.h. Vessels will be required to shift so that each hatch is under the loading arm.

Max. size 170 m. Draft 24 ft. However, it should be noted that there is only 18 ft. of water near the stern buoy. The berth is exposed to Northwesterly winds and vessels should be ready to sail at short notice.

FRESH WATER: Available.

FUEL: Not available.

MEDICAL: Doctors and Hospital available.

CONSULS: Only at Talcahuano.

CRUZ GRANDE: 29.27 S. 71.20 W.

(No longer in use as a commercial port.)

LOCATION: Approximately 32 miles North of Coquimbo. Lat. 29 26' 45" S. Long. 71° 19' 50" W.

DOCUMENTS: See "General" before first port.

APPROACHES: Seaward approach should be made to clear all navigational dangers. The vessel should proceed until due North of Mostacilla Lighthouse, and then anchor. See "Anchorage".

The depth at the anchorage varies from 18 to 22 fathoms.

NAVIGATION AIDS: There are two diamond-shaped range markers, equipped with lights on the East shore of the harbour and a set of range lights at the South end of the loading basin. The two diamond-shaped markers are painted red with a yellow cross. The one on the beach, about 200 ft. in from the surf line, supports a red light and the marker, 775 ft. further inland (mounted on top of a large concrete building) supports a green light. The green light at the South end of the loading basin is approximately 165 ft. South of the red light. These range markers and lights are used by the Pilot in docking and undocking vessels.

Red and green lights also mark the entrance to the loading basin, a red light on top of the ore dock structure, and a green light on the breakwater.

All these lights and markers are visible from the anchorage.

PILOTAGE: Ships calling at Cruz Grande should anchor and have a pilot's ladder (Jacob's ladder) ready with a boat rope long enough to make sure the pilot boat's crew have no trouble in holding the boat in position for the Port Authorities and Pilot to board the vessel. Pilotage service for docking and undocking is compulsory.

Ship's engines must be stopped when the pilot boat approaches the vessel and must not be used again until it is clear. On sailing they must not be used from the moment the pilot boat casts off until it is clear.

ANCHORAGE: Approximately one third of a mile due West of Point Medanitos good holding ground for all vessels anchoring is encountered. The position assures clear swing for all vessels in about 18 to 22 fathoms of water. It also assures free navigation for any vessel which may be at the ore dock.

RESTRICTIONS: If advance ETA is received, ships generally will be received during daylight hours, beginning at 0700 hours, with the following exceptions: January 1st, Good Friday, May 1st, September 18th, December 25th.

WEATHER: South-westerly winds prevail in all seasons of the year. North breeze may be encountered in the early morning. There is seldom fog in the harbour.

RADIO: Vessels should advise ETA 7 days, 96 hours, 48 hours and 24 hours prior arrival, by radio.

It is of utmost importance that all ETA's of the vessel be given and be as exact as possible so that all officials can be advised and be on hand for receiving the ship.

Cable address is ROMERAL, LA SERENA, CHILE, and all messages having their origin in North America should be routed via Western Union and in the rest of the world via Cable and Wireless Limited. Ship's radio messages should be routed via West Coast Cables.

BULK HANDLING FACILITIES: The basin dock is located South of the anchorage. The basin is 250 ft. wide by 720 ft. long. The ore bins are located on the East side and have a capacity of 30,000 long tons. Ore is loaded through 17 spouts spaced on 20-ft. centres, and the No. 1 spout, which is the nearest thereto, is 165 ft. from the South end of the basin.

The ends of the spouts are 30 ft. horizontally from the face of the ore dock in the loading position.

MOORING: Vessels moor port side to the dock. A ship arriving at the port for the first time will be instructed by the Port Superintendent and Pilot regarding the docking and the mooring procedure.

Vessels can only be docked during daylight hours, but may undock at any hour.

A total of 8 mooring bitts are available on the dock for spring lines. Stern lines are made fast to two dolphins at the North end of the basin.

At the South end, mooring bitts are anchored in concrete.

A ship must be able to handle six mooring lines independently on deck machinery. Two bow lines, two stern lines, one back spring and one fore spring are used. The bow lines and stern lines are 1.25 in. diameter wires supplied by Compania de Acero del Pacifico S.A. There are also available 1.50 in. diameter spring wires for ships that are suitably equipped to handle them. If the ship does not have winches properly located to handle the latter, lines (either cables or manillas) from the ship must be used. The most satisfactory spring lines are usually 1.25 in. diameter wires with a 30 ft. nylon pendant. Two manilla spring lines are used as safeties and, if there are no winches or capstans available for them, they are placed on bitts.

The ship must have available three 450 to 500 ft., 1 in. diameter, manilla ropes; two to be used as messengers to haul the bow lines aboard and one to haul the stern lines aboard. There must also be heaving lines to send the spring lines ashore to be placed on mooring bitts. As noted above, the Port Superintendent and Pilot will give instructions regarding the sequence of putting out the lines.

Boats will be available fore and aft to receive the messengers and make them fast to the mooring lines. The Harbour Master will be aboard the vessel during docking to instruct the boatmen.

During the time the ship is moored in the loading basin, whether loading ore or pumping ballast, all mooring lines must be kept uniformly tight so that no line is overloaded and stressed to the breaking point. In order to meet these requirements, sufficient crew members must be stationed where they can maintain the proper tension on the lines at all times and they must be under the supervision of a responsible officer.

When the required cargo has been lifted, vessels must return to the anchorage to close their hatches and finish any paper work.

Engines must be available on short notice.

Anchors are only used in emergency, but should be ready as a standby.

BALLAST: Vessels should be ballasted to meet the spout clearance requirements. In order to clear the spouts, all vessels should not exceed 56 ft. from the water-line, at which the ship is ballasted, to the highest outboard structure,

Ballast should all be discharged at the dock. The tonnage of cargo lifted must be determined by the vessel's draft as there is no other means of determining exactly the amount of cargo loaded.

Vessels are liable to fines by Maritime Authority for any oil discharged in the bay, either from tanks or from pumping bilges.

LOADING: Pier and loading facilities are privately owned and Compania de Acero del Pacifico S.A. reserves the right to moor and load vessels in the order it deems advisable.

All holds should be clean and prepared for cargo on arrival.

Any lost time through failure of compliance will be charged to vessel.

Holds will be inspected by a representative of the shipper, prior to commencement of loading.

A walkie-talkie radio will be placed on board so that the ship-to-shore or shore-to-ship communication is available at any time while the ship is waiting to load.

Loading is effected on regular work-days, but not on Sundays or holidays unless by agreement with the Shipper or Charterer and Compania de Acero del Pacifico S.A., the owner of the port.

A complete stowage plan should be delivered to the Port Superintendent or his representative on their boarding the vessel on arrival.

The following information is required:

Total cargo required.

Calculated tons/hold.

Draft required, forward and aft, on completion of cargo.

Any change in tonnage of cargo required must be reported to the Port Superintendent or his representative before loading of the last 2,000 tons.

Careful check of the vessel's trim should be maintained by the Ship's Officers at all times during loading operations.

On completion of loading, the vessel shall leave the dock. Delays of port operations, including delays of other vessels waiting to berth, caused by a vessel which for any reason is not prepared and able to move from the dock when so ordered, are chargeable to the vessel which causes such delays, at the rate of $1,000 per day or pro-rata for part thereof.

FRESH WATER/FUEL: Fresh water and fuel are not available at this port, although water and diesel fuel may be obtained in nearby Coquimbo, or at Salinas, near Valparaiso. Bunker "C" type fuel can be had at Salinas also.

REPAIRS: Only in cases of extreme emergency can ship repairs be effected at this port.

MEDICAL: Medical attention may be arranged through the port Agent. No person will be attended unless he is provided with a letter from the Master, authorising such treatment. All costs incurred will be charged to the vessel.

OPENING/CLOSING HATCHES: Hatch covers that are hinged or fold in such a manner that they present a face upon which the wind can set must remain closed until the vessel is alongside and moored. Those that remain in a horizontal position when open may be opened at the anchorage providing they do not interfere in any respects with the handling of the mooring lines during docking.

CERTIFICATES: In the case of combination ore carrier/tanker type of vessel, the Master must present a gas-free certificate from an Agent acceptable to Lloyd's before notice of readiness will be accepted. Such certificates may be obtained from a Coquimbo firm and request for same should be included in the ETA message.

CONSULS: In Coquimbo, or the adjacent city of La Serena, there are consuls or consular agents for Peru, Liberia, Great Britain, Denmark and Italy.

SHORE LEAVE: Shore leave may be granted at the Master's discretion. There are no restrictions by local authorities, but men should be certain to carry their Identification Cards.

Masters are requested to have all vouchers and list of personal effects in triplicate covering the crew members remaining ashore, whether hospitalised or deserters, prepared for delivery to the Agent, prior to sailing.

A letter of authorisation is required when the port Agent is expected to provide hotel accommodations, meals, medical attention, transportation or travel expenses and/or cash advances for account of vessel.

AUTHORITY: Compania de Acero del Pacifico S.A.

EASTER ISLAND: 27.08 S. 109.22 W.

PILOTAGE: Not available, although assistance can be given by the local natives.

ANCHORAGE: The best anchorage is at Hanga Roe from October to April. Vessels should anchor outside the 16 fathom line. Anchorages in general are poor, and vessels should be prepared to sail at any time with the onset of bad weather.

BERTHING: Vinapu Roads. Length 150 m. Max. draft 28 ft. Two 6 in. flexible hoses. manifolds must be no more than 65 m. from the stern.

MEDICAL: Doctors and hospital available.

GUAYACAN: 29.58 S. 71.22 W.

DOCUMENTS: see "General" before first port.

APPROACHES: Seaward approach should be made to clear all nevigational dangers. From the sea, the entrance ranges in line bearing 136.5° will lay the vessel directly to and between Point Miedo and Point Herradura, two headlands to the North and South of the bay entrance, which is 800 yards wide. The bay broadens inside to 1 mile and extends 1.25 miles in a S.E. direction.

The depth of the entrance varies between 23 to 36 fathoms, decreasing gradually to the shore. Islita, a small islet, lies a short distance off Miedo Point.

The approach to Herradura Bay is a fishing zone and caution must be maintained in navigation. Trawlers and hand-propelled craft are used.

Two diamond-shaped range marker boards, painted with diagonal stripes, are mounted on poles on the beach. With these in line, bearing should be 136.5° when coming through the entrance. Lights, foreground red with green behind, are fixed to the markers for night approach. In clear weather they are visible at approx. 5 miles.

Currents from the South and S.W. tend to lay the vessel to the N.N.E. when entering the bay. There is a light at the entrance to Herradura Bay on Herradura Point.

PILOTAGE: Ships calling at Guayacan should arrive with their accommodation ladder and Jacob's ladder ready to be lowered for the Pilot. Pilotage is compulsory. Ship's engines shall be stopped when the pilot launch approaches the vessel. The pilot's launch under no circumstances will go outside the limits of the port. It is imperative that the ETA of the vessel be as exact as possible so that the Pilot and officials are on hand and may board the vessel before anchoring. The Pilot and officials must be collected and brought to Guayacan by car.

ANCHORAGE: Good holding ground for anchoring in the bay with sheltered conditions. Entering on the ranges a cross bearing may

be obtained with a set of docking diamond markers and lights, bearing 094° similar to approach markers and the anchor dropped. This position assures clear swing for all vessels in about 15 fathoms and assures free navigation for any vessel which may be at the pier.

RADIO: Operators' cable address is Cap, La Serena, Chile, and all messages having their origin in North America should be routed via All America Cables, and in the rest of the world, via Cable and Wireless Limited. Ship's radio messages should be routed via I.T.T. hours out by radio. Also see "General" before first port.

Vessels should advise ETA 7 days, 96 hours, 48 hours and 24 hours out by radio. Also see "General" before first port.

BERTH DESCRIPTION: The ore pier, of steel construction with a concrete deck, is 700 ft. long and located at the N.E. part of the bay. A total of 10 mooring bitts are available on the main pier, with 2 each on mooring dolphins to the South and North of the pier. Two twin mooring buoys, 1 North and 1 South, a distance of 350 ft. and 410 ft. from each dolphin and slightly inshore of the pier, are also available. A twin buoy to assist in docking and undocking is located 460 ft. to the West of the North end of the pier. Depth of water at the pier is 55 ft. at mean low water.

MOORING: Vessels dock port side to the pier. On approaching the pier, the starboard anchor is dropped at a position indicated by cross bearing on markers located on the shore to the N.E. and at the South end of the pier and the shore. Lights are located on the markers for night docking. Nine shackles of cable are laid.

A motor launch assists in rope handling to the pier and buoys. Manilla pendant lines at dolphins may be used. Sufficient deck crew must be available at all times to shift the vessel if required and to adjust moorings during loading.

Engines must be available at short notice. Permission for any major repair to the engines at the dock must be obtained from Maritime Authorities.

LOADING: In the case of combination ore carrier/tanker type of vessel, the Master must present a gas-free certificate before notice of readiness will be accepted. Such certificate may be obtained from a Coquimbo firm and request for same should be included in the 96 hours ETA message, reporting if there is or there is no tank gas detecting instrument on board.

The loading boom extends 51 ft. from the face of the pier and can be retracted 22 ft. It may be raised or lowered 18° from the horizontal when loading.

The tower is mobile with a run of 390 ft. Vessels may have to be shifted. Aft hatches should be loaded first when possible to facilitate efficient loading. When not loading the rig is parked at the centre of the pier with the boom in a vertical position inside the pier face. In the horizontal loading position the boom is 40 ft. from the water at low-water level and vessels should be ballasted to ensure hatch coamings and other fixed structure at the hatches have a height less than 40 ft. above water at low-water level. Booms and other tackle should be cleared from all hatches.

Rated loading capacity is 3,000 t.p.h.

Emergency stops only are permitted on the conveyor system. Vessels on which cargo reaches coamings should note that 390 tons are on the belts between the stockpiles and the ship and this must be cleared before stopping the system.

Cargo is belt trimmed only. Hire of trimmers, if required, is for vessel's account.

On completion of loading, the vessel shall leave the pier. Delays of port operations including delays of other vessels awaiting berth, caused by a vessel which for any reason is not prepared and able to move from the pier when so ordered, are chargeable to the vessel which causes such delays, at the rate of $1,000 per day or at the demurrage rate of any other vessel that may be delayed – which ever is higher.

BALLAST: Vessels should be ballasted to meet the loading tower information given and to ensure safe handling. Wind condition can make docking of light vessels difficult. Ballast may be discharged at the pier. Upper wing tanks emptied by gravity should have covers fitted over discharges. Vessels are liable to fines by Maritime Authority for any oil or other contaminate discharged in the bay either from tanks or from pumping bilges.

TANKERS: Vessels moor to 2 stern buoys with ship's head bearing 225°. The hose is brought upon the starboard side.

MEDICAL: Medical attention may be arranged through the port Agent. No person will be attended unless he is provided with a letter from the Master authorising such treatment.

FRESH WATER/FUEL: Fresh water and fuel are not available at this port, although water and diesel fuel may be obtained in nearby Coquimbo, or at Salinas, near Valparaiso. Bunker "C" Type fuel can be had at Salinas also.

REPAIRS: Only in cases of extreme emergency can limited ship repairs be effected at this port.

CONSULS: In Coquimbo, or the adjacent city of La Serena, there are consuls or Consular Agents for Peru, Liberia, Great Britain, Denmark, Italy and Sweden.

HOLIDAYS: If advance ETA is received, ships will generally be received every day with the following exceptions: 1st January; Good Friday; 1st May; 18th September; 25th December. Also see "General" before first port.

SHORE LEAVE: Shore leave may be granted at the Master's discretion. There are no restrictions by local authorities, but men should be certain to carry their identification cards.

SERVICES: Mail for vessel and crew should be addressed care of Compania de Acero del Pacifico, S.A.; all mail that is received for holding by the Agent will be delivered to the vessel upon arrival.

Do not have parcel post packages sent, as they must go through customs in Santiago and are delayed from 2 weeks to a month for their despatch.

Spare or repair parts for the vessel should be sent via air express, addressed to the ship, care of Compania de Acero del Pacifico, S.A., Coquimbo, Chile and marked "Ship's Stores in transit", so as to avoid paying customs duties. Information regarding the shipment should be sent to the Company via air mail correspondence.

A limited supply of provisions is available, but requests should be sent by radio 48 hours prior to arrival.

AUTHORITY: Compania de Acero del Pacifico, S.A.

HUASCO: 28.27 S. 71.14 W. (See Plan)

DOCUMENTS:

1 Clearance.
12 Cargo Manifests, or 5 No Cargo Manifests.
6 Passenger Lists, or 2 No Passenger Lists.
9 Crew Lists.
4 Stores Lists.
3 Crew Personal Effects.
2 Stowage Plans.
2 per passenger Baggage Declarations.
1 Health Certificate.

PILOTAGE: Compulsory, for vessels mooring to Santa Barbara and Guacolda mechanised quays. Vessels waiting for Pilot and/or clearance must anchor in position bearing 050° and 1,800 m. from Guacolda lighthouse, in the centre of the bay, between Guacolda peninsula and Panulcillo islet.

ANCHORAGE: Vessels anchor in roadstead, larger vessels finding good anchorage ground 2 cables N.N.E. of Cayo Isle in 26-24 m. of water and small vessels 2 cables bearing 090° from Cayo Isle in 12 m. of water, sandy bottom.

Depth is generally moderate and level with a sand and shell bottom, while at the maritime terminals of Santa Barbara and Guacolda is quite deep, around 50 m., which has to be taken into account when anchoring. The bottom at these terminals is mud, offering a good holding ground.

MAX. SIZE: See "Berthing".

RADIO:

Station call sign	*Category*	*Frequency*	*Type*	*Receives*	*Transmits*	*Schedule*
Huasco CBH-3	(T)	2 Mc/s.	A 3	2182	2182	H30-60

TUGS: No tugs available. At Huasco there are 4 motor launches for use of Pilot.

BERTHING: There are 2 cargo terminals in service Guacolda and Santa Barbara. Both property of Compania de Acero del Pacifico. A third Guacolda II is under construction. The particulars of these installations are:

	Santa Barbara (m.)	*Guacolda I* (m.)	*Guacolda II (Building)* (m.)
Max. Length	265	265	Over 300
Max. draft	15	13.50	20
Max. coaming Height	13	12.80	28
Max. breadth	40	40	—
Cargo rate (L/T hours) Max.	2,400	2,200	—
Run of the loader on ship deck	50	100	—
Largest ship attended (d.w.t.)	120,000 up to 15 m. draft	120,000	— up to 13 m. draft

Santa Barbara Terminal: Used exclusively for loading iron ore. No dock to berth only 1 loading tower protected by dolphins (Duque de Alba). Ships berth without tugs to 7 buoys using the starboard anchor. Vessel has to be shifted to receive cargo in all the hatches. Transit through the installations is not allowed, and taxi boat service is provided to go ashore to Huasco wharf.

Guacolda Terminal: Normally used to load iron ore. Length 183 m. However it is intended in future to use the berth to discharge oil or coal for internal company use. The loader has a 100 m. run. If it is neccessary to shift the vessel, this must be done by crew members, as shore gangs are not available.

STEVEDORES: There are 50 stevedores for up to 4 gangs. In addition there are 20 longshoremen and 14 lightermen. Working hours are 0700-1200, 1400-2100.

MEDICAL: There is only a first-aid station. Freirina, 15 km. distance, has a small hospital and there is a first-class hospital at Vallenar, 52 km. away. A modern hospital under construction at Huasco.

FRESH WATER: No means for supply to vessels. Guacolda maritime terminal could deliver water in a very limited quantity and only in case of emergency.

FUEL: None available.

DEVELOPMENTS: A new iron-ore loading berth being constructed close to the present berth at Isla Guacolda. Pier length of 250 m. with depth sufficient to accommodate up to 250,000 d.w.t. vessels.

The present facilities at Isla Guacolda will be retained.

OPENING/CLOSING HATCHES: Done by stevedores in general cargo ships.

IDENTIFICATION CARDS: Not required.

CONSULS: None, nearest are at Antofagasta.

REPAIRS: Only for the repair of minor craft.

AIRPORT: Nearest commercial airport is at Vallenar, 52 km. away.

TIME: GMT minus 4 hours in Winter (15 Mar. to 15 Oct.) and GMT minus 3 hours from (15 Oct. to 15 Mar.).

TELEPHONES: None available.

GENERAL: Zone for ballast: it is prohibited to deballast in port except clean water from deep tanks. For any other kind of ballast

authorisation should be requested first to the maritime authority who will indicate the appropriate place.
SHORE LEAVE: Allowed.
AUTHORITY: Capitan de Puerto de Huasco.

IQUIQUE: (including Patillos Cove) 20.13 S. 70.10 W.

DOCUMENTS: See "General" before first port.
PILOTAGE: Compulsory. During daytime pilot vessel flies blue ensign marked with a "P" and during night the usual Pilot lights. Pilot boards 1,570 m. from Serrano Island lighthouse or 3 cables from the end of the breakwater. Pilotage hours for mooring operations are from 0600 onwards; for vessel's departure no restriction, but preferably before midnight.
ANCHORAGE: Masters arriving for the first time in this port should keep watch for numerous fishing boats. These boats leave port between midnight and 0300 hrs. they are all equipped with navigation lights. The bay of Iquique is wide and offers good anchorage. Vessels awaiting a berth or those not mooring, find good anchorage in depths from 40 to 14 m. with sandy bottom; the best anchoring place is found 900 m. from the breakwater lighthouse and 500 m. from the mooring quay. Tankers mooring to buoys use both anchors. Vessels carrying explosives or gunpowder moor 1,400 m. from lighthouse situated at the end of the breakwater. There are 2 zones where there are submarine cables and where it is forbidden to anchor.
RESTRICTIONS: Fog occurs more frequently from December to March. A current runs from South to North at 0.5 to 3 m.p.h. and is stronger at Point Piedras and Cavancha. Rough seas are more frequent from May to September, but they are relatively weak within the harbour.
MAX. SIZE: Berthing areas are as follows:
1. Embankment of 526 m. length; berths 1, 2 and 3, depth of 9 m. LW
2. Pier, West-side; 335 m. length, berths 4 and 5, depth between 9 and 12 m. LW.
3. Pier, East-side; 280 m. length, berths 6 and 7, depth between 9 and 12 m. in berth No. 7 and 12 to 15 m. in berth No. 6.

Vessels in berths Nos. 5 and 6 must move out to allow other vessels to berth at Nos. 4 or 7.

Patillos Cove: The port is used for the bulk shipment of salt. It is situated 33 miles South of Iquique. Pilot boards by tug from Iquique. Vessels berth to 6 buoys, but must move to present each hatch to the port loader. Max. Size: length 225 m., draft 40 ft.
RADIO: The Chilean Navy has a navy radio station (C.B.I.) for general marine service and another radio station, Radio Coastal Service (S.R.C.) situated in the same building of the Port Captaincy for cases of emergency.

Station call sign	*Category*	*Frequency*	*Type*	*Receives*	*Transmits*	*Schedule*
Iquique	(S)	2 Mc/s.	A 3	2182	2182	H00-30
CBI/CB2		4 Mc/s.	A 3	4117.2	4422.2	H30-60

TUGS: Available with sufficient h.p. and capacity to assist vessel berthing and unberthing.
CRANES: Berths 4 and 5 – 3×2.5 ton cranes; 1×6 ton crane; 7×5 ton cranes.
STEVEDORES: Gangs are ordered according to arrival of the vessel, the previous day at 1800 hrs. and confirmed before 0800 hrs. Working hours are from 0800–1200 hrs. and 1400–1800 hrs., both on board and on shore. One shift is worked on Sundays or holidays. Also see "General" before first port.
MEDICAL: Good hospital and medical services in the port.
TANKERS: North of the harbour there are buoy berths for discharging, operated by Esso, Shell and Copec.

The Esso hose connections are 8 in. Vessels must berth by day, but can sail at any time. Vessels moor to 3 stern buoys using the port manifold. Both anchors are used, and the ship's bows must lie on a bearing 270°. Max. draft 32 ft.
FRESH WATER: Available from stand-pipes at mooring quays at a rate of 150 tons every 8 hours. Also delivered by barge.
FUEL: Usually no fuel for merchant vessels available. Can be obtained in case of emergency from oil terminals or by tank truck.
GANGWAY/DECK WATCHMEN: Shore watchman employed on the gangway.
OPENING/CLOSING HATCHES: Carried out by stevedores of the Syndicate. Crew not allowed to do this while vessel in port.
CUSTOMS ALLOWANCES: Normal port consumption allowed.
IDENTIFICATION CARDS: Required if no passports.
CONSULS:

Norway	Tel. 254	Panama	Tel. 820
Italy	,, 669	Sweden	,, 283
Great Britain	,, 310	Colombia	,, 860
Spain	,, 282	China	,, 213
Peru	,, 522		

REPAIRS: There are firms to repair diesel engines up to 500 h.p., also spare parts.
DRYDOCKS: There are dry docks for vessels up to 500 tons, also a floating dock, 300 tons capacity.
REPATRIATION: No repatriation problems for crew holding passports.
AIRPORT: Distance to Cavancha Airport 5 minutes by car. One national airline for passengers, connected with other foreign airlines in Santiago de Chile (capital).
TIME: GMT minus 4 hours.
HOLIDAYS: See "General" before first port.
POLICE/AMBULANCE/FIRE: Police Tel. 231; Hospital 307; Fire 1920, 1699, 1657, 1219, 1955.
TELEPHONE: Inside the port less than 100 m. from berthing area, but they cannot be connected on board.
SERVICE: Possible to get service for cleaning tanks and wells.
SHORE LEAVE: Allowed.
AUTHORITY: Gobernador Maritimo de Iquique.

LOTA: 37.06 S. 73.10 W.

DOCUMENTS: See "General" before first port.
ANCHORAGE: Northwest of the Lutrin Light. The Pilot will board here.
BERTHING: Vessels moor to 4 buoys, using both anchors, and lie with their bows on 190°T. The pier is 220 m. long, depth varying from 29 ft. at the head to 23 ft. at the 149 m. mark. Vessels are advised to use their own fenders.
Max. length 110 m. Draft 28 ft. 6 ins.
FRESH WATER: Available.
FUEL: Not available.
CONSULS: At Talcuhuano.

MEJILLONES: 23.06 S. 70.28 W.

DOCUMENTS:
Vessels directly from foreign ports:
3 Crew Lists.
3 Passenger Lists.
3 Stores Lists.
5 Import Cargo Manifests.
11 Manifests for cargo destined for Bolivia.
Vessels coming from another Chilean port.
1 Crew List.
1 List of Passengers.
1 Stores List.
5 Import Cargo Manifests.
13 Manifests for cargo destined for Bolivia.

PILOTAGE: Service carried out by the Pilot Corps of Antofagasta (65 km. from this port). Service is compulsory. Agent has to apply for the Pilot, and it is important to give arrival notice in good time.
ANCHORAGES: Open bay very well protected and with deep water.
MAX. SIZE: No restrictions. Vessels work cargo at anchor.
HEALTH: Pratique is automatic for vessels coming from another Chilean port, otherwise it will be granted after Sanitary visit.
RADIO: Antofagasta radio station CBA-3. Listens out between 0800 and 1200 hrs. and between 1400 and 1800 hrs.
Transmits 8,370 receives 8,354 Telegraphy H 00–30.
Transmits 4,396 receives 4,091 Speech H 30–45.
Transmits 8,780 receives 8,230 Speech H 45–60.
The station is active listening out every 2 hours, i.e. 0800, 1000, 1200, 1400, 1600 and 1800 hrs.
TUGS: There are none.
BERTHING: There are no berths. Vessels work cargo at anchor.
STEVEDORES: Agent to be informed before 1800 hrs. the day before arrival to order gangs.
MEDICAL: There is a doctor in the port but no hospitals are available and patients are transported to Antofagasta.
DENSITY: Sea water.
FRESH WATER: No fresh water available.
FUEL: Not available.
GANGWAY/DECKWATCHMEN: This service is recommended.
OPENING/CLOSING HATCHES: This work can be carried out by crew and/or stevedores. Derricks operated only by crew.
SHIP'S CERTIFICATES:
Register Certificate.
Tonnage Certificate.
Radio Certificate.
Safety Equipment Certificate.
CUSTOMS ALLOWANCES: 200 cigarettes for each member of the crew besides the ones in the stores. One bottle wine/spirits per person.
REPAIRS: There are no workshops. Vessel repairs done by the crew are allowed.
IDENTIFICATION CARDS: Not necessary, only passport and boarding card.
REPATRIATION: There are facilities for changing the crew.
AIRPORT: 25 km. from Mejillones is the airport Cerro Moreno. To travel to U.S.A. one must go via Santiago. There are daily flights from Antofagasta to Santiago, and from Santiago to U.S.A. with stops in various countries.
TIME: There are two official times:
Summertime: from the second Sunday in October to the second Saturday in March. Local time is GMT minus 3 hours.
Wintertime: from the second Saturday in March to the second Saturday in October. Local time is GMT minus 4 hours.
HOLIDAYS: It is possible to work on these days with a surcharge of 100%.
New Year's Day; Good Thursday; Good Friday; 1st May; 21st May; Ascension Day; 18th September; 19th September; 12th October; 1st November; 8th December; 25th December.
POLICE/AMBULANCE/FIRE: Police Tel. 7 Mejillones; Ambulance 24142 Antofagasta; Fire 41 Mejillones.
TELEPHONES: It is not possible to install lines on board.
SHORE LEAVE: Members of the crew are allowed ashore.
AUTHORITY: Captain of the Port.

PUERTO MONTT: 41.28 S. 72.57 W.

PORT LIMITS: Between the meridians of 72° 55′ 50″ W. and 72° 59′ 00″ W. The Southern limit is the parallel of 41° 29′ 48″ S.
DOCUMENTS: See "General" before first port.
PILOTAGE: Ordered by Agent on receipt of vessel's ETA at least 24 hours in advance. Otherwise request directly to Port Captain, cable address "Maritgob Montt". Vessels should anchor as indicated below and exhibit code flag "G". Pilot boards from a motor boat at the anchorage.
ANCHORAGE: Vessels of any size can anchor in the outer roads of the port. Recommended position 800 m. off Isla Tenglo buoy bearing 254°. In Winter bad weather, use of 2 anchors recommended.
RESTRICTIONS: Vessels not generally moored in hours of darkness. Vessels over 10,000 tons are restricted by tides. Unberthing and leaving port can be effected at night.
MAX. SIZE: At the quays: length 170 m., draft 24 ft. Tankers up to 25,000 d.w.t.
HEALTH: All ships are boarded by authorities on arrival unless coming from another Chilean port. In case of suspected disease on board vessel must advise authorities by radio before arrival.
RADIO: Radiocostera Puerto Montt, operating between 0800 and 1845 hrs.
TUGS: None available.
BERTHING: Effected in daylight hours only. Tankers moor at buoys in the Eastern part of the bay. The port was largely destroyed in the 1960 earthquake and as a result berthing at the new pier presents difficulties due to the remains of the old one, reducing the turning circle.

The new pier is at present 350 m. long, with plans to extend this to 500 m.
CRANES: There are 8 Portal cranes, six of 3 tons capacity and two of 5 tons. There is also a 20 ton mobile crane normally used for shore work.
STEVEDORES: Vessel should advise Agent before arrival the number of gangs required and amount of cargo for discharge.

Working hours are generally 0800–1200 hrs. and 1400–1800 hrs. Also see "General" before first port.
MEDICAL: All medical facilities available. Advance notice preferred if possible. Possible to obtain vaccination and inoculation certificates.
TANKERS: Tanker buoy mooring. Vessel moors using both anchors forward and two buoys aft. 10 in. submarine pipe-line, two 8 in. hoses connected. No slop facilities.
FRESH WATER: Available from the quays, at rate 10 t.p.h.
FUEL: Available by barge. Larger quantities obtainable at the tanker moorings, rate 100 t.p.h. Advance notice required. See "General" before first port.
DEVELOPMENTS: Outer berths are being dredged to a depth of 8.50 m.
OPENING/CLOSING HATCHES: It is obligatory to employ shore labour for this purpose.
CUSTOMS ALLOWANCES: Two cartons of cigarettes and two bottles of liquor for each man, which are to be declared in his personal effects.
CONSULS: Germany, Spain, and Netherlands are represented locally.
REPAIRS: Minor engine and electronic repairs can be effected.
REPATRIATION: Can be arranged.
AIRPORT: Situated 17 km. from the port. Daily flight to Santiago where international connections can be made.
TIME: GMT minus 4 hours. In Summertime: GMT minus 3 hours.
HOLIDAYS: Work may be arranged on most holidays. Also see "General" before first port.
POLICE/FIRE/AMBULANCE: Police: Tel. 2240; Fire 2888; Ambulance 2331.
SHORE LEAVE: Allowed.
AUTHORITY: Direccion Gobernacion Maritima de Puerto Montt.

PUNTA ARENAS: (Including Lenadura, Cabo Negro, Clarence Cove, Port Percy, Gregorio) 53.10 S. 70.54 W.

DOCUMENTS: See "General" before first port.
PILOTAGE: Compulsory for foreign vessels. Vessel entering from Pacific will usually embark Pilots in Valparaiso or any other nearest port. Vessels coming from the Atlantic embark Pilots in Bahia Posesion, 30 miles to the West side of the Eastern entry of Magellan Strait. Pilot vessel is a landing craft called "Concon" which has radio-telephone frequencies of 2,182 and 2,638 kc/s. Four hours before arrival of the vessel, the craft keeps watch on 2,182 kc/s. Craft carries International Pilot lights; the hull is black and yellow with white housing. ETA at Bahia Posesion has to be given at least 24 hours in advance. In bad weather, vessel to anchor and wait in Lat. 52° 17′ 5″ S., Long. 69° 12′ W. Pilots usually board near the buoy of Banco Narrow and disembark off the lighthouse of Punta Delgada.

The Pilot for West-bound vessels travels to Bahia Posesion by air from Valparaiso. It is therefore important to order the Pilot through Valparaiso Agent with as much advance notice as possible, and keep Agent closely advised of vessel's ETA.

For vessels transitting Magellan Straits Westbound, the Pilot will disembark at Valparaiso. Pilot's travelling expenses from and to Valparaiso are included in pilotage charges.

It is advisable to have the accommodation ladder rigged as the Port Authorities will board prior to berthing if cargo work is to commence immediately.
ANCHORAGE: Recommended anchorage area is 4-5 cables from the head of the Fiscal Quay, 11 fathoms depth. Anchorage is prohibited within 300 m. of the quay.
RESTRICTIONS: No tidal restrictions, vessels can come alongside day or night.
BERTHING: The pier is 372 m. long with 36 ft. depth at the seaward end, reducing to 28 ft. on both sides toward the land. Vessels berth bow first, and care must be taken to avoid the shallow patches on both sides of the jetty about 120 ft. off. Normally 4 headlines, 4 stern lines and 2 or 4 springs are used.

Berthing is usually at night or early morning as strong winds blow during the day, occasionally rising to Force 12 in the Summer. The port is often closed due to inclement weather.
Weather signals are shown at the north end of the pier.

Weather	Signal Day	Signal Night	Meaning
Variable	Black Ball	1 green light	Put out extra moorings
Bad weather	Flag M	1 red light	Put out extra moorings
Storm	Flag R	2 red lights	Port closed

Tankers: See below. No limits for vessels at anchor.

Magellan Straits: Max. draft 70 ft., no limit on d.w.t. tonnage for very large vessels. Vessels with a draft in excess of 70 ft. may be allowed to pass through but only after the authorities have studied the vessels characteristics. As a safety measure large vessels navigate the First Narrows in daylight only and with good visibility.
HEALTH: At first Chilean port, doctor will come aboard with Authorities. In other Chilean ports there is no need to ask for pratique or to hoist the "Q" flag as pratique is automatic.
RADIO: There are 2 radio stations: *(a)* CBM Radio Naval of Magallanes permanent watch on 500 kc/s. Telegraphy (A1). *(b)* CBM2 Radio Costera Magallanes operating from 0830 to 1830 hrs. on frequencies 4390, 8694 (transmitting) and 4085, 8360 (receiving).
TUGS: Not normally used to go alongside in Punta Arenas but only to berth in tanker terminals – ship's lines used.
STEVEDORES: Gangs to be requested 24 hours before arrival. Loading/discharge rate depends on type of cargo but can be estimated at an average of 15 tons/hour/gang. According to the working rules of this port, when a vessel starts its operations of loading or discharging without working overtime, it has to follow them for the whole time, but if it starts working with overtime, it must continue doing overtime every day.
MEDICAL: No advance notice to Agent required. There is a hospital with all facilities. International anti-smallpox vaccination required to go ashore.
TANKERS: There are the following terminals for tankers:

Lenadura: Position 53° 12′ S. 70° 54′ W. Max. length 160m., draft 30 ft., 18,000 d.w.t. Vessels moor to 3 buoys, 1 astern and 1 on each quarter, using both anchors. Ship's head Bearing 090°T. Manifold Connection 8 in.

Cabo Negro: Position 53° 01′ S. 70° 51′W. Max. length 170 m. Draft 30 ft., 25,000 g.r.t. Vessels berth port side alongside, using the starboard anchor, and a stern line to a warping buoy 180 m. off the jetty. The manifold hose is 10 in. Gas is loaded at 1,000 t.p.h. A tug is usually available for berthing.

A new pier is expected to be completed in 1978 to service a new liquefying plant and will handle vessels of up to 70,000 d.w.t.

Clarence Cove: Position 52° 55′ S. 70° 09′ W. Max. length 200 m. Max. draft limited by the entrance to the cove to 33 ft. Vessels berth to 4 buoys, using both anchors. 4 headlines, 3 stern lines, 4 lines to the starboard quarter buoy, and 3 to the port quarter buoy are required. A tug is available. Ship's head 255°T. There are two 8 in. hoses for loading and deballasting facilities will be available shortly.

Port Percy: Position 52° 54′ S. 70° 14′ W. Max. length 400 ft., draft 33 ft. vessels use both anchors, vessels head on 242°T. 10 lines are required to the 4 buoys, 3 headlines, 3 to the starboard quarter, 2 astern and 2 to the port quarter. Wires must not be used. There is a 10 in. line for gas loading, with a 6 in. return line. Load rate 250 t.p.h. A 4 in. line is also available for diesel. Load rate 50 t.p.h

Gregorio: Position 52° 38′ S. 70° 11′ W. Max. length 650 ft. Max. draft 42 ft. (subject to tidal conditions), 75,000 d.w.t. Vessels moor with Ship's head 232°T, using both anchors to 8 or 9 shackles. 14 mooring lines are required to 4 buoys. There are two 10 in. and 8 in. floating hoses for loading crude oil. Loading rate 1700 cu. m./hr. Deballasting facilities are being installed, although at present clean ballast must be discharged to the sea.
DENSITY: 1025.
FRESH WATER: Only available at Punta Arenas Quay through hoses at a rate of 8 t.p.h. In case of emergency it can be delivered by vessel of the Chilean Army, if advance notice is given.
FUEL: Only diesel oil available in Puerto Percy with advance notice of at least 7 hours. Also available ex-barge at Punta Arenas, capacity 300 tons (diesel). See "General" before first port.
FIRE PRECAUTIONS: Tankers are forbidden alongside at the quay.
DEVELOPMENTS: Port is being dredged to increase draft to 33 ft. in berths 1 North and 1 South.
GANGWAY/DECK WATCHMEN: Foreign vessels obliged to employ a watchman, except on Tanker Terminals.
OPENING/CLOSING HATCHES: Carried out by riggers. Crew from the vessel and stevedores not allowed to do this work.
CERTIFICATES: All international Certificates to be shown on arrival.
CUSTOMS ALLOWANCES: Quantity in possession of every member of the crew to be declared at the Customs.
IDENTIFICATION CARDS: Chilean International Police (Extranjeria) provides a provisional card to stay in the country. It has to be held each time a member of the crew goes ashore.

CONSULS:

Germany	Italy	France
Argentine	Norway	Great Britain
Austria	Paraguay	Peru
Belgium	Colombia	Sweden
Brazil	Denmark	Switzerland
Greece	Spain	Yugoslavia
Holland		

REPAIRS: "Asmar" (Astilleros de la Armada) has a shipyard for small vessels up to 1,500 tons as well as a good workshop to effect floating repairs. Some nautical spares can be found.
REPATRIATION: Facilities for repatriation, subject permission of International Police (Extranjeria) and Maritime Authority.
AIRPORT: Distance to airport 18 km. national airline (LAN). Daily flights from and to Santiago. Argentina Airlines fly to Argentine cities twice a week.
TIME: GMT minus 4 hours.
HOLIDAYS: See "General" before first port.
POLICE/AMBULANCE/FIRE: Maritime Police tel. 22356; Fire 21212, 21264; Ambulance 22658.
TELEPHONE: There is no connection on the quay.
SERVICES: Compass and gyro compass adjusting can be done.
SHORE LEAVE: Crew allowed to go ashore in all ports of the area. Crew must be in possession of provisional Identity Cards issued by police.
AUTHORITY: Maritime Governor of Punta Arenas.
SHIP MASTER'S REPORT: January/March 1976.
Documents required by Research Ships:-
Clearance from Last Port.
10 Crew Lists.
3 Nil Passenger Lists.
3 Nil Cargo Declarations.
1 Health Declaration.
6 Lists of Personnel disembarking.
2 Stores Lists from each department.
2 Bonded Stores Lists.
2 Crew Manifests.
Pilotage:-Vessel entered and sailed via Western end of Magellan Straits. No Pilot is available unless coming from the North. A radio message should be sent to "Commandante Naval Zona Terciera" requesting permission to proceed without a Pilot, giving ETA at Cabo Pilar and Punta Arenas. Messages should also be sent updating ETA and also when passing Cabo Pilar, the latter giving ETA at Paso Tortuoso and speed. This last information should be promulgated to "All ships". The reverse procedure applies when sailing.

Since we had not arrived with a Pilot on board, we waited for the Pilot about 0.25 mile off the jetty for docking. When we sailed, since it was a Saturday morning, I suggested we could manage without a Pilot for undocking. The Port Captain was agreeable to this, but he may have taken a different view had we been in a less convenient berth.
Time: Summertime is kept (GMT minus 3 hours), dates in force not known. (Ended 2nd weekend in March, in 1976).
Stores and Provisions:-Available in limited quantity and range, and very expensive. There is no ship chandler. The Agent's runner will take the Catering Officer around the shops and market, purchasing the items required, and arranging collection and delivery to the ship.
Bunkers:-Gas oil was obtained from Cabo Negro, a tanker terminal some 9 miles to the North. Vessel berthed alongside the jetty head of the terminal, designed for much bigger ships. There was no real problem with lines, although stern lines were very short nips. The forward lines ran to a dolphin connected to the jetty by a catwalk. The stern overhung the jetty head slightly. Docking and sailing can be done on slack water, but was straightforward, the starboard anchor being used to dredge down on to the jetty head, which lies East/West, with the prevailing wind blowing strongly from W.N.W. A boat is in attendance for running lines. Pilots are very capable and experienced. The berth may not always be available when the ship requires it, which might mean delays.

QUINTERO: 32.47 S. 71.33 W.

PORT LIMITS: The seaward limit of the port is a line running 052° from the lighthouse at Los Molles to Punta Ventanilla.
DOCUMENTS:
1 Outwards Clearance Certificate from the last port of call.
1 Certificate of Dues in respect of lighthouses and buoys.
5 Cargo Manifests for the port.
5 General Manifests for cargo.
5 Manifests for Cargo in transit.
4 Lists of Passengers for the port.
4 Lists of Passengers in transit.
10 Lists of Crew Members.
5 Lists of Personal Effects.
1 Fumigation Certificate.
1 Maritime Health Declaration.
PILOTAGE: Pilotage is compulsory, to all except very small vessels. Pilot and port officals board when vessel is inside port limits. Usually boarding between 0700 hrs. and 2200 hrs. The accommodation ladder should be rigged on the starboard side.

ETA should be sent to Agent 72 hours before arrival, with confirmation 24 hours before arrival. The message should state if any special service is required, and additionally Masters are requested to inform CAPUERTO, Quintero.

ANCHORAGE: Vessels may anchor within port limits. The bay is well sheltered with ample room for manoeuvring. Vessels should keep clear of the S.W. portion of the bay, due to rocky nature of the bottom, and of the prohibited zone indicated on the charts. Larger vessels may anchor West of Punta Liles lighthouse, where there are depths greater than 20 m. with sand and mud bottom.

The anchorage at Ventanilla is an open roadstead, exposed to S.W. winds and swell, with the possibility of dragging anchors, especially in the Winter months.
RESTRICTIONS: Quintero Bay is entered between Point Ventanilla and Point Liles, entrance 2.5 miles wide, with a bight extending 1.5 miles towards the S.E.

Point Liles is surrounded by submerged rocks and reefs for a distance of 2 cables.

Tankers discharging at the buoy terminals may be required to disconnect hoses in the event of bad weather, to avoid damage to the installation.
MAX. SIZE: *Enap S.B.M.:* up to 120,000 g.r.t.
Oil Multi-Buoy Terminal: up to 50,000 g.r.t.
Liquid Gas Multi-Buoy Terminal: up to 30,000 g.r.t.
Chilectra – Andina Quay: 160 m. LOA, draft 32 ft.
RADIO: The Naval Radio Station of Valparaiso also handles commercial traffic.

The Coastal Radio Service Station situated in the Port Captain's office, call sign CAPUERTO QUINTERO.
TUGS: No tugs available at Quintero, but they can be requested from Valparaiso, or through Agent.
TANKERS:
S.B.M. Quintero Terminal: The depth at the S.B.M. is 47 m. Max. size for berthing, length 342 m. Draft 25.5 m. (83 ft.). Manifold connection is 16 in. Ship's derricks must be rigged to carry a 12 ton lift. Max. pressure 200 p.s.i. Average discharge rate 8,000 t.p.h. for 25 API crude.

Gas berth: Max. size 15,000 tons. Max. draft 39 ft. Vessels drop both anchors, and moor to 3 stern buoys. Ship's head should lie on 285°. Hose connection 6 in. Discharge rate 240 cu.m./hr.

Vessels may moor or unmoor at any time at these terminals. Mooring warps must be more than 400 ft. in length.

ENAP S.B.M.: Max. draft 50 ft. Vessels berth to 3 stern buoys, using both anchors, ship's head on 305°. Manifold connection starboard side 10 in. Hose lift 6 tons. Normal pressure 100 p.s.i.
BULK HANDLING FACILITIES:
Chilectra Quay, Las Ventanas: Quay is 530 m. long with max. depth of 19 m. at the head of the quay.

Coal berth situated on the North side of the quay, equipped with mechanical discharging tower which loads up to 300 t.p.h.

The South side of the quay is used for loading copper concentrates, with the addition of 4 dolphins vessels up to 160 m., draft 30 ft., can now berth. Bulk grain can also be discharged here, although the loading tower, being fixed, requires vessels to shift berth to unload each hatch. The berth is exposed to a S.W'ly swell.
FRESH WATER: Available by barge from Valparaiso.
FUEL: Only available at Valparaiso. See "General" before first port.
MEDICAL: There is a small local hospital,and there is an ambulance service to Valparaiso. (20 miles away).
REPAIRS: Only minor repairs may be effected at workshops ashore.
CONSULS: Nearest at Valparaiso.
AIRPORT: Nearest commercial airports at Pudahuel and Cerrillos, near Santiago. Military airfield at Quintero may be used in emergencies, subject to necessary authorisation.
SHORE LEAVE: No restriction of shore leave. Crew must carry an Interpol Identity Card. Curfew at night. Also see "General" before first port.
TERMINAL OPERATORS: Empresa Nacional Del Petroleo (ENAP), Compania Chilean De Electricidad (Chilectra), Andean Mineral Company (ANDINA).
SERVICES: Food, laundry, etc. can be supplied.
REPATRIATION: Possible.
TIME: GMT minus 4 hours.
AUTHORITY: Quintero Port Captaincy.

SAN ANTONIO: 33.37 S. 71.37 W.

DOCUMENTS:
1 Customs Clearance Document.
2 Light Dues Certificates.
9 Cargo Manifests.
2 Crew Lists.
2 Passenger Lists.
2 Lists of Stores.
1 List of Personal Effects.
2 Baggage Declarations per passenger.
1 Fumigation Certificate.
PILOTAGE: As port is narrow, pilotage compulsory for entering or clearing the artificial port. Pilots board vessels about 1 mile outside the artificial port, weather permitting. Vessels should wait for Pilot in position bearing 159° and 1,800 m. from Panul Lighthouse.
ANCHORAGE: Vessels over 100 m. length must anchor in position bearing 240° and 1,400 m. from South mole beacon. Vessels under 100 m. length find good anchorage in sandy and muddy bottom, 20 m. deep in position bearing 240° and 650 m. from the above beacon. Only in event of bad weather or strong winds which prevent Pilot boarding vessels outside harbour vessels under 100 m. length can anchor inside North pool and wait for Pilot.

Mooring buoys: inside small or North pool, are 2 mooring buoys.

Fiscal Buoy: situated at 280° and 170 m. from head of Port Authorities' pier can be used for vessels up to 31 ft. draft.

PSNC Buoy: Property of shipping company, situated at 185° and 500 m. from above pier, can be used for vessels up to 40 ft. draft.

RESTRICTIONS: San Antonio is a narrow and a difficult manoeuvring port, entrance to artificial port is subject to weather conditions and during hours the port is open.

Entrance is effected during daylight only. In emergency and specific cases (weather permitting) this can be done up to 2000 hours. Sailing permitted any time, day and night, weather permitting.

RADIO:

Station call sign	Category	Frequency	Type	Receives	Transmits	Schedule
San Antonio	(S)	2 Mc/s.	A 3	2182	2182	2000 H15-30
CBS 2		4 Mc/s.	A 3	4117.2	4422.2	4422.2 H30-60

Local Station CBS2 on 8,360 kc/s. from 1400–1900 hrs. Telephone 0800/1100. However it is advisable to use Radio Play Ancha, Valparaiso. Maritime Control can now be contacted on Channel 16 VHF.

TUGS: 2 tugs available. LLO-LLEO and KIWI.

BERTHING: *Location of Berths:* Berths 1, 2 and 3 situated on the South Mole. Length 452.5 m. Max. depth of water 28 to 31 ft. at L.W.

Berths 6 and 7 situated on Central Pier. Length 322 m. Depth of water 12 to 28 ft. at L.W.

Two more berths are under construction.

Mechanised mole: situated at head of South mole, Berth 1 for mechanised discharge of coal and bulk cargo. Vessels up to 110 m. length can discharge without any difficulty. Vessels over this length will have to be shifted to work number 1 and 2 hatches provided Berth 2 is available. The max. draft is 30 ft. Discharge Rate 400 t.p.h.

Only when raining is work stopped. But as the ground swell is strong and the mole is not well protected, it is recommended that ships be provided with good fenders and moored in a secure manner.

Berth 1 has a grab discharge for coal, but is now mainly a grain berth. The tower travels over 100 m., but vessels may have to shift along the berth.

Central Pier: The Eastern side is used for tankers (Berth 6) and coastal vessels, Berth 7.

The Western side is out of use at present while extensions and improvements are made.

CRANES:

3 Coles cranes, 5 tonnes.
1 Coles crane, 20 tonnes.
12 Gantry cranes of 5, 7.5 and 10 tonnes.
9 Mechanical scoops.
18 Fork Lifts.
Railway trucks and lorries available on quayside.

STEVEDORES: 614 labourers, stevedores, tally-clerks, crane men, watchmen, etc. Cargo is worked expeditiously, especially copper. Port works from 0800 to 1430 and from 1430 to 2100 hrs.The rate of cargo handling capacity is as follows:

Loading: Copper 40–50 t.p.h. per hatch/gang.
Bagged cereals, 30–40 t.p.h. per hatch/gang.
General cargo, 30–40 t.p.h. per hatch/gang.
Discharge: Phosphates (bagged) 30–40 t.p.h. per hatch/gang.
Cereals 30–40 t.p.h. per hatch/gang with mechanical grabs.
General cargo, 30–40 t.p.h. per hatch/gang.
Mechanical scoop rate 50–80 t.p.h.

TANKERS: At Berth 6 there is a 12 in. manifold for luboils, and a 4 in. manifold for vegetable oils.

North Breakwater Mooring: Max. length 170 m. Draft 32 ft. Vessels berth to a stern buoy, hose comes on board on the starboard side. The tanks at present take caustic soda, but are being converted for petroleum and chemical products.

MEDICAL: Hospital with 100 beds and necessary surgeons.

FRESH WATER: All berths equipped with standpipes to supply fresh water direct to vessels at a rate of about 10 t.p.h., but during day rate may be less due to low pressure.

FUEL: Coal: in case of emergency, coal can be received by railway car from the mechanised plant at berth A, or by lighters.

Fuel can be supplied to vessels in case of emergency provided this is requested with sufficient advance notice. Also see "General" before first port.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: Done by stevedores.

IDENTIFICATION CARDS: Required.

CONSULS: Brazil, France, Norway, Sweden and Italy.

REPAIRS: Three workshops; several slipways for repair of small craft.

REPATRIATION: Facilities exist.

AIRPORT: At Pudahuel near Santiago, national and foreign airlines services.

TIME: Local time GMT minus 4 hours.

GENERAL: *Fumigation:* All vessels arriving with a complete cargo of cereals are compelled to be fumigated according to Chilean law. To effect this, vessel is tied up at North mooring buoy. Only the hatches are fumigated and all crew members must go ashore.

Fumigation takes about 18-20 hours. It is recommended these vessels arrive provided with strong ropes (special nylon) and good fenders as protection against heavy swell.

SHORE LEAVE: Allowed. Also see "General" before first port.

DELAYS: S.W. winds generally blow at dawn calming at sunset, leaving a heavy and strong swell in the bay. It is therefore recommended to arrive at the port daybreak from September to March, so as to enter the artificial port immediately. South winds also develop a Northerly current. Fogs are frequent from November to March.

AUTHORITY: Empresa Portuaria de Chile.

SAN VICENTE: 36.44 S. 73.08 W.

DOCUMENTS, HEALTH, etc. See "General" before first port.

PILOTAGE: Compulsory. Pilots board at anchorage in Bahia San Vicente. Pilots will designate anchorage. The accommodation ladder must be rigged if the vessel is at anchor awaiting berth as the Port Authorities will board.

RESTRICTIONS: Daylight only berthing and unberthing.

TUGS: None available.

BERTHING: *Comap-buoy Berth.* Vessel moors with both anchors forward and lines to 2 buoys astern 2×10 in. lines connected starboard side midship. 10 in. hoses 70 p.s.i. backpressure. Gas oil, fuel and kerosene handled.. No slop line.

Hauchipato Steel Mill. Vessel moors stern on to jetty – discharge through stern line. One 6 in. line, 6 in. hoses, 120 p.s.i. backpressure fuel oil only. No slop line.

Cap Pier: Present length 165 m. Depth: 30 ft. 6 ins. North side: 24 ft. South side.

Vessels berth bow Westward, using starboard anchor at the North berth, port anchor on the South berth, usually 10 shackles on the windlass. Stern buoys are used for berthing, and 8 ropes of at least 100 fathoms length will be required, as well as 4 springs. The discharge tower on the South side has a travel of 147 m., and a total clearance at LWST of approximately 62 ft.

General Cargo Berth: Present length 440 m. Future extended length 600 m. Depth alongside 40 ft. Berth has two grain discharge towers, discharge rate 200 t.p.h. each.

TANKERS: *Berth A.* Vessels berth using both anchors to 7 shackles, and 3 stern lines to each buoy. 1 astern, and 1 on each quarter. Ship's head should lie on 235°. Max. length 120-150 m. 1 tug and 1 mooring launch required. There are two 8 in. hoses used for loading bunkers.

Berth B. Similar berthing procedure to A. Ship's head should lie on 230°T. 4 stern lines are required for the port quarter buoy. Max. length 250 m. Depth 42 ft. Two 8 in. lines for crude discharge, or loading fuel oil. Pressure 15 kg./sq.cm.

Berth C. Berthing similar to Berth A. Ship's Head 235°T. Starboard anchor to 9 shackles. Port Anchor to 7 shackles. Max. length 200 m. Two 8 in. lines, 1 for discharging crude, loading fuel oil, and for loading products or discharging gas.

Berth D. Similar to Berth A, though 2 lines are required to each buoy. Ship's head lies on 270°. Vessels must use chain to the final shackle on both anchors. Max. length 120 m. One 8 in. gas line. Discharge rate 1,200 cu.m./hr.

DENSITY: Salt water.

FRESH WATER: Only available at the CAP pier by 2 in. line.

FUEL: Not available, except at Berth A. See "General" before first port.

DEVELOPMENTS: New Oil Terminal. Expected to open in 1977. Situated near the Gualpen Light. It will be for 60,000 d.w.t. tankers. The jetty will be 270 m. long, and used for crude oil discharge.

TALCAHUANO (including Concepcion Bay): 36.42 S. 73.07 W.

DOCUMENTS: See "General" before first port.

PILOTAGE: Compulsory. Pilot boards vessel near Belen Lighthouse, 3 cables distance.

ANCHORAGE: Each berth has its own distinct anchorage point.

Berth	Anchorage	Bearing	Depth
Berth 2	Huascar	101° × 600 m.	21 ft.
Berth 3	,,	101° × 900 m.	24 ft.
Berth 4	,,	101° × 1200 m.	27 ft.
Berth 5	,,	101° × 1500 m.	30 ft.
Berth 6	,,	088° × 1000 m.	30 ft.
Berth 7	Mole 500 (Sth. Encl.)	104° × 820 m.	28 ft.
Berth 8	,, ,,	136° × 400 m.	21 ft.
Berth 9	Explosives Anchorage	36°06′S. 73°04′08″W.	

Vessels in quarantine are moored 182° from Belen Lighthouse and 7 cables distant. Vessels carrying explosives are moored in same direction but 9 cables from Belen Lighthouse.

RESTRICTIONS: Port works from 0800 hrs. to 1200 hrs. and from 1400 hrs. to 1800 hrs. Only 6 vessels can moor alongside quay at one time.

MAX. SIZE: Vessels of 28 ft. draft and 195 m. in length can moor on the East side.

RADIO:

Station call sign	Category	Frequency	Type	Receives	Transmits	Schedule
Talcahuano	(S)	6 Mc/s.	A 1	6265	6414.5	H00-30
CBT-4		4 Mc/s.	A 3	4085.2 6280	4390.2	H30-60

TUGS: Port has 2 tugs, one of 120 h.p. and the other of 115 h.p., Shipyard has 2 tugs each of 600 h.p.

BERTHING: *Fiscal Pier:* Length 400 m. The old pier is now being rebuilt and extended.

Berth 1. Max. draft 28 ft. Berth 2 Max. draft 26 ft., but being increased to 28/30 ft.

Mole 500/Naval Pier. Max. vessel size: Length 230 m. Draft 27 ft. 4 headlines, 4 stern lines and 2 springs required. Ships gear used for cargo handling.

Passenger Mole: At a distance of 80 m. from the Fiscal Quay and on the Blanco Encalada Mole is the Passenger Pier with concrete steps for passenger traffic.

Chacabuco Quay: Situated in the Inner Harbour for repairs. Vessels up to 21 ft. draft can moor. No railway line or cranes, therefore vessels must work with own derricks to vans. "Asmar" tugs are used for mooring.

Concepcion Bay:

Lirquen Private Pier: Pilot boards off the end of the pier. Max. length 180 m. Vessels use maximum chain on both anchors, ship's head lying on 340°T, and a stern quarter buoy is used. Vessels require 4 headlines, 4 stern lines, and 4 springs.

Penco Private Pier: The pier is 1700 m. long ending in a platform on which stands a fixed base rotary crane. Vessels bows lie on 348°T, both anchors used to final shackle. There are 4 buoys, 1 on each bow, 1 astern, and 1 on the starboard quarter. Vessels also tie up to 3 dolphins on the East side of the pier. 12 × 600 ft. mooring lines are required and also 2 springs. A tug is required. The berth is exposed to strong Northerly winds, and vessels must be prepared to leave at short notice.

CRANES: 4 × 5 ton Portal crane on the Fiscal Pier. One floating crane 180 tons. One mobile crane 30 tons.

STEVEDORES: 12 gangs available. Loading: assorted goods 12 t.p.h./gang/hatch. Cereals 25 t.p.h./gang/hatch. Timber 100 t.p.h./gang/hatch. Newsprint 20 t.p.h./gang/hatch.

Discharge: assorted goods 12 t.p.h./gang/hatch. Bagged cargo 25 t.p.h./gang/hatch.

When loading is carried out by means of lighters, this is usually done from privately owned moles belonging to the principal commercial firms of the port from their warehouses situated inside the Morro Channel. Working hours are 0800-1430 and 1439-2100. Also see "General" before first port.

MEDICAL: Public hospital with board and sanatorium for infectious/contagious diseases. In addition, private clinics and a naval hospital.

FRESH WATER: Occasionally available on berth 2.

FUEL: Can be supplied only to vessels moored alongside quay and this in small quantities up to 100 tons, by means of cistern-truck or in drums. Also see "General" before first port.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: Done by stevedores.

IDENTIFICATION CARDS: required.

CONSULS: Brazilian and Norwegian consulates. At Concepcion the following:

Argentine	French	Paraguayan
Belgium	Finnish	Panamanian
Bolivian	Guatemalian	Peruvian
British	German	Swedish
Colombian	Dutch	Swiss
Danish	Honduran	Spanish
Ecuadorian	Italian	Uruguayan
El Salvadorian	Mexican	Venezuelan

REPAIRS: "Asmar" or the navy workshop has capable personnel and modern equipment to effect all kinds of repairs, not only to hull, but also to engines, boiler plates, welding, carpentry and electrical works. Chilean Navy has high-sea tugs to effect salvage and assist vessels in danger. 3 private-owned workshops, which can effect small repairs to vessels afloat. Several slipways for construction and repair of small craft.

DRY DOCKS: Naval shipyard and workshops have 2 dry docks, Dock number 1 is 180 m. long by 30 m. wide (605 ft. long by 57 ft. wide). Dock number 2 is 250 m. long by 40 m. wide (800 ft. long by 110 ft. wide).

Two floating docks: one 200 ft. long by 30 ft. wide for vessels up to 1,000 tons, and the other 333 ft. long by 50 ft. wide for vessels up to 3,500 tons. There is also a workshop for repairs to be effected afloat. There are 6 anchored mooring buoys used by vessels when entering Dry Dock 2.

REPATRIATION: Good facilities exist.

AIRPORT: Hualpancillo is situated between Talcahuano and Concepcion, 7 km. N.W. of Concepcion. Lan-Chile has connections from this airport with all the towns of the country from Arica to Punta Arenas and abroad.

TIME: Local time is GMT minus 4 hours.

SHORE LEAVE: Allowed.

GENERAL: South wind affects vessels only when moored outside the port zone. Weather signals are indicated on Signal Station of Port Authorities' Building.

AUTHORITY: Empresa Portuaria de Chile.

TALTAL: 25.24 S. 70.29 W.

DOCUMENTS: See "General" before first port.

PILOTS: No official pilot station at Taltal. If professional assistance required vessel should give ETA 24 hours in advance via Valparaiso Radio. Pilot boards at the anchorage. International code signals used. Harbour Master's office can be contacted by radio-telephone on the following frequencies: 2152, 2708 and 4396.6 kc/s.

ANCHORAGE: Sheltered deep-water anchorage suitable for any size vessels. Locations of designated areas marked on the chart.

RESTRICTIONS: Port closed in Summer from 2000 to 0600 hrs; in Winter from 1900 to 0700 hrs.

MAX. SIZE: Limited only by depths in anchorage.

HEALTH: Vessel boarded on arrival by Health Inspector.

RADIO: Radio Naval de Valparaiso or Radio Naval de Arica. Use CBT on 2182 kc/s. and 2783 kc/s. A3 on the half hour from 0800 to 1800 hrs.

TUGS: One privately owned tug may be called on to assist if necessary.

BERTHING: No berths alongside shore. Vessels work cargo in open anchorage. One buoy berth for tankers. Mooring, unmooring in daylight only. 6 in. hoses for discharging fuel and diesel.

STEVEDORES: At least 24 hrs. advance notice of ETA required to arrange gangs. Also see "General" before first port.

TANKERS: *Caleta Ossa Mooring Berth:* Vessels berth to 2 stern buoys, using both anchors. Ship's head on approximately 225°T. Depth of water 47 ft. A Pilot is required and comes from Antofagasta.

Antofagasta.

MEDICAL: Doctors and hospital facilities available. Advance notice desirable.

FRESH WATER: Not available.

FUEL: Not available.

IDENTIFICATION CARDS: Required by all crew members.

CONSULS: There are no local representatives.

REPATRIATION: No facilities for crew change or repatriation.

AIRPORT: Situated 25 km. away. Four internal flights a week, two Northward and two Southward.

TIME: GMT minus 4 hours.

HOLIDAYS: See "General" before first port.

TELEPHONES: There is no telephone service.

SHORE LEAVE: Allowed.

AUTHORITY: Capitania de Puerto.

TOCOPILLA: 22.05 S. 70.11 W.

DOCUMENTS: See "General" before first port.

ANCHORAGE: A good anchorage can be found 3 cables N.W. of the moles.

PILOTAGE: Compulsory. Pilot will board at any time 7 to 10 cables North of the moles.

MOORING: The port has three buoys for mooring vessels of any tonnage, and which are used exclusively by ships discharging or loading general cargo and bagged nitrate, two buoys for the discharge of oil carriers. The depth of these moorings range from 15 to 30 m.

RESTRICTIONS: Ships are boarded by Pilot and Port Authorities up to 2100 hrs. On special request from the Agent, vessels are received up to midnight.

HEALTH: On arrival vessel boarded by Sanitary surgeon, who will grant full Sanitary Pratique valid for all Chilean ports of call in the present voyage. In cases of suspected disease he will determine if patient or patients should be removed to local hospital, and if feasible declare the affected vessel Sanitary cleared.

RADIO: All calls should be directed via Arica or Iquique Naval Radio Station.

TUGS: No tugs are used for mooring or unmooring of ships.

BERTHING: All berthing is done during daylight; night time only on special occasions, and by Agent's request.

Nitrate Plant: Max. draft 38 ft. The telescopic arm can rotate and deliver over a length of 160 m. Rate 1,000 t.p.h. Vessels must have their cargo gear swung out to starboard prior to loading. Vessels berth port side alongside.

Sulphate Mooring Berth: Vessels berth to 3 stern buoys using the starboard anchor. Ship's head on 276°T.

Lighters' Berths: Vessels berth to a stern buoy, using starboard anchor, ship's head on 265°T. There are 3 berths 410 m., 610 m. and 810 m. North of No. 1 mole.

The port has 36 lighters. Working hours 0700–1100, 1300–1700 and 1700–2400.

STEVEDORES: Number of gangs required for loading and/or loading operations should be radioed 24 hours in advance, indicating last ETA. Also see "General" before first port.

MEDICAL: In case of urgent need of a surgeon on arrival the Master should request medical assistance by radio to Agent and/or Port Captain. Hospital available with moderaee s.

TANKERS: Two buoys used for oil discharge. One of them belongs to Chile Exploration Co. and operates with two lines of 8 in. diameter each line, the other buoy is property of Sociedad Quimica y Minera de Chile S.A. and has two lines of 8 in. diameter for discharge of oil, and one line 4 in. in diameter for diesel oil only.

Power Station Oil Terminals: Vessels berth stern onto a buoy with 2 stern ropes, and a further 3 stern lines are passed ashore. Both anchors are required and ship's head lies 270°T. Depth of water 44 ft. Fuel oil is discharged through to 8 in. flexible submarine hoses. Max. length 220 m. Draft 38ft.

The manifold should be not more than 80 m. from the stern.

FRESH WATER: None available.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Recommended to employ services of a deck or gangway watchmen.

OPENING/CLOSING HATCHES: Ship's crew not allowed to work in port opening or closing hatches. Riggers' Union should be employed, one foreman and eight riggers.

CERTIFICATES:

Tonnage.
Deratisation.
Radio.
Chilean Light Dues Certificate.

CUSTOMS ALLOWANCES: No special restrictions.
CARGO GEAR: Gear that complies with standard Port Safety Regulations.
IDENTIFICATION CARDS: Not necessary.
CONSULS: Only Norwegian Vice-Consulate.
REPAIRS: Facilities only for minor repairs.
REPATRIATION: There are facilities.
AIRPORT: Served by Chilean Airways, located very near the town. It can be reached by motor-car in 15 minutes.
TIME: Local time GMT minus four hours.
HOLIDAYS: See "General" before first port.
POLICE/AMBULANCE/FIRE: Police Headquarters 32; Hospital 231; Fire Department 84.
TELEPHONES: No facilities for placing telephone lines aboard.
SHORE LEAVE: Allowed.
REGULATIONS: Not allowed to pump oil or dirty water from bilges or throw rubbish overboard while anchored.
DELAYS: Probable on surf days, mainly in the months of June, July and August.
AUTHORITY: Sociedad Quimica y Minera de Chile S.A.

VALPARAISO: 33.02 S. 71.39 W. (See Plan)

DOCUMENTS:
1 Clearance.
1 Light Dues Certificate.
7 Port Caroo Manifests.
4 General Cargo Manifests.
7 Transhipment Cargo Manifests.
3 Passenger Lists for the Port.
3 Passenger Lists for Transit.
18 Crew Lists.
1 Personal Effects List.
Passenger Baggage Declaration (2 per passenger).
1 Fumigation Certificate.

PILOTAGE: Compulsory. Pilot must be waited for in position bearing 116° and 1,830 m. from Punta de Angeles Lighthouse.
ETA: Port Authorities require 24 hour, and 4 hour notice prior arrival.

Prior berthing, vessels have to be cleared by Port Authorities. After 2100 hrs. Authorities will not come on board and ship has to wait until the next morning.
ANCHORAGE: Outside the harbour and close by vessels find good anchorage in 25–15 fathoms of water. It is always prudent to secure a good anchorage owing to possible strong winds during all periods of the year and causing heavy swells.

In Winter, vessels anchor with one anchor with full chain and have another ready for emergencies. During Winter it is not convenient to anchor near the coast due to the risk of dragging; during Summer the nearer to coast, the better.

With the object of keeping clear the entrance to Valparaiso Bay and to assure a proper anchorage when arriving at this port, the Harbour Master has fixed the following anchorages according to arrival, so that vessels may proceed to berth in order of arrival.

Anchorage No.					
1	104°	True and	980 m.	from breakwater's	red light.
2	099°	,,	1,400 m.	,,	,,
3	079°	,,	820 m.	,,	,,
4	083°	,,	1,220 m.	,,	,,
5	056°	,,	980 m.	,,	,,
6	066°	,,	1,340 m.	,,	,,
7	070°	,,	1,730 m.	,,	,,
8	041°	,,	1,250 m.	,,	,,
9	052°	,,	1,550 m.	,,	,,
10	059°	,,	1,900 m.	,,	,,

If any vessel does not occupy the anchorage assigned, she shall be shifted by a Pilot of the Harbour Master's Office for Account of Owners.

Should the ten anchorages be occupied when vessel arrives, a provisional one shall be expressly given by the Harbour Master's Office to the vessel that requires it.
RADIO: Naval Radio Station of Valparaiso in Playa Ancha which attends the public maritime service. Coastal Radio Service (SRC) with its station situated in the Port Captaincy Building, also attends the public maritime service, both national and foreign (CB V-2).

Station Call Sign	*Category*	*Frequency*	*Type*	*Receives*	*Transmits*	*Schedule*
Valparaiso		8 Mc/s.	A1	8354	8478	H00–30

Berth No. 8	700 ft.	79 ft.	32 ft.
Berth No. 9	550 ft.	75 ft.	29 ft.
Berth No. 10	490 ft.	75 ft.	29 ft.

Berthing in Daylight only.
STEVEDORES: The stevedoring syndicate has 397 registered members and 108 substitutes. Working hours are 0800–1430, 1430–2100.
MEDICAL: Several hospitals and clinics with qualified staff.
FRESH WATER: Delivered by hoses connected to the existing standpipes. The quality of the water is good and can be delivered at the rate of approximately 20 t.p.h. The couplings are 2.5 in.
FUEL: Coal: The Lota-Schwager Coal Company can deliver coal direct to vessels or trucks from quay or lighters.

Oil: Copec, Shell Chile, or Esso Standard Oil deliver petroleum or diesel oil in any quantity needed by pipe-line at Salinas, approximately 5 miles North of the port, mooring vessel in 7 fathoms water to special buoys and embarking a Pilot at Valparaiso Port. Delivery is at a rate of 180–200 t.p.h. There is also a barge with a capacity of 180 tons for delivery in Valparaiso Bay itself. Diesel oil can be delivered from tank cars by pipe at the quay.
GANGWAY/DECK WATCHMEN: Available and are to be used by Law.
OPENING/CLOSING HATCHES: To be carried out by the stevedores by Law.
CUSTOMS ALLOWANCES: No unusual restrictions.
IDENTIFICATION CARDS: Required.
CONSULS: General Consulates:

Argentina	Germany	Panama
Bolivia	Greece	Peru
Brazil	Guatemala	Spain
Columbia	Italy	Sweden
Ecuador	Norway	Venezuela

Consulates:

Belgium	Great Britain	Paraguay
Cuba	Haiti	Santo Domingo
Denmark	Holland	Switzerland
El Salvador	Honduras	United States
Finland	Monaco	Uruguay
France	Nicaragua	

REPAIRS: Several shipyards, workshops and foundries for repairs to hull, boilers, machinery and engines. The principals are Astilleros y Maestranza Las Habas which have their own quay, tugs, lighters and working equipment afloat, and Asmar, belonging to the Navy. There are several other smaller shipyards for construction and repair of minor craft.
DRY DOCKS: Floating dock, vessels up to 4,500 tons, 365 ft. length by 56 ft. breadth and a depth of 20 ft.
REPATRIATION: Facilities available.
AIRPORT: International airport at Pudahuel, 90 km. from Valparaiso. Los Cerrillos is the nearest airport. From Pudahuel, Lan-Chile maintain daily services to Arica to the North and to Punta Arenas with stops at all the principal towns.
TIME: Local time October to March, GMT minus 5 hours. March to October, GMT minus 4 hours.
HOLIDAYS: See "General" before first port.
SERVICES: Compasses, radars, meteorological instruments and other nautical equipment can be tested and fixed. Charts and maps can be obtained from the Chilean Navy Navigation and Hydrographic Department.
SHORE LEAVE: Allowed.
WEATHER: A weather report showing the condition at various points off the coast of Chile can be obtained from the Oficina Meteorological Chile twice a day. A general rule for the next day's forecast: the weather condition at Juan Fernandez Islands will be 24 hours later than the conditions at Valparaiso.
PORT REGULATIONS: It is strictly prohibited to dismantle the main engine or effect repairs to the engines without previous notification and authorisation from the Maritime Authorities. Also, to unballast petroleum pump bilges, throw overboard waste or refuse in the artificial port.
PORT AUTHORITY: La Empresa Portuaria de Chile.

Chinese People's Republic

Up-to-date information of port entry requirements for Ports in the Chinese People's Republic are unobtainable.

We have been advised by the Head Office of the China Ocean Shipping Agency at Peking that Ship Masters of foreign vessels calling at Chinese Ports should contact the Branch Office at the Port concerned (cable address "Penavico") in order to be provided in due time with necessary information relating to port entry requirements.

We hope that in due course all necessary information will be passed to us by the Authorities and should this be the case, such information will be included in later editions.

DOCUMENTS:

First Port

1 Maritime Declaration of Health.
2 Reports of Entry for foreign ships.
6 Crew Lists.
1 List of Specified Articles (money, gold and silver).
1 Report of Articles Restricted for use in Port.
4 Passenger Lists (if carrying passengers).

Subsequent Ports

1 Report of Entry for Foreign Ships.
5 Crew Lists.
1 Report of Articles Restricted for use in Port.

The list of money, etc., is carried with the ship from the first port.

All forms used to be Chinese. Navigational charts to be put away when boarded by Pilot and examination officer and boarding party.

SHIPMASTERS REPORT:

The following information was received from a Master whose vessel was on charter to the China National Chartering Corporation, Peking.

Regulations governing the passage of non military foreign vessels through the Chiungchow Straits.

Article 1. According to "The Declaration of the Government of the People's Republic of China on China's Territorial Seas, the Chiungchow Straits (the Hainan Straits) are Chinese inland waters, where all foreign military vessels are prohibited from passing through. Any non military foreign in need of passing through the Straits must apply for permission in accordance with the present Regulations.

Article 2. For facilitating the control of the Chiungchow Straits, the Chinese Chiungchow Straits Authority of the People's Republic of China (hereinafter referred to as the Chinese Chiungchow Straits Authority) is hereby set up.

The present Regulations are to be carried out under the supervision of the Chiungchow Straits Authority.

Article 3. The water area which comes under the control of the Chiungchow Straits Authority (hereinafter referred to as the Control Area) is bounded temporarily as follows: West of the line connecting the Hainan Head Light Beacon (approx: 20° 09′ 37″ N. 110° 41′ 00″ E.) and San Kao Lung Light Beacon (approx: 20° 26′ 00″ N. 110° 30′ 22″ E.) (known as the East Line) and East of the line connecting Cape Kami Light Beacon (approx: 20° 13′ 30″ N. 109° 55′ 30″ E.) and Cape Lin Kou Light Beacon (approx: 20° 00′ 22″ N. 109° 42′ 06″ E.) (known as the West Line).

Article 4. Any non military foreign vessel passing through the Chiungchow Straits must comply with the following procedures:

1. Apply for passage permission by cable to the Chiungchow Straits Authority 48 hours before the vessel enters the control area, or before the vessel leaves the port of departure, giving detailed information on ship's name, nationality, gross tonnage, speed, hull colour, funnel marks, port of departure and destination as well as date and time of sailing.

2. After obtaining the passage permission, inform the Chiungchow Straits Authorities 24 hours before entering the control area or within 2 hours after vessel port of departure of the exact time of entering the control area.

All cables relating to the application and permission for the passage through the Straits are to be transmitted through the Haiou Branch of China Ocean Shipping Agency.

Article 5. Notification may be given by the Chiungchow Straits Authority, whenever it deems necessary, to cancel the permission already granted to those non military vessels for passing through the Straits.

Article 6. Passage through the control area by non military foreign vessels should be made in the day time only. They should enter the control area after sunrise and leave before sunset. On the basis of the ship's speed the Chiungchow Straits Authority shall fix the time for the non military foreign vessel concerned to enter or leave the Straits.

Article 7. Non military foreign vessels entering and leaving the Chiungchow Straits should pass through the middle channel, unless special permission has been granted by the Chiungchow Straits Authority.

Article 8. Non military foreign vessels passing through the control area should navigate within the following specified navigation area: North of the line connecting the point on the East line 4 nautical miles away from the Hainan Head Light Beacon to the point on the West line 4 nautical miles away from the Cape Lin Kou Light Beacon; and South of the line connecting the point on the East line 6 nautical miles away from the Hainan Head Light Beacon, the point 4 nautical miles due South of the Cape Paimi Light Beacon (approx: 20° 15′ 00″ N. 100° 17′ 00″ E.) and the point on the West line 14 nautical miles away from the Cape Lin Kou Light Beacon.

Article 9. Non military foreign vessels passing through the Chiungchow Straits must punctually observe the time as reported and comply with the stipulations on the limit of the navigation area. All vessels entering and passing through the control area should immediately answer and unconditionally comply with the signals from the shore or patrol ships. The vessels in question shall be held responsible for all consequences arising from non observance of the above stipulations.

Article 10. Non military foreign vessels passing through the Chiungchow Straits are not allowed to use radar. If the vessels are under the conditions of restricted visibility caused by dense fog, torrential rains, etc., which necessitates the use of radar, they should make an application to the Chiungchow Straits Authority, giving their reasons as well as the ship's position, speed, etc., and they may set ship's radar in operation when permission is obtained. In the case of emergency which endangers safety navigation of the ships, they may use their radar while making their application simultaneously; after that, they should submit a detailed account (report) to the Chiungchow Straits Authorities giving a full account, together with a statement of facts of the time as to when the radar set in use and when ended for the archives.

Article 11. Non military foreign vessels in passing through the Chiungchow Straits are not allowed to take photographs, soundings, or do any other things in violation of the laws and regulations of the People's Republic of China.

Article 12. Any non military foreign vessel violating the present Regulations shall be treated as follows:

1. Before entering the control area, the vessel may be ordered to stop proceeding and to round out by her original route, so as to sail around the Hainan Island; or, to wait until the necessary formalities are completed and the permission for passage granted.

2. In case the vessel has entered the control area, she may be ordered to stop and escorted to Haikou for inspections; and she shall be treated according to the findings after inspection. After that, the vessel may, as circumstances require, be allowed to pass through the control area, or ordered to return out from the control area, or even be escorted out of the Straits.

Regulations governing entry and departure of foreign vessels into and from Chinese Ports.

1. In addition to the Provisional Law Governing Customs and other relevant laws and regulations of the People's Republic of China, these Regulations shall be observed by all foreign vessels entering or leaving Chinese port(s).

The word "Port" named therein denoted Port(s) open to foreign vessels as approved by the Ministry of Communications of the People's Republic of China.

2. Masters of foreign vessels shall report to the Harbour Authorities through their port Agents a week prior to the vessel's arrival at the port of call (or if the time of run from the last port called at to the port of call is less than a week, then prior to vessel's departure from the port last called), of vessel's ETA, fore and aft draft on arrival, number of passengers and quantity of cargo on board for entry formalities. Masters are again to report 24 hours in advance to the Harbour Authorities through their port Agents, the exact time of vessel's arrival.

3. On entering or leaving port, foreign vessel's shall display the required signals and, in daytime, hoist their respective national flags.

4. On entering or leaving port, foreign vessels are subject to quarantine examination conducted by the Quarantine Authorities in accordance with the Frontier Quarantine Regulations.

5. Foreign vessels are not allowed to enter or leave port, or to navigate or to shift berths in the harbour without Pilots appointed by the Harbour Authorities.

6. On entering or leaving port, foreign vessels are subject to inspection by the local Harbour Authorities and other organizations in charge of inspection, in accordance with the provisions under the "provisional Regulations Governing Inspection of the Ship, Crew, Passengers and Baggage on Vessels Entering or Leaving Port".

7. After entering the port, Masters of foreign vessels shall submit to the Harbour Authorities a list showing description and quantity of arms and ammunitions onboard and of such articles as mentioned under item (b) of this article and shall observe the following provisions:

(a) Arms and ammunition to be sealed while in port;
(b) Radio transmitter, radio telephone, radar, radio direction finder, echo sounder, sextant, signal rocket, flare signal and signal gun shall not be used in the harbour.

In case of emergency or for despatching urgent messages, such articles as mentioned under item (b) may be used, but report shall be submitted to the local Harbour Authority immediately after using same.

8. After having berthed in port, Masters of foreign vessels shall prepare the foreign vessels Entry Report, Crew List, Passenger List and Import Manifest and submit same to the Harbour Authorities for checking up, at the same time, Masters shall submit the Certificate of Port Registry, Ship's Deck Log Book, Engineroom Log Book and other papers for examination.

Prior to the departure of foreign vessels, Masters are to prepare the foreign vessels Departure Report, List of Crew Replacement (Not required if no change made), Passenger List, and Export Manifest and submit same to the Harbour Authorities for clearance.

9. After the inspection has been conducted by authorities concerned, Crew members of foreign vessels, who wish to go ashore, may apply to the Frontier Inspection Office for landing permit.

10. No passengers and Crew members of foreign vessels are allowed to photograph and/or make sketches in the harbour.

11. While entering or leaving port or shifting berth in the harbour, foreign vessels are not allowed to take any other sounding than that

taken by means of handlead with the consent and under supervision of the Pilot.

12. In case foreign vessels are involved in marine accident along the China coast, Masters are required to submit marine Accident Report to the local Harbour Authorities within 48 hours after vessel's arrival, should the accident happen in port, such report shall be submitted immediately.

13. The Harbour Authorities may prohibit foreign vessels from leaving port under any of the following circumstances:—

1. Violation of regulations governing safety and technical requirements such as those in connection with ship's papers, seaworthiness, stowage, supply and equipment or provisions of other regulations.
2. Failure to pay for any of the following:
   (a) Port charges and expenses;
   (b) Fines imposed upon the vessel on account of violation of laws and regulation.
   (c) Compensation for damage done to harbour structures, navigation aids or to other properties in the harbour.

Foreign vessels may be released upon producing appropriate security sufficient to cover the payment of above items.

14. The Regulations, after being approved by the State Council shall become effective upon promulgation by the Ministry of Communications. The "Provisional Regulations governing the entry and departure of foreign vessels into and from ports of the People's Republic of China" promulgated by the Minister of Communications on the 20th March 1952 shall at the same time be repealed.

Guide to foreign vessels calling at Shanghai

1. Regular channel in Chusan area: Foreign vessels may navigate in the regular channel between Chusan and Raffles Island which is open to navigation, but are not allowed to navigate in other channels between these islands. (By the regular channel is meant the channel from Tongting Island, Steep Island, Elgar Island, Bonham Island, Button Island, Gutzlaff Island to Chang Kiang Kou).

2. Pilotage Area:

(a) Pilotage on vessels entering/leaving port commences from/termination at the position 31° 05′ N. 122° 10′ E. at Chang Kiang Kou.

(b) The pilot vessel, when engaged on her pilotage duty, will anchor near 1 mile east of the entrance buoy No. 54 (31° 04′ 52″ N. 122° 10′ 00″ E.) at Chang Kiang Kou.

3. Anchorage awaiting for the tide:

(a) Foreign vessels may, when the draft at the time of entry is 25 ft. or less, proceed direct to the pilot station (31° 05′ N. 122° 11′ 30″ E.).

(b) In the case of draft at time of entry is more than 25 ft. or it is impossible to arrive at the pilot station at the declared ETA or impossible to proceed direct to the pilot station for reasons of the tide, then the foreign vessels may anchor and wait for the tide near 1 mile N.E. of the Chang Kiang Kou Lightvessel. Such foreign vessels waiting there may telegraph to ask "Penavico" Shanghai for the time of arrival at pilot station and picking up the Pilot.

4. Notice to Mariners:— Chang Kiand Kuo South Channel

(a) The Chang Kiang Kuo Light vessel No. 50 is as described below:
Location 31° 03′ 06″ N. 122° 21′ 12″ E.
Characteristic Flashing every 6 seconds.

(b) Vessels entering or leaving the port should pass the following buoys by keeping them on the vessels left side:
1. Fairway Buoy No 53:
Location 31° 03′ 46″ N. 122° 13′ 51″ E.
Characteristic Group flashing (3) every 6 seconds.
Shape – can shape with red and black horizontal stripes.
2. Entrance buoy No. 54:
Location 31° 04′ 52″ N. 122° 10′ E.
Characteristic Group flashing (3) every 10 seconds.
Shape – can shape with red and black horizontal stripes.

(c) No vessel allowed to enter the dangerous areas bounded by lines connecting the following points:
1. 30° 47′ 15″ N. 123° 03′ E.
2. 30° 47′ 15″ N. 123° 05′ 54″ E.
3. 30° 44′ 45″ N. 123° 03′ E.
4. 30° 44′ 45″ N. 123° 05′ 54″ E.

5. Telegraphic Communication:

Foreign vessels at sea may despatch radiograms to "Penavico" Shanghai via Shanghai Coastal radio station, the particulars of which are as follow:

Call sign: XSG
Calling frequency: 500 kc/s
Working frequency: 458 kc/s
Working Hours: 0000-2400

Answering frequency:		Listening frequency:	
8502 kc/s	GMT 0000-2400	8364 kc/s	GMT 0000-2400
6414.5 kc/s	GMT 2200-1000	6273 kc/s	GMT 2200-1000
12871 kc/s	GMT 0000-1400	12546 kc/s	GMT 1000-1400
4349 kc/s	GMT 1000-2200	4182 kc/s	GMT 1000-2200

6. Large number of fishing vessels around areas 25-30 miles Northeast of North saddle and 20-25 miles East of East saddle, Barren Island and Lukon Island, please navigate with caution.

7. Anchorage for awaiting tide – Changkiang Kuo:

(1) The water area bounded by lines connecting the following points is the anchorage of Changkiang Kuo for vessels awaiting tide:
31° 01′ 00″ N. 122° 24′ 42″ E. 31° 01′ 00″ N. 122° 20′ 00″ E.
30° 56′ 00″ N. 122° 20′ 00″ E. 30° 56′ 00″ N. 122° 24′ 42″ E.

(2) From 25th April 1970, all vessels are strictly prohibited to anchor at any place out of the said anchorage of Changkiang Kuo for waiting tides without obtaining permission (permits) by Shanghai Harbour Authority concerned.

Regulations for Merchant Ships passing through Liau-ti-shan Channel.

For foreign merchant ships navigating through Po Hai Strait, only Laiu-ti-shan channel and Chang-shan channel are open for passage and all the rest channels are prohibited from passing.

1. The water area within a radius of ten nautical miles from Liau-ti-shan Light station and the water area within a radius of seven nautical miles from North Hwang Ching Tau Light station are closed to shipping (navigation), while the channel between these two prohibited areas is to be open to navigation.

2. Information including name of vessel, nationality, call sign, last sailing port, port of destination, speed, colour of hull and funnel and exact time of passing through the adjoining lines of Liau-ti-shan Light station and North Hwang Ching Tau Light station should be submitted to the Dairen Harbour Administration Bureau eight hours before the vessel reaches the afore said line. Foreign vessels may communicate with the Harbour Superintendent directly by addressing Harbour Master Dairen. In case there is any alteration of the expected time of passing through the line owing to bad weather, the vessel should immediately report to the Harbour Superintendent.

3. The calling sign of the Dairen Radio Station is XSZ, calling frequency 500 kc/s, working frequency 462 kc/s, 8694 kc/s, reserve frequency (working) 8678 kc/s. The station operates day and night.

4. Merchant vessels passing through the Liau-ti-shan Channel must display light signals in accordance with the Regulations for preventing collision at sea.

5. The water area within an area of ten miles around Hai Mao Tao situated at Lat. 38° 52′ N. Long. 121° 01′ E. is prohibited from navigation.

Merchant ships are prohibited from navigating in the water area within a radius of ten miles from the Reef Island.

Merchant ships violating the above regulations or navigating in the prohibited areas shall be held responsible for whatever consequences arising therefrom.

Guide to foreign vessels calling at Dairen:

1. When entering or leaving Dairen Harbour please pass through the channel between Daisansantao and Hwangpotsui. You are not allowed to navigate within area 2.5 miles radius from Daisansantao lighthouse 38° 51′ 50″ N. 121° 49′ 20″ E. and one mile radius from lighthouse Hwangpotsui 38° 54′ 14″ N. 121° 42′ 54″ E.

2. After entering joining line between Daisansantao and Hwangpotsui lighthouses, radar, radio transmitter and other forbidden articles are prohibited to use, in case of danger or necessity for transmitting emergency message you must report to Harbour Superintendency Administration immediately after you have used.

3. You are requested to wait for quarantine and Pilot within area bounded by lines connecting the following areas: 38° 57′ 02″ N. 121° 45′ 00″ E. 38° 55′ 30″ N. 121° 44′ 28″ E. 38° 57′ 02″ N. 121° 41′ 11″ E. 38° 56′ 19″ N. 121° 41′ 11″ E.

4. All merchant vessels are informed that vessels passing through the Liau-ti-shan Channel entering or leaving the port of Dairen, besides it ought to observe the regulations relating to the Liau-ti-shan Channel, must keep the way to navigate through the Southern water area beyond the tangent line joining from the Encounter Rock (38° 34′ 21″ N. 121° 38′ 12″ E.) to the outer verge of the Liau-ti-shan prohibited area and the Eastern water beyond Northward meridian line of the Encounter Rock to the continent.

5. Dairen coast radio station.
Call sign: XSZ
Calling frequency: 500 kc/s
Working frequency: 462 kc/s
Answering frequency: 8694 kc/s
Listening frequency: 8364 kc/s
Working day and night.

Guide to foreign vessels calling at Whampoa (Kwangchow).

1. Foreign vessels are prohibited to sail in the water areas of the joint lines among Vanshan, Chaieng and Tankan Islands, except the route as designated hereunder:

(a) The vessels calling at Whampoa from ports other than Hong Kong, should proceed from seaward to Lat. 21° 40′ 44″ N. Long 113° 56′ 00″ E. and set course to 318T, or to Lat 21° 37′ 30″ N. Long. 113° 37′ 45″ E. and set course to 047T; proceed to Lat. 21° 47′ 45″ N. Long. 113° 49′ 32″ E. then alter course to 013T; proceed to Lat. 22° 00′ 00″ N. Long 113° 52′ 34″ E., then alter course to 334T; to Lat. 22° 05′ 36″ N. Long 113° 49′ 36″ E., then straight to Lafsami Pilot Anchorage waiting for Pilot.

The vessels of departure should sail along the opposite course and positions above mentioned, after disembarking Pilot at Lafsami Pilot Anchorage.

(b) The vessels calling at Whampoa from Hong Kong should proceed throught West Lamma Channel to Lat. 22° 08′ 44″ N. Long 113° 55′ 30″ E. then alter course to 295T; to Lat 22° 12′ 04″ N. Long. 113° 47′ 41″ E. then alter course to 204T to Lat. 22° 10′ 36″ N. Long. 113° 47′ 00″ E. then straight to Lafsami Pilot Anchorage waiting for pilot.

The vessels departing for Hong Kong should sail along the opposite course and positions above mentioned, after Pilot disembarked at Lafsami Pilot Anchorage.

2. The position of Lafsami Pilot Anchorage:
Lat. 22° 07′ 20″ to 22° 08′ 30″ N.
Long. 113° 45′ 48″ to 113° 47′ 54″ E.

3. Kwangchow (formerly Canton) coastal radio station:
Call sign: XSQ
Calling frequency: 500 kc/s
Working frequency: 445 kc/s
Answering frequency: 8514 kc/s
Listening frequency: 8364 kc/s
Working day and night.

Guide to foreign vessels calling at Tsamkong

1. Pilot station: North Anchorage of Nau Chow Island.
Lat. 20° 58′ 21″ N.
Long. 110° 36′ 42″ E.
2. Tsamkong coastal radio station:
Call sign: XSJ
Calling frequency: 500 kc/s
Working frequency: 462 kc/s
Answering frequency: 8614 kc/s
Listening frequency: 8364 kc/s
Working day and night.

DAIREN: 38.55 N. 121.40 E.

ALL INFORMATION IS A SHIPMASTER'S REPORT.

GENERAL:

Regulations required to be observed by merchant vessels passing through the Laotiehshan Channel issued by the Harbour Master at Dairen.

1. The area with Laotiehshan lighthouse as centre and a distance of 10 miles as radius and the area with North Hwang Cheng Tao light beacon as centre and a distance of 7 miles as radius are prohibited areas. The middle channel between these two prohibited areas is the navigable channel.

Note: *(a)* Characteristics of Laotiehshan lighthouse (38° 43.7′ N., 121° 07.7′ E.): Lt. GP Fl. (2) ev. 30 sec. 25 m.

(b) Characteristics of North Hwang Cheng Tao light beacon (38° 23.7′ N., 120° 54.3′ E.): Lt. Fl. ev. 3 sec 15 m.

2. Merchant vessels intending to pass through the Laotiehshan Channel must send a wireless message to "Harbour Master, Dairen" at least 8 hours prior to the passage, reporting the following matters:

Ship's name, nationality, signal letters, port of departure, port of destination, speed, colour of ship's hull and funnel and the accurate expected time to pass the line-joining Laotiehshan lighthouse and North Hwang Cheng Tao light beacon.

Note: *(a)* Dairen Coastal Wireless Station: signal letters: XSZ, Calling frequency 500 kc/s.; Working frequency 462 kc/s., 8694 k/cs.; Reserve frequency 8678 kc/s.; Working day and night.

(b) If weather condition should cause any change in the expected time of the passage, the fact must be immediately reported to "Harbour Master, Dairen".

3. Merchant vessels passing through the Laotiehshan Channel must show the lights in accordance with the international regulations for preventing collisions at sea.

4. Vessels are prohibited from passing through the area with Hai Mao Tao (38° 52′ N., 121° 01′ E.) as centre and a distance of 10 miles as radius.

5. Any vessel violating any of the above-mentioned regulations will be held responsible for all consequences.

Rule governing the prohibited passage through the inner area of the Encounter Rock:

Vessels passing through the Laotiehshan Channel as well as entering or leaving the port of Dairen besides observing the rules relating to the Laotiehshan Channel, must keep their course within the area from Encounter Rock (38° 34.2′ N., 121° 38.12′ E.) to the South outer joining line of Laotiehshan prohibited area and the North Encounter Rock to the East of meridian line of continent. Failing which, vessels to be held fully responsible for all consequences.

With exception of Laotiehshan and Changshan Channel of Pohai Gulf, no vessel is allowed to pass through any channel of Miaotao group islands.

Harbour regulations required to be observed by merchant vessels calling at Dairen Port.

When entering or leaving Dairen Harbour vessels must pass through channel between Daisansantao and Kwangpotsue. Vessels are not allowed to navigate within area 2.5 miles radius from Daisansantao lighthouse, position 38° 51′ 50″ N., 121° 49′ 29″ E. and 1 mile radius from Kwangpotsue lighthouse position 38° 54′ 14″ N., 121° 42′ 54″ E.

After entering joining line between Daisansantao and Kwangpotsue lighthouses, radar, radio transmitter, radio-telephone, radio direction-finder, echo sounder, range-finder, sextant, firearms, flare signals and rockets of all kind are prohibited to be used.

In case danger occurs or vessel has to send any emergency message, the above-mentioned apparatus may be used, but vessels must report to Harbour Superintendency Administration immediately after using.

Vessels must wait for quarantine and Pilot within area as follows: 38° 57′ 00″ N., 121° 41′ 00″ E. – 38° 57′ 00″ N., 121° 46′ 00″ E. – 38° 56′ 18″ N., 121° 41′ 00″ E. – 38° 55′ 00″ N., 121° 46′ 00″ E. In case this area is occupied, surrounding area may be used.

DOCUMENTS:

First Port	*Subsequent Ports*
2 Maritime Declaration of Health.	0
2 Reports of Entry for foreign ships.	2
6 Crew Lists.	5
2 List of Specified Articles.	0
1 Report of Articles restricted for use in port.	1
4 Passenger Lists (if any).	0
1 Ship's Particulars for Identification.	1
2 Cargo Manifests.	1

The List of Specified Articles (money, gold and silver, but not cigarettes and spirits) is taken from port to port. All forms to be Chinese.

GENERAL INFORMATION: On Dairen (Ta-lien) – B.A. Chart No. 3694:

In the fairway the turning basin and along Pier No. 4 East-side, at least 38 ft. of water. Length of the pier about 1,500 ft. Several berths for vessels up to 34 ft.

It was not possible to obtain information on the cranes, and they were not marked with SWL, so the following figures are only estimated:

Pier No. 1 W.-side =4 cranes about 5 tons.
Pier No. 2 E.-side =3 cranes about 3 tons.
Pier No. 2 W.-side =4 cranes about 4 tons.
2 cranes about 10 tons.
Pier No. 3 E.-side =2 cranes about 3 tons.
Pier No. 3 W.-side =4 cranes about 2 tons.
6 cranes about 10 tons.
Pier No. 4 E.-side =6 cranes about 6 tons.
Pier No. 4 W.-side =3 cranes about 6 tons.
One floating crane with 100 tons capacity.
About 8 tugs, 600–1,000 h.p. tugs are also used as pilot boat and to bring information and boarding party out to vessels at the anchorage.
One fresh water barge.
Three oil-barges, about 150, 500 and 800 tons.
Medium size shipyard, building vessels up to about 25,000 tons.

HSINGKANG

SHIPMASTER'S REPORT. (End 1974.)
B.A. Chart 2653. China Sea Pilot No. 32, Vol. 111.

NAVIGATION: The lighthouse in position 38° 55′ N., 117° 59.5′ E. was visible at a distance of 10 miles, flashing every 10 secs., and is surrounded by 4 units buoys at a distance of about 180 m. from the tower. The Fairway to berth installations is being dredged, but presently appears to permit a draft of only 25 ft. LW with a draft of 27 ft. it was necessary to await HW before sailing.

PILOTAGE: Pilot and Port Authority Agent board at the anchorage. Pilot boat is large tug which may also be used as an ice-breaker, and has black hull with white superstructure. Pilots are careful and efficient, and speak some English. No VHF or HF radio facilities are available to the Pilot.

MAX. SIZE: See "Navigation". All berths are suitable for vessels of up to 9 m. draft.

BERTHING: The harbour is under considerable development, and at present has availability for about 15 or more vessels. All berths have rail connections and are approachable by trucks. There are no sheds at the berths and refrigerated stores are only available at Tientsien to where they transported by train, lighters or trucks. Berths are equipped with rubber fendering, suitable for all requirements.

TUGS: Six large tugs, and three smaller tugs.

CARGO GEAR: There are some cranes available and in operation with a lifting capacity of about 10 tons. There are also about three floating cranes with capacities of up to about 80 tons. Where no cranes are available, vessels are required to load and discharge with ship's gear.

FRESH WATER: Connections at some points have still to be made, but otherwise fresh water is available at all berths. Due to the very long waiting time for berthing and the lack of some of the connecting points, it is advisable to arrive with full F.W. tanks.

PROVISIONS: It is essential to check all provisions when delivered since they may be of poor quality. Rejected goods are accepted back without problems.

SHANGHAI

SHIPMASTER'S REPORT (End 1974).
B.A. Chart 1602. China Sea Pilot No. 32, Vol. 111.

NAVIGATION: Marine flashing light Yangtse North – the position quoted in the Nautical Light Service 11 agrees with Pilot's information. Marine flashing light North Saddle – very weak, signals KK. Marine flashing light Gutzlaff island – out of service.

The wreck shown on the chart between the entrance of the Wangpoo into the Yangtse Kiang and buoy 51 (new numbering) has been removed.

On the Yangtse Kiang there has been considerable dredging, particularly between buoys 54 and 51–3 (new numbering) in order to clear the Bar. According to the Pilot, until the present time, only vessels with less than 25 ft. draft could pass at slack water.

Following the Pilot's disembarkation, vessels proceeding North-bound should make an Easterly course to 31° 05′ N., 122° 31′ E. and then alter course Northerly, Chi-ku Chiao Lt. (Amherst Rocks) should be passed at a distance of about 6-8 miles.

Buoy No. 51-0 (Entrance) is in position at 31° 04.9′ N., 122° 10′ E. Same signal. Buoy No. 51 (Fairway) is in position at 31° 03.8′ N., 122° 14′ E. Same signal. Buoy at 31° 12.8′ N., 122° 19.1′ E. Non-existent. Buoy at 31° 07′ N., 122° 22.5′ E. Flashing green every 3 seconds. Buoy Nos. 54 (now 51-2), 57 (now 51-3), 58 (now 53), and 61 (now 54) are in process of positional alterations. Characteristics are not as on chart. Shaweishan Lt. Gp.Fl. (2 and 1) 12 seconds was observed. Numbering of the buoys on the Yangtse is now changed, and the numbers given on the chart no longer apply. The buoys are spread-out in accordance with the depth of the river. Lt. Vs. No. 60 (old number) now carries the words Jui Dan, and is in approximately the same position. Lt. Vs. Ch'ang Chiang K'ou was replaced end-1974 for repairs, by a buoy with Radar reflector.

DOCUMENTS: Clearance takes place quickly. On arrival the following documents are required:

6 Crew Lists.
Health Clearance Certificate.
List of Effects.
Declaration of Navigational Equipment. Make, type and quantity of Sextants, Binoculars, Radio Station Equipment and Emergency Signal, must be quoted.

If no pre-printed Chinese Forms are on board, the Authorities will accept the vessel's own forms, and will themselves carry out the transfer of information to their own documents.

When proceeding to another port within the People's Republic of China, only the Seamen's Books, Landing Permit and Seamen's Club Purchasing Cards are required. The Authorities will still require a list of Chinese currency remaining on board but only wish to know the total sum and not the amounts held by individual Crew members.

PILOTAGE: Pilots are requested via Shanghai Coastal Radio. Installation of a VHF service is planned within the next three years, but at present the pilot boat is not fitted with VHF, and no radio service is available for pilotage. Installation of Port Radar Service is planned within the next five years, but is presently not available.

Shanghai Harbour Control is equipped with VHF, and Pilots communicate with Harbour Control on Channel 10 concerning ship's movements. Traffic is passed in the Chinese language only and may be operated by the Pilot. A total of up to five Pilots board the vessel together with the Agent of the Harbour Authority. The Pilot boarding position is approximately 31° 05′ N., 122° 01′ E. The main pilot craft is usually at anchor in that position, and the Pilots board from small launches. The main pilot craft corresponds closely to those used in Germany and the Netherlands, and has white superstructure and a white hull. Pilots are available day and night. Pilots are efficient, speak some English, and control the vessel most carefully. After the Pilot's boarding, no further use may be made of the vessel's own charts, and the Pilot brings his own charts with him.

ANCHORAGE: The main quarantine and inward clearance zone is now on the Yangtse in the area of 31° 04′ N., 121° 06′ E. and is of sufficient area to accommodate about 15 deep-sea vessels. The anchorage is good with sufficient depth for loaded vessels. The two quarantine areas shown on B.A. Chart 1602 (October 1974) have been abolished, and a new zone has been established due East of the Lt. Vs. Ch'ang Chiang K'ou, with middle point 10 miles due East of the Lt. Vs. extending about 5 miles by 5 miles.

A Notice to Mariners issued by the Shanghai branch of the China Ocean Shipping Agency, and dated December, 1974, reads as follows: "As Woosung Quarantine Anchorage is effected by the current of Changkiang, vessels anchored there are apt to drag anchor if no proper safety measures have been taken or there is negligence in keeping watch, thus resulting in grounding or collision with other vessels. To ensure safety of vessels at anchor, we hereby draw your attention to the following:

(1) Vessels waiting for berth or for other reasons drop anchor at Quarantine Anchorage, someone must be appointed to keep watch of the anchor.
(2) To have no less than 6 (six) shackles of anchor chain in the water.
(3) On the following occasions, watch should be re-inforced and, at the same time, have the engine ready against accidents:
    (a) Bad weather.
    (b) Wind force 6 and upwards.
    (c) Foggy and misty weather.
    (d) Stormy weather.
    (e) Spring tide.
(4) If a vessel is dragging anchor or any accident has happend to a vessel anchored at anchorage, the Captain of the vessel should report to this Agency *immediately*, enabling this Agency to make arrangement for sending Pilot on board or take other effective measures.

RESTRICTIONS: Permission to swing-out lifeboats must be obtained in writing from the Port Authority, through the Agent. If the request is made 24 hours in advance stating that the vessel's own country's laws require it to be done, then permission is given the same day, for the operation to be carried out the following day. Lifeboat engine trials are not permitted in view of the very intensive traffic on the Wangpoo, and the very strong current. No filming is permitted in the port area, but is permitted in the town with the exception of military installations. Electronic navigational equipment, navigational aids, echo-sounding equipment and radio may not be used except with the Pilot's permission during the approach to port.

MOORING: Mooring to buoys takes place with assistance of tug and mooring craft. Pilots manoeuvre vessel to forward buoy with use of the anchor which remains paid-out after tying up, and is only raised prior to sailing. Approximately one to one-and-a-half shackles used. Vessel is moored to buoys with four lines fore and aft, and slip-wires. Lines are paid-out in equal lengths either side through the mooring leads and not through the Panama hawse.

TUGS: When proceeding from buoys to alongside berth, tugs provide assistance in un-mooring, but not in berthing which is conducted by Pilot without tug assistance. When leaving the berth, tugs are used to assist, and use their own lines.

BERTHING: Pier installations are partly damaged and have no fendering. If possible, vessels should have their own cork or wooden fenders.

CARGO GEAR: Loading and discharging is by means of ship's gear. There are three heavy-lift floating cranes with lifting capacities of about 130 tons, and of modern construction. A number of mobile cranes are available with lifting capacities of about up to 5 tons.

CURRENCY: For vessels tied to buoys there is an hourly boat-service to the Seaman's Club where foreign currencies may be changed into Chinese Yen, and where purchases may be made.

PROVISIONS: Stores, alcohol and cigarettes are not sealed. Fresh provisions are available depending upon time of year. Sufficient quantities are available including beer, poultry, meat and fish. Ample advance notice is required.

TELEPHONES: Telephone calls to foreign countries are possible either from the Agency or from the main Post Office in Nanking Road.

TAKU BAR: 38.56 N. 117.53 E.

ALL INFORMATION IS A SHIPMASTER'S REPORT.

GENERAL: Guide to foreign vessels calling at Taku Bar (Hsinkang, Tangku and Tientsin) issued by the Harbour Master at Tientsin.

1. Foreign vessels entering Pohai Gulf are only allowed to pass through Changshan Channel and/or Laotiehshan Channel. If the latter way is taken, the vessel must send a wireless message to "Harbour Master, Dairen" for directory 8 hours prior to passage. It should be noted that no other Channels are permitted for navigation. (Also see "Dairen").

2. Vessels passing Laotiehshan Channel for Dairen must make a detour along the East of "Encounter Rock".

3. Position of sunken dredger "Se Ho" is at 38° 31′ N., 119° 10.5′ E. Vessels should keep far away from the above-mentioned area during navigation.

4. Position of Taku light vessel is at 38° 56′ 51″ N., 117° 55′ 33″ E. Vessel may anchor N.E. of the light vessel according to different condition of vessels arrival draft, to wait for Pilot.

5. Vessel may send radiogram to "Penavico Hsinkang" (via Hsinkang Coastal Radio Station XSV, calling frequency 500 kc/s., working frequency 445 kc/s., reserve frequency calling 8630 kc/s. Listening 8364 kc/s., working hours 0000/2400), giving exact ETA also fore and aft draft, before entering Pohai Gulf.

6. The pilot station is at Tangku. Any foreign vessels, according to Harbour Regulations are required to have a Chinese Pilot, when entering or leaving the Port of Taku Bar, Hsinkang, Tangku and Tientsin. The Pilot will board the vessel at Taku Bar anchorage after receipt of exact ETA given by the Master.

The Salation light beacon in position 38° 56′ 16″ N., 118° 30′ 38″ E. shows a white flash every 3 seconds and visible at a distance of 13 miles.

Regulations issued by the Harbour Superintendent's Office.

1. All foreign vessels (hereafter referred to as vessels) entering or leaving the port of Tientsin (hereafter referred to as this port) are required to observe strictly the provisions of the Regulations Governing the Entry and Departure of Foreign Vessels into and from Ports of the People's Republic of China (hereafter referred to as Regulations Governing Foreign Vessels) and of the Port Regulations of Tientsin.

2. On arrival at this port, vessels are prohibited to use the articles enumerated in Article VII of the Regulations Governing Foreign Vessels. Should it be necessary to repair any of the articles enumerated in Item 2 of the same article, permission to do so must be obtained beforehand from the Harbour Superintendent's Office.

3. Articles placed under seal shall not be used and the seals shall not be removed without permission. Should any of the paper seals be found falling off, the fact shall be reported to the Harbour Superintendent's Office immediately.

4. Whilst in port, vessels are not allowed to dress ship or hoist flag at half mast without the permission from the Harbour Superintendent's Office.

5. Vessels in port desiring to undertake any of the following work must first apply in writing to the Harbour Superintendent's Office. After permission is obtained the work can then be carried out at the appointed place.

(a) Lifeboat practice;
(b) Overhauling boiler, main engine, steering engine or windlass;
(c) Engaging in welding work or burning anything on board;
(d) Pumping out ballast water regardless of whether the water is contaminated with oil or not.

6. After a vessel's arrival at this port, sounding, survey sketching, photo-taking, fishing and swimming are strictly prohibited.

7. After arrival at this port, vessels are strictly prohibited to dump ballast materials, coal ashes, garbage, rubbish and mud, or to discharge dirty oil or oily bilge water into the harbour. It is also prohibited to wash double bottom oil tanks or oil deep tanks inside the harbour.

8. Vessels in port must provide secure gang ladders or gang planks with rail or manropes for passengers, crew and all workers to embark or disembark. All gangways or gang planks are to be provided with lights at night.

9. Vessels lying alongside the pier should properly cover up all their exhaust valves and discharge openings on the ship's side facing the pier.

10. Garbage bins or drums with tight covers must be provided on board. The bins or drums should not be filled to overflow. When the garbage-collecting cart comes daily to the ship to collect the garbage and rings the bell on its arrival, the ship should arrange to deliver the ship's garbage into the cart.

11. If, owing to some special reasons, a vessel desires to return to this port after departure, the Master should first telegraph to the Harbour Superintendent for permission and must act according to the instructions given.

Frontier Inspection Station

1. All the officers and crew of a foreign vessel and the passengers on board should produce their passports or other certificates to the Frontier Inspection Station and submit to the inspection of the Station.

2. When the ship's crew or passengers in transit desire to go ashore, the Master is to apply to the Frontier Inspection Station and the passport endorsing authorities, respectively, for landing permits.

3. A landing permit is valid only at the port where it is issued. On the ship's departure, all landing permits for the crew should be returned to the Frontier Inspection Station for cancellation.

4. The time limit for going ashore is from sunrise to midnight. When any crew member wishes to stay overnight on shore, the Master should apply for permission on his behalf. Staying overnight ashore without permission is not allowed.

5. All laws and regulations of the People's Republic of China must be observed.

Customs

1. It is forbidden to carry the national currency of the People's Republic of China into or out of the country. Violation of this rule will render the money in question liable to confiscation.

2. The Master or crew desiring to exchange foreign currencies, gold or silver for Chinese currency should so declare to the Customs and, after the exchange, produce the bank's Exchange Slip for inspection.

3. The Master or crew desiring to carry articles ashore or aboard should report to the Customs for permission and the articles concerned are subject to Customs inspection. Sale of articles taken ashore is prohibited.

4. Exposed films or plates should be developed and submitted to the Customs for inspection before they are allowed to be carried into or out of the country.

5. Places sealed up by the Customs are not to be opened without Customs permission.

Quarantine Office

1. During a vessel's stay in port, if any person on board is found to be in high fever or to be feverish continuously for several days (or with the swelling of the lymphatic gland), or to suffer from acute rash on the skin with or without fever, or to suffer from acute diarrhoea and in a state of collapse, or to suffer from jaundice with fever, the matter should first be reported to the Quarantine Office. The patient can go ashore for medical treatment only when he has been examined and allowed to do so by the quarantine officer.

2. Effective rat-guards or other rat-preventing devices should be fixed on all mooring ropes.

3. Gangways and gangplanks are not allowed to be put on to the wharf when not required. Should they be used at night, strong electric lights should be provided.

4. Should any dead rats or mice be found or any rats or mice caught on board a vessel, the fact should be reported to the Quarantine Office for the necessary inspection to be made.

The above regulations are in force at most Chinese ports.

In the fairway and on the West side of the first pier vessels may pass on 34 ft. draft. Length of pier about 1,500 ft.

Another pier is under construction, and when ready will have berths for five vessels of about 600 ft. length. The depth alongside will be 34 ft.

On the first pier 7 cranes with a capacity of about 10 tons. It was not possible to obtain information on the older berths. Four tugs with up to 1,000 h.p.

All bunkers to be brought in from Dairen.

TSINGTAO: 36.03 N. 120.20 E.

ALL INFORMATION IS A SHIPMASTER'S REPORT.

APPROACHES: 1. Approaching from the S.W. on the authorised route in clear water, the following observations were made.

(a) Cape Yatall Lt. Range 20 n.m., not sighted at 10 n.m.
(b) Tai Kungtan Lt. Range 15 n.m., not sighted at 15 n.m.
(c) Ynui Shan Lt. Range 14 n.m., sighted at 15 n.m.
(d) Outer Harbour Fairway Buoy, sighted at 4 n.m.

2. When abeam of Tai Kungtan orders were received to proceed to inner quarantine anchorage.

3. All Inner Harbour buoy lights characteristics did not agree with the recent chart.

DOCUMENTS: Port Officials board by tug using the gangway. The following papers are required.

4 copies of the Ship's particulars.
4 copies of the Crew List.
2 copies of the Crew Manifest with all foreign currency duly noted.
1 copy of the Health Declaration.
All Identity Cards and Smallpox Certificate.
2 copies of the letter requesting a hold survey.
9 copies of the Notice of Readiness.
Usual ship's papers, including Deck and Engineroom Logs.

Delays caused by:

(a) Crew members not holding I.D. Cards.
(b) Alterations/illegible Smallpox Certificate.
(c) Insufficient copies of the necessary papers supplied at Hong Kong.

MUSTER: After the above had been inspected, all officers and ratings were required to muster in the saloon. A search of all spaces was then carried out. Each person was required to be compared with his I.D. card, those not possessing one were eventually cleared on discharge books. The Authorities will not recognise passports held by Spanish Nationals.

DETAILED INFORMATION: Required with regard to the ports at which stores and water have been obtained and a list of the ports visited in the previous six months.

Currency: Available in the form of Chinese Yen, rate 5.202/£ST.

Cargo: (a) Delivery alongside is very poor. *(b)* Condition of cargo received on board is good. Temperatures of hard frozen cargo are well down. *(c)* Damaged cartons are replaced. *(d)* Stowage, good.

OUTWARDS CLEARANCE: *(a)* After all B/Ls have been signed and five copies of the vacant space/space used handed over. *(b)* Muster of all persons takes place in the saloon. *(c)* I.D. cards produced and shore passes handed in. *(d)* Vessels searched. *(e)* All foreign currency spent ashore has to be accounted for. Totals of money drawn and returned to Agent produced to the Customs.

DEPARTURE: Vessel leaves the berth and anchors at the Inner Quarantine Anchorage. Guards and Port Officials leave after "Clearance" papers have been handed over. Pilot leaves, vessel proceeds without the aid of a Pilot along the authorised route.

NOTES

Please also advise Shipping Guides (Services) Ltd.

CHRISTMAS ISLAND, Indian Ocean: 10.25 S. 105.43 E.

PORT LIMITS: The area of sea in and adjacent to Flying Fish Cove in the Territory of Christmas Island enclosed by a line commencing at a point where a line bearing 270° True from the flagstaff at Government House intersects the coastline of Christmas Island at MHW thence bearing 270° True for a distance of 2 km. thence bearing 360° True for a distance of 2 km. thence S.E. by a straight line to Rocky Point thence generally S.W. along the coastline of Christmas Island at MHW to the point of commencement.

DOCUMENTS:
Port Clearance.
2 Crew Lists.
2 Passenger Lists.
2 Manifests.
Health Certificate.

PILOTAGE: Pilot boards 1 mile West of Smith Point.

ANCHORAGES: Nil.

RESTRICTIONS: Daylight entry only.

MAX. SIZE: Length 630 ft., breadth 90 ft., draft 35 ft.

HEALTH: Radio Pratique granted whenever possible. Information required: date of departure, last port of call, number of persons aboard, number of passengers disembarking, state of health. Contact port health before arrival in event of suspected disease. No automatic pratique.

RADIO: All cables to Christmas Island Radio, VIY.

VHF: Channel 16, 156.8 m/cs., range 35 to 45 miles. Harbour Master may also be contacted on 2182 or 2201 kc/s. by arrangement through VIY.

TUGS: None.

BERTHING: Berthing daylight hours only. In most cases port anchor to be disconnected from cable prior to arrival; mooring gangs provided.

BULK CARGO HANDLING: The bulk loading berth is served by two cantilevers each capable of delivering rock phosphate at an average rate of 1,500 t.p.h. Bottom of telescopic chutes when fully raised are 50 ft. above sea level at high water springs.

STEVEDORES: Supplied by Agents.

MEDICAL: No notice required for medical attention. Hospital facilities available throughout 24 hours. Inoculations required: smallpox, yellow fever (from endemic areas), cholera (from S.E. Asian ports). International Vaccination Certificates required.

TANKERS: Furnace and diesel oils pumped ashore simultaneously through floating pipe-lines, 8 in. and 6 in. diameter respectively.

DENSITY: 1025 constant.

FRESH WATER: Very limited quantities supplied, only in emergency.

FUEL: Very limited quantities supplied, only in emergency.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: All beams and hatches to be handled by ship's crew.

CERTIFICATES: Register of Cargo Gear and associated Test Certificates.

CARGO GEAR: To comply with requirements of the Australian Navigation Act, 1912–58.

IDENTIFICATION CARDS: Not required.

CONSULS: Administrator's Office performs some consular functions.

REPAIRS: No facilities exist.

REPATRIATION: Possible.

AIRPORT: There are 3 flights a week to Australia and flights to Singapore are presently being negotiated.

TIME: Local time GMT plus 7 hours – constant.

HOLIDAYS: New Year's Day; Australia Day (26th January); Hari Raya Haji; Chinese New Year – two days; Good Friday; Easter Monday; Queen's Birthday; Territory Day (1st October); Hari Raya Puasa; Christmas Day; Boxing Day.

No work performed on New Year's Day, Hari Raya Puasa, Good Friday, 1st day of Chinese New Year and Christmas Day.

POLICE/AMBULANCE/FIRE: Police 90; Ambulance 99; Fire 88.

TELEPHONES: Placed aboard when required by port authorities. No charge.

GENERAL: Ships may be ordered to leave berth at short notice if weather deteriorates.

AUTHORITY: Harbour Master.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Colombia

GENERAL:

FREE PRATIQUE: There is no radio pratique. The standard W.H.O. Health Certificate must be used.

PILOTAGE: Pilotage is compulsory for all vessels over 250 n.r.t. The Pilot must be requested by the Agent at least 24 hours in advance.

Berthing preference will be given as follows:

1. Warships.
2. Passenger vessels and Mail Boats on a fixed itinerary.
3. Vessels with livestock and perishable cargoes.
4. Passenger vessels not on a fixed itinerary.
5. Vessels loading cargo for export.
6. Vessels discharging cargo for import.
7. Tankers.
8. Coasters.
9. Vessels carrying explosives.

On sailing all vessels must fly the P flag.

Vessels at anchor can be authorised to work to lighters.

All Colombian ports, with the exception of Buenaventura, are open 24 hours a day. Buenaventura can only be entered by day.

STEVEDORES: Are supplied by the Port Authorities although it is often necessary to employ extra labour through the Agent, due to the fact that gangs are seldom complete. At week-ends, gangs required for Monday must be ordered by 1000 hrs. on Saturday. Masters should bear this in mind when sending their ETA.

Cargo in a damaged condition or showing signs of pilferage will not be handled until inspected by a Port official and ships officer, leaving on record the actual condition of the cargo.

Containers are discharged or loaded as all other cargo, though if they are stuffed or unstuffed immediately this must be done with the Port Labour provided.

Opening and closing of hatches, and the rigging of gear, is done by a gang of riggers. The ships crew can do this work, but it is advisable to use Union Labour.

Rain tents are not supplied by the port.

All gear, slings, spreaders, etc., must be supplied by the ship.

Rat guards must be fitted on all mooring lines whilst in port.

PORT SECURITY MEASURES: All ports are rigorously patrolled by Port Police, and crew members are advised to carry Identification Cards at all times when ashore.

FUMIGATION: This can only be carried out alongside with the permission of the Port Authority.

GARBAGE: No garbage may be thrown overboard. This includes flakes of paint from vessels chipping or scraping the hull. No paint must be allowed to drop into the water or onto the quayside. Overboard discharges must be kept off the quay.

POLLUTION: The standard requirements for the prevention of oil pollution must be adhered to within the continental shelf off the Colombian coast.

All vessels must ensure that the Oil Record Book is up to date prior to arrival, as it is likely to be inspected.

Fines can range from 50,000 to 500,000 Pesos, not including the cost of any clean up operation.

No vessel contaminating the waters of any port may sail until the corresponding fine has been paid.

Oil Tankers are not permitted to clean tanks within 60 miles of the Colombian shores. If a vessel arrives in port with dirty ballast, she will be ordered to proceed to sea beyond the 60 mile limit, and take on clean ballast.

CREW: The authorities will not allow crew to be of unkempt appearance or improperly dressed at any time while the vessel is in port.

FUEL: Bunkers are only supplied to vessels which were supplied in 1972, and are actually trading to Colombia. Vessels may not take more bunkers than the amount they received in that year. Requests for bunkers must be made to Agents at least 1 week in advance.

TIME: Colombia GMT minus 5 hours. Summertime is not observed.

BARRANQUILLA: 10.58 N. 74.47 W. (See Plan)

DOCUMENTS:

Clearance from last port.
Ship's Register.
Load line.
Safety radio.
Safety equipment.
Safety construction.
Cargo gear.
Oil Pollution Certificate – Policy of Insurance.
6 Crew List.
5 Crew Personal Effects List.
5 Provision List.
5 Store List.
6 Passenger List (in transit).
6 Passenger List (disembarking).
4 Declarations of Passenger baggages.
4 List Port Mail.
1 Sole Document.
1 Sanitation Declaration.
Sets of manifests covering port cargo.

PILOTAGE: Cable Agent 24 hours prior arrival advising ETA. Pilot boarding position Lat. 11° 06′ 50″ N. Long. 74° 52′ W. Radio telephone frequency of pilot station 2738 alternative 2638 or 2182 kc/s. and VHF Channel 16. 2 pilot boats speeds 7–9 knots. Sufficient depth to allow vessels wait for Pilot in boarding position, including trade wind season end November to beginning April.

ANCHORAGE: If awaiting Pilot, anchor 1 or 2 miles West of West breakwater. After Pilot boards and when no berthing space at the quay, anchorage is made in the river, about 1,500 ft. off the dock in approximately 40 ft. of water. Three shackles of chain required in good holding ground.

RESTRICTIONS: Depth at the river bar is being maintained at a min. of 34 ft., however, the actual permissible draft has been curtailed to 30 ft. on account of silting conditions of the river, particularly around the area known as Siape, approximately 4 miles from the dock area.

MAX. SIZE: Recommended max. LOA 600 ft. due necessity for turning vessel before sailing. Also see "Restrictions". Rate of current 2.5 knots during dry season, 4 knots in rainy season.

HEALTH: On arrival port doctor boards vessel to inspect crew Smallpox Vaccination Certificates and Uro Fever Certificates, also Deratisation Certificate. If any crew members suspected suffering contagious disease Master to radio prior arrival advising Agents accordingly. Port doctor visits vessel even if previous port was in Colombia.

RADIO: Messages to and from Agents routed through station HKB. Ship's messages should include call letters.

TUGS: Generally no tugs required for river entrance. Tugs assist berthing and turning vessels before sailing. Two tugs available of 1,200 and 800 h.p. respectively.

BERTHING: Pier length 2,375 ft. Vessels berth starboard side alongside.

CRANES: 50-ton floating crane available.

STEVEDORES: Agents should receive advance copies of stowage plan and adequate notice ETA order arrange gangs.

MEDICAL: All facilities available.

TANKERS: No facilities.

FRESH WATER: Available. Rate about 20 t.p.h.

FUEL: All grades available for delivery by barge.

FIRE PRECAUTIONS: No vessel requirements. Terminal has own fire-extinguishing equipment.

DEVELOPMENTS: Increasing pier size to 1,100 ft. Two more berths under construction, completion date 1977.

GANGWAY/DECK WATCHMEN: Request watchmen through Agents.

CUSTOMS ALLOWANCES: No limitations for individual consumption.

IDENTIFICATION CARDS: Supplied by Agents.

CONSULS:

Austria	Finland	Nicaragua
Belgium	France	Norway
Bolivia	Germany	Panama
Brazil	Gt. Britain	Peru
China	Guatemala	Portugal
Costa Rica	Greece	Sweden
Chile	Honduras	Switzerland
Denmark	Italy	Spain
Dominican Republic	Jordan	U.S.A.
Ecuador	Mexico	Venezuela
El Salvador	Netherlands	

REPAIRS: Good facilities for mechanical or electrical and radio repairs.

DRYDOCKS: Only one dry dock for very small vessels.

REPATRIATION: Good facilities available.

AIRPORT: 6 kms. from city. Airport served by major airlines.

TIME: GMT – 5 hrs.

HOLIDAYS: 1st January, 6th January, 8th April, 9th April, 1st May, 23rd May, 2nd June, 29th June, 20th July, 7th August, 15th August, 12th October, 1st November, 11th November, 8th December, 25th December. No work on 1st January, 12th April, 1st May and 25th December. Overtime arranged on remaining holidays. Working hours 0700–1100 and 1300–1700. No work performed after 1600 24th December and 31st December. Local holidays on 26th and 27th February (Carnival) when no work after 1600. Labour available during Carnival but generally erratic. Work performed from 2300 hrs. Saturday till 0700 hrs. on Mondays.

POLICE/FIRE/AMBULANCE: Fire, 12341 or 12345 or 62511; Ambulance, 40757; Police (radio patrol), 04; Department of Security, 16202 and 25873.

TELEPHONES: Arrangements available for placing telephones on board.

SPECIAL RECOMMENDATION: Masters to warn crew to close and lock cabins.

REGULATIONS: No special facilities for discharging explosives. If explosives on board vessel not allowed berth.

BUENAVENTURA: 03.53 N. 77.05 W.

DOCUMENTS: On vessel's arrival, Master must present following documents to Port Captain's Office:

Travel Memorandum.
Sole document or Consular despatch from the last port or ports where vessel disembarked or embarked passengers.
3 Crew Lists.
3 Provision Lists.
3 Lists Crew's Personal Effects.
3 Lists Passengers in transit (or negative).
3 Lists disembarking Passengers (or negative).
3 Lists port mail (or negative).
1 Sobordo or Manifest of cargo for the port.
2 Declarations of Passenger baggage, if any.

Destined to Maritime Terminal:
3 Sets Sobordos or Manifests covering port cargo (or negative).
1 Set of Bills of Lading, covering discharge cargo.
20 Tally Books for discharge cargo.
Destined to the Custom House:
3 Sets of Sobordos or Manifests for cargo destined to the port.
1 Set of Bill of Lading for port of destination.
1 Tally Book for cargo to be discharged in port.
2 Declaration Lists for Passenger baggage, if disembarking.
Destined to the Health Doctor:
Vessel's Travel Memorandum.
International Health Certificate.
1 Crew List.
List of Passengers in transit (or negative).
1 Vessel's Fumigation Certificate (for presentation only).
1 Port Passengers List (or negative).
Certificate of Exemption of Deratisation (for presentation only).
Destined to Immigration Authorities:
1 Crew List.
1 List of Transit Passengers (or negative).
1 List of Port Passengers (or negative).
Destined to Agents:
1 Travel Memorandum as above mentioned.
9 Crew Lists for Consular despatch and handling of sailing permit.
6 Lists of Passengers in transit (or negative), for Consular despatch.
6 Lists of personal effects for Consular despatch.
2 Mail Lists for the port (or negative).
3 Sets of Sobordos or Manifests covering port discharge cargo (or negative).
4 Sets of Bills of Lading covering port discharge cargo.
10 Tally Books covering discharge cargo.
2 Lists of Passenger baggage declaration for the port, if any baggage.

PILOTAGE:
(a) Entry marked by Channel having minimum depth of 3.25 fathoms low tide. Advisable enter Channel or leave wharf 1 hour after low tide and 2 hours after high tide, restricting departure during any other periods, particularly when draft exceeding 20 ft. Entry to Channel marked by Buoy No. 1 located at Lat. 3° 47′ 10″ N., Long. 77° 19′ 10″ W.

(b) 24 or 20 hours before reaching port, Master must cable separately to Agents,*to Port Captain and to port doctor confirming hour of arrival Punta Bazan (Pilot station). Message to Agency must indicate, in addition to ETA, quantity of cargo destined for the port, number of disembarking or in-transit passengers, number of gangs required for operations, draft, mail for the port, if fresh or running water is required; fuel-oil, cash to Master or any other special requirement; whether special side of wharf is required for berthing, and whether dangerous cargo (explosive) or inflammable cargo, and what quantity. Message to port Captain must also indicate arrival time, quantity of cargo destined to the port, number of disembarking or in transit passengers, mail, whether dangerous or inflammable cargo is brought and in what quantity, and any other data that may be considered useful in accordance with International regulations. Message to doctor must indicate arrival time, number of disembarking or in-transit passengers, and whether there are sick persons on board.

(c) Radio beacon at Punta Soldado, characteristics: Frequency, 317 kc/s. Letters, B.T. Time 0000 – 2400 hrs. every day and every 10 minutes with 20 of rest during 30 minutes work. Flashes 12 seconds duration.

(d) Radio-telephone in pilot station of Punta Basan (opposite to Punta Soldado), characteristics: VHF Channels 11 and 16 every day from 0600 – 2400 hrs.

(e) Since Master's advice to Agency serves as notification to pilot station, Pilot will be at Punta Bazan ready for vessel. In case of delay due to any circumstance, vessel may anchor and request Pilot by 4 short blasts.

(f) Port has 9 pilots.

(g) Pilot ladder must be lowered a few feet from the surface. Vessel must proceed slowly in order facilitate boarding.

(h) Pilotage compulsory.

ANCHORAGE: Marked by Buoy No. 7, located Lat. 03° 53′ 59″ N., Long. 77° 04′ 04″ W.; depth from 33 to 70 ft. and distance from wharves approximately 1,000 yards.

RESTRICTIONS: Max. draft for crossing bar is 28 ft. one hour before/after high water. Bar is located in position 03.48 N., 77.19 W.

MAX. SIZE: No restrictions on the length of vessel, depth alongside wharf approximately 24 ft. low tide, up to over 26 ft. high tide.

HEALTH:
(a) As soon as vessel anchored by Pilot within bay, port authorities including doctor, will board by means of ladder which must be lowered when port area entered.

(b) In case of sickness on board, Master must advise in order doctor may determine whether vessel will be under quarantine or not. This will apply even if vessel arriving from a port of the same country.

(c) Time-table for meeting vessel: Ordinary or regular time – ordinary time: 0800/1200-1400/1800 hrs.; overtime – 0700/0800-1200/1400-1800/2200 hrs. Sundays and holidays, overtime.

(d) After 2200 hrs. and up to 0700 hrs. of following day it is not possible to make arrangements for meeting vessels, unless in emergency.

RADIO: (Also see "Pilotage"). Port has receiving-transmitting radio station Buenaventura/Colradio HKC. For listening and transmitting there are following frequencies:

Listening	*Transmitting*
8354 to 8374 kc/s.	8574 kc/s.
12531 to 12561 kc/s.	13087.5 kc/s.
6265 to 6280 kc/s.	6386.5 kc/s.

In emergency: Listening: 500 kc/s. Transmitting: 441 kc/s. Station operates 24 hours a day.

TUGS: Normally only required for berthing. Tug operation handled by Pilot. Generally tug service consists of pushing from stern or bow as required. When necessary to use ropes, they must be supplied by vessel. 4 tugs of 1,200 h.p. each, 1 of 350 h.p. and 1 of 60 h.p.

BERTHING: Main wharf 2,126 m. long, divided into two sections, one for import cargo and one for export cargo. Facilities exist for handling container traffic.

Berthing arranged by turn according to time of anchoring in bay for each vessel. Tidal currents exist alongside berths.

STEVEDORES: (See "Pilotage"). Port has at present time 80 gangs of 16 men each. The working hours during ordinary or regular time are from 0800/1130 and from 1400/1730. Overtime from 1800/2400 and from 0000/0800, and 1200/1400 (24 hours are worked). No work from 2300 hrs. Saturday until 0700 hrs. Monday.

MEDICAL: Agent must be given advance notice of urgent medical attention. Properly equipped hospital. All members of crew and passengers must have International Certificates of vaccination against smallpox.

TANKERS: Independent oil pier with capacity to accommodate vessels of medium size. Four 8 in. hoses for discharge of petroleum products, and two 6 in. hoses for unloading chemicals. Average rate of discharge of gasoline is 5,000 b.p.h. (approx.) Fuel oil and chemicals 1,500 b.p.h.

DENSITY: 1012 (approx.) average.

FRESH WATER: Drinking water unlimited quantity. Delivered through hose from end of wharf. Rate of delivery: 6 t.p.h.

FUEL:
(a) Two kinds of fuel, marine gas oil and bunker "C" fuel. Characteristics of gas oil: gravity 33.0 to 60° F. Specific gravity: 8602. Characteristics of bunker "C" fuel: gravity, 13.2 to 60° F. Specific gravity, 9779.

(b) To take bunkers vessel must berth between warehouse 2 to 9, and for delivery of gas oil between warehouse 1 to 5.

(c) Rate of delivery (approx.), 250 b.p.h. for bunkers and 700 b.p.h. for gas oil.

(d) Deliveries depend on quantity available when order placed, consequently Agent must know well in advance vessel's requirements.

(e) Cash payment according to prevailing prices at time of delivery; otherwise, according to contracts between Shipowner and supplier.

FIRE PRECAUTIONS: Fire station within port installations with proper equipment. In city also another fire station, co-operating if necessary.

DEVELOPMENTS: Improvement in wharf installations, warenouses and equipment and dredging is scheduled to deepen the depth alongside wharf.

WATCHMEN: Service necessary both by crew members and Agents personnel. There is no established body of watchmen; the steamship agencies carry out this work with their own personnel with previous request by Master. The port has a port police body and Custom house guards which co-operate in vessels' watch.

OPENING/CLOSING HATCHES: All Agents have special gangs to handle this operation and to fix the vessel's rig for discharge and/or loading. These personnel permanently stand by on board on account of climatic conditions of port with frequent and sudden rains. No prohibition against crew carrying out such operations when charter parties are involved and which stipulate that such operation must be done by crew. It is known from experience, however, that vessel's personnel are not, on occasions, sufficient to do this work.

CUSTOMS ALLOWANCES: No regulations establishing quantities which each crew member may have outside bond, but must not be excessive order avoid problems with authorities.

CARGO GEAR: Ship's gear used. Also see "General".

IDENTIFICATION CARDS: Agent will supply special cards to crew and passengers in transit so that they may go ashore. Cards valid for entering and leaving port installations and for identification with the Immigration authorities. Must be returned before vessel departure.

CONSULS:

United States	Tel. 2501	Holland	Tel. 2631
Panama	,, 2250	Bolivia	,, 2589
Ecuador	,, 2690	Mexico	,, 3589
Sweden	,, 3270	Spain	,, 2562

REPAIRS: According to port regulations vessels must at all times be ready with engines to sail, consequently repairs of engines not allowed when ship berthed at wharf. No prohibition against minor repairs on deck. When engine or deck repairs taking a long time are necessary, vessels not being loaded and/or discharged simultaneously with repairs must go to anchoring ground, since crowding of vessels at port does not permit vessel being inactive occupying space while other vessels are anchored waiting for berth.

REPATRIATION: Authorities render co-operation for change of crew and arrangements of repatriation in co-ordination with ship's Agent.

AIRPORT: Located 18 km. from Buenaventura. Serviced by a regular airline, Aerotaxi, which has several daily flights from Buenaventura to Cali and a daily flight from Buenaventura to Bogota. Small planes which take 40 minutes from Buenaventura to

Cali and 1.5 hrs. from Buenaventura to Bogota. Airport is small and has no facilities for international flights. Agent in charge of the repatriation of a crew member must handle necessary connection in Cali or Bogota, where there are international airports.

TIME: GMT minus 5 hrs. Permanent.

POLICE/AMBULANCE/FIRE: A voluntary firemen corps in the city. Alarm, tel. 2222; Guard, tel. 2223; Firemen of the Maritime Terminal, tel. 2830; Ambulance, tel. 2830; Police, tel. 2738.

GENERAL: Provisions available. Cable service to all parts of the world. Telephone and telex service inside country and to foreign countries through Bogota. Weather conditions: generally rainy. Explosives: if the vessel is transporting dynamite and detonating caps they are placed in separate lighters, and armed guards are required on board any vessel transporting explosives. In such cases, the vessel must anchor in front of Buoy No. 9 and discharge to lighters during daylight. No vessel can berth at the wharf if transporting explosives, and only permitted with dynamite in closed hatches, which will not be opened at the wharf according to government regulations. Port is equipped with following shore cranes: 2×80,000 lb. capacity (mobile), 1×60,000 lb. capacity (mobile), 3×20,000 lb. capacity (mobile), 2×14,000 lb. capacity (mobile), and 4×10,000 capacity (3 mobile and 1 fixed). Floating cranes: 1×45 tons capacity.

Lighters available: 3 with following characteristics:

Size *Length/width*	*Capacity*	*Type*
1-24.40× 9.45 m.	200 tons	Flat surface
2-34.40× 7.60 m.	150 tons	Flat surface
3-38.80×10.60 m.	150 tons	Flat surface

No refrigeration space available.

SHORE LEAVE: Permitted (with ID cards).

DELAYS: At anchorage in Bay average delay of one day while waiting for berth. On account of the rainy condition of the port, discharge or loading is at times stopped up to 12 hrs.

CARTAGENA (Incl. Mamonal and Ecopetrol): 10.26 N. 75.33 W.

DOCUMENTS:

Sailing Permit from previous port.
1 Sole Document.
5 Crew Lists (1 bearing expiration date of vaccination against smallpox, for Health Dept.).
4 Lists Crew's Personal Effects.
4 Lists Provisions and Equipment.
5 Lists Passengers disembarking (if any), or List of Passengers (negative).
5 Lists Passengers in transit (if any) or otherwise (negative).
4 Lists Mail, if any, or negative.
5 Sets Sobordos or Manifests of each port with respective Bills of Lading.
3 Sets Sobordos of each port with 2 freighted Bills of Lading, in U.S.$.
2 Sets Sobordos of each port without Manifests.
3 Tally Books of cargo for each port.
4 Manifests in ballast (when there is no cargo for the port).
For inspection: Registration Certificate, Certificate of Health.

PILOTAGE: Name of pilot station: "Estacion de Pilotos en Bocachica." Radio: VHF Channels 16, 6 and 26 with 24 hour service weekdays; Saturdays until 2300 hrs. and Sundays from 0700 to 1500 hrs.

ETA must be given 24 hours in advance.

Pilot boats: 2 steel launches of 135 h.p.

Sound signals: merchant vessel, three blasts (whistles). Tankers, four blasts (whistles).

Pilot's area of approach: 0.5 mile from Buoy No. 1.

Anchorage area in foul weather: anchor at Zone No. 1 off Buoy No. 5.

Dimensions of entry channel: width 500 ft., depth 40 ft.

ANCHORAGE: Anchorage zones available at Castillo Grande and at Manzanillo. Depths up to 90 ft.

RESTRICTIONS: Entry day or night.

MAX. SIZE: Cartagena: length 600 ft., beam 79 ft., draft 30 ft. (for berthing).

Tankers: length 850 ft., beam 110 ft., draft 38 ft. Tankers anchor and berth in port of Mamonal, within bay, using same approach.

HEALTH: Doctor requires the Crew Lists with data of vaccination against smallpox. International regulations in cases of contagious sickness or epidemic are carried out.

RADIO: See "Pilotage".

TUGS: Escort vessel when berthing and will assist if required. Use of tugs compulsory for all vessels over 250 net tons.

No tugs required for tankers berthing at Mamonal.

BERTHING: Port has two piers: Berth No. 1, outside length 202.60 m., depth 31 ft.; inside length 184.76 m., depth 30 ft.; Berth No. 2, outside length 184.76 m., depth 28 ft.; inside length 184.76 m., depth 28 ft. 24 hours service. Berthing shifts or turns: 1st, Passenger vessels (Tourist). 2nd, Cargo vessels with live animals. 3rd, Vessels with mail. 4th, Cargo vessels according to arrival in port.

CRANE: 30-ton floating crane available.

STEVEDORES: Agents must request stevedores 24 hours in advance. Working hours during normal time: 0700 to 1100 and from 1300 to 1700 hrs. Overtime with 50% surcharge. Gangs work continuously during 23 hours, from 0700 to 0600 hrs. of the following day. Work can be started at: 0700 – 0900 – 1300 – 1500 – 1700 hrs. on weekdays and 0700 and 0900 hrs. on holidays. No work on Sundays. Work can be cancelled with 7 hours notice. Stevedores must be requested before 1030 hrs. on Saturdays for vessels starting work on Mondays at 0700 hrs. Average rate for general cargo is 10 t.p.h./gang. Terminal stevedores used. Agents can contract for own gang in order to separate parcels, cleaning, shifting of cargo, etc. Cost of this gang lower than of terminal gang.

MEDICAL: Requests for medical service through Telecom Radio Station. Three hospitals. Medicine faculty and medical personnel first class. Also dental services. Vaccinations can be given.

TANKERS:

(a) Ecopetrol: Empresa Colombiana de Petroleos. Position: within bay of Cartagena, 5 miles N.E. of bay entry (Boca Chica). Port formed by two ocean platforms, with two protections at each side, 0.5 mile distance from Mamonal Bay. Depth 54 ft. with 6 interconnecting lines. Pilotage: through "Mooring Master" of port. Anchorage: Mamonal Bay 4 miles from Bocachica; depth 54 ft. Entry restrictions, none; 24 hours service. Tankers dimensions: length 850 ft., beam 110 ft., draft 38 ft., tonnage 40,000 d.w.t. Tugs: not used. Tide: 1 ft. 6 in. fluctuation. Fresh water: can be obtained when berthed, 4 in. diameter pipe-line. Precautions against fire: fuel cannot be delivered by barges when vessel is berthed. Pipe-line delivery of bunker fuel oil available. General: requested that vessel arrive with minimum ballast (clean if possible). No dirty ballast to be pumped into the bay. Violation subject to fine. If impossible to arrive with clean ballast, dirty ballast will be discharged through cargo line. Rate of pumping: fuel oil 10,000 B/H; diesel oil 11,000 B/H.

(b) Mamonal. 7 miles (approx.) South of Cartegena Town and 5 miles East of Boca Chica entrance Channel. Approaches and Pilotage: same as for Cartagena (see above). Mooring Master boards about 0.5 mile off dock and remains aboard whilst vessel at Mamonal. Mooring Master has to be provided with own cabin and victualling. Max. Size: length 850 ft., beam 110 ft., draft 38 ft. Berth: "T" shaped platform with dolphins. Lines to buoys off both bows and from stern, 2 mooring lines should be joined together for starboard quarter line. Ballast: no dirty ballast to be pumped into bay. If possible arrive with clean ballast; dirty ballast can be discharged ashore. The shore deballasting facilities consist of 1 tank with 75,000 bls, capacity; the pipeline is 2,835 ft. long and of 16 in. diameter. Three hoses of 8 in. diameter are connected for deballasting. Fresh water: not available except at Cartagena. Fuel: available, Bunker "C" and diesel oil.

FRESH WATER: Obtained while vessel berthed. Hoses of various diameters. Pumping rate is 10 t.p.h. per hose.

DEVELOPMENTS: Draft increase; periodical cleaning of bay and basin. Enlargement of Marginal No. 1. Paving of yards and construction of new warehouses and workshops.

WATCHMEN: Watching service at the gangway and deck. Officially this service is done by port's guards. It is recommended that members of crew assist in this service.

CLOSING/OPENING HATCHES: Undertaken by port stevedores.

IDENTIFICATION CARDS: Agents supply cards signed by port Captain and Master.

CONSULATES:

Germany	tel. 20-160	Haiti	tel. 40-881
Belgium	,, 40-845	Italy	,, 41-583/41-279

DRY DOCK: Commercial Shipyard "Conastil" with slipway facilities for ships up to 1,300 d.w.t. 9 ft. max. draft. Floating dock capacity for vessels of up to 400 ft. length, 55 ft. beam, 19 ft. draft and 3,000 d.w.t.

REPATRIATION: Facilities available for crew changes.

AIRPORT: Crespo Airport very near to city (3.5 km.). Runways for small jets and is being enlarged for larger jets. Operates at present with Avianca (Cartagena-Miami per jet). A weekly round trip on Saturdays. Domestic flights are operated by Avianca, Aerocondor, Sam (from Cartagena). Barranquilla: Soledad Airport. 2 hours by road and 22 minutes by plane. This airport has international connections with Panama, Miami, Maracaibo, Curacao, Caracas. Cartagena Airport has daily connection with Bogota (El Dorado), the main Colombian airport for servicing main international air lines: Avianca, British airways, Iberia, KLM, Panam, Braniff, Air France, Lufthansa, APSA, AREA. Flight to Bogota by jet takes 55 minutes, and 2 hours by propeller aircraft. Cartagena Airport connects with main Colombian cities: Medellin, Cali, Barranquilla, Santa Marta, Cucuta, Bucaramanga. Daily service.

TIME: Colombian official time: 5 hours behind GMT. Permanent.

HOLIDAYS: Eighteen days of holidays during year, but at terminal there is no service on following dates only: New Year Day (January 1); Good Friday (Viernes Santo); Labour Day (May 1); Cartagena Independence Day (November 11); Christmas Day (December 25). During the days December 24 and 25 work is done only until 1100 hrs. During other holidays there is 24 hour service with 50% surcharges.

POLICE/AMBULANCE/FIRE: Police, Radio Patrol, tel. 04, Barracks 40173, DAS 40211: Ambulance, Terminal, tel. 40291, Naval Hospital 40248, Sta. Hospital Universitaro de Cartagena 40380; Fire, 42222.

TELEPHONES: May be placed aboard.

GENERAL: Cartagena can be entered or left at any time day or night. Vessels can also berth or unberth in dry season or rain seasons, and services are rendered during 24 hours.

There is a very tight security system with a detachment of 145 port police, watch towers, dogs, sodium vapour lighting, access control, full identification, cargo control unit. This new unit, and the administrative controls that complement it, has reduced losses to near vanishing point.

The port has international communications with telex, phone and cable. Complete marine service with VHF and can communicate with Bogota and the other Colombian ports with S.S.B. radio.

SHORE LEAVE: Crew allowed disembark. Every member of crew is given card signed by Port Captain and Master of the vessel.

DEVELOPMENTS: There is a new marginal dock under construction which will be finished in December, 1976, total length 260 m. A new Administration Centre will be finished on the same date.

REGULATIONS: To clear the wharf if required for tourist vessels or export cargo vessels.

AUTHORITY: Gerente del Terminal, Maritimo y Fluvial.

COVENAS (Gulf of Morresquillo): 09.25 N. 75.42 W.

See "General" before first port.

DOCUMENTS:

3 Crew Lists.
Passenger List.
Customs Documents.
Manifests.
Bill of Lading.
Ships Papers.
Clearance Ballast Manifest.
Crew's Personal Effects Declaration.
Vaccination Certificates.
Stores List.

PILOTAGE: Advise ETA 72, 48, 24 hours in advance. Pilot leaves dock on sighting vessel. Ship boarded approx. 1 mile N.W. of sea buoy or at anchorage. Pilot boat is 25-ton tug, 60 ft. length, 500 h.p., steel hull.

ANCHORAGE: Vessels arriving at night anchor 1 mile N.E. of lighted marker buoy. Bottom – mud.

RESTRICTIONS: Docking only during daylight 0500-1730 hrs. Undocking – any time.

MAX. SIZE: Length 800 ft., draft 42 ft. 6 in. Depth in approach Channels 42 ft. Mean tidal range 18 in. Current 3 knots (max.).

HEALTH: Quarantine officials board ship at berth or at anchor. Accommodation ladder should be rigged for Quarantine and Customs Officials. From December to March ladder should be rigged on port side due to prevailing North wind.

RADIO: Radio traffic addressed "Sagoc Tibu" via Barranquilla or Cartagena radios.

TUG: Tug-pilot-boat leaves dock on sighting vessel.

BERTHING: Vessels use stbd. anchor with approx. 5 lengths of chain, and 2 stbd. mooring buoys aft; 2 port mooring buoys aft and 2 port mooring buoys forward. All mooring lines should be 120 fathoms. Prevailing wind 310°. Terminal is a sea-berth approx. 1 mile from illuminated marker buoy. The berth has now been taken over by Ecopetrol and may be used in future for the discharge of imported crude.

MEDICAL: Doctor on call at any time. Twelve-bed hospital.

LOADING: Hoses connected on port side 2×10 in., each 2.5 tons, to be lifted by ship's boom and winch. Pipe-line 20 in. 7,300 ft. from pump station to berth. Average pumping rate: 2,000 t.p.h. Max. pressure ashore: 120 psi. 3 grades of oil handled by same pipe-line. Approx. API gravity of crudes: heavy Barco 32.5, Cicuco 45.5, Valasquez/Barco mix 24.0°.

DENSITY: 1021.

FUEL: See "General" before first port.

IDENTIFICATION CARDS: If required by Customs, issued by Sagoc.

CONSULS/REPAIRS/DRYDOCKS/FUEL/FRESH WATER: None.

REPATRIATION: Only if sick crew member left ashore after vessel sails.

AIRPORT: Barranquilla. Flights to U.S.A., Europe and other South American countries.

TIME: Eastern standard time. GMT minus 5 hours.

HOLIDAYS: Loading carried on during holidays and week-ends.

SHORE LEAVE: At discretion of Captain. Crew uses private motor vessel at own risk.

REGULATIONS: Vessels should arrive with clean ballast. No dirty ballast to be pumped into bay, violation subject to penalties. If impossible to arrive with clean ballast, dirty ballast will be discharged through cargo lines and 3,000 barrels of dirty water displaced into vessel. Capacity of slop receiving facility unlimited.

DELAYS: Only when other vessels occupying mooring.

AUTHORITY: Ecopetrol.

POZOS COLORADOS TERMINAL: 11.09 N. 74.15 W.

OPERATORS: Chevron Petroleum Co. of Colombia, Apartado Aereo 947, Cucuta, Colombia.

DOCUMENTS: See "Santa Marta".

LOCATION: North Coast of Colombia, approx. 6 miles S.W. of Santa Marta.

MAX. SIZE: Berth in approx. 55 ft. of water and can accommodate vessels of up to 69,000 d.w.t. with max. draft 45 ft.

PILOTAGE: Mooring Master will meet vessels approx. 1 mile seaward of terminal location. He will remain on board throughout the vessel's stay and should be provided with accommodation.

CLEARANCE: Port authorities board with Mooring Master to enter ship and attend all formalities.

BERTHING: Vessels lie in berth in approx. due North heading; vessel's lines run by means of mooring launch to stern, quarter, and breast buoys. Vessels up to 20,000 d.w.t. require at least 5 good manilla lines; vessels in excess of 20,000 d.w.t. require at least 7 good manilla lines. These lines must be of not less than 120 fathoms length. Synthetic lines of equivalent strength may be used. Vessels equipped with wire mooring winches may use wires in lieu of fibre lines. When mooring, required use both bower anchors, each having at least 150 fathoms of chain and be prepared handle 5-ton lift on starboard side at ship's manifold. Because of rigidity of submarine hose, a small movement of vessel out of correct position could damage submarine equipment. Extreme caution must be exercised to assure that vessel is correctly moored. During loading operation slack must be kept out of submarine hose by adjustment of vessel's anchor and lines.

HOSES: Submarine hose 16 in. with 16 to 12 in. reducer for connection to vessel's 12 in. deck hose. For vessels not equipped with 12 in. deck hose, a 12 to 10 in. reducer is available. A 25 ft. length of 10 in. deck hose is also available for vessels not having a deck hose on board. Ship's crew performs all hose connecting, disconnecting, etc.

CARGO HANDLING: Rio Zulia Crude Oil has following specifications: Gravity, approx. 41.2° API. Flash, below atmospheric temperature. Reid vapour pressure, 5 to 8 psi. Pour point, +85°F. Sulphur, wt. %, 0.3 Wax, wt. %, 16.

Rio Zulia Crude has high wax content (about 16% by weight). Above 90°F. Rio Zulia Crude will flow easily and is about same viscosity as heavy No. 2 oil. Below 90°F. it rapidly becomes more viscous until it is similar to petroleum jelly or heavy lubricating grease.

Temperatures: Loading temperature of this cargo at Pozos Colorados between 85 and 90°F. Vessel should maintain loading temperature in wing tanks or if necessary gradually raise temperature to approximately 85° to 90°F. Approx. 2 to 3 days prior arrival discharge port, vessel should start to heat cargo in centre tanks so that upon arrival discharge terminal, average cargo temperature is between 100° and 105°F. for both wing and centre tanks. This temperature should be maintained throughout discharge. When discharge is through a submarine line in cold waters or over docks, when ambient temperatures are extremely cold, it is recommended that above temperature be increased 5° to 110°F.

Tank prepararation: Cargo tanks which on previous voyage contained sour crudes (similar to those loaded in Arabian Gulf) should be machine washed with hot water at max. pressure order remove from tank bottoms all free oil remaining from previous voyage. Machines should be spotted low in tanks so as obtain max. washing over tank bottoms. Upon completion of deballasting, cargo tanks should be stripped dry and cargo pumps and lines drained so that tanks, pumps and lines free of pumpable water when cargo loaded into them.

BALLAST: The utmost care must be exercised by all tankers to avoid any contamination of the terminal bay waters, since the entire area is a developing tourist resort. This means that absolutely no deballasting or disposal of bilge water must take place in the bay. Shore deballasting facilities can handle up to 84,000 bbls. if ship provides advance warning.

FUEL: No bunkers available at terminal. See "General" before first port.

REPAIRS: Limited repair facilities available in Santa Marta, approximately 6 miles from terminal.

MEDICAL: Doctor and hospital located at Santa Marta.

CONSULS: No consular office in vincinity of terminal. Nearest Consuls, located in Barranquilla, approx. 35 miles distant.

SHORE LEAVE: Through the ship's Agent, shore leave can be arranged, but sufficient crew must remain on board to handle emergencies.

GENERAL: No petroleum inspection services. No ship's stores.

SANTA MARTA: 11.15 N. 74.14 W. (See Plan)

DOCUMENTS:

For the Port Captain:

1 Clearance from Last Port.
1 Voyage Report.
1 Crew List.
1 List of Passengers for Santa Marta.
1 List of Passengers in transit.
1 List of Provisions.

Vessel Certificates: (these only need to be shown)

Registration Certificate.
Load Line Certificate.
Classification Certificate.
Safety Equipment Certificate.
Radiotelegraphy Safety Certificate.
Construction Certificate.
Cargo Handling Equipment Safety Certificate.
Oil Pollution Certificate.

For Port Health Authority:

Derating Certificate.
Maritime Health Declaration.
Crew List with dates of vaccination.
List of Passengers for Santa Marta.
List of Passengers in Transit.

For Customs:
3 Cargo Manifests.
3 Crew Lists.
3 Lists of Passengers for Santa Marta.
3 Lists of Passengers in Transit.
3 Lists of Crew Personal Effects.
3 Lists of Provisions.
3 Mail Lists.
1 Single Document.
For Agencies:
1 Voyage Report.
6 Crew Lists.
6 Lists of Passengers for Santa Marta.
6 Lists of Passengers in Transit.
6 Crew Personal Effects Lists.
2 Lists of Mail for the port.
4 Cargo Manifests.
4 Bills of Lading.
2 Cargo Stowage Plans.

PILOTAGE: Locate Morro Grande Islet and lighthouse, proceed then to location 0.7 miles South of Westernmost point this islet where Pilot will join ship. Information regarding ETA should be relayed to Agent, who will advise port authority.

ANCHORAGES: When it is not possible for the vessel to come alongside a berth immediately, the Captain may anchor within the area included within the following coordinates.

Lat. 11° 14′ 45″ N. Long. 74° 13′ 15″ W.
Lat. 11° 14′ 45″ N. Long. 74° 14′ 00″ W.
Lat. 11° 14′ 15″ N. Long. 74° 13′ 25″ W.
Lat. 11° 14′ 15″ N. Long. 74° 14′ 00″ W.

Seabed is rocky and sandy, with depths about 120 ft.

Vessels should anchor in the lee of the Morro Grande and Morro Paqueno (Large and small headlands), particularly during the months of December to March, when there is a strong N.E. wind.

RESTRICTIONS: None. Good visibility throughout year. Difference in tides negligible.

MAX. SIZE: 730 ft. length, 40 ft. draft. No limit to beam. Oil carriers: refer to Pozos Colorados.

PRATIQUE: Pratique granted by Port Captain who visits vessel immediately on arrival. Doctor also attends on this visit.

RADIO: Barranquilla Radio or Cartagena Radio; radio stations messages relayed by telex to Sta. Marta. Ship's Agents use same system. Terminal Office may be contacted on radiotelephone, 2738 kHz.

TUGS: Join vessels just before entrance to inner harbour; they may use own lines or vessels lines.

BERTHING:

Quays	*Length*	*Minimum Depth*
No. 1	540 ft.	42 ft.
No. 2	540 ft.	47 ft.
No. 3	760 ft.	37 ft.
No. 4	465 ft.	28 ft.
No. 5	465 ft.	35 ft.

Facilities exist for container traffic. 30,000 tons silo for grain storage and discharge facilities for up to 5,000 tons per day.

STEVEDORES: ETA to be given 72 and 24 hours before arrival, indicating number of gangs required. Unloading rate of general merchandise 10 t.p.h., and homogeneous cargoes around 15/20 tons.

No work from 2300 hrs. Saturday until 0700 hrs. Monday.

MEDICAL: Advance notice required whenever special medical attention needed on arrival; hospital available.

TANKERS: See "Pozos Colorados".

DENSITY: Tropical sea salt water density.

FRESH WATER: Available alongside docks: delivery (approx.) 10 t.p.h.

FUEL: Not available. Nearest supplies at Barranquilla.

GANGWAY/DECK WATCHMEN: Deck watchmen supplied by Agent.

OPENING/CLOSING HATCHES: By special gang ordered by Agent.

SHIP CERTIFICATES: Load Line, Cargo Gear, Classification, Lifeboat, Main Engines, Radio Equipment, Fire Fighting Equipment, Ship's Register, Officers' Certificates (licences).

CUSTOMS ALLOWANCES: (Tobacco), 2 cartons of cigarettes per man. All other tobacco will be sealed by Customs. (Wine and/or Spirits), 1 open bottle of liquor permitted per crew member. All other spirits will be sealed by Customs.

IDENTIFICATION CARDS: Given by Port Captain once quarantine is cleared.

CONSULS: The following countries have consulates in Santa Marta.

		Phone
Belgium	Cra. 1a. No. 22-80	2404
Spain	Calle 19 No. 3-26	3559
Guatemala	Calle 11 No. 1C-23 P.8	4048
Italy	Iroka el Rodadero Building.	
Norway	Calle 11 No. 1-C-23 Dpto. 306	3501
Ecuador	Calle 12 No. 16-E-93	2643
Costa Rica	Avda. Libertador No. 33-47	2199
Netherlands and Sweden	Calle 15 No. 3-94	3403
Panama	Calle 25 No. 18A-105	
Peru	Calle 16 No. 1-92	3420
Dominican Republic	Cra. 21 No. 15-99	
Finland	Edificio de los Bancos Oficina No. 605	5317

REPAIRS: Only minor welding.

REPATRIATION: Facilities available.

AIRPORT: 19 miles from town.

TIME: 75th Meridian time, Eastern standard time. GMT minus 5 hours.

HOLIDAYS: New Year (January 1st); Church Holiday (April 12th); Labour Day (May 1st); Local Holiday (July 29th); Church Holiday (December 24th); Christmas Day (December 25th); Church Holiday (December 31st). No work on New Year's Day, Labour Day, Local Holidays, Christmas Day. Work until 1600 on other holidays.

POLICE/AMBULANCE/FIRE: Police, tel. 6079; Ambulance, tel. 3116 – 5555; Fire, tel. 6091 – 4545 – 6055.

SHORE LEAVE: Granted after quarantine cleared.

DELAYS: Up to 12/14 hours because of shortage of docking space.

AUTHORITY: Port Captain.

TUMACO: 01.49 N. 78.45 W.

DOCUMENTS:
5 Crew Lists.
5 Stores Lists.
5 Passenger Lists (local, in transit, or negative).
1 Sanitation Declaration.
12 Complete sets Manifests.
3 Mail Certificates (when not included in Manifest).

PILOTAGE: Compulsory.

ANCHORAGE: Sufficient area available in depths of 25 to 35 ft.

RESTRICTIONS: Entrance channel depth 20 ft. Height of tide varies from 8 to 12 ft.

HEALTH: On arrival, port doctor boards vessel to inspect crew Smallpox Vaccination Certificates and Yellow Fever Certificates, also Deratisation Certificate. If any crew members suspected suffering contagious disease Master to radio prior arrival advising Agents accordingly. Port Doctor visits vessel even if previous port was in Colombia.

BERTHING: Wharf is 310 m. long. Depth alongside averages 30 ft. Berthing for two vessels of 4,000–5,000 tons.

FRESH WATER: Available from wharf.

FUEL: Supplied by Esso Colombia, by barge.

CARGO GEAR: Terminal owns 3 cranes of 5 to 15 tons capacity.

AIRPORT: Suitable for DC.4 type aircraft, situated 4 km. from port.

DEVELOPMENTS: Programme for deepening the port to 33 ft. at high water.

AUTHORITY: Empresa Puertos de Colombia.

TURBO: 08.06 N. 76.43 W.

ANCHORAGES: Anchorage 2.5 to 3 miles off mouth of Leon River, used for loading bananas from barges.

CLEARANCE: Vessel must first proceed to Punta las Vacas for official visit of Port Authorities to obtain clearance.

MOORING: With sea and wind from the North, loading operations are not possible unless vessel employs the "Baltic Moor".

On arrival at the Leon River Anchorage, vessels should let go a couple of shackles. After that, a 3 to 3.5 in. wire (or mooring line) is passed from the after leads on the poop, along the ship's side, outside and clear of everything. This wire is to be shackled to a number three chain shackle.

By heaving in the wire and slacking the chain as required (about a 60° angle) vessel will give the necessary shelter to banana barges, for normal cargo operations.

SHIPMASTERS REPORT: *Chart used No. 24515 (American).*

Vessels ordered to Turbo first proceed for clearance off Turbo town and anchor in position about one mile West of Pta Las Vacas Lighthouse (08° 04′ N. 76° 45′ W.). The lighthouse, which is situated on the Southern end of Pta Las Vacas is not readily identifiable from the N.W. until within about 2 miles and the light is reported to be poor. The chart in the area of Pta Turbo, about 4 miles Northward of Pta Las Vacas, does not correspond to the radar picture presented, and therefore a berth of at least 2 miles is recommended.

After clearance by Port Authorities at Turbo vessels should proceed to Pinchindi, about 7 miles W.S.W. of Pta Las Vacas, for loading during the period December to May. It is reported that during the season May to December vessels load off the mouth of the Rio Leon, about 7.5 miles S.S.E. of Pta Las Vacas. Approaches to this berth apparently pose no problems and the loading position is reported to be close to a buoy off the river mouth, the position of which could not be confirmed.

There is no Pilot available at Turbo.

Vessels loading at Pinchindi should steer to pass about 1.5 to 2 miles S.E. of Boca Pinchindi. When the black buoy, fl. 3 sec. (marked on chart No. 24515) bears about 335° true, but not less than 315° true course should be altered to bring the buoy right ahead and anchorage should be taken up as convenient on this bearing. The black buoy referred to above is very difficult to pick up against the land, and in February 1976 was extinguished. There are two mooring buoys to the Eastward of the black flashing buoy. These are unlighted and not marked on the chart. Positions of these mooring buoys are as follows, bearings and distances from the black fl. 3 sec. buoy: BWVS 83.5° true×380 m. R 99.5° true×760 m. These mooring buoys are more readily indentifiable from the offing than the fl. 3 sec. buoy, particularly the red one, which is painted in "International Orange". However it should be borne in mind that this buoy may have just received a new coat of paint at the time this report was written. The red buoy may be seen over the land which

lies on the Eastern side of the anchorage before course is altered for the final approach. Vessels of draft up to 25 ft. may anchor up to within about 300 m. of the fl. 3 sec. buoy in about 22 m. of water.

As the wind strengthens during the afternoon to about force 5/6 from between N. & N.E., and due to the proximity of other vessels in the anchorage, it was considered advisable to use two anchors; the vessel in fact used port anchor with 4 shackles on deck and starboard anchor underfoot. This prevented the vessel from yawing more than a maximum of about 15°, while other vessels moored with only one anchor were observed to be yawing considerably more during the afternoon breeze.

Winds, during the period while the vessel was at Turbo (February 2-4) were predominately from North to N.E. and no significant currents were observed in the anchorage described above.

Caution is advised while navigating in this anchorage at night, as vessels loading logs often have large unlighted timber rafts alongside. It should also be borne in mind that tugs, lighters and launches are often unlighted, and radar echoes from these might easily be mistaken for those of the buoys. While the radar echoes of the land in this anchorage are quite clear, they do not in any way correspond with the chart.

No opportunity presented itself for checking soundings, however, on the vessel's track arriving and sailing soundings on the whole agreed with charted depths.

Loading of bananas is carried out in the anchorage using mechanical conveyors from lighters through vessels sideports, and on the whole was found to be quick and efficient.

No freshwater or provisions are available at Turbo. Indeed no facilities whatever are available from ashore. There is no radio station, although banana shippers "Uniban" have VHF 16 in their office during office hours, Spanish language only. Agents for United Brands Company have VHF Channel 16, call sign is "Casanova".

Caution should be exercised when taking any navigational advice from Officials in Turbo as this may at times be misleading and it is questionable whether persons proffering advice regarding best anchorage position etc. are in possession of all facts necessary for safe navigation in the area.

Documents Required for Inward Clearance at Turbo:

1 Clearance from last port.
6 Crew Lists.
5 Passenger Lists (Nil passengers to be declared).
5 Disembarking Passengers.
5 Mail Lists (No mail to be declared).
1 Maritime Declaration of Health.
1 Vaccination List.
6 Manifests.

Ships Certificates for Inspection:

Register.
Safety Equipment Certificate.
Safety Radio Certificate.
Radio Station Certificate.
Cargo Gear Certificate.
Derat Certificate.
Ships Capacity Plan.

In addition to above list of documents required, the following are also to be presented to Authorities on arrival:

2 Store Lists.
2 Crews Personal Effects.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Congo (People's Republic of)

DJENO TERMINAL: 04.55 S. 11.56 E.

PILOTAGE: Pilot boards in position 04° 54′ S., 11° 49′ E. which is 076° – 6.5 miles from Djeno Lighthouse.
RESTRICTIONS: Mooring possible day and night.
MAX. SIZE: 120,000 d.w.t.
BERTHING: Vessel must have port side derrick rigged on arrival. Ballast must be clean. Loading is from SBM. Connection: 2 flexible pipe-lines 12 in. diameter. Vessel to standby on VHF during loading operations.
SHIPMASTERS REPORT: (MAY 1976):
Documents: Papers required on arrival;
Last port clearance.
2 copies Crew lists.
2 copies Vaccination Certificates dates.
2 copies Stores list and bond.
1 copy Crew Personnel effects lists.
Pilot and Agent do all paper work.
Approaches: Pointe Noire shows up well on radar at 25/30 miles, but Djeno and the S.P.M. are poor. The phosphate wharf shows up well and projects out from the land about 2 miles S.E. of Pointe Noire breakwater.
Also see Shipmaster's Report of approaches to Pointe Noire.
Pilotage: Pointe Noire has 4 working pilots, one of whom, on the rota system serves Djeno when a tanker arrives.
Both Pilot and Loading Master board from a fast pilot launch off Pointe Noire and an assortment of mooring ropes and chains and messengers are taken aboard from a work boat which is also met 3 miles West of the breakwater. After that is completed, vessel proceeds the 9.05 miles to the S.P.M. at Djeno.
Max. Size: Depth of water at S.P.M. is 22 m. and the max. draft is 53 ft. (16.5 m.).
Berthing: Mooring to the buoy consists of:
Port and starboard mooring ropes, 42 m. of 13 in. circumference nylon and 5 m. of chain, polyprop messengers 10 in. circumference are attached to each rope for the initial haul-in. Port line first. Derrick to be rigged on the port side and manifolds to be ready port side to receive two 12 in. hose connections.
No dirty ballast reception facilities ashore, vessel must arrive with clean ballast. Crew moor vessel with assistance of 3 shore crew and advice of Loading Master who is on focsle head and liaises with Pilot on bridge.
Crew bring on board cargo hoses and connect same. Pilot and Loading Master remain on board throughout with Pilot changing every 24 hours.

POINTE NOIRE: 04.47 S. 11.49 E. (See Plan)

DOCUMENTS: On arrival, the Captain must hand over to:
The Agents:
4 Crew Lists.
4 Lists of Crew Boys.
4 Passenger Lists or negative.
4 Lists of Ports of Call.
2 Lists of Crew Personal Effects.
2 Stores Lists.
5 copies of Cargo Manifest.
Captain's copy of B/L.
Harbour Authorities:
1 Arrival Form issued by Port of Pointe Noire.
1 Departure Form issued by Port of Pointe Noire.
Health Authorities:
1 Vaccination List for crew members.
1 Declaration of Health (form issued by the port of Pointe Noire).
Vaccination cards for the whole crew.
PILOTAGE: Compulsory. Telegraphic address: Harbour Master's Office of the Port of Pointe Noire. Pilot station can be contacted by VHF Channel 16; 24 hour service.
APPROACHES: *Shipmaster's Report:*
The approach to Pointe Noire from the West using Chart 4105 Freetown to Luanda is clear of dangers as far as our experience goes. After crossing the 200 m. (100 fathom) line the soundings are consistent with a gently shelving coast until there is 30/40 m., 3 miles West of Pointe Noire breakwater, where the Pilot boards.
Approaching Pointe Noire from the West the radar picture of the coast about 20 miles North of Pointe Noire is very similar to Pointe Noire itself. This could confuse and lead one to think that the ship is further South than she really is, but the cluster of oil rigs should be a good guide.
There is a cluster of oil rigs with flares S.S.W. by 13 miles from Pointe Noire main lighthouse, with another cluster about due South by 17 miles, both good radar targets. Do not go in between these clusters. The Pilot told me that there is another set of oil rigs about 10 miles N.W. of Pointe Noire light under construction. Watch out for numerous small dugouts, etc. fishing.
RESTRICTIONS: Minimum draft allowed for ore-carrying vessels of more than 130 m. drawing alongside at Quay G: 20 ft. aft and 15 ft. forward. Max. draft allowed for all vessels: 31 ft. at any hour. Max. draft allowed for ore carriers leaving Quay G is 34 ft. 04 in. 1 hour before high tide. Tying to mooring buoy can be done only between sunrise and sunset.
Shipmaster's Report: Max. draft for tankers 31 ft. Entering possible day and night at all states of the tide.
HEALTH: Port Health Officer boards immediately on berthing. Compulsory vaccinations: smallpox, yellow fever and cholera.
RADIO: Pointe Noire Radio, call sign TNA. Continuous service on 500 and 2182 kc/s from 0600 to 1800 hrs. GMT. Transmission on 8722 kc/s TNA from 0930 to 0945, 1030 to 1045, 1330 to 1445, 1530 to 1545, 1730 to 1800 hrs. GMT; on 13101 kc/s TNA from 0630 to 0645, 0730 to 0745, 0830 to 0900, 1700 to 1715 hrs.
Shipmaster's Report: If vessel is coming from the South it is advisable to pass messages through Luanda.
RADAR/VHF: The Harbourmaster's office has a VHF set (call Channel 16) but no radar.
TUGS: 3 tugs 1800 h.p., 1185 h.p., and 600 h.p., normally join the vessel as soon as it crosses the passage. The vessel's own lines are usually used.
BERTHING:

	Length	Draft Permitted
Quay D: Berth 1,	720 m.	24 ft.
,, 2,	720 m.	29 ft.
,, 3,	720 m.	29 ft.
,, 4,	720 m.	30 ft.
,, 5,	20 m.	30 ft.
Quay G: Ore Berth,	25 m.	31 ft. 04 in.
Tanker Berth,	10 m.	31 ft.
Mole 1: Timber Berths,	50 m.	31 ft.
Lighter Berth,	—	12 ft.

STEVEDORES: The Agent requires the following information 48 hours in advance, in order to arrange gangs: precise ETA; number of gangs required for unloading/loading; distribution per hold unloading/loading; draft, fore and aft – before 0600 hrs. in the morning on weekdays counting as overtime; before 0600 hrs. Saturday mornings for the weekend or day before holiday also counted as overtime.
MEDICAL: Notice for medical attention not needed. There are 2 private clinics.
TANKERS: Diameter of loading/unloading lines: 6 in.=aircraft fuel. 10 in.="white product". 12 in.=1500 fuel. Hoses=8 in. 1 tanker berth – 31 ft. acceptable draft.
Also see "Djeno Terminal".
DENSITY: 1025 on average. Only slight variations according to tides.
FRESH WATER: 2 hoses can be connected at each berth. Rate: 5 t.p.h. per hose.
FUEL: Ordered from suppliers: Hydrocongo. Pipe-line supply to tanker berth and berths Nos. 1 and 8.
FIRE PRECAUTIONS: The port must be informed of ETA of tanker 24 hours in advance.
GANGWAY/DECK WATCHMEN: There are none at Pointe Noire, as it is unnecessary.
OPENING/CLOSING HATCHES: Usually the crew's responsibility. Can be carried out by the stevedore for payment.
CUSTOMS ALLOWANCE: No limit – must be stated on crew declaration, and quantities must be accurately stated.
CARGO GEAR: Derricks to be in good condition. There are 2 cranes at the new jetty.
IDENTIFICATION CARDS: Sailors' cards or passport needed.
CONSULS: France, Great Britain and West Germany.
REPAIRS: Most repairs for the deck and engines are possible. Also facilities for electronic repairs. Floating crane, capacity 65 tons. (Not in service.)
DRY DOCKS: One slipway for vessels up to 800 tons.
REPATRIATION: Every facility for crews equipped with a crew card and passport.
AIRPORT: 6 km. from the port. 1 to 2 flights per day to Brazzaville. 1 to 2 flights per day from Brazzaville to Europe.
SHIPMASTER'S REPORT: Mail takes between 3 and 7 days from Pointe Noire to Paris, and Pilot assures that it is reliable.
TIME: Local time is GMT plus 1 hour.
HOLIDAYS: 1st January (1 day's holiday); 1st May (2 days' holiday); 31st July (1 to 2 days' holiday); 15th August (2 to 3 days' holiday); 1st November; 25th December (1 day's holiday).
POLICE/AMBULANCE/FIRE: Police 17; Fire 94.00.09; Ambulance 94.00.49, 94.21.98.
TELEPHONE: Cannot be connected on board ship but there is one in the middle of Quay D for the use of vessels.
GENERAL: As the Congolese Customs are very strict, the drawing up of the store list and crew declaration should be carried out very carefully, as the slightest error is penalised and a fine imposed.
Stores are expensive and not easily obtainable. Fish available also fruit and vegetables but not in the Rainy Season.
SHORE LEAVE: No restrictions.
PORT REGULATIONS: In the event of congestion, vessels are obliged to work at night and on Sundays, and if they refuse to do this, they may be relegated to the roadsteads and thereby lose their turn to draw alongside.
DELAYS: *Shipmaster's Report:* Occasionally tankers are delayed for long periods as the shore tanks may be full.
AGENT: Socopao-Congo, BP 714, Pointe Noire, Peoples Republic of Congo. Cable address "Freight". Telex: 8201. Tel. 28.78-29. 10-29.11. Director of agency 35.53. Agent 28.32.

Cook Islands

AVARUA, Rarotonga 21.12 S. 159.47 W.

DOCUMENTS:
Health: International Maritime Declaration of Health.
Customs: (Immigration)
2 Manifests of Cargo showing weight or measurement (basis on which freight calculated).
2 Crew Lists.
2 Passenger Lists (landing and transit). Each disembarking passenger to complete a landing card and baggage declaration.
Clearance from Last Port.
Agent: 5 Manifests of Cargo.
1 Crew List.
1 Passenger List.

PILOTAGE: No Pilot available.

ANCHORAGES: As shown on Admiralty Chart No. 1264. Prevailing wind is S.E. and the anchorage is safe except in some instances when wind and/or sea are fresh from N.W. through N.E. 4.5 to 5 shackles of cable in the water has been found the most satisfactory in normal circumstances.

RESTRICTIONS: None. Anchorage, in 25 fathoms, is well defined with cross leads and a vessel may anchor at any time.

MAX. SIZE: No restriction.

HEALTH: Vessel should radio Porthealth Rarotonga not more than 24 hours, or less than 12 hours, before arrival giving ports of call for preceding three weeks, number of crew, number of passengers, state of health and requesting free radio pratique.

RADIO: Radiorarotonga ZKR, 500 kHz., single operator watch; 2182 kc/s., and 6204 kHz. continuously.

Continuous speaker watch is also kept on Channel 16 of the VHF Maritime mobile band. Weather forecasts are broadcast daily by radio-telephone on 2206 kHz and 8732.1 kHz at 0615 GMT and 1815 GMT after a preliminary call on 2182 kHz.

VHF: Waterfront Commission have VHF radiotelephone for communication between vessel and office when working cargo. Base station Channels 6, 8, 12, 13, 14, 16. Three portable sets, Channels 6, 12, 16. Channel 16, 24 hour watch. Channel 12 on request. Radiorarotonga.

TUGS: Not available.

STEVEDORES: Cargo is lightered ashore by Waterfront Commission plant. Consisting of 6 double-ended lighters, 35 ft. in length of 5 tons deadweight capacity. Heavy lifts up to 10 tons can be accommodated by building a platform over 2 lighters but prior advice should be given: in particular if the lift is on wheels or skids or of exceptional height. Two launches provide towing power. Hours of work: 0700–1200, 1300–1700, 1800–2200 hrs. Average discharge rate 200 tons per day. Agents should have full particulars of tonnage to be discharged and number hatches to be worked.

MEDICAL: Medical and hospital facilities available. Usual international vaccinations/inoculations required depending on prior ports of call.

TANKERS: Petroleum products landed from small coastal tanker from Fiji.

DENSITY: 1025.

FRESH WATER: Available in limited quantities. Lightered 1,000 gallons per load. Cost: as current rate for lightering cargo. If a lighter is diverted from handling cargo to carry water the cargo handling rate will be affected.

FUEL: Not available.

DEVELOPMENTS: Harbour development at Avatiu (1 mile from Avarua) although not completed, is currently in use and accommodating vessels of about 1,000 tons (250 ft. length; 16 ft. draft).

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: By crew or stevedores to vessel's convenience.

TOBACCO ALLOWANCE: 200 cigarettes, or half pound tobacco or 50 cigars.

WINE AND/OR SPIRIT ALLOWANCE: Allowance is 1 broached bottle of either wine or spirits, or a reasonable quantity of beer per man, for consumption on board. Under no circumstances may any wines, spirits or beer be brought ashore.

CARGO GEAR: International standards acceptable. It is customary to work cargo from starboard side and a guest-warp should be rigged to starboard.

IDENTIFICATION CARDS: Not required.

CONSULS: New Zealand only is represented by a High Commissioner.

REPAIRS: Not available.

REPATRIATION: Confined to repatriation of crew landed for hospitalisation.

AIRPORT: Rarotonga International Airport is 2 miles away.

TIME: GMT plus 10.5 hours. No alteration during year.

HOLIDAYS: Cargo cannot be worked on any Sunday or on Good Friday and Christmas Day. Other Holidays: Boxing Day (26 December); New Year's Day; Easter Monday; ANZAC Day (25th April); Queen's Birthday (1st Monday in June); Constitution Celebrations (1st Friday and Monday in August).

POLICE/AMBULANCE/FIRE: Fire service available although Waterfront Commission have portable fire pump and approximately 600 ft. hose. Police and Ambulance: contact Waterfront Commission on VHF radio telephone.

TELEPHONES: VHF radio telephone only.

GENERAL: Green vegetables are always difficult to get. Tomatoes available May to November. Oranges, lemons, grapefruit, mandarins, tangerines, available March to August. Pineapples available November to February.

Limited quantities meat and fish available but these must be imported from New Zealand and a large order could not be met.

AUTHORITY: The Collector of Customs, Rarotonga.

AGENT: Waterfront Commission is the only one who stevedore vessels at the anchorage. They must be requested to accept the Agency for a particular vessel. Cable address "Waterfront", PO Box 61, Ships Agents and Stevedores. Union Citco Travel Ltd. – Subsidiary of Union Steam Ship Co. of New Zealand Ltd. and Cook Islands Trading Corporation Ltd. – ships Agents. They must be requested to accept the Agency for a particular vessel. Cable address Union P.O. Box. 54. Ships Agents and Travel Agents.

Costa Rica

GOLFITO: 08.37 N. 83.10 W.

DOCUMENTS:
2 certified copies of Clearance from Last Port.
6 certified copies of Crew List and 6 copies for distribution.
6 certified copies of Passenger List and 6 copies for distribution.
2 certified copies of Cargo Manifest and 25 copies for distribution.
4 certified copies of Stores Provisions List and 6 copies for distribution.
3 sets of Bills of Lading.

NOTICE OF ARRIVAL: Radio Agent at least 24 hours before arrival advising date and time of arrival, number passengers disembarking, if any, amount of cargo to discharge in metric tons, number of gangs required to work on board. This information is required by Port and Customs Authorities.

PILOTAGE: No Pilot in port. Bananera Company sends a launch to pilot vessel to quay if requested. Arrival has to be notified at least 24 hours in advance.

ANCHORAGES: Anchorage area to S.E., diagonal towards end of quay. Depth: 35 ft. – 50 ft. Area 1,000 m. by 300 m. approx. Quay distance: approx. 500 m. Sufficient space for 4 vessels.

RESTRICTIONS: Vessel allowed to enter at any time, day or night.

MAX. SIZE: Length of quay is 1,040 ft., enough for two steamers to berth, one in banana berth and the other in cargo berth, each one of 450 ft. Depth 35 ft. alongside.

HEALTH: Any vessel that enters this port has to be in possession of a Sanitary Manifest (Sanitary Maritime Declaration) signed by Captain of vessel. In case of any suspected disease or fever aboard, Captain to notify by radio to Port Authorities and vessel to wait outside the limit of territorial waters until clearance is given.

RADIO: Station call sign TIM, frequencies 8478 and 500 kc/s. Working hours 0400–1300 GMT.

TUGS: No tugs. A launch from the Cia. Bananera takes lines from vessel to quay.

BERTHING: Vessels berth starboard side to. Vessels of Compania Bananera have preference.

STEVEDORES: Bananera Company controls gangs. Advance notice required. Work possible 24 hours a day.

MEDICAL: Bananera Company has a hospital for its employees. They can give assistance if a request through the Agency has been made 24 hours in advance. On arrival of vessel a valid vaccination certificate of each member of crew has to be shown.

TANKERS: Can berth in cargo area if length is less than 450 ft., depth is 35 ft. Diameter of pipe-lines 8 in. and 6 in.

FRESH WATER: Bananera Company supplies any quantity at a rate of 50 t.p.h. through shore hoses.

FUEL: Diesel and fuel oil available from time to time.

GANGWAY/DECK WATCHMEN: Available but not compulsory. Customs guard on gangway.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCES: No limit on board but only one packet cigarettes when going ashore. No alcohol may be taken ashore.

IDENTIFICATION CARDS: Required.

CONSULS: Nicaragua, Honduras and Panama represented locally.

REPAIRS: Company Bananera of Costa Rica has a workshop that can do small repairs such as soldering or small winch repairs.

REPATRIATION: Can be arranged.

AIRPORT: One airport one mile from port. Serviced by two airlines "Lacsa Airlines" with two daily flights, one at 0700 hrs. and the other at 1030 hrs. "Ave Airlines" offer only one daily flight, Sundays included, at 0700 hrs. "Lacsa" has no Sunday flights.

TIME: GMT minus 6 hours.

HOLIDAYS: 1st January, no work can be arranged; 19th March, work at double time; Easter Thursday, no work can be arranged; Easter Friday, no work can be arranged; 11th April, work at double time; 1st May, no work can be arranged; Corpus Christi, work at double time; 29th June, work at double time; 2nd August, work at double time; 15th August, work at double time; 15th September, no work can be arranged; 12th October, work at double time; 8th December, work at double time; 25th December, no work can be arranged. Stevedores are not obliged to work Sundays and holidays if not voluntary.

POLICE/AMBULANCE/FIRE: It is sufficient to ask operator for connection with the desired department.

TELEPHONES: No facilities on board vessels.

SHORE LEAVE: Crew are allowed on shore.

DELAYS: Only when quay is occupied by vessels of Compania Bananera de Costa Rica, which have preference.

AUTHORITY: Comandante de Puerto.

AGENT: Felipe J. Alvarado e Cia. Apartado 474, San Jose, Costa Rica. Tel. 21.41.11 and 21.25.50.

PUERTO LIMON: 10.00 N. 83.01 W.

DOCUMENTS: Required by Port Authorities at Port Limon:
2 certified copies of Clearance (Zarpe) (original and dup.)
6 certified copies of Crew List (original and dup.)
6 certified copies of Passenger List (original and dup.)
2 certified copies of Manifest (Sobordo) (original and dup.)
4 certified copies of Stores List (original and dup.)
to Agents for distribution
6 Copies of Crew List.
6 Copies of Store List.
6 Copies of Passenger List.
3 Copies of Bills of Lading (if vessel loaded/brings cargo).
25 Copies of Manifest or Sobordo (Cargo).

NOTICE OF ARRIVAL: Radio Agent at least 24 hours before arrival, advising date and time of arrival, number passengers disembarking (if any), amount of cargo to discharge in metric tons, number of gangs required to work on board. This information is required by Port and Customs Authorities.

PILOTAGE: Pilot boards ship with Port Authorities about one mile from pier.

ANCHORAGES: One mile off piers.

MAX. SIZE: Max. 500 ft. long, 28 ft. draft. Tankers up to 30 ft. draft.

HEALTH: In the event of suspected disease or fever on board, agency should be advised in advance.

RADIO: Call letters TIM, frequency 500 kc/s. and 8478 kc/s. – working hours 0400 to 1300 GMT.

TUGS: None available and not required.

BERTHING: *Muelle Metallico:*
Berth No. 1 33 ft. depth. Max. length 550 ft. draft 28 ft.
Berth No. 2 30 ft. depth. Max. length 550 ft. draft 26 ft.
Berth No. 3 29 ft. depth. Max. length 400 ft. draft 22 ft.
Muelle Nacional: One berth: 18 ft. depth.
Muelle 70. Two berths, depth 27 ft.; one berth, depth 14 ft. Roll-on/roll-off berth, depth 25 ft.

STEVEDORES: ETA should be sent to Agent in due time.

MEDICAL: Medical attention and hospital facilities available.

TANKERS: Mooring outside port (Moin Bay) vessels up to 30 ft. draft.

FRESH WATER: Available and obtained alongside pier delivered by hose, 1.5 to 2 t.p.h.

FUEL: Can be had only in small quantities.

DEVELOPMENTS: Constructing new pier with capacity of four berths and a possibility to extend the National Pier in the form "L". Depths to be increased to 30 ft.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: Carried out by stevedores.

CUSTOMS ALLOWANCE: One package cigarettes to take ashore. Not allowed to take alcohol ashore.

IDENTIFICATION CARDS: They are needed and supplied by the Agent.

CONSULS: Colombia tel. 580091; Ecuador; Nicaragua; Honduras tel. 580313 and Norway 580183.

REPAIRS: Minor repairs only.

REPATRIATION: Facilities available.

AIRPORT: Five miles from city. Three daily flights to San Jose International airport.

TIME: Local time minus 6 hours.

HOLIDAYS: 1st January, no work can be arranged; 19th March, work at double time; Easter Thursday, no work can be arranged; Easter Friday, no work can be arranged; 11th April, work at double time; 1st May, no work can be arranged; Corpus Christi, work at double time; 29th June, work at double time; 2nd August, work at double time; 15th August, work at double time; 15th September, no work can be arranged; 12th October, work at double time; 8th December, work at double time; 25th December, no work can be arranged; Stevedores are not obliged to work Sundays and holidays if not voluntary.

POLICE/AMBULANCE/FIRE: Police tel. 117; Red Cross tel. 580125; Fire tel. 118.

TELEPHONES: No arrangements for placing on board.

SHORE LEAVE: Crew members are allowed to go ashore.

DELAYS: Port congestion, shortage of railroad cars, etc.

AUTHORITY: Comandante de Puerto.

AGENT: Felipe J. Alvarado e Cia, Sucs., SA, PO Box 112, Puerto Limon. Tel. 58.02.21. Cables "Alvarado", San Jose.

PUNTARENAS (including Caldera Bay): **(See Plan)** 09.58 N. 84.49 W.

DOCUMENTS:
2 certified copies of Clearance from Last Port.
6 certified copies of Crew List and 6 copies for distribution.
6 certified copies of Passenger List and 6 copies for distribution.
2 copies of Cargo Manifest and 25 copies for distribution.
4 certified copies of Stores/Provisions List and 6 copies for distribution.
3 sets of Bills of Lading.

NOTICE OF ARRIVAL: Radio Agent at least 24 hours before arrival advising date and time of arrival, number passengers disembarking, if any, amount of cargo to discharge in metric tons, number of gangs to work on board. This information is required by Port and Customs Authorities.

PILOTAGE: Pilots are available and compulsory, arranged by Agent. Signal for Port Captain and other officials is two long blasts.

MAX. SIZE: Length 500 ft., max. draft 26 ft.

RESTRICTIONS: Vessels bound for Caldera must first call at Puntarenas for clearance. Recommended that vessels not equipped with radar enter in daylight only.

ANCHORAGE: Vessels should keep Eastward of four submarine cables originating at Puntarenas where suitable anchorage may be found in 6-7 fathoms depth. Vessels should anchor as near the pier as safety permits to facilitate boarding by port officials.

HEALTH: Any vessel that enters this port has to be in possession of a Sanitary Manifest (Sanitary Maritime Declaration) signed by Captain of vessel. In case of any suspected disease or fever aboard, Captain to notify by radio to Port Authorities and vessel to wait outside the limit of territorial waters until clearance is given.
RADIO: Station call sign TIM, frequencies 8478 and 500 kc/s. Working hours 0400-1300 GMT.
TUGS: None available.
BERTHING: Vessels usually moor in daylight only. Unmooring night and day.

Muelle Nuevo: Pierhead runs East/West, connected to shore by 350 ft. gangway. One special heavy mooring line supplied from pier in addition to ship's ropes. Heavy surge experienced at the berth. Inner berth, length 107 m., max. depth 24 ft. Outside berth, length 147 m., max. depth 28 ft.

There are lighters available for hire for vessel working cargo at the anchorage.

Caldera Bay: Buoy mooring for tankers about 1,000 ft. offshore. Vessels moor using starboard anchor and lines to 3 buoys astern. Hoses connected on port side by ship's crew.
STEVEDORES: Available for work 24 hours a day.
MEDICAL: Facilities available at Puntarenas.
FRESH WATER: Available only from pier at Puntarenas.
FUEL: Not available.
IDENTIFICATION CARDS: Required.
TIME: GMT minus 6 hours.
TELEPHONES: No connection to vessels.
SHORE LEAVE: Allowed at Puntarenas, not allowed at Caldera Bay.
AUTHORITY: Comandante del Puerto.

AGENT: Felipe J. Alvarado e Cia, Sucs. SA, Apartado 25, Puntarenas. Telex. Fejalco-54, Cables "Alvarado Puntarenas". Tel. 610235 and 610529.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Cuba

ANTILLA (and sub-ports of Felton, Nicaro and Preston): 20.50 N. 75.44 W.

Port situated on North side of Nipe Bay, on North Coast of Cuba.
APPROACHES: Safe approach without sharp turns. Width of approach about 0.75 miles with mud bottom. Depth of water between entrance and Saetia anchorage about 150 ft.
PILOTAGE: Pilots board vessels proceeding to Antilla Port or to sub-ports of Preston, Nicaro and Felton, 1 mile N.E. of Punta Mayari Lighthouse.

All vessels proceeding to Antilla or to sub-ports must proceed to a position no more than 1 mile North of the Line East-West with Punta Mayari.

Lighthouse position: 20° 47′ 45″ N., 75° 32′ 00″ W.

Pilot station is at Saetia. There is a telephonic communication between Antilla and Saetia, though rather deficient. On many occasions it is impossible to communicate with Pilots when there is any sudden change in vessel's ETA. Therefore advise Antilla Agency soonest of any change in ETA.

Distance from position where Pilots board vessels to Antilla Piers is about 15 miles.
ANCHORAGES: Corojal, 14 miles. Can accommodate vessels drawing up to 20 ft. with a length up to 557 ft. Sufficient swinging area.

Punta Salinas, 10 miles. Can accommodate vessels drawing up to 31 ft. without length limitation.

Preston, 7 miles. Can accommodate vessels drawing up to 30 ft. without length limitation. Swinging area unlimited.

Saetia, 3 miles. Can accommodate vessels of any length and draft.

Cajimaya, 6 miles. Can accommodate vessels drawing up to 32 ft. with length up to 600/700 ft.

La Chiva, 5 miles. Can accommodate vessels of any length and draft.
RESTRICTIONS: Vessels can enter/sail only during daylight hours.
MAX. SIZE: Vessel of any length and draft can enter Antilla but only up to Saetia anchorage, where the mouth is about 0.75 miles wide with a depth of 150 ft.

Vessels must not enter or sail from this port with a draft more than 20 ft. forward, 23 ft. aft, as depth at piers limit draft either entering or sailing.

Length is limited by length of piers to 450 ft., otherwise one hatch would remain outside pier, which would result in delay loading or discharging.

There is an average of 3 ft. between high and low tides.
CLEARANCE: All Port Authorities, Port Doctor, Customs, Immigration and Captain of the Port have their offices at Antilla. Vessels may proceed directly to sub-ports without entering Antilla for clearance. Port Authorities clear ships at sub-port when necessary.

Launch service is the preferable means of transportation used by the Port Authorities to the various sub-ports under Antilla jurisdiction.

There are Custom House Delegations at sub-ports of Preston, Nicaro, but no Immigration. The Custom House Delegate at the sub-port of Nicaro also acts as Delegate for the Captain of the Port.

Although there is no Port Doctor Delegate at the sub-ports, the General Hospital Doctors may act as such, if requested, in order to give a quick entry to the ship.

Notwithstanding the above, in those cases when a ship is coming from a Cuban or foreign port, destined to Nicaro, and happens to lose the slack water tide, it will be necessary for the ship to anchor at Saetia (Antilla) and to wait the next tide. In these particular cases the Port Authorities give entry to the ship at Saetia anchorage, and it is not necessary for another Port Authority visit at the sub-port of Nicaro.
RADIO: When vessels proceed to Antilla, or to any sub-ports, Preston, Nicaro or Felton, or to the port of Banes, ETA messages should be sent to "Mambisas Antilla", simultaneously advising the main office, "Mambisas", Havana.

Ships can communicate with Mambisas Antilla's Agency by wireless via CLA.
TUGS: No tug is required for entry to Antilla. There is a tug available 24 hours of the day, but service must be requested at least 24 hours in advance. Name, *Macabi;* length, 81 ft. 1 in.; width, 24 ft. 0 in.; gross tonnage, 183.53; net tonnage, 86.00; motor, one diesel; h.p., 750; speed, 8.5 knots.
BERTHING: Pier No. 4 (North side). Length 458 ft. Can accommodate vessels drawing up to 17 ft. forward, 23 ft. aft, with a length up to 557 ft.

Pier No. 4 (South side). Length 458 ft. Can accommodate vessels drawing up to 20 ft. forward, 23 ft. aft, with a length up to 557 ft.

Coast Pier: Can accommodate vessels drawing up to 20 ft. even keel.

At these piers, operations of loading sugar and discharge of jute bags. Shipment of molasses can only be performed at No. 4 pier (North and South side) where there is a pipe-line of 16 in. diameter.

The three piers have railroad tracks of standard gauge. Each pier is connected with one railway which is independent of the others, but has no separate outlet at the end of the piers; consequently to perform any movement it is necessary to take out the remaining cars.

Operations at anchor in the bay cannot be performed, as there are no lighters or tugboats available.
STEVEDORES: Working periods – loading sugar; Monday to Friday – 0700/1100–1300/1700 hrs. Saturday – 0700/1100–1300/1700 hrs. Sunday – no work performed.

Labour legislation presently in force provides that the number of hours to be worked is 8 hours daily, from Monday to Friday, and 4 hours on Saturday, for a total of 44 hours weekly.

Capacity: Three ships can be performing sugar loading operations simultaneously, although the labour force available is for a total of 12 gangs.

1. Raw Sugar: *(a)* Loading rate: 1,330 bags of raw sugar (of the 220-pound type) per 4 hours per gang. *(b)* Bags per sling: 6 bags of raw sugar (of the 220-pound type).

2. Refined Sugar: *(a)* Loading rate: 2,100 bags of refined sugar (of the 100-pound type) per 4 hours per gang. *(b)* Bags per sling: 12 bags of refined sugar (of the 100-pound type).

No shore crane available at this port, but there are 6 machine throwers for bulk sugar operations, grates and canvas funnel, etc. These machines function with diesel motors.

Sugar bags are opened in the square of the hatch.
TANKERS: Molasses pumping rate is at an average of 35,000 gallons per hour.

Coast dock has been equipped by ECP for vessels to discharge gasoline and gas oil and where vessels can berth with draft 20 ft. even keel. Fidelity tanks, presently operated by ECP, one for storing gasoline and the other for gas oil.

Capacity of each tank about 53,000 barrels. Average discharging rate, each product about 300 t.p.h.

Due to the fact that there is only one pipe-line, when vessels carry both products gasoline is discharged first, after which the pipe-line is cleaned by pumping water. The gas oil is then discharged.
MEDICAL: There is a hospital where crew members may be hospitalised.
FRESH WATER: Can be obtained. The water is brought from outside in railroad tank cars and pumped to the ship by means of a portable turbine. Any amount of water can be delivered but only in partial quantities of not more than two tank cars daily. Average delivery: 30 t.p.h.
FUEL: Not available.
REPAIRS: Minor repairs only.
AGENTS: Attending the port of Antilla, and the sub-ports of Preston, Nicaro and Felton, also the port of Banes.

Agency Address: Empresa Consignatarias Mambisas, 55 Avenue de Cuba, PO Box 62, Antilla, Oriente, Cuba. Cables: "Mambisas" – Antilla. Tel. 39. Night No. 247.

Crew mail should be sent to Antilla Agency address, even when ships are operating in sub-ports, and sent by "Registered Mail" for quick delivery. Letters of instructions or cables from owners should be sent to the main office: "Mambisas", Havana.
SUB-PORTS:
Distance from Antilla to:
Preston (Guatemala), 7 miles.
Felton, 11 miles.
Nicaro, 14 miles.

To the port of Banes, which is attended by Antilla Agency, 50 km. From Antilla to Banes highway transportation is used.
Time from Antilla to:

Sub-port	*Launch*	*Highway*
Preston	1 Hour	1 hour 45 minutes
Felton	1 hour 30 minutes	2 hours 15 minutes
Nicaro	2 hours	3 hours

There is only a regular launch service from Antilla to Nicaro, leaving daily from Coastwise pier Antilla at 0930 hrs., arriving Nicaro at 1130 hrs.

(a) **SUB-PORT OF PRESTON (GUATEMALA):**
LOCATION: On North coast of Cuba, 20° 46′ N. 75° 40′ W.

This sub-port situated Eastern side of Nipe Bay on a peninsula called Punta de Tabaco, S.E. of Antilla. Sugar and molasses produced by the sugar mill Preston (Guatemala) are shipped through this sub-port.
APPROACHES: Same as for Antilla – (Nipe Bay) where Preston is located. The depth from the entrance to anchorage at Preston of about 150 ft., gradually decreases to 60 ft.
PILOTAGE: See "Antilla". Distance from the point where Pilots board the vessels and Preston Pier: 8 miles; to Preston anchorage: 7 miles.
ANCHORAGE/RESTRICTIONS: See "Antilla".
MAX. SIZE: It is not necessary for ships to wait for slack or favourable tide. At sub-port of Preston, ships cannot enter or sail with a draft exceeding 11 ft. forward, 20 ft. aft, as pier is continuously losing depth due to the quantity of mud that Mayari river deposits.
CLEARANCE: See "Antilla". Port Doctor, Immigration and Port Captain travel from Antilla to Preston to give ships entry. Custom Delegation at this sub-port, only occasionally, and in order to avoid delay Preston Hospital Doctor clears the ship.

Vessel can proceed directly to this sub-port, since Port Authorities come from Antilla to give ship's entry.
RADIO: See "Antilla".
TUGS: See "Antilla". No tug required for ships to enter this sub-port. No tug available, but can be obtained from Antilla.
BERTHING: Wooden Pier (West side only) where vessels can be accommodated drawing up to 11 ft. forward and 20 ft. aft. This dock has about 1,100 ft. length, but the first 600 ft. (starting from shore to the head) is only about 12 ft. depth; from there on, draft for loading is 11 ft. forward and 20 ft. aft.

Only one vessel can be berthed at this pier on West side. It is usually used only in loading sugar and molasses, and occasionally for discharging coastwise fuel oil for sugar mill consumption.

The pier has double railroad track of standard gauge which reaches to its end, but for performing any movement it is necessary to take out the remaining cars as there is no outlet at the pier's end.

No dry cargo discharging is carried out, and no cargo operations are conducted in the bay.

STEVEDORES: Loading sugar – working period (max. 4 gangs). Monday to Friday: 0700/1100–1300/1700 hrs. Saturday: 0700/1100–1300/1700 hrs. Sunday: No work is performed.

General cargo: No discharging operation is performed at this port.

Labour legislation presently in force provides that the number of hours to be worked is 8 hours daily, from Monday to Friday, and 4 hours on Saturday, for a total of 44 hours weekly.

Raw sugar-loading rate. About 1,330 bags of raw sugar (of the 220-pound type) per 4 hours per gang.

Bags per sling: 6 bags of raw sugar (of the 220-pound type).

Operational capacity. At this sub-port only one vessel at a time can be operated.

Refined sugar. No refined sugar has been shipped by this sub-port.

Equipment. There is one movable shore crane available with lifting capacity of about 60 tons with 75° boom inclination. Boom length 50 ft. Crane is mounted on a railroad flat car which is acted by means of steam supplied by an adapted boiler. As the greater part of the year this crane remains idle, it is possible that its lifting capacity might have decreased. Five grates, but no thrower machines.

TANKERS: Molasses pumping rate average of 75,000 gallons per hour.

MEDICAL: There is a hospital at Preston which offers very good service to ship's crew. In cases requiring special attention, patients can be taken to Holguin, where there are reliable specialists.

FRESH WATER: Can be supplied to vessels. Pier has a 2 in. diameter pipe-line, through which water is delivered directly to ship, at an average of about 30 t.p.h. Any quantity of water can be supplied.

FUEL: Not available.

REPAIRS: A good repair shop operated by the sugar mill "Central Guatemala".

AGENTS: See "Antilla".

(b) **SUB-PORT OF NICARO (LENGUA DE PAJARO) LEVISA BAY:**

LOCATION: North Coast of Cuba in province of Oriente, 19° 43′ N. 75° 33′ W.

APPROACHES: Entrance Channel for sub-port of Nicaro is risky for vessels over 350 ft. length, due to its narrowness and because of having sharp turns, some of them forming angles of almost 90°. Bottom and banks are rock and coral.

Depths – 170 and 78 ft. max./min. respectively. Vessels exceeding 350 ft. length require tug for entering and sailing; all vessels over 450 ft. must be extremely careful. Entering or sailing must be effected during slack water, high or low. Simultaneous entry or sailing of two or more vessels is not permitted.

PILOTAGE: See "Antilla". Distance from the point where Pilot boards vessel and Nicaro anchorage, about 10.50 miles; to Nicaro Pier, about 11 miles.

ANCHORAGE: Can accommodate vessels with length up to 475 ft. and max. draft up to 30 ft. The swinging area is limited to 800 ft. to permit access through the Channel.

RESTRICTIONS: At sub-port of Nicaro, vessels not permitted enter or sail during night time. From beginning May until end August vessels can enter Nicaro from 0515 hrs. to 1800 hrs. and sail from 0550 hrs. to 1840 hrs. From end August to beginning May, vessels can enter from 0615 hrs. to 1720 hrs. For sailing from 0620 hrs. to 1810 hrs.

In the above information, the time taken (1 hour, 20 minutes) to undock from pier and manoeuvre to entrance of Channel, and vice versa, has been included.

MAX. SIZE: Permissible draft at North side of Nicaro pier at low tide must not exceed 27 ft. 6 in. forward and 29 ft. aft, with max. length not over 476 ft.

South side of Nicaro Pier, at low tide, has depth of 25 ft. towards shore and 28 ft. at its end, showing the marks for 26 ft. at a distance of 450 ft. from head of pier up to its end.

Both sides have muddy bottom about 3 ft. deep. Nicaro was dredged up to 32 ft., not having been dredged since that time. As a consequence of unloading of mineral (anthracite) which is carried out in this sub-port, anthracite can be discharged only at South side of pier, where crane is situated; a great quantity of mineral is deposited on the bottom, mainly close to piling which supports the pier plate. Owing to this, it is believed that there is an elevation of mud and coal which extends alongside of pier from the 50 ft. mark to 380 ft.

Because of this elevation, which forms an incline from stack pile of the pier, up to approximately 1.5 m. out, vessels which submerge more than 26 ft. forward and 27 ft. aft tend to list to port.

Between months of August and December, variation of tide is from 3 ft. to 3.5 ft. During remaining months it is from 2.5 ft. up to 3 ft.

Also see "Approaches" and "Anchorage".

CLEARANCE: Vessels are cleared by a doctor of the Nicaro General Hospital. Immigration officials come from Antilla together with the Agent and Customs Inspectors.

Vessels proceeding to Nicaro can do so directly without having to call Antilla for Port Authorities' Clearance.

Vessels unable to proceed direct owing to unfavourable tide or night arrival are required to anchor at Saetia or Salinas. In such cases, and when ordered by the Chief Inspector, clearance on entry is carried out at these anchorages.

RADIO: Nicaro has following means of communication: telephone, post office, telegraph and radiograms via R.C.A. Ships can communicate with Nicaro using C.L.A., but it is suggested that ETA messages be sent simultaneously to Mambisas, Antilla, and Mambisas, Havana.

Also see "Antilla".

TUGS: Obtained from port of Antilla. Therefore it is recommended that when vessels are assigned to this sub-port, advice of their ETA be given with sufficient time prior to vessels' arrival. Particulars of tugboats are shown under "Antilla" information.

BERTHING: Nicaro Pier operated by Empresa Consolidada Nickel Industria Minera "Commandante Rene Ramos Latour", where following operations carried out: Sugar loading from mills Guatemala and Nicaragua; shipment of nickel; and also discharging general cargo, fuel, oil, ammonia and coal.

At North side of pier are two intakes for fuel, oil, one for ammonia and one for gas oil.

Liquid fuel can be discharged at South side of pier, but this operation prohibits any other operation being carried out at opposite side of pier, as hoses have to cross over pier from the vessel to connections situated at North side.

Pier has a railroad track of standard gauge. Truck transportation can also be used. Interruptions are experienced (mainly sugar loading) since there is only one railroad track. Operation of change and movement of flat cars takes approximately 10 minutes.

In discharging mineral coal, no interruptions occur and time is not lost.

Electric shore crane is installed at South side of pier and mounted on rails which run from one end to the other. The top end of this crane consists of a rotary structure from which is projected a boom about 50 ft. long. This boom can be suspended up to an angle of about 60°. In a horizontal position, it can lift weights of about 10 tons each and the loading capacity is gradually increased to 20 tons while raising the boom up to an angle of 45°.

Crane can also perform discharging operations on vessels which are docked on the North side, but operations are slower than when vessels are docked at South side.

Crane's accessories consist of two grabs for mineral coal of 1.5 and 3 tons capacity each, steel slings, special slings for loading nickel,etc. This equipment (excluding ship's tackle) is the only gear available for loading or discharging at this sub-port.

Only two vessels can be loaded simultaneously, and operations of working two vessels simultaneously delays both operations owing to characteristics of this pier, which was constructed specifically for receiving mineral coal, general cargo, fuel, oil, ammonia, and to ship nickel or other type of heavy material. Pier lacks necessary railroad tracks to ship sugar as are found in other ports which have been assigned to this purpose.

No cargo operations are carried out in the bay.

STEVEDORES: Loading or unloading of general cargo, nickel, mineral coal, etc., is performed by port workmen of sub-port of Nicaro.

Raw sugar-loading rate. At present, average loading rate in a period of 4 hours per gang, is about 1,330 bags.

Bags per sling (Guatemala sugar): 6 bags of raw sugar (of 220 pound type) per sling. Nicaragua sugar: 6 bags of raw sugar (of 220 pound type) per sling. Sugar bags from sugar mills Guatemala and Nicaragua are transported from respective mills to Nicaro in railroad flat cars, already slinged.

Refined sugar. No refined sugar is exported.

General cargo discharging rate. General cargo of a fragile nature and careful handling: about 5 tons per gang hour. General cargo of sturdy nature and easy handling about 20 tons per gang hour.

Bagged cargo: about 30 tons per gang hour.

Mineral coal: at present the shore crane is averaging 110 t.p.h.

Nickel: at an average of 800 bags (26 tons) per gang hour.

Bulk sugar: no bulk sugar equipment available. In those cases when bulk sugar operations are performed, the necessary equipment is obtained from sub-port of Preston.

Working periods in loading sugar: Monday to Friday, 0700 to 1100 and 1300 to 1700 hrs.; Saturday 0700 to 1100 hrs. only; Sunday, no work is performed.

Labour legislation presently in force provides that the numbers of hours to be worked is 8 hours daily, from Monday to Friday, and 4 hours on Saturday, for a total of 44 hours weekly.

TANKERS: No molasses or alcohol re loaded. Only fuel oil, liquid ammonia and gas oil are discharged. Average discharging of fuel oil at present is about 400 t.p.h. Liquid ammonia discharge averages about 27 metric t.p.h.

MEDICAL: Hospital at Nicaro offers good service to ships' crew members. In case of special attention, the patient can be taken to Holguin, where there are reliable specialists.

FRESH WATER: Delivered at North side of pier through pipe-line at average 30 t.p.h. Delivered only during night time.

FUEL: Not available.

REPAIRS: Very minor repairs only.

DISTANCES: The nautical distance between Nicaro and Antilla for vessels drawing over 6 ft. draft is 24 miles. For small craft drawing less than 6 ft. the distance is 14 miles. By highway, 130 kms. from Nicaro to Antilla.

Sea transportation takes 1 hour 45 minutes, and highway 2 hours 30 minutes. There is a daily launch service between Nicaro and Antilla. Launch leaves Antilla 0930 hrs. arriving at Nicaro at 1130 hrs. and a launch leaves Nicaro at 0930 hrs. arriving at Antilla at 1130 hrs.

AUTHORITY: Sub-port of Nicaro is under Antilla Custom House

jurisdicton. There is a Custom House Delegate at this sub-port, who acts as a Delegate of the Captain of the Port.

Vessels at Nicaro are handled by personnel of Antilla offices who visit Nicaro, and are located at Oficina de la Marina, Tel. 216. In case this office is closed, these personnel could also be contacted through Customs House telephone of Nicaro.

AGENT: See "Antilla".

(c) **SUB-PORTOF FELTON:**

LOCATION: This sub-port lies about 3 miles to East of Preston, and about 1 mile to East of mouth of Mayari River.

APPROACHES: See "Antilla".

PILOTAGE: See "Antilla". Distance from point where Pilot boards to Felton Pier, 6 miles; to Cagimaya anchorage, 5 miles.

CLEARANCE: Vessels can proceed directly to Felton, as Port Authorities from Antilla are taken by launch to visit vessel at Felton pier, or at sea in Cagimaya Anchorage.

RESTRICTIONS: No entry or sailing at night.

MAX. SIZE: Vessels of any length and draft can enter, but due to depth at pier they are limited to max. 25 ft. forward and 26 ft. aft. It is recommended that ships not exceed 480 ft.

It is not necessary for ships entering Felton to wait for slack water.

There is a variation of 3 ft. between high and low tides.

RADIO: Ships can communicate with Felton by wireless via CLA, but it is recommended that ETA messages be given to Mambisas Antilla and simultaneously Mambisas Havana.

The means of communication between Felton and Antilla are telephone and telegraph.

BERTHING: No wharf. Vessel is secured to 3 dolphins about 40 ft. from shore. Distance between end dolphins, about 350 ft. Loading of manganese is by crane grab, and loading rate about 200 metric t.p.h.

There is one electric shore crane mounted on rails with a loading capacity of about 10 tons. This crane is movable and has wide field of operation. The booms have a length of 60 ft. If the grab is removed, the crane can lift up to a max. of 15 tons.

Loading manganese continues throughout 24 hours and 7 days a week.

Discharging operations consist of bulk fertilisers and fuel oil.

No cargo operations conducted in bay.

MEDICAL: No hospital available at Felton. Sick crew members are sent to Nicaro Hospital or to Hoguin.

FRESH WATER: Can be supplied, but it is recommended that requisition be made sufficiently in advance in order to store required amount in aqueduct tank. Any quantity can be supplied depending on time vessel remains in port. Average pumping rate about 20 t.p.h.

Delivered by pipe-line.

FUEL: Not available.

REPAIRS: Mechanic shop operated by mining industries, in which light work can be performed.

DISTANCES: Distance between Felton and Antilla is about 11 miles. Usual transportation is launch service. It takes about 1 hour 30 minutes from Felton to Antilla. No daily transportation between Felton and Antilla.

AUTHORITY: The Port Authorities are located at Antilla and visit Felton as necessary.

AGENTS: See "Antilla". Mail should be sent through Antilla's main office by registered mail. Spares by railway express to Antilla.

BANES: 20.54 N. 75.41 W.

PILOTAGE: Vessels should pick up Pilot at 20° 53′ N., 75° 29′ W., 1 mile N.E. of Banes Canyon Lighthouse. Pilot station located at Embarcadero (Banes). Agent informs Pilot of ship's arrival by means of local telephone. Distance from point where Pilot boards vessel to pier is about 6 miles.

RESTRICTIONS: Entrance is through narrow channel with sharp turns where there is a strong current. For this reason vessels can only enter on slack water tide and during daylight. Assistance of tug necessary for entering and sailing. Bottom and banks are rock and coral. Depth about 60 ft.

MAX. SIZE: Max. length due to characteristic of channel is of 360 ft. Due to insufficient water at pier, and in bay, ships are limited to draft 19 ft. forward and 23 ft. aft.

Average of about 2 ft. 4 in. between high and low tides.

TUGS: At present no tug available, but when needed same is requested from Antilla. Particulars of tug shown under Antilla information.

RADIO: Ships can communicate with port by wireless via CLA, but recommended that ETA message be sent to Antilla Agency, simultaneously advising Mambisas Havana.

MEDICAL: There is a hospital where sick crew members may be hospitalised.

BERTHING: Nicaragua Pier is only one for shipping sugar. Through same pier molasses are exported by 16-in. pipe-line with 2 connections. Fuel oil also discharged at this pier through 22-in. pipe-line. Vessels always dock portside to pier.

Pier has 7 railroad tracks which reach end of pier, but no outlets at other end and when performing any movement, remaining flat cars must be taken out. 5 tracks used for loading sugar in forward hatches; remaining 2 supply sugar to after hatches. This work performed by means of overhead electrical crane which can move along pier with max. 5 slings. Slings are laid on pier and hoisted by ship's tackles.

No cargo operations performed at anchorage.

STEVEDORES: General cargo: No discharging operations performed at this port.

Raw sugar — Loading rate: 980 bags of sugar (of the 250-pound type) per 4 hours, per gang.

Bags per sling: 6 bags of raw sugar (of the 250-pound type) per sling.

Operation capacity: Only one ship can operate at one time.

Refined sugar: No refined sugar shipped by this port.

Bulk loading equipment: No thrower machines for bulk sugar, only 4 grates which are placed on square of hatch.

Working periods — loading sugar: Monday to Friday, 0700 to 1100 – 1300 to 1700 hrs., Saturday, 0700 to 1100 – 1300 to 1700 hrs.: No work performed on Sunday.

Labour legislation presently in force provides that the number of hours to be worked is 8 hours daily, from Monday to Friday; and 4 hours on Saturday, for a total of 44 hours weekly.

FUEL: Not available.

FRESH WATER: Fresh water supplied, delivered by 3-in. diameter pipe-line, with average delivery 4 t.p.h.

REPAIRS: Sugar mill Nicaragua has machine shop which can carry out light repairs.

AUTHORITY: All port authorities located at this port.

AGENT: See "Antilla".

For information regarding ship's operations, Antilla Agency should be contacted. Antilla office personnel travel to Banes to attend vessels operating there. Any mail should be addressed to Antilla Agency. Spare parts by railway express.

BARACOA: 20.21 N. 74.30 W.
(Sub-ports: Moa and Punta Gorda)

LOCATION: Situated on North coast and extreme East of Cuba in Oriente province.

PILOTAGE: Pilots board vessels 2 miles off port. Pilot station located in Baracoa City. Distance from point where Pilots board vessels to operation place (anchorage) is about 2 miles.

RESTRICTIONS: Vessels can enter port only during daylight.

MAX. SIZE: Entrance channel straight – without turns. Vessels up to 400 ft. length and 28 ft. draft can enter through Channel Two to 3 ft. rise of tide.

TUGS: Not available.

RADIO: Vessels can communicate with Baracoa by radio through Havana and Santiago de Cuba.

STEVEDORES: No pier at this port. Vessels anchor in bay for operations. Several barges, capacity 100 tons.

Working periods: Monday to Friday 0700/1100–1300/1700 hrs.; Saturday 0700/1100–1300/1700 hrs.

Labour legislation presently in force provides that the number of hours to be worked is 8 hours daily, from Monday to Friday, and 4 hours on Saturday, for a total of 44 hours weekly.

Discharge rate: about 80 tons daily per gang.

MEDICAL: There is a general hospital for sick crew.

FUEL/FRESH WATER/REPAIRS: Not available.

AUTHORITY: Port Authorities located at Baracoa. They have Delegation at Sub-port of Moa.

AGENTS (Sub-agency): Empresa Nacional de Cabotaje, Calle 1ro. de Abril No. 14, PO Box No. 27, Baracoa, Oriente, Cuba. Cable: "Simon Baracoa".

When needed to obtain information regarding ships operating at Moa or Punta Gordo, sub-agency at Baracoa should be contacted. When office closed, telephone number 81 should be called.

SUB-PORT OF MOA (Moa Bay): 20.41.15 N. 74.52.30 W.

Vessels can proceed directly to sub-ports of Moa and Punta Gorda where they are visited by Customs Authorities.

APPROACHES: Entrance Channel is straight and bottom is sandy. At both sides of entrance there are reefs and shoals.

PILOTAGE: Pilots board vessels at Moa Port mouth which is distant about 2 miles from entrance. Pilot station located at Punta Gorda at distance of about 5 miles from port entrance. Distance from point where Pilot boards vessel to Darsena de Moa (pier) is about 4 miles; to Moa Anchorage about 2 miles.

RESTRICTIONS: Vessels can enter and sail from this sub-port only during daylight.

MAX. SIZE: Vessels can enter through Channel up to Moa anchorage drawing up to 40 ft. and with length of 600 ft., but for docking at Moa pier, cannot enter with a draft over 28 ft. 6 in., and length of over 500 ft. At high tide vessels can enter drawing up to 30 ft.

Tidal variation: about 3 ft.

TUGS: Tug used at Moa for docking. Tug operated by Mining Enterprises.

RADIO: Government Radio Station at Moa with communication to Baracoa. At Baracoa there are long-distance telephone communications as well as Inalambrica service.

BERTHING: Only one pier (La Darsena) where vessels drawing up to 28 ft. 6 in. and with a length of about 500 ft. can be accommodated. This pier is used for discharge of raw material for the nickel plant and fuel oil, also for loading nickel.

No cargo operations in the bay.

STEVEDORES: Generally work is performed from 0700 to 2300 hrs.

Cranes: Several types of cranes: Bucyrious, Eric and Manitowk which have lifting capacity of about 75 tons.

Loading/discharging operations: Raw material for the nickel plant is imported as well as fuel oil. Nickel concentrate is exported.

Loading/discharging rate – Nickel (in containers): loaded at a rate of approximately 30 tons per hour-gang.

Sulphur: Discharging about 1,200 tons in the period from 0700 to 2300 hrs.

Fuel oil: Discharged at an average of about 3,200 b.p.h.

MEDICAL: Industrial Hospital where crew members can be hospitalised. General Hospital at Baracoa.

FUEL: Not available.

FRESH WATER: Delivery at rate of about 15 t.p.h.

REPAIRS: There are machine shops at nickel plant where small emergency repairs can be performed.

AUTHORITY: Port Doctor, Customs and Port Captain Delegations at this sub-port. Immigration Delegate is the same one who attends vessels at Baracoa and other sub-ports. Vessels can proceed directly to Moa where they are cleared, by Port Authorities. Means of transportation from Baracoa to Moa or other sub-ports are: air, launch and overland (jeep). Customs House inspectors travel from Moa to Baracoa.

Baracoa to Moa about 32 miles distant. Following services used: by plane, 20 minutes; by launch, 6 hours; by jeep, 5 hours. No regular services.

AGENT: See "Baracoa".

When vessel at sub-port of Moa, instructions should be given through Baracoa Sub-agency (cable address: "Simon" Baracoa).

SUB-PORT OF PUNTA GORDA: 20.38.30 N. 74.51.15 W.

APPROACHES: Entrance Channel for Punta Gorda same as for Moa Channel, continuing to Punta Gorda, but following a winding course.

RESTRICTIONS: Vessels can enter only during daylight.

PILOTAGE: Pilots board vessels at Moa port mouth. Pilot station located at Punta Gorda at a distance of about 5 miles from port mouth.

Distance from point where Pilot boards vessels to the anchorage (loading place) is about 4.5 miles.

MAX. SIZE: Max. draft permitted, 28 ft. and length not exceeding 440 ft. Tidal variation, 3 ft. max.

TUGS: One tug which tows 1 or 2 barges as necessary. Work performed day and night.

RADIO: Through Simon – Baracoa by Inalambrica (cable).

LOADING: Anchorage where vessels can load up to a max. length of 440 ft.

STEVEDORES: Chrome, at average loading rate of 1,000 tons (approx.) per day of 24 hours. Loading operations carried out at anchorage. There are 4 barges which have total capacity 600 tons.

MEDICAL: No hospital at Punta Gorda. Crew members can be attended to at Moa or Baracoa Hospital.

FUEL/REPAIRS: Not available.

FRESH WATER: No water available but can be supplied at Moa pier (Darsena).

AUTHORITY: Customs Delegation at this sub-port. Vessels can proceed directly to Punta Gorda. Port Authorities from Baracoa travel to Punta Gorda for clearance. Moa Port Doctor clears vessels at Punta Gorda. From Baracoa to Punta Gorda, following ways of transportation used: air, launch and overland, which takes 20 minutes, 5 hours and 4.5 hours respectively. No regular transportation.

AGENT: Baracoa Sub-agency personnel attend vessels operating at Punta Gorda.

Instructions from Havana should be given through Baracoa Sub-agency (cable address: "Simon" Baracoa).

CAIBARIEN: 22.32 N. 79.28 W.

Operations carried out at Cay Frances anchorage by lighters, at distance of 16 miles from City of Caibarien.

PILOTAGE: Pilots board vessels 0.5 mile from Catalina buoy (entrance) of Cay Frances anchorage. Pilot station located at Cay Frances at place known as Punta del Asta. Usual means of communication is radio-telephone, which is available at Port Captain's Office in Cay Frances, close to pilot station. Advice also given by motor-launch.

Distance from point where Pilots board vessels to:

Inner anchorage (La Caldera) – 2 miles
Outer anchorage (La Poza) – 0.5 mile
Outer anchorage (Port Buoy) – at same place where Pilots board vessels.

ANCHORAGES: Cay Frances anchorage easily accessible, free of shoals and reefs. Bottoms at anchorage "Caldera" and "Poza" are mud and sand. Bottom at third anchorage (port buoy anchorage) is stone, but free of reefs.

Vessels can enter or sail Cay Frances anchorage with any length and with max. draft up to 35 ft. When vessels draw less than 20 ft. they proceed to inner anchorage (La Caldera): over 20 ft. and up to 26 ft. to the outer anchorage (La Poza); and those over 26 ft. proceed to third anchorage (port buoy).

Following regulations must be observed during vessels stay at Cay Frances road:

(1) Vessels arriving with draft of 19 ft. 6 in. or less:
(a) All ships arriving with draft of 19 ft. 6in. or less must proceed to inner anchorage and remain in this anchorage until reaching draft of 20 ft. even keel.
(b) Any Master refusing proceed to inner anchorage with draft of 19 ft. 6 in. or less, incurs penalty of extra charge of about 7 cents on each bag of sugar delivered in port (payable to crew of sugar barges employed in transportation of cargo from shore warehouse to anchorage at Cay Frances).

(2) Shifting or changes of anchorages:
(a) Vessels must remain at place where official Pilot orders anchoring.
(b) Not permitted to shift or change from place indicated by official Pilot of the port without authorisation from Custom House Officer-in-charge on board the vessel. All shifts and changes to be done only under supervision and command of local Pilot.
(c) Master will notify Custom House Officer on board when shiftings or changes of anchorages places required.

In event aforementioned orders not followed or observed by Ship's Master and/or ship's officers, a penalty or fine min. $500 (five hundred dollars) will be charged to the vessel, and will have to be paid by Master prior to departure from this port. Besides penalty, no cargo will be delivered to ship anchored in any other place, other than indicated by local Pilot.

Vessels can enter during day and night-time.

TUGS/BARGES: It is not necessary to use tug for entering/sailing, but following tugboats which used for towing barges.

Tug Name	*Length*	*Speed*	*H.P.*
Gonzalez Lines	75 ft.	8/9 kn.	250
Cmdte. Fajordo	55 ft.	8/9 kn.	300
Jose Marti	60 ft.	8/9 kn.	180

STEVEDORES: Sugar working periods: Monday to Friday 0700 to 1100 hrs. (presently labourers continue working from 1200 to 1600 hrs. but the official periods are from 0700 to 1100 hrs.). Sunday, no work is performed unless urgent.

Loading rate: About 1,000 bags of raw sugar per gang-period. For each gang, not less than 1,950 bags are placed alongside vessel for each 8 hours working period.

For vessel able to make faster reception, it is possible some days for about 3,000 bags to be loaded.

Bags per sling: 5 bags per sling loaded.

Work capacity: 2 vessels can be operated simultaneously.

General cargo: Only empty jute bags imported and discharging rate approx. 20 tons per gang hour.

TANKERS: Only blackstrap molasses exported by this port. When tankers arrive drawing less than 20 ft. or in ballast, they dock at Ponton or Hulk *San Pascual*, proceeding generally to complete at another port.

On other occasions they are shifted from Ponton (Hulk) *San Pascual*, to outer anchorage "La Poza" where they complete cargo which is delivered by barges.

Average pumping rate 55,000 gallons per hour.

RADIO: Vessels can communicate with Caibarien through government Wireless Telegraphy Station but it is surer and quicker for any communication from vessel to be given through radio-telephone.

For use of wireless telegraphy, service of Inalambrica is preferable.

Means of communication between Caibarien and Cay Frances: radio telephone.

Following tugs equipped with radio telephone: Comandante Gonzalez Lines, Comandante Fajardo and the motor launch *Yolanda*. Also radio telephone at Ponton (Hulk) *San Pascual* and at Port Captain's Office.

All tugs and motor-boats equipped with radio-telephone and communicate with Port Captain's Office are Caibarien and Empresa Consolidada de Terminales Mambisas. Official hours of communications are 0800, 0900, 1100, 1400, 1530 and 1600 hrs. After these hours, other communications can be made when needed, upon request.

At Caibarien are following means of communication: National Wireless Telegraphy, Inalambrica, long-distance telephone and Post Office. Services are from 0800 to 2000 hrs. Telephone service is permanent.

MEDICAL: There is a hospital at Caibarien for sick crew members.

FRESH WATER: Any amount of fresh water can be supplied by means of barges which are towed from Caibarien docks to Cay Frances anchorage. Barges are equipped for this purpose. Average rate of delivery is about 5 t.p.h.

REPAIRS: Minor repairs only. Repair shops at Caibarien, but due to distance from Caibarien to Cay Frances, it is difficult and expensive to perform repairs.
AUTHORITY: All port authorities located at Caibarien 16 miles from Cay Frances anchorage, where they travel by launch or motor-boat to clear vessels.

AGENT: Empresa Consignatarias Mambisas, Street 4 No. 305 (2nd floor), PO Box 72, Caibarien, L.V. Tel.: 3-1805 from 0700 to 1900 hrs. (night: 3-4785).

CARDENAS: 23.03 N. 81.12 W.

PILOTAGE: Pilots board vessels in vicinity of Cayo Piedras.
Pilot station at Cardenas. Distance from where Pilot boards to the pier is 16 miles, and to Cayo Diana 6 miles.
APPROACHES: Cardenas Channel in bay has muddy bottom. Exterior Channel has rocky and sandy bottom, is artificial Channel, no dangerous narrows.
MAX. SIZE: Official draft for port 20 ft. 6 in., but due to quantity of mud deposited in Channel, Pilots have advised that vessels are only permitted enter and sail with draft not over 19 ft. and length approximately 560 ft. Variation of approximately 2 ft. between high and low tides.
RESTRICTIONS: Vessels only permitted enter or sail from port during daylight. Channel entrance to berth, 3 hours steaming, therefore vessels must enter or sail at least 3 hours before sunset.
ANCHORAGES: *Cayo Piedra de Afuera Anchorage:* Outer anchorage. Max. draft 38 ft. Swinging area over 500 ft. Open to winds of 1st and 4th quadrants.
Cayo Piedra de Adentro Anchorage: Inner anchorage. Min. depth 29 ft. Swinging area 500 m. Max. draft 26 ft. Open to Northern winds.
Los Meritos Anchorage: Inner anchorage. Min. depth 30 ft. Swinging area 400 m. Draft limited to 20 ft. at low tide.
At "La Poza de Cayo Diana" there are 3 official anchorages:
Explosivo Anchorage: 23° 10′ 22″ and 81° 08′ 56″ W. Min. depth 27 ft. Swinging area 300 m.
Cuarentena Anchorage: For vessels drawing over 15 ft. 23° 11′ 5″ N. 81° 08′ 17″ W. Min. depth 23 ft. Swinging area 350 m.
La Poza Anchorage: Min. depth 29 ft. Swinging area 750 m. Max. draft limited to the Port Official draft. Well sheltered.
Anchorages in Bay:
Cuarentena Anchorage: For vessels drawing 15 ft. or less. 23° 06′ 58″ N. 81° 10′ 48″ W. close to Port inner anchorage. Min. depth 16 ft. Swinging area 33 m.
Official de Bahia Anchorage: Min. depth 15 ft. Max. draft at high tide 15 ft. Swinging area 900 m.
TUGS: Normally tug not required to assist berthing, but when vessels have to berth head to shore, assistance of tug is necessary.
BERTHING: Loading/Discharging Place – Pier: Max. drafts: N.W. side (fore): 19 ft., (aft) 17 ft. 6 in. S.W. side (fore): 18 ft. Aft end not used for large vessels. Pier has double railroad tracks of standard gauge.
Operations in Bay: At present, no cargo operations in the bay are performed, although there is a fleet of nine lighters numbered from one to nine, with a loading capacity of 150 tons each (1,300 bags of the 250-pound type).
STEVEDORES: Export of refined sugar and alcohol. No general cargo operation performed at present. No shore crane available.
Working periods: loading sugar from Monday to Friday 0700/1100–1300/1700 hrs.; Saturday 0700/1100 hrs.; Sunday: no work performed.
When vessel does not achieve daily rate during regular hours, work is carried out from 1900 to 2300 hrs.
Raw sugar loading rate: about 1,138 bags (of the 220-pound type) loaded per 4 hours per gang. This is not a fixed rate but when exceeded stevedores to be paid extra. Bags per sling: 4 bags of raw sugar (of the 220-pound type) loaded per sling.
Capacity: Normally three vessels can be operated simultaneously.
Refined sugar: about 2,500 bags (of the 100-pound type) or 2,272 bags of 50 kilos, loaded per 4 hours per gang period. This is not a fixed rate, but when it is exceeded an additional payment must be made. Bags per sling: 8 bags (of the 50-kilo type and 100–pound type) loaded per sling. For those weighing 100 kilos, 4 bags loaded per sling.
Bulk: Only grates are available for loading bulk sugar.
RADIO: Ships can communicate with port by R.C.A. radio.
TANKERS: Average pumping rate of alcohol about 50,000 gallons per hour.
MEDICAL: Cardenas General Hospital and a clinic.
FRESH WATER: Pier has tank which receives water direct from aqueduct, but not sufficient to supply large quantity to ships. When necessary to deliver more than 80 tons, tank cars must be used to deliver additional quantities at the pier. Any quantity of water can be delivered using tank cars, but order must be placed 48 hours in advance.
Average delivery rate about 20 to 30 t.p.h.
FUEL: Not available.
REPAIRS: Repair shop named "Jose Valdes Reyes" where light repairs can be perfomed.
AUTHORITY: All port authorities located at Custom House building.
AGENT: Empresa Consignatarias Mambisas, Agencia Cardenas, 1ra. Avenida y Calle 4, Cardenas, Matanzas. Tel. 2847 (night: 4830).

CIENFUEGOS: 22.09 N. 80.27 W.

Including sub-port of Casilda (Port Trinidad), and sub-port of Tunas de Zaza:

PILOTAGE: Pilots board vessels 1 mile to South of Faro de los Colorados. Pilot station situated at Castillo de Jagua, at entrance of port. Distance from point where Pilots board vessels to the piers about 7 to 8 miles.
At entrance channel there are two sharp turns at Pasa Caballos and West part of Cayo Carenas.
Vessels permitted enter and sail from port day or night.
ANCHORAGES: General Anchorage and North Anchorage: min. depth at both anchorages 40 ft.
At N.E. part of General Anchorage (narrowest portion), vessels with a length of 560 ft. normally anchor with 3 shackles of chain in water, swinging easily with over 30 ft. draft aft.
Larger vessels can be accommodated at S.W. part of General Anchorage, where swinging area larger, and depth deeper. Min. depth 48 ft.
When piers are occupied, loading or discharging operations can be performed at anchorage. There are 9 barges available, capacity 150 tons each, 3 tugs, *Julia, Ramona* and *Granie*. Each tug can tow 2 barges.
MAX. SIZE: Max. length with which vessels can enter port is 700 ft. with draft up to 37 ft., making use of the best conditions, such as slack water, and daylight. Tidal variation about 1 ft. 6 in.
BERTHING: *Cacicedo Pier:* Drafts: 24 ft. fore, 25 ft. aft. Pier length: 385 ft.
Mooring Berth Standard: Min. depth in all area of 45 ft.
Naticorp: For vessels up to 613 ft. length, drafts up to 29 ft. fore and 30 ft. aft. For vessels up to 550 ft. length, drafts up to 29 ft. 6 in. fore, and 30 ft. aft. Vessels secure to 4 mooring dolphins.
Ferrocarril Pier (West Side): For tankers (discharge) length up to 620 ft., drafts: 27 ft. fore, 29 ft. aft. Pier length: 300 ft. For vessels (dry cargo) loading, up to 560 ft. length, draft: 27 ft. fore and 29 ft. aft.
(East Side) – Max. length for vessels loading/discharging 560 ft. with a draft up to 27 ft. fore and 29 ft. aft. Pier length: 240 ft.
Terminal Maritima Pier (installation of mechanical equipment for bulk sugar shipments): Length 558 ft. Draft fore 32 ft., aft 33 ft.
Wharves have railroad tracks. Transportation by trucks can also be effected. No double tracks.
Operation capacity: 4 vessels can operate simultaneously, 2 at Ferrocarril Pier, 1 at Terminal Maritima, and 1 at Cacicedo Pier.
TANKERS: Molasses pumping rate:
Plant N.A. 60/100,000 gallons per hour.
O.T. 25/35,000 gallons per hour.
C.D. 25,000 gallons per hour.
STEVEDORES: Working Periods – Sugar:
From Monday to Friday: 0700/1100 – 1300/1700 hrs.; Saturday: 0700/1100 – 1300/1700 hrs.; Sunday: Subject to Agreement.
General Cargo: 0700/1100 – 1300/1700 hrs. at night time subject to agreement.
Sugar Loading Rate: About 1,350 raw sugar bags (of the 250 pound type) per 4 hours gang period. Presently no bagged sugar is being shipped, but only sugar in bulk through mechanical equipment.
Bulk Sugar Shipments: Through new mechanical installation located at Terminal Maritima.
Sugar Bags per sling: 6 sugar bags (of the 250 pound type) loaded per sling.
Cargo discharging Rate: General cargo about 110 tons per gang/per day. Fertilisers, about 110 tons per gang per day.
Shore Crane: Not available.
RADIO: Vessels communicate with Cienfuegos by radio through Havana-Santiago, and when close to port, through local Custom House communication.
Suggested that ETA messages be given sufficient time in advance to Mambisas – Cienfuegos and to Mambisas – Havana – simultaneously.
To communicate with Casilda only, long distance telephone and telegraph can be used. With Tunas de Zaza, by telegraph only. Cienfuegos has airport, railroad, sea radio, telephone and telegraph.
R.C.A., Western Union and Inalambrica operate at Cienfuegos.
MEDICAL: Two hospitals, General Hospital and Mutualist Clinic (formerly Sanatorio de la Colonia Espanola), where sick crew members can be hospitalised.
FUEL: Barge capacity for delivering fuel oil is 250 tons. Fuel can also be delivered at former Standard Dock. For delivering regular diesel oil, Ferrocarril dock is to be used, as the barge is out of service.
FRESH WATER: Vessels can be supplied with fresh water delivered by barges. Water barge capacity 250 tons. When delivered during overtime hours or on Sundays, 50% increase.
REPAIRS: Repair shop available, but can only carry out winch repairs and other light work.
AUTHORITIES: All port authorities are located at port of Cienfuegos.
From Cienfuegos to Casilda and Tunas de Zaza, following transportation can be used: railroad, trucks, barges.
It takes from 2 to 5 hours, according to transport conditions, to travel from Cienfuegos to Casilda or Tuna de Zaza.
Distance, by sea, from Cienfuegos to Casilda 45 miles; to Tunas de Zaza 80 miles. Suggested that railroad or highway be used to travel from Cienfuegos to Casilda or Tunas de Zaza. There is daily omnibus and auto service from Cienfuegos to Casilda and Tunas de Zaza.

AGENTS: Empresa Consignatarias Mambisas, Agencia Cienfuegos, Avenida 50 2712, POB 420. Tel. 5718 – 6422 (Night: 6715).

Recommended that all correspondence or instructions be sent through Havana main office. Cienfuegos Agency attends ships that operate at Casilda and Tunas de Zaza. For any information concerning vessels operating at these sub-ports, Cienfuegos Agency should be contacted.

SUB-PORT OF CASILDA: 21.45 N. 79.59 W.
(This is loading port for Trinidad, three miles from Casilda).
PILOTAGE: Vessels should pick up Pilots at Cayo Blanco. Distance from point where Pilot boards vessels to pier is 9 miles.

Entrance channel to Casilda has muddy bottom, with dangerous "S" shaped turn.
ANCHORAGE: Draft 25 ft., swinging area 2.5 miles.
RESTRICTIONS: Vessels can enter and sail during day-time only.
MAX. SIZE: Vessels can enter and sail with max. draft of 25 ft. and length of 512 ft. (Pilot advises it is possible to operate vessels with length up to 565 ft.) Tidal variation about 2 ft.
TUGS: None.
BERTHING: (Dry cargo) Pier length 520 ft., depth 25 ft. (Tankers) Berth length 390 ft.
STEVEDORES: Working periods:

Monday to Friday 0600/1000 – 1200/1600 hrs.; Saturday 0600/1000 – 1200/1600 hrs.; Sunday when necessary, same periods.

Raw sugar loading rate: 1,200 sugar bags, loaded per gang per day. Bags per sling: 6 sugar bags per sling. Operation capacity: only one vessel can operate.

Refined sugar loading rate: 1,500 bags per gang per day. Bags per sling: 12 bags loaded per sling.

General cargo: No regular general cargo operations performed at this port.

Shore crane: No shore crane available.

Bulk sugar equipment: no bulk sugar equipment available.

Warehouses: 2 warehouses with capacity for storage of 70,000 bags of sugar. No. 1 (at the pier) 40,000 bags (250 L). No. 2 (at the Real Street) 30,000 bags.
TANKERS: Discharging pumping rate of fuel oil about 20,000 barrels. Alcohol and molasses not shipped.
MEDICAL: Sick crew members can be sent to General Hospital.
RADIO: Vessels can communicate with port through Havana Radio.
FUEL/REPAIRS: Not available.
FRESH WATER: Vessels can be supplied with fresh water, delivered by means of electric turbine at the pier. Delivered at average of 30 t.p.h.
AUTHORITIES: Port Captain, Custom Authorities and port Doctor travel from Trinidad to Casilda.

AGENT: If any information required regarding ships operating at Casilda, Cienfuegos Agency should be contacted.

Crew mail or any other mail should be sent to Havana main office, from where it is sent to Cienfuegos.

SUB-PORT OF TUNAS DE ZAZA: 21.37 N. 79.32 W.
Seaport of Sancti Spiritus. Port lies about 1.25 miles North of Point Ladrillo.
PILOTAGE: Pilot may board vessels either at Breton Channel or Tunas Channel.

Distance from point where Pilot boards vessel entering through Breton Channel to Tunas de Zaza anchorage is 8 miles. From place where Pilot boards vessel entering through Tunas Channel is 1.5 miles. Pilot station for Tunas Channel, located at Cayo Zaza de Fuera. For Breton Channel, entrance of Breton, that is, 8 miles from anchorage.
MAX. SIZE: Two channel entrances for this port; one through Breton Channel, which is with turns, but not dangerous. Vessels can enter or sail through this channel drawing up to 29 ft. The other one through Tunas Channel, has no turns. Vessels can enter and sail through this channel, drawing up to 22 ft. No length restrictions.

Tidal variation 1 ft. 6 in. Vessels can enter day and night.
TUGS: 3 tugs: *Arturo, Don Juan,* and *Tuinicu,* which tow up to 6 barges.
BERTHING: At this port there are no piers. All operations are performed at anchorage with barges. Depth at (In) anchorage 24 ft. and 27 ft. (Out) 30 ft. For sailing with 22 ft. 6 in./24 ft. 8 in. and 29 ft. respectively.

There are 9 barges available for loading sugar with total loading capacity of 7,500 bags. Sugar loading rate: 1,500 bags per gang daily. Bags per sling: 6 sugar bags loaded per sling.

General cargo: No general cargo operations are performed.

Shore crane: No shore crane available.

Bulk sugar equipment: None.
STEVEDORES: Working periods – loading sugar: Monday to Friday 0600/1000 – 1200/1600 hrs.; Saturday 0600/1100 – 1200/1600 hrs.; Sunday: when necessary.
MEDICAL: For sick crew members, there is a general hospital at Sancti Spiritus.
RADIO: Via Radio Havana, for relay through Cienfuegos Agency.
FUEL/REPAIRS: None.
FRESH WATER: Vessels can be supplied by tugboat which carries 30 tons. Delivery average 30 tons per day.
AUTHORITIES: There are Custom House and Captain of the Port Delegations at this sub-port. Customs also acts for Immigration. Port Doctor located at Zaza del Medio.

Vessels can proceed directly to this sub-port where they are visited by port authorities. Means of transportation used by port authorities to give entry is by launch service.

At this sub-port Custom House and Captain of the Port have delegations, but not port Doctor.

AGENT: Vessels operating at this sub-port are attended by personnel from Cienfuegos Agency.

GUANTANAMO: 19.59 N. 75.10 W.

PILOTAGE: Pilots board vessels at distance of 1 mile from Buoy No. 1 at port entrance.

Distance from where Pilots board vessels to: General anchorage: 7.5 miles. "Boqueron" Pier: 7 miles.
APPROACHES: Wide entrance channel with mud bottom and free from navigational hazards.
ANCHORAGE: Max. draft 25 to 27 ft. Swinging area 400 m.
MAX. SIZE: Vessels can enter with max. draft up to 19 ft. and length 500 ft. Tidal variation about 11 in.
TUGS: Not available.
BERTHING: Boqueron Pier: length 550 ft., depth at both sides 23 ft. Pier has 4 railroad tracks of standard gauge. Work not interrupted when shifting sugar railroad cars.

Distance from Caimanera to Boqueron Pier: 1.25 miles. From Caimanera to Boqueron there is daily transportation.
STEVEDORES: Sugar and molasses loading operations are carried out at this port.

Working periods loading raw sugar: From Monday to Friday 0700/1100 – 1300/1700 hrs.; at night time whenever necessary. Saturday 0700/1100 – 1300/1700 hrs.; at night time whenever necessary. Sunday: above-mentioned periods, whenever necessary.

Bagged sugar loading: 780 bags loaded per gang-period. Sugar bags per sling: 4 sugar bags per sling.

Capacity: Two vessels can load simultaneously at Boqueron Pier.

Raw sugar in bulk: Four complete sets of machines and 10 grates.
TANKERS: Molasses pumping rate average of about 35,000 gallons per hour.
MEDICAL: Clinic where sick crew members may receive attention.
FRESH WATER: Can only be supplied by Boqueron Pier but delivery is difficult as brought in railroad tankers from Guantanamo, which is distant about 30 kms. Tank cars capacity up to 20 metric tons. Max. 150 tons can be delivered, but recommended that vessels be supplied with water at another port, delivery about 10 t.p.h. During harvesting of sugar, no water can be supplied.
FUEL/REPAIRS: Not available.
AUTHORITY: Port doctor located at Guantanamo. Other port authorities Custom House, Port Captain, Immigration, located at Caimanera.

AGENT: Consignatarias Mambisas, Carril entre Marine y Correo, POB 5, Caimanera, Oriente. Tel. 23 (night: 36).

HAVANA: 23.09 N. 82.21 W.

PILOTAGE: For requesting Pilot, in daytime or at night, ships shall use signals established in International Signal Code, also they can direct light signal to Morro semaphore and make sound signals at intervals.

Pilot service is compulsory for all foreign ships more than 40 gross tons.

Master must inform Pilot: port of origin, illness of any person on board, or if ship is carrying explosive or easily inflammable materials, in which case the ship shall be anchored in special berths and shall be under control of port authorities.

Any ship in port requiring immediate Pilot services should either call telephone numbers: 62–3602 or 62–2896; or hoist "G" Flag, sound 2 prolonged blasts.

Pilots board vessels approximately 1 mile from port mouth, although in some cases, especially at night-time, they will go out about 3 miles to meet incoming vessels.

Pilot station located at San Pedro St. No. 2. Telephones: 62–3602 and 62–2896.

Distance from where Pilots board vessels up to port anchorage or wharves is about 1 mile.
APPROACHES: Vessels can enter during day and night. At entrance there is a strong current.
MAX. SIZE: Max. draft jn channel at low tide is 42 ft. Max. draft in main anchorage is 33 ft., although on many occasions vessels cannot dock with this draft. Tankers can enter drawing up to 37 ft., as they take special course once they are inside bay. Tidal variation about 18 in.
RADIO: Vessels can communicate through CLA radio.
TUGS: Following tugs available:

Name	*Length*	*Speed*	*H.P.*
Pinzon	20 m	5 knots	540
Raquel	14.95 m	6 knots	145
Chucho	12.40 m	6 knots	145
Antonio Briones	28.46 m	12 knots	860
Bick-C	—	—	179
Manuela	17.18 m	—	325
Mariel	12.40 m	—	165
Mayari	12.00 m	—	165
Sara	14.80 m	—	150
Triunfo	12.40 m	—	147

BERTHING: *(a)* Andres Gonalez Lines Dock (former name: Havana Coal): Dock used in discharge of bulk fertiliser and coal. Length

1,090 ft., depths (from South to North): 22, 26, 26, 29, 30, 24, 23, 19, 17, 19 ft. Max. draft: 28/30 ft. dependent berth. Railroad tracks and overhead bulk discharge crane.

(b) Sierra Maestra Terminal (former name: Havana Dock Corp.): Terminal used in discharge and loading of general cargo, consists of 3 piers:

Pier No. 1 – North side (former name San Francisco): length 662 ft., width 210 ft., depths (from West to East): 19, 29, 30 ft. Max. draft, 30 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier.

Pier No. 1 – South side: length 662 ft., width 210 ft., depths (from West to East): 21, 30, 38 ft. Max. draft 30 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier.

Pier No. 2 – North side (former name: La Machina): length 661.5 ft., width 210 ft., depths (from West to East): 24, 30, 39 ft. Max. draft 32 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier.

Pier No. 2 – South side: length 602 ft., width 210 ft., depths (from West to East): 21, 30, 36 ft. Max. draft 32 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier.

Pier No. 3 – North side (former name: Santa Clara): length 625 ft., width: 210 ft., depths (from West to East): 20, 30, 39 ft. Max. draft 30 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier.

Pier No. 3 – South side: length 562 ft., width 210 ft., depths (from West to East): 21, 30, 34 ft. Max. draft 30 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier.

All 3 piers have railroad sidings connecting with main tracks; are also suitable for truck operations.

(c) Margatiro Iglesias Terminal (former name: Paula Piers): Terminal is used in discharge and loading of general cargo, consists of 3 piers:

Pier No. 1 – North side: length 443 ft., width 118 ft., depth (from East to West): 27 ft. at bay end or East side of pier; 17 ft. at centre and 12 ft. at West or shore end. For some years no operations have been performed at this pier. Max. draft 20 ft. Vessels can dock without danger on 23 ft., but with part of vessel away from pier.

Pier No. 1 – South side: length 443 ft., width 118 ft., depths (from East to West): 26 ft. at bay end or East side of pier; 24 ft. at the centre and 8 ft. at West or shore end. Max. draft 20 ft. Vessels can dock without danger on 23 ft., but with part of vessel away from pier.

Pier No. 2 – North side: length 443 ft., width 118 ft., depth (from East to West): 27 ft. at bay end or East side of pier; 20 ft. at centre and 10 ft. at West or shore end. Max. draft 20 ft. Vessels can dock without danger on 23 ft., but with part of vessel away from pier.

Pier No. 2 – South side: length 443 ft., width 118 ft., depth (from East to West): 27 ft. at bay end or East side of pier; 22 ft. at centre and 13 ft. at West shore end. Max. draft 20 ft. Vessels can dock without danger on 23 ft., but with part of vessel away from pier.

Pier No. 3 – North side: length 443 ft., width 118 ft., depth (from East to West): 26 ft. at bay end or East side of Pier; 24 ft. at centre and 11 ft. at West or shore end. Max. draft 18 ft. Vessels can dock without danger on 20 ft., but with part of vessel away from the pier.

Pier No. 3 – South side: length 443 ft., width 118 ft. depth (from East to West): 25 ft. at bay end or East side of pier; 17 ft. at centre and 10 ft. at West or shore end. Max. draft 18 ft. Vessels can dock without danger on 20 ft., but with part of vessel away from the pier.

All 3 piers have railroad sidings connecting with the main tracks; are also suitable for trucking operations.

Breadth between piers: 123 ft.

(d) Havana Central Pier: Pier used in discharge and loading of general cargo. North side: length 434 ft., width 200 ft., depth (from East to West): First 400 ft. of pier has draft of 31 ft. at bay end or East side; 29 ft. at centre and 26 ft. at West shore end. Remaining length must be disregarded due to shallowness of water. Max. draft 28 ft. Vessels can dock without danger on 30 ft., but with part of vessel away from the pier.

South side: length 480 ft., width 200 ft., depth (from East to West): 28 ft. at bay end or East side: 26 ft. at centre and 19 ft. at West or shore end. Max. draft 27 ft. Vessels can dock without danger on 28 ft., but with part of vessel away from pier.

(e) Aracelio Iglesias Terminal (former name: Norguly Terminal): Terminal used in discharge and loading general cargo, consists of a dock and a pier. Dock (Warehouse): length 573 ft., width 44 ft., depth (from N.E. to S.W.): 26 ft. at N.E. end, 23 ft. at centre and 20 ft. at S.W. end. Max. draft 27 ft. if vessels berth starboard side to dock.

Pier – North side: length 518 ft., width 104 ft., depth (from East to West): first 500 ft. of dock 37 ft. at East or bay end, 30 ft. at centre and 24 ft. at shore or West end. Max. draft 30 ft.

Pier – South side: length 449 ft., width 104 ft., depth (from East to West): 34 ft. at East or bay end, 34 ft. at centre and 27 ft. at West or shore end. Max. draft. 32 ft.

Dock and pier hame railroad sidings connecting with main track; also suitable for trucking operations.

(f) Juan Manuel Diaz Terminal (former name: Ward Line Terminal): Terminal used in discharge and loading general cargo, consists of 2 docks and 1 pier. Dock (Warehouse) No. 3: length 521 ft., width 56 ft., depth (from N.E. to S.W.): 21 ft. at N.E. end, 22 ft. at centre and 20 ft. at S.W. end. Max. draft 24 ft. if vessels berth starboard side to dock.

Pier – North side: length 500 ft., width 125 ft., depth (from East to West): first 450 ft. of pier: 35 ft. at bay end or East side, 30 ft. at centre and 20 ft. at West or shore end. Max. draft 28 ft.

Pier – South side: length 530 ft., width 125 ft., depth (from East to West): first 480 ft. of pier: 33 ft. at bay end or East side, 30 ft at centre and 24 ft. at shore or West end. Max. draft 33 ft.

Dock (Warehouse) No. 2: length 481 ft., width 31 ft., depth (from N.E. to S.W.): 21 ft. at N.E. end, 22 ft. at centre and 26 ft. at S.W. end. Max. draft 24 ft. if vessel berths port side to dock.

Both dock and pier have railroad sidings connecting with main track; also suitable for trucking operations.

(g) La Coubre Dock (former name: Pan American Dock): Dock used in discharge and loading general cargo, consists of dock and pier. La Coubre Pier: length 390 ft., width 49 ft. North side of pier was customary berth of ferries, depth of narrowest part (emboque) being 22 ft., and depth along pier, from shore to bay, being 19, 25, and 28 ft. Depth at South side of pier; 20, 27, 22 ft., but at present no operations performed on this side.

La Coubre Dock: In front of warehouse No. 1, depth from North to South, of 20/23 ft. In front of warehouse No. 2, depth of 22/27 ft. from North to South. Max. draft 25 ft. in front of warehouse No. 1, and in the centre, 23 ft. in front of warehouse No. 2.

No railroad sidings, but suitable for trucking operations.

(h) Tallapiedra Dock (former name: Tallapiedra): Dock used in discharge of lighters. Dock Tallapiedra (Corrido): length 453 ft., depth (from N.E. to S.W.): 14 ft. at N.E. end, 19 ft. at centre and 15 ft. at S.W. end.

No warehouses nor railroad sidings and only suitable for trucking operations.

(i) Antonio Guiteras Dock (former name: Havana Electric Dock): Dock used in discharge of heavy lifts from lighters discharged by vessels performing operations in the bay. Length 847 ft., depth (starting from Tallapiedra Pier No. 2): 26, 21, 21, 18, 11 ft. Dock was formerly used by tankers discharging fuel for Electric Plant. A lighter, 40 ft. wide, was used to breast off the ship, which was berthed starboard side to dock, drawing up to 28 ft. bow laying in the mud. If no lighter used, vessels drawing up to 23 ft. only can berth.

(j) Osvaldo Sanchez Dock (former name: Atares-Vaccaro Docks): Docks used mainly in discharge of lumber.

Dock No. 1 (formerly Atares): length 428 ft., width 30 ft., depth (from N.E. to S.W.): 22 ft. at N.E. end, 23 ft. at centre and 24 ft. at S.W. end. Max. draft 24 ft. (berthing port side to dock).

Dock No. 2 (formerly Vaccaro): length 511 ft., width 30 ft., depths (from N.E. to S.W.): 26, 21, 21, 17 ft. Max. draft 25 ft. Berthing starboard side to dock, bow touching bottom. No railroad sidings but suitable for trucking operations.

(k) Melones Dock: Dock has installation for discharge of fuel oil, as well as overhead crane for discharge of fertilisers and coal. Length 718 ft., width 35 ft., depth (from N.E. to S.W.): 18 ft. at N.E. end, 13 ft. at centre, and 10 ft. at S.W. end.

Dock does not have railroad siding or warehouses, although is suitable for trucking operations. Not at present in operation, due to shallow draft.

(l) Puerto Pesquero de la Habana (Havana Fishery Port): Pote Dock, Hacendados Pier and Hacendados Dock have been completely rebuilt forming as a whole "El Puerto Pesquero de la Habana" (Havana Fishery Port). Present depths 23 ft. When completed, drafts should be 26 ft., with exception of that portion which was Hacendados Dock where draft will be 24 ft. Presently vessels are operating at this terminal, but no definite data can be given regarding forms of operation until work officially completed.

Dock No. 1 – Length 738 ft.
Dock No. 1 – Length 853 ft.
Dock No. 2 – Length 505 ft.
Dock No. 3 – Length 738 ft.
Dock No. 4 – Length 450 ft. (not yet completed).

(m) Terminal Maritima Pesquera Dock: North side: length 714 ft., depth 32.5 ft., S.E. side: length 685 ft., depth 28/26 ft.

Terminal Maritima: Dock in N.E./S.W. direction, is of very recent construction and used in discharge and loading of general cargo. Length 1,747 ft., width 72 ft. Depths from 33/35 ft. Max. draft 31 ft. 5 in., but vessels can dock without danger on 33 ft.

(n) Manuel Porto Pena Terminal (formerly Burrus Docks, Begueristain Dock, Auxiliar Maritima Dock and Regla Coal Dock): Terminal consists of following docks:

Manuel Porto Pena (Burrus): Dock used in discharge of bulk grains. Equipped with elevator and silos, having storage capacity of approximately 20,000 tons which permits discharging rate, under normal circumstance, of about 1,200 tons per day. Length 500 ft., width 26 ft., depths (from S.E. to N.W.) 26, 30, 29, 27 ft. Max. draft 30 ft. 6 in. vessels remaining 2 m. off the dock, but vessels dock without danger on 31 ft. remaining 3 m. off the dock.

(o) Manuel Porto Pena No. 1 (formerly Begueristain): Dock used in discharge and loading of general cargo and sugar. Length 315 ft., width 35 ft., depths (from S.E. to N.W.): 23, 23, 25, 27 ft., max. draft 26 ft., ship remaining separated from the pier. Dock has railroad sidings and is also suitable for trucking operations.

(p) Manuel Porto Pena No. 2 (formerly Auxiliar Maritima): Dock used in loading of sugar and discharge of general cargo. Length 447 ft., width 35.7 ft., depths (from S.E. to N.W.): 26 ft. at S.E. end, 25 ft. at centre and 27 ft. at N.W. end. Max. draft 28 ft., ship remaining separated from pier, but vessels can dock without danger on 29 ft., by loosening moorings and slipping away from dock during loading.

Dock has no warehouse, although equipped with railroad sidings, is suitable for trucking operations, and has installations for discharge of fuel oil.

(q) Manuel Porto Pena No. 3 (formerly Regla Coal): Dock used in discharge and loading of general cargo: length 779 ft., width 30 ft. depths (from S.E. to N.W.): 25 ft. at S.E., 26 ft. at centre and 23 ft. at N.W. end. Max. draft 26 ft., but vessels can perform operations without danger on 29 ft., vessel remaining separated from dock, and bow touching bottom.

Dock has railroad sidings and also suitable for trucking operations. It has installations for discharge of fuel oil and gasoline.

(r) Quinto de Regla Pier: Pier used mainly in sugar loading. Pier – South side: length 622 ft., width 54 ft., depths (from S.W. to S.E.): 27 ft. at S.W. or bay end, 25 ft. at centre and 17 ft. at S.E. end. Max. draft 30 ft.

Pier – North side: length 343 ft., width 54 ft., depth (from N.W. to N.E.): 28 ft. at N.W. or bay end, 26 ft. at centre and 22 ft. at N.E. end. Max. draft 28 ft. (moving vessels along pier as they are being loaded).

Pier has railroad sidings and also suitable for trucking operations.

(s) Fesser Pier: Pier has installations for loading molasses: Pier – South side: length 465 ft., width 30 ft., depth (from S.W. to S.E.): 27 ft. at S.W. or bay end, 25 ft. at centre, and 23 ft. at S.E. end. Max. draft 25 ft.

Pier – North side: length 407 ft., width 30 ft., depth (from N.W. to N.E.): 22 ft. at N.W. or bay end, 26 ft. at centre, and 25 ft. at N.E. end.

(t) Edificios Nos. 1 & 2 Docks (former name: American Agricultural and Chemical). Docks used in discharge of fertilisers, also installations for loading and discharging molasses.

Edificio No. 1 Dock (formerly American Agricultural and Chemical): length 516 ft., width 25 ft., depths (from N.E. to N.W.): 21/22 ft. of water throughout whole extension of dock. In loading molasses vessels are breasted off dock by means of a lighter, and can then load up to 29 ft. draft.

Edificio No. 2 Dock (formerly American Agricultural and Chemical): length 380 ft., width 108 ft., depths (from N.E. to S.W.): 19 ft., at N.E. end, 14 ft. at centre and 14 ft. at S.W. end. No operations performed at this dock due to shallow draft.

Docks do not have railroad sidings but are suitable for trucking operations.

(u) Facilidades Maritimas Dock (formerly: Cuban Distilling Dock): Dock used mainly in loading of molasses, and discharging tallow and chemical products. Length 814 ft., width 26 ft., depths (from N.W. to S.E.): 25 ft. at N.W. or bay end, 26 ft. at centre and 23 ft. at S.E. end.

Dock has railroad sidings and also suitable for trucking operations. Max. draft 26 ft.

(v) Nico Lopez Piers Nos. 1 and 2 (formerly Standard Oil Pier and Shell Oil Pier): Piers are used exclusively in discharge of fuel oil, gasoline, etc., and are operated by the Oil Refinery: Pier No. 1 – North side (formerly Standard Oil): length 1,027 ft., depth (from East to West): 36 ft. at Eastern or shore end, 35 ft. at centre and 34 ft. at West or bay end. Max. draft 36 ft. 6 in.

Pier No. 1 – South side: length 1,027 ft., depths (from East to West): 36 ft. at Eastern or shore end, 35 ft. at centre and 34 ft. at West or bay end. Max. draft 36 ft. 6 in.

Pier No. 2 – North side (formerly Shell Oil): length 990 ft., depths (from East to West): 35 ft. at East or shore end, 35 ft. at centre and 38 ft. at West or bay end. Max. draft. 38 ft.

Pier No. 2 – South side: length 990 ft., depths (from East to West): 34 ft. at East or shore end, 36 ft. at centre and 38 ft. at bay or West end. Max. draft 36 ft., but vessels can dock without danger on 37 ft. A deeper draft than 37 ft. is not acceptable without running the risk of touching bottom.

Discharging or loading operations are also performed at anchorage. There are 20 barges available.

STEVEDORES: Monday to Friday: working periods 0700–1300 and 1300–1900 hrs., although if necessary, two additional periods of 6 hours each may be worked. Saturday: Same as above. Sundays: No work performed.

Raw Sugar: Approximately 1,400 bags of raw sugar loaded per gang period. Six raw sugar bags loaded per sling. Loading raw sugar on 3 vessels simultaneously.

Refined Sugar: Approximately 3,800 bags of refined sugar (of 50 kg) loaded per gang period. 12–15 bags loaded per sling.

General cargo: Approximate average discharging rate per gang hour:

General cargo about	10 tons	
Bagged merchandise	up to 51 kg.	16 tons
Bagged merchandise	up to 92 kg.	17 tons
Bagged merchandise	more than 92 kg.	19 tons
Wood		8.4 tons
Fertilizers:		
Superphosphate		9.9 tons
Simple superphosphate		8.1 tons
Ammonium		9.0 tons
Potash		9.9 tons
Muraite		10.5 tons
Sulphur		10.3 tons
Phosphoric Rock		11.9 tons
Triple Phosphate		8.0 tons
Sodium Silicate		9.0 tons
Ferromanganese		9.0 tons

Floating Cranes:

Pablo Sandoval	100 tons—boom 51 m.
Frank Pais	25 tons—boom 10 m.
Matilde	6 tons—boom 9 m.

TANKERS: Average pumping rate of molasses is about 60,000 gallons per hour. Average pumping rate of fuel variable, from 3,000 up to 15,000 barrels per hour.

TELEPHONES: May be installed on board at Master's request.

DRY DOCK: Operated by Talleres Mambisas an operating unit of Empresa Navegacion Mambisas. Berthing capacity of dry dock: 440 ft. length, 91 ft. breadth, and can handle vessels up to 23 ft. draft. Door has 2 laterals, 1 East and 1 West.

East lateral: Length 638 ft., width 38 ft., depth 33 ft. at bay end, 29 ft. at centre and 18 ft. at shore end.

West lateral: Length 740 ft., width 38 ft., depth 23 ft. at bay end, 25 ft. at centre and 20 ft. at shore end.

MEDICAL: Hospitals where crew members can receive attention: Antonetti (Dental Services). Clinica "El Sagrado Corazon" (Medical Services). Hospital Naval de la Havana del Este.

FUEL: Vessels can be supplied with fuel oil or diesel oil/gas oil. Supplied by barges in the bay. There are 3 barges: 1 has capacity about 5,000 barrels and the other two 3,200. Average delivery rate about 1,000 b.p.h.

FRESH WATER: Vessels can be supplied with fresh water by barge in the bay. Six barges available with capacities of 350, 200, 320, 350, 200 and 60 tons. Average rate of delivery about 100 t.p.h.

REPAIRS: Reliable repair shop.

FIRE PRECAUTIONS: Port of Havana has a fire extinguishing ship, kept on permanent watch duty by Safety Corp. who can be reached through telephone number 6–0777.

GENERAL: (1) The port of Havana is approachable 24 hours a day, and dock Pilots keep permanent watch duty on their stations located in surroundings of harbour channel, very close to beacon marker of Pila de Neptuno.

(2) Any ship approaching port in daytime shall hoist national flag, merchant flag, and quarantine flag, not lowering the latter until granted "pratique" by doctors in charge of sanitary inspection. At night she shall show only quarantine lights as prescribed by International Sanitary Regulation.

(3) In case of emergency, ships at anchor shall immediately contact land through Official Radiophone Station CLT, available 24 hours a day, through 2260 kc/s. In very urgent cases, CLT can be contacted through 2182 kc/s. CLT services are free of charge.

(4) Ships moored to piers standing off pier heads at night must keep visible red light at the ship's extremity facing the sea.

(5) Every moored ship must strengthen its lines on first warning from Port Authorities when deemed necessary due to bad weather.

(6) Small boats belonging to ships are not authorised to be used for crew or passengers' service within port limits unless otherwise duly authorised by Harbour Master.

(7) When berthing, ratguards must be placed on all mooring ropes.

(8) Port provides boats to dispose of ship's wastes. Services provided free of charge and can be requested through ship's Agent.

AUTHORITIES: All port authorities located at Custom House building. Means of transportation used by authorities to clear vessel is launch. Each authority has its own launch for these services.

AGENT: Empresa Consignatarias Mambisas, Oficios y Lamparilla, Lonja del Comercio POB 1785, Habana. Tel. 6–8311 (switchboard) 61–1159 (direct), 79–2682 (night).

ISABELA DE SAGUA: 22.52 N. 80.00 W.

PILOTAGE: Pilots board vessels about 1 or 2 miles out from Nos. 1 and 2 buoys. Pilot station located at Custom House building, Isabela de Sagua. Distance from place where Pilots board vessels to anchorage is 7 miles.

From seaward by stages, the bottom is sandy, coral reef and hard rock, mud and rock under mud, mud and clay.

Turns in channel are not dangerous but there are narrows with dangerous currents.

ANCHORAGES: Inner Anchorage: Can accommodate vessels not exceeding 15 ft. draft. Swinging area unlimited. Several vessels can be accommodated. Operations can be performed at this anchorage.

Outer Anchorage (Buoy Anchorage): Can accommodate vessels drawing over 25 ft. Swinging area unlimited. Operations can be performed at this anchorage when there are good weather conditions.

RESTRICTIONS: Entry and sailing only during daylight due to lack of lights in channel.

MAX. SIZE: Max. draft 23 ft. Max. length 500 ft. Tidal variation about 2.5 ft.

TUGS: Available and necessary.

Name	*Length*	*Speed*	*H.P.*
Silvia	17.85 m.	9 knots	120
Moraima	18.30 m.	9 knots	140
Magdalena	19.78 m.	7 knots	140

BERTHING: Max. drafts with which vessels can always load afloat:

Beguirstain Dock (No. 10) – length 540 ft., draft 15 ft. Dock has pipe-line 8 in. diameter for loading alcohol. Also pipe-line 3 in. diameter for discharge of sulphuric acid and 3 in. diameter pipe-line for fresh water supply.

Garcia Dock (No. 9) – length 560 ft., draft 21 ft. Dock has pipe-line 12 in. diameter with 2 hose connectors for loading alcohol. Also pipe-line 1.5 in. diameter for fresh water.

Amezaga Dock – length 324 ft., draft 20 ft. 6 in. For discharge into trucks.

Alfer Dock – length 450 ft., draft 18 ft. 6 in. East side of dock has pipe-line for 16 in. diameter for loading molasses with 2 hose connectors for vessels, and a branch 8 in. diameter for discharge from lighters.

All docks have railroad trucks of standard gauge.

STEVEDORES: Raw Sugar loading rate: 1,300 bags of raw sugar (of 250-pound type) loaded per 4 hour-gang period, or 1,490 (of 220-pound type). From 4 to 5 bags loaded per sling. From lighters, 5 bags.

Refined Sugar: 2,360 bags of refined sugar (50 kg.) are loaded per 4 hour-gang period. 12 bags loaded per sling.

Operational capacity: Three vessels can be operated simultaneously.

Shore Crane: No shore crane available.

Equipment for bulk sugar: Twelve grates available but trimming performed with shovellers.

Loading Raw Sugar – Working periods: From Monday to Friday 0700–1100, 1300–1700 hrs. Saturday 0700–1100 hrs.

General cargo operations occasionally performed at this port, for which above periods apply.

TANKERS: Molasses average pumping rate 40,000 g.p.h.; alcohol average pumping rate 70/77,000 g.p.h. No fuel oil or ammonium discharging operations performed.

FUEL: Not available.

FRESH WATER: Fresh water supplied by barge water-tug up to max. 40–60 tons daily depending on efficiency of aqueduct. Capacity of barge 30 tons. Delivery rate 60 tons per day. Water can be supplied at any pier or inner anchorage.

REPAIRS: Minor repairs can be effected at Isabela de Sagua, larger repairs to be effected at Sagua la Grande, where two repair shops available: Fundicion Marfarlane Nacionalizada and Talleres Esponda Nacionalizado.

MEDICAL: No hospital at Isabela de Sagua. Sick crew members attended at Sagua la Grande Hospital.

AUTHORITY: All port authorities located at port of Isabela de Sagua.

When vessels at anchorage awaiting berthing, authorities transported by tug-boat for cleaning purposes.

AGENT: Empresa Consignatarias Mambisas, Independencia s/n, P.O.B. 18, Isabela de Sagua. Tel. 32–27.

Cables, messages should be addressed "Mambisas Sagua la Grande", but recommended be sent through main office "Mambisas Habana". ETAs should be sent simultaneously to both.

JUCARO: 21.37' N. 78.51 W.
(Including the sub-ports of: Boca Grande; Palo Alto and Santa Maria)

APPROACHES: Vessels proceeding to Jucaro sub-ports must call first at Jucaro for Port Authority's clearance.

Tidal variation 1 ft. 6 in. It is not necessary to await slack-water before entering. Recommended that *(a)* vessels arriving from Cuban ports situated to the East of Jucaro, such as Caibarien, Puerto Padre, Manati, Vita, Banes, Antilla, Sagua de Tanamo, Moa, Baracoa, etc., or from foreign ports, should enter Jucaro Port through Breton Channel, and *(b)* all vessels not exceeding 22 ft. draft proceeding from those Cuban ports situated to the West of Jucaro, such as Havana, Mariel, Matanzas, Cardenas, Isabela de Sagua and Cienfuegos, should enter Jucaro port through Tunas Channel.

PILOTAGE: Pilots board vessels which enter through Breton Channel at Buoy No. 2, which is situated to East of channel entrance, 21° 08′ 18″ N. 79° 30′ 24″ W. with water depth 33 ft. Through this channel vessels can enter drawing up to 29 ft. with max. length 800 ft. Bottom is coral reef. There are dangerous turns at "pasa" of Baandra until Ana Maria Cays have been passed.

For vessels which enter through Tunas Channel, Pilots board at No. 2 Buoy which is situated to East of Channel entrance, 21° 31′ N. 79° 41′ 21″ W. Through this channel vessels can enter drawing up to 22 ft.

No Pilot station. Pilots are to be notified of vessel's arrival 24 hrs. in advance. Distance from place where Pilots board vessels to Jucaro anchorage is 50 miles.

From Jucaro Anchorage to:

Boca Grande Sub-port	– 14 miles
Palo Alto Sub-port	– 5 miles
Santa Maria Sub-port	– 24 miles

RESTRICTIONS: Vessels can enter and sail only during daylight.

ANCHORAGES: Loading places, ex-lighters. Three anchorages, namely, No. 1 Anchorage – 6 miles from the port at South of Obispo Cay, depth 24 ft. No. 2 Anchorage – 7 miles from the port at South-east of Obsipo Cay, depth 27 ft. No. 3 Anchorage: Anchorage 8 miles from the port and 1 mile to Eastward of No. 2 anchorage, depth 30 ft. Is used mainly by tankers loading molasses.

LOADING (Understood to have been closed for sugar shipments since 1964): Raw sugar.

Working periods: Monday to Friday 0600/1000–1200/1600 hrs.; Saturday 0600/1000–1200/1600 hrs.; Sunday no work is performed.

Work carried out on a piece-work basis, and at an average of 2,000 bags per gang-period. 6 sugar bags loaded per sling.

Refined sugar: Work is carried out on a piece-work basis and loading rate averaged about 4,000 bags of the 50 kilo type and 2,000 of the 100 kilo type per gang-period.

Sugar in bulk: Venezuela and Ecuador sugar mills have 5 thrower machines each for distributing sugar in vessels' hatches. Loading carried out by cutting sugar bags through grates placed on vessels' hatches.

Shore cranes: None.

TANKERS: Average pumping rate of molasses 20,000 g.p.h.

FUEL/FRESH WATER/REPAIRS: None.

TRANSPORTATION: Distance between Jucaro Port and its sub-ports:

To Santa Maria	– 31 miles
To Boca Grande	– 15 miles
To Palo Alto	– 9 miles

Motor launches are used between port and sub-ports, and take 4.5 hrs, 2.5 hrs. and 1.25 hrs. between Jucaro and Santa Maria, Boca Grande, and Palo Alto respectively.

By automobile, 3.5 hrs. to Santa Maria and 2 hrs. to Boca Grande. No highway from Jucaro to Palo Alto.

COMMUNICATIONS: Radio-telephone is used between port and sub-ports through Port Captain's Office.

MEDICAL: There are two hospitals at Diego de Avila where sick crew members can receive attention. Distance between Jucaro and Diego de Avila is 27 km.

AUTHORITY: Custom House, Captain of the Port and Immigration, located at Jucaro. No port authority delegations at the sub-ports.

AGENT: Empresa Consignatarias Mambisas, POB 350, Nuevitas, Camaguey. Cable: "Mambisas–Nuevitas". Tel. 31435; night: 36025.

(a) SUB-PORT OF BOCA GRANDE:

LOCATION: About 15 miles East of Jucaro.

APPROACHES: See "Jucaro".

PILOTAGE: See "Jucaro". Distance from place where Pilots board vessels to Boca Grande is 64 miles. Entrance channel: same as for Jucaro. Tidal variation 1 ft. 6 in.

ANCHORAGES: There are two anchorages for loading operations: No. 1 Anchorage with 24 ft. draft. No. 2 Anchorage with 29 ft. draft. Both anchorages are located at a distance of about 5–7 miles from the dock.

LOADING: At present only refined sugar is exported. All sugar-loading operations are carried out at anchorage by means of lighters. Following lighters available:

Barges	*Capacity* (50 kg bags)	*Capacity* 100 kg bags)
Ana	4,900	2,500
Loretto	4,400	2,100
Mascot	4,400	2,100
F 55	4,400	2,100
Trusco 89	5,100	2,980
Angel	3,440	1,700

Working Periods: Monday to Friday 0600/1000 – 1200/1600 hrs.; Saturday 0600/1000 – 1200/1600 hrs. When working is performed on Sundays, same periods apply.

Work is performed on a piece-work basis, and average loading rate is about 2,000 bags, basis 6 bags per sling, and 100 kilo bags. Only one vessel can be worked at a time.

TUGS: Three tugs available.

TANKERS: Discharging operations at No. 1 or No. 2 anchorages. Discharging rate approximately 20,000 g.p.h.

There are also steel barges for transportation of molasses and/or sugar:

Guanales: 100 ft.×30 ft.×7 ft. Sugar capacity: 1,600 bags Molasses capacity: 65,000 gal.

Loreto: 100 ft.×30 ft.×7 ft. Sugar capacity: 1,600 bags Molasses capacity: 65,000 gal.

Each of these barges has 4 tanks measuring 15 ft.×36 ft.×7 ft. Capacity: 3,780 cubic feet or 28,274 gallons each tank. Total capacity: 113,100 gallons. Each barge can load a max. of 400 tons of molasses and each is equipped with steam pump.

COMMUNICATIONS: Launch transportation. It takes 2.5 hrs. for travelling from Boca Grande to Jucaro or Santa Maria. Captain of the Port's radio-telephone is used as means of communication.

All communication and instructions for vessels operating at this sub-port must be given to Nuevitas Agency.

(b) SUB-PORT OF SANTA MARIA:

APPROACHES: See "Jucaro".

PILOTAGE: Distance from place where Pilots board vessels to Santa Maria is 81 miles. Tidal variation is 1 ft. 6 in.

ANCHORAGES: Two anchorages for loading operations, No. 1 Anchorage for draft of 24 ft., No. 2 Anchorage for draft of 29 ft.

LOADING: All loading operations are carried out at anchorages by means of barges. Following barges available:

Barges	*Capacity* (50 kg bags)	*Capacity* (100 kg bags)
America	3,700	1,700
Albania	4,100	1,800
Will	3,800	1,800
Francia	4,100	1,700
S. J. Nieva	3,800	1,700
Santa Cruz	3,800	1,700
Macareno No. 1	4,300	2,100
Macareno No. 2	4,300	2,100
Josefa	4,200	2,000

At present only refined sugar is exported through this sub-port. 3,500 bags of 50 kilo type are loaded per gang-period, 1,600 of the 100 kilo type.

Working periods: from Monday to Friday 0600/1000 – 1200/1600; Saturday 0600/1000 – 1200/1600; Sunday 0600/1000 – 1200/1600.

COMMUNICATIONS: Captain of the Port's office radio-telephone is used. All communications and instructions for vessels operating at this sub-port must be given to Nuevitas Agency.

Distance from Santa Maria to:

Sub-port of Boca Grande	– 17 miles
Port of Jucaro	– 31 miles
Sub-port of Palo Alto	– 40 miles

From Jucaro to Santa Maria takes 4.5 hrs. by launch.

MANZANILLO: 20.20 N. 77.12 W.
(and sub-ports of Ceiba Hueca, Media Luna, Niquero and Ensenada de Mora.)

PILOTAGE: Pilots board vessels at Cabo Cruz. Pilot station located at Cabo Cruz and Pilots communicate with Manzanillo by means of radio-telephone. Distance from place where Pilots board vessels up to Manzanillo through Madrona Channel is 68 miles. Through Palomino Channel (Coloradas de Fuera) is 55 miles.

APPROACHES: *(a)* Madrona Channel: this channel has sharp and narrow turns. Bottom is of soft mud. Max. draft with which vessels can enter through this channel is 33 ft. 3 in. Channel has depth not less than 35 ft. Vessels must wait for slack or favourable tide to proceed through this channel. No tug is necessary.

(b) Palomino Channel: this channel has turns, but they are less sharp and less narrow than those of Madrona Channel. Bottom is of soft mud. Max. draft with which vessels can enter through this channel is 20 ft. No tug is necessary.

RESTRICTIONS: Due to present conditions of channel lights and distance, it is suggested that vessels enter and sail only during daylight.

ANCHORAGES: Inside harbour: No. 1, draft 24 ft. Distance from shore 1 mile. Use: sugar/general cargo.

Outside harbour: No. 2, draft 29–30 ft. No. 3, draft 33 ft. Distance from shore 1.5 miles to 2 miles. Use: sugar/general cargo. Although about 40 ft. depth at this anchorage, it is limited to 33 ft. which is official draft of the entrance channel. Vessels have been loaded at this anchorage up to 33 ft. 6 in. draft.

LOADING: Sugar-loading operations performed at anchorage by lighters.

Following 12 barges available, each with capacity of 2,000/2,200 bags (250 tons): *Juan Manuel Marquez, Sergio Gonzalez, Jimmy Mirtsel, Pedro Soto Alva, Clodomira, Antonio Lopez, Santiago Lopez, Andres Lijan, Josue Pais Garcia, Adalberto Pesant, Mario Munoz, Elias Zaldivar.*

Also available is barge named *Abel Santamaria,* with capacity of 1,000 bags (250 tons), and provided with derrick and winch for handling lifts up to 2 tons.

At Manzanillo there are three docks: Beattie, Arcos and Terraplen with drafts 8, 7 and 8 ft. respectively. Terraplen Dock is the only one which presently carries out operations, through which sugar is loaded by means of lighters and taken alongside vessels at anchorages.

Docks are suitable for reception and handling of import and export cargo (bulk cargo excepted). They have railroad tracks of non-standard gauge, which connect with warehouses. No shore crane available.

Sugar and general cargo: Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

2,000 raw-sugar bags loaded per gang per day of 8 hours. Only one vessel can operate at this port, order comply with this loading rate.

DISCHARGING: Rates:

Bagged cargo (of 100 lb.)	app. 25 tons per hour
Bagged cargo (of 200 lb.)	app. 35 tons per hour
Iron	app. 7 tons per hour
Wood	app. 8 tons per hour
Jute bags	app. 15 tons per hour

TUGS: Following tugs available: *Aracelio Iglesias* – tows 3 barges; *Donatilo Lopez* – tows 3 barges; *Raimundo Arias* – tows 3 barges; *Edesio Perez* – tows 3 barges.

TANKERS: No facilities.

FUEL/FRESH WATER: Not available.

REPAIRS: Mechanic and foundry shop under control of Industry Ministry, where light repairs of machine parts can be performed.

COMMUNICATIONS: Distance from Manzanillo to:

Ceiva Hueca:	15 miles by sea, 72 km. by highway
Media Luna:	23 miles by sea, 45 km. by highway
Niquero:	45 miles by sea, 79 km. by highway
Pilon:	90 miles by sea, 130 km. by paved highway, which reaches up to 15 km. from Niquero whereafter a dirt road must be used to reach Pilon. Dirt road distance of 40 km. During rain season a jeep is used to travel by this road.

Automobile is used to travel from Manzanillo to above sub-ports, and takes: to Ceiba Hueca 1 hour; to Media Luna 1 hour; to Niquero 2 hours and to Pilon 3 hours (in rainy season about 5 hours).

Daily automobile services from Manzanillo to Niquero; to Pilon there are trucks specially prepared for this service.

No direct communication between Manzanillo and sub-ports, except Niquero, where there is a long-distance telephone at the telephone centre.

At Pilon and Niquero there are Inalambrica Radio Stations, but radiograms have to be sent to Havana first, from where they are relayed to Manzanillo.

At Manzanillo proper there are long-distance telephones, Inalambrica Radiogram Services and telegraphic and post services. Vessels can communicate with Manzanillo by radio. Vessels messages are received by Government Telegraph (CLT Havana Station).

MEDICAL: There is a hospital at Manzanillo where sick crew members can receive attention.

AUTHORITIES: All Port Authorities, Custom House, Immigration Port Doctor, Port Captain are located at Manzanillo.

Vessels can proceed directly to any of the sub-ports, where Manzanillo Port Authorities travel to give clearance, but advance information must be given to these Authorities for the corresponding permit, as Manzanillo regulations provide that vessels must enter Manzanillo as Custom Official Port.

AGENT: Empresa Consignatarias Mambisas, POB 22, Manzanillo, Oriente. Cable: "Mambisas Manzanillo". Tel. 2533; night: 2369.

(a) SUB-PORT OF CEIBA HUECA:

Vessels may proceed direct to sub-ports (see Manzanillo under "Authorities").

PILOTAGE: Pilots board vessels at Cabo Cruz. Distance from place where Pilots board vessels up to Ceiba Hueca pier is about 42 miles.

APPROACHES: See Manzanillo information. For operations at Ceiba Hueca it should be noted that the pier has a depth of only 19 ft. towards the sea end, for loading. Tidal variation about 1 ft. 6 in.

BERTHING: A motor-boat is required to assist in handling lines to pier and buoys. Boat is brought from Manzanillo.

LOADING: Ceiba Hueca Dock (Enidio Diaz Machado): At this pier, sugar from Ceiba Hueca mill is shipped as well as molasses. Vessels should be in ballast, drawing 8 ft. fore and up to a maximum of 16 ft. aft. Work can only be performed by two gangs on account of length of platform, which is about 130 ft. Depths along pier at shore end 8 ft.; at platform, shore end 16 ft. – sea end 19 ft. Vessels permitted load up to 19 ft.

There is railroad of non-standard gauge from the sugar mill warehouse to the dock platforms.

Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

2,000 bags are loaded per gang-period. 6 bags per sling.

TANKERS: Vessels are loaded with molasses at Ceiba Hueca pier and average pumping rate is 25,000/30,000 g.p.h. Tankers with fuel oil are also operated.

FUEL/REPAIRS: Not available.

FRESH WATER: Vessels can be supplied. Delivery made through pipe-line alongside vessel. Average delivery rate is about 1 t.p.h. (due to low pressure).

COMMUNICATIONS: Government telegraph communication between Manzanillo and Ceiba Hueca up to 1800 hrs. however, there is a telephone line which communicates by means of relay with "La Demajagua" sugar mill, which has direct telephone communication with Manzanillo. This communication is only during sugar-mill office hours, and it is very poor due to above relay.

AGENT: Vessels operating at this sub-port attended by Manzanillo Agency Personnel.

(b) SUB-PORT OF MEDIA LUNA:

Vessels may proceed direct. (See Manzanillo under "Authorities".

PILOTAGE: Pilots board vessels at Cabo Cruz. Distance from place where Pilots board vessels to Media Luna is about 38 miles.

APPROACHES: See "Manzanillo".

MAX. SIZE: Max. draft for vessels to enter and carry out loading operations at this sub-port is 33 ft. Tidal variation 1 ft. 6 in.

LOADING: Loading operations are carried out at anchorage where vessels can load up to 33 ft. Barges and tug-boats are used from Manzanillo.

Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

2,000 bags are loaded per gang-period. Vessels can only work with 3 or 4 gangs. Only one vessel can work at a time.

TANKERS: No facilities.

FUEL/FRESH WATER/REPAIRS: Not available.

COMMUNICATIONS: Between Manzanillo and Media Luna, the only means of communication is Government telegraph, which is available up to 1800 hrs. Manzanillo personnel attend vessels operating at this sub-port.

AUTHORITIES: See "Manzanillo".

(c) SUB-PORT OF NIQUERO:

Vessels may proceed direct. (See Manzanillo under "Authorities".)

PILOTAGE: Pilots board vessels at Cabo Cruz. Distance from place where Pilots board vessels to Niquero Pier is 15 miles. Tidal variation 1 ft. 6 in.

LOADING: Pier length 400–450 ft., depth up to 23 ft. (North and South sides). There are railroad tracks of different gauges and sidings for shifting of flat cars.

Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

2,000 bags loaded per gang-period. 6 bags loaded per sling.

Although Niquero pier has two sides for docking, sugar mill can only supply sugar for working 1 vessel at a time unless overtime be worked at both sugar mill warehouse, and pier.

FRESH WATER: Can be delivered at pier by means of tank cars, capacity 8 tons. About 10 tank cars can be delivered daily but operation has to be performed outside loading hours.

FUEL/REPAIRS: Not available.

TANKERS: No facilities.

COMMUNICATIONS: Long-distance telephone communication between Manzanillo and Niquero sugar-mill office. Distance from sugar-mill office to pier is about 5 km.

AGENT/AUTHORITIES: See "Manzanillo".

(d) SUB-PORT OF PILON (ENSENADA DE MORA):

Vessels may proceed direct to sub-ports (see Manzanillo under "Authorities").

PILOTAGE: Pilot boards vessel at Cabo Cruz.

APPROACHES: From Cabo Cruz to Pilon mouth entrance is open sea. From Pilon mouth to the pier is through channel, with rocky bottom and turns.

ANCHORAGE: Permitted draft up to 23 ft.
MAX. SIZE: Max. draft permitted for vessels entering and sailing harbour is 20 ft. Tidal variation 1 ft. 6 in.
LOADING: Berth length 150 m., depth 20 ft. (presently in bad condition). Sugar loading and molasses are performed at this berth. There is a railroad track of non-standard gauge between the sugar mill and the berth.

Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

2,000 bags of sugar loaded per gang/per day of 8 hours. 6 bags loaded per sling. In cases when winches are slow, the number of bags per sling is increased. Only one vessel can operate at this berth at a time.
TANKERS: Molasses average pumping rate is 25,000–30,000 g.p.h.
FUEL: Not available.
FRESH WATER: Can be delivered at berth by pipe-line. Average delivery rate about 1 t.p.h.
COMMUNICATIONS: Government telegraph at Pilon. Also local telephone between sugar-mill office and Niquero, where there is Inalambrica system.
AGENT/AUTHORITY: See "Manzanillo".

MARIEL: 23.01 N. 82.46 W.
(and sub-ports of Cabanas, Bahia Honda and Santa Lucia)

PILOTAGE: Pilots board vessels about 1 mile from entrance of port: Vessels proceeding to sub-ports of Cabanas and Bahia Honda must pick up Pilot at same place. Pilot station located at 84 street, 5/a and 7/a, Barrio Boca. No telephone communication.

Distance from position where Pilots board vessels to:

Pier of Unit No. 1	– 1.25 miles
Anchorage	– 2.50 miles
Pier of Unit No. 2	– 2.75 miles

APPROACHES: Entrance channel where buoy No. 1 is situated is over a sand bank with 50–55–60 ft. depth. No. 3 buoy situated in 32 ft. of water on rocky bottom, but having close by a depth of 95 ft. No. 5 buoy situated in 30 ft. of water on sand having close by a depth of 33 ft. max. This channel is 328 ft. wide (approx.).
ANCHORAGES: General anchorage – swing area 450 m., depth 29 ft.

Punta Gorda anchorage – swing area 340 m., depth 36 ft.

Cargo operations do not take place at anchorages.
RESTRICTIONS: Vessels can enter and sail during day and night hours, but this should be checked in each case prior to vessel's arrival as on occasions the buoys are missing.
MAX. SIZE: Max. draft with which vessels can enter and sail through channel is 30 ft. and max. length of 574 ft. Tidal variation 1 ft. 4 in. Also see "Berthing".
BERTHING: Unit No. 1 (formerly Marante Pier):

Berth No. 1 (N.W.)	length 509 ft., depth 25 ft. (this berth is out of operation).
Berth No. 2 (N.W.)	length 250 ft., depth 16–24–30 ft. (max. draft permitted 16 ft.). Presently this berth is occupied by Terminal Electric and is not available for use.

Unit No. 2 (formerly Maritima Mariel Pier): length 607 ft., width 267 ft.

Berth No. 5 (N.E.)	Depth 20 ft., length 607 ft.
Berth No. 6 (N.W.)	Depth 26 ft., length 267 ft.
Berth No. 7 (N.E.)	Depth 29 ft., length 607 ft.

Cement Pier Plant:

Berth No. 3	Depth 29 ft., length 544 ft. Used for tanker vessels (fuel oil discharge). Vessels with length less than 492 ft. can dock with draft of 29 ft. Over 492 ft. and up to 580 ft. can enter with draft up to 27 ft. fore, and 29 ft. aft. with assistance of one tug (850 h.p.).
Berth No. 4	Depth 15 ft.

The Unit No. 2 piers are used for discharging general cargo and fertiliser. Up to 1962 sugar was shipped through this pier; at present this type of operation is not performed.

For each pier the main transportation used in reception and delivery of cargo is by trucks.

Unit No. 2 pier has railroad tracks of non-standard gauge, for communication with sugar mill Orlando Nodarse.
STEVEDORES: Working periods: Monday to Friday 0700/1300 – 1300/1900 – 1900/0100 hrs.; Saturday 0700/1300 – 1300/1900 – 1900/0100 hrs.

Raw sugar: 845 bags loaded per gang-period. 6 bags per sling. Only one sugar vessel can operate at a time.

General cargo: discharging rate: from 6 to 9 tons per gang hour (approx.).

Bagged merchandise: about 13 tons (100 lb. bag type).

Iron: about 18 tons (fluctuates according to type of iron).

Wood: 12 tons (approx.).

Fertilisers: Muriate of potash: 10 to 13 tons.
Sulphate of ammonia: 8 to 10 tons.
Superphosphate simple: 15 to 18 tons.

Shore cranes: There is one caterpillar (PH movable crane with boom of 80 ft. length, and which can lift 12 tons).
FUEL/REPAIRS: Not available.
FRESH WATER: Can be supplied at both piers by means of tank-truck with capacity of 5 tons. In dry season supplied only during night time.
MEDICAL: No hospital. Crew members requiring medical attention are sent to Havana.
AUTHORITIES: Located at Mariel as follows:

Customs House and Immigration: Ave. 65. 126 Street and 128 Street.

Captain of the Port: Playa "La Boca" at the entrance of the port.

Port Doctor: 128 Street. Ave. 67. and Litoral.

Distance from Mariel to:

Cabanas (anchorage):	25 km. 45 minutes by car.
Cabanas (pier):	57 km. 1 hr. 47 minutes by car.
Bahia Honda:	73 km. 2 hr. by car.
Santa Lucia:	250 km. 4 hours by car.

Car is hired for transportation to above sub-ports. There is daily transportation only between Mariel and Cabanas anchorage.
AGENT: Empresa Consignatarias Mambisas, Apartado 65 12411, Avenida 5, Mariel, Pina del 'Rio. Tel. 63; night: 54. Cables: "Mambisas Mariel".

(a) SUB-PORT OF CABANAS:

Vessels assigned to Cabanas do not have to enter Mariel for clearance, but must pick up Pilot at Mariel port entrance.
PILOTAGE: See "Mariel".

Distance from position where Pilots board vessels to Anchorage 4 miles; Pier 3.5 miles.
APPROACHES: Entrance channel has sandy bottom on eastern side, and rocky bottom on western. It is about 70 m. wide.
ANCHORAGE: Has depth of 19 ft. and is used for shipment of raw sugar from sugar mill "Augusto Cesar Sandino".

Following barges available for performing above operations:

Barge name	*Capacity for raw Sugar in bags*
Mercedico	995
Oscar	10,000
America	900
Julia	850
Malula	1,200
B–R–16	1,100
V del Carmen	1,400
Cubamaco	1,150
Varadero	1,000
Astillero	1,150

Loading of barges depends on weather conditions at time of shipment.

There is 1 tugboat named *La Nina* which can tow 3 barges.
MAX. SIZE: Max. draft permitted for entry and sailing is 19 ft., and max. length 574 ft. Tidal variation 1 ft. 4 in.
RESTRICTIONS: Vessels should enter and sail only during daylight.
BERTHING: Present name: ECA "Pablo de la Torriente Brau". Former name: "Almacenes de Cabanas". Length 360 ft. (max. length permitted 450 ft.), depth 20 ft.

This dock is commonly known as "Orozo Dock", which is used in shipments of raw sugar. There are railroad tracks of standard gauge.
LOADING: Working periods: raw sugar: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

845 bags are loaded per gang-period. 6 bags loaded per sling. 2 vessels can load simultaneously, one at the dock and the other at the anchorage. There are 4 grates for loading sugar in bulk.
FUEL/FRESH WATER/REPAIRS: Not available.
AGENT/AUTHORITIES: See "Mariel". There is a Port Captain at Cabanas.

(b) SUB-PORT OF BAHIA HONDA:

Vessels assigned to load at Bahia Honda do not have to enter Mariel for clearance, but must pick up Pilot at Mariel port entrance.
PILOTAGE: See "Mariel". Distance from position where Pilots board vessels to: dock 4 miles; anchorage 2.75 miles.
APPROACHES: The entrance channel has sandy bottom on Eastern side, and rocky bottom on Western and is approximately 150 m. wide up to Corojal anchorage.
RESTRICTIONS: Entry and sailing only during daylight and necessary to await favourable tide.
ANCHORAGE: Depth 28 ft. Swing area 300 m. Max. length permitted 623 ft. Anchorage used for completion of sugar loading by means of barges that are brought from Havana.
MAX. SIZE: Length 623 ft. and max. ship draft for proceeding up to Corojal anchorage is 28 ft. Tidal variation 1 ft. 4 in.
BERTHING: Dock: "Central Harlem" (formerly "Bahia Honda"):

Length 260 ft., depth 19 ft. Dock is commonly known as Sugar dock of Harlem Sugar Mill. It has railroad track of standard gauge.
LOADING: Sugar working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

845 bags of raw sugar are loaded per gang-period as min. (more than the above stipulated amount is always loaded). Only one vessel can load at a time.
AGENT/AUTHORITY: See "Mariel". There are Custom House and Port Captain delegations at Bahia Honda.

(c) SUB-PORT OF SANTA LUCIA: 22° 44′ 13″ N. 83° 59′ 15″ W.

Vessels assigned to Santa Lucia do not have to enter Mariel for clearance, nor to pick up Pilot.
PILOTAGE: Pilots board vessels at Pasa Honda, 2 miles off the phosphorescent buoy. No pilot station. Advice of ships' arrival is given to Custom House Delegation by cable. Distance from place where Pilots board vessels up to first anchorage is 4 miles.
APPROACHES: Channel approximately 200 m. width rocky bottom. It has two turns with dangerous narrows.

LOADING: There are the following anchorages:

1st Anchorage: has depth of 30 ft., but vessels are limited for sailing to max. draft of 15 ft., and length 500 ft.

2nd Anchorage: has depth of 20 ft., but vessels are limited for sailing to max. draft of 18 ft.

3rd Anchorage: open sea without draft limitation.

Working periods: work is performed all day (during daylight) including Saturday and Sunday.

Average loading rate is about 900 tons daily, but rate might be improved in the following cases:

1. Vessels with more than 3 hatches available.
2. Vessels with booms (not of the crane type) since loading is performed by grabs which are to be rigged in order to perform quick loading.
3. Provided only one vessel performs operations (2 vessels may be loaded simultaneously but above rate cannot be complied with).

Loading at this sub-port is by means of grabs rigged to vessel's boom. In cases where vessel has no booms, but cranes, the loading is carried out very slowly as buckets are used in such cases, and having to shovel mineral into buckets delays loading operations.

There are 6 barges for loading mineral with a capacity of 150 tons each.

TUGS: 2 tugs, *Adis* and *Julita* which can tow 2 barges each.

FUEL/FRESH WATER/REPAIRS: Not available.

AGENT/AUTHORITIES: See "Mariel".

Port Authorities use launches for clearing vessels. Agents use automobile to travel from Mariel to Santa Lucia which takes 4 hours.

There are Custom House and Port Captain Delegations at the sub-port of Santa Lucia.

MATANZAS: 23.03 N. 81.34 W.

PILOTAGE: Pilots board vessels about 3 miles after passing the port entrance, in front of Electrical Plant and close to Empresa Consolidada del Petroleo Pier (Texas). Pilot station located at Reynold Garcia Pier (Terminal Maritima). Tel. number 2688.

Distance from place where Pilots board vessels to:

I.C.P. (Texas) Pier	
Reynold Garcia Pier (Terminal Maritima)	– 200 m.
Juan A. Morales Bayona (Cubadist)	– 300 m.
Jose Luis Dubrocq (formerly Fomento)	– 500 m.
Frank Pais (Armour)	

APPROACHES: There are three entrance channels:

North Channel: 50 ft. depth

Central Channel: at North side 27 ft. depth; South side 50 ft. depth.

Entry and sailing channels are straight and without turns or obstacles. North Channel mud bottom, but others with rocky bottom. Tidal variation 1 ft. 6 in.

RESTRICTIONS: Vessels can enter or sail at night but Port Authorities should be advised in advance.

ANCHORAGES:

Indio Anchorage: depth 17 ft.; swing area 120 m.

South Anchorage: depth 30 ft.; swing area 230 m.

Del Medio Anchorage: depth 27 ft.; swing area 20 m.

West Anchorage: depth 21 ft.; swing area 150 m.

North Anchorage: depth 25 ft.; swing area 150 m.

Casacajales Anchorage: depth over 30 ft.

BERTHING: Jesus Menensez (I.C.P.) Pier (formerly Texas) with a depth of 28 ft., length 749 ft., used for discharge of fuel oil. At present no operations are performed at this pier, due to its bad condition.

Frank Pais Dock E.C.D. 41 (formerly Armour) is used in discharge of fuel oil. Depth 21 ft. and length of 365 ft. Vessels drawing over 21 ft. dock under Master's responsibility.

Reynold Garcia Pier (Terminal Maritima): North side: length 450 ft. draft 30 ft. Used for loading bagged sugar and for liquid ammonia.

South side: length 529 ft. draft 31 ft. 6 in. Used for loading bulk sugar by mechanical means; also for bagged sugar.

Jose Luis Dubrocq (Fomento Maritima): fore part: length 600 ft., draft 24 ft. Used for fertilizer discharge.

Rear part: length 500 ft. draft 28 ft. (out of service).

Morales Bayona Pier (formerly Cubadist); Draft 30 ft. This pier is used for loading blacktrap molasses and alcohol.

Reynold Garcia and Jose Luis Dubrocq piers have railroad tracks standard gauges with sidings for shifting cars. Trucks can also operate at these piers.

Cascajales Anchorage: oil tanker discharge.

STEVEDORES: Working periods: Monday to Friday 0700/1300 – 1300/1900, 1900/0100 hrs.; Saturday same; Sunday no work performed except in special cases.

Raw sugar: 855 raw-sugar bags loaded per gang-period. 5 bags loaded per sling.

Refined sugar: 2,004 refined-sugar bags (50 kg type) are loaded per gang-period (797 of 100 kg type).

12 bags of 50 kilo type per sling; 5 bags of 100 kilo type.

General cargo: average rate of discharge of other kinds of cargo varies depending on the type.

Average rate of fertiliser discharge about 11 tons per gang-hour.

Crane: one steam crane with a boom of 60 ft. which can lift about 40 tons. Crane is mounted on railroad tracks and is used only at Jose Luis Dubrocq pier.

Bulk sugar: the installation of bulk sugar throwers operated by Empresa Consolidada del Azucar, at Reynold Garcia Pier, is by system of conveyor and distribution crane which runs from Parabolicos warehouses up to the end of the pier. A special structure protects the conveyor.

The crane runs on special rail throughout the pier (fore and aft) stopping at each vessel's hold. In cases where the vessel has projecting superstructure, she has to be separated from the pier.

Average loading rate is about 350 t.p.h., depending on the type of vessel. On vessels without tweendecks, an average of 43 t.p.h. has been attained.

Weights of shipment estimated on draft and information provided by Master. Notations are entered in Bill of Lading declaring quantity as subject to amount discharged at destination, which is supervised by Cuban Producers' Representative.

TANKERS: Pumping rate:

Fuel oil	– discharge:	about	500	t.p.h.
Alcohol	– loading:	,,	208	,,
Molasses	– loading:	,,	263	,,

FRESH WATER: Supplied only at Reynold Garcia Pier. Delivery slow.

REPAIRS: Can be performed by Cearra y Trabazo.

COMMUNICATIONS: Long-distance telephone, Corporacion Inalambrica Cubana, Press wireless, Government telegraph, postal communication, railroad and buses.

Vessels can communicate through CLA via Cardenas and/or Havana.

MEDICAL: Following hospitals where sick crew members can receive attention: Civil Hospital, Army Hospital, Clinica Moderna, Clinica Villar, Clinica Matanzas.

AUTHORITIES: Located as follows:

Port Doctor:	Milanes St. No. 2. Tel. 2672 (home tel. 2338).
Immigration:	Santa Teresa St. No. 19. Tel. 2695.
Port Captain:	Muelle del Real. Tel. 2469.
Custom House:	Versalles St. e/Navia and Riech St. Tel. 2269 (home tel. 2339). (Chief of Custom House watching services.)

AGENT: Empresa Consignatarias Mambisas, POB 245, Tello Lamar Street No. 88, Matanzas. Tel. 2519 and 3079 (night: 3819).

Due to short distance between Havana and Matanzas, a close co-ordination inter-agencies must exist regarding advices of ETA and ETS of vessels transitting between these two ports.

NUEVA GERONA (Isla de Pinos): 21.58 N. 82.56 W.

PILOTAGE: Pilots board vessels at Punta Frances. Distance from place where Pilots board vessels to loading berth is about 34 miles. No pilot station. Chief Pilot is located at No. 3 St. Mo. 612 e/ 6 and 8 Streets, Nueva Gerona, Isla de Pinos.

APPROACHES: Entrance channel or passage from the Gulf to the bank is about 2 miles wide. Bottom throughout the 34 miles is mud (from entrance to anchorage in front of Las Casa River). No dangerous turns or narrows.

RESTRICTIONS: Entry and sailing only during daylight.

ANCHORAGE: Fruit-loading operations performed at anchorage when vessels' draft does not permit them to enter the river.

Vessels are permitted to load at anchorage up to a max. of 19 ft. Swinging area: 600 ft.

Following barges are available:

Evangelina – capacity 80 tons (schooner)
Bongo – capacity 80 tons (barge)
Natalia – capacity 100 tons (schooner)

Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

Whenever sufficient cargo is supplied by the packing plant, the loading rates should be about 120 tons per gang in 8 hours.

MAX. SIZE: Max. draft up to which vessels can load out of the river is 19 ft. Tidal variation 1 ft.

BERTHING: Ferry Dock: Length 200 ft., draft 8 ft. Dock situated about 2 miles up river. Depth of river is 13 ft., and 250 ft. wide. At present dock used for coastwise services by Float de Navegacion Mambisas (cargo and passengers).

FUEL/FRESH WATER/REPAIRS: Not available.

MEDICAL: General hospital "Heroes de Baire", where sick crew members can receive attention.

COMMUNICATIONS: There are telephone, telegraph and cable (Inalambrica) communications, also air postal service.

AUTHORITIES: Port Authorities are located at Nueva Gerona.

It is strongly recommended that when vessels are assigned to this port, all measures be taken for perfect co-ordination between Agents, Pilots and Port Authorities, and Masters should give ETAs in advance.

SUB-AGENT: Empresas Nacional de Cabotaje, Calle 14 entre 1ra. y 3ra, Nueva Gerona, Isla de Pinos. Cable: "Vapor Nueva Gerona". Tel. 33 and 163 (night: 277).

NUEVITAS: including Pastelillo, Puerto Tarafa, and Bufadero. 21.33 N. 77.16 W.

Nuevitas has following load/discharge berths and terminal facilities at Pastelillo and Puerto Tarafa, also loading berths at Bufadero, through which molasses are exported.

(a) **Pastelillo:**

PILOTAGE: Pilots board vessels at Punta Practicos, 1 mile from buoy No. 1.

Distance from place where Pilots board to: Pastelillo, 8 miles; Bufadero, 12 miles; Puerto Tarafa, 14 miles.

Pilot station located at Punta de Practicos, East of entrance channel. Usual means of communications are radio, telephone and launches.
APPROACHES: Entrance is narrow and winding. Channel is between Point Sotavento and Practicos and is 7 miles long. Vessels may use it safely although care to be taken because of narrow and sharp turns, and velocity of tidal currents.
RESTRICTIONS: Recommended that vessels enter or sail during daylight.
ANCHORAGE: Botijuela Anchorage: Can accommodate vessels up to 33 ft. draft.
MAX. SIZE: Up to 575 ft. length – 33 ft. draft. Up to 610 ft. length – 31 ft. draft. Tidal variation 1 ft. 6 in.
BERTHING: Pier No. 4: Length 458 ft., draft 32 ft. both sides. Vessels must be operated at high tide. Trucking operations cannot be performed at this pier. Pier has 2 railroad tracks. of standard gauge with only 1 inlet.

North side of pier is used for sugar, general cargo and fuel oil. South side of pier used for sugar, general cargo and molasses.

Vessels drawing over 30 ft. 3 in. have to wait high tide for shifting to anchorage.
STEVEDORES: Working periods: Monday to Friday, 0700/1300 – 1300/1900 hrs.; Saturday, 0700/1300 – 1300/1900 hrs.; Sunday, no work is performed.

Raw Sugar: loading rate: max. 1,800 bags per gang in 6 hours. Minimum fixed rate 975 bags in 4 hours or equivalent in 6 hours. 6 bags loaded per sling.

Loading Capacity: 2 sugar vessels can perform sugar loading operations simultaneously.

Refined Sugar: this type of shipment is not regularly performed at this port.

Loading rate: 3,300 bags of 100 lb. each are loaded per gang in a 6-hour period.

General Cargo: discharging rate is about 11 to 12 t.p.h.

Raw Sugar in Bulk: there are 7 sugar thrower machines.

No shore crane available.
TANKERS: Molasses pumping rate about 85,000 g.p.h.
FUEL: Bunkers can be supplied at No. 4 pier. Grades available: fuel oil, diesel oil, and gasoline, but only supplied in small quantities. Delivery rate average – fuel oil 200 t.p.h., diesel oil and gasoline 40 t.p.h. Delivery is by pipe-line or tank cars.
FRESH WATER: Can be supplied at No. 4 pier. Delivered by means of railroad tank cars, each with capacity of approximately 34 tons. Delivery rate about 20 t.p.h.
REPAIRS: Repair Shop "Boga" incorporated in the Industry Ministry.
MEDICAL: There is a municipal hospital where sick crew members can receive attention.
COMMUNICATIONS: There are long-distance telephone communications, cables RCA, Government telegraph and postal service. There is a long-distance telephone between Nuevitas/Pastelillo/Tarafa and Bufadero.

Vessels can communicate with Nuevitas by radiogram (CLA).
AUTHORITIES: Located at Nuevitas.

Authorities travel from Nuevitas to clear the vessels for whichever of the 3 berths they may have been assigned, i.e. Pastelillo, Tarafa or Bufadero.

Means of transportation for port authorities from Nuevitas to the loading/discharging berths is automobile or launches.

AGENTS: Empresa Consignatarias Mambisas, Apartado 250, Puerto Tarafa, Nuevitas. Cable: Mambisas Nuevitas. Tel.: 3–1435 (night: 3–5805 and 3–6025).

(b) **SUB-PORT OF TARAFA:**
PILOTAGE: See "Pastelillo". Distance from place where Pilots board vessels to Tarafa is about 14 miles.
APPROACHES: See "Pastelillo".
RESTRICTIONS: Vessels can enter or sail only during daylight and should wait for slack water.
MAX. SIZE: Max. draft with which vessels can enter Tarafa is 25 ft. 8 in. In exceptional cases up to 26 ft. 6 in.

Max. length up to 600 ft. Vessels drawing over 25 ft. 3 in. should wait for high tide before shifting anchorage. Tidal variation 1 ft. 6 in.
BERTHING: For sugar and general cargo.

Pier "B" – North side: length 480 ft., depth 19 ft. (high water). South side: depth 19 ft. (high water).

Pier "C" – North side: length 767 ft., depth 25 ft. 6 in. (high water). South side: depth 25 ft. (high water).

Pier "D" – North side: length 767 ft., depth 25 ft. 6 in. (high water). South side: length 477 ft., depth 25 ft. (high water).

Vessels drawing 25 ft. 6 in. and over when shifting to Pastelillo must do so at high tide.

These 3 piers each have 4 railroad tracks of standard gauge but sugar cars cannot enter loaded at one side and exit at the other side. Usually loaded sugar cars are unloaded first and, whilst shifting takes place, the last ones are discharged in order not to lose time in this movement.
STEVEDORES: Working periods – raw sugar, loading rate, refined sugar, general cargo, etc., same as for Pastelillo. 6 sugar vessels can operate simultaneously. No crane available.
FUELS: No bunkers usually supplied at this terminal, but in special cases bunkers have been supplied at Pier "B".
FRESH WATER: Can be supplied at Pier "B", "C", and "D".
AUTHORITIES: See "Pastelillo".

(c) **SUB-PORT OF BUFADERO:**
PILOTAGE: See "Pastelillo". Distance from place where Pilots board vessels to Bufadero is 12 miles.
APPROACHES: See "Pastelillo".
RESTRICTIONS: Vessels drawing over 25 ft. 3 in. should await high tide for shifting to anchorage.

For entering-sailing, vessels should wait for slack water and only during daylight.
MAX. SIZE: Max. draft with which vessels can enter/sail to/from Bufadero is officially up to 25 ft. 3 in. but actually up to 25 ft. 6 in. Length 600 ft. Tidal variation 1 ft. 6 in.
BERTHING: Pier, length 557 ft.; draft, North side, 25 ft.; draft South side, 25 ft.

This pier is only used for molasses and fuel oil. Average pumping rate of molasses is 70,000 g.p.h. Only South side is in operation.
FUEL/FRESH WATER/REPAIRS: Not available.
AUTHORITIES: See "Pastelillo".

PUERTO PADRE–Cayo Juan Claro: 21.17 N. 76.32 W. (and sub-port of Manati)

Vessels can proceed direct to Cayo Juan Claro and Port Authorities travel to Cayo Juan Claro for clearance.
PILOTAGE: Pilots board vessels at entrance, not less than 1 mile from mouth of port. Distance from place where Pilots board vessels to pier is about 2.5 miles.
APPROACHES: Funnel-shaped at entry. 2 turns, but the one to take into consideration when manoeuvring vessels over 525 ft. is "Careneoro" turn. Vessels with a length of 565 ft. have entered this port. Bottom is rocky in entrance channel and muddy in bay.
RESTRICTIONS: Vessels can enter only during daylight and must wait for slack water for entering/sailing due to current in the channel.
MAX. SIZE: Vessels can sail with max. draft of 25 ft. up to length of 500 ft. Over 500 ft. length with draft up to 24 ft. Max. length permitted 557 ft. Tidal variation 2 ft. 3 in.
BERTHING: Loading and/or discharging operations are carried out at Cayo Juan Claro which is about 3 miles distant from Puerto Padre.

Dock No. 1 For loading sugar: length 509 ft., width 30 ft., depth 25 ft.

Dock No. 2 For loading molasses and discharge of fuel oil and gas oil: length 272 ft., width 12 ft., depth 25 ft. This dock has railroad tracks of non-standard gauge. A launch is used for handling lines in berthing.
STEVEDORES: Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

Raw sugar: loading rate max. 1,430 raw sugar bags loaded per gang period. Minimum is 650 bags. 5 bags loaded per sling. Only one vessel can operate at a time. Empty jute bags have been discharged and average discharge rate is about 45 metric tons per gang period. No crane available.

Sugar in bulk: 5 thrower machines for loading sugar in bulk.
TANKERS: Molasses average pumping rate 50,000 g.p.h. Fuel oil, discharging rate 45,000 g.p.h. Gas oil discharging rate 35,000 g.p.h.
FUEL: Not available.
FRESH WATER: Can be supplied at No. 1 pier by pipe-line. Delivery rate 17 t.p.h.
REPAIRS: Port has no repair shop, but in event winch damage or any other light repairs, this work can be carried out at the Sugar Mill "Central Antonio Guiteras" Repair Shop.
MEDICAL: General Hospital at Puerto Padre where sick crew members can receive attention.
AUTHORITIES: Port Doctor and Custom House are located at Puerto Padre. Immigration at Chaparra. Port Captain at Cayo Juan Claro.

Distance from Cayo Juan Claro where all cargo operations are performed to Puerto Padre is 3 miles. Means of transportation between Puerto Padre and Cayo Juan Claro: motor-boat, railroad, and automobile.

From Puerto Padre to Cayo Juan Claro it takes: by motor boat 30 minutes; by automobile 5 minutes; railroad 20 minutes.

Means of communications available at Puerto Padre: telephone, cable (Inalambrica), telegraph and postal service. Vessels can communicate with Puerto Padre via CLA Habana.

AGENT: Empresa Consignatarias Mambisas, Cayo Juan Claro, Puerto Padre. Tel. 208–7 (Cayo Juan Claro); (Night 165). Cable: "Mambisas Puerto Padre".

(a) **SUB-PORT OF MANATI** 21.24 N. 26.49 W.
Vessels can proceed directly to this sub-port without calling first at Puerto Padre for clearance.
PILOTAGE: Pilots board vessels about 1 mile from entrance. No pilot station. Pilots located at Manati and ETA notice to be given to them well in advance. Distance from place where pilots board vessels to pier is about 3 miles.
APPROACHES: Narrow channel, very deep (min. depth 40 ft.) Bottom is irregular, parts where it is sandy and others rocky.
RESTRICTIONS: Not necessary to await slack water for entry/sailing; but considering large tonnage of vessels presently entering port for topping-off, if there is a strong current Pilots wait until current loses strength order to avoid accidents. Vessels can enter and sail only during daylight.
ANCHORAGE: Swing area 600 ft. (approx.). Owing to reduced space, this anchorage is not safe for anchoring vessels drawing over 26 ft.
MAX. SIZE: Vessels drawing up to 30 ft. and a length of 500 ft. have entered. Max. draft with which vessels can enter and sail:

(a) Presently vessels can enter with length (Liberty type) up to 440/460 ft. drawing up to 28 ft. Up to 29 ft. as max. limit.

(b) With a length up to 500 ft. drawing not over 26 ft. Vessels with above specifications can enter port and berth whenever tide favourable and weather good.

Both sizes of vessels can load up to a max. draft of 30 ft. Also vessels with length up to 560 ft. and drawing up to 17 ft. can enter port, although it is not advisable to do so on account of the present dock conditions. Tidal variation, 2 ft. 6 in.

BERTHING: Dock length 465 ft. At South end of dock there is a small shallow which renders worthless about 70 ft. of dock space. Present max. depth at dock is 30 ft. 02 in. at high tide.

STEVEDORES: Loading sugar: working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 – 1300/1700 hrs. When necessary, work is performed at night. Sunday is also worked when required. 1,040 sugar bags loaded per gang period; 4 sugar bags loaded per sling. Only one vessel can operate at a time. No refined sugar operations performed. No shore crane available. Sugar mill has 5 grates and 3 machines for spreading sugar in hatches.

TANKERS: Molasses pumping rate 25/30,000 g.p.h. Fuel oil pumping rate at average of 1,700 b.p.h.

FUEL: Not available.

FRESH WATER: Supplied by pipe-line at pier. Pipe-line 2 in. in diameter and delivery at an average rate of 15 – 16 t.p.h. Amount that can be delivered depends on supply at sugar mill.

REPAIRS: Sugar mill repair shop for minor repairs. Welder available.

COMMUNICATIONS: Long-distance telephone communication between Manati and Puerto Padre, although difficult owing to fact that there are only two lines from Manati and they are almost always congested. There are some occasions when an entire day is spent trying to obtain communication without result. Victoria de las Tunas telephone operator serves on occasions as "relay".

Vessels cannot communicate by radio with this port.

AUTHORITIES: Port Doctor and Port Captain located at this port. Custom House delegation located here, also Immigration Inspector who attends Gibara, Vita and Puerto Padre. When vessels enter and anchor awaiting for favourable tide to dock, they are cleared by Customs at the anchorage. If vessel arrives on flood tide (which is best tide for berthing) Port Authorities visit vessel when berthed.

When vessels enter at Manati, the Manifest order number is given by Puerto Padre Custom House. Custom House clearance is given by Manati Custom House Delegation of Puerto Padre. Distance from Manati subport to Puerto Padre port is 17 miles by sea. By highway, as journey is made through Victoria de las Tunas, distance about 140 kilometres. From Manati to Victoria de las Tunas, takes 1.5 hours. From Victoria de las Tunas to Puerto Padre, about 1 hour. There is railroad transportation between Manati to Puerto Padre and it takes about the same time. There are 3 daily services between Manati and Victoria de las Tunas by train, and 2 by highway.

AGENT: Empresa Consignatarias Mambisas, Central Manati. Cable: "Mambisas Puerto Padre". Tel. 144–3.

SANTA CRUZ DEL SUR (and sub-ports of Manopla and Guayabal): 20.42 N. 77.59 W.

PILOTAGE: Pilots board vessels close to buoy indicating entrance channel (Cuatro Reales) between "La Ceiba" bank and Carapacho Cay Lighthouse. Distance from place where Pilots board vessels (Cuatro Reales Channel) to Santa Cruz anchorage is 11 miles.

APPROACHES: Entrance channel has depth of 45 ft. Bottom is mud, gravel and loose sand. In the narrowest part of channel is a turn of about 20 degrees.

RESTRICTIONS: Vessels cannot enter/sail at night. Not necessary to wait for slack water for entering/sailing.

ANCHORAGES: No. 1, 24 ft.; No. 2, 26 ft.; No. 3, 36 ft.; No. 4, 40 ft. Sugar-loading operations were perfomed at anchorages. There were 10 barges available which are presently operating at the sub-port of Santa Maria (Jucaro). Similarly, the tugs which were used at this port are at present operating at Jucaro.

MAX. SIZE: Vessels can enter/sail through channel with any draft and length subject official draft of the port which is 35 ft. Tidal variation 1 ft. 5 in.

LOADING: Raw sugar: working periods: Monday to Friday 0600/0800 – 0830/1100 – 1200/1530 hrs.; Saturday 0600/0800 – 0830/1030 hrs.; Sunday: when it has been necessary, work has been performed.

Loading rate: 1,950 bags loaded per gang period. 6 bags loaded per sling. Only 1 vessel can operate at a time. No crane available.

Refined sugar – no operations performed.

Raw sugar in bulk – no sugar in bulk is shipped by this port. Bulk sugar is shipped by the sub-port of Guayabal.

TANKERS: No tankers operate at Santa Cruz del Sur proper.

COMMUNICATIONS: Long-distance telephone communication with Guayabal can be established through San Francisco Sugar Mill. Telegraph can also be used. There is no telephone or telegraph communication beteen Santa Cruz and Manopla.

At Santa Cruz del Sur there are long-distance telephone, Government telegraph and postal service. Vessels can communicate with Santa Cruz by telegraph via Radio Habana.

MEDICAL: No hospital. The nearest hospital where sick crew members can be attended is located at Camaguey, 80 km. from Santa Cruz.

FUEL/WATER/REPAIRS: Not available.

AUTHORITIES: Port Authorities are located at this port. Launch services are used by Port Authorities to clear vessels.

Distance from Santa Cruz del Sur to Manopla: 14 miles; Guayabal: 14 miles. From Santa Cruz to Manopla by sea 1.5 hours; by road 1 hour. To Guayabal by sea 3 hours; by road 2.5 hours.

No daily transportation between Santa Cruz and its sub-ports. Launch or automobile are to be hired for this purpose.

AGENT: Empresa Consignatarias Mambisas, Calle Carretera s/n, PO Box 49, Santa Cruz del Sur, Camaguey. Tel. 11 (night 65 and 26–8). Cables: "Mambisas Santa Cruz del Sur".

(a) **SUB-PORT OF MANOPLA:**

PILOTAGE: After Pilot boards vessel at Cuatro Reales Channel, vessel proceeds to Santa Cruz for clearance, thence takes another Pilot and proceeds to sub-port of Manopla, 14 miles distant from Santa Cruz.

APPROACHES: See Santa Cruz. Entrance channel to sub-port of Manopla – Canal de Media Luna, Canal de los Bayameses, where vessels anchor, is a mile wide, bottom soft mud. No dangerous turns. Vessels of any length can enter and the anchorage depth is 24–40 ft. Official permitted draft 35 ft. Vessels can enter/sail only during daylight. Not necessary to wait for slack water for entering/sailing. Tidal variation 1 ft. 6 in.

LOADING: Anchorage No. 1: 26 ft.; No. 2: 40 ft. Loading sugar operations were performed at above anchorages by means of barges. The following barges and tugboats were available:

Macareno No. 1	– capacity: 329 metric tons, 2870 bags of raw sugar or 75,000 gallons of molasses.
Macareno No. 2	– capacity: 329 metric tons, 2,870 bags of raw sugar or 75,000 gallons of molasses.
Eulalia	– capacity: 269 metric tons, 2,350 bags of raw sugar. Has no tanks.
Miguelito	– capacity: 269 metric tons, 2,340 bags of raw sugar. Has no tanks.
Josefa	– capacity: 269 metric tons, 2,340 bags of raw sugar or 48,000 gallons of molasses.

Tug: *Fox* – length 66 ft., breadth 14 ft., 165 h.p. Tows the fleet of barges utilised at Manopla.

TANKERS: Average pumping rate of molasses 20,000 g.p.h.

COMMUNICATIONS: No long-distance telephone communication. There is telegraph service which works up to 1800 hrs.

FUEL/WATER/REPAIRS: Not available.

AUTHORITIES: See "Santa Cruz".

(b) **SUB-PORT OF GUAYABAL:**

PILOTAGE: After Pilots board vessels at Cuatro Reales Channel, they proceed directly to sub-port of Guayabal, where Customs clearance takes place.

APPROACHES: Dredged channel 2,474 m. in length, 60 m. in width with average depth of 30 ft.

ANCHORAGE: Suitable for vessels with draft up to 40 ft.

MAX. SIZE: Official draft for the port is 35 ft., but Pilots advise max. draft with which vessels may sail from the berth is 32 ft. 9 in. at high water, with max. length 510 ft.

BERTHING: Pier: length 508 ft., depth 32 ft. 9 in. at high water.

STEVEDORES: Sugar loading in bulk. Loading of molasses and alcohol has not been performed for some time. Fuel oil and general cargo discharge.

Sugar in bulk – at pier there is an installation operated by electric motor control which moves a convex-shaped conveyor and transports the bulk sugar from warehouse to the vessel. 2 thrower machines, 600 and 400 t.p.h. respectively. Average loading rate about 250 t.p.h. although occasionally average of 400 tons has been obtained. There is some time lost on account of shifting the crane. Occasionally shovellers are required, and work continues 24 hours a day.

General cargo – it is not customary to receive general cargo at this sub-port, although on occasion bales of empty jute bags have been received, destined to neighbouring sugar mills. At present there are no facilities for discharge of general cargo, and no shore cranes available.

TANKERS: Shipment of molasses and alcohol has been discontinued for some time. Vessels discharging fuel oil may berth with max. draft of 27 ft. without touching bottom, which is of soft mud.

COMMUNICATIONS: Communications between Guayabal and Santa Cruz are poor. It is necessary to travel to Sugar Mill San Francisco (about 20 km. from the pier) in order to communicate by telephone with Santa Cruz.

Masters must send messages giving ETA addressed to Mambisas Santa Cruz del Sur.

FUEL/REPAIRS: Not available.

FRESH WATER: Supplied at pier by pipe-line at average rate of delivery 10 t.p.h.

AUTHORITIES: Port Captain and Immigration's Delegations at Guayabal. Custom's delegate travels from Santa Cruz to Guayabal to conduct clearance. Distance 24 miles (by sea) from Guayabal to Santa Cruz. By road 60 km. Time 3 hours by sea and 2 hours by road.

AGENT: Vessels operating at Guayabal are attended by Santa Cruz del Sur agency personnel.

SANTIAGO DE CUBA: 19.50 N. 75.52 W.

PILOTAGE: Pilots board vessels 1 mile from mouth of port. Pilot station located in small Cay at entrance of bay known as Gramma Cay (formerly Smith Cay). Launch service is only means of communication available between Santiago de Cuba and Gramma

Cay. Pilots also have office located at Custom House building with telephone communication. Distance from place where Pilots board vessels to: Piers 4 miles; Anchorage 3.5 miles; Refinery Pier 1.5 miles.

APPROACHES: The entrance, up to a distance of 0.5 mile, has a rock bottom. Thereafter, for a distance of 1 mile muddy bottom, and remaining 2.5 miles is soft mud. There are some turns, and the channel and entrance to the port are narrow.

RESTRICTIONS: Vessels can enter and sail only during daylight from 0600 to 1800 hrs.

ANCHORAGES: Inner anchorages located in the area from North of "Ratones Cay" up to West of buoy No. 20. Can accommodate vessels drawing up to 30 ft. and a length up to 680 ft.

MAX. SIZE: Vessels with a length of 680 ft. and a draft of 35 ft. can enter up to the refinery, provided they arrive during early morning hours. Tidal variation 1 ft. 6 in.

TUGS: Tugs are used for deep-drafted vessels and otherwise as situation demands. Following tugs are available:

Toledo	length 5.18 m.; h.p. 165; speed 9 knots
Santa Barbara	length 60 ft.; h.p. 165; speed 8 knots
Caridad	length 45 ft.; h.p. 110; speed 7 knots

BERTHING: Dock No. 1 "Luis Felipe Mena Gil" (formerly Malecon). Length 400 ft., depth 25 ft. at centre, 22 ft. at West end, and 22 ft. fore and 24 ft. aft at East end. Dock used for sugar loading and discharge of mineral, heavy lifts and volume cargo. It has 2 railroad tracks of standard gauge. (Notwithstanding above depth, vessels drawing up to 28 ft./28 ft. 6 in. sail from this dock.)

Ferrocarril Pier – length 240 ft., depth 23 ft. Vessels moor to dolphins. Distance between end dolphins is 400 ft. Used only for molasses loading. There is a pipe-line installation.

Pier No. 2 – "Miguel Santiesteban Reyes" (formerly Muelle de Luz) Wooden pier, length 500 ft., depth (North side) 22 ft. 06 in. shore end; 23 ft. 06 in. sea end. (South side) 20 ft. 06 in. shore end; 22 ft. 6 in. sea end. Used for general cargo discharge. Trucks and trailers operate at this pier.

Pier No. 3 – "Rolando Roca Pacheco" (formerly La Maritima). Concrete pier, length 650 ft., depth (North side) 22 ft. shore end; 4 ft. sea end. (South side) 24 ft. shore end; 25 ft. sea end. Used for discharge of general cargo. Trucks and trailers operate at this dock.

La Molinera Oriental Pier (present name: "Frank Pais"). Depth 21 ft. fore; 22 ft. 06 in. aft.

Vessels do not berth directly on to this pier, but are secured to dolphins at narrow side of the pier. Used for bulk wheat discharge. Capacity of silos 8,200 tons. Conveyor and pipe-line are available.

Cement Factory Pier – length 290 ft., depth 17 ft. Used for cement loading. Trucks can be used.

Refineria Hnos. Diaz Pier – length 789 ft., depth 40 ft. both sides. depth 45 ft. at head of pier. Used for discharge and loading fuel. Also used for bunkering. Pipe-line installation.

Muelle Romero Dock – length 492 ft., depth (East side) 14 ft. fwd., 19 ft. aft (West side) 19 ft. 06 in. fwd., 22 ft. aft.

Above depths taken at low water.

STEVEDORES: Working periods: Monday to Friday 0700/1300 – 1300/1900 hrs.; Saturday the same; Sunday worked only if vessel completing cargo.

Raw Sugar: Loading rate about 1,200 bags loaded per gang period; 6 bags loaded per sling. 2 vessels can load sugar simultaneously.

General Cargo – approximate discharging rates:

General cargo	7–8 tons per gang hour
Bagged cargo	15 tons per gang hour
Iron	7 tons per gang hour
Wood	3 standards
Fertilisers	15 tons per gang hour

Shore Crane – there is movable crane with boom of 75 ft. length and lifting capacity about 19 tons.

Bulk sugar – 5 thrower machines available.

TANKERS: Average pumping rate: Molasses 30,000 g.p.h. Fuel oil 13,000 b.p.h.

COMMUNICATIONS: Radio telegrams, radiotelephony, telegraph and telephones. R.C.A., Inalambrica. All-American, Prewi, radio and Government telegraph. Also air, railroad and bus services.

Vessels can communicate with Santiago de Cuba through CLM and RCA.

MEDICAL: Sick crew members can be attended at Army Hospital or Los Angeles Hospital.

FUEL: Fuel oil and diesel oil available. Delivery rate about 7,000 b.p.h.

FRESH WATER: Can be supplied docked/anchored.

REPAIRS: Following repair shops: Joaquin Lamas, Giron.

AUTHORITIES: Located at Custom House building.

AGENT: Empresa Consignatarias Mambisas, PO Box 522, Jose Antonio Saco 10, Santiago de Cuba. Tel. 2891/7489 (night: 6874). Cables: "Mambisas Santiago de Cuba."

TANAMO: 20.44 N. 75.20 W.

PILOT: Pilot boards about 1 mile from entrance. Pilot station located at entrance of port mouth. Usual means of communication is by launch. Distance from place where Pilots board vessels to: Punta Gorda Dock: 5 miles; Cayo Mambi Dock: 7 miles.

APPROACHES: Entrance channel has rocky and muddy bottom. There are 90° turns, and narrow passes.

RESTRICTIONS: Entry and sailing at slack water and daylight only. Tug assistance required for vessels between 450 and 600 ft. length.

MAX. SIZE: If berthing, draft 22 ft., length 450 ft. If anchoring, draft 28 ft.

BERTHING: Punta Gorda Dock: length 345 ft., depth East side 22 ft., West side 19 ft. Dock used for loading sugar and molasses; also for fuel oil discharge or heavy cargo.

Cayo Mambi Dock: length 200 ft., depth 14 ft. Dock used in discharge of coastwise merchandise.

Docks have railroad tracks of non-standard gauge. Punta Gorda Dock has 4 inlet tracks only. Cayo Mambi has 2 tracks.

STEVEDORES: Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.; Sunday no work performed.

Raw sugar: 975 sugar bags loaded per gang period. 6 sugar bags loaded per sling.

Refined sugar: 1,875 bags of 100 lb., loaded per gang period. 12 bags of 100-lb. type loaded per sling.

General Cargo: Working periods same as for sugar.

TANKERS: Molasses average pumping rate: 20,000 g.p.h. Fuel oil average pumping rate: 11,750 b.p.h.

COMMUNICATIONS: Long-distance telephone communication at sugar mill. Radio service Inalambrica and Government telegraph. Interior telephone communication between sugar mill yard and port.

Air service at Cayo Mambi. Vessels can communicate with Cayo Mambi by Government telegraph.

FRESH WATER: Can be supplied at Punta Gorda, delivery by pipe-line at rate of 5 t.p.h.

FUEL/REPAIRS: Not available.

MEDICAL: There is a hospital where sick crew members can receive attention in urgent cases. For serious cases, sick men are sent to Nicaro Hospital or to Santiago de Cuba.

AUTHORITIES: Port Doctor and Immigration Inspectors located at Sagua de Tanamo. Captain of Port and Custom House located at Cayo Mambi. Custom House and Captain of Port are Delegations of Antilla.

Entry and sailing clearances attended by Cayo Mambi Delegation Office. Port Authorities travel from Cayo Mambi to Punta Gorda by railroad, thereafter by launch to the anchorage.

SUB-AGENT: Empresa de la Industria Azucarera de Oriente, Central Frank Pais (Tanamo), Cayo Mambi, Oriente, Cables: "Franpa Cayo Mambi". Tel. 2 (night: Zona 2). Central Switchboard.

VITA (sub-port of Gibara – Oriente Province): 21.05 N. 75.57 W.

PILOTAGE: Pilots board vessels 3 miles from entrance channel. Pilot station located at Vita. Interior telephone communication. Distance from place where Pilots board vessels to dock: 5 miles.

APPROACHES: Owing to narrowness of channel, turns may be considered as dangerous for vessels over 450 ft. length.

RESTRICTIONS: Entry and sailing only during daylight.

MAX. SIZE: Max. draft with which vessels can enter/sail is 27 ft. at high tide and 26 ft. at low tide. Max. length 500 ft. (although vessels with length of 550 ft. have entered this port).

BERTHING: Dock: length 300 ft., depth 26 ft. Vessels drawing 26 ft. 06 in. or 27 ft., touch bottom. Loading of sugar and molasses and discharge of fuel. Only one railroad track of non-standard gauge.

STEVEDORES: Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

800–1,100 sugar bags loaded per gang period. Four sugar bags are loaded per sling.

TANKERS: Average pumping rate (molasses) 25,000 g.p.h.

COMMUNICATIONS: Long-distance telephone, post and telegraph services.

MEDICAL: No hospital at Vita. Sick crew members can receive attention at Gibara Hospital. Port Doctor at Santa Lucia, Oriente.

FUEL/REPAIRS: Not available.

FRESH WATER: Can only be supplied in exceptional cases. Delivery by 2-in. diameter pipe, by gravity. Delivery average 3 t.p.h. Recommended that Masters always check availability in advance.

AUTHORITIES: Immigration at Chaparra, who travels to Vita on ship's arrival advice. Captain of Port at sub-port of Vita. Gibara is the Customs Official Port having Custom Delegation at sub-port of Vita. Vessels can proceed directly to Vita where they are cleared by Authorities.

SUB-AGENT: Empresa de la Industria Azucarera de Oriente, Central Rafael Freyre (antes Santa Lucia), Oriente. Cables: "Rafy Santa Lucia Oriente." Tel. Dock 43–3. Centre 37–1. Home 28.

Cyprus

DHEKELIA: 35.58 N. 33.44 E.

Sovereign Base Area

DOCUMENTS:
3 Crew Lists.
4 Passenger Lists.
1 Arrival Declaration.
1 Crew Declaration.
1 Store List (for cigarettes, spirits, etc.).
2 Manifests (Customs forms).

PILOTAGE: Not compulsory but strongly recommended. The tanker berth is situated in open roadstead. Pilot available through Harbour Master at Lornaea.

MAX. SIZE: Tankers up to 560 ft. length with max. draft 30 ft.

HEALTH: Pratique granted by Health Authorities after boarding on arrival. No pratique necessary when vessel arrives from another port in Cyprus.

RADIO: Messages through Cyprus Radio, call sign 5BA.

TUGS: None available and not required.

BERTHING: One conventional buoy mooring for tanker discharging fuel oil to Dhekelia Power Station. Depth of water 10.7 m.

MEDICAL: Necessary for Agent to receive advance notice of medical attention required. Hospital facilities available.

DENSITY: 1025.

FRESH WATER: Not available.

FUEL: Not available.

CUSTOMS ALLOWANCES: See "Limassol".

IDENTIFICATION CARDS: When on shore leave, seamen's books required.

TIME: GMT plus 2 hours. No changes during the year.

FAMAGUSTA: 35.07 N. 33.57 E.

The port has been declared as closed by the Authorities of the Republic of Cyprus until further notice.

DOCUMENTS:
1 Arrival Declaration form.
1 Merchant Ship Voyage Report (for Port Marine Police).
1 Maritime Declaration of Health (International Form Med. 20).
1 Declaration of all articles obtained outside Cyprus or during voyage by Master, Officers and Crew (wines and spirits, tobacco, cigarettes, cigars, perfumery, jewellery, cameras, watches, arms and ammunition, etc. – Form C.121).
5 Crew Lists.
5 Passengers' Lists (landing and in transit).
1 List of Ship's Stores.
1 Dangerous Cargo List.

PILOTAGE: Masters to cable ETA 24 hours before arrival to Agent who will arrange berthing and piloting-in. Radio ETA message to Harbour Master not necessary except at times of congestion, when Agent will advise Master to do so for purposes of registering turn.

In normal weather conditions Pilot boards vessel at Turning-buoy or at anchorage. In bad weather conditions, Pilot will advise Master to proceed entrance of Outer Harbour, where Pilot will board. Communications between pilot station and vessels approaching port or anchored at roadstead by VHF Channel 16.

Pilot boat: open motor launches (about 150 h.p.), light grey colour, flying pilot's flag. Light or sound signals for Pilot requirements: International signals apply.

ANCHORAGES: Vessels not berthing on arrival, to anchor at roadstead; a recommended position is 281° – 1.4 miles from F. White and Red Reef Lighthouse. In case of very bad weather a safe anchorage to be sought further North, near Boghaz Area.

RESTRICTIONS: Passenger vessels (vessels built to carry more than 12 passengers) allowed to enter port up to 2300 hrs., provided such vessels will be at Turning-buoy by that time and also if berth space is available.

Cargo vessels allowed to berth latest up to 2000 hrs. provided berth space available and that vessel will immediately operate with at least two gangs.

No tide restrictions, but for vessels entering Inner Basin max. draft 22 ft., and for Outer Basin max. draft 30 ft.

MAX. SIZE: Vessels berthing in Inner Harbour 6.7 m. draft and 131 m. LOA. Vessels berthing in Outer Harbour 9.15 m. draft and 220 m. LOA.

HEALTH: For passenger vessels, with surgeon on board, Master to cable to "Quarantine Department Famagusta", advising that all on board are in good health. For cargo vessels, pratique will be arranged soon after vessel has berthed. If vessel called at Cyprus port prior to Famagusta, pratique will be automatic.

In case of suspected disease or fever on board, the Health Authorities will take the necessary precautions and issue instructions according to the prevailing circumstances.

RADIO/VHF: Cyprus Radio – 5BA. Vessels can also call Harbour Master Famagusta on VHF, Channel 16. Tugs on VHF Channels 14 and 16.

TUGS: Tugs join vessel at entrance of Outer Basin, and ship's lines are used. Use of tugs is at discretion of Pilot. No charges made for the use of tugs, which are Government property.

BERTHING: According to rotation of arrival. If port is congested, vessels at anchorage should fly respective numerical flag denoting their number according to rotation of arrival.

Inner Harbour: Length of Quay, 540 m. Depth alongside, 7.3 m. One pier, length 99 m., depth alongside 5.2 m.

Outer Harbour: Length of Quay, 655 m., depth alongside 9.75 m.

STEVEDORES: For week-day work, gangs to be ordered by 1530 hrs. previous day. For Sunday work, gangs to be ordered by 1130 hrs. Saturday. For week-day work, it is also possible to apply for gangs in the morning or during the day subject to gangs available. Average rate of discharge on piece-work: general cargo 10–15 tons, bagged cargo 15–20 tons per hour/gang.

MEDICAL: Advisable for Master to include in ETA message to Agent if any medical attention required; hospital and private clinics facilities available. Smallpox vaccination necessary; other inoculations or vaccinations according to prevailing circumstances.

DENSITY/TIDE: Mediterranean salt sea water. Difference of 1–2 ft. between low and high water.

FRESH WATER: Water hydrants installed alongside quay, both in Inner and Outer Basins and delivery through hoses; rate of delivery 10–15 metric tons per hydrant per hour.

Note: Certain limitations to quantities deliverable can be possible during Summer months (June-August) owing to general shortage of water.

FUEL: No bunkering facilities alongside quay or in the port elsewhere. Limited fuel deliveries to vessels alongside quay can be made by lorry-tankers of 8–10 tons each. (Example of fuel available 530 seconds Redwood No. 1 at 100 degrees Fahrenheit.)

GANGWAY DECK WATCHMEN: Not obligatory, but available and most Masters engage watchmen.

OPENING/CLOSING HATCHES: Carried out by crew; stevedores on board are sometimes willing to help but they are not obliged to do so.

CUSTOMS ALLOWANCES: See "Limassol".

CARGO GEAR: Mostly supplied by shore stevedores or other contractors on hire, and it is expected to be tested and safe. Any gear supplied by the vessel must be certified tested and suitable for purpose used. Floating crane, lifting capacity 60 tons available.

IDENTIFICATION CARDS: Passports are accepted by the Police and Immigration Authorities. Identification cards, however, are advisable as crew members on shore leave must carry either their passport or identity card and the loss of the former, whilst ashore, may involve complications.

CONSULS:

Finland	Netherlands
France	Norway
Italy	Sweden
Japan	Thailand

REPAIRS: Minor repairs for deck and engine can be carried out at local workshop. Cement boxes and plating both above and underwater can be carried out.

DRY DOCKS: No dry docks. Two slipways operate at South end of port and can take vessels of up to 400 tons weight.

AIRPORT: Nicosia International Airport 40 miles from Famagusta (1 hour's drive). Daily flights to European/U.K. and Middle East destinations.

TIME: GMT plus 2 hours. Permanent.

HOLIDAYS: Recurrent official Customs and port holidays:
(a) First week-day of January;
(b) Epiphany Day (Greek Orthodox) 6th January;
(c) Good Friday (Greek Orthodox);
(d) Saturday before Easter (Greek Orthodox);
(e) Easter Monday (Greek Orthodox);
(f) Christmas Day, or if that day be a Sunday, the following day;
(g) 26th December, or if that day be a Sunday, the following day, unless Chrstmas Day falls on a Sunday, in which case the Tuesday following Christmas Day;
(h) First day of Ramazan Bairam, or if that day be a Sunday, then the following day, unless the day in *(i)* hereinafter has occurred first and has fallen on a Sunday, in the same year;
(i) First day of Qurban Bairam, or if that day be a Sunday, then the following day, unless the day in *(h)* above has occurred first and has fallen on a Sunday, in the same year;
(j) Birthday of the Prophet;
(k) 25th day of March (Greek Independence Day);
(l) First day of May;
(m) 28th day of October (OXI DAY – Greek);
(n) 29th day of October (Turkish Independence Day);
and any other day appointed by Council of Ministers as a day on which Customs Houses shall be closed for business.

All ports closed for work on New Year's Day and on 1st May. Members of Greek Trade Unions have option to abstain from work on 25th March, Easter Sunday, Easter Monday, 28th October and Christmas Day. It has also been noted that on 1st April (EOKA DAY) no work is done. Members of Turkish Trade Unions have option to abstain from work on Ramazan Bairam, Qurban Bairam, Birthday of the Prophet, 19th May and 29th October. However members of each community may work during any holidays but if they do so they are paid holiday wages.

POLICE/AMBULANCE/FIRE: Port Marine Police Tel. 63239; Police Headquarters 62016; Fire and Ambulance 999.

TELEPHONES: Lines available for placing telephones on board.

GENERAL: Cyprus flag to be hoisted on mast from 0800 hrs. to sunset. Landing of dogs or other animals not allowed; also landing of fruits, vegetables and eggs unless authorised by Produce Inspection Office. Disposal of garbage and waste strictly prohibited both in port and Cyprus waters. Agents can arrange removal of garbage by contractor or municipality.

SERVICES: Compass adjusting; radar repairs; scraping and painting ship's sides.

SHORE LEAVE: All crew members allowed ashore after free pratique granted. Each crew member to carry passport or Identity Card.
REGULATIONS: Authority is required from Harbour Master: for immobilising engine for cleaning or repairs whilst vessel alongside quay; for lowering lifeboats; for using ship's radio; for sailing (a Port and Customs clearance is required).
Ships berth by rotation according to time of arrival. However, port regulation exists that passenger and cruising vessels as well as ferryboats can berth (max. 2 berths) on priority.
DELAYS: Delays in berthing are very seldom. Slight congestion of 1–2 days, however, is sometimes observed in month of May when it is peak export season for spring-crop potatoes and carrots.

LARNACA: 34.55 N. 33.39 E.

DOCUMENTS:
3 Crew Lists.
4 Passenger Lists.
1 Arrival Declaration.
1 Crew Declaration.
3 Stores Lists (cigarettes, spirits etc.).
2 Manifests (Customs forms).
1 General Declaration.
PILOTAGE: Not compulsory but strongly recommended. Government Pilot boards vessel outside Fairway light buoy (fl. W. ev. 2 secs.). Master to give Agent 24 hour's notice of ETA and Agent informs Port Authority accordingly. Pilot boat light grey colour flying Pilot flag. Pilot may be contacted on VHF Channel 16 during working hours. Pilot's telegraphic address: "Port Superintendent Larnaca, Cyprus".
MAX. SIZE: For port berthing normally 500 ft. length, but larger vessels may receive berthing permission subject special permission being obtained from Harbour Master in consideration of vessel's manoeuvrability and prevailing weather conditions.
New port is dredged to 31 ft. (9.5 m.). Height of quay above sea level 2 m. 30 cm. Two cargo sheds 100 m.×30 m. Max. size at new port, length 150 m., draft 9 m.
Tankers discharge outside port at mooring buoys, draft up to 32 ft. Max. LOA 600 ft.
ANCHORAGE: Open roadstead.
HEALTH: Smallpox vaccination necessary; other inoculations or vaccinations according to prevailing circumstances. Pratique required only at first port. Government Health Services board vessel soon after berthing to grant Pratique. Also see "Limassol".
RADIO: Harbour Master Larnaca on VHF Channel 16.
TUGS: Two Government tugs 750 h.p. and 600 h.p. join vessel outside breakwater using ship's lines.
BERTHING: Vessels may berth inside port between 0600 hrs. and sunset, but may unberth and sail until midnight. Cargo vessels allowed to berth during night-time provided berth space available and that vessel will immediately operate with at least one gang.
Quay length in port is 1,060 ft. (326 m.).
Tankers moored during daylight hours only.
CRANES: Three mobile cranes lifting capacities 15 tons each, one 5 tons and one 2 tons.
STEVEDORES: Gangs arranged by Agent before arrival.
MEDICAL: Necessary for Agent to receive advance notice of at least 2–3 hours before arrival. Hospital facilities always available.
TANKERS: Diameter of discharge lines up to 12 in. Max. draft 32 ft. Discharging takes place at buoys outside port.
Buoy berths outside port:
Synergas Co-Operative Society Ltd: Depth of water, 11.0 m. Pipe-lines, two. Fresh water not available. Pilot available through Harbour Master at Larnaca Position of buoys, 34° 55.5′ N., 33° 40′ E.
Petrolina Ltd: Depth of water at end of pipe-line, 11.0 m. Pipe-lines, three. Fresh water available by pipe-line. Pilot available through Harbour Master at Larnaca. Position of buoys, 34° 55′ N., 33° 39′ E.
Shell Company of Cyprus Ltd: Depth of water, 11.0 m. Pipe-lines, One 8 in. white oil line jointly owned by Shell, Mobil & Esso. Fresh water available by pipe-line. Pilot available through Harbour Master at Larnaca. Position of buoys, 34° 54.75′ N., 33° 39′ E.
Agip: Depth of water, 6 m. (approx). Pipe-lines, two. Fresh water not available. Pilot available through Harbour Master at Larnaca. Position of buoys, 34° 55.5′ N., 33° 39.5′ E.
Cyprus Petroleum Refinery Larnaca: Depth of water, 11.0 m. Pipe-lines, one of 12 in. for crude oil and one of 8 in. for ballast. Fresh water available by pipe-line. Pilots available through Harbour Master at Larnaca. Position of buoys, 34° 54.75′ N., 33° 39′ E.
Mobile Oil Cyprus Ltd: Depth of water, 11.0 m.
Pipe-lines: 1×8 in., Jointly owned by Mobile, Shell & Esso.
1×4 in., LPG Line owned by Esso.
1×4 in., Vapour line owned by Esso.
1×3 in., LPG Line owned by Mobil.
1×3 in., Vapour line owned by Mobil.
1×2 in., Fresh water underwater pipe-line.
Pilot available through Harbour Master at Larnaca. Position of buoys, 34° 54.75′ N., 33° 39′ E.
DENSITY: 1025.
TIDE: Up to 1.5 ft. rise of tide.
FRESH WATER: Available. Delivery by hoses at main quay at about 50 t.p.h. Suppliers, Larnaca Water Board.
FUEL: 12 hour's advance notice required. Available in unlimited quantities.
CUSTOMS ALLOWANCES: See "Limassol".
HATCHES: Opened and closed by crew.
IDENTIFICATION CARDS: When on shore leave, seamen's book is required.
CONSULS:

Italy	Portugal
Sweden	Finland
Denmark	

REPAIRS: Minor repairs and overhauls may be carried out.
REPATRIATION: Facilities available.
AIRPORT: For the present Larnaca International Airport 3 miles from Larnaca Port daily flights to Europe and Middle East.
TIME: GMT plus 2 hours. Permanent.
HOLIDAYS: Cargo work can be arranged on Custom Holidays on payment of overtime with exception of New Year's Day, Christmas Day and Easter Sunday. For public holidays see "Famagusta".
TELEPHONES: Lines available for placing telephones on board.
Police Headquarters 2001; Hospital 2007.
SERVICES: Compass adjusting, radar repairs, hull scraping and painting.
REGULATIONS: Harbour Master's authority required for: immobilising engine, cleaning or repairs whilst vessel alongside quay, lowering lifeboats and use of ship's radio.
Port and Customs clearance required for sailing.
Cyprus flag to be hoisted on mast from 0800 hrs. to sunset. Landing of dogs or other animals not allowed; also landing of fruits, vegetables and eggs unless authorised by Produce Inspection Office. Disposal of garbage and waste strictly prohibited both in port and Cyprus waters.

LATCHI (Limni Mines): 35.03 N. 32.27 E.

DOCUMENTS: See "Limassol".
PILOTAGE: No Pilot available. Vessels chartered for Company advise ETA via Cyprus Radio to "Limni Poliscyprus". Anchorage 0.5 mile North of Mavroli Pier. During daylight hours Company launch leads vessels to anchorage.
ANCHORAGE: As above, depth 0.5 mile from pier is 10 fathoms.
MAX. SIZE: No restrictions on size.
HEALTH: All necessary action to obtain pratique made by Agent in the event of any suspected disease on board, necessary action and precautions taken by Health Authorities.
RADIO: Cyprus Radio – call sign BA on 500 or radio telephone No. 2182.
TUGS: None available.
BERTHING: Mavroli Pier in Khrysokhou Bay, Cyprus, in position 35° 03′ 15″ N. 32° 27′ 10″ E. bearing 072° approximately 3.2 miles from Latchi. Necessary to have Cyprus flag, and to have gangway and not a rope ladder for Authorities and stevedores to board.
STEVEDORES: ETA advice required order arrange gangs at least 24 hours. Loading rate 2,000 tons per day. Loading from 6 barges, average capacity 45 tons each.
MEDICAL: Agent to receive 24 hours notice. Hospital facilities available at Ktima, 24 miles from Latchi Port. Each member of crew to possess valid vaccination certificate.
DENSITY: 1025.
FRESH WATER: None available.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Unnecessary.
OPENING/CLOSING HATCHES: Done by the crew.
CUSTOMS ALLOWANCES: See "Limassol".
IDENTIFICATION CARDS: Required.
CONSULS: No consuls at port.
REPAIRS: No repairs can be carried out.
REPATRIATION: Can be arranged through Nicosia Airport.
AIRPORT: Nicosia Airport 68 miles away, served by regular airlines.
TIME: GMT plus 2 hours. Permanent.
HOLIDAYS: See "Limassol".
POLICE/AMBULANCE/FIRE: Such services arranged through Agent.
TELEPHONES: No arrangements exist for placing on board.
SHORE LEAVE: Landing permits obtainable from local Police Authorities by lodging passports or seamen's books.

LIMASSOL: 34.40 N. 33.03 E.

PORT LIMITS: The territorial waters of Cyprus contained within a line drawn 135° to the high seas from the Roman Catholic cemetery, situated 16.5 cables N.E. of Limassol fixed red light, and a line drawn 135° to the high seas from the centre of Zakaki village.
DOCUMENTS:
Ports Department:
1 Arrival Declaration (given to Master by Boarding Officer).
1 Crew List.
1 Passenger List and 1 transit passenger list (the latter in case of passenger vessels).

1 Crew List.
1 Passenger List.
1 Transit List.
1 Fire Arms Declaration.
1 Stores Declaration.
1 Declaration signed by each member of crew stating dutiable goods in their possession.
1 Authority by Master for appointment of Agent.
Police Department:
1 Crew List.
1 Passenger List.
1 Transit Passenger List.
Health Department:
1 Maritime Declaration of Health.
1 Crew List.
1 Passenger List.
1 Transit Passenger List.

PILOTAGE: Services of Pilot requested by Agent representing vessel. Ships piloted only during daylight, usual "G" flag hoisted.
ANCHORAGE: No specific boundary but ships usually anchor about 0.5 mile South-Eastwards of lighter basin entrance where depth 8 fathoms.
RESTRICTIONS: Vessels allowed to enter port only during daylight hours starting at 0600 hrs. In some cases vessels are allowed to berth after sunset.
MAX. SIZE: Max. permissible length for vessels entering harbour is 265 ft. draft 15 ft. No limit for vessels remaining at roadstead.
BREAKWATER PORT: Depth alongside 11 m., max. draft 10.5 m. No limit on length.
HEALTH: Pratique granted by Health Authorities after boarding at anchorage. Automatic pratique only granted to vessels having a doctor on board, certifying that everybody well. A telegram to this effect must be sent 24 hours before vessel's arrival, to "District Medical Officer, Limassol". No pratique necessary when vessel arrives from another port in Cyprus.
RADIO: Cables sent through "Cyprus Radio", call sign: 5BA.
RADAR/VHF: No port radar service. Office of Harbour Master equipped with VHF radiotelephone operating on Channels 16 and 14 during office hours only.
TUGS: Two tugs, 1,320 h.p. each.
BERTHING: *Breakwater Port:* Consists of two quay walls each 400 m. in length.

Warehouses with a floor area of 22,000 sq. m. can be used for storage of goods.

Berths can be used for exports such as citrus, grapes, wines, cement, carobs, general cargo, etc.

Imports of homogeneous cargoes, i.e. grain, iron, steel pipes, etc., of general cargoes and of cargoes for direct delivery which do not require storage within the port, i.e. fertilizers, frozen meat, sugar, etc.
CRANES: Floating crane with capacity of 80 tons at 17 m., 60 tons at 22 m. and 15 tons at 30 m.
STEVEDORES: 24 hours notice to vessel's Agent of ETA enable arrange gangs.
MEDICAL: Unless very urgent case on board no need for advance notice to District Medical Officer. Any other case dealt with by doctor coming on board for pratique purposes, and Agent. Hospital and private clinic facilities available. Usual International vaccination certificates required for each member of crew.
TANKERS: No tankers berthed in Limassol, but at private berths away from port and for discharging only. No slop discharge facilities.
FRESH WATER: For ship entering port fresh water facilities on quay.
FUEL: Diesel oil and furnace oil available for ships entering port. Brought alongside by tanker lorries from Larnaca.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: By stevedores.
CUSTOMS ALLOWANCES: 50 grams tobacco or 40 cigarettes, and 0.25 litres spirits, 0.25 litres wines, per man per day.

For reasons of administrative convenience, issues of high-duty goods for use by crew on board will be made every three days, beginning with the first day of the ship's arrival in Cyprus waters. For each member of the crew (other than the Master, the Chief Officer and the Chief Steward) each issue will consist of: 120 cigarettes or an equivalent quantity of other tobacco goods, 1 bottle of spirits, 3 bottles of wine.

Each issue for the Master, the Chief Officer and the Chief Steward of ocean-going vessels will consist of: 200 cigarettes, 2 bottles of spirits and reasonable quantity of wine they may request.

Concessions to crew landing from ship: On coming ashore, for a short period, 50 grams of tobacco, or 40 cigarettes per day or part thereof.

The above allowances are in force for all Cyprus ports.
CARGO GEAR: Must comply with existing International Safety Regulations.
IDENTIFICATION CARDS: Seaman's Book or Passport needed for seamen going ashore.
CONSULS: Belgium, Holland, Italy, France.
REPAIRS: Only minor repairs can be carried out.
REPATRIATION: Facilities for effecting crew changes and arranging any necessary repatriations. Usually arranged with Agent.
AIRPORT: Larnaca international Airport, served by regular lines, situated 43 miles from Limassol.
TIME: GMT plus 2 hours. Permanent.
HOLIDAYS: Every Sunday; 1st January; 6th January; 25th March; 1st May; 28th October; 29th October; Good Friday; Saturday following Good Friday; Easter Monday; First Day of Kurban Bairam; Birthday of Prophet; First Day of Ramazan Bairam; Christmas Day; Boxing Day.
POLICE/AMBULANCE/FIRE: Police 63171; Ambulance 63111; Fire Brigade 71939 or 999.
TELEPHONES: Available on request, for placing on board.
SERVICES: Compass adjusting, servicing of radar, R/T, echo-sounders.
SHORE LEAVE: Allowed.

MONI: 34.42 N. 33.11 E.

PILOTAGE: Government Pilots available from Limassol.
RADIO: Communication between ship and shore by Walkie-Talkie after berthing.
BERTHING: *Electricity Authority of Cyprus:* Buoy berth for oil. Min. depth of water 18.29 m. One pipe-line. Position of buoys 34° 41′ 50″ N., 33° 10′ 36″ E.
Cyprus Cement Factory: Depth of water 9.75 m. One pipe-line. Position of buoys, 34° 41′ 52″ N., 33° 10′ 50″ E.
FRESH WATER: By barge from Limassol, rate 10 t.p.h.

MORPHOU BAY

GENERAL SITUATION: Morphou Bay situated on N.W. coast of Cyprus. Bay is well situated geographically, as owing to high hills all round here is shelter from all winds except those between N.W. and N.N.E. Loading records for many years past show that, whilst wind fairly frequent from N.W., winds of storm force practically unknown. Tides and currents are negligible.

1. Xeros Pier – Karavostassi, operated by Cyprus Mines Corporation, and,
2. Another loading installation at Karavostassi operated by Hellenic Mining Company.

1. Xeros Pier – 35° 08′ 16″ N. 32° 49′ 14″ E.
ORE LOADING: Ships moored in open roads; loading and discharging effected by lighters towed by tug to and from Jetty. Loading effected by grabs, each weighing about 10 cwt. and carrying about 20 cwt. of ore. Ship's winches must therefore be capable of lifting at least 40 cwts. Loading operations normally carried out 17 hours per day. Average loading rate is 1,800 to 2,000 tons per loading day of 17 hours. Ships load in turn and normally only one ship loaded at a time.

Inward cargoes only handled by special arrangement.
JETTY LIGHT: Corporation's Jetty 400 ft. long. A red light (electric) flashing every 3 seconds (duration of flash 0.2″; eclipse 2.8″) is on shore end of Jetty (Lat. 35° 8′ N. Long. 32° 51′ E.). Jetty berth not available to ocean-going vessels, depth being only 11 ft. Jetty equipped with electric crane with maximum lifting capacity 5 tons.
MOORINGS: Vessels ride to own anchors and depend on them for safety and security, using Corporation buoy as stern mooring to assist in loading. Buoy is in about 7 fathoms and located about 1,500 ft. from end of Jetty. Holding ground in anchorage is of tenacious sand and clay sloping away from shore.
DOCUMENTS:
5 Crew Lists.
5 Passenger Lists.
Vaccination Certificates.
Declaration of Health.
1 Crew Declaration (tobacco, Liquor, Souvenirs, etc.).
1 Arms and Ammunition Declaration.
2 Stores Lists.
1 Specification for Agency.
1 Notice of Readiness.
Produce ship's Registration Certificate.
1 Bill of Lading.
1 Cargo Manifest (if carrying cargo).

PILOTAGE: Not required for vessels dropping anchor in roads. A non-qualified but well-experienced Pilot will assist Master in tying vessel to mooring buoy for loading.
ANCHORAGE: Anywhere one mile offshore between Vouni Palace and Pendayia Hospital.
RESTRICTIONS: None, but advance notice should be given by cable.
MAX. SIZE: For vessels loading at CMC mooring, max. laden draft 32 ft. For tankers discharging oil the max. draft on arrival should be 25 ft.
HEALTH: If arrival in daylight and advance notice has been given by cable, then pratique normally given on arrival – subject weather conditions. If arrival after dark, pratique given early following morning. Suspicion of disease on board should be notified by cable before arrival, or at least to Medical Officer when he boards for pratique. Vessels in free pratique from another port in Cyprus do not require further pratique providing travelled to Karavostassi coast-wise.
RADIO: ETA cable to "Pyrites Lefka Cyprus", and sent through Cyprus Radio.
TUGS: Not required. Ship's lines used for stern-tying to mooring buoy for loading.
STEVEDORES: Arranged by Shippers, who also Agents (Cyprus Mines Corporation).
MEDICAL: Advance notice of required medical attention not necessary unless doctor required to board ship. Company Hospital facilities available. Vaccination certificates required.
TANKERS: Discharging only, into 8 in. line. Connection made by

Receivers. No slop discharge allowed. One berth only, max. draft on arrival 25 ft.
DENSITY: Unaffected by tide which is minimal.
FRESH WATER: Available from lighter with 25 ton capacity.
FUEL: Not available, (may be purchased in drums at considerable expense).
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CUSTOMS ALLOWANCES: See "Limassol".
CARGO GEAR: All winches, derricks, runners, guys and stays to be in good working order, and test certificates made available on request.
IDENTIFICATION CARDS: Not needed.
CONSULS: None in port. Several Embassies and Consulates located in Nicosia.
REPAIRS: Minor deck and engine repairs may be carried out by Corporation if essential to loading operation, or safety of vessel.
REPATRIATION: Agency (CMC) can arrange for travel of changing crew members.
AIRPORT: Nicosia International Airport 35 miles from port, served by regular airlines.
TIME: GMT plus 2 hours Permanent.
HOLIDAYS: No work on 1st January, 25th March, Orthodox Easter Friday, Saturday, Sunday and Monday, 1st May, 28th October, 24th 25th, 26th December, 31st December.

Customs Houses closed on Sundays, afternoon on Wednesdays and Saturdays, New Year's Day, 6th January, Good Friday (Greek Orth.), Saturday before Easter and Easter Monday (Greek Orth.), 1st day of Qurban Bairam, 1st day of Ramazan Bairam, 25th March, Birthday of Prophet Mohammed, 29th October, Christmas Day and Boxing Day. (If New year's Day, or Christmas Day falls on a Sunday, then day following is observed.)
POLICE/AMBULANCE/FIRE: Police Xeros 249; Ambulance ask through Agency; Fire Xeros 243.
TELEPHONES: Cannot be installed on board.
GENERAL: Cyprus Mines Corporation ships flotation pyrites, copper concentrates and copper precipitates in bulk from lighters which come alongside. The speed of loading depends largely on the efficiency of the vessel's loading gear.
SHORE LEAVE: Crew members allowed on shore.
REGULATIONS: No unusual regulations. Ship's boats may be used only in vicinity of ship for boat-drill, etc. They are not to be used for coming ashore.
DELAYS: Occasionally due to congestion, and sometimes to weather.

2. Hellenic Mining Co., Installation 35° 08′ 18″ N. 32° 50′ 10″ E.
PILOTAGE: Company's Pilot available for mooring and shifting operations.
ANCHORAGE: Five moorings buoys, and vessels use own anchors.
MAX. SIZE: Ships of practically any size, from small freighters to ore-carriers of 25,000 tons or more, can be accommodated. Length of vessel immaterial but there may be certain reasonable limitations as to beam and height from waterline in ballast.
BERTHING: Iron jetty extends 433 m. into sea. Depth of water alongside pierhead about 10 fathoms.
STEVEDORES: Hours of working are: 0800 to 1200 hrs. and 1300 to 1700 hrs. Saturdays: 0800 to 1200 hrs, but normally work, on overtimes, arranged continuously, all round the clock without break, until vessels fully loaded.
MEDICAL: Doctors and hospital available.
FRESH WATER: Available.
GENERAL: All other details see Xeros Pier above.

VASSILIKO BAY: 34.43 N. 33.19 E.

SITUATION: 13.5 miles due East of Limassol on South coast of Cyprus, and 1.5 miles West of Zyghi.
PILOTAGE: Company's Pilot available for berthing and shifting operations.
PYLON: The pylon, diameter of 34 ft. fitted with mechanism which enables buckets conveying ore along ropeway, to be emptied automatically through a chute into holds of ships.
MAX. SIZE: Ore carriers of 12,000 d.w.t. and over can be accommodated. Max. permissible height of ship between sea level and top of hatches (vessel in full ballast) 25 ft. Max. length 450 ft. Max. beam 60 ft.
BERTHING: Depth of water at pylon 30 ft., but if necessary ships may berth further out where depth 31–32 ft. In such cases, double chute used. Height of articulation of chute 49 ft. above sea level; height of unloading tip varies according type chute used. Bottom of sea near pylon, sandy.
LOADING: Loading of ores (pyrites and gypsum-rock) effected through an aerial maritime ropeway line, which starts at a point close to the shore and extends over a distance of 1,750 ft. in the sea to a reinforced concrete pylon. Ropeway cables supported at 3 intermediate points by steel trestles.
CAPACITY: Installation has loading capacity of 3,500/4,000 tons pyrites and 2,500/3,000 tons gypsum rock per 24 consecutive hours; electrically operated and all ores automatically weighed at loading point by means of electric Avery machine.
TANKERS: One pipe-line to buoy berth, depth of water, 12.19 m. Position of buoys, 34° 42′ 42″ N., 33° 18′ 42″ E.
FRESH WATER: By barge from Limassol.
HOLIDAYS: All weekends and 18 days throughout the year.
GENERAL: All other details see "Morphou Bay, Hellenic Mining Co."

Dahomey refer to Benin, People's Republic of, page 93.

Denmark

AABENRAA: 55.05 N. 09.25 E. (See Plan)

DOCUMENTS: See "Kalundborg".
PILOTAGE: Telegraphic address: "Pilot – Aabenraa". Short notice about 2/4 hours – VHF Channel No. 16. Small red motor-boat flying International pilot flag. Normally located middle of Aabenraa Fjord. On request Pilot comes aboard vessel between buoys 3–4, way 25.
ANCHORAGES: Aabenraa Fjord or road. Depths: about 75/80 ft.
MAX. SIZE: Length and breadth no restrictions. Draft limit: max. 36 ft. at Aabenraa, max. 32 ft. at Ensted Harbour (Power Station). No tide – occasionally low water of 3–5 ft. in heavy gales from West. Entry day or night.
HEALTH: Pratique granted by Customs Officers. In event of disease or fever on board, vessel's Agent to be informed before arrival.
RADIO: Blavand Radio or Lyngby Radio.
TUGS: Usually not necessary, but pilot boat may assist at reasonable rates.

Large vessels may require towage assistance on entering and leaving Enstedvaerkets Harbour, and in such cases a few days notice is required to call a Svitzer-tug.
BERTHING: Length of quays, 1,700 m. Depths 5.5 m. – 11.0 m. Two electric travelling cranes, capacity, 5 tons at 20 m. One stationary electric crane, capacity 20 tons at 4 m. from quay wall. One Coles mobile crane, capacity 11 tons at 3.05 m.
STEVEDORES: Stevedores informed by Agent.
MEDICAL: A few hours notice in order to arrange for doctor to come on board. Hospital in Aabenraa.
TANKERS: Diameter of discharge line: 10 in. 2 berths – draft Aabenraa berth 36 ft. – draft Power Station berth 32 ft., normal water level.
TIDE: No tide – vessels arriving and sailing by day and night.
FRESH WATER: Day and night from shore line, 10/15 t.p.h.
FUEL: All grades available. Minimum 24 hours notice.
OPENING/CLOSING HATCHES: Normally done by crew.
CERTIFICATES:
Tonnage Certificate.
Radio Certificate.
Load-line Certifcate.
Safety Equipment Certificate.
Deratting Certificate.
CUSTOMS ALLOWANCES: Tobacco, 100 cigarettes per man for 3 days. Wine and/or Spirits, 1 bottle spirit or wine per man.
IDENTIFICATION CARDS: Not needed.
CONSULS: German; Finnish; Norwegian; Swedish; British.
REPAIRS: Available.
DRY DOCKS: One dock – length 100 ft., breadth 54 ft., depths on blocks 12 ft., lifting capacity power 800 tons.
REPATRIATION: Facilities exist.
AIRPORT: About 30 km. Feeding line for Copenhagen – daily departure.
TIME: Local time is GMT plus 1 hour. No alterations to clocks.
POLICE/AMBULANCE/FIRE: Dial "000".
TELEPHONES: None available for placing on board.
SHORE LEAVE: Crew members allowed ashore.
DELAYS: Normally no delay except during severe Winters due to ice between mid December and end March.
AUTHORITY: Harbour Master.
AGENT: P. F. Cleemann, Vikinghus, 6200 Aabenraa. Tel. (04) 62–21–82. Cables: "Cleemann".

AALBORG: 57.03 N. 09.55 E. (See Plan)

DOCUMENTS:
Ship's Register.
Load-line Certificate. (All vessels over 150 GRT.)
Road Safety Certificate.
Safety Equipment Certificate.
Derat Certificate or Exemption.
1 Crew List.
Stores List.
Crew Personal Effects List.
Cargo Manifest or Bills of Lading.
PILOTAGE: Compulsory at Hals Bar for ships drawing more than 5 m. Pilot boards at Hals Bar Light. Pilot boat equipped with VHF Channel 16. The Western entrance at Logstor is only navigable in daylight for vessels under 4 m. draft.
ANCHORAGE: Vessels may anchor in Limfjord or Aalborg Roads, depths 9 — 15 m.
RESTRICTIONS: The port is situated in Limfjord, 16 miles from entrance at Hals. Controlling factor is depth at Hals Bar. 9.5 m. (31 ft) MLW. Night entry permitted.
MAX. SIZE: Maximum draft for crossing Hals Bar 8.5 m (28 ft).
HEALTH: Pratique granted by Customs Officers who bring Health Declaration for Masters to complete. In event of suspected disease or fever on board radio details to Agent before arrival. When vessel arrives from port outside of Europe and U.S.A. and has been less than 14 days at sea, all crew members require valid smallpox vaccination certificates.
RADIO; Radio stations to be used: Skagen and Lyngby, Port Authority, Pilot station. Tugs and Bridges can be contacted on VHF channel 16.
TUGS: Nine tugs available from 250 to 850 h.p. Not compulsory except through bridges for vessels over 1,500 d.w.t.
BERTHING: Aalborg on North and South sides of Limfjord. Total quayage 11.1 km., whereof public quays 9.8 km. All main quays suitable for vessels able to cross Hals Bar. Depths alongside 7.5 to 10,0 m.
Vendsysselvaerket power station wharf, depth 10.0 m.
Lindholm Pier Cement factory wharf, depth 7.8 m.
Rordal Cement factory wharf, depth 7.5 — 9.3 m.
BRIDGES: Two lift bridges cross Western end of Aalborg harbour. Horizontal opening 30 m. Only vessels bound for Lindholm Pier are affected.
MEDICAL: Doctors, hospital facilities available.
FRESH WATER: Supplied by pipe-line at all berths.
FUEL: All grades available.
DEVELOPMENTS: Aalborg has considerable areas under development for industry. In connection with this, preparations are being made for the building of new public harbour facilities. On the South bank of the fjord the Port Authority has available a 3.2 km stretch of coast with an area of approx. 200 hectares. This area is in connection with a new industrial and residential district of approx. 600 hectares. According to present plans approx. 7,000 m. of new quayage can be built here. Investments are estimated at 200 mill. Kr. Factories within the electronic and textile sectors are already established here and a continuous expansion goes on. On the site a special harbour with a quayage of 660 m. and with facilities for unit load ships as well as conventional cargo ships, with warehouses and administration blocks etc. was constructed during 1972 as base port for the Royal Greenland Trade Department's routes calling at all ports in Greenland. On the North bank of the fjord east of the existing harbour areas approx. 140 hectares have been laid out as a new harbour and industrial area. This area has coast length of approx. 3.5 km.
DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: Normally by crew with assistance of stevedores.
IDENTIFICATION CARDS: Not required.
CONSULS:

REPAIRS: All hull and machinery repairs can be effected.
DRY DOCKS: One dry dock for vessels up to 119 m. long. Three floating docks max. capacity 20,000 tons (70,000 d.w.t.).
CUSTOMS ALLOWANCES: 200 cigarettes, 3 litres of wine and 1 bottle spirits permitted out of bond for each man.
TIME: GMT plus 1 hour. No alterations during the year.
HOLIDAYS: New Year's Day; Maundy Thursday; Good Friday; Easter Monday; Prayer Day (May 2nd); Ascension Day; Whit Monday; Christmas Day; Boxing Day. Half-holidays; May 1st, June 5th and December 24th.
REPATRIATION: Aalborg Sofarts Service (Seamen's Service) Tel. (08) 17 12 12.
POLICE/AMBULANCE/FIRE: Tel. 000
TELEPHONES: Installed by request at certain quays.
SHORE LEAVE: No restrictions.
AIRPORT: Situated 3 miles from town centre.
AUTHORITY: Aalborg Havnevaesen.
AGENT: Chr. Jensen, Soeborg & Benthin's Succrs. Slotsgade 35, PO Box 160 9100 Aalborg. Telex 69735. Cables "Soeborg". Tel. (08) 122566.

ARHUS: 56.09 N. 10.13 E. (See Plan)

DOCUMENTS:
Ship's Register.
Derating Certificate.
Load Line Certificate (all vessels above 150 g.r.t.).
Radio and Equipment Security Certificate (all cargo vessels on 500 g.r.t. and above).
Customs Passport from last port of call.
Spirits and Tobacco List specifying stock in hand for ship and crew.
PILOTAGE: Not compulsory. Harbour Pilot normally boards 1-2 miles outside port.
ANCHORAGE: Anchorage in roads – good holding ground. Nature of bottom: clay.
RESTRICTIONS: No restrictions. Night entry permitted.
MAX. SIZE: Oil port 36 ft. General cargo port up to 33 ft. Container terminal up to 36 ft. No tide.
HEALTH: Necessary formalities carried out by customs on arrival.
RADIO: Radio stations to be used: Skagen and Lyngby. Pilot station and tugs can be contacted on VHF Channel 12 and 13 – emergency 16.
TUGS: Signal by VHF.
CARGO HANDLING FACILITIES: 10 cranes for coal, fertilisers, sulphur, ore, etc.; max. capacity per crane, 120 t.p.h. 11 cargo

handling cranes up to 2.5 tons and 9 cranes up to 5 tons. One floating crane up to 20 tons and 4 mobile cranes up to 4 tons.

Container Terminal: Min. depth of water 10 m. (33 ft.). Total quay length 816 m. (2,677 ft.). 1 cargo handling and container crane up to 50 tons. 1 gantry container crane up to 32 tons. Fork lifts up to 32 tons.

Roll-on/roll-off: 2 moveable and 3 solid roll-on/roll-off berths. Fork lifts up to 32 tons. Several berths for liquid chemicals and LPG carriers.

STEVEDORES: Available. Ordered by Agents.
MEDICAL: All medical services possible. Call Pilots if medical attendance required aboard.
TANKERS: Discharge lines: 4 in., 6 in., 8 in. and 10 in. Quay 201–203, max. oil discharging 1,200 cu.m./hr. Quay 202 and 124, 1,000 cu.m./hr., and quay 120, 800 cu.m./hr.
FRESH WATER: Most berths supply by shore installations, otherwise barge.
FUEL: All grades available.
FIRE PRECAUTIONS: Tankers discharging: Fire watch. Special harbour fire fighting on tugs.
DEVELOPMENTS: In the Northern port there will be 36–39 ft. depth of water in the future. The newly started project for the new Eastern Division comprises of a land area of 45 hectares, 1,680 m. of quays and up to 39 ft. depth of water.
DECK WATCHMEN: Available, but not compulsory.
OPENING/CLOSING HATCHES: Normally by crew with assistance of stevedores.
IDENTIFICATION CARDS: Not required.
CONSULS: Belgium, Tel. (06) 13.18.55; Finland (06) 29.21.00; France (06) 12.58.55; Germany (06) 12.32.11; Great Britain (06) 17.66.33; Greece (06) 13.06.55; Iceland (06) 13.40.00; Japan (06) 14.48.00; Netherlands (06) 17.81.20; Norway (06) 14.59.40; Spain (06) 15.57.55; Sweden (06) 27.32.33.
REPAIRS: Most repairs and overhauls possible.
DRY DOCKS: Arhus Flydedok og Maskinkompagni A/S: 7,000–16,000 d.w.t.
REPATRIATION: Arhus Sofarts Service. Tel. (06) 19.13.33.
AIRPORT: 32 km. – 20 miles from port.
TIME: GMT plus 1 hour (permanent).
HOLIDAYS: 5 day week, but loading and discharging can be effected on Saturdays and Sundays on payment of overtime. See "Copenhagen".
POLICE/AMBULANCE/FIRE: Tel. "000".
TELEPHONES: At several piers.
SHORE LEAVE: No restrictions.
AUTHORITY: Port of Arhus Authority.

ASNAES: 55.40 N. 11.05 E.

PORT LIMITS: When boarded by Harbour Pilot at the Forth of Kalundborg; or when at anchorage at the Forth waiting for berth.
DOCUMENTS:
Ship's Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Deratting or Exemption Certificate.
Construction Certificate.
Certificate of Insurance or other financial security in respect of civil liability for oil pollution damage.
2 Crew Lists.
Tobacco and Spirit List covering all goods on board belonging to crew, officers, Master, ship's bar or passengers.
Cargo Manifest or Bill of Lading.

Smallpox: When a ship arrives from places outside Europe and USA, and it has been at sea less than 14 days, each member of the crew has to present a valid smallpox certificate to the authorities on arrival.
PILOTAGE: Pilotage not compulsory. Harbour Pilot boards at entrance of Kalundborg Forth; bigger ships usually take Pilot by Skaw lightvessel about 130 miles from Kalundborg. Skaw as well as Harbour Pilots listening on VHF Channel 16.

Pilots to be ordered by ETA–telegram to Agents at least 24 hours in advance.
ANCHORAGE: Large vessels anchor in 16 m. of water outside between Roesnaes and Asnaes; S.W. to N.W. winds cause swell, but holding ground is good.
RESTRICTIONS: No entry restrictions; arrival day and night and no tide with normal winds.
MAX. SIZE: Oilberth: depth alongside: 13 m. Coalberth: depth alongside: 11 m. Length of quay: 285 m.
HEALTH: No special restrictions as to free pratique, which will be granted by authorities on arrival, however, see "Documents", "Smallpox" – suspected disease or fever must be telegraphed to agents before arrival.
RADIO: Lyngby radio. VHF: Channel 16 to pilot station (also Skaw Pilot).
RADAR: No radar installations.
TUGS: At Forth of Kalundborg – 2/3 miles from port – ships' lines to be used.
BERTHING: One oil berth: length 200 m. (a further length of ships at abt. 100 m. acceptable for berthing alongside the dolphins). Max. safe arrival draft: 41 ft. (12.5 m.), however, ships of more than 70,000 d.w.t. 40 ft. (12.19 m.) have berthed.

One Coal berth: length 285 m. Max. safe arrival draft: 35 ft. (10.67 m.). 3 cranes available.
DENSITY: Brackish – about 1011.
STEVEDORES: Private stevedores to be ordered through receivers – coal discharge rate per crane per hour: about 200 tons.
MEDICAL: Doctors and hospital facilities available. No advance notice necessary.
TANKERS: 2 discharge hoses (a possibility of 3) of 8 ins. each. No slop facilities. Average discharge rate 3,000 t.p.h., max. back pressure 14 kg.
FRESH WATER: Available by pipe-line at the berth. Rate 10 t.p.h.
FUEL: Available by barge or truck.
CONSULS: Swedish and Norwegian at Kalundborg. Others at Copenhagen.
REPAIRS: All types of smaller repairs can be carried out.
DRY DOCKS: No dry dock available.
SURVEYORS: Major Classification Bureaus represented in Copenhagen. 100 km. from Kalundborg.
HATCHES: Opening closing hatches to be carried out by crew.
AIRPORT: Nearest at Copenhagen.
CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle spirits.
REPATRIATION: All repatriation can be arranged normally via Copenhagen 100 km. from Kalundborg.
TIME: GMT plus 1 hour. No alterations during the year.
HOLIDAYS: Saturday/Sunday normally no work – but can be arranged. Holidays: 1st January; 15th, 16th and 19 April (Easter); 14th May (Prayer Day); 27th May (Ascension Day); 7th June (Whit Monday); 25th and 26th December (Christmas); 5th June half holiday, (Constitution Day).
POLICE/AMBULANCE/FIRE: 0-0-0 all alarms.
TELEPHONES: No telephone connection on board.
SERVICES: No tank-cleaning facilities; all other services to ships can be arranged through specialists from Copenhagen.
SHORE LEAVE: No restrictions for shore leave.
IDENTIFICATION CARDS: No shore passes necessary.
DEVELOPMENTS: During the Summer 1977 a further coal discharge-crane expected to be installed.
AUTHORITY: Private port owned by: Electricitetsselskabet Isefjordvaerket I/S, Hellerup. Local Office: Asnaesvej, Kalundborg.

COPENHAGEN: 55.42 N. 12.37 E. (See Plan)

DOCUMENTS:
1 Crew List.
2 Passenger Lists.
1 List giving stock of stores and provisions.

Customs officers bring form to be signed by Captain indicating that no epidemic diseases are on board. Formal Bill of Health signed by Danish Consul in port of departure is not necessary.
PILOTAGE: Telegr. address: Coppilot-Copenhagen. Tel. Tria 6700. Pilotage not compulsory. ETA: 1 hour. VHF Channel 16. Pilot boats blue with "LODS" on the side. Pilot flag "G" (white light) – VHF. Pilot comes on board at buoy No. 21 (Pilot for Drogden at the same place). Pilot boards by ship's ladder.
ANCHORAGE: Depth 11 m., 1 mile North of Middelgrund Port.
MAX. SIZE: Limited by draft only. Depths in the port, 10 m.; in the Oil Harbour, 10.5 m.; at the Oil Pier, 12 m.
HEALTH: See "Documents". If fear of suspected disease or fever: yellow flag – VHF.
RADIO: Lyngby Radio: OXZ. VHF Channel 16 to all installations. ETA cables to Agents and receivers, preferably by Lyngby Radio.
RADAR/VHF: No port radar. VHF Channel 16. Port Radio Beacon 219.9 kHz.
TUGS: Towage not compulsory. Tugs join ships at entrance to port. Ship's hawsers only.
BRIDGES: Larger ships must take Pilot and tugs to pass the bridges down to the South Harbour.

The Knippelsbro and Langebro will be closed for passage as follows:

Monday – Saturday	0615 – 0655 hrs.
	0735 – 0900 hrs.
Monday – Friday also	1530 – 1800 hrs.
Saturday	1205 – 1230 hrs.
	1305 – 1330 hrs.
	2000 – 2400 hrs.
Sundays and Holidays	0000 – 0800 hrs.
	1200 – 1800 hrs.
Constitution Day 5th June	1400 – 1800 hrs.
Christmas Eve 24th December and New Year's Eve 31st December	1800 – 2400 hrs.

The Sjaellandsbro will only be open for passage on weekdays 0600 – 2000 hrs. with exception of the restricted hours mentioned above for the Knippelsbro and Langebro.

on Sundays and Holidays the bridge will be open for passage as follows:

15th May – 15th September	0600 – 1000 hrs.
	1700 – 2000 hrs.
16th September – 14th May	0700 – 1000 hrs.
	1700 – 1800 hrs.

STEVEDORES: ETA earliest possible by VHF and not later than noon on the day before loading or discharging is intended to be commenced.
MEDICAL: No advance notice necessary. Hospitals available.

TANKERS: 10/12 berths according to size.

Provestens Oil Harbour: depth at		
	Quay 1:	9.0 m.
	Quay 2:	10.5 m.
	Quay 3:	10.5 m.
	Quay 4:	10.5 m.
	Quay 5:	10.5 m.
	Oil Pier:	12.0 m.
	Bunker Pier:	10.0 m.

Length and beam unimportant. Slop barge available.
CONTAINER TERMINAL: At the Levant quay in the free port. Quay length 665 m., depth alongside 10 m. Container crane capacity 32 tons, also two luffing cranes of 50 tons and 5 tons capacity for general cargo. Horizontal handling by two straddle carriers.
FRESH WATER: From quay or water boat.
FUEL: All grades available. At bunker station, no notice required, delivery 24 hours a day. By lighter in port or in roads; 10 hours notice preferred.
FIRE PRECAUTIONS: Ready hawsers fore and aft. No engine repairs.
GANGWAY/DECK WATCHMEN: Deemed unnecessary.
OPENING/CLOSING HATCHES: To be opened by ship's crew.
CERTIFICATES: To be on board:
Ship's Register.
Radio Safety Certificate.
Safety Equipment Certificate.
International Load Line Certificate.
Deratisation Certificate.
CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes. Wine and Spirits, 1 bottle wine and 1 bottle spirits.
IDENTIFICATION CARDS: Not necessary except in Oil Harbour, where the Port Authority deliver the cards.
CONSULS: The following countries are represented.

Argentina	Iceland	Romania
Australia	Israel	Spain
Belgium	Italy	Sweden
Brazil	Japan	Turkey
Canada	Liberia	United States
Finland	Netherlands	U.S.S.R.
France	Norway	Venezuela
Great Britain	Panama	West Germany
Greece	Poland	
India	Portugal	

REPAIRS: All types of repairs possible.
DRY DOCKS: Respective lengths, 787 ft. 5 in., 712 ft. 11 in. and 478 ft.
FLOATING DOCK: One of 7,000 tons capacity.
SLIPWAYS: 4 from 120 ft. to 280 ft. length.
REPATRIATION: Facilities exist for changing crew and arranging any necessary repatriation.
AIRPORT: 6 miles from centre. Direct lines for all parts of the world.
TIME: GMT plus 1 hour. No change.
HOLIDAYS: New Year's Day (January 1); Maundy Thursday; Good Friday; Easter Monday; Prayer Day; Ascension Day; Whit Monday; Christmas Day (December 25); Boxing Day (December 26).
Half holidays: Labour Day (May 1); Constitution Day (June 5); Christmas Eve (December 24).
Working hours: 0700-1630 with 2 half-hour meal breaks.
Saturday: All work performed at overtime rates.
Overtime work on Saturday and Sunday should be ordered by 1130 hrs. on Friday.
The working hours vary slightly from port to port as some start at 0730 hrs. and others at 0800 hrs., but a 42.5 hour week is common to all.
POLICE/AMBULANCE/FIRE: Call "000".
TELEPHONES: In many berths telephones can be placed on board ships.
GENERAL: Customs Authorities supervision of ship's provisions and bonded stores is carried out in the Free Port in the same way as in Customs Port. In this connection the Free Port is no Free Port.
SERVICES: All services available (tank cleaning, discharge of tank washings, compass adjusting etc.).
SHORE LEAVE: No restrictions.
AUTHORITY: Port of Copenhagen Authority.

ESBJERG: 55.28 N. 08.28 E. (See Plan)

DOCUMENTS: Refer to "Copenhagen".
PILOTAGE: Advance notice of 3 hours prior to ETA "Graadyb Barre" is required; this may be done via Blaavand Radio. Alternatively, Port Authority's VHF may be used. Watch is kept on Channel 16. Telegraphic address is "Pilotstation Esbjerg". Pilot vessel is a 75 g.r.t. cutter, stationed in the Port of Esbjerg, it is furnished with VHF, Channel 16. Vessel carries signals prescribed. Pilot to be taken on board outside Graadyb Barre, at buoy "O". Vessels awaiting Pilot or high tide may anchor between buoys "1" and "Graadyb 0".
Pilotage is not compulsory except when tugs are assisting in berthing.
ANCHORAGES: There are anchorage areas inside Skallingen peninsula, between buoys "E" and "F" (depth min. 31 ft.) and outside the Fish Wharves (depth 31 ft.).
RESTRICTIONS: Normally not sufficient ice to impede navigation. No ice dues charged.
MAX. SIZE: Length and breadth: no restrictions. Draft 25 ft. Tankers up to 30 ft. Entry to port is through a dredged channel, width 200 m., depth 9.30 m. at MLWST.
RADIO: Blaavand Radio, call sign OXB.
TUGS: Tugs join vessel at Esbjerg Roads. Ship's own hawsers must always be used. 4 tugs available of 600, 700, 700 and 1,200 h.p.
BERTHING:

	Approach at MLWST.	*Berth at MLWST*
Traffic Harbour	22 ft.	22 ft.–27 ft.
Ferry Harbour	26 ft.	15 ft.
Outer Ferry Harbour for Roll-on/Roll-off vessels	26 ft.	22 ft.
Dock Harbour	22 ft.	22 ft.
England Quay	31 ft.	22 ft.
East Harbour	31 ft.	22 ft.
East Harbour – New Berth (when entering max. draft 30 ft.–31 ft. LOA 560 ft.)	31 ft.	35 ft.
Fishery Harbour	15 ft.	15 ft.–17 ft.
Fishery Harbour – Herring oil Berth	17 ft.	17 ft.

CARGO HANDLING: The port of Esbjerg has no specially equipped berths besides the tanker berths and container terminal for lift-on/lift-off, but private companies own suction plants for discharge/loading of feeding stuffs. Furthermore, minor mobile cranes also with grabs and stationary coal cranes are available. Container terminal for roll-on/roll-off. Vessels with own gear can however be handled successfully, at different berths. 10 mobile cranes, capacities between 6 and 24 tons, 2 of which are fitted with grabs. 39 tugmasters, capacities between 13 and 19 tons, 49 forklift trucks, capacities between 4 and 30 tons. There is also 1 stationary crane, capacity 35 tons.
STEVEDORES: Gangs are mustered daily at 0700, and 1000 hrs. ETA should be given to above hours to ensure that gang(s) are available on arrival. Working hours are from 0700 to 1630 and meal hours are 0830–0900 and 1200–1300. No work on Saturdays. Overtime can be arranged.
MEDICAL: Medical attention can be arranged at any time. Modern hospital facilities available.
TANKERS:
Traffic Harbour
Depth in approaches to oilberths in Traffic Harbour MLWST 22 ft. (MHWST 26 ft.)
Old Oilberth No. 101: Depth alongside old oilberth No. 101 MLWST 22 ft. (MHWST 26 ft.)
New Oilberth No. 102: Depth alongside new oilberth No. 102 MLWST 25 ft. (MHWST 29 ft.)
During time alongside these berths, vessels can touch bottom, which is soft and muddy. Largest vessel berthed had a LOA of 621 ft. A tanker with a LOA of 560 ft. has berthed at No. 101, and simultaneously another tanker with a LOA of 600 ft. has berthed at No. 102. The length between the outer point of No. 101 and the opposite outer point of No. 102 is 1,200 ft.
East Harbour
Depth in approaches to oilberth in East Harbour MLWST 31 ft. (MHWST 35 ft.). Max. length 564 ft., max. draft 30 ft. 6 in.
Powerstation Vestkraft No. 506: Depth alongside Powerstation Vestkraft No. 506 MLWST 35 ft. (MHWST 39 ft.).
Under normal weather conditions Pilot states to be able to berth tankers with a LOA of maximum 660 ft.
FRESH WATER: Can be delivered at all berths. Capacity 20 t.p.h.
FUEL: All viscosities available by road tanker. Marine Gas Oil also by tanker vessel. 4 hours should be given, always during office hours.
FIRE PRECAUTIONS: A fire watch is necessary when loading/discharging oil and petrol, if flash point is under 50.
GANGWAY/DECK WATCHMEN: Watchman is not essential, but advisable.
OPENING/CLOSING HATCHES: This can be done by members of ship's crew, or by stevedores at an additional charge of 8%.
IDENTIFICATION CARDS: Advisable.
CONSULS:

CUSTOMS ALLOWANCES: 40 cigarettes.
REPAIRS: All types of deck and engine repairs can be effected.
DRY DOCKS: No dry docks, but slipways: Slipway No. 1 for trawlers, own weight max. 125 tons; Slipway No. 2 for vessels, own weight max. 160 tons; No. 3 500 tons; No. 4 750 tons.
REPATRIATION: Ample facilities for effecting crew changes and arranging repatriations.
AIRPORT: 8 km. from centre of town. Daily flights to Copenhagen.
TIME: Local time is GMT plus 1 hour. No alterations during the year.
HOLIDAYS: New Year's Day (Jan. 1); Maundy Thursday; Good Friday; Easter Day; Day after Easter Day; the 4th Friday after Easter; Ascension Day; Whit Sunday and Whit Monday; Christmas Day and Boxing Day. Permission to load/discharge on these days obtainable.
POLICE/AMBULANCE/FIRE: In case of emergency, dial "000" and ask for: Brand (fire), Politi (police), or Ambulance. Regular Tel. numbers are: Police 12 46 66; Ambulance and Fire Dept. (Falck/Zonen) 12 82 99.
TELEPHONES: Not possible to have telephones installed on board.
SERVICES: No tank-cleaning equipment available. For discharge

of tank washings apply to Port Master's Office, Tel. 12 92 00. Compass adjusting can be effected.
SHORE LEAVE: Normally granted.
DEVELOPMENTS: Extension of theHarbour towards the East with a new quay (Europaksj), extension of lift-on/lift-off container terminal, modernization of Trafichavn and Sonderhavn.
AUTHORITY: Port of Esbjerg Authority.
AGENT: J. Lauritzen EFTF., Vestkraftkaj. Tel. (05) 123133. Telex 54133 and 54155. Cables "Lauritzen".

FREDERICIA: 55.35 N. 09.46 E. (See Plan)

DOCUMENTS:
1 copy Bill of Lading for all cargo (manifests are not required).
1 copy Manifests for Dangerous Cargo.
2 copies Crew List.
2 copies List of Dutiable Goods.
2 copies Stores Lists.
PILOTAGE: Three Pilots available for docking purposes and for through traffic to any place in Denmark or the Baltic. Pilots have a 24-hour watch and are located on the top floor of the KFK grain silo in the West Harbour. Can be contacted day or night over VHF radio, Channel 16, or Tel. 05-920959.
ANCHORAGE: To avoid hindrances to docking or undocking ships, ships of over or about 4,000 d.w.t. are requested to anchor off Trellenes. Smaller ships will find good anchoring conditions in Mollebugten.
RESTRICTIONS: None.
MAX. SIZE: Limited by Kattegat to 42 ft. 6 in. draft. Tankers up to 900 ft. length, draft 49 ft. can berth.
HEALTH: See "Copenhagen".
RADIO: VHF Channel 16.
TUGS: Tugboat m/s "Svava" from Svitzer's Salvage Enterprise is stationed in Fredericia, but any amount of tugs are available, when ordered previously.
BERTHING:

Berth	*No.*	*Length*	*Depth*	
Shell Oil Pier	1	30 m.	10 m.	
	2	30 m.	15 m.

New Mollebugt Harbour	24	250 m.	9–10 m.	

N.B.: Tide varies normally by 0.5 m.
STEVEDORES: Ordinary working hours Monday to Friday: 0700-0830, 0900-1200, 1230–1600 hrs. Night gangs on week days must be ordered no later than 1230 hrs. the same day. Working overtime weekends is possible, but gangs must be ordered no later than Friday 1230 hrs. Average output per 8-hour day, loading or unloading general cargo, is 200 tons per gang.
MEDICAL: Hospitals available.
FUEL: Available.
FRESH WATER: Available ex wharf.
DEVELOPMENTS: Plans to build an ocean berth in the Mollebugten just West of pier 22. The ocean berth will be 350 m. long and have a depth of 12 m. Part of the New Harbour is ready – See Plan.
GANGWAY/DECK WATCHMEN: Available upon request.
OPENING/CLOSING HATCHES: Stevedores or crew.
CERTIFICATES:
Ship's Register.
Load Line Certificate.
Radio Safety Certificate.
International Safety Certificate.
Deratification Certificate.
CUSTOMS ALLOWANCES: See "Copenhagen".
IDENTIFICATION CARDS: Required.
CONSULS: Finland, France, Holland, Iceland, Norway, and Sweden.
REPAIRS: All repairs undertaken with modern equipment.
DRY DOCKS: Length 354 ft., breadth 72 ft. Max. depth at Dock gate 16 ft. 06 in. Slipway available for ships up to 1,000 tons, light displacement (divers available).
REPATRIATION: All facilities exist.
TIME: GMT plus 1 hour. No change.
HOLIDAYS: See "Copenhagen".
POLICE/FIRE/AMBULANCE: Police 921577; Ambulance 924000; Fire 921573; Emergency 000.
TELEPHONES: Both oil piers have telephones in the watchmen's room but for local calls only.
SHORE LEAVE: Allowed.
AUTHORITY: Harbour Master.

FREDERIKSHAVN: 57.28 N. 10.33 E. (See Plan)

DOCUMENTS: See "Copenhagen".
PILOTAGE: Pilot at "Skagen Rev" lightship boards from the pilot vessel "Skawpilot"; the hull painted orange, the funnel yellow with black ring on top, or speedboat, hull painted orange and word "Pilot" on each side of the hull. Call the Pilot either over the coast radio station "Skagen Radio", call sign "OXP" or direct by VHF Channel 16. Pilot outside the harbour boards at the buoy 1.7 miles S.E. of the harbour entrance. The pilot boat is a little red painted motorboat. Call the Pilot either by "Skagen Radio" or VHF Channel 16. ETA required as soon as possible.
ANCHORAGE: In the roads South of the red leading lights in 10 m. water depth. Good holding ground. At the entrance to the fishing harbour between the pierheads for a width of 50 m. on each side of the heads, anchoring is prohibited (submarine cable).
An oil pipe-line runs from the outer harbour across the sea-lane to traffic harbour. Anchoring is prohibited in this area.
RESTRICTIONS: Vessels coming from or entering the naval base and the fishing harbour must wait for ships entering or leaving the commercial harbour. Maximum speed in the harbour except outer harbour is 3 knots. Ships entering the harbour must if necessary wait outside for ships leaving the harbour.
MAX. SIZE: Max. length about 200 m., draft 8 m. at high water. At oil quay max. draft 8 m. at high water. Tide about 0.3 m.
HEALTH: Use international quarantine signals. If suspected disease or fever on board wire the Agent to arrange everything to obtain pratique as soon as possible.
RADIO: Nearest coast radio station "Skagen Radio", call sign "OXP". The harbour office is fitted with VHF Channels 16 and 12. Watch kept day and night.
TUGS: Tugs join vessel outside the harbour between the buoy and the harbour entrance. Only the ship's line to be used.
BERTHING: No special requirement for berthing in the harbour, but several big ferries are running in and out during day and night and sailing after a time schedule. It is therefore recommended to call the harbour office, VHF Channel 16, for permission to enter Fishing harbour situated in the Northern part of the commercial harbour.
BULK HANDLING FACILITIES: One grain berth, with 8 m. depth alongside, equipped with suction pipe capacity 60 t.p.h.
Ferry berths in Harbour, depth 6.4 m. to 7 m., equipped for handling containers and roll-on/roll-off traffic. Heavy lift crane of 50 tons capacity.
TANKERS: Oil quay max. depth 8 m., Hoses 8 in. diameter. Reducing pieces may be necessary. Slop water discharging and cleaning can be done by oil-separator. Tankers draft max. 8 m. at high water.
STEVEDORES: ETA advices are required before 0900 hrs. in order to arrange gangs for discharge/loading the same day.
MEDICAL: No special requirement is necessary for medical attention. The town has all ordinary medical and hospital facilities.
FRESH WATER: Supplied by water hydrants on all quays.
FUEL: All kinds of fuel are available and no advance notice is necessary.
FIRE PRECAUTIONS: No smoking and no open fire. If discharging oil, fire watchman from the Harbour Authority required. If discharging gas, dangerous chemicals and ammunitions, etc., beside the watchman, the Harbour Authority will require restricted access to vessel.
GANGWAY/DECK WATCHMEN: Not compulsory but available if required.
OPENING/CLOSING HATCHES: Ships crew open and close the hatches. If necessary the longshoremen can do it for extra pay.
CUSTOMS ALLOWANCES: Only for ships coming from abroad – 0.25 litre wine and 0.25 litre spirits, 40 grams tobacco or 40 cigarettes per man per day and only 3 days ration in one time. On requirement after that, the Master can obtain a new allowance in proportion to the stay in harbour.
CONSULS: Sweden Tel. 08-422922, Germany Tel. 08-420011, Norway ,, 08-420900, France ,, 08-422299, Finland ,, 08-421044
REPAIRS: Three steel shipyards and one wood shipyard doing all kinds of repairs.
DRY DOCKS: Four dry docks, two floating dock and two small slips. Dimensions of largest dry dock: length 195 m., breadth 32.2 m. and depth 7 m. Largest floating dock: length 129 m., breadth 28 m., depth 3.7 m., capacity 7.500 tons.
REPATRIATION: Agent will arrange repatriation. All facilities for changing crew.
AIRPORT: Aalborg Airport, 60 km's. from port, several daily flights to Copenhagen.
TIME: Local time GMT plus 1 hour.
HOLIDAYS: Weekends, Easter, Whitsun, Christmas, New Year and two Danish holidays in the Spring.
POLICE/AMBULANCE/FIRE: Police, Tel. 08-421444; Ambulance, Tel. 08-422222; Fire, Tel. 08-421444. in emergency dial 000.
SERVICES: Separating of slop water, compass adjusting, oil bunkering, repairing all kinds of navigation instruments and provisions.
AUTHORITY: Harbour Council

GULFHAVN: 55.12 N. 11.16 E. (See Plan)

Tanker discharge terminal operated by Gulf Oil Refining A/S.

DOCUMENTS:
Ship's Register.
Load Line Certificate.
Safety Radio-telephone Certificate.
Derating Certificate or Exemption Certificate.
Exact list of tobacco, cigarettes and spirits showing the vessel's and the crew's supply on arrival.
Bill of Lading (if vessel is carrying cargo).
Copy of the crew list is required by Gulf Oil Refining A/S.

PILOTAGE: 2 Pilots and pilot vessel available. Pilot acts as Berthing Master; may be requested to board arriving vessels at either: Halsskov Lightship position 55° 20.1′ N. 11° 02.5′ E. or 2 nautical miles South of Halskov Lightvessel or any place in proximity of Gulfhavn.

Pilot vessel equipped with VHF following Channels: 6, 10, 12, 16 of which Channel No. 6 used for ship-to-ship communication. Pilot station at Agerso also equipped with VHF radio with following Channels: 12, 13 and 16. Pilot can be contacted at the station on Channel 16.

A vessel's ETA should be communicated by Master to Agent, 72, 48 and 24 hours prior to arrival. Agent will keep Refinery advised and make necessary arrangement with Pilot.

ANCHORAGES:
Korsor: Roads: depth 20 m. (65.6 ft.). Bottom sand, good holding ground. Width of area about 2 square nautical miles.
Gulfhavn Roads: depth 30 m. (98.4 ft.). Bottom clay. Good holding ground. Width 0.5 nautical mile. Length 1.5 nautical miles.

Power cables running between Zealand and Agerso Island (marked on charts) must be avoided.

MAX. SIZE: Max. draft at normal tide is 15 m.; safe draft is considered to be 14.3 m.

VHF: Call sign "Gulfhavn" Channels 12, 14 and 16, on 16, 24 hours a day.

TUGS: None available locally. If required 24 hours notice must be given. Pilot will advise if weather conditions demand use of tugs (in good time).

BERTHING: Oil pier is a T-shaped structure on which 4 berths provide – 1 berth for 100,000 d.w.t. tankers, 1 for 20,000 d.w.t. tankers, 1 for 5,000 d.w.t. tankers and 1 for smaller vessels up to 500 d.w.t.

Depths alongside:	Berth 1	15.0 m. (49.2 ft.)
	Berth 2	12.0 m. (39.4 ft.)
	Berth 3	7.5 m. (24.6 ft.)
	Berth 4	4.5 m. (14.8 ft.)

Adequate lifting facilities to assist in hose connecting and handling of necessary hose equipment should be ready on arrival. Refinery representative will board on arrival and discuss discharging/loading operation.

Berth No. 1

Berth 1 is equipped with mechanically operated Woodfield hose-handling structure. The booms are 12.2 m. (40 ft.) long. Berth No. 1 is primarily equipped for handling incoming crude, but can be used for other purposes (gasoils, intermediate and heavy fuels) when not being occupied by crude vessels.

The booms are arranged in the following sequence of product handling:

Boom No.	*Size of booms and contents*
1	10 in. Ballast water
2	12 in. Crude oil
3	12 in. Crude oil
4	12 in. Crude oil
5	8 in. Intermediate and heavy fuel (all grades)

The sequence is from South to North or from right to left as you face the shore.

The distance from Danish Mean Sea Level to the highest position of centre line of manifold is 17.0 m. (55.8 ft.).

In addition to the oil products handled on Berth No. 1 there are the following other connections on the pier:

Size of connection	*Contents*
6 in.	Ballast water
6 in.	Gas oil
6 in.	Intermediate and heavy fuel (all grades)
4 in.	Tetra methyl lead

Berth No. 2

Berth No. 2 is equipped with mechanically operated hose-handling structure (Woodfield). The booms are 9.1 m. (30 ft.) long.

The booms are arranged in the following sequence of product handling:

Boom No.	*Size of booms and contents*
1	10 in. Ballast water and crude oil
2	10 in. Intermediate and heavy fuel (all grades)
3	12 in. Intermediate and heavy fuel (all grades)
4	10 in. Diesel fuel
5	10 in. Diesel fuel
6	10 in. Gasoline
7	10 in. Gasoline

The sequence is similar to pier No. 1, i.e., South to North.

The distance from Danish Mean Sea Level to the highest position of centre line of manifold is 15 m. (49.2 ft.).

In addition to the oil products handled on Berth No. 2, there are the following other connections on the pier:

Size of connection	*Contents*
6 in.	Intermediate and heavy fuel (all grades)
6 in.	Gas oil
6 in.	Ballast water
6 in.	Stoddard solvent
6 in.	Naphtha
6 in.	Kerosene
6 in.	Gasoline

In addition to the oil products handled on Berth No. 2, Berth No. 3 and 4 can also handle L.P.G. (liquid petroleum gas) and Berth No. 4 solid sulphur product. All connections on Berth No. 3 and 4 are 6 in.

MEDICAL: Hospital at Skelskor; Tel. Skelskor (03) 59 44 50.

DENSITY: Ranges between 1023 and 1007, dependent on season and weather conditions.

FRESH WATER: Available at all 4 berths. Limited to 160 tons. Supplied with a pumping rate of 45 t.p.h.

FUEL: Bunker fuel available at all 4 berths. 24 hours notice required.

FIRE PRECAUTIONS: The harbour is not equipped with fire-fighting vessel. Fire-fighting equipment is stationed on quay.

GANGWAY/DECK WATCHMEN: Available if required.

IDENTIFICATION CARDS: Required by crew.

CONSULS:
Finnish Consulate: (Mr. Axel Le Dous) Algade 14, Korsor, Tel. (03) 57 03 20.
Norwegian Consulate: (Mr. J. U. Jepsen) Jens Baggesensgade 35, Korsor, Tel. (03) 57 00 06.
Swedish Consulate: (Mr. Bjarne Fischer) Brogade 2, Korsor, Tel. (03) 57 00 02.
German Consulate: (Mr. Finn Poulsen) Batterivej 7, Korsor, Tel. (03) 57 05 86.
All other consulates are situated in the Copenhagen area.

REPAIRS: Small deck and engine repairs can be carried out.

REPATRIATION: Facilities exist via Agent.

AIRPORT: Copenhagen 120 km. away.

TIME: GMT plus 1 hour.

POLICE/AMBULANCE/FIRE: Police Skelskor (03) 59 61 00; Ambulance Skelskor (03) 59 47 07; Fire Refinery 00.

TELEPHONES: A public telephone box situated at entrance of pier outside cooling-water pumphouse. In addition temporary phones will be provided upon request at Berths 1 & 2. Billing will be handled directly by Agent.

SHORE-LEAVE: Allowed, but personnel not allowed to walk in refinery area. Transport will be arranged from ship to refinery entrance upon request.

AUTHORITY: Stigsnaes Toldkontrol.

HADERSLEV: 55.15 N. 09.29 E.

DOCUMENTS: See "Copenhagen".

PILOTAGE: Aarosund Pilot station.

ANCHORAGES: Aarosund.

RESTRICTIONS: Impossible to enter Haderslev by night since there are no lights in the fjord.

MAX. SIZE: Length 110 m.; width 17 m.; depth 4.9 m.

HEALTH: See "Copenhagen".

RADIO: Lyngby Radio.

TUGS: None available.

MEDICAL: Advance notice required if hospital facilities are required.

FRESH WATER: Fresh water from quay.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Carried out by the crew.

CUSTOMS ALLOWANCES: Tobacco (100 cigarettes per man per 3 days); wine/spirits (1 bottle per man per 3 days).

IDENTIFICATION CARDS: Not needed.

CONSULS: Norwegian, Swedish, French, Belgian.

REPAIRS: Small repairs available.

REPATRIATION: No facilities.

AIRPORT: 15 km. from Haderslev.

TIME: GMT plus 1 hour.

HOLIDAYS: Discharging can be arranged on holidays.

POLICE/AMBULANCE/FIRE: Police, 045 2 2525; Ambulance, 000; Fire, 000.

TELEPHONES: No facilities.

SHORE LEAVE: Allowed.

AUTHORITY: Harbour Master.

HELSINGOR (Elsinore): 56.02 N. 12.37 E. (See Plan)

DOCUMENTS:
1 Cargo Manifest.
2 Crew and Passenger Lists.
2 Tobacco Lists.
2 Stores Lists.
Measurement Certificate or Registry Certificate.

PILOTAGE: Call Pilot by hoisting Pilot Flag "G", or Morse signal "PT". Cable Address: "Helsingorpilot". Alternatively contact by VHF.
VHF Channel 16, Frequency 156,80 mHz (receiving frequency)
VHF Channel 13, Frequency 156,65
VHF Channel 12, Frequency 156,60
One hour's notice required before arrival at port. Pilot cutter, green hull, yellow superstructure, "Pilot" painted on superstructure. Boarding North of, South of and East of the port of Helsingor. Waiting area 0.5 mile South of the port of Helsingor. Helsingor

Pilots are also sea Pilots for Kattegat, the Belts, The Orestraights and the Baltic.
ANCHORAGE: South of the port, in the roads of Helsingor, depths from 19 to 25 m. with sand or loose clay bottom.
RESTRICTIONS: Following signals are given from the lighthouse situated on the head of the Southern pier: prohibition to sail is signalled by red rapid flashes in the harbour direction and green flashes out towards the approaches. Entering and sailing prohibition is signalled by red rapid flashes both sides. "Vessels moving in the harbour" is signalled by yellow flashes out towards the approaches, yellow in towards the harbour. Ship departing waits for ship entering. When a vessel gives signal to enter (1 long whistle or blast) it is regarded as an entering vesse!.
MAX. SIZE: Up to 26 ft. draft.
RADIO: Harbour Office of Helsingor call VHF Channel 16, shift to Channels 12 or 13 for working.
TUGS: Tug stationed in Helsingor to give towing assistance from the roads. Vessel should have ready a 6 in. nylon towing rope.
BERTHING: Vessels berthed in order of arrival.
MEDICAL: Hospital and medical facilities available.
FUEL: Not available.
FRESH WATER: Approx. 30 tons of fresh water per hour delivered through 15 in. hoses at the berths.
WATCHMEN: Not required.
CUSTOMS ALLOWANCES: For use on board during call reasonable stores and other requirements will be approved by the customs. Following quantities allowed per man per 24 hours, not exceeding 3 days: 40 cigarettes or 10 cigars or 20 cigarillos or 40 grams other tobacco products, 0.25 litre wine and 0.25 litre spirits.
IDENTIFICATION CARDS: Crew need passports.
REPAIRS: Helsingor Skibsvaerft og Maskinbyggeri A/S are qualified to undertake all forms of repair work.
DRY DOCKS: Dock No. 1: 155 m. long, 20.5 m. wide, 6.6 m. depth. Dock No. 2: 116 m. long, 16.3 m. wide, 4.7 m. depth.
AIRPORT: 1 hour by car from Copenhagen International Airport.
TIME: GMT plus 1 hour.
HOLIDAYS: Work can be performed all the year round.
POLICE/FIRE/AMBULANCE: Police Tel. 03.21.14.48; Ambulance/Fire Tel. 03.21.01.45.
TELEPHONES: Telephones are only available on board in particular circumstances.
SHORE LEAVE: Crew are free to go ashore.
AUTHORITY: Harbour Master.

HORSENS: 55.52 N. 09.52 E. (See Plan)

DOCUMENTS:
Crew List (East Euorpean countries only).
List of Tobacco.
Manifest (for Agents and Stevedores).
Bills of Lading (for Agent's use).
Ship's papers:
International Load Line Certificate.
Certificate of Register (international letter of measurement).
Derating Certificate.
Radio Safety Certificate.
PILOTAGE: Pilot station is situated at Juelsminde.
VHF Channels 6, 12 and 16.
Advance notice of 2 hours required.
Normally pilot boat will be located South of Lillegrund – 55.43° N. 10.08° E.
ANCHORAGE: No special anchorages at the firth; vessels may anchor where safe navigation permits – attention is called to cable area at Hjarno Sound.
MAX. SIZE: Max. length, approx. 500 ft.; max. breadth, approx. 70 ft.; max. draft, approx. 22 ft. A dredged channel 32 m. wide and 6.9 m. deep leads to the harbour.
HEALTH: Kindly inform Agent or Port Authorities in advance in event of any suspected disease or fever on board. Normally no necessary procedure to obtain pratique. Pratique is automatic after calling at another Danish port.
RADIO: VHF at Harbour office, Channels 9, 12, 13 and 16.
TUGS: Tug "Vitus" stationed in the harbour.
STEVEDORES: For working Monday morning ETA must be given Friday during office hours. Otherwise ETA must be given the day before work to commence. One suction apparatus for discharging grain. Normally the cargo is handled by shore cranes. There are 2 coal cranes and 5 piece-goods cranes available.
MEDICAL: No advance notice required. Hospital facilities available.
TANKERS: Discharge lines diameter: 6 in. and 8 in. Four berths for tankers, 1 at Esso with 5.6 m. of water alongside, 1 at DAK with 6.9 m. of water, 1 at KH with 6.9 m. of water and 1 at Nynas Johnson.
FRESH WATER: Delivered alongside from shore connections.
FUEL: All types of light fuel available.
GANGWAY/DECK WATCHMEN: No service of watchmen necessary.
OPENING/CLOSING HATCHES: Normally carried out by crew, but can be done by stevedores.
CUSTOMS ALLOWANCE: Tobacco: 30 cigarettes per man per day – or 100 cigarettes permitted to be held out of bond. Wine and or Spirit: One bottle of each to be held out of bond.
IDENTIFICATION CARDS: Not needed.
CONSULS: Finland, 05-623433; Norway, 05-624666; Sweden, 05-624411; France, 05-623288.
REPAIRS: No shipyard – only small repairs can be carried out.
REPATRIATION: No special facilities for effecting crew changes exist.
AIRPORT: Distance from airport about 50 km., with regular airlines.
TIME: GMT plus 1 hour.
POLICE/AMBULANCE/FIRE: Dial 0-0-0. Fire alarms placed around the port.
TELEPHONES: Not available on board vessels.
SHORE LEAVE: Allowed.
DELAYS: No delays can normally be expected. Larger ships with big draft may expect delay during nights with poor visibility. They have to wait for daylight in order to enter port through dredged channel.
AUTHORITY: Harbour Master.
AGENT: Wilh. Chr. Bech Rederi-& Skibsmaeglerforretning. Proprietor: O. H. Rasmussen, Jens Hjernoesvej 22, dk-8700 Horsens. Phone: 5–62 65 66. After office hours: 5–61 19 65 – 61 08 10 – 62 29 56. Telegrams: "Brokerbech". Telex: 61616.

KALUNDBORG: 55.41 N. 11.06 E. (See Plan)

OPERATORS: Dansk Esso A/S.
DOCUMENTS: Ship's Register
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Safety Construction Certificate.
Derating Certificate or exemption.
Bill of Lading (if cargo).
Crew List.
Customs need a Tobacco and Spirit List, showing the vessel's and the crew's supply by arrival.
PILOTAGE: Not compulsory. Pilot station situated at Kalundborg, telegram: Kalundborg Pilot, tel. Kalundborg 03.51.08.89. Green plastic vessel carrying int. signal flag or lights for Pilot. Contact by VHF Channels 16, 12 and 6. Pilot is taken on board at the entrance of Kalundborg Fjord.
ANCHORAGE: Large vessels anchor in 42 ft. of water outside between Rosnaes and Asnaes; S.W. to N.W. winds cause swell but holding ground is good. Small vessels anchor between Gisselore Point and Harbour. From where channel leads to harbour.
Tankers: The anchorage is approximately 4–5 miles W.N.W. of the oil pier. Particulars regarding the anchorage will be given by the Pilot.
RESTRICTIONS: Depth in channel and at entrance 39 ft. 4 in., entrance width 131 ft. Also see "Tankers".
MAX SIZE: 900 ft. length. 38 ft. draft.
RADIO: *Arrival Message:* The Masters of crude or deep-sea vessels are requested to advise the refinery through their Agents of their ETA 72 hours in advance, and again 24 hours before ETA. For other vessels operating in Scandinavian waters, a 24 hours ETA notice will be required. For coastal traffic in Danish waters, ETA is required when departing for Kalundborg. If there should be any significant change in the ETA over 2 hours, additional advice is required.
HEALTH: Pratique granted by Customs Officers who bring Health Declaration for Masters to complete. In event of suspected disease or fever on board radio details to Agent before arrival. When vessel arrives from port outside of Europe and U.S.A. and has been less than 14 days at sea, all crew members require valid smallpox vaccination certificates.
TUGS: Available, normally join vessel off harbour, often using vessel's lines. If tug's lines are used, an extra charge will be made.
Tankers: The required number of tugs will be ordered through the Agent in accordance with the agreement between the Pilot and the Pier Captain.
For vessels between 16,500 d.w.t. and 70,000 d.w.t. the following tug assistance will normally be required: One 1,700 h.p. tug forward on starboard side and 2 tugs of 1,800 h.p. and 400 h.p. aft.
For vessels over 70,000 d.w.t. an additional tug of minimum 1,000 h.p. will normally be required.
For all traffic to and from Pier C, tug assistance must be used in all cases where a vessel of 10,000 d.w.t. and over is already moored at Pier B.
Also see "Tankers" Pier Traffic Restrictions.
East Harbour: Depth is 23 ft. Equipment: 1 crane for coal-discharge and 1 crane for grain-discharge.
Fertiliser-quay: Depth is 26 ft. 6 in. Equipment: 1 crane for phosphate-discharge.
West Harbour: Depth is 22 ft. 6 in. Equipment: 1 suction-apparatus.
2 mobile crane available in all harbours.
TANKERS:
Pier A: For deep-sea vessels. Max. draft 41 ft. up to 70,000 d.w.t. For larger vessels between 70,000 and 100,000 d.w.t. the max. draft is 40 ft.
Crude discharge is via 2×12 in. hoses to the 30 in. crude pipe-line to the refinery, approximately 2 km. in length.
Bunker/Heavy Fuel deliveries through 14 in. line and 12 in. hose to the vessel. There are 10 other products, all in 10 in. lines and 10 in. hoses connected to the vessel.
The products are:
Naphtha/LVN.
Regular/Premium Gasoline.
Kerosene.
Auto Diesel.
Heating Oil.
Marine Diesel.
Fuel Oils: LFO, LSHFO, LPHFO.

Ballast is discharged through 1 by 10 in. and 1 by 12 in. hose into a 14 in. pipe-line.

Pier B: For vessels up to 16,000 d.w.t. (under special circumstances vessels up to 25,000 d.w.t. can be accepted). Max. draft 33 ft. Bunker/Heavy Fuel deliveries through 14 in. and 12 in. hose to the vessel. There are 10 other products all in 10 in. lines and hoses connected to the vessel. The products are:

Naphtha/LVN.
Regular/Premium Gasoline.
Kerosene.
Auto Diesel.
Heating Oil.
Marine Diesel.
Fuel Oils: LFO, LSHFO, LPHFO.

LPG is available through a 4 in. line.

Ballast is discharged through 1×10 in. and 1×12 in. hose into 14 in. pipe-line.

Pier C: For vessels up to 3,000 d.w.t. Max. draft 15 ft. 4 in. Products are:

Regular/Premium Gasoline.
Naphtha (discharging).
Kerosene.
Auto Diesel/Heating Oil.
Marine Diesel.
Fuel: HFO, LFO, LSHFO.

Loading is through 6 in. hose over the vessel's rail, although LPG is loaded via 4 in. line and 3×2 in. hoses, and asphalt over 6 in. steel arm.

Ballast can be discharged into a 6 in. line.

Pier D: For vessels up to 1,300 d.w.t. Max. draft 15 ft. 4 in. Loading through 6 in. hose over vessel's rail.

Products are:
Varnolene.
Solvents.
Regular/Premium Gasoline.
Naphtha/LVN (loading and discharging).
Kerosene.
Marine Diesel.
Auto Diesel/Heating Oil.
Fuel: HFO-LSHFO.

Ballast can be discharged into a 6 in. line.

The above maximum drafts for Pier A, B, C and D are based on normal water level in the Fjord.

Pier Traffic Restrictions: Restrictions for movements of vessels under varying weather conditions:

All Piers will be closed for in and outgoing traffic if the wind force is over 23 m/sec. (9 Bs).

Pier A & B, if the wind direction is between S.W. and N.N.W. and the wind force is between 15 m/sec. (7 Bs) and 23 m/sec. (9 Bs) tug must be used.

Pier C, If the wind direction is between S.W. and N.E. and the wind force is between 15 m/sec. (7 Bs), and 23 m/sec. (9 Bs) tug must be used.

Pier D, If the wind direction is between S.W. and N. and the wind force is over 15 m/sec. (7 Bs), the pier will be closed for all traffic.

Woodfield Loading Arms: If the wind force is over 23 m/sec. (9 Bs), all discharging/loading via loading arms will be stopped. Valves on shore line and vessel closed, and the system drained free of oil. It is the pier foreman's duty to enforce the above wind restrictions. His decisions will be based on actual measurements of the meteorological conditions.

Discharging and Loading Rates: Crude discharge rate is 38,000 Bbls. or about 5,000 t.p.h. Maximum inline pressure is 105 p.s.i.g. except for LPG where the maximum pressure is 250 p.s.i.g.

Approach Speed and Engine Check: Vessels approaching the Pier for berthing without tug assistance must slow down to an absolute minimum speed before passing the outer dolphin. Before reaching this point, a test of a true and realistic reverse manoeuvre must have been carried out to make sure that the system is functioning correctly.

Traffic Passing the Pier: There is a brisk ferry boat traffic in the outer harbour. Approximately 40 times a day a ferry passes the outer pier head in a distance of 100–300 m.

Dry cargo vessels up to about 10,000 d.w.t. call at the Kalundborg harbour and will be passing the outer Pier at a distance of approximately 500 m. from the pier head. The vessels pass at slow speed.

Tank/dry cargo vessels call at the nearby Power Plant which is equipped to handle vessels of 70,000 and 20,000 d.w.t., respectively.

Wind Conditions: The prevailing wind is from West, but most of the heavy winds and storms come from N.W.

Wind velocities exceeding 15 m/sec. (7 Bs) occur on the average about 20 days a year from S.W., about 15 days from West, 40 days from N.W. and 25 days from North.

Tide and Current: The difference between the average high-tide and average low-tide is approximately 0.3 m.

A storm from N.W. can give a high-tide of approximately 1.3 m. over normal daily average, whereas a storm from S.E. can result in a tide 0.9 m. below daily normal average.

There is practically no current at the Pier.

Wave Height at the Pier: The highest waves at the Pier will occur when the wind is from W.N.W.

The theoretical average wave height exceeds 0.7 m. for approximately 35 days a year, and an average wave height of 1 m. will be exceeded about 6 days a year.

Signal Flag: Vessels must, when loading/discharging, carry signal flag "B" during the day from sunrise to sunset, and a red light during the night.

Sanitary Regulations: The Standard regulations for Danish Harbours governing sanitation also apply to Kalundborg Oil Pier.

Trash and galley refuse must not be thrown overboard. Special containers for refuse are placed on the Pier.

Precautions must be taken to prevent discharge from toilet, bath room, etc. onto the Pier.

Gangway: Vessel to provide a safe gangway.

Laundry: Requirements should be given to the Agent's representative immediately on arrival. Laundry to be ready for delivery on arrival. A complete list is required.

Visitors: Only persons on business are allowed on the Pier. Visitors, as guests of the Master, are allowed to board vessels provided there is a request from the Master to the pier office. Further details for obtaining permits for visitors can be obtained from the pier office.

Telephone: For short distance calls a coin telephone is provided in the Pier Office building; for long distance calls arrangement must be made through the vessel's Agent.

BERTHING:

New Embankment – South Harbour: 9.5 m. basin, max.safe draft 30 ft., max. length 720 ft. Equipment: roll-on/roll off facilities.

STEVEDORES: Available, ordered by Agent, no ETA to stevedores necessary.

BALLAST: All ballast is to be discharged into the shore ballast tank. This tank is a 30,000 Bbls. tank, and usually there is approximately 20,000 Bbls. room available.

Disposal of ballast overboard is prohibited. Engine room or pump room bilges must not be pumped overboard when in Danish waters.

Sea valves will be sealed on vessel's arrival and must not be broken without approval by the pier captain or his substitute. Ballast for entering the harbour should be carried in a minimum number of tanks, and all other tanks stripped so as to minimize the time required for ballast discharge when alongside the Pier.

MEDICAL: Hospital and doctors available.

DENSITY: 1,011.

FRESH WATER: Available, supplied from shore by hose, about 15 t.p.h. 25 t.p.h. in Oil Harbour.

FUEL: All grades available, 24 hours ETA required by truck or barge.

FIRE PRECAUTIONS: No smoking allowed.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Carried out by crew.

CUSTOMS ALLOWANCE: Each Crew member allowed 100 cigarettes or 20 cigars or 100 grams tobacco and 1 bottle spirits.

IDENTIFICATION CARDS: Not required.

CONSULS: Swedish, Norwegian; others at Copenhagen.

REPAIRS: All types of repairs available.

REPATRIATION: All facilities exist.

AIRPORT: Nearest at Copenhagen about 80 miles from Kalundborg. Served by regular airlines.

TIME: GMT plus 1 hour. No alterations through the year.

HOLIDAYS: New Year's Day; Easter Thursday; Good Friday; Easter Monday; Ascension Day; 1st May; Whit Monday; Prayer Day; 5th June; Christmas Day; 2nd Christmas Day. No work can be carried out.

SHORE LEAVE: Allowed.

DELAYS: Due to ice between 15th December and 31st March.

AGENTS: Jorgen Schultz, Postbox 44, Cables "Schultz Kalundborg".

Petertank I/S, Postbox 38. Cables "Petership Kalundborg".

Kalundborg Shipping Agency. Postbox 34. Cables "Kalship Kalundborg".

KOGE: 55.27 N. 12.12 E. (See Plan)

DOCUMENTS: For Customs vessels require:

Vessels of 150 ton and upwards, Load Line Cert.
Vessels of 300 ton and upwards, Load Line Cert. Radio Security Cert.
Vessels of 500 ton and upwards, Load Line Cert. Radio Security Cert. Equipment Security Cert.
For all passenger vessels also Security Cert.
For stevedores vessel shall have Bills of Lading, Manifests and Loading plans.

PILOTAGE: Vessel to call Pilot 2 hours before arrival. VHF on pilot station and pilot boat. Watch on Channel 16. Normal international light and sound signals used. Pilot boat located about 2 nautical miles East of port. No difference in bad weather.

ANCHORAGES: 1–2 nautical miles East of port with good bottom conditions.

MAX. SIZE: Max. permissible length, 150 m.; max. permissible draft, 7 m.

HEALTH: Normal quarantine rules.

RADIO: Lyngby Radio or any other radio station in Denmark.

TUGS: No tugs in port. Can be obtained from Copenhagen.

STEVEDORES: Normal ETA and description of vessel required.

MEDICAL: Doctor and hospital assistance available; other facilities to be obtained from Copenhagen.

TANKERS: Only 1 tanker berth, no specific requirements.

GENERAL: Wind between N.E. and S.E. can give up to 1.6 m. high water and West wind up to 0.9 m. low water.

FRESH WATER: Water from wharf.

FUEL: Products are delivered in Koge, others from Copenhagen.

FIRE PRECAUTIONS: Normal fire precautions. Tankers cannot

request to go to berth before loading/discharging. 2 fire watchmen from the fire department.
GANGWAY/DECK WATCHMEN: Not necesssary.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CUSTOMS ALLOWANCE: Tobacco: about 40 grams per day per man or 40 cigarettes per day per man. Wine and/or Spirits: about 0.25 litre spirits and 1 litre wine per man per day.
IDENTIFICATION CARDS: Not needed.
CONSULS: Nearest in Copenhagen.
REPAIRS: Small repairs.
DRY DOCKS: 2 small slipways for vessels up to 200 tons.
REPATRIATION: No facilities exist.
AIRPORT: Nearest is Kastrup Lufthavn; Copenhagen about 40 km. away.
TIME: GMT plus 1 hour. No change during year.
HOLIDAYS: Normal Danish holidays, change from year to year. Normally work can be arranged.
POLICE/AMBULANCE/FIRE: Ambulance and Fire (03) 653300; Police 651448 or use alarm 000.
TELEPHONE: No arrangements exist for placing on board.
GENERAL: The port North of Koge, Junckerhvnen, 55° 27′ 4″ N. 12° 118′ 7″ E. is a private port used only for vessels to the factory.
SERVICES: Pilot makes compass adjustments.
SHORE LEAVE: Allowed.
AUTHORITY: The Harbour Master.
AGENT: F. Ohlssons, EFTF, Havnen, DK-4600 Koge, Denmark. Telex 5736; Tel. (03) 650006; Telegram Ohlsson.

KOLDING: 55.29 N. 09.29 E.

DOCUMENTS: See "Copenhagen".
PILOTAGE: Pilot station in Skaerbaek at mouth of Kolding Fjord. Tel. (05) 562486. VHF Channel 16.
ANCHORAGES: At Skaerbaek.
MAX. SIZE: Maximum permissible length 180 m. Max. draft: 7.0 m.
RADIO: Lyngby Radio.
TUGS: Available.
STEVEDORES: Obtained through Agents.
MEDICAL: Hospital facilities available.
FRESH WATER: Available from quay.
FUEL: Available.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CUSTOMS ALLOWANCE: Tobacco: 200 cigarettes. Wine and/or Spirits: 1 bottle wine, 1 bottle spirits.
IDENTIFICATION CARDS: Not needed.

DOCUMENTS: See "Kalundborg".
PILOTAGE: Compulsory between the entrance to Karrebaeksminde and Naestved for all ships over 150 g.r.t. VHF Channel 16. Tel. 03727223 and 03742323.
ANCHORAGES: 1 – 2 miles S.W. of head light in Karrebaeksminde in 10 – 12 m. depth.
RESTRICTIONS: Only navigable from half hour before sunrise to half hour after sunset, and according to tides.
MAX. SIZE: Max. length 100 m. Max. draft 5.60 m. with breadth 12.20 m. Max. breadth 14.40 m. with draft 4.80 m.
HEALTH: See "Kalundborg".
RADIO: Lyngby radio. VHF Channel 16.
TUGS: m/s "Eno" 360 h.p. VHF Ship's lines.
BERTHING: No berthing in Karrebaeksminde. Naestved 3 quays: 365, 270, 170 m., all with depth 6 m.
BRIDGES: One in Karrebaeksminde, total width 23.3 m.
MEDICAL: Hospital available.
FRESH WATER: Available from quay, 10 t.p.h.
FUEL: All grades. Deliveries by lorry only.
AIRPORT: Kastrup Airport, Copenhagen 90 km. away.
TIME: GMT plus 1 hour.
SHORE LEAVE: No restrictions.
AUTHORITY: Harbour Master.

NAKSKOV 54.50 N 11.08 E.

PILOTAGE: Al Albuen at the entrance of the firth.
RESTRICTIONS: Sailing in the harbour at night-time with help of projector only.
MAX. SIZE: Draught: 19 ft., Length: 660 ft., Breadth: 70 ft., Height: None — no bridges to pass.
TUGS: One tug, 750 h.p. always available.
BERTHING: Protected from all winds. Depth up to 20 ft. 6 ins (6.3 m). 7,500 ft. of quay. In the fairway leading up to the harbour there is a depth of 20 ft. 6 ins (6.3 m.), distance about 6 miles.
CARGO HANDLING FACILITIES: Tracks along the quays in connection with the railway station and all Danish Railways. Also good road connections.
3 grain silos: 4,000, 12,000 and 15,000 tons 3 grain elevators loading 90, 80 and 50 t.p.h. respectively. 1 grain elevator discharging rate 40 t.p.h. 4 mobile belt conveyors loading up to 100 t.p.h. 2 mobile cranes (20 tons lift) — also grab and polygrab.
MEDICAL: Treatment of all kinds possible.
FRESH WATER: Available.
FUEL: Available.
CONSULS: Dutch, Finnish, French, Norwegian and Swedish.
DRY DOCK: Shipyard provided with 2 dry docks up to 32,000 d.w.t., building slips up to 35,000 d.w.t. Cranes to lift up to 100 tons.
AGENT: Casper Andrea's Succrs. Havnegade 33, PO Box 66, DK-4900 Nakskov, Denmark. Phone: 03-923333 Telex: 47545 andrea dk. Tlgms: Andrea Nakskov.

NYBORG: 55.19 N. 10.49 E.

DOCUMENTS:
Health Declaration.
Customs Declaration.
PILOTAGE: Required notice ETA 6 hours. Pilot station Tel. (09) 310089. Pilot boat VHF Channel 16. Pilot station Slipshavn. Pilot cutter yellow-painted with "Nyborg Lods" in black letters.
ANCHORAGE: South of Knudshoved Lighthouse. Depth 16 m. (52 ft.). Small vessels anchor S.W. of Avernakke Pynt.
MAX. SIZE: Avernakke Pynt Bro (Oilpier) draft 32 ft. length about 600 ft. Vesterhavn draft 24 ft. length about 400 ft.
RADIO: Lyngby Radio.
TUGS: One tugboat normally stationed in the port. Tugs required notice 8-10 hours.
STEVEDORES: Ordered by Agent.
MEDICAL: Hospital facilities available.
TANKERS: Discharge at Avernakke. Discharge lines 8 in. and 10 in.
DENSITY: About 1005.
FRESH WATER: Supply by pipe-line to berths.
FUEL: All grades available.
GANGWAY/DECK WATCHMEN: Not compulsory.
OPENING/CLOSING HATCHES: Crew allowed open and close, otherwise according Charter Party.
CUSTOMS ALLOWANCE: Tobacco, 100 cigarettes for 3 days. Wine and/or Spirits; 1 bottle spirit for 3 days.
IDENTIFICATION CARDS: Not required.

CONSULS: Finland 311198, Norway 310737, Sweden 312106.

AUTHORITY: Havnefoged, Havnekontoret.

NYKOBING: 55.55 N. 11.41 E.

DOCUMENTS:
Ship's Register.
Loadline Certificate.
Derating Certificate.
Crew List stating quantity of cigarettes, cigars, tobacco, cigarette paper, spirits, wine and guns.
Cargo List.
PILOTAGE: Pilot ordered through Agents and will board at Skellerev or Argus Ground (both outside Guldborg bridge).
ANCHORAGE: By Skellerev, safe ground.
RESTRICTIONS: Port only accessible by daylight, max. draft 19 ft. 6 in., max. breadth for passing Guldborg bridge 25 m. Entrance from South (Gedser) not recommended, as depth of water in the Southern part of Guldborgsund only amounts to 8 ft.
RADIO: For vessels coming through the Kiel Canal, Kiel Radio could be used, otherwise nearest station Lyngby Radio.
TUGS: Available on request.
BRIDGES: Vessels calling Nykobing Falster have to pass Guldborg bridge about 8 miles North of harbour. Turning bridge, breadth 25 m., opens by request after sunrise and half an hour after sunset (from 1st Nov. to 1st March from half an hour before sunrise). When requesting passage use international flag "N" on half foremast and give one long and one short blast.
STEVEDORES: Ordered by Agents on receiving vessel's ETA.
MEDICAL: No advance notice required for medical attention.
FRESH WATER: Supplied from quay installations.
FUEL: All grades obtainable – delivered by tank lorry.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Carried out by crew.
TOBACCO/WINE ALLOWANCES: Each crew member 100 cigarettes (or corresponding quantity of tobacco) and 1 bottle spirits.
IDENTIFICATION CARDS: Not necessary.
CONSULS:
Norway
Sweden
West Germany
Netherlands
Finland
REPAIRS: Small deck and engine repairs possible.
AIRPORT: Nearest at Copenhagen (2 hours by train.)
TIME: No alteration to clocks. GMT plus 1 hour.
HOLIDAYS: New Year; Maundy Thursday; Good Friday; Easter Monday; Prayer Day; 1st May (Labour Day, half only); Ascension Day; Whit Monday; Constitution Day (5th June, half only); Christmas and Second Christmas Day.
POLICE/AMBULANCE/FIRE: Dial 0–0–0 and ask for police, ambulance or fire service.
SHORE LEAVE: Crew members may go ashore without any restrictions.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Dominican Republic

GENERAL: All ports.

DOCUMENTS:

Vessels calling at Dominican ports require a complete Dominican consular despatch from every loading port as well as from the last foreign port of call. Should there be no Dominican Consulate at the respective loading port, the Agents should prepare 3 copies of the manifest to be delivered to Customs. If no Dominican Consulate at the last foreign port of call, the Agent will attend to all the formalities required by the local port authorities.

Smallpox vaccination certificates, not over 2 years old, will be required by the Port Doctor as well as the Deratization, resp. Exemption Certificate.

Additional papers, besides consular despatch, required by authorities are as follows:

Port Doctor:
1 copy crew list,
1 copy landing/transit passenger list,

Harbour Master:
Port clearance from last port of call,
3 copies crew list,
3 copies landing/transit passenger list,
3 copies negative passenger list (if none landing),
3 copies arms list.

Customs:
2 copies crew list,
2 copies arms list,
2 copies landing/transit passenger list,
2 copies negative passenger list (if none landing),
2 copies stores list,
1 copy tallybook.

Immigration:
2 copies crew list,
2 copies landing/transit passenger list.

Police:
1 copy crew list,
1 copy landing/transit passenger list.

Department of Agriculture:
1 copy stores list,
1 copy tallybook.

Agency:
1 copy crew list
1 copy landing/transit passenger list,
4 copies manifest (if not airmailed previously),
2 copies each B/L (if not airmailed previously),
7 copies tallybook.

Additional lists, etc., required are:
10 crew lists,
10 landing/transit passenger lists,
5 negative passenger lists (if none landing),
5 arms lists,
3 stores lists,
9 tallybooks,
4 copies cargo manifest (if not previously airmailed),
2 copies B/L (if not previously airmailed).

HOLIDAYS: New Year's Day (January 1st); Our Lady of High Grace (January 21st); Duarte's Day (January 26th); Independence Day (February 27th); Good Friday (Variable); Labour Day (May 1st); Corpus Christi (Variable); Restoration of Independence (August 16th); Our Lady of Mercy (September 25th); Christmas Day (December 25th).

Regular working hours: 0800 — 1200 hrs., 1400 — 1800 hrs., Mondays to Fridays and 0800 — 1200 hrs. Saturdays.

Saturday: Overtime is payable to labour for work performed after 1200 hrs. Pilots and government officials are paid overtime rates all day, but Customs personnel are only paid overtime rates after 1200 hrs.

The above holidays are legal in the Dominican Republic and for the diplomatic and consular representations abroad.

Work can be performed on all Sundays and holidays against payment of overtime to labour, Pilots, Customs and government officials.

TIME: GMT minus 4 hours all year round.

SPARES: Same can be withdrawn same day of arrival via air express. No Customs duties assessed as brought under Customs custody on board vessel. Airwaybill should be addressed to Agent, with clear indication that it covers spares for such and such a vessel.

SECURITY: Stevedores board vessel with special passes issued for vessel in question. Any other visitors must obtain pass from Harbour Master's Office. Nevertheless it is definitely recommended that all cabins be kept locked. This also applies to hatches that are not being worked.

POLLUTION: No garbage, refuse, etc., can be thrown overboard. Vessels liable to heavy fines for oil pollution, etc.

PLAGUE CONTROL: All lines leading to shore must be protected by ratguards. Non-compliance subject to Customs fines.

AZUA (Puerto Viejo): 18.30 N. 70.40 W.

See "General" before first port.

PILOTAGE: Ordered by Agent; vessel should wait for Pilot at a distance of 0.5 mile from the port.

ANCHORAGE: In the approaches, depth is 28 ft.

RESTRICTIONS: Berthing during daylight only.

HEALTH: Pratique is obtained by Agent. In case of infectious illness the whole crew is put in quarantine.

TUGS: Not available.

BERTHING: Finger pier, length 650 ft., width 120 ft. Dredged to 35 ft.

MEDICAL: Necessary for Agent to receive advance notice of required medical attention. Doctor available.

FRESH WATER: Delivered by barge.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Required.

OPENING/CLOSING HATCHES: Carried out by crew.

CUSTOMS ALLOWANCES: No restrictions.

IDENTIFICATION CARDS: Not required.

CONSULS: None.

REPAIRS: No repairs possible.

HEALTH: Pratique granted after Health Authorities have boarded and cleared vessel. In case of disease aboard notify Agents before arrival. Pratique is automatic when proceeding from another port in the same country.
RADIO: When within range, Santo Domingo Radio.
TUGS: No tugs available.
BERTHING: Alcoa Private Wharf, bauxite only. Mechanical loading, no stevedores.
MEDICAL: Medical attention can be arranged by Alcoa after vessel is cleared, preferably ashore. Minor cases are dealt with locally, more serious cases are transported to Santo Domingo.
TANKERS: One tanker at a time could be accommodated.
DENSITY: Salt water inside harbour.
FRESH WATER: Sometimes available.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Compulsory gangway watch kept by Customs guards.
OPENING/CLOSING HATCHES: Performed by crew.
CUSTOMS ALLOWANCES: Bond is sealed, but can be opened at Master's request.
IDENTIFICATION CARDS: Shore passes are provided by Immigration Authorities.
CONSULS: All Consuls at Santo Domingo.
REPAIRS: Not possible.
REPATRIATION: Can be arranged.
AIRPORT: Distance to airport 360 km.
POLICE/FIRE/AMBULANCE: Contact Port Authority.
TELEPHONES: Telephone on dock connected to Alcoa office.
SHORE LEAVE: Allowed.
GENERAL: No boats to be lowered without official permission.
AUTHORITY: Comandante de Puerto.
AGENTS: See "Santo Domingo".

LA ROMANA: 18.27 N. 69.01 W.

See "General" before first port.
PILOTAGE: Compulsory. Ordered by Agents on receipt of vessel's ETA, 72, 48 and 24 hours before arrival. Pilot launch painted white with grey cabin and with letters "LP-24" painted on sides. Pilot boards 1.5 miles from port entrance. Contact Pilot on 2738 and 2638. Pilot also on VHF Channel 16.
ANCHORAGE: West of Isla Catalina in depths of 15 to 18 fathoms.
RESTRICTIONS: No entry or sailing in hours of darkness.
MAX. SIZE: Length: 580 ft. Draft: arrival 25 ft., sailing 28 ft.
HEALTH: Pratique granted after Health Authorities have boarded and cleared vessel. In case of disease aboard notify Agents before arrival. Pratique is automatic when proceeding from another port in the same country.
RADIO: Santo Domingo Radio, HIX2, frequency 2738 kc/s. Near the port, use Centromana Radio on same frequency.
TUGS: One tug of 620 h.p. available. Extra charge for use of tugs line.
BERTHING: One concrete pier 720 ft. long.
STEVEDORES: To be ordered 4 hours before commencing work.
MEDICAL: Doctors and hospital facilities available. Medical attention can be arranged after vessel is cleared, preferably ashore. Minor cases are dealt with locally, more serious cases are transported to Santo Domingo.
TANKERS: Berth for 1 tanker at the pier. Discharge lines 10 in., 8 in., and 4 in.
DENSITY: 1025.
FRESH WATER: Available from 2 in. pipe-line on pier. Very low rate of supply.
FUEL: Not available.
WATCHMEN: To be provided by vessel. Compulsory gangway watch kept by Customs Guards.
OPENING/CLOSING HATCHES: Generally by ship's crew.
CUSTOMS ALLOWANCES: Seamen may take ashore only 2 packets of cigarettes and no alchohol.
IDENTIFICATION CARDS: Shore passes issued by Immigration Officer.
REPAIRS: Only minor repairs can be effected.
REPATRIATION: Arranged via Santo Domingo.
AIRPORT: Distance 70 kms.
POLICE/FIRE/AMBULANCE: Police, 235; Ambulance, 455; Fire, 455.
TELEPHONES: In dock office, ask Sugar Mill for number required.
SHORE LEAVE: Allowed.
AUTHORITY: Comandante de Puerto.

MANZANILLO: 19.43 N. 71.45 W.

See "General" before first port.
PILOTAGE: Compulsory. Pilot comes from Puerto Plata. Boards incoming vessels about 1 mile from the dock. (The Pilot's working hours from 0800 to 1200 hrs., 1400 to 1700 hrs.; a fee charged after working hours. A fee is also charged for movements in harbour.) Ships will be received Saturdays and Sundays and at night for the same rate for the Pilot. Contact Pilot on 2738 and 2638, also on Channel 16 VHF.
ANCHORAGE: Vessels that cannot be docked on arrival will find safe anchorage to the East of the dock where there is plenty of swinging room, in about 20 fathoms of water, with good holding ground of mud and sand.
APPROACHES: Coast Guard Service recommend that a ship, entering Manzanillo Bay from the East, should stay well out until it has rounded shoals surrounding Seven Brothers Islands. At approximately 19° 58′ W. Long. a course of 127° will bring it into the bay near the wharf. A ship arriving from the West should stay about 6 miles off Cape Haitian Light. When abreast the light a course of 111° will lead into the Bay a short distance North of the pier.
RESTRICTIONS: Entry and departure day and night.
RADIO: Radio Station HIL31. This station is private and for the use of Grenada Co. only. Messages of ETA, etc. from vessels should be sent via Miami WAX or New Orleans Radio WNU.

Vessels bound for Manzanillo, should radio their ETA to Santo Domingo Pilot Station daily, from 0600 to 1800 hrs. on frequency 2738 and 2182.

Vessels having single sideband equipment may also contact Radio Instituto Agriario Dominicano at Manzanillo, at wavelength 26.70 and 26.38 kHz from 0700 to 1200 hrs. and 1400 to 1700 hrs. EST.
TUGS: No heavy duty tugs available but there is a launch for the handling of ship lines. Tug available from Puerto Piata if required due to size of vessel.
BERTHING: Prevailing winds are Easterly and sometimes interfere with docking or undocking. On the East side vessels should dock bow in, since there is not enough room to swing vessels safely around for a port docking. On the West side vessels can dock either side to the pier, depending on the direction and force of the wind. In general banana vessels will be docked on West side of the pier and cargo vessels on the East side. Pier has a concrete deck 744 ft. long, 72 ft. wide. Both sides of the pier are protected with a pine fender system. The water depth at land end of pier is 10 ft. and at the seaward end 40 ft.
MEDICAL: Small dispensary in Manzanillo. Hospital facilities in Monte Cristi, 30 km. away.
STEVEDORES: Available.
FRESH WATER: Available for ships calling at this port only.
FUEL: None available.
GANGWAY/DECK WATCHMEN: Carried out by crew.
OPENING/CLOSING HATCHES: Crew or stevedores.
CUSTOMS ALLOWANCES: Each crew member will be allowed to take ashore one only opened package of cigarettes.
CREW IDENTIFICATION CARDS: Required.
REPAIRS: Small repairs carried out only.
REPATRIATION: Facilities available.
SHORE LEAVE: Members of crew are allowed to go ashore at this port, but Masters should caution them not to take on their persons any dutiable articles, as the Customs will search such men upon landing and should any such articles be found on their persons, this will be treated as an attempt to smuggle; severely punishable offence.
AUTHORITY: Comandante de Puerto.
AGENTS: Agencia Maritima y Comercial C.p.A. Paseo Presidente Billini (Malecon) 27, Apartado 1125, Santo Domingo. Tel.: 688-3371. Telex: RCA 4137. Cables: "Rmella Santo Domingo".

PALENQUE: 18.12 N. 70.11 W.

SHIPMASTER'S REPORT (October 1976)
The vessel called at Punta Palenque to discharge a cargo of feedstock from Venezuela. The SBM is located in position 18° 12.2′ N. 70° 11.3′ W. and operated by Refineria Dominicana.

ARRIVAL ADVICE: Agent at last port should telex ETA to Punta Palenque. Unable to establish Radio contact with local coast station.
DOCUMENTS:
7 Crew Lists
2 Store Lists.
1 Crew Effects List.
2 Passenger Lists.
2 Lists of Arms & Ammunition.
2 Lists of Narcotics.
1 Health Declaration.
Clearance last Port.
PILOTAGE: Pilotage is compulsory. Mooring and unmooring 24 hours a day. Pilot boards about 1 mile Southwest of SBM.

Pilot boat, a small tug with black hull and white superstructure, is equipped with VHF Channels 16 & 14, call sign Punta Palenque Pilot. Pilot moors the vessel with the assistance of the Loading Master who gives directions on the focs'le. The tug delivers the mooring gear consisting of 2 nylon tails put on vessel's bits and shackles. The nylon tail will be shackled to SBM mooring lines. These mooring lines consist of about 100 ft. nylon rope and 10 ft. chain. The chain is heaved inboards by means of 1 wire and 1 nylon or polyprop messenger and connected to nylon tails on vessel's bits.
MAX. SIZE: Vessels up to 260 m. in length with max. draft of 14.6 m. A circle of 2000 ft. around the buoy with a min. depth of 50 ft.
HEALTH: Radio Pratique not available.
TUGS: Not available for mooring itself. Messengers to and from SBM are handled by a small work boat.
BERTHING: SBM of standard type with 2 moorings. Two floating hoses attached with 12 in. manifold connection. Hoses are handled by ship's crew under the supervision of the loading master. Maximum discharge pressure 125 lbs/sq. in.
REPAIRS: None available.
GENERAL: No navigational hazards approaching Punta Palenque from the South. SBM shows on radar at a distance of about 11 miles.
Reference: B.A. charts 3689, 471; West Indies Pilot Volume 1, Supplement No. 3 1975.
Weather: Wind: N.E. Trades
Current: Predominating from East to West but sometimes shifting to opposite direction for short periods. Velocity about 1.5 knots.
Services: Fresh water, provisions, fuel oil and diesel oil not available. No medical assistance. Shore leave not permitted, repatriation not possible.
Master's Remarks: When approaching from the South, the coast of Dominican Republic gives a good radar target. SBM could be picked up at about 11 miles distance, however, the red flashing light of SBM is very poor. Punta Palenque Pilot could be contacted at a distance of 30 miles.
Authorities: After vessel is moored Pilot acts as Agent together with a senior Custom Officer who came on board with the Pilot. Two junior Custom Officers will stay on board during the stay in port, also Loading Master and/or his assistant. Pilot delivers outward clearance.

PUERTO PLATA: 19.49 N. 70.41 W.

See "General" before first port.
PILOTAGE: Pilot arranged by Agent on basis of Master's advance notice of ETA. Pilot and Agents can be contacted by radio telephone, frequency 2738 and 2638. Pilot boards 0.5 miles from port entrance. Pilot also on VHF Channel 16.
ANCHORAGE: Deep water anchorage available outside port. Pilot will advise best location.
RESTRICTIONS: Night entry not recommended.
Depth at entrance 42 ft., depth on bar 37 ft. H.W. and 34 ft. L.W. Depth in harbour 30 ft. to 35 ft.
MAX. SIZE: 500 ft. length, 28 ft. draft.
HEALTH: Pratique granted after Health Authorities have boarded and cleared vessel. In case of disease aboard notify Agents before arrival. Pratique is automatic when proceeding from another port in the same country.
RADIO: When within range Santo Domingo Radio.
TUGS: Small Navy tugs available.
BERTHING: One wharf 30 ft. alongside. Pier 496 ft. long, 135 ft. wide. Facilities include water, electricity, cranes, warehouses. New pier recently constructed is 934 ft. long, with depth alongside 35 ft., also 144 ft. wide.
STEVEDORES: ETAs required 24 and 12 hours before arrival to arrange gangs.
MEDICAL: Medical attention can be arranged after vessel is cleared preferably ashore. Minor cases are dealt with locally, more serious cases are transported to Santo Domingo.
TANKERS: Berth at molasses/petroleum berth.
DENSITY: Salt water inside harbour.
FRESH WATER: Pipe-line at wharves. Ship's hoses used.
FUEL: Small amounts of diesel available by truck from Santo Domingo.
GANGWAY/DECK WATCHMEN: Compulsory gangway watch kept by Customs guards.
OPENING/CLOSING HATCHES: Can be performed by crew or stevedores.
CUSTOMS ALLOWANCES: Bond is sealed, but can be opened at Master's request.
IDENTIFICATION CARDS: Shore passes are provided by Immigration Authorities.
CONSULS: All Consuls at Santo Domingo.
REPAIRS: Minor repairs only.
REPATRIATION: Can be arranged.
AIRPORT: Distance 250 km.
POLICE/FIRE/AMBULANCE: At Santo Domingo.
TELEPHONES: Nearest in Customs House alongside wharves.
SHORE LEAVE: Allowed.
GENERAL: No boats to be lowered without official permission.
AUTHORITY: Comandante de Puerto.
AGENTS: See "Santo Domingo".

RIO HAINA: 18.25 N. 70.01 W.

See "General" before first port.
PILOTAGE: Pilot boards from small boat flying a flag with a white "P" on a black background, about 1.0 mile from harbour entrance. Contact Pilot on 2738 or 2638 and Channel 16 VHF.
RESTRICTIONS: It is recommended to sail during daylight only.
TUGS: 2 tugs, 1,200 h.p. and 850 h.p.
MAX. SIZE: Draft about 29 ft. Length about 600 ft. for sugar berth.
BERTHING: Vessels going to load sugar swing inside the harbour with the aid of a tug, and berth starboard side to the quay. Ship's gangway is recommended. There is sometimes quite a swell running inside the harbour. The port anchor is used for berthing and unberthing.
LOADING: Sugar is loaded by 3 mechanical loaders which are fixed so that large vessels are required to shift along the quay to load in end hatches. Loading rate is quoted as being 350 t.p.h. Cargo quantities are given in short tons.

At least one beam has to be removed from each hatchway to allow loader to enter.

Possible to load 8,500 ton vessel within 24 hours.
SPECIALISED CARGO HANDLING FACILITIES: Roll-on/Roll-off facilities on East bank of river. Container gantry crane available.
FUEL: Fuel oil, diesel and intermediate fuels available from bunker barge.
REPAIRS: Minor repairs in Santo Domingo.
AUTHORITY: Commander of the port and Collector of Customs.

SAN PEDRO DE MACORIS: 18.30 N. 69.12 W.

See "General" before first port.
PILOTAGE: ETA required 24 hours before arrival. Pilot meets vessels 0.5 mile from buoy. Pilot Radio Station frequency is 2738 and 2638 also VHF Channel 16. In the event of bad weather vessel should remain 3 miles South of the buoy. Pilot boards from small unmarked motor boat.
ANCHORAGE: One mile South of the lighthouse; depth 60 ft.
RESTRICTIONS: Channel depth 30 ft. Up to 350 ft. length, no restrictions. Larger vessels enter in daylight only.
MAX. SIZE: Vessels of 600 ft. length have berthed alongside. Draft up to 26 ft. maximum.

Larger vessels leaving port after loading may require to use port anchor to manoeuvre around sharp bend in buoyed channels just inside harbour entrance.
HEALTH: In case of illness or death on board, send a cable before arrival; doctors available.
RADIO: Radio Station, frequency 2738, call Radio Pilot de San Pedro de Macoris.
TUGS: Compulsory. Tug joins vessels inside the port – 150 ft. from the quay. One tug 500 hp.
BERTHING: Quay No. 1, – 900 ft. long, 25 ft. depth; Quay No. 2, 600 ft. long, 25 ft. depth; Quay No. 3, 600 ft. long 24 ft. depth.

Large vessels arriving to load swing inside the harbour using starboard anchor and berth port side to quay. At a later date barges are placed between the ship and quay, to permit greater draft, and Pilot receives extra payment for doing so. Use of gangway is recommended.
LOADING: Vessels loading sugar use ship's gear and ship has to supply rope slings. The chains on the centre sections of MacGregor hatches are broken, and a gap of about 2 ft. made, through which the bags of sugar are bled into the holds at the rate of about 220 tons per gang per day. Only 6 bags per sling are lifted at a time. Stevedores cover hatch openings with tarpaulins when loading is completed for the day. They will make up any extra slings that are required if ship supplies rope.
TANKERS: Oil line diameter 8 in. Max. pressure 60 lb. per square inch.
FRESH WATER: Available.
FUEL: Supplied by truck.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Crew.
CUSTOMS ALLOWANCES: Only sufficient for port consumption. Allowed take only 2 open packets cigarettes ashore.
IDENTIFICATION CARDS: Required.
CONSULS: Great Britain Vice-Consul only. Others at Santo Domingo.
REPAIRS: Minor repairs only.
AIRPORT: Airport is located at 40 km. distance.
TELEPHONES: No telephones on board.
REGULATIONS: Rat guards to be fitted on all ropes. No boats to be lowered without official permission.
REPATRIATION: Can be arranged.

SHORE LEAVE: Allowed.
DEVELOPMENTS: Harbour being dredged to 30 ft. alongside the wharves.
AUTHORITY: Comandante de Puerto.
AGENT: See "Santo Domingo".

SANTO DOMINGO: 18.28 N. 69.53 W.

See "General" before first port.
PILOTAGE: Pilot arranged by Agent on basis of Master's advance notice of ETA. Pilot and Agents can be contacted by radio telephone, frequency 2738, 2182, and 2638 kHz. Pilot boards 1.5 miles off breakwaters. Pilot also on VHF Channels 12 and 16.
ANCHORAGE: Deep water anchorage available outside port. Pilot will advise best location.
RESTRICTIONS: If draft over 24 ft., Master should advise Agent before arrival. Berthing after dark not advisable for petroleum and grain berths.
MAX. SIZE: Length over 650 ft. inadvisable. Max. draft 29 ft.
HEALTH: Pratique granted after Health Authorities have boarded and cleared vessel. In case of disease aboard notify Agents before arrival. Pratique is automatic when proceeding from another port in the same country.
RADIO: When within range, Santo Domingo Radio.
TUGS: Join vessel inside port. Ship's lines used. 2 tugs available, 1,200 h.p. and 800 h.p.
BERTHING: Daylight berthing only for vessels proceeding to private Tallow/Soda terminal and Cement Wharf.
BRIDGES: Vessels proceeding up river, height limited to 95 ft. above waterline.
STEVEDORES: ETA's required 24 and 12 hours before arrival to arrange gangs.
MEDICAL: Medical attention can be arranged after vessel is cleared, preferably ashore.
TANKERS: One berth, draft 29 ft., at Sans Souci.
DENSITY: Brackish inside harbour. Effect of tide negligible.
FRESH WATER: Pipe-line alongside berths. Ship's hoses used.
FUEL: Fuel and diesel available ex-tanker berth. At other berths by bunker barge.
GANGWAY/DECK WATCHMEN: Compulsory gangway watch kept by Customs guards.
OPENING/CLOSING HATCHES: Performed by crew or stevedores.
CUSTOMS ALLOWANCES: Bond not sealed.
IDENTIFICATION CARDS: Shore passes are provided by Immigration Authorities.
CONSULS: All Consuls at Santo Domingo.
REPAIRS: Minor repairs only.
DRY DOCK: Can accept vessels up to 320 ft. long, 50 ft. beam, 17 ft. draft.
REPATRIATION: Can be arranged.
AIRPORT: Distance, 26 km.; served by regular airlines with numerous flights daily.
POLICE/FIRE/AMBULANCE: Police, San Domingo 682-3000; Ambulance, San Domingo 682-4288; Fire, San Domingo 682-2000.
TELEPHONES: No connection to vessels.
SHORE LEAVE: Allowed.
GENERAL: No boats to be lowered without official permission.
AUTHORITY: Comandante de Puerto.
AGENTS: Baez & Rannick S.A., Edificio La Cumbre, Central Commercial NACO, Apartado 1221, Santo Domingo. Cables: "Tatem Santodomingord". Telex: ITT 3460034, RCA 326178. Tel. 565-6661.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Ecuador

GENERAL

DOCUMENTS: Apart from the usual ships papers the following documents are required by the Port Authorities using Standard ALALC forms.

1 Health Declaration and Annex.
2 Voyage Memorandum.
1 Crew List, with vaccination dates.
6 Crew List.
6 Passenger List (or negative).
6 Passenger List (in transit).
2 Crews Personal Effects.
3 Passenger Baggage.
3 Mail List (or negative).
4 Store List.
3 Cargo Manifest (in transit).
3 Cargo Manifest (for port).
1 Bills of Lading for the Port.

The ship's Agents may also require copies of these forms.

Consular documents must be delivered to the Customs Authorities as follows:–

From each port where cargo was loaded for Ecuador
1 Consular Manifest (legalised).
1 Parcel List, if any (legalised).
4 envelopes addressed to the Custom's Administrator, the Director General of Customs, The Controller General of the Nation, and the Ministry of Finance.

Notice of Arrival, and intended sailing date must be given to the Port Authorities, via the Agent, at least 3 days prior to arrival.

PRATIQUE: Radio Pratique is not normally granted. Notice of arrival should be given at least 24 hours prior to arrival to Radio Naval Guayaquil, call sign HCG. Listens on 500 kc/s. 8,385 kc/s. 8,320 kc/s. Answers back on 8,472 kc/s. 8,475 kc/s.

The message should read as follows:–

CAPUERTO
MEDICO SANIDAD
ADMINISTRADOR ADUANA followed by name of port
IMMIGRATION
"vapor ...1... ...2... procedente ...3... no enfermos abordo, no explosivos no pasajeros para ...4... pasajeros en transito ...5... tons carga para descargar ...6... sacos correo para descargar eta boya ...7... agencia ...8... ...9... Capitan. or in translation (original must be sent in Spanish).
SS ...1... ...2... from ...3... no sick on board, no explosives no passengers for Guayaquil (or name of port) ...4... passengers in transit ...5... tons cargo to discharge ...6... bags of mail to unload ETA sea buoy ...7... agency ...8... ...9... Captain.

1. being name of the vessel.
2. nationality of the vessel.
3. last port and port of call.
4. number of passengers in transit (logically, if there are passengers for the port call, instead of saying (no pasajeros para .. the correct number would be indicated).
5. number of weight tons of cargo for the port.
6. number of bags of mail.
7. estimated hour of arrival at sea buoy, or buoy No. 1 off Data.
8. Agent's name.
9. Master's name.

The same message should be sent to the ship's Agent.

When quoting arrival times use GMT or Ecuadorian Time (GMT minus 5 hours). Summer time is not kept.

The boarding party usually arrives on berthing.

The Vaccination Certificates should be ready in the same order as the Crew Lists.

FLAG: The national flag has yellow, blue and red horizontal stripes. The yellow is twice the width of the others. Government vessels show the national Arms in the centre of the flag.

All foreign vessels will fly the flag from the highest mast.

PILOTAGE: Pilotage is compulsory for all vessels over 500 tons gross. Vessels should await the Pilot off the sea buoy at all ports unless instructed to the contrary. The Pilot must be requested by the Agent at least 12 hours in advance. They are available 24 hours a day, every day of the year.

STEVEDORES: The stevedores are drawn from the 4 respective unions in rota. The foremen are generally selected by the Agent. The same gang will work the ship until completion, working around the clock if necessary. Gangs will start work at virtually any hour.

Opening and closing of ships hatches is undertaken by the stevedores and also the rigging of gear. Even though the stevedores receive payment for rigging anyway, it is advisable to use the ships crew.

Cold Fresh water and lavatories must be made available to the stevedores.

Tally clerks are selected in a smiliar way to the stevedores.

WATCHMEN: 1 or 2 Customs guards will remain on duty, nevertheless the use of watchmen is advised.

GARBAGE: Before docking all vessels should cover all discharge points to prevent material or water being deposited on the quayside. The dumping of any waste is strictly forbidden except in an emergency. No oil may be dumped within 50 miles of the coast, and Ecuador strictly enforces the Anti-Pollution laws.

RAT GUARDS: There must be placed on all mooring lines while the vessel is in port. This rule is strictly enforced.

FIRE DRILL: Periodical fire drills are held. The signal is 6 short blasts. Smoking on dock is prohibited, and cigarettes must not be thrown through port holes.

CREW: Shore leave is permitted except at the Tanker berths. Each man must carry an identity card. It is difficult to sign on a foreign crew member in Ecuador, unless he has been left behind by another company vessel. A visa is not required for replacements arriving from abroad, but the crew member must have a passport or seaman's book, together with a letter from the ship operator stating name of vessel to be joined.

In declaring personal effects, all new purchases must be listed, as well as electrical devices, typrewriters, sextants, etc.

The master has the right to issue or annul boarding passes if he has the approval of the Port Authority.

As a rule visitors are not allowed entry to the Port Area, although special permits are given to certain vendors. They may come on board solely at the discretion of the Master.

BALAO TERMINAL (ESMERALDAS): 01.02 N. 79.44 W.

OPERATORS: Texaco-Gulf.

LOCATION: Sea terminal berth X (SBM-W) for vessels up to 100,000 d.w.t. is off the mouth of the Esmeraldas River in position Lat. 01° 02′ 03″ N. Long. 79° 42′ 57″ W. and has a minimum depth of 120 ft. at LWS. Berth Y (SBM-E), also for 100,000 d.w.t. vessels, is situated 3.3 miles from the shore and 1 mile distant on true bearing 081°. From berth X in position Lat. 01° 02′ 12″ N. Long. 79° 41′ 51″ W. and has a minimum depth of 120 ft. at LWS.

Berth X (SBM-W): *Lights:* green – blue, flash 1.2 secs., eclipse 6.8 secs., range 5.3 miles, fitted with radar reflector.

Berth Y (SBM-E): *Lights:* green – blue, flash 0.3 secs., eclipse 0.7 secs., range 5.3 miles, fitted with radar reflector.

DOCUMENTS: The following documents are required for the Port Officials who will board any time after arrival, usually during mooring operations.

8 Crew Lists.
6 Passengers List.
4 Cargo Manifest (1 visaed).
2 Bills of Lading.
8 Stores Lists.
6 Copies of List of Personal Effects of Crew.
6 Copies of Voyage Memorandum.
1 Copy of Health Patient Certificate.
2 sets Consular Papers to be obtained at the Ecuadorian Consulate at last port. If no Consul available or by other reason, this matter will be arranged and settled by Ship's Agency in Esmeralda.

Consular papers may be obtained by the Agents of ship at last port, however they MUST arrive to Esmeraldas no later than 4 days after the vessel has left Balao. Otherwise agency will arrange locally and pay dues in Esmeraldas.

PILOTAGE: Pilotage is compulsory and Masters of vessels are reminded of their obligations to comply with statutory rules and are requested to comply with the following:

1. The Watchkeeping Officer of the ship must be responsible for the boarding and dispatching of the Harbour Pilot.
2. The ladder should be properly secured.
3. The pilot ladder and immediate areas must be adequately illuminated at night.
4. The upper part of the ladder should be safe and secure to enable the Pilot to pass to the ship's deck.
5. The ladder should be in good condition and its treads should remain horizontal throughout the boarding or dispatching.
6. The length of the ladder should not exceed 30 ft. Whenever the distance from sea level to the point of access is more than 30 ft., a combination accommodation ladder/pilot ladder, or other equally safe and convenient unit for boarding or dispatching should be used.
7. The ladder should be rigged in such a manner that each step rests firmly on the ship's side, and spreaders should be placed at intervals of no more than 10 ft. to prevent the ladder twisting.
8. Nylon pilot ladders must not be used.

Pilotage zone: This zone must be considered within the following co-ordinates:

01° 00′ N.
01° 04′ N.
79° 40′ W.
79° 46′ W.

In this zone are included the Pilot boarding, anchoring and mooring areas.

Pilot boarding area: The Pilot boarding area is in a position approximately 1.5 miles N.W. of berth Y (SBM-E) between the parallels of 1° 04′ and 1° 03′ N. and meridians of 79° 40′ W. and 79° 43′ W.

ANCHORAGE: Vessels required to anchor on arrival will anchor in a position approx. 1.5 miles S.W. of the berth X (SBM-W) in an area between the parallel of 1° 02′ N. and 1° 00′ 30″ N. and the meridians 79° 44′ W. and 79° 46′ W.

RADIO: Vessels bound for Balao must advise their ETA to Superintendencia Naval, Esmeraldas, 72 hours and 24 hours before arrival. Message must contain vessel's name, ETA, Master's name. A 24 hour watch is maintained on HF-SSB-2182 – 2136.3 kHz call frequency, and 4139-6210 kHz working frequency and VHF Channel 16. Vessels are usually able to make contact on this channel at a distance of 20-30 miles on the seaward side of the berth operation. Channel 14 will be used for contact between ships and the

Superintendencia Naval before the port arrival. Channel 12 is used for internal traffic, loading, unloading and ships berthing operations.

TUGS: 3 line boats available, 560 h.p. each.

BERTHING: The mooring area is situated between the parallels of 01° 03′ N. and 01° 00′ N. and the meridian 79° 40′ W. and 79° 44′ W. Mooring operation will be undertaken by day under normal weather conditions (0500 – 1700 hrs.). Unmooring operation will be undertaken by day and night without restrictions.

In this area the traffic of small craft such as fishing vessels, coasting vessels engaged in cabotage is absolutely prohibited with the sole exception of small craft used in the reception and mooring of tankers.

Mooring Turn (Arrival): Arrival time is considered the time the vessel reaches the anchorage vicinities or the time the Pilot boards the vessel, whichever occurs first. In any case, the Terminal will give priority to the ship that arrived first.

Mooring information: When a vessel is within reasonable distance of the buoy, two ship's lines will be carried by the mooring tug to the floating buoy lines and secured to same. These lines will then be heaved aboard. As the buoy ropes come clear of the water, it will be noted that chains are attached to them. These chains are to be secured to the bitts in such a manner that the nylon is outside of the external length of the ship so the chains absorb any chafing if the buoy lines cross the bow. There are two buoy lines. Power must be available at all times on all deck winches and windlass while the vessel is at the berth.

A mooring line must be available aft, secured to the bitt and of sufficient length to enable a tug boat to pick up the eye and tow off if necessary.

Unmooring: The Mooring Master will advise to Texaco Control the estimated time for the completion of loading and will ask for Official Pilot. Then, hose disconnecting operation is undertaken aboard ship. After the unmooring takes place, the tug boat comes alongside the ship to transfer all material and personnel that have been used during the operation. Then the vessel will be ready to leave the Terminal after receiving the respective documents.

Average Operation Time: Subject to different characteristics of each ship, it can be considered as reference, the following rates:

(a) Approaching the SBM from Anchor Area, or	50 minutes
(b) Approaching the SBM from Pilot Boarding Area	30 minutes
(c) Putting mooring and connection equipment aboard ship	30 minutes
(d) Mooring	30 minutes
(e) Hose lifting and hose connection	80 minutes
(f) Hose disconnecting	40 minutes
(g) Unmooring	10 minutes
(h) Removal of Personnel and Equipment	25 minutes
(i) Maximum flow rate	4,200 t.p.h.

HOSE HANDLING: *Buoys "X" and "Y".* Lifting, connecting, disconnecting, lowering and other operations will be performed by a special team from shore under the Loading Master's orders with assistance of the ship's deck Officer. Port derrick must be rigged and ready for use on arrival and vessels should be warned that the weight of each hose is at least of 5 tons under favourable conditions. Members of the ship's crew will be required to operate the winch or winches.

Particular care should be taken during the hose handling operation in order to avoid serious damage to the hoses, the plastic floats and buoys on the plate edges, rails, etc.

LOADING: Loading is through SBMs which are 49.5 ft. in diameter and held, each one in position by fixed chains secured to piles sunk into the sea bed. Buoy X is equipped with 810 ft. length and 24-inch self-float loading hose which is manifolded to two 105 ft. length and 12 in. tail hoses. Buoy Y is equipped with a 20 in. self-float loading hose manifolded to two 12 in. tail hoses. Each buoy is equipped with a 810 ft. length and 20 in. floating string reduced to 12 in. tail hoses for deballasting. Standard loading rate is about 30,000 b.p.h.

Potential Loading Rate:
Berth X 38,000 b.p.h.
Berth Y 36,000 b.p.h.
Max. Pressure allowed: 225 p.s.i.
Booster pump: none.

DEBALLASTING: The load on top system is accepted at this terminal and vessels are requested to arrive with slop tanks "settled out" as far as possible. At the present time the terminal is not able to handle slops and until such time as the terminal is able to receive slops, shore discharge is prohibited.

All clean ballast must be pumped ashore, with the exception of vessels especially equipped with clean segregated systems – which are reserved for ballast only. Vessels so equipped will be permitted to pump segregated ballast overboard after being accepted and approved by shore inspectors.

For the water processing of ballasted tankers, the Balao Terminal has an adequate system that starts in the hoses of the buoys and passes through a submarine pipe going to a preseparator, where it hits and separates: first the water of the hydrocarbons, then goes to a decantation pool, where it stays 48 hours and after goes to a final separator in which are collected the last traces of hydrocarbons and finally the clean water is drained to the sea.

Vessels going to Balao to load crude oil must arrive with sufficient ballast for safe manoeuvring, that is, should be 25 to 30% of the capacity of the ship (Deadweight tonnage) and 10 ft. trim or less.

After the ballast tanks have been inspected and found satisfactory, deballasting will commence on the advice of the Company representative. When the ballast has been discharged, the tanks will again be inspected and if ready for cargo, a Dry Certificate will be signed by the Company representative. In any case cargo will be loaded when both ship and shore are ready to commence operations. Under no circumstances will the vessel be expected to load at a faster rate than that requested by the Master. It is the ship's responsibility to check that the requested loading rate is not being exceeded. The Company for their part, will make every effort to maintain the requested rate and will advise of any alteration in the loading rate immediately.

POLLUTION: The Ecuadorian Government have very strong views on pollution and vessels are warned that a very careful watch is kept at all times to ensure that pollution does not take place – or that if pollution does occur it is controlled as quickly as possible. Masters are advised that it is against the law to pollute the waters and coast of this Country and severe penalties are imposed for such offences.

During the hours of darkness it is requested that searchlights from bridge wings and approved floodlights are used to illuminate surrounding waters to facilitate detection of oil and assist generally in loading operations. Vessels are advised that failure to supply sufficient lighting could result in cargo operations not being allowed during the hours of darkness. Such delays would be for vessel's account.

SHIP'S OBLIGATIONS IN PORT:

(a) It is the obligation of the ship's Master or his representative to receive the official Pilot at the gangway and provide him with all information required.

(b) Ship's Master must delegate the First Officer or any other responsible officer as his representative for receiving Official Authorities at the gangway and provide them with documents and information while remaining on board.

(c) Ship's Master is obliged to present to the Superintendencia Balao Insurance Certificate against pollution issued by Tovalop, Ship's Register and all ship's documents that might be required.

(d) Accommodation and meals must be provided for Ecuadorian Guard personnel, such as naval personnel and others as required.

(e) Accommodation and meals must be provided for Watch Mooring Master.

(f) Meals must be provided for official Pilots if they are on board at meal times.

(g) Facilities and personal assistance must be provided for Government officials representing the Natural Resources Ministry who will board the vessel to perform tank inspections and loading control.

WEATHER AND CURRENT: Wind and swell are mostly from S.W. direction. During the wet season (December to May approximately) wind and current are from a N.E. direction. The currents vary frequently, sometimes reverse direction from the wind causing the vessel to yaw heavily at the berth. Nevertheless, in general, the weather the whole year is good. Sometimes, however, during the dry season (June-November) mooring operations are limited to wind intensity.

DENSITY: 1025.

FRESH WATER: Available but limited.

MEDICAL: Hospital and clinic available.

FUEL: Not available.

TIME: GMT – minus 5 hours throughout the year.

PROVISIONS: Available.

REPAIRS: No facilities of any kind are available at this port.

DIRTY BALLAST: Dirty ballast facilities are available except slops.

REPATRIATION: Only if the person concerned holds the necessary valid certificates and documents. For crew joining make Quito the disembarking airport.

CONSULS: Panama, all other consuls in Quito.

SHORE LEAVE: Possible, two radio-equipped launches provide service day and night.

GENERAL INFORMATION: Yagua Shipping Agency has its installations on the Oceanfront side of Esmeraldas, Ecuador, and dedicated exclusively to attend to handling and protecting Agents on behalf of Owners, Charterers and Operators for crude oil tankers arriving at this port. They are also Agents of Texaco-Gulf consortium for their individual and chartered vessels as well as handling of documents and export policy of every particular crude shipment.

They are also attending the vessels which carry shipments of the Ecuadorian Government on behalf of the Operators.

AGENTS: In Quito: Yagua General Services Ltd. P.O. Box 69, Quito-Ecuador, Portoviejo No. 442, Fifth floor. Cable: Yagua Quito. Telex No.: 2220 Yagua Ed. Phones: 524–816 and 521–706.

In Esmeraldas: Yagua Shipping Agency, PO Box 266, Kennedy No. 1100 Avenue, Esmeraldas-Ecuador. Cable: Yagua Esmeraldas. Phones: 710–370 and 711–180.

Also on VHF Channels 16, 6, 12 and 71.

GUAYAQUIL: 02.12 S. 79.52 W.

DOCUMENTS:

Port Doctor:
Derat Certificate.
Maritime Declaration of Health.
Crew Roll with dates of vaccination against smallpox for each member.
Same for each passenger.
Passenger List.
Passenger List in Transit.

Harbour Master's Office:
Voyage Report.
Clearance from last port.
Crew Roll with original visa from Ecuador Consul in first port of voyage (3 copies).
Passenger List with original visa from Ecuador Consul in embarking port, or declaration that they have no visa, signed by Captain (2 copies).
Passenger List in transit signed by Captain or declaration that they have no passengers in transit (2 copies).
Provisions List, Stock and Medicines on ship (3 copies).
Cargo Manifest in transit (1 copy).
Combustible or inflammable Cargo (1 copy).

Customs:
8 copies of Manifest.
Sealed envelope of Manifests, consular and commercial invoices and non negotiable vouchers.
Cargo index and copy of Cargo Manifest in direct transit (8 copies).
A Register (8 copies) of spare parts for vessel and provisions.
Crew Roll and detailed list (8 copies) of personal belongings of officers and crew.
Passenger List, with indication of their suitcases and list of suitcases that travel without their owners; in this case should be specified the port where they were put on board and personal declaration of each passenger (8 copies).
If the vessel with ballast, Master will be obliged to produce (besides the ballast certificate) documents already mentioned in each respect. Master or Maritime Agency will produce a written statement to Customs within 12 hours from arrival of vessel whether they decide to take any cargo for exporting. If not loading vessel must leave within the following 24 hours.

Immigration:
Crew List signed by Master.
Passenger List of those who disembark there or a declaration of none for this port, signed by Master.
Passenger List in transit, or a negative declaration signed by Master.
In case of having passengers to disembark in this port, Master should produce passports and visas.
Crew identification cards or similar documents.
Inspection of ship by Authorities will be done (compulsory) within 3 hours of arrival, usually as soon as ship berths, or in quarantine.

PILOTAGE: Vessels approaching port to notify their arrival by Naval Radio Station HCG, 24-hour service, frequency 8476 kc/s. and 500 kc/s. Traffic list broadcast every hour on 8476 kc/s.

Advance notice of not less than 12 hours required, addressed to Capuerto Aportuaria Agencia in either English or Spanish with the following details: date, and time of ETA, destination (whether Buoy No. 1 or Puna), maximum draft, cargo details, details of passengers or mail, and if Pilot required.

Pilot Station for Puerto Maritime: Situated in position 02° 43′ 18″ S. 80° 17′ 30″ W. Pilot boat needs 1 hour to go from Pilot station to Buoy No. 1. Contact by VHF Channel 16, 24-hour service. Pilot boat is wooden, 45 ft. long, black hull, white cabin, with letter "P" on sides. During day carries blue flag with letter "P" and by night has regulation pilot lights.

Pilot Station for River Guayas: Situated in village of Puna. Pilot boat requires a minimum of 30 minutes to move from Pilot station to vessel. Vessels requiring Pilot signal Morse letter "X" by lamp or sound.

Pilot boat has grey iron hull, white cabin with Lancha de Practicos written on both sides. By day carries blue flag with letter "P". By night regulation pilot lights.

ANCHORAGES: *Puerto Maritime:* 1 mile South and 2 miles West of sea buoy in position 2° 44′ 26″ S. 80° 24′ 44″ W. Min. depth in the area is 35 ft.

Guayas River: Inside area between bearings 180° and 135° from the lighthouse of Punta Mandinga at Puna, 1 mile from the lighthouse.

MAX. SIZE: Max. length for ships entering Puerto Maritime is 650 ft., with a max. draft of 33 ft. Vessels of deepest draft should begin to enter 1 hour before high tide. For Guayas River max. length 600 ft., max. draft 23 ft. 6 in.

HEALTH: Procedure to obtain free pratique is to produce health certificates to port doctor upon arrival. To get free pratique by radio, ship must radio to port doctor any changes in health situation on board since leaving last port.

TUGS: Normally join vessel beyond Buoy No. 80. Tugs are compulsory, also use of their lines is compulsory. Cost of both services is included in total cost of port duties.

BRIDGES: No bridges that restrict traffic either in Estero Salado nor in Guayas River, but ships that are to berth in village of Eloy Alfaro (Duran) should take into consideration height of telephone lines between Guayaquil and El Islote, min. height 48 ft.

STEVEDORES: Radio message to ship's Agent will give agency enough data to make all arrangements required for operations of loading/discharging. In Maritime Terminal an average discharge/loading rate of 25 metric t.p.h. per hook.

MEDICAL: If ship requires medical attention, a notice of 12 hours should be given to Agents. Guayaquil Hospital and clinics are available. Vaccination supplied by Health Authorities against smallpox.

TANKERS: Discharge asphalt in Guayas River at a special quay, max. draft 23 ft. 6 in. Discharge of petrol for aviation in Puerto Maritime is to lighters, max. draft permitted is 33 ft.

DENSITY: 1012.

FRESH WATER: Available. Three pipes at each berth delivering at a rate of about 20 metric t.p.h. each.

FUEL: None available.

DEVELOPMENTS: Building of 2 more landing places with a total area of 1,000 sq. m.

GANGWAY/DECK WATCHMEN: Capitania del Puerto provides members of the Policia Maritima. Ships should supply watchmen with food.

OPENING/CLOSING HATCHES: Carried out by crew.

CERTIFICATES: All ship's certificates required.

CUSTOMS ALLOWANCE: Each member of crew allowed 600 cigarettes. Each crew member or passenger allowed 1 litre of wine and 1 litre of spirits.

IDENTIFICATION CARDS: Not required.

CONSULS:

Western Germany	Guatemala
Argentina	Haiti
Belgium	Netherlands
Bolivia	Honduras
Brazil	Israel
Great Britain	Italy
Columbia	Japan
Costa Rica	Lebanon
Chile	Mexico
Nationalist China	Nicaragua
Denmark	Norway
Dominican Republic	Panama
Salvador	Paraguay
Spain	Peru
U.S.A.	Portugal
Philippine Republic	Sweden
Finland	Uruguay
France	Venezuela
Greece	

REPAIRS: All types of deck and engine repairs are possible.

DRY DOCKS: Dry dock with capacity of 3,600 metric tons.

REPATRIATION: Facilities for effecting crew changes and arranging any necessary repatriation.

AIRPORT: Airport is 8 miles from Maritime Terminal and has scheduled flights to everywhere.

TIME: Local time is GMT minus 5 hours. There are no alterations during year.

HOLIDAYS: 1st January; Good Friday, 1st and 24th May; 24th and 25th July; 10th August; 9th and 12th October; 2nd and 3rd November; 25th December. But only on the 1st January and 25th December is there no working in port.

POLICE/AMBULANCE/FIRE: For any of these services call 211 (interno del Puerto).

TELEPHONES: Arrangements for placing telephone on board ships on request.

SHORE LEAVE: Allowed.

PURSER'S REPORT: (March 1975)
The government have now issued their own set of papers. These must be made out is sets of seven (7) ie:— Seven Crew Lists. Seven Passenger Lists, Seven Crew Customs Declaration Forms, Seven Cargo Manifests, Seven Dangerous Cargo Manifests (if carried), Seven Lists of Mail (if none – nil returns on sheet), Seven General Declarations. One (1) Maritime Health Form, Seven Stores List.

All Forms should be certified by Ecuadorian consul or friendly Nation at Port of departure.

AUTHORITY: Capitan del Puerto de Guayaquil, Puerto Maritimo.

LA LIBERTAD: 02.12 S. 80.85 W.

DOCUMENTS: Port clearance is effected at Salinas, 3 miles West of La Libertad.
The following papers must be ready for presentation to the authorities on arrival:
1 Bili of Health signed by the Master and visaed by the Ecuadorian Consul at port of departure.
1 Ballast Certificate visaed by Ecuadorian Consul at port of departure.
6 copies of Cargo Manifest (if any cargo for the port).
6 copies Bills of Lading.
9 Crew Lists (original visaed by Ecuadorian Consul at port of departure).
9 Passenger Lists for the port (if no passengers state "without passengers"). If applicable, the list should show names, sex, age, nationality, port of embarkation, occupation and whether married or single. Passengers must make a declaration of their luggage on Ecuadorian Form No. 94.
9 Stores Lists.
5 Lists of Crew's personal effects (new articles only).
4 Lists of unaccompanied baggage (if none, state "without them").
4 Lists of Encomiendas (list of small private parcels to be landed in Ecuador – if none, state "without them").
4 Lists of Mail (if none, state "without them").

If there is no Ecuadorian Consul at the port of departure, the documents must be visaed by the Consul of a friendly nation.

PILOTAGE: Compulsory. Pilots boarding in position 2° 00′ S., 80° 54.5′ W. ETA should be given to port 12 hours before arrival. Open roadstead.

ANCHORAGE: No limitations except depth 36 ft.

Vessels proceeding to oil terminal should anchor about 1 mile

N.N.E. of the mooring buoys (which are about 15,000 ft. off-shore) where the Port Authorities and Mooring Master board. The anchorage is an open roadstead with sandy bottom.

MAX. SIZE: *Tankers* – LOA 650 ft.
Beam 84 ft.
Loaded draft 34 ft. 6 in. max.
Depth MLWS at mooring is 43 ft.

RADIO: ETA messages may be sent by radio to Radio Naval, HCG Guayaquil Radio, 8476 kc/s., 500 kc/s. Radio Naval would then repeat the message to the Naval Station in Salinas, or to the Telegraph Office. Radio Naval have no VHF/RT or Telex.

HEALTH: Vessels arriving from foreign ports should fly appropriate International Code signals to advise state of health and request free pratique. Vessels put in quarantine required to fly signal QL all the time they are in port until Port Health Authority advises to the contrary.

RADIO: Radio Naval – HCG – 8476 kc/s. and 500 kc/s.

TUGS: Only tankers require tugs to berth at the buoys. Other vessels work cargo at anchor.

BERTHING: No wharves for large vessels, only for coasters.

STEVEDORES: Arranged by Agent; separate ETA not required.

MEDICAL: If urgent medical attention required, Master should radio details in advance. All facilities available.

TANKERS: The Anglo-Ecuadorian Oil Fields Terminal is located in Santa Eleana Bay. Four small marker buoys indicate the seaward end of the submarine pipe-line. An Easterly current usually prevails, rate being from 0.5 to 1.5 knots. There is one 14 in. submarine pipe-line fitted with two 10 in. flexible hoses for connecting to ship. Max. loading rate is about 450 t.p.h, and max. pressure is about 150 p.s.i.

Mooring Master assists in berthing vessels. Vessels are moored port side to, using starboard anchor off the starboard bow and mooring buoys for lines to the port bow and astern. Vessels moored during daylight hours only; however, they may unmoor at any hour of the day or night. Recommended that at least 1 tank of clean ballast be retained on board vessels until mooring has been completed. Ballast will then be pumped overboard. Vessels should be equipped with three 9.5 in. or 10 in. (circ.) – 200 fathom hawsers for use in mooring to and 7 rope stoppers each at least 3 fathoms long. The following signals are used in connection with the loading of cargo. A submarine telephone is picked up with loading hoses and affords direct communication to shore.

By day: Start loading 2 long blasts of vessel's whistle or siren, 1 red flag hoisted; stop loading 4 long blasts of vessel's whistle or siren, flag hauled down.

By night: Start loading, 2 long blasts of vessel's whistle or siren, 1 red light hoisted; stop loading, 4 long blasts of vessel's whistle or siren, 1 red light hauled down.

To summon the launch, 3 long blasts are to be blown on the vessel's whistle.

DENSITY: 1028

FRESH WATER: Not available.

FUEL: Bunkers are not available. The nearest bunkering port is Talara, Peru, or Balboa, Panama.

MEDICAL: Medical treatment is available at Ancon Clinic.

CONSULS: There is no consular representation of any country at La Libertad. The nearest are at Guayaquil and include the U.K., U.S.A., Norway, Sweden, Denmark, Greece and Panama.

GANGWAY/DECK WATCHMEN: Available, but not compulsory.

OPENING/CLOSING HATCHES: Can be done by the crew or stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes and one bottle wine/spirits per man.

IDENTIFICATION CARDS: Not required.

REPAIRS: Anglo-Ecuadorian Oil Fields Company can effect small repairs.

REPATRIATION: Can be effected from port of Guayaquil.

AIRPORT: At Guayaquil, 130 km. away, served by regular airlines.

TIME: GMT minus 5 hours.

HOLIDAYS: January 1st; Carnival; Good Thursday; Good Friday; May 1st; May 20th; July 24th; August 10th; October 9th; October 12th; November 1st; November 3rd; December 6th; December 25th.

TELEPHONES: No connections to vessels possible, except at tanker moorings which is direct to loading installation only.

SHORE LEAVE: Permitted.

AUTHORITY: Capitania del Puerto de Salinas.

MANTA: 00.56 S. 80.43 W. (See Plan)

DOCUMENTS:

A. List of documents, 2 copies (Port Authority 1, the latter will sign a copy for Purser).
B. Sailing Permit from last port. 1 copy for Port Authority representative, who will copy the permit and give original to Captain of Port.
C. General Declaration, 5 copies – Health Department 1, Captain of Port 1, Immigration 1, Custom House 1, and Port Authority 1. The document will contain (see Note No. 4 below):
   1. General data on ship, voyage, cargo and passengers.
   2. Health Declaration.
   3. Stores Declaration.
   4. Under remarks – any pertinent item.

   Should be signed by Master and ship's Doctor or, if no doctor aboard, by Purser. For further details, see Note No. 3 at end of this Article.
D. List of passengers destination Manta, including list of their baggage, 4 copies – Customs 1, Immigration 2, Port Authority 1.
E. List of Passengers in transit, 3 copies – Immigration 2, Port Authority 1.
F. Crew List (including and indicating any members leaving vessel at Manta), 4 copies – Customs 1, Immigration 1, Captain of Port 1, Port Authority 1.
G. Manifest of Cargo for discharge at Manta including transhipment 4 copies – Customs original and copy, Port Authority 2.
H. Unaccompanied Baggage List including baggage for any member of the crew, who may disembark, 3 copies – Customs 2, Port Authority 1.
I. Mail Manifest, 2 copies – Post Office 1, Port Authority 1.
J. Checking Books, 5 copies, plus one copy for each point of possible discharge of cargo from vessels for Port Authority.
K. Bills of Lading, 1 complete set for Port Authority.
L. List of vessel supplies including liquors, cigars, cigarettes, other tobacco products, matches, lighters, clothes, novelties, and provisions will be maintained in Purser's office for review by Custom House.
M. Tissue Manifest, hatch list and cargo plan. 1 copy of each for Port Authority prior to arrival of vessels. These papers to be sent by air mail as per regulations.
N. Ballast Certificates will be used instead of manifests when vessels do not carry any cargo.
O. General Manifest. This manifest will include all cargo loaded during voyage which will include all cargo in transit – 1 copy. General manifest will be maintained in Purser's office for review by Custom House, and be accessible for customs at all times.

Note No. 1: All papers (items A to K) will be delivered to representative of Port Authority who will check them against list of documents to be receipted for Purser. Port Authority will subsequently distribute documents to interested parties as indicated above.

Note No. 2: Port Authority reserves the right to refuse berthing facilities until all documents received. Of course, this authority will be handled with discretion to avoid unnecessary or unwarranted delay to vessels, passengers, and cargo.

Note No. 3: All ship's papers will be filed in Port Authority office, and authorities noted herein are welcome to inspect them whenever they wish to do so.

Note No. 4: General Declaration should contain the following:
   A. Name of vessel, length and registered tonnage.
   B. Owners.
   C. Voyage number and ports of call on voyage.
   D. Total number of passengers aboard.
   E. Total tonnage (of 1,000 kilos) of cargo aboard.
   F. Total number of passengers for Manta.
   G. Total tonnage (of 1,000 kilos) of cargo for Manta.
   H. Health Declaration.
   I. Stores Declaration that ship's consumable foodstuffs and consumable supplies are under lock and key; that the slop chest, bazaar, and store-rooms containing liquors, cigars, cigarettes, other tobaccos, matches, lighters, clothes, novelties, sports material, toilet articles, cosmetics, medicines, etc. have been locked and sealed with metallic non re-usable seals with . . . . serial numbers. The seals are identifiable by their non-repeat numbers.

      All vessels should have these seals aboard and should equip doors and door frames with suitable secure hardware through which seals can be passed. (Model of the form for the above document may be obtained from the Port Authority).

Note No. 5: Baggage listed as cargo should not also be listed as baggage or vice versa.

PILOTAGE: Compulsory. Pilot boat by day will show blue flag at mast head; by night red light 2 ft. 6 in. below mast head light, both visible around the horizon.

Pilot will board at point located at distance of half a mile, 045 degrees from Manta lighthouse (Lat. 00° 56′ 20″ S. Long. 80° 43′ 02″ W.). He will immediately proceed to conduct ship to inner harbour and dock at assigned pier or anchor in assigned anchorage.

Vessels will not have to anchor, but will reduce speed to steerageway and stop propeller. Lower Jacob's ladder so Pilot may board safely. Pilot will act as Representative of Port Authority. Other officials and Representative of steamship Agency will embark once ship has tied up.

Pilotage compulsory for all foreign vessels over 500 tons, with following exceptions:

(1) Fishing craft, yachts, tugs, barges and other craft of less than 500 tons total displacement whose handlers are suitably licensed by Captain of the Port of Manta.

(2) Vessels of the Ecuadorian Navy.

Note: Masters of large vessels and handlers of small craft who do not follow all rules of safety, including Rules of the Road may lose their right to navigate within jurisdiction of the Port Authority and may be subject to additional sanctions.

ANCHORAGES: Free anchorage area located around a point 1 mile from Manta lighthouse (Lat. 00° 56′ 03″ S., Long. 80° 43′ 01″ W.). Depth 45 ft. Anchorage inside breakwater will be assigned by Pilot.

RESTRICTIONS: No restrictions upon entry. Vessels up to 32 ft. draft may enter at any time of day or night.

MAX. SIZE: Max. permissible length 600 ft.; breadth 60 ft. draft 32 ft.

HEALTH: Radio pratique granted all ships in accordance with International Sanitary Regulations. Health documents will be delivered to boarding officer of Port Authority. When pratique granted by radio, not necessary for port doctor to board vessel.

In request by radio for pratique, vessels should give following data 12 to 24 hours before arrival.

A. Date and hour of expected arrival.
B. Number of Ecuadorian passengers.
C. Number of alien passengers.
D. Statement regarding existence or non-existence of communicable diseases aboard.

RADIO: Manta HCM 8372 kc/s. Radio telephone 2182 kc/s. VHF Channels 6, 16 and 26.
TUGS: A 1,200 h.p. tug, joins vessel in vicinity of pier. Ship's lines usually used. Use of tug for docking and undocking is at discretion of Port Authority.
BERTHING: Berth will be assigned by Pilot at boarding time.
STEVEDORES: Arrangement for stevedores made by ship's Agent prior arrival.
FRESH WATER: Fresh water available in small quantities.
FUEL: Diesel oil available in small quantities by truck.
FIRE PRECAUTIONS: Regular fire precautions should be taken by all ships. Smoking should be prohibited in any section of the ship used for cargo. No smoking on the weather deck, cargo decks, and the ship's holds, whether cargo being worked or not. Smoking around hatches or at cargo winches must be prevented.

Smoking should be restricted to the passenger section of vessels, and to officers' and crew's quarters where suitable receptacles are available.

Persons including officials can be fined or refused entrance to terminal at discretion of Port Authority for careless or intentional disregard of reasonable fire prevention precautions.

Port Authority reserves right to inspect cargo working sections of vessel, to check precautions against fire, and to determine whether there are any undue accumulations of combustible materials.

Pumps and other fire fighting equipment aboard should be maintained in a state of readiness as long as vessels are in the terminal.

DEVELOPMENTS: By February, 1977 there will be a new Roll-on/Roll-off ramp. In December, 1977 there will be additional open storage of 55,000 sq.m.
GANGWAY/DECK WATCHMEN: Custom police keep watch at the gangway.
OPENING/CLOSING HATCHES: Normally carried out by stevedores.
CUSTOMS ALLOWANCES: Tobacco, small amounts for personal use while in port. Wine and/or Spirits, wines and liquors by the glass for consumption on board while in port.
CARGO GEAR: Ship should have cargo nets, but Port Authority can provide cargo nets at extra cost.
IDENTIFICATION CARDS: Crew members should have identification cards while ashore at all times.
CONSULS:
Germany: Mr. Jorge Appenzauser, Tel. 611-169.
Colombia: Dr. Anibal Ramirez Angel, Tel 610-989.–Malecon.
Chile: Mr. Marino Concha Richards, Manuel J. Calle 200, Tel. 610-151.
Panama: Dagoberto Santana. Morona.
Italy: Romulo Massari P. P.O. Box 4847.Tel. 610-395.
REPAIRS: No repair facilities available.
REPATRIATION: Repatriation of crew members through Port of Guayaquil.
AIRPORT: Airport with 2,500 m. runway. Flights to Quito at 10.50 hrs. on Monday, Wednesday, Friday. From Portoviejo (36 kms.) flights to Quito on Tuesday, Thursday, and Saturday. Air taxis on request.
TIME: Local time GMT minus 5 hours.
HOLIDAYS: No movement of cargo within the terminal on Christmas Day, or after 2000 hrs. on the 31st December, or on New Year's Day.
POLICE/AMBULANCE/FIRE: Police 610-900; Ambulance 612-014; Fire 610-100.
TELEPHONES: Telephone service can be obtained at Terminal Office, at same rate as public telephones.
SHORE LEAVE: Crew members are welcome ashore.
AUTHORITY: Autoridad Portuaria de Manta.

PUERTO BOLIVAR: 03.14 S. 80.01 W.

DOCUMENTS:
3 Voyage Memorandums.
2 Maritime Health Declarations.
1 Consular Despatch.
1 Port of Origin Certificate.
10 Crew Lists.
8 Stores Lists.
3 Individual Declaration List for each member of the crew.
8 Lists Passengers Disembarking at this port.
8 Lists Passengers in transit.
4 Luggage, Mail and Commissions Lists.
4 Manifest of Cargo Lists.

Documents for Port's Authority should be supplied by Agents:

1. General Cargo Manifest in complete sets (Importation in triplicate, Exportation one set).
2. Bill of Lading, complete sets: Importation (one set), Exportation (one set) at time of sailing.
3. Export Customs House Clearance Document (one set). This document is replaced by the Bill of Lading.
4. Certificate of Ballasting.
5. Request for Mooring Berth.
6. Stevedore's cargo plan per hatch.
7. Muster-roll of cargo.
8. Tally books: 15 copies in Spanish. These must be in accordance with the current Tally Law.

PILOTAGE: Send ETA through Radio Naval of Guayaquil 24 hours before arrival. Pilot will board vessel on the port side 1 mile from the sea buoy on arrival and disembark on the starboard side. In case Pilot not available it is recommended to anchor 1 mile from "Punta Jambeli" between the buoy and the lighthouse of Lambeli. Pilot boat is steel, black hull and white cabin, it carries pilot signals in accordance with International Regulations. Service available 24 hours a day. Pilotage is compulsory.
ANCHORAGES: Pilot will indicate recommended anchorage.
RESTRICTIONS: Depths 30 ft. at low water, from 0600 to 1800 hrs. draft allowable 30 ft. From 1800 to 0600 hrs. draft allowable 27 ft.
MAX. SIZE: At Espigon Quay depths alongside 30 ft. inner end to 36 ft. at quay head.
HEALTH: On the arrival of vessel the authorities come on board. If there are no illnesses aboard, the doctor gives free pratique. In case of any illness, Master should advise by radio and the vessel waits in quarantine for the visit of Port Health Doctor.
RADIO: Radio Naval of Guayaquil, Radio Naval of Puerto Bolivar VHF available call pilot station on Channel 16, effective reception 30 miles.
TUGS: 2 tugs available one at 1,200 h.p. and one of 500 h.p. Usually, ship's lines – are used. This service is free.
BERTHING: At Espigon Quay should be carried out within 1 hour before or after slack water. Tidal currents of 1–3 knots in dry season and 3–5 knots in Winter are at right angles to berthing face of the quay.

Wind: From 000° in the morning, speed 3 to 5 knots. From 210° in the afternoon and night, speed 3 to 5 knots.

STEVEDORES: Agents take charge of gangs.
MEDICAL: Hospitals, clinics and dental surgery in Machala, 6 km. from the port. There is also a medical service for vaccination.
DENSITY: Salt water.
FRESH WATER: Only available by tanker truck, capacity 7 tons.
FUEL: No fuel in this port. In case required one has to contact Guayaquil and they send it by small tankers.
GANGWAY/DECK WATCHMEN: The Agent names 1 or 2 watchmen for the vessel besides the maritime police and coast guard.
OPENING/CLOSING HATCHES: Carried out by shore gang supervised by someone on board.
CERTIFICATES: Vessel's Register and Tonnage Declaration required.
CUSTOMS ALLOWANCES: 100 cigarettes per person and 1 bottle wine or spirits per person.
IDENTIFICATION CARDS: Not necessary.
CONSULS: Consul of Peru, tel. 920608.
REPAIRS: There are no facilities in this port.
REPATRIATIONS: The Immigration Office can arrange.
AIRPORT: Distance to the airport is 6 km. It has 6 daily flights in connection with Guayaquil.
TIME: GMT minus 5 hours; there is no change.
HOLIDAYS: No work from 1700 hrs. on 24th December till 0800 hrs. on 26th December, and 1700 hrs. on 31st December till 0800 hrs. on 2nd January; Carnival; Maundy Thursday; Good Friday and Saturday; 1st May; 24th and 25th July; 9th October.
POLICE/AMBULANCE/FIRE: There are services.
TELEPHONES: Can be connected to the vessel.
DEVELOPMENTS: A marginal pier for general cargo is being built, and expected to be completed in 15 months. Length of pier 360 m.
GENERAL: When the vessel is anchored, landing service is done by launches. They are called by one long whistle and two short ones. This service works 24 hours a day.

At night: A flashing light is to be used to call launches and not the whistle.

SHORE LEAVE: Passengers or crew do not need any special permit to land.
PURSER'S REPORT: See "Quayaquil".
AUTHORITY: Port Captain.

Egypt, Arab Republic of

ALEXANDRIA: 31.09 N. 29.53 E. (See Plan)

DOCUMENTS:

4 copies of Crew List.
Complete set of Manifests covering all cargo on board showing names of shippers and consignees.
4 copies List of passengers in transit.
Landing cards for passengers landing finally in A.R.E. and for those landing in A.R.E. in transit.
4 copies List of passengers finally landing in A.R.E. (if any) together with their addresses in A.R.E.
Deck log books showing date of last call at a A.R.E. port, completed up to the time of arrival.

For Quarantine: Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

1 Crew List and 1 Passenger List.
Deratisation Certificate should be handy for inspection.
Clearance from Last Port.

For Immigration Officer:

Arrival Immigration form, duly completed.
1 Passenger List.
List of Passengers finally landing, in duplicate.
Crew List.

Valid passport with entry visa is required for landing in A.R.E. for passengers landing. Emergency visa can be granted on arrival if so required.

For Customs Use:

Bonded Store List, in duplicate.
Crew List and passengers' List in duplicate, showing rate of consumption of each.

PILOTAGE: Compulsory. Pilot boards off harbour entrance. International code signals used.

RESTRICTIONS: Entrance channels 36 ft. depth, being dredged to 50 ft. Arriving vessels should keep 50 miles offshore between sunset and sunrise.

MAX. SIZE: Up to 35 ft. draft.

RADIO: Alexandria Radio, call sign SUH, operating 24 hours daily on 444, 500 and 8578 kHz and between 0600 to 1800 GMT on 12,974 kHz. Also harbour VHF Channel 16.

HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor. The Quarantine Doctor meets ships whilst entering the port and ships are boarded in turn.

In the event of a vessel arriving from a port that has been internationally declared infectious and the incubation period has not yet expired at the time of the ship's arrival at an A.R.E. port, the vessel is put under compulsory Quarantine, moored at an isolated berth and no shore contact is allowed. Nevertheless the ship can still carry out her normal operations on condition that all shore personnel are holding valid vaccination and/or inoculation certificates issued by the Quarantine Administration. The ship's personnel should also carry International Vaccination and/or Inoculation Certificates. Final landing passengers, not carrying such certificates, will be landed under Quarantine supervision and will be kept isolated at the lazarette until incubation period is over.

Pratique may be granted prior to ship's arrival provided the following conditions are adhered to:

(1) The vessel must be a regular liner known to the Quarantine Authorities and have a doctor on board.
(2) Details shown on the Quarantine Statement should be wirelessed to the Quarantine Authorities 24 hours prior to ship's arrival.
(3) Captains of vessels must declare before their arrival any accidents, which might have taken place on board prior to the arrival in port.
(4) The ship must not have called at any infected port.

TUGS: 5 tugs available up to 1,200 h.p.

BERTHING: Alongside quays in depths up to 35 ft.

TANKERS: Petroleum Basin: in West part of outer harbour, Berths 3 and 4, depth alongside 38 ft., max. length 700 ft., draft 35 ft. Berths 3 and 4: in East part of outer harbour. Stern to moorings.

It has been reported that tankers are required to take on ballast in excess of that deemed to be necessary by the Master, even in fine weather. One Master was ordered to bring his forward draft to 21 ft. Once the vessel was alongside a charge was made for deballasting the vessel.

FRESH WATER: Available by barge, and alongside most quays.

FUEL: Available by barge.

MEDICAL: All facilities available. International vaccination certificates required.

REPAIRS: *Ships Officers Report:*

Alexandria Shipyard: Builds vessels up to 40,000 tons. One drydock capacity 85,000 d.w.t., cranes with up to 30 tons capacity. One drydock capacity 20,000 d.w.t., cranes with capacity up to 30 tons. Fully equipped engineering workshops capable of carrying out extensive repairs alongside quays length 1,200 m. Depth alongside 11 m.

Alexandria Ship Repair Co: Ship repairs including engine repairs and boiler repair. Fully equipped workshops.

TIME: Winter: from 1st October to 30th April, local time 2 hours ahead GMT. Summer: from 1st May to 30th September, local time 3 hours ahead GMT.

HOLIDAYS: The following are the public holidays in the A.R.E.:

1st and 2nd Day of Ramadan Bairam
Courban Bairam Eve
} changeable dates

1st and end day of Courban Bairam
Mohamedan New Year's day
Prophet's Birthday (Mewlid El-Nabi)
} as based on Moslem Calendar

Eastern Monday (Sham El Nassim) (changeable); Evacuation Day (18th June); Revolution Day (23rd July); Victory Day (23rd December).

SHIPMASTER'S REPORT: *February 1976*

Approaches: Ships making the passage from Port Said to Alexandria are obliged to keep to the route laid down by the Egyptian authorities. The coastline is rather featureless and a good operational radar is invaluable. Radar conspicuous objects were found to be – Ras el Barr Lighthouse and fort, forts numbers 2 & 4, the forts and lighthouses at Brulos and at Rosetta Mouth and also Nelson Island.

The anchorage can be identified from a considerable distance by the number of ships at anchor off the port – often more than fifty. The prohibited area marked on Chart No. 243 to the East of Great Pass is ignored and ships anchor as convenient but as near to the Pilot ground as possible. Ras el Tin lighthouse, Great Pass beacon and the Minaret (248) were found to be good marks. There is a latticed beacon to the West of Great Pass Beacon which should not be confused with the latter. The new beacon is not marked on the chart and was stated by the Pilot to be for a new channel which is being constructed.

Arrival Procedure: It is important to register one's arrival with the Alexandria Port Control as soon as possible. This is done by means of VHF

At 1100 hrs. (approx.) a traffic list is broadcast and ships mentioned should contact Port Control and obtain berthing instructions. They will probably be told to move in to the Pilot boarding ground 2 miles N.W. of Great Pass Beacon. When there, they should anchor again and await either further instructions or the unannounced arrival of the Pilot.

Berthage is decided at a meeting held around Noon so there may be a supplementary traffic list around 1400 hrs. In any case, it is a good idea to call Port Control at least once a day to remind them that you are still awaiting a berth.

A Pilot will take the ship into the anchorage in the Outer Harbour where Health, Immigration etc. officials board and clearance given. The Agent may also board. The main radio transmitter is sealed at this time. The ship will then await allocation of a berth.

Anchorages: At the anchorage outside the port depths vary from 20 to 30 fathoms but the holding ground seems to be good. This ship lay comfortably with seven shackles of cable out. Ships usually leave each other ample room in case of bad weather. There are good anchor bearings.

The anchorages inside the Outer and Inner Harbours are very congested and the holding ground (said to be sand) is not good. Time spent at anchor here can be a very anxious period.

The ship was anchored in the Inner Harbour just off the end of the Passenger Quay. When it was pointed out to the Pilot that, in the Master's opinion, she was too close to the 3 fathoms line at the old Aircraft Moorings, the Pilot stated that it would be all right because the ship wouldn't swing that way. If the vessel had swung the other way she would have gone aground.

At 0300 hrs. the following morning the ship began to swing onto the sand bank. Fortunately there was no wind and it was possible to turn her, weigh anchor and find another anchorage. A call to Port Control on VHF was made for a tug and Pilot but was not acknowledged.

The main engine should be kept at very short notice when at anchor inside the harbour.

The accommodation ladder should never be left down while at anchor but should be raised and lowered as required.

It is usually an easy matter to hail a passing boat and bargain for a trip either ashore or to another ship. However, all ship movements and boatwork are officially prohibited after dark.

Pilotage: The pilot launches are Fairmiles (ex H.D.M.L's.) painted light blue with white wheelhouses and the word 'Pilot' in black on the side of the bridge.

All the Pilots employed spoke good English and were competent. They board at any time during the day and often without the slightest warning. They order tugs as they think necessary.

The beacons and leading marks in the Great Pass were good but the fairway buoy at the outer end of the channel is no longer there. Most of the mooring buoys marked on chart number 3119 have either been removed or changed.

As a result of experience, the Pilots have considerable skill in handling ships in very congested situations and they are to be relied upon.

Arrival Formalities: These are carried out at the Outer Harbour Anchorage. A list of documents required follows.

Documents:

2 Health Declaration*
1 Crew Customs Manifest
1 Arrival Form†
1 Stores List
1 Bond Stores List
8 Crew Lists‡

* Supplied by Quarantine Officers
† Brought out by Agent.
‡ This is the minimum number required.

Notes:— Customs manifests, stores lists and crew lists should be typed out on plain paper – there does not appear to be any proper forms.

Immigration officers wish to see all Dis 'A' Books and will then issue Shore Passes which will have to be filled in by the ship. On departure, the officials ask for the passes but, if they have not been collected will only request that they be destroyed when the ship sails.

Berthage: Every foot of wharfage is used and space is at a premium. This ship lay at Berths 16 to 20 and in both cases had ships ahead and astern with very little room between.

Berth 16 has unequal but good fendering, Berth 20 has none at all. Both are concrete wharves. There are an adequate number of bollards.

Berths 16 and 20 are both at the Passenger Quay and the soundings obtained by hand lead are shown on the plan. In theory, telephones are available at both berths. Water is laid on but the pipe is of small bore and delivery is slow (about 8.5 t.p.h.). Arrangements should be made through the Agent.

Berthage is said to be under the sole control of the Harbour Master. Ships may be ordered to berth, shift or move out to anchor without any warning. It should be noted that the Pilots always insist that Agents are told of a move the day before. In no case did this ship receive official notice. It is wise to hand a written notice to the Agent informing him of the time required to prepare the main engine for a move. However, in our case, the Agent did not bother to forward the information to the Harbour Master.

Being at the Passenger Terminal means that a cargo vessel has to move out to anchor frequently to allow passenger ships to berth. Unfortunately there seems to be only one other berth with enough water alongside for a fully loaded ship such as our vessel.

Repairs: Repair firms are available. There is a shipbuilding yard and graving and floating docks. Radio and radar servicing as well as gyro are available. There is a Lloyds Register surveyor.

There is an abundance of small firms offering to do scaling and painting quite cheaply.

Medical: The Agent will arrange for a doctor to visit the ship if required. Unless special equipment and/or facilities are necessary, this is the best arrangement.

Repatriation: Apparently available via Cairo Airport.

Stores: Only small quantities of fresh fruit and vegetables were bought and these were good and cheap but the Catering Officer should be prepared to bargain.

Bunkers: The barges arrived alongside without any warning. There were seperate barges for D.O. and I.F.O. The pumping rate for D.O. was 75 t.p.h. and for I.F.O., 143 t.p.h. It is reported that it is advisable to check the viscosity of fuel.

Communications: While at anchor outside the port, the ship's radio station is available and is by far the best means of communication.

Port Control, Pilots and launches all use Channel 16 both for calling and working. Making contact with Port Control to report arrival or request information is a matter of perseverance.

Agents: Memphis Shipping Agencies.

There is a main office in the city (Sesostris St.) to which the Master must go to draw money. Two hours will be needed for this plus an hour for travelling. In addition there are two offices in the Main Hall of the Passenger Terminal between Berths 16 and 20.

The Agents will arrange for doctor, waterman and watchmen. They will advance cash to the Master.

Garbage: Subject to negotiations with a private company. An old lighter will be moored alongside while the ship is in port. All garbage should be thrown into it. It is completely uncovered and after a while, in Summer time, would probably become highly offensive.

Fresh Water: Although there was no reason to suspect the water supply, Stabochlor was added as a precaution. As the ship may be sent out to anchor without notice for an unspecified time, it is wise to keep the water tank topped up.

Watchmen: The civilian watchmen employed were obtained through the Agent.

Two uniformed guards are put aboard by one or other of the authorities. Both the official and civilian guards will stop and search stevedores and take from them the cargo they have taken.

Tugs: These are arranged by the Pilot. There are several ranging from old coal burners to fairly modern diesels and they are well handled and efficient.

Cargo Work: It is supposed to be against the law to work frozen cargo during daylight hours. Therefore work was mainly carried on between 1700 and 0500 hrs. with a break about 2300 hrs., the same labour working through.

A gang consists of a total of 20 men. There is a foreman, two winchmen and eight stevedores in the hatch. The rest work ashore and on the lorries. The men in the hatch 'spell' each other and this is a major cause of lost time.

The butter and cheese was loaded onto pallets which were landed on the lorries and the cargo transferred. There are three pallets per gang but shortages often occur and the gear is not very good, two of the pallets breaking under load.

Crane and Velle derrick drivers were generally competent.

Lloyds Agency was asked to appoint a surveyor to witness the opening of the hatches and later to conduct a continuous survey during discharge. The surveyor was particularly helpful at the commencement of discharge. His firm asked for and received an advance of one hundred Egyptian pounds in cash from the ship because payment through the Agent was said to be slow.

Miscellaneous: Photography is forbidden within the port area and a permit must be obtained to take a camera ashore.

It is important to fit rat guards. a fine of £20 may be imposed for each one not fitted.

There is at least one floating crane with a SWL of 150 tons.

The Port Surveyor will ask to see the Suez Canal Certificate. If this has been retained by the Canal Authorities, he will require a signed statement to that effect.

Departure: The Agent will inform the various authorities of the expected time of departure.
